Edict Issued Declaring an Attempt on
Her Life.

Foreign Fleet Assembling at Tien-Tsin and There is Considerable
Anxiety for the Future—Admiral
Dewey Ordered to Send Warships
to Near the Chinese Capital.

Shanghai, Oct. 3.—The Dowager Empress
has issued an edict in the name of the Em-
peror, declaring that Kang-Yu-Wel, the
Qantonese reformer, headed an attempt on
the life of the Dowager Empress, and con-
spired to subvert the Manchu Dynasty, in
both of which he has been detected and his
plans foiled. Therefore he and his partisans
were traitors and worthy of death.

Anxiety for the Future.
Washington, Oct. 3.—The State Depart-
ment has received the following telegram
from Minister Conger at Peking: "There is
no serious danger yet, but considerable
anxiety for the future. The foreign fleet
is assembling at Tien-Tsin, 80 miles from
Peking, and the Chinese are ordering marines to
be sent to the forts at the entrance of the
Paang-Hsi river, upon which Peking is situated,
but the fleet, being of small proportions, may
be able to reach Tien Tsin, 80 miles above
the mouth and about the same distance be-
low Peking. The officials keenly regret that
there is not now on the Asiatic station a
light draught gunboat of the Helena class,
which would ascend the river as far as the
Chinese capital."

Secretary Long, upon advice received at
the State Department showing the existence
of threatening conditions in China, has or-
dered Admiral Dewey to send two warships
immediately from Manila to a point as near
the Chinese capital as possible for a war-
ship to approach. The vessels selected for
this undertaking are the Baltimore and Pe-
tel. It is expected that the Baltimore
will not be able to get beyond the Taku
forts at the entrance of the Paang-Hsi river,
upon which Peking is situated, but the
Petrel, being of smaller proportions, may
be able to reach Tien Tsin, 80 miles above
the mouth and about the same distance be-
low Peking. The officials keenly regret that
there is not now on the Asiatic station a
light draught gunboat of the Helena class,
which would ascend the river as far as the
Chinese capital.

France May Claim the Honor in
Africa, as England Has Done
in China.

Paris, Oct. 3.—Major de Brazza, the well-
known French explorer, speaking Sunday
at a meeting at Bordeaux to welcome M.
Liotard, who has just returned from Congo,
said that Major Marchand's mission had
just crossed a work that had been pursued
for 11 years. France was thereby enabled
to assist in settling the Nile question. He
insisted the neutrality of the Congo
waterway which had been regulated by the
intervention of the powers.

M. de Brazza proceeded to glorify the act
of Berlin, which he said had inaugurated
the principle of the new law founded on
freedom of trade and free navigation of
the great rivers of Africa.

The speech is important, as it suggests
that France will profess to be the cham-
pion of the "open door" in Africa, as
England has done in China.

MONTE CRISTO BOOMS.
Important Improvement in the
Showing-Velvet Syndicate Par-
chasing-Stock Quotations.

Monte Cristo, Oct. 3.—(Special.)—An
important improvement in the showing in
Monte Cristo is reported, but no infor-
mation is to be obtained, save that the
lower workings there are in the pay ore.
A large dump of ore is ready for the smel-
ter, but will not be shipped till the rail-
road to the smelter is standardized, when
the new spur to the mine will be in opera-
tion.

It is announced that the syndicate which
is operating Velvet has purchased land on
Sheep Creek, at the base of Sophie Moun-
tain, with the object of building a smelter.
Work on the new crosscut from the 350-
foot level in the mine has begun to-day.
An improvement in the showing of ore in
the lower level is reported.

A new seven-drum has been installed in
Deer Park and will be in operation on
Thursday.

There was more demand for stocks to-
day. There was considerable buying for
Virginia. The market shows signs of
steadiness and an upward movement is
probable. War Eagle was quoted at \$2.04,
Virginia 68c, Iron Mask 70c, Monte Cristo
25c, Deer Park 19c, Commander 15c,
Iron Horse 15c, White Bear 8c.

THE PALACE CAR BONZA.
Railroad Commissioners of the U.S.
Are Looking Into It.

San Francisco, Oct. 3.—The railroad com-
missioners are beginning their work upon
the Pullman Palace Car Company. The
expert accountant, Col. Polk, who is em-
ployed by the commission, has made an
inspection into the affairs of the Pull-
man Company, and the most startling dis-
coveries have resulted.

It is safe to say that the returns of the
Pullman Company exceed those of any
other corporation in the country.

Ferry Steamers Will Connect With
Nelson Until Remaining Part of
Road is Finished—Columbus'
Body Not at Havana—Buffalo
Architect Refused Acceptance
Into the Council of Quebec
Architects.

Montreal, Oct. 3.—(Special.)—Important
news was received at the office of the Can-
adian Pacific Railway to-day. It appears
that the construction of the Crow's Nest
Pass Railway will be completed to the
shore of Kootenay Lake to-morrow night.
The work has been pushed ahead steadily
for the past year, and now the greater
part of the undertaking has been accom-
plished.

Communication with Nelson will at once
be established by water on Kootenay Lake,
Ferry steamers have been constructed by
the C.P.R., with accommodation to all the
requirements until such time as the
remaining portion of the road is completed.
The company has two years within which
to complete the contract, and, notwith-
standing reports to the contrary, Mr.
Shaughnessy, the vice-president, states that
the terms will be carried out to the letter.

Not Columbus' Body.
One of Montreal's best-known Spanish
residents writes as follows:
"I have read that the remains of the
discoverer of America, Christopher Colum-
bus, were being exhumed at Havana. Now,
all the official world of Spain knows that
the remains of Christopher Columbus are
lying in the Cathedral of the City of
Santo Domingo, in the Republic of Santo
Domingo, and that the remains at Havana
are probably those of Diego Columbus, son
of Christopher, which were taken by mis-
take, or by robbing, from Santo Domingo, in
1795, when the Spanish dominion there was
surrendered to France."

The writer of these lines has seen the
sarcophagus of Havana and the remains
of Columbus in Santo Domingo; has ac-
quainted with the real discoverer of
these remains, and has seen the official
documents of the whole matter.

Won't Accept Him.
There was quite a stir here when it was
known that the Council of Quebec Archi-
tects had refused to admit membership
Mr. R. A. Waite, the well-known Buffalo
architect, who built the Ontario Parliam-
ent buildings, the Canada Life and sev-
eral other Ontario structures.

