HE GETS PENSION OF £50 A YEAR

Crippled Poet Tramp Whose Works Were Sensational

OTHER WRITERS, TOO

Hon. Mr. Asquith Announces Civil List Awards to Several—Dublin Prepares to Loyally Welcome the King and Queen Tomorrow

(Canadian Press) London, July 7.—To a cripple whose experience of life has included tramping in parts of Canada and the United States, Premier Asquith yesterday awarded a civil list pension of £50 (£250) in consideration of his literary merits, and inadequate means of support.

Other pensions granted under the civil list include £100 to William Butler Yeats, the Irish poet; another of the same amount to Joseph Conrad, and £75 to Mrs. Davidson, widow of John Davidson, the poet, who drowned himself on the Cornish coast. Mrs. Davidson is in straitened circumstances.

London, July 7.—King George and Queen Mary, with the Prince of Wales and Princess Mary, left today for Ireland, where they will land tomorrow. The royal party will proceed for Wales on Wednesday.

Dublin, July 7.—The city is filling up with provincial visitors, ready to welcome the king and queen, who will make their state entry on Saturday, and every indication is that they will receive a loyal welcome.

Workers are busy putting the finishing touches on the decorations along the route of the royal party. Seven thousand men today took part in a rehearsal at Phoenix Park for next Tuesday's military review.

INSURANCE MEN TO WEST

E. R. Machum, G. Watmore Merritt and Isadore Andur form a local delegation to the annual convention of the Life Underwriters Association in Winnipeg. E. R. Machum, of the Manufacturers Life Company was president of the association last year, and is honorary president for the present year. He will travel from Montreal in the private car of the insurance men. Mr. Merritt goes as provincial manager of the Great West. Mr. Andur, son of Rabbi B. L. Andur, won the trip trip today by hard work. Some time ago a contest was started among the agencies of this company, the winner of which, writing the most insurance in a given time was to be given a trip to Winnipeg. Mr. Andur, although only eighteen years old, led all the other agents for six weeks, when A. B. Moore, of Port Egan, forged ahead, and eventually won. But Mr. Andur was such a creditable second, that he will accompany Mr. Merritt west this evening.

THE SPARROW'S VIEWPOINT

A pair of sparrows were enjoying an unexpected and delicious breakfast this morning under one of the electric arcs that light the streets. The ground was almost covered with moths that had fluttered against the lamp during the night, and fallen to feed the sparrows.

THE SPARROW'S VIEWPOINT

Each trying to peck the other to pieces. A third sparrow took advantage of the opportunity to make a choice selection from among the moths that were fluttering about," he said. "It was I the creator who was thinking about for I shall have a rare breakfast while these inspired idiots are setting their little disputes. As for the moths—well, I never heard that Providence ever had anything to do with them, except to send them in my direction. It is a great thing to have settled convictions touching these matters—and few at each other with great force keep on eating moths."

OTTAWA CREW ARE BEATEN IN SEMI-FINALS

Magdalen College Crew Put Them Out of Grand Challenge Cup Race—Young Loughrey Wins Bout in New York

(Canadian Press) Bulletin—Heny On Thames, July 7.—The Ottawa Rowing Club's eight was beaten in the semi-final heat for the Grand Challenge Cup today by the Magdalen College crew, the present holders of the trophy. It was a grand and exciting race.

New York, after Young Loughrey, the Philadelphia waterweight, who has but recently returned from France, gained the popular decision over Kid Henry (colored) of Albany, at the National Sporting Club of America here last night.

London, Ont., July 7.—In the 215 pace race yesterday afternoon, Frank Patch, driven by the owner, was distanced in the fourth heat, after getting fourth place in the three preceding. Harry Hill won a six heat race in this event. The best time, 2:33.4, was made in the first heat.

At the time the accident occurred the pier was crowded with about 200 members of the Anglican churches at Fitzroy Harbor and Toronto, who were awaiting the arrival of the steamer G. W. Green, which was to carry them back to their homes. The occasion of their visit to the park and to Ottawa was their annual excursion, held under the management of Rev. Mr. Iverson, rector of the two churches.

OH FOR A DAY OF ST. JOHN WEATHER

A Letter From New Hampshire Which Gives Cause for Thankfulness Here

The following are extracts from a letter received today from a town in New Hampshire:

SEVERAL PLACES IN REXTON ARE STRUCK IN LIGHTNING STORM

Dwelling of Thos. McDermott is Shattered—Boy Who Was Shot is in Precarious Condition

(Special to Times.) Rexton, N. B., July 7.—Severe electric storms have visited this section every day this week and have done considerable damage. Heavy wind squalls accompanied the thunder and lightning. Along the main river fences were blown down and in some cases carried long distances, a truck wagon was lifted and carried several hundred yards. The dwelling of Thomas McDermott was struck by lightning and badly shattered. The beams over the dining room were cut off and the ceiling fell. The dishes were broken on the table where the family were eating supper but nobody was injured.

