Victory at Roye, Where Tremendous Assaults By Germans Were Repulsed, the Turning Boint of the Battle of Aisne-Preparations Being Made for Tremendous Assault Near Arras, Where Al'ies Will Make a Frontal Attack—German Right Being Hemmed In to Prevent Troops From Reaching New Defences in Belgium-Holland Takes Precautions to Protect Neutrality-Antwerp Forts Still Hold Out.

LONDON, Oct. 4.— The Victory of French arms at Roye, where the tremendous assault of the Germans—their major effort of the Aisne campaign—has been completely defeated, is declared to be the deciding point in the twenty-three day battle. A great operation has been launched to hem in the German right in such a way that it cannot be a second of the control of the con reach new defences in Belgium. Great forces are being rapidly concentrated by the alies in an effort to drive a wedge thru the forces commanding the railway from Litle to Belgium. This effort is expected to develop in the neighborhood of Arras, where strenuous fighting has already taken place.

INDIANS IN ACTION. In addition to the steady hammering of the allied forces against the entire German right wing, the efforts of the Franco-British are bent directly on the line of German communications. These and these only have enabled Von Kluk to put up his magnificent resistance. By attempting a series of flanking operations, the allies may have delayed the success of their arms, but have saved thousands of lives that would have been thrown away in frontal attacks on the strong German positions. In order to make these flanking operations effective at once, have reinforcements have some up on the extreme positions. huge reinforcements have come up on the extreme northern end of the allied line, and it is thought that the East Indians landed at Marseilles a few days since are by this time on the fighting line. They may be the deciding factor.

But the Germans are by no means short-handed. It is even re-ported from some quarters that their manoeuvres are handicapped by

SUPPLY DEPOT THREATENED.

To the east, in the Woevre region, the French advance goes ahead unremittingly. They are reported in command of positions which seriously menace German communications thru Luxemburg, even threatening their main supply depot at Prinziville. It is felt that the steady and unsuccessful movement in that quarter indicates a weakness on the part of the exhausted German armies. The same

factor has paralyzed operations on the centre of both armies.

The ailied commanders are believed to be preparing for the greatest assault of the war near Arras, which will take the form of a frontal attack in tremendous force. On it hinges the result of the Aisne battle; the Germans have made a supreme effort at Roye and failed.

GERMAN SIEGE BATTERY ENGULFED. As a result of the flooding of the country in the neighborhood of Waelhem, a heavy German siege battery was engulfed, according to an Ostend despatch to the Exchange Telegraph Company, and a big gun was lost.

ARTILLERY DUEL AT ANTWERP. An official statement from Antwerp, received by Reuter's Tele-gram Company, says: "The artillery duel continued thruout the day. The general situation is unchanged."

GERMANS STEADILY FORCED BACK. FROM THE BATTLE AUNI, Uct. 4.-Trench after trench of the German line fell into the possession of the allies on Saturday after most vigorous assaults, carried home with determination, com-

pined with the newly-learned lesson of caution. The Germans who had borne back the allies' western wing slightly, retained their advanced positions near Roye until they became untenable. They then fell back to new lines which had been previously prepared.

The western wing of the allied armies was still further extended today and now reaches within 30 miles of the Belgian frontier, carrying the allies' overlapping movement in a northeasterly direction.

The German reinforcements on this end of the line are very strong. These troops probably were brought from bodies of German forces echeloned in the rear of their advanced entrenchments. Their courageous dashes to the allies' front did not meet with success, and the French and British were able to make them fall back on their deep trenches.

CREPT ACROSS OPEN SPACES. The sight of the allied infantry creeping across the open spaces in front of the trenches, in a brilliant sunshine which glittered on their weapons, was impressive. Hundreds of shells burst overhead or in their

ear without doing damage. Everywhere the French and British soldiers seemed as tho glued to the ground, but yet their widely extended lines progressed always forward. In only two or three instances did they encounter the spit-ting machine gun fire with its murderous hail of bullets, which opened on them when they surmounted slight eminences, before reaching the German trenches. They found few Germans there to meet their bayonets, as the invaders had retired to another line only a few hundred

yards back. RECEDED ON EASTERN WING. It is stated that the Germans also receded on the eastern wing, where for many days they have been going back continually. In that seven men were saved by a trawler and landed at Ymuiden, Holland,

INCESSANT FIGHTING NEAR ARRAS.

After the determined attacks and counter attacks of the past few days there has been more or less calm along the western front since yesterday afternoon, except on the most extreme wing near Arras,

where the fighting has continued incessantly.

Both armies, however, have kept up desultory firing at nearly all points, altho the infantry did not come into action.

BRITISH PLAYED FOOTBALL.

The French soldiers were greatly surprised today to see their British comrades after the long spell in the trenches retire to some distance in the rear and inflate several footballs and begin lively games. Some of the British battalions had lost a large proportion of their number in the severe battles of the last week, but the zest of the men for the sport was unabated. Two battalions engaged in a regular match, on the result of which some money changed hands. The players stripped off their tunics and caps, but retained their footgear, which was covered with thick layers of clay from the trenches.

PROGRESS IN SOISSONS REGION.

