RETIRE ON 38-MILE FRONT

Germans Compelled By the French To Abandon Positions North of the Suippe and the Arnes—Enemy Also Is Hastily Withdrawing From Sensee River in Face of Deep Advance By the British—Seeking Haven of Safety

TALONS OF THE ALLIED HAWKS MENACE GERMANS EVERYWHERE

Enemy Flies Eastward on Wings of Necessity, Abandoning Strong Positions to French and British.

New York, Oct. 11.—The Associated Press tonight issued the following: On the wings of necessity the Germans are flying eastward from their battle positions from Douai to La Fere and northward from La Fere to the Meuse River. Their flight is toward some haven of safety from the talons of the allied hawks, which are everywhere menacing them.

Meanwhile there have been sent broadcast further reports that Austria-Hungary and Turkey, seeing that the trend of events spells ultimate defeat, have informed Germany that they will accept President Wilson's peace terms.

Along the battlefield the allied troops are advancing. From the south of Douai to the east of Laon the enemy everywhere is giving ground. The famous Chemin des Dames, the ridge which the Germans believed to be an insuperable barrier to an advance northward from Soissons, is being evacuated, while in Champagne, and along the Meuse River, farther eastward, the French and American troops are pushing farther northward their lines in the great converging lines which are fast driving the enemy from Belgium, and the greater portion of invaded France toward his own borders.

Douai Outflanked

Douai is now completely outflanked by the latest operations of the British, while between Cambrai and St. Quentin, the British and Americans are still chasing the enemy. To the south of St. Quentin, the French over a wide front crossed the Oise River and, in conjunction with the retreat of the enemy from the Chemin des Dames, are forcing the Germans to give up the great St. Gobain Forest, the bastion at the bend of the line where it turns eastward, and also the stronghold of Laon, the key to the entire southern German line.

East of Rheims the Suippe River has been crossed by the French at numerous places. The key to the Argonne Forest, which now is held by the French and Americans, the Germans are in retreat, and a number of additional towns and villages have been taken by the Franco-American forces. East of the Argonne and along the Meuse Valley, the Americans are still progressing satisfactorily.

Cavalry and Tanks Exact Toll.

The retreat of the enemy along the 31 miles of the western line, from Douai to the southeast of St. Quentin, is still too fast, except on isolated sectors, for the foot troops of the British, American and French to be in contact with him. The cavalry and tanks on the plains and through wooded sectors, however, are taking a terrible toll from the rear. Artillery, which still farther back allied armies are cutting to pieces the columns of the bewildered foe as they try to make their way to their next defence line. Virtually no infantry opposition is being encountered. The machine gun seemingly is being chiefly depended upon by the Germans to hold back the allies as their main force retire.

AN EMERGENCY APPEAL TO COMBAT EPIDEMIC

Voluntary workers as Nurses' Aids Called for by Authorities Who Need Help at Once.

An emergency appeal for voluntary workers as nurses' aids is issued by the medical health officer of the city, the Medical Council of Ontario and the military authorities to try to combat the terrible outbreak of Spanish influenza. Ward maids, orderlies, cooks, cleaners and many other kinds of help will be needed at once as some of the hotels are about to be commandeered and turned into hospitals. Anyone who can do so is urged to apply at once to the Ontario Government Employment Bureau, 45 West King street. More particulars as to wages and places may be obtained.

NO GERMAN WAR CRAFT ALONG FLEMISH COAST

London, Oct. 11.—A report issued tonight by the British Admiralty states that no German war craft were observed along the Flemish coast during the night of Oct. 10-11. The report is based on observations made by British patrol boats and aircraft.

STRIKES AND LOCKOUTS BARRED FOR DURATION OF THE WAR

Order-in-Council Passed Imposing Penalty of \$1000 or Imprisonment for Violation of Regulations.

Ottawa, Oct. 11.—Provision having been already made for the prompt and equitable settlement of all matters of dispute between employers and employees in industries affected by the Industrial Disputes Investigation Act, an order-in-council was passed today, forbidding, for the duration of the war, strikes or lockouts and imposing severe penalties for violation of the law.

Any person violating any of the regulations is made liable to a fine of \$1,000 or to imprisonment for six months, or both.

REVOLUTION IN TURKEY

Movement Against Young Turks Starts in Constantinople, Following Allenby's Victories.

Geneva, Oct. 11.—A movement of unrest is reported at Constantinople, of such magnitude that certain quarters call it the beginning of a revolution directed against the Young Turks.

The movement had its inception after Gen. Allenby's victories in Palestine and Bulgaria's surrender, and during the last few days has rapidly increased in scope.

It is reported that the Turkish Embassy at Berlin has forbidden the Turkish Legation at Berne to make any statement regarding the matter.

ALLIED SHELLS LIGHT NEAR CITIES ON RHINE

Basle, Switzerland, Oct. 11.—Travelers arriving from Germany assert that they encountered considerable risks because the French and American heavy guns are bombarding with considerable effect the railways near the southern Rhine cities. On the Swiss border the railway was struck by shells several times at different points.

Panic and a state of nervousness continue in the southern Rhine cities despite the efforts of the newspapers, which admonish the people to remain calm.

FORCED TO ABANDON STRONG POSITIONS

Germans Compelled to Retire on a Front of Nearly Forty Miles.

Paris, Oct. 11.—The Germans have been compelled to abandon their positions north of the Suippe and the Arnes on a front of 38 miles, according to the official statement issued by the war office tonight.

FRENCH CAVALRY TAKE TOWNS FROM GERMANS

With the French Army in Champagne, Oct. 11.—Cavalry joined in the pursuit of the Germans by General Gouraud's army today, being the first to enter Lansuville. The advance on the eastern part of the battlefield was much accelerated, the French and American troops at some points gaining about seven miles. The Americans, notwithstanding a heavy bombardment of the position, had captured the town of Lansuville, which had been held by the Germans since the beginning of the war.

CAMBRAI VICTORY INCREASES DAILY

Germans Are in General Retreat From There to Verdun.

Paris, Oct. 11.—The victory in the Cambrai region increases daily in magnitude, producing indirect repercussions over the whole front. The wedge driven into the German lines to a depth of 30 kilometres in five days menaces the Douai-Leon massif. The Germans are in general retreat from north of Cambrai to Verdun. In consequence of the extremely rapid advance of the Franco-British troops, who have reached the open ground between the Oise and the Sensee, the situation of the German centre becomes extremely critical, the more so because Gen. Gouraud's continued progress west of the Argonne menaces the enemy's left wing.

The enemy front on the Chemin des Dames and the Aisne, under the assaults of Gen. Mangin's forces, and the army operating northwest of Rheims, was shaken, despite energetic resistance, the enemy intending at all costs to protect the retreat of his forces delayed on the Aisne. The enemy was obliged to abandon enormous booty in the Argonne.

RICHARD B. FUDGER DIED LAST NIGHT

Director of Robert Simpson Company Had Been Ill Two Months.

At his summer home, Bexhill Farm, near Clarkson, Richard B. Fudger passed away last evening after having been confined to bed for about two months.

He had not been able to resume his business duties since his return from California last spring. He suffered from a chronic ailment for some years, but it was not thought he was in a dangerous state till quite recently.

During the last ten days reports had been rather favorable, but unexpectedly he took a turn for the worse yesterday afternoon and sank rapidly.

Mr. Fudger was a director of the Robert Simpson Company, Limited, and was actively associated in that business, of which his father, H. H. Fudger, is president.

GERMAN SOLDIERS THINK PEACE HAS BEEN MADE

London, Oct. 11.—The belief is current among German soldiers that peace has already been signed. They profess surprise that the allies are still attacking. Four thousand civilians were liberated when the Bohemians in Bohemia alone. They were in a pitiful condition, having been without food for three days when rescued. Tears of joy streamed down their thin faces. The Germans had robbed them of their belongings.

U.S. TRANSPORT IN COLLISION 400 SOLDIERS ARE DROWNED

Steamer Otranto Rammed by the Kashmir, Another Steamer in the Convoy, Between Scottish and Irish Coasts, Dashes to Pieces on the Rocks With Heavy Loss of Life.

A British Port, Oct. 11.—A large number of American troops have been lost as the result of the sinking of the transport Otranto, in the north channel, between the Scottish and Irish coasts, in a collision with the steamer Kashmir.

The Otranto, after the collision, was dashed to pieces on the rocks off the south Scottish coast, with a probable loss of 372 American soldiers.

The news of the collision reached London, Monday, but nothing was known of the fate of the Otranto until this morning, when the first reports came from Islay. The storm continued to make further attempts at rescue impossible. No ships pass close enough to that coast in rough weather to see a stricken vessel ashore.

Three hundred and one men were taken to Belfast by the British destroyer Mounsey, the only vessel which made an attempt to rescue in the terrific gale, when the Kashmir, another vessel in the convoy with the Otranto, rammed the Otranto amidships.

Seventeen men were picked up alive on the Scottish coast. Of the 899 American soldiers on board the Otranto, 210 were landed. Seventeen were rescued alive, leaving 372 unaccounted for.

The Otranto and the other vessels of the convoy were battling with the heavy seas and high winds Sunday morning. The storm was so severe and the visibility so bad that the Kashmir, a former Peninsular and Oriental liner, crashed into the Otranto squarely amidships.

The Kashmir backed away badly damaged, but was able to make port. As the bows of the Kashmir were pulled from the great hole in the side of the Otranto, the water rushed in, for a time it did not serve to stop the engines. The Otranto tried to proceed, but made no headway against the gale in her crippled condition.

Within a short time the water put out her fires and the Otranto helplessly toward the rocky coast of Islay Island, where most of the 372 American victims met their death.

Thirty minutes after the crash the British destroyer Mounsey, herself damaged by the heavy seas, appeared out of the haze in answer to the distress calls of the Otranto. When the destroyer manoeuvred to get alongside, Captain Davidson of the Otranto warned Lieutenant Craven commanding the destroyer, not to make the attempt.

When it was seen that Craven would make the attempt anyway, the men were ordered to remove their shoes and heavy clothing and try to save themselves as best they could.

The destroyer stood off about a hundred feet and then gradually came nearer against the great eddy of high waves and the wind, which whirled momentarily to carry her entirely away from the Otranto or dash her to pieces against the side of the rugged vessel.

The Otranto struck the rocks Sunday night, south of Islay Bay, Islay Island, an uninhabited section where the coast line in many places rises straight out of the water to the rocky peaks many feet high.

Men Jumped Off. As the destroyer neared the side of the Otranto, the men began to jump from thirty to forty feet from her decks. The more experienced sailors of the crew of the steamer had better success than the soldiers, many of whom had never seen the sea until this trip.

