Ontario is the Banner Country TWO SETTLEMENTS WIPED OUT

The World believes that with the standard worst of the money ingency is over.

We also believe that with the standard will appearing # disappearing Ontario will experience a business active, unprecedented

Poor streets and roads are the one great drawback in our cities, towns and country places. And we are badly in need of radial electric lines. We should have five hundred miles of these local lines running into the City of Toronto. The purchase of the Toronto Street Railway is the immediate key to such a system.

But the good roads movement is likely to receive an early impetus, and we believe that a deal for the Toronto street car system will yet be negotiated.

But outside of this, Ontario is developing in all directions. Farm values are improving in many directions, and radial lines will greatly stimulate them. All the factory towns are overworked with orders, limited only by the mability of the work people to get houses to live in. Every such town should have a local house-building association backed by the municipality.

Railway extensions in Ontario now under way will soon produce wonderful effects in older Ontario. The Canadian Pacific's lake-front line will stir up business in Whitby, Oshawa, Bowmanville, this fall, and Port Hope, Cobourg, Belleville in the spring. There is to be a re-birth of all the towns on Lake Ontario, east of Toronto, by the stimulation, if not the competition, of the Canadian Pacific. The sixty years of Grand Trunk slumber in that fine district is to be rudely broken. And the Canadian Northern, which is also in the same country, has already helped to waken it.up, and will do a lot more when it connects up Ottawa and Deseronto. But the Grand Trunk should anticipate what is coming. It has still the best position and outfit if it will only use it to the full.

The Canadian Northern and the Grand Trunk ought to be establishing Winnipeg-Toronto passenger trains before the spring of 1914. We do not see why the Grand Trunk Pacific is not giving such a service now. Surely the Minister of Railways has the National Transcontinental about completed between Superior City and Cochrane. We trust the Grand Trunk has the equipment for this service ready for the signal. For the express service the latest style of all-steel passenger train cars will be none too good. It should be the shortest and the quickest route to the west.

Ontario is the largest block of good country on the whole North American continent, and is about to have a wonderful increase in settlers, in factories, in enterprise! With this there must be better roads, abundance of

cheap power distributed by public-service organization; the highest and best stimulus to agriculture must be afforded by the state. We believe all these things are under way.

Ontario is to be the country of the next twenty years. Buy a farm in Ontario, improve it, live on it if you can, start in to raise a family of boys and girls on it. Clear the land, stone it, drain it, keep it clean, treat it well; get good roads thru the townships; it will pay you back many times over. The finest place in the world to raise a family is in Ontario, but you've got to be in earnest when you are doing it, and you should do it right. Ontario is too good a place for any further slip-shod efforts.

READY TO GIVE PRESENTS BACK

Couple Who Learned That Paris Woman Could Not Walk Guests Were Disappointed Will Return Their Gifts.

Special to The Toronto World. ALTON, Ill., July 4.-A communication in Alton newspapers today advised any person who gave a wedding present to the J. C. Kulps of Moro, Ill., and who doesn't like the way the "wedding" was conducted that he can get the present back on application. The "wedding" really was not a wedding, for when the guests assembled June 26 to witness the ceremony the minister read a certificate which showed that John C. Kulps and Miss Minette De Werff were married at Springfield Nov. 16, 1912.

It was said some of the guests who had gone by steamboat and rail, carrying presents, were resentful because there wasn't any marriage celebrotion. The statement, bearing the names of Mr. and Mrs. Kulps, says in

"In order that the sceptics may be satisfied to the truth of the marriage of John Kulps and Miss Minette De ceedings, but the higher court has now Werlf, we wish to state that we were legally and truly married of our own free will at Springfield, Ill., in the parlor of the Presbyterian parsonage by the Rev. Mr. Logan Nov. 16, 1912.

special Cable to The World. Copyrighted by The Toronto World and N. Y. World. PARIS, July 4.—Legal convolutions more involved than the famous Labyrinth of mythology to decide whether a woman must pay for a hobble skirt have brought Parisian justices to the verge of nervous prostration and left

dame justice gasping with indecision. A woman bought a hobble skirt. She wanted it to be just as hobbly as the most stringent dictates of fashion demanded, but when she got into the skirt she found her only practical method of locomotion had to be after the manner of the kangaroo.

She refused to pay the tailor, who sued her, and the flercest haggle over the hobble rang in court chambers for months. The original court ordered the woman to pay for her hobble skirt, and also the costs of the legal prosaid that the woman shall pay for the hobble and the tailor pay for the law stunts, and decorously ducks deciding whether a hobble that hobbles so tha woman can't even hop, is a legitimately marketable piecec of clothing.

COCHRANE, July 4-(Special.)-Peter Brown Creek, a settlement 200 miles east of Cochrane, has been wiped clean of fthe map, but not before scenes. All that human exertion could do had been done to save the little settlement, but in vain. The fire fighting force worked in vain to save the hospital. Here were five or six pa- they had been celebrating. tients that could not be moved on the relief train, which had already taken most of the men, women and children to safety. Dr. Cameron and Hugh Gillian, his assistant, and some others decided to stay and figl:t for their lives. So close was the heat of the fire that it was seen that the Union Jack which waved over the little log building, was on fire. Seeing that a hospital orderly, an englishman, climbed on to the building at the peril of his life and smothered the blazing flag in his arms. The incident seemed to have nerved the little band to renewed exertions for the crisis of the battle was safely passed and at the end of the day the heroic little band stood victors with their patients safe.

But all else had gone, the five stores the machine shop, the engine repair shop, the contractors' warehouseseverything was bare and black, but the little wooden hospital with the singed British flag waving over it.

Perilous Scenes.

Belle River settlement is swept clean out of existence, the settlers there barely escaping with their lives. The official estimate of loss at Jacksonboro, the Jackson and Tindle settle-ment west of Cochrane at Mattagami River, is \$30.000. Of their 100.000 logs cut not one has been saved and the mill has been saved only by the most strenuous exertions.

Settlers' Losses. As an example of the loss by settlers may be cited the case of William Morgan, a man with holdings at Lillebell Lake, just cutside Cochrane. He has lost everything he had in the world, about \$800. The Ontario Government has lost thousands of dollars, since the corduroy on practically all the roads built by Mr. Whitson last year has been destroyed.

Heavy Borrowings by Municipalities Have Accomplished Large Amount of Foundation Work, Says London Statist-Flow of Capital Should Not Be Checked.

