And the same was read as follows :-

(Translation.)

#### ARGENTEUIL CONTROVERTED ELECTION.

Dominion of Canada, Province of Quebec, District of Terrebonne.

In the Superior Court.

THE DOMINION CONTROVERTED ELECTIONS ACT, 1874.

In the year one thousand eight hundred and eighty-one, the thirteenth day of July.

#### PRESENT:

The Honorable Mr. Justice Louis Bélanger.

In the matter of the Election of a Member of the House of Commons of Canada for the Electoral District of Argenteuil, in the Judicial District of Terrebonne.

(No. 4.)

Thomas Hickson, of the Village of Lachute and Parish of St. Jerusalem d'Argenteuil, Printer, John Morell, of the same place, Shoemaker, Robert Morrow, of the Village and Parish of St. Andrews, Carriage Builder, Gaspard de Coligny Denys de la Ronde, of the said Parish and Village of St. Andrews, Notary Public, James Middleton, junior, of the said Parish of St. Andrews, Farmer, Hugh Pollock, of the Parish of St. Jerusalem d'Argenteuil, Farmer, John Martin, of the said Parish of St. Andrews, Farmer, and Robert Armstrong, also of the Parish of St. Jerusalem d'Argenteuil, Farmer,

Petitioners.

vs.

The Honorable John Joseph Caldwell Abbott, of the City and District of Montreal, Queen's Counsel,

Respondent.

The Court having heard the parties by their respective counsel, on the merits of the Election Petition fyled in this case by the said Petitioners, and praying that the

election made on the twelfth February, eighteen hundred and eighty, of the said Respondent as Member to represent the said Electoral District of Argenteuil in the House of Commons of Canada, be declared null and void, that the said Respondent be declared to have been personally guilty of fraudulent practices during the said election, and in consequence thereof that he be declared disqualified; having examined the procedure and exhibits fyled and heard and examined the evidence adduced by both parties and on the whole duly deliberated:

Considering that the Petitioners have not proved the allegations of their Petition of a nature to cause Respondent to be declared personally guilty of corrupt practices in the sense of the Statute, during, before or after the said election, and to cause him to be declared disqualified;

Dismisses, in consequence, that part of the said Petition;

And considering that the said Petitioners have established in evidence that the said Respondent did, by his agents in and for the said election, namely: George Goodwin and James F. Sutton, but without his knowledge and without his participation, practice corruption, and by his said agents promising during the said election, to a large number of voters at the said election, namely, to all the men employed under their control, at the works then in progress on the Grenville Canal, to the number of over one hundred, and with a view of unduly and fraudulently inducing them to vote at the said election, to pay them their full day's work, without deduction for the time they might lose in going to vote at the said election, provided they first came to their place of labor, on the polling day, whence the said agents would carry them or cause them to be carried in their vehicles, to the several polls where the said employees were entitled to vote;

Considering that it is also proved that the said Respondent did, moreover, by James Goodwin, another of his agents in and for the said election, practice corrupt intimidation, in contravention of the said Statute, by his said agent dismissing or causing to be dismissed and discharged from his employment, during the said election, or on the very evening of the polling day at the said election, one William Robinson, alias Robertson, then his employee on the said canal, and for the sole reason that the said Robertson had on that day voted at the said election against the said Respondent;

Considering that it is proved that the said Respondent did, moreover, by another of his agents in and for the said election, H. J. Boswell, but without his knowledge and without his personal participation, commit and practice during the said election, another act of corruption, by and through his said agent Boswell, paying or causing to be paid for and procuring for one John McMartin, of the City of Montreal, one of the electors duly qualified to vote at the said election, the passenger ticket which was to carry and did in fact carry the latter by way of the Quebec, Montreal, Ottawa and Occidental Railway, on the said polling day, namely, the twelfth February, one thousand eight hundred and eighty, from Montreal to Lachute, in the said Electoral District, and bring him back from the latter place to Montreal aforesaid, the whole for the purpose of unduly and fraudulently inducing the said John McMartin to go and vote at the said election, at St. Andrews, in the said Electoral District, where the said John McMartin was there entitled to vote;

Considering that the said acts of corruption, intimidation and corrupt influence, constitute corrupt practices in the sense of the said Dominion Elections Act, 1874, sufficient to render void the said election of the said Respondent;

Declares the said election of the said Respondent null and void for all purposes whatsoever;

And whereas a great part of the enquête of the said Petitioners did not tend to prove any of the facts alleged by the said Petition and the statement of facts of the said Petitioners; that at least one half of the said enquête is adverse to the said Petitioners, and that it is unjust to throw the costs thereof on the Respondent;

Condemns the said Respondent to pay the costs of the said Petition, with one half only of the costs of the enquête on both sides and condemns the Petitioners to pay the other half of the costs of enquête.

(A true copy.)

JULES R. BERTHELOT, P. S. C., C. E. C.

To the Honorable The Speaker of the House of Commons of Canada, Ottawa.

And the said Judgment was ordered to be entered in the Journals of The House.

Mr. Speaker also informed The House, that in conformity with the Act 37 Victoria, Chapter 10, Section 36, he had issued his Warrant to the Clerk of the Crown in Chancery to make out a new Writ of Election for the said Electoral District.

Mr. Speaker also informed The House, that during the Recess he had received communications from several Members, notifying him that the following vacancies had occurred in the representation, viz.:

Of Thomas McKay, Esq., Member for the Electoral District of Colchester, by

resignation.

Of the Hon James McDonald, Member for the Electoral District of Pictou, by acceptance of the Office of Chief Justice of the Supreme Court of Nova Scotia.

Of the Hon. James Cockburn, Member for the Electoral District of the West

Riding of the County of Northumberland, by resignation.

Of Thomas Robert McInnes, Esq., Member for the Electoral District of New

Westminster, by being summoned to the Senate; and

Of William Carruthers Little, Esq., Member for the Electoral District of the South Riding of the County of Simcoe, by decease; and that he had issued his several Warrants to the Clerk of the Crown in Chancery, to make out new Writs of Election for the said Electoral Districts respectively.

Mr. Speaker further informed The House, that The Clerk had received from the Clerk of the Crown in Chancery, Certificates of the Election and Return of the following Members, viz:-

Of James Reid, Esq., for the Electoral District of Cariboo. Of Darius Crouter, Esq., for the Electoral District of the East Riding of the County of Northumberland.

Of David Irvine, Esq., for the Electoral District of Carleton, N.B. Of Simon Xavier Cimon, Esq., for the Electoral District of Charlevoix. Of Guillaume Amyot, Esq., for the Electoral District of Bellechasse. Of the Hon. A. W. McLelan, for the Electoral District of Colchester.

Of John McDougald, Esq., for the Electoral District of Pictou.

Of the Hon. J. J. C. Abbott, for the Electoral District of Argenteuil, and

Of George Guillet, Esq., for the Electoral District of the West Riding of the County of Northumberland.

Mr. Speaker further informed The House, that he had received from the Hon. Mr. Justice Angers, one of the Judges selected for the trial of Election Petitions, pursuant to The Dominion Controverted Elections Act, 1874, a Certificate and Judgment in the matter of the Election for the Electoral District of Bellechasse.

And the same were read as follows:-

(Translation.)

#### BELLECHASSE CONTROVERTED ELECTION.

Superior Court,
District of Montmagny.

THE DOMINION CONTROVERTED ELECTIONS ACT, 1874.

Election of a Member of the House of Commons of Canada, for the Electoral District of Bellechasse, in the Province of Quebec, holden on the nineteenth day of March, 1881.

ANTOINE MERCIER,

Petitioner.

225.

Guillaume Amyot,

Respondent.

I, the Honorable Auguste Réal Angers, one of the Judges of the Superior Court of the Province of Quebec, and the Judge before whom the said Election Petition was tried and heard, on the twenty-seventh and twenty-eighth days of October, 1881, and judgment given on the twenty-seventh day of December of the same year, do certify that I determined that the said Guillaume Amyot had been duly elected, and that the said election petition was not founded on fact and should be dismissed with costs against the Petitioner, except the costs upon the preliminary objections, and upon the proceedings to replace the paper writings lost out of the Record, these costs being given against the parties respectively;

I further certify that copies of the notes of the evidence taken in the said case, and of the judgment rendered by me, are annexed to these presents, as well as a certificate from the Prothonotary of the Court, establishing that within the delay

fixed by law, no proceeding to appeal from this judgment has been taken.

I do further certify that no corrupt practice was proved to have been committed, at this election, by or with the knowledge or consent of the said Guillaume Amyot.

That it was proved during the trial, that Edward Murdoch McKenzie, Esquire, Notary, had been guilty of using undue influence by threatening the elector François Roy, but that it was not proved that the said McKenzie was an agent of Guillaume Amyot.

I do further report that it was not proved and there is no reason for believing that corrupt practices have been carried on to any considerable extent at the said

election.

I am of opinion that no act of the parties to the said Petition was of such a nature as to render imperfect the evidence taken on the circumstances attending the election, and that it is not desirable that a new trial should be holden with the object of ascertaining whether corrupt practices have been engaged in to a considerable extent.

Given this 21st day of January, 1882.

A. R. ANGERS, J. S. C.

To the Honorable

The Speaker of the House of Commons of Canada, Ottawa. (Translation.)

PRESENT AT ST. CHARLES:
THE HONORABLE AUGUSTE REAL ANGERS.
ANTOINE MERCIER, of St. Valier, Farmer,

Petitioner.

vs.

Guillaume Amyor, of the City of Quebec, Esquire, Advocate,
Respondent.

The Court having heard the parties by their respective Attorneys, upon the merits of the Election Petition fyled against the election of Guillaume Aymot, of the City of Quebec, Esquire, Advocate, as Member for the Electoral District of Bellechasse in the House of Commons of Canada, after having examined the evidence and the record, and upon the whole duly deliberated, declares the said Guillaume Amyot duly elected a Member of the House of Commons of Canada, for the Electoral District of Bellechasse, and dismisses the said election Petition with costs against the Petitioner, save and except the costs upon the preliminary objections, and the proceedings to restore the paper writings lost from the Record, these costs being at the charge of the parties respectively.

A. R. ANGERS, J. S. C.

And the said Certificate and Judgment were ordered to be entered in the Journals of The House.

The following Members having previously taken the Oath according to Law, and subscribed the Roll containing the same, took their seats in The House, viz: -

Hon. A. W. McLelan, Member for the Electoral District of Colchester,—George Guillet, Esq., Member for the Electoral District of the West Riding of the County of Northumberland,—Simon Xavier Cimon, Esq., Member for the Electoral District of Charlevoix,—John McDougall, Esq., Member for the Electoral District of Pictou,—James Reid, Esq., Member for the Electoral District of Cariboo,—Guillaume Amyot, Esq., Member for the Electoral District of Bellechasse,—and Darius Crouter, Esq., Member for the Electoral District of the East Riding of the County of Northumberland.

Sir John A. Macdonald introduced a Bill No. 1 respecting the Administration of Oaths of Office; which was read the first time.

Mr. Speaker reported His Excellency's Speech, and read a copy thereof to The House; which is as follows:-

Honorable Gentlemen of the Senate:

Gentlemen of the House of Commons:

The hope I expressed at the close of the last Session, that on the re-assembling of Parliament we should be able to congratulate ourselves on a season of peace and prosperity has been fully realized.

Canada has been favored with a year of great prosperity.

Her farmers have enjoyed a plentiful harvest and remunerative prices.

Her manufacturing and other industries have been and continue to be developed under favorable auspices.

Her trade and commerce have been steadily increasing, and peace and order prevail within her borders.

For these various blessings we cannot be sufficiently thankful to the Giver of all

good things.

The Chief Magistrate of the United States has been cut off by the hand of an assassin, and it is fitting that the sorrow of our people for a loss which was not that of our friends and neighbors alone, should be here adverted to as another instance of the sympathy which unites in brotherhood the British Empire and the American Republic.

During the recess I had the pleasure of visiting the Province of Manitoba, and of traversing the extensive prairies of the North-West, and from personal examination can sincerely congratulate Canada on the possession of so magnificent and fertile a region, to be inhabited, I trust, in the course of years, by millions of thriving and

contented subjects of Her Majesty.

The immigrants have not confined themselves to Manitoba or its vicinity, but are scattered over the country westward to the base of the Rocky Mountains, and from the international boundary to the banks of the northern Saskatchewan. It is, therefore, thought that the time has come for the division of the Territories into four or more Provisional Districts with an appropriate nomenclature. This subject will be submitted for your consideration.

During my journey I was met by numerous Indian tribes, all expressing confidence in the continuance of the traditional policy of kindness and justice which has hitherto governed the relations between the Government and the Aborigines.

I regret, however, to say that the necessity of supplementing the food supply of the Indians still exists and is likely to continue for some years.

Every exertion has been made to settle the Indian Bands on Reserves, and to

induce them to betake themselves to the raising of cattle and cultivating the soil.

These efforts have met with a fair measure of success, but we can only expect by a long continuance of patient firmness to induce these children of the Prairie and the Forest to abandon their nomadic habits, become self-supporting, and ultimately add to the industrial wealth of the country.

The influx of a white population has greatly increased the danger of collision between the settler and Red man, and in my opinion renders an augmentation of the Mounted Police a matter of urgency. Your sanction to this increase will be sought.

The second report of the Commission appointed to investigate the existing system of the Civil Service will be laid before you, and a measure on the subject submitted for your consideration.

The decennial Census having been taken last year, the duty of reconsidering and readjusting the representation in the House of Commons is imposed upon you. A

measure for the purpose will be laid before you.

Several other measures of importance will be submitted to you. Among them will be Bills for the winding up of Insolvent Banks, Insurance Companies and Trading Corporations; for the consolidation and amendment of the Laws respecting the Dominion Lands; for the amendment of the Acts relating to the Supreme Court of Canada, and Bills relating to the tenure of office of the Judges of County Courts, and to Fugitive Offenders within the Empire; and your attention will be called to the present anomalous position of the Vice-Admiralty jurisdiction.

The work of construction on that portion of the Canadian Pacific Railway between Prince Arthur's Landing and Winnipeg is being pressed to completion, and it is confidently expected that in July next, railway communication will be established between those places. The section between Rat Portage and Winnipeg, one hundred and thirty-five miles in length, has been completed and transferred under the terms of the contract, to the Canadian Pacific Railway Company, by whom it is now operated. Considerable progress has been made on the Eastern Section, commencing at Callander Station, and the vigorous prosecution of the work on that portion of the line during the present year provided for.

In British Columbia the work upon the section between Savona's Ferry and Emory's Bar is being carried on, with every prospect of its completion within the time specified in the contract, and the line from the latter place to Port Moody which has been carefully located during the past season is now being placed under contract with a view to its completion at the same date as the section from Savona's Ferry to

Emory's Bar.

Upon the sections to be constructed by the Railway Company, the work has been most energetically carried forward. During the past summer the road has been graded for the distance of two hundred and eighteen miles, and of this, one hundred and sixty-one miles are open for traffic.

The Company have, in addition, graded eighty-nine miles of branch lines.

I am pleased to be able to state that the traffic on the Intercolonial Railway has largely increased, and that this line was during the last fiscal year, for the first time in its history, worked without loss to the country.

The works on the Welland Canal were so far advanced that the waters of Lake Erie were introduced for its supply in June last, and in September the new portion

of the Canal between Allanburg and Port Dalhousie was opened for traffic.

You will be pleased to know that a monthly line of steamers which has been subsidized under the authority of Parliament, is now plying between the Dominion

and Brazil with good hopes of a mutually profitable trade.

The Report of a Royal Commission issued to inquire into the question of factory labor, and into the best means of promoting the comfort and well-being of the workingman and his family, without undue interference with the development of our manufacturing industries, will be laid before you, and I invite your earnest consideration of this report.

### Gentlemen of the House of Commons:

The Accounts of the last year will be laid before you. It will be satisfactory to you to find that the Expenditure has been less and the Revenue considerably more than the Estimates of last year, leaving a surplus of over four millions of dollars. A portion of this sum has been used in the reduction of the public debt by the redemption of matured debentures bearing six per cent. interest, and the remainder applied to the payment for public works chargeable to capital account. The necessity of issuing the Debenture Loan authorized by Parliament for those purposes has therefore been obviated.

The Estimates of the ensuing year will also be submitted, and will, I trust, be found to have been framed with due regard to economy and the efficiency of the

public service.

## Honorable Gentlemen of the Senate:

### Gentlemen of the House of Commons:

I now invite your attention to the several subjects mentioned and to the general business which will come before you, with full confidence in your ability and patriotic desire to forward the best interests of the country.

On motion of Sir John A. Macdonald, His Excellency's Speech was ordered to be taken into consideration, to-morrow.

Resolved, That Select Standing Committees of this House, for the present Session, be appointed for the following purposes:—1. On Privileges and Elections.—2. On Expiring Laws.—3. On Railways, Canals and Telegraph Lines.—4. On Miscellaneous Private Bills.—5. On Standing Orders.—6. On Printing.—7. On Public Accounts.—8. On Banking and Commerce.—9. On Immigration and Colonization,—which said Committees shall severally be empowered to examine and enquire into all such matters and things as may be referred to them by The House; and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

Mr. Speaker also laid before The House, the Report of the Librarian of Parliament, on the state of the Library of Parliament, which is as follows:—

# TO THE HONORABLE THE HOUSE OF COMMONS OF CANADA, IN PARLIAMENT ASSEMBLED.

The Report of the Librarian on the state of the Library of Parliament respectfully sheweth:—

That for the reasons stated in the last Annual Report, the sum available for the purchase of books within the past year was but half the ordinary amount. Consequently the additions made to the General Library during that period were comparatively few. In those classes, however, which are chiefly consulted by Members during the sittings of Parliament, the Librarian has endeavored to render the Library as complete as possible.

The collection and binding of the principal newspapers published in the several Provinces of this vast Dominion,—although a work of unquestionable necessity, and of increasing value for future reference,—is nevertheless a heavy item of expense. But, in view of the exceptional nature of such expenditure, application has been made to the Treasury for an addition to the Vote for Library Contingencies, to defray the cost of binding executed in Canada.

The purchase of Canadian Law Reports, for distribution to Exchange Libraries, has likewise borne heavily upon our funds, hitherto. However, at the request of the Joint Library Committee, the Government have agreed to charge the cost of such Reports to the fund out of which it is customary to provide for the purchase of Canadian works, selected or approved by Government for similar distribution.

By these arrangements it is hoped that the Parliamentary grant for the augmentation of the Library will henceforth be relieved of charges which, however indispensable to be incurred, do nevertheless materially reduce the means available for the

purchase of books in Europe, and in the United States.

The rapid strides now making by Canada in population, and in the various elements of material prosperity, are naturally imparting an impetus to intellectual activity and literary research amongst our people. To keep pace with this progress, and to foster the development of learning, and of mental improvement, generally, in our midst, it is indispensable that this, the sole public Library in the Dominion, should not fall into arrears. To avoid such an evil, the liberality of Parliament in this direction is earnestly besought. Already the Library is largely resorted to by literary men, and seekers after knowledge, in all parts of the country. Great public advantage has ensued from the opportunities thus afforded to students; but the benefits will be proportionably augmented as the collection attains a greater degree of completeness, in the different branches of science, literature, and art.

The Librarian has observed, with regret and disappointment, that upon the removal of the Supreme Court to more commodious quarters, it was not deemed expedient to restore the rooms thereby vacated to their original destination, and former occupancy, for Library purposes. In the anticipation of this event, he had repeatedly urged, in previous Reports to Parliament, the benefits that would accrue

from restoring these apartments to the use of the Library. He is well aware that the exigencies of the House of Commons, at the present time, have appeared to demand the employment of these rooms for other purposes, more immediately urgent. But he would crave permission respectfully to place on record his belief that, in the near future, when the question of additional space for the Library shall have become imperative, such further provision can in no other way be so suitably supplied as by incorporating the rooms vacated by the Supreme Court with the Library premises; whilst, by adding a small wing to the main Parliament Building, superior accommodation might be obtained for the House of Commons requirements, in close proximity to the House itself.

The donations received, and the works deposited under the Copyright law, during the past year, have been exceptionally numerous, as will appear from the lists here-

unto appended.

The number of volumes in the Library last year was estimated at 98,196. Since then, the total number has increased to about 100,800 volumes.

All which is respectfully submitted,

ALPHEUS TODD,

Librarian of Parliament.

LIBRARY OF PARLIAMENT, 9th February, 1882.

The House then adjourned.

# VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

# OTTAWA, FRIDAY, 10TH FEBRUARY, 1882.

PRAYERS.

The following Members having previously taken the Oath according to Law, and subscribed the Roll containing the same, took their seats in The House, viz:—

Hon. J. J. C. Abbott, Member for the Electoral District of Argenteuil,—and David Irvine, Esq., Member for the Electoral District of Carleton, N.B.

Eight Petitions were brought up, and laid on the Table.

The House proceeded to the consideration of His Excellency's Speech at the opening of the Session.

Mr. Bergeron moved, seconded by Mr. Guillet: -

1. That an humble Address be presented to His Excellency the Governor General to thank His Excellency for his gracious Speech at the opening of the present Session, and further to assure His Excellency,—that we feel with His Excellency that the hope he expressed at the close of the last Session, that on the re-assembling of Parliament we should be able to congratulate ourselves on a season of peace and prosperity has been fully realized:

2. That Canada has been favored with a year of great prosperity:

3. That her farmers have enjoyed a plentiful harvest and remunerative prices:
4. That her manufacturing and other industries have been and continue to be developed under favorable auspices:

5. That her trade and commerce have been steadily increasing, and peace and

order prevail within her borders:

6. And that for these various blessings we cannot be sufficiently thankful to the

Giver of all good things.

7. That the Chief Magistrate of the United States having been cut off by the hand of an assassin, we feel that it is fitting that the sorrow of our people for a loss which was not that of our friends and neighbors alone, should be adverted to by His Excellency as another instance of the sympathy which unites in brotherhood the British Empire and the American Republic.

8. That we learn with great satisfaction that during the recess His Excellency had the pleasure of visiting the Province of Manitoba, and of traversing the extensive prairies of the North-West, and is able, from personal examination, sincerely to congratulate Canada on the possession of so magnificent and fertile a region, to be

inhabited, we trust, in the course of years, by millions of thriving and contented subjects of Her Majesty.

- 9. That we recognize the fact that the immigrants have not confined themselves to Manitoba or its vicinity, but are scattered over the country westward to the base of the Rocky Mountains, and from the international boundary to the banks of the northern Saskatchewan; that we agree with His Excellency in thinking that the time has come for the division of the Territories into four or more Provisional Districts with an appropriate nomenclature, and that this subject, when submitted to us by His Excellency, will receive our attentive consideration.
- 10. That we are pleased to learn from His Excellency that during his journey he was met by numerous Indian tribes, all expressing confidence in the continuance of the traditional policy of kindness and justice which has hitherto governed the relations between the Government and the Aborigines, while we share His Excellency's regret that the necessity of supplementing the food supply of the Indians still exists and is likely to continue for some years.
- 11. That we are happy to know that every exertion has been made to settle the Indian Bands on Reserves, and to induce them to betake themselves to the raising of cattle and cultivating the soil, and that these efforts have met with a fair measure of success; but we are aware that we can only expect by a long continuance of patient firmness to induce these children of the Prairie and the Forest to abandon their nomadic habits, become self supporting, and ultimately add to the industrial wealth of the country, and that the influx of a white population has greatly increased the danger of collision between the settler and Red man; that we observe that His Excellency is of opinion, that an augmentation of the Mounted Police has been rendered a matter of urgency, and that our attention shall be given to the sanction of such increase as His Excellency may think it necessary to seek.
- 12. That we learn with satisfaction that the second report of the Commission appointed to investigate the existing system of the Civil Service will be laid before us; and that any measure on the subject submitted to us shall receive our willing consideration.
- 13. That we are aware that the decennial Census having been taken last year, the duty of reconsidering and readjusting the representation in the House of Commons is imposed upon us, and we will carefully consider any measure for the purpose which may be laid before us.
- 14. That we learn with much interest that several other measures of importance will be submitted to us, and that among them will be Bills for the winding-up of Insolvent Banks, Insurance Companies and Trading Corporations, for the consolidation and amendment of the Laws respecting the Dominion Lands, for the amendment of the Acts relating to the Supreme Court of Canada, and Bills relating to the tenure of office of the Judges of County Courts, and to Fugitive Offenders within the Empire; and that our attention will be called to the present anomalous position of the Vice-Admiralty jurisdiction; and that all these measures, when submitted, shall receive our best attention.
- 15. That we receive with much satisfaction the information which His Excellency has afforded us respecting the Canadian Pacific Railway, and are glad to know,—
- 16. That the work of construction on that portion of the said railway between Prince Arthur's Landing and Winnipeg is being pressed to completion, and that it is confidently expected that in July next railway communication will be established between those places; that the section between Rat Portage and Winnipeg, one hundred and thirty-five miles in length, has been completed and transferred under the terms of the contract to the Canadian Pacific Railway Company, by whom it is now operated; that considerable progress has been made on the Eastern Section, commencing at Callander Station, and that the vigorous prosecution of the work on that portion of the line during the present year has been provided for:

17. That in British Columbia the work upon the section between Savona's Ferry and Emory's Bar is being carried on, with every prospect of its completion within the time specified in the contract, and that the line from the latter place to Port Moody which has been carefully located during the past season is now being placed under contract with a view to its completion at the same date as the section from Savona's Ferry to Emory's Bar:

18. That upon the sections to be constructed by the Railway Company, the work has been most energetically carried forward. That during the past summer the road has been graded for the distance of two hundred and eighteen miles, and that of this, one

hundred and sixty-one miles are completed and open for traffic.

19. And that the Company have, in addition, graded eighty-nine miles of branch lines.

20. That we share the pleasure expressed by His Excellency in being able to state that the traffic on the Intercolonial Railway has largely increased, and that this line was during the last fiscal year, for the first time in its history, worked without loss to the country.

21. That we are glad to learn, that the works on the Welland Canal were so far advanced that the waters of Lake Erie we e introduced for its supply in June last, and that in September the new portion of the Canal between Allanburg and Port

Dalhousie was opened for traffic.

22. That we are pleased to know that a monthly line of steamers which has been subsidized under the authority of Parliament, is now plying between the Dominion and Brazil with good hopes of a mutually profitable trade.

- 23. That we shall read with great interest the Report of a Royal Commission issued to inquire into the question of factory labour, and into the best means of promoting the comfort and well being of the workingman and his family, without undue interference with the development of our manufacturing industries, which His Excellency is pleased to say will be laid before us, and shall give it our most earnest consideration.
- 24. That we thank His Excellency for the assurance that the Accounts of the last year will be laid before us: That it will be satisfactory to us to find that the Expenditure has been less and the Revenue considerably more than the Estimates of last year, leaving a surplus of over four millions of dollars: and that we thank His Excellency for informing us that a portion of this sum has been used in the reduction of the public debt by the redemption of matured debentures bearing six per cent. interest, and the remainder applied to the payment for public works chargeable to capital account; and that the necessity of issuing the Debenture Loan authorized by Parliament for those purposes has therefore been obviated.

25. That we shall respectfully consider the Estimates for the ensuing year which will also be submitted, and which will, we trust, be found to have been framed with due regard to economy and the efficiency of the public service.

26. That His Excellency may rest assured that we shall give our best attention to the several subjects mentioned by him, and to the general business which will come before us, and that we thank His Excellency for the expression of his full confidence in our patriotic desire and our ability to forward the best interests of the country.

And paragraphs 1 to 26, inclusive, of the said proposed Address being severally read a second time, were agreed to.

On motion of Sir John A. Macdonald, the said Resolution was referred to a Select Committee, composed of Sir John A. Macdonald, Sir Leonard Tilley, Sir Charles Tupper, Sir Hector L. Langevin, and Messrs Bergeron and Guillet.

Sir John A. Macdonald, from the said Committee, reported the draft of an Address, and the same being read a second time, was agreed to, and is as follows:—

To His Excellency the Right Honorable Sir John Douglas Sutherland Campbell, (commonly called the Marquis of Lorne), Knight of the Most Ancient and Most Noble Order of the Thistle, Knight Grand Cross of the Most Distinguished Order of Saint Michel and Saint George, Governor General of Canada, and Vice-Admiral of the same, etc., etc.

The Committee have also examined the notices given on the following Petitions, viz.:—Robert Campbell and others; praying that an Act may be passed to vest the Ministers, Widows and Orphans Fund of the Synod of the Presbyterian Church of Canada

On the Petition of the Synod of the Presbyterian Church of Canada, in connection with the Church of Scotland, and others; praying for an Act of incorporation under the name of "The Presbyterian Church of Canada, in connection with the Church of Scotland," the Committee find, that the notice is short in point of time, the necessity for such application having arisen in consequence of a judicial decision rendered so recently, as to make it impossible to do so before, and the proposed Bill being one of urgency, and of great importance, they therefore recommend that the notice be considered sufficient, and Rule 51, be suspended in relation thereto.

Mr. Blake —On Tuesday next—Resolution—That this House do forthwith resolve itself into a Committee of the Whole House to consider the following Resolution:—

That the future of the vast Territories of the North-West is largely dependent on

the supply of fuel at a moderate rate;

That the present information as to the Country and the Coal areas is not sufficient to warrant Parliament in creating long enduring interests in large quantities of the Coal areas;

That the Regulations as to coal lands laid on the Table make no provision for the application, as a general rule, of the just principle of public competition to the acquisition of those valuable lands, and thus leave open the door to disadvantageous cessions of the public domain for the benefit of individuals;

That the said Regulations make no adequate provision to check the consolidation of large blocks of the coal lands in few hands, and the consequent restriction of com-

petition and enhancement of the price of coal;

That the said Regulations make no provision to secure any working of the coal

mines by the lessee;

That the said Regulations provide, by the arrangement for 21 year leases, renewable, for the creation of interests of longer duration than prudence at this time would, as a general rule, lay down;

That they make no proper provision for the settlement of the terms of renewal; That the said Regulations do not become operative, if disapproved of by this

House; and the House is responsible for their coming into operation;

That this House disapproves of the said regulations.

Mr. Blake—On Tuesday next—Order of the House, for all correspondence concerning the Boat Licensing System, and its operation, as it affects the Georgian Bay, Ontario, any applications or correspondence on the subject of the formation of a Company, to become sole licensees of all or a large area of these Fishing Grounds, and copies of any Departmental or other action thereon.

3. The number of hands employed in each of these Factories in 1881, with the information before mentioned, as to sex and age, piece work, wages, remuneration and hours of labor.

Mr. Blake—On Tuesday next—Resolution—That in the opinion of this House the existing system of granting timber limits is liable to result in gross abuse, and in the cession of valuable interests in the public domain for inadequate consideration to favored individuals.

That it is expedient to apply the just principle of public competition to the

granting of timber limits.

Sir Albert J. Smith—On Monday next—Enquiry of Ministry—Whether it is the intention of the Government to make provision, during the present Session, for the construction of the Cape Tormentine Railway.

If not, whether it intends to apply this system, or an analogous one to the salaried officers in the Militia Service?

Mr. Houde—On Monday next—Enquiry of Ministry—Whether the Government considers the salaries now paid to the Deputy Adjutants-General, and to the Brigade-Majors in the Militia, as proportionally fair as those ordinarily paid to the employees in the Civil Service? If not, whether it proposes to increase the salaries of the above named Militia officers?

We. Your Majesty's most dutiful and loyal subjects, the Commons of Canada, in Parliament assembled, desire most earnestly, in our own name, and on behalf of the people whom we represent, to renew the expression of our unswerving loyalty and devotion to Your Majesty's person and Government.

1. We have observed, may it please Your Majesty, with feelings of profound regret and concern, the distress and discontent which have prevailed for some time

among Your Majesty's subjects in Ireland.
2. We would respectfully represent to Your Majesty that your Irish subjects in the Dominion of Canada are among the most loyal, most prosperous, and most con-

tented of Your Majesty's subjects.

3. We would further respectfully represent to Your Majesty that the Dominion of Canada, while offering the greatest advantages and attractions for those of our fellow-subjects who may desire to make their homes amongst us, does not receive that proportion of emigrants from Ireland which might reasonably be expected, and that this is due, in a great measure, in the case of those of our Irish fellow-subjects who have sought foreign homes, to their feelings of estrangement towards the Imperial Government, whom they consider responsible for the existing state of affairs in their native country.

4. We would further most respectively represent to Your Majesty, that in the interests of this, your loyal Dominion and of the entire Empire, it is extremely to be desired that Your Majesty may not be further deprived in the development of Your Majesty's possessions on this continent of the valuable aid of those of Your Majesty's Irish subjects who may feel disposed to leave their native land to seek more prosper-

ous homes.

5. We would most respectfully pray, may it please Your Majesty, that some such form of local self-Government may be extended to Ireland, as is now enjoyed by the Provinces comprising this Dominion of Canada, and under which Your Majesty's Canadian subjects have prospered exceedingly, so that Ireland may become a source of strength to Your Majesty's Empire and that Your Majesty's Irish subjects at home and abroad, may feel the same pride in the greatness of Your Majesty's Empire, the same veneration for the justice of Your Majesty's rule and the same devotion to, and affection for our common flag which are now felt by all classes of Your Majesty's loyal subjects in this Dominion.

6. We would further most respectfully pray that Your Majesty would be graciously pleased to take into Your Majesty's favorable consideration the cases of those persons who are now suffering imprisonment in Ireland, charged with political offences with a view to extending to them Your Most Gracious Majesty's Royal elemency so that with their release, the inestimable blessings of civil liberty may be

once more restored to all parts of Your Majesty's Empire.

We pray that the blessings of Your Majesty's reign may for your people's sake

be long continued.

Resolved,-That the future of the vast Territories of the North-West is largely

That the present information as to the Country and the Coal areas is not sufficient to warrant Parliament in creating long enduring interests in large quantities of the Coal areas:

That the Regulations as to coal lands laid on the Table make no provision for the application, as a general rule, of the just principle of public competition to the acquisition of those valuable lands, and thus leave open the door to disadvantageous cessions of the public domain for the benefit of individuals;

That the said Regulations make no adequate provision to check the consolidation of large blocks of the coal lands in few hands, and the consequent restriction of com-

petition and enhancement of the price of coal;

That the said Regulations make no adequate provision to secure any working of the coal mines by the lessee;

That the said Regulations provide, by the arrangement for 21 year leases, renewable, for the creation of interests of longer duration than prudence at this time would, as a general rule, lay down;

That they make no proper provision for the settlement of the terms of renewal; That the said Regulations do not become operative, if disapproved of by this

House; and The House is responsible for their coming into operation;

Fleming,

That this House disapproves of the said Regulations; which was negatived on a division.

Mr. Blake moved, that it be Resolved, That in the opinion of this House the existing system of granting timber limits is liable to result in gross abuse, and in the cession of valuable interests in the public domain for inadequate consideration to favored individuals.

That it is expedient to apply the just principle of public competition to the granting of timber limits; which was negatived on the following division:—

Mr. Blake-On Wednesday next-Resolutions:

That it appears from papers laid on the Table that Chief Post Office Inspector Dewe, in April, 1880, made an enquiry into the accounts of the London Post Office, on which the following facts were disclosed:—

Since November, 1876, there had been no regular count of the stamps on hand at the end of each month, while the entries in the returns made to the Department had

been very large, averaging for each month of 1877, \$1,140, and 1880, \$1,667.

The Postmaster had claimed by his last return to have on hand \$1,262.23 in stamps, more than upon the enquiry he could produce or account for. Both the Postmaster and Mr. Dawson, the Deputy Postmaster, admitted that there was a serious deficiency in the stamps, which had existed for some years past, and that contrary to the regulations, stamps had been sold for cash which had not been accounted for to the Department.

To conceal this deficiency much larger amounts had been certified in the monthly statements, under the item "stamps on hand," than were actually in the Postmaster's possession, and "to meet requirements," stamps had been from time to time borrowed from neighboring Postmasters, of which borrowed stamps over \$100 worth

were included in the amount then actually on hand.

The Money Order and Savings Bank Department shewed a further deficiency of \$281.21, which both the Postmaster and Deputy Postmaster admitted had existed for some time; and it had been concealed from the Department by the receipts of one day being used to make up the balance due on account of the receipts of the previous day.

That on the 26th April, 1880, the Postmaster General notified the Postmaster and the Deputy Postmaster, Mr. Dawson, that they were suspended from duty, and

called on them to give any explanation on the subject of the report.

That Mr. Dawson, in his reply, referred to the stamp irregularities, and referring to the deficit, said: "I impressed on Mr. Lawless again and again the utmost neces"sity of setting that matter right, as it was very unpleasant, and placed me in a "wrong position;" but he made no reference to the Money Order and Savings' Bank irregularities.

That the Postmaster stated that "for many years past, I trusted the money "matters of the Post Office almost entirely to the Deputy Postmaster," and that "the "deficiency in the Money Order Office was paid in part by Mr. Dawson, and partly

" by myself"

That on the 22nd May, 1880, the Secretary of the Post Office Department informed Mr. Dawson "that the Postmaster-General highly disapproves of the course "you have taken in lending yourself to the concealment of the irregularities in question; but that in hope that you will have a better sense of your responsibilities "in the future, he is willing to remove your suspension and restore you to your "position as Assistant Postmaster;" and on the same day the Postmaster was also restored.

That on the 21st September, 1880, Mr. Inspector Dewe was directed to enquire into the condition of the London Post Office, and on the 14th December he reported

the results of his enquiry, disclosing the following facts:-

There was an entire absence of controlling and directing power. The Postmaster though a well-meaning man, seemed to be entirely destitute of those qualities which are necessary to the proper management of a large and important Post Office, and in the essential work of supervision he did little or nothing, and very serious results had

That the Inspector further reported as follows:-

"The Assistant Postmaster, Mr. Dawson, though a much younger man, unfortunately does not possess those qualifications which might enable him in some

degree to make up for the deficiencies of his superior officer.

"He attends to the sale of stamps, makes up the accounts and assists the money order and savings bank branch, but as regards supervision, he does very little more than the Postmaster, and the work of the office thus left as it were without any proper control, is dependent almost altogether on the honesty, intelligence and industry of the several clerks employed."

That the Inspector further stated: "With the object of placing the office on a satisfactory footing, I would respectfully recommend that Mr. Lawless the Postmaster should be superannuated, and that in the place of Mr. Lawless should be appointed a thoroughly reliable man, competent in every respect properly to direct and control

the general work."

That on the 28th March, 1881, pursuant to a recommendation of the Postmaster General, with a view to promote the efficiency and economy of the public service, and to reduce the aggregate cost of carrying on the Post Office service, Mr. Lawless was ordered to be superannuated at \$1,160 per annum.

That on the 1st June, 1881, pursuant to a recommendation of the Postmaster General, dated 19th May, 1881, Mr. Dawson, then Assistant Postmaster, was appointed

Postmaster at London, at a salary of \$1,800.

That in the opinion of the House, the efficiency and interests of the public service were prejudiced by the advice to promote to the important office of Postmaster, at London, a man who had so recently been found unfaithful and incompetent for the duties of Assistant Postmaster, in that office; and that this House regrets the giving of such advice.

Mr. McLelan-On Wednesday next-Committee of the Whole, to consider the following Resolution:-

That it is expedient to amend the Act 35 Victoria, Chapter 42, providing for the

appointment of a Harbor Master at the Port of Halifax:-

1. By so readjusting the fees payable under the said Act on ships entering the said Port, that they shall not exceed the following rates, viz.:-

2. By altering the times of payment of such duty, so that ships not over 100 tons shall pay it only once and ships over 100 tons not more than twice in any calendar year.

Mr. Bechard-On Wednesday next-Order of the House for a List of all persons appointed as Tobacco Inspectors under the Act 42 Victoria, Chapter 19, together with a Statement of the salary and expenses paid to each of them in the discharge of his duties.

Mr. Mousseau laid before The House,—General Order No 80, of the Supreme Court of Canada, in compliance with the provisions of Section 79 of the Supreme and Exchequer Court Act.

Sir Leonard Tilley moved, that Mr. Speaker do now leave the Chair, for The House to go again into Committee of Supply.

Mr. Mackenzie moved in amendment, that Mr. Speaker do not now leave the Chair, but that it be Resolved, That from a Return laid on the Table of The House by the Minister of Railways, it appears that tenders were invited on the 24th of October for the construction of part of the Canadian Pacific Railway from Port Moody to Emory's Bar; such tenders to be received up to the first day of February, last; and that 14 tenders were received varying from \$2,277,000 to \$3,531,832, and that the lowest tender was that of Messrs. Macdonald and Charlebois for \$2,277,000, and that the next lowest that of Andrew Onderdonk for \$2,486,255 or \$209,255 higher:—

That it appears that with their tender Macdonald and Charlebois sent a cheque for \$20,000, the sum mentioned in the conditions, dated on the 23rd day of January, last; drawn on the Bank of Montreal, which cheque was accepted by the said Bank, but the acceptance stamp contained the words "Good for two days only."

That it appears by letter from Mr. Clouston, the Manager of the Bank of Montreal that "the limit of two days only" was unintentional, and as it was simply "an oversight, that this was not at once struck out. It was certainly our intention

"to guarantee the cheque until paid."

That it appears by letter of Mr. Drummond, Manager of the Bank of Montreal at Ottawa, that he explained to the Department of Railways and Canals, that the limitation on the acceptance stamp on the cheque had been inserted by the Bank

inadvertently, and without its being known when issued :-

That it appears from a statement of A. P. Bradley, Private Secretary of the Minister of Railways and Canals, and of Andrew Drummond that pursuant to instructions of the Minister, given him on Saturday, February 4th, Mr. Bradley called on Mr. Drummond at half-past ten in the morning of Monday, February 6th, and handed him the said cheque, asking him whether he would pay it, or whether it was still good, to which Mr. Drummond replied that he must enquire at the Head-Office, on which the cheque was drawn, and that it was then arranged between them that such enquiry should be made, and further that enquiry should be made as to how long it would be held good, and Mr. Bradley franked a blank telegram for the purpose, which Mr. Drummond filled in, and despatched:—

That it appears that a telegraphic reply was received from the Head-Office, as

follows:-

"Please strike out "for two days only," from our acceptance stamp, the cheque

" will be good until paid."

That it appears that Mr. Drummond at one o'clock on the said 6th of February handed this telegram to Mr. Bradley, who requested that it should be left with him, and that it was so left accordingly, and that Mr. Bradley on the same day handed it to the Minister of Railways and Canals:—

That it appears that on the 6th of February, the Minister was in possession of the answer to his enquiry and knew that the restriction in the acceptance stamp so inadvertently placed there, was not held binding by the Bank, and that it was to be

struck out, and that the cheque was and would be held good until paid :-

That it appears that on the 7th day of February, the Minister reported to Council that "the tender of Macdonald and Charlebois which was the lowest is irregular "inasmuch as the cheque which accompanies it, was marked by the Bank of Montreal on "the 24th of January, 1882, as good for two days only, and that the lowest tender "made in conformity with the conditions is that of Mr. Andrew Onderdonk for "\$2,486,255," and recommending the acceptance of the latter:—

That it appears that on the 8th day of February, an Order in Council was passed, based on, and according to the said recommendation awarding the contract to the

said Onderdonk: -

That the Report of the Minister to Council does not state the facts hereinbefore set out as to his enquiries about the cheque and the results of such enquiry,—

That no enquiries were made or communication addressed to Macdonald and

Charlebois on the subject before the said Order in Council: -

That on the 10th of February, in response to an application from Macdonald and Charlebois, the Secretary of the Department of Railways and Canals, informed them that their tender could not be considered for want of cheque marked good, as required by specification:—

That it appears that on a Petition from Macdonald and Charlebois, a reconsideration of the matter took place, when the Council determined to adhere to the

previous decision :-

That the contract laid on the Table, and executed in pursuance of the said Order in Council between the said Andrew Onderdonk is not binding, if disapproved by this House:—

That by maintaining the decision to reject the tender of Macdonald and Charlebois, and award the contract to the said Andrew Onderdonk, a sum of \$209,255 will be lost to the country :-

That under the circumstances stated the tender of Macdonald and Charlebois

should be accepted, and the said sum of \$209,255 saved :-

That this House cannot approve of the said contract with the said Andrew Onderdonk, whereby the said sum of \$209,255 will be lost to the country :-- which was negatived on the following division :-

### REPORT OF THE SUB-COMMITTEE.

COMMITTEE ROOM,

21st February, 1882.

The Sub-Committee of the Joint Committee on the Printing of Parliament, to whom was referred the audit of the Printing Accounts for the past year, beg leave to report as follows:—

That they have carefully examined the annual Statement of the Parliamentary Printing Accounts, and having verified the expenditure by the accounts and vouchers as well as by the cheques which were issued in payment of the same, and being thus satisfied of their correctness, have so certified and signed their names.

The Sub-Committee would draw especial attention to the fact that these accounts,

vouchers and cheques had already been furnished the Auditor-General monthly, as well as the annual statement for audit and examination, and have been certified to as per his letter annexed to the annual Statement.

The Sub-Committee have much pleasure in again drawing attention to the further reduction effected under the supervision of the Committee in the cost of the printing

services of the past year, amounting to \$5,572.02.

This result has been attained by the care taken in not printing returns of a private or local nature which do not affect the public welfare, as also by the very favorable prices which pertain in the present contracts.

Under the above circumstances, the Sub-Committee concur in the recommenda-

tion that the Estimates for the next year be reduced by \$10,000.

All which is respectfully submitted.

### REPORT OF THE CLERK OF THE COMMITTEE.

COMMITTEE ROOM,

16th February, 1882.

To the Chairman and Members of the Joint Committee on Printing.

Gentlemen,—In submitting the usual annual Statement shewing the expenditure for the Printing of Parliament, I would draw attention to the further decrease in the

cost for the past year of \$5,572.02.

The reductions in the two past years are to be attributed, in the first place, to a diminution of the quantity of work to be performed as recommended by the Committee, and, secondly, in a much larger degree, to the very material difference in the prices which prevail under the present contract as compare with those of the previous one.

Under the circumstances I have felt justified in asking that the Estimate for the Parliamentary Printing for the next year be reduced by \$10,000, subject to the appro-

bation of the Committee.

The annual Statement was submitted to the Auditor-General for examination, he having previously been furnished monthly with all the accounts and vouchers that had passed through my hands, as well as the cheques issued by me in payment of those same accounts. The only difference between us, as shown by his letter appended, is the application of the money paid by parties for the printing of their Private Bills, he treating it as "Casual Revenue," while I charge it as a "Refund" for the purpose for which it was intended, viz.: for reducing the cost of Private Bill Legislation. The accounts, vouchers and cheques are still in the custody of the Auditor-General.

The several services have been performed in the usual satisfac ory manner; no complaints have been made to me.

I have the honor to be,

Your obedient and humble servant,

HENRY HARTNEY,
Clerk, Joint Committee on Printing.

PRAYERS.

Fifteen Petitions were brought up, and laid on the Table.

Sir Hector Langevin laid before The House,-Memorandum, with accompanying plans and documents relative to the past and present state of the Harbor of Toronto, Province of Ontario, prepared by direction of the Hon. Sir Hector Langevin, C.B., Minister of Public Works, -and Report on the Toronto Harbor, Ontario, by James B. Eads, C.E., 1882.

Mr. Boultbee, from the Select Standing Committee on Miscellaneous Private Bills, presented the Ninth Report of the said Committee, reporting the following Bills, with amendments, viz. :-

Bill No. 75, to incorporate the International Construction Company.

Bill No. 15, to incorporate the Winnipeg and Springfield Bridge Company.

Bill No. 42, to incorporate the Richelieu Bridge Company ;—and the

Bill No. 105, to amend the Charter of the Fellows' Medical Manufacturing Com pany, without amendment.

Sir Leonard Tilley moved, that Mr. Speaker do now leave the Chair, for The House to go again into Committee of Supply.

Mr. Charlton moved in amendment, that Mr. Speaker do not now leave the

Chair, but that it be

Resolved,-That the present Land Regulations provide that odd numbered Sections in the Canadian North-West, outside of the Canadian Pacific Railway Belt,

shall be open to sale without conditions of settlement.

That the so called Colonization Plan No. 1, provides that parties may purchase large tracts of land on credit at \$2 per acre, with a proviso for the rebate of one half of the price on certain conditions, thus reducing the cost to \$1 per acre; or one half the price charged to individual settlers for their preemptions, or other purchases in odd Sections.

That the so called Colonization Plan No. 2 provides that parties may purchase large tracts embracing all the Government lands within their area (from which homestead and preemption settlers are thus to be excluded), paying \$2 per acre, without any express conditions of forfeiture in case of non-settlement, and with the additional advantage of a large rebate, amounting under certain conditions to \$1 per acre from the price, in case the purchasers choose to effect a so called settlement within each Township, but without any provision as to the acreage to be given, or the interest to be secured to each so called settler.

That these Regulations are calculated injuriously to affect the future of the country by facilitating the creation of large landed estates; by placing ex-tendered acres of the choicest lands in the hands of speculators, who have favorable opportunities of securing them in anticipation of the settler, and who may hold them for a large advance to be paid by the ultimate settler, whereby the country will gain nothing in price, and will lose through the diminished ability of the settler to contri-

bute to the public revenues.

That in the opinion of this House our aim should be to people the agricultural regions of the North-West with independent freeholders, each cultivating his own farm, and paying therefor no more than the public treasury receives; and that, save in the case of town plots, or other exceptional cases, the sale of North West Agricultural lands should as a rule be made to actual settlers only, on reasonable conditions of settlement, and in quantities limited to the area which can be reasonably occupied by a settler.

And a Debate arising thereon;—at 6 o'clock P.M., Mr. Speaker left the Chair,

to resume the same at half past seven o'clock, P.M.

7.30 P.M.

3. Inserting after the 14th clause a proviso to the effect following:—Provided, also, that whereas inventions, improvements and economies in telegraphy may hereafter result in a great diminution in the cost of the service, so that the maximum rate herein provided may become wholly exorbitant, no Act of Parliament passed in that event and reducing accordingly the maximum rate herein provided, shall be

# VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

# OTTAWA, FRIDAY, 14TH APRIL, 1882.

PRAYERS.

Four Petitions were brought up, and laid on the Table.

The following Petitions were read and received :-

Of Enos C. Freeman and others, of Sable River, County of Shelburne, Nova Scotia; praying that the House may not pass any Amendments of a nature to impair the operation of the Canada Temperance Act, but that the said Act be maintained in its integrity, and that only such changes as may be necessary to make it more

effective, be made.

Of the Professors and Students of the Presbyterian College of Montreal; of John Bell and others, of Elma; of the Reverend John McClung and others, of North and South Easthope, County of Perth; of Robert Harrison and others, of Ashfield; of John Dunkin and others, of the Township of Stanley; of J. Smith and others; of James Hamilton and others; and of the Reverend Thomas Jackson and others, all of Amherstburg, County of Essex; severally praying for the adoption of such measures as will prevent the running of Railway Trains on the Lord's Day.

The Petition of William Mitchell, of Charlottetown, P.E.I., praying that an enquiry may be made as to the cause of his dismissal from the office of Agent of the Department of Marine and Fisheries, and that justice may be done him in the premises, being read;

Mr. Speaker decided,-" that as this Petition contains several Appendices, it

cannot be received."

Mr. Domville, from the Select Standing Committee on Banking and Commerce, presented the Seventh Report of the said Committee, reporting the following Bills'

without amendments, viz. :-

Bill No, 113, from the Senate, intituled: "An Act to amend the Act incorporating "The Canadian Steam Users Insurance Association," and to change the name of the said Company to "The Boiler Inspection and Insurance Company of Canada;—and

Bill No. 138, to authorize the "Canada Co-operative Supply Association

(Limited)," to issue Preferential Shares;—and the

Bill No. 133, from the Senate, intituled: "An Act to incorporate the Western Bank of Canada;" with amendments.

The Bill No. 49, to amend the Act intituled: "An Act relating to interest on moneys secured by Mortgage of real estate," they beg to report that the Preamble is

not proven, as in their opinion the proposed measure is ultra vires.

The promoters of Bill No. 33, to incorporate The Mutual Benefit Association of Sherbrooke, having expressed their intention of not proceeding with the said Bill, the Committee recommend that it be withdrawn, and that the fee and charges paid thereon be re-funded, less the cost for printing and translation.

On motion of Mr. Brooks, the fee and charges on the said Bill, less the cost of printing and translation, were ordered to be re-funded, and the Bill to be withdrawn in accordance with the recommendation of the last mentioned Report.

Mr. Cameron (Huron), from the Select Committee on the Bill No. 10, to provide that persons charged with misdemeanors, shall be competent as witnesses,—and to which was referred the Bill No. 50, to enable any person charged with an indictable offence, to be admitted to give evidence on his own behalf, reported that they had combined the provisions of the two Bills, into one Bill, with amendments.

Mr. Mousseau presented the following Returns, viz:-

Return to Address of the 20th February, last; for copies of all Correspondence with reference to any Commission issued by the Local Government of Manitoba, affecting the mode of administering justice in that Province.

Copy of such Commission and of the proceedings thereunder ; -and

Supplementary Return to an Order of The House of the 20th December, 1880; for copies of the papers which have been from time to time furnished the Government in support of the claim of *Henry A. P. Holland*, to the Castle Garden property, Quebec.

On motion of Sir Leonard Tilley it was Resolved,—That The House, on Tuesday next, do resolve itself into a Committee of the Whole, to consider the following

Resolution :-

Resolved,—That it is expedient, that an annual grant of \$150,000 be made, to aid in the development of the Sea Fisheries, and the encouragement of the building and fitting out of improved fishing vessels, and the improvement of the condition of the Fishermen.

Whereupon Sir John A. Macdonald informed The House, that His Excellency the Governor General having been informed of the subject matter of the said Resolution, recommends it to The House.

Sir Leonard Tilley moved, that Mr. Speaker do now leave the Chair, for The House to go again into Committee of Supply.

Mr. Cameron (Huron) moved in amendment, that Mr. Speaker do not now leave

the Chair, but that it be

Resolved,—That in the opinion of this House, the power of disallowing Acts of a local nature conferred by "The British North America Act 1867," is vested in the Governor General in Council, and that His Excellency's Ministers are responsible to Parliament for the action of the Governor General in exercising or abstaining from the exercise of the said power.

That it is of the essence of Federal principle as embodied in our constitution that the said power should be used only in cases where the law and the general interests

of the Dominion imperatively demand it.

That it would impair the Federal principle and the independence, constitutional powers, autonomy and institutions of the several Provinces to allow of the exercise of the said power in regard to legislation on subjects within the exclusive competence of the Local Legislatures on the ground that in the opinion of His Excellency's advisers or of the Canadian Parliament any such legislation is wrong.

That the question of propriety is under the constitution one to be decided exclusively by the Local Legislature on its responsibility to the people of the Province who are the sole judges of such action.

That the only exception which has heretofore been proposed in such cases is

where the measure prejudicially affects the interests of the Dominion generally.

That it has been the rule ever since 1868 not to exercise the power of disallowance on the ground that a measure is considered only partially defective or objectionable as being prejudicial to the general interests of the Dominion without communication with the Provincial Government nor (if the general interests permit such a course) until after the Local Government has an opportunity of considering and discussing the objections taken and the Local Legislature has also had an opportunity of remedying the defects found to exist.

That it appears from the papers laid on the Table of this House that an Act passed by the Legislature of Ontario on the 4th March, A.D. 1881, and intituled: "An Act for protecting the Public interests in rivers, streams and creeks," was disallowed by His Excellency in Council on the 19th day of May, A.D. 1881, by Order approving a Report which does not assert that the said Act is beyond the competence of the Local Legislature but expresses an opinion adverse to the propriety of certain provisions of the Act.

That the said Act was within the exclusive competence of the Local Legislature and was not of such a nature as to render its provisions subject to the judgment of or

disallowance by the Government of Canada.

That the Minister of Justice and the Government of Canada had under these circumstances no right to act on their opinion whatever it might be as to the pro-

priety or impropriety of the said Act.

That it appears from the papers that no communication was had with the Government of Ontario on the subject of the said Act prior to the disallowance, nor was any opportunity given to the Government of considering or discussing the objections, or to the Legislature of Ontario to deal with the alleged defects.

That the papers laid on the Table show the importance of such communication; and the danger of action by the Minister of the exparte statement and argument of a

Petitioner against the Act.

That the said exercise of the power of disallowance was not in accordance with the principle of the constitution, and that the said Act should have been left to its operation.

And a Debate arising thereon;—at 6 o'clock P.M., Mr. Speaker left the Chair, to resume the same at half-past seven o'clock, P.M.

7.30 P.M.

Sir Leonard Tilley moved, that Mr. Speaker do now leave the Chair, for The

House to go again into Committee of Supply.

Mr. Costigan moved in amendment, that Mr. Speaker do not now leave the Chair, but that it be Resolved,-That an humble Address be presented to the Queen's Most Excellent Majesty, in the following words :-

## Most Gracious Sovereign:

We, Your Majesty's most dutiful and loyal subjects, the Commons of Canada, in Parliament assembled, desire must earnestly, in our own name, and on behalf of the people whom we represent, to renew the expression of our unswerving loyalty and devotion to Your Majesty's person and Go ernment.

1. We have observed, may it please Your Majesty, with feelings of profound regret and concern, the distress and discontent which have prevailed for some time

among Your Majesty's subjects in Ireland.

2. We would respectfully represent to Your Majesty that Your Irish subjects in the Dominion of Canada are among the most loyal, most prosperous, and most con-

tented of Your Majesty's subjects.

3. We would further respectfully represent to Your Majesty that the Dominion of Canada, while offering the greatest advantages and attractions for those of our fellow-subjects who may desire to make their homes amongst us, does not receive that proportion of emigrants from Ireland which might reasonably be expected, and that this is due, in a great measure, in the case of many of our Irish fellow-subjects who have sought foreign homes, to their feelings of estrangement towards the Imperial Government.

4. We would further most respectfully represent to Your Majesty, that in the interests of this, Your loyal Dominion and of the entire Empire, it is extremely to be desired that Your Majesty may not be deprived in the development of Your Majesty's possessions on this continent of the valuable aid of those of Your Majesty's Irish subjects who may feel disposed to leave their native land to seek more prosper-

ous homes.

5. We desire respectfully to suggest to Your Majesty, that Canada and its inhabitants have prospered exceedingly under a Federal system, allowing to each Province of the Dominion considerable powers of self-government, and would venture to express a hope that if consistent with the integrity and well being of the Empire, and it the rights and status of the minority are fully protected and secured, sure means may be found of meeting the expressed desire of so many of Your Irish subjects in that regard, so that Ireland may become a source of strength to Your Majesty's Empire, and that Your Majesty's Irish subjects at home and abroad may feel the same pride in the greatness of Your Majesty's Empire, the same veneration for the justice of Your Majesty's rule, and the same devotion to, and affection for, our common flag, as are now felt by all classes of Your Majesty's loyal subjects in this Dominion.

6. We would further express a hope that the time has come when Your Majesty's clemency may without injury to the interests of the United Kingdom be extended to those persons, who are now imprisoned in Ireland charged with political offences only, and the inestimable blessing of personal liberty restored to them.

We pray that the blessings of Your Majesty's Reign may, for Your people's

sake, be long continued.

And a Debate arising, -and The House having continued to sit after 12 of the clock, midnight;

FRIDAY, 21st APRIL, 1882.

# VOTES AND PROCEEDINGS, HOUSE OF COMMONS,

## OTTAWA, FRIDAY, 21st APRIL, 1882.

PRAYERS.

Three Petitions were brought up, and laid on the Table.

Sir Hector Langevin, from the Select Standing Committee on Railways, Canals, and Telegraph Lines, presented the Fourteenth Report of the said Committee, reporting the following Bills, with amendments, viz.:—

Bill No. 139, to incorporate the Rapid City Central Railway Company.

Bill No. 94, to incorporate the Great American and European Short Line Railway Company,—and

Bill No. 132, from the Senate, intituled: "An Act to incorporate the Montreal

and Central Canada Railway Company."

With reference to Bill No. 94, the Committee have amended the Preamble thereof, to make it conform with the provisions, contained in the said Bill,—and the Bill No. 83, to incorporate the Saskatchewan, Qu'Appelle and Assiniboine Navigation Company,—and the Bill No. 91, to amend the Act to incorporate the St. Lawrence and Pacific Railway Ferry Company, the promoters thereof having signified their intentions of not proceeding with them, the Committee would recommend that they be withdrawn, and the fees and charges paid thereon, less the cost of printing and translation, be re-funded.

Bill No. 93, to incorporate the Grand Central Station Company, they beg to report the Preamble thereof not proven, for the reason that legislative interference is neither desirable nor necessary, and therefore recommend that the fee and charges

paid thereon, be re-funded, less the cost of printing and translation ;—and

Bill No. 58, to provide that Railway Passenger Tickets shall be available to the holder thereof until used, the Committee recommend, that it be withdrawn.

On motion of Sir Hector Langevin, the Bills Nos. 83 and 91, were accordingly withdrawn, and the fees and charges paid thereon, less the cost of printing and translation ordered to be re-funded, in accordance with the recommendation of the said Committee.

On motion of Sir Hector Langevin it was Ordered,—That the Preamble of Bill No. 93 having been reported as not proven by the said Committee, the fee and charges paid thereon, less the cost of printing and translation be re-funded, as recommended by the said Committee.

Mr. Guthrie introduced a Bill No. 147, to annul unjust conditions in Bills of Lading; which was read the first time, and ordered for a second reading, on Monday next.

Sir Leonard Tilley moved, that Mr. Speaker do now leave the Chair, for The House to go again into Committee of Supply.

Mr. Blake moved in amendment, that Mr. Speaker do not now leave the Chair, but that it be Resolved, That Canada no longer occupies the position of an ordinary dependency of the Crown; she numbers 4 Millions of freemen trained in the principles of constitutional Government; she comprises one half of the North American Continent, including seven Provinces federally united under an Imperial Charter, which recites that her constitution is to be similar in principle to that of the United Kingdom; and that she possesses executive and legislative authority over vast areas in the North-West, out of which one Province has already been created, and in time others will be

That special and increasing responsibilities devolve upon the Government and Parliament of Canada in connection with the development of her resources, the improvement of her condition, her general progress in the scale of Nations, and her geographical situation which renders her even more responsible, than the Government of the United Kingdom for the maintenance of International relations with the United States.

That having regard to these considerations, there is no possession of the Crown, beyond the limits of the United Kingdom which is entitled to such an ample measure of self-Government, or so full an application of the principles of constitutional freedom, as the Dominion of Canada.

That it would be for the interest of Canada to obtain freer access to the markets of the world; and that a more extended interchange of commodities with other

countries would augment the national prosperity.

That in most of the treaties of Commerce entered into by England, reference has only been had to their effect on the United Kingdom, and the Colonies have been excluded from their operation, a fact which has been attended with unfortunate

results to Canada, especially as relates to France.

That the conditions of Canada, and the system on which her duties of Customs have been, and are now imposed, vary widely from those existent in the United Kingdom, and open to the basis and negotiation of commercial arrangements with other States or British possessions, views and considerations which do not apply to the case of, or harmonize with the policy of the United Kingdom; which it is difficult for the Government of the United Kingdom to advance; and which can be best realized and presented by the Government of Canada through a negotiator named by her for the purpose of providing separate trade conventions with countries, with which Canada has, or may expect distinct trade.

That the complications and delays involved in the reference to the Departments of the Government of the United Kingdom of points arising in the course of trade negotiations enhance the difficulties of the situation, and diminish the chances of

success; and have already resulted in loss to Canada.

That it is expedient to obtain all necessary powers to enable Her Majesty, through Her representative, the Governor General of Canada, acting by and with the advice of the Queen's Privy Council for Canada, to enter by an agent or representative of Canada, into direct communication with any British possession or Foreign State, for the purpose of negotiating commercial arrangements, tending to the advantage of Canada, subject to the prior consent, or the subsequent approval of the Parliament of Canada signified by Act.

And a Debate arising;—at 6 o'clock P.M., Mr. Speaker left the Chair, to resume the same at half-past seven o'clock, P.M.

7.30 P.M.

A Message was received from the Senate, agreeing to the following Bills, without amendment, viz.:—

Bill No. 81, relating to the Canada Southern Bridge Company.

Bill No. 76, to amend the Act to incorporate the South Saskatchewan Valley Railway Company;—and

Bill No. 68, further to amend the Act incorporating the Souris and Rocky Moun-

tain Railway Company.

Also,—agreeing to the following Bills, with amendments, viz.:--

Bill No. 86, to amend the Act incorporating the Pontiac Pacific Junction Railway Company, and to authorize the said Company to erect a bridge over the River Ottawa. (To be taken into consideration, on Monday next);—and

Bill No. 8, respecting the Commercial Travellors' Association of Canada. (To be

taken into consideration, on Monday next.)

The following Bills were severally considered in Committee of the Whole, reported, read a third time, and passed, viz.:—

Bill No. 80, respecting the River St. Clair Railway Tunnel Company.

Bill No. 95, to amend the Act incorporating "The Bell Telephone Company of Canada."

Bill No. 97, to incorporate the Calais and St. Stephen Railway Bridge Company;

-and

Bill No. 114, respecting the Quebec, Montreal, Ottawa and Occidental Railway.

The Bill No. 35, for amending the Acts relating to "The Trust and Loan Company of Canada," and for enlarging the powers of the said Company, was considered in Committee of the Whole, and reported.

And the question being put,-that the said Bill be now read a third time;

Mr. Wallace (Norfolk) moved in amendment, that the Bill be recommitted to a Committee of the Whole, with instructions that they have power to amend the same, by inserting the words "not exceeding 8 per cent per annum" after the word "whatsoever" in Section 3 of the said Bill; which was agreed to on the following division:—

# NOTICES OF MOTIONS.

Mr. Robertson (Hamilton)—In Committee of the Whole on Bill (No. 10) An Act to provide that persons charged with misdemeanor shall be competent as Witnesses,

-That the following clauses be added to the same, viz. :-

7. If any person called to give evidence in any criminal proceeding, or in any civil proceeding, in respect of which the Parliament of Canada has jurisdiction in this behalf, objects to take an oath or is objected to as incompetent to take an oath, such person must, if the presiding Judge is satisfied that the taking of an oath would have no binding effect on his conscience, make the following solemn promise and declaration:

"I solemnly promise, affirm and declare that the evidence to be given by me

shall be the truth, the whole truth, and nothing but the truth."

# VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

# OTTAWA, MONDAY, 1st MAY, 1882.

PRAYERS.

Two Petitions were brought up, and laid on the Table.

The Petitions of Thomas Winfield, and others, fruit dealers of the City of Toronto,—and of Messrs. Vipond, McBride and Company, and others, fruits dealers of the City of Montreal, were read and received; severally praying that the duties imposed on oranges, lemons, limes, bananas and pine-apples, may be abolished.

Mr. Kirkpatrick, from the Select Standing Committee on Public Accounts,

presented the Third Report of the said Committee, which is as follows:-

The Committee have had before them, in connection with the item (shewn on page 118 part II of the Public Accounts for the fiscal year ended, 30th June, 1881) of \$1,000.37, payment on account of superannuation allowance to Alexander McNab, C.E., formerly Engineer in Chief of the Prince Edward Island Railway, the correspondence, Reports and other papers relating to the superannuation of that gentleman, and append the same hereto, for the information of The House.

(For the said correspondence, Reports and other papers, see Appenlix No. 1.)

On motion of Mr. Stephenson, the Sixth Report of the Joint Committee of both Houses on the Printing of Parliament, was concurred in.

Bill No. 19, to incorporate the St John's Bridge Company.

Bill No. 15, to incorporate the Winnipeg and Springfield Bridge Company ;-

Bill No. 42, to incorporate the Richelieu Bridge Company.

Mr. Blake moved, that The House do now resolve itself into a Committee of the

Whole, to consider the following Resolution :-

That the present system of administering the Dominion Lands situate along the lines of Railway is likely to result, practically, in the acquisition by the Railway Companies of almost all the enhanced value, not merely of their own lands, but also of the Dominion lands in immediate proximity to Stations on such Railways; and

that steps should be taken with a view to secure to the public, as far as practicable such enhanced value in cases of Stations hereafter to be established.

And a Debate arising thereon,-the said motion was, with leave of The House,

withdrawn.

On motion of Mr. Schultz, the entry in the Journals of this House, of Monday 7th March, 1831, so far as the same relates to the Petition of Henry J. Clark, Q.C. and others of Winnipeg, Province of Manitoba, setting forth certain charges against the Hon. Edmund Burk Wood, Chief Justice of the Court of Queen's Bench for the Province of Manitoba, was read.

Mr. Schultz moved, that a Special Committee be appointed, composed of Messrs. Ryan (Marquette), Royal Scott, Schultz, Robertson (Hamilton), Rykert, Girouard (Jacques Cartier), Weldon, Daly, McCarthy, Kirkpatrick, Colby, Ives, and Sir Albert Smith, to enquire into the Administration of Justice in the Province of Manitoba; and that the Petition of Henry J. Clark Q.C., and others, and all other Petitions complaining of the conduct of the Hon. Edmund Burk Wood, Chief Justice of Manitoba, be referred to the said Committee, and that the said Committee have power to send for persons, papers and records, and to report from time to time.

Mr. Rykert moved in amendment, that all the words after "that" in the said motion be left out, and the following inserted instead thereof:-"it is inexpedient " and highly detrimental to the administration of justice that such serious charges "as appear in the Petition of Henry J. Clark, should be made against the Hon. "Edmund Burk Wood, without an opportunity being offered to him of answering "the same; therefore in the opinion of this House, the Government should cause to " be issued a Commission, to investigate the charges contained in the said Petition, " and report thereon to this House."

And a Debate arising thereon,—the said Debate was, on motion of Mr. Cameron

(Huron), adjourned.

The following Addresses to His Excellency the Governor General were voted,-

By Mr. Domville: -Order of The House, for copies of all papers, correspondence and Affidavits, in connection with the robbery of the Post Office, kept by Nathan Cleveland, at Alma, Albert County, New Brunswick.

Mr. Mackenzie moved that it be Resolved,-That by the Public Works Act of 1867, Section 20, it is provided as follows:-"It shall be the duty of the Minister to invite tenders, by public advertisement,

"for the execution of all works, except in cases of pressing emergencies where delay would be injurious to the public interests, or where, from the nature of the work, it could be more expeditiously and economically executed by the officers and servants of the Department."

That the contract with H. J. Beemer, laid on the Table, for the construction of the works on Section 27, of the Welland Canal, for the sum of \$759,170, was made

without inviting tenders for such works, by public advertisement.

That the said contract was made after six tenders only had been received in response to private circulars, issued to ten persons only, namely:—

Robert Wilson, of Grimsby, Ontario,
Alexander Manning, of Toronto, Ontario,
Alexander S. Brown, of Belleville, Ontario,
Merrit A. Cleveland, of Port Colborne, Ontario,
James Worthington, of Brockville, Ontario,
H. J. Beemer, of Montreal, Quebec,

Messrs. Beldon & Co., of Syracuse, United States,
Chas. Raynor & Co., of Syracuse, United States,
G. Peterson, of Lockport, United States.

That no opportunity was afforded to other contractors to tender for said work. That the said contract was ordered to be made subject to the approval of Parlia-

ment.

That subsequently the said contract was ordered to be made, and the same now is binding, unless disapproved of by a Resolution of the House of Commons.

That this House will thus share the responsibility of Ministers unless it disap-

proves of the said contract.

That the said contract so let, without inviting tenders by public advertisement, and on circulars addressed only to ten persons, was a violation of the law and the policy of Parliament, and deprived the country of the securities and advantages to be derived from adherence to the law and policy which prescribes a free and open competition for such works.

That this House cannot approve of the contract so let in violation of the law;—

which was negatived on a division.

On motion of Mr. Ross it was Resolved,—That in the opinion of this House, it is desirable, that Quarterly Statistics of the Trade of Canada, the condition of its finances, shipping, Railway and Canal Traffic, and such other information in regard to Trade and Commerce as might be considered valuable from an industrial or economic point of view, should be published, if it can be done at a moderate expense.

Mr. Bunster moved, that a Select Committee be appointed to draft an Address to Her Most Gracious Majesty the Queen, to be seech Her Majesty to obtain for the Dominion of Canada, commercial reciprocity with the Hawaiian Islands; embracing corresponding advantages to those embodied in the existing treaty between the United States of America and His Majesty the King of the Hawaiian Islands, which was entered into in the year 1875.

And a Debate arising thereon,—the said motion was, with leave of The House,

withdrawn.

By Sir Albert J. Smith:—Address to His Excellency the Governor General, for a copy of all correspondence between the Government of New Brunswick or any of its members, and the Dominion Government or any of its members, in relation to the creation of a new County Court in that Province, and the appointment of a Judge thereto.

By Mr. Wade:—Order of The House, for a copy of a Petition addressed to the Hon. the Postmaster General in February 1881, praying for the re-opening of the Post Office at Conquerall Bank, Lunenburg County, Nova Scotia.

Whereupon Sir John A. Macdonald informed the House, that His Excellency the Governor General, having been informed of the subject matter of the said Resolution, recommends it to The House.

On motion of Sir Leonard Tilley, The House went into Committee of the Whole, to consider a certain proposed Resolution, respecting Herrings packed and inspected in Newtoundland.

#### (In the Committee.)

The following Resolution was adopted :-

Resolved,—That it is expedient to repeal certain provisions of the General Inspection Act, 1874, and to make other Regulations with respect to Herrings packed and inspected in Newfoundland.

Resolution to be reported.

The said Resolution was accordingly reported, read a second time, and agreed to. Sir Leonard Tilley then introduced a Bill No. 157 to repeal certain provisions of The General Inspection Act, 1874," which was read the first time, and ordered for a second reading, to-morrow.

The Bill No. 141, to provide for the allowance of drawback on certain articles manufactured in Canada, for use in the construction of the Canadian Pacific Railway, was considered in Committee of the Whole, reported, read a third time, and passed.

Sir Hector Langevin moved, that the Bill No. 36, respecting the Civil Service of

Canada, be now read a third time.

Mr. Casey moved in amendment, that it be Resolved,—That by the Report of the Sub-Committee of Council of the 14th June, 1880, on the subject of the Civil Service, it was declared that "many men have, by old age, incapacity, bad habits or continued idleness, become unavailable for useful purpose—the number of men in each Department has increased, it is thought out of proportion to the needs of the Service. Young men have been appointed who from want of education or strength of constitution or general unfitness, have not made and will never become efficient public servants. The general expense has been increased by the tendency of the existing rules to the gradual culmination of officers by mere force of survivorship into the more highly paid classes," and that a reconsideration of the question is desirable with a view to seeking greater economy in all the Departments by the weeding out of men who, from any of the causes named, are no longer efficient public servants, and a Commission was recommended.

That by the Report of the Civil Service Commission appointed accordingly objection is taken to appointment by political influence and patronage; and the

Commissioners say:

"To this baneful influence, we believe, may be traced nearly all that demands change. It is responsible for admission to the Service of those who are too old to be efficient; of those whose impaired health and enfeebled constitutions forbids the hope that they can ever become useful public servants; of those whose personal habits are an equally fatal objection; of those whose lack of education should disqualify them; and of those whose mental qualities are of an order that has made it impossible for them to succeed in private business. It is responsible too for the appointment of those who desire to lead an easy and, what they deem, a genteel

"To the same influence may be ascribed most of the appointments of men taken from beyond the Service to the best places over the heads of tried and efficient

"Political patronage is responsible for other evils, and we do not hesitate to express the conviction that many unnecessary Civil offices have been retained, and that new places have been created, for no better purpose than to provide for the followers of influential politicians."

That the Commission declares that the only remedy for the evils'it discloses can be found in completely eliminating all traces of political patronage, and proposes probationary appointment by open competitive examination under an independent

Civil Service Commission.

That the said Bill does not adopt this principle.

That the Bill be referred back to the Committee of the Whole, with instructions that they have power to amend it so as to provide for probationary admission to the Civil Service by open competitive examination under an independent Civil Service Commission.

That the Report of the Sub-Committee of Council of the 14th June, 1880, on the subject of that Civil Service states, that the general expense has been increased by the tendency of the existing rules to the gradual culmination of officers by mere force of

survivorship into the more highly paid classes.

That the Report of the Civil Service Commission finds that, "while by far the greater portion of the work of the Departments is of a purely routine character, and such as in private business would be performed by men receiving comparatively low salaries, it has heretofore been largely done by clerks who, by mere force of survival, have been advanced to the highest grades of the Service. This, we believe, is a fruitful source of unnecessary cost," and declares that "the routine work of the Departments, such as checking, comparing, copying, compiling and transcribing Accounts and Documents, so far as we can ascertain, comprises four-fifths of the whole work to be done, and requires for its performance no special attainments beyond what can be acquired in the Common Schools. The Clerks in this class should be promoted only on having passed a competitive examination, and thereby attained such a position as the lists herein referred to of Clerks eligible for promotion as will establish their fitness to fill the vacancies that may occur in the higher grades. The salary at first entrance, we propose, shall be \$500, advancing by biennial increment of \$100 to \$900."

That the said Bill be referred back to a Committee of the Whole with instructions that they have power to amend the same by providing for the creation of a class of writers to discharge such routine work, with salaries proportionate to the nature of

their duties with a view to greater economy; -which was negatived.

The main motion was then agreed to, and the Bill accordingly read a third time, on a division, and passed.

The following Bills were severally read a second time, considered in Com-

mittee of the Whole, reported, read a third time, and passed, viz.:-

Bill No. 103, from the Senate, intituled: "An Act respecting fugitive offenders

in Canada from others parts of Her Majesty's Dominion."

### JOSEPH GODÉRIC BLANCHET,

Speaker.

### NOTICES OF MOTIONS.

Mr. Wallace (Norfolk)—On Thursday next—The following Resolutions:—

1. That in the opinion of this House it is most desirable that the commercial relations between Great Britain and her dependencies should be so regulated as to

give each in the markets of the other a preference over foreign nations.

2. That the adoption by the Mother Country of trade regulations which will give subjects resident in her dependencies a preference in her markets over the peoples of Foreign States, which would more fully recognize that they are subjects, would create a greater community of interests between the inhabitants of the several portions of the Empire, would bind them more strongly together, and would greatly tend to the strengthening and consolidation of the Empire.

3. That Her Majesty's loyal subjects, residing in Canada, being most anxious that the connection with the parent state should be perpetuated, will give their dutiful consideration to any proposition emanating from Her Majesty's Imperial Government, having in view the adoption of trade relations which will provide for admitting the productions of their fellow subjects in the other portions of the Empire into the markets of the Dominion on terms more favorable than are accorded to foreigners.

Mr. Methot—On Thursday next—Enquiry of Ministry—1. Whether the Montreal and Champlain Junction Railway is in existence?

2. If it exists, how it happens that its name does not appear in the Statistical

R turn of Canadian railways?

3. Whether the Government have hitherto taken steps to cause that Company to comply with the law which requires the making of an annual Return.

Mr. Kirkpatrick—On Thursday next That the second Report of the Select Standing Committee on Public Accounts be now concurred in.

Mr. Vanasse-On Thursday next-Committee of the Whole to consider the

following Resolution :--

"That with a view to afford additional encouragement to the cultivation and manufacture of Tobacco in this country, it is expedient to allow persons who engage in Tobacco growing to sell the Tobacco grown on their own land without paying any Inland Revenue tax."

PRAYERS.

The following Petitions were read and received :-

Of James Douglas and others, members of the Presbyterian Congregation of Morris, Town of Morris, Province of Manitoba; praying that effect be given by the Parliament of Canada to the wishes of the late Synod of the Presbyterian Church of Canada, as expressed in the Act lately declared invalid, by passing the same into Law

Of John Duncan and others, of Thamesville, and of William Mowbray and others, of the Township of Howard; severally praying for the adoption of such measures as

will prevent the running of railway trains on the Lord's Day.

On motion of Sir Leonard Tilley, The House resolved to go into Committee of the Whole, on Monday next, to consider a certain proposed Resolution, respecting free postage on newspapers.

Mr. Bowell presented,—Return to an Order of The House of the 24th ult; for a Return of all Import duties collected at, or near the Boundary Line between the Province of Manitoba and the Rocky Mountains.

Sir John A. Macdonald moved, that the Bill No. 153, to re-adjust the Representation in the House of Commons, and for other purposes, be now read the second time.

Mr. Blake having taken objection to the second reading on the ground that material alterations had been made in the measure since its introduction, and that it was not, in consequence of such alterations, the same Bill that had been presented

to The House by the Hon. the Minister of the Interior,-

Mr. Speaker decided as follows:—"There is no doubt that the point of "Order is very important, and should be carefully decided, with a view to settle "such questions in the future. It is true that a loose practice has prevailed in this "House, and that Bills have been even allowed to be introduced in blank, without "objection being taken. But the Rule is absolute, and such a practice should not be "permitted. It is also equally established that when a Bill is once in possession of "The House, it becomes its property and cannot be materially altered, except by

"The House itself. I think since this point has been raised, it is best to follow the

"settled practice of the English House of Commons, and not to permit hereafter any change, except mere clerical alterations, in a Bill, when it has been once regularly introduced. I therefore decide, that the point of Order is well taken, and that the proper course, under the circumstances, is to discharge the Order, and reintroduce the Bill on the previous motion for leave."

On motion of Sir John A. Macdonald, the Order was then discharged, and the Bill withdrawn, and a Bill No. 158, to re-adjust the Representation in the House of Commons; and for other purposes was introduced instead thereof, read the first time, and ordered for a second reading, on Monday next.

Sir Leonard Tilley moved, that Mr. Speaker do now leave the Chair, for The

House to go again into Committee of Supply.

Sir Richard Cartwright moved in amendment thereto, that Mr. Speaker do not now leave the Chair, but that it be Resolved,—That the expenditure for the year 1878 was \$23,503,158;

That the expenditure for 1881 was \$25,502,554;

That the expenditure for the year ending, 30th June, 1883, amount to \$27,999,483.86 cents, independent of large amounts, proposed to be added to the annual expenditure, involving a further addition of \$410,000 more;

That many of the items charged to Capital Account, are of a character which

might more properly be charged to Income;

That a very large proportion of this expenditure consists of paid charges, or of charges of a permanent character, which when once created are either incapable, or very difficult of reduction;

That recent legislation and the completion of existing engagements will result

in a steady increase of the fixed charges within a few years;

That experience has shewn that the consequence of rapidly increasing the fixed

charges, is to produce great embarrassment in the Public Finances;

That this House views with regret the proposal of the Government to expend for the year 1883, \$2,906,927, more than the expenditure for 1881, and \$4,906,325, more than the expenditure for all purposes in 1878;—which was negatived on the following division:—

PRAYERS.

Two Petitions were brought up, and laid on the Table.

The Petitions of Charles E. Wolff, and others, Dominion Land Surveyors of Canada, praying that in any legislation in relation to the admission to the profession of Dominion or Provincial Land Surveyor of Graduates of the Royal Military College, prevision be made therein, that the said graduates shall spend at least one year in practical surveying in the field; also that they be required to pass examinations, and pay the fees as Surveyor Apprentices are compelled to do before being admitted,—and of the Board of Management of the Ontario School of Practical Science, praying that in any legislation in relation to the admission to the profession of Dominion Land Surveyor of Graduates of the Military College, the School of Practical Science of Ontario, and other Scientific Schools and Colleges may be allowed the same privileges, as shall be accorded to the said Royal Military College, were read and received.

On motion of Mr. Kirkpatrick it was Ordered,—That the Joint Committee of both Houses on the Printing of Parliament be instructed, to cause to be printed six hundred Copies of the Index to the Statutes, Index to Orders in Council, and Tables of Statutes, now prepared in the Office of the Chief Law Clerk, 300 Copies to be distributed to the Members of both Houses, and the remaining 300 Copies, to be kept in reserve.

On motion of Mr. Macmillan it was Ordered,—That as it appears by the Minutes of the Proceedings of this House of the 28th March, last, that the Bill No. 70, to incorporate the Presbyterian Church of Canada in connection with the Church of Scotland has been rejected by the Select Standing Committee on Miscellaneous Private Bills, for the reason that the Preamble of the said Bill had not been proven, the Accountant of this House be instructed to refund the fee and charges, less the cost of printing and translation, paid thereon.

A Message was received from the Senate with the Bill No. 159, of their own, intituled: "An Act to make further provision respecting Light-houses, Buoys, and Beacons," to which the concurrence of this House was desired. (On motion of Mr. McLelan, the said Bill was read the first time.—Second reading, to-morrow.)

Also, -agreeing to the amendments made by this House to the Bill No 152, of their own, intituled: "An Act respecting Bridges over navigable waters, constructed under the authority of Provincial Acts," without amendment.

Also,-agreeing to the Bill No 102, to amend and consolidate, as amended, the several enactments respecting the North-West Mounted Police Force, without amendment.

Also,-agreeing to the following Bills, with amendments, viz :-Bill No 100, to incorporate The McClary Manufacturing Company.

Bill No. 57, to incorporate the Chignecto Marine Transport Railway Company,

Limited;—and Bill No. 94, to incorporate the Great American and European Short Line

Railway Company. The amendments to the said Bills to be taken into consideration, to-morrow.

Sir John A. Macdonald moved, that the Bill No. 158, to re-adjust the Representation in the House of Commons, and for other purposes be now read a second

Mr. Blake moved in amendment thereto, that the said Bill be not read a second

time, but that it be

Resolved,-That in dealing with the representation of the people in Parliament, the Municipal County organization has been observed in all the Provinces, save Ontario, and that in Ontario the said organization modified by a division of Municipal Counties

into Ridings, has been generally observed;

That on the occasion of the re-adjustment of 1872, the soundness of the said plan of observing the Municipal County organization, and the evil consequences of a departure therefrom, were recognized by Parliament, and on that occasion the First Minister of the day, Sir John A. Macdonald announced with approval from all sides the policy of the Government to the following effect, viz:-" with respect to the "rural constituencies, the desire of the Government has been to preserve the " representations for Counties, and sub-divisions of Counties as much as possible. It " is considered objectionable to make representation a were geographical term (hear, "hear). It is desired as much as possible to keep the representation within the "County, so that each County that is a Municipality of Ontario should be "represented, and if it becomes large enough, that it should be divided into "Ridings—that principle is carried out in the suggestions I am abaut to make.—That rule was broken in 1867, in the three constituencies, viz.:— " Bothwell, Cardwell and Monck; and I do not think on the whole that the "experiment has proved a successful one. I do not think it was unsuccessful as far "as the representations of those new constituencies themselves were concerned, as "they are well and ably represented by the gentlemen who now hold seats for the "constituencies; and I hope that if I am returned again to the next Parliament, I "shall meet those hon. Members. But it is obvious that there is a great advantage "in having Counties elect men whom they know. Our Municipal system gives an " admirable opportunity to constituencies to select men for their deserts. We all "know the process which happily goes on in Western Canada. A young man in a "County commences his public life by being elected by the neighbors who know him, "to the Township Council.-If he shows himself possessed of administrative ability, "he is made a Reeve or Deputy-Reeve of his County .- He becomes a Member of the "County Council, and as his experience increases, and his character and abilities become known, he is selected by his people as their representative in Parliament. "It is, I think, a grand system that the people of Canada should have the "opportunity of choosing for political promotion the men in whom they have most confidence and of whose ability they are fully assured. All that great advantage is lost by cutting off a portion of two separate Counties, and adding them "together for Electoral purposes only. Those portions so cut off have no common

" interest; they do not meet together and they have no common feeling, except that "once in five years they go to the polls in their own township to vote for a man, who may be known in one section, and not in another. This tends towards the intro-"duction and development to the American system of caucuses, by which wirepullers "take adventurers for their political ability only, and not for any personal respect for them. So that as much as possible, from any point of view it is advisable that

"Counties should refuse men whom they do not know, and when the representation " is increased, it should be by sub-dividing the Counties into Ridings \*

"I believe The House generally agrees with me that the County organization "should be preserved as much as possible. I have observed this principle and no

"county in Ontario has been split up."

"That the said principle of observing, as far as possible, the limits of the Muni-"cipal Counties in adjusting the Parliamentary representation is sound and should be followed in the said Bill for the reason so given by Sir John A. Macdonald, and "approved by Parliament; and also because it affords some safeguard against the " abuse of power by the party in office to adjust the representation unfairly towards

" their opponents.' That the said Bill is framed in utter violation and total disregard of the said principle, since it takes away territory from the Municipal Counties for Electoral purposes, and conjoins for Electoral purposes territories, having no Municipal County relations with each other in a very large proportion of the constituencies of Ontario; while, at the same time, it does not effect the proposed object of equalising the popu-

lation of the Electoral Districts.

And a Debate arising ;-and the House having continued to sit after 12 of the

clock midnight;

TUESDAY, 9th MAY, 1882.

And the Debate continuing; Mr. Mills moved that the Debate be adjourned; which was negatived.

And the question being put on the said proposed amendment; it was negatived

on the following division :-

That the said Bill contains numerous needless changes and is framed with a view to concentrate large bodies of the Liberal voters in a few Electoral Districts, and to add Conservative voters to, or remove Liberal voters from many Electoral Districts, and thus to weaken the effective strength of the Liberal party, and to pack the constituencies of *Ontario* in favor of the Conservatives; which was negatived on the following division:

Sir Hector Langevin laid before The House,—A List of the names, address and rate of pay of the Engineers and Firemen employed in the Public Buildings, Canada; also the amount required to pay the same, when transferred to the Public Works Department.

Mr. Colby, from the Select Committee appointed to assist Mr. Speaker in the direction of the Library of Parliament, so far as the interests of this House are concerned, and to act as Members of a Joint Committee on the Library, presented the First Report

of the said Committee, which is as follows:-

Adverting to their recommendation made at the last Session of Parliament, approving of the purchase, from Mr. Gerald E. Hart, of his valuable and unique Collection of coins and medals, illustrating the History of Canada, from the first settlement of the country under the French régime, to the present time, the Committee desire to renew the expression of their opinion in favor of this purchase. They understand that Mr. Hart, is still willing to dispose of the Collection for the sum of Two thousand five hundred dollars. But he has since compiled a descriptive Catalogue of the pieces, which appears to be of much historical interest, independently of its special utility as explaining the worth of each individual coin and medal. For this catalogue an additional sum of Five hundred dollars is asked. The Committee consider this to be a reasonable price, and they advise that if the Government ask and obtain the consent of Parliament to the purchase of this Collection, and decide to deposit it in the Library of Parliament, the Catalogue be printed for the information of Members. Proper arrangements should also be made for the care, exhibition, and safe keeping of the Coins.

Since the removal of the Supreme Court from the Parliament House to a separate Building, much inconvenience has arisen to the Judges and lawyers attending the Court, on account of the inaccessibility of the Law Books which should be on hand for consultation. With a view to avoid unnecessary expenditure in the purchase of duplicate works, and at the same time to afford all possible facility for reference to the Judges, the Committee have approved of the transfer of the series of Law Reports (those of the English Courts up to the year 1865, and the American Reports to the present time, with the continuations hereafter procured) from the Parliament Library to the Court Building. These Books, however, still to remain the property of the Library of Parliament, and to be in charge of a clerk detailed from the Library for this service. It is also to be understood, that Members of Parliament, Government Officers, and all other persons heretofore permitted to have access to these Books, shall have equal liberty to consult them in the Court Building as formerly. The Committee object to the removal from the Parliament Library of any text-books or Colonial Reports. Such Books they consider should be purchased

for the exclusive use of the Supreme Court.

In the apartment recently vacated by the Supreme Court, but now occupied as a News Room for the House of Commons, the Committee observe that shelves have been placed for the recention of Books. The Committee believe that the use of these

been placed for the reception of Books. The Committee believe that the use of these shelves by the Librarian would add very materially to the accommodation increasingly required. But they agree with the Librarian in the opinion that before this shelving could be safely utilized, it will be necessary that it should be covered in by sliding glass doors, and should be placed under lock and key. When this has been done, large series of Books, not in frequent use, can be deposited in this apartment,

without risk, and with considerable advantage.

The Committee would advise that the transcripts of papers, and original historical documents concerning Canada, which have been, or may hereafter be collected under the direction of the Bureau of Agriculture and Statistics, should be permanently deposited in the Library of Parliament, which already contains much important

material, in manuscript, of a similar description. They also recommend that the drafts of the Constitutions granted to the British North American Colonies, recently applied for by Address of the House of Commons, should be placed in the Canadian

department of the Library, when received from England.

The Committee observe, with surprise and regret, that there has been much irregularity in the return of Books, borrowed by persons during recess of Parliament, upon Tickets obtained from The Speakers of either House. With a view to correct this reprehensible abuse, and to ensure punctuality in future on the part of those to whom this privilege may be accorded, they have authorized the Librarian to withhold the further loan of Books to persons now in default, until all arrears have been made good, and hereafter to enforce a stricter rule in this particular.

The Report of the Sub-Committee on the accounts of Expenditure of the Grant for the augmentation of the Library, which embodies suggestions for relieving the Annual Grant of certain heavy items, that materially diminish the sum available for the purchase of Books for general reading and reference, is herewith submitted.

#### REPORT OF THE SUB-COMMITTEE OF AUDIT.

The Sub-Committee appointed by the Joint Committee on the Library of Parliament for the Session of 1882, to audit and report upon the accounts connected with the Library of Parliament for the past year, present the following Report:—

That they have inspected the various accounts submitted to them which have been paid since the last audit numbered 809 to 899, both inclusive, together with a draft in favor of E. G. Allen, for \$1,038.75, and two in favor of Bossange, for \$456.74 and \$267.08 unnumbered, amounting in the whole to the sum of Four thousand three hundred and twenty-two dollars and eight cents (\$4,322.08), and have examined the several receipts and vouchers for these payments which they find to correspond therewith.

The Committee submit herewith, for the information of the Joint Committee, an abstract shewing how the reduced grant of \$3,500.00 for the fiscal year 1881-82, has been expended, coupled with a statement of the existing liabilities reported to them as incurred in the year 1881, including an additional liability incurred in anticipation of the increased grant for 1882-83, as explained by the Librarian—amounting together to the sum of Three thousand three hundred and fifty dollars, thirty four cents (\$3,350.34), thus leaving only a balance of \$3,649.60 for the support of the Library during the remaining portion of the current year.

LIBRARY, 8th May, 1882.

OTTAWA, 26th April, 1882.

Hon. W. H. ODELL,

DEAR SIR,—I beg to repeat in writing the substance of my statement to the Library Committee, at its first meeting, this Session, in regard to the Library expenditure.

On 26th November, 1881, I applied to the Finance Minister,—in answer to his circular for an estimate of money required for the Library Department, as well for the present as for the ensuing financial year—that the existing deficiencies in the Library made it highly desirable that we should receive "an immediate advance of \$3,000—and also, that for the ensuing fiscal year, a further sum of \$10,000, be granted for the purchase of books."

Some time after a Clerk from the Finance Office brought me (by order) a proof

sheet of the Estimates, which included the items above-mentioned.

But shortly before the House met, I learnt with surprise and chagrin, that, on finally revising the Estimates, the Government had concluded to give us nothing but the ordinary grant, for next fiscal year!

Meanwhile, I had sent home some orders and had arranged for a supply of new, important, and desirable books, to be sent on once a month during the sitting of

I did not countermand my orders, because I felt that even if our means were of the smallest, it would be best to expend the greater portion of the annual grant, whilst Parliament was in Session, and so give Members the advantage of our additions, rather than spread over our purchases to months when the Parliament was not in Session.

I have had the satisfaction of knowing that this plan has met with the practical approval of Members, for an addition to various works indispensable for reference which have been bought, the selections in general literature have proved very acceptable, and have been, for the most part, quickly taken up by Members on the look out for new and interesting publications.

I hope, after this, that our grant may be adequate to sustain the credit of the

Library, and to gratify the taste of our readers.

Believe me, dear Sir, Truly yours, ALPHEUS TODD.

#### LIBRARY OF PARLIAMENT.

#### SUPPLEMENTARY REPORT.

The Sub-Committee for Audit further report the following additional information

in regard to certain details of expenditure, viz:-

An abstract shewing the expenditure for French and English books respectively from the audit in 1881, to the end of the fiscal year 1881, together with an abstract of the additional amount spent for the same service from 1st July, 1881, to the opening of the Session, February 9th, 1882. And in view of a desire expressed by several members of the Joint Committee at their last meeting, for information relative to the amount of the average expenditure for Law Books, Newspapers and Literary Journals, including binding as well as incidental expenses for Binding books and necessary repairs thereto—have had an abstract prepared containing the information sought for distinguishing Law Reports from Text Books, accompanied by a detailed list of the Newspapers and Literary Journals, shewing the amount of subscription therefor paid out of the Library grant and cost of binding, together with a separate memorandum of the total expenditure for binding and repairs to booksindicating an average expenditure for this service of \$1,000.

The Sub Committee would, in this connection, suggest to the Joint Committee to consider how far it may be practicable to obtain a special grant for Law Books (or at any rate for such as it is proposed to transfer to the Supreme Court) and whether an arrangement cannot be made whereby the cost for binding Books, Newspapers, Literary Journals, &c., and for general repairs (fairly comprised under the head of Contingencies) would be provided for by an addition to the grant under that head; thus leaving the separate annual grant for the Library intact and available for the purchase of Books irrespective of such contingencies.

On motion of Sir Charles Tupper, The House resolved to go into Committee of

the Whole, to-morrow, to consider the following Resolution: -

Resolved,—That in view of the great advantages which would accrue to the Maritime Provinces, and the Intercolonial trade of Canada generally from the construction of a Ship Railway across the Isthmus of Chignecto from Tignish, on La Baie Verte, in the Gulf of St. Lawrence, to a point at the mouth of the River La Planche, on the Bay of Fundy, and of the proposal made by Mr. H. E. C. Ketchum, on behalf of a Company formed and to be incorporated as "The Chignecto Ship Railway Company," and approved by the Governor in Council on the Report of the Minister of Railways and Canals, after consultation with the Chief Engineers of the Department, it is expedient to entertain the said proposal and to provide:—that if the said Company do within

years from the day of now next, construct such Ship Railway, according to the terms of their said proposal, and of an agreement and contract in that behalf which the Government of Canada may, if they see fit, make with the said Company, in a substantial manner and fully equipped for the services therein to be stipulated, to the satisfaction of and subject to the approval of the said Government; then, during a term of twenty-five years from the date of said approval, provided the said Ship Railway is kept in thorough repair and satisfactorily performs the services aforesaid, a subsidy at the rate of \$150,000 a year shall be paid to the said Company out of the Consolidated Revenue Fund of Canada, such subsidy not being payable for any period during the said twenty-five years during which the conditions above mentioned shall not be complied with.

Whereupon Sir Charles Tupper informed The House, that His Excellency the Governor General having been informed of the subject matter of the said Resolution, recommends it to The House.

On motion of Sir Hector Langevin, The House resolved to go into Committee of the Whole, to-morrow, to consider the following Resolutions:—

1. Resolved,—That it is expedient to provide for the appointment of certain Commissioners for the improvement and management of the Harbor of St. John in the

Province of New Brunswick.

2. Resolved,—That it is expedient to authorize the Governor in Council to raise, by the issue of Debentures bearing interest payable half-yearly at the rate of four per cent. per annum, and redeemable in forty years, the sum of seven hundred and fifty thousand dollars, and out of this sum to advance and pay to "The Harbour Commissioners of St. John," in the first place five hundred thousand dollars, to enable them to complete the acquisition of the Harbour Property, Rights, Rents and Privi-

leges, from the Mayor, Aldermen and Commonalty of the City of St. John, in the manner provided in the Act to be passed in that behalf, and to advance the remainder of the sum so raised from time to time to the said Commissioners to enable them to meet payments to be made for the improvement and extension of the harbor; the said Commissioners depositing with the Receiver General, on the advance of any such sum, their own bonds in favor of Her Majesty for the Government of Canada, for a like amount in such form as the Receiver General may approve, and bearing interest at the rate of four per cent. per annum, from the time of such advance, payable out of the income of the said Commissioners, from tolls and other sources of income under the said Act, and to be the first charge thereon, after the expenses of collecting the same.

Whereupon Sir Hector Langevin informed The House, that His Excellency the Governor General having been informed of the subject matter of these Resolutions, recommends them to the House.

A Message was received from the Senate, with the following Bill No. 160, of their own, intituled: "An Act to amend the Act respecting the Harbor of North Sydney in Nova Scotia," to which the concurrence of this House was desired. (On motion of Mr. McLelan, the said Bill was read the first time. Second reading, to-morrow).

Also,—agreeing to the amendments made by this House to the Bill No 112, of their own, intituled: "An Act respecting County Court Judges," without amendment.

Also,—agreeing to the following Bills, with amendments, viz.:— Bill No 5, respecting the sale of Railway Passenger Tickets. (On motion of Mr. Kirkpatrick, the amendment was concurred in).

Bill No 103, to incorporate the Qu'Appelle Land Company; -and

Bill No. 95, to amend the Act incorporating the Bell Telephone Company of Canada.

The amendments to the said Bills, to be taken into consideration, to-morrow.

The Bill No. 158, to re-adjust the Representation in the House of Commons, and for other purposes, was considered in Committee of the Whole; and progress having been made and reported,—Committee to sit again, at the next sitting of The House.

The House then adjourned.

# JOSEPH GODÉRIC BLANCHET,

Speaker.

# ERRATUM.

In the Votes of yesterday, page 493, the last paragraph in Mr. Blake's proposed amendment to the second reading of the Bill No. 158, to re-adjust the Representation in the House of Commons, and for other purposes, was incorrectly inserted; the

correct insertion thereof should have been as follows:-

That the said Bill is framed in utter violation and total disregard of the said principle, since it takes away territory from the Municipal Counties for Electoral purposes, and conjoins for Electoral purposes territories, having no Municipal County relations with each other in a very large proportion of the constituencies of Ontario; while, at the same time, it does not effect the professed object of equalising the population of the Electoral Districts.

PRAYERS.

The Petitions of G. W. Gerow, and others, of the City of Saint John, N.B.; praying that any Bill to be prepared for the transfer of the Harbor of Saint John to a Commission, may be submitted to the rate-payers of that City for their information,—and of John Holden, Executor to the Estate of the late C. Merritt, and others; praying that no Bill may be passed to place the Saint John Harbor in Commission, until they have an opportunity of being heard, were read and received.

On motion of Sir Leonard Tilley, The House went into Committee of the Whole, to consider a certain proposed Resolution to provide for the free transmission of Canadian Newspapers by mail within the Dominion.

### (In the Committee.)

The following Resolution was adopted:

Resolved,—That it is expedient to provide that on and after the first day of June, in the present year 1882, Newspapers published in Canada, mailed by the publisher at the place of publication, and addressed to regular subscribers or news agents, in Canada, shall be transmitted to their address free of postage.

Resolution to be reported.

The said Resolution was accordingly reported, read a second time, and agreed to.

Sir Leonard Tilley then introduced a Bill No. 161, to provide for the free transmission of Canadian Newspapers by mail within the Dominion; which was read the first time, and ordered for a second reading, at the next sitting of The House.

On motion of Sir Leonard Tilley, The House went into Committee of the Whole, to consider a certain proposed Resolution, respecting an increased subsidy to the Province of Manitoba.

#### (In the Committee.)

'The following Resolution was adopted:

Resolved,—That in view of the greatly increased extent and population of Manitoba, since the Subsidy to that Province was fixed by the Act 33 Victoria, Chapter 3, and of the fact, that its public lands are administered and the proceeds appropriated

by the Dominion Government, it is expedient that the said Subsidy be increased and the following amounts allowed therefor, yearly, on and from the First day of January, 1882, viz.:—

For the support of the Government and Legislature, \$50,000.

On an estimated population of 150,000, at 80 cents per head, \$120,000.

As an indemnity for the want of public lands, \$45,000.

The said sums to form the yearly Subsidy to be paid by the Dominion to the said Province, during the ten years next after 1881, in lieu of the Subsidy allowed by the said Act 33 Victoria, Chapter 3.

Resolution to be reported.

The said Resolution was accordingly reported, read a second time, and agreed to.

Sir Leonard Tilley then introduced a Bill No. 162, for increasing, during a certain period, the yearly subsidy to the Province of Manitoba; which was read the first time, and ordered for a second reading, at the next sitting of The House.

A Message was received from the Senate, agreeing to the Bill No. 141, to provide for the allowance of drawback on certain articles manufactured in Canada, for use in the construction of the Canadian Pacific Railway, without amendment.

The Bill No. 135, to amend Chapter 29, 38 Victoria, intituled: "An Act to extend certain provisions of 'The Seamen's Act, 1873,' to vessels employed in navigating the Inland Waters of Canada, and to provide for the collection of the wages of Seamen, and other persons employed on board of vessels trading on the Inland Waters of Canada, in a summary manner," was again considered in Committee of the Whole, amended, reported, agreed to, read a third time, and passed.

The Bill No. 107, from the Senate, intituled: "An Act respecting Harbor and River Police of Canada," was read the second time, partly considered in Committee of the Whole, and the Resolution adopted by The House on the 24th March, last, in relation thereto, referred.

At 6 o'clock P.M., Mr. Speaker took the Chair, and left it, to resume the same at half-past seven o'clock P.M.

That for these purposes the South Riding of Ontario is changed by transferring the Township of Pickering to West Ontario, and by transferring the Township of Reach, and the Village of Port Perry from North Ontario; the North Riding of Ontario is further changed by taking Oakley, Macaulay, Morrison, Ryde, McLean and Bracebridge from Muskoka and transferring Uxbridge to West Ontario and the new Riding of West Ontario is created by taking Whitchurch and Newmarket from North York, Stouffville from North York and East York, Uxbridge from North Ontario and

Pickering from South Ontario, being thus composed of parts of two Municipal Counties

Mr. Mills then moved in amendment, that the said Bill be not now read a third time, but that it be Resolved, That the Municipal Counties of Kent and Lambton comprise the Electoral Districts of Kent, Lambton, and Bothwell, with a population of 106,344, making for five Members an average of 21,268 per Member.

That the Electoral District of Lambton comprises 42,616, and may properly be

That by the proposed Bill the Township of South Dorchester and the Village of Springfield are transferred from East Elgin to East Middlesex, and the Town of Ridgetown and the Townships of Orford and Howard are transferred from Bothwell

to West Elgin for Electoral purposes.

That by these changes the population of East Elgin becomes 25,800 and that of West Elgin 23,477, being a total of 49,277 for the two Ridings, or an average of 24,638 per Member, which is much further from the *quota* for the Dominion than the present average.

Sir Hector Langevin-In Committee of the Whole on Bill (No. 163) intituled: "An Act relating to the Harbor of Saint John, in the Province of New Brunswick,"

the following additions to said Bill: -

9. The Governor in Council may, from time to time, until all the wharf and beach property in the Harbor of Saint John is acquired by the Commissioners, authorize the Commissioners to purchase or acquire any wharf or beach property in the Harbor of Saint John not then owned by them, or any part thereof, and thereupon it shall be the duty of the Commissioners to acquire the same by purchase if possible, but in case they cannot agree with the owner as to price, they shall lay off by motes and bounds the property to be acquired, and shall deposit of record in the office of the Registrar of Deeds, Wills, &c., for the city and county of Saint John, a plan and description of the property to be acquired, signed by the Chairman of the Commissioners, and by such deposit the said property shall thereupon become and remain vested in the Commissioners, and the price or compensation money to be paid therefor shall be determined as follows: The said Commissioners and the owner shall

each appoint a disinterested arbitrator, and the two arbitrators so appointed shall name a third, also disinterested, and the three arbitrators, after being sworn by or before any Judge of the Supreme Court or a County Court in the said Province, to perform their duty honestly and impartially, and having given each other notice of the time and place of their meeting shall determine such price, and their decision or that of any two of them shall be final, and the Commissioners shall forthwith, after the decision, pay to the owner the amount awarded to him with interest at the rate of six per centum per annum from the time the plan and description are deposited.

(2.) In case either the Commissioners or the owner shall fail within thirty days after the notice to the owner of the filing of the plan and description to appoint an arbitrator, or in case any two arbitrators appointed hereunder fail within thirty days after the appointment of the one last appointed to appoint a third, then in either of such cases it shall be lawful for the Minister of Public Works, in the place of the person or persons otherwise entitled to appoint an arbitrator or arbitrators, as the case may be, so that the Board of Arbitrators shall consist of three persons, any two

of whom shall have power to act.

(3.) The compensation money awarded by the arbitrators, or any two of them, shall stand instead of the property acquired, and any claim or encumbrance upon such property shall, as respects the Commissioners, be converted into a claim to such compensation money, or to a proportionate amount thereof, and shall be void as respects the property itself, which shall, by the fact of the depositing of the plan and description, become and be absolutely vested in the Commissioners.

(4.) If the owner cannot be found, or is unknown to the Commissioners, or if the Commissioners have reason to fear any claim or incumbrance, or if, for any other reason, they shall deem it advisable, they shall pay such compensation money into the Supreme Court of New Brunswick with interest thereon for six months, and shall

deliver to the Clerk of the Court a certified copy of the plan and description.

(5.) A notice in such form and for such time as the Court may appoint, shall be published in a newspaper published in the City of St. John, notifying all persons entitled to the property or any parts thereof, or representing or being the husbands of any party entitled, or claiming to hold or represent incumbrances thereon, or interests therein, to file their claims to the compensation money or any part thereof, and all such claims shall be received and adjudged upon by the Court, and the said proceedings shall forever bar all claims to the compensation money or any part thereof including claims in respect of dower as well as claims in respect of mortgages or incumbrances upon the same, and this Court shall make such order for the distribution, payment or investment of the compensation money or of parcels thereof, and for the securing of the rights of all parties interested as to right and justice, and according to the provisions of this Act, and the law shall appertain.

(6.) The costs of the proceedings before the Court or any part thereof, shall be paid by the Commissioners or by the other party as the Court may order, and if the order of distribution be obtained in less than six months from the payment of the compensation money into Court, the Court shall direct a proportionate part of the interest to be returned to the Commissioners, and if, from any error, fault or neglect of the Commissioners the distribution is not obtained until after the six months have expired, the Court shall order the Commissioners to pay into Court, the interest for

such further period as may be right.

The House resumed the consideration of Resolution 333, (To pay damages to steamer M. C. Upper in the Welland Canal \$8,000) reported from the Committee of Supply, on Friday, the 12th instant.

And the question of concurrence thereon being put;

Mr. Mills moved that the said Resolution be not concurred in, but that it be Resolved, That the question of the liability of the Crown for injury done to the M. C. Upper was reported upon by the Minister of Justice as follows:—

" Оттама, 10тн Остовек, 1881.

#### re claim L. McCallum.

SIR,—As requested in your Communication of the 29th September, I have considered this case with reference to the liability of the Crown re this claim. In my opinion the Crown is not liable. Treating the case as one between subject and subject, and giving to the claimant the same rights against the Crown that he would have were his claim against a subject, it is clear that unless the accident were caused by the defective state of the Lock-Gates or by the negligence of the officers of the Canal, there would be no liability to indemnify Mr. McCallum for the losses sustained. The finding of the official arbitrators seems to be unanimous that the accident was caused by the negligence of those in charge of the Steamer Louise, and not by the defective condition of the Gates. The Crown cannot be made answerable for the mismanagement of the Louise. Papers returned.

(Signed)

Z. A. LASH, D. M. J.

I concur in this opinion,

(Signed)

A. CAMPBELL. M. of J.

To F. BRAUN, Sec. R. & C. Dept.;"

And that the proposal under these circumstances to pay the sum of \$8,000 to L. McCallum, the owner of the said Steamer M. C. Upper is wrong and would establish a dangerous precedent,—which was negatived on the following division:—

" MAY IT PLEASE YOUR EXCELLENCY.

"The Commons of Canada have voted the Supplies required to enable the Governor to defray the expenses of the Public Service.

"In the name of the Commons, I present to Your Excellency a Bill intituled:—
"An Act for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1882, and the 30th June, 1883, and for other purposes

relating to the Public Service." to which I humbly request Your Excellency's assent."

To this Bill the Royal assent was signified in the following words:
"In Her Majesty's name, His Excellency the Governor General thanks Her Loyal subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency the Governor General was pleased to close the Fourth Session of the Fourth Parliament of the Dominion with the following speech:

Honourable Gentlemen of the Senate: Gentlemen of the House of Commons:

I desire to convey to you my best thanks for the earnestness and assiduity which you have shewn in the performance of your Parliamentary duties, and I am glad to believe that on returning to your homes you will find the country everywhere enjoying a large measure of prosperity.

The Civil Service Act will, I trust, be productive of the best results. It will improve the organization and add to the usefulness of that service, already so

efficient.

The measures relating to the extradition of fugitive offenders, to the winding up of insolvent Banks, Insurance Companies and Trading Corporations, and for amending the Criminal Law, are all of an important nature.

The appropriation in aid of Railway enterprise will tend greatly to open up

vast tracts of fertile country hitherto almost inaccessible to the settler.

The annual grant for the encouragement of the sea fisheries and the improvement of the condition of the fishermen will be of great value to that important branch of the national industries.

The removal of the duties on tea and coffee will lessen the cost of those important articles of food to the people, and the repeal of the Stamp tax on Bills of Exchange and Promissory Notes will be appreciated by the commercial community as a relief from an irksome burden, while the transmission of newspapers and periodicals free from postage will be accepted as a boon by the whole country.

Our manufacturers already in a prosperous condition will be further aided by the abolition of the duties on metals and other raw materials used in their several

productions.

It is satisfactory to know that the buoyant state of the revenue will permit these reductions, amounting to about a million and a quarter of dollars, to be made without inconvenience.

During the recess my Ministers will continue their efforts to secure favourable commercial arrangements with France and Spain. In these endeavours the High Commissioner will receive the same hearty support from Her Majesty's Government and the Imperial Diplomacy as has already been given to him.

Such support must greatly strengthen Canada in any negociations entered into

for the improvement of her trade with Foreign Countries.

It has been the more readily accorded that Her Majesty's Government rely on no preference being given by Canada against the Trade or Products of the Mother Country.

Gentlemen of the House of Commons:

I thank you in Her Majesty's name for the supplies you have granted, which will be expended with all due attention to economy.

Honourable Gentlemen of the Senate: Gentlemen of the House of Commons:

I heartily congratulate you on the rapid and successful developement of our

manufacturing, agricultural and other industries.

I am, however, advised that their progress would have been still greater were it not that capitalists hesitate to embark their means in undertakings which would be injured, if not destroyed, by a change in the Trade and Fiscal Policy adopted by you in 1879. In order therefore to give the people, without turther delay, an opportunity of expressing their deliberate opinion on this policy, and at the same time to bring into operation the measure for the readjustment of the representation in the House of Commons it is my intention to cause this Parliament to be dissolved at an early day.

The Parliament of the Dominion of Canada was then prorogued to Monday, the 26th of June, next.

## JOSEPH GODÉRIC BLANCHET, Speaker.