As the destroyer steered toward the side of the steamer, many men leaped too quickly to the water, without reckoning, and dropped between the boats. Some of these disappeared in the water, but others of them were caught and crushed to death between the boats and the life-boats which had been lowered to act as buffers. The destroyer was badly battered.

The captain of the destroyer, when time it was brushed away from the side of the Otranto, again would push near enough for many more men to jump to the deck of his vessel. He described as a veritable rain the number of men landing on the destroyer.

Met Instant Death. Many of those who reached the decks of the vessel suffered from broken bones or otherwise were hurt. Those who missed the deck of the destroyer went to almost instant death. Four times the battered destroyer came alongside, and each time the previous scenes were repeated. At the end of the fourth trip she had 210 Americans, 236 of the crew, 30 French sailors and 10 British officers on board. The boat was full, and having done all possible, she started for survivors.

The survivors saw the Otranto drifting helplessly toward the rock as they pulled away toward the Irish coast. The destroyer barely had time to send a brief message when her wireless was carried away. The little overloaded vessel had a rough trip to port.

GERMAN WAR MINISTER.

Amsterdam, Oct. 11.—Lieut.-Gen. Scheuch, who recently was spoken of as the successor of Gen. Von Stein, head of the German war ministry, today was appointed to that post, according to a despatch received here from Berlin.

GRAND FORMAL DISPLAY OF NEW SEASON'S GOODS AT DINEEN'S.

Today should be marked as a red-letter one at Dineen's, 140 Yonge street. The entire staff has been busy unpacking the new fall and winter stocks, which are now complete and ready for showing. A full line of men's hats from Christy & Co., Henry Heath and other celebrated makers will delight the eye of those who follow fashion's latest decrees. There is also a fine display of fall and winter coats and raincoats. In the ladies' department will be seen a most charming exhibit of chic new millinery, while the gorgeous array of fur garments leaves nothing to be desired. Prices in every instance are most moderate, and the Dineen stamp of quality is marked on every article. Don't fail to come in. Closed Monday, "Thanksgiving Day."

AUSTRIA AND TURKEY READY TO ACCEPT WILSON'S TERMS

Turkey Said to Have Made a Definite Offer, But Story Is Denied at Washington.

London, Oct. 11.—Austria-Hungary and Turkey have informed Germany that they will accept President Wilson's peace terms, according to a despatch to the Central News from Amsterdam.

Turkey has made a definite peace proposal to President Wilson, according to reports in circulation here. Washington, Oct. 11.—Proposals of peace on the part of Turkey, reported in London despatches, had not been received in Washington tonight, State department officials expressed deep interest in the reported move by the Turkish Government, but stated positively that no proposals had reached them.

At the Spanish embassy, which has charge of Turkish affairs in the United States and thru which any peace proposals from Constantinople undoubtedly would be transmitted, it was said no intimation had come from Madrid that a communication of this nature might be expected.

HASTILY WITHDRAW BEFORE BRITISH

In Face of Deep Advance, Germans Leave Sensee River.

London, Oct. 11.—British troops, pressing in to the southeast of Douai toward Denain, have captured the Village of Iwuy, according to official report from Field Marshal Haig tonight. The capture of Fresnes, to the northeast of Iwuy, also is announced.

The Germans are hastily withdrawing from their strong positions north of the Sensee River in the face of the deep advance of the British, south of that river.

THREE POINTS RAIDED IN GERMAN RAILWAYS

London, Oct. 11.—An official report issued tonight on the operations of the independent air force says: "Thursday night we attacked the railways at Tilonville, Metz Salique and Metziers, the blast furnaces at Romach and the airfield at Froschat. All our machines returned."

HAIG CALLS ON TROOPS TO FIGHT STILL HARDER

London, Oct. 11.—General Haig, on Oct. 7, issued an army order calling the attention of officers and men to the circulation of false rumors to the effect that peace was at hand with the evident object of discouraging the troops and diverting them from the great task of overthrowing their enemies. General Haig urged the troops to realize now more than ever that it was necessary to concentrate their energies on the great goal all hoped for, namely, the attainment in the near future of a decisive and happy result.

GERMANS RETIRE FROM DOUAI

British Capture St. Aubert, and Are Within Seven Miles From Enemy's Main Communications.

London, Oct. 11.—North of the Scarpe River, in the direction of Douai the British have passed the Drocourt-Queant line and reached the Lens-Douai Railway in the vicinity of Pjeumont, and at Query-la-Motte, further north, have arrived at Henin-Lietard on the Douai-Carvin road.

The enemy evidently is retiring from Douai.

The British have captured St. Aubert and thus are within seven miles of the main German lateral line of communications, namely the Valenciennes-Lille Railway.

The enemy is retreating on the whole front from the Souvigny-Leon road to Grand Fre north of the Argonne Forest, and also from the north bank of the Suippe River in Champagne. General Gouraud's army is pressing forward on the ground between the Argonne and the Meuse. The enemy is falling back toward Verdun.

Where Deciding Fight Soon Will Take Place

Germans Are Retiring to Line Where Last Stand Will be Made.

AMSTERDAM, Oct. 11.—A General Von Liebert, writing in the Tagliche Rundschau of Berlin, indicates the retirement of the German armies to the line of Lille-Meuse-Sedan, Montmedy, Metz and Diedenhofen. The writer says that here is laid the strategic chess board on which the German fatherland is to be defended outside its own frontiers.

NO CONVENTIONS TO BE HELD HERE

Order Issued to Stop Spread of the Spanish Influenza.

IS GRIPPING TORONTO
Number of Cases Growing and Care Should Be Exercised.

Spanish influenza has a tight hold on Toronto and the number of cases is growing. The danger is not so much from the "flu" itself as from the pneumonia which so often follows it, and nearly always with fatal results. Care needs to be taken for some days after the patient has apparently recovered from the attack lest pneumonia take the unsuspecting victim unawares.

Stop Conventions.
To combat the spread of the epidemic, Dr. Hastings, M.O.H., yesterday ordered that no convention be allowed to open in Toronto for a month. The only exception is shown in the United States cities where it has made its appearance.

There are quite a few conventions scheduled in Toronto during the next month and some of these are: The Baptist convention of Ontario and Quebec, scheduled to open on Wednesday next, and the National Association of Electrical Contractors and Dealers is to open on Monday. There is also a three days' conference of local church workers in behalf of Israel, arranged for next week. The big convention of the Ontario Sunday School Association is to open on October 21, and the Ontario Hydro convention is scheduled for Oct. 23. The Toronto teachers may also be affected.

A drastic order issued by the M.O.H. yesterday was that only relatives be allowed to attend the funerals of influenza victims.

Dr. Hastings has no faith in throat spraying or other antiseptic agents to keep away the germs, for he stated that any wash strong enough to kill the germs would cause an irritation of the throat, thus making a soil for the germs.

Toronto nurses who went to Boston have not yet been recalled, but, according to the health department, the disease has not yet reached a stage serious enough to need them. There were fewer calls at the health department for nurses, as people down with the disease realize that nurses are very hard to get, and another reason is that the good weather is having effect in reducing the number of cases.

Telephone Economy.
The Bell Telephone Company is requesting that all unnecessary phoning be done away with. Some 250 switchboard operators are away on sick leave. However, all these are not suffering from the "flu," but some have had colds, while others are off nursing members of their families.

Any girl who appears to have contracted the disease is sent home, and those who return after being seriously ill are instructed to bring a doctor's certificate. Everything possible is being done to prevent the disease spreading.

In their request the company state that if people would do away with frivolous phoning, it would be a great help to the girls, who are now doubling and trebling in their work to keep the system going.

While the Toronto exchanges have only 15 per cent. of the girls away, other branches in Ontario are not doing so well. The Hamilton, Brantford and Niagara Falls districts have been seriously affected. In Kitchener over 70 per cent. of the operators are down with influenza. Many ex-operators are offering their services to help the company out of the difficulty.

In Postal Department.
Postmaster Lemon reports that there are only 50 cases of sickness in his department, out of a total of 1500 employees, so that the work at the postoffice is not noticeably crippled.

At the plant of the Dunlop Tire and Traction Goods Company, all the employees have been laid off till Tuesday morning, to enable the management to fumigate the buildings.

About 15 per cent. of the Consumers Gas Company employees are laid off, and thus far only one death has resulted.

In the city hall, comparatively few employees are ill with the disease, but there are 30 firemen off duty. The city car lines have five men off, and the works department reports one foreman and two workmen absent from one job, and eight from another.

A hurry call was sent out yesterday by military headquarters for doctors and nurses to assist in stamping out the epidemic which has broken out by the military population of the district. They have appealed to the General Hospital for extra help, and to the Academy of Medicine for cooperation of the medical and nursing professions.

Dr. Irving, A.D.M.S., says that the situation is serious, and he appeals to the civilian population to release soldiers for work among the soldiers.

Schools Hard Hit.
The schools in the city are hard hit, as a double substitute teacher is needed on duty to replace those who are ill. Pupils by the thousands are remaining away from school, many undoubtedly being kept away by parents who fear they may contract the disease at school or on their way home. In many of the larger schools, nearly 50 per cent. of the pupils are absent, and in every school the trouble seems on the increase.

The health department at Bishop Strachan private school has been suspended until such time as travel will be safer for the girls.

The hospitals are full to overflowing, and calls continue to come asking for the admittance of fresh cases. The number of cases in the various hospitals are as follows:

Nurses
Patients, Ill Deaths
St. Michael's 87 41 9
St. George's 21 3 0
St. Joseph's 25 24 0
St. Elizabeth's 25 16 2
St. Andrew's 3 3 0
St. Nicholas 17 8 0
St. James 211 95 14

Deaths in Base Hospital, 10; Davison Hospital, 1.

NURSES ARE NEEDED URGENTLY AT ONCE

Academy of Medicine Asks for Help to Care for Influenza Patients.

The council of the Academy of Medicine, Toronto, held a special session on Friday afternoon to consider what further means might be undertaken to alleviate the suffering of the public during the present epidemic of influenza.

In view of the urgent demand for nurses to care for the civil and military sick, and for hospital accommodation, the council of the academy urges, first, that all nurses who are themselves physically fit and who are at present not engaged in nursing, should report themselves for duty without delay to the central registry, to the lady superintendent of the hospitals, or to the military medical authorities; second, that all persons who can possibly dispense with their services, should release them at once, in order that they may report elsewhere for urgent duty; third, that persons contemplating surgical operations other than those which are strictly urgent, should have them deferred until the present epidemic is thoroughly under control and the situation in respect to hospital accommodation and nursing is relieved; and fourth, that the women of the community respond without delay to the urgent request made by the medical health officer of Toronto to the effect that women who are able to

act as assistants to trained nurses or to perform other duties which would relieve trained nurses, should offer their services and report at once to the Ontario Government Employment Bureau at 45 West King street, Toronto. Main 3501.