LONDON, July 4.-(C. A. P.)-In view of recent criticisms it is significant that in today's Statist, our leading financial review, appears an article covering several columns dealing with Canada's financial standing. It is understood the writer is Sir James Knowles, editor of The Statist .. He points out that Canada's heavy borrowings have mostly been for what may be termed foundation purposes, such as laying main lines. Such additional capital will soon be relatively small.

"It has recently been pointed out," the writer contines, "that the weakest spot in the financial situation of Canada lies in the borrowings by small municipalities. Doubtless these bor4 rowings will ultimately prove of great interest until they-were in a position public today.

While in the grip of the worst thunderstorm which has visited the city in some time, the service of the Toronto Electric Light Co. went out of commission yesterday and remained in this condition for nearly seven hours. The auxiliary steam plant at Scott street was immediately set to work, but was only able to supply sufficient power to keep a few street cars moving. The power went off at 2 o'clock and did not show itself until 9 o'clock at night. A great number of downtown establishments were forced to use candles. Thousands of people lined corners in all parts of the city and waited in the teeming rain for cars that did not

For two hours the rain poured, accompanied by thunder and lightning. It was the heaviest fall for such a short period in many years and almost equaled the total rainfall for the month of June. Yesterday 1.04 inches was the record and in all of June the figure was 1.35. With the great humidity and heat, yesterday was about as uncomfortable a day as Toronto has experienced this year. The highest temperature was 86 around noon and the lowest was 61 early in the morning. The fall of rain did not offer much relief, the atmosphere being so close, and there is no let-up in sight. There was only one little break, which occurred around 2 o'clock and it was of no consequence. Chief Engineer Gaby explained that it was purely a local affair and was not a defect in the system, but a mistake by an employe who was tampering with a switch. "If this testimonial will further the good work of 'Fruit-a-tives,' publish it with my full authority." J. B. HARDING. Are you wondering how "Fruit-a-tives"—a medicine made from fruit Juices, can cure Gall-stones? We will tell you. The Gall bladder is the reservoir for holding the Gall, or bile, secreted by the liver. If there is insufficient bile, then the bile in the Gall bladder is thick and easily forms stones. When the liver is weak, it secretes very little bile and then the Gall bladder is partially filled with a thick, jelly-like mass of bile and thus forms into lumps or stones. "Fruit-a-tives" stimulates the liver to secrete more bile, and this increased bile softens the Gall-stones and by overfilling

and thus cures the disease. "Fruit-a-tives" is the only medicine in the world made of fruit juices. By a wonderful process, the medicinal properties of certain fruits are greatly intensified—then valuable tonics and antiseptics are added and the whole made into the pleasant tasting tablets known in every section of Canada as "Fruit-a-tives."

The story tells of four laborers leaving one camp to journey to another and being overcome by the terrible heat, seeking rest in the shade of a railway tank, but in dangerous prox-imity to the tracks. The quartet lay down on the high gravel grading along which double trackage is planned, with their feet extending towards the rails-

In a few moments all were fast asleep.
As far as can be gathered from the incoherent jargon of those who escaped, they were awakened by the thunder of a train almost upon them. Lying as they were, the foot of one had extended beyond the tracks and the engine had roared across it in a moment. This apparently had catapulted the wretched victim foremost into the train and he was hurled backward with skull crushed in. Two of the others, rising with frightened screams, had been sucked againnst the cars, but managed to break away wth lesser injuries. The train rushed away into the distance with the crew unconscious of

from debilitating excesses and dissipations. This Health Belt in itself is a marvel of power, and sends a great, soft, even flow of vitality into your blood, organs and nerves. Wearers the world over say it takes all pain and weakness out of the back, often from one application, and builds up the strength, thus giving back the full vigor of Youth, so you soon find yourself answering: "Never felt better in my life" to your friends' greetings; while they secretly marvel at the great change for the better which has come over you. With special attachments the Health Belt is also a wonderful treatment for rheumatism, kidney, liver, stomach, bladder disorders, etc.

I have compiled (and will send to you free) a little 82-page illustrated book (pocket size) which is meant as a complete private guide for men, young or elderly, single or married. You can size yourself up exactly from a careful reading of this book. It reveals certain truths and gives a clear, wholesome idea of those great vital subjects which should be familiar to every man. It fully describes my Health Belt and tells you how and where you may secure one to wear for the restoration of your own strength. As soon as I hear from you I will forward the book by mail in plain, sealed envelope. There is absolutely no obligation involved in accepting this free book, as over a million have been sent all over the world. If in or near this city it will pay you to call and test the Health Belt. FBRAU EXTRACT OF MALT. invigorating preparation LEE, Chemist, Toronto, Canadian Agent. NUFACTURED BY

Here is a new method by which you (like thousands of men all over the world are doing today) may secretly treat yourself without drugs or medicines with a view to quickly restoring your feelings of youth that you may get back your complete, vigorous, vital health and strength. Everything—is explained in my illustrated booklet for men, which I will gladly send to you free, sealed, by mail, just as soon as you write for it. Please use the free coupon below.

As to your own present physical condition, let me say from a close personal observation of hundreds of thousands of cases of lost vitality in young, middle-aged and elderly men, covering an experience of over 30 years, I honestly believe that "Lost Vitality," as we term it, is actually no real disease in itself at all, and that under certain favorable circumstances, any man, anywhera, can easily and permanently restore his own full strength and nerve force if he but make an honest, conscientious effort along certain common sense lines, which I am able to suggest, and which include absolutely no medicines or drugs of any kind. You simply use a little vitalizing appliance of my invention, called the Sanden Health Belt, which you wear comfortably around your waist during sleep for 60 to 90 days. That is absolutely all there is to the whole treatment, excepting, of course, you are expected to lead a decent, manly life, free ever introduced to hell the invalid or the athleta ardt Salvador. To Help Nature Shed a Bad Complexion

(From The Family Physician.) Beauty devotees are enthusiastic over the beautifying qualities of mercolized wax. Perhaps nothing discovered within recent years accomplishes so much, so quickly, without harm, without detaining one indoors, and at such small expense. The principal reason for its wonderful merit is that it works in harmony with physiological laws. Instead of hiding, for "curing" complexion defects, it removes them. The wax actually takes off the aged, faded, sallow, freckled or blotchy cuticle, gently, gradually, causing no inconvenience. It is Nature's way of renewing complexions. When the natural process is retarded because of deficient circulation or nerve tone, mercolized wax comes to the rescue and hastens the skin shedding. The new complexion which appears is a natural one, youthful, healthy, exquisitely beautiful. If you've never tried mercolized wax, get an ounce of it at the drug store, use at night like gold cream, washing it off in the morning.

