WILLIAMS' PIANOS. EIGHTEENTH YEAR BOUND BY GRATITUDE

Are the Colonies to the Empire, Says Mr. Chamberlain. THE CORDWAINERS' BANQUET IN LONDON. Given in Honor of the Visiting Colonial Premiers and Their Wives.

The Colonial Secretary Says Everything is Being Done to Bind the Colonies to That England to Which They Belong—He Hopes to See Australasia Federated, Then South Africa Will Follow, and the End Would Be a Federation of the British Empire—Sir Wilfrid Laurier Says the Colonies Must Either Draw More Closely Together or Separate.

London, July 8.—This evening at the Hotel Cecil, the Cordwainers Company gave a banquet to the Colonial Premiers and their wives. Sir Wilfrid Laurier and Lady Laurier sat on the right and left respectively of the master of the company, and covers were laid for 300 guests.

Among those present were the Duke and Duchess of Devonshire, Mr. and Mrs. Joseph Chamberlain, Mr. and Mrs. Whitlaw Reid, Ambassador Hay and Mrs. Hay, the Earl and Countess of Dunraven, Cardinal Vaughan, Col. Aylmer, Lord Glencoe, the Canadian High Commissioner, and Lady Smith. Sir Wilfrid Laurier, the Premier of Newfoundland, and Col. Ivor Herbert. United States Guests. The master of the company toasted "Our Guests, Their Excellencies the Ambassadors from the United States," which was received with hearty applause.

Mr. Whitlaw Reid, in the course of his reply, said that Americans in London now a days had to pinch themselves to keep from believing that they were not all the time at home. [Laughter.] Referring to the event of the Jubilee week, he said that of all the wonderful sights and suggestions of the Jubilee, the supreme fact most obvious and conspicuous was the profound and touching affection of the people of the United Kingdom for their Queen. He said that the geographical centre of the United States is now San Francisco and Honolulu.

Mr. Chamberlain's Remarks. Mr. Chamberlain, toasting "The British Empire," said the Jubilee displays of the army and navy were a guarantee of the future of the Empire. He said he spent her all in their defence. If by other ties, he continued, the colonies were bound to Great Britain by gratitude for having accorded them free

BEATING THE REVENUE. A Scotch Steamer Has Been Transgressing the Laws of Canada. Moncton, N.B., July 8.—Two important seizures were made in Albert county yesterday by Collector of Customs Binney of Moncton. The department having received advice that a schooner from Greenock, Scotland, had sold large quantities of stores to different parties in Alma parish, visited the scene. When he arrived there he found the ship had sailed, but he found a quantity of sugar, molasses and peas had been unloaded from the British vessel, which had lain in the stream and taken ashore in Albert county by the schr. Silent. The latter was seized and her owners promptly paid over a fine of \$400. At Herring Cove, five miles further on, a subordinate official found a quantity of sugar and molasses which had been brought ashore in a large boat by Stevedore McKinley and taken to the camp. Having made the seizure, the officers proceeded to a cart, and when he returned the barrels of sugar and molasses had disappeared. This course added criminal offence to the customs violation. Collector Binney then ordered the seizure of the boat, on which a \$50 fine was demanded. Those who took away the seized goods are known and their arrest will probably follow special instructions by the department. The Greenock steamer lay between two customs jurisdictions, and a double fine of \$800 will be imposed. The owners in Scotland are being notified, as the vessel has sailed.

Farmer Charged and His Horse Killed. Oxford Mills, Ont., July 8.—Duncan Christie, a farmer living at Patterson's Corners, three miles west of here, while returning from Kempsville was struck by the midnight express train and instantly killed, at a place called Harris Crossing. One of his horses was also killed, while the other escaped uninjured. Farmer's Turkish Baths—Evening Session. Assailed the Pound Keeper. Charles Cole, a gambler, who is also the poundkeeper for the district, was brutally assaulted at Swansea on Wednesday and was found bound in a ravine near his house. The county constables have a clue to the assaultors and are working it up.