AMONG THE VETERANS.

Spanish influenza is taking its toll from the members of West Toronto G.W.V.A. Sergt.-Major Geo. H. Gustar, the secretary, has just recovered, and his daughter, who is treasurer of the West Toronto auxiliary, was up yesterday for the first time in two weeks. W. G. Robinson, 56 Fairview avenue, chairman of the entertainment committee, is ill, and R. Black, 499 Clinton street, a member of the West Toronto G.W.V.A. executive, is also laid up with the "flu." Comrade G. Lowe is seriously ill. Parkdale G. W. V. A. reports no cases at all.

WORKROOMS CLOSED.

The university hospital supply workrooms will be closed until further notice on account of the epidemic of influenza.

HUSBAND AND WIFE DIE.

Spanish influenza claimed two victims, Mr. and Mrs. William Martin, who died within 12 hours of each other at their late residence, 1265 East Gerrard street. They leave eight children. Mrs. Martin died on Thursday and her husband on Friday. Mrs. Martin's mother is lying critically ill and is not expected to recover. The funeral will take place today at Norway Cemetery. Rev. H. A. Berlis of Rhodes Avenue Presbyterian Church will officiate.

YEAST CAKE A DAY WILL KEEP INFLUENZA AWAY

The use of yeast as a preventive against and cure for Spanish influenza is suggested by Dr. Frederick H. Knoff, a leading specialist of diseases of the lungs and physician to the tuberculosis clinic.

Yeast, Dr. Knoff said, has been used with success for many years in the treatment of acute bronchitis, diseases of the skin and gastro-intestinal diseases. He advises people to eat three yeast cakes, one with each meal.

The free use of yeast, the doctor claims, will ward off possible attack of influenza. The product increases the white blood corpuscles, which attack the disease, and thereby adds to the power of resistance in the body. Dr. Knoff explained.

Many Doctors Use it.
"Many doctors here and elsewhere are administering yeast in treating various infectious diseases," Dr. Knoff said, "and report exceptional results."

"There are many physicians who eat yeast with each meal while treating infectious diseases. Some, whose duties bring them in contact with infectious disease at intervals, remain on the yeast diet throughout the year. The number of doctors who do this is greater than the public appreciates."

Success Abroad.
"Records show that yeast has been used with success in previous epidemics of influenza here and abroad and it seems that if it were to be administered freely in the present epidemic-conditions would soon be remedied."

Spanish influenza, which is ordinarily prevalent in young adults, makes its appearance almost annually in Germany during June and July. Spain experiences an epidemic of the disease practically each year during the months of July and August, at which times about thirty per cent. of the population is affected," Dr. Knoff said.

The late Mr. Martin was an employee of the street cleaning department for over 30 years. One son, Pte.

John Martin, C.R.F. is overseas; two are married and five are living at home.

J. W. NEWSTEAD DEAD.

J. W. Newstead of the Bricklayers' Union, is dead from Spanish influenza, and Vice-President John Spencer of the same union is seriously ill at his residence, 28 Wyatt street.

SEVEN CHILDREN ILL.

Seven children of the late Henry Huxter, Erie terrace, who was buried on Thursday last at St. John's Cemetery, Norway, are laid up with the Spanish influenza. None of the cases are serious, and some of the children are rapidly recovering.

CLOSED TO VISITORS.

In order to prevent the development of Spanish influenza in the wards of the Hospital for Sick Children, instructions have been issued by the M. O. H. that visiting be dispensed with during the epidemic.

Convention Postponed.

The Baptist convention of Ontario and Quebec, which was to have been held in Jarvis Street Church from October 16 to 22 will be postponed on account of the order of the M. O. H. regarding the influenza epidemic and the cancellation of public meetings, according to Rev. C. E. McLeod, secretary.

INFLUENZA ABATING IN BOTH THE CAMPS

Niagara Camp, Oct. 11.—The influenza in the Canadian camp as well in the Polish camp appears to be abating. No new cases in the Canadian camp were reported yesterday or today, and this afternoon Capt. Armstrong, acting A.D.M.S., stated that there were 50 cases ready for discharge from hospital. This leaves 220 "flu" cases still in the Canadian camp hospital, but it is expected that by the time camp breaks up next Tuesday 160 more will be discharged. Five of the patients, including Capt. Grisdale of the army medical corps, are seriously ill, and Capt. Andrews, camp chaplain, is still far from convalescent. The Polish camp has about 100 influenza cases yet, but there have not been any deaths for a couple of days. The total number of deaths in the Polish camp from influenza is 18, and the total in the Canadian camp three.

With reference to the statement made in Toronto to the effect that of 500 influenza cases at the base hospital, the greater number had gone from Niagara Camp, it is officially stated here that, with the exception of six nurses, who were sent from this camp to the base hospital, absolutely no influenza cases were sent from Niagara Camp to Toronto.

TEACHERS FINISH ANNUAL MEETINGS

Three Conventions in Toronto Were Concluded Yesterday—Officers Elected.

Following a two-day session at the Normal School the convention of the East York Teachers' Institute concluded yesterday. Mrs. H. Mayberry, Stratford Normal School, presented a paper on "Art in Public School Grades," and J. F. Bell, principal of Markham High School, spoke on "Oral Reading."

Some of the subjects discussed yesterday were: Primary reading, truancy, agriculture in the school and promotion examinations. Many members took part in the various discussions.

The annual elections resulted as follows: Hon. president, A. A. Jordan; immediate past president, A. A. McQuarrie; president, Miss F. Webster; vice-president, J. Anderson; secretary, E. H. Stephenson; treasurer, E. E. Reece; librarian, D. D. Smith; executive committee, Misses Mabel Beatty, A. McQuarrie, H. H. Jones and J. B. Morrow.

As in all the other branches of the institute the women teachers of this branch organized their Association of Women Teachers to be affiliated with the Confederation of Women Teachers of Ontario. Mrs. E. Reece was elected president and Miss O. Acheson was chosen secretary of the organization.

"Fit" Hurts Attendance. West York Public, Separate and Continuation School teachers held their annual convention at the Toronto University yesterday. The attendance was not as large as in past years, but this was attributed to the influenza epidemic.

David White, B.A., spoke on "Modern Geography and Agriculture," while Dr. C. A. Snell presented a paper on "South Hygiene." Rev. D. K. McKerrel spoke on the "Second Line of Defence."

J. A. Short of Swansea was elected president for the coming year, and J. H. Beamish, Runnymede, was chosen as secretary.

Miss Austin and Miss Natras were elected as president and secretary of the new ladies' organization, which is affiliated with the Confederation of Women Teachers of the province.

North York Teachers.

The North York Teachers' Institute yesterday closed their convention in the county building. Miss E. McBride and Miss Agnes McPhail introduced the discussion on the History Course for 1919. Miss McPhail advocated grading the course into periods, and not to burden the pupil with a lot of non-essential facts. C. W. Mulloy, inspector for the district, gave a few suggestions as to how to make the history lesson interesting both to teacher and pupil.

The elections resulted as follows: Hon. president, C. W. Mulloy; president, Miss J. D. McPherson; vice-president, Miss B. Robinson; secretary, J. L. McDonald; executive committee: Miss M. Trench, Miss L. K. Treloar, Miss J. V. Lennox, Miss A. McPhail and Wm. E. Smith.

GERMANY NOT BEATEN, BUT OUTLOOK BRIGHT

Sir Arthur Yapp devoted his speech at the Canadian Club yesterday largely to the war. He thought the outlook brighter at present than it had ever been. At the same time, the Germans, for whom there was no depth to which they would not sink, were not yet beaten. He was most emphatic that there should be no patched-up peace.

"There is only one way open to us," he said, "that we should give Germany the knock-out blow, because it's the only language in the world she understands. The war must be ended that another one would be impossible.

He contrasted the comparative plenty and luxury in Canada with the scarcity in Britain, where there are no pleasure cars, and the streets of the great cities are all dark. He was sure that for the sake of France no one grudged any sacrifice.

He spoke of the work of the Y. M. C. A. huts at the front, and asserted his belief that there was nothing that had been so successful as their religious work.

"There is no religious difficulty in France," he declared. "But when the boys come back don't expect too much of them. Remember they are only human. Don't expect them to flock into your churches unless you make them welcome."

He complimented the Canadian troops and mentioned the lumbermen, the railway corps and the airmen.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the Poisons and Toxins From System Before Putting More Food Into Stomach.

Wash yourself on the inside before breakfast like you do on the outside. This is vastly more important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or sucked into the blood stream, through the lymph ducts which should suck only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast, each day, a glass of hot hot water with a spoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store, but is sufficient to make any one an enthusiast on inside-bathing.

WILL ASK SOLICITOR TO EXPLAIN ACTION

Crown Attorney Corley stated yesterday in the police court that the solicitor for and an officer of the Bank of Montreal went into the police cells and got James Haynes, accused of forgery, to make restitution in respect to an army pay certificate, thus returning \$44 to the bank. "That solicitor will have to come here and explain his action," said Colonel Denison, remanding Haynes on his own bail.

Bill Vodwich, charged with keeping a disorderly house at the rear of Terravay street, was fined \$10 and costs and the inmates were fined \$5 and costs.

Flitz Dugastina was fined \$5 and costs for packing 75 fowl into two small crates for transportation from Barrie to Toronto.

William Moore, charged with obtaining \$120 by fraud from Joseph English, reserved plea and election until October 17.

John Gowen, arrested on four separate charges of house breaking, was remanded another week.

TRUCK COMPANY WINS IN SUIT FOR DAMAGES

"Even if it could be proven that the defendant's car was on the wrong side of the road and was also guilty of excessive speed, the evidence leads me to believe that Miss Shaw made a sharp cut across the corner at the intersection of Dale avenue and Glen road, thus contributing to any negligence which may have caused the accident. I must therefore dismiss this action with costs."

SUES FOR DEPOSIT.

Judge Denton is trying the case of Jacob Silverman v. Mary Lezard and Dods, Limited, at the county non-jury sessions. Silverman made arrangements with Mrs. Legros thru Dods, Limited, to purchase 458 West Bloor street for \$5000, a mortgage of \$2500 being considered in the agreement. Mrs. Legros is alleged to have later refused to go on with the agreement. Plaintiff is asking for the return of his \$200 deposit and for \$100 damages and costs. The case is being continued.

WANT AIRCRAFT DONATIONS.

