AN ILLINOIS MIRACLE. A Case of Deep Interest to All Women. Delineo Times. Among the peculiar conditions with which the people of the present age are endowed, is a remarkable capacity for doubling. A 11 belief only comes after a careful investigation, and after positive proof have been presented. Current report said there had been a remarkable cure in the case of a lady of Savanna, Ill., but as current report is not always accurate, and as the story told was one possessing deep interest for the public, The Times determined upon a thorough investigation into the matter. The result of this investigation proved that not only was the story true, but that the case was even more remarkable than the public had been given to understand.

AN ILLINOIS MIRACLE (continued). Mrs. A. E. Kenyon is the fortunate owner of a comfortable home, well kept and with pleasant surroundings, situated on Chicago Avenue, Savanna, Ill., and it was there the reporter sought him to learn of the sickness of the lady of which he had heard so much. In answer to the bell a lady appeared at the door, and to an inquiry for Mr. Kenyon said, he was employed by the railroad company, worked at nights and was asleep. If able to go about I had to look after my household duties. I then consulted Dr. Williams' Pink Pills for Pale People. My stomach would not retain the medicine he gave me and he came to the conclusion that my stomach was diseased. Occasionally I would choke down and nearly suffocate. I then went to Dr. Maloney and he pronounced it a case of heart trouble. He helped me temporarily, but like the rest said I must stop all work or nothing could be done for me. All this time I had grown weaker and paler until I was in a deplorable condition. I had a continual feeling of tiredness, my muscular power was nearly gone and I could not get up half a dozen steps without resting, and often that much exercise would cause me to have a terrible pain in the side. Seemingly the blood left my veins. I was pale as death; my lips were blue and cold and I had given up all hope of ever being better. About the first of April last a young man boarding with us received a Fulton, Ill., paper. It was his home paper sent him by his mother. I picked it up and in glancing casually over its columns came across an account of a marvelous cure through the use of Dr. Williams' Pink Pills for Pale People. Candidly I did not believe the story, and when my husband suggested that it would do no harm for me to try the pills I laughed at the idea. He insisted and I submitted but I had no faith whatever in the pills. My husband went for two boxes and I took them. When I had used these I was somewhat improved in health. I continued their use and I felt that I was growing stronger, my sleep refreshed me and it seems as if I could feel new blood coursing through my veins. I kept on taking Pink Pills until a short time ago and I now consider myself a healthy, rugged woman. My home is full of boarders and I am appointed all the work. In other words I work all the time and am happy all the time. I am positive that Dr. Williams' Pink Pills for Pale People saved my life, and I believe there are thousands of women who would find great relief if they used them. The sick headaches I was subject to have disappeared, and I have not had a single attack since I commenced taking Dr. Williams' Pink Pills. "Was there any disagreeable effects from the medicine?" asked the reporter. "None whatever," replied Mrs. Kenyon. "They are pleasant to take and the conditions imposed by the directions are easily complied with. In common parlance I took Pink Pills and they did the rest." Mrs. Kenyon stated that all her neighbors, know of her former condition and her restoration, and one of them was called in, and when asked of her knowledge of the case said: "I have been intimately acquainted with Mrs. Kenyon and know of her illness. I look upon her recovery as something marvelous. It is surely to be expected that happened to her case. Of my own knowledge I cannot say what the nature of her ailment was, but I know that she was reduced to a mere shadow; she was the palest and most ghost-like person I

THIS WONDERFUL STORY Was Told Mr. Frank H. Colley, Local Editor of Age, Beloit, Mo. "For 15 years I have been a sufferer from Salt Rheum of head, with its attendant itching and burning. Crusts 1 1/2 inch thick would form over my whole scalp, crack and bleed. I also had a general Salt Rheum on my body from which I suffered torture. My food distressed me badly and a severe palpitation of the heart added to my suffering, and untended me for 15 years."

THIS WONDERFUL STORY (continued). "I was born in Warren county, New York thirty three years ago. I was married when I was 18 and came to Savanna seven years ago. With the exception of being at times subject to a violent sick headache, I considered myself a healthy woman up to five years ago. At that time I was very much run down and on an easy job to the ever present malaria in and about the Mississippi bottom lands. I was attacked violently ill during the summer of five or six months was the greater part of the time helpless. The local physicians and the ablest physicians in the Mississippi Valley, treated me for a time without beneficial effects, and finally told me they thought I could help me if I would absolutely abstain from work. That was not to be thought of if able to go about I had to look after my household duties. I then consulted Dr. Williams' Pink Pills for Pale People. My stomach would not retain the medicine he gave me and he came to the conclusion that my stomach was diseased. Occasionally I would choke down and nearly suffocate. I then went to Dr. Maloney and he pronounced it a case of heart trouble. He helped me temporarily, but like the rest said I must stop all work or nothing could be done for me. All this time I had grown weaker and paler until I was in a deplorable condition. POOR DOCUMENT

THE LEGISLATURE.

The Debate on the Bathurst School Question Concluded.

The Government Appoint a Judge to Investigate and take Sworn Evidence.

All Possible Charges and Grievances will now be Investigated.

