

NINE SCHOONERS FOR THE CONTEST

Big Event of Halifax Carnival Week Scheduled for Friday.

(Halifax Echo.) The schooner race, the great feature of the Halifax carnival for this week, will start at nine o'clock Friday morning. Such was the decision of the Halifax and Lunenburg committees which convened at Lunenburg over the week-end. All the most important details of the race were well arranged at this conference. The time limit for the race will be seven hours, thus starting from Breakwater, Halifax, at nine o'clock Friday morning, it will expire at four o'clock that afternoon. The Halifax committee which proceeded to Lunenburg on Saturday, consisted of Commodore H. G. DeWolf of the Royal Nova Scotia Yacht Squadron, W. J. Rowe, Captain Victor Johnson, and R. A. Corbett. It was fully realized when the details of the race were being worked out, that the event meant the expenditure of a large amount of money aside from the prizes which were offered. It will cost on an average to something approximating \$500 to fit out each of the schooners for such a contest. This expense the Lunenburg owners are willing to meet in part, if the balance is forthcoming through the Halifax committee. In other words, more money is needed to make this race the success which it deserves. The total cost will be no less than \$5,000. There are now nine entrants for the

contest. The names of schooners now entered, together with their captains, are as follows: Gilbert Walters, Captain Angus Walters; Delewana, Captain T. Himmelman; Freda Himmelman, Captain Alvin Himmelman; Independent, Captain Albert Himmelman; Bernie Zinck, Captain Danny Zinck; Democracy, Captain William Deal; Ruby Pentz; Mona Marie, Captain Ritter; Alcaza, Captain Roland Knickle. Six of the schooners are knockabout type, and three with clipper bows. As there is much local discussion in Lunenburg as to the merits of these types of schooners, the coming race is arousing very much interest. With the exception of two of the schooners, they are all under four years of age, and are either Shelburne or Lunenburg build. As an indication of what the race really constitutes, these vessels average in size a length of 135 feet over all and carry crews of fifteen each. Compared with the contestants in the international yacht race at New York this year, the Shamrock and the Resolute, the Lunenburg schooner in Friday's race measure on an average 25 and 29 feet more than the Shamrock and the Resolute respectively. The race promises to be a sight exceedingly unique in nautical racing in Nova Scotia, or for that matter in Canada, and is expected to attract large crowds even from long distances. Of these vessels, those which will not have arrived in Halifax previously will come up from Lunenburg on Wednesday and be all in readiness for the race on Friday morning.

MONTREAL TO HAVE AN AIR RACE ON SATURDAY

Montreal, Oct. 6.—This city will have its first air race on next Saturday when four Curtiss bi-planes will compete for the aerial league trophy in a series of races from the aerial field at the old Polo Grounds, St. Laurent in flights to St. Lambert and back, a distance of sixteen miles both ways. The Montreal branch of the British empire is offering a silver cup to be held by the winner for a year and if won by the same pilot two years in succession to become his property. The four contestants for Saturday are all Montreal men. The races will be the feature of the official opening of the 'Air Harbor' and aerodrome at the new flying field, St. Laurent.

JAP SCHOLARS STUDYING IN WEST

250 Professors and Graduates to Visit America and Europe in 1921. Tokyo, August 25.—Many young graduates from the university and many assistant professors are now going over to America and Europe from Japan. According to the recent Official Gazette, the Department of Education nearly every day orders some officials to study abroad. Already twenty-two students have been sent abroad by the Department of Education this year, among whom are Dr. Kunakura, professor of ship-building in the Imperial University of Kyushu, and Dr. Matsumoto, professor of paleontology in the Imperial University of Tohoku. Among those who have lately received Government orders to go abroad are several hakase or doctors, and about forty professors and assistant professors of college and high schools. They are all going to England, America, France, or Germany. Within this year about forty more will be appointed to go abroad, and in 1921 250 more will probably be sent. Those who have been ordered by the Department of Education to go abroad and are remaining there are, according to the investigation made by the department, 204 in number. The number sent by each institution is as follows: Department of Education ..... 29 Tokyo Imperial University ..... 26 Kyoto Imperial University ..... 20 Kyushu Imperial University ..... 17 Tohoku Imperial University ..... 9 Tokyo Higher Commercial School ..... 9 In addition, high schools and colleges have each sent from one to four students. Classified according to courses of study, they are: Engineering ..... 48 Physical science ..... 33 Agriculture ..... 22 Medicine ..... 39 Literature ..... 22 Economics ..... 22 Among the special students are Mr. Hattori of the Imperial University of Tokyo, who is studying hygienic chem-

FOR THE GOOD OF NEW BRUNSWICK Vote the Government Tickets in Saturday's Election

HOW TO VOTE There is no official ballot in this election. Take the ballot bearing the names of the government candidates to the polling place on election day; the returning officer will give you an envelope initialed by him. Go behind the screen provided for the purpose, fold your ballot and put it in the envelope. Do not seal. Return the envelope to the returning officer and voting is completed. DO NOT MARK THE BALLOT IN ANY WAY. In the event of your going to the polling place without a printed ballot the returning officer will hand you only a blank piece of white paper. You will then be obliged to write thereon the names of the candidates for whom you wish to vote. If you do this you must use only black ink or black pencil.

THE STUMPAGE RATES. Speaking in Moncton, Hon. C. W. Robinson said it was all very well for the leader of the opposition to move that during the last season the stumpage rate

be \$7.50 per thousand. Then the price of lumber was very high and laths were selling for \$16. Today there was stagnation in the lumber markets, and the yards from here to Campbellton were piled high with lumber, while laths were selling for \$8 to \$10 in the New York market. This condition, it might be hoped, was only temporary. But the government could not ignore the ups and downs of the lumber business when it fixed the stumpage rate.

GUARD AGAINST CHILLS

Simple Precaution Against Dangers of Cold and Damp.

Cultivate the habit of taking a cup of hot Oxo—a cube to a cup—before going out in the cold or damp. Such weather is a tax upon the system, and the strengthening and warming powers of the concentrated beef-goodness fortify you against the evils consequent upon exposure.

If the uses of Oxo are new to you, try a tin of four cubes. Oxo greatly improves gravies, stews, or soups, and is a delightful, sustaining and appetizing beverage. It is excellent for children.

Regular users of Oxo prefer the larger tins of 10 and 50 cubes, using them in many different ways in place of meat.

while their product is green in color, brings five times the cash value of the yellow metal mined. Other contenders are the barley men, with three times the gold output to their credit; the producers of the humble bean, with twice the gold returns, and the real "hayseed" contingent, whose stacks of dried grass represent four times California's far famed product.

GOOD GOVERNMENT TICKET
St. John City.
W. E. Foster.
W. F. Roberts.
W. E. Scully.
R. T. Hayes.

DEFAMING THE PROVINCE
The people of New Brunswick should resent the blue ruin campaign of the opposition. This province is not in sore straits. It has entered upon a period of progress. The future is bright.

A GREAT MEETING.

Premier Foster at the Imperial last evening exposed in the most effective manner the false assertions that are being made by opposition speakers regarding the acts and record of his government. He had the proof of his hand, and in one case was able to quote an influential Conservative to make a lying insinuation.