A COMBINE IN SUGAR. Complaint That Wholesale Grocers in Toronto Discriminate Against the Retailers Here in Granulated. A reputable firm in Toronto writes the World: "It will perhaps be of interest to your readers to know that a combination exists among the wholesale grocers of Toronto to extract a large profit from the retailer on granulated sugar. The profit that the combine openly state they are asking is only 1/2 per cent, whereas, in reality, today it is nearer 3/4 per cent. There might be some justice in this if it extended to the city of Toronto in any direction can buy granulated sugar at least 1/2 per cent cheaper than any grocer in Toronto. For instance, a man in Richmond Hill can buy a single barrel of sugar much cheaper than any man in the city of Toronto could buy a hundred.

SIR WILFRID'S PROGRAM. Will Visit France and Switzerland, Then Back to England and From There Sail for Canada. London, July 8.—Sir Wilfrid Laurier, the Premier of Canada, goes to Paris on July 17, and later he will visit Switzerland. Then he will return to England, spend a few days in London and sail Aug. 19 on the Labrador.

THE GOLDEN SUPPER MURDER. Martin Thorn Admits Many Things, but Maintains He Did Not Kill the Man. New York, July 8.—The harbor police began the work of dredging for the missing head of Golden Supper at 8 o'clock this morning. Capt. Schultze of the harbor police sent three launches out at 7:40 o'clock with four expert grapplers. It is thought that the ferry was used and that the bundles were thrown off as the boat was moving through the water. If the work here is not successful the whole river will be dragged as far as Thirty-fourth-street, and across in the vicinity of the Navy Yard, and if a strong eddy, toward which the bundles if floated at all, might have slowly drifted. Martin Thorn still maintains a serene self-composure, but a break down is expected momentarily, although he still protests his innocence.

Why Mr. Tarte Didn't Go. Those who are curious to know why Mr. Tarte has not set out for Europe, as he has proposed some time ago, are informed to-day that Sir Wilfrid Laurier called to him to come to the Old Country under any consideration, and it is also said that the Premier like- wise forbade Mr. Tarte visiting the province of Ontario. A few of the Minister's friends admit that such despatches were received, but they have been too foolish enough to leave Canada with a broken mind, and members up in arms against him and doing all in their power to force him out of the Cabinet.

Hard Times in California. Cal. McBride returned to-day from the fruit centres of California. He went by the Canadian Pacific and returned States are in a very bad state. The farms of the Golden State are mostly in the hands of the alien, and the people are agitating for Government control of railways. General regret was expressed to-day at the death of John J. Lanning, for years connected with the Grand Trunk railway, and who was killed under four managers and was very popular. He was 43 years of age and had been ill of consumption for several years.

Other Notes From Montreal. Mr. P. P. Bell, in the Boundary country, wired the last payment to-day in many years of interest on the \$12,000. Mr. J. B. Murphy of Kingston had \$1200 in bank notes in his pockets when found dying at the Lawrence Hall. Offices to let, Confederation Life Building, Richmond and Victoria streets, 111-113. The Times from Simla says that Mr. M. L. Chamberlain's office, Brokers or Insurance Company, Confederation Life Building, Telephone 2331.

Legislation Against Diseases. London, July 8.—A despatch to the Times from Simla says that Mr. M. L. Chamberlain has introduced a bill embodying the Indian Office recommendations against contagious diseases in the army. The measure is strongly supported by Lord Dufferin, the Viceroy, and by Lord Wolseley, the commander-in-chief. Moonlight Excursion. Tonight (Friday) the Metropolitan Hall was company will run a moonlight excursion to Richmond Hill (the Highlands of York), leaving C. P. R. crossing, Yonge-street, at 8 o'clock, return at nine o'clock. New Fullman cars. Fare for round trip 25 cents.

Where is Frank Hayes? The parents of 14-year-old Frank Hayes, 23 Regent-street, are anxious regarding his whereabouts, as it is thought that he has been drowned. The lad has been missing since Wednesday morning, when he was dressed in a light coat and knickerbockers, black stockings, laced shoes and a dark skull cap. The police are looking for the missing boy.

AGAIN LOOKS LIKE WAR. The Sultan Appears Likely to Defy the Powers of Europe. MAY RESUME HOSTILITIES IN A WEEK. Claims He Has Been Given Neither Territory Nor Indemnity.