STEAMER NOT DAMAGED

The Milton Docked at Long Wharf—Survey to be Made Today by Lloyds' Agent

The steamer Milton, which struck near Chace Harbor yesterday morning, while on her way to this port, from Buenos Ayres, which later came off under her own steam, docked this morning at the east side of the Long Wharf, and is being examined by the Marine Surveyors.

A SHOCK THROUGH TELEPHONE

W. H. Dunham, grocer of Indiantown, suffered painful injuries last evening while endeavoring to use his telephone when the storm was at its height. Although aware of the danger, in trying to make telephone connection during a thunder and lightning storm, it appeared a case of necessity, for a neighbor had run into the store crying out that her child had taken suddenly ill, and she wanted a doctor.

INVADERS RESTING PLACE OF DEAD IN SEARCH OF MONEY

Pittsburg, July 7.—A few minutes after it became known that Frederick Prager had been found dead in bed at his home, 298 High street, North Side, neighbors rushed to the house and began ransacking for hidden money about the premises. It took a squad of police to clear the house of fortune hunters, and saved the building from being wrecked.

AT FOOT OF LADDER AGAIN

New York, July 7.—(Canadian Press)—Edward L. Harper, who tried to corner the Chicago wheat market in 1887, lost \$8,000,000 in twenty minutes and incidentally carried down to wreck the Fidelity Bank of Cincinnati, of which he was vice president, and for which he was sent to the Ohio penitentiary for ten years, has no time, and his shirt studs and cuff buttons are in pawn.

The Evening Chit-Chat

By RUTH CAMERON

A FIREMIST and a planet, A crystal and a cell, A jelly and a murrain, And caves where cavern dwell,

A picket frozen on duty, A mother starved for her brood, Societies drinking the hemlock, And Jesus on the Road,

And millions who, humble and nameless, The straight hard pathway tread— Some call it evolution, And others call it God.

There is a class of thinkers whose state of mind I simply cannot understand. I often wonder if others experience the same bewilderment about them.

The thinkers I mean are those who claim that they are agnostics. A specimen of this queer species, a man who insists that he unwaveringly disbelieves in the existence of a God, has lately focused my attention on the subject and I have been wondering again if it is always a pose or if there ever was a man who even waded in the bottom of his heart didn't have the least belief in some kind of a God.

I can't understand the man that doesn't believe in a personal God who watches every act we do and spends his time preparing brimstone and boiling oil for those who don't follow certain narrow little rules of conduct, and harps and white dresses for those who do.

The man I mean, the one I can't understand, is the man who doesn't believe in any kind of a power greater than man, any definite, intelligent force behind the universe.

The agnostic, the man who asserts that the existence of a God cannot be either proven or denied is a comprehensible creature. But the atheist—the man who disbelieves and denies the existence of any God—well, don't you truly think that way down in his heart of hearts he knows there is some God?

But if he doesn't—if he is genuine and not a poseur, not even a self-deceiving poseur, aren't you sorry for him with all your heart?

It seems to me that of all men he is the most unfortunate. It seems to me that, with reason cease our efforts to bring cheer to the blind, the bereaved, the sick and suffering, and just concentrate on him. For he needs it more than all the rest.

Don't you think so? "Live not without a friend! The Alpine rock must own Its mossy grace or else be nothing but a stone.

Live not without a God! However low or high, In every house should be a window to the sky."—William Wetmore Story.

La MARQUISE de FONTENOY

The Master of Eibbank and The Baronetcy—The Story of Muckle-Mouthed Meg—Baronets of Nova Scotia

(Copyright, 1911, by the Brentwood Company.)

If Lord Eibbank has been created a viscount of the United Kingdom, in connection with King George's coronation, it is primarily with a view of preserving his eldest son, the Master of Eibbank, from political extinction on his Lord Eibbank's death.

Indeed, an Irish member friendly to the present government, name Mr. John G. McNeill, introduced some two years ago without success a bill designed to remove the disability from which the Master of Eibbank would have suffered on succeeding to his father's honors had it not been for the viscounty just bestowed on the old peer.

The Baronet of Eibbank is a Scotch one and, although Irish peers who have not been elected by their fellow peers of Erin for life as their representatives in the House of Commons, though debarred from Irish constituencies, no such privilege is accorded to Scotch peers who have not been elected to represent the Scotch peerage in the upper chamber.