MISREPRESENTATION

The Standard, referring to Hon. Mr. Foster's speech last evening said—"He further was good enough to say that while he had a certain amount of respect for the farming community, he did not want to have any dealings with them politically."

A VAIN HOPE.

The St. John Standard agrees that the only hope of the opposition lies in a possible combination with the farmers to defeat the Foster government. Suppose that were possible. Would the people of St. John prefer an opposition-farmer government, led by Hon. J. B. M. Baxter, with the assistance of such politicians as Hon. B. Frank Smith, Hon. James A. Murray and Hon. Dr. Landry, to a government led by Hon. W. E. Foster? Surely not.

Vote the whole ticket on Saturday. Do not destroy with one hand the work of the other. Principles are at stake. It is not merely a question of men, but whether the policies of the Foster government are worthy of being supported and carried into effect.

The interests of St. John and the province will be quite safe in the hands of such men as make up the government tickets. Efforts to discredit them will react upon the other party, whose record cannot be hidden.

The elector who considers what the Foster government has done in three years and compares it with the old government record will have no difficulty in deciding which is best for the province. Friends of the government should work hard tomorrow to complete arrangements to bring out the largest possible vote.

Yesterday's Standard was a shout. Today's was a whoop. Tomorrow's will be a scream. It is claiming everything to sight. All its correspondents have evidently got their cue. They are enlightening government candidates and whole tickets with as much ease as the Copenhagen correspondent used to dispose of armies during the war.

At the residence of the officiating clergyman, Rev. Isaac Brindley, Miss Evelyn May Crawford, daughter of Mr. and Mrs. Andrew Crawford, 28 March street, was united in marriage with Albert B. Addison, son of Mr. and Mrs. Bruce Addison, Lech Loumoor road. The bride was becomingly gowned in a suit of navy serge with hat to correspond and carried a bouquet of Ophelia roses. The bride was attended by Miss Rita M. Bushey. The groom was attended by his brother, Frank Addison. Many beautiful presents were received including a set of china from the employees of T. S. Simms & Co., Ltd. The party motored to the home of the groom where a wedding supper was served. Mr. and Mrs. Addison will reside at 112 City road.

The marriage of Miss Winifred Margaret Lockhart and Ralph Jarvis, both of Moncton, took place in the Central Methodist church on Tuesday. The ceremony was performed by Rev. W. H. Barracough. Mr. and Mrs. Jarvis left for upper Canadian cities, and on their return will reside in Moncton.

**RECENT DEATHS**  
David Stiles, of Lutes Mountain, died on Tuesday, aged eighty-one years. Mr. Stiles married Miss Margaret McFarlane, of Dover, and Mrs. Hester Ann McFarlane, of Stillsville. Among the surviving children by the first Mrs. Stiles is Rev. William P. Stiles, of Fawcett Hill. Mrs. Eliza Edgar, of Hampton, is a sister. The funeral will be held this afternoon at Bonnell's Corner.

Montreal, Oct. 6.—The marriage of Miss Ruth Leigh Lordly daughter of Lieut.-Colonel and Mrs. H. R. Lordly of Montreal West, to William T. Birmingham, son of Mr. and Mrs. William Birmingham of Tacoma (Wash.), took place this evening at 7 o'clock at St. Philip's church, Montreal West. The bride was attended by her sister, Miss Helen Lordly as bridesmaid, and Miss Eileen Duff as train-bearer. St. Claire Holland was the best man. Mrs. G. Fred Fisher of St. John, Miss Lordly of Halifax and Miss Eleanor Lowe of Charlottetown, were among the guests at the wedding and are the guests of the bride's mother, Mrs. H. R. Lordly, Strathburn avenue, Montreal West.

**THREE GIRLS**  
London, Oct. 6.—Mrs. Davis, of Ouelton street, St. Francis, the wife of a blind man, has given birth to triplets, all girls. They are doing well.

The father, who has been blind from birth, may be seen daily in the streets, guided by a dog. He plays a concertina in an endeavor to maintain his family, which now numbers nine.

The death of Grace C. wife of John K. MacDonald, and eldest daughter of Martha M. and the late James A. Richardson, occurred yesterday at her home, 68 Queen street, after a short illness. Mrs. MacDonald is survived by her husband, one son, George, and two daughters, Helen, at home and Mrs. Verne L. Ward, of this city, also her mother, Mrs. Martha Richardson, and one brother, George H. Richardson, of Benford, and five sisters, Mrs. W. A. Finley, King street east, Mrs. W. J. Farren, West St. John, Mrs. Mont Jones, Newcastle, Mrs. E. Garrett, Benford, and Mrs. W. E. STRENGTH OF GOVERNMENT SUPPORT SHOWN AT LAST NIGHT'S MEETING IN CITY

PREMIER FOSTER AND COLLEAGUES GIVEN ENTHUSIASTIC RECEPTION

Effective Reply to Opposition Criticism; All the Candidates Heard by Audience Which Packed Theatre; Falsity of Opposition Statements Driven Home

The enthusiastic reception accorded the candidates of the Foster government in St. John city at the Imperial Theatre last night augurs well for the support being given to the party. The audience listened with rapt attention to many salient points brought out by the speakers and though the meeting lasted until eleven o'clock, and despite the fact that many were unable to secure seats the interest was maintained to the end. The rounds of applause were frequent and spontaneous as the excellent record of the Foster administration was reviewed and placed in striking contrast to the methods employed by the aspirants for power among the Murray-Baxter clique. The reception accorded Premier Foster showed without the shadow of a doubt his strength and that of his colleagues in the constituency. He dealt effectively with the charges concerning lime-rock site in Brookville and showed how hopelessly absurd and groundless were the charges made by opposition newspapers and speakers. P. D. McAvity presided at the meeting.

Mr. Scully. Mr. Scully was introduced as the first speaker of the evening. He was well received by the audience and did not speak at great length because of his desire to allow time to Premier Foster, Hon. Dr. Roberts and Mr. Hayes. But he spoke forcibly. He said he felt honored in being selected a second time as a candidate on the good government ticket and that if elected he would do all in his power to further the interests of St. John and the province as a whole. He thought the government was entitled to the support of working men for the legislation it had promulgated. The government had adopted the best of its kind in Canada—and a decided improvement over the old state of affairs. He explained, took up the case now so soon as it was reported and there was no delay in the injured person or his family receiving government aid.

He added that more progressive legislation had been enacted by the government of Hon. Mr. Foster than by any other provincial government in the Dominion of Canada in the last twenty years. Mr. Scully told his hearers that the comprehensive water power development policy of the Foster government was an important step in the right direction. Water power development with the supplying of cheaper electricity would be of great benefit to municipalities which would get light at nominal charges and would enable manufacturers to obtain power at the lowest possible cost. Power development meant much for the development of the province as a whole. The speaker paid a warm tribute to Premier Foster, Hon. Dr. Roberts and Hon. P. J. Veniot, minister of public works. Messrs. Roberts and Veniot had made splendid records in their departments—public health and public works. Mr. Scully said that the present situation called for a continuation of a progressive, business-like government, one the people could not get a better government than that which Premier Foster and his colleagues would give them to say whether they would have good government at Fredericton or not. He asked the people of St. John to send four men to Fredericton to support the Foster administration which had fulfilled all proper demands made upon it, but if the people did not support the government they would go back to the old regime. Mr. Scully was cheered when he sat down.