The honorary secretary of the Canadian aviation fund has received a communication from the department of naval service that the Canadian naval air service will be glad to receive gifts of seaplanes or other aircraft. The cost of the style of aircraft used by the Canadian naval air service and acceptable to them as donations would be approximately as follows: Airships, \$100,000 to \$120,000; kite balloons with winches, \$22,000 to \$25,000; seaplanes, \$45,000 to \$50,000.

TO STOP SPEEDING.

That second speed offences would be rewarded with double fines and that the license of an automobile owner or of a chauffeur would be recommended for cancellation if he was brought before him on the fourth offence was the warning issued at yesterday afternoon's police court by Magistrate Kingsford.

CASE IS ADJOURNED.

Chief Justice Sir Glenholme Falconbridge, at yesterday's non-jury sessions, decided to adjourn the case of Booth v. Provincial Motors until Monday, October 21.

THANKSGIVING WEEK-END LAKE TRIP SHOULD BE GREAT FLU CHASER.

At this season of the year, and particularly now, when all hands are up in the air, or when one is endeavoring to sidestep some form of chills ailment, there is no healthier course than a couple of hours on the steamer crossing Lake Ontario. Every man wanting good, substantial, life-giving fresh air, absolutely necessary for toning up and putting pep and vigor in a languishing system, should take advantage of the Niagara-St. Catharines line holiday fares, and get away on the Dalhousie City, leaving Yonge street wharf 5 p.m. daily, except Sunday, for St. Catharines and Niagara Peninsula points.

GRAND ARMY OF CANADA.

Membership Said to Be About 2000 and Organization Grows.

It was stated yesterday that the new soldiers' association, the Grand Army of Canada, is about 2000 strong. Officers will be elected in about two weeks. Opinion among G.W.V.A. members as to the prospects of the new association is not unanimous.

It is generally understood, however, that the G. A. C. has been organized to admit of soldiers banding together for political purposes, a principle not as yet adopted by the War Veterans.

MOUNT ROYAL TUNNEL, MONTREAL, OPENS OCTOBER 21st, 1918.

Mount Royal Tunnel (3.35 miles in length, under Mount Royal, Montreal) will be opened on October 21st by the Canadian Northern Railway, establishing through train service between Toronto Union Station, Ottawa Central Station and Montreal Tunnel Terminal, 415 LaGauchetiere street west two blocks from the Windsor Hotel, Windsor and Bonaventure Stations.

Rail sleeping and parlor car tickets are obtainable at all Canadian Northern Railway ticket offices.

Why Canada must borrow money to carry on

Because Canada has put her hand to the plow and will not turn back—

—our country is in the war on the side of liberty and justice and will stay in it till complete victory is won and the unspeakable Hun is smashed and beaten to the ground;

—a nation at war must make tremendous expenditures in cash to keep up her armies and supply them with munitions, food and clothing;

—Canada must finance many millions of dollars of export trade in food, munitions and supplies which Britain and our allies must have on credit;

—for these purposes Canada must borrow hundreds of millions of dollars—

And, this money must be borrowed from the people of Canada:—

Therefore, Canada will presently come to her people for a new Victory Loan to carry on.

Canadians will loan the money by again buying Victory Bonds.

The national safety, the national honor and the national well-being require that each and every Canadian shall do his duty by lending to the nation every cent he can spare for this purpose.

Be ready when the call comes to see your country through in its great war work.

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

SAID HE WAS HAUNTED BY GHOST OF VICTIM

The removal of Jocho Christoff, a Macedonian, from the jail to the Reception Hospital, after he went violently insane Wednesday night, forms the sequel to a murder trial which was heard in the assizes a few months ago.

Christoff was charged with the murder of Vasil George, but the evidence was not sufficient to convict, so

the case was dismissed. Christoff had been later picked up for not conforming with the Alien Enemy Act during his second term in jail. Christoff appeared to be worried, and often cried out at night that he was haunted by the ghost of Vasil George.

ASK FOR GRANTS

The Greater Toronto Labor Party has decided to ask trades unionism in Canada for \$25,000 to further the cause of labor.

JAMES MITCHELL, I.O.O.F.

A regular meeting of James Mitchell Lodge, M.I.O.O.F., was held in Dominion Hall, corner Queen and Dundas, Bros. Smith and Thomas in the chairs. One new member was initiated into the order. The Queen City Past Grand Lodge, who have started a social winter program, paid a visit to the above lodge. The lodge room being turned over to them, Pres. Wells took the chair and the P.G.'s entertained the evening with songs, recitations and music, the best items being the fine mandolin duets by Bros. Nunn

and Painter. The Past Grand's intend paying a social visit to every lodge in the district during the winter, to help up the order and assist in organizing the juvenile lodges.

WHITE HEATHER CAMP.

The White Heather Camp of the Daughters of Scotland held an open meeting in their lodge rooms at the Temple Building on Wednesday evening. The president, Miss Mutch, was in the chair. A splendid program was given. The following artists took part: Mr. and Mrs. McRobert, Mr. and Mrs.

Simpson, Mrs. Snedden, Miss Stark, Miss Marshall, Miss Melnyk, Mr. Barrell, Master Fraser Melnyk, Piper James Ross. Mrs. Mitchell was an able accompanist. At the conclusion of the program the camp presented Mrs. W. McRobert with a handsome cut glass water set as a token of their appreciation of her valuable services to the camp. Mr. and Mrs. McRobert recently removed to Galt, Ont.

Thousands of women in California have enrolled as members of savings clubs in that State to help preserve the extra large fruit crop.

Huns in Council.
A few days ago we spoke of the consultation at Vienna which the kings of Saxony and Bavaria were reported to have had with the Emperor Karl and Ferdinand of Bulgaria. The sequel was peace with Bulgaria. Now it is reported that the Kaiser is summoning a conference of all the German monarchs to a consultation at Berlin. One must be very cautious about accepting reports of this kind, but we know the Kaiser is in desperate straits and need not be surprised at anything he might do.

The Kaiser has been a kind of Nebuchadnezzar image to the German people and sovereigns for so long that now when it has been demonstrated that he has clay feet and perhaps a clay headpiece as well, they feel encouraged to say what they really think about him. They do not differ in this respect so much from the rest of the world.

Russia has been cordially hated by the other German states, both by their people and their rulers, and now that "The Dav" which has been so long looked for is evidently going to be quenched in night before it has dawned, the Kaiser will look more like a shooting star than the noontday luminary which he has so long pretended to be. Austria is preparing for the deluge and has agreed to give Hungary separate government and self-determination to other races. It would not be surprising if Bavaria, Saxony and the other important states informed the Kaiser that they were going to leave Prussia to do as she pleased, and that they made terms with the entente alliance. If they agreed to turn round and put Prussia in her proper place, as Bulgaria is willing to do with Turkey, this might be a good move for the allies. But there would have to be tangible evidences of good faith to make the idea acceptable to the entente alliance.

It would, however, be a satisfactory way out of the present impasse, if Prussia were isolated from the other German states, and from Austria. There can be no doubt of the earnest desire of the people of these states to escape at such a price as unburdening the burden of infamy on Prussia would make possible. It is a very general impression at the front that many of the Bavarian and Wurtemberg divisions were as bad as any Prussian could be.

The conduct of the war from the civilian point of view, or in the light of any of the international codes, is about the most atrocious thing in history. They think their brutality will purchase peace, and that France and Belgium will surrender to national sentiment. The war has shown beyond question what the Germans really are. They do not understand force, and methods of force. Other language is wasted upon them. Force, force to the limit, would clearly be one of President Wilson's remedies for a situation in which smooth words have lost their value.

Price Fixing.
Ottawa has awakened to the fact that prices cannot be regulated locally, and a national committee to do the work has been suggested. Last week when we pointed out the folly of the proposal to have local committees, we contended that a national committee was the logical sequel. But if this be the case, why should not the real national committee, the house of commons, or the government, which represents it, do the business for which it is elected?

There is nothing else in the war in which Canada has fallen down so badly as in this matter of prices. They have been allowed to run wild, and the harvest of that sowing has been an increase in costs three times and in other ways, probably unparalleled.

The political economists think that prices will come down as they have gone up. They have created a situation, or allowed a situation to be created, in which an extraordinary increase of wages became absolutely necessary. They find that there are other factors entirely than the principles by which they have been swearing, which will prevent any reduction in the standard of living which the high wage scale has set up, and that standard does not depend on the price of food, which perhaps responds most easily to conditions such as political economists alone recognize.

There is an entirely new factor in the situation, a human factor, and it will be reflected more and more in practical politics as the labor movement becomes more fully organized.

We may perhaps not need to deplore the final result of the failure to fix food prices, but if that failure was due to the influence of the corporations, the cold storage companies, and the middle-men generally, they will find that the policy has landed them in the last position in the world that they had expected.

Keeping Up the Pressure.
When victory is nearest the pressure is at its greatest, and must be kept at that extreme tension. It is, however, all things necessary to understand this. Any slackening at the moment of possible victory may mean actual defeat. How many a horse race has been won by a nose or a neck. The slackening of a stride lost the race. In the contests of the ring the great battles have been won by unremitting tension, and even when the knockout has been given the victor stands ready, tense, still with his power alert until the critical moment has passed.

So must we stand as a nation, as a union of commonwealths, as a group of allies. Never were all our energies, all our resources more necessary than when the enemy, goaded by despair, may gather all his remaining forces for a last supreme effort. It is we who must have that master effort always in reserve, and slacken no least part of our daily contribution to the general force.

"Force—force without limit," can only be had by unceasing sacrifice.

Women and Children Behind.

It is reported that the United States Government is resolved before next March to pass such legislation as will make child labor impossible in the future. A bill had passed congress and the senate, but was disallowed by the United States last court of appeal. It is felt that a stigma rests on the country while such conditions as have been described in harrowing terms by various writers exist in Arkansas, Tennessee and other states, some of them much nearer the "Hub of the Universe."

Another big question which was hung up by the senate recently for lack of two votes, is women's suffrage. It passed the house by a good majority, but the senate was short of the necessary two-thirds by two men to pass it on to the constitutional amendment stage. Many are of the opinion that another vote may be taken before the session closes, and the United States will get in line with Canada and other progressive countries.

Other People's Opinions

A Word to Poets.

New York Morning Telegraph: Like a pelican in the wilderness, the esteemed Herald raises its voice against the writing of so-called poetry about the war, much of which, we understand from what The Herald says, has been sent to that office. Our sympathies go out to The Herald; we also have suffered. A poem has been received at this office in which one-headed is made to rhyme with home-ward—the alleged poem tells about the retreat of the Huns. We recently made public complaint of a poem which read the words "peel and gore." Writing poetry is a trade by itself; there are certain rules that must be followed if one would be a Longfellow or Whittier. Until amateurs learn the trade of doing verses they should in mercy refrain from either sending their poems to newspapers or reading their output to others.

