OF ALL DESCRIPTIONS, AND

CARRIAGE STOCK,

Can be bought to better advantage from me, at the

CAPE BRETON FACTORY. NORTH SYDNEY.

Than elsewhere on the Island, for the following reasons:-

HAVE the Largest and Best Equipped Factory in Eastern Nova Scotia, fitted with steam power and latest machinery for the production of work of best quality at low cost I buy my stock direct from first hands, and in large quantities, which gives me lowest possible prices; and having by close attention to business and the requirements of my customers, carned a reputation for good work, and as I am here to stay, it is but reasonable to expect that I will exercise every care, both in the selection of my materials, and in the construction of my work. I am continually adding improvements, and the cut on this page shows my patent on EXPRESS WAGGONS, which practical users say is all that can be desired. I fully warrant every job and my guarantee is not only for the first year, but I agree to make good any part that may prove defective any time within ieason; and I am on the ground to do it. to do it.

I notice that some irresponsible parties are attempting to flood the market with a low grade of imported work, and while sales of them mean a big rush in our repair trade, still I think our people should reflect that in buying from those agents they do not know what they are buying, and the agent, if honest, will say that he really does not know what he is selling, and his guarantee is not worth much as the firm he represents is so far away that the freight on repairs will be probably as much as they would cost if made here at home. And further is it not time we looked to our manufacturing interests here in C. B, as too much money that should be circulated in our midst is sent abroad to enrich other places. By all means

patronize home industries, especially when you can do so at a saving to yourself.

My prices are low and my terms are made to suit every customer.

I am also Agent for the Celebrated BRANTFORD MOWERS, Etc.