Mr. Waite was seen this evening, and
he said it was in order to be in conform-
ity to the Quebec law, that he had made
the application referred to in the following
letter:
Montreal, Sept. 23, '98.
R. A. Waite, Esq., Windsor Hotel, Mont-
real:
Dear Sir—Your application to become a
member of the Province of Quebec Asso-
ciation of Architects was carefully con-
sidered by the Council, but, upon the de-
cision of the legal adviser, I regret to say
that it cannot be accepted. Respectfully,
J. Verre, Secretary.

Vancouver, B.C., Oct. 3.—(Special.)—
The steamer Dirigo brings Alaska news.
J. Lousen was stabbed to death by
Alphonse Leclair, with whom he quar-
relled over cards 35 miles from Teslin.
J. Lousen died. Three Quebec men
saw the murder, followed Lousen, and
shot him dead.

to the patent couplings giving away.
His head and right arm were severed
from his body. The accident occurred
near Spuzzum. No one knows the dead
man's relatives. He came from the
North B.C. A label Ottawa hotel on
a valise was the clue to finding of
the body and the name O'Connor. The
Christian name is indistinct. The C.P.R.

SIGHT TO CHILL THE BLOOD

Joseph Cloutier Had to See His Child-
ren Burned to Death.

He Sang in the Village Choir and
While Away at Church His Home
Was Burned—It Was Afterwards
Found That the Insane Mother
Had Committed the Deed.

Montreal, Oct. 3.—News reached Mont-
real from Tring Junction to-day that it
is full of harrowing details. In the Parish
of St. Severin, six miles from Tring Junc-
tion, there was enacted yesterday morning
a tragedy that has horror bids fair to out-
class even the Nooty affair. Six years ago
Mr. Joseph Cloutier, a respectable farmer,
married Miss Mary Vachon, a young girl
of 18 years, the daughter of a widow lady
of the neighboring village. Life for them
was complete happiness, and four sweet
children added to the joys of their home.
The parish is two miles away, and Mr.
Cloutier sang in the choir. Mrs. Cloutier
is a handsome woman and bears the high-
est reputation.

Mr. Cloutier went to church yesterday as
usual, and during the service chanced to
look out of the window towards his home,
where his wife and little ones were when
he was horrified to see in that direction
flames, indicative of a house on fire. He
immediately gave the alarm. The priest an-
nounced the fact and the congregation was
dismissed in short order.

The distance was quickly covered by
strong men, and the fire was found to be
at the home of Mr. Cloutier's home. The
house could not be saved, but they saw in
the burning ruins the bodies of the four
children, the eldest of whom was 5 years
and the youngest but 4 weeks. Their death
was not the work of the flames, but of
violent hands. It was a sight to chill
one's blood, but, although in plain view and
bathed in blood, it was impossible. As
yet there has been no sign of Mrs. Cloutier,
but she suddenly appeared from a
small outbuilding, which had been spared,
and, going up to her husband, told him
she had killed the children and set
fire to the house. The unfortunate woman
was evidently insane, and it is feared that
the husband will also lose his reason. The
tragedy has created the greatest excitement
over the whole countryside.

Fergus, Ont., Oct. 3.—The executive of
East Wellington Liberal Association un-
animously decided to-day to call a conven-
tion for Monday, Oct. 10, instead of Oct.
21, as previously proposed, for the pur-
pose of selecting a candidate for the
vacancy in the Legislative Assembly for
this riding, caused by the death of the
late Mr. Craig.

PLEBISCITE RETURNS.

The Complete Figures Are Not Yet
In, But Prohibitionist Majority
Has Gone Down.

The Prohibitionist plebiscite returns from
a number of constituencies are still in-
complete, so that it is impossible to give
the total vote, but according to the latest
figures the majorities by provinces are as
given below. Later returns have increased
Quebec's majority considerably, thus de-
creasing the grand total in favor of pro-
hibition by several thousands. Summary:
Majorities For Against

Ontario	17,582	51,200
Quebec	17,840	17,840
Nova Scotia	17,840	17,840
New Brunswick	17,840	17,840
Prince Edward I.	17,840	17,840
Manitoba	17,840	17,840
Saskatchewan	17,840	17,840
N. W. Territories	1,922	5,200
British Columbia	538	1,200
Total Dominion majority for prohibition	62,928	51,200

Albora, Ont., Oct. 3.—The summing up
of the votes cast for and against pro-
hibition in North York took place here to-
day, and resulted as follows:
Votes cast for prohibition 1,636
Against 2,015
Total vote 3,651
Majority for prohibition 621.
Twenty-two ballots were spoiled and 18
rejected. The number of voters on the
lists in the riding is 5,004.

A CLEVER CAPTURE.

F. C. Robinson Runs Down an Al-
leged Fruit Thief.

Police Constable Dan Robinson, cham-
pion athlete of the force, had an exciting
chase early this morning after two alleged
fruit thieves. The constable was patrolling
his beat on Front-street east, when he saw
two men carrying three baskets of fruit,
walk around the end of the market and
cross West Market-street to the lane at the
north side of the St. Lawrence Hotel.

The men, seeing that they were being
followed, dropped the baskets and ran.
Robinson followed until he came to Col-
borne-street, and, knowing that he could
run faster on sidewalks than on cobble
streets, he made to head them off at Church-
street. Just as he came to a man near
Church-street he saw one of the men con-
sidering him, and placed the man un-
der arrest. The other man continued until
he got to Church-street, and then ran down
King-street to George-street, where he
made his escape. F.C. Robinson was on duty
on the lane, and he gave chase along King-
street, and saw the man leave the lane
and a printer by Trade. This police con-
sidered him an important capture for two
stake jobs by Mrs. Adams and Mrs. Ryan
in St. Lawrence Market; were broken into
on Sunday night and a quantity of fruit
stolen. The three baskets found in the
lane had been stolen from Mrs. John
Homan's stall.

The Washburn Railroad.
With its superb and magnificent train
service, it is now acknowledged to be the
most perfect railway system in America.
The great winter tourist route to the south
and west, including the famous Hot Springs,
Arkansas; Old Mexico (the Egypt of the
north); Texas and California (the land of
sunshine and flowers). Passengers going
by the Washburn reach their destination by
advance of other routes. Washburn trains
reach more large cities than any other rail-
road in the world. Detailed information
will be cheerfully furnished by any rail-
road agent, or J. A. Richardson, District
Passenger Agent, northeast corner King
and Yonge-streets, Toronto, at St. Thomas,

BOTH MOTHER AND BABE DIE

Mrs. Caroline Miskell-Hoyt Passes
Away Under Sad Circumstances.