The crown has been deprived of the right of creating any Scotch peers since the union two centuries ago, although several dormant Scotch dignities have been called into existence. The consequence of such a policy is that many Scotch peers have, despite the descent of a number of them in the female as well as in the male line, become extinct. There are 428 Scotch peers left, all told, who have the right of electing sixteen of their number at the beginning of each new parliament, to represent them in the House of Lords. Of these eighty-six, there are fifty-one who are also holders of English peerages, or of peerages of the United Kingdom, in virtue of which they have seats in the House of Lords.

The remaining thirty-five, there are sixteen who are representative peers, leaving twenty who are thus excluded from both houses of parliament.

This score of titled unfortunates are, with one exception, Scotch peers, owing to the fact that the Tories and Liberal Unionists have an overwhelming majority at the elections at Holyrood, so the Liberal peer is ever chosen to represent the Scotch peerage in the House of Lords.

If the Master of Eibbank had therefore succeeded to his father's Scotch honors as eleventh baron of his line and as lineal descendant of that Andrew Murray of Blackburgh, who fell at Flodden, he would have been virtually excluded from that political life in which he is so deeply interested, through his being barred both from the House of Commons and from the House of Lords, had not the crown just bestowed upon his father a viscounty of the United Kingdom, carrying with it seats in the upper chamber in addition to his Scotch honors.

Senior Government Whip. The Master of Eibbank is the senior government whip, and also the so-called patron of the treasury.

The whip, he has the chief voice in the administration of the patronage of the administration, and virtually makes all the nominations of the rewards, titular and otherwise, for party services.

As principal government whip, he is entrusted with the duty of seeing that there are always enough members of parliament within reach to assure the government of a majority in the House of Commons, in the event of a division. In this he is aided by the junior lords of the House, who act, as a rule, as his agents in divisions. As chief whip, the Master of Eibbank has, besides, to see that the rank and file of the members are kept in a good humor, and are not in any way annoyed by the administration, and among his multifarious duties is that of seeing that the wives and daughters of members are invited to the political parties of the

to her credit, notably one about her life at Peking, and another descriptive of Peking and of its canal. The latter book was in the nature of an introduction, for it was through its publication that the world learned for the first time that her husband had been dispatched to that part of the empire for the enterprise for his government. Inasmuch as Lady Susan is a Roman Catholic, it may be just as well to explain that her husband, who is a Protestant, is not connected with the historic Roman Catholic house of Towley, a house that for a thousand years made its home in Lancashire, whereas Sir Walter's family belongs to Cambridgehire, his father, the late Charles Towley, having been lord lieutenant of that county and one of its greatest land owners.

THE WASHERWOMAN'S SONG

Eugene F. Ware, who died the other day at Cascade, Col., was noted as a poet and a humorist.

In a very humble cot, In a rather quiet spot, In the eads and in the soap Worked a woman full of hope;

Somehow happening along, I had heard the semi-song, And I often used to smile, More in sympathy than glee;

Not in sorrow nor in glee, Working all day long was she, But her spirits always rose, Like the bubbles in the suds;

It's a song I do not sing, For I scarce believe a thing Of the miracles of old; But I know that her belief

Just a trifle lonesome she, Just as poor as poor could be; And I would not wish to strip, Like the bubbles in the clothes,

I have seen her rub and scrub, On the washboard in the tub, While the baby sipped its suds, Rolled and tumbled in the duds,

Human hopes and human needs, Have their root in human needs; And I know that her belief, In the miracles of old,

Comfort In Easy Shoes

A shoe to fit should touch every part of the foot without cramping. There should neither be tightness nor looseness at any point. How often someone will wrongly say "I'm going to buy a loose, easy fitting shoe."

Only ill shaped shoes that are too large are loose—and then they are slouchy. The foot like the back needs support at every point to be comfortable. All our shoes fill these requirements and in addition are sure to give thorough satisfaction in wearing qualities.

Daily Hints For the Cook

FRUIT DUMPLINGS
Use any kind of sauce, apple, berry or pear, etc. Make very sweet. Mix 1 cup flour, 1 saltspoon of salt, 1 teaspoon cream of tartar with water (never milk) enough for stiff batter. Drop in sauce, cover tightly and boil fifteen or twenty minutes.

FINE CAKE
Two eggs, seven tablespoons of cold water, pinch of salt, one teaspoon of lemon extract, one heaping cup of flour with two teaspoons of powder sifted in. It should be thinner than sponge cake batter. Bake in two washington pie tins and use any filling. The yolks of two eggs thickened with confectioner's sugar and little lemon extract make a delicious filling. Have a good oven, but not too hot, and do not open door too much.

Geologists are asserting that the greatest underground river in the world flows from the Rocky mountains underneath New Mexico and Texas, emptying itself in the gulf of Mexico. This river is thought to be in places several miles wide and it is believed that it feeds rivers that flow upon the surface. The artesian well both of Texas is pointed to as the up lifting of the water from this river, of ten from 800 feet below.