PARIS, Oct. 4. — (10.50 p.m.) — The official announcement issued by the French War Office tonight reports progress in the region of Soissons, where several of the German trenches have been taken. The battle on the left wing is in full swing without any decisive

result having been attained. The text of the communication follows:

"First—On our left wing the struggle is in full swing in the region of Arras, without any decision having as yet been reached. The action has been less violent between the upper valley of the Ancre and the Somme and between the Somme and the Oise. We have made progress in the region of Soissons, where some of the enemy's trenches have been captured.

"Second-On almost all the remainder of the front the lull, already noted, persists. In the Woevre region we have made some progress between Apremont and the Meuse and on the Rupt de Mad." ALLIES' LEFT WING AGGRESSIVE.

The following official statement was issued by the French War Office at 3 o'clock this afternoon: "FIRST—On our left wing, after having repulsed all the enemy's

attacks, we have resumed the offensive at several points. At other points our positions are well maintained. "SECOND—On the centre nothing noteworthy has taken place

as far east as the Argonne region. In the Argonne district we have driven the enemy back toward the north. In the south of Woevre we are making progress but very slowly.
"THIRD—On our right wing, in Lorraine and the Vosges, there

is nothing new."

BRITISH CASUALTIES 727.

Heretofore the lists of this battle have been confined to officers. Tonight's list shows 55 killed, 330 unded, 33 wounded and missing, and 309 missing.

NO FORTS HAVE FALLEN.

The Belgian minister here today received despatches from Antwerp, denying a report that three forts defending the city had fallen. He states that Fort Waelhem was badly damaged by the Germans, but that none of the fortifications surrendered, and that the Belgians have strong positions which they are holding successfully.

A news despatch to the Central News from Amsterdam says that word has reached there from Antwerp that Fort Waelhem destroyed

an entire regiment of the besieging Germans on Saturday afternoon.

1433 BLUEJACKETS LOST LIVES.

Exclusive of officers, 1433 lives were lost in the sinking of the British cruisers Aboukir, Cressy and Hogue in the North Sea Sept. 22, according to a report issued by the admiralty tonight. The Aboukir lost 510 men, the Cressy 561, and the Hogue 362. ACTIVE ON DUTCH FRONTIER.

HOLLAND TAKES PRECAUTIONS.

FLUSHING, Oct. 4.—(Via London)—The Dutch are prepared to close the mouth of the Scheldt on a moment's notice, and all of the bridges leading from the Zeeland Islands to the continent have been mined. Guards watch every approach, and the rigors of martial law are strictly imposed. All road signs for the guidance of traffic have been taken down, and the country is in a practical state of siege.

These renewed precautions are due to the increasing activity of the Germans in the neighborhood of Antwerp. Refugees from Belgium are pouring across the border in great numbers, and grave fears are entertained that either German aggression or attempts by England to relieve Antwerp by the sea will embroil Holland.

Seven Amendments to Allow Earth, Heaven, Churches, Extension of Pastorates Voted Down.

DELEGATES VERY NOISY

Conference by Big Majority Humanity Will Supersede In-Declared for No Change In Constitution.

Canadian Press Despatch.

OTTAWA, Oct. 4.—After a rather warm two hours session, during which seven amendments to the recommendation of a special committee that the extension of the time limit of four years of the pastorate be allowed for "special causes" instead of "special has not been confined to any one phase of life; it has been spread over the intellectual, the religious and the moral; it has been abroad in all the moral; it has been abroad in all the odist general conference on Saturday night decided by a big majority that no change be made in the constitution regarding the term of the pastorate. This means that the four year period prevails and can be extended only for "special missions."

Thruout the debate, Rev. Dr. Car-

ran was busy with his gavel and calling for due respect to be paid to the chair. The delegates were evidently in no mood for caim deliberation after a very hard week. Two delegates tried to get a motion before the chair that the conference adjourn and take up the question under consideration. up the question under consideration when the delegates were in a better humor. The mere suggestion of put-

numor. The mere suggestion of putting such a motion provoked the conference to give vent to their disapproval of it in loud cries of protest.

Had to be Called to Order.

Once when the pandemonium was particularly emphatic, Dr. Carman shouted loud enough to be heard: "Say, brathern you must come to arder who

brethren, you must come to order, whoever you are, and wherever you come
from, you must come to order."
As soon as the litnerary committee

Instead of "special missions" as the
constitution prescribes saveral deleconstitution prescribes, several delegates hastened to point out that, if this were adopted, the door would be opened for an unlimited extension of the pastorate.

w. F. Manson, M.L.A., lay delegate from Prince Rupert, submitted an amendment, the effect of which was to extend the four year term by two years when necessity demanded. It was voted down by a big majority.

Rev. Dr. J. C. Speer, Toronto, fa-

vored a two-year extension of the pastorate term for a time at least. He urged that nothing would be jeopardized by the change he suggested. He offered an amendment similar to that submitted by Mr. Manson, but it found for supportant few supporters.
Next Amendment Lost.

The next amendment came from Rev. Dr. S. J. Shorey of Lindsay, Ont. He wanted each district conference to extend the fair year limit in cases where it was deemed advisable and necessary, but it was lost.

