

GOVERNMENT TAKES STEPS TO END LIBERAL BLOCKADE; 40 MAJORITY ON DIVISION

Climax of Two Weeks Of Obstruction Last Night.

TO HOLD SPEAKERS BY HOUSE RULES

If they do not suffice, Necessary Changes will be Made, is Announcement of Hon. Robert Rogers — Mr. Pugsley Forced to Retract.

Special to The Standard, Ottawa, Mar. 14.—The climax of the two weeks' obstruction of the naval bill was reached late tonight when the government suddenly announced to the committee of the whole that the existing rules would hereafter be enforced and if found inadequate for the passage of the bill new rules would be introduced.

The announcement, made by Hon. Robert Rogers was immediately followed by the application of the emergency rule requiring a speaker to speak to the clause under consideration. It was applied against a speaker by Hon. Frank Oliver to the effect that the government proposed to involve not a gift or a loan but a pawn in the politics of Canada and the United Kingdom.

Premier Borden took the position that this was a discussion of the principle of the bill which had been adopted on the second reading. Chairman J. A. M. Aikens so ruled. Mr. Oliver appealed and the ruling was sustained on a division of 68 to 28, a majority of forty for the government.

The sudden move of the government tonight found the opposition numerically weak. There seems to be a prospect of more divisions on points of order, but not for any very spirited or protracted resistance. The obstructionists have had a wide field and the government is now determined that progress must be made.

An Appeal for Compromise.

Another appeal for a compromise came from Dr. David Warnock of MacLeod. "I hope," said this Liberal, "that before the government forces this bill through, by whatever means they may adopt, they will meet the opposition half way and arrange for a compromise which will have the approval of all sides."

Mr. Pugsley, the Labor Liberal from Malton, opposed the bill. "The millionaires," said he, "are not to send away our money without the consent of the people." He also said that it would be "a sorry day for Canada if a handful of avaricious men, seeking titles and honors, control us in imperious fashion."

A. K. MacLean, of Halifax, described the proposals of the government as "in most respects meritorious." He insisted that some explanation should be made of the "betrayal of the position taken in 1909." He made the statement that the naval act of 1910 was wide enough to enable the government to carry out the present policy. It empowered the government to purchase or build ships for the Canadian naval service, and if the purpose was not to give the ships to the Admiralty but to grant the use of them under certain conditions, there was no distinction. There was thus no reason for passing the bill now before the House. The government had power to build the three battleships, subject to the voting of the money.

Mr. Pugsley Makes a Scene.

Hon. William Pugsley precipitated a scene in which his intemperance of language and violence were in striking contrast to the self-possession for which he has been frequently lauded. He complained of two remarks which he attributed to the minister of labor during the speech of Hon. G. P. Graham on Wednesday night. Mr. Graham was speaking of the cost of shipyards in the United States and Mr. Crothers asked: "Who says so, Pugsley?" Later he asked: "Who says so, Slippery Billy?"

"Those words," said the member for St. John, "can have no reference except to me." (Laughter.) "I have always been courteous in debate and wish to ask the minister of labor if he is correctly reported."

"According to my recollection that is not a correct report," replied Mr. Crothers, "the chairman ruled at the time that I had made no reference to any person."

"I have been told there were other reasons why the chairman did not rule," said Mr. Pugsley, "and that they had to do with the condition of the minister of labor at the time."

The intemperance caused shouts of protest and Mr. Crothers quietly told Mr. Pugsley that any inference of that kind was absolutely without foundation. He did not know where the member of St. John got his information if he got it at all.

Mr. Pugsley—"I did get it," Mr. Crothers—"It is without foundation from whatever source it came."

"The information I got was that from all appearance the hon. gentleman was intoxicated," shouted Mr. Pugsley angrily, while Conservative members cried "shame" and the majority of Liberals refrained from applauding their colleague.

"That statement is absolutely untrue," said Mr. Crothers, emphatically, and with dignity. "I will retract when the hon. gentleman does," cried Mr. Pugsley. "I insist," said Mr. Crothers.

Mr. Pugsley's Tirade.

Mr. Pugsley responded with a tirade in which he sought to excuse himself by saying that on Wednesday night the minister of labor had spoken in a manner unworthy of the house. It would be more than fair, he declared, if he had the courtesy to say that he did mean me, if he does not remember there must be reasons why his memory failed.

Mr. Crothers replied that the chairman had ruled on Wednesday night that he had made no reference to any member of the house. "Many honorable gentlemen who know both the honorable member and myself," he continued, "were present, and I am glad to leave to them the question of the condition I was in at that time. The statement is made out of whole cloth. I do not say by the honorable gentleman, but by whoever may have made it." (Hear, hear.)

"The statement was made by an honorable gentleman who was present," persisted Mr. Pugsley. "He was probably drunk," interjected a member.

Great Confusion.

At this juncture a scene of great confusion occurred. Mr. Crothers rose to a point of order and immediately afterwards both A. C. Boyce and Mr. Pugsley were on their feet. Shouts of "Sit down" came from all sides of the chamber and Chairman J. E. Armstrong, incidentally, stated that he understood Mr. Pugsley had withdrawn the offensive remark. "Not yet," interrupted Mr. Pugsley.

The St. John member was finally allowed to make a statement. "I bow to your ruling," he said, "and accept the statement of the minister of labor that he did not make that statement in reference to myself in a state of intoxication. My informant may have drawn a wrong inference from that he saw."

Continuing, he said that on Wednesday, Mr. Crothers had made no apology and had not withdrawn his remark. "He allowed his insinuation and, shall I say, dastardly imputation to remain upon the records of the house," he asserted.

Mr. Pugsley Rebuked.

A quiet rebuke was administered to Mr. Pugsley by Hon. W. T. White. "I think," said the minister of finance, "it is unfortunate that the member for St. John, in resenting an imputation which he felt had been cast upon him, should have gone further and made a statement in regard to the minister of labor, which, to my knowledge, is really without foundation."

It happened to be present when the incident occurred and the statement which the member for St. John has made is entirely without foundation."

Mr. Crothers added: "If the hon. member for St. John thinks that the expression cannot apply to anyone but himself, I shall withdraw it."

Mr. Pugsley was not satisfied. "He has said that if I think the words apply to me he will withdraw them," he complained. "That is not a kind or gentlemanly thing to say. I say the remarks are not creditable to himself or to this house."

Mr. Pugsley was Offensive.

At this juncture another tumult took place following the rising of Mr. Boyce (W. Aikema) to speak to a point of order.

Having invoked the rules, he declared, Mr. Pugsley had intemperate and offensive expressions. The member for St. John had not withdrawn the assertion that the minister of labor had been in an intoxicated condition. Moreover, he had used the words "dastardly" and "ungentlemanly."

The point of order was an occasion for considerable confusion which was aggravated by Mr. Pugsley's reply. That gentleman discoursed on "nasty insinuations" and the like. The speech was not well received, and Chairman Armstrong had to intervene and expressed his opinion that Mr. Pugsley had withdrawn his unparliamentary language.

Forced to Retract.

Mr. Pugsley replied that he had withdrawn those words, and went on to say it would be unreasonable to expect him to remain silent when another made offensive remarks about him. He was halted, however, by Mr. Boyce demanding the retraction of the words "dastardly" and "ungentlemanly." "If the hon. gentleman would tell me what language would better describe those insinuations I would use it."

The chairman, however, ruled that the expressions be withdrawn, and Mr. Pugsley sought to evade the ruling by alleging that he had not applied the words to the Minister of Labor, but merely to the language of the Minister of Labor. In this claim he persisted for a time.

Mr. Neighan, Portage La Prairie, insisted upon a retraction in spite of the dictum of Mr. Mackenzie, Cape Breton. "That the assistant way out of the difficulty is to start something

"Gunboat" Smith Scores Surprising Victory Over British Heavyweight in Brief Battle in New York.

New York, N. Y., March 14.—"Gunboat" Smith, the California heavyweight knocked out Bombarrier Wells, heavyweight champion of England, in the second round of a scheduled ten round fight at Madison Square Garden here tonight.

A right on the point of the jaw was the blow that finally put the British champion out after he had weakened under punishment.

AUTHORITIES WILL NOT SUFFERERS IN EARTHQUAKE ZONE

Guatemala City, March 14.—The government authorities and the public generally throughout the republic, are responding generously with funds and supplies for the relief of the sufferers from the earthquake which occurred last Saturday in Southern Guatemala.

Details, though coming in slowly from the stricken zone, because of the lack of communication indicate that the destruction was limited to Guatemala, in the department of Santa Rosa, and to the buildings on the plantations in that department. At Guatemala there was considerable loss of life. Other parts of the republic were not affected.

It is presumed that the earthquake was accompanied by an eruption of the volcano Isalco, in Salvador, as loud explosions were heard when the shocks occurred.

Mr. Bryce, too, pressed for a retraction, and there were loud shouts of "order."

"If any gentleman thinks I am out of order," retorted Mr. Boyce, "let him rise and say so, instead of making a bear garden of this committee." He asked that the chairman report to the House Mr. Pugsley's refusal to withdraw his offensive remarks. Mr. Armstrong thought that Mr. Pugsley had withdrawn, and the latter nodded. However, amid great confusion, Mr. Neighan demanded an appeal to the House.

"You ask for a withdrawal on the ground that no matter what one may think of an hon. gentleman's language he has no right to use such terms with reference to him," said Mr. Pugsley.

"Because they are unparliamentary," replied the chairman.

"Very well, I withdraw them distinctly on that ground," replied Mr. Pugsley, and he added, "had the language of the Minister of Labor been used anywhere but in this House it would have been dastardly and ungentlemanly."

