## GENERAL ELECTION IN AUGUST OR SEPTEMBER

No Redistribution—Reciprocity the One Issue—Printing Bureau Busy With Voters' Lists—Borden's Western Tour May Be Shortened to Enable Opposition Leader to Hold Meetings in East.

OTTAWA, May 25.—(Special)—A general election in August or September without a redistribution. It is stated positively here to-night that this is the Laurier program, a program which will be carried into effect almost immediately after his return from Great Britain. So strong is the prevailing belief here that the latter part of the summer or the early fall will see the government going to the country, that the Conservative party leaders are thoroughly convinced and are making their plans accordingly. R. L. Borden will make his promised tour of Manitoba, Saskatchewan and Alberta, but it is probable that his list of meetings will be shortened to allow him to return east for a tour of all the provinces east of Manitoba. British Columbia alone will not be visited by the Conservative leader, who relies upon the promise of Premier McBride to deliver a "solid B.C." In the meantime Mr. Borden is preparing for his western trip and for possible participation in the Nova Scotia provincial campaign.

The last word of Sir Wilfrid Laurier to his supporters in caucus was to prepare for an election. He did not give them the date, but he left the impression that the jump would be made soon. This is why Messrs. Lemire and Fisher are planning a long series of meetings in Quebec, and that is also why the departments of public works and railways are daily handing out announcements of contracts, the Hudson Bay construction work

being one means, of course, that there can be no redistribution before the election, but it is well-known that Sir Wilfrid Laurier cares more to get his last election over than he does to see the west endowed with thirty additional seats. He was urging the advisability of an early election ten weeks ago, and only yielded to the pleadings of the Ontario wing of the party. It is possible that he will ask for a dissolution during the present adjournment, but it is also quite possible that he will allow parliament to meet again on the 18th for a two weeks' gallery play, after which he will tell the west that the opposition snatched them out of their increased representation.

The fact seems to be that Sir Wilfrid himself, desiring an early election, has allowed his hand to be forced by the opposition and by the recalcitrants in his own party, who have rebelled against a long midsummer struggle in parliament. The danger of the reciprocity pact falling in the United States is another incentive.

The house has voted supply till September 1 only, despite Sir Wilfrid's repeated efforts to get enough to tide him over till October. After a dissolution it will be open to him, however, to raise what money he needs by governor-general's warrant.

The election will be short, and will have reciprocity as the one issue. So determined has the government been to force a favorable result on this question that cases are known of Liberal party men approaching strong Conservative leaders in their ridings with offers of "walk-overs" in return for support of the reciprocity agreement. It is expected here that Sir Wilfrid will do some flag-waving on his own account while in England as an offset to the annexation cry in Canada.

One of the sure signs of an early election is to be found at the printing bureaus, where a large staff are at work on the voters' lists.

## Crime in Ontario Shows an Increase

One Hundred More Prosecutions for Half-Year—Revenue From Fines.

Six months activity of the provincial police summarized in a report made at the parliament buildings yesterday. The statistics are for the half-year ending April 30.

The work included 847 cases, an increase of 100. There were 532 convictions, 376 fines, 123 sentences, 33 suspended sentences and 120 cases pending.

For violation of the liquor license law 157 cases, 132 fines and 3 other sentences. The fines totalled \$919.

The provincial police seized 543 bottles of liquor, 153 gallons, 4 barrels, 165 gallons of high wines and 506 gallons of beer.

Violation of fish and game laws: 61 prosecutions, 47 fines, amount \$1740.

Houses of ill fame: 2 sentenced to imprisonment, 9 fined, 4 released, 1 discharged.

Sixty-eight charges of vagrancy, with 63 Canadians. Total aggregate of fines, \$12,269.

Client Must Pay Broker.

Before Judge Winchester yesterday afternoon John L. Lee, broker, Toronto, claimed \$130.45 under a promissory note from R. S. Lang, gentleman, of Toronto. The defendant made a counter claim of two sums of \$168.30 and it was paid by defendant to plaintiff also the cancellation of a note for \$180.50.

Judgment was given the plaintiff with costs.

Christian Workers' Conference.

