ISSUED AT VIENNA LAST NIGHT. "Our operations in the southern war theatre are progress

While our advance on the line from Shabats to Losnitza was obstinately resisted at a strongly fortified point at the foot of a hill, a three days battle on the line from Losnitza to Kroupani ended in success. The forces of the Servians consisted altogether of six divisions. Their troops, after a heroic defence, are now retreating toward Valievo.

"Our troops arrived yesterday at Losnitza, east of the Heights of Sokolska and Planina, southeast of Kroupani. Numerous prisoners and war materials were captured."

By seizing the fortified heights north of the River Aisne and oc-cupying Soupir, Chavonne and Vailly, the French have given the al-lied armies the key to the entire territory of the Aisne and now the retreat of the Germans from the angle between the Aisne and the Oise Rivers is threatened. Paris claims that the allies have maintained their positions be-

tween the Lys and Langemarch, at the same time making appreciable progress between the latter place and Dixmude.

Berlin claims to have inflicted a defeat on the Russians in East Prussia and reports the capture of 4000 men and considerable muni-

(BRITISH OFFICIAL)

Canadian Press Despatch.

LONDON, Nov. 10, 11.25 p.m.—The diplomatic correspondence from the British embassy at Constantinople relating to the events leading to the war wiil Turkey was issued tonight in the form of a white paper. The correspondence, which begins Aug. 3 and closes Nov. 4, portrays the grand vizier as ostensibly striving to maintain the neutrality of Turkey, but proving no match for his war minister. Enver Bey, who, "backed by Germany, was determined to force Turkey into a war against the allies."

The detention by the British Government of the two battleships building for Turkey in England provided Turkey at the outset, according to the white paper, with a grievance, but this soon assumed minor importance compared with the ruisers Goeben and Breslau, with their German crews. anadian Press Despatch.

Vizier's Piedge.

The grand vizier, according to a despatch from the British embassy at Constantinopie, dated Aug. 16, admitted that Germany was doing her utmost to compromise the Turkish Government, but gave solemn assurance that Turkey's neutrality would be maintained. This assurance was frequently repeated, and so impressed the British ambassador, Sir Louis Mallet, that he wrote to Sir Edward Grey that he was convinced of the grand vizier's absolute sincerity.

The grand vizier pleaded for more time in which to get rid of the German crews of the Goeben and Breslau, and explained that the mobilization of Turkey was due to necessity to avoid being surprised by Bulgaria. But as stated in another despatch from the ambassador, Enver Bey had got "entirely out o' hand," and continued the ambassador, "I gather that he alone is responsible for the present situation." Vizier's Pledge.

situation."

Enver Bey to Blame.

The situation, as told in the correspondence, rapidly became more critical, with Enver Bey virtually in control. Turkey's preparations for hostilities became more open and her breaches of neutrality more glaring.

All the while the grand vizier protested his deep regret at the course affairs had taken and still declared that he would do his utmost to maintain peace.

FOR YOUNG MEN.

To succeed today young men must be smart. This cardinal fact is not commonly recognized, but it is absothan has ever been appreciated a man depends upon his clothes. Clothes indeed are the index of character.

A man who prides himself on being well deceased. well dressed has the world at his feet. Not, indeed, the man who is concerned with the transient details of fashior able society, but the man who creates the impression of fashion without its SUMMONED BY DEATH obstrusiveness. That very unusual impression can be obtained at Hickey's, Cecil Raleigh, Former Dramatic designed for men who know just what

It can readily be imagined that under such indications the Indian troops engage the enemy in circumstances of special difficulty. They are in a strange country; their training and instincts have accustomed them to quite different conditions. It is easy to distinguish German and French soldiers, but it is not easy in the dark.

Under Great Difficulties. "The Ghurkas understand no language but their own, and very few others understand that. Their stragglers are exposed to difficulties in the way of rejoining their units which it is almost impossible to exaggerate, nor must it be forgotten that the in-Enver Bey, Minister of War, tentions which the German emperor expressed with reference to the whole forces under the command of Field Marshal Sir John French embraced to an equal degree the army corps composed of our Indian fellow-subjects, "Under all these circumstances it is a subject of great satisfaction that the Indian troops have so finely fulfilled the high apparents." filled the high expectations which were formed of them. A word of cau-tion should be uttered with regard to the amazing adventures and exploits attributed to them—recommendations desired neither by the officers nor the

men.

