

SWEARS COOK NEVER TOPPED BY MCKINLEY

Edwin Barrill, Cook's Only Companion in McKinley Expedition, Charges Explorer With Fraud In Affidavit.

THE WHOLE THING A FABRICATION, HE SAYS

New York, Oct. 14.—The Globe this afternoon prints a copy of the affidavit made by Edwin H. Barrill, who accompanied Dr. Frederick Cook at the time he announced his reaching the summit of Mount McKinley.

Barrill's affidavit states in effect that he was the only party present with Dr. Cook on the date when he claims to have reached the summit of Mount McKinley; that they did not in fact reach the summit and the nearest point to the summit reached was at least fourteen miles distant from the summit of the mountain.

Barrill's affidavit says at the outset that he was born in Buffalo in 1864 and now resides at Darby, Mont. He says he was the only party present with Dr. Cook when he claims to have reached the summit of Mount McKinley and that he is the party referred to as Barrill in the latter's affidavit.

He details his first meeting with Dr. Cook at Missoula where the latter was accompanied by Professor Parker, of Columbia University, A. W. Porter, and others. The organization of the McKinley expedition is explained.

Barrill recounts that at the start of the trip he prepared to keep an exact diary and sets forth that this diary, marked exhibit A, attached to the affidavit, is a pocket diary kept by me during all the time that Dr. Cook and I were together near Mount McKinley, and the same is a truthful record, with the exception of the entries and changes made by me therein under the orders of Dr. Cook.

Special to The Standard. Moncton, Oct. 14.—Mr. Brady absolutely refuses to talk and railway men profess not to know the names of the conductors liable to suspension or dismissal for "knocking down" fares.

It is said that special agents of the department have been on the road for some time, but their secret was well kept as the regular railway police profess not to have known of this information.

OGILVIE COMPANY INCREASES DIVIDENDS

Montreal, Oct. 14.—The important announcement was made at the annual meeting of the Ogilvie Milling Company of an increase in the dividend rate to 8 per cent. payable quarterly.

E. W. Thompson, vice-president of the company, stated in the course of his remarks that the company's estimate of 115,000,000 bushels for this year's wheat crop would be largely exceeded making it as to quality and quantity the best in 20 years.

President Hosmer's report showed that during the year the company had built 17 new elevators and was constructing large additions to its storage capacity at Fort William and Winnipeg. The old board and officers were re-elected.

C. P. R. Estimate. Winnipeg, Oct. 14.—C. P. R. Grain Agent Acheson announced today his estimate of western Canada's wheat crop as one hundred and twenty-two millions. Manitoba's average is fifteen million bushels, Saskatchewan's seventeen, Alberta, twenty.

DELUDED FOREIGNER WORRIES FREDERICTON

J. L. Russen Is Looking For The Murderer Of Jennie And Has Made The Capital His Happy Hunting Ground.

Special to The Standard. Fredericton, Oct. 14.—Highly educated but of unsound mind, J. L. Russen, local authority, has been busy for the past day or two. Incidentally he has annoyed a number of people owing to his delusions and as a result a formal request will be filed with the Federal Immigration Department that he be deported.

Talks Rationally. Russen has been here for some little time and talks rationally on many subjects, showing that he has been well educated and probably of good family, but of some foreign extraction. He apparently has enough money to get along on and is comfortably dressed.

GREAT LIB-CONSERVATIVE CONVENTION IS ANNOUNCED BY LEADER FOR NEXT YEAR

Mr. R. L. Borden In a Speech at Halifax Tells of Future Plans For the Party.

Gathering To Be Thoroughly Representative of Every Important District In Canada.

Questions of Policy To Be Discussed With the Effective Organization of Party.

Responsibility The Price of Autonomy—His Views On the Question of Defence.

MR. R. L. BORDEN

Special to The Standard. Halifax, Oct. 14.—It was a large and representative audience which greeted Mr. R. L. Borden in Mason's Hall this evening. It was Mr. Borden's first political address since his return from Europe and was listened to with keen interest.

The warmth and cordiality of the reception he was given, was that of personal enthusiasm, confidence and esteem. The leader was in excellent form. He spoke in part as follows: "Since the conclusion of the past session my absence abroad has denied me the opportunity of any visit to my constituency. I return from that absence strengthened in the deep conviction that Canada has before her a future, the greatness of which we are beginning only dimly to realize.

