**ROYAL ELECTRIC WINS ANOTHER 4 POINTS, SELLING AT 174 - RICH. & ONT. GAINS 2 POINTS - LIVELY MORNING SESSION**

Montreal, Nov. 23.

Royal Electric gave another exhibition at the forenoon session of the bull movement it began yesterday, and on buying orders amounting to 1275 shares, gained 4 more points, the highest price being 174, being obtained for 350 shares. The stock's friends say that the stock is good and has sold cheap, so that there is no wonder that it has gone up. They say it will go higher yet, and are buying now in the hope of profit in the near future. New stock sold up to 172. There was also a kind of quiet bull movement in investment securities. Offerings of these are being taken up and securities passing into strong hands this way will not tend to lower but to higher values. It was Montreal Telegraph which on a broken lot was purchased at 1 of an advance on Saturday.

Richelieu & Ontario, which has been inactive all the week, was traded in to the amount of 601 shares. On large buying orders the price this forenoon started 1/2 below the highest of last week and closed strong at 111 1/2, that is 2 points of an advance.

Payne showed strength and broke its own record this week, gaining 1 point, when it sold at 113.

Virtue, on moderate buying, also secured a 6 point advance on a 25 share transaction the closing transaction of two. Gas gained 3 points, selling at 194. Duluth common on two sales amounting to 225 shares gained first 1/2 then 1/4. Toronto Railway, Republic, Montreal London, Canadian Pacific, selling at former prices, showed firmness, but were not affected by the vigorous bull movement. The market owes a good deal to Electricity for making one day in the week a lively one for the list generally.

**MARKETS CLOSE ON SATURDAY.**

On a mark of respect to Vice-President Hobart, whose funeral is on Saturday, all the markets in New York, Chicago and Boston will be closed on that day. The N. Y. bank statement will be issued on Friday.

**BRITISH-AMERICAN CLAIMS.**

Vancouver, B.C., Nov. 22.—On the eve of his departure for Spain, Mr. W. A. Carlyle, for the first time publicly announced the results that have attended the development of British-American claims. He gave assurance that Columbia-Kootenay, the Nickle Plate, the Josie, and the No. 1, will soon join the list of shippers. Significant was the declaration that the time is near when ore running \$7 a ton can be mined and smelted at a profit.

**MASCOT.**

There was no change of importance in the Mascot during the past week. Drifting on the ledge is still in progress in the upper level, the lower level and the intermediate level. There are fair showings of ore in all these places.

**NEW ST. ELMO.**

The work of installing the compressor plant continues and it should be ready for use shortly. Work continues in the cross-cut.

**MONTREAL MINING EXCHANGE**

VIRTUE BOOMS — DEER TRAIL FIRMER — STOCKS INACTIVE — MARKET BETTER.

Montreal, Nov. 23  
There was a better tone to the whole market, some stocks assuming an air of buoyance; trading, however, was limited to those issues which were in demand, and outside of these stocks were quiet.

The feature of the trading was the activity displayed by Virtue. It opened at 46½ and rose by easy stages to 49, where it closed, being in good demand at this figure, but with no stock offering under 50. In all 6,500 shares were sold, and it constituted the majority of the morning's trading. There is talk of higher prices yet and we should not be surprised to see it advance further.

Deer Trail was firmer, selling at 18. The demand round this figure is good, and as it is one of the cheapest stock on the list we do not expect to see it selling round these figures much longer.

Canadian Gold Fields continues to show signs of firmness, selling at 8½ for 1000 shares; it was freely offered at 9.

There was a large block of Decca sold at 18½, 6000 shares changing hands.

A sale of 500 shares was made at 30, but as special terms were attached to it, and as ninety days' time was also given buyer, the question carries no significance except as to opinion of purchaser as to what may be the value in ninety days.

Montreal London was firmer, selling repeatedly at 46, it was offered yesterday at 45½. The last sale recorded was some days ago when it sold for 49.

The dividend payers were quiet, 111 being bid for Payne, and 116½ for Republic. There was nothing doing in War Eagle.

Among other properties in the Republic camp which are likely to become the property of Montreal capitalists are the Lone Pine, Ophir, Surprise group and the Black Tail. The McCuaig-Rykert syndicate which at present own the Republic, are said also to have acquired the Jim Blaine and the Ophir.

# NEW YORK EXCHANGE.

**SPECULATION IN NORTH AMERICAN IS OVER FOR THE PRESENT—LEATHER COMMON STRENGTHENS AGAIN ON REPORTED SETTLEMENTS—LONDON BUYING A FACTOR IN THE STRONG MARKET.**

New York, Nov. 23.

Although the South African news is not very favorable to the British, cables state that there is a suspicion that the government has had good news and that consequently all London markets are strong. It appears that the somewhat higher rates for money which have prevailed during last few days are mainly due to the financing of a new issue of \$5,000,000 bonds by New York city.