The Fuel Situation.

Editor World: Many a home will be gladdened by the recent news appearing in the press that the city council has arranged with the city council to supply the 12,000 applicants for coal with one ton each during the next few days, and Fuel Commissioner Chisholm is doing his utmost for his untiring efforts in the work he has accomplished in this direction. But it cannot be said that the city council deserves any praise for their efforts put forth towards helping out the fuel situation. Practically every person who has been in the early spring that there was going to be a shortage of coal for the coming winter, and it was at that time the city council should have not busy, as the harvest of that sowing has been an increase in costs three times and in other ways, probably unparalleled.

GEN. ALEXIEFF IS DEAD.

CHARGE OF PERJURY WAS UNFOUNDED

Judgment in Probe Into Accusations Against Officers Made by Archambault.

Ottawa, Oct. 11.—Complete exoneration of the charge of perjury made by Joseph Archambault, M.P., in the house of commons against certain military officers at the barracks of the engineering training depot in St. John's, is the finding in the judgment of Judge MacLennan, the commissioner appointed by the minister of justice to investigate.

BOLSHEVIKI ABANDON GOLD-MINING DISTRICT

Tokio, Oct. 11.—Bolshevik troops abandoned the gold mining district west of Morosotaki, in the Transbaikalia region, when the Japanese and allied troops approached, according to a statement issued at the war office today. The Bolsheviks left the district in the morning, and machine guns and four mortars.

LATEST FOCH SUCCESSES DISTURBING TO GERMANY

Washington, Oct. 11.—A despatch today says General von Ardenne writes in The Berlin Tageblatt: "General Foch has obtained success so important and so plainly visible that the German people are now losing nearly all the benefit of previous offensives and many people wonder what is the mysterious power continuously pulling back the German armies that they were meant to go on."

SYMPATHETIC STRIKE ARRANGED IN CALGARY

Calgary, Alta., Oct. 11.—The strike committee of local unions has completed arrangements for the sympathetic strike in sympathy with the striking C.P.R. freight handlers, which will commence here on Saturday at 11 a. m., at which time the organized shops and the employees of the round houses of the C. P. R. will be called on. On Monday or early in the week the C. N. R. and G. T. R. freight handlers are to follow suit. The bakers, teamsters and civic employees are to be the next and will be joined by one or two small organizations early in the week. This policy will be continued until every union is out, it is said.

NO UNIONS ALLOWED TO GOVERNMENT POLICE

Ottawa, Oct. 11.—Regulations passed by the government forbid the northwest mounted police and the Dominion police from joining labor unions. The regulations have been adopted under order-in-council.

MANUFACTURES CUT DOWN.

Washington, Oct. 11.—Curtailed in the manufacture of non-essential articles for the remaining four months of 1918 was announced today by the war industries board in its program of conservation of materials, labor and transportation. Production of pocket knives is limited to 70 per cent. of 1917; bicycles and motorcycles to 75 per cent.; clocks and watches to 70 per cent.; buttons and radiators to 40 per cent. and rag, felt floor coverings, to 40 per cent. Composition roofing and building boards may be manufactured only for the government use.

THE WIFE

By JANE PHELPS

Arthur Mandel Investigates Brian's Business Address.

CHAPTER LX.

Arthur Mandel had not been oblivious from the west, something had been worrying her. While her work had been well done, every time she was uncoupled for a moment—and he had watched her closely—he had been aware of some inward disturbance.

"She's not happy with him," he said to himself, "him," of course, meaning Brian. "Poor, not to know the value of such a woman." And in consequence he had made things as easy as possible for Ruth.

Her salary was small to him, when considered as a living for a woman. He had given her a room, a car, and a maid. He had given her a life of ease, luxurious life from her; the life she lived at her aunt's before she met and married Brian Hackett. While she had given him an idea that Brian could not take decent care of her, he recalled that as soon as he had raised her salary she had moved. He had given her a new address. That looked as if before they could afford nothing better than the place they had lived in. He had the street and number for when Ruth came to them she had given it as her home address. So one day he walked past. His fastidious taste was quite shocked at the location. "Curse it," he had said to himself. "I'll have to show the apartment. He had been seen by the one 'formerly' occupied by Mrs. Hackett, a young lawyer, so the building was not entirely new. He was still more shocked. The small, dingy, inartistic rooms must have been a constant torture to Ruth. He shuddered at the thought of her in such surroundings.

"No wonder she would rather work for me," he muttered when he reached home. "I'll be and an all of cheer. For all the wealth of golden light To lead me on from morn to night. And if tomorrow bring me rain, Why I'll be and an all of cheer. Because despite it be not fair, Its falling clarifies the air. And if a tempest rends the skies, Once more will cheer flash from mine eyes. As, faintly, it all fearlessly, It blows its vigor into me."

ALL GOOD.

Another clerk, Dr. W. E. Williams, one of the laymen from Toronto. Such a conspicuous position is evidence of the prominence given to the laymen in the church. He is very, very quiet. Such is not his nature. Anybody who does not never be kept in any such official position. To see the way he and the president yoke up when there is a difficult suggestion, it is not the man behind the throne. To see him rise in his usual deliberative manner and command the attention of the parliament. Such is his service, never personal relations they must be as chummy as the Siamese twins.

PRESENTED REVISED SALARY SCHEDULE

Ottawa, Oct. 11.—A committee representing 2500 members of the outside customs service, who are members of the Dominion Customs Association, waited on Hon. A. L. Sifton, minister of customs, today and presented revised salary schedule for this class of government employes. The committee received a sympathetic reception, and the minister promised an earnest consideration of their requests. The committee also presented suggestions with regard to the reorganization and classification of the service which is now going on. The amendment to the Civil Service Act was one of the matters taken up. The committee also had an interview with Mr. J. Roche of the civil service commission.

DE PRETTI! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large quantity of this mixture, which is improved by the addition of other ingredients, at a small cost.

Methodist Men and Measures

By Dr. Quill.

The general conference of the Methodist Church in Canada has now been in session at Hamilton for over a week. There has been ample time, therefore, to hear the leading men of the denomination and catch the drift of the movements which occupy their attention. It is a great organization, with its twelve conferences and 151 district meetings. So, in its general conference, which meets every five years, well put together, it is a working parliament where the greatest energy is seen. Spiritually, it is the church at its best. Moreover, as a democracy, it is a notable gathering, and calls for leadership of the first quality. Its men and measures are, therefore, topics of interest.

No church is more truly represented than by the 375 delegates who form the membership of the conference, each one to be elected and a duty claiming the highest talents. If a prominent Methodist is not present it is very likely because he has done so to a new conference. He fell between two stools. Hence it is the leaders in a grand review that we are to see. Their heads are "generals," General Superintendent Chown, Tull as Kitchener, his soldierly figure, and with long and brilliant campaigns of militant Christianity; a leader in whom the forces of Methodism have every confidence. His voice is just light enough to make men listen in a large place and so invariably mild and very. A good gavel, however, of sacred wood, speaks authority. Over and over there is a very clear suggestion in the general's strong face that he could rule with a word or sign if the occasion called for it. He is not his title while in the chair. He read from the Book of Discipline, that he was simply a president of the home and a good deal of time in pro-nunciation, rather than the cumbersome phrase, Mr. General Superintendent.

The next officer is not vice-president, as one might expect. Dr. T. Albert Moore is a big man in this democratic gathering. They call him "Big Al," but his big, burly figure, tremendous energy, knowledge of the church and its affairs, could never be kept in any such official position. To see the way he and the president yoke up when there is a difficult suggestion, it is not the man behind the throne. To see him rise in his usual deliberative manner and command the attention of the parliament. Such is his service, never personal relations they must be as chummy as the Siamese twins.

NO REASON FOR PANIC ABOUT WINTER'S FUEL

Due to the influenza epidemic, the attendance at last night's meeting of the Ward Seven Ratepayers' Association was very sparse. The speakers scheduled to address the meeting were Controller Maguire and McBride and D. Chisholm, fuel commissioner, but unfortunately Mr. Chisholm, was taken ill yesterday and was unable to attend.

Both speakers dealt with the fuel problem and Controller Maguire said there was no need of a panic, that everybody would be taken care of and there certainly would be no hardship. Canada, he stated, had already received her allowance of coal from the United States, and the present shortage was due to the many people who had laid in their stock in the spring before the 70 per cent allowance law became effective.

He had every confidence in the coal men of the city who were working with the fuel commissioner to see that everyone had his share. Controller McBride talked on the wood side of the fuel question and said it was absurd to bring wood into the city for fuel purposes because wood must be seasoned before it will burn and because the drafts in city stoves would not take to wood as a fuel. The cost of transportation would bring the cost to somewhere around 23 per cord.

FUNERAL OF MRS. NEAL HELD IN EARLS COURT

The funeral of the late Mrs. David Neal, wife of Pte. David Neal, took place yesterday at Prospect Cemetery. Mrs. Neal, who had been visiting friends in Bolton, died suddenly. The remains arrived in Earls Court yesterday morning, when arrangements for the funeral were taken charge of by the Earls Court branch, G.W.V.A. At midnight, official news came that the husband, Pte. David Neal, had been killed in action. Pte. Neal went overseas with the 2nd Battalion, 1916. He had been gassed and wounded and only just returned to the front when killed. Two children, a boy and girl, aged ten and eight, survive. The family formerly lived at 186 Van Horne street. The executive of the Earls Court, G.W.V.A., which attended the funeral, sent a beautiful wreath. Steps will be taken to look after the two children who have been deprived of both parents so suddenly.

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You. Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region. Rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of this famous salts in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush out the kidneys and stimulate them to normal activity; so to neutralize the acids in the urine so it no longer irritates, thus ending bladder troubles. It does not injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

BERT MILLER KILLED; STRUCK BY MOTOR CAR

When he was knocked from his bicycle by a motor car in front of the General Hospital about 8:45 yesterday evening, Bert Miller, 24, Ralston avenue, was almost instantly killed. Harry Smith, 55 Exeter street, the driver of the car, was arrested by Detectives Koester and Strueme, of West Dundas street station. According to the police the charge is at present criminal negligence, but it is expected that a more serious charge will be laid in the morning. The authorities say that Miller was riding east on College street when he was struck from his bicycle by the motor car driven by Smith. According to measurements taken by the police after the accident, Miller was dragged 75 feet by the motor car before it was brought to a standstill. He was carried into the General Hospital and died shortly after admittance. The chief coroner was notified and the body removed to the morgue. An inquest will be opened. Mr. Miller was going to the hospital to see his wife, who, it is understood, was to undergo a serious operation this morning.

SPANISH INFLUENZA RAGES IN CANADA

Thousands of Cases Reported, With Many Deaths.