Hon. Dr. Roberts. Hon. Dr. Roberts' popularity was demonstrated again by the cordial reception he received. He said he was pleased to have the opportunity of addressing such a large and representative audience of electors of the city of St. John. The large audience enthusiastically applauded him when he said that he appeared as an ambassador for good government for the province of New Brunswick. He felt proud to be a New Brunswicker. When one considered that the province possessed beautiful mountains, hills and valleys, long stretches of agricultural areas, lakes and streams, when one considered that the province had mineral possessions, iron, coal and other valuable minerals; and when one considered that on two sides of this province there were two subsidiaries of the Atlantic ocean which provided a wonderful fishing industry; when one considered the water falls, none more numerous than in this province; when one considered these things, why should not the people be proud of being called residents of New Brunswick. When one considered the natural resources of the province one asked why other provinces with no greater natural resources and no greater gifts of nature were going ahead by leaps and bounds while we had made but little progress. The government of this province had been endeavoring to find out why the province had not gone ahead as it ought to have done in the years between 1912 and 1917. Were the gentlemen who had charge of affairs at that time carrying out beneficial legislation? No. The province was taking care of itself and the gentlemen in question were performing acts, to say the least, not

no longer a political or social question, but a fact. The question of enforcement was still an issue, and he wanted to say that he stood for the proper enforcement of the act. He would support any means which tended to give the people an opportunity to pass upon the question of importation, and he took it that they did not want importation. This election was not being conducted on political lines, continued Mr. Hayes. The government was not appealing to members of all parties on the strength of its record for good government. The citizens were looking very much more at the outcome on October 9. He trusted they would return the premier, Hon. Dr. Roberts, Mr. Scully and go to Fredericton as he considered he had earned some holidays; but he was a candidate, but he felt he had a duty to perform and he asked all good government tickets to support the government ticket on Saturday.

Premier Foster. Dressed with cheer and the sustained applause of the audience, Premier Foster then arose to deliver what was a succinct and clear account of his career. He reviewed the causes which had made it necessary for the Premier to withdraw from office in October, 1917, after three years of the government. He said that the party which he represented met to form its government in the autumn of 1917, he was chosen leader and since that time he has endeavored to carry out the policies which he has announced. He said he was standing for the continuation of the government of the province. With regard to the expenditures of the government, he said that a progressive policy should not be hampered by the absence of a few dollars. He said that the government must keep pace with the advancement of the rest of Canada. Names in the present campaign did not count for anything, he said, for the people were not voting for the persons but for their policies and principles. He said that he had said that it was standing for the same principles as it did in 1917 and in that case he did not think that any voter should hesitate to vote for the government.

Premier Foster then took up some of the criticisms that have been made at various meetings of the opposition leader and followers, and then, in a series of expositions of the true facts, described the financial condition of the province as it was at October 31, 1917. He said that the government had claimed in October, 1916, there was a deficit of \$1,000,000; but that the actual deficit was \$380,000 which had been entered as a payment on the part of the government. He said that the deficit was not in the warehouses.

Deals With Opponents. With regard to the statement made by L. P. D. Tilley that the Premier had been defeated, Mr. Foster said it was not for Mr. Tilley but for the people to say whether that was or was not. He said that personally he was not making any predictions, but Mr. Tilley had sat as a member from St. John in the house since 1912 and he did not know about the transactions that were made there by the Murray-Baxter clique. He said that he was not a representative of the people. Hon. Mr. Baxter, the speaker said, had criticized the issue of paying for bridges, roads and other important public works and yet he, while in power, had assisted in the issue of bonds, leaving the interest and principal without a sinking fund and without a time for the payment of the bonds. The opposition charges of extravagance, claiming a deficit of \$2,000,000 in four years were, he said, as false as the Premier's statement that the amount as he could prove was \$227,853.94, and a considerable portion of that was for the Valley railroad.

Payment for the roads, the premier said, would be made by the automobile owners of the province; he did not want the burden laid upon the working men and those who were not so well able to enjoy them as the motorist was. He also referred to the marketing of bonds in Great Britain, saying that he had been able to reduce the holdings of British investors by \$250,000 and had saved for the province some \$75,000 by watching the British money market. This had been questioned by a member from St. John named Mr. Potts, but he did not intend to pay any attention to Potts at all. (Laughter and applause.) Through Mr. Tilley had said the country was going into debt he had evidence to prove that the finances of the province were never in higher esteem with leading brokers and commercial houses than they are now. Reference was made to the marketing of bonds to the value of \$2,000,000 on the American market the speaker contending that a return to the normal, as exchange is becoming, it had meant a saving of \$100,000 or more to the province.

The Lime Purchase. Certain interested parties who, for their own reasons, had been antagonistic to the establishment of a government line plant for the production of fertilizer for the farmers at Brookville, had endeavored to bring the question into the political campaign and by publishing a series of false statements, made it appear that the purchase of the tract of land at Brookville by the government containing lime deposits was an unfavorable proposition from the standpoint of the public. They contrasted the purchase of the Melvin property, which contained about 116 acres for about \$5,000 or \$48 an acre and they had said in plain terms "it is a limestone tract." Any one who knew the Melvin property and who drove along the road between St. John and Rothsay, alongside of which it is situated, could see at a glance how very many acres were not limestone property at all and if the purchase price of \$5,000 was divided by the number of acres available for good lime rock, it would be found that the price was not so much different in the comparative prices paid as the opponents of the government would make it appear. As a matter of fact, the limestone property of H. C. S. Adams at Brookville was considered far more valuable than any other because, in the first place, it was situated on the shore of the C. N. R. at Brookville and, by the building of a very short spur, which has been done, cars could be run right into the mill and loaded at the smallest possible expense. In addition, it was adjacent to Dury Cove, where vessels could enter and be loaded with limestone for any point in the interior of the province along the Grand Lake and Washademoak and so far as Fredericton, with the expense of railway carriers. This advantage made the lime property of Mr. Adams

very much more valuable than any other in the vicinity. Now as to its quality; just so soon as these misstatements appeared in the press, the secretary for agriculture was communicated with and he replied at once, stating that E. N. Taylor, while director of soils and fertilizer investigations, had made a close analysis of the Brookville lime at Truro Agricultural College and found that the deposits at Brookville contained 83.15 per cent calcium carbonate. According to the published statement of the opposition the lime was only 91.4 per cent, and it was stated, at the same time that the calcium carbonate of the government lot bought from Mr. Adams was only 43.14 per cent. Where they got their analysis

nobody knew, nor what they analyzed was not known, but it might be surmised that they obtained their specimens from the first top rock ground by the new plant. In this connection it might be interesting for the public to know who sold the property to the agricultural department of the province. Bought From Political Opponent.