This disturbance, however, will only be transitory, and a return to a regular six p.c. rate is looked for next week.

It is announced this forenoon that a vigorous war is imminent in the anthracite coal roads. It appears that the anthracite coal operators' association had a meeting yesterday in New York to advocate the speedy building of a railroad which is to connect the railroads already controlled by the association in Pennsylvania with tide water and Rondout, N. Y. The operators claim that the railroads represented by Mr. J. P. Morgan are charging exorbitant rates, and that the only way to secure justice is to build an opposition line. The railroads against which the fight is especially directed are the Reading, Erie and Lehigh Valley. This news is almost sure to have a bad effect on the stocks of the anthracite coal carrying roads.

Although Wall Street had made up its mind that for the time being there is no chance of an agreement between the A.S.R. Co and the outside refiners, there is a reason to believe that negotiations are still in progress, and that all parties are becoming heartily tired of the war and that there is a greater disposition on part of the various refineries to come together than for some time. Negotiations will no doubt be protracted, but there is a strong probability that a favorable report will come in due course.

The activity in C.I.E. is said to be based on excellent earnings and the prospect of a dividend on common.

There are rumors of a 10 p.c. dividend on General Electric.

Liquidation in North American appears to have checked advance for present.

There is talk of consolidation between C. O. and C.C.C., by which two shares of former are to be exchanged for one of latter.

The temper of the Room on the whole seems to be moderately hopeful.

New York, (noon), Nov. 23.

London was a considerable factor in today's market. Arbitrage houses were buyers of all international stocks, more especially of So. Pac. and S. R. pfd.

The former opened at 43 3/4, and there was no variation from this quotation for three quarters of an hour. It appeared that the demand and supply at that figure were practically endless.

C. I. L. was notably strong, opening 16 and selling as high as 19.

Great confidence is expressed that the preferred stock will be a steady dividend payer, and it is believed that something has been earned on common.

For the time being the speculation in Nor.

American seems to be over, and some belated bulls are getting out at prices that show but small profits.

Leather common has taken a new lease of life, the control of the company is said to have passed into new hands and there are more rumors in regard to plans for the settlement of back dividends on the preferred stock and for the retirement of the stock by an issue of bonds.

The buying of General Electric was called good.

C. O. advanced on report referred to this forenoon, namely that two shares of the stock were to be exchanged for 1 of C.C.C.

The buying of Smelters pfd is attributed to insiders.

During the last half hour the market has sold off somewhat on realizing sales, but undertone on the whole is good.

## STRAWS.

The woollen business has revived, as shown by mills in operation. Demand for cotton goods is greater than the supply.

An amalgamation of English, Scotch and American thread companies has been consummated. The combine has a capital of £20,000,000.

Atchison suffers from car shortage in Kansas principally for grain traffic. Reports show that volume of business is over 15 p.c. in excess of last year.

The Baltimore & Ohio Southwestern railroad filed a \$40,000,000 mortgage last evening in favor of the Farmers' Loan and Trust Company of New York.

N. Y. Metal Exchange—Pig iron warrants dull and neglected; lake copper 17-17 1/2. quiet; tin 27 1/2-27 3/4, lower and easy; lead, 4.60-4.65, steady; spelter (metallic zinc), 4.50-4.60, easy.

## NEWS OF THE MINES.

### GIANT MINING COMPANY.

#### Letter From Rossland.

"For the last three years there has been a flurry in this stock periodically which, however, was short lived, and I am inclined to think that the present demand here which is purely local, will not last. Recently a six months' option was taken by some of the former owners in the Le Roi mine on a majority of the stock of the Giant company. I believe the conditions of the option provide that a certain amount of work shall be done on the property. It is not known here if any payment has been made to the former owners, and judging from the names of the parties to whom the property has been bonded, I do not think that they are likely to make any payment or do any large amount of work unless the development within the next few months fully warrants it. They are only working a force of six men; of course, there is the usual talk of increasing the number of men and equipping the property with machinery, which are the usual newspaper tactics of the Spokane promoter.

The development work is in charge of Mr. Tregear, formerly superintendent of the Le Roi mine. It is claimed that a new strike has been made of a vein running between the two deposits of which I wrote you in my letter describing the property. I have not seen this discovery, and I am therefore not in a position to say anything about it. If, however, such a discovery has been made it is wholly undeveloped and at present it would be possible to say that the value has been very materially increased. In view of the strike some of the brokers here have bought largely and they are endeavoring to boost the price of the shares, and in this way I presume hope to induce the public to come in later I think the local buyers have about reached the end of their tether, and while the shares may sell for a time, it is altogether probable that the buying may cease at any time, and the price of the shares remain about where they were before the present option was given. This is the view taken by the brokers here themselves, and I think you will find it pretty nearly correct."