THOSE WHO ARE MOST SUSCEPTIBLE TO IT

"Fruit-a-tives"—The Wonderful Fruit Medicine—Gives the Power to Resist This Disease.

The epidemic of Spanish Influenza which played such havoc in Europe, has reached this continent. Thousands of cases of the strange malady have appeared and many deaths are already reported; Surgeon-General Blue of the United States Public Health Service having stated that "Spanish Influenza will probably spread all over the country in six weeks."

Practically every ship which touches our shores from abroad, brings those infected with the disease. Surgeon-General Blue urges that "the individual take all the precautions which can be taken for his own protection and personal hygiene. Plenty of exercise should be taken; the diet should be regulated, etc."

Spanish Influenza affects most severely elderly persons and others whose powers of resistance are weakened by illness, work or worry, especially those who are "run-down" or "not feeling up to the mark."

The really great danger from the disease is not so much in the disease itself, as that it often develops into pneumonia. What everyone needs now is a general tonic like "Fruit-a-tives." This wonderful fruit medicine is not a germ-killer. It is a body-builder; a strength-maker; a blood-purifier; a power in protecting against the ravages of disease.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and purifies and enriches the blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, insuring food being properly digested and assimilated.

Everyone can take ordinary precautions against crowded places, and use "Fruit-a-tives" regularly to insure sound digestion, to keep the bowels and kidneys regular and the whole system in the best possible condition. Then we are safe from disease.

"Fruit-a-tives" is sold by dealers everywhere at 50c a box, 6 for \$2.50, retail size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa, Ont.

SORRY TO PART WITH DEPARTMENT OFFICIAL

Fred Goode, in severing his connection as superintendent of the eastern division of the parks department, received a great "send off" from the men of his division last night at the Moss Park recreation center. Mr. Goode has served sixteen years in the parks department, and severed his connection with the parks department to go into business with George Bonnett, the west end florist.

Alex. Brown, foreman of Riverdale Park, was chairman, and presented Mr. Goode with a beautiful mantle clock. Mr. Butler, G. Millward, A. Grey, T. Harris, A. Sadler, J. Copley, R. Hawkesbury and F. Bryant expressed their regrets at losing Mr. Goode, and S. H. Armstrong, director of recreation, expressed his thanks for many kindnesses. To add to the pleasure of the evening, J. Williams sang and the Riverdale orchestra, under the leadership of A. Grey, gave a very entertaining musical concert.

CELEBRATE SUNDAY AS "AMERICAN DAY"

The bond of brotherly love that is binding the nation to the south of Canada closer, as each day passes, is to be used as the foundation of a special series of sermons to be preached in Toronto, tomorrow. The Anglican churches are holding tomorrow as "American Day" as a day of international fellowship, prayer and thanksgiving. Prominent preachers from the United States will speak in almost every Anglican church in Toronto, and the feeling of kindness and goodwill that now exists between Canada and the United States will be cemented even yet a little closer.

SIR ARTHUR YAPP ON Y.M.C.A. WORK

Tells Large Audience in Convocation Hall of Red Triangle Romance.

"The Romance of the Red Triangle" was the subject of an address by Sir Arthur Yapp last night that kept a large audience in Convocation Hall listening for over an hour. With tales of the trenches and stories of the boys, he brought the Y.M.C.A. work among the soldiers close to every listener. S. J. Moore, chairman, introduced Sir Arthur Yapp as the man who originated the Y.M.C. in France and who made the term "Red Triangle Club," which was so apt for the particular branch of the work of the Y. Sir Arthur expressed his pleasure at being in a city so distinctly British as Toronto. He referred to the heavy war news of the past week, but said the allies were not thru with the Hun yet by any means, but rather was it the time for the hardest blow to be struck.

"There are many factors in war that make for success," said the speaker, "but none greater than morale, and that is what the Red Triangle is for. I like the United States papers; they were splendid 'in ten days from the day war was declared, we had 250 centres opened in all parts of the United Kingdom,' he said.

The difficulties of finances had weighed heavily on the leaders at first, but that was another romance. Calling for \$25,000, they received as a result, \$2,500,000. He told stories of sacrifice made by poor men in order to give something towards helping the Y.M.C.A. work among the soldiers. Stories of the work among the men coming off the boats and missing trains for the north were told.

"The work was left for Canada 28,000 soldiers and sailors slept in our huts near London," continued the speaker. "The wonderful work done by 40,000 women under the sign of the red triangle in France was given due emphasis. The religious work also was told. 'Before the war we thought it impossible to be religious unless we were fighting in the front lines,' said he. 'After the war we will all be more tolerant.'

He told of the various ways religion was presented to the men, usually without the name of religion being mentioned. Work among the Indian troops was particularly noticed. The Indian authorities at first refused to allow any work being done among the troops as they feared a mutiny, so the Y.M.C.A. promised there would be no religion in connection with it. And so it has been. One day a high caste Indian stood watching the interior of one of our huts," said Sir Arthur. "Afterwards he came to us and said: 'There is only one religion in the world that would send its servants, not to prostrate, but to serve, and that is the Christian. When the war is over I want you to send missionaries into my territory. My people are all Hindu, but they will do as I tell them.' That is how our work among the Indians will reap its reward."

Surveys of Work. He gave a survey of the whole work of the Y.M.C.A. among the soldiers in every part of every war zone, even among civilians who were in the relatives of badly wounded soldiers in France, who come over from England, and cared for and taken around with no expense. Little stories of the war zones gleaned here and there in his travels at the front, seemed to make his narrative more thrilling.

Sir Robert Falconer, in moving a motion of thanks to Sir Arthur Yapp, spoke a warm word for the red triangle, as he had recently had an opportunity of seeing it for himself; while in France, G. H. Wood seconded the vote of thanks. Among those present were: C. W.

CANADA MAY CONTINUE THE DAYLIGHT SAVING

Ottawa, Oct. 11.—Should the bill passed by the United States senate providing for the continuance in force of the daylight saving law after October 27 become law it is practically certain that the Dominion government will take similar action. The United States bill is designed to effect economy of fuel and, apart from the inconvenience that would result from a difference in time in the two countries, Canada has adopted practically all fuel conservation measures made known by the United States. Action to continue daylight saving through the winter months could, if necessary, be taken by the government under the War Measures Act.

Severe Earthquake is Recorded On Seismograph at Victoria

Victoria, B.C., Oct. 11.—F. N. Denison of the observatory at Gonzales Hill reports that, beginning at 7:15 o'clock this morning and lasting for five hours, severe earthquake shocks were recorded on the seismograph at the station. He estimated the distance at 3700 miles.

CRUSHED BY CANNED PEAS.

Strathroy, Oct. 11.—George Nichol, foreman of the Strathroy branch of the Dominion Cannery, was crushed to death beneath fifteen tons of canned peas at two o'clock this afternoon, while attempting to prop up a floor. He went into the cellar to place supports beneath the flooring, and while he was at work the floor collapsed. He leaves a wife and one son.

JUDGE WILLS IS CHAIRMAN.

Ottawa, Oct. 11.—The minister of labor has appointed Judge J. T. Wills, of Belleville, chairman of the board of conciliation which will investigate the dispute between the British Chemical Company, at Trenton, Ont., and its employees. The other two members of the board are J. P. Marsh, of Niagara Falls, representing the employees, and F. H. McLaughlin, of Toronto, the company. The dispute is over a question of wages.

CROTHERS VISITS BELLEVILLE.

Belleville, Oct. 11.—Hon. T. W. Crothers, minister of labor, was in Belleville this evening in connection with the assembly of the high school building. He addressed the assembly, touching upon several matters of public interest. Previous to the evening the minister was tendered a luncheon at Hotel Quinlan at which members of the city council, board of trade, school board and labor organizations were present.

CANADA'S TRADE SHOWS DECREASE

Falling Off of Over Quarter Billion in First Half of Fiscal Year. **SEPTEMBER INCREASE Largely Due to Advance in Export of Domestic Manufactured Articles.** Ottawa, Oct. 11.—A decrease of \$250,192,000 in the total trade of Canada for the first half of the present fiscal year, as compared with the same period in 1917, is shown by the trade statement issued from the customs department today. The trade of the Dominion for the first six months of the present fiscal year, which ended on September 30, amounted to \$1,087,232,830, while on the same date a year ago it had reached the total of \$1,337,424,830. For the month of September alone, however, the trade figures show an increase of more than twenty millions over the same month last year, the total being \$122,054,282, as against \$101,870,442 in 1917. This is largely due to the jump in the export of domestic manufactured articles during the past month, which increased over thirty-five millions dollars. The falling off in the six months is chiefly in exports. The statement shows a decrease in exports during the six months of \$176,278,208, then compared with the first half of 1917, imports during the same period show a decrease of \$65,393,010 in comparison to \$122,683,806, a year ago they were decreased from Canada during the first half of the present fiscal year amounting to \$590,885,514, while in 1917 it reached a total of \$768,872,722. Imports entered the country to a total value of \$484,332,214 this year, while in 1917 they were \$649,825,224. Agricultural products exported from Canada during the first six months of the present fiscal year amounted to \$182,683,806, which is a year ago they reached a total of \$260,654,960. This is a decrease of \$77,971,154. Exports of domestic manufactured articles show a falling off of fifty-seven million when compared with 1917. On the other hand, the exports of forest products this year were more than twelve million dollars greater than it was in 1917.

MINISTERS WILL SPEAK FOR THE VICTORY LOAN

Ottawa, Oct. 11.—The various Victory Loan committees throughout the country are actively engaged with the preliminary work of the campaign for the raising of the loan. Mr. Thomas White is continuing his trip thru western Canada, speaking in public halls and executive committees at the provincial centres. Other members of the Dominion Government are planning to speak in the campaign. The minister of finance has also arranged for the active co-operation of all provincial premiers and treasurers in their several provinces and for the assistance of members of the Dominion commons and senate.

MODEL HOMES PLANNED FOR DUBLIN WORKERS

Dublin, Oct. 11.—Construction by the government of model homes for the families of 27,000 Dublin workmen is recommended in a report just published here by Chief Engineering Inspector Cowan of the local government board, applications from the workers to solve the serious housing problem. The proposal involves an expenditure of £2,000,000 and calls for the erection of 16,000 new built houses, reconstruction of nearly 4000 old tenements.

ARE EAGER TO FIGHT.

Ottawa, Oct. 11.—Word has been received here from overseas that the officers and men of Forestry Corps transferred to Combat Force. The minister of finance has also arranged for the active co-operation of all provincial premiers and treasurers in their several provinces and for the assistance of members of the Dominion commons and senate.

DOCTOR ACQUIRED, IS RE-ARRESTED.