Mr. Lalor, Haldimand, who was chairman on Wednesday night, said that the member for St. John was not in the chamber at the time Mr. Crothers made his remark, and he had thought he was justified in ruling that it had not been applied to any member of the House. Had he thought it was applied to Mr. Pugsley, he would have asked for its withdrawal. Mr. Lalor's statement closed the incident and the House lapsed back to tranquility and a speech by D. D. Mackenzie, North Cape Breton.

A Note of Warning.

Soon after seven o'clock Mr. Rogers gave notice to the opposition that henceforward strict observance of the rules of debate must be practiced. If that did not suffice a change would be made in the rules. The government supporters cheered this loudly.

Mr. Oliver replied, he denied that the opposition was responsible for the prolonged discussion, and after admitting that great latitude had been allowed in the debate so far, said that the opposition would not object to a strict interpretation of the rules, if it was designed to facilitate debate. If not so designed the opposition would defend the liberties of parliament.

Mr. Oliver went on to discuss the arrangement by which the ships might be withdrawn.

Mr. Borden pointed out that this was a line proper for the second reading, not for debate in committee. The chairman ruled that Mr. Borden was right. Mr. Oliver again insisted upon a retraction in spite of the dictum of Mr. Mackenzie, Cape Breton. "That the assistant way out of the difficulty is to start something

IMPORTANT CHANGES IN THE LAWS OF PROVINCE

Government Will Allow More Latitude in Taking of Fur Bearing Animals for Breeding Purposes—St. John Police Bill Passes Committee Stage with Amendments—Changes in Highway Act.

Special to The Standard, Fredericton, March 14.—Important amendments to the game act of the province are provided for in a bill introduced by Premier Fleming in the House this afternoon, while the bringing of the administration of the highways of the province more directly under the control of the government is provided for in a bill introduced by Chief Commissioner Morris.

Both measures are of the utmost importance, and have for their object improvement in the administration of these important provincial departments.

Following an interesting discussion the legislature adopted the motion in favor of the operation of the Chatham Junction-Blackville section of the Canadian Eastern Railway and will memorialize the minister of railways against any change taking place.

The House adjourned at six o'clock to resume on Monday next. The judiciary act finally passed the committee stage, and the bill to place the appointment of the Chief of Police of St. John tonight following the passing of the bill by the committee. Before leaving he expressed himself as well satisfied with the disposition that had been made of the bill.

Commissioner McLellan, who has been in the city for the past few days, returned to St. John tonight following the passing of the bill by the committee. Before leaving he expressed himself as well satisfied with the disposition that had been made of the bill.

Following the adjournment this evening the members enjoyed some singing in the assembly chamber. Scotch songs and French songs by Mr. Dugal, of Madawaska and Mr. Allan, of Northumberland, followed, after which all joined in singing the National Anthem.

The House will have a o'clock.

Hon. Mr. Fleming introduced a bill to amend the game act of 1909. The first section provided that whereas the Surveyor General is entitled to be paid for each beaver so taken, he is authorized to issue a special license for the taking of such beaver, the fee for the said license to be \$2 for each beaver so taken.

The prohibitive period for the capture of sable is extended until July 1st, 1916.

An amendment is provided to section 10 of the act by making an addition which seemed to be necessary on account of a new condition which had arisen. Under the section the Surveyor General is authorized at any season of the year to take any fur-bearing animal or animals for breeding purposes with the provision that these fur-bearing animals shall be kept in captivity within the province. Surveyor General shall issue a permit to capture such animals and is empowered to fix and exact the necessary fee for such permit.

New Section.

Under this bill section twenty-eight of the game act of 1909 is repealed and the following enacted in its place: "The Surveyor General shall be his duty to supervise all wardens in the province and to see that the enforcement and observation of the game, fishery and fire laws of the province."

He shall report to the surveyor general at such times as, by regulation or otherwise, he may be required to do so. The surveyor general shall also appoint a chief fire warden, who shall co-operate with the board of railway commissioners for Canada in the suppression of forest fires along the lines of railway in the province and who will also work in conjunction with the chief warden of the province in the prevention of forest fires."

In enacting such a section he held that the government was complying with the request of the board of railway commissioners of Canada in connection with the granting of forest fires along the lines of railway.

One had only to make a trip along the lines of railways in the provinces and notice the miles of destruction by fire to recognize how important it was that the forests should be protected as far as possible.

Big game licenses for residents are fixed at \$5 instead of \$2.

The Blackville Railway.

Hon. Mr. Fleming moved that representation be made to the minister of railways and canals requesting his favorable consideration of claims of persons dwelling along the Chatham Junction-Blackville section of the Canadian Eastern Railway for a continuation of the service which they have enjoyed for more than twenty-five years. He said that practically all the abandoned part of the Canada Eastern Railway from Chatham Junction to Blackville. The railway on the opposite side of the river had been extended so as to enable trains to get from Chatham and Newcastle on the northern side following the western branch of the river until they reached Blackville. The claim had been put forward that the traffic on the northern side of the river was much greater than that originating from Chatham Junction on the Blackville section which it was now proposed to abandon.

It did seem to him, however, that the fact that the Province of New Brunswick had granted a subsidy of \$3,000 per mile for the construction of the original railway, and that the people had granted a free right of way to the contracting company and had enjoyed the service for twenty-five years should make it necessary that some strong and substantial reasons should be given why it was now proposed to abandon twenty-six miles of this important railway.

Province Has Financial Interest.

The Province of New Brunswick, by reason of having granted a subsidy of \$3,000 per mile to the contracting company, has a monetary interest in the Chatham Junction-Blackville section of the railway to the extent of \$78,000. It was also a fact that the men who had formerly owned the railway received a comparatively small sum from the provincial government, the provincial grant having enabled them to sell the railway to the Dominion government at a figure much less than would have been the case if the provincial subsidy had not been given. It was his opinion that if the section was abandoned and the rails were taken up and sold to the Province of New Brunswick, it was a right to share in the proceeds as

Dr. John Drover of Toronto, Now in Switzerland, Reported Great Improvement Since Being Treated.

Toronto, March 14.—Dr. John Drover, a dentist, of 405 Dupont street was treated in Berlin by Dr. Friedmann the day before the latter sailed for America and is now in Switzerland.

A letter received by his friends today contains the welcome news that he has so far recovered as to be able to walk without the crutches, which his tubercular knee required him to use up to the time Dr. Friedmann's treatment began to have its effect.

OXFORD MINE SHUT DOWN BY BIG STRIKE

Three hundred Operators at Scranton Demand Settlement of Grievances—Will Mean Coal Famine.

Scranton, Pa., March 14.—The first strike ordered here by the union in many years was called today at the Oxford colliery of the Peoples Coal Company, which was the only colliery of any size that operated during the 1912 strike.

A year ago the 300 Oxford men were organized by representatives of the United Mine Workers. About a month ago trouble started over the dismissal of certain employees.

The strikers demand the reinstatement of the discharged men and the adjustment of a number of minor grievances. Frank P. Christian, president of the company, says that only a third of the men have quit. The union officials say that practically all have quit. Pickets will be placed about the colliery tomorrow and a police detail has been ordered to be on hand in anticipation of the trouble.

If the colliery is shut down, President Christian says the city will suffer a coal famine, as a large part of the local retail trade is supplied by this company.

WHITMAN HOPES TO SEND GRAFTERS TO THE PENITENTIARY

Patrolman Accused of Giving False Testimony to Shield "Men Higher Up" in the Department.

New York, March 14.—The "system," described as an alliance between the police and the underworld, was attacked by the state today through John Hartigan, a patrolman, who was placed on trial in the supreme court.

He gave false testimony as a grand jury witness. It is alleged in an attempt to shield "men higher up" in the department, to escape a net prepared by District Attorney Whitman to snare grafters.

Hartigan is merely a pawn employed by Mr. Whitman for the first time in his name of prosecution, in which he hopes to defeat the "system" and send to prison police officials who have been accused of the graft charge. The case will be continued tomorrow.

SAY ENGLAND'S ARMY UNPREPARED FOR WAR

Criticism of Naval Estimate Severe—Popular Opinion Calls for Large Outlay to Meet Emergency—Germans Strengthen Frontiers.

Special Cable to The Standard, Registered in Accordance with The Copyright Act.

London, March 14.—Seeing through a brick wall is easy compared with an attempt to gauge the international situation. To outward seeming, war is imminent; indeed, some name March 1st as the date of hostilities, and many persons have insured against war within six months, paying a premium of ten per cent. They thus have a sporting bet of nine to one on the event, and declare they have a soft time. They argue that Germany is now, as was England a few years back, finding herself well-thrashed with splendid isolation.

The Triple Alliance exists only on paper. Italy never had her heart in the business while Austria would be quickly reduced to quiescence by Russian mobilization, and the development of the Slavic power in southeastern Europe. Thus Germany sees the growth of hostile forces on all sides, compelling her to fight for life, and fight soon.

This argument is specious, and in some measure sound, yet one hesitates to deduce the tremendous conclusion that war is only a question of weeks. Tension is of course great, and things have already been said which in a few years ago would have meant war. That they have not done so seems to indicate the desire to postpone the issue.

The real hope of avoiding an immediate outbreak seems to lie in Germany's belief that time is on her side, and in her desire to strengthen her eastern frontier, while France hesitates to strike the first blow through fear of thereby forfeiting active British assistance.

Mr. Asquith's statement, that England is not obliged to send troops to assist France, has excited singularly little agitation. Germany professes pleasure at England's correct attitude, while France takes it philosophically as being true in phrase though not in fact.

Really, all recognize that, obligation or no obligation, the instinct of preservation must prevent England standing by and seeing France beaten. Not perhaps since the Napoleonic wars has the attention of the people been so concentrated on questions of national defence, and the naval and military situation.

As called last week, the public mind is much perturbed by rumors of a cabinet have cut down the admiralty estimates by nearly twenty million dollars. These estimates notoriously represented minimum requirements, and the reduction becomes all the more serious when the increased cost of commodities is remembered. Taking this into account, it is doubtful if the former development is being equalled. If rumors prove true, a fierce protest in parliament is certain.