"To one thus returning from the Mother Country the question naturally presents itself: how shall we stand in the future within the Empire? Shall we as Mr. Goldwin Smith desires and predicts, become part of the great American republic? Or shall we follow the aspirations of Sir Wilfrid Laurier who hopes and believes that Canada will sever her connection with the British Empire, as a ripe apple drops from a tree? Or shall we follow the ideal of Sir John A. Macdonald, who foresaw and predicted a cordial and healthy alliance with the Mother Country, by which Canada would become a powerful nation owing allegiance to the British Sovereign and Flag and maintaining the advantages of connection with the greatest empire of the world? Surely it is the latter ideal which today is being realized; and with it may there come to our people an increasing appreciation of the value of British citizenship, Canada has the most complete right of self government. We hear from members of the present administration occasional bragging declarations as to what they have accomplished in securing for Canada complete autonomy. That autonomy in respect of our self government is most fully and thoroughly realized by all intelligent and thoughtful men in the British Islands who indeed listen with wonder and amazement to the unnecessary admissions delivered in season and out of season by certain Canadian statesmen upon this theme. Mr. Brodeur says he has secured naval autonomy for Canada. There is not and there never has been for the past 40 years any constitutional or other difficulty about the establishment of a navy by Canada whenever its people thought fit to adopt that course.

Further Responsibilities. "Nationhood involves certain responsibilities from which we cannot escape. One of these responsibilities is that of defending our borders and of taking effective steps to protect our commerce and our trade routes. It is sometimes said that if Canada were independent the fleet of the United States would afford us an all-sufficient protection. Does any reasonable man imagine that such protection would be given without a very ample quid pro quo. To suggest such an idea is to refute it.

Sunbury County Court In Session At Burton. Fredericton, Oct. 14.—The October term of the Sunbury County Court opened at Burton, N. B., on Wednesday Judge Wilson presiding. The only case on the docket was an appeal made by William Bryson, of Oromocto, from a conviction against the Scott Act. The evidence in the case was taken yesterday, and the court adjourned to meet at Judge Wilson's chambers in this city this afternoon, for the purpose of hearing the argument. Mr. R. W. McLellan supports the appeal and Mr. A. R. Sillip, M. P., opposes.

Strathcona Donates Old Home For Park. Strathcona donating his old home farm at Silver Heights to the Selkirk centennial to be used as a public park at the close of the exposition.

Time Will Tell. "How the present administration will work out the policy which was outlined by the resolution to which I have alluded remains to be seen. One governing principle at least should control, namely, that out of our own materials, by our own labor and by the instructed skill of our own people any necessary provision for our naval defence should be made as far as may be reasonably possible. In this connection may we not hope that there shall be given a stimulus and encouragement to the ship building industry of Canada which has long been lacking. Today should be Nova Scotia's opportunity in that regard. Woodcock, who has been separated from his material with the men and with the maritime situation which are essential not only for developing a scheme of naval defence and protection but also for the resuscitation of that ship building industry which once made Nova Scotia famous throughout the world.

Shareholders of the Ontario Bank Must Pay. Bank of Montreal's Claim Of \$1,481,972 Must Be Satisfied By Shareholders Of Defunct Institution. Toronto, Ont., Oct. 14.—By a judgment of the official receiver in the Ontario Bank case given this morning the shareholders of that defunct institution must pay the Bank of Montreal's claim of \$1,481,972. Mr. Kappel finds that the money was borrowed only to satisfy the claims of depositors, whose claims are prior to the shareholders and that the agreement is valid and binding as a basis for the accounting between the banks. The question of the exact amount to be paid is yet to be decided, but the amount of the claim is expected virtually to stand. In his judgment, Mr. Kappel points out that the directors by making illegal purchases of the bank's own stock materially reduced the bank's capital.

Death of Convict At Dorchester. Moncton, N. B., Oct. 14.—Joseph Lewis, a convict at Dorchester, died this morning after an illness of several months. The deceased was an Englishman sentenced to 10 years for forgery and theft committed at Halifax. He had served 4 years. Nothing is known of his relatives and he had refused to give out any information in this regard.

POLICE STILL PUZZLED AS TO GIRL VICTIM

Believed Now That Suit Case Murder Victim Is Miss St. Jean Of Fall River, Although Proof Is Yet Wanting.

MOTHER TO ATTEMPT IDENTIFICATION TODAY

Tiverton, R. I., Oct. 14.—Just as yesterday, the minds of the officials tended almost certainly to a South Scituate young woman as the victim, so today and tonight they leaned strongly toward the belief that all body was that of Miss St. Jean of Fall River. And supports to their theory were not wanting. As in yesterday's clue they were abundant. Most important, probably was the identification of clothing contained in a bundle found in Mount Hope Bay as being that worn by Miss St. Jean on Friday. The identification was made by Mrs. Lameroux of Fall River, who stated that the hat, shoes, stockings and underclothing which the bundle contained had been borrowed from her by her niece, Miss St. Jean, on Friday morning. Papers of the same date as those found covering portions of the body were wrapped about the clothing.