A special address was delivered at the Church of the Tabernacle Tabernacle in Bathurst-street last evening by Rev. L. R. Dean, pastor of Tabernacle Church. He took the whole of the third chapter of Colossians for his text and drew from it lessons to show the people how to live worthily things and cleave unto the heavenly.

To-day the speakers will be Mrs. John Linton and Rev. W. J. H. Brown.

Wanted in Prince Albert.

Alfred J. Jackson, 303 University-Ave., was arrested last night by Detectives Newton and Wallace for the North-West Mounted Police, charged with the charge of forgery at Prince Albert, Sask., where it is alleged that in January last he forged the name of Henry O. Cromar to a note for \$49, while he was employed by the Northern Life Insurance Company at that place. He left the city immediately afterwards and came to Belleville, Ont., and later to this city.

Quarrel Over Sods.

Charles White, 82 George-st., was arrested yesterday by Detective Archibald, charged with assaulting Alfred Cood, who had accused him of robbing him when cutting sods in the county. The warrant was issued by High Constable Ramsden.

Thrown From Carriage, Broke Leg.

Henry Croft was taken to his home at 87 Denison-st. by the Crown Corps and College streets, in the police ambulance. His right leg was broken when he was thrown from his carriage there when his horse shied at a College street car last evening.

## SAY DRIVER DIDN'T STOP BEFORE STRIKING WOMAN

Evidence Given at Inquiry Into Miss Stokes' Death Indicated Negligence.

MADRID, May 26.—With the exception of the crossing of the Alps by Geo. Cheverz on September 23, 1810, a feat, which ended in his death, the third stage of the aviation race from Paris to Madrid for the Petit Parisian prize of \$20,000 and \$10,000 additional offered by the Spanish aero clubs, proved to be the most severe test the aeroplane yet has been subjected to, and two of the three contestants, it would now appear, have been forced to abandon the flight.

From the latest despatches reaching the committee in charge it appears that Vedrine alone is likely to finish.

He passed over Quintanapalla and crossed the city of Burgos at a great height, but later was forced to descend. He telegraphed to the aero club saying that he could not proceed for some hours and the club authorized an extension of time for the competition to be run.

Cheverz landed at Olazagutia, about 40 miles from San Sebastian, but when he attempted to make a fresh start his machine was capsized and partly wrecked, altho the aviator was not hurt. There is little probability that Merker's only attempt to stop the aeroplane will be successful.

Mr. Graham, who was a passenger on the Avenue-road car, which the woman stopped immediately before the accident, said that she came up to the car, and when it stopped asked Conductor James Ridge if it was a College car. When he told her it was not, she turned toward the kerb, and he saw the horse and rig 15 feet from her. She too saw it coming and ran another 15 feet diagonally, away from the horse and toward the sidewalk. When she had almost reached the kerb, she was struck by the right shoulder of the horse's shaft of the wagon, and fell with her hands and head upon the sidewalk.

The right wheel of the wagon passed over her back, and the woman lay between the car and the rear wheel. When Mr. Graham saw the collision coming he sprang from the car and stopped the horse. During all this time neither Merker, who was driving, nor the other man with him, made any effort to stop the horse, but kept calling to the woman to get out of the way. It was not the left side of the wagon which went over her, as Merker said, but the right. The woman was picked up unconscious and revived.

This evidence was corroborated by that of Conductor Ridge, Motorman William McLaughlin, Jean Jeannel, a passerby, and J. Wilson, before whose store the accident occurred. Both men were in the court room and were represented by Arthur Cohen, who strove to make Mr. Graham say that the accident had been caused by the excitement of Merker and not his carelessness, only to bring out repeated declarations of the apparent negligence of his driver.

Sir Joseph Ward resumed his speech on the imperial council. The question became more urgent and emphatic, he said, when it was remembered that at least two of the greatest dominions had already entered into imperial confederations of their own. Such action emphasized the need of some imperial council, accredited to co-operate and harmonize the policy of naval defence, a still greater question than that of naval supremacy. He would prefer to call the suggested body an imperial parliament of defence, as defence above all questions, was one in which every party of the empire was vitally concerned. It could be treated satisfactorily only by a properly constituted council of state or parliament.

Are You Anaemic  
or Bloodless?

If So, the Spring is a Most Trying  
Time for You.