Independent Analysis. The government bought from Mr. Adams because he furnished them with proof of the quality of the lime that was on his property, backed up by the statements of such men as M. J. Butler, when general manager of the Dominion Iron & Steel Company. Mr. Butler, in a letter dated Nov. 21, 1910, gave the analysis of the limestone on the property of Mr. Adams as containing 86.74 per cent calcium carbonate. Again, Mark H. Spaulding, general manager of the Miramichi Pulp & Paper Company, Limited, in a letter dated Dec. 18, 1917, gave the analysis of the limestone of the rock at Brookville as 94.53 per cent. These certificates from such well known and eminent authorities would be accepted by the general public with far greater readiness than the statements published in the press.

Mr. Butler, in a letter dated Nov. 21, 1910, gave the analysis of the limestone on the property of Mr. Adams as containing 86.74 per cent calcium carbonate. Again, Mark H. Spaulding, general manager of the Miramichi Pulp & Paper Company, Limited, in a letter dated Dec. 18, 1917, gave the analysis of the limestone of the rock at Brookville as 94.53 per cent. These certificates from such well known and eminent authorities would be accepted by the general public with far greater readiness than the statements published in the press.

Would you Accept Skim Milk When you Ask for CREAM?

OF COURSE NOT! You know the difference. You know that all the goodness has been taken out of skim milk!

But do you know that exactly the same thing is happening today with the so-called Molasses, blends and table syrups with which the Canadian market is flooded?

Do you know they are taking 9 pounds of good sugar out of the gallon of cane syrup and selling you the refuse as Molasses! Or mixing it with common glucose for table syrups?

The sugar cane planters of Barbados who have served Canada for years, have united to drive these inferior substitutes off the market by giving you the finest Barbados at no higher price!!

Plantations, Limited are supplying Canada with the real, old time, whole-sugar Barbados—the pure concentrate of the finest, ripest sugar cane—every barrel branded "Windmill".

"Windmill" Barbados produces heat and energy because every gallon contains its 9 pounds of sugar. It is healthful because of its natural fruit salts. Above all, it is as far superior in flavour to the unwholesome and deceptive substitutes as cream is to skim milk!

And to make doubly sure of your getting the best, we are selling for less than the makers of worthless substitutes!

And now it costs no more than molasses!

Now you know the facts, help in the good cause by demanding the genuine

**STRENGTH OF GOVERNMENT SUPPORT SHOWN AT LAST NIGHT'S MEETING IN CITY**

(Continued from page 6.)  
willed in the question. In closing, he made a strong appeal for support on Saturday next and sat down amid the prolonged cheers of the audience.  
**Good Outlook in the County.**  
A. F. Bentley and Dr. M. L. Curran, who have been spending a busy week in the various parts of the county, feel satisfied there will be a big turn-over in the vote of Saturday next and that

among the slain will be the latest leader of the opposition, Hon. Dr. J. B. M. Baxter, and his running mate, T. B. Carson. The whole population of Lorneville, a so-called Baxter stronghold, turned out last night to hear the case for the good government given in the village hall by Mr. Bentley. Dr. Curran and S. K. Smith of St. John. The candidates were in the village throughout the day and called on the

voters in person, Dr. Curran being acquainted with most of them. The candidates were given a very flattering reception. Dr. Curran asked those who supported him to vote for Mr. Bentley, as Mr. Bentley was bringing him strong support at his (Bentley's) end of the county.  
At last night's large meeting, the chairman was W. Galbraith, who remarked that one of the issues in the county was the payment of a head tax to the city of St. John. As Dr. Baxter had received from Scotland such plans for fish-ways, etc., as would guard the fishing industry from injury and he and Dr. Curran would stand squarely for the interests of the fishermen in seeing that they were fully protected in every power development proposed.

hour and a half, compared the achievements of the Foster government ministers with those of the old regime, showing what the government had done in many ways to advance the interests of the province, while the old government had allowed the province to take care of itself while the members looked after their own personal interests. Dr. Curran was not a resident of the county. Those who knew him knew that he was in the county every day in the year and that he went to the county people to get his living. He pointed out that in any clash between the city and county everyone knew where the city solicitor would have to be.

Mr. Bentley dealt at some length with the hydro-electric situation. He said that by his casting vote he had killed a Tobique power bill, but after making a study of the fish-ways and inter-dams he had supported the Tobique bill in the next legislature. He had received from Scotland such plans for fish-ways, etc., as would guard the fishing industry from injury and he and Dr. Curran would stand squarely for the interests of the fishermen in seeing that they were fully protected in every power development proposed.

S. K. Smith, who opened the meeting, devoted his remarks largely to the agricultural policy of the government. Every chair in the hall was taken and the audience was about equally divided between men and women voters. The ladies seemed greatly impressed by the presentation by Dr. Curran of the workings of the department of health, particularly that feature relating to improved health for women and children. The candidates were gratified as the result of the generous reception they received and are confident there will be a surprising turn-over in favor of good government on Saturday.

**In King's County.**  
At a government meeting held in the Opera House, Sussex, on Tuesday evening the speakers were Hon. Dr. W. F. Roberts, M. D., minister of public health, and Mrs. E. A. Smith.  
A meeting was held at Hatfield's Point at which E. S. Carter and C. K. Ganong addressed the electors. Dr. T. B. Frazer of Hatfield's Point was in the chair. The speakers received a fine hearing.

"With no newspaper support," said Hon. Mr. Rollo, "it is the only way we can reach the people."

**Catarrah Deafness and Head Noises**

Tells Safe and Simple Way to Treat And Relieve at Home  
If you have catarrah, catarrah deafness or head noises caused by catarrah, or if phlegm drops in your throat and has caused catarrah of the stomach and bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Parmit (Double Strength). Take this home and add to it 1/4 pint of hot water and a little granulated sugar, stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, dullness, cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the back of the throat are other symptoms which suggest the presence of catarrah and which may often be overcome by this efficacious treatment. It is said that nearly ninety per cent. of all ear troubles are caused by catarrah and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.

**MACKENZIE KING IN EDMONTON**

Liberal Leader Finds Assembly Too Big for Hall—Overflow Meeting Held.

(Canadian Press).  
Edmonton, Alta., Oct. 7.—A strong plea for unity in the different groups opposed to the Meighen government was the feature of an address delivered by

Hon. W. L. MacKenzie King last night. His audience thronged McDougall Auditorium and overflowed into the First Baptist church, where the Liberal leader repeated his speech.  
The chair at the McDougall meeting was occupied by Premier Stewart, while Hon. J. R. Boyle presided at the overflow. Hon. Mr. King dealt with the formation of the National Liberal-Conservative party, asserting it had not come into being as a result of a democratic movement, the way in which the Liberals, the farmers, the labor forces and the great war veterans had chosen their policies. Instead, he said, it was the product of the class and privilege that holds its position by secret manipulation and is not prepared to come out in the open and declare itself.

Cambridge, Mass., Oct. 7.—Harvard College gained a genius at studies and a potential batsman for its baseball nine when Frederick Santoo, of Wapwapeen, Pa., 13 years of age, registered as a member of this year's freshman class. He has mastered five languages and works problems in calculus with facility. He is also reported to be a budding Babe Ruth.

College of Bakers.  
Toronto, Oct. 7.—A college for the training of bakers and for research work, to be established at Guelph, was proposed at the thirteenth annual convention of the Canadian Bread & Cake Bakers' Association here yesterday, and a committee was appointed to report on the matter. A resolution was passed protesting against the two per cent. sales tax on yeast.