No sooner had the vote on Dr. Shorey's admendment been taken when delegates all over the church clamored to express their views on the subject under discussion and the chairman's insistent appeal for order fell on un-heeding ears for some time. The floor was finally allowed to Rev. C. H. Hues-tis, Red Deer, Alta. He wanted the

time limit totally abolished.

Jos. Gibson of Ingersoll got the floor in the next tussle. Mr. Gibson said that he had never seen a question so repeatedly put with such little variation. He maintained that a change would not be wise.

Wanted to Tell Story.

Rev. Mr. Philp of Inkerman, Ont., finally got the floor after trying for a long time. "I want to tell you a little story," he began. The delegates roared: "No, no." "I want the brother to exhaust himself. Let him go on," said

Mr. Philp tried to get off his story, as a matter of fact he did, but it was to the accompaniment of some derision. The gist of his remarks was that he was opposed to any extension of the Rev. Melville Taylor, Gananoqueyl,

moved an amendment to empower sta-tioning committees to gran an extension when it was shown that such-was necessary. It was lost.

Then came the recommendation of the committee. It was voted down. The motion to make no change in the time limit carried by a big majority.

CONSTANTLY ALERT FOR GERMAN FLEET

Midshipman on British Battleship Writes of Steady Vigil on Board.

Here is a cheery letter from a mid shipman in one of the British battle ships that are waiting for the German fleet to come out of hiding; it appeared in The London Morning Post: "A rumor got about that we had been sunk, some wooden gear that we had thrown overboard being found. We have not been sunk yet, nor, I am to say, have we sunk any Germans. By the time this fetches up, however, I hope we shall have met them, captured most of them, and sunk the rest. We are all itching for a scrap, and this routine is getting rather monotonous. We go to night defence-stations for 3½ hours every-night, and sleep in our clothes during our watch off after daylight. We so into harbor to coal every four or five days. In the daytime at sea we have nothing to do except to rig night defence gear (searchlights are stowed below at daylight), do physical drill, running round the ship, &c., to keep ourselves fit, and occasionally going to action stations. Of course there have been various alarms, when we have had to rush to our stations.
But they are generally caused by some
"ham-handed horse marine" firing a
gun by mistake, or by some "swiveleyed" lookout seeing one of our own ships and thinking it the enemy, or ships and thinking it the enemy, or mistaking a treacle-tin for the periscope of a submarine. Anyhow, none of them have come to anything; but they tend to relieve the monotony, althe at the expense of sleep, which is a rare luxury, especially at night. We have to sleep in the signal house so as to be near our searchlights, and are wakened up every two or three minutes by signalmen coming in and falling over our feet. (I can imagine you saying it serves you right for having such big ones.) It is the only place where they can switch on a light to read signals. English newspapers which have been received contain a pleasant anecdote of the fighting at Mons. It comes from the French paper The Liberte, and concerns a Scottish regiment which is not named. The regiment was occupying a trench, swept by violent rifle fire and artillery fire, when two privates noticed that a Frenchman attached to the battalien as interpreter occupied the most exposed spot in the trench. One private said: "The Frenchman is badly placed; let's widen his trench," and in about a minute, paying no attention to the hail of bullets and shrapnel, the privates deepened the trench, and with the same calm resumed their places.

DISCUSS PLAN TODAY

Some Members See Better Way Than Insurance of All Volunteers.

Another effort to insure every Toronto volunteer for overseas, service will be undoubtedly made today at the council meeting. Last week council in caucus voted down the proposal, but today it is expected to be discussed in open session. An alderman intending to stand for re-election and who opposes the proposal, realizes he must make the reasons for his opposition very clear lest his stand be misconstrued by the public. Those who intend opposing the proposal say they want to use every means in their power to help the dependents of volun-teers, but they think better means ex-ist than wholesale insurance.

The Objections.

Here are the three main reasons for

their opposition:

First—In case a Toronto soldier's fate is uncertain, it will not be easy to prove him dead. He may be only "missing"; he may return home later than his fellows; he may have been a prisoner. All this time his dependents will not be receiving the city's support unless the insuring company is unu-sually-prompt in remitting the insur-

second—Each soldier who has gone is insured for \$1000. Among them are citizens whose dependents do not require financial help. Others may need it badly. Therefore, in giving \$1000 to every family isome would receive every family, some would receive money they did not need, and others would require more than \$1000. Third—If adopted the plan would bring to Toronto many men who should

SALVATIONIST SONG

Whole Army Joined in Chorus Started by Wounded

Special Direct Copyrighted Cable to The Toronto World.

LONDON, Oct. 4.—The story of a Salvation Army song carolled on the fighting line by members of the corps, which are such a familiar scene in which are such a familiar scene in the day's news. These are the words:

"I'm a child of a King,
I'm a child of a King,
I'm a child of a King,

With Jesus my Saviour, I'm a child of the King. They were sung by a wounded soldier going to the rear in an ambulance, taken up by a few of his comrades and gradually the chorus swelled until a whole army joined in.

A motor-driver said: "After the chorus had been sung wice over I heard it taken up by other alvationists, and presently from many parts of the camp came the old salvaion song."

UNIQUE LACE CURTAINS.