Your Hope Rests in Getting the  
Blood Rich and Red by Using

Dr. Chase's  
Nerve Food

Shortness of breath and fatigue with slight exertion, failure of the vital organs to properly perform their functions, and pallor of the face and eyelids, are among the indications of anaemia or bloodlessness.

The blood is thinner and more watery in the spring than at any other season, and for this reason the person who is subject to anaemia, or lack of blood, suffers the most.

You must increase the number of red corpuscles in the blood, and this can best be done by using Dr. Chase's Nerve Food. This great restorative treatment does not merely stimulate the organs to renewed activity, but also by building up the system. For this reason its benefits are both natural and lasting.

Sleeplessness, indigestion, neuralgia and static pains and weakness and irregularities of the vital organs are among the indications of anaemia or bloodlessness.

### ONLY ONE KILLED

Sensational Report That Six Men  
Death at Helen Mine.

SAULT STE. MARIE, Ont., May 25.—Contrary to the sensational report

circulated that six men were killed at the Helen Mine, by reason of an explosion, it transpires that the fatalities only numbered one, deceased being Louis Neime, aged 22, whose wife resides in the Sault. Neime met his death while drilling for a blast, a portion of earth and rock between the sixth and seventh level giving way and carrying him with it. He was buried at the chest and had several ribs broken, dying almost instantly.

## DROPPED OFF RAIL OF TUG AND WAS DROWNED

## OVERCOME BY GAS IN BOTTOM OF OLD WELL

Fisherman Lost His Life in Lake Erie—Brother Thinks He Dropped into Dose.

Well Known Resident of Ayr Victim of Victoria Day Fatality.

A YR. May 25.—(Special)—Edward Vanderveer, a fisherman, was drowned in Lake Erie off Windmill Point, under peculiar circumstances, on the afternoon of Victoria Day. At the time of the accident he was with his brother, who ran a gasoline fishing tug. He was sitting on the rail. His brother thinks he fell into a dose and dropped into the water. He is said to have been a good swimmer. The two men left Port Colborne harbor at noon with a cargo of fish for Buffalo market. They had sold their cargo and were returning home shortly after 4 o'clock. Aaron was attending to the engines and Edward was sitting on the deck.

To The World Aaron made the following statement: "I noticed that the boat was following her own way, and looking that way saw that Edward was asleep. I awoke him up and then I turned to work on the canvas. It must have been half an hour afterward that I noticed him drowning again, and looking back I saw that he was gone. I grabbed the tiller and turned her over so hard I broke the shoe off of her. I cruised around for over an hour in the hope of picking him up, but there was no trace. Quite a sea was running and was nearly as heavy as we often have been put in." The young man was in his 27th year, and leaves a widow and three children, as well as his father, Nicholas Vanderveer, and three sisters, Mrs. Matthews Mahagan of Port Colborne, Mrs. Timothy and Mrs. Howard of Buffalo.

DROPPED DEAD AT WORK.

CORNWALL, May 25.—(Special)—A sad affair is reported from Roxborough Town. The body of a young man, who had been missing three or four days and yesterday afternoon his body was found about a quarter of a mile from home by N. J. Robinson, J.P., of Monkland's Station. Mr. Kinnear was an old man of 80 years, and had evidently gone off quietly to trim some cedar trees, dropping dead while at work.

BIG COOKING MAIN PULLED OFF.

BROCKVILLE, May 25.—(Special)—A big cooking main was pulled off on Old Man Island between Ogdensburg and Brockville, birds and battles were fought; the majority went to Ogdensburg birds, also a considerable quantity of Brockville hard-earned cash. One of the battles lasted nearly an hour.

ROBBED BUTCHER STORE.

Louis Bernstein, who keeps a butcher shop at Edward and Elizabeth streets, was awakened at 4:30 yesterday morning by unusual sounds. He hustled out of bed and a man, armed with a couple of chunks of his stock in trade, he followed. He entered a house at 89 Edward-street. Sergeant Crowe and Patrol Sergeant Griffiths were notified and took up the scene of the missing meat. At the house they found Captain Carter of the Royal Canadian Constabulary. Both were haled to police court and there Toland finally admitted that he had been the meat hunter. He went to jail for 90 days.