Here's Some Extra Interesting News for the Ladies Who Want to Get the Utmost For Their Money When They Exchange it for a Hat

As all the ladies in the Maritime Provinces know we devote all our time and energy to millinery, our firm has been successfully distributing millinery for the past sixty years and we have four stores, for these reasons it is only natural that our values are most attractive. But for tomorrow and Saturday we are going to have on display a NUMBER OF EXTRA SPECIAL VALUES. These are hats that we purchased from manufacturers in large numbers at special prices and tomorrow and Saturday they go on sale at prices which we have not even attempted to sell such hats at for the last few years; no, not even late in the season, let alone right now at the very start of Fall weather.

**Official Ballot Is Blank; Voters Furnish Names**

To straighten out conflicting reports regarding the method of voting on Saturday the Telegraph requested A. A. Wilson, high sheriff and returning officer, to explain the system used in provincial elections. Sheriff Wilson said that the system used was simple. The election officials supply blank paper for ballots and both parties furnish printed ballots which can be used by their supporters. In other words, a ballot deposited with the names of four men will count for all four. No ballot should be marked with a cross. If a voter desires to use an official blank ballot instead of a printed ballot furnished by one of the parties he or she must write with a pen or black pencil the names of all four on the desired ballot for up to the legal number. The initials of the candidates should be written as well as the family names.

If an opposition supporter desires to vote for one or more of the government candidates, he or she must cross out certain names on the opposition ballot and write in the names of the government candidates or candidates. A voter can vote for one, two, three or four candidates in St. John city, if he or she only votes for one the voter must cross out the other names or write one name only on the blank ballot.

Barracough, whose final year as pastor of Central Methodist Church in this city will close next June, has accepted an invitation to become pastor of Cambridge street church, Lindsay, Ont., at the close of his term in Moncton. Rev. Mr. Barracough was formerly pastor of Gentry church in St. John and attained wide popularity here.

**SYNOD EXECUTIVE.**  
The executive of the Diocesan Synod of Fredericton held a special meeting this morning in the Church of England Institute regarding the University of King's College, Windsor. After some discussion it was decided to refer the matter to a committee to be appointed by His Lordship Bishop Richardson. A session of the executive committee was held this afternoon.

**THE LATE JOHN B. SCOTT.**  
The death of John B. Scott occurred on Tuesday last at his residence, Milkish, Kings county. Besides his wife he leaves to mourn four sons, George of Halifax, Merritt, Frederick and Chesley at home; three brothers, N. C., Frederick G. and Joseph E.; two sisters, Mrs. Margaret Eliston of Milkish and Mrs. Joseph McColgan. The funeral was held from his late residence, where the Steamer Maggie Miller carried a special trip, leaving Millville at noon.

**DIOCESAN SYNOD.**  
The quarterly diocesan synod meetings were continued last evening when the board of missions met and it was reported that seven missions were vacant. The appointment of Rev. E. J. LeRoy, formerly of St. Martin's, to be rector of St. George's church, was also announced. Rev. A. J. Patstone has been transferred from Ludlow and Blissett to Grand Falls. Rev. E. Hailstone of Hoyt Station was extended a resolution of congratulation on the completion of his rectory. A small grant was made to the building of the church at Brewer's Mills, in the parish of Bright. The remainder of the meeting was taken up with routine business.

**POLICE COURT.**  
One lone prisoner occupied the police court dock this morning and after a severe reprimand by Magistrate Ritchie he was allowed to go. His name is John McNeill and he was charged with being drunk and also refusing duty on board the steamship Antikookan. He pleaded guilty and the magistrate allowed him to go on condition that the captain would take him back to Louisbourg, N. S. where he said his home is. He was brought to the police station yesterday by Sergeant Scott and Police Constable Coughlin, who were summoned to the steamer by Chief Engineer Jones. Dr. Dunlop ordered him to the General Public Hospital where he soon recovered.

**BURIED TODAY.**

The funeral of John S. Johnston was held this afternoon from his late residence, Milford. Service was conducted by Rev. Jacob Heaney, and interment was in Cedar Hill.

**SAYS NO SPECIAL HORRORS IN THE FALLS' DEPTHS**

**Diver Who Has Been Far Below at Bridges Speaks of It.**

For years there has been told a story of the reversing falls, how a diver once descended and saw scenes so horrible that he refused to disclose what he had seen. This story has been told and retold for many years and is believed by many. To a great extent it has been shattered by W. Gilbert, one of the best known divers in America, who has been at work in the waters of the falls for some time with the Foundation Company of Montreal, who are building the sub-structure for the new C. P. R. bridge. Mr. Gilbert, who is a native of Lynn, Mass., has been down to a depth of 160 feet and says that there is no doubt the water has caused some freak excavations in the bottom near the western shore, leaving large holes in the rocks. He said he had heard the report of the terrors hidden under the waters, but he failed to see anything out of the ordinary.

Mr. Gilbert has been in the employ of the United States government for a long period and was one of the men who went down in the waters of Cuba and encased the Maine, which was successfully raised. He was also present at the rescue of a diver who was taken down and secured the mail and over a ton of gold from the ill-fated Endeavour in the waters of the St. Lawrence river. As a result of his successful achievement he was awarded a medal. He was also presented a medal for saving four lives when the large span of the Quebec bridge crashed into the water. He was near the scene when the span was being placed and was rigged in his diving suit ready for emergencies. When the span fell, carrying many men to a watery grave his head piece was quickly placed on his suit and he was lowered into the water. He caught four men who were drowning and brought them to the tug where resuscitation machines were employed and their lives saved.

Mr. Gilbert has been employed at Jacksonville, Florida, Montreal and numerous places raising sunken ships and arranging for sub-structure work. He has been employed as a diver for many years and says he feels perfectly at home while operating under the water. He is going to Nova Scotia in the near future where he is to undertake some work for the Foundation Company.

Prevented Stampede at Tokio Convention

Miss Caroline Scherzchewky Displayed Marked Coolness in Danger - Sessions of S. S. Convention Resumed.

(Associated Press.) Tokio, Oct. 7.—Sessions of the world's Sunday school convention, which were interrupted on Tuesday afternoon by the fire which destroyed the great hall where the first meeting was held, were resumed today in the beautiful imperial theatre.

Justice MacLaren, of Ontario, vice-president of the world's Sunday school association, after reading greetings last night from the Canadian premier, added: "Perhaps this terrible accident is a blessing in disguise, for now the whole world will be made to notice what the convention proposes to accomplish in Tokio."

At today's session Mr. MacLaren presided, and addresses were made by Marcell Lawrence of Chicago and Wm. G. Landes of Philadelphia.

Later portions of the world's leaders in Sunday school work were unveiled. There were illustrated songs and pictures, while pageants were given despite the partial destruction of costumes in Tuesday's fire.

Delegates to the convention are unanimous in giving particular praise to Miss Caroline Scherzchewky, a United States missionary and daughter of a former Episcopal bishop to China, for her conduct during Tuesday's fire. It is said her heroism prevented a disastrous stampede at the taternade. Several persons were knocked down and walked over during the rush for the exits, but were not badly hurt.