ENGLISH LADY OF TITLE WHO JILTED MINISTER

Lady Constance Foljambe, daughter of the Earl of Liverpool, who jilted her intended at the altar, or in other words did not live up to her name. Her fiancée, Rev. H. G. K. Hawkins, went to the church to be married to her, but the bride did not attend. She had changed her mind.

ONE WOMAN AMONG WHOSE DESCENDANTS WERE 1,000 CRIMINALS

Science in Relation to the Future of the Race

Danger of Permitting the Marriage of Criminals, Lunatics and the Physically Unfit—The Question of Legislation in Curing Social Evils

(Scientific American.)

Ada Juke is known to anthropologists as the "mother of criminals." From her there were descended, 1,200 persons. Of these, 1,000 were criminals, paupers, inebriates, insane, or on the streets. That heritage of crime, disease, inefficiency and immorality cost the State of New York about a million and a quarter dollars for maintenance directly. What the indirect loss was in property stolen, in injury to life and limb, no one can estimate.

Suppose that Ada Juke or her immediate children had been prevented from perpetrating the Juke family. Not only would the State have saved the maintenance of 1,200 persons, but the 1,000 criminals, paupers, inebriates, insane, or on the streets, that heritage of crime, disease, inefficiency and immorality cost the State of New York about a million and a quarter dollars for maintenance directly. What the indirect loss was in property stolen, in injury to life and limb, no one can estimate.

Other instances

Instances such as these are not isolated. Ever since the late Sir Francis Galton gave us his science of Eugenics, which is the study of the inheritance of mental and physical qualities, the scientific students of mankind, the directors of insane asylums and hospitals, criminologists and the physically unfit, but the effect upon mankind.

Thus, Professor Karl Pearson, Galton's ablest disciple, in England, has shown that in Great-Britain 25 per cent. of the population (and that the under-classes) are descended from a few hundred persons, and that if this goes on unchecked, national deterioration and degeneracy must inevitably result.

Only One Way

Galton originally worked only with statistics, and in his capable hands they proved a powerful weapon. After he had elucidated the principles of Eugenics, Mendel's law of heredity was revived and applied to the problem. Perfectly understood as that law may be as yet, nevertheless it enables us to prophesy with considerable accuracy what the accuracy which should join hands with the scientist, and at least check the propagation of the unfit. Prizes have been offered to crack-trotters for heating their own record, \$10,000 for a fifth of a second, all for the purpose of evolving a precious two-minute horse.

We know enough about the laws of heredity, we have enough statistics from insane asylums and prisons, we have enough statistics to show that, although we may not be able directly to improve the human race as we improve the breed of guinea pigs, rabbits or cows, because of the rebellious spirit of mankind, yet the time has come when the lawmaker should join hands with the scientist, and at least check the propagation of the unfit. Prizes have been offered to crack-trotters for heating their own record, \$10,000 for a fifth of a second, all for the purpose of evolving a precious two-minute horse.

Yet we hear of no prizes which are offered for that much worthy object, the perpetuation of the human race. Fortunately the need of intelligent legislation on the subject is being driven home by scientific men and Eugenic associations here and abroad. The Eugenic Laboratory founded by Sir Francis Galton and the American Breeders' Association have done much to clear away the popular prejudices inevitably encountered in such educational work and to prepare the ground for legislative action. Some states have already passed laws that show an appreciation of the situation.

Prevent Propagation

The proper attitude to be taken toward the perpetuation of poor types is that which has been attributed to Huxley. We are sorry for you," he is reported to have said; "we will do our best for you (and in so doing we elevate ourselves, since mercy blesses him that gives and him that takes), but we deny you the right to propagate. You may live, but you must not propagate."

The absurdity of legislation to cure social evils without scientific attention just that legislation upon, is no more apparent than, it the disposal of the insane. In Wetham's "Family and the Nation," it

WATTERSON'S ADVICE

John Sharp Williams, of Mississippi, was discussing his experiences as democratic leader the other day and said—"I got plenty of good advice," he said to Senator Kern, of Indiana, "but Henry Watterson's was probably the best."

"What was it?" asked the Indianan.

"Never take a drink outside of four walls and credit every funny story you tell to Abraham Lincoln."

Town Planning
(Toronto World.)

When in Germany investigating the most recent developments in town planning the delegation sent out by the city council of Birmingham had their attention called to the far-seeing policy adopted by the municipality of Ulm. Faced by the necessity of extending its boundaries, the authorities in 1891 bought 120 acres adjacent to the town for \$1,453,000. Since that year it has sold 400 acres for \$1,683,000 and has still 80 acres on hand in addition to the profit of \$230,000. As the immediate result of this provision the rates at Ulm are only about two-thirds of the rates current in any other town in Wurttemberg.