## INTAKE NOW CAPTIVE

IT REQUIRED HERCULEAN EFFORT, BUT DONKEY ENGINE WAS VICTOR.

A few minutes before 6 o'clock just

earlier, the much-advertised Intake

pipe lay high and dry on the temporary

rails at the foot of John-street. Ever

since the pipe was towed over from

the island last Tuesday, it has been

lying there with the engineers fighting

to land the bulky sand-laden article.

Wednesday and Thursday it was hauled

up from the water inch by inch, by

means of a powerful donkey engine.

Altho one cable snapped, and made a

short delay, about noon yesterday the

work was kept on with final suc-

cess.

The chief difficulty in landing the

monster was the sand, and a large

amount was washed out yesterday

morning. According to W. W. Morris,

Engineer Fellowes, however, it is still

loaded up, and will only be cleaned out

after 10 or 12 hours' arduous work.

## Note and Comment

S. C. Hildred had a bad Thursday at Woodbine Park. He had six horses in five races and failed to win one. In the first Restigouche was scratched. Pardner ran outside the money in the second. He had two in the fourth, Woodcock finishing fifth, and Firestone running outside the money. Dinn-Ken fell in the steeplechase and Royal Meteor refused conditions in the last.

Yesterday was the second time the Dyson Stable ran the Liverpool Cup. For Hunter winning in 1908, when he made the record for the race, 1.48, Tourene won in 1907. Photographer in 1908, Direct in 1909, and last year Detective.

The closing race was the most popular of the day from an speculative stand-point, no less than \$14,708 being wagered straight on the seven starters. It is estimated that nearly \$200,000 were wagered on the race, more than that the week-day crowds keep pace with the Saturdays and holidays as far back as the horses in concern.

Pete Davidson, well-known locally and formerly owning horses, including Triple Crown, has a new racing machine which he claims will be ideal equipment for the bookmaker. It is what he calls a centralized affair, consisting of one central board which has space for 10 or more entries, the same part of the board carrying the name of the jockey, horse, weight, and post position. On the side indorsements show the number of the different priced tickets sold on the respective entries, straight, place and show. Another indicator is the extreme right which shows the total pool on each entry in their respective sections. At each side of the board extend the booths where the ticks are cashed, each having its own booth. In case, however, one entry has exceptionally fine play, as many entries as are necessary to accommodate the same may be all similarly, two or three entries on which the play is very slight may be all sold at once.

This centralized machine, having only one board, can be seen from any part of the enclosure, and on which is clearly visible the name of each horse, the sale of every tick.

The Royal started right. French lined into Bradley's hands in the first and Neager sent one to deep right-centre for a complete circuit. Miller dumped one into short left, for one base, and went to third. Miller again, at the return, go thru his legs.

Handicap—Hildreth's Horses  
Beaten Three Times.

Favorites won three out of seven races yesterday in glorious weather at Woodbine Park, and S. C. Hildreth failed to score a first. Naushon, Bride Lane and Chief Kee were the winners that the public wanted to see. The horses were: Lady, Amalif, Merryman and Planette won at odds ranging from 5 to 2 to 5 to 1. Incidentally J. E. Seagram won a race, tho in doing so he kept Robert Davies out of brackets. John Dymont landed the feature of the day, the Liverpool Cup, Chief Kee being far and away the best in the race, and he proved to be the only horse to earn his weight to victory in one of the meetng's classics. The attendance was third largest, and next to the opening Saturday and the holiday, there being about 10,000 in attendance. The public bet \$1,000,000 in three ways on the seven races, demonstrating that the mutuels are not cause for lack of interest in speculation. R. T. Wilson, Jr., was the winning owner of the day and Shilling and Sweeney the winning jockeys, with two firsts each.

Warbler showed first as the barrier went up for first race, and said goodbye. Sidney R. cut the rest of the running to the final furlong, where Shilling let Naushon down, and he breasted home. J. H. Houghton easily disposed of the balance. Roebuck beat Shirley R. out of third in the last 50 yards.