Another natural beautifying treatment

Another natural beautifying treatment for wrinkled skin—is to bathe the face in a lotion made by dissolving an ounce of saxolite in a half pint witch hazel. This is remarkable and making the lad treater in the cover of the same of the

Miss Haswell's Plays.

The attraction next week at the Alexandra Theatre will be that noted comedy. "Divorcons," one of the greatest successes of that brilliant French dramatist. Victorien Sardou, whose many plays are familiar to Toronto theatre-goers. The productions will be complete in every way and up to the high standard created by the Percy Haswell players. "Divorcons" turns the serious problem of divorce into a roaring farce, ridiculing the absurd French customs to such an extent as to make it a powerful play as well as a very funny comedy. The play is supposed to transpire during the passage of a divorce bill, which has caused all France to take sides in the cause.

Flower of the dusk, as it has so ten been called, it has become very opular during the last few years. I do not know any plant that has gained in popularity as nicotinia. And this plant is really so useful, in such a variety of ways, that what we would do without it is hard to tell. For placing in shady spots, under trees, in front of shrubberies, behind low-growing varieties, it has no peer.
A profuse bloomer, the immense, grey-green, rough leaves form a ra-

The nicotinia is a plant that will continue to bloom long after the rest of the garden folk have gone to rest All that is needed to help it out is a slight protection from the first sharp frosts. But, do not forget to pick off the flowering branches freely. Pull off whole lengths of them.

I plant many specimens among the rose bushes. When the roses have de-parted, and long before that, too, the

long, snow-white bells are peeking shyly out among the prickly branchs. The firm branches of the rose bushes form a support for the great, straggiing branches of the nicotinia Watch your cosmos, for signs of the "borer." From the top of the hill he could survey nearly the whole of the park, with its lawns and woods sloping down to Lake Champlain, and, sitting on a tree-stump, he watched a high-powered motor car speeding along the drive.

Claude Waverton was at the steering wheel. Armand was by his side. "Now," thought Clancy, "if I was in the tonneau, and leaning over the back of their seat, there would be so much French flying about that one might fancy oneself in Lower Canada," A hooded victoria crawling along the road caught his eye. It was, indeed, more than likely. Clancy was very angry with Doris Waverton. She was on the boards at least five hours too soon, and such a contretemps would annoy the most phlegmatic of dramatists, let alone a mercurial playwright like the detective.
In very truth, her arrival at "The Dene" had wrought something akin to consternation. When she alighted from

Excitement Tremendous.

The news that Japan had declared way against the United States would hardly have created more excitement in the streets of Atlanta than did the news of the sale of Gordon Kelly. Fifty thousand dollars for a ball player! It was an unprecedented sum. All records were broken, Nearly thirty years ago the Boston Club of the National League has paid \$10,000 for the celebrated Mike Kell, and later paid \$50,000 for 10ur other stars and the St. Louis Club had paid \$25,000 for McGraw and Robinson, then in their prime, and the Pittsburg Club had paid \$22,000 for Marty O'Toole, also in his prime, but never before in the history of baseball had such a deal been pulled of as that which involved the transfer of Gordon Kelly from the Atlanta Club to the Red Sox.

THE TELEGRAM'S INABILITY TO HANDLE FACTS.

The Telegram was last night guilty of as gross a piece of misrepresentation as one might expect from it. In the endeavor to support the charge that The World advocated the sale of the harbor lots at the foot of Cherry street to the National Iron Co., it proceeds ment. The Felegram now virtually declares that if The World had been active instead of passive the result would have been different. The implied compliment is not too graciously tendered, but we accept it with thanks.

The news article which The Telegram quotes as having appeared in The World of July 26, 1909, but which did not appear on that date, was evidently written after the sale of the land, and merely corrects errors of statement made by The Telegram, errors which did more than anything to weaken its influence at the time.

We shall be glad if The Telegram will furnish the actual dates on which the articles it asserts were published did appear. The articles themselves in no way impugn the statement that The World never advocated the "Mulock deal." In fact, prior to the actual sale, it was never mentioned editorially in The World's columns, nor for two or three years afterwards.

A HOT WEATHER KING FOR

The rapid increase in the trade, revenue, immigration and postal receipts of Canada, which followed the accession of his majesty to the imperial throne, was even more marked and significant after the appointment of his royal highness as governor-general. A loyal contemporary labors this point at some length, and gives in detail customs receipts and other sources of revenue for the month succeeding October, 1911. The personal touch is important, and men are asking what is to be the next step in our development as a self-governing nation within the Sir Hugh Graham and Sir John Williempire. Those who would know might read with profit an article under the caption, "A King for Canada," contributed some time ago to The Canadian Collier's by Captain C. Frederick Hamilton, who represents The Morning Post and The Toronto News at Ottawa. In that article the coming of his royal highness was distinctly intimated, and the question was not unnaturally asked. "What next?"

CANADIAN MONEY IN NEW YORK.

Financial America observes: Commenting on banking conditions in the Dominion of Canada, and on the difficulty the great note-issuing banks therein experience in increasing their note circulation, which they may only do to the extent of, approximately, \$13,000,000 unless they enlarge their capital, The Toronto World says: "Possibly the banks would be better able to meet the demands of business in this country were they to withdraw the whole or part of the \$36,000,000, lent on call in foreign countries."

Our contemporary's observation is merely a passing remark, not intended, we trust, to be taken seriously. The prosperity of Canada is attributable in no small degree to the hundred millions which her banks are able to lend to enter-prise in countries other than the Dominion.

Our contemporary almost a prose poem upon the advantages of international credits. "Nations," we are told, "are linked together by the potency of its charm." Truly encugh it is argued that the great creditor nations should not hesitate to send their surplus to the ends of the earth and to open up new countries. All nations we are told are "partners in the world's trade today," and war between two unimportant nations will shock all the exchanges of Europe and America mate cries with pride and joy, surely are the candy boy!" No

But it will take a good deal of tall writing to persuade the ordinary Canadian merchant, contractor or farmer that he is benefited by having the deposits of his neighborhood loaned to the speculators of Wall street, while he is unable to procure from the banks the assistance usually accorded at this time of the year for carrying on his business. The man who has a new house well under way, but cannot complete it, or the contractor who needs money for his men, the farmer or professional man who has a payment to meet, would prefer to see that one hundred million dollars in Canada There may be a certain charm from the standpoint of New York in having our money to borrow, but its "potency" does not appeal to many in Canada.

Sending a big surplus out of the country is one thing. But accommodating strangers at the expense of the position of general traffic manager of the Intercolonial Railway, a position he has held since his appointment twelve years ago. During Mr. Tiffin's term of office his visits to Halifax were looked forward to, and at a number of home people is quite another affair.

