A WARM WISH.—A poor widow woman was relating to a neighbor, how fond her husband was of having a good fire—how he would make himself in fixing it so it would burn, &c. Ah, poor dear woman, said she, hope he's gone where they keep good fires.

An old gentleman, whose character was unimpeached and unimpeachable, for some slight reason, was charged by a dissolute young Hopsater, who was determined to ruin the old gentleman, should give him honorable satisfaction. The old gentleman very good humoredly refused to fight, and the fellow threatened to Gazette him as a coward.

Well go a-head—I had rather fill ten newspapers than one coffin.

I do not wish any thing against the individual in question, said a very polite gentleman.

grange of the poet, that to him, truth is stronger than fiction.

Why are the Bat-rooms of Boston now like a Purgatory?

Because they are the places of departed spirits.

Why is charity like punishment?

Because it is better to give than receive.

Coot.—Admiral Howe, when a Captain was once hastily awakened in the middle of the night, by the lieutenant of the watch who informed him with great agitation that the ship was on fire near the magazine.

That be the case, said he, rising leisurely put on his clothes, we shall soon hear another report of the matter. The lieutenant flew back to the scene of danger, and almost instantly returning, exclaimed, You need not be so afraid; the fire is extinguished.

Afraid? exclaimed Howe, what do you mean by that, sir? I never was afraid in my life, and looking the lieutenant full in the face, he added, Play how does a man feel, sir when he is afraid? I need not ask how he looks.

HAMLET'S SOLILOQUY.—The last use which the Soliloquy of Hamlet has been subjected to, by way of parody, we find in one of the newspapers. There is humor in it as we apprehend; more 'truth than poetry,' as some who have been shaking in their boots for fear of a request. Here goes the soliloquy:

To go to Texas, or not to go—than am I to question! Whether it are better to stay at home and bore these ere ills whot we have got, or take up arms agin a lot of Mexicans agin. Imagines, and by fighting 'em kill 'em. Fight!—to fire!—'naint nothing more, nor hardly but in that fight of our'n, what bull's may come, when we shuffled off a shot or what we bid us consider on't. Aye, there where it rubs. Rather guess we won't on the whole.

GENTLEMAN. Moderation, decorum, neatness, distinguish the gentleman; he is at all times affable, different, and studious person. Intelligent and polite, his behavior is pleasant and graceful. Where he enters the dwelling of an inferior, he endeavors to hide, if possible, the difference between the rank in life; ever willing to assist the awkward him, he is neither unkind, haughty, nor overbearing. In the mansions of the great the correctness of his mind induces him to bend to etiquette, but not to stoop to adulation; correct principle cautions him to avoid the gaming table, bribery, or other foible that could occasion him self-reproach. Pleased with the pleasure of religion, he rejoices to see the gratities of society

and is fastidious upon no point of little importance. He appears only to be a gentleman, and it is difficult to see how he could do wrong. His good will bring upon you contempt, be a gentleman, and its honors will remain after you are dead.

Death caused through Dissection.—It is to be recollected of our readers that the late Harvey Leach, the celebrated Glasgow Fly and Man Monkey, left orders, that at his decease his body should be given to Mr. Lister, of University College Hospital, for disposal. Mr. Lister, handed the body to his most intimate friend and companion Mr. Potter, for dissection—who, whilst engaged in his labour, pricked his finger with the lancet. This caused little care being placed his hand in a sling for a day or two, but on the third day Mr. Potter was attacked with fever—abscesses formed on his hand, which extended up the muscles of his arm, and over his chest, causing great suffering. His death eventually put a period to his sufferings, and on Saturday his remains were interred in the Kensal Green Cemetery.—*Edin paper*

HAPPINESS.—All other blessings in this world are incomplete without contentment. If we are happy; without it we cannot be so.

FARTHER FROM MEXICO.

Gen. Scott expected at the Capital—A proposition to remove the seat of Government—Addresses of Santa Anna, Herrera, and others—Gen. Taylor expected to move on San Luis.

No later arrivals since the 28th. One American officer, prisoner at the Capital, says he expected his release on the 30th, and that Gen. Scott was expected there within eight days, and no formidable opposition was anticipated. Papers at the Capital give extracts of the despatches intercepted. The Republic charges the Americans at Puebla with great excesses.

Another paper ridicules the idea of defence. Nothing is said in the papers of a formidable defence at Rio Frio, they speak only of fortifications in the immediate vicinity of the Capital, and mention that an advance party of Gen. Worth had reconnoitred as far as Rio Frio.