In the second race, Florida's Beauty Rod and Gun and Terrible Boy alternated in the lead to the stretch, all bunched. Entering the stretch Florida's Beauty moved up and appeared the winner in eighth out. When Thirty Five crossed with a rush and won going away, Florida's Beauty outdistanced Rod and Gun. Maxerius was pinched off rounding first turn. Terrible Boy quit last quarter. A claim of foul was made by Jockey Sweeney against the winner, who was disqualified for crowding Florida's Beauty into Rod and Gun.

There were only three starters in the third race, when J. E. Seagram scored his first win with Bride Lane easily by four lengths from Damey's Satin Bowler, that rushed from the front going out, then made the running to the final quarter, where Bride Lane moved up and won, outstripping Mayflower up autumn through.

The 1 1/8 miles handicap went to Main all round. He and Edda made the running to the stretch where Amalif drew away to an easy victory. Edda second easily. Woodcraft closed with a rush and dropped out in easy third.

Chief Kee, from the Dymont stable, the Liverpool Cup cleverly. He trailed the field till straightened for home and then won going away. The

FRIDAY MORNING, MAY 26, 1911.

INTERNATIONAL AMENITIES.

Whatever may be the view taken of the present and future causes of difference between Britain and Germany, no doubt can be entertained that anti-patent sentiment is mainly confined to the privileged classes. The ordinary everyday people of both countries are not enemis to each other, as the constant interchange of visits of representative bodies shows. In connection with the system of town planning, now attracting such general interest and attention in Europe, many tours and excursions have been made and are being arranged, with the happiest social results. The latest party, consisting principally of members and officials of local authorities and conducted by the secretary of the Garden Cities and Town Planning Association, recently finished a very successful expedition to Germany, and cannot speak too highly of the heartiness of their reception and the readiness with which information was afforded.

The National Housing and Town Planning Council has completed preparations for its annual visit to continental towns and have the assurance of a cordial welcome by those selected. The kindness thus shown every year has been so great as to be almost embarrassing to the British visitors, and they intend this year to reciprocate by arranging a return visit to study English housing schemes and villages. During its course a meeting will be held to consider the formation of an international alliance of councils, societies and leading men interested in housing and town planning. Workingmen also are concerning themselves with these international studies and the whole movement is full of promise for a better understanding. Ignorance and prejudice, these great feeders of distrust, can be removed in an easier and better way.

**WATER DROWNS.**

Reckless people, who are indifferent to risks, give their friends and the community generally too much trouble and worry, to be allowed to mind their own business without interference. No man or woman who is reckless is capable of properly minding his own business.

Of all the reckless performances that humanity is guilty of, there is none worse than going out in a sailboat or canoe without knowing how to manage it. When the recklessness goes so far as to tempt others into the snare, the recklessness becomes criminal.

Water drowns.

Every year one feels that this fact should more and more be drilled into the ears of old and young, rich and poor, active and feeble, alike. Parents should insist on their children learning to swim as soon as they can be put in the water. Civic legislators should multiply facilities for bathing and swimming, both outdoors and in city baths.

Strict regulations should be enforced respecting all who go out in boats or canoes. No one who has not a certificate of ability to handle a sailboat should be permitted to take others out at the risk of their lives. Of course such a view will be regarded as grandmotherly by some, who are prepared to rage over a tainted drinking cup. There is less danger in the cup than the ignorantly managed sailboat.

Women are usually the victims of these tragedies. They might do much to protect themselves by refusing to go out boating with anyone who is not fully capable, not only of sailing a boat, but of meeting an emergency.

There is no honor in being drowned for the sake of an inefficient waterman's goodwill.

The two girls who lost their lives on Wednesday were the victims of just such rashness as shocks the city every year. A little presence of mind would perhaps have averted the pitiful catastrophe. Instead of clinging to the boat, experts declare, it is easier and safer to cling to the mast in such a case; and if the girls had been helped into the floating sal they would probably have been kept above the surface till help arrived.

But the lesson is that water drowns. Squalls are sudden and always to be expected. Bad sailors only help other people to drown.