Master's Chambers
Before Geo. A. Alcorn, K.C., Master Orxford v. McWhinney-J. S. Waite,

Some men in this our thriving town have won high honors and renown, have earned a round of loud applause have won high honors and renown, have earned a round of loud applause by working on our country's laws, or selling land or canning beans, or writing for the magazines. We love to laud the village boys, who make a little louder noise than other men in divers ways—we never cease to chant their praise, and when we see them on our streets we talk about their wondrous feats in trade, in science or in art, until the cattle homeward start. The chaps who rise in any line are doubtless worthy, I opine, of whatsoe'er applause they get; I would not rob them of it, yet I fain would dedicate this poem ite those who make a bit at home. The man, who gains a strangle field on dame, or wins a ton of gold, or gains a place of power and rank may to his wife be just a crank; he maybe acts as mean as ain with all his nearest kith and kin. Then tho he wears a wreath of bays and many thousands shout his praise, when in his winding-sheet helies with toeses pointing to the skies, he'll find he made a far-off guess on what St. Peter counts success. From three o'clock till six-thirty all
the district north of the Belt Line Railway to Doncliffe drive was only on a

half load on the primary line, owing to one of the high wires being out of business. By 8.45, however, every-thing was in working order and the ights were glowing as usual. No Radial Cars.

All the radial lines shared in the general power failure yesterday. On the Metropolitan Railway the long distance service was completely tied up from about 2 o'clock till 9 p.m., while cars ran intermittently on the Glen-grove section, with breaks of about an hour to an hour and a half between The first long distance car pulled in from the north about 9 o'clock, and after that the service continued

with reasonable regularity. The Weston line was off from 2 o'clock till 7, hundreds of people having to walk who couldn't get rigs or

The Morning Break. Between 6.30 and 7 o'clock yesterday morning a grounded wire and a brok-en insulator tied up the street railway and, of course, the lighting system was out of business at the same time. According to Manager Fleming, the street railway power was only off for 15 minutes all over the city, tho the feed lines were off for 40 minutes. The moment the auxiliary plant was forced into service, everything became all There were ,therefore, two

breaks in the service during the day. As the result of the several mishaps in keeping this city charged with elec-trical energy, the Hydro Electric Commission has practically decided to provide a steam auxiliary plant which will make such occurrences of the past week impossible. It is estimated that plant will cost in the neighborhood of \$1,000,000. When completed it will mean that whenever there is a break in the service from Niagara, the plant will

"Mr. Couzens has advised us that there is no trans-mission line anywhere that can give an uninterrupted service," said Mayor Hocken. "For that reason we cannot expect to have what the people demand until we have an auxiliary steam plant. It should be located near the waterfront." The mayor would not answer the question as to whether it would be built before an agreement is reached with regard to the acquisition

LONDON, July 4 .- (Can. Press.)-The reappearance on the witness stand today of Lady Sackville, to undergo further cross-examination in the suit known as the "fight for millions," again attracted a fashionable audience to the probate court, where Sir

samuel Thomas Evans is the presiding judge.

Lady Sackville today told the court she had been ill all night, and her doctor did not think she would be able to attend, as he said she was on the verge of a nervous breakdown. She, however, declined a seat when one was offered her.

She also made a request to be allowed to make a statement of all the navments Scott had given to Knole.

TAKE BETTER CARE OF LINEMEN'S LIVES

THE TORONTO WORLD

Fear Scott Would Change Will Jury on Death of Frank Smith Say Foremen Should Inspect Equipment.

"That Frank Smith came to his death from a fall caused by a shock from an electric wire from which the ground wire had become removed from some cause unknown. The jury respectfully suggests that the foreman or some competent person in charge should see that all equipment is in order before the men ascend the poles."

The above verdict was returned by Coroner Hopkins' jury, empaneled last evening to investigate the death of Frank Smith a Pole, or Franz Dronszkiewecz in Po'ish, who was killed while working on the line of the Toronto Power Company on June 26 last near the corner of Davenport and Poplar Plains road at 5 p.m.

That from the position in which Smith lay at the time he first saw him after the accident he undoubtedly had

payments Scott had given to Knole Park, the country residence of the Sackvilles thru her. She said it was impossible to go thru the cheques.

Lower Social Standing.

When it came to the incident of Sir Benjamin Franklin, the physician of Sir John Scott. Benjamin Franklin, the physician of Sir John Scott, refusing her admittance to Scott's sick room, withness said fallen, he said. Witness said he had seen personally that the wire was grounded shortly before the accident. He agreed that Smith himself was the

grounded shortly before the accident. He agreed that Smith himself was the only one who could have removed it.

Other Lives Endangered.

H. Hadden, who was working three towers below Smith at the time, declared that about the time Smith fell a man named Julliffe, working with him on his tower, received a shock. The removal of the ground wire further down, he said, endangered the lives of all those working on that wire. His theory as to why Jolliffe was not killed was that Smith's body was at the time acting as a ground wire and grounded most of the current. He himself was standing on a board, he said, and consequently was safe from the current.

The post-mortem by Dr. J.J. Thompson revealed the fact that death was due to fracture of the skull and hemorrhage received in the fall. The doctor was emphatic in stating that the electric shock itself had not killed him, but that it was the fall from the tower which caused the fatality. There were no marks on the body which would indicate that the man had received an electric shock, but from the stiffened condition of the body he would judge that the man had a shock shortly before death.

TWO EASTERN PLAYERS BATTLE

Amateur Golf Tourney Brings Lees of Ottawa and Turpin of Montreal Together in Final—A New Champion -Consolation Series.

The all-important day has arrived, an the two finalists who will clash today for the Canadian amateur golf championship at the Toronto Golf Club, have the biggest day of their sporting careers ahead of them. The conclusion of the tourney and the battle for the title will bring Geo. H. Turpin, Montreal, and Gerald Lees, Ottawa, together by right of their defeating all-comers to date.

Whichever is made the new champion whichever is made the new champion and takes the laurels back home can proudly look back at his record and point out victories to his credit over some of the most difficulty and experienced players. The absence of Geo. Lyon, the champion, has renewed an interest in the struggle, that had threatened at first to be inert. The selection of an ultimate winner has been practically impossible, and the dark horses of the tournament have caused many surprises to the talent.

and the dark horses of the tournament have caused many surprises to the talent.