One of the Most Beautiful of Ameri-
can Actresses—Granddaughter
and Niece of Two Torontonians
— Her Early Acceptance as an
Actress.

Mrs. Caroline Miskell Hoyt, one of the
most beautiful women on the American
stage, and wife of that eminently success-
ful playwright and manager, Charles H.
Hoyt, died at 2 p.m. Sunday at her home,
No. 25 East Thirtieth-street, New York.
Only a few minutes later her newborn
son died also, leaving the bereaved hus-
band a father without wife or child.

The death of this beautiful woman was
entirely unexpected. For some time the
friends of the family had been expecting
the birth of the child. Dr. Grandin and
Watts announced to Mr. Hoyt that a
girl had been born to him. "She will not
survive," continued Dr. Watts. "Your
wife is very ill."

He told him that Mrs. Hoyt was seized
with convulsions, immediately after her
child was born, and in spite of every medi-
cal resort, died. The baby survived her
only a few minutes. Mr. Hoyt was com-
pletely prostrated by the double bereave-
ment.

TO BE BURIED TO-DAY.

Mother and son will be buried Tuesday at
Mrs. Hoyt's home, Charleston, N.H. No
religious services will be held here.
Mrs. Hoyt had been in good health up to
a few days ago, and on Sunday last en-
joyed a small family party at dinner. The
fatal termination of her illness was more
of a surprise and shock for the reason that
the physicians had prophesied the happiest
results. At her bedside were her mother,
Mrs. Seales, and her sister, Miss Seales.

Her Canadian Career.

Caroline Miskell Hoyt was only 24 years
of age, and acknowledged one of the most
beautiful women on the American stage.
Some years ago, when living with her
father, Christopher Columbus Seales, in old
Barney Castle, at the corner of Church and
Gould-streets, she went for a trip to New
York, and, unknown by her family, engaged
for two years with Daly in that city. This
was barely 18 years of age. Daly,
though he accepted her at once, considered
her too young to bring out, so she started
with Mantel, being very ambitious. Sub-
sequently her family moved to Cincinnati,
and Mrs. Hoyt's grandfather was Jacob Seales
of this city, and she has an uncle resid-
ing here. Mr. J. W. Seales of Wellington,
there are no valid reasons why the local
passenger fares reduced by the company
should not be restored and the difference
in the North Bay line lease settled.

rumors which have been in circulation
since last night, that warrants have been
issued for the arrest of United States
Senator Mr. S. Quay and others prominent
in State politics, charging misuse of State
funds. District Attorney Graham this af-
ternoon stated that warrants had been
issued charging United States Senator
Quay, his son, Richard R. Quay, ex-State
Treasurer Benjamin J. Haywood and
Charles R. McKee, with conspiracy with
the late John S. Hopkins, formerly cashier
of the People's Bank, to make use of the
State's funds in stock speculation.

residence on Duke-street early this morn-
ing. Mr. Walker was a victim of con-
sumption and had been falling for several
months. He spent his holidays in Mus-
koka, and when he returned resumed his
teaching duties, but after 2 days he was
compelled to give up. He contemplated
going to California next month. Deceased
was 37 years of age and married a Miss
Roland of this city, who, with one daugh-
ter survive him. He was a native of
the County of Oxford, and was well liked
by all those who knew him. He was
Secretary of the local County of the Inde-
pendent Foresters. Interment takes place
on Wednesday the 5th at Ingersoll, Ont.,
his native home.

TRIED TO DROWN HIMSELF.

Joseph Clark, gunsmith, was brought to
this city yesterday by the Chief of Police
of Valleyfield, Que., and locked up on a
charge of insanity. Clark left for England
a few days ago, but was robbed of his ocean
steamer ticket and money in Montreal, and
returned home. At Valleyfield he be-
came violently insane, and threw himself
in the canal. He was remanded for eight
days.

Cyclone Victims Now Number Five.

Just at 2.30 o'clock this afternoon the
death took place at the hospital of James
McCarthy, the young man so badly hurt
in the Merrittion cyclone. He was very
greatly respected and a general favorite.
He was 20 years of age. This swells the
death list to five in the late cyclone.

A LITTLE SHORT OF MADNESS.

What an English Journal Says of
an Endeavor to Free Prohibition
—Grand Trunk Figures.

London, Oct. 3.—The Financial News
says to-day that the money expended in
Canada on the prohibition plebiscite is 1/2c
per cent. The Morning Advertiser, the organ
of the temperance cause, says that an en-
deavor to enforce prohibition in the
Dominion of Canada after the result of the
plebiscite in little short of madness.

Grand Trunk Standing.

The half-yearly report of the Grand
Trunk Railway, just issued, shows that net
traffic receipts for the six months ended
June 30 to be \$2,785,000, and the net revenue
\$700,000.

As a matter of comparison, for the same
period in the previous year the respective
amounts were \$2,600,000 and \$600,000.
Adding a small balance of \$15 to the sur-
plus of the half-year, leaves the total
amount available for the purpose of divid-
ing, \$1,000,000.

The passenger traffic on this favorable show-
ing returned payment of the full half-year's
dividend on 4 per cent, guaranteed stock,
amounting to the sum of \$1,000,000, or
64.4 per cent. In the half-year of 1897 they
were \$1,100,000, or 68.12 per cent.

The re-arrangement of the international
bridge at Buffalo will be renewed at an
early date.

Referring to the President's recent visit
to inspection to Canada, the report says
the Canadian Pacific dispute being settled,
there are no valid reasons why the local
passenger fares reduced by the company
should not be restored and the difference
in the North Bay line lease settled.

It is expected that the Victoria bridge
new double-track will be opened on Jan. 1.

PETITION DISMISSED.

Conservative Counsel Have Agreed to
Withdraw the Case.

Each Party to Pay Its Own Costs—
Harty's Son Cleared of the Im-
personation Charge—Not Sufficient
Evidence to Justify the
Voiding of the Election.

Kingston, Oct. 3.—This morning after
several witnesses had been heard, it was
found that the difficulty in getting and
keeping witnesses, seemed insurmount-
able, so counsel withdrew and had a con-
sultation, and it was taken as a sign that
the beginning of the end had begun.

