### Dr. J. E. Park To Locate in Newcastle

The many friends of Dr. J. E. Park who left Newcastle as Medical Officer of the 12nd Battalion for overseas, will be pleased to learn that he is expected to return to Canada shortly and will at once take up his residence and practise in Newcastle again. Dr. Park had a remunerative practise in Newcastle and surrounding districts before going overseas, and since leaving here has had valuable experience in his profession in England and France, which no doubt will be highly beneficial to him on his return.

Mrs. Park is at present in town, making the necessary arrangements for a residence and office prior to the Doctor's arrival.

### OBITUARY

**MR. THOMAS JOHNSTON**  
The death of Thos. Johnston occurred at his home in Redbank on Tuesday June 3, 1919. After an illness of more than three months.

The deceased was born at Lyttleton seventy-six years ago, and was the eldest son of the late Robert and Margaret Johnston, who since a young man made his home at Redbank.

He was twice married, his first wife was a Miss Edgar of York Co. and by her leaves the following family, Mrs. Alf Sinclair and Mrs. D. Mulhlin of Whiteville, Mrs. E. J. Matchett, Sunny Corner; Mrs. James Parks, Redbank; Mrs. Richard Goddard, Langley B. C., and Robert A. of Red Bank.

His second wife died two years ago, he leaves the following: Mrs. R. H. Blackmore, Davidson, Sask.; Mrs. N. J. Craig, Sask.; Frank and Edward of B. C.; Mrs. R. Matchett, Sunny Corner; Mrs. Elmas Russell, Nordin; Mrs. Calvin Horn-Brook's, Vancouver, B. C.; Walter in Belgium; John Davidson, Sask.; Charlie at home.

The deceased in his early years carried on quite a lumber business but of late run a small store at Redbank.

The funeral which was largely attended showing the esteem in which he was held, was conducted by the Rev. Mr. Matthews of Millerton. The hymns sung were Safe in the arms of Jesus and Jesus Lover of My Soul.

The flowers were beautiful.

Wreath—Family.

Wreath—Mr. and Mrs. Alf Sinclair and family.

Flat Bouquet—Miss Jessie Sinclair, Whiteville.

The pallbearers were James Gillis, James Powers, Perley Tozer, Wilbur Hubbard, Clifford Burns and William Nowlan.

**MRS. PETER MUZZERALL**  
The death occurred on Tuesday, June 24th in the Miramichi Hospital of Mrs. Peter Muzzerall of Chatham Head. Deceased had been removed to the hospital on Monday evening. She was 34 years of age and is survived by her husband and three children. The funeral took place yesterday afternoon, Rev. Father Power conducted the services and interment was in St. Patrick's Cemetery, Nelson.

**MISS MARY TROY**  
Miss Mary Troy of Douglstown passed away Thursday afternoon at the Hotel Dieu, Chatham, after a short illness. She is survived by three brothers John, Postmaster of Douglstown with whom she lived, William of Chatham and James M., Postmaster of Newcastle. Interment took place Saturday morning in Douglstown.

### What's To Be Done With Von Reuter?

London, June 25—Reuter's learns that the authorities are communicating with Paris regarding action to be taken against Admiral von Reuter's man fleet, is interned. It is confirmed that the Admiralty has learned that the scuttling of the fleet was entirely the work of the German admiral, and was not carried out as a result of instructions from Berlin.

### Destructive Fire Tuesday Morning

Fire broke out at 2.30 Tuesday morning in the woodshed owned by Mr. Alex Fitzgerald, Pleasant Street. The fire spread quickly to Dr. D. R. Moore's garage which was only a few feet distant and this was soon a mass of flames. In the garage was stored Dr. D. R. Moore's automobile and a tank of gasoline. It was impossible on account of the excessive heat to take the auto out and it was totally destroyed. The tank of gasoline exploded and this further aided the flames to spread. Dr. Moore's residence which was in front of the garage caught around the eaves and windows and was badly damaged. Had the residence not been of concrete structure it too would have been destroyed. Mr. Fitzgerald's residence was badly burned and gutted with water. At the time of the fire Mr. Fitzgerald and a young boy were in bed and were fortunate in escaping from the burning building with what clothing they could secure. Mr. Fitzgerald lost all his furniture, and the public assisted Dr. Moore to carry his furniture out of his residence, which however was saved. The weather was perfectly calm, and greatly assisted the firemen in extinguishing the fire before more damage was caused. Mr. Fitzgerald carried \$1000.00 insurance on the building and \$2000.00 on the furniture.

### WOMEN BAPTIZED BY FIRE

The saviour of France, as all the world knows, was a woman. A bit of a girl in armour much too large and much too heavy for her slender frame, led the motley hosts of France to battle for King and country. She is more famous than all the warriors of ancient Rome, greater than von Hindenburg—true countrywoman of Marshal Foch—JOAN OF ARC. So did one woman serve her land in time of war.

Again, during the War of the Crimea, a woman's name stood out as a milestone in the history of the war. She was FLORENCE NIGHTINGALE. Not at the head of armies did she serve, but at the bedside of wounded soldiers. She was the ministering angel of mercy, the first Red Cross nurse in history.

During our own war of Independence, there was a woman whom history has not forgotten.

BETSY ROSS served her country, not at the head of armies, nor at the bedside of wounded soldiers. She served with a woman's home weapons—her needle and thread, and stripes of red, white and blue cloth. For Betsy Ross will be remembered as the maker of the first American flag.