Santa Anna, previous to his resignation, directed all prosecutions against military persons to be discontinued. Pichico was named Minister of Justice on the 27th. The Republic urges no defence of the Capital, but the removal of the Seat of Government, that in the event of its fall, it may have a rallying point. The States were garrisoned the Capital on the 26th. About nine thousand men were to arrive immediately.

The resignation of Bravo and Rincon was induced by an order of Government, bestowing their command on Tainbarion, during their indisposition. Gomez Farias is at the Capital of Jaitico. Ampudia publishes an address to the nation, vindicating his conduct at Monterey.

There are no farther particulars of Almones arrest. Alvarez writes to the Government that he would arrive at Cuernavaca on the 27th with his forces, and be in readiness to defend the Capital. A copy of the new constitution has been published, and addresses from Herrera, Santa Anna, and the President and Supreme Court, upon the promulgation of the new law.

Herrera says a people truly free were never conquered by foreign invasion. Cinque says the Mexicans may decide by ceasing their animosities to unite and support the laws and constitution. This being done the defence and independence of the country cannot fail. It is said that the administration has deprived all officers who retired from Cerro Cordo without permission, of their commissions; that great preparations were making at Comajual, and supplies for the army being raised of artillery.

It was believed at Monterey, that General Taylor would move on San Luis by the last of June. Accounts from Matagorda, state that Col. Hays and regiment had returned to San Antonio. Col. Doniphan and command were shortly expected at New Orleans.

LATER FROM MAZATLAN.

The New Orleans Delta has news from Mazatlan to the 19th May. It was believed by the inhabitants of Mazatlan, that that port would be taken possession of by the American squadron, as soon as intelligence could be received of the capture of the City of Mexico.

Our informant left San Luis Potosi on the 25th May. All was quietude and indifference there the inflammatory addressed to the clergy produced no effect upon the Potosians, who have writhed under the inflictions of a large army quartered upon them, and supported by extortions and impositions upon the poor people. No preparations had been made to defend the town against Gen. Taylor's army.

Indeed most of the people warmly prayed for the occupation of the city by the American Army, from which they could hope for kinder treatment than from their own army. There were about 7,000 troops at San Luis, the debris of Santa Anna's once proud army, and these have been ordered to the capital, leaving only a few of the National Guards to defend the scant fortifications of the city.

These defences were miserably constructed, and totally inadequate to protect the city. It was rumored in San Luis that General Taylor would not march on that place, but would advance on the capital, by way of Zacatecas; the inhabitants of which are said to be highly favorable to the Americans.

General Urean was stationed at Tula, with a large Guerrilla force levying contributions alike on friends and enemies.

LATEST FROM MEXICO.—An arrival at New Orleans brings Brazos dates to the 10th. of June.

Col. Doniphan had arrived at New Orleans, with seven companies. Dates from the City of Mexico are to the 29th May. In an article upon the subject of the defence of the Capital, El Republicano sets down the troops available for the purpose as follows: The garrison then in the capital (the 26th May) was not far from 10,000 men while there were to arrive, says the editor, from the State of Guanajuato 3000, from the South of Mexico 3000, from Michoacan 2000, and from Queretaro 1000.

ATTACK BY CAMANCHES.

NEW YORK, Wednesday, P. M. Accounts from St. Louis States that a government train for Santa Fe, under Capt. Thorp had been attacked near Los Hornos, and that Capt. Thorp and 12 or 15 men had been killed. The Indians stole a large number of cattle, mules, and some other articles.

There was a large congress of Indians at Salt Plain, which was discussing some important matters.

The Yellow Fever.—This dreadful scourge

called *El Yanto* by the Mexicans, has commenced its ravages in earnest at Vera Cruz. Some very valuable lives have already fallen victims to its ferocity. The most energetic measures have been adopted by Col. Wilson, by the appointment of a Board of Health, the publication of sanitary regulations, &c., to mitigate its effects.

The Wheat Crop at the South.—The Greenville (S. C.) Mountaineers of the 11th says—From most every section of the Southern states, we see accounts of good wheat crops, and harvests has every where commenced. In our own immediate section, wheat will be a fair crop—some fields are excellent. The late varieties of wheat, especially that which was late sown, will be injured more or less by rust.