The victory of Gerald Lees of Ottawa over S. T. Blackwood, Poronto, in the semi-final was generally a foregone conclusion, altho the loser has before now reversed things at unexpected moments. Lees started in the morning round and soon secured a comfortable lead to carry him over the second round, but he didn't need it. At the conclusion of the first round he was three holes to the good, and finally won by six up and five. In the first round Blackwood started well, and at the turn was one up, but he blew up coming home and finished three down. His putting and approaching were wretched, while Lees kept up his consistent play of the tournament and took advantage of his partner's costly mistakes. Not content with a margin of three holes. Lees started right from the first tee, annexing the first, second and third in quick succession, increasing his lead to six up. The fourth was halved in three, and by running down a long putt Lees added another at the fifth, Blackwood was bunkered at the sixth and falled to recover, and the seventh was divided in three. Blackwood captured the eighth when Lees sliced his shot down the bank. At the ninth the Ottawan dropped his ball in the creek and foozled his approach. Te lost the hole, and Blackwood again took another by negotiating a four at the tenth. This left Lees only five up and this margin was reduced another at the eleventh when Blackwood holed a fifteen foot putt. Lees took the tweifth when Blackwood topped his drive and ran down near the reservoir, and the Toronto man again foozled his drive at the thirteenth, giving Lees the match by six up and five to go.

trouble in holding his own in the second round.

Turpin took the first and third and Scott the second. The fourth and fifth were halved in four, while Turpin took the sixth. He lost his ball at the seventh, but won the eighth by 4 to 5. The ninth was halved in six, leaving Turpin six up at the turn or two up on the second round. Scott showed a final spurt at this point, and took the next three, splitting his opponent's lead in half. At the thirteenth Scott fell away, and Turpin cinched the match at the fourteenth by holing out in three.

During part of the second round a severe rainstorm raged, altho its fury was pretty well spent after doing a lot of damage to the surrounding neighborhood. The consolation series, second round, was completed before the storm broke, but the semi-finals were called off until today. They will be played this morning, and the final in the afternoon. Suspension of Buck Yeaman Makes Tecumseh Supporters Wrathy.

The suspension of "Buck" Yeaman of the Tecumsehs by President Quinn of the Big Four has made the supporters of the Indians very wrathy, and perhaps justly so, as Yeaman's crack at Longfellow came in the heat of the play, and when Longfellow had the ball ready to shoot. It looked more an accident than anything else, and was not the deliberate kind, such as McKenzie gave Warwick. or Donald Cameron of the Irish-Canadians gave Pete Barnett last Saturday in Montreal, when he gave the Toronto home fielder a swipe with his stick when the latter did not have the ball.

CHAMPION RITCHIE SCORES KNOCKOUT

Puts Joe Rivers Away in the Eleventh Round in Fight For Title.

er.

The fight thruout was viciously contested and twice in the earlier rounds it looked as the Rivers might win. Ritchle's wonderful ring generalship and ability to fit effectively straight from the shoulder with either hand, however, offset the Mexican's attack and it was not long before Rivers became disheartened and pinned his faith solely on wild swings, one of which he hoped would land for a knockout.

ned his faith solely on wild swings, one of which he hoped would land for a knockout.

The battle opened with both men eager to mix it close. The first round left no choice, but in the second, third and fourth rounds the Mexican was tigerishly aggressive and punished the champion severely with swinging blows to the face and body, several of which staggered Ritchie and caused uneasiness in his corner. The San Franciscan rallied in the fifth and thereafter displayed true championship form. He met the Mexican's wild rushes with snappy left and right smashes to the face, which cut deeply and easily blocked or evaded the poorly timed swings, many of which were far wide of the mark.

The champion fairly beamed with confidence as the fight progressed. In the seventh he opened a bash above River's left eye and in the following round cut his face severely with a volley of snappy left jabs. The tenth round seemed to presage ultimate defeat for the challenger, a left-uppercut to the chin, which lifted him from the floor, causing him to faiter perceptibly. The eleventh and final round had scarcely opened when Ritchie's right shot out straight from the shoulder, catching Rivers squarely on the jaw and sending him to the mat. Nine seconds were tolled off before the almost helpless fighter regained his feet. Quickly the champion's left found the Mexican's stomach and a right uppercut reached the falling pugilist's jaw, sending him prone.

The battle was fought under perfect weather conditions in the open and was witnessed by 7000 persons. The receipts, it was said, aggregated \$30,000.

Great Card, Is, Prepared For This Afternoon—The Draw.

Rain interfered yesterday with the progress of the city tournament on the Rusholme courts. The committee do not consider this an unmixed evil, as the courts are in better shape as a result. A great card has been prepared for today, and most of the crack players are scheduled for two events. Owing to the pressure, all participants are requested to be on hand sharp on time, as the committee will have no option but to default delinquents. It is hoped that all inter-ested in tennis in Toronto will be present

today to show their appreciation of the Rusholme Club's effort to make the city tournament one of the outstanding features of the tennis season.

THOUGHT DESPERADOES THREATENED HIS LIFE

Alberta Rancher Suffers From Delusion While Crossing Lake Huron.

SARNIA, July 4.—(Special.)—Andrew Gulbout, an Alberta rancher, who was a passenger on the Hamonic, arriving here today, caused some excitement on his way down, by his strange actions. He labored under the delusion that a gang of men, whom he had caused to be convicted and sentenced to a six-year term in the penitentiary for stealing cattle from his ranch, were on his trail, intending to kill him. He became so violent that it was neces-sary to lock him up. Chief Forbes was called by wireless to meet the Hamonic on its arrival, and he was given into

his charge.
Guibout appears to be quite rational on all other subjects. He has tickets for France by steamship, from New York. He asked Mayor Bell to allow Chief Forbes to accompany him to Montreal, as he feared he would be attacked. The mayor advised that Gui-bout remain in the hospital for a day or two and consented to Chief Forbes accompanying him to Montreal.

NOTED TROTTER **DIES AT LONDON**

Robert Margrave, 2.18 1-4, Collapsed After the 2.24 Class Trotting Race.

Horsemen in general thruout the counry, and the many friends of the local arness horse enthusiast, John J. Burns, will regret to learn that his roan trotting gelding, Robert Margrave (2.15%), un gelding, Robert Margrave (2.15%), and after his race on Thursday at London.

The horse won the second and third heats of the London race in 2.15% and 2.15%, the fastest of the six that were contested, and it is supposed that the intense heat caused his collapse.

Hovert Margrave was bought by Mr. Burns at the dispersal sale of Harry Lang's horses at Yarmouth Centre last spring, and at the time the horse had a record of 2.24%. In the hands of his new owner, he received a careful preparation for this season's campaign, and ne won the 2.24 class trotting stake at the Dufferin Driving club a Jane meeting, lowering his record to 2.20% auring the race, which was also a 10.15-crann-out one. in the death of Robert Margrave this untry has lost one of its best half-mile

At the present time it seems likely that the junior branch of the club will fall thru, as at present only three members have joined same. In half a dozen cases parents have refused to let their sons join because the club is situated in deep water. Surely it is better for boys to swim in deep water, when there are a dozen officers and thirty or forty senior members to look after their interests, than let them swim in unprotected waters, where as a rule no help is at hand.