Detroit, Oct. 11.—Dr. George A. Fritch, former Drumbo, Ont., physician, who has been on trial here for several days, was arrested today on charge in connection with the death of Mrs. Christine Gordon in August of last year, was acquitted by a jury in the record's court this afternoon. He was immediately re-arrested on another charge of a similar nature.

TO MAKE BIG ATTEMPT TO RAISE LIBERTY LOAN

Washington, Oct. 11.—Celebration of Liberty Day tomorrow throughout the nation is expected by fourth Liberty Loan managers to send the campaign forward with a jump from the \$2,269,876,200 total, where the record stood tonight. This represented an increase of \$245,000,000 over yesterday's total and included few new subscriptions recorded today following President Wilson's appeal for an over-subscription. Meetings and parades arranged for Liberty Day have been called off nearly everywhere because of the influenza epidemic, but thousands of volunteers have been enlisted for house-to-house canvasses. President Wilson will participate in the celebration at New York and Secretary McAdoo at Chicago.

HARD TO KEEP TOUCH WITH GERMAN RETREAT

Remarkable Confusion Breaks Out in Enemy's Transports East of Le Cateau. British Headquarters, Oct. 11.—The enemy's withdrawal between Cambrai and St. Quentin was so rapid that our patrols scarcely were able to maintain touch with him. The swift retreat seemed to be continuing yesterday on our right, but machine gun resistance suffered on the left. Armies reported to have reached the line in the evening. The enemy's withdrawal from Le Cateau. The enemy retired so precipitately that even his civilians were not removed from the captured villages. Clary was thus found full of inhabitants who greeted the English with such apparent emotion that many sturdy Tommies were well-nigh overwhelmed. The tendency of our progress was a parallel to Le Cateau, and thus we are elongating the German eastwards without a corresponding extension northwards. This should be considered in connection with the situation around Lille. We apparently are avoiding a pitched battle towards Lille, but the probability will not attempt to remain long in his present position. A French officer who was in Cambrai yesterday says that the fires were kindled by the German bombardment and were fed by large quantity of German stores, including high explosives, which probably are still in the town. The bombardment caused a bad havoc, but the British counter-bombardment was effective. The British heavy guns were rapidly getting into position when this French officer left Cambrai, and their counter-battery work must smother the enemy's fire.

GERMANY'S SURRENDER ESSENTIAL, SAYS WEST

No Peace Unless Unconditional Backdown is Their Slogan, Declares Rowell. Ottawa, Oct. 11.—"The western provinces," declared Hon. N. W. Rowell, president of the privy council, tonight in an interview with a representative of the Canadian Press, limited, "demand not a negotiated but a dictated peace." Mr. Rowell returned to Ottawa today after a tour thru the west, extending to Victoria. "No portion of Canada," Mr. Rowell said, "has made a greater contribution to the war than our four western provinces, and their attitude towards Germany's peace proposal and the further prosecution of the war is clear and unmistakable. They demand not a negotiated but a dictated peace, dictated after unconditional surrender of Germany, Austria and Turkey; dictated by the allies, not in a spirit of revenge, but in the interests of humanity and of the future peace of the world; a peace which will ensure restitution and reparation for the wrongs and crimes committed, and adequate guarantees against their repetition in the future." "The west is squarely behind the government in the further prosecution of the war in order to obtain such a peace, and is prepared to carry its full share of the burden and the sacrifice which the prolongation of the war may involve."

C.P.R. Railway Shops in West Will Reduce Staff by 300 Men

Winnipeg, Oct. 11.—The staff of the Canadian Pacific Railway western shops will be reduced about 300 men at noon on Saturday, according to reports handed out today. No reason was given, but the men believe it is a move on the part of the company to economize and the 48 hours' strike in accordance with the agreements between the company and the men.

PRESIDENT WILSON ARRIVES IN NEW YORK

New York, Oct. 11.—President Wilson came to New York today to join with New Yorkers tomorrow in paying tribute to the discoverer of America with a spectacular military pageant, which will establish a high water mark for the Liberty Loan campaign in the New York city. The president was accompanied by Mrs. Wilson, Miss Margaret Wilson, General T. Grayson and Secretary Tamm. No announcement had been made tonight of the president's program for tomorrow, but it is expected he will review the great parade in which will march soldiers of 22 nations, veterans of all the fronts on which the armies of freedom have fought the forces of the central powers. In the evening he will attend a benefit concert at the Metropolitan Opera House for Italian soldiers blinded in the war. Approximately 25,000 troops will be in line in the parade, which will traverse the "Avenue of the Allies" from 72nd street to Washington square.

WILL BE STIMULUS TO VICTORY LOAN

Victorious Advance of Allies Should Have Effect, Declares White. Saskatchewan, Sask., Oct. 11.—Sir Thomas White, in an interview with the Canadian Press today declared the victorious advance of the allies at the front should prove a great stimulus to the success of the Victory Loan. It has been suggested by some that by reason of our victories bringing peace appreciably nearer, not so much money may be required for the purposes of the war. This is a mistaken view. The war may last a considerable time yet before final victory is achieved. In addition to this the allies, including Canada, will necessarily be on a war basis so far as expenditure is concerned, for a considerable period after the close of the war. It will take many months to effect demobilization. All the money that is being asked will therefore be required, both for war expenditures and for the establishment of credit in the purchase of our agricultural and other products. No matter what the course of events in the war, there is the utmost national necessity for making the Victory Loan an overwhelming success."

No announcement had been made tonight of the president's program for tomorrow, but it is expected he will review the great parade in which will march soldiers of 22 nations, veterans of all the fronts on which the armies of freedom have fought the forces of the central powers. In the evening he will attend a benefit concert at the Metropolitan Opera House for Italian soldiers blinded in the war. Approximately 25,000 troops will be in line in the parade, which will traverse the "Avenue of the Allies" from 72nd street to Washington square.

RAISE LARGE SUM FOR PREVENTORIUM

Sixty Thousand Dollars Reported at Municipal Chapter, I.O.D.E.

Good news was given to the Municipal Chapter of the I.O.D.E. at their meeting at the Sherbourne House Club yesterday afternoon, when Mrs. John Bruce, the national treasurer, announced that the \$60,000, which it had been the work of the Toronto chapters to clear on the Preventorium, was practical paid.

The session at which Mrs. Angus MacIntyre presided got thru a good deal of business. Both the regent and the treasurer, while congratulating the order on the payment of the \$60,000, pointed out that there was a like sum to be raised now in connection with the new wing of the institution. The subject of the Nurses' Club in London, Eng., which is being endowed with \$25,000 by the Canadian I.O.D.E., was discussed, the regent urging the chapters to pay their share to the fund. One of the members drew the attention of the meeting to a letter she had received from a nurse overseas, stating that charges at the club were too high to make it desirable. Enquiry seemed to point to a denial of the statement when present prices are considered.

An appeal from H. K. Gordon of Hart House, asking for \$200 for equipment for photographic and moving picture experimental and class work, was considered and will be responded to by the chapters. The question of working the victory loan created quite a discussion. All were willing to work, but it was felt that when brokers and others who do any considerable part of the work get commission, the I. O. D. E. should also get commission to go to the work of the order. Last year many thousands of bonds were sold by the members. This year, if commission is given it will go to the Preventorium.

The question of the little Tuzer triplet was again brought up and it was decided to continue their care and maintenance for the next two months, when they will be a year old. Mrs. Ambrose Small and the Sir Henry Pellatt Chapter have special care of the babies.

An appeal for the sailors who will come into Halifax harbor at Christmas was made by Mrs. Reynolds, field secretary of the Navy League. The chapters were asked to contribute a fund for sweaters for the sailors. Mrs. Reynolds also read letters which will be sent to the schools and churches asking remembrance for Trafalgar Day, Oct. 21.

Miss Catherine O'Brien announced that the National Institute for the Blind had procured a house on Beverley street as a home for blinded soldiers which will be furnished by the Society for the Welfare of the Blind. Eight soldiers are now waiting for admission.

ORDERED TO PUT CARS IN SERVICE

Only Course Towards Toronto Railway Company, Says D. M. McIntyre.

Promises of prompt submission by the Toronto Railway transformed the hearing of the case yesterday before the Ontario Railway and Municipal Board into a brief love feast. When the hearing was resumed, D. M. McIntyre, chairman of the board, asked: "Well, gentlemen, any fruit brought forth?" "Nothing but sour grapes," replied R. J. Fleming. Senator Beaubien said that the employment of women had proved a remedy for the labor shortage everywhere else, but "Toronto alone was forced to abandon it because of the labor unions." The hearing was attended by Sir William Mackenzie, R. J. Fleming, general manager; H. M. Pitts, Ottawa; W. R. McLean, Senator Beaubien, Montreal; Fred Hubbard. The city was represented by T. Bradshaw, R. C. Harris and I. S. Fairly. Ald. Gibbons, Controller Robbins and A. Conn appeared on behalf of the men. R. J. Fleming stated that 150 men were absent yesterday, ill with influenza.

ELECTRIC CLUB HEARS ADDRESS ON THE NAVY

The 75 members of the electric club who assembled at the Prince George Hotel for luncheon yesterday enjoyed an address from R. S. Neville, K.C., official referee of the supreme court of Canada, on the subject of "British Naval History." The speaker outlined the beginnings of British history from the population of the islands by the great Aryan race of central Europe. He showed how England's King Alfred first realized the value sea power in the prevention of alien incursions. Present activities of the navy were responsible for the humanity of the northern coast of France from invasion, to the total absence of enemy craft on the seas and for the effective use of the western nations as allies in the world conflict. More than all did Canada owe her national existence to this maritime power, which for 100 years had assisted the colonization and development of this country under British ideas.

Conducted by Mrs. Edmund Phillips. Lady White accompanied Sir Thomas White when he left for Winnipeg. Mrs. Dwight Turner will spend the week-end and holiday at the Clifton Inn, Niagara Falls, Ont. Sir John Eaton is at the Fort Garry, Winnipeg. Miss Estelle Kerr is on her way home after driving a motor transport in France. A Thanksgiving luncheon and reception is being given on Monday in the St. James' Cathedral Parish House in honor of the twenty visiting clergy from the United States. Rev. Daniel Strachan is in California with Hon. W. J. Hanna. Miss Lois Pelowes is staying with Miss Gear in Montreal and expects to leave for France shortly. Lieut.-Col. William Hendrie, Hamilton, who has been in Montreal, has left for the coast. Mrs. F. W. Avery has arrived in town from Ottawa, and will spend the winter, as her youngest daughters are at the Bishop Strachan School, and Miss Jane Avery is a nurse in training. Miss Frank Cochane has left Ottawa for Atlantic City. Miss Audrey Horrocks, who went overseas in a permanent capacity with the Voluntary Aid, and has been on duty at Llandovery Castle, will shortly return to Canada. A wedding took place at the Wesleyan Presbyterian Church, Winona avenue, on Wednesday evening, Oct. 9, 7 o'clock, when Florence Mack, second daughter of Mr. and Mrs. H. Cross, 9 Balmy avenue, was married to Charles Stanley Webber, the only son of Mr. and Mrs. John H. Webber, 33 Delavan avenue. Rev. J. A. Stewart officiated. The bride, who was given away by her father, looking charming in white crepe de chine, with orange blossoms. The bridesmaid was the bride's sister, the bride, looking well in a pale pink crepe de chine, with black velvet hat, and wore a bracelet. The sister of the bride, Miss Jessie Cross, officiated at the organ. The Rev. Brodie sang. A reception was held later at the home of the bride, Mrs. W. J. Webber, 33 Delavan road, the bride wearing a gown of Nova blue and hat of lace velvet, and also a white fox fur, the gift of the bridesmaid.