Had No Limp. One man whom the Fall River police submitted to an examination for several hours tonight is the same whom they released after a short talk last night. At that time they announced that they would have detained him had it not been for the fact that the right foot of the mutilated body was so stiff that the victim must have limped in life, while Miss St. Jean did not do so. Medical Examiner E. P. Stimson late today corrected his previous statement as to the injured foot. He stated that the stiffness which he found was undoubtedly due to the action of cold, damp air on the leg when it was hidden while the blood was still warm. The effect would be the same as if life were still in the limb.

Without Success. An attempt of Joseph St. Jean, father of the missing girl, to identify the body here as that of his daughter, was without success. Although expressing the belief that the body was that of his daughter, he still was unable to find any identifying marks upon it. It was at his suggestion that the Fall River police originally turned to the fact of Miss St. Jean's absence as a clue to the identity of the victim. Mrs. St. Jean, living in Woodcock, who has been separated from her husband for several months is to come from Woodcock tomorrow morning to attempt to identify the body as that of her daughter. Although meagre in results, the day's searching was conducted on a broad and well-manned basis. The blood-spattered countryside adjoining Bulmer's Road, where have been found the portions of the body thus far discovered, was searched systematically. The results were a switch of hair of dark brown color and two bloodstained handkerchiefs. The finding of the clothing in Mount Hope Bay late this afternoon was not a result of organized search.

SIR FREDERICK BORDEN ON STAND IN BEL SUIT

Has Sweeping Denial For Everything In Sight—Was Not Drunk At Fisher Banquet—Cross Examination Curtailed

CROWN RESTS CASE, ADDRESSES ON TODAY

Kentville, N. S., Oct. 14.—Twelve jurymen still live in bondage. Good and tired are the men and they would glad will they be tomorrow when they are dismissed. There is an unenviable position in spite of the fact that all of them courted the job. The evidence adduced is contradictory. Everybody is giving an opinion and they are not all crazy. Both sessions of the court were well attended today. In the morning Hester Chalefour was again on the stand, her evidence being much in opposition to that she had given at one time yesterday. Today she admitted the authenticity of her letters, but denied the truth of the allegations contained therein.

Sir Fred On Stand. Sir Frederick Borden appeared on the stand today and underwent a gruelling cross-examination at the hands of J. J. Ritchie, K. C. He flatly denied the allegations of the witness for the defence. The evidence was all in at half past four this afternoon, and adjournment was made till tomorrow morning.

It was 2:15 when Judge Drysdale took his seat on the bench. Sir Frederick Borden was in one of the ante rooms and the lawyers were taking a breathing spell preparatory to the last great fight. The court room was again crowded and everything pointed to an interesting session. Serjt. Major L. Louis Chetty, of Ottawa, assistant superintendent of labor, was the first witness placed on the stand. His work involved keeping the time of the employees.

Mrs. McPartland was in the employ of the Government. Mrs. McPartland's daughter, aged 23, was also in the Government's employ. Knew Miss Chalefour. Wm. Crown, of Montreal, assistant in the Crown and timber office in Quebec, said he knew Miss Chalefour, who had been employed in the office. She was in the office from about 1899 till 1903, when she was made permanent. She held the office until the sixth of February, 1907. Her first pay was \$30 a month. When the position was made permanent, she got \$50 a month.

To Mr. Ritchie, witness said he was speaking from memory. He could not tell the exact time. Sir Frederick Borden was then called and sworn. He said he was a member of Militia and Defence, Hester formerly known as Dr. Borden being a medical practitioner. Sir Frederick said Mrs. Mary Allison at her home on Albert St., Ottawa, was the beginning of the session of 1895. He had lodgings and board there. He went there in January or the first of February, 1895. Judge's Fall River policemen who were detailed on general work in connection with the case being the finders.

PEARL'S PROOFS

Chairman of Arctic Club

New York, Oct. 14.—Dr. Russell O. Stebbins, chairman of the executive committee of the Arctic Club of America, said he had been led to expect that Mr. Peary would make a much stronger statement than the one officially issued.

As Witnesses Against Him. "Commander Peary, when he came back from the north, said that Dr. Cook's Eskimos would not know where they had gone, and now he would have those same Eskimos appear as witnesses against Dr. Cook.