Dr. Smyth left his place and took a seat
beside Mr. Harty and the two entered
upon a conversation, awaiting the return
of the counsel.

"Well," said Dr. Walkem, when the
lawyers returned, "we have had a con-
sultation and under the circumstances it
is perhaps better to come to a conclusion
at once. My learned friends and I have
come to the conclusion that although we
have been able to prove one of these cases
and might be able to prove another, yet
we can hardly hope to establish a suffi-
cient number of cases which would justify
the voiding of the election."

"Were we to seek an adjournment there
is no possibility of time, and it is there-
fore better for all parties that the matter
should be disposed of. We have there-
fore agreed to drop the matter."

Mr. Britton intimated the willingness
of respondent not to ask for costs.

"I was asked to state," added Dr.
Walkem, "in regard to the charge against
Dr. Jack Harty, Hon. Mr. Harty's son, of
assisting in the case, of an attempt at
impersonating a voter, that he is clear of
the charge. I have seen the affidavit of
Skelton, the person who he was said to
have attempted to impersonate, and he ab-
solves Dr. Harty, and we accept that
statement in the fullest way and so we
withdraw the charge."

The withdrawal was noted by the Court,
and at the same time the charge against
Dr. Harty was dismissed.

The petition was formally dismissed by
Chancellor Boyd in these words: "With
reference to this election petition which
we are here to try, we are told by the
petitioners counsel that having offered a
certain amount of evidence they have no
more to present. Up to this point there
is nothing to affect the seat. The effect
of Dr. Walkem's statement is that there
is no further evidence in support of the
petition, and it is therefore dismissed.
The respondent's counsel say that under
the circumstances they do not ask for
costs, and therefore we make no order as
far as costs are concerned. We will, as
usual, report to the Speaker, such cases
as we may think should be reported. That
ends this contest."

CROW'S NEST GRIEVANCES.

The Canadian Pacific Railway has sent
out a statement of its case in the matter
of the alleged cruelty to workmen on the
line. The company affirms that, so far as
it is concerned, there was no cruelty or in-
justice; that many men not used to hard
manual labor went to work and, naturally,
failed, and then claimed a grievance
against the company.

DISCUSSED FIRE INSURANCE

Quarterly Meeting of the Hamilton Board of Trade.

Geoph Board Considers Changes in Inspection of Weights and Measures Excessive—T. H. & B. Want to Carry Mails—Lucky Pupils Will Get Medals—Terra Cotta Kennels and Cattle Yard Spills—Hamilton Notes.

Hamilton, Oct. 3.—(Special)—A quarterly meeting of the Board of Trade was held this afternoon, the attendance was small. The members formally discussed the question of fire insurance, and the Board's Committee will hold a conference with the Fire and Water Committee of the City Council.

The Board of Health was in session for two hours this evening, but did little talk. Action in the case of the Terra Cotta Kennels, which residents of O'Leary street complained of as a nuisance was deferred for two weeks, when a special meeting will be held to deal with the question.

The separate school board this evening decided to grant medals to the two pupils who obtained the highest number of marks in forms one and two at the High School examination.

his cattle yards, so that the smell from them will not be so bad. There is likely to be trouble at the meeting of the Board of Works to-morrow night. Some of the members are annoyed because the chairman has not given reports of the work done and the expenditure for the same for the past six months. They claim he has wrongfully kept the semi-monthly reports back, a matter of fact the chairman of the Board, Ald. Dunn, has done more to improve the streets of Hamilton than any other chairman.

Ald. Neiligan will introduce a bylaw at the meeting of the board regulating the use of bicycles in the city streets. It is based on the bylaw enforced in Toronto.

George T. Simpson of the Simpson Power Company has been summoned on a charge of illegally consuming electricity belonging to the Hamilton Electric Light and Power Company. He is also charged with removing the same company's wires without authority.

A bicycle was stolen from Andrew Rogers, plumber, yesterday. James Taffe, a tough, who has been wanted for running a gambling game at the Stoney Creek Fair, was captured at the C.P.R. station this evening.

John McManus, McConley-street, who was scolded at "moonshine" has been brought to the General Hospital here.

Lucien Sanlan of New York will lecture on Socialism in the Arcade Hall on Wednesday evening. Admission free.

Soil Smith Russell and his eleven company will put on the comedy "Dieck Dick" at the Grand Opera House to-morrow night.

The bicycle race to the Beach between William Hunter and Frank Howe was won by Hunter by 2 minutes. Both men weigh over 210 pounds.

Fire broke out at 4 o'clock yesterday morning in J. Kardak's bakery at the corner of the Ontario Street and West street. The cause is unknown.

A typhoid fever epidemic has struck Ontario. The Provincial Medical Health officer is taking steps to prevent the disease spreading.

Owing to the sudden death of Mr. Wm. A. Allan at his home, Kings-bridge, the request of the Hamilton Board of Trade respecting the changes made in the inspection of weights and measures, which the Geoph Board considers excessive, the matter was referred to the council.

The secretary was instructed to look into the matter of the mail service on the line of the T. H. & B., the company having suggested it be awarded the mail carrying in lieu of the stage service.

G. S. Evans of the Westinghouse Air Brake Company resigned from the Board, as he is leaving Canada.

Will Grant Medals. The separate school board this evening decided to grant medals to the two pupils who obtained the highest number of marks in forms one and two at the High School examination.

FENSOM GETS ANOTHER SHOW

Council After Long Year and Living Night Couldn't Let Contract.

For City Hall Elevators and Will Advertise for Fifth Time—The Latest Meeting of Council in Many a Long Day—City Has Offer of T. A. C. for \$70,000.

Throughout a long and most eventful October afternoon and night, from 3 p. m. to 2 a. m. yesterday, Council fought, jabbered and abused one another. The result of one of the liveliest and shiftest sessions enacted since the zenith of the Aqueduct fight was that a decision was arrived at to call for new and exclusively hydraulic elevators for new city hall elevators for the fifth time.

As stated exclusively first by The World, the Mayor has been negotiating for the acquisition of the Toronto Athletic Club property for technical school, public baths and public gymnasium. The result developed yesterday when an offer was read to Council to sell the city the property for \$70,000.