After having dispossessed the Mexican peasants of their lands by means of the act requiring them to show a written title, altho' that had never been the law or custom of the country, President Diaz, confronted with revolution, tried to make amends. Montreal**Terrible Eczema for 25 Years Cured by Cuticura Remedies**

"I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My own doctor had advised me to have my leg cut off, but I said I would try the Cuticura Remedies first. He said, 'try them if you like but I do not think they will do any good.' At this time my leg was peeled from the knee down, my foot was like a piece of raw flesh and I had to walk on crutches. I bought a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent. After the first two treatments the swelling went down and in two months' use of the Cuticura Remedies my leg was cured and the new skin grown on. The doctor could not believe his eyes when he saw my leg. He had never seen such a case before and said that he would use Cuticura for his own patients. But for the Cuticura Remedies I might have lost my life. I am truly grateful for the wonderful cure that Cuticura wrought. I have many grandchildren and they are frequent users of Cuticura and I always recommend it most highly as a sure and economical cure for skin troubles."

(Signed) MME. J. B. RENAUD,

For more than a generation Cuticura Soap and Cuticura Ointment have afforded the speediest, surest and most economical treatment for torturing, disagreeable skin and scalp conditions from infancy to age. Cuticura Soap and Ointment are sold by druggists and dealers everywhere, but in order that skin sufferers may prove their efficacy without cost, the Potter Drug & Chem. Corp., 82 Columbus Ave., Boston, U. S. A., will send post-free to any address, a liberal sample of each, with a 32-page book on skin health. Write for a set to-day, even if you are not suffering at present, as you may be able to gain faith in everything, for even the first use of Cuticura Soap and Ointment is often sufficient to give instant relief when all else has failed.

**THIRTEEN WEEKS IN HOSPITAL Came Away No Better and Then Two Boxes of Zam-Buk Worked Complete Cure.**

Mr. Fred Mason, the well-known upholsterer and mattress manufacturer of St. Andrews, N. B., says: "I had eczema on my knee, which caused me terrible pain and inconvenience. The sore parts would itch and burn and tingle, and then when rubbed or scratched, would become very painful. I tried various remedies but got no better, so I decided to go to Montreal and take special treatment. I received treatment at the Montreal General Hospital for thirteen weeks, but at the end of that time I was not cured, and almost gave in. A friend advised me to give Zam-Buk a trial, and although I had little hope of it doing me good, I took the advice. Almost as soon as applied Zam-Buk stopped the itching and the irritation. I persevered with the balm, and it was soon evident that it would do me good. Each day the pain was reduced, the sore spots began to heal, and by the time I had used a few boxes of Zam-Buk I was cured.

**QUEEN VICTORIA.**

"As the years pass the fame of Victoria grows," says The Globe. This is a general chorus from many papers. But is it really so? Does this express the popular feeling? Our experience is that Queen Victoria is as dead as Queen Anne, and that every second man you meet thinks it would have been a good thing for the empire and for Europe if King Edward had come to the throne ten years earlier. King George has done as much in a year as Queen Victoria did in ten. Queen Victoria was a dignified old lady who liked cold drafts; was a perfect example to all women in cottages; was the heroine of an apocryphal story about presenting a Bible to a Madagascar prince; and who wore mourning with a severity and persistence which carried gloom to the universe.

We love Queen Victoria and her memory all right, but O you, Queen Mary!

**PEERS ACCEPT VETO RESTRICTION.**

Mr. Asquith's veto bill is to get a second reading in the house of lords. Such was the announcement officially made on behalf of the Unionist leaders by Lord Midleton, formerly secretary of state for India, who added, however, that it was their intention propose amendments. Lord Morley, however, when introducing the measure, distinctly intimated that no amendments would be accepted by the government so that the real struggle is only postponed. By passing the second reading, the peers have accepted the principle of veto restrictions so that the amendments to be expected will be of the nature of modifications in the methods of its application. The tactics adopted will probably prevent the occurrence of a political crisis till after the coronation.

dominion, in view of the burden imposed on her navy by the necessities for protection of British ships, goods and supplies. The Canadian government by Canada or by Australia, however good it might be as far as the local portion of the dominions were concerned, would not be adequate. What was wanted was uniformity of system in the preservation of the world's overseas interests.

**Laurier Replies to Ward.**

Laurier pointed to the resolution in favor of the creation of a council. Advisory to the Imperial authority, but the arguments of Sir Joseph Ward were of something very different. Ward's proposal was an advisory council, but a legislature, largely elected by the people of the United Kingdom and the dominions, with power to create expenditure, but no necessary revenue to meet the expenditure. Such a body might say five, ten or twenty millions of pounds were necessary so much for each of the different portions of the empire, and then the respective governments would be dumb agents, carrying out the decision. They would ask for such a body to provide the money as was absolutely impracticable.