Early Harvest.—The farmers in Arkansas commenced reaping their wheat the latter part of May, and the crop is represented to be a very fine one. The editor of the Little Rock Gazette says the heads of the wheat grown in that region are as large and heavy as he ever witnessed.

FROM THE CAPE DE VERDE ISLANDS.—Dates from these islands announce that there was a volcanic eruption about the 1st of April, on the island of Fogo, (of the Cape de Verde group) which continued ten or fifteen days, throwing out showers of earth and stones to a great height, and emitting huge streams of lava, which, running down the mountain, destroyed many houses and plantations, and caused some loss of life. All vegetation, and many goats and cattle, were destroyed by the heat of the earth, the showers of stones, and the lava. The shock was distinctly felt on the neighboring island, and caused much alarm at Port Praya, where the vibrations were very violent, and almost unceasing for 7 or 8 days. The crater of Fogo is 12,000 feet above the sea, and eruptions once in twenty or thirty years.

Emigrants in Canada.—The following is an extract from a letter from Dr. G. M. Douglas to Mr. Buchanan, for the information of the Mayor—

Grave Site Tuesday 9 A. M.—Out of 4000 or 5000 that left this place since Sunday, at least 2000 will fall sick somewhere, before three weeks are over. They ought to have accommodation for 2000 sick, at least, in Montreal and Quebec, as all the Cork and Liverpool passengers are half dead from starvation and want before embarking; and the least bowel complaint, which his sure to come with a change of food, finishes them without a struggle. I never saw people so indifferent to life. They would continue in the same berths with a dead person until the seaman and or captain dragged out the corpse with boat hooks.

The Morning Herald of Saturday, remarks—Dr. Douglas's apprehensions are already fulfilled here. Our Marine Hospital is filling up fast—236 patients in this morning, and there is only room for 300. Sheds are being erected on the vacant ground adjoining that building. Several deaths have occurred in the hospital.

We learn from a gentleman who arrived from Quebec this morning, that at Grosbeak on Saturday, 5th instant, there were sixty funerals, and on Monday the 7th, one hundred and sixty.

There were about fifteen thousand immigrants on board vessels at anchor, fifteen hundred of whom were sick, and there were eleven hundred sick on the island.

A Scoundrel Abroad.—A report has reached here on the first of the week a man went aboard of the steamer Madawaska at the Little Falls, Madawaska, wishing to go to the Grand Falls, and stated that he had no money to pay his passage.

Captain Drake very humanely gave him a passage; and the scoundrel took an opportunity during the day of abstracting £30 from the Captain's desk.

Such was the impudence and singfroid of the fellow, that, on his arrival at the Grand Falls, he ordered a room at one of the principal hotels, called for the choicest liquors, treated all that would partake, and went out and purchased himself a suit of clothes. Next day he left for Woodstock, but was followed by Captain Drake, who had fortunately discovered his loss, and with some assistance succeeding in capturing the hero at the mouth of the Arctostock, where they luckily got back 223 the rest having been squandered it is supposed. Such is the substance of the story as it reached us. We have not heard the name of the scoundrel, but understand that he left for this place. A strict watch should be kept over such gentry.—Capt. Drake was certainly very remiss in his duty by allowing such a scoundrel to escape.

—Woodstock Telegraph.

Serious Accident.—We have to regret that two of our most active and interesting young men got severely, if not seriously hurt on Thursday last. Mr. James R. Tupper, Mr. Thomas E. Perley and Mr. Edmund Akersley, of Madawaska, the two latter sitting on the seat of the wagon, and the former on their lap driving, were passing down one of our streets, when the horses became restive, occasioned it is said by the harness not being properly fitted, to the wagon, kicking most furiously, and struck Messrs. Perley and Tupper such a violent blow each on the knee, as to hurt them very much. In endeavouring to save themselves both were thrown from the wagon, which of course tended to increase the injury. Mr. Tupper fell on his head, and the contusion it was feared would have proved dangerous. We are happy in being able to state that they are doing as well as could be expected. Mr. Akersley had a narrow escape from having both his legs broken.

As in attempting to leap out they got entangled in the wheels of the wagon; but fortunately the horse was stopped, and he escaped with a slight sprain of one of his ankles.—Id.

Laying of the Corner Stone of the New Provincial Lunatic Asylum.