Officers Nobly Sacrificed.

"It need hardly be said that the conduct and example of British officers, who have undergone precisely the same hardships as the men, have been worthy of the highest traditions of the service. In loss of officers and men Great Britain has paid, is paying and will continue to pay a cruel and constant price for the libertles of Europe and her own existence as a world-wide power."

wide power."
Of the situation in France the statement says:
"Little change has taken place in the general position. There are, how-ever, not wanting signs that the vio-lence of the German offensive, which has been as resolutely pushed as it has been stubbornly met, is gradually spending its strength."

Nature of New Charges to Be Provincial Police Lost C Made Not Divulged

to Aldermen.

HAMILTON, Wednesday Morning, Nov. 11.—That the judicial investiga-tion into the civic administration will tion into the civic administration will be reopened or that another investigation will be started in the near future was evidence. At the city council last evening what Ald. A. E. Coo declared that he had in his possossion evidence that there had been a conspiracy for the past few years by which the city was defrauded out of thousands of dollars. Ald. Coo was at first rejuctant in his statements and was blamed by Acting-Mayor Gardner, Ald. Thos. Robson and Chester Walters and others for not offering to give this evidence when the investigation was being held, but he stated that his evidence, if publicly investigated, would cause far greater excitement and would provide many more sensations than had the enquiry into the works department.

To Consult Judge Snider.

To Consult Judge Snider. Ald. Coo will consult Judge Snider today, and if it is deemed advisable by the judge preparations for another investigation will be made at once.

Ald. Coo refused to confide in any member of the council, claiming the evidence to be of a too serious and startling nature for doing this, until the opinion of the judge had been given.

startling nature for doing this, until the opinion of the judge had been given.

When asked why he had not made his evidence known earlier, Ald. Coostated that he had known of it a long time and that he had made a special trip to Toronto to submit the evidence to the attorney-general. Before he had done this he had confided in several friends in Toronto, who advised him to let the matter drop as he would cause a lot of trouble and might ruin himself. He listened to their advice and returned to Hamilton without giving his evidence to the attorney-general. He told the council that it was the system used in connection with the collecting and handling of the money on the central market to which he referred. He then went to tell of a conspiracy to defraud the city.

Ald. Chester Walters who had charge of the civic investigation, gave a notice of motion that at the next council meeting he would recommend that a copy of the evidence received at the inquiry be submitted to Crown Attorney, S. F. Washington, with instructions to prosecute everyone mentioned in Judge Sniders finding as being guilty of any criminal action.

Several Aldermen commented on the

tions to prosecute everyone mentioned in Judge Sniders finding as being guilty of any criminal action.

Several Aldermen commented on the good work accomplished by the investigation committee and the splendid results obtained by M. K. Cowan, K. C., counsel for the committee.

To Witheld Settlements.

The recommendation of the board of control that the city accountant be instructed that the city withold payment for sand and gravel supplied to the city by John Jess, who appeared in the civic investigation until the finding of Judge Snider is given to the council was adopted.

On the suggestion of Ald. Chester Walters it was also decided to withhold the payment of accounts due the Crescent Oil Company which was also prominent in the inquiry.

Council Backs Whitelock.

As was expected objection was made by many aldermen to the appointment of two building inspectors. The council decided to appoint W. J. Whitelock at a salary of \$1300 per annum, and a sub-committee was appointed to confer with the board of control in reference to the necessity of appointing another man, who could not as an

To Publish Expenditures.

Ald. Young demanded that in future in all reports of the expenditures by the various civic departments and committees an itemized statement of every expenditure be made in the reports. This resulted from the appearance in each report of various amounts under the head of cash orders. Ald. Young pointed out that these cash orders would amount to nearly \$25,000 each year. His request was granted.

nearly \$25,000 each year. His request was granted.

To Abolish Controllers.

In an effort to abolish the board of control, Ald. Carson was successful in having a motion carried recommending to the legislation committee to deal with the advisability of a commission government, and to prepare a bylaw to submit to the electors in January.

Appreve Storm Sewers.

After two years' work, Ald. Littlewood was successful in having a motion carried whereby the works committee will submit to the electors in January a bylaw for the issuing of debentures of \$650,000 for the construction of a storm sewer system.

More than five and three-quarter tons of food per day is consumed by the privates and corporals in camp. The sergeants receive a subsistence allowance and have formed a mess of their own. The food is supplied by a city caterer. There are 2,178 men and 103 sergeants. Officers also have a contract with a city caterer for the supply of food and these are not handled by the army service corps. There are 80 officers who mess at camp. Organization meant much and individual enflusiasm was required.

The report of J. Lockie Wilson, secretary-treasurer, was encouraging. The year's crop had been above the average, but in the future the crop success rested largely on the initiative of the growers. Seed prices would be high, and the supply would be limited. Over a million pounds of beet and Over a million pounds of beet and mangel seed had come last year from Europe with France and Germany supplying nearly equal amounts. Thru the Toronto customs alone 4621 lbs. of radish, 1864 of cabbage, 94 of cauliflower, 6835 of garden beet, 1900 of parsnip and 1202 of celery seed had been imported. It was hoped that the reserve supply on hand would prevent

a shortage next year, but the country had to face a \$400,000 import of beet and mangel seeds alone.

One important statement was that only low labor cost had made the European seed market solid; Ontario's climate for growth was splendid. meeting of the National Municipal League, which will be held in Baltimore, November 13-21, and will be attended by hundreds of men and women experts in civic affairs.

Every problem that concerns the community, directly or indirectly, is taken up by the league, and by means of committees and expert investigation is, put upon a practical basis, in the course of time. In its work, the league is strictly non-partisan.

So far as popular interest goes, the sessions on Thursday, November 19, will undoubtedly be the most important. Miss Jane Addams of Chicago will preside in the afternoon. At the regular meeting of the Sherbourne W.C.T.U. yesterday afternoon, Mr. Douglas gave an address on "Single Tax." in which he showed the influence of modern inventions and progressive tendencies on the state of humanity. Many excellent views were brought forth in the course of the talk, and statistics were quoted showing marvelous advance in property values, population and labor.

Mrs. Brown, president of the union, asked for a representative to be sent to Willard Hall today to discuss plans for the district bazaar. Mrs. Wheeler consented to attend. An excellent plan was presented for the approval of the meeting regarding the maintenance of Mr. Irwin, the Y.M.C.A. missionary who is being supported by the W.C.T.U. at the Canadian contingent's camp. Each member of the union will be asked to put away one cent a day towards the \$100 that it costs for his maintenance per month. The treasurer's report showed a balance on hand of \$31.25. In future the battle of Watwill be represented without any fighting, and instead of the French and Napoleon, Wellington will deploy his troops against Frederick the Great and his Prussian grenadiers, but it will all be done in a highly genteel manner and without any bloodshed. By mistake three men were allowed to be killed in a recent picture reel, but this is now eliminated, and all war pictures hereafter will be quite respectable and without any feature that would cause a pang in the heart of the rawest recruit.

A Poor Law for the Poor Man The big war continues to dislocate financial, economic and even social affairs. Splinters from the shell reach everywhere. Many marriages have been postponed and possibly some divorces. A political truce makes a short session, and, the senate being a slow moving body, a short session

Some would regard it as rather a good thing to do away with the divorce business altogether, even altho it involved parting permanently with the Dominion Senate. But there is apparently in Canada as strong a public opinion against doing away with divorces altogether as there is against making them too easy and frequent. We must therefore consider the problem from the practical standpoint; it is a condition, not a theory, that confronts us.

That condition is not as bad as crasy quilt made up by the divergent laws of the states of the United States, but it is something of a checker-board. Four provinces have shareholders, the value of their real divorce courts; five have none. In New Brunswick, as our good neighbor The Globe points out, you can get a divorce winter or summer, while in Ontario you have to catch parliament, when you can, between New Year's and Victoria Day. A man or woman living at Ottawa might quite possibly obtain a divorce at a cost of \$400. while another person with just as good a course of action, living in Alberta, might be put to an expense of several thousand dollars. All witnesses must be brought to Ottawa and appear in ns a hugo expense, for transion and subsistence of witnesses,

### Belgian Neutrality

Defenders of the German invasio of Belgium have made much of a qualifying remark interjedted by Gladtone in discussing the neutrality of that country to the effect that Britain's obligation to protect that neutrality was not absolute, but might be governed by other considerations. In saying this We print elsewhere a letter from a character and extent of Britain's he did not in any way diminish the treaty obligations, for it is quite conceivable that circumstances could arise which would render it impracticable or even impossible to render effective assistance. What has always been in contemplation was an invasion by France or Germany, to either of whom the possession of Belgium as a base of operations against the other vide Holland and Belgium, a proposal understood to have been actually made by Germany, Britain might well have esitated to engage in land operations against such overwhelming odds. Gladstone made his position per-

In the debate, Gladstone undertook to co-operate in the defence spoke in high terms regarding the Belgian sentiment of nationality and spirit of independence and continued: "Looking at a country such as that, is there any man who hears me who does not feel that if, in order to satisfy a greedy appetite for aggrandizement, coming whence it may, Belgium were absorbed, the day that witnessed that absorption would hear the knell of public right and public law in Europe?" Recalling the circumstances in a speech at Edinburgh in March, 1880, Gladstone declared that his government "felt called upon to enlist ourselves on the part of the British nation as advocates and as champions of the integrity and independence of Belgium. And if," he added, "we had gone to war, we should have gone to war for freedom, we should have gone to war for public right, we of winter music at these reduce should have gone to war to save human happiness from being invaded by tyrannous and lawless power." That declaration was true in 1870 and is true today.

Thousands of people suffer from Catarrhal deafness or poor hearing, who, having tried specialists, advertised treatments, artificial ear drums, ear phones, electric vibrators and various mechanical appliances without success have at last resigned themselves to a "world of stience," thinking that nothing can ever restore to hem their normal hearing. Yet their case is not hopeless. A remarkable scientific treatment discovered a little more than a year ago in England is making people hear after years of deafness, and is also unequalled for quickly stopping the distressing head noises that are so often the companions of defective hearing. This discovery is called Parmint and has attracted widespread notice throughout Europe, where reports of the remarkable results it has given to deaf people have come in by the hundred.

The Canadians swooped down on London today. For many the desire to see the great metropolis was fulfilled. On Saturday, about ten days after arriving in England, 20 men from each company were given permission to leave camp for 48 hours. Barring a number of British-born, who visited their relatives in many parts of England after long absence, they ail went to London. This was only natural. But London was not the same, especially at night. The streets every where were darkened. Only the necessary lights on the corners shone and these dimly. The Strand, Piccadilly, Pall Mail, Leicester square and all the famous streets which during times of peace are brilliant with electricity, were almost as dark as the a fog hung your the city. Motor buses would shoot by with boys in khaki riding on top, drinking in scenes which had never before come their way. From one we could hear the words of "Oh, Canada," of "The Maple Leaf" and an occasional cheer from the sidewalk below. To some of the theatres soldiers were admitted free or for half price. A great many, of course, took advantage of this. Such generosity never occurred at home. But most of the boys, however, satisfied themselves by parading the streets and getting acquainted with the town. They were escorted by many of the British soldiers, who knew the places of the most inferest. The Canadians and the Britons are great pals.

Choose Artillery Today.
Selection of men for the Toronto quota of artillery will be made at the armories this morning Nearly 300 have come for-ward, but the number required will be small. Only two batteries are wanted One will be chosen from the 9th Toronto and 7th St. Catharines, the other from the Hamilton and Brantford batteries. Artificers from the Army Ordnance Corps at Ottawa have overhauled the four twelve-pounder guns at the armories. These will be left for the use of recruits. The overseas men will be supplied with eighteen-pounders.

OMAHA, Neb. Nov. 10.—"Big things will happen in the International League when the majors and the Federals get together and solve their troubles." says President E. G. Barrow of the International League.

President Barrow reached Omaha today, along with Ban Johnson, Garry Herrmann and others. Not until late in the afteroon, after he had talked with the presidents of half the organizations of the National Association of Professional Baseball Leagues in attendance at the annual meeting would he consent to discuss national affairs. And then the arrangements he mentioned were only tentative and depended upon the affairs of the majors being settled. But at that time, when President Barrow was talking, he knew that Herrmann had an option on the Chicago Cubs, and that conty yesterday that option was extended until after the Omaha meeting; also he knew many things about the settlement that he would not make public. But he said: "Big things will happen in the International if the affairs are settled.

"Second, the Federals at Buffalo and Baltimore will be consolidated with the Internationals.

"Third, the Montreal International team will probably be moved down to Pittsburg and given possession of the Federal grounds in the latter city.

"That accounts for four of the Federal teams. I am not at liberty to talk about the other four of that league, since they are not in the International."

"The talk that Toronto will be abandoned by the International, and that Newark is to be moved to Brooklyn, is all wrong. Both cities are too good for anything like that. The only changes will be in Jersey City and Montreal.

"As soon as I return to New York I will call a meeting of the International magnates; probably Nov. 25 will be the date; and we will discuss and settle all these points upon which I have just touched.

"As for the Federal players in the four towns in our territory, many of the members will be taken care of by organized baseball. Some will not. The International will get all the players that it wants from these teams."

The annual meeting of the Winnipeg Victoria Hockey Club, holders of the Allan Cup, emblematic of the world's amateur championship, brought out a large crowd of hockey enthusiasts, and enthusiasm was the keynote of the meeting. Tho the business was strictly of a routine nature, prospects for the coming season were informally discussed, and on all sides another championship was conceeded to the Vics. Among those in attendance was Bill Laird, who played goal for Toronto Varsity last year. Laird announced his intention of turning out with the local champions this season.

er every minute, and had forced the play to within three yards of the McGill line with the visitors in possession. To refleve the situation, George Laing punted for forty-five yards on the first down. The McGill wings followed down well and tackled the minute the sphere was caught by Sheehy. Then followed the try and goal.

"From this stage on McGill's best plays went awry. Trick after trick was attempted sometimes with elight success, and again with no success at all. 'Red' McKensie was produced fresh from the stable by Toronto, and he ripped the weary McGill line for gain after gain. Two more points were counted on rouges, and the final tally was recorded as 12-7. It should have been 6-2, with Toronto on the big end. McGill secured one rouge, and would have been aredited with another had it not been for the fumble, which gave a try. Toronto secured six well-earned points, and one lucky touch. Hence the breaks were eyen, and, with all merits considered, the better crew won out.

## SIX COUNTY BRIDGES COMPLETED THIS YEAR

Frank Barber Reports to Commissioners That All Are Open for Traffic.

Frank Barber, engineer for the County of York, reported to the county commissioners yesterday that all the bridges on the county, with the exception of a small structur between Scarboro and Markham had been completed. This is a record in bridge work for the county, and Mr. Barber attributes it to the strict enforcement of the penalty or bonus law which is inserted in every contract awarded by the commissioners. During the year two bridges have been constructed south of Brownhill, and one each at Newmarket Brownhill, and one each at Newmarket, Schomberg and Willowdale, and one on the Dawes road. All are open for traffic.

Wheat Market Under Depressing Influence - Discouraged Holders Sell.

BUYING POWER FITFUL

Advices of Big Fleet and Higher Cables Had No Effect.

Canadian Press Despatch.

CHICAGO, Nov. 10.—Difficulty in finding enough vessels to provide a sufficient outlet for exports from gulf cities had a depressing influence today on the wheat market here. Prices, altho firm at the close, were ic to 1½c under last night. Corn finished ic to 1½c down oats off ½c to ¾c and provisions varying from unchanged figures to a decline of 32½c.

Liquidating sales by disquiraged holders of wheat began at the outset, and formed the most noticeable feature of the

formed the most noticeable feature of the market until just before the close, when the low price which had been reached tempted exporters, it was said, to take hold with rather a free hand. Previously the buying power had seemed of a fitful, limited character, with traders meanwhile giving sharp attention to despatches telling of the piling up of stocks at Kansas City, and the congestion of traffic on the railroad lines to Galveston, Fort Arthur and New Orleans, owing to the lack of readily available ocean freight room.

Did Not Help.

Advices that a fleet of ninety vessels was due to arrive in the United States from South American waters within the next sixty days afforded no immediate help to the bulls, especially as primary receipts continued heavy, and stop-loss orders were in active operation. Higher cables had little or no effect for the time being.

cables had little or no effect for the time being.

Increased arrivals of corn in prospect gave an advantage to the bears in that cereal. The weather favored shipping, and it was said that husking was not generally well advanced.

Oats suffered in price with other grain. Nothing was heard about any export business in oats.

