Belgium's Boy Scout Hero.

[Canadian Press.]

Paris Sept. 11.-11:15 a. m.-The hero of Belgium today is the Boy Scout Leysen, who has been decorated by King Albert for his valor and devotion to his country.

This young man, who was born at Liege, is described by the Figaro as of almost uncanny sharpness, with perceptions as keen as a savage He was able to find his way through the woods and pass the sentinels of the enemy with unerring accuracy. Leysen made his way through the German lines from Antwerp for

the tenth time last Sunday, carrying dispatches to secret representatives of the Belgian Government in Brussels. He has discovered and de-

nounced eleven German spies in Belgium, and performed a variety of

other services, and all without impairing his boyish simplicity.

two days and until the last phase of the campaign, on the offensive. Field Marshal French's view that they are becoming exhausted finds ready dence among the military experts here. German official wireless dispatch tonight says that no report has been made public in Berlin of the events in France for the past three days.

From Holland comes news that 60, 000 German reinforcements are marching south. These troops may have an effect upon the tide of battle, but there is reason to believe that the allied armies also are receiving a counter-balancing accession of strength. That the Germans are concentrating all their strength in the eastern field of warfare against the main French front appears to be confirmed by re-

ports which have arrived through Holare said to be men past the prime of the landstrum, while 30,000 or 40,000 naval reserves are marching in to relace the depleted garrisons. Belgians Take Aggressive. An Ostend dispatch says the Belgian

army at Antwerp has taken the aggressive and driven the Germans back to the environs of Louvain. Another ispatch says the Belgians have deeated a German garrison composed of he landstrum at Aerschot, a short disance from Louvain.

The news from the western theatre f war today was most scant. The erman and Austrian reports minimize he importance of the occupation of emberg. A Vienna dispatch says it vas part of a strategic campaign to raw the Russians into Galicia. Petrorad reports claim that Archduke Fredrick's army lost 120,000 men, that the vacuation of Cracow had commenced, nd that the fall of both Cracow and rzemys: was imminent.

The British navy has accomplished daring, but unproductive, attempt to raw the German battle fleet into ction. A great array of squadrons and otillas made a sweep into the North ea for two days, penetrating into the Bight of Heligoland, but failed to discover any German craft.

HOW THIN PEOPLE CAN GET FAT

ncrease in Weight Ten Pounds or More A PHYSICIAN'S ADVICE.

A PHYSICIAN'S ADVICE.

"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of mal-nutrition, a condition which prevents the fatty elements of food from being taken up by the blood/as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

To correct this condition and to produce a healthy, normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strengthsiving, fat-producing elements known by the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood, and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless. Sargol is sold by good druggists everywhere, and every package contains a guarantee of weight increase or money back.

Caution—While Sargol has produced

What is Paris Pate? (Pronounce it Paris Patty)

OST folks already know of the deliciousness and economy of PARIS PATE, but no doubt there are a few still who have to ask-"What is PARIS PATE?"

PARIS PATE is simply a meat paste. (Call it a "Potted Meat," if you like, but it is really quite distinct from the ordinary potted meats.)

It is made of choice, tasty, nutritious meats, skilfully prepared in our huge kitchens at Montreal by clever French Chefs; and the recipe they follow is a famous one that took the first prize in a competition in France between the French chefs there.

Everybody likes PARIS PATE—It is so good, so pure and nutritious. There's nothing to cook—nothing to prepare. Just open the tin and you have, ready-to-eat, the most delicious cooked meat paste you ever tasted.

PARIS PATÉ

PARIS PATE is just the thing for economy during this time. It makes a delicious meal in a moment-at any time-is good for breakfast-lunch or light supper-and, while being tasty and appetizing, it is so economical. (A ten-cent tin of PARIS PATE goes farther than any other food at the price.)

It is handy, too, just open the tin and you have a nutritious meal in a moment. Spread on bread-or use it with sandwiches-or make it a foundation for a combination salad-and it is a delightful convenience.

PARIS PATE is a favorite in every home. It is enjoyed by young and old and by all classes.-Remember, PARIS PATE is a masterpiece of French Cookery; there's the expert service of a French chef in every tin.—There's no meal time when PARIS PATE isn't good. TURKEY CUTS OFF ALL PRIVILEGES OF FOREIGNERS

WASHINGTON, D.C., Sept. 10.—Turkey formally notified the United States and the nations of the world today that she had abrogated the series of conventions, treaties and privileges, originating as early as the eleventh century whereby foreigners in the Ottoman empire have been exempt from local jurisdiction in civil and criminal cases. BALTIC FLEET OF GERMANY MOVING

Squadron Sighted Going Eastward, With One Steaming Toward Finland—Capture Old Steamer.

LONDON, Sept. 11.-3 a.m.-"The German baltic fleet is beginning to move." says the Stockholm correspondent of the Daily Telegraph. "Last Monday a German squadron of 29 vessels was seen between Gotska Sandoen and Kopparstenarne, the former a small island north of Gothland and the latter a port on the northeastern coast of the Island of Gothland.

Tuesday a squadron of 31 large German warships was seen from Hufvudskaer steaming eastward and Monday a squadron consisting of four battleships and three cruisers was sighted southeast of Stockholm steaming northeast.

'Small flotillas have been seen from Kvarkan and nine big battleships were sighted Monday from Strora Bjoern, steaming towards Finland. "Consequent on the movement of the German Baltic fleet traffic between Stockholm and Baumo, Finland, with Finnish steamers will cease. This however, will cause little decrease in traffic, as Swedish boats will be substituted.

"An old Finnish passenger steamer, the Uleaborg, which has usually been employed between Stockholm, Helsingfors and Petrograd, has been captured by the Germans and taken to Danzig.'

ALLIES' ADVANCE PUSHES THE ENEMY **BACK FOR 37 MILES**

British and French Troops Have Crossed the Marne in Pursuit---British Capture Many Prisoners and Machine Guns.

PARIS, Sept. 10 .- 11:16 p.m .- During the four days' battle, says an official communication issued tonight, "the allies have pushed back the Germans 60 kilometres (approximately 37 miles) and taken many prisoners and machine guns.

The following official communication was also issued

tonight: "On the left wing the British and French troops have crossed the Marne between Laferte-Sous-Jouarre, Charly and Chateau Thierry, pursuing the enemy, who is in retreat. During the course of the advance the British forces took a number of prisoners and captured Mitrail-

"Between Chateau Thierry and Vitry-Le-Francois the Prussian Guard has been thrown back.'

"The action continues with great severity in the region between Camp De Mailly and Vitry-Le-Francois. In the centre and on the right wing there is no change in the situation.

"On the Ornain and in the Argonne district the two opposing forces are maintaining their positions. In the region of Nancy the enemy has made slight progress on the Chateau Salins road.

"On the other hand, we have gained ground in the forest of Champenoux.

"The losses have been considerable on both sides, but the morale and health of our troops remain excellent. "There is no confirmation of the news published in the German newspapers of the fall of Maubeuge.

Prepares to Place 1,854,000 in Field — Latest Casualty List Brings Total Loss to Nearly 19,000.

When the Government's plans are completed the British army for the continent and for home service will consist, roughly, of the following:

Regular army, 1,200,000; territorials, 300,000; reserves, 214,000; Indian contingent, 70,000; Canadian first and second contingent, 40,000; Australians, 20,000; and New Zealand, 10,000, making a total of 1,854,000

The tremendous enrollment for a country which normally has only a small professional army has thrown light upon the Government's views regarding the duration of the war, or at least, upon its determination to meet all possibilities.

A casualty list published tonight brings the army's losses to nearly 19,000 men, exclusive of the last three days' fighting. Yet this big toll from the small army seems in nowise to depress the country.

MODEL TEACHERS IN

"Espeth Wilson" Voices a Protest Against Present System

With the opening of the school term after the long midsummer vacation is heard again the protest of those young people holding only a model school certificate, and who, even if fortunate in securing a school keenly feel the insecurity of their position. However gifted in imparting knowledge to the entire satisfaction of those immediately concerned, all must be laid aside at a word from the public school inspector. The "model" teacher may at any time be susperseded by a fully qualified teacher holding a higher certificate, yet one possibly sadly lacking in those natural gifts so essential to successful teaching.

It is urged, since training alone can never produce a successful teacher, that if ratepayers-who really are those most concerned—desire to continue full term with the teacher of their choice, they should be privileged so to do, and thus avoid changes so often detrimental to the progress of the pupil Instead we find even a petition fully signed by ratepayers, set lightly! aside by the P. S. I., who assures us the time is fast approaching when public school boards will be absolete. In this we feel that-the worst is yet to come-with regard to the welfare of rural public schools at least. ELSPETH WILSON.

TODAY'S BEST BASEBALL STORY

Eddie Cicotte is one of the charter members of the Order of Kerchoo, past master of the Hay Fever. Far from permitting a little thing like that to trouble him he makes use of it. He was pitching a game for the Chicago White Sox in Philadelphia, and he perpetrated a frightful balk. The umpire was just lifting his hand to call the balk when Eddle cut loose a kerchoo that started the flags flapping on the stands.

"Balk nothing!" yelled Eddie as he recovered. "I was sneezing!"

A few moments later a runner reached first. Eddle commenced to make faces, distort his features, and, right in the midst of a terrific sneeze he shot the ball to first and nipped the runner.

"JUMPER" BIG HELP TO FED. LEADERS Esmond, who leaped from the major leagues, fearing he would be banished to the "bushes," has become one of the chief factors in lifting the Indianapolis club to the top of the Federal League. His work has been of a sensational order and his timely hitting has helped the Hoofeds to the top of the race.

President Thomas, of the Chicago Cubs, when threatened with prosecution for overcrowding his wooden stands at a New York game, said: "It never shall happen again." He was righter than he thinks.

Manager Who Succeeded Yates, Believes He Can Produce Pennant Winner If Given Another Chance.

Hamilton, Sept. 11 .- Jack White, manager of the Hamilton Canadian League Club, left for his home in Philadelphia this morning. He waited over until today in the hope that the directors would get together and decide whether they required his services next season, but waited in vain. A meeting was called for Tuesday

night, but only four of the directors attended, and for that reason nothing was done. Another meeting has been called for Monday, September 14, and then White's case will be decided on. Before leaving the popular successor to Bob Yates stated that he would like very much to have a chance to get charge of the club before the season opened, for he was confident that he could round up a team that would be up there fighting all the way.

"If I was certain that I would be in charge next year, I could start in immediately to build up a club and then I would have no excuses to make if I fell down," he said. White was quite pleased with the man-

ner in which he was treated while in "I could not have asked for better treatment," he said. "The directors acted like perfect gentlemen toward me. For this reason I want to get back into Hamilton next year, and show my appreciation by trotting out a real ball

Reuter Was Not There. The London club was without the ser-vices of Reuter, its crack goalkeeper, who played such a fine game against Hanover when the teams met in London. Donohue had never played between the nets before, but he gave a good account of himself and stopped a number of shots that

Play was fast and strenuous throughout. The Hanover boys outscored the visitors two to one in the first half and led at half time by the score of 4 to 2. In the last half the play was closer and the Londoners gave a much better account of themselves. Doyle, of the O. A. L. A., refereed. The

Behold, Summer Pastimers, The Last Picture!

Let it be remembered that NO SETS OF ANSWERS WILL BE ACCEPTED BEFORE September 24, 1914, and may be sent in so as to reach our office not later than October 1, 1914.

The fun is only just beginning. We have been informed by many of our readers that they are saving their real efforts for the time when all the pictures are in their possession, which will be by tomorrow. Therefore, the true opportunity awaits you now, even though you may have seen only a few of our pictures in the past season or none at all. Begin today. You have already observed that nobody can get ahead of you because no sets of answers will be accepted until Thursday, September 24, And even then no sets of answers will be considered until October 1, when all competitors have been heard from. You can get all the 75 pictures now by purchasing either the Handbook or the Logbook. Act at once and secure for yourself wholesome and easy recreation, as well as diversion from the all too serious experiences of the war.

Summer Pastime Rebus Picture No. 75

Answer Form No. 75, Advertiser's Summer Pastime

The name of the player represented by the picture is

Name of PARTICIPANT

HANDBOOK .- Competitors in the Summer Pastime have already purchased the Handbook in large quantities, but some few may have been holding out on the assumption that they may be clever enough to solve all the pictures without the assistance of the lists of names which is part of the Handbook. It may be that these persons are right, but we believe that 25 cents represents a fairly good investment when in return can be obtained smoothly arranged material, among which the 75 correct answers are positively guaranteed to be.

The Handbook also contains three sets of coupons or answer forms, ranging from one to twenty-five. For those who are going to try for four prizes, as the rules permit, it is quite obvious that these extra coupons have a value equal to seventy-five additional copies of this

It should also be borne in mind that even in order to win one prize it may be desirable to turn in more than one set of answers. You may not be sure of your judgment on some of the pictures, and, therefore, you may be securing yourself against losing out, by entering two, three or four sets of answers.

The Summer Pastime Handbook costs 25 cents. It can be obtained by calling at our office or by sending us 30 cents, in which case the Handbook will be mailed. A complete set of pictures now go with it.

LOGBOOK.-For the further convenience of those who are playing the game we present the Participant's Logbook, containing three sets of answer forms, numbered from 26 to 75, or 150 in all. These, together with the coupons in the Handbook, constitute three complete sets of coupons from beginning to end.

Furthermore, the Logbook contains a fourth complete set of answer forms, which can be used to replace the original set of answer forms first required to be cut from this newspaper. Thus a competitor who has the Handbook and Logbook may make complete entry in compact, convenient form, making sure that none of his answers will be lost in bundling together, etc., and also making it easy for the judges to go over his or her work.

Finally, THE LOGBOOK CONTAINS POSITIVE AND PLAIN CLUES, WHICH SHOULD GIVE YOU THE ANSWERS TO TWENTY PICTURES IN THE SERIES. The price of the Logbook is 50 cents, and can be

called for at our office, or will be mailed on receipt of

The price of the Handbook and Logbook together at our office, or mailed, is 75 cents.

There is no obligation to buy either of these books. But their worth has been described, and whoever wishes may obtain these books. We wish all our competitors good luck. Be sure to watch for tomorrow's picture, and then continue to read the notices of general interest that we shall print between now and the last day of sending in answers, which will be October 1, 1914.

OUR PRICE REMAINS THE SAME

A LTHOUGH many other tailors have been forced by circumstances to raise the price of their clothes, the Scotland Woolen Mills price remains the same:

We want you to consider, also, the fact that the materials are exactly the same, the quality every bit as good, and in some instances better than when we first started in business, and the workmanship as fine as ever.

WHEN YOU COME TO LONDON FOR THE FAIR

Come in and see the shipment of latest woolens, tweeds and serges which we recently received from our great mills. Then look at the styles we are showing in fall and winter Overcoats and Suits.

You will wonder how we can do it at the price. We couldn't if it were not for the hundreds of satisfied and dressy customers who patronize us.

"On Monday morning, August 24, after chafing at the long delay, the second British cavalry brigade loose at the enemy's guns. The Ninth Lancers went into action singing and shouting like schoolboys. "For a time all seemed well, few saddles were emptied, and the leaders had charged almost within reach of

the enemy's guns, when suddenly the Germans opened a murderous fire from at least twenty concealed machine guns at a range of 150 yards. Result Terrible. "The result was shattering, and the Lancers caught the full force of the Vicomte Vauvineux, a French cavalry officer who rode with the

Devon, was riding by the side of Vauvineux, and had a narow escape, as his horse was shot from under him. Other officers also fell. "While the bulk of the brigade swerved to the right, the others held on and ran full tilt into wire entanglements buried in the grass 30 yards in front of the machine guns, and were made prisoners. Three regiments of the best cavalry in the British army went into the charge and suffered

severely. The Eighteenth Hussars and

the Fourth Dragoons also suffered, but not to the same extent as the others. For Victoria Cross. "A happy feature of the charge was the gallant conduct of Captain Grenthough twice wounded, called for volunteers and saved the guns. It is said that he has been recommended for the Victoria Cross. BRIG. BETTRIDGE

Rousing Reception Accorded Stirring Airs Heard on Streets New Chief at Station by Local Workers.

appeared. Addresses of welcome were made by Sergt.-Major David Andrews, Adjutant Stickells, of Sarnia, and Chancellor

Brigadier Bettridge made a forceful speech in reply. He stated that he and wore its military uniform, and its Mrs. Bettridge appreciated the hearty enthusiastic welcome accorded them, that he would do all in his power to further the work of the army and Conservatory of Music, and was of ex- of God, in this district, and that God's work would surely prosper if were Jas.