Thursday last, with Masonic honours, the business of the day drew forth hundreds of the inhabitants to witness the imposing ceremony, and early in the morning the streets presented a lively appearance from the continuous stream of persons, crossing to the Carleton side. At the appointed time, the New Brunswick Regiment of Artillery, commanded by Major Nicholson, and the different Lodges of Masons, together with the Heads of Departments, Members of the Assembly, &c., headed by the three City Ambassadors, proceeded to Carleton in the ferry steamers, and marched in procession to the site of the new edifice. On the arrival of His Excellency the Lieut. Governor, a salute was fired by the Artillery. A prayer was then offered up by the Rev. Dr. Gray, and the ceremony of laying the corner stone performed by His Excellency, assisted by the Right Worshipful of the Provincial Grand Master, who addressed the assembled multitude on the subject in which they were that day engaged, and expressed his approbation of the interest taken by the people of this City in such benevolent institutions.

The Rev. Dr. Alley afterwards delivered an oration on Masonry, going at some length into the history of this ancient order, and exhibiting its tendency to elevate, ennoble, and refine the human mind. The ceremony was concluded with prayer by the Rev. Dr. Gray, and a salute from the Artillery.

His Excellency, the Heads of Departments, the Mayor and Members of the Common Council, and the Lodges present then partook of a collation prepared for the occasion which they appeared to enjoy exceedingly. The surrounding heights were lined with spectators, and the scene was enlivened with the presence of a large number of the fair sex, whose charms added increased interest to the ceremony.

While contemplating the benevolent object in view, by the erection of such an institution, and the patient attending the procession, we could not help expressing a secret wish that it might stand more as a monument to mark the skill and benevolence of our people, than for any real use,—that while Christian feeling prompted its erection, few indeed, might be placed within its precincts, deprived of that lofty attribute with which infinite goodness has endowed the human race.

The Masters of the several Lodges with His Worship the Mayor, the Commissioners, &c., were entertained at Dinner, by the Right Worshipful Provincial Grand Master, at the St. John Hotel at seven o'clock, when the evening was passed with that agreeable conviviality which is so characteristic of this ancient and Honorable Order.

Among the arrivals at the St. John Hotel during the week, are the following: His Excellency Sir William Macbean George Colbrooke and family; Miss Shore, A. Read, Esq., and Lieutenant Colonel Hayne, from Fredericton; the Right Honourable R. Pakenham, Her Britannic Majesty's Minister, and J. R. Kennedy and H. Berkeley, Esquires from Washington; Lieut. Colonel Simpson, from Montreal; Honorable Alexander Keith, and A. G. Blair, Esquire, from Halifax; Samuel B. Walcott, Esquire, Mrs. H. Derby, Miss Rogers, and Miss Walcott, from Boston; Mr. Forster, 77th Regt, the Hon. G. Elliott, Rifle Brigade; Mr. Sutton, 70th Highland Lt. Infantry; Leonard March, Esq., Bangor.

His Excellency the Lieutenant Governor and family returned to Fredericton to day, in the steamer St. John.—Courier.

We understand that Dr. Collins, one of the Physicians on Patridge Island, is ill of fever.

Capt. Hall, of the ship Pallas, who had been landed on Patridge Island from that vessel we are sorry to say, died there, last evening, of typhus fever.—Id.

INQUEST. On Thursday last an Inquest was held before Dr. W. Bayard, Coroner, on the body of John Fleming, a Seaman on board the Brig Ella, lying at the breakwater. It appeared that the deceased, in attempting to get on board his vessel, previous night, somewhat intoxicated, in company with one of his ship mates, (John Connell), fell from the stage, leading from the shore to the Brig, and inflicted a wound on his head by striking upon the rocks. Connell being unable to get him to the Brig, they both remained on the wharf during the night. Fleming being made as comfortable as possible by his shipmates. He died about two hours after he was got on board in the morning.—Id.

MIRACLES, June 22.

AFFAIRS AT THE LAZARETTO.—DOCTOR Vondy, gives us the following news:—The number of deaths that have taken place since has been on Middle Island is 37—17 since Tuesday last. There are at the station about 290 passengers belonging to the Loostank, Three of the seamen of this ship have died—the first mate is recovering—but the second mate still continues very ill. Three seamen of the Boliver have died—and one more remains very ill. All the passengers landed from the Richard White are doing well. There are about 350 persons on the Island, and as far as we can be ascertained, from 25 to 30 orphans. He also states, that during the fine weather, the sick rapidly improved—but owing to the insufficiency of the buildings and canvas booths, to shelter the convalescent from the rain, many have caught cold, which have reduced them again to a very feeble state.—Gleaner.