The offer from the T. A. C. The offer was couched in language as follows: John Shaw, Esq., Mayor: I have received instructions to submit to you for technical school, public baths and gymnasium, including fixtures, furniture and all equipments of the club. As you are desirous of having there is a very fine building on the property, costing over \$30,000; the grounds cost \$40,000, and the furniture and fixtures over \$15,000—total exceeding \$125,000. There is an encumbrance upon the property amounting to over \$75,000, but I am instructed to make an offer at less than this figure if it is accepted in cash and completed at an early date. If this can be done we are prepared to give the city the property for \$70,000. This sum is at 25 per cent, will represent a very small rental. For whatever use the city may see fit to apply it. The building is so substantially constructed that it could be utilized for any purpose without hesitation or possible injury to it. There are a great many advantages to be derived by the city from the purchase of the premises, and I am instructed to request you to have the matter brought before the Council at the earliest date, and if a committee is appointed to look into the matter, I am instructed to have them meet and place the whole matter before them in its proper light. Trusting that you will be able to give the matter your full attention and bring it up, at an early date, before the Council, I remain, yours faithfully, A. O. Heron, Chairman.

Then a Little Squabble Begun. Then came a struggle between the Board of Control and Property Committee as to who should pick this little bone. The Mayor has a right to a committee, but it was a question involving expenditure, and that it came therefore within the jurisdiction of the "Big Four."

Ald. Lamb held the reins of the "Property Committee," and it soon became patent that it is a hopeless task for a committee of four to complete the work of a committee of five. "If the Property Committee deals with this as expeditiously as they have with the St. Lawrence Market improvement scheme," retorted Ald. Denison. "And if the Board of Control charges the Mayor with leaving it to the Property Committee to deal with it, then it is a question of who is to be blamed for the unwholesome Technical School Board."

Ald. Denison knew both buildings, and was satisfied that the market was the more important. He asked the Mayor if it was a Technical School. It is also proposed to use it for a public gymnasium and public baths. It is a financial matter, and the Board of Control should therefore deal with it.

"But," persisted Ald. Sheppard, "isn't it a fact that all things coming up have a financial aspect?" Ald. Denison replied: "Yes, but it is a question of who is to be blamed for the unwholesome Technical School Board."

An Alderman Surprised. Ald. Bowman, Mr. Mayor, I am surprised to hear you talk that way. It was but a short time ago when you shifted the responsibility of dealing with the market to the Property Committee. That involved an expenditure.

The Property Committee is composed of the Council, so, needless to say, they won out when Ald. Lamb moved to refer the offer to them.

It Will Be Stirred. Ald. Denison got anxious about the questions put moons ago to Architect Lennox, and by Council ordered to be answered to the city's legal department. Mayor Shaw was asked to answer the questions.

Who Bosses Street Railway? The old question as to who is given authority over the Street Railway Company by the agreement, arose afresh when Ald. Woods moved to instruct the Engineer to request an increased service on Bathurst-street, from 25 to 30 cars, and on College, between the hours of 6:30 and 8 a.m., and 5:30 and 7 p.m. Ald. Lamb, forgetful of previous actions, proposed that the resolution should go to the Board of Works. The Engineer will report through the Board of Works.

The Works Committee will also decide whether Ald. R. H. Graham's proposition to construct a temporary bicycle path on the avenue, from Robinson to Carleton-streets, is to be carried through.

Will Go to Markham. On motion of Ald. Score and Lynn, the Council accepted the invitation of the president of the Markham Fair to grace the show by their presence. They will go out on Friday next.

In a view of the unsatisfactory manner in which many of the streets are inspected, it runs a notice of motion by Ald. R. H. Graham, "and that many of the inspectors are unqualified for the work, that a bylaw be introduced governing the appointment, the qualification and remuneration of inspectors for the various municipal works."

The feeling seemed to be strong against competing with private interests in commercial lighting and in favor of a limitation to plant for street lighting. The Mayor finally acquiesced in the proposal that the city should not be empowered to install a commercial plant. Ald. Woods wanted to tack on to the bill legislation to permit the Council to do as it saw fit—at least in principle.

The third protest was double-barrelled. It was a protest against the proposed sale of the Toronto Athletic Club premises, including fixtures, furniture and all equipments of the club. As you are desirous of having there is a very fine building on the property, costing over \$30,000; the grounds cost \$40,000, and the furniture and fixtures over \$15,000—total exceeding \$125,000.

without a plant. He had been told not to bid. The Engineer's figure was \$15,000, and the lowest bid \$15,421. The suggestion was that the difference would be more than compensated by the contractor's guarantee. Ald. Lynn moved, seconded by Ald. Sheppard, to give it a lower contractor. The Engineer's capabilities will be tested, the vote in his favor being 11 to 8.

The division stood: For the Engineer—Ald. Leslie, Hubbard, Burns, Saunders, Dunn, Woods, Lamb, Crane, Frankland and Richardson—11. For the contractor—Ald. J. J. Graham, Davies, Denison, Hanlan, Sheppard, Lynn, Score and Bowman—8. A Civic Plant.

Ald. Woods re-introduced in Council his proposal to apply for legislation to permit the city to own an electric power plant but it was defeated on this division: Yes—Ald. Dunn, Woods, J. J. Graham, Davies, Denison, Frame and Richardson—7. No—Ald. Leslie, Hubbard, Burns, Saunders, Hanlan, Lamb, Crane, Sheppard, Score and Frankland—10.

Elevators Again. It was about 10 o'clock when Council resolved back into committee to begin the twentieth and knock-out round on elevators. Ald. Denison repeated his motion, but it was again defeated. The Engineer's reply to refer back the Board's report. There had been all kinds of rumors floating in the air, he explained. Some aldermen had actually been called upon by detectives. There was no objection to that, for the one who visited him was a good-looking fellow. Then Ald. Denison introduced a new offer from Fensom.

Ald. Denison's Letter File. In a letter to Ald. Denison, under date Sept. 25, 1935, the company offered to install five elevators, complete and according to specifications, for \$30,000, as tendered by them before, and bring their claim several thousand dollars lower than the lowest offer for electric elevators. For some reason they say this offer was never submitted to Council. If the city preferred to buy the ornate enclosures and cars direct from the makers they offered to deduct \$10,000, making it \$20,000 for everything outside of the ornamental iron work.

In support of this appeal he made an appeal to help the home industry. Returning to the detective, he told how the latter had called, as he alleged, "to find out all about the elevator matter." He threatened if the company did not withdraw the offer, he would make a declaration made before Saturday night, the matter would be ventilated in the "World."