Prof. Shortt, chairmen of the civil service commission, Ottawa, who comes to Toronto today to address the Canadian Club, has long enjoyed unusual distinction in the field of Canadian economics. His services to the country on taxation commissions, as original arbitrator under the Lemleux Act, in civil service reform, and by contributions on tariff and banking subjects are well known. He was in Great Britain during their memorable week in which war was declared, and thus had an opportunity of acquiring first-hand information on the economic effect of the war, not only on the mother country, but also on Canada and other parts of the British Empire.

On his return to Canada he made a statement on Canada's position, which has been generally regarded as one of the sanest pronouncements which have been uttered by a Canadian. Special to The Toronto World.

WASHINGTON, Oct. 4.—The British ambassador here on Saturday received a cable from Sir Edward Grey, foreign minister of Great Britain, outlining an address made by the latter at Cardiff, Wales, referring to the way in which the Dominion of Canada, India and the foreign colonies have come forward to aid in the war. Sir Edward

Grey said: "Never in history has so vast and diverse a community shown a spirit so unanimous and resolute in response to a common oppeal. In entering this war we have no ill-will to gratify or wrongs to avenge. We had no quarrel with Germany. In 1912 we informed the German Government as follows:

Britain declares she will neither make German Government as follows:
Britain declares she will neither make nor join in an unprovoked attack on Germany. Aggression upon Germany is not provided in any agreement to and last month. SUNG BY SOLDIERS is not provided in any agreement to which Great Britain is a party, but Germany demanded of us in addition, at a time when she was enormously increasing her forces, especially at sea, that we should go further and pledge our neutrality if Germany engaged in

N. T. RATEPAYERS' OPENING MEETING SIMPSON SPEAKS

crease in Fares on Metropolitan Railway.

School Training Corps in District.

Complaint was made at the opening meeting of the North Toronto Ratepayers' Association on Saturday night that the fares had been raised by the Metropolitan Association on Saturday night that the fares had been raised by the Metropolitan Railway Company from the C.P.R. tracks to Bedford Park. The usual rate was a Glengroye ticket and two cents, but it was stated that it has been raised to ten cents. One member of the association produced a number of letters that passed between a resident of Bedford Park, who claimed he had been overcharged, and the Metropolitan Railway Company on the subject. The passenger stated that he boarded a radial car at the C.P.R. tracks and tendered a Glengrove ticket. When he reached Glengrove he offered the conductor the two cents fare to Bedford Park, but it was refused with a request for five cents, which the passenger held was extortionate and would not give it. A few days later he received a communication from the company informing him that he was indebted to them to the amount of six cents, as the ticket to Glengrove was value for only four and one-fifth cents, and asking him to remit the balance.

me-fifth cents, and asking him to remit the balance.

The passenger still refuses to pay the extra amount. After a number of similar experiences had been related by the members it was decided to leave the matter with the executive to take action.

Military Training.

The question of military training was aken up by W. G. Ellis, who said that as a result of the efforts of the Toronto improvement conference all the schools in the city had been secured for drilling purposes. He asked the association to assume the responsibility of organizing the schools of the district. The conference had taken the matter up because there was a desire among the people to secure a military training, and in order to make it as democratic as possible the public schools would be used as centres. The school board had accepted the proposition and the military authorities were enthusiastic on the matter. Also the board of control had assured them of financial assistance.

The movement was named the Toronto

enthusiasis of control had assured them of financial assistance.

The movement was named the Toronto Military Training, Association, and he had every confidence that if all the ratepayers in the city assumed the responsibility of organizing the citizens would be prepared for any emergency in the future. Each corps would have a committee responsible to the central executive.

Richard Baker thought the idea very feasible from many points of view and believed its success lay in localizing.

The following committee representing the four schools in the district was elected to deal with the matter: Bedford Park, W. G. Ellis and R. McGarry; Eglinton, R. Baker and A. Thorne, John Fisher, G. E. Hodgson and J. Clewberger; Davisville, J. O'Brien and F. Howe.

Recruit Scored Possible.

The Irish Rifle Club, with instructors at all the ranges in use, has made the commendable rule that its recruits must qualify in the holding, sighting and firing the rifle at the 100 and 200 yards distances before being allowed to move to the 500, and again must qualify at the 500 before moving to the 600. Not a few of the club's recruits qualified on Saturday, and it is notable that S. White, one day, and it is notable that S. White, one of the promising new members, made the possible of 35 at the 600 yards range. The 48th Highlanders' recruits on Sat-urday practised at the 100 and 200 yards distances, under the guidance of Walter Riddell of this year's Bisley team, Sergt. D. Collins, Corp. G. Crosbie and other experts of the regiment. Sergt. Collins and Corp. Crosbie have just returned from the mobilization camp at Valcartier, the mobilization camp at Valcartier, where they had been acting as instructors to the 48th Highlanders' Service bors to the 48th Highlanders' Service Battalion. The recruits shot with battle sights, without wind gauges, and were required to qualify with an average of magples, or 21 out of a possible 35.

All our energies, the energies of all our public men and of the people should now be consecrated to the one thing, that of saving our empire, our political freedom, our commercial future, the welfare of our country, our nationality. We believe there are men who are canvassing this idea of throwing the people into such a turmoil as we dread, at Ottawa have no such policy in hand no matter what individuals may seek for mere party reasons. All are for the state and nothing else.