The conviction is becoming increasingly prevalent that the utilization of undeveloped areas in the neighborhood of expanding cities ought to be in the hands of the municipalities interested. In this way profits arising from increasing values due to civic expansion become available for public purposes, and not only so but the authorities have a free hand in framing and carrying out town planning schemes in accordance with the general interest of the community. Planning in advance cities a large measure of attention just now in the United States, and Canadian cities should be given ample power to secure their future.

BRIBE FOR MRS. JENKINS TO TAKE TRIP TO EUROPE

Offer of \$20,000 to Get Her Out of Way Because of Smuggling Case Said to Have Been Refused

New York, July 6 - Mrs. Helen Jenkins, who is to star witness for the government in the grand jury investigation of the smuggling cases recently exposed by Deputy Surveyor Parr, it said to have received an offer of \$20,000 to pay her expenses to Europe. The source of the offer has not been disclosed, but it was coupled with an intimation that while abroad she was likely to meet Nathan Allan of Kenosha, Wis., a wealthy leather man, against whose charges of smuggling have been made by Mr. Parr.

Mrs. Jenkins was not moved by the offer, she understands that she is herself liable to be accused of smuggling if she does not give her evidence against Allen, Collins and others who have been mentioned as parties to the entry of jewelry for her value at \$150,000 without payment of duty.

In the mean time she is under surveillance in her apartments at the Wellmore, Broadway, and seventy-seventh street, where she remains secluded. Detectives are constantly on the watch. There is much speculation as to whom they represent. A second set of detectives whose function is said to be to keep any persons hostile to the government's side away from Mrs. Jenkins, keeps tab on everything the other set of detectives does.

Mr. and Mrs. Samuel D. Hendrickson of Atlantic City, N. J., have just celebrated the 25th anniversary of their marriage. It was Mr. Hendrickson's second silver wedding anniversary. He was married to his first wife 31 years, and two years after her death he was wedded to his present wife.

NOTICE TO CONTRACTORS.

Tenders for Car Shops at Transcona, near Winnipeg, Man.

SEALED TENDERS addressed to the undersigned and marked on the envelope "Tender for Shops" will be received at the office of the Commissioners of the Transcontinental Railway at Ottawa until 12 o'clock on the 11th of July, 1911, for the construction and erection complete, in accordance with the plans and specifications of the Commissioners, of shops cast in Winnipeg.

Plans, details and specifications may be obtained of Mr. Gordon Green, Chief Engineer, Ottawa, Ont., and Mr. S. R. Poulin, District Engineer, St. Boniface, Man.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied by the Commissioners, which may be had on application to Mr. W. J. Pines, Mechanical Engineer, Ottawa, Ont.

Each tender must be signed and sealed by all the parties to the tender, and witnessed and accompanied by an accepted cheque on a chartered bank of the Dominion of Canada, payable to the order of the Receiver General of the Transcontinental Railway for the sum of one hundred thousand dollars (\$100,000).

The cheque, deposited by the party whose tender is accepted will be deposited to the credit of the Receiver General of Canada as security for the due and faithful performance of the contract according to its terms. Cheques deposited by parties whose tenders are rejected will be returned within ten days after the signing of the contract.

The right is reserved to reject any or all tenders.

By order, P. E. RYAN, Secretary.

The Commissioners of the Transcontinental Railway, Ottawa, June 2, 1911.

Newspapers inserting this advertisement without authority from the Commissioners will not be paid for it.

THE CANADIAN NAVY
CONTRACTS HAVE NOT BEEN AWARDED YET

Ottawa, July 6.—The published statements that the contract for the building of the first ten war vessels of the Canadian navy will be awarded to the newly organized shipbuilding firm at Sydney (N.S.), headed by Sir Henry Pellatt, are not based on any authoritative official source. The awarding of the tenders has still to be considered by the government, and probably some weeks will elapse before anything definite is known. The Sydney firm, it is understood, has a good chance of securing the contract for at least some of the ships, but pending the return of the minister of naval affairs, Hon. L. P. Brodeur, who has been in consultation with the admiralty experts in England, and pending discussion of the whole question in the cabinet council no reliable information as to the successful tenderer is yet available. If conditions will warrant it the government is desirous of having three of the new ships constructed on the Pacific coast. Nearly all of the cabinet ministers will be back in Ottawa next week following Sir Wilfrid's return here on Tuesday next. There is considerable work ahead of the cabinet in clearing up arrears of business accumulated during the past month, and in completing the government's legislative programme for the balance of the session. Nearly half of the government's business, as planned for the session, remains to be put through and four weeks of solid work can easily be put, after the house resumes on July 18, in clearing off the order paper before the decks are cleared for the final struggle with the redistribution bill and the reciprocity agreement.