The Fredericton Reporter says:—St. Anne's Chapel has received the accession of a chime of bells, during the present week; they are three in number, of a superior tone, and in good keeping with the building which they occupy.

MILITIA GENERAL ORDERS.—Fredericton, 18th June 1847.—His Excellency the Commander in Chief directs that the Militia General Order of the 11th November 1845, be amended, and in testimony of the long and zealous services of Major Flaherty, of the 23rd Battalion Charlotte County Militia, he is allowed to retire with the rank of Lieut. Colonel.

By Command of His Excellency, GEO. SHORE, A. G. M.

FIRE.—On the night of the 31st ult. the dwelling house of the Rev. J. C. Sinclair at Casembueque, P. E. Island, was destroyed by fire, with nearly all the furniture—the family only escaping in their night clothes, and securing a few articles of bedding and a family Bible.

CHURCH OF SCOTLAND DEPUTATION.

In our last we mentioned the arrival of another Deputation from the Church of Scotland. We have now very great satisfaction in stating, that the Rev. Gentlemen composing it are arduously prosecuting the object of their visit.

The Rev. J. C. FOWLER, of Ratho, preached most acceptable and impressive sermons in St. Matthew's Church in this city, on Sabbath morning and evening, and in St. Andrew's Church in the afternoon.

The Rev. Robert Stevenson, of Dalry, preached in St. Andrew's Church, on Friday evening last, a most excellent and powerful discourse, and on Sabbath at Lawrence Town and Cole Harbour.

The Rev. Simon Mackintosh, of Aberdeen preached learned and earnest discourses in St. Matthew's Church on Thursday evening, and Sabbath afternoon, and also addressed the Sabbath-School Teachers and School in St. Matthew's Church, on Sabbath morning at 10 o'clock, and preached in St. Andrew's Church on Sabbath forenoon and evening.

We understand that the Rev. Mr. Fowler leaves this city to-morrow morning to preach the Gospel at Musquodoboit Harbour and at Porter's Lake, returning on Friday evening, and then proceeds to Chester and the Western Shore, on Saturday morning.

The Rev. Mr. Mackintosh will leave for Pictou on Thursday morning.

And it is expected that the Rev. Mr. Stevenson will preach in St. Matthew's and St. Andrew's Churches on Thursday and Friday evenings next, and the ensuing Lord's day. The piety, zeal, and powerful preaching of the members of this Deputation, have inspired and animated the friends of the Church with new vigour in favour of the Church of their fathers. The Lay Association will present them with an address this evening.—Halifax Times June 24.

MEXICO.—Dates to the 13th have been received at New Orleans—A large train under escort of Col. McIntosh and 800 men was attacked by a guerrilla party, and several pack mules were taken. The N. S. troops fortified themselves behind their wagons, and sent for a reinforcement. Herrars was to be elected on the 20th June.

THE WEATHER.—Thursday Friday and Saturday last were the warmest days we have had this season—the heat on Saturday was oppressive—several persons knocked off work. The atmosphere has since been cooled by refreshing showers. The grain and potatoe

crops are coming rapidly forward and look healthy.

THE GRAMMAR SCHOOL of Saint Andrews, was examined Thursday 24th inst. in presence of the Directors, several of the parents of the pupils and others. The scholars were minutely examined, class by class, in English Reading, Orthography and Grammar; Penmanship, Arithmetic, History, Geography and Latin. The examination was not of that formal kind often pursued at schools, but the proficiency of the Boys in all these branches, and the manner in which they acquitted themselves in every respect were such as elicited the entire approbation of all present, and reflected the highest credit on the abilities and diligence of the principal and his assistants, and the efficiency of the system of education pursued at this Institution.—It stands at present unrivalled in this county, and parents living at a distance from Saint Andrews, who can place their sons under its moral and literary training will confer upon them a great advantage.

The School was re-opened after the vacation of last summer with Fifteen scholars, the number now in attendance is Fifty two of whom Forty Eight were present and examined.

In most of the classes it was somewhat difficult to decide to whom the prize should be awarded, but the following were unanimously selected as the most deserving: viz—

Benjamin Stevenson in the Can-ar class. John O'Neil, Delectus. William Austin, Geography. William H. Aymar, & James Thomson, History. Charles Eastman, Arithmetic. John S. Jarvis, Do 2nd class. Stannus Jones, English Grammar. Patrick Quinn, Penmanship. Daniel Wetmore, Drawing Map.