A Traffic Commission.

Alderman Morley Wickett, chairman of the transportation committee of the city council, has prepared a memorandum for his committee following the close of the negotiations for the purchase of the street railway. Dr. Wickett's views are succinctly put and should prove helpful to the committee in opening up the new stage of the street railway situation. There are three points to which we deem attention should be given. First of all, the problem itself must be faced and cannot be evaded.

"In fact," says Dr. Wickett, "for Toronto, transportation may be said to be a fundamental problem, and its satisfactory solution an absolute necessity for the general health, comfort and well-being of the community. Had the automobile not made many thousands of our citizens more or less independent of the solution and indifferent, one may well believe that ere this a feasible way out of the present tangle would have been found. Automobile owners, however, will recognize that the normal, healthy and satisfactory development of the city-one of the finest cities of America-is being checked and maimed by the present unfortunate situation, and that it is to the interests of all classes that relief be

Dr. Wickett then points out that only partial relief, and not a remedy,

could be expected from the Ontario Railway Board; and that the present commissioner of works has his hands too full to expect him to be able to find time to specialize on the street railway problem. He thinks that immediate steps should be taken to appoint the traffic commission, which the city has already secured power to form. The very strongest men available should be secured, he says, and it should be given full power to work out its conclusions and carry them into effect. This does not imply more, however, than the preparation of plan to be laid before the city council and the electors, who could not otherwill pay for The Sunday World for one year, by mail to any address in Canada or Great Britain. > Dr. Wicke tt recognizes the overwhelming body of opinion in favor of public ownership, but he has the courage in the face of this to place before the committee the plan of co-operation between the municipality and the corporation, under which the municipality would have a wide measure of control, guaranteeing the capital invested a minimum return of so much per cent., and dividing the surplus earnings over this minimum. In Chicago this method has been found effective and acceptable

We do not either reject or accept the principle, but have to point out that in so far as we have had any experience with the principle, as in the they should have a reduction in the price of gas, and the C. P. R. has inthe capital which the country gave it That being so—and we believe that in order to furnish cheap rates to the might accomplish wonders for itself

We think that it would be well to appoint a traffic commission, but it should be a commission that would be clearly aware that public ownership of the street railway is what the city has made up its mind to. There is no make prohibition prohibit in an emuse starting out with any other idea. Mayor Hocken's plans, we still believe, should have prevailed and would have done so, but for the extraordinary situation created by the German preparations for war. Will Russia Lead?

With Canada and the United States we trust that it will forthwith be made still further taxing and to that extent abundantly clear that the government licensing the liquor traffic, Russia voluntarily gives up one-third of her revenue by proclaiming and enforcing total prohibition. Russia can perhaps do this the more easily because of her autocratic form of gevernment and also because the liquor business has been a government monopoly. The imperial edict suspending the sale of vodka as a war measure is now confirmed and extended by another proclamation which bids fair to make prohibition a cardinal principle of the czar's government.

So remarkable has been the good ffect of the edict stopping the sale

It is pointed out that the beginning of production spells a new era for the commission. When the movement was first launched the criticism was advanced that it would merely prove a vendor of power, but the successful engineering of the Wausdell plant is taken to augur a day when the com-mission will superintend all the pro-duction as well as disposal of power in Ontario.
Plan Mass Meetings.

Arrangements are being made for mass meetings in the different municipalities in the new power zone, and Sir Adam will deliver addresses on

Tuesday evening.

The intention of the commission is to thoroly exploit the power possibilities of this district and to bring light and power for domestic and commercial cial purposes to a score of municipali-ties within a short radius. The completion of the plant means that the Severn River will henceforth be count-ed as one of the powerful generating sources of the supply.

JOAN OF ARC

William Henry Taylor, Author of "Canadian Seasons

Fair Maid of France! Canst thou remain above? Come back to Rheims! Come, be reborn of love, And view thy smoking, desecrated shrine, Defiled by wolves—the Bandits of the Rhine. Bestride again thy spectral, milk-white steed, And lead the Brave, in this, their hour of need; May heavenly Voices thee again inspire With Phoenix-Visions flashing from the fire, Now hypering on the country's altar stone. With Phoenix-visions hashing from the me,
Now burning on thy country's altar stone,
Where heathens rage, while tortured millions groan,
May God incarnate thee! Thou Maid of Dreams!
And coronate thy brow at sacred Rheims.

Alas! Louvain! and twice' alas! old Rheims!
The swinish' herds have wallowed in their streams
Of blood and lust, and with their tusks have torn
The priceless work of centuries with scorn.
In all the annals of our race no tale
Can match for needless spite that flery hail
Of Anti-Christian shells from Luther's land—
Except when fierce Mahomet's Tophet-brand
Destroyed at Alexandria the old-world store
Of manuscripts—the Deutsch could do no more. Of manuscripts—the Deutsch could do no more. The savage wars of dark, mediaeval times Destroyed no churches in their list of crimes; The Cross was sacred to those mail-clad knights— But not to Prussia's drunken parasites; All creeds are Catholic, in the sense that we Can venerate their seats of sanctity; We all revere those ancient Gothic spires, Which pointed Up to civilize our sires.