OBITUARY

T. Fred Powers
The death occurred at his home, 79 Princess street, yesterday of T. Fred Powers, a widely known citizen of St. John. He had been ill for about six weeks with heart trouble but was improving and early yesterday was so much better that it was expected he would be able to get up in a few days. With the coming of the storm last evening he took a turn for the worse. The thunder it is thought affecting his heart. Convulsions set in and Doctor Addy and White were summoned but their efforts proved fruitless and he soon passed away. Mr. Powers was a prominent Free Mason, was a member of the Canadian Order of Elks and a Forester. He leaves a wife, one son, M. E. Powers of this city, and two daughters, Mrs. F. C. Thompson of Moncton, and Miss Frederica, at present at home. He is also survived by five sisters, Miss Nellie Powers, Mrs. E. K. McArthur of this city, Mrs. George Suggs of Orange (N.S.), Mrs. William Snyder of Boston (Mass.), and Mrs. John Robertson of Cambridge (Mass.). The funeral will take place Sunday afternoon from his late residence. Service at 2.30 o'clock.

TERRIFIC HEAT
STILL IN STATES;
DEATH LIST GROWS

New York, July 6.—Showers tonight brought relief to New York from the hot wave which has taken more than 100 lives and caused hundreds of prostrations during the past five days. Until the shower area began to develop locally, shortly after 8 o'clock this evening, there had been no sign of a let up in the intensity of the wave. Indeed, the day's maximum of 92.5, bettered yesterday's high mark by half a degree. All that made conditions in any way endurable was a brisk breeze. When the shower area developed to-night the official mercury dropped 10 degrees in 45 minutes, running down to 78 at 8.45 o'clock. The passing of the brief storm, however, was the signal for another upward shoot to 82 shortly after 9 o'clock, and there still seemed to be no firm ground for the hope that the back-bone of the torrid spell had finally been broken. Humanity's sufferings were, if possible, greater than ever today. Women fainted in the streets and drug stores all over the down town district became veritable "first aid" stations. The asphalt was oozy under foot. The pitch boiled out of the wood block pavements. Stricken horses were to be seen every few blocks. One driver went mad on his seat and had to be restrained and forcibly taken to a hospital. Boston, July 6.—Six deaths and thirty prostrations up to 1 p. m. was today's human toll exacted by the heat wave in this city. At noon the official temperature high above the street was 89, but street

AT CAMP SUSSEX

Camp Sussex, N. B., July 7.—Official figures given out yesterday show the strength of the camp to be 1,018 men, and 200 horses. Yesterday passed off quietly. The usual drills were held. The weather was very hot, however, it being 86 in the shade at one time. The 20th N. B. Dragoons and 8th Hussars are planning to hold a big celebration at the "bungalow" on some day during the latter part of next week. The celebration is expected to be in the form of a ball, to which the wives and lady friends of the officers will be invited. It is also the intention of the officers of these regiments to hold a field day and Lieut-Colonel Wedderburn and Major C. H. McLean are already buying themselves in this connection. Instructions in equitation are being given daily at the camp. The officers in charge are Lieut-Colonel Wedderburn, 8th Hussars, president, and Major C. H. McLean, 20th Dragoons, and Major A. J. Markham, 8th Hussars.

BOY DROWNED IN HUMPHREY'S POND

Abram Stultz Had Gone in Bathing to Escape the Heat—Moncton Council Matters

Moncton, N. B., July 6.—Abram Aged eight years and nine months, son of John Stultz, Humphreys Mills, was the victim of a sad drowning accident in Humphrey's pond this afternoon between 3 and 4 o'clock. The unfortunate lad, accompanied by a younger brother, six years old, went out to pick berries, but strayed to the pond and went in bathing. According to the younger boy, Abram came out the first time and dressed, but later, being very warm, stripped off his clothes and went in the second time. This time it appears he got beyond his depth and after splashing around, disappeared. His little brother on the bank eventually became alarmed and ran home and told his mother what had happened, taking his brother's clothes with him. The frantic mother ran to Lockhart's mill and gave the alarm. Several men hastened to the spot indicated by the boy and found the body was quickly found. The body was standing erect in the water with the head only a few inches below the surface when found. Life was extinct. The city council, at a meeting tonight, decided to yield to the agitation of citizens to give a trial to a concrete sidewalk which R. C. Donald agrees to lay for fifteen cents a foot. At present the city is paying Contractor Low from twenty to twenty-five cents a foot. Donald is to be given a contract for laying 600 feet as a test. The council tonight adopted a general policy in reference to concessions to industries locating here. The housing and guaranteeing of bonds were condemned, and it was decided to grant free water and a fixed valuation for assessment purposes. This practically turns down the proposition of the Burton Saw Co., which asked for a loan of \$30,000 and other concessions.