Turning to the land forces, army statistics, just published, show shortages in almost all branches. The regular army is 40,000 below strength, with a shortage of 31,000 in the special reserve and a shortage of 52,000 in the territorial army. In the latter force, many thousands are almost wholly ignorant of shooting, while the reduction in numbers continues steadily, amounting to 2,000 in February. To these causes the question of compulsory training, owes the enormous development, now visible.

The associated chambers of commerce of the United Kingdom, this week adopted a resolution supporting universal training, which has also been the leading topic in the Cumberland bye-election. The Unionist candidate stoutly advocates Lord Roberts' policy, which his Liberal opponent, strongly condemns. Indeed, the arguments of the latter seem to discredit even present volunteer system.

The Liberal party there and throughout the country, are trying to prejudice the movement by calling it conscription and telling mothers that the proposal means the tearing away of their sons to be butchered. They accompany these statements with assurances that the war rumors are fantastic bogies, and that British forces were never in so satisfactory a condition.

Conservatives and many Liberals condemn these tactics, but the line pursued by the Radical press, and the utterance of a simply fatuous and unparliamentary. Col. Seely, secretary for war, was formerly a strong supporter of compulsory training, but he is now compelled by his official position to oppose it, yet even he lets fall occasional sentences in which it is intimated that the present situation is unsatisfactory may be detected.

ORGANIZED HERE TO START CAMPAIGN FOR MT. ALLISON

R. A. Cassidy will have Charge of Movement to Secure \$250,000 Additional Endowment for Mt. Allison University—Will Confer Today with Local Men.

"The movement for an additional endowment for Mt. Allison University has already enlisted the active support of many business men in the Maritime Provinces, and the outlook for the campaign is encouraging," said R. A. Cassidy, who is in the city making preliminary arrangements for the organization of the campaign.

"Mt. Allison is a valuable asset of New Brunswick and the whole Maritime Province. In asking for additional endowment it is only endeavoring to keep abreast of the times in the sphere of education. The material progress throughout Canada during the last decade has been little short of stupendous and coincident with it has been the greatly increased demand for the well rounded, finely balanced men, whose personality combines the intelligence and character needed in modern industrial conditions. The city of large communities is for men of high ideals, of broad vision and of Christian principles, to grapple with the complex problems of today, and hardheaded business men are endeavoring and otherwise supporting universities and colleges with unprecedented and amazing liberality.

"The fact that any particular institution is controlled or guided by any religious denomination or sect is a secondary matter. The good that it is doing is the primary consideration. For example, in an organized city wide effort to help a splendid college at Baltimore, under the supervision of the Methodist church, every denomination was represented on the committee; the chairman was an Anglican, the vice-chairman a Baptist, and an entire team of ten was composed of Jews. The people in the city gave about half a million.

"At Cedar Rapids the people of a community of little more than half the size of St. John gave a quarter of a million to one of the best colleges in the west, while a like amount was raised outside the city. The most enthusiastic leader, a successful business man, had never been in a college or high school. He realized what he had missed and was broad enough to assist the young men of the present to benefit by his mistake. The college is in close relation to the Presbyterian church.

"Coming closer home, Dalhousie received \$440,000 in a popular campaign last year for \$400,000, the people of Sydney and Cape Breton giving nearly \$20,000 of this. McGill in a similar campaign secured over \$1,000,000 in a week. Acadia is getting substantial support. The needs of Mt. Allison are so apparent and support is so well merited that it is a matter of securing the amount required in the most expeditious manner possible. That problem is to be worked out during the next few weeks.

"Our plan is to raise the amount needed in a highly organized effort, such as that of McGill or Dalhousie, modified, however, to meet the different conditions. It is intended to make an appeal to the whole of the Maritime Provinces, and to conduct organized campaigns in the principal centers. We expect to get the bulk of support in St. John and Halifax. Mt. Allison has got to have more money in order to keep up with the other colleges. Some of the professors there are getting the same salary they did ten or more years ago.

"Mr. Cassidy will meet a number of local business men interested in the movement today, and take up with them plans for organizing the campaign here.

Your Bad Taste In The Morning Is Due to Catarrh

Destroy This Poisonous Disease Before Your Health is Seriously Injured.

Perhaps you haven't thought of calling these unpleasant symptoms that affect your nose and throat by any particular name—but it's Catarrh just the same.

When the attack is severe, your eyes are watery and look sore. Your breath is offensive, due to inflammation in the nose and throat.

At last science has discovered a real remedy, a new scientific marvel which acts like no other 'catarrh' remedy on earth. "Catarrhose" operates on a new plan; it is a direct remedy, goes instantly to the source of the trouble. Its rich, fragrant essences and healing balsams are breathed in vapor through a special inhaler and give instant relief.

Catarrhose doesn't stop at the relief stage—it goes further—keeps on going till a cure is effected. Escases are cured, as you can judge from the following letter:—"Every morning for six months last winter I awoke with a bad taste, an awful breath and stuffed up feeling in my nostrils," writes Mr. Rutland, of Regina. "It was simply an awful case of chronic Catarrh. Relief first came from Catarrhose. I used that inhaler twenty times a day and took it to bed with me at night. I am cured, and by the use of Catarrhose stay well. Now I am free from irritable throat, trouble, coughs, colds, headache, or catarrh."

No medicine on earth is so certain to cure every form of Catarrh or throat trouble as "Catarrhose." Get the large \$1.00 size, lasts two months and is guaranteed; medium size 50c; sample size 25c; all storekeepers and druggists, or The Catarrhose Co., Buffalo, N. Y., and Kingston, Canada.

SMITH SILVER BLACK FOX CO. PROFITABLE

Investment in this Proposition Appeals to Public — Large Proportion of Stock Already Subscribed.

As a highly profitable and safe investment the Smith Silver Black Fox Company, Limited, has recommended itself to the investor of this city. The silver black fox industry is becoming more and more familiar to the everyday investor, and when he fully realizes the very high rate of profits which is in prospect, and that the industry is a legitimate one, the investment will become even more popular than it is at the present time. So far there has been quite a large amount of the stock of the Smith Silver Black Fox Company taken up in St. John and this province, and there is every prospect that the issue will be fully subscribed within a short period. One of the most striking facts in the subscriptions is that there has been a large amount of the stock taken up by Edward Islanders, and they should surely be judges of the prospects of the ranch.

It is worthy of note that while other fox propositions have taken months before their stock was taken up, in the short time that the Smith proposition has been before the people already a very considerable proportion of the stock has been subscribed.

The quality of the boxes of this ranch, the well equipped ranch, the careful and experienced management, and the reputation which is has deservedly gained in the past all recommend this proposition to the investor.

Apply to Mr. H. McLean, provisional secretary, or A. C. Jardine, provisional treasurer, both of 33 Prince William street, St. John, N. B., for shares or prospectus.

IMPORTANT CHANGES IN GAME LAWS OF PROVINCE

Continued from page one.

The Dominion government became purchasers of the railway at a price which had been materially affected by the province giving a subsidy of \$3,900 per mile. The members of the legislature should take notice of any action to abandon a section of the railway serving a portion of the people.

Mr. Stewart (Northumberland) said that since the railway had been in operation the Chatham Junction-Blackville section had enjoyed much prosperity, the amount of freight originating along that section would make a large volume. If the section was abandoned it would practically mean ruin to the existing industries there.

He felt that the protest against the change was fully justified by the present and past conditions of the province in the public interest that this important provision should be maintained.

GOVERNORS OF BOYS' INDUSTRIAL HOME EXPRESS FAITH IN SUPERINTENDENT — DISBELIEVE RECENT STATEMENTS.

At the meeting of the convenors of the Boys' Industrial Home, held yesterday afternoon, a resolution was adopted expressing the opinion of the board that certain statements recently made, respecting the Superintendent McDonald and the management of the institution were ill-considered, and without foundation in fact, and a formal statement to issue in regard to the matter.

The matter was brought before the convenors by a delegation of city clergymen who have acted as patrons to the home. The clergymen who waited on the convenors were Rev. M. F. McCutcheon, the present Protestant chaplain of the home, and Rev. J. H. A. Anderson and Rev. J. C. B. Appel, past Protestant chaplains. Rev. Father O'Neill, the Roman Catholic chaplain, was also present.

The clergymen stated that being frequent visitors to the institution, and having opportunities of talking with the boys and observing affairs in the home, they had formed an opinion of the superintendent and institution very different from that recently expressed in the County Court, and felt the least they ought to do was to appear before the convenors and state that their impressions formed by weekly visits and talks with the boys were not in accord with the statements made and reported to the public. They expressed great surprise at the impudent and untrue statements made about Mr. McDonald or the institution and appointed a committee to prepare a formal statement to be given to the public.

GET A TEN CENT BOX OF CASCARETS

Keep Your Liver and Bowels Active And You Feel Buoyant for Months.

Put aside—just once—the Salts, Cathartic Pills, Castor Oils or purgative waters which merely force a passage through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your inside organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and fumes, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the intestines and bowels.

One Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, coated tongue, indigestion, Sour Stomach or constipated bowels. Cascarets belong in every household. Children just love to take them.

What Cures Eczema?

Many eczema sufferers have failed so utterly with salves and other "discoveries" that even the assurance of the physician or druggist cannot induce them to invest another dollar in any remedy.

It is to these discouraged sufferers particularly that we now offer, at only 25 cents, a trial bottle of the superior standard eczema remedy, a simple wash of oil of wintergreen, thymol and glycerine, as compounded in D.D.D. Prescription.

Hundreds of cures have convinced us and we know you can prove it easily with the first application of D. D. D. Prescription. That it takes away the itch at once. You have only to spend a quarter to get instant relief. Don't let it go.