The Bathurst Question came before the committee Monday afternoon, the time being occupied by the reading of the minutes, correspondence, etc., in connection with the matter. The reading of the minutes was continued Tuesday afternoon until nearly five o'clock, when the house resumed itself into committee of the whole. Mr. Killam in the chair. The chairman read petition number 20 in respect to the school.

Upon the chairman asking what action the committee proposed taking no response was made and the committee was carried that he should leave the chair.

Mr. Blair said he observed with great surprise the entire absence of hon. members who had been promising to bring the petition to the attention of the house and asking that they be remedied. It could not be said as in all respects that the government or its supporters had treated the petitioners with disrespect. They had left that to the petitioners, if they believe that grievances existed, were quite within their rights in bringing them to the attention of this house and asking that they be remedied. It could not be said that those who had been employed in circulating these petitions and bringing them before the house had treated the petitioners with proper respect, for there was not a single man of them who felt himself willing to be capable of suggesting what action should be taken upon their complaints. It was a matter of extreme surprise to him that these gentlemen, who were ready enough in election campaigns to stab the government in the back, should be dumb before those whom they had accused. Since the hon. gentlemen opposite had proposed to make as to what action should be taken upon the petition, he would propose a motion or two himself. He proposed to ask the house to express its opinion with regard to the regulations that had been imposed, and as regards the conduct of the regulations. He would afford the hon. leader of the opposition an opportunity of getting down from the nicely balanced and elevated position he occupied between the two parties, and declaring whether the regulations were right or wrong. He proposed to make these gentlemen declare their opinions or else quietly retire from the assembly.

With reference to the suggestion that the government had not honestly investigated the school, he said that he had not. Mr. Blair denied that charge entirely. He asked the opposition to state wherein the law had not been carried out, in conformity not only with the spirit but with the letter of it. The second paragraph in the petition alleged that special privileges had been granted to the Roman Catholic church, making it possible for the members of religious orders of that church to qualify for teachers, without submitting to the rigid examination upon other candidates for license. He meant no disrespect to the petitioners when he stated that they had signed this document without a knowledge of its contents. It was only now that the house itself was fully informed upon the facts. As a matter of fact this statement was entirely incorrect and no evidence worthy of the name would be adduced to show that any regulations had been passed by the board of education which were in conflict with the free common non-sectarian principles of the school law. He made that statement as a simple matter of justice to the former government, which did not contain any Roman Catholic members in its ranks. They were published in the press and no protest or objection had been made to them, either in the house or in the country. The committee was familiar with the terms of these orders. He would only refer to pre-positions No. 2 and the reply made to it.

Proposition two—That regulations be made to provide for the granting of licenses to persons holding certificates from the superior of any religious order, or where such persons, at their place of residence or school rooms.

Really—Any persons who have undergone training at a recognized training school, in another country, or who hold a diploma from a chartered college or university, is eligible for examination for license under regulations 30 of the regulations of the board of education. The certificate of the superior of any of the Roman Catholic teaching orders is recognized as rendering the holder eligible for such examination, and it would not be necessary for such persons to attend the N.W. Brosses training school. When such certificates are not held acceptance upon the training school is required.

On the strength of this order the Roman Catholics of the province who had remained out of the public school system and maintained their own separate schools, immediately within all their opposition and came in under the law and had so continued down to the present time. It was a matter of fair contract between the government and the Roman Catholic representatives, when, by that arrangement, all trouble and agitation ceased. When the present government came in power they felt that they would be justified in getting on record a regulation which would not in terms discriminate in favor of any denomination, and they passed a regulation in terms to that which was ordered in the manual of 92, though not in the identical language. That regulation (No. 13) was as follows: "Licenses of teachers—Persons eligible for examination: That he has obtained professional classification from some other recognized normal or training school for teachers after attendance thereof of not less than one school year."

The resolution he would propose to the

B. Yerxa & Co.

of the board of education passed and in force in the year 1872 was in the words following: "Regulation 20 envisions in the school room—Symbols or emblems distinctive of any national or other society, political party or religious organization, shall be exhibited or worn in the school room, either in its general arrangements or other exercises or on the person of any teacher or pupil; and

Whereas, on the 31st December, 1872 the board of education passed the following order: "Ordered that nothing in regulation 20 shall be taken to prevent the wearing of the crosses or any other emblem ordinarily worn by the members at large of any denomination of Christians in the school manual of the year 1873, and so continued until the year 1875 when it was published in substantially the same form as it is at present, temperance organizations; there

Resolved, That in the opinion of the members of this house the said regulation does not contravene the non-sectarian principle of the school law and it is not expedient to alter or amend the same, and the said regulation is hereby approved."

This was carried upon the following vote:—

Yeas—Messrs Blair, Mitchell, Emmerson, White, Tweedie, Lablache, Lewis, Russell, Theriault, Blanchard, Stewart, Scott, O'Brien (Northumberland), Blair, Dibbille, Robinson, Dunn, McLeod, Ferris, O'Brien (Charlottetown), Hill, Powell and Perley—27.

Nays—Messrs Stockton, Phinney, Shaw, Smith (St. John), Alward, How, Pinder, Pitts and Allen—5.