Help Home Industry. In support of this appeal he made an appeal to help the home industry. Returning to the detective, he told how the latter had called, as he alleged, "to find out all about the elevator matter." He threatened if the company did not withdraw the offer, he would make a declaration made before Saturday night, the matter would be ventilated in the "World."

The Mayor Talks a Hand. After that the Mayor declared that he had given every opportunity. He provoked a long wrangle with Ald. Richardson and Denison, but the matter was not brought to a vote. The Mayor pointed out that whatever their reasons were they withdrew.

Ald. Denison declared that Fensom objected to the contract, not the specifications. He said that the contract was in the form of a well-known maker. Fensom's couldn't use their own pattern. Mr. Lennox could keep 10 per cent. of Fensom's money back for 10 years, and need not be satisfied with anything they did.

A Hot Chaos. Things were warming up. They had been charged with accepting a certain sum of money and the promise of a further sum of money, with accepting the promise of a certain sum of money in consideration that they withdraw their tender for elevators for the new civic buildings, so as to permit the City Company of New York to withdraw the above charges are absolutely false. Yours truly, "George H. Fensom."

GO AHEAD WITH THE MARKET. The improvement of St. Lawrence market is of more immediate concern than the enlargement or removal of the cattle market. There is a pressing necessity in the one case, whereas the other is a scheme looking a considerable distance into the future.

Interesting because reminding you of as fine and as large a collection of Home Needs and Furnishings as is your privilege to inspect. Interesting because representing goods that are worthy and dependable and that bear the imprint of honest quality. Interesting because conveying hints of how you can spend your money to the best possible advantage. These are worthy representatives from our Home Furnishing Departments. They have special merit and well deserve the prompt attention of home-owners and householders:

THE NEW YORK STATE CONVENTIONS. The two conventions that were held in New York State last week are important inasmuch as they reflect in a very large degree the sentiment of the eastern and middle states on the great national issues that are now before the people of the United States.

Archibald Blue Returns From an Investigation of the Immense Value of the Mineral. Mr. Archibald Blue of the Bureau of Mines returned yesterday from an exhaustive survey of the corundum belt in Hastings and Renfrew.

Will He Get His Price? The County of York and Mr. Chas. P. Rolis, a farmer of York Mills, are having a dispute over the latter's water-front on the Don River. Several years ago a spring freshet of the Don washed away a considerable portion of Mr. Rolis' land immediately behind the place where the county afterwards began the erection of a fine new bridge.

A NECESSARY WORK. An immediate and vigorous effort ought to be made to have Queen-street asphalted from Yonge-street to York-street, and if not that then from Terrace-street to Yonge. The whole effect of the new municipal pipe is destroyed by the roadway in front of it.

A Trolley Does Damage. Mr. George A. Mace of 44 Elm-street, an agent of the Carling Brewing Company, was struck by a swift trolley while driving along Front-street on Sept. 14. Mrs. Mace, Miss Mace and Mrs. Richard were the other occupants of the vehicle, and the Toronto Railway Company is now being sued for \$3000 damages for spinal injury sustained by Mrs. Mace and \$3000 for the car, it is alleged, was running at a speed of 30 miles an hour.

Wants Big Damages. William G. Harris, rag dealer, William-street, has issued a writ for \$10,000 damages against the Toronto Electric Light Company. The company, it is alleged, strung wires along his warehouse without his permission, and these being defective, fell, causing the fire which destroyed his building a couple of weeks ago.

BIBLE TRAINING SCHOOL

Opened Yesterday Afternoon—Dedicated to the Memory of the late Rev. Dr. McTavish. The large auditorium of the Toronto Bible Training School, 110 College-street, was crowded yesterday afternoon with the students, friends and promoters of this institution, when the beautiful Gothic building which they have just erected was formally opened and dedicated.

The school was opened in September, 1894, with an enrollment of 12 students. During the four sessions it has been in operation, 157 different students have attended evening classes, and 346 the evening classes. Already nearly 50 of the former and 30 of the latter have gone forth to definite fields of labor. This City Mission is the largest number of our own donors who have been engaged in Sunday Schools, Missions, and other branches of church work in their own localities.

Mr. Harris then introduced the representatives of the various denominations and Rev. G. E. Clark, Methodist, Rev. F. Congregational, Rev. W. Weeks, Baptist, and Rev. H. W. Frost of the Inland Church Mission, in the order named, addressed the school on "God's Estimation of His Own Word," using as his text Psalm 138, second verse. He handled his subject in a public manner, viewing it from four different standpoints. First, God estimates His word above nature; second, above all human institutions; third, above all human efforts; and lastly, Christ as the centre and sum of all Scripture.

Archibald Blue Returns From an Investigation of the Immense Value of the Mineral. Mr. Archibald Blue of the Bureau of Mines returned yesterday from an exhaustive survey of the corundum belt in Hastings and Renfrew. He is convinced of the immense value of the deposit, which can be traced for 50 miles, and is of the greatest value to the province.

THE SLATER SHOE "Slater Boot Trees." The wear and shape retention of a shoe may be doubled if, when taken off the foot, it be put on a tree of the exact shape of the shoe. The leather thus regains its elasticity and fiber tension and the shoe its form. Valuable to wearers with a tendency to run over on heels. A good idea is to have two pairs of shoes alternately "tree'd" and worn. Each pair will thus give double service if allowed a rest-day between wear-days. Trees to fit the various shapes of Slater Shoes, at \$1.00 per pair.

NO OTHER WEEK BEGUN

Ralph Stuart and Florence Stone Score Success in "The Iron Master."

Good Bills at All the Theatres - The New Woman at the Grand - A Laughable Irish Farce at the Toronto-Other Amusement Notes.