**FUEL CONTROL TO BE LEFT TO PROVINCES**  
It is announced from Ottawa that the regulations governing the control of fuel by the railway commission will to a great extent follow those which proved effective during the shortage of recent winters. They will differ in one important particular from the regulations which may be adopted there or not as the provincial authorities decide. It is necessary to follow the larger number of control rests with the provinces. It is admitted that the coal situation is very acute in some districts, but this is due largely to local conditions.

**A RATHER SMALL TRICK**  
The government headquarters in Lansdowne ward in a hall in Murray street. It is down a flight of steps from Main street. To guide electors to the hall a canvas sign in the shape of a hand pointing to the hall was placed at the head of Murray street on a vacant lot owned by the city. It harmed nobody. Last night Policeman Corbet ordered it down. He said he had received instruction to that effect. Who gave the order and why?

ONE CONTINUOUS INLAND WATERWAY

Project to Unite South and North in United States.

Atlantic City, Oct. 7.—Pennsylvania will unite with New Jersey and Delaware in the project to unite the south with the north by one continuous inland waterway, according to speakers at yesterday's session of the annual convention of the Atlantic Deeper Waterways Association.

Opposition to the proposed St. Lawrence ship canal was voiced by Henry W. Hill of Buffalo, president of the New York State Waterways Association. "It's a dream, gentlemen, it's visionary. The project means that we build up a waterway from Canada, pay one-half the expense, get one-fourth of the horsepower, and serve Liverpool. The thing is a menace to our future inland waterway improvements in this country, for we will be left with a half-finished waterway and make appropriations for our own waterways."

JUDGMENT ON RATES IS SENT BACK TO BOARD

Government Refers It Back for Further Study of Certain Features.

Ottawa, Oct. 7.—(Canadian Press)—The judgment of the board of railway commissioners, increasing the passenger and freight rates, goes back to the board for further study of certain defined features. The ruling of the cabinet on the appeal was issued at noon today. It lays down the principle that for the government to weigh evidence and substitute their own judgment for the judgment of the board upon the questions of fact arising "would defeat the purpose for which the board of railway commissioners was created, and would be in the public interest."

**BOARDS LISTEN.**  
A pretty wedding took place on Wednesday afternoon at 2.30 at home of the bride, 202 Tower street, West St. John, when Sarah Adella Leister was united in marriage to Alfred Gilbert Bonnell, formerly of Public Landing, but now of West St. John. The bride looked charming in a wedding gown of tulle and carried a bouquet of American beauty roses. She was attended by Mrs. Frederick Potter while Mr. Potter supported the groom. Rev. W. R. Robinson, pastor of the Ludlow street Baptist church, performed the ceremony. The bride's going away suit was of gold tulle. After the ceremony a dainty luncheon was served and Mr. and Mrs. Bonnell left on the evening train on an extended wedding tour to Montreal, Toronto and Niagara Falls.

**THINK IT OVER.**  
Fredericton Mail.—Do the people of the province ever stop to think what would have happened had the old government remained in power in 1917. Valley Railway and patriotic potato scandals would have been hushed up, and the old crowd would have looked about and would no doubt have found new fields for their operations long before this. There was a scandal connected with every important undertaking which they handled while in power.

**SCHIFF WILL ADDS \$1,350,000 TO CHARITY GIFTS**

Residue of Estate, Estimated at \$50,000,000, Goes to Banker's Son and Daughter—His Wife Ample Provided for in Financier's Life—\$500,000 to One Charity.

The will of Jacob H. Schiff, philanthropist and banker, was filed in New York on last Monday. A memorandum made public by his lawyers revealed that Mr. Schiff had bequeathed an additional \$1,350,000 to charities and organizations which he had aided lavishly during his life.

No bequest is made in the will to Mrs. Schiff because provision was made for her before Mr. Schiff died, so that the residuary estate is to be divided equally

between his son, Mortimer L. Schiff, and his daughter, Mrs. Felix M. Warburg. Mrs. Schiff was named as one of the executors of the estate.

No estimate of the estate was made by Cravath & Anderson, counsel for Mr. Schiff, who had drawn the instrument for his signature on Oct. 15, 1919, less than a year before Mr. Schiff's death. It has been predicted several times since Mr. Schiff's death on Sept. 25, by men close to him, that the estate would be more than \$50,000,000, although Mr. Schiff during his life had given away an uncounted number of millions to worthy charities of all kinds.

**Provision for Employees.**  
A statement given out on behalf of the counsel for the estate said that Mr. Schiff had made provision in a separate instrument for some of the employees of Kuhn, Loeb & Co., and others who had been in his personal service for many years. Just how much of the estate will be disposed of in this way is not known yet.

Virtually every charity which Mr. Schiff had aided extensively during his long life as a philanthropist is mentioned in a will that is extraordinarily long in some of the provisions dealing with contingencies that would arise in case of the death of either or both of the heirs of the residuary estate. These comprise about eighteen bequests, ranging in size from \$5,000 to \$500,000, and run the scale of philanthropy from outright charitable aid to educational gifts.

The largest individual bequest is that of \$500,000 to the Federation for the Support of Jewish Philanthropic Societies of New York city, an organization in which Mr. Schiff had taken an active interest for years. He had served this organization as a campaign executive during many of their appeals to the public for subscriptions, and had given more money to its support than any other individual.

**\$300,000 to Montefiore Home.**  
A bequest of \$300,000 also is made to the Montefiore Home and Hospital for Chronic Diseases, the institution now in its new home in the Bronx largely through the efforts of Mr. Schiff, more than thirty years ago. Mr. Schiff led in the organization of this institution, and served as its president until last year, when he resigned after seeing the institution attain an approximation of some of his early dreams of it. He was also the largest benefactor of this institution during his life. The other bequests, in the order of their size, are:

- To the Jewish Theological Seminary of America ..... \$150,000
- To the Hebrew Union College at Cincinnati ..... 100,000
- To the New York University for its school of commerce and accounting ..... 50,000
- To the Henry Street Nurses' Settlement ..... 50,000
- To the Solomon and Betty Loeb Memorial Home for Convalescents ..... 25,000
- To the Metropolitan Museum of Art ..... 25,000
- To the New York Public Library ..... 25,000
- To the Zoological Society of the city of New York ..... 25,000
- To Harvard University ..... 25,000
- To the Jewish Orphan Asylum of Frankfurt-on-Main, Germany, to be added to the Moses and Clara Schiff Fund, created many years ago by Mr. Schiff in memory of his parents ..... 25,000
- To the Charity Organization Society ..... 10,000
- To the New York Association for the Blind ..... 10,000

To Hampton Normal and Agricultural Institute ..... 10,000  
To Babies' Hospital in the city of New York ..... 5,000  
To the Tuberculosis Preventorium for Children at Farmingdale, N. J. .... 5,000

**Six Executors Are Named.**  
A list of executors is named in the will, but only the first four are to serve in the order of their naming. Those who are to direct the division of the estate are Mrs. Schiff, Mortimer L. Schiff, Mr. Schiff's son-in-law, Felix M. Warburg, and Mr. Warburg's brother, Paul M. Warburg.