OLD GERMAN LAGER The "Old German" flavor has them all beaten GREAT, indeed, is the demand for Kuntz's Old German Lager. No beer has ever achieved such a nation-wide popularity. Everywhere you go in Canada you hear

> To get this "Old German" flavor, requires a costly process of brewing, and the use of the finest barley, choice Bohemian hops, specially prepared yeast, and sparkling spring water. But the huge success of Kuntz's Old German Lager proves to us that Canadians prefer lager brewed by this expensive process.

> people say that the "Old German" flavor has them all beaten.

When you can get a lager of such class as Kuntz's Old German, why be content with anything less delicious? The leading hotels, cafés and liquor dealers sell this superb brew. You'll know it's Kuntz's Old German by the "Old German" scene on the label, and the smart, stylish appearance of the Peacock Green Bottle. See that you get it.

PITTSBURG, July 4.—After the Pirates PITTSBURG, July 4.—After the Pirates and Cardinals had gone seven innings of weird baseball, the crowd clamoring to get in for the afternoon contest caused the game to be called a tie, 3 to 3. St. Louis took the afternoon game from Pittsburg thru wildness of Pittsburg pitchers, and getting hits at the right time. Off Cooper and Camnitz they got six runs in the fourth innings. Cooper left the box with three runners over the plate and the bases full. From that time the visitors kept adding to their string, altho the locals made Huggins use three pitchers to retain the lead. A sandstorm interrupted the game for twenty minutes during the seventh. Scores:

Artillery Horses

on WEDNESDAY, JULY 9th

Every single horse will be sold, and this opportunity is far too good to lose. All these horses were specially bought for the purposes of the Government, for the annual training at these Military Camps. They were purchased at prices as high as \$600 per team, and from that figure to \$400 per team. They are a very fine lot of horses through and through, every one having gone through a severe examination by the Government Veterinary Inspectors, and no defective horse having been purchased. They were well cared for at camp, and are in good shape after a trying month's work. They were acknowledged as the best horses at these camps, and sixteen of them were first in prize competition amongst all the different companies.

The majority of them are 5 to 7 years old, and sound. The support weigh

The majority of them are 5 to 7 years old, and sound. The gunners weigh 1300 to 1550 lbs., and are grand general purpose or draught horses. The cavalry horses will make the best of wagon and delivery horses or drivers. This will be the greatest occasion on record to buy delivery and wagon horses, suitable amongst other purposes for Bakery Vans, Laundry Wagons, Milk Wagons,

When purchased, these horses were bought with the view of being resold for general working purposes, and buyers on Tuesday and Wednesday will get a lot of thoroughly good horses at their own bids.

Medical Men in London Once More Take up a Hopeless Task.

LONDON, June 30 -That kissing is dangerous is an opinion that long has been held by medical men generally. The only point on which they appear to differ is whether it is a filthy habit. This question has been reopened by Dr. J. Baird Morton, medical superintendent to the Bury and District Joint Hospital Board, which possesses one of the finest sanatoria in England. Islington, some amusing evidence transpired.

Mr. Chadwick's property had been purchased by the railway, but the money had not all been paid over, and to prevent delay in payment after the com-pany had taken possession he had an employe of the company arrested for

The evidence brought out the fact that the money was paid into court and warrant of possession taken out. A few hours after the foreman was arrest-ed, and S. H. Bradford, counsel for the complainant, expressed the opinion that this was the direct result of his client's

Mr. Bain, K.C., who defended Mackenzie, denied this, and claimed that the foreman was on the ground with reasonable grounds for believing that he had a right to be there.

Magistrate Brunton suggested that Mr. Chadwick should be satisfied if he dismissed the defendant on his paying costs. Mr. Bradford said he would agree to this if the company would give an undertaking not to bring any

action against his client.

Mr. Bain would not agree to this, however, as the contractor might claim against the company for delay.

The magistrate dismissed the case against the defendant, no costs being allowed. The sum paid into court after the arrest was \$12,000.

MARKHAM TO VOTE ON ANNEXATION

Mount Joy May Be Brought in to Aid in Industrial

There are two important questions occupying the attention of the Markham ratepayers. One is the proposed annexation of Mount Joy, a neighboring police village, which has been discussed for some time.

The other matter is a proposed loan of \$10,000 to the Ontario Yarn Company, a local industry, whose directors are anxious to extend their business. Nothing will be done regarding this loan, however, until the annexation of Mount Joy has been disposed of, as some of the larger property-owners are averse to placing such a large burden on Markham, but with the addition of Mount Joy to the municipality the tax would be spread over a larger area and would not be felt.

The question of annexation has been before the electors several times, but has always been referred back.

tell of a severe hailstorm which visited them yesterday afternoon, and which ward seven citizens escaped. Various accounts of the size of the hallstones are heard, one resident telling The World that they averaged the size of a marble and did considerable damage to some valuable shrubs in his garden. Some credence must be given this, as a trip thru the district revealed many beaten flowerbeds and damaged shrubs and at a market garden the owner showed the glass corner of a hot-bed shattered by the hail.

WITH THE AZULYKIT CLUB.

On Monday, July 7, the Azulykit On Monday, July 7, the Azulykit Club leaves Toronto on the first of its outings, traveling to Muskoka by the Lake Shore Express of the Canadian Northern Railway. An official program has been arranged for ten days of pleasure that will include bathing, boating, tennis and other forms of outdoor amusement before returning to the city on Thursday. July 17.

The cost of the tickets covers every necessary expense, including railroad and boat fares, with room and meals

at the Royal Muskoka Hotel, the rooms and meals provided being in every way the same as those provided to ordinary guests. In previous years members have been asked to pay for their meals on the train each way, but on this occasion arrangements have been made with the Canadia Northern Railway whereby a special table d'hote luncheon will be included in the tickets. This outing is a holiday, not a "dress" affair, and all entertainment at the hotel are informal. Going at the time when Muskoka is at its best and the city at its worst, it would be impossible to think of a more congenial vacation for business women and oung people generally at such really trifling expense.

If you are interested, write or apply in person for special booklet and full information to Mr. C. J. F. Collier at Foster's, 15 East Queen street.

FUN AT HANLAN'S

Dog and Pony Circus, Daring Acro-batic Acts, Band Concerts.