Provisions averaged lower on account Provisions averaged lower, on accoun of selling by packers, and because of set-backs in the price of wheat and feed. A fair improvement was noted, however, in the cash demand for meats.

Trade Continues Quiet, But Firm-Good Demand for Mill Feed.

Canadian Press Despatch.

MONTREAL, Nov. 10.—The demand from foreign buyers for Manitoba spring wheat this morning was good, and sales of 25 loads were made, but owing to the weaker feeling in the Winnibeg market, and the decline in prices of over 1c per bushel, late cables came weaker at a decline of 3d to 6d per quarter, which naturally tended to check any further business being done.

There was no change in the condition of the local market, the demand for all lines of coarse grains being still somewhat limited. There was some demand from foreign buyers for spring wheat Canadian Press Despatch. what limited. There was some demand from foreign buyers for spring wheat flour today, and, as the prices bid for the lower grades were in line with millers' views, sales of several round lots were made, but the bids for export patent were 9d to 1s per sack out of line.

The local trade continues quiet, but firm. Demand for millfeed continues good, and the market is more active, with a larger volume of business doing than good, and the market is more active, with a larger volume of business doing than for some time past.

The trade in butter is quiet, and prin-cipally of a local character. Cheese is firm. Eggs active and strong.

More Sales Than on Monday. But Trade is Still . Slow.

**PORK FIGURES HIGHER** 

Hogs Brought Ten Cents More Per Pound Yesterday -Mutton is Steady

Receipts of live stock at the Union Stock Yards were 86 carloads on Tuesday, comprising 1017 cattle, 1116 hogs, 1151 sheep and lambs and 134 calves.

The cattle trade was none too good yesterday, as there were several loads of heavy steers that were held over from Monday that were not sold. This class of cattle was lower, but how much would be hard to say, as they were not sold; but it would take a very choice, well-finished load to bring \$8. The highest price paid for a few good cattle yesterday was \$7.30 to \$7.40. Choice cows sold at \$6.75, and choice buils at \$6.50 to \$7.

There is this much to be said about the trade—that it was a little more active than on Monday.

Trade in stockers and feeders was slow, a few loads being sold to go back to the country at steady prices. We saw one load of good dehorned steers, weighing 1050 lbs., sold at \$6.70.

Milkers and springers, of which there was a moderate supply, sold at \$50 to \$100 each.

Veal calves were slow of sale for all excepting good to choice quality. Grass calves were hard to sell at much lower values. One reason for this is that poultry is plentiful and cheap.

Sheep sold at steady prices, but lambs were from 15c to 25c per cwt. dearer than on Monday.

Hogs also were worth more money; selling 10c higher.

Butchers' Cattle.

Good butchers, \$5.75 to \$6.25; choice cows, \$6.50 to \$6.75; good cows, \$6 to \$6.25; medium cows, \$5.25 to \$5.75; canners and cutters, \$3.50 to \$4.50; buils, \$4.50 to \$6.50, and an odd buil of extra quality will sometimes bring \$6.75 and \$7.

Stockers and Feeders.

Choice heavy feeders, 900 to 1050 lbs.

will sometimes bring \$6.75 and \$7.

Stockers and Feeders,
Choice heavy feeders, 900 to 1050 lbs., sold at from \$6.50 to \$6.75; good feeders, 800 to 900 lbs., \$6 to \$6.25; medium quality steers, \$5.25 to \$5.50; stockers, \$3.50 to \$5. according to breeding and color.

Milkers and Springers.

A moderate supply of milkers and springers sold at a range of \$40 to \$100 each. The bulk of sales would be from \$70 to \$35.

Choice calves, \$9 to \$10; good calves, \$8 to \$9; medium, \$6,50 to \$7.50; common, \$5 to \$6, and inferior eastern grass calves at \$3 to \$4.50.

Sheep and Lambs.

Sheep and Lambs.

Sheep, light ewes, \$5 to \$6; heavy ewes, \$4 to \$4.50; culls and rams, \$2.50 to \$4; choice light lambs, \$8 to \$3.25; good lambs at \$7.80; heavy lambs are slow of sale at \$7.50 to \$7.75; culls, \$5.50 to \$6.

Hogs.

Selects, fed and watered, \$7.65 to \$7.75, and \$7.90 to \$8, weighed off cars, and \$7.85 to \$7.40 ho,b. cars.