Premier Fisher agreed as to the impracticability of the proposal.

Asquith said the scheme would im-

pair if not altogether destroy the authority of the government of the United Kingdom, which grants matters to the conduct of foreign policy, conclusion of treaties, maintenance of peace or declaration of war.

As the whole of the representations were against him, Sir Joseph Ward withdrew his resolutions.

**WORK OF WILLARD HOME,**

The Toronto District W. C. T. ### ALD. SWEENEY FAILED TO MOLLIFY RETAILERS

Resolution Opposing Bylaw To Keep Goods Off Street Passed Despite Explanations.

At an indignation meeting last evening the retail grocers of the city strongly condemned the proposed amendment to the bylaw relating to the exhibiting of goods on the sidewalk for sale, as suggested by Ald. Sweeny. In short, they claim that such action would force them out of the fruit business.

Ald. Sweeny for nearly an hour presented his arguments in favor of the amendment and stated that he was not blind at the gavel, and more than at the common-hand man. He claimed it was not for the purpose of curtailing business or to help the pedlar, but for the beautifying of the city and the improvement of sanitary conditions.

The amendment will force every man whether he be Canadian, Italian or Hebrew, to keep his wares under cover, or else on his own private property. It stands to reason that fruit left outside a store for hour after hour must become covered with insects and bacteria. It is positively dangerous to eat fruit after it has been exposed for any length of time.

To make a law prohibiting one man from exposing his goods, you must include every man who has a single shopkeeper in his business. Now, apart from the sanitary consideration, you will all admit that Toronto would look a hundred per cent. better if the sidewalks were free from boxes of fruit and flowers, and, as for the appearance of the clothing, it is really dreadful at times.

"If we have to keep our fruit under cover, which means keeping it in our shops, the prices will jump up 50 to 100 per cent. The citizens are protesting against the prices to-day and now you come along and raise your voices and increase our expenses, and how dare we sell our stuff on the same margin?" It is impossible. The cost of living would immediately be higher." This was the statement of several of the present.

The grocers attacked the alderman on allowing the pedlar to carry his goods on a wagon, and in reply he stated that it was his intention to introduce a bylaw to have the pedlar exhibit his goods under cover, and that they would then have to cover their vehicles with glass.

A number of the men stated that they were of the opinion that the alderman had selected the least of the evils and that he should have first tackled the pedlars and forced them to buy a better class of goods and to have more sanitary conditions over night keeping their commodities over night.

Regarding the beautifying of the city, they claimed that business should come before looks.

The following resolution was unanimously passed: "That the grocers' section of the Retail Grocers' Association, do hereby oppose the proposed amendment to bylaw No. 42, introduced in the city council by Ald. Sweeny, respecting the use of city streets by merchants. This amendment, if adopted, will deprive us of a better class of goods and to have more sanitary conditions over night."

Subscription Lists Closed and De- posited Made With the Government.

MONTREAL, May 23.—(Special)—The Canadian list of subscribers to the capital stocks if the International Bank of Canada, which has been so successfully promoted by Rodolphe Forget, M.P., for Charlevoix, who are to sit on the board with five British will be announced shortly. It is known, however, that these gentlemen have been chosen from amongst the most eminent financiers of the French capital and the dominions, who are to sit on the board. The Canadian list of directors will also be worthy of the great banking institution, which the International is destined to be in the near future.

It will be remembered that the seven million dollars out of the total capital of ten million allotted to the Canadian government over twice sub- scribed and now the statement is made that the Frenchmen are anxious if the bank reaches its expectations to bring the capital up to \$20,000,000. Mr. Rodolphe Forget announced that the million allotted to this country will be used for the construction of the hydroelectric power plant at Beauharnois.

Mr. Forget also said that the subscriptions from a good many heavy

interests had to be returned.

In Quebec province English and French alike are down amongst the largest holders, the one subsection of the province of Quebec being a mere fraction of the house of commons.

Subscriptions were asked from the United States, but a French Canadian from

the state of Texas sent in his money for a share.