FLLOUR.—We are happy to notice that the news by the Cambria had a decided effect on Bread stuff in the United States. The speculators were sorely disappointed—the prices fell rapidly—and are still receding. Flour was offered in New York at \$7 Corn had also fallen 15 to 20 cents a bushel, and the general belief is that Provisions, generally will be sold this fall at reasonable prices. This truly is good news.

Freights to Liverpool were getting slack at New York on the 26th inst.

MELANCHOLY ACCIDENT.—About 5 o'clock on Monday afternoon last, a small sail boat left the Market wharf for Mascareen, with five persons, viz. Miss Jane McVicar Margaret Haghey, Messrs Peter Cameron, John Cameron, and Hector Leland. When about half way across the Bay, on shifting to relieve one another rowing, Leland slipped to one side and upset her, the people succeeded in taking hold of the boat again which however turned over, with them, and we regret to add all but Mr Peter Cameron met a watery grave. Two boats started from Mascareen shore to their assistance, having heard their cries—one of them with Mr Wm. Roy and Alex. McVicar, took off Mr Peter Cameron, in a very exhausted state, and the other picked up the body of Miss McVicar, who we understand makes the third of that family who was drowned, her father and brother having met a similar fate.

Mr. Cameron has now had four narrow escapes from drowning, having in two of these instances been the only person in the boat who could not swim, and the only survivor.

ASSAULT.—We are informed that a person named Steph. Libby, in the Parish of St. Stephen, violently assaulted his wife, with an axe, on Thursday last, cutting her severely. It is said that he was under the influence of alcohol, when he committed the barbarous act. He was immediately arrested and lodged in the County Jail on Friday morning last. We are pleased to learn that Mrs. Libby has been pronounced out of danger.

We regret to learn that a Mill owned by Daniel Gilmore Esq. on a stream above the Upper Falls, St. George, was consumed by fire on the 13th inst. No insurance.

PROVINCIAL LUNATIC ASYLUM.—The Corner Stone of this building, was laid at St. John, on Thursday last with great pomp and ceremony. A full and interesting account of the proceedings is given in the *Courier* of Saturday, occupying four closely printed columns. We have copied from the New Brunswick, a brief notice of the ceremony.

The N. Y. Express of the 26th inst says:—The British brig Seraph, Capt. Mather, now lying at quarantine, has been ordered off, the requisite bonds not having been given for her passengers. The Seraph arrived on the 17th inst., from Cork, with 118 stowage passengers, twelve of whom were sick.

The Masonic Fraternity of St. Stephen
with their Brethren of St. Croix Lodge,
Calais, and the Sons of Temperance of the
various Divisions of this County, and the
Town of Calais, celebrated the 21st, Thurs-
day last, by a procession to Miltown, where
the Rev. Mr. George, delivered an interesting
and instructive lecture on "Masonry." Af-
ter the procession returned to St. Stephen
and partook of a *Dejeuner a la fourchette*,—
in the grove belonging to Freeman H. Todd
Esq. The day being fine a large assemblage
of ladies were present—and enjoyed the re-
past. Addresses were delivered by the Sons
of Temperance belonging to each Division
and the party separated about four o'clock.

The Crops.—We copy the following grati-
fying information from a late New York pa-
per:—"In the Southern States generally,
the wheat crop is better than usual. We
have never known more than 2-3ds of a crop
in Maryland, until now. The accounts from
Virginia are decidedly favorable. In brief
whoever has calculated upon a short wheat
crop, in this country, the present year, will
be disappointed. Of course there are particu-
lar districts of sections where more or less
damage has occurred, but in the aggregate
the crop is fine, and the surface sown unpre-
cedentedly large. The new crop will be re-
ady for market before the old one is out of the
way.

As to Indian corn, the prospect is that there
will be surplus enough to feed all Ireland
throughout the year; but the difficulty will be
in finding means to transport it, in case
it should be wanted.

Nova Scotia.—The last Halifax Royal
Gazette, contains the Lieutenant Governor's
Proclamation, dissolving the House of As-
sembly of Nova Scotia. Writes for calling
a new Assembly have been issued, which
will bear test on the 24th inst., and be re-
turnable on the 31st day of August.

The Polling in each County will take place
on one day, as in this Province.

The Hon. Henry Sherwood, Attorney
General for Upper Canada, was unanimously