The Germans boast of "Culture," Science, Thought, And say their scientists new Lights have brought; In proof Louvain saw their Satanic Sire Use rarest books as fuel for his fire. These German infidels deny the Soul, But measure endless Space, and weigh the Whole; These keen dissectors of the suns proclaim That All is Force and Matter—God, a name By fear invented, and by priests arrayed; (But William's Gott is strictly German-made). Those arch-materialists from vanity (But William's Gott is strictly German-made).
Those arch-materialists from vanity
Have cracked their brains with school-insanity.
Are martyrs only matter? who, like Joan,
Had Faith to pass thru fire to find His throne;
The love of Art and Beauty proves that man
Is more than part of Force, that he can scan
His own artistic Soul's creative power
To build with God's own square His Temple tower.

The Prussian Eagle seems a carrion crow.
Who feeds on peasants' breasts and drinks their woe;
His Pride and Hate direct the Uhlan's lance
To burn in Belgium, and to carve in France.
Not long ago he bore the Pagan name—
The Preuss is heathen yet, devoid of shame;
He's half a German, but he represents
The cave-man's appetite and sentiments;
He cracks the bones of victims with the skill
Of prehistoric man, his lust to fill.
The day was black when Germany awoke The day was black when Germany awoke A slave, enchained, and wearing Bismarck's yoke; An avalanche of Ruin now must fall, On cot and castle by the Sword of Gaul.

Hail! Martyred Joan! the debt is being paid,
The Lily and the Rose upon thy brow is laid;
The Sons of France and Albion now are free
Of "black-art" deviltry which martyred thee;
Their centuries of battles taught at last,
That brotherhood in arms forgives the past;
They muster now their martial chivalry,
And on the foe exert their rivalry.
Saint George! Saint Denis! rings from line to line,
With Belgian heroes marching to the Rhine;
When they have taught the sacrilegious horde
Good Christian manners with thy Vision's Sword,
The pilgrims of the world will Rheims restore,
And hail the Maid, Saint Joan, forevermore.

Marie Tempest Tells How London Was Stirred by Canada's Response.

Ten days ago Miss Marie Tempest and her company of English players were in London. Today they are in Toronto, bringing with them perhaps the truest and most interesting accounts of the sentiment there that have been related in Canada since war was declared. Being English, they naturally have better understanding and insight of the thoughts of their fellow-Britishers there than Canadian or United States visitors. Last night W. Graham Browne, Miss Tem-

pest's leading man, talked "war" with a reporter of The World. He spoke of the fleet, the trim little British army, the bravery of the French and so on but his admiration reached its climax when he spoke of Canada's response. "Ah. that was wonderful, magnificent. How I wish you could have been in London and heard what people said of Canada. In the clubs, on the street and in the papers Canada's answer to the call was spoken of in highest terms. A great reception awaits the Canadian tingent when it steps ashore in Eng-

"At first when Germany and France declared war the situation seemed grave. We were interested, but the whole affair was being fought over there across the Straits of Dover. But when Britain joined in—that brought the war home to us."

Mr .Browne gave a bit of news that has not appeared in print. The entire British flying squad had been given the Legion of Honor by the French, who could not sufficiently praise the accuracy of British airmen's reports. French soldiers he had seen marveled a purse containing this amount on the Perry Sound station platform, altho service. Her army was the best equipservice. Her army was the best equip-ped in Europe.

Miss Tempest is greatly pleased to be playing in a part of the British Empire at this time. BIG VARSITY SQUAD BEAT THE OLD BOYS

Close and Clever Play in Opening Exhibition Rugby at the Stadium.

Charlie Gage's Varsity team beat out the Varsity Old Boys in an exhibition game at Varsity Stadium on Saturday afternoon by a score of 23 to 20. Nearly 25 men were used at different times in the Varsity squad, in order to give all the boys a chance to show what they carried. Hugh Gall played thru the first half for the Old Boys; then coached the Varsity boys during the third period, and was injured and put out of the game in the fourth quarter. Smirlie Lawson was on the Old Boys' line-up, and on several occasions showed that he has the same ability to plunge thru the line that he had in days gone by. Maynard, O'Connor and Dixon were in the limelight several times, and the latter showed that he was as good as the best on the back division. For Varsity, Charlie Gage, McKenzie, O'Connor and Holmes did great work. Billy Milne was placed on the half-back line in the last quarter, and just before the final whistle blew he got away with a spectacular run, which brought the fans to their feet, gaining 30 yards before he was brought to earth. The Rugby which Red McKenzie put up was of stellar variety. His punts were always opportune, and he was responsible to no small extent for his team-mates' victory. Nicholson put up his usual good game in the scrim, and McDonald, McKenzie and Sinclair was good in the line, Rusty Bell, German and Ramsay showed that they still carry the goods with them.