Hon. Mr. Blair moved the following:—Resolved, That with the leaving of the school year, the board of education of any building suitable for school purposes is not contrary to the non-sectarian principle of the school law and it is not expedient to alter or amend the same, and the power of the board of school trustees to lease or occupy such building should be subject to limitation and the members of this house approve the action of the board of education in providing, as has been provided by regulation number 10, school buildings at such times as the building as the case may be, shall be under the supervision and control of the trustees for school purposes and such other times as the necessities of the school may require, and that any school house or school houses owned by the district shall be first occupied to its or their full seating capacity, before additional accommodation shall be leased under the chief superintendent of the board of education and a consideration of any special circumstances in any case shall otherwise order."

Mr. Stockton said he saw no objection to the leaving of the building, but the schools were carried on according to law. He would like to see a provision that parallel grading of schools should not be allowed in districts of limited population.

Hon. Mr. Blair said he had no objection to that. It was moved as a separate resolution at Bathurst villages the board had not only to contend with two creeds but two races.

The resolution was agreed to without a dissent.

Wednesday Mr. Killam introduced a bill to amend the act to incorporate the Montreal Tramway Company; Mr. Dunlop's bill to authorize school district No. 2 parish of Lancaster, to issue debentures; Mr. Shaw's bill to confirm an agreement entered into between her majesty the queen and the city of St. John as to the extension of the I. C. railway along the harbor front; Mr. LaVigne's bill to amend chapter 100 on Rates—rates and taxes, so far as relates to Restigouche county.

On motion of Mr. Stockton, seconded by the hon. leader of the opposition, the introduction of private bills was extended to and including Saturday next.

Petitions for temperance instruction in the public schools were presented by Messrs. Howe, Wells, Goggin, Alward and Shaw.

Hon. Mr. White committed a bill providing for instruction in public schools of the effects of alcoholic drinks and narcotics upon the human system. He explained that while it was true the board of education recognized the teaching of temperance, it was desirable to place the matter upon a more permanent footing and emphasize the same. The law had had a most salutary effect in Nova Scotia. The bill was unanimously agreed to.

After supply, Mr. Ferris committed a bill further to revive, continue and amend the several acts relating to the Central

A Synoptic History of the Times.

Revised and Amended for every-day convenience.

LAWSON, Me., April 5.—The clerk of the water board, Walter A. Gos, is short \$1,000 in his accounts.

The number of languages spoken by mankind at present are estimated at 3,000. The Bible has been translated into 200.

In a shingle mill at Gray's Harbor, Wash. recently, the entire works were kept running all day on a single cedar stick, which made 188,500 shingles.

Chicago, April 6.—The South Chicago Steel Casting company, liabilities and assets about \$100,000 each, had judgment entered up against it today for \$20,000. It is feared suspension will follow. The South Chicago Foundry company, a small steel concern, is also involved.

At the convocation of the medical faculty of McGill College on Tuesday a letter was received from the bank of Montreal of \$100,000 to be devoted to the perfecting of the faculty in question.

The Commercial Bank of Australia has suspended payment. The paid-up capital of the bank is \$1,200,000. The subscribed capital was \$2,000,000 and the reserve fund \$250,000. The bank had branches in London, Edinburgh, Glasgow and all the principal cities and towns in Australia. The suspension is due to the continued withdrawal of deposits of two million pounds were withdrawn within the past year, and \$1,500,000 on Thursday last alone. The Commercial is the largest bank in Victoria. The total amount of deposits was over \$18,000,000.

Boston, April 5.—Thomas A. Brown, a picture frame maker of distinguished character, was arrested this morning charged with killing his mother Mrs. Catharine O'Connell, an old woman, at her home in South Boston by beating her. Brown has been a habitually drunker for years, and for a week or more has been constantly drunk. He is about 33 years old and a widower. Mrs. O'Connell, the murdered woman, was married twice. Brown was drunk last night, and this morning the brutal and battered dead body of his mother was found on the floor of her room.

Drayton, Ky., April 5.—Early in January Eva Weese, a little girl in the city, became covered with red rings. No apparent cause could be traced. Within a day she began to swell, and a few hours later reached three times her proper dimensions, and has remained so ever since. The swelling is confined to the face and neck, and the smallest amount of food, and all this time she has been kept alive by absorption. Three times daily she is covered from head to foot with cold water to make the swelling subside. She appears to thrive on this diet, is good natured and amuses herself with dolls and picture books. She is said to be able to move, but refuses all the time in bed. Physicians do not know what is the matter or how to treat the case.

Boston, April 5.—The S. P. Penhollow of the Boston and Bangor line, went ashore on Agostino Island, to Cambridge harbor, this morning. The wind blew the cyclone. The vessel was unmoored, but the steamer was forced to anchor. The damage is unknown.

The second of a series of four lectures, of which Mr. J. V. Ellis's lecture on the stroke was the first, will be given at the U. N. B. Tuesday evening April 11th by Rev. J. McLeod, of the U. N. B. The lecture will be given by Mr. H. A. P. and Mr. S. D. Scott editor of the Star.