Considering the contingency that one or more of these four persons might not be able to serve, Mr. Schiff added two more names to his list. They are those of his partner, Jerome J. Hansauer, and Walter N. Rothschild, who married the daughter of Mr. and Mrs. Felix M. Warburg.

In addition to the list of bequests, counsel for the estate gave out this brief statement:  
"Mrs. Schiff being amply provided for, Mr. Schiff makes no provision for her in his will, and, after the making of the charitable bequests above mentioned, the remainder of the estate is divided between his two children, Mrs. Felix M. Warburg and Mortimer L. Schiff. Provision was made by Mr. Schiff in a separate document for the employees of Kuhn, Loeb & Co. and for his personal employees."

"The will appoints as executors Mrs. Schiff, his son, Mortimer L. Schiff; his son-in-law, Felix M. Warburg; his brother-in-law, Paul M. Warburg; his partner, Jerome J. Hansauer, and Walter N. Rothschild, the husband of the daughter of Mr. and Mrs. Felix M. Warburg. "The will directs that no more than three of the executors besides Mrs. Schiff shall qualify, and that they shall act in the order named. The executors who will qualify will, therefore, be Mrs. Schiff, Mortimer L. Schiff, Felix M. Warburg and Paul M. Warburg. "The elaborate provisions of the will providing for trusts and for the investment of trust funds are inapplicable, inasmuch as they apply only in case one or both of Mr. Schiff's children should not survive him. "The petition that the instrument be admitted to probate merely fulfilled the legal requirements in estimating the value of the estate, referring to it as being more than \$10,000 in real and personal property."

**GET 100 CASES OF LIQUOR FROM CANADA NIGHTLY**

Plattsburg, N. Y., Now Scene of Great Bootlegging Campaign—Youths Waxing Rich—Four Arrests a Week.

New York, Oct. 6.—(Canadian Press)—The town of Plattsburg, on Lake Champlain at the Canadian border about sixty miles from Montreal, is today the scene of one of the most extraordinary bootlegging campaigns in the United States, according to the New York World, whose investigator has been up that way getting a general idea of "hooch" conditions.

So flagrant and widespread is the violation of the prohibition law and, infinitely more serious for the offenders, the law against smuggling, that a prominent citizen of Plattsburg, in a position to know, told the World reporter that it was conservative to estimate that every night 100 cases of bonded Canadian whiskey and gin are brought into the United States through that town.

The fact that this choice stock can be bought at Montreal for from \$2.50 to \$4 a quart and can be sold at from \$6 to \$15 a quart in the United States, explains why a number of Plattsburg youths who have hitherto lived most innocently are now sporting natty clothing and silk shirts and are carrying always from \$50 to \$1,000 in cash, the investigator says.

One man admitted to the World reporter that before prohibition became effective he had earned \$18 a week as a teamster. Now, he boasted, his income ranges from \$50 to \$150 a week. And, aside from risking arrest and imprisonment, he asserted, he lived an entirely happy, carefree life. He explained, however, that as a precaution he pretended to work at a soft job.

"How do they get away with this bootlegging?"  
"The World says the answer is simple, and offers this explanation:  
"There are at least fifty roads from Canada leading into the United States through Plattsburg, and there are only about fifteen United States customs officials to guard these fifty or more bootlegging trails.  
"Then, in addition to the fifty or more thoroughfares, some of them mere cowpaths through the woods, there is Lake Champlain.  
"Yet in spite of the obvious difficulty in trapping the crafty and even desperate characters who ply the trade, customs officials in and about Plattsburg have been averaging four arrests a week. The prisoners are arraigned before a United States commissioner and are usually charged with smuggling. Occasionally the charge of violating the Volstead act is added."

"When the men are brought to trial before a federal judge, however, as a rule they plead guilty and are dismissed upon payment of a fine of \$500 to \$1,000. This, according to one of the bootleggers, is not a severe penalty, as the gang can easily raise as much as \$20,000 if necessary." Plattsburg has a population of 15,000.

**DIVORCED FOR 20 YEARS, DIDN'T KNOW IT.**  
New York, Oct. 7.—Mrs. Emily Bar- nard, 63 years old, of 210 Forty-sixth street, has been divorced from her husband for twenty years, and was not aware of it until she brought suit to force him to pay her \$15 weekly, which she said the court ordered in 1900. "I was divorced from her in a decree of divorce granted in Manhattan. Mrs. Barnard declared it was news to her, as she had been under the impression that only a separation had been granted. Providence, R. I., Oct. 7.—The following advertisement appeared in the "Help Wanted" column of an afternoon newspaper here: "Housemaid with good appetite, food mostly fruit, steaks, cream, etc. provided; every night of housework and amusement tickets provided; wages \$35 weekly." The advertising manager of the newspaper says the advertisement apparently was inserted in good faith.

## WELCOME RELIEF FROM ECZEMA

Complete Treatment That Gives Gratifying Results

Wasing, Ont.  
"I had an attack of Weeping Eczema so bad that my clothes would be wet through at times. I suffered terribly. For four months, I suffered until I tried 'Fruit-a-lives' and 'Sooth-a-lives'. Altogether I have used three boxes of 'Sooth-a-lives' and two of 'Fruit-a-lives', and am entirely well."  
D. W. HALL.  
Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-lives Limited, Ottawa.  
"Fruit-a-lives" is also put up in a special size which sells for 50c.

### KLWELL'S CHAIR RETAINED

New York, Oct. 7.—The red plush chair in which Joseph B. Elwell, sportsman and bridge expert, was seated when he was mysteriously slain in his home here last June, has been withdrawn from the collection of his belongings which are to be sold at public auction. It was explained that attorneys for the Elwell estate ordered the chair retained so that it could be used as evidence in case the slayer is found.

### MAYOR GRAY RETIRING

Winnipeg, Oct. 4.—Mayor Charles P. Gray will not run again at the coming civic elections, he announced definitely this week. Chief among his reasons for retiring is the necessity of devoting his time to his private business.

### PORTO RICO IS HOLDING ON TO ITS SUGAR

80,000 Tons on Island Ready for Export - This Year's Crop Six Times That Amount.

San Juan, P. R., Sept. 15.—No Porto Rico sugars are being forced on the market. Whatever sugars there are here are being held—for better or worse.

(This is evidently being done to prevent refiners from reducing the price of raw sugar, as the Cuban growers have asked the Porto Rican producers to join them in an attempt to prevent a cut in prices.)

For the first time in many years, two weeks have gone by without the shipment of any sugar from the island. Approximately 600,000 bags, or 80,000 tons remain in the island for export.

Porto Rico produced in this year's crop 485,887 short tons of sugar, according to a final statistical report just issued by J. Ruiz Soler, secretary of the Porto Rico Sugar Producers' Association. This is 7,000 tons in excess of his estimate made at the commencement of the grinding season and about 80,000 tons greater than the production during the crop season of 1919-19. It is also 20,000 tons in excess of the production during 1917-18.

Export figures show 807,000 tons of sugar shipped from this crop. Local consumption is estimated at 80,000 tons.