Old Boys had everything their own way in the first quarter. Foulds made a try, which was not converted, and Hugh Gall made a goal from the field. McKenzie went across the line for a touch for Varsity in the second quarter, and Gage made another a few minutes later. Dixon was sent across for Old Boys' next touch-down, making the score 14 to 11 in favor, of Old Boys. McKenzie, kicked to a rouge, Cassells made a touch-down, and Dixon made a try, which was not converted, making the half-time score 19 to 18 in Old Boys' favor. Maynard kicked for a rouge in the third quarter, putting Old Boys 20 and Varsity 18. Another try for Varsity made the final score 23 to 20. The line-up-before substitutions were made was:

The local scullers presented many new men in their line-up, and all were given a chance. The visitors had a strong a chance. The visitors had a strong team and put up a great game. They should win their league without much effort. While the Hams were ahead most of the time the Argos forged to the front at the beginning of the last quarter when Murphy went over for a try and made the score 12 to 11 in favor of his side. But soon after the Hams worked down and a fumbled ball behind the line was pounced on by Finkley for a touchdown and Hamilton was ahead 16 to 11. Then the game became somewhat rough. Each added a try and the game ended 22 to 17. Score at end of each quarter: First, 3 to 0; second, 6 to 2; third, 11 to 6, final, 22 to 17. Seventh game, if necessary, to be decided by lot. In case of a tie game or a game prevented or stopped by rain, the teams will remain in that city until the game is played and the above dates in that case will be moved forward.

Race Horses Coming Back From Old Country

NEW YORK, Oct. 4 .- Thirty-seven thorobreds, the pick of the racing stable of H. P. Whitney, have left England in charge of Jack Joyner, bound for this country. Most of these have been in training during the present season.

The horses on their arrival here will be taken to the Whitney farms in New Jersey, and later raced over the American circuit. Several of the better ones will be entered in some of the rich stakes of the spring meetings. It is also possible that some of the overnight events at the winter meetings will catch a number of the Whitney entries this year.

A number of American turimen with horobreds, the pick of the racing stable

A number of American turimen with strings in England and France are busy making preparations for shipping their stock here within the next few weeks. Prominent among these are Herman Duryea, John Sanford and H. La Montagne. buryea, John tagne. tagne. Included in the Duryea consignmen will be the Derby winner, Durbar II.

Hendrie's Great Runner Wins Another Long Race on Closing Day at Louisville.

LOUISVILLE, Oct. 3.—Great Britain, George M. Hendrie's sturdy four year-old son of The Commoner—Touch Not, won the Louisville Cup race, a two-mile affair, the feature of the closing day, this afternoon at Douglas Park. The winner had two lengths to spare at the end over Disparity, which in turn was twelve lengths in front of Any Port Donerall, the only other starter, finished a bad last. The race was worth \$2305 to the winner, and with the purse went a hand-come stilly religious.

winner and with the purse went a handsome silver loving cup.

The card provided was an excellent
one, there being two handicaps down for
decision, one for two-year-olds at six
furlongs, and the other at a mile and
seventy yards, for three-year-olds and
upward. The two-year-old handicap fell
to Chalmers, and in the other_handicap
Prince Hermis won.

The meeting which closed today was
the best in the history of Douglas Park
from every standpoint. General Manager
John Hachmeister and the other officials
did everything in their power to provide
clean sport, and they were more than
successful. The next meeting in this city

WESTON QUALIFY FOR THE FINAL

Defeat London in Intermediate O.A.L.A. Game Before Good Crowd.

game of lacroses seen here in many a year. Weston Intermediates defeated London by 9 to 3 this afternoon and qualified to go into the finals with Bracebridge for the championship of the O. A. L. A. The biggest crowd of the season turned out for the game and narrowed the field up so much that the play was frequently stopped for faceoffs. This made the game fast as there was no chance to do any loafing. The score of 9 to 3 hardly shows the ability of the London boys. Up to the end of the second quarter when the score was 4 to 3, they clearly had Weston outclassed, both in shooting and combination. London's defeat came in the third quarter when their light defence went to pieces under the assault of the heavy Weston home.

SOCIETY ENJOYS HUNT GYMKHANA

Large Crowd at the Annual Steeplechases and Horse Show—The Results

Society turned out in full force at the Hunt Club on Saturday afternoon at the Horse Show and Steelplechases. Nine events in all were down to be decided, including jumping contests, steeplechasing and hunting, all of which interested the spectators greatly and roused them to expressions of enthrisism events the spectators. thusiasm over the clean jumping and hair-raising steeplechasing. The sentlemen in their scarlet hunting coats formed a picturesque blending of color to the green surroundings of the field and the conventional dresses of the onlookers. As evidence of the horses' waning popularity as a means of transit, a large number of automobiles lined around the field which contained their defeated rivals. The results of the various events were as fol-

WHEAT AT CHICAGO

Buyers Acted on Belief of Acute Call Coming From Europe.

Canadian Press Despatch.

CHICAGO, Oct. 3:—Wheat today scored a rapid advance, mainly the result of the belief that regardless of conditions at Liverpool the demand from Europe as a whole was becoming acute. The market closed strong, 2%c to 3c above last night.

Corn gained 1%c to 1%c net, and oats %c to 1%c. In provisions the outcome varied from 10c decline to a rise of 42%c. Commission house buying of wheat began right at opening and met no serious obstacle until the market reached the top prices of the day. Weak-end realizing by miscellaneous holders resulted then in a small setback, from which, however, there was a decided rebound as the session came to an end. A statement purporting to exhibit a shortage of 394,000,000 bushels in supplies outside of the United States had much to do with stirring up sentiment in favor of the bulls.