Practical Arbitration Progress

Washington, July 6.—The principle of arbitration in international disputes, in so far as its application to the United States and Great Britain is concerned, received pronounced impetus today. Secretary of State Knox and Ambassador Bryce signed the first schedule of certain pecuniary claims existing between the United States and Great Britain and the terms of their submission to arbitration in accordance with the imperial agreement signed Aug. 15 last. Not satisfied with this accomplishment then further lent their energies in the cause of international peace by conferring for an hour on the proposed general arbitration treaty which is to supplant by broadening its scope the very convention under which the pecuniary claims will be arbitrated. Many a man's philosophy is merely dyspepsia of the intellect.

STEAMSHIP MILTON ASHORE DOWN BAY; GETS FREE AGAIN

Within a few miles of port after a 5,000 mile journey from Buenos Ayres, the British steamer Milton, 2,094 tons, Captain Egan, consigned to load lumber at St. John for John E. Moore & Co., Ltd., ran ashore on Cranberry Head, near Chance Harbor yesterday morning, and after lying across the ledge for nine hours was floated and came to the city under her own steam. It was at 10.30 o'clock yesterday morning that the boat ran on the rocks at the entrance of Tolon's Cove, between the Little Musquash and Cranberry Head, about three miles from Chance Harbor. The fog was very thick and the steamer was blowing her whistle for a pilot. The boat lay on the rocks till 7 o'clock last night, when Captain Egan decided to make an effort to get her off. Under full steam she slid off the rocks and out into deep water. She came up to Partridge Island and anchored there for the night. Pilot McKelvie boarded her. When seen by a reporter Capt Egan had little to say. The fog was very dense and the members of the crew said that they knew nothing as to how near land the steamer was until she struck. She was going very slowly at the time, they said, and the shock was hardly perceptible. The impetus of the big freighter, however, was sufficient to drive her pretty securely on to the ledge and the rapidly falling tide soon rendered it an impossibility to get her off then. The high tide in the evening floated her and the ship once again in the water soundings were made by the crew but they found her taking no water. They themselves were ignorant as to just what damage had been sustained, but they thought that out of a few dented or strained plates, she sustained no serious injury. The Milton is a freighter of 2,094 tons register and was thirty days out from St. Lucia (W. I.) on the way for water and the voyage to that point had been made in favorable weather. From there up Capt. Egan said he encountered considerable fog and coming up the bay it became extremely dense. Considering this he made a quick passage.

"HAPPY DAYS BEGIN" The annual festive season of "Happy Days" with the Royal Kennebecian Yacht Club members will begin tomorrow, when the cruise of two weeks along the St. John River to Oranoczoj, will start.

R. K. Y. C. Yacht Cruise Will Start Tomorrow—Some of the Yachts and Crews

The annual festive season of "Happy Days" with the Royal Kennebecian Yacht Club members will begin tomorrow, when the cruise of two weeks along the St. John River to Oranoczoj, will start.

It is expected that quite a number of boats will be seen in line when Commodore Thomson from the flagship "Corinthian" orders "gun-fire," the signal to be given at 3 p.m., for the craft to get under way.

It is expected that either Carter's Point or John O. Vanars's will be made tomorrow night. It is not known how many will take part in the cruise, but it is thought likely that the following boats with complete crews will be on hand:

Louisa, Vagabond, Savatar, Water Witch, Bessel, Alhago, Zuleika, Ross, Privateer, and Sunol.

Commodore Thomson will have a party of guests on board his trim steam yacht, as will J. F. Gregory with the "Zuleika" and Roy Durley with the "Water Witch."

On board the "Louisa" will be: Messrs. John Kimball, F. L. Kelly, and Harry Dunn, while Dr. Merrill will have aboard the "Vagabond," Messrs. R. A. Watson, W. C. Burrell, and R. E. Crawford.

THE VISITATION OF MOTHS The moths which swarmed in such numbers about the city lights last evening, have been examined by Wm. McIntosh. He describes them as of the adult stage of the forest tent caterpillar.

Some idea of the number of the moths congregated about the country at this season of the year may be indicated by the statement that at times the moths alighting on the railway tracks have so great the trails that trains have been held up.

THIS WAS KNOCKED OVERBOARD While going fishing in a small boat yesterday afternoon on the river near Spruce John McCarty, of Simonds street, and C. A. Clarke, manager of the City Fuel Company, had an exciting experience when the latter was thrown into the water, being knocked overboard by a sudden swing of the boom. A squall of wind came suddenly and, striking the sail, caused the boat to veer suddenly.