D. D. D. Soap is made of the same healing ingredients. Ask us about it. H. Clinton Brown, Druggist.

THE ST. JOHN POLICE BILL.

False Economy.

Dr. Price said that he was very much surprised to learn of the intention of the department of railways to abandon the Chatham Junction-Blackville section of the Canada Eastern Railway. The motion, and felt that the actual state of affairs should be pointed out in strongest language possible, not only to the Minister of Railways but to the Premier of Canada and New Brunswick's representative in the cabinet, Hon. J. D. Hazen.

Mr. Swin also favored the resolution.

A Good Roads Bill.

Hon. Mr. Morrissey introduced a bill relating to the highways of the province. This bill provided for the appointment of an engineer who would take complete charge of the work on the roads throughout the province while for each county there would be an inspector. Under inspectors there would be supervisors, and would be the duty of the inspectors to see that the supervisors had the work as laid out by the engineer, satisfactorily carried out.

Another provision provided that statute labor, if it was to be done, would be done not later than July 15th, which would make it so that statute labor would be done at a time when better results would come from it than under the present arrangement.

The appointment of supervisors for the counties would rest with the members supporting the government from the counties, and he hoped that they would see that the proper men who were capable of carrying on the work satisfactorily were selected. He believed it was the best that good capable men should be selected, that the districts would be made fairly large and that the men would be paid sufficiently to have them see that the work was well done.

Another provision of this bill was to do away with paying people for building roads in the winter season, as at present. Only this week the department had received a bill from one of the counties in the southern portion of this province where he had also believed there was very little snow this winter, and this bill was for \$57 for breaking winter roads. That was a kind of thing which would not occur.

Hon. Mr. Flemming moved that copies of the resolution regarding the Chatham Junction-Blackville section of the Canada Eastern Railway which had passed the house be forwarded to the Minister of Railways and Canals, the Minister of Marine and Fisheries and the members of parliament representing the New Brunswick constituencies.

Hon. Mr. Grimmer introduced bills to amend the Probate Courts Act and to enact the so called Bill Sales Act.

Why should any other cereal be called "just as good" as Kellogg's CORN FLAKES

Because Kellogg's is known to be the best and most nutritious cereal on the market—

Because the sale of Kellogg's Corn Flakes is enormous as trade returns will show—

Because another large modern factory, the best and most sanitary in Canada had to be built to take care of our constantly increasing trade—

Because the imitator, knowing these facts and having few selling arguments for his own product thinks to create a market for it by comparing it to Kellogg's:

But—the flavor and the sustaining qualities of Kellogg's Corn Flakes cannot be counterfeited. Sold in big packages at 10c. Look for the signature.

FLAGRANT DISLOYALTY.

Driven into the last ditch and face to face with humiliating defeat, a section of the Liberals in Parliament are appearing in their true colors as in favor of separation and independence. No effort has been made to meet the statements in Mr. Winston Churchill's memoranda. Recourse has been had to abuse of the First Lord of the Admiralty coupled with slanders, threats that his interference in Canadian affairs might lead to secession.

NARROW-TIRED VEHICLES.

A bill introduced in the Ontario Legislature proposes that narrow-tired vehicles shall not be sold in that Province after two years from January 1st of this year, and that none shall be allowed after five years. In other words, owners of narrow-tired vehicles are given five years' grace to let their equipment wear out. If a person is bound to have a new narrow-tired vehicle, he can use it for two years, but will have to give it up by January 1st, 1915.

THE LIBERTY OF THE PRESS.

If a bill just passed by the Legislature of the State of Indiana receives the signature of the Governor and becomes law, the press of that State will be pretty effectively muzzled. The bill proposes to restrict the rights of newspapers to discuss the character of candidates for office and also the character of pending legislation. Of this amazing bill against the liberty of the press and the public interest, the Indianapolis News says that, if the law were already on the statute book, "no objection could have been made to any of the salary grabbing bills that have flooded this Legislature. The papers could not give the facts bearing on the fitness or unfitness of any candidate for office."

CURRENT COMMENT

The Fate in Store. (Montreal Gazette.) Because the Government, on the matter of the bill for increasing the military forces of the Empire, will not give way to the minority in the House of Commons led by Sir Wilfrid Laurier, some of the Liberal speakers talk as if the situation justified the cutting away of Canada from the Empire. They are getting much rope. The electors will in due time be able to see that it is used for the traditional purpose.

A DEPOSED MONARCH.

Abdul Hamid II, late Sultan of Turkey, kept a diary, extracts from which are being published by a German periodical. They reveal the former Padi-shah as a man of wide interests, in touch with many modern movements upon which he has strong convictions of his own. His dislike for the present world wide feminist agitation is something more than the view of a conservative Mussulman. The modern man, as the ex-Sultan sees it, is so terribly browbeaten by the women folks at home that his natural impulse is to take it out of somebody else. So he takes it out of his harem. Hence the absurd Western habit of going in for constitutions, revolutions, detronement and the like.

A Candid Admission.

The Globe has no quarrel with the advice given by Mr. Churchill against attempting the immediate construction of Dreadnoughts in this country. It is the very fact that Dreadnoughts of the Canadian navy would have to be built in Britain.

DIARY OF EVENTS

THE HUMAN PROCESSION

THE DUKE OF WELLINGTON.

A prominent figure at the celebration of the centenary of Waterloo next year will be Arthur Charles Wellesley, fourth Duke of Wellington, who will celebrate his sixty-fourth birthday today. The Duke is the third son of Major General Lord Charles Wellesley, who was the second son of the first Duke, immortalized in history as the conqueror of Napoleon.

LORD CHESTERFIELD.

The tenth Lord Chesterfield, who will pass his fifty-ninth milestone today, is celebrated as the best-dressed man in England, while his wife, one of the beautiful daughters of the late Lord Nonburnholme, is equally famed for her exquisite toilets. Like his immortal ancestor, the present Earl is a man of courtly and polished manners and address. He was appointed lord steward of the King's household in 1910.

ADMIRAL SIR CYPRIAN BRIDGE.

Sixty years in the British navy is the record of Admiral Sir Cyprian Bridge, who is seventy-four today. Entering the ranks of Britain's sea fighters at fourteen, he reached its highest position ten years ago, when he was knighted. Another prominent British naval officer, who celebrates his birthday today is Commander Carlton Wilfrid Bellairs, the leading publicist of the "bigger navy" movement. He was born March 15, 1871, and entered the navy at thirteen. His wife is an American woman.

The first dentist to practice that he is pretty effectively muzzled. The bill proposes to restrict the rights of newspapers to discuss the character of candidates for office and also the character of pending legislation. Of this amazing bill against the liberty of the press and the public interest, the Indianapolis News says that, if the law were already on the statute book, "no objection could have been made to any of the salary grabbing bills that have flooded this Legislature. The papers could not give the facts bearing on the fitness or unfitness of any candidate for office."

THE PASSING DAY.

A FAMOUS PEDESTRIAN.

Edward Payson Weston, greatest of all pedestrians in the history of the world, was born in Providence, R. I., seventy-four years ago today, March 15, 1839—a fact of which Providence is justly proud. Just how many miles stand to his credit cannot be definitely known, but certainly not less than 100,000.

JULIUS CAESAR.

One thousand nine hundred and fifty-seven years ago today, March 15, B. C. 44, the Home Evening News had a red splash across its front page which announced that Julius Caesar had been assassinated.

CENTRAL RAILWAY ANNUAL REPORT GIVEN IN HOUSE

Shows Many Improvements Made During Year — Heavier Rolling Stock Makes it Necessary to put in 20 per cent. More Ties—Minto Coal Development.

Frederick, March 13.—The report of the Commissioners of The New Brunswick Coal and Railway Company was presented to the House this afternoon by Premier Fleming and gives some idea of the operations of the railway for the year ending October 31st last. The report shows that there was a deficit of \$22,658.36 on operating expenses for the year and that \$2,243.66 was expended on capital account.

There was \$350 feet of additional side tracks put in during the year, to provide for newly developed traffic. Of this 4,100 feet were sidings at coal mines worked out and removed to locations where new shafts had been opened up.

During the year 17,962 ties were put into the track. Of these 12,248 were charged to ordinary maintenance and 5,694 to capital. Of the latter 3,240 were used in new sidings. On account of the heavier rolling stock now in use 20 per cent. more ties are necessary than when the road was built. This additional quantity is a betterment and a fair charge to capital.

As foreshadowed in the report of last year the coal mine at Salmon Harbor developed by the Canadian Coal Corporation two or three years ago, has been abandoned. About a mile of rails on the branch leading to this mine has been taken up and utilized on the newly developed property of the Minto Coal Co.

The Minto Coal Company's development under the direction of Sir Thomas Tait, has made excellent progress. A main spur nearly three-quarters of a mile long has been laid on which four shafts are being sunk. Two of these have been completed and in operation for some months. Modern hoisting gear, a screening plant, side tracks, etc., have been provided. A tunnel about 1,500 feet long has been driven for drainage purposes. The average output from these two shafts is about 65 tons per day.

REV. W. D. ROBINSON SPEAKS OUT STRONGLY IN COURT

West End Minister Scores Men Responsible for Enforcing License Law who, he Says, "Do not do their Duty"—Interesting Cases in Court Yesterday.

Yesterday proved another busy one for the police court officials and the sessions were kept on the move from ten o'clock in the morning until about five o'clock in the afternoon when a number of interesting cases were dealt with.

The star of the afternoon was Rev. W. D. Robinson, who was conducting a case for the prosecution in which P. M. O'Neill, a saloon keeper, was charged with selling liquor to an Indian. In this case Rev. Mr. Robinson hit out from the shoulder at the officials who, he said, were supposed to look after such cases and did not do their duty, and the matter devolved on him.