Something Strong. "From what Commander Peary said in his bitter attacks against Dr. Cook we had every reason to believe he would present something strong, such as an absolute demonstration that Dr. Cook's instruments were inaccurate, that he had been mistaken in his position or that he had been located definitely in some place many miles away when he said that he was at the Pole.

HUNGARIAN COUNTESS HAS BOUGHT A SAWMILL

Former Miss Gladys Vanderbilt Gives Old Country Ideals a Shock -- Admire Enterprise but Deprecate Move.

Budapest, Oct. 14.—Hungarian aristocratic circles are perturbed over the act of Countess Szechenyi, formerly Miss Gladys Vanderbilt, who recently purchased a large sawmill at Remete Vasgyar. Connected with the mill there is an extensive manufacturing plant which turns out all kinds of cabinet work.

The Hungarian women of high rank admire the young American woman's enterprise and envy her business ability, but hint that it is a startling departure on the part of one of Hungary's noblest families. They deprecate the business move of the Countess on the ground that it is beneath the dignity of her station in life.

Mulai Hafid Plans a Holy War Against Spain and Squalls Are Looked For

Fez, Morocco, Oct. 14.—What kind of a country is Morocco? The question will be asked hundreds of times in the next few days. For this last of the once great Barbary states is torn by dissension and the approach of holy war.

Like Other Towns. This city is one of the richest and oldest of the great Moroccan cities. It is like other tropical towns hereabouts, set in groves of orange and pomogranate. Hundreds of fountains of running water, whose sound itself is sacred to Allah's hosts, traverse the capital from end to end.

Thirst For Christians. Some of the visitors from the southern country, who come here with their wares to sell, would willingly murder any Christian in broad daylight if they had the chance.

"What do you want to be locked up for?" asked the captain in charge. The man hesitated, glanced about to see that he was not overheard, and said, quietly: "My name is Czolgosz."

NICARAGUA IN GRIP OF GREAT REVOLUTION

Estrada against President Zelaya has aroused the entire country and seems to be sweeping the republic. Everywhere the people are reported to be flocking to the armies of the revolutionists.

Col. Ugarte called upon the garrison to surrender, but met with a volley. His men returned the fire and after a fight rushed the garrison and captured it and then took possession of the town, with no further disturbances.

shows are always going in Morocco. Weird cries are punctuated by the sharp commands of a passing soldier or rich trader. Occasionally from all directions at once you may hear a sudden uprising of voices, as in alarm. No fear—it is only praying time, and the message toward Mecca dies down as soon as it has been sped on its way by the shouting of the passerby.

ONTARIO RIDDEN WITH WOLF PACKS

Farmers Flocks Suffering More Heavily Than Ever Before—Lack of Game Drives Animals From Woods.

Special to The Standard. Ottawa, Ont., Oct. 14.—Farmers flocks in the back townships of Pontiac County are suffering more heavily this year from wolves than for many years previous. The animals seem to have been driven from their homes in the woods because the farmers state, there is a lack of game for them to live upon. Sheep and calves are the most favored food for the wolves.

Joseph Gilpin, bailiff, of Otter Lake, near Shawville, was coming along one of the bush roads in Haddershield, a few miles from Shawville, in his buggy a few nights ago, when a pack of wolves took up the trail and soon dashed out of the woods into the road. The brutes snapped at the horse several times and one caught the animal by the knee and almost caused it to fall. Gilpin had no gun and it was only through driving ferociously that he escaped from the savage animals.

IS HARLAND AND WOLF TO BUILD BIG DOCKS HERE

Ottawa Hears of Big Project—No Absolute Arrangements With Government Arrived At Yet.

Special to The Standard. Ottawa, Oct. 14.—It is announced on unquestionable authority that Harland and Wolf, the big shipbuilders of Belfast, will construct two shipyards and dry docks in Canada, one at Levis, Que., and the other at St. John, N. B., capable of constructing and repairing warships of the largest British type. The firm will invest \$7,000,000 and will employ 1000 men, many of them skilled British workmen. The necessity for two plants is occasioned by Canada having winter and summer ports.

Levis Preferred. Levis is preferred to Montreal as being nearest tidewater, and yet well above the fortifications which in time of war will close the St. Lawrence, and St. John is chosen as being the terminus of the Transcontinental Railway lines. The firm will carry on a general shipbuilding business and will tender for the proposed warships.

LATER. Ottawa, Ont., Oct. 14.—There is nothing definite yet regarding Harland and Wolf's proposals for the erection of docks. While it is practically certain that the docks will be built at St. John, no absolute arrangements with the Government or with Canadian firms have been reached.