In the present war, women are serving more than before. In the munitions plants, in the hospitals—everywhere is the capable and gentle hand of woman. History has not yet discovered the Joan of Arc of the Great War, nor the Florence Nightingale. But history has discovered a Joan of Arc of the Great War, and the Florence Nightingale. But history has discovered a new kind of woman heroine—EDITH CAVELL. She is the woman, who, like Nathan Hale, met her death at the hands of the enemy. The Germans said she was a spy.

There are countless women in this war who are that kind of "spy." They are not serving their country at the head of armies, nor as Red Cross nurses. They are women who are laboring in the Secret Service department of the Allied governments, ferreting out German plots and foiling German intrigue. Like the name of Edith Cavell, their names will be discovered by the historians.

Such a woman of the Secret Service is VANDA DEERING. She helped the cause of the Allies by trailing German secret agents who were working to undermine America's morale. It lay within her power to determine whether ten thousand brave American soldiers should be permitted to perish on the high seas. German U-boats were lying in wait for them, ready to torpedo their transports. What did Vanda Deering do?

The history of Vanda Deering is faithfully recorded in "I Want to Forget," the new William Fox photoplay starring Evelyn Nesbit. It is now playing at the Happy Hour Thursday.

### Miramichi Hospital 1918-19 Report

Number of patients in the hospital, April 30th, 1918, 7; April 30th, 1919, 6.

Number of patients admitted from April 30th, 1918, to April 30th, 1919: Males, 93; females, 150; total, 243; 27 infants born.

### Newcastle T. I. L. Holds Meeting

Newcastle Town Improvement League met in special session Friday night, members present: Rev. L. H. MacLean, Rev. F. T. Bertram, Secretary H. H. Stuart, Treasurer F. E. Locke, John H. Ashford and J. Robinson Allison. Rev. L. H. MacLean presided.

The Secretary noted that the Newcastle Board of Assessors had this year, fallen in line with League's idea of a legal assessment and had produced an assessment much the best the town had known for years. The Board should be congratulated on the step they had taken.

The Secretary suggested that the League, having a platform similar to that of the Social Service Council, merge itself with the latter.

On motion of J. H. Ashford and Rev. F. T. Bertram, it was resolved, That the T. I. L. be merged with the Social Service Council and that its net balance be added to the Social Service funds.

The Social Service Council for Newcastle and Nelson then met, Rev. L. H. MacLean presiding. Present—the six T. I. L. members, and the following: Rev. Alex Firth, Douglstown; Miss Isabella Falconer, H. D. Atkinson, Mrs. J. A. Follansbee, and R. A. N. Jarvis.

Letters were read from W. S. Lorgie, M. P.; Sir Thomas White and D. D. MacKenzie re Temperance resolutions.

Rev. L. H. MacLean reported that enough Aldermen had promised to oppose the repeal of the by-law re Dancing to prevent it being repealed so the agitation for amendment had been dropped.

The matter, late hours for children at the Opera House was left with the Secretary to arrange with the management.

The appointment of James McDonald as Prohibition Inspector was strongly protested against, and Chief Inspector Wilson was asked to come and speak with the Social Service Council and investigate conditions here.

The enormous consumption of Lemon Extract, etc., in town was discussed. It was stated that the caretaker of the Park had picked up 66 empty lemon extract bottles last Saturday in the Park.

H. H. Stuart urged the repeal of all special wartime censorship relating to the circulation of political or religious opinions. The special orders in Council could be interpreted to forbid even the circulation of certain reports adopted at the last meeting of the Methodist General Conference of Canada.

Rev. Mr. MacLean said that the ideal of co-operation and brotherhood would be realized. There was a golden mean between the views of extremists.

Adjourned.

### PROHIBITION INSPECTOR DISMISSED.

The T. I. League at their last meeting voiced their disapproval of the appointment of James McDonald as Prohibition Inspector and as a result it is learned that he has been dismissed.

Garden expense	107.80

### Don't Bother with "Special Pastry Flour"

You can get the same flaky lightness in your Pie Crusts, Tarts and Cookies, with

# BEAVER FLOUR

as you can with any pastry flour.

Beaver Flour is milled of the famous Ontario fall wheat, strengthened with western spring wheat.

And more than that—Beaver Flour makes a loaf of bread that is a joy to eat—soft, fine, even texture and a delicious "springy" milky flavor, unknown to those who will use the rough, tasteless, western spring wheat flour.

Make the change today—order a barrel of Beaver Flour at your grocer's and have really delicious Bread and Pastry.

### New Canadian Pacific Director

Captain the Hon. W. J. Shaughnessy (On left) taking the bad air trench dug-out with a captured machine made for the purpose.

At a meeting of the Board of Directors of the Canadian Pacific Railway held on June 18th, Captain the Hon. William J. Shaughnessy was elected a director of the company to fill a vacancy caused by the resignation of the Hon. James Dunsmuir, of Victoria, B.C.

Captain Shaughnessy is the son of the Right Hon. Lord Shaughnessy, who was for thirteen years the president of the Canadian Pacific Railway and is now the Chairman of the Board. Educated at Loyal University, Montreal, and Cambridge, England, Capt. Shaughnessy is a prominent Montreal lawyer. During the war he served in the Canadian Overseas, leaving Canada as Captain and Adjutant of the 139th Irish Regiment, recruited in Montreal, and was in charge of the arrangements for the battalion's notable tour of Ireland.

On the breaking up of the Irish Regiment, he was sent to France as aide-de-camp to Brigadier-General Slerna, the Canadian representative at the 1917th General Headquarters. After receiving with considerable distinction in this capacity for some time, Captain Shaughnessy was transferred to the headquarters of the Canadian Corps, acting as aide-de-camp to Lieutenant-General Sir Arthur Currie, the corps commander.

## A CRIPPLE FOR THREE YEARS

Held in Bed With Rheumatism Until He Took "FRUIT-A-TIVES"

MR. ALEXANDER MUNRO

R.R. No. 1, Lorne, Ont.

"For over three years, I was confined to bed with Rheumatism. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit.

Finally, I decided to try "Fruit-a-tives". Before I had used half a box, I noticed an improvement; the pain was not so severe, and the swelling started to go down.

I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place."

ALEXANDER MUNRO.

## When to Cut Alfalfa For Hay

(Experimental Farm Note.)

The yielding capacity of alfalfa depends on quite a number of factors, one of them being the time when the crop is harvested. The time of harvesting, indeed, affects the yielding capacity per acre of alfalfa more than it affects other hay crops for reasons which will be explained briefly.

It is unfortunately a rather common practice among farmers to delay the cutting of hay crops too long, under the mistaken idea that by waiting a little after the crop has reached its best stage from a quality standpoint, larger and consequently more remunerative crops may be realized. This practice, however, works out rather the other way in alfalfa.

It is generally held that most satisfactory returns, both from the standpoint of tonnage per acre and from the standpoint of the hay quality, are obtained if the alfalfa is cut when, as it is generally expressed, it is "one-tenth in bloom." This expression really means that it is time to cut alfalfa just after it has started to come in general bloom. The blossoming is, in fact, on the whole a rather good indication of the proper time to cut alfalfa; but it is not always so, for in certain seasons especially if wet and cool weather prevails in the early part of the summer, the blossoming period may be considerably delayed beyond the best time for cutting the alfalfa; but it is not always so, for in alfalfa fields in "one-tenth in bloom" and, in case of doubt on that question, the alfalfa grower may easily be tempted to wait a little too long.

A far safer indication of the best time to cut hay is given by the coming on of the second growth from the crown of the roots. The second growth generally begins to shoot just when the plant begins to blossom, but sometimes a little earlier. As the second growth is the one on which the size of the season's second crop of alfalfa depends, it follows that the first hay crop of the season should be taken off before the second growth has reached such a development that there is any risk of it being cut off with the first crop. And this might easily happen, if the cutting of the first crop is delayed too much, the result of course being that the return

## Every Buyer of ROOFING Should Know This

*The Roof Should Be Artistic*

The roof can make or mar the whole appearance of your home. The soft slate shades of Red and Green in a roof of DURO 4 in 1 Asphalt Shingles make as handsome a roof as you can choose.

*The Roof Must Protect*

DURO 4 in 1 Asphalt Shingles are fire-resisting; will not split, crack, or warp; are unaffected by fumes and gases; they insulate against heat and cold, and they offer full protection against the weather.

*The Roof Should Offer True Economy*

It costs less, both in first outlay, and reckoning by years of service, to roof with DURO 4 in 1 Asphalt Shingles. The cost of laying is less, freight is less, fire insurance is at the minimum rate, and there is no expense of "upkeep."

**DURO 4 in 1 Asphalt Shingles**

Size 10 inches x 32 3/4 inches, with a covering capacity of eight wooden shingles. Asphalt-saturated felt base, coated with refined Asphaltum, into which is imbedded crushed slate, Red or Green. ## COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco. Take a small pinch, for a snuff, and put it between the lower lip and gum, in the corner. Afterwards you can increase the size of the pinch to suit the strength of the chew you desire.

Copenhagen is strong because the tobacco of which it is made is sun-dried, and this makes it impart its strength thoroughly and quickly.

From a little pinch goes a long way, showing that Copenhagen is not only an unusually economical chew, but also one of the finest quality, being made of the best and most carefully selected tobacco.

A GENEROUS GIFT.

In establishing five scholarships for New Brunswick Lord Beaverbrook has given additional evidence of his continued personal interest in his native province. He has in this gift suggested to those who will administer the fund certain conditions which will make those prizes available to students whose families may not be sufficiently well off to provide for them the higher education which they desire, and yet there is nothing in the terms of the gift to prevent brilliant scholars from participating in the advantages to be derived from such scholarships. This is a matter which will undoubtedly be left more or less to the decision of the trustees and in his selection of those who will administer the funds during the experimental period Lord Beaverbrook has acted with discretion.

O. B. U.

Make no mistake, the labor troubles with which this country is now deluged is not a matter of economics. It is not for wages these men are striking, nor is it for hours. In the last analysis it is strike for power. It is war for a dictatorship, and that dictator will be labor, if the strikers have their way. The term collective bargaining has now lost its old definition, which was that a craft collectively, such, for instance, as the Typography Union, would bargain with employers as to wages hours and the like. Collective bargaining, as now interpreted, really means that it is some Typographical Union would not be master of its own affairs, but would merely form a cog in a great labor machine. In other words, it is just another name for the One Big Union, and this in turn means in its full significance that the country would be under the heel of a labor czar.

In these circumstances, it is but natural that responsible labor leaders should roundly condemn this movement. Under this delightful scheme of "collective bargaining" no trade could be master of its own affairs, nor could any employer be master of his own industry, even to the remotest degree. Under the One Big Union idea, it is quite conceivable that a meat cutter in a Calgary slaughterhouse, as supreme head of the O. B. U., would be dictating the policy of the Pommon Iron and Steel Company, or that a Nova Scotia coal miner might be telling a British Columbia shipbuilding company how to operate its business.

Under the circumstances, the peril to Canada's industrial life is very real. Present conditions make it impossible for industry to force ahead. Men who a fortnight ago made a solemn compact as to

It Took Years To Learn

That in Dr. Chase's Ointment There is Positive Cure for Piles or Hemorrhoids.

Reports come to us almost daily from persons who have suffered 10, 20, 30 years or more from piles or hemorrhoids before finding out that Dr. Chase's Ointment affords immediate relief and ultimate cure for this annoying and distressing ailment.

This is not a trouble about which people care to speak, but if you tell your friends about Dr. Chase's Ointment you will be surprised to hear how many have been cured of piles by its use. It is the one treatment for piles on which you can depend absolutely for prompt relief.

Mr. B. F. Tracy, Minnetonka, Ont., writes: "For about thirty-five years I was troubled with itching piles, which kept me from sleep until I was completely worn out. Then at length I would drop off to sleep and rub myself raw. I tried every kind of ointment made without any permanent good. I also tried a homeopathic doctor, but only had momentary relief from his treatment. Three years ago I tried Dr. Chase's Ointment, and about half a box completely cured me. I have never been troubled with piles since, and can heartily recommend Dr. Chase's Ointment to anyone suffering from this terrible agony or from any other skin disease."

"This is to certify that the above statement is correct in every particular."—Rev. H. Berry, pastor (Methodist Church.)

Mr. H. B. MacDonald, Walkerton, Ont., writes: "Having suffered from piles for some time, I finally tried Dr. Chase's Ointment, which afforded almost instant relief, and in time, cure. I have great faith in Dr. Chase's Ointment, and think it superior to any ointment on the market. I would advise anyone suffering from piles to give it a trial."

Many continue to suffer from piles, in the belief that a surgical operation is the only cure. Fortunately, Dr. Chase's Ointment is available, and has saved many thousands from the risk and expense of the doctor's knife, 50 cents a box, all dealers, or by mail postpaid from Edmanson, Bates & Co., Limited, Toronto.

Young Canadian To Die In Chair

New York, June 24.—"Gordon Fawcett Hamby," self-confessed slayer of two employees of the East Brooklyn Savings Bank, was this afternoon found guilty of murder in the first degree by a jury in the Supreme Court Brooklyn. When called to the bar he said his real name was Jay B. Allen, that he was a Canadian 26 years old, and had attended college.

In giving his record, he said he was born in Alberta, Canada; had no parents living and no religion; that he had been convicted of murder previously in Washington, that he had "no specific occupation" and that he had a college education.

Death by electrocution is the arbitrary penalty for first degree murder in New York State.

The jury was out less than one hour. Immediately after the verdict Hamby was remanded to jail for sentence next Thursday.

Extraordinary precautions have been taken by the jail officials to prevent the convicted man from escaping. On several occasions he has openly declared he would rather be shot by his guards while escaping than suffer the disgrace of being electrocuted.

Hamby during the trial offered defence in his own behalf. He even went so far as to request his lawyer not to cross-examine witnesses, object to questions, nor make any summing-up speech, and his wishes were obeyed.

Town of Chatham Vs. H. A. Frank

The case which the Town of Chatham had instituted against the Guarantee Co. and H. A. Frank the contractor to whom was awarded the new dam at Morrison's Brook, and whose work was so inferior that the town claimed \$12,000 damages, was settled out of court yesterday and the case did not come up. The town took \$6000 and called the case off.

Mr. Frank was represented by M. G. Tweed of St. John, and A. J. Gregory of Fredericton and the Town of Chatham by Hon. J. P. M. Baxter, K. C. of St. John, and Hon. Robert Murray, K. C. and Geo. M. McDade of Chatham. In the morning a proposition came from the defendant's counsel to settle for \$3900, but Mr. Baxter told them that the Town Council would not bother coming together to consider such an offer. The plaintiff was ready with an array of witnesses that would have made the case a cinch for conviction, but when an offer came to settle for \$5000, the aldermen got together and finally made a counter proposition to settle for \$6000.

This was agreed to by the defendant and the matter was settled. Large costs are thus obviated and considering the chances that all law suits run the town has come out of the matter very well. Mr. Frank paid to Mr. Murray \$4600 in cash and he foregoes a balance of \$1400 on the contract held back by the town. Each party to the suit pays its own cost.

wages and hours, are to-day on strike. Other groups which contracted to abide by the decisions of an arbitration committee now refuse to accept the awards. Manufacturers who, under normal conditions, would be out eager for orders, now hesitate to accept any even when tendered them, for they know not from day to day whether their men will be working or walking the streets in a "sympathetic strike."

Within the past few days the Federal Government has "firmed" considerably its attitude toward this sympathetic strike. Government employees who have gone Bolshevik, are told that back to work they go or leave the service for all time, which is the right attitude, and one which should have been taken from the first day of their walkout at Winnipeg. Senator Robertson, Minister of Labor, who has been keeping a close eye on the Winnipeg situation, makes the statement that these troubles are primarily of political significance, and have, as a matter of fact little or nothing to do with labor conditions. In reality it is, as developed in the West, a Bolshevik movement, pure and simple. Such being the case, it must be fought out to the bitter end. The Canadian people, as a whole, have no intention of allowing any one class to dictate to all other classes. We have humored and coddled it radicals over long as it is. It is not work that these fellows want, but anarchy. In reality, they want to get out and kill someone, but so far they have not dared to.

Mr. H. B. MacDonald, Walkerton, Ont., writes: "Having suffered from piles for some time, I finally tried Dr. Chase's Ointment, which afforded almost instant relief, and in time, cure. I have great faith in Dr. Chase's Ointment, and think it superior to any ointment on the market. I would advise anyone suffering from piles to give it a trial."

Many continue to suffer from piles, in the belief that a surgical operation is the only cure. Fortunately, Dr. Chase's Ointment is available, and has saved many thousands from the risk and expense of the doctor's knife, 50 cents a box, all dealers, or by mail postpaid from Edmanson, Bates & Co., Limited, Toronto.

HOW THIS NERVOUS WOMAN GOT WELL

Told by Herself. Her Sincerity Should Convince Others.

Christopher, Ill.—"For four years I suffered from irregularities, weakness, nervousness, and was in a run down condition. Two of our best doctors failed to do me any good. I heard so much about what Lydia E. Pinkham's Vegetable Compound had done for others, I tried it and was cured. I am no longer nervous, am regular, and in excellent health. I believe the Compound will cure any female trouble."—Mrs. ALICE HILLER, Christopher, Ill.

Nervousness is often a symptom of weakness or some functional derangement, which may be overcome by this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, as thousands of women have found by experience. If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for suggestions in regard to your ailment. The result of its long experience is at your service.

THE EX-RAISER PLANS RETURNING TO GERMANY

Berlin, June 26.—(By the Associated Press)—Former Emperor William is planning to speedily return to Germany before the Entente can demand his surrender from Holland, according to a Stuttgart despatch to the Neue Berliner Zeitung. The despatch states that the Dutch Government thoroughly approves of his return as the former Emperor is an unwelcome guest and his presence in Holland is increasing the problem before that country.

Tired People Are Debilitated

Full Health and Strength Can Only be Regained by Enriching the blood

People who are tired all the time and never feel rested, even after a long night in bed, people who cannot regain weight and strength, who feel no joy in living are in a condition described by doctors as general debility. A medical examination might show that every organ in the body is acting normally, but the pallor of the face will usually show that the blood is weak and watery. This is the root of the trouble.

Debility is a loss of vitality, not affecting any one part of the body but the system generally. The blood goes to every part of the body and the use of a blood tonic like Dr. Williams' Pink Pills quickly tones up the whole system. The first sign of returning health is a better appetite, an improved digestion, a quicker step and better color in the cheeks. The rich, red blood, reaching every organ and muscle, carries new health and vigor. The nerves are quieted, sleep becomes more refreshing and with persistent treatment and a good diet the patient is once more enabled to enjoy life. The case of Mr. W. Dostater, R. R. No. 4, Tilsonburg, Ont., illustrates the great value of Dr. Williams' Pink Pills in cases of this kind. Mr. Dostater says:—"I was troubled with pains throughout my whole body, was extremely nervous, did not sleep at night, and was further afflicted with rheumatism. In spite of different treatment this condition persisted, indeed I was growing worse, and had fallen away in weight to 130 pounds and was scarcely able to do any work. Then I began taking Dr. Williams' Pink Pills, and after a few weeks there was a noticeable improvement in my condition. I continued taking the pills, constantly gaining until I felt as well as ever I did. While taking the pills my weight increased to 170 pounds, and I can now do as good a day's work as anyone. My advice if you are not feeling well is to take Dr. Williams' Pink Pills and they will soon put you right."

At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### WEDDINGS

#### CREAGHAN-BUCKLEY

A wedding of great interest to many residents of the Miramichi was performed Wednesday morning at ten o'clock in the chapel of St. Mary's convent, with Nuptial Mass, the Rev. P. W. Dixon, uniting in marriage, Miss Reta Buckley, eldest daughter of Mr. D. J. Buckley, to Donald S. Creaghan, of the firm of the J. D. Creaghan Co. Ltd., and eldest son of Mr and Mrs. J. D. Creaghan.

The bride, who looked most charming, was given in marriage by her father, and wore a gown of white georgette, with pearl trimmings, over silver cloth, veil and orange blossoms. She carried a bouquet of roses and maiden hair fern, and entered the chapel accompanied by the strains of Mendelssohn's wedding march.

The bridesmaid, Miss Yvonne Buckley, wore pale blue tulle and white picture hat and carried pink carnations and sweet peas.

The groom was supported by his brother J. A. Creaghan.

Little Priscilla and Rosemary Hazen, nieces of the groom, acted as flower girls and looked very dainty in white with Juliette caps carrying baskets of flowers.

During the mass a delightful program of music was carried out, consisting of three pianos and two violins. Miss May Morrison sang "O Salutaris" and D. A. Jackson rendered the "Ave Marie". The chapel was beautifully decorated with cut flowers and potted plants.

After the ceremony which was witnessed by the relatives of the contracting parties and interested friends, the happy couple drove to the home of the bride, amid showers of confetti, where a wedding breakfast was served to the relatives of the bride and groom. The house was tastefully decorated for the occasion.

Among the relatives present was the grandmother of the bride, Mrs. Donald Buckley, of Moncton who is eighty-six years of age.

The bride received many valuable gifts, among which was a substantial cheque from her father.

The groom's gift to the bride was a platinum brooch set with diamonds, and to the bridesmaid a platinum ring set with onyx and diamond.

In the afternoon Mr. and Mrs. Creaghan accompanied by a party of friends, motored to Bathurst, where they boarded the Ocean Limited for a honeymoon trip to Montreal and other Upper Canadian cities. The bride's going-away dress was a tailored suit of blue and she wore a blue and sand georgette hat.

The young couple have the best wishes of hosts of friends for a very happy future.

Music

The Bridal March from Lohengrin, was played by Miss A. Morris, accompanied by violins Mrs. E. J. Morris and Mr. E. LeBlanc.

Soloists—Miss M. Morrison O. Salutaris; Mr. D. A. Jackson Ave Marie; Mr. Chas. Morris Mystical.

As the Bridal party left the Chapel "Tannhauser's" Wedding March was played.

**CROCKER-WINTER**

Miss Hazel, daughter of Mr. and Mrs. Hubert G. Winter, of Fredericton and George Crocker of the department of soldiers' civil establishment, were married Thursday evening at the Methodist church, Fredericton by Rev. G. M. Young. The bride recently has been a member of the staff of the vocational school of the N. B. Military Hospital and formerly supervisor of the Women's Institutes for New Brunswick. The groom is a son of Mr. and Mrs. Christopher Crocker, of Millerton. He served overseas, being inval-

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the callus, without soreness or irritation. Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful!

**France To Demand Reparation**

Paris June 24—(By The A. P.)—France has decided to require complete reparation from Germany for the sinking of German war ships at Scapa Flow. This announcement was made by M. Leygues, minister of marine, to the naval committee of the Chamber of Deputies this afternoon. He declared that the act of the Germans violated both the armistice and peace treaty.

Viscount Gustave de Kerzesquo member of the naval committee of the Chamber of Deputies, told the budget committee of the Chamber, yesterday, that he had warned the French Ministry of Marine previously that the German fleet interned in Scapa Flow was not being watched with sufficient care.

The budget committee then decided to ask Premier Clemenceau for further information on the sinking of the ships, and what steps the government proposed to make to have the loss made good.

Newspaper comment, in some cases shows much bitterness over the acts of those whom the Figaro calls "a perjured race with no respect for their pledged word."

**Parliament Is To Adjourn For Summer July 5**

Ottawa, June 24—Parliament is to adjourn for the summer on July 5 providing present plans do not miscarry. It is understood that this date has been decided upon by the cabinet, and that, in an effort to conclude by that time one or two important measures, including the aid to highways measure, the franchise act, and civil service reclassification shall have to be laid over until the promised autumn session.

It is understood that in regard to civil service reclassification the whole question will be referred to a select committee of the House of Commons for special consideration and a report made when parliament meets in the fall.

**Presbytery of Miramichi**

At the regular quarterly meeting of the Presbytery of Miramichi held at Charlot on Tuesday, there were present from the Miramichi district Revs. J. H. A. Anderson, L. H. MacLean, W. McN. Matthews, George Grant, F. W. Thompson, Alex. Firth, George Fennie and J. M. Fraser.

The Presbytery appointed standing committees for the ensuing year and arrangements were made for dispensing communion during the summer season at each of the mission stations within the bounds. Communion to the General Assembly, which met recently at Hamilton, Ont. reported dutiful service.

The question was reviewed of the work of that body. The minimum salary of ministers had been increased from \$1200 to \$1500 and a raise and agreed missionaries will henceforth be paid at the rate of \$1350 a year. A good deal of the time of the Assembly had been taken up with a discussion on the wisdom of the term office of the Eldership of the Church being limited to five years. The question was, on motion, sent down to Presbyteries and will come up for final discussion next year.

**DOAKTOWN**

Doaktown June 25—The saw mill owned and operated here by L. B. Ames, was totally destroyed by fire last evening between seven and eight o'clock.

The origin of the fire is so far an unsolved mystery as the flames broke out suddenly shortly after the crew had quiet work and gone to their homes. The whole mill was destroyed, but sawn lumber, which was piled nearby, was saved. The loss will probably be about \$4,000, and only about \$1,500 is covered by insurance.

The highway bridge across the Miramichi, near the mill, caught fire, but was saved from destruction.

**LEMONS WHITEN AND BEAUTIFY THE SKIN**

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white, at any drug store and two lemons from the grocery and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvellous to smoothen rough, red hands.

**From Fighting to Farming**

(1) A Soldier and His Family on a C. P. R. Colony Farm. (2) A Soldier Seeding the Soil. (3) A Typical Colony Farmstead.

Not many months ago two men were in the same situation in France—the one an officer, the other a private. They both were in at the end and in the last material since the armistice was signed have come back to Western Canada, received their discharge from the army, and are now occupying comfortable farms in one of the farm colonies prepared for returned soldiers by the Canadian Pacific Railway in Southern Alberta.

Here in these colonies are soldiers of all ranks, a number of whom were in the firing line up to the signing of the armistice. What surprises one most is that so many of them have so soon got back to practical work again and the Canadian Pacific Railway is to be congratulated on having had the foresight to adopt a practical scheme which has made it possible for a large number of men to begin farming on their own account to so short a space of time after their release from military duties. But this company has a reputation for making it easy for the right kind of men to get a start at farming, and its soldiers' settlement scheme is only an elaboration of its original "Ready Made Farm" and settlement plans, by means of which many of Western Canada's most prosperous farmers were enabled to

begin farming in a new country under most favourable circumstances and which has contributed in no small measure to their present success.

The soldier settler in these farm colonies has an unusual opportunity to make good. He finds on the farm a comfortable home ready for him to move into with his family and effects. There is a good barn for his horses and cows, his water supply is provided for, his farm is fenced, and he has forty acres of land broken and ready for crop which will bring him a revenue during his first season. For this farm he is not required to pay anything for three years; time enough to give a man an opportunity to bring his farm to a fine state of development and with average luck to have acquired a fair sized bank account as well.

Moreover, if he is unable to purchase live stock, farm implements and seed, he is provided with a team of horses and harness, two cows, a few chickens, poultry, some necessary implements and small tools and seed for his forty acres, for which payment is to be made under an agreement entered into for the purpose.

Some of the larger implements are available for use by the colonists in common, a set being allotted to

every three farms and use by them in turn under the direction of the colony superintendent. A fixed charge per day is made for the use of these implements.

The colony superintendent is an expert agriculturist and it is his duty to assist the colonists with advice as to the best manner of conducting their farming operations. His headquarters is the central control farm, a farm somewhat larger than the rest of the farms in the colony, which is used largely for demonstration purposes, and among other functions, serves as a supply depot for many live stock. The central control farm is situated at a point most conveniently reached by all the settlers in the colony and will no doubt become their chief meeting place.

A more enthusiastic community of farmers will be hard to find anywhere than those in process of formation in these veterans' colonies in Alberta. To see the men at work, for themselves, on their own farms, after what they have gone through is an inspiring sight. The spirit of mutual help and co-operation that is everywhere evident, speaks well for the success of the venture. These farm colonies are sure to become centers of considerable agricultural activity.

**ALFALFA AND PROSPERITY**

If there is one crop more than another on which the prosperity of a country may be firmly established it is alfalfa—the king of fodder crops. This wonderful crop has been the foundation of successful irrigation agriculture in the United States, and history is now repeating itself in Canada. In Southern Alberta already an important alfalfa growing district—government reports show that there were 30,500 acres in this crop this year—farmers are using more and more of their irrigated lands every year for the growing of this valuable fodder, and it is only a question of time when the irrigated lands of Southern Alberta will rank among the largest alfalfa producing areas of the North American continent.

The country is still young. Thousands of acres of irrigable land have not been touched by the plow. Thousands more have been broken during the last two seasons and are not yet ready for the crop, as it does not do well until the soil has been thoroughly integrated—a process which is best accomplished by the growing of one or two other crops before hand. Then, too, during the last two years the most urgent call has been for wheat.

For the growth of alfalfa, Southern Alberta is extremely well suited. Alfalfa requires abundant sunshine and a warm summer temperature, and the summer months, the days are much longer than they are farther south, and the sun shines almost continuously. Alfalfa does best on rich,

deep, well-drained soil. These are special characteristics of the soil in Southern Alberta. Alfalfa thrives best under irrigation, in arid and semi-arid climates. The climate of Southern Alberta may be said to be semi-arid, and under irrigation alfalfa grows there to its highest perfection.

In the Lethbridge irrigation district, which is the oldest of the irrigated areas of Southern Alberta, alfalfa is beginning to be looked upon as the mainstay of the farmer. Yielding from three to four tons to the acre, and in some cases even more, in two cuttings, and selling at from \$25 to \$30 a ton, alfalfa has brought farmers returns of \$100 an acre and upwards in one season. It is no wonder that a visitor driving through this country recently and seeing the beautiful green alfalfa fields on every hand would pronounce it one of the most prosperous districts in the whole of Western Canada.

But besides these very satisfactory returns from the sale of the hay, alfalfa is of inestimable value on account of the improved condition in which it leaves the soil in which it has been grown. Endless yields of other crops have been obtained on land previously growing alfalfa. In 1918, which was by no means an extraordinary crop year, 257 bushels of potatoes to the acre were raised at Lethbridge on land which had been in alfalfa the previous year. Wheat on similar land yielded on successive years 58 and 59 bushels to the acre, compared with 49 and 50 bushels to the acre.

These are some of the reasons why alfalfa were planted to tomatoes for a few years, produced 35,000 pounds of ripe fruit in less than two months after being set out.

And this is not all that can be done with these irrigated lands. To obtain the fullest revenue would require that no roughage be sent from the farms as such, but only in the form of butter, cheese, beef, mutton and pork. The plant food contained in alfalfa hay is often worth more than the money actually received for the hay itself, high though this is. If only unmanufactured products were sent away this valuable plant food would be left on the farm, giving it every year increasing fertility. It is held that for every acre of irrigable land at least one head of cattle, or a proportionate number of hogs or sheep, can be supported all the year round. This fact is beginning to be appreciated, and it means that many times the number of livestock at present kept can be maintained on these irrigable lands. And as the number of live stock increases, the prosperity of the country will grow correspondingly. These are already signs that the time is not far distant when the irrigable areas of Southern Alberta will become the home of the most closely settled and most prosperous mixed farming and stock raising communities in the Canadian West, and, indeed, one of the most prosperous communities on the whole of the continent.

Weekly Agricultural Report

June 24th, 1919

Weekly Report Agricultural Conditions in New Brunswick, as reported by District Representative of Dept. of Agriculture.

Rain is badly needed in all sections of the Province. This is especially true in districts where the soil is light and sandy. Crops are suffering very badly by reason of lack of moisture on sandy land.

The Apple crop promises well. There has been a good set of fruit with very little drop until the present. The Strawberry crop is ripening and with a few showers will be heavy.

Reports from the Dairying districts state that cows are showing up well in milk production. This is particularly true of cows that were wintered well.

Sheep shearing is about completed. Over 60,000 lbs. of wool has been graded at the Department of Agriculture Wool Warehouse in Fredericton.

Rural Science School. The Rural Science School which is to be held at Sussex, N. B. opens July 8th and closes August 5th. The full course of study at this school occupies two summer sessions and attendance at the school for one year entitles the teacher to a grant of \$30 and on completion of a two year course a \$50 grant will be paid.

Besides this a bonus of \$20 is paid to all those attending one year and who teach Agriculture in their school during the year subsequent to the taking of the course. Transportation one way will be paid. Teachers should therefore purchase return tickets.

It is best to roast or pan chicken with the breast down. It will be more juicy.

**REMEMBERED BY FRIENDS**  
At the residence of Mrs. Charles Robinson, 84 Sydney street, a novelty shower was tendered to Mildred Reid, a guest of Mrs. Robinson's, in anticipation of a happy event which is to take place. About twenty guests were present and Miss Reid was taken completely by surprise. She received several handsome gifts from her friends and relatives and an exceptionally fine gift from a cousin who is still overseas. The evening was spent in games and music and about 11.30 a dainty lunch was served. The singing of "Auld Lang Syne" brought to a close a very enjoyable evening. Miss Reid expects to leave soon for her home in Newcastle.—Telegraph.

**BEAVERBROOK SCHOLARSHIPS.**

Newcastle, N. B., June 23.—Lord Beaverbrook will offer five scholarships for the province of New Brunswick. The scholarships can be held at any Canadian university and will be of the value of \$325 a year for the period of a whole course in arts, theology, law, medicine, civil engineering, etc. Except in the case of theology the scholarships will not be granted to students attending denominational colleges. They will be awarded by competitive examination and will be open to all students taking the matriculation examinations of the university of New Brunswick. There is a further provision that three out of the five scholarships must come from centres outside of St. John and Fredericton. Lord Beaverbrook will ask the Lieutenant-Governor, Justice Crockett and Frank Ellis to act as a committee for the purpose of making the awards and this committee is to take into consideration the financial position, moral character and industrious habits of the candidates. The sum of \$25,000 has been paid to the Montreal Trust Company and set aside for use of the committee which is to make careful observations of the working of the scheme during what may be considered an experimental period.

**OTHER TABLETS NOT ASPIRIN AT ALL**

The choir made her a presentation, and expressed their keen sorrow in her departure.

**Frederick Slips From Holland**

Paris, June 26.—Frederick William Hohenzollern, the former Crown Prince, has escaped from Holland and made his way into Germany.

The peace conference has not been officially advised of the escape of the Crown Prince, the news coming through British sources. Pending details, official discussion of the event, and its bearing on German affairs, and the question whether it involves violation of neutrality by Holland, is withheld.

Recent Berlin despatches, printed in Parish newspapers, are recalled, in which unnamed, but allegedly well placed persons, commented on the sinking of the German fleet in Scapa Flow and the burning of French battle flags, said they were not surprised and declared that other equally startling events might be anticipated.

Since the Scapa Flow incident the Paris press has insistently alluded to the possibility of the former German emperor's escape from Holland, coupled with the indirect question as to what measure had been taken to prevent such a move.

In military quarters the belief was expressed today, that the crown prince and Prince Max of Baden are on their way to East Prussia where the military reactionary element is strong. The opinion is that there may be among the old Junker officer class those who, whatever opinion is held against the former crown prince personally, might try to use him as "the man on horseback."

The presence in Germany at this moment of Frederick William, when the fate of the peace treaty still hangs in the balance, has caused disquietude in Paris, and there is considerable speculation regarding the next development in the situation.

**FIRST STEAMER**  
The first steamer of the season to come up the Miramichi River as far as Newcastle, arrived last Saturday afternoon and docked at Messrs Geo. Burchill & Son's wharf.

**Unionist Party to be Permanent One**

Ottawa, Ont., June 26.—At the Unionist Caucus, to-day, it was decided to consolidate the Unionist party into a permanent organization. Decision to take such a momentous political step was incorporated in the form of a resolution, moved by a Liberal Unionist, and supported enthusiastically and overwhelmingly by the caucus which led up to the formation of the Union Government and the party, and emphasized that the same patriotic reasons which called for the great experiment taken two years ago, still existed although in a different form.

The nation still faced difficult issues, difficult and solemn, and there was pressing need for men of all political faiths to stand together until such a time as more normal conditions could be achieved. Sir Robert, who spoke at length, said that he was not concerned with political power or personal ambition, and offered to make way for a successor if the party desired that he should do so, but the caucus was unanimous in its demand that he should remain in full possession of the leadership. The only failure in the caucus to support the idea of permanent party came from less than half a dozen of the Western Liberal Unionists, who opposed the Government on the budget. These, however, did not oppose the step, but merely refrained from speaking or voting in its favor. As for Mr. Crerar, Dr. Clark, Mr. Pardee and Mr. Fielding, they did not attend and may be counted in opposition to the scheme.

The decision taken by the caucus was not unexpected. Two Liberals, as well as Conservative Unionists, have been urging such a step for some time, and it is regarded as the beginning of a new era in Canadian politics. For although no decision was taken by the caucus in regard to the name of the new party, it is believed that it will be known as the Unionist party—a change such as followed the merging of Birmingham Radicals and British Tories after the Home Rule crisis in the eighties—and that it will mean the passing of the historic Conservative Party.

The decision of the caucus also means that the Prime Minister has now a clear road and a new basis upon which to reorganize his Cabinet and this, it is expected, will be brought about without delay.

**LEMONS MAKE SKIN WHITE, SOFT, CLEAR**

Make this beauty lotion for a few cents and see for yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes, to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quart jar of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

Send a Dominion Express Money Order. They are payable everywhere.—8