**BIG PLANE TO FIGHT BIG FOREST FIRES.**

Washington, Oct. 7.—Airplane patrol in California were able recently to reach the scene of a fire forty-five hours sooner than had the proceeded by train and pack mule, a report to the army air service shows. An aerial observer spotted its blaze in Lassen forest while all foresters were engaged in fighting another fire in the Merced forest. Planes picked up the fire-lighters in the Merced zone and rushed them to the Lassen fire.

"In three hours," says the report, "the fire fighting personnel was on the job fighting flames, whereas, had they proceeded by train and pack mule, 48 hours would have been consumed."

"The day will come when an equipment will be carried by airplane to the scene of fire, both men and equipment dropped by parachute, while the airplane will rain down fire extinguishing chemicals from above."

## Expanding Mines by Rifle Fire

Leading Stoker T. WILLIAMS, H. M. S., c/o G. P. O. London.

"Allow me to thank you for a wonderful cure of nervous breakdown. The use of Phosferine for a month made a new man of me. I was in the submarine service for nearly four years. One of my shocks was, being rammed by one of H. M. Ships about 20 feet below water. I am now mine sweeping and we are getting up about 400 to 500 mines a day off Norway. Many of my shipmates have sent home for your Phosferine, as they have found out since taking Phosferine Tablets that they can enjoy their meals and sleep well, although they have been shaken up through so many mines going off."

This leading naval stoker says it is quite certain his restored health is due to Phosferine. Phosferine alone aroused his numbed nerve centres into providing his system with the vital force to resist the ill-effects of his perilous experiences.

SOME CHANGES IN TAXATION?

Ottawa Newspaper Says a Strong Possibility of Variation.

Ottawa, Oct. 7.—The Citizen in its news columns, says: "There is a strong probability that the coming session of parliament will see considerable variation in the taxation measures of the government."

ous objections from business interests which represented it to be an impediment to commercial and industrial expansion. The minister of finance was not enamored of it but took the stand that money had to be raised and this was a tried and proven source of revenue. The additional taxes levied and the revenues accruing from them suggest the dropping of the tax on business in the next budget. There is also talk, but less of it, of modifying the luxury tax."

COURT ACTION IN THE CASE OF SECRETARY OF MISSING MILLIONAIRE

Toronto, Oct. 7.—A motion to declare John Doughty an absentee and to appoint a trust company to administer his estate was made at Osgoode Hall yesterday on behalf of Mrs. Constance Doughty wife of the missing man. Judgment was reserved. Doughty was formerly private secretary to Ambrose J. Small, a wealthy theatre owner of this city. Both disappeared in December.

LOCAL NEWS

Ambassador Geddes Calls for Open Dealing

Says Adequate World Trade Development by Great Britain and United States Requires This.

Washington, Oct. 7.—Adequate world trade development by Great Britain and the United States requires that both nations lay their cards on the table, said Sir Auckland Geddes, British ambassador, last night at a dinner given by the Chamber of Commerce of the United States to representatives of the British Chamber of Commerce here as guests of the United States organization.

He insisted that there was greater desire in Great Britain for close business co-operation with the United States than has been indicated by many writers in the United States. He had learned from these writers, he said, how diabolically clever the British, more especially the English, were, and with what machivellian duplicity the British pushed their trade. Economic war, he said, was the result when each nation regards the other's commercial and financial activities with suspicion.

The ambassador denied published reports that the British government had sold the German government some German ships with the object of hindering the development of the United States mercantile marine.

Echoing the ambassador's plea for co-operation, Secretary Alexander of the department of commerce, told of the merchant marine policy of the United States. "The United States does not contemplate any attempt to drive other nations out of the shipping business," he said. "We simply want ships enough to take care of our own expanding business."

DROP IN FLOUR The price of flour dropped another fifty cents yesterday, making a total decline of \$1 this week. WILL APPEAL

Acting Methodist Church Superintendent Notifies the Mission Board.

Toronto, Oct. 7.—Rev. Dr. R. N. Burns, acting superintendent of the Methodist Church of Canada, in the absence of Rev. Dr. S. D. Chown, general superintendent, sent a letter to the board of missions of the Methodist church here yesterday questioning the legality of the board's action in depositing him from the chairmanship, and notifying the board that he would take the matter to the court of appeal. Representatives were appointed to defend the action when the appeal comes up.

The board appointed Rev. S. D. Chown and Rev. Dr. F. C. Stephenson to attend the Christian conference in Shanghai on May 21 next. Both of them now are in Tokyo, Japan, attending the world's Sunday school convention.

At a meeting of the Women's Missionary Society of St. David's church held yesterday afternoon the opening chapter of the new study book, Canada's share in the World Task, was taken up. Mrs. R. C. Cruikshank presided and Mrs. David Willett had charge of the programme, while Mrs. D. Malcolm, Mrs. Petch and Mrs. Bingham took part. The report of the annual meeting at Moncton was given by Mrs. R. R. Jamieson. Mrs. Bingham, the treasurer, also reported.

Our Travelling Salesmen Enjoy Selling Red Rose Orange Pekoe Tea

Travelling salesmen work very hard as a rule. They put in long hours, and the pleasure of travelling is not so great as to those of us who mostly live at home.

Naturally, therefore, these men must get a great deal of their pleasure and satisfaction from their work—they like to sell the finest of products and represent a good "house".

Our travelling salesmen are exceedingly critical of the products which they are asked to sell, and when we told them last January that we wanted them to sell a new tea of extra quality—much finer than has usually been sold in Canada—they were keenly interested, put the new tea to many tests amongst their friends, and gave it a lot of time and thought.

Having convinced themselves of the extra fine quality of Red Rose Orange Pekoe Tea, they started on their trips full of enthusiasm.

Their satisfaction, however, has been much greater on their later trips, because of the splendid renewal orders which are following their first sales.

Like good merchants, our salesmen enjoy selling the very finest tea—Red Rose Orange Pekoe.

Try the tea which has met with so much success.

LOYD GEORGE ON MATTERS OF DAY. Interview in New Liberal Magazine—The Irish Question. London, Oct. 7.—The first number of the new Lloyd George Liberal magazine which is to be issued monthly to support the government policy, appeared today. It contains an special interview with the premier devoted to the defense of the coalition government. Incidentally he expresses the belief that the United States will formally join the League of Nations after the presidential election and asserts that when Germany also enters, which will be as soon as she gives proof of her good faith, the League will become an effective instrument instead of, as now a mere league of allies.

Many a Pair of Shoes may be made to do double and triple duty if you'll bring them here for attention at the first indication of wear. D. Monahan & Co. MARKET ST. SUES FOR \$10,000. Father Takes Action Against Ice Company in Montreal on Son's Behalf. Montreal, Oct. 7.—Napoleon Morency, a tutor for his son Albert, presented a motion yesterday asking the court's permission to sue the City Ice Company for \$10,000 damages under the Workmen's Compensation act. The petition related that the son, a minor, was working on May 6 last for the City Ice Company when, owing to an alleged defect in the flooring, he was thrown into a giant refrigerator, from which his cries for assistance not being heard, he was not rescued for twenty-four hours. As a result he had lost his reason and was now under treatment in St. Benoit Asylum. Mr. Justice Coderre granted permission for the action to be taken. USE The Want Ad Way. MULHOLLAND, THE HATTER.