Those who have seen Mr. and Mrs. Kendall in the great play that is always associated with their name, "The Iron Master," may have thought that Mr. Robert Cummings was undertaking a big bill when he announced that he would play this week the attraction for the popular Princess Theatre, but those who saw the play yesterday afternoon and evening will think that the Cummings Stock Company is capable of almost anything. There was not a hitch, even in the afternoon performance, and it is gratifying to note that the attendance was large both times. Mr. Cummings is from week to week giving Toronto people the best productions in legitimate and classic drama, and deserves the patronage which it is pleasant to say he and his company are getting. As to the performance of "The Iron Master," it must be said that Mr. Ralph Stuart scored the same success that has attended him in other roles, and proved himself an actor of the first rank. Next in importance in order of merit, is Miss Florence Stone, whose portrayal of the high-strung, proud and haughty heiress, whom adversity crushed in the end, was an impersonation worthy of any stage, and drew tears from many eyes. Apart from the two leaders, the cast was admirable. Miss Lillian Andrews was natural and effective as Marquise de Beauville; Miss Nellie Marshall proved a capital trouble-maker and flirt, while Miss Nellie Walters and Miss Lillian Ward furnished good support in the parts allotted to them. Among the gentlemen Mr. Love, as the unprincipled, self-seeking Duc de Bligny, was so exact as to make the audience hate him; Mr. Grady took the part of a young man, and proved himself a good example of a gentleman, yet he was perhaps less effective than in the "crusy old man" parts that the people are accustomed to see in the hands of worthy of special mention was that of Mona, Moulton, which Mr. Cecil Kingstone filled with excellent faithfulness, and furnished the only comedy element in the strongly emotional and serious work in hand. Mr. Barry O'Neill made himself popular as the self-sacrificing son and ardent lover, and the cast as a whole was strong in fact. "The Iron Master" is one of the best of the many fine attractions Mr. Cummings has given. The play runs all week.

Bobby Gaylor Gay as Ever. Bobby Gaylor is here again, and made a decided hit at the Toronto in "McSorley's Twist" last night, though he was a continuous hit from beginning to end. There were times when the audience thought it was a little overdone, but he was so good, that the particular object of their disapproval happened to be particularly good. May we wish, for the sake of the actor and the play, that he were as good as the ordinary, with a voice well-trained and of good quality. A fair minority appreciated the best of the many fine attractions Mr. Cummings has given. The play runs all week.

Joe Harris Star. The engagement of Joe Ott, the high-class comedian, at the Toronto next week, is one of the most important of the season. In securing a superior quality of dramatic offerings for its patrons, Mr. Ott is a genuine benefactor, and his play, "Look-Your-Trouble," is said to be a real comedy. The engagement begins Monday night.

Toronto Chamber Music Association Concert. The plan for the Danforth Quartet concert opens at Northmen's on Wednesday evening at 8 o'clock. Everyone who enjoys the true and good in music should be present at the concert on next Thursday evening.

usual, and she was refused a recall. McSorley's Twist, on the whole, is a good play of its kind, which is a very rare commodity of the lightest sort going, with plenty of songs and dances thrown in on a goodly scale. Bobby Gaylor, who plays the part of the Irishman, does not need a special introduction to Toronto. He is no new figure on a Toronto stage in those Irish roles of his, which he has not down in the past. Bobby Gaylor is well known as he deserves, however, is Frank Lator, who, as Michael Clancy, the headman of Denis McSorley, the New York retired policeman and ward politician, kept the house in a roar. Grace Cummings and Kirtie Wolfe made a very good "pair of twines" in their dancing, too, immensely. McSorley's Twist is a drama that will run any risk of becoming a classic in stage literature, but it is a good, clean sample of the class, and the people who do not have a laugh, they can stay away. It is full of hits that would take on a new side better than here, but there is a new side staged and mounted, and ought to be well staged. If you want a good laugh go to the Toronto this week, sure.

"A Female Drummer" at the Grand. The great expectations that had been kindled as to "Female Drummer" were fully realized. The large audience that gathered at the Grand Opera House last night, although critical, were evidently well pleased with the entire performance. Applause was not only frequent, but at the fall of the curtain on each act, it was fairly entitled to be designated as enthusiastic. Miss Johnstone Bennett was of course the host, and she was certainly a success. She has all the necessary force and easy style for such a part, and enters into the spirit of the character with a zest that could hardly be equaled by anybody else on the list. Her scene with Mr. Love, as the unprincipled, self-seeking Duc de Bligny, was so exact as to make the audience hate him; Mr. Grady took the part of a young man, and proved himself a good example of a gentleman, yet he was perhaps less effective than in the "crusy old man" parts that the people are accustomed to see in the hands of worthy of special mention was that of Mona, Moulton, which Mr. Cecil Kingstone filled with excellent faithfulness, and furnished the only comedy element in the strongly emotional and serious work in hand. NO REBATE ON CUTTINGS, Says Minister of Inland Revenue in Letter to Cigarmakers.

The second annual convention of the Dominion Cigar Manufacturers' Association was held yesterday morning in the Council Chamber of the Board of Trade. The business after the preliminaries was the cancellation of the membership in the National Cigar Association. A letter was read from the Minister of Inland Revenue, stating that he was of the opinion that a rebate of the duty on cuttings, as requested by the Association, was not in the interest of the public. The President's address followed, and was post-poned until the afternoon session. A paper was read on "Inland Revenue System" by Mr. J. M. Fortier. This paper was a criticism of the book keeping system of the Revenue Department, accompanied by suggested improvements for the accommodation of the cigar men. President's Address. The President, Mr. J. Bruce Payne, read his address at the afternoon meeting. During the course of his remarks he reviewed the work that had been done during the past year by the association. The question of a rebate on tobacco cuttings was discussed, and he stated that as yet they had received no satisfaction from the Government, but were sure that their request would be granted by the Minister of Inland Revenue. The question of smuggling was also referred to as being a very serious thing to the trade, and he suggested that the Government be asked to keep a good look out for smugglers along the coast and elsewhere from Porto Rico. The Secretary and Treasurer read their reports, both of which were satisfactory.

It was moved by Mr. Geo. T. Tuckett that the book for the year 1898 be approved and seconded by J. Bruce Payne, that the Association tender a vote of thanks to the members of Parliament who so ably

helped the executive on their various visits to Ottawa. The banquet followed. After a great deal of discussion about the rebate on cuttings and dishonest vendors, Mr. M. Hirsch of Montreal read a paper on "My Experiences as a Retailer." The meeting then adjourned till to-day.

