AMERICAN AJIFFIANISM. Nothing can exceed the roffianism and absosolute baseness of some of the South American slave holders. Such are the excesses to which they allow their passions to lead them in the abuse of their slaves, that even freemen when they stand in their way, are not safe

the same intolerant, brutish spirit appears to bave penetrated even into Congress itselfthe highest and most venerable assembly of The land. A Southern bully, a member of the Lower House, a few days since, immed i ately after the adjournment of Congress, entered the Senate Chamber, struck down and going up a span of fine horses, which had

almost murdered one of the most respected and venerable members of the house the hon. Charles Sumner. His offence was in expressing his belief that negroes have souls, and that their souls are worth the saving, and that slavery could not be adapted to the " peculiar wants and institutions of any country or any clime. Mr. Sumner was sitting in an arm chair, when

the assault was made, and had no opportunity to defend himself. He was stunned by the first blow, and fell to the ground senseless, where his dastardly assailant continued beating him. Some witnesses say the old man was

struck fifteen or twenty powerful blows with a heavy cane ; and he now lies in great danger. None of the members present interfered to rescue him, or prevent the bully playing out his game. And we learn from our exchanges warious opinious on the subject are expressed, many applauding it, and some denouncing it as a cowardly attempt to beat down freedom of speech.