At the morning session four prisoners were arraigned for being drunk on Thursday, and four others, who had been held over since the Thursday session, were also dealt with. Five were fined \$8 or thirty days, two \$8 or two months, and one \$4 or ten days. Jerry Daley, an offender, was fined, and the fine was allowed to stand on his promising to leave the city for Gagetown and obtain work.

On imposing the fines the Magistrate stated there were fifty-five persons in jail and a corresponding number on the outside who were instructed in sending them there. His Honor deplored the difficulties encountered whenever an effort was made to ascertain who supplies habitual drunkards with liquor.

John R. Davidson and Thomas Clark, charged with being stayaways on the C. P. R. steamer Monmouth, which arrived from Liverpool on Thursday afternoon, were sent into jail to await the sailing of the steamer and will be shipped back to the old country.

Two young fellows charged with street loafing were remanded to jail. Oscar Nelson, a seaman on the steamer Knutsford, lying at the Dominion Coal Company's piers, was charged with having stolen clothes and \$14.00 from another member of the crew on board the ship on Wednesday night. He pleaded not guilty. The case was taken up in the afternoon when the prisoner was remanded to the court that he was on watch on the ship Wednesday night, and the boatwain gave him three dollars and told him to go ashore and try to find the clothes and money.

He went to the forecastle for the purpose of taking a coat belonging to a sailor named Kelley. Kelley, he says, was drunk when he went there and made a mistake and took a coat belonging to Manuel Grenville, another sailor, who was not on the ship at the time. The prisoner was arrested and charged with stealing. The prisoner was remanded to jail until this morning at nine o'clock when he appeared before the court and gave evidence.

The ship sails for Sydney this morning. William Forrester, a young man charged with stealing a pair of skates from the Victoria rink a couple of weeks ago, was allowed to go on suspended sentence.

The Liquor Case. A case that caused considerable interest took up nearly the entire afternoon, it being a charge preferred against P. M. O'Neill, a Mill street saloon proprietor, for selling liquor to James Perkie, an Indian. Rev. W. D. Robinson was the counsel for the prosecution, and W. B. Wallace, K. C., and J. A. Sinclair appeared on behalf of Mr. O'Neill.

Perkie testified that he came originally from Campbellton, and made his headquarters at the Micmac Mission there, but had no particular home apart from where he pitched his tent. He came to St. John from Maine, where he had been working on the left hand side of Mill street near the Depot, where a boat was hanging up. There he purchased some whiskey and later some beer. He and the Frenchman, in whose company he was, had later bought a bottle of whiskey at the same place. He stated that his father was half French but his mother was a full blooded Micmac.

Officer Crawford testified that he had accompanied Perkie to O'Neill's place, where he identified as the one where he had procured the liquor. William Burns, a clerk in the O'Neill establishment, was placed on the stand and testified that he never served Perkie with liquor and did not remember of ever having seen him before he saw him in court. Witness said that he would not take the man to be an Indian, even if he had seen him in the saloon, as he looked more like a Frenchman.

Mr. Robinson asked the witness why he thought that the man Perkie looked more like a Frenchman and the witness said because the man's moustache could be curled and an Indian's moustache stood out straight from the lip and could not be curled.

Mr. Robinson began to argue with the witness on the moustache question when Dr. Wallace interrupted and said: "Oh, don't lecture the witness in reply, Rev. Mr. Robinson said: 'I'm not a lawyer, I'm only a layman, and I am here in the interests of the public good and I don't lecture.'"

Continuing, the witness said that he did not recollect of having served Perkie with liquor. With a clear mind, he could say that the man looked more like a Frenchman than an Indian. Mr. Robinson said: "The witness is not a harem now and he is giving expert testimony on the difference between a Frenchman and an Indian."

When asked regarding the curling of an Indian's moustache, witness said he did not know if it could be curled or not. Another clerk in the saloon, was the next witness and gave evidence that he did not recollect having seen the Indian before and had no recollection of having served him with liquor.

Perkie was then placed on the stand and pointing his finger at Burns, said that he was the man who served him with the liquor. Dr. Wallace asked that the case be dismissed on the ground that there was not sufficient evidence to convict. There was evidence that Perkie is a half-breed, but there was no evidence that he was an Indian. Dr. Wallace read a section of law from which he claimed that there was no penalty for selling liquor to a half-breed, but only to a full blooded Indian. The word "Indian" in the law, did not include a half-breed, and a person could sell liquor to a half-breed or a quarter-breed, but not a full blooded Indian. A person who was half French was not known as an Indian, according to law.

COMMISSIONER NOT PLEASSED WITH ACT OF SCHOOL BOARD

The city commissioners are not specially pleased by the action of the School Board, in presenting a bill to the legislature asking for authority to raise the limit of assessment for schools purposes by \$25,000.

"If we have to increase the school appropriation by \$25,000, either we will have to starve other services, or ask the taxpayers to put up more money. With the general demand for public improvements of all sorts, it will apparently be necessary to increase the assessment."

Chairman Emerson of the School Board, said the increase asked for was needed chiefly in order to increase the salaries of teachers. In order to maintain the efficiency of the schools, more money would have to be spent on the salaries of teachers. The board did not intend to put up any new buildings this year, but in 1914 they planned on starting the construction of a new school building on Douglas Avenue, which would be one of the biggest in the city.

interdict whom he does not know, the thing should be reversed and the interdict, who knows that he is on the list, should get the big fine for going to the saloon for liquor.

The case was adjourned for further hearing.

A Bad Heart, Its Cause and Cure

Many, Firmly Convinced They are Dying of Heart Trouble, Have Often the Strongest Hearts.

Sometimes you wake up at night, heart throbbing like a steam engine. Your breathing is short and irregular; pains shoot through the chest and abdomen, and cause horrible anxiety. Your trouble isn't with the heart at all. These sensations are the outcome of indigestion, which has caused gas to form on the stomach and press against the heart.

Just read what happened to Isaac Maloux, of Belle River, Ont.: "Three months ago I was a weak, sickly man. My appetite was poor, food fermented in my stomach, I had sour risings and indigestion. At night I would often awaken with gas in the stomach and heart palpitation. I consulted my doctor and used remedies that my friends advised. Nothing helped."

"One day I received a sample of Dr. Hamilton's Pills, and my cure commenced. Today I have a vigorous appetite, strong heart action, and no sign of indigestion. I feel younger and healthier than ever before." Your druggist or storekeeper sells Dr. Hamilton's Pills, 25c. per box or five boxes for \$1.00. By mail from The Catarhozone Co., Buffalo, N. Y., and Kingston, Canada.

TORONTO WOMAN WELL AGAIN

Freed From Bearing Down Pains, Backache and Pain in Side by Lydia E. Pinkham's Compound.

Toronto, Ont.—"Last October, I wrote to you for advice as I was completely run down, had bearing down sensation in the lower part of bowels, backache, and pain in the side. I also suffered terribly from gas. I took Lydia E. Pinkham's Vegetable Compound and am now entirely free from pain in back and bowels and am stronger in every way. I recommend Lydia E. Pinkham's Compound highly to all expectant mothers."

Consider Well This Advice. No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial. This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for nearly forty years proved to be the most valuable tonic and invigorator of the female organism. Women residing in almost every city and town in the United States bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, and a free trial sent by a woman, and held in strict confidence.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

Montreal, March 14.—After a week of depression the market shows little power of recuperation. The feeling among conservative financiers seems to be that the situation will show little enough change until the end of the present month.

COTTON MARKET CLOSING PRICES OF BOSTON

New York, Mar. 14.—After opening higher on firmer Liverpool cables, the market turned a shade easier owing to prospects for clearing weather in the belt; a general feeling that the rains had exerted an adverse influence on the ultimate new crop outlook, and an idea that while the short interest had been reduced there had been some little increase in the scattering long interest.

STILL HOLD TROPHY

Charlotte, N. C., March 14.—The Victorias of Charlotte still hold the Starr trophy. The First Baptist Church team of Amherst left for home tonight empty-handed, having lost both games. The score tonight was 8 to 0. The defenders outkicked and outplayed the Baptists, though the latter were in their element as far as water was concerned, as there was a heavy rainstorm outside and slushy ice within. First half ended three to naught. Only for the clever work of Tower, the Baptist goal keeper, the score against them would have been greater.

COACH VAIL WILL SEND THREE CREWS

Madison, Wis., Mar. 14.—Wisconsin's chances for a victory on the Hudson in 1913 went soaring on Wednesday when it was announced that in addition to the regular varsity and freshman eight-oared shells Coach Harry Vail will be in a position to send a four-oared crew down East this spring.

SPORTOGRAPHY BY "GRAVY"

To the younger baseball fans the name of Denny means nothing, or is only a tradition, but a quarter of a century ago Jerry Denny was one of the bright particular stars of the diamond. The great Jeremiah was born in New York city fifty-four years ago today, March 15, 1859, and in his teens was a backlot and semi-pro player. He broke into the National league thirty-two years ago as a member of the Providence aggregation, the Rhode Island city being then a major league town. He remained with Providence six years, and was an influential factor in the winning of the pennant for that city in 1884. Jerry was without doubt the best third-baseman of his time, and a pretty nifty swatter. He never used a glove, but took anything that came bare-handed. After leaving Providence Denny played with St. Louis, Indianapolis, New York, Cleveland, and Louisville. He left the big show about twenty years ago, but continued to play ball in minor leagues until 1903. With James O'Rourke, now president, secretary, treasurer and the whole works of the Eastern association, Denny assisted at the birth of that circuit's predecessors, the Connecticut league. After quitting the diamond Denny became a boniface in Bridgeport, Conn. In the opinion of many old-timers, as third basemen of today can compare with Denny in his prime, with the possible exception of Baker, Jerry wasn't as good with the stick as J. Franklin, but many think he was a better third-sacker.