LIGHTNING FOR SECOND TIME HITS SOUTH BAY HOUSE

Frank Charlton's Residence and Barn Struck Last Evening—Some Hay Wrought in the Heavy Gale

Lightning, says the adage, does not strike twice in the same place, but in last evening's storm it struck the house of Frank Charlton, at South Bay, where, on the night of the Provincial Hospital fire, it caused serious damage and nearly burned Mr. Charlton's mother.

Lightning, says the adage, does not strike twice in the same place, but in last evening's storm it struck the house of Frank Charlton, at South Bay, where, on the night of the Provincial Hospital fire, it caused serious damage and nearly burned Mr. Charlton's mother.

There were rumors last evening in regard to the burning of the house of Frank Charlton, at South Bay, where, on the night of the Provincial Hospital fire, it caused serious damage and nearly burned Mr. Charlton's mother.

At Millidgeville, two dories riding at their moorings were upset.

A tree in Riverview Park, Douglas Avenue, was blown down in the storm, as was one on the corner of Y. M. C. A. grounds.

The loss to the leases of the Shamrock grounds through last night's storm will be considerable. The large signs which had been erected about the fence were soundly broken and some of them were blown down.

Several of these large signs were blown down, five on one side and two on the other of the grounds, along with 200 feet of fencing. A crew of workmen were started this morning and will hasten the repairs with as much speed as possible.

VERY BUSY TIME OF IT IN THE POLICE COURT THIS MORNING

A Variety of Cases Before Judge Ritchie—Evidence in One Case Was Taken Behind Closed Doors

Judge Ritchie had a highly docket in the police court this morning. The first case was that of several small boys who were charged with selling peanuts in the King Square without license.

Joseph McIntyre, Harry McIntyre, Chas. Donaldson, Thos. Houshag, Bert Ryan, Fred Mayes, James Good, Murray Fraser and John O'Neil were all fined \$10 each for selling peanuts.

Robert W. Carson, charged with driving his automobile across the sidewalk in Brook street without tooting the horn, and consequently striking Thomas Martin, was next.

Mr. Martin said he did not hear the auto horn. He testified that the car struck him and almost knocked him down. He also said that Carson used abusive language to him.

The defendant went on the stand and swore that he had sounded the horn before going round the corner. He admitted having used bad language to the plaintiff. He swore that he did not see the car hit the plaintiff and contended that it must have been the dog of the car that had struck him.

Ernest Williams swore that he heard the auto horn and saw Martin crossing the road in front of the car. He thought it was the dog of the car that struck him.

His Honor remarked that there was altogether too much reckless driving of automobiles in the city and that a stop must be put to it.

He cited the law which holds that the pedestrian has the right of way and that both teamsters and automobile drivers must give way to people on foot.

The case was adjourned until 8:30 o'clock tomorrow morning to allow the plaintiff to secure witnesses.

William F. Murray, charged with stealing two pairs of boots from Tom Y. Small was brought before the court. He was represented by R. J. MacRae and pleaded not guilty.

M. J. Leacock, clerk in the store told of the defendant going into the shop on June 3 and getting two pairs of boots on approval.

Neither pair was returned, so he placed the matter in the hands of Detective Killen. He testified that the prisoner had always borne a good reputation and had purchased goods there before.

Joseph Gilbert told of buying the boots from Murray for \$4, and Detective Killen told of making the arrest.

M. T. Cobolton, Murray's employer, testified as to his good character. Murray was remanded for sentence.

Judge Ritchie remarked that some day one or two of the local pawn brokers would be sent up to Dorchester for buying stolen property from people.

Herbert Bois was fined \$8 or twenty days in jail for being drunk. Alfred Robinson was allowed to go on the same charge.

The next case to be tried was the most serious. Thomas Nash, 30 years of age, was before the court, charged with attempted assault.

Mrs. Elizabeth Braman is the complainant. The evidence was taken behind closed doors. Both parties live in Erin street. Nash is married and has a family.

Being neighbors they were in the habit of visiting each other, and yesterday afternoon it is said Nash went into the Braman house while Mr. Braman was out.

After the evidence of the plaintiff was taken the case was adjourned. Mary Ellen Hayes, charged with stealing a fountain pen, a watch chain and a vase from the home of Herbert Sears, Duke street, Carleton, was also before the court, and after the evidence of Mr. and Mrs. Sears was taken was further remanded. The girl is only seventeen years of age.

Thomas Davis and Richard O'Leary, who have been in jail on remand, were brought in and sentenced to \$8 or two months in jail with hard labor.

The early closing cases were also to have come up, but were further postponed for a week.

62ND REGIMENT The 62nd Fusiliers' drummers and bagpipers will retire all clothing, bugles and drums this evening at the officers' club room.