## SEARCH FOR BODIES WAS WITHOUT SUCCESS

H. Clarke, One of the Rescued,  
Tells Story of Accident—Capt.  
Bongard's Statement.

Despite the fact that the extreme depth of the water and the uncertainty as to the exact location of the point where Olive Blain and Hazel Hicks were drowned in the lake Victoria Day, Malt Aykroyd spent several hours yesterday dragging for the bodies of the young women but without success.

H. A. E. Clarke, the man in charge of the boat, who was too ill Wednesday night to give an account of the accident, told his story yesterday. He said that it was the fact that the girls did not move across the boat when he attempted to come about that upset the little craft. He said that he helped them to the boat and for a time they hung to him and it. He was tangled in the sheet and after extricating himself, he was so exhausted that he could hardly stand by himself.

With regard to the comments of some passengers on the Turbinia that the crew showed awkwardness in lowering lifeboats to the rescue, Captain Bongard of the Turbinia said: "I timed the men and just three and half seconds were required to get the boat out. When we sighted the boat had been lowered to the water and four minutes later the two men were in the little craft, and it was ready to return, except for the young ladies, who had gone down for the third time."

Undoubtedly the passengers thought it was a long time. They had nothing to do but look on, and in a case of that kind, it is only natural to think that the work could be done very much quicker. Every movement appears clumsy, and each second seems like several minutes."

To witness such an accident is a great strain and especially under circumstances in which the onlooker is powerless. There was absolutely nothing to do but watch, and that is always the outcome. In the distance four people struggled for life, and close at hand were men in whose hands the only possible rescuing power lay. The loss of a few moments in such cases means death, and there always appears to be as much time wasted. Then to watch the two men safely reach the boat and the waters to swallow up the young ladies, made every heart beat with anxiety and lessen that little space there was.

"We have done our best," said the captain. "Our men are well up in handling life boats and life preservers. As for handling the oars unskillfully, that is quite absurd. If the average sailor could handle a big heavy boat better than they did, new world would be discovered."

The world reporter then called on the Hamilton Steamboat captains, the captain of the steamer Toronto, and they all stated very definitely that drags take place every Sunday morning under the direction of the captain, first and last officers.

In the case of yesterday's accident, the first officer, W. F. Pickard, had full charge.

Just last week Inspector William T. Evans supervised a drag on one of the lake steamers and was quite satisfied that all the men running on the street, first and last officers,

in the case of yesterday's accident, the first officer, W. F. Pickard, had full charge.

### FEATURES FOR NEXT SUNDAY.

Some of the features that go to make The Toronto Sunday World the favorite week-end publication are the high-class art section, replete with human interest pictures; a comic section, printed in four colors; that is humorously written; a column of fashion hints, illustrations and descriptions of the latest modes by the greatest living fashion artist, Lady Duff Gordon ("Lucille," of London, Eng. Lima Cavelleri, the noted beauty, writes an interesting page and pictures of her own life; another column, "People in Pictures," featuring突出. Another feature that attracts attention is the page in four colors by eminent artists depicting in a satirical way many phases of everyday fashionable life. Local events are treated in a special four-page column by Frank J. Skuse, in a manner that has made this feature probably the most popular one to the local readers. Last week it was the Woodbine race meet; others were the horse racing and the horse show.

"The lights only lasted for 8 or 9 minutes, and the wireless gear was lowered, three men fell out of one of them, but they were rescued, but for a few seconds at midnight everyone was startled by the noise of a terrible crash. The lights were suddenly turned on, and word was given to gather on deck as quickly as possible to take to the life boat.

The order and quiet demeanor were something remarkable, altho many children were on board. Everyone followed with almost breathless silence the instructions of the officers. One lady fainted, but there was no hysterics.

"The lights only lasted for 8 or 9 minutes, and the wireless gear was lowered, three men fell out of one of them, but they were rescued, but for a few seconds at midnight everyone was startled by the noise of a terrible crash. The lights were suddenly turned on, and word was given to gather on deck as quickly as possible to take to the life boat.

The order and quiet demeanor were something remarkable, altho many children were on board. Everyone followed with almost breathless silence the instructions of the officers. One lady fainted, but there was no hysterics.