Turks Rapidly Strengthening Their Positions in Thessaly—Ready to Meet Germany and Russia—Who Would Undertake the Task of Coercion? He Asks—Edhem Pasha May Yet Advance on Athens—The Vienna Fremdenblatt Warns the Porte That the Harmony of the Powers is Not Impaired—Mr. Redmond, M.P., Visits the Fenians in Prison and Finds Their Condition Distressing—Other News by Cable.

London, July 8.—Gracco-Turkish affairs appear to be re-entering an interesting stage. Yesterday the Porte dispatched a circular to its representatives abroad containing a skillful defence of the Turkish case and declining to consider any frontier line in Thessaly north of the River Peneios, which it regards as the natural boundary. It appears that the Sultan has convinced himself that the powers will not resort to coercion, and has decided to test the alleged concert of Europe to the utmost. Monday he summoned a council of Ministers for an extraordinary sitting of the Yildiz Kiosk, with the result that, after a heated discussion, a report was decided upon in favor of resuming hostilities if peace should not be concluded within a week. The Minister of War sent telegrams to Edhem Pasha announcing the decision.

These accords, with all the news received for the last 10 days. The Turks are rapidly strengthening their positions in Thessaly, massing troops at Dhonoko, fortifying Velestina and in other ways entrenching themselves. The Thessalian harvest has already been reaped by the Turkish soldiery and large quantities of grain have been stored at Ellassona. The Sultan Will Resist. According to a circumstantial report of a conversation between the Sultan and an officer of his household, Abdul Hamed complained that the war had been forced upon him and that when he was victorious, Europe refused him either territory or indemnity. Therefore, he intended to resist to the utmost. He said: "We have nothing to fear. The six powers failed to coerce Vassos and his 2000 adventures. What can they do against 300,000 victorious troops in Roumelia? Supposing they wished to coerce me, who would undertake the task? I have information from all the capitals of Europe indicative of the indecision of the powers. "Edhem was a fool not to have surrendered the Greek army and to have undertaken the task; but he may be there yet. If no concessions are made within a few days, I shall give the order to advance. We can dictate our own terms from the Acropolis. Everything is ready for immediate action. According to the report, the Sultan discussed the possibility of Russia and Germany attempting coercion and defeat of the Greek army. The Sultan met them and was entirely ready to meet them both. The foregoing may be perhaps only a bluff, as the Sultan has not yet undertaken the task. The Sultan met them and was entirely ready to meet them both.

Princess Kaiulani is off. London, July 8.—Princess Kaiulani, niece of Queen Liliuokalani, and her sister, Princess Kaiulani, are expected to leave for Hawaii, who has just returned from a visit to London yesterday. The Princess Kaiulani is a maid. Mr. Cleghorn, father of the Princess, and Col. MacFarlane, former British attaché in Honolulu, are expected to meet the Princess on her arrival here and presented to her a number of ladies. Shortly afterwards Mr. Cleghorn called at the British Foreign Office. Hum. Nordenskiöld's death. The men mentioned will be permitted to return to Cuba. REDMOND VISITS THE FENIANS. They are in a Desperate Condition, but Their Cause Was Desperate. London, July 8.—Mr. John Redmond, M.P., the Parliement leader, by special permission of the British Government paid a long visit on Jubilee Day to the Irish political prisoners in Portland Prison. Throughout that day he stayed with them in their cells, and he tells the Associated Press that some of the cases are desperate. Henry Wilson and Burton, Mr. Redmond adds, are completely and hopelessly ill. Harragan is desperate, and if released, will have to be restrained, like Dr. Thomas Gallagher and Albert G. Walked With Young Ryan to the Druggists' Where She Bought the Poison to Kill Her—Did Gammage Turn Her Daughter From Her Door Two Years Ago—This Was the Girl's Story, But Her Father Denies It—An Inquest To-Day.

Maggie Gammage, the 18-year-old daughter of Silas Gammage, laborer, living at No. 7 Mechanics-avenue, induced by taking strychnine at the house of a friend, Thomas Ryan, of 305 Lindsay-avenue, yesterday afternoon about 2 o'clock. The girl had not lived at home for nearly two years, and for some time past had been in the service of Rev. Alex. McGillivray at 281 Lansdowne-avenue. She had been on a vacation for a week and spent it at the Ryans'. The cause of the suicide is that the girl had been betrayed by a young man in the city.

On Wednesday night about 9 o'clock Maggie Gammage went to St. Patrick's drug store and asked for strychnine, saying she wanted to buy it for her mother, where she has not lived for nearly two years. Young Wilbur Ryan accompanied her from the house to St. Patrick's, but says he did not know what Maggie Gammage was doing. He says she was alone when she took the poison, and that she had been in the city for some time. He says she was in the city for some time, and that she had been in the city for some time.

THE SLATER SHOE

"The Slater Shoe"

couldn't be sold for less money—and it is sold for what it is worth—no more, no less.

The Slater Shoe is made for the least money that such a shoe can be built for. Every pound of material is figured down to fractions on price before it is purchased. Every piece must pass inspection before it is accepted. Every minute of time, too, in the factory must count. There isn't a thread wasted.

Good workmen spoil less and make more than poor workmen. The best skill that can be had in America is shown in The Slater Shoe.

Most shoe dealers get \$4 for a shoe that costs as much to make as the \$3 Slater Shoe—and no maker can make such a superb shoe for the same money—ours is the only factory devoted entirely to the making of men's "stamped on the sole" shoes.

Kitchener, July 8.—T. B. Darling of Hamilton, here with his wife on vacation, passed early and started off on a bicycle ride at the corner of Alfred and Brock streets. Mr. Darling collided with a street car. His collarbone was fractured, and his head cut and wounded.

Passing One by One.
Another old resident of Toronto passed away yesterday in the person of Mrs. Mary Burns, widow of Mr. Patrick Burns. The deceased lady was in her sixty-seventh year and was one of the oldest residents in old St. John's Ward, where she was born. She had been ill for a number of years, and she had been confined to her bed for several weeks. She was a devoted wife and mother, and she was a member of the St. Patrick's Church.

Yankies are Eminent Enemies.
Madrid, July 8.—The weekly de Gulpuzosa of Saint Sebastian reproduces the text of Japan's protest to the United States against the annexation of Hawaii, and urges the population to give an enthusiastic reception to the Japanese Ambassador in order to "demonstrate Spanish sympathy with a people which will not tolerate humiliations, and is able to come to terms with the Yankies, who are the eternal enemies of Spain."

ONTARIO MEDICAL COUNCIL.

Much Business Transacted in the Torrid Heat.

MAY BE LESS WRANGLING

As Future Elections Will Be by Open Voting.

There were many animated discussions yesterday—A number of complaints were considered and disposed of. The heat didn't stop the talk. The members differed in the mode of election of examination centres and members' indemnity.

At the morning session of the Medical Council of the College of Physicians and Surgeons the question under discussion was the mode of electing officers during the past two years. After several propositions had been laid before the Council in the way of motions and amendments it was decided that the elections hereafter should be by open vote.

Dr. Armour, St. Catharines, introduced a motion to the effect that Mr. Oakes' opinion be obtained as to the legality of the action of the Council of 1895 in levying a tax upon the profession for 1893-94. This was lost, the Council preferring not to pay for and publish an opinion which might possibly involve numerous lawsuits for the recovery of the fees.

The Discipline Committee (Drs. Bray, Logan and Moore), after considering the report of Detective Wasson, with the opinion that the case of Dr. Albert Severin, in connection with the Hindoo Remedies Co. of Windsor, Bombay and London, Kama Junior, the Indian Scientist and Lecturer, etc., is one for investigation, and recommended that the Council so direct the committee.

The cases of Dr. Robert Allen Clark, Kitchener, and Dr. John Kirkpatrick, formerly of Chippawa, how of Montreal, who were employed by the Munro, up committee considered should also be investigated.

The methods employed by Dr. Eva Fisher, Toronto Junction, of the Vivivi Co., were ordered to be investigated. Certain charges against W. E. Beesey were recommended to be investigated.

In the case of Dr. Walter Hamilton the committee recommended that the matter be taken until the matter is finally disposed of by the courts.

The report of Detective Wasson re Discipline Committee, which recommended that the Council consider it, be done so long as discussion kept place on some of the clauses, notably the clause relating to the practice, that he has known patients to be treated by a "Doctor of Optics" who told the patients that he was a doctor of medicine, and had given prescriptions to be filled at a certain drug store.

The Committee on Complaints presented its report, the principal recommendations being: 1. That the registrar inform Dr. D. A. Coon, Elgin, in reference to holding the Council responsible for allowing Dr. S. McGhie to continue to practice, that the Council has taken every legal means possible in such cases and continues to do so with the view of suppressing illegal practice.

The request of Miss Jean M. Wilson to be allowed to take the "oral" at a subsequent examination on account of having been ill before the oral examination was held before the oral exam was held at the next examination.

S. A. W. Bell's request to have his name added to the list of members of the Council was refused.

PAPERS AND DISCUSSIONS

On the Treatment of the Army of Paupers and Criminals.

Marked Ability Shows by Those Who Took Part in the Various Debates—Many Valuable Suggestions Made by Life-Long Philanthropists and Those Who Have Studied the Problem of Juvenile Delinquency and the Upbringing of the Fallen—Pleasure Not Altogether Ignored by the Distinguished Delegates.

If the papers to be read at the remaining sessions of the Conference of Charities and Corrections give evidence of equal dispassionate and thoughtful production to those read at the opening session, the day session of yesterday, will no doubt result in radical changes in opinion respecting the matter of paupers and criminals. Each and every paper was the outcome of years of experience, and each provided a discussion well calculated to impress new and improved ideas upon the many members who have session after session attended the incoercible.

The day's work began at 9 a.m. in the Normal School Building, taking the form of preliminary sessions. The Juvenile Reformatory meeting was conducted by Mr. W. G. Fairbank, superintendent of the reformatory at Middleton, Conn. Other superintendents present were F. H. Briggs, superintendent State Industrial School, Rochester, N.Y.; Messrs. Andrews of Vermont, Brown of Minnesota, Chapin of Massachusetts, Drake of Missouri, Nichols of Pennsylvania, Mr. Sickness of Michigan, Mrs. Ireland of Missouri, and Mrs. Amy of Illinois.

The meeting was presided over by Mr. McHenry of Minnesota. Mr. Woods of Maryland, Judge Lyman of the State of New York, and Mrs. Albee of Michigan.

The Child Saving Society.
Much interest was shown in this department. The meeting was conducted by Mr. J. J. Murray, superintendent of the State Reformatory and Reformatory for Women, Coldwater, Michigan, chairman pro tem of the Child Saving Society, which school at Owatonna, Minn., was elected.

Reports from the Humane Society and from the Children's Aid Society of Ottawa were read by the presenters. After being discussed for some time it was finally decided to strike out the clause.

The next clause recommended that the examinations be held in one place, either in Kingston or Toronto, and that a saving of about \$400 a year be effected.

Dr. Fowler again took up the fight in behalf of the East, suggesting that the clause of the clause would vitally affect the Medical College at Kingston, and would be manifestly unjust to people of that section.

A discussion followed, in which the following took part: Prof. H. Cooley, an Arber, Mich.; Dr. Charles S. Hoyt, New York; Mr. Frank Lewis of Ontario, Ont.; read a clear and interesting paper upon the medical colleges in Canada and its relation to Toronto.

The meeting on the subject of the "Home for the Homeless" was held at Kingston and Toronto. Dr. Moore vigorously supported Dr. Fowler's position, and in passing the clause the council would be stirring up a very hot issue.

Dr. Sangster thought that it was about time that the council crystallize its words into acts and economic measures. Dr. Rogers contended that the council would be in a better position to hold a meeting in Kingston and Toronto.

The next recommendation was to reduce the fee of each examiner from 15 to 10 cents, in each subject, which would be a saving of \$200. The matter was discussed for some time, after which the clause was passed.

Question of Salary.
There followed a lengthy debate on the recommendation of the committee to reduce the salary of the registrar from \$1800 to \$1600, and that of the treasurer from \$1000 to \$800.

Dr. Armour stated that for the first ten years of the council's history the salary of the registrar had been \$1800, and that the treasurer had been \$1000. He had kept on increasing until, since the year 1880, when the salary of the registrar was \$1800, and that of the treasurer \$1000.

The Finance Committee recommended that in the event of the salary being reduced the commission out of the registrar be allowed the salary of a stenographer.

THE TORONTO WORLD

ed towards making girls love housework. Some of the food was more desirable, men would be more interested in their studies.

The Devil's Peor.
In his paper on "Trades Teaching in Juvenile Reformatories," Superintendent T. J. (Chariton of Mainland, Ind., placed the matter of trades teaching in the hands of three classes, viz., "God's Poor," "The Devil's Poor," and "The Poor." In industrial schools he would teach the boys all the useful trades, driving teams, gardening and farming, and he would teach each trade in its entirety.

WISDOM OF SAVING MONEY

SAVING MONEY is a mode of wisdom. No one has patience with meanness, but frugality is not mean.

SAVING MONEY is a mode of wisdom. No one has patience with meanness, but frugality is not mean. Prudality is not only mean, but sinful. In the big store ample opportunity is given to exercise the wisdom of saving money, and this is emphatically the case in these July days, where every item is a bargain, anticipating the half-yearly stock-taking.

By their solicitor herein, W. N. IRWIN, Toronto, July 8, 1897.

TRADES COUNCIL

A Short Session Owing to the Hot Weather.—The Employment of Female Labor.—A Big Hire Commenced.—The meeting last night resulted in a very short session of the Trades and Labor Council. The Municipal Committee referred with approval to the action of the largest retail store in Toronto in making their employees to work only eight hours per day during July and August, and giving them a full half holiday each week. Reference was also made to the public meeting that had been called forth by the committee, and it was decided to refer the matter to the Municipal Committee in reference to the employment of female labor.

The Globe's argument in reference to the employment of female labor, and the opinion of the committee every female who entered into competition with males in the field of labor lowered the standard of wages, not only for men, but also for women.

The committee expressed their disapproval of the action of the Municipal Committee, and they also expressed their disapproval of the action of the Municipal Committee in referring the matter to the Municipal Committee.

The meeting was held at 11 o'clock, and was presided over by the Mayor. The Mayor expressed his sympathy with the Trades and Labor Council, and he also expressed his sympathy with the Municipal Committee.

SAVING MONEY is a mode of wisdom. No one has patience with meanness, but frugality is not mean. Prudality is not only mean, but sinful. In the big store ample opportunity is given to exercise the wisdom of saving money, and this is emphatically the case in these July days, where every item is a bargain, anticipating the half-yearly stock-taking.

Mr. Chamberlain's Rental of the Vacant Goldsmiths' Hall in London for the Jubilee Reception.

Colonial and British Merchants' action in leasing a vacant house in London for a single night for the purpose of giving a grand entertainment, concerning which much has been said in the despatches, as a very common practice in England, saves no end of expense and trouble.

The house hired by Mr. Chamberlain is one of the best known in Piccadilly, and it used to belong in times gone by to the wealthy Duke of Devonshire, who from his balconies would watch the parade in front of the office of running footmen before the King.

A Despatch from the Ottawa River Navigation Company has received a handsome illustrated tour book entitled "Snap Shots of the Ottawa River and Rideau Lakes." The book contains much information about the beautiful summer resorts and fascinating trips on their route between Kingston and Montreal.

The steamers of the Richelieu and Ontario Navigation Company, from Toronto, connect at Kingston with the steamer "James Swift" for Ottawa, where connection is made with the splendid steamers of the Ottawa River Navigation Company.

Parties making the round trip from Toronto via Bay of Quinte, Rideau Lakes and Ottawa to Montreal, pass through the most beautiful scenery in the province. Those planning a trip by steamer may obtain tickets and further information on application to Joseph E. Dolan, passenger agent, 2 King-street east.

S. Ackerman, Commercial Traveler, Belleville, with a large stock of Dr. Thomas' Electric Oil for Indigestion, Rheumatism, and three bottles offered a complete cure. It was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and have never been troubled, but have been since I, however, keep a bottle of Dr. Thomas' Oil on hand, and already recommend it to others as it did so much for me.