FIELDER DEVORE OF GIANTS

It looks as though Josh Devore will have to fight to steal second on his left field position with the New York Giants this year. LONGBOAT-VISCONTE RACE A JOKE

New York, March 14.—Only 300 people gathered at Madison Square Garden last night to witness a 15 mile race between the Canadian and Italian longboats. The affair was a burlesque. The Italian was lapped after five miles and dropped out at the end of the tenth mile. Longboat finished in 1 hr. 17 min., 30 sec. It was found on measuring the track, however, that instead of 20 yards it measured 188 yards, so that Longboat really ran two miles and 320 yards less than the 15 miles.

You Can Make This Saving

IN THE United States over 400,000 cars have been equipped with No-Rim-Cut Tires. Over two million tires were bought by men who watch tire-mileage closely. In Canada, in scarcely more than two years, we have sold 90,000 tires, enough to equip over 20,000 cars. The output of our Canadian factory has jumped from 25 tires to 500 tires per day. All but two of the Canadian automobile makers have contracted for No-Rim-Cut Tires for their 1913 cars. In a new market, could we have made this record if No-Rim-Cut Tires were not giving increased mileage?

The Passing of "Rule of Thumb"

When rubber is such a variable product, how can we keep No-Rim-Cut Tires uniform in quality? This is how: At our Bowmanville plant we maintain a staff of chemists—graduates from leading universities. These men analyze in a completely equipped laboratory every shipment of raw rubber that enters the plant, every roll of duck used in Goodyear products. They refine a sample of the rubber in miniature machines. They "cure" it in a miniature furnace. The product of this test is the same as our factory would produce from the same raw rubber. The sample is then tested for strength, toughness and elasticity. It is chemically analyzed to see what must be combined with it to give the greatest tire wear. Every roll of duck used for building tires also goes through a laboratory test.

WHAT SELLS THESE TIRES?

There are two main causes of short life in ordinary tires, Rim-cutting and Overloading. No-Rim-Cut Tires cannot rim-cut. No-Rim-Cut Tires are 10% overbuilt. These two features cut the cost of Tire mileage 48%. These money-saving features are responsible for our record sales in Canada and the United States.

No-Rim-Cutting Saves 23%

Before we made No-Rim-Cut Tires nearly one tire in four was wrecked through rim-cutting. The tremendous pressure on the fabric of the tire, where it was held by the book-shaped side ring of the rim, brought about an internal friction that soon ruined the tire. 23% of ordinary tires are still wrecked by rim-cutting. No-Rim-Cut Tires save this 23%.

10% Overbuilt Saves 25%

The car manufacturer provides tire equipment for ordinary loads. But men will overload their cars. They will add heavy equipment that is not provided for by the manufacturer. No-Rim-Cut Tires are fully 10% over the rated size. Experts will tell you that each 5% increase in size adds 15% extra mileage. When we place the added mileage at 25%, we feel that we are estimating conservatively what the average car owner may expect from No-Rim-Cut Tires.

A duty-saving "Six" \$2,500

FROM the moment you press the starting pedal and turn this powerful "Six" into the road among the hundreds of Motor Vehicles large and small—as you open out and jump ahead—when you feel the strong steady pull on the hills and heavy parts of the road—you know that no matter what car you buy the Tudhope "Six" is the car you would like to own.

This "Six" is surely the modern idea of a perfect car. It has Gray & Davis Electric Lighting and Electric Cranking. It has a distinctive appearance—Torpedo low-hung body with graceful side lines and well-rounded back. The force-feed gasoline tank is carried at the rear along with spare tire, which is included, of course, as a part of Tudhope equipment. In comparison it is above the ordinary: 127-inch wheel-base, 36 x 4 1/2 inch tires, double-drop frame, full-elliptic underlugs rear springs and shock absorbers—every equipment for riding ease. The tonneau is wide and roomy—with the new extra deep cushions.

The Axles of the Tudhope "Six" are planned for hard service. The front Axle is extra heavy with Timken tapered bearings. The rear axle is the floating-type with chrome-nickel gears and shafts. The 48 h.p. motor, long-stroke cast en bloc type, is a silent, powerful machine, thoroughly tested and inspected before leaving our shop.

The Tudhope "Six" is a lot of car value for \$2,500! But remember! It is made in Canada. No part of the price is duty. The same Car imported would cost you 35% more.

Hampton, N. B. March 13.—Hampton at the present time is very quiet owing to an epidemic of measles; very little has been going on in the way of amusements as nearly every family visited by this disease. The Rev. Frank and Mrs. Gaskill have returned home from Grand Manan where they had been called by the illness and death of Mr. Gaskill's father. Miss Nellie King, student of Mr. S. King, who is a sister nurse at the Royal Victoria Hospital, Montreal, is the guest of her brother, Station Road. Miss Emilie Alward, after an absence of two months, resumed her duties on Monday last at the Hampton Consolidated School. Miss Alward has been ill with scarlet fever. Mr. and Mrs. Robert Seely and family, St. John, have moved to Hampton and will occupy the residence of Mrs. N. M. Barnes for the coming year. The Kensington Club of the Methodist church held their weekly sewing party on Friday afternoon at the residence of Mrs. George M. Wilson. Miss Hazel Baird, who expects very soon to leave for Edmonton, Alberta, is now the guest of Sussex friends. Mrs. James Shaw and family of St. John have rented the cottage owned by Miss Cookson, Station road, for the summer months and will move out about May 1st. Miss Georgie Wilson, trained nurse, was called to Barnesville Sunday evening. Miss Hatfield Dickson, Jubilee, was the guest of Hampton friends last week. The Auction Bridge Club met with Miss Marjorie Barnes on Wednesday afternoon. Those present were Mrs. S. Henry Smith, Mrs. N. M. Barnes, Mrs. R. H. Smith, Mrs. Allan Schofield, Mrs. T. William Barnes, Miss Minnie Travis, Miss Ruth Thurber and Miss Marjorie Barnes. A missionary rally was held last Wednesday at the residence of Mrs. W. S. Morrison. There was a large attendance from Rothesay. The Jubilee and Hampton guests included members of missionary societies from other churches. Mrs. Jamieson, St. John, gave an interesting address, after which refreshments were served. The Rev. Mr. Wilson occupied the pulpit of the Presbyterian church on Sunday last. This church has decided to extend a call to the Rev. Mr. Rosborough, who is a member of this year's graduating class at Pine Hill College, N. S. Miss Josephine Scribner, who has been visiting her brother in Montana for the last five months, returned to her home, Hampton Village, on Sunday last. Miss Mabel McAvity was the guest of Mrs. W. S. Morrison on Tuesday evening. The basketball team of the St. John High School came to Hampton last night and played a game with the Hampton Consolidated School team, the former winning out by a close score of ten to eight. The game was witnessed by a large crowd who greatly enjoyed the play. The lineup was as follows: St. John. Forwards. Hampton. McAndrews. R. Smith. Millidge. R. Barnes. Centre. R. Fraser. Lingley. R. Fraser. Defence. Markham. Roy Smith.

Y. Smith and daughter, Miss Wilhelmina, have gone to Halifax where Miss deBois has entered a hospital to train. Rev. Mr. Mortimer occupied the pulpit of the Presbyterian church here on Sunday. Mrs. H. Willett and little daughter, of Bathurst, are in town visiting Mr. and Mrs. L. Hanington. Rev. R. A. Robinson occupied the pulpit of St. George's church, Moncton Sunday last. B. H. Thomas, the popular teller in the Royal Bank here, has been transferred to St. John, North End. He left to take up his new duties on No. 3, Saturday morning. A number of young people attended the seniors' at home at Mount Allison, Sackville on Friday evening last. Some of those present were Misses Josephine Oulton, Muriel Thomas, Myrtle Thomas, Nina Tait, Mollie and Jean Piercy, Messrs. Herbert Palmer and William Tait. Mrs. B. Tait and Mrs. R. A. Robinson were in Sackville last week. Mrs. William McAllister was in Amherst last week. Miss Goodall, of Moncton, spent Sunday in town the guest of friends. A skating party of 80 young people visited our rink here on Thursday evening. The Citizens' Band rendered an excellent programme of music. After partaking of a supper at the Windsor Hotel, the young people enjoyed a dance in the town hall. William Palmer has returned from Newfoundland where he has been for the past month.

Indigestion For 2 Years

Few people seem to realize that chronic indigestion is a disease of the intestines rather than of the stomach. Even the doctors err in this way, as is proven by this letter. Dr. Chase's Kidney-Liver Pills are the most effective treatment obtainable for chronic indigestion, because they awaken the action of the liver and bowels, sweep the foul impurities from the system, and set the whole digestive system in perfect working order. Mrs. George Swan, Ashworth, Ont., writes: "My husband suffered with indigestion for two years. We tried three different doctors, but they didn't help my husband very much. As he still suffered, he began using Dr. Chase's Kidney-Liver Pills, and soon got relief. I am thankful to Dr. Chase's Kidney-Liver Pills for the cure of my husband after other treatments had failed." Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c. a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

Skin Peeling Nature's Aid to New Complexion

(From Woman's Tribune.) Meccolized wax is a natural beautifier. By flaking off the dehydrated surface skin, it merely hastens Nature's work. The second skin layer, brought radially to view, exhibits the healthy, youthful complexion produced by esthary circulation. This because the apillaries are thus brought nearer the surface; also because the new skin is unsoiled by dust and dirt. This wax, to be had at any druggists (once will do) is put on nightly like old cream, washed off mornings with warm water. Its work usually is completed in from seven to ten days, long enough not to show too marked results from day to day, or cause pain or irritation indoors.