WILL ERECT GARAGE AT KING AND SIMCOE

Old Hotel Site to Make Way for New Concrete Building.

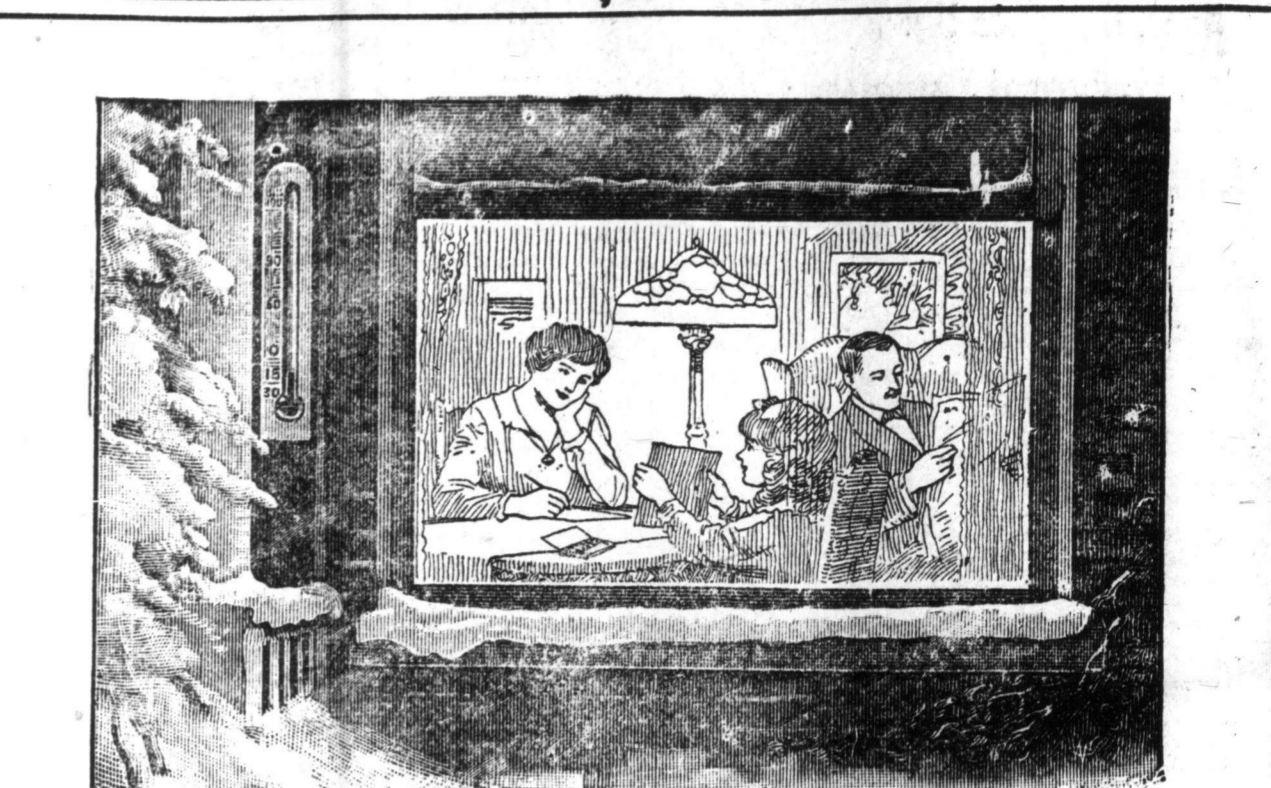

Toronto is to have what will be the last word in garages. Laurence Solomon and associates have secured from the city architect a permit for the erection of a five-storey reinforced concrete building at the northeast corner of King and Simcoe streets to cost \$75,000. There will be a sales room in connection, and an up-to-date service system along the lines of those generally in use in the larger cities of the United States. The site of the new garage has been idle for some years, and is at present occupied by a tumble down roughcast building, one of the oldest hotels in the city. The following other permits were also issued yesterday: E. C. Larkins, two pair semi-detached roughcast, brick-fronted dwellings, 115-121 Oakcrest avenue, \$6000. British Holdings, Limited, boiler house, Cherry street, \$1500; wagon shed and stable, \$6000. Harris Abattoir Co., concrete and steel addition, alter condenser tank, west side of Strachan ave., near Wellington, \$7500. Mrs. McTague, detached brick dwelling, 110 Park avenue, \$2900. A. Grant, detached brick dwelling and garage, No. 1 Player crescent, \$5800. Queen City Vinegar Co., brick addition to vinegar works, 19 River st., \$4000. W. Goldsmith & Co., two pairs semi-detached brick and roughcast dwellings, east side of Kimberley, \$5000. G.T.R. running shed, Front street, near Spadina, \$5700. George Drury, addition to dwelling, 85 Condon, \$1500; detached dwelling, 160 Gillard, \$2000. W. Grant, two detached brick dwellings, 257 Westmount ave., \$3500.

HAMMERSMITH LODGE OPENS FIRST BAZAAR

Hammersmith Lodge, No. 183, of the S. O. E., opened its first bazaar and concert in the Sons of England Hall last night. About 800 people were present when Chas. Meack, supreme treasurer of the S. O. E., declared the bazaar open. A novel idea was the naming of the booths after all the allied countries and having the attendant of each attend in the costume of the country. The proceeds will go into a fund for the returned men of Hammersmith Lodge. All of the goods sold last night were presented to the lodge by various firms in the city, while all of the fancy work was made by the women of the lodge. The committee in charge was composed of: Mrs. Johnson, Mrs. E. Oter, Mrs. C. Bennett, Mrs. Brisley and Miss Bath.

THANKFUL MOTHERS

Mrs. Willie Theriault, Paquetville, N. B., says: "I am extremely thankful that I tried Baby's Own Tablets for my baby. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Home comfort in all weathers

A poor furnace well installed might give satisfaction for a time. But a good furnace poorly installed can never be successful, while a good furnace properly installed will give best results from the day it is fired up. The Sunshine Furnace, installed the McClary way, is guaranteed by McClarys to warm every room in your house—to warm it with the right quality, as well as quantity, of heat, —to make your home healthy, pleasant and enjoyable in all weathers. And it is to do these things a furnace is for—those are the results which mark the successful furnace. The furnace that fails to do them all the time is only a nuisance. The Sunshine Furnace is a never failing source of pleasure, satisfaction and home comfort.

Engineering Service Free. McClary's own heating engineers are at your service when you buy a Sunshine Furnace, to give you free expert advice on your home-heating requirements. Write to the nearest McClary Branch and ask for particulars about this service. A booklet, "Comfort in the Home," makes clear all the things you want to know about furnaces, and it is sent free on request.

PREPARING TO MEET AFTER-WAR PROBLEMS

Leading Officials of Salvation Army Discuss Need for Work Among Soldiers. Commissioner W. J. Richards yesterday called a meeting of the leading officials of the Salvation Army for the purpose of discussing what should be done in regard to continuing the war work at present being carried on by the organization and to consider what development was necessary to meet the apparently changing circumstances. The following conclusions were arrived at: 1. That seeing that even if peace were declared at once, it would be a long time before the Canadian troops could be brought home, it was imperative that all present huts should be maintained. 2. That the establishment of convalescent homes for Canadian soldiers should be gone on with. The commissioner announced that a building had already been secured for one at Trouville, France, and that it was being opened under the name of "The Maple Leaf Convalescent Home."

DURAZZO SHOT UP BY ALLIED FLEETS

Number of Ships Sunk in Harbor in Course of Raid.

BATTERIES SILENCED

Main Austrian Fleet at Cattaro Kept in Port.

An Italian Sea Base on the Lower Adriatic, Oct. 11.—For the first time in the history of the world American ships have fought in the Adriatic, participating in the attack upon and destruction of one of the greatest Austrian naval bases, Durazzo, founded by the inhabitants of the island of Corfu over 2000 years before the discovery of America.

The expedition started from an Adriatic port at 8 o'clock in the morning and immediately divided into two groups. The larger units sailed northward to take up positions between Cattaro, where the bulk of the Austrian fleet lay, and Durazzo for the purpose of sniping in the bad any attempt at interference.

At 11 o'clock the Albanian hills were sighted, and shortly afterwards the white houses of Durazzo were in sight. Half an hour later the fleet was on the edge of the Austrian mine field. A highly dangerous task was now entrusted to the submarine chasers, namely, to steam ahead and explore, and mark safe passages for the larger craft with white flags fixed on small floats.

The American chasers and allied destroyers were ordered to proceed straight into Durazzo harbor and attack two large and three small steamers, a number of submarines and a quantity of smaller craft lying within the harbor.

The fire of the Austrian batteries already was slackening when two enemy submarines appeared on the surface and fired two torpedoes which hit a British destroyer without sinking her.

CHANGE OF HEART, NOT CONSTITUTION

Hon. A. J. Balfour Declares Right Peace to Be Necessary.

London, Oct. 11.—A. J. Balfour, the British foreign secretary, speaking at a luncheon given to a party of American editors today, said:

"We have to make a right peace and I do not think a right peace is a very easy thing to make. Our enemies are attempting to change their constitution, but appear to have no notion that what we call a change is not so much a change in the formal purpose of the government as a change of heart whereby that government is to be directed and animated."

"One would have thought," continued Balfour, "that those who brought in America to their own undoing by crimes of this sort, would have shrunk a little from repeating them at the moment when their fate is to be decided by any other of the co-belligerents."

GERMANY WILL CLING TO ALSACE-LORRAINE

Paris, Oct. 11.—Despatches from German sources show The Kreuz Zeitung of Berlin, the organ of the Prussian junkers, as expressing bitter dislike to German diplomacy which did not succeed in disrupting the entente coalition.