### COLUMBIA-KOOTENAY.

The A. B. C. have been pushing development upon the Columbia-Kootenay mine for the past 18 months without interruption, and a great deal of work has been accomplished. As the company are now expending something over \$6,000 a month on the development of this property and since their purchase have paid out about \$65,000, the management must be of the opinion

that the mine is a valuable one. As has been frequently stated in this column the property has been extensively developed at six different levels. In the lower or No. 6 level preparations are being made to sink a large shaft at a point about 1,500 feet in. A very large amount of low grade and a comparatively small showing of high grade ore has been recovered in the works, and if it was decided to commence shipments the property could easily enter the list at the present time. Mr. Carlyle stated last evening that recently in 61 days with three shifts and two machines 676 feet had been made in No. 6 tunnel at a cost of \$23.50 a foot. Whether the mine will ship early this coming year or wait until the spring when a railway spur can be put in will probably be announced by Mr. Carlyle's successor. At the present time the management will make no official statement on this subject.

I. X. L.

(Rossland Miner.)

Mr. John S. Baker, managing director of the I. X. L. is in the city. He reports that the mine is looking very well throughout. The present work is mainly confined to the lower or 175-foot level, where cross-cutting is in progress. A carload of ore is sacked and ready and will be sent to the Northport smelter on Monday. The intention is to ship a car load of ore every 10 days for the present. This is the ore that is taken out in the course of the development work and is not the result of stoping. Further on, when the mine has been opened up more, the stoping will commence and then the shipments will be much larger than they now are. The ore so far sent to the Northport smelter has averaged about \$45 to the ton. There are some 18 or 20 sacks of free gold specimens, which have been kept separate from the ore sent to the smelter, and which, it is certain, will give very high returns. Mr. Baker will leave for Tacoma on Monday.

### WAR EAGLE AND CENTRE STAR.

The big electrical compressor of the War Eagle has been working both sides steadily all week. The main shaft is now down 830 feet, and the showing in the 750-foot level referred to in detail a fortnight ago, continues to yield the highly satisfactory values then quoted. Four of the temporary compressors at the head of the Centre Star shaft were busy pumping air yesterday afternoon, and their tall pipes have become easily recognized landmarks on Columbia mountain. The shipments from both mines are steadily on the increase, and bar accidents, should average combined, 3,000 tons a week.

### CALIFORNIA.

The work of erecting the combined compressor and shaft house has been commenced. The tunnel shed, the powder magazine, and the office buildings are almost completed. Crosscutting from the tunnel is in progress, but the work is slow, as it is being done by hand; the rock is very hard. This crosscut is in for a distance of 25 feet and it is to be run for 25 feet further. Most of the compressor plant has come to hand and the work of setting it up will soon be commenced.

### BUNKER HILL.

The machinery for the 10-stamp mill should soon come to hand, as it has been on the way for something over two weeks. The mill structure is about half finished. A flume, which is to furnish water and water power for the mill, and which will be 1400 feet in length, is being constructed. The water is to be taken from Sixteen-Mile creek.

# CHICAGO MARKET.

## CHICAGO MARKET—November 23, 1899.

From the Bartlett Pmaler Co., Chicago. H. J. Coon, Manager, 39 St. Sacramento St.

ON MODERATE EXPORT DEMAND, PRICES SAG TO-DAY — LIVERPOOL LOWER WITH LITTLE DOING—SMALL RECEIPTS A STRONG BULL FEATURE.

Chicago, Nov. 22.

Yesterday quite a considerable number of foreign orders were in the market and this caused occasional strength. The total result, however, was an easing off and a closing the lowest for a week. Half a million bushels were bought for export and speculative buying was reported by commission men who said that those buying were held good traders, and in cash values there was improved demand. This last is reputed to show slight increase on both sides of the Atlantic Trade yesterday, however, was of limited extent and a sign rather of movement than the movement itself. As the last week in November not unusually, as for instance in 1896, 97, 93, 94, 95 rallied a little, it might be that these foreign orders are premonitions of a rally this year. The continuance of small winter wheat receipts also is a strong feature making for advances.

Lower closing on this side had depressing effect on Liverpool market. Openings there this morning were 5-9, 5-10, 5-11, which are 1/4d, 1/4d and 1/4d lower than yesterday's close and 1/4 lower than yesterday's openings.

Openings at New York for December 72 1/2, that 1/2 lower; 75 1/2, that is 1/2 lower; 75 3/4, that is 1/4 lower.

Chicago openings were 1/4 lower, and this weakness was continued during the early market.

What movement there was in Pork, had an upward tendency.

Receipts at Chicago were: Hogs, 33,000, cattle, 12,000; sheep, 12,000.

N. W. cars, 705; last week, 766.  
Car lots wheat 78, shipments, 48,000.  
Car lots corn 160, shipments 85,093  
Car lots oats 162, shipments 100,000.