BABY'S GOOD HEALTH

The good health of baby depends entirely upon whether his stomach and bowels are kept right or not. Keep the bowels working regularly and the little stomach sweet and baby will be well and happy. To do this use Baby's Own Tablets—they are a gentle laxative and have no equal. Mrs. Chas. Lapierre, Les Bouches, Que., says: "I have found Baby's Own Tablets very good for my baby and they kept him in good health." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To Relieve Rheumatism the body-waste producing uric acid must be gradually arrested and the blood purified. Correct diet is essential. Abstain from tea and anything containing alcohol; eat meat only once a day and take SCOTT'S EMULSION after every meal. SCOTT'S EMULSION is rich in blood-making qualities and makes new blood free from the poisonous products which irritate the joints and muscles; its wonderful powers relieve the enlarged, stiffened joints; and more. SCOTT'S EMULSION replaces body-weakness with sound body-strength by its concentrated nourishing properties. Physicians everywhere prescribe SCOTT'S EMULSION for rheumatism. HER SYMPATHY MAKES HER SPEAK

Dame Mayer Tells How She Found a Cure in Dodd's Kidney Pills.

Suffered for Three Years From Rheumatism, Headache, Palpitation and Bright's Disease—Dodd's Kidney Pills Cured Her Kidneys and Made Her Well. Huberdeau, Argenteuil Co., Que., March 14.—(Special)—"I am always glad to tell of my cure because I sympathize with others who may be suffering as I did." So says Dame Joseph Mayer, well known and highly respected here. "For three years I was a very sick woman, rheumatism, headache, palpitation of the heart and Bright's disease were my succession of troubles. Dodd's Kidney Pills cured them all. I used twenty-four boxes to complete my cure, but they certainly made me well. "I will never be without Dodd's Kidney Pills in the house." Dodd's Kidney Pills cured Dame Mayer's ills because they are all caused by diseased kidneys. Dodd's Kidney Pills cure diseased kidneys, and with cured kidneys strain the seeds of disease out of the blood, the rheumatism, Bright's disease, headache and palpitation of the heart are bound to disappear. You never heard of a case of kidney disease that Dodd's Kidney Pills would not cure.

ECZEMA Has Stayed Cured For 15 YEARS Wonderful Testimony from a Well-known Peterboro' Man Who Suffered for 30 Years His Legs Were Covered With Eczema Down to the Knees—Perfectly Raw. DR. CHASE'S OINTMENT CURED HIM The Ketchesons are well-known as pioneer settlers of Hastings County, and one of them probably has a wider acquaintance than Mr. W. D. Ketcheson, who was formerly Division Court Bailiff of the Trenton Court, and is now living at 88 Dours Street, Peterboro', Ont. Over fifteen years ago Mr. Ketcheson was cured of an extremely severe case of eczema and piles by Dr. Chase's Ointment, and he writes now to say that the cure proved a permanent one. In 1897 Mr. Ketcheson wrote as follows:—"I was troubled for thirty years with itching piles and eczema. I could not sleep at night, and when I got warm the itching was terrible. Eczema covered my legs down to the knees, perfectly raw. I have tried every preparation I could hear of. Seeing Dr. Chase's Ointment advertised, I procured a box, and this Ointment effected a complete cure." On Sept. 28th, 1912, Mr. Ketcheson wrote as follows:—"I received a letter from you to-day, saying that you found on file a statement made by me 15 years ago. I have always given Dr. Chase's Ointment a good name since it cured me, and shall tell you how I came to use it. "I had suffered for many years from eczema and piles, and had tried doctors and everything I could hear of in vain. Reading about Dr. Chase's Ointment, I purchased it at once, and was soon completely cured. The Ointment was fifteen years ago, so there can be no doubt of the cure being a permanent one. I have met a great many people who have been cured by Dr. Chase's Ointment." It does not pay to waste time with cheap imitations or substitutes when you can be sure of satisfactory results by the use of this great soothing, healing ointment. For sale by all dealers, or Edmanson, Bates & Co., Limited, Toronto. Dr. Chase's Ointment

REXTON

Rexton, March 13.—The members of the Women's Institute enjoyed the hospitality of Mrs. George Jardine at her home Tuesday evening, and a very interesting programme was carried out. This society, which was organized here last September, is in a flourishing condition and seems to be supplying a long felt want in the community. The meeting was opened with the singing of O Canada, and after the minutes of the preceding meeting were read an interesting paper was read by Miss Grace Fraser, discussion on heating and ventilating of buildings was opened by Miss Smallwood and continued by Mrs. P. Palmer. A number of the other members also took part in the discussion. Mrs. E. Atkinson gave a demonstration on cream and wheat pancakes. Miss Estella Lanigan gave a reading which was very much enjoyed, and the meeting closed with singing the National Anthem. A fine programme has been arranged for the next meeting to be held the second Tuesday in April, at the home of Mrs. Keady Lanigan.

March Weather

Rheumatic Weather

Victims Can Cure Themselves With Dr. Williams' Pink Pills.

With the coming of March people who are afflicted with rheumatism begin to have unpleasant reminders of their trouble. The weather is changeable—balmy and springlike one day, raw, cold and piercing the next. It is such sudden changes of weather that sets the pangs and tortures of rheumatism, lumbago and sciatica going. But it must be borne in mind that although weather conditions start the pains, the trouble is deeply rooted in the blood, and can only be cured through the blood. All the lotions and liniments in the world can't cure rheumatism. Rubbing may seem to ease the pain while you are rubbing, but there its value ends. Only through the blood can you cure rheumatism. That's why Dr. Williams' Pink Pills have so many thousands of cures of this trouble to their credit. The new, rich blood which they actually make drives out the poisonous acid and rheumatism is vanquished. Among many sufferers from rheumatism who have been cured by this medicine is Miss Mary B. Kelly, South Dummer, Ont. Miss Kelly says: "Some time ago I had a very bad attack of rheumatism. At times I would be confined to bed for a couple of days and would seem almost paralyzed with the intense pain in my back and legs. At such times I could not walk and my joints were stiff and swollen. I consulted different doctors and took their medicine, but did not get more than temporary relief. At this time a neighbor advised me to try Dr. Williams' Pink Pills and I got a supply. After taking a few boxes I found they were greatly helping me, and I continued their use until the trouble completely disappeared. I can strongly recommend this medicine to others who suffer as I did from the pangs and tortures of rheumatism." If you suffer from rheumatism, or any other disease of the blood, begin to cure yourself today with Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at \$2.50 per box, or six boxes for \$15.00 from The Dr. Williams' Medicine Co., Brockville, Ont.

YOUR BABY'S SKIN

is the most delicate fabric in the world. You may cause it permanent harm by using poisonous mineral ointments for the little rashes and eruptions that every baby suffers from occasionally. Don't take any chances. Use Zam-Buk, the baby's best balm. Zam-Buk is made from fine herbal extracts, and is free from any harmful poisonous coloring matter. Like the grasses and the flowers, nature has colored it green. It is nature's own healer! Most ointments and salves have, as their foundation, various animal oils and fats. Zam-Buk does not contain one atom of animal substance. Most ointments and salves are too coarse to be absorbed by the tender delicate skin of a baby, and remain on the skin an irritating mass. Just put a little Zam-Buk on baby's skin, and see how soon it is absorbed, showing conclusively that the pores of the skin are greedy for it. Use nothing but Zam-Buk for baby's skin troubles and wash with Zam-Buk Soap. Zam-Buk should also be used for cuts, burns, scalds, eczema, piles, ulcers, etc. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

Better! Even Better! Think of any soup in the recipe-book—think of your favourite soup—arrange to have it for dinner today and make it better than ever before, like this:— Prepare your soup in the ordinary way, and before you put it in to boil add a packet of "Edwards"—either the Brown, Tomato, or White variety. When the soup is served you'll find it better and thicker and more nourishing; in short, you'll live your favourite soup so much better that you'll want to improve every soup-recipe in the book by adding "A little Edwards." You can use Edwards' Soup as a basis for practically any soup you make. Although splendid by itself, Edwards' Soup blends so naturally with other soups that it seems like a part of the original recipe. Get a few packets of Edwards' Soup today.

AROUND THE CITY

Negotiations Still On. An evening paper yesterday stated that the negotiations for the purchase of Foster's corner (so called) corner of King and Germain streets were off. It was positively stated last evening that this was not the case; the negotiations are still in progress.

Commissioner Expresses Satisfaction. Commissioner McLellan returned from Fredericton last evening where he has been in connection with the Police Chief. Mr. McLellan expressed himself as being well satisfied with the result. He refused to say whether he would ask for a government investigation.

English Farmers Buy Farms. S. McDonald, a British farmer, who sailed for St. John yesterday, has purchased from W. W. Corfield, of the Canadian Farm Improvement Company, 3,000 acres of land near Moncton, embracing several farms. Mr. McDonald, who will settle at Salisbury, intends to go into the business of breeding horses on an extensive scale and is bringing out a number of horses with him. W. Hudson, an old country farmer, who arrived yesterday, has bought from Mr. Corfield a farm at Quispamsis. He brought out some horses with him and will have eight more coming out in a short time.

Tribute to Father Davenport. At the close of the St. George's Society smoker on Thursday evening, the president, G. S. Mayes, spoke feelingly regarding the death of Rev. Father Davenport. For more than ten years the late Father Davenport and Mr. Mayes were closely associated in musical matters connected with the rendering of oratorios in St. John and also sang together in the different provinces. Mr. Mayes spoke in the highest terms of the late Father Davenport's religious and devotional temperament in his interpretation of oratorios, and of his kindly disposition, always ready to help those in need. His death, Mr. Mayes said, was a great loss to the musical fraternity in St. John.

THE COUNTRY MARKET

The country market for today has a surfeit of supplies for Saturday trade. The usual quantity of beef is to be found, but there is a scarcity of veal and lamb and mutton, and only a fair supply of fowl is to be had.