Hanlan's Point today should be crowded, for the reason that there is something doing all the time. In the afternoon and evening there will be band concerts and free out-door shows. The Dog and Pony Circus has during the week pleased thousands of chil-dren, and the thrilling performance of De Onze on the swaying, bending pole has amazed the older people. What looks like a big lacrosse battle will take place in the afternoon between the Irish Canadians and the Tecumsehs. Beginning Sunday afternoon and evening, Senor D'Urbano and his band will begin a two weeks' engagement. This is the splendid organization that has been delighting the visitors of Scarboro Beach.

\$3.50 RECIPE FREE FOR WEAK MEN

Send Name and Address To-day. You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription or nervous debility, lack of vigor, weak-ned manhood, failing memory, and lame ened manhood, failing memory, and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own home—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

This prescription comes from a physician who has made a special study of men, and I am convinced it is the surestacting combination for the cure of deficient manhood and vigor failure ever put together.

To build comfortable homes for workmen-modern, convenient houses - in desirable localities within the City of Toronto and environs—to make it possible for every man to purchase and own his own home for a very moderate cash first payment and a fixed monthly payment which does not mean a greater outlay than that which he is paying in rental today, and for which he receives only scant comfort and paying some landlord his hardearned money with nothing in return for it, when through PROGRESSIVE BUILDERS, LIMITED, he may be his own landlord and on the highway to prosperity.

Building houses in the City of Toronto today is one of its chief-industries-and for no class of house is there a greater demand than the moderately priced house that will meet the requirements of the workingman. This is not idle talk; it is fact, and it becomes more apparent every day, that if the workingman could purchase a home for himself for a small cash payment down and a moderate sum monthly in completion of the purchase that thousands of them are ready to do so, and will welcome such an opportunity.

The object of PROGRESSIVE BUILDERS, LIMITED, is to build in Toronto and environs good, substantial, six-roomed houses-to be sold for a small cash payment down, and the balance in small monthly

PROGRESSIVE BUILDERS, LIMITED, will immediately commence the erection of 100 houses, to sell at from \$2500.00 to \$3500.00, on a cash payment of, say, \$200.00 down, and cash monthly payments of from \$25.00 to \$35.00, this amount to cover the taxes—interest on the money—insurance, and will also pay an amount toward reducing the principal each year.

PROGRESSIVE BUILDERS, LIMITED, while offering a most desirable proposition to the man who wishes to purchase and own his own home, is also a gilt-edged investment proposition to the shareholders. American companies formed and working along the same lines as PROGRESSIVE BUILDERS, LIMITED, propose to do are yielding today profits of from 25 per cent. to 40 per cent., and what has been accomplished "across the line" it is confidently expected can be done even more handsomely in Canada.

PROGRESSIVE BUILDERS, LIMITED, in their building operations are planning to eliminate all middleman's profits—they will go "back to the woods" for their timber—will have it sawn in mills controlled by themselves—they will control the output of large brickmaking plants—and the same element of getting building materials and supplies at first cost will enter into all their operations, and this in itself means a guarantee for greater

PROGRESSIVE BUILDERS, LIMITED, have options today on excellent properties from the standpoint of location, and most desirable from the standpoint of steady and permanent increase in value.

PROGRESSIVE BUILDERS' LIMITED, is organized and officered by men who are experienced in large

ditions. PROGRESSIVE BUILDERS, LIMITED, may in a measure assist in meeting this demand, at the same time give the workingman a chance to buy a home for himself on easy payments, and affording the shareholder a great investment opportunity.

PURCHASE DEPARTMENT BURIED UNDER SIXTY PROPOSAL AGAIN UP TONS OF SAND—LIVES

Merged in With Architect's Office.

In tackling the reorganization of the architect's department, the board of control will also consider the inauguration of a purchasing department. Under existing conditions the purchasing of supplies for each of the departments does not permit of modern methods. It is piecemeal and therefore not economical.

The proposition is to standardize the

buying. Some kinds of supplies, such as stationery, are required for every department. To purchase them in bulk would assure lower prices. Then the head of the purchasing department would be given a liberal line of credit. so that he could snap up bargains any moment.

moment.

By merging the architect's department ment into the property department there will be a reduction of overhead charges sufficient to admit of the introduction of a purchasing department.

Stantly, and by dint of herculean effort both man and team were saved. Rolph was taken in the police ambulance to the General Hospital, but was well encountered to the control of a purchasing department.

Now Suggested That It Be Forty Men Rescue Robert Rolph, Teamster, Just in

Time. Forty men, shoveling with all their strength, succeeded in rescuing Robt. Rolph, 1423 Dufferin street, from suffocation under a landslide which buried him and his team at Norway yes-

terday. Rolph was at work drawing

away sand from the lower end of St. John's Cemetery, when the sand shifted and 60 tons of it crashed down upon Clarence Foley, who had just left the pit with a load, looked back, and, not seeing Rolph, called out to the foreman of a gang of men laying a sewer nearby. The workmen responded instantly, and by dint of herculean effort

TRADERS TOOK CUE BANK CLEARINGS FROM LONDON MART

SATURDAY MORNING

Grade Again—European Outlook Unfavorable.

BRAZILIAN AT NEW LOW

Reaction in Bank Stocks Carried Further - Trading Slightly More Active.

With Wall street away holidaying yesterday, the Toronto Stock Exchange took its cue from London. Old country cables reported that the market there was weak, with consols at new low record, and sentiment de pressed over a possible Balkan crisis The consequence of this news was tha Canadian securities soon hit the down ward path again, for there was no redeeming feature on this side to offse the discouraging developments i Europe.

Traders here paid more attention to the fact that Brazilian made a nev low record in its history than to any thing else which took place on ou market. It was hinted that the seem ing withdrawal of support by the syndicate which has been working in the security might easily lead to further liquidation by disappointed holders, and there were those who talked of much lower prices within the next month or so. This, however, was nothing more nor less than the usual bearish feeling during a decline.

Brazilian at 84 3-4, its lowest point for the day, was off just a quarter for the session and compared with 89 5-8 a month are

month ago.

Recovery in Spanish.

While trading was slightly more voluminous than on Thursday, the action of the general list was uninteresting. Spanish River's rise of 2 1-2 wints to 1/2 1 2 was the leading feet. esting. Spanish River's rise of 2 1-2 points to 47 1-8 was the leading feature, the buying being apparently in anticipation of the merger reported to be pending. C.P.R. was over a point lower at 213 1-2 and Dominion Iron also worked below its recent level. Toronto Rai'way sold at 136. Twin City at 103 and Mackay at 77 and 77 1-4. In the investment issues a further setback in the bank shares was the only interesting event. Standard and

only interesting event. Standard and Hamilton dropped to new low records in years, and Dominion lost the major portion of its recent gain. Locomotive bonds sold at 98, the lowest level ever attained.