About thirty members of the Association sat down last night at McConkey's. The banquet was given by the Western manufacturers to their Eastern confreres. Among those present were the following: George Tuckett, Hamilton; M. E. Davis, Montreal; J. Bruce Payne, Montreal; Andrew Wilson, Toronto; W. B. Reade, Toronto; O. H. Brewer, London; M. Hirsch, Montreal; W. G. Reade, Hamilton; R. D. McPherson, London; G. A. McGowan, Kingston; L. O. Grothe, Montreal; George Milligan, Toronto; John Michaels, Montreal; J. Fraser, Montreal; J. M. Fortier, Montreal; C. H. Nelson, Montreal; M. E. Spilling, Toronto; F. J. Fair, Montreal; F. W. Hamilton, St. Catharines; M. Symon, London; E. Youngheart, Montreal; W. S. Russell, Berlin; P. Paulin, Brockville; E. N. Cusson, Montreal; F. Oberdorfer, Kingston; M. K. Halloran, Brantford; H. Gagner, Montreal; Major Orchard, Montreal, and Julius Engel, Montreal.

Telegrams of regret were read from Hon. Mr. Paterson, Controller of Customs; James Sutherland, Liberal Whip, and C. H. Parmelee, member for Shefford, Que. The toast of the Queen was received with all honor, and was replied to by Mr. W. G. Reade, Hamilton; "Our Eastern Confreres" through Mr. J. Michaels of Montreal to his feet. Mr. Michaels replied to a toast in suitable terms. "Our Guests" was replied to by Mr. Andrew Wilson. The banquet broke up after singing "God Save the Queen," everyone declaring that a most enjoyable evening had been spent.

MINES AND MINING STOCKS

News from Several of the British Columbia Camps.

Full Details of the Silver Bell Re-organization—The Golden Cache—Steal-Rich Ore in Stenwinder—On Okanagan Lake—Nelson-Poorman Stock—On Phillip's Arm—General Notes.

Full details are to hand regarding the meeting of Silver Bell shareholders, held on the 24th inst., at Rossland, for the purpose of reorganizing the company. The meeting took place at the office of Macdonald, Crote & Cronin.

The Silver Bell Company owns a valuable property on Deer Park Mountain, but after sinking a shaft of some 90 feet, installing a good plant and making a wagon road to the railway, funds became low, and the original promoters having sold out the mine was closed.

The rest of the story is easily told. The company's shares were non-assessable, and only 2000 shares remained in the treasury. Every effort to secure enough proxies to hold a meeting of the shareholders was of no avail, and the stock declined so low that some of it changed hands at one-half cent.

John Harris, the resident, corresponded with some of the shareholders in the east, and Capt. Currie of the firm of Currie & Kiteley, Toronto, undertook to secure the necessary proxies for reorganization.

He secured proxies for some 600,000 votes, which, added to those held in Rossland, enabled the company to hold its meeting and transact business.

The result was that at which a resolution was unanimously adopted disposing of the assets of the company to Mr. Currie for the new company, which will be known as the Silver Bell Consolidated Mining Company.

The new company will have 1,000,000 shares in the share capital, and funds have already been subscribed arrangements will be made to put men to work on the claim at once.

Those who have examined the property say that with about 15 feet more of sinking and about 20 feet of crosscut, the Silver Bell would make a mine equal to any mine in the camp at the same stage of development.

John Harris, William Hays and A. H. Macdonald were elected directors.

World's Vancouver Correspondent Sends Budget of News—(Special Correspondence)—There is a great deal of mining excitement in British Columbia at present with stories of discoveries, and then never heard of again.

These stories were believed by newspaper correspondents, and were reported everybody—and as a consequence there were many bitter disappointments. A re-ception has set in, and only on the most convincing proof of the truth of the stories do the newspapers commit themselves to more than a passing reference in a general way.

Stock cannot be sold only after the very favorable reports of a recognized mining engineer of ability.

But Chicago Market Recovered Late Yesterday. Big Increase in Visible, Lower Cables, Large Receipts in the West, Light Demand and Lower Cash Prices Affected Values of Futures—Notes and Gossip.

Monday Evening, Oct. 3. Weaker cables, large primary and north-west receipts, an unexpectedly big increase in the visible supply, a falling off in the cash demand, and depressing news from Chicago all combined to exert a depressing influence on Chicago wheat quotations to-day, but the market is feeling lower, the close, futures making a net gain over Saturday's final figures of 1/2 to 3/4 per bushel.

Primary wheat receipts to-day, 2,580,000 bushels, against 1,914,000 bushels the same day a year ago. Primary corn receipts, 1,850,000 bushels, against 1,713,000 bushels, a gain of 137,000 bushels.

St. Louis wheat receipts the past week, 217,081 bushels, against 35,650 bushels the same day a year ago.

Russian corn shipments last week 36,000 bushels; Danish, 208,000 bushels.

English wheat visible is unchanged this week. During the corresponding week of last year there was a decrease of 108,000 bushels.

United Kingdom farmers' deliveries last week were 80,500 quarters, against 75,000 quarters the week before. The supply from home-grown and foreign wheat was about 4,250,000 bushels of about 220,000 bushels less than the weekly consumption.

Broomhall cables that recent rains in Argentina have done much good, Russian cargoes are being shipped more freely, Liverpool stocks of wheat decreased 680,000 bushels during September, and flour stocks increased 400,000 sacks.

Visible and Afloat. As compared with the same date of the visible supply of wheat in Canada and the United States has increased 1,350,000 bushels, that of corn has increased 1,750,000 bushels, and that of oats has increased 693,000 bushels.

Following is a comparative statement for the week ending to-day, the preceding week and the corresponding week last year:

Oct. 3, '98. Sept. 26, '98. Oct. 2, '97. Wheat, bu., 11,283,400 9,308,000 21,104,000

There are now on passage to the United Kingdom 13,020,000 bushels of wheat and flour and 4,880,000 bushels of corn. There are now on passage to the European Continent 8,900,000 bushels of wheat and 6,720,000 bushels of corn.

Receipts of grain to-day were light—2100 bushels of wheat, 1000 bushels of corn, and 1000 bushels of oats.

Wheat—Demand is light and prices incline easier at 42c for red and white wheat at north and west ports.

Barley—White oats quoted at 23c north and west and 23c east.

Barley—Quoted at 42c to 45c, middle freights, for No. 1.

Buckwheat—Prices nominal.

Ryan—Sells at 85c to 85 1/2c and shorts at 82 1/2c to 83 1/2c west.

Corn—American, 35c, at Toronto.

Peas—New peas are quoted at 51c to 52c north and west, in car lots.

Onmeal—Car lots of rolled oats, in bags, on track at Toronto, \$3.00; in barrels, \$3.70.