The high prices of last week for pork prevail again today. The condition of the roads owing to the thaw of the past week and the rains of yesterday will probably deter many of the farmers from bringing in produce today. On the whole, however, the supply for the day will be up to that of last week. Today quotations will be about as follows: beef (roast) 10 to 10 cents; steak, 16 to 24; corn beef, 10 to 12; pork (chops) 18 to 20; pork (roast) 16 to 18; veal, 12 to 16; lamb and mutton, 12 to 18; turkey, 30 to 33 per lb.; chickens, 25 to 30 per lb.; fowl, 25 and 28 per pound. Vegetables will be quite plentiful; squash will be quoted at 5 cents per lb.; lettuce at 7 cents; parsley, at 5 cents, and tomatoes at 20 cents a pound.

PRETTY ROMANCE

TERMINATES TODAY

Bride Coming from England on Empress of Britain—Groom Here from Saskatchewan to Meet Future Wife.

A very interesting romance which had its beginning in the picturesque spots and shady walks on the far-off shores of England, will be terminated here today, some time after the arrival of the Empress of Britain. The participants in the happy event will be John F. Anderson, of Saskatchewan and Eleanor M. Remington, of England. The groom-to-be, who left his home in England some years ago, and shared in the prosperity of western Canada, arrived in the city yesterday to meet his intended bride, who will arrive this morning on the Empress.

FIREMAN ON KANAWHA IS TERRIBLY INJURED AT SEA

Huge Wave Breaks Over Vessel Throwing Unfortunate Man Against Rail—Breastbone Smashed and Serious Face Wounds Sustained—Had Rough Trip.

After a passage marked by heavy weather and almost continuous gales, the Furness liner Kanawha, Captain Kellman, arrived in port yesterday from London via Halifax, and docked at her berth at Sand Point. From the time the ship left Liverpool, until latitude 40 was reached, high winds of almost hurricane velocity, accompanied by mountainous seas forced those in command to display their utmost ability as navigators. At times the wind and sea rose to such a height that it became necessary to slow the steamer down and on several occasions the Kanawha was hoisted to such a height that the crew was obliged to leave the ship.

On a serious accident, and one which shows the tremendous power of the sea, occurred during the voyage. One of the firemen, while the storm was at its height, on coming off duty, attempted to pass along the deck to the forward lockhouse. He had but half completed the journey when a huge wave smote the vessel, throwing tons of water on the deck, and after carrying the unfortunate almost to the bridge, threw him with terrific force against the rail. It was fortunate that at the time of the accident, several seamen happened to be standing by, else the wave would have carried him overboard. The fireman was half way through the rail when rescued. When picked up and carried into the cabin, it was feared the man had been killed, and although examination showed him to have sustained a broken breast bone and several bad face wounds, he survived and at present is in the hospital at Halifax. It is expected he will recover.

One of the officers of the ship, when seen yesterday afternoon, said that during his eleven years' experience at sea, he had never been out in weather as bad as that of the last trip. This was in his opinion the worst winter on the Atlantic ocean in many years. Besides several passengers, the Kanawha brought out two horses from the stable of the Duke of Cambridge. These horses were purchased by Mr. Hudson, of Rothesay, who made the trip out on the Kanawha with the animals. Both horses are high bred mares and were used by the Duke of Cambridge as hunters.

The Kanawha also brought out a cargo of 1000 tons of general merchandise. She will load here for Belfast and it is understood, she will carry away a large cargo consisting of 1000 barrels of apples and about 1300 tons of grain and a heavy cargo of deal.

The new Furness passenger liner Digby is now nearing completion on the yards of the Furness-Whitby Co., at Hartlepool, and it is probable that she will be launched on April 13th. The Digby will be fitted up in the most modern manner, and will favorably compare with the other passenger ships on the Atlantic service.

PREMIER FLEMING'S CROWN LAND BILL PROVES POPULAR

Lumbermen Unite in Praise of Advanced Legislation—John E. Moore Says it will be Boon to Province—Hon. Mr Fleming Receives Congratulations.

"One of the most fair and equitable measures that has yet been adopted in connection with the lumber business of this province," was the way John E. Moore, of the J. E. Moore Co., Ltd., characterized the Crown Lands bill, introduced in the Legislature on Thursday by Premier Fleming. While Mr. Moore did not hesitate to endorse the measure most of the other local lumbermen seemed reluctant to discuss it, the answer being in most cases that they did not have sufficient information to justify an opinion.

Mr. Moore stated that the extension of the leases would tend to place the lumber business upon a much more stable footing, and would, in addition, serve to foster every department of the lumber industry. "The measure," he said "is a very fair one, if, indeed, the bonuses are not too large. It also tends to safeguard the interests of posterity and looks to the future. In just the way the pulp and paper industry will derive a great benefit."

H. W. Schofield, of the Edward Partington Pulp and Paper Co., Ltd., was reluctant to discuss the probable results of the bill upon his business, beyond stating that its effect would be far-reaching and would be felt for a long time to come. "I cannot," he said, "discuss the measure until I have further details of its clauses."

Other lumbermen would not discuss the bill from the newspaper accounts. A Fredericton despatch says: Premier Fleming is already in receipt of messages by telegraph, telephone and mail from various sections of the province warmly commending the new policy for the administration of the crown timber lands of the province. The messages which have come to the Premier are all of the one opinion, viz., that the bill as introduced Thursday meets the various diverse interests as well as could reasonably be expected. The bill is also recognized as a measure which will do much for the future industrial development of the province, and the results of the new law within a very short time there will be announcements as to the introduction of pulp and paper industries in the province as the result of the new law.

SUFFRAGETTES HELD SUCCESSFUL MEETING

Large Numbers Turned Out in Rainy Weather, Last Evening—Mrs. Currey Makes Strong Address.

The disagreeable weather of last evening did not prevent the upholders of the woman's suffrage cause in the city from turning out in strong numbers to assert their firm adherence to the expressed opinion of the more active workers of their numbers. The occasion last evening was an entertainment, open to the public, held in the rooms of the St. John Art Club by the Woman Suffrage Association of the city.

The programme consisted of brief addresses by a number of those present, including members of the opposing sex. Light refreshments were served during the evening. The president of the association, Miss Fiske, was unable to be present on account of the death of a member of the family, and the chair was occupied by Mrs. L. A. Currey. The greater part of the evening was taken up with an address by Mrs. Currey, who chose for her subject "Women in Politics," and in a clear manner related the stand taken by the women here and in the mother country, to uphold the interests of the weaker sex.

The speaker discussed the active part played by women, in both political and worldly affairs to effect the great achievements of the past fifty years and declared that at present the important position occupied by them in the world was being manifested more clearly. Contrasting with theirs, the means adopted by the women of England to secure their rights, the speaker said that the politicians of the latter country had resorted to low and deceptive means in order to prevent the women from gaining the franchise, and the conditions prevalent in the mother country were much worse than those existing in Canada.

Rev. D. Patterson, who during the winter, has been looking after the interests of the Presbyterians in the city, made a few remarks, as did also Mr. Taylor of the Socialist party of the city.

DELAYED BY ICE FIELDS

S. S. Inishowen Head Held Up Five Days by Vast Stretches of Floating Ice.—Is Unusual.

The steamer Inishowen Head, Capt. Pickford, from Glasgow, arrived in port yesterday and docked at Long Wharf.

She came here from Louisburg, N. S., where she discharged a general cargo, and arriving outside the island yesterday morning, came into her berth and tied up to the wharf about four o'clock in the afternoon. The weather, while coming across the ocean was fairly good, no heavy gales or obstructions being encountered, and good time would have been made had not the vessel run into immense ice fields, which obstructed her passage and caused considerable delay. As it was the steamer was about five days behind schedule time.

The Inishowen Head left Glasgow on February 13th, with a large cargo, including a quantity of fire brick and fire brick clay for Louisburg, N. S. Under the favorable weather conditions which prevailed, the vessel proceeded at a fairly rapid rate, until off the coast of Newfoundland, when vast fields of ice stretching hundreds of miles were encountered. At times the ice so obstructed the passage of the vessel that the engines were stopped to prevent the propeller blades from breaking.

The encountering of such immense fields of floating ice in this vicinity during this time of the year, the officers of the Inishowen Head say, is very uncommon, and consequently they were unprepared to meet with any such obstruction. Several icebergs were sighted during the voyage. While off Cape Sable the vessel ran into banks of dense fog. It is expected the Inishowen Head will leave this port Tuesday direct for Belfast with a general cargo, the greater part of which will consist of a consignment of grain.

A meeting of the council of the Board of Trade was held yesterday, at which the principal matter discussed was the corn exchange of the Montreal Corn Exchange to the Canadian Grain Commissioners, protesting against certain regulations which, it is said, prevent the shipment of American corn through Canadian ports.

According to the regulation the commissioners have to refuse to pass for export, corn having a moisture content of not more than 16 or 18 per cent, according to the variety. The Montreal Corn Exchange claims that no Canadian corn is exported, and that this provision merely operates to prevent the shipment of American corn through Canadian ports. It was pointed out that there was no such restriction at American ports, and that big American corn shippers content of not more than 16 or 18 per cent, according to the variety.

The council decided to write to the Grain Commissioners supporting the demand of the Montreal Corn Exchange that the clause be repealed, in the hope that an export in corn might be developed through this port.

A short session of the town planning committee was held before the meeting of the council, but nothing of interest was done. Debate on Valley Railway Route. On Thursday evening a debate took place between members of Council Loyalist and Quanzony on the question: "Resolved that the best interests of the city would be served by having the Valley Railway enter by the Kennebecasis route." J. Clark, W. A. Erb, L. P. Wetmore and J. M. Laakey supported the affirmative and L. W. Mowry, T. A. Armour, J. T. McBay and Geo. E. Chase, appeared for the west side route. D. L. Lingley, the judge, ruled that the advocates of the west side route had put up the best arguments. Next month the courts will debate on the question of woman's suffrage.