Prospects seemed to be that domestic receipts would fall off next week, both from the spring and winter crop belts. This fact was largely responsible for traders generally ignoring forecasts of a liberal increase Monday in the weekly total of the United States visible supply.

Shorts were active buyers of corn ow-

Shorts were active buyers of corn owing to the outlook for unsettled weather and of scanty deliveries from first hands. The bears were also hampered by the strength of wheat.

Unabated export call sent oats up with other grain. The December option tho, was under a drag owing to heavy sales by one of the principal elevator concerns. cerns.

All the active deliveries in the provision market had a good uptum. Higher prices for hogs and cereals brought about the bulge.

MINNEAPOLIS GRAIN MARKET. MINNEAPOLIS, Oct. 3.—Wheat—No. 1 hard, \$1.09½; No. 1 northern, \$1.06 to \$1.08½; No. 2 do., \$1.08 to \$1.05½; Dec., \$1.07%. Corn—No. 3 yellow, 64½c to Oats—No. 3 white, 43%c to 44c. Flour—Fancy patents, \$5.70; first clears, \$4.50; second clears, \$3.25.

\$25 to \$26; middlings, \$27 to \$28 per ton.

DECLARES DIVIDEND.

The directors of Smart Woods, Limited, have issued a circular to the effect that the nine months' business ending Sept. 30 was practically equal to last year, apart from earnings in the cotton mill, which was not in operation a year LONDON. Oct. 3.—The directors of the Canadian Northern Prairie Lands have declared a half-yearly dividend of 5' per cent. on the ordinary stock, payable on Oct. 1 to all shareholders on the regis-ter on the 19th inst.

REVEALS STRENGTH

Prices Advanced Cent and Half and Over on Saturday's Trading.

Canadian Press Despatch.

WINNIPEG, Oct. 4.-There was a natural reaction Saturday after the slump of Friday, and the proof that, in spite of there being "little export trade," several million bushels of grain have left Atlantic ports in as many days. Winnipeg wheat opened 4c to 5c up, and there was an excellent demand for No. 1 northern, which sold at 4c to 4c over the option. Repeipts for No. 1 are steadily declining. Nos. 2 and 3 are not wanted but No. 4 and lower were in fair demand. The close showed wheat to have ad-

The close showed wheat to have advanced 1½c to 1%c.

Flax was weak and lower. Export houses admitted fair business after the close Friday, but declared bids out of line on the morning advance.

Receipts were 1169 cars, against 1258 last year, and 70 in sight for the day, Cash: Wheat—No. 1 northern, \$1.06; No. 2 do., \$1.02%; No. 3 do., 97%c; No. 4. 91%c; No. 5, 86%c; No. 6, 81%c; feed, 76%c.

Oats—No. 2 C.W., 48%c.

76%c. Oats—No. 2 C.W., 48%c. Barley—No. 3, 65c; No. 4, 59%c. Flax—No. 1 N.W.C., \$1.15%; No. 2 C. W., \$1.12%.

MONTREAL GRAIN FIRMER IN VALUE

Volume of Business Showed No Improvement—Eggs Steady at Lower Prices.

Canadian Press Despatch.

MONTREAL, Oct. 3.—There was no noticeable change in the grain situation here today. The higher prices in Winnipeg and Chicago were reflected in a G. O. MERSON & CO. done. The butter and cheese markets were quiet. Eggs showed no change

lower prices. Owing to the continued easiness which is prevailing at country butter boards it would not be surprising to see the price of butter go lower at the beginning of the week. The very fine weather has had much to do with the receipt and just so soon as a cold snap appears, it is expected that the prices for all grades will be considerably firmer.

CHEESE MARKETS.

LONDON, Oct. 4:—Seven factories of-fered 1435 boxes colored cheese at to-day's market. Bidding, 14c to 14%c. No sales; 535 boxes butter offered, bidding 26c. No sales.

ST. HYACINTHE, Yue., Oct. 4.—Two hundred packages of butter sold at 26c; 450 boxes of cheese at 14%c.

BELLEVILLE, Oct. 4.—Offerings were 1495 boxes of whits and 274 colored cheese; 505 sold at 15 1-16c, 670 at 15c, 170 at 14%c. The balance was refused at these bids.

BELLEVILLE, Oct. 3.—At the meeting of the Eastern Township's Dairymen's Association Saturday eight factories offered 260 packages of butter. Two BIG TONNAGE DECREASE

We Learn From Experience

Buying Men's Clothes takes a wonderful amount of skill, a keen appreciation of values, and a wide-awake interest in the men for whom one is buying.

The Simpson buyers are among the most experienced in their line. When they judge that a garment is fit for our selling tables, it has passed a very rigid examination for quality of material, smartness of cut, and careful finish.

The remarkable prices we are offering from time to time merely mean that we have never been more successful in securing real bargains than in the present season. Here is a sample that carries conviction for the fortunate men who come here early tomorrow.

Smart Suits for Men \$7.95