WOULD FORCE COTTON EXCHANGES TO CLOSE

taken by Toronto brokers in the pro-vision incorporated in the Wilson-Underwood tariff bill, soon to come before congress, whereby a stamp tax of onetenth of a cent a pound, or 50 cents a bale, will be imposed upon every deal in cotton futures. It is stated by partles in close touch with cotton market conditions that such legislation would make trading in the staple prohibitive and would result in every cotton exchange being closed within a very shor time after it was written into the sta-

At the present time there is a tax of two cents per hundred shares on stocks sold in the New York Stock Exchange, but, so far as known, no tax has ever been imposed on speculations in grain or other commodities. The New York and New Orleans Cotton Exchanges have already taken action to fight the bill, which will come in for fierce opposition by southern members of con gress when it comes up for considera

EUROPEAN SCARE IS GETTING WORSE

London Market in Decidedly Nervous Mood-Prices Lower All Round.

LONDON, July 4 .- Money and discount rates were a shade harder today. With no improvement in the South African strike or the Balkan news, the stock market was again nervous and depressed and prices declined in all sections. Consols and Irish tocks wer weak features, and Kaffirs, Rio Tintos and Peruvian shares suffered from continental selling. Mexican and Bra-zilian rails were flat on bear pressure, and there was only a fractional recov ery at the close.

American securities opened steady with prices unchanged. Trading was quiet, but the market was depressed by realizing and closed dull, with values ranging from unchanged to 3-4 below

CONSOLS DOWN AGAIN NEW LOW RECORD

British consuls made a new low re cord since 1823 in London yesterday the quotation for cash dropping 72 3-8 This compared with a low level of 72 5-8 last fall and 73 5-8 in 1911. Th apprehension occasioned by the re newal of hostilities in the Balkan pow der magazine is behind the latest de cline. At their present figure consols yield a return of 3.47 per cent, on the

Canadian Securities on Down Canadian Figures Four Per Cent. Over Last Year-Decrease in June.

Canadian bank clearings for the month of June totaled \$747,322,880, a decrease of 2.8 per cent. from June, 1912, making the second monthly decrease for the year to date. Up to May clearings showed steady gains, but in that month they dropped back 3 per cent., making the first loss reported in a good many years, and clearly reflecting the slight reaction in trade thruout the Dominion.

Most of the leading cities showed losses in June, with a drop of 28 per cent. in Calgary, the biggest percentage decrease. Of the ten western centres no less than six reported lower figures than last year. Comparisons follow:

EARNED DIVIDENDS BY WIDE MARGIN

U. S. Steel Trust Has Made Splendid Showing So Far This Year.

NEW YORK, July 4.—In the first half of 1913 the United States Steel Corporation earned sufficient money to meet the 3 1-2 per cent. dividend on the preferred stock and 2 1-2 per cent. on the common stock by more than \$17,800,000. Therefore, shareholders can rest assured that there will be no change in dividends in 1912. change in dividends in 1913.

For the first quarter of this year Under New Tariff Bill All Trades in Cotton Will Be **For the first quarter dividend payments of approximately \$7,370,000, and ments of approximately \$7,370,000, and there will Taxed.

A good deal of interest is being aken by Toronto brokers in the profirst half year. If this record can be maintained United States Steel will lose the year with a surplus of more than \$35,000,000, which will be more than sufficient to meet construction expenditures.

For the second quarter, based upon charges similar to what they were in the first quarter, the Steel Corporation, estimated, showed a surplus after pre-ferred dividend payments of \$16,785, 000, which was at the rate of 13.2 per cent, a year on the common stock.

MARCONI WIRELESS

American, English and Russian Companies Throw Business Principles to Winds.

The affairs of the Marconi Wireless Telephone Companies are attracting a from a high of 53 last week to 45 on good deal of attention, particularly in Thursday, opened 2 points higher to-London at the present time, as it is believed that sound business principles are not being followed in every instance. The recent scandal over wireless shares held by members of the cabinet has brought the concern into the fierce light of publicity, and thereby given them a prominence which they probably do not deserve in any degree.
The Marconi Wireless of America

recently declared a 2 per cent. dividend. With its \$10,000,000 capital this calls for \$200,000. It can scarcely be said that it has earned money to make the disbursement out of operations, for the profit for the year was only \$170,-694, or almost \$30,000 less than the dividend. It is explained that the new capital subscribed last year was carefully handled, so that the interest on investment amounts to \$161.548, making a total gross profit of \$332,243. Ex-penses were \$120,996, so that the net operating profit was only \$49,608, or less than one-half of one per cent. on the capital, truly a remarkable result. That dividends should be paid on top of this is, to say the least, surprising. Marconi Finance Meanwhile, the report of the Russian

Marconi Company, just issued, is a beautiful example of Marconi finance. The company ended the year 1910 with a loss of \$67,000, and increased the debit balance by \$20,000 the following year. Then in 1912 there was a profit of \$69,000, which reduced the debt to \$18,-000. So pleased were the directors that they promptly declared a dividend of 6 per cent. on its \$900,000 capital, this despite the fact that the company has bills payable of \$540,000, and only \$7000 on hand and \$175,000 in bills receivable. For reckless finance this would seem to take the biscuit. Turning to the Marconi Interna-tional Marine report, just to hand, one can find another excellent example of Marconi methods. During 1912 business increased, and profits rose to \$120,000, so the directors raised the dividend to 10 per cent. The company has on hand only \$7850, and, therefore, must needs raise funds to pay the dis-bursement. To do this the directors propose to make a new stock issue something no company should be able to do for any such purpose. The cap-ital is \$1,700,000, and there is owing to creditors \$360,000. Evidently a thore

house cleaning is necessary in all thes MONEY MARKET.

The bush fires in Northern Ontario have not proved as much of an influence in the market as many anticipated a few ays ago. The list of 22 representative railroad bonds which are used as the accepted barometer in the New York marlet dropped in June to the lowest record since October, 1907, the time of the great American panic. This marked a continuous decline for six months, the averages dropping every month into new low ground since last January.

The loss in June was nearly a point and a half, making an average loss of slightly more than a point a month since January. On June 30 the average stood at 83.99, compared with 88.67 on Jan. 1 and 90.14 on June 30 a year ago. No less than 5 of the 22 issues dropped below their panic levels of 1907 during the month:
