PATRIOTISM NOT PROMOTED BY WAVING OLD FLAG FROM SCHOOL TOPS

Replying to Sir Howard Vincent, Augustine Birrell Declines to Insert Provision in Education Bill—No Cognizance of School Cadet Corps.

(Canadian Associated Press Cable.) London, Nov. 14.—In the house of commons Sir Howard Vincent asked Augustine Birrell, chairman of the education board, if he would insert a clause in the education bill for the compulsory holding of the Union Jack over state schools, having regard to the adoption of such a provision in France, the United States and Manitoba.

Mr. Birrell said he did not think patriotism in England and Wales needed to be manufactured, nor would it be promoted by compulsory conditions of any particular ritual in connection with flag waving. (Ministerial cheers and laughter.) Such a plan was within the competence of the local authorities.

ATTITUDE OF GERMANY IN NEW HEBRIDES AFFAIR

Britain and France Compelled to Hurry Up Agreement. (Canadian Associated Press Cable.) London, Nov. 14.—Premier Deakin of Australia, replying to a deputation of young Australians, who urged further action regarding the New Hebrides convention, said the attitude of the third power compelled Britain and France to hurriedly ratify the draft convention, notwithstanding Australia's desire for revision.

DEFENDS THE KAISER AND GERMAN DIPLOMATS

Von Buelow Says Accusations of Absolutism Are Unjust. Berlin, Nov. 14.—Chancellor von Buelow, from his place in the reichstag, where he fell unconscious seven months ago, spoke for an hour to-day on Germany's foreign relations. Replying to criticisms, Prince von Buelow repudiated the attacks on German diplomats and Emperor William. He said his majesty had never violated the constitution, and that the accusations of personal government and absolutism were unjust. The emperor, he declared, was too straightforward to take advice from any but his chosen advisers.

FOR PEACE.

(Canadian Associated Press Cable.) London, Nov. 14.—In the German Reichstag to-day Chancellor von Buelow expressly declared: "We have no idea of pushing ourselves between France and Russia or France and England," and declared Germany's policy to be one of peace.

DOZEN CARIBOU ON TRACK STOP EXPRESS ON I.C.R.

Train Delayed Several Minutes Before Line Was Cleared. St. John, N. B., Nov. 14.—(Special.)—A herd of a dozen caribou on the I. C. R. track, near Moncton, stopped the northbound express. The animals were feeding alongside the track when the engineer first noticed them. As the train drew near they walked on the track and stood there, apparently too bewildered to move. The train had to be stopped and the whistle tooted several minutes before the line could be cleared.

Cut Made, More Coming In the Original Estimate For Supply of Power

Can Be Delivered in Toronto For \$17.50 per h. p. Inclusive of Sinking Fund Charges, Hon. Adam Beck Announces to Municipalities' Executive.

BYLAW IS BEING DRAFTED FOR SUBMISSION TO VOTERS

Two very important meetings, as bearing on the hydro-electric power situation, were held yesterday in Toronto. One was a conference of the executive committee of the Western Ontario Municipalities Niagara Power Commission in Mayor Coatsworth's office, at which the drafting of a uniform bylaw for submission to the municipalities interested was discussed, and deferred till Tuesday, when another meeting will be held. The other meeting was of the delegates from the municipalities and Hon. Adam Beck, who announced some additional figures relative to the cost of power. Among these was the price of \$17.50 per horse power for 24-hour power, ready for delivery in Toronto, inclusive of the sinking fund charges. This is a revolutionary figure compared with the \$35 which some municipalities were declared by the power company interests to be visionary. But this price of \$17.50 it is stated may still further be reduced under certain contingencies, as an increase in the quantity required and other considerations.

The price of power now promised is so much less than the original estimate as to provide, at the present quotation, for a sinking fund for establishment. (Continued on Page 12)

MONTREAL LIGHT OBJECTS TO RICHELIEU POWER PLAN

Has Rights in River From Dominion and Will Contest Scheme That Will Jeopardize Them. Buffalo, Nov. 14.—The International Waterways Commission to-day gave a public hearing on the Richelieu Canal proposition, Charles E. W. Smith of New York explained what the company proposed to do to make a water way between Lake Champlain and the St. Lawrence.

O'BRIEN MINE WELL EQUIPPED.

Buildings and Machinery of the Best Pattern—Thru Fast Train to Cobalt: Will Be Put on Next Week—Fine Simple From Coleman Development. Cobalt, Nov. 14.—(Special.)—The camp was pleased to learn that the O'Brien Mine will open up one of the best equipped and best managed mines in the camp. The buildings and machinery are of the best pattern. One shipment was made in August, 1905, of \$45,000. A lot of ore is sacked and in the ore-house. The O'Briens have spent \$175,000 on the property. It is stated here that a thru train between Toronto and Cobalt will be up on next week to leave Toronto at 9 a. m. and arrive at Cobalt at 9 a. m.

NOT THE WAY MICHIGAN DOES IT

OLD MAN ONTARIO: "I've got to do a panna mysa f, with mighty little political or journalistic help, and with a pooty narrow gauge, wooden-headed snow shovel, too." Note—Michigan Railroad Commission has just ordered the Grand Trunk to reduce passenger rates to two cents a mile in that State. Freight rates on Michigan side are about 10 to 35 per cent. lower than in Ontario; and still the Grand Trunk pays nearly five times the amount per mile in taxation in Michigan that it pays in Ontario.

TELL OF BALLOT SWITCHING BUT DON'T KNOW PRITCHETT

Some Contradictory Evidence as a Result of Which Deputy Sheriff Gundry May Have to Answer a Charge of Perjury—Enquiry Ends Next Wednesday. The investigation into corrupt election methods, begun with an enquiry into the London bribery charges, and afterwards branching out so as to cover a much wider field, is to be concluded on Wednesday next. On the adjournment yesterday till the 21st inst., the crown gave Magistrate Demson the assurance that the proceedings would on that date be brought to a close.

COAL-STEEL MEN CONFER NO DEFINITE RESULTS

Understood Older Have Offered Advance on Last Price of Coal. Montreal, Nov. 14.—(Special.)—The coal and steel magnates have been together all day, without definite results. The steel men had a half day's session, and then made a proposition to Mr. Ross, which was considered with the result that a counter-proposition was sent back to the steel company. The latter will hold another meeting to-morrow.

GETS COKE SUPPLY.

Sydney, Nov. 14.—(Special.)—The Dominion Iron and Steel Co. has contracted with the Nova Scotia Coal and Steel Co. for the output of their coke ovens until the first of January, by which time their own blast furnaces will have started. This, in addition to the output of the Steel Company's own ovens, will enable them to start the second blast furnace, probably by the end of the week.

CITY MAY TAKE OVER ROAD CATARACT ASKED PRICE SITUATION BRIGHTER

Hamilton Aldermen Agree That There Shall Be No Concessions—Company May Make Another Effort to Resume Its Service To-Day.

Hamilton, Nov. 14.—(Special.)—The only bright spot in a very dismal outlook is the possibility that the Hamilton Street Railway will be taken over by the city.

To-day the Ontario Railway and Municipal Board suggested that the company and the city should get together and patch up an agreement that would settle all differences, including the strike.

Mayor Biggar called the chairman of all civic committees together and they unanimously agreed not to make one concession to the company. Instead they agreed to ask the company to put a price on the railway, so that the city may buy it. The aldermen said they had granted the company an extension of its franchise and had never received anything from the company in return.

The company did not try to operate its street railway to-day, but will make another attempt Thursday afternoon. C. K. Green entirely repudiates an alleged interview credited to him to the effect that the company would fight the union to-day, and Mayor Biggar has received the assurance of J. M. Gibson that the sentiments expressed in the interview were not his. "I am in favor of unions, and any error in the legislature proved that," is what Mr. Gibson said to the mayor.

The mayor will continue his efforts to bring about a settlement and at eleven o'clock Thursday morning will continue the conference with the executive of the union, and A. B. Ingram of the Ontario Railway and Municipal Board. He has not given up hope yet of bringing about peace.

The Hamilton Ministerial Association made a suggestion to the city council this evening that steps should be taken to obtain a new arbitration between the company and the men and that the city should pay the cost. This was referred to the finance committee. Chairman Letch of the railway board told the representatives of the city and the company to-day that unless they could get together all they could look for from the board was cold justice.

FREE TRIP TO TORONTO. Special Concessions to Out-of-Town Customers During November. In order to give out-of-town customers the same shopping privileges as city people, the Dinsin Fur Store is refunding railroad fares all this month proportionate to the amount of purchase. This enables residents of Hamilton, Brantford, London, Peterboro, Brockville and other Ontario towns to come to Toronto at Dinsin's expense for their Christmas shopping. The offer holds good for November, and is intended for immediate acceptance.

BILEANS FOR BILIOUSNESS GIFT TO CANADA

Australia has given to the world at large many wonderful and valuable things, but the production a few years back in that country of Bileans, the great herbal household remedy, is an event from which more people will benefit than from the discovery of all the gold ever found. Natural vegetable essences are without doubt man's proper medicine, and Bileans for Biliousness are compounded from such essences. It is well known that liver medicines hitherto in use mostly contain bismuth, mercury, and other harmful mineral products. These mineral constituents are very injurious if taken for long, and produce such effects as loosening the teeth, causing the hair to fall out, etc. Bileans are entirely different and superior. They are purely vegetable and contain no trace of any such harmful ingredients as the above. In taking them there is no fear whatever of any harmful secondary effects. Bileans act directly upon the liver and stomach, and cure headache, constipation, piles, female ailments, wind pains, foul breath, sick spells, and all liver and digestive disorders. They do this by toning up the secreting glands of the stomach and intestines, regulating the bile flow and flow of gastric juice, and stimulating the liver cells to healthy action. Bileans cure all ailments having their origin in disorder of the liver and stomach. Ask your friends who have tried them how mildly they act. For list of what Bileans cure see paragraph below.

BILIOUSNESS, STOMACH TROUBLES AND DIZZINESS CURED

WHAT BILEANS CURE.

In all quarters where they have been tried Bileans are spoken of in high terms. They are a certain cure for headache, constipation, piles, liver trouble, indigestion and all digestive disorders, female ailments, skin eruptions, biliousness, sick headache, bad taste in the mouth, foul breath, dizziness, fainting, buzzing noises in the head, feelings of uncomfortable fullness after a meal, wind pains, anemia, debility, summer- and "flag," etc. They improve the general circulation, and are a boon to pale-faced girls and weak women. For all purposes to which a household remedy is put Bileans will be found of excellent service.

Bileans are obtainable from all druggists and stores, 50c per box, or direct from the Bilean Co., Colborne St., Toronto, upon receipt of price. 6 boxes for \$2.50.

A FREE SAMPLE BOX

BILEANS

POST PAID

T W 15-11

The proprietors are so convinced that once Bileans are tried they will be adopted in preference to all other household remedies, that they are willing to send a free sample box to all readers who send in this coupon with full name and address and a one cent stamp to pay return postage. Address Bilean Co., Colborne St., Toronto.

A CHURCH SEXTON'S STORY.

Mr. John J. Wilson, Sexton of the Church of Messiah, Toronto, and living at 53 Wickson Avenue, has recently told a press representative how Bileans cured him of chronic biliousness and liver troubles. His story will doubtless lead many other sufferers to a mess of cure. Mr. Wilson says: "Practically from boyhood I have suffered from biliousness and liver and stomach troubles, and only recently I was cured by Bileans. At times I would get heavy and languid, and I knew one of my attacks was coming on. After food I would have acute pain until I vomited. Headache troubled me very much, sometimes so bad that I could hardly see. At other times there would seem to be a rush of something to my head. I would turn dizzy, and I have even fallen down in the street. The biliousness was so bad that for long periods at a time I have been unable to take food. No one has suffered worse than I have from biliousness and indigestion. Bileans were recommended to me and I gave them a fair trial. To my delight they were equal to my case, and after a short course I find they have cured me completely. I now enjoy the best of health, and am free entirely from the ailments which caused me such acute suffering for so long. Bileans are worth their weight in gold, and I shall always recommend them to those who suffer from indigestion, biliousness or liver trouble. They are no doubt good for other ailments, but for these ailments I know they are absolutely unequalled."

Bileans for Biliousness

ON "MARCUS AURELIUS" THE NOBLEST OF THEM ALL

Ernest Howard Griggs Delivers the First of His Series of Remarkable Lectures.

"The noblest emperor that ever lived," was the subject of Edward Howard Griggs' lecture last night at Association Hall. His address on Marcus Aurelius was the first of five studies in moral leadership, to be given at intervals of a week. Next Wednesday Savonarola will be taken up, to be followed by Giordano Bruno, Erasmus and Luther. These lectures fill in naturally the gaps in the series given by Mr. Griggs last night and form a complementary course.

The functions of moral leadership on the advancing margin of human progress were illustrated by the types chosen by Mr. Griggs. It was in the generation following Plato that the two great systems of ancient thought took their rise, Epicureanism and stoicism. Both of these began with the same premise, that nothing lasts; all things fall and fade. The meaning and worth of human life was the question to which man turned most naturally when the tide of affairs was at an ebb.

The Romans were essentially inclined towards the stoic view of life, while the Greeks adopted the epicurean system of easy self-indulgence. The stoic retired into his own will and faced the world with the freedom and dignity of the immortal gods, following the highest conceptions of duty, a gospel for heroes fallen on evil days.

Mr. Griggs drew a vivid picture of the Roman empire in its decline, under the influence of conflicting philosophies and the mystical thought of the east.

Yet, for nearly a century, from 98 to 180 A.D., the empire was ruled by a succession of noble emperors. These were Trajan, and Hadrian, who chose Antoninus Pius and Marcus Aurelius as his successors.

As a boy of 11 his mother had to warn Marcus of the danger to his health from overstudy, spare diet, and confinement were abhorred by him, and he lived with moral heroism in an age of gloom, anxious ever to save the

BUYS WEAPON TO PROTECT THIEVES ENTER AND STEAL

Prominent Pittsburg Home Burglarized and Record of Violent Crime Continues.

Pittsburg, Nov. 14.—Despite the efforts of city officials and the police department to put an end to the burglaries and hold-ups in this city, and notwithstanding the veritable dragnet that has been thrown out by the public protectors, reports of hold-ups and burglaries continue to reach the public.

A negro entered the house of Mrs. Mary Kelly, in the Herron Hill district, early to-night, while the woman was alone. He locked the door and leisurely ransacked the house, filling a basket with bric-a-brac and taking a considerable sum of money. He threatened Mrs. Kelly with death if she made an outcry or attempted to follow him and then disappeared. The terrified woman obeyed the negro's instructions for several hours, and then notified the police.

James Bowler, a young mechanic, who was beaten and robbed by this Saturday morning, died to-day. This was the third death as a result of robbery and burglary within two weeks.

Mrs. Nigus was relieved of her purse containing \$20 to-day at 5th-avenue and Smithfield-street, the most prominent corner in the city.

The store of Mrs. J. J. Freund, on the southside, was burglarized during the night, and hundreds of dollars worth of goods taken.

James Thompson was assaulted and robbed at Millvale, a suburb, and found on the street in an unconscious state by the police.

The residence of Wm. A. Cline, in the east end district was ransacked and considerable clothing stolen.

At the home of Harry Harvey, at Etna, a suburb, two attempts were made to open windows, and Mr. Harvey fired several shots at the thieves. He sat at a window during the rest of the night armed with a shotgun.

North McDonough, chief of police of North Braddock, a suburb, is in a serious condition from a stab wound inflicted by a negro last night. The assailant was captured.

Hardware and gun stores all over the city report a heavy sale of revolvers. A majority of the men who are compelled to be on the streets late are armed, while many persons are remaining indoors unless their business is urgent.

Pauper Hell to \$50,000. Newburg, N. Y., Nov. 13.—Theodore Post, 62 years old, of Glenham, Dutchess county, who has been an inmate of the poorhouse for the last six years, has just received notice that he has fallen heir to \$50,000 thru the death of his uncle, Jackson Atwood, who resided in Minetto, Oswego county.

Fallon Anniversary. New York, Nov. 14.—The 15th anniversary of the birth of Robert Fulton, inventor of the steamboat, was celebrated to-day.

WILD BOAR FOR DINNER FEAST OF CANADIAN CAMP

F. R. Latchford and Other Real Canadians Guests of Campers at Hotel Astor.

F. R. Latchford, former Ontario minister of public works, and G. M. Bosworth and R. T. Morris of Montreal were among the guests of the Canadian Camp of New York, who were regaled on wild boar at the semi-annual dinner of the camp at the Hotel Astor, New York, on Tuesday night. The boar was presented by Austin Corbin.

Usually the camp eats alligator tail, spiral-eared polar mice or rhinoceros or Buffalo Jones' cross between tison and plain cow, but wild hog was the best on hand this year. The news that President Roosevelt has accepted an honorary membership in the camp, and the intimation that the president might provide big game some day for the campers more than made up for the deficiency.

Mountain sheep was on the bill of fare, but not on the table. Bill and Jim Brewster killed a pair of mountain sheep in the Canadian Rockies a few weeks ago, especially for the dinner, but unpleasant things happened to the game in transit, so plain fillet of beef was substituted. Many of the diners ate the beef, and smacked their lips appreciatively, commenting that it wasn't every day that one could get a hold of real mountain sheep.

The wild boar came in escorted by four solemn waiters. It was stretched on a great platter, and roasted to a beautiful brown. The head waiter led

FALLS IN ELEVATOR SHAFT WOMAN INSTANTLY KILLED

Mrs. Mary Terry Meets Death While Purchasing Xmas Presents for Far Away Friends.

Yesterday afternoon, Mrs. Mary A. Terry, wife of Herbert E. Terry, 52 Bellevue-avenue, was killed by falling down an elevator shaft in the T. Eaton Co.'s store. Opinions differ as to how the accident happened. Some say she fainted, others say while stepping into the elevator on the third floor her skirt got caught when the door was closed. This pulled her back against the wire guards, which yielded to her weight, allowing her to drop to the bottom. The injuries which caused death were to the head.

The deceased was 40 years old, the mother of two girls and two boys. Mr. Terry is chief engineer for the Toronto Electric Light Co. at the Teraville-street station.

Mrs. Terry was purchasing Christmas presents for friends in South Africa. The remains were taken to J. D. McGill's undertaking establishment, 233 College-street, where an inquest will be held to-night.

Car Hits Wagon. Last night a Parliament-street car coming down the grade at Gerrard-street and Jones-avenue, ran into a wagon owned by R. Simpson, 738 Yonge-street, and knocked it over an embankment. In the rig were William and George Foster of East Toronto. Both were injured on the head and bruised. They were taken to the General. The horse's leg was broken and the animal was shot.

Fell From a Car. It is said that Joseph Cianey, 68 Esther-street, stepped off a moving Yonge-street car backwards at Wilton-avenue. He fell, cut his head and was taken to the General.

ENTERED OTHER MAN'S ROOM TOOK WATCH AND MONEY. James Driscoll, who claims Montreal as his home, and has been stopping at the Commercial Hotel, 64 Jarvis-street, was arrested last night. He is charged with entering the room of Alonzo Wilson during the night and stealing a watch and \$3.

Detective Archibald caught Driscoll trying to sell the pawdrick for the watch.

STRIKERS ARRESTED. Three Men Are Charged With Assaulting Non-Union Worker.

George P. Merritt, 33 Brook-avenue, Toronto Junction; Fred Tuscan, 33 Broadview-avenue, and Louis Owen, 27 D'Arcy-street, all piano-making strikers, are under arrest.

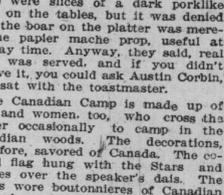

They are charged with assaulting W. J. Wolfe, a non-union worker, on Monday last.

Girl Sentenced to Die. Odessa, Nov. 14.—Five terrorists, including a girl, were tried by court-martial to-day for having thrown a bomb in a cafe and thereby injuring two persons.

Two of the men and the girl were sentenced to death.

The other two men were given 17 years penal servitude.

WHERE DO THE PEOPLE GET OFF? In Nova Scotia the Dominion Coal Company has been threatening with ruin the Dominion Steel Company,

The provincial government is helpless. The coal has been leased to the Dominion Coal Company for ninety-nine years.

Toronto people are chiefly familiar with Dominion Coal and Dominion Steel by reason of being bit on their stocks at various times.

The Dominion Coal Company's stock is watered so enormously that something like \$1,000,000 per annum must be made over and above the legitimate profit on coal, in order to pay dividends.

Nova Scotia coal, in Nova Scotia, is a very expensive article. The Dominion company sells coal to the Boston and Maine Railway for \$1.38 per ton,

but it charges \$3 per ton, at the dump, to local consumers. Cape Breton coal is much cheaper, freight and duty paid, to the consumer in Boston than it is to the consumer in Halifax.

True, the politicians of Halifax get rentals from the company, with which to help run the provincial government, but where do the people of Nova Scotia get off? Although they own rich coal fields, they pay double price for all the coal they use.

Altho Nova Scotia is crying for manufactures, none are established, because fuel is too expensive!

We cannot throw stones from Ontario. Lumber is going up rapidly. The forests of the United States have been largely destroyed, and the demand for lumber from that country is enormous.

For various reasons the legitimate price of lumber has advanced during the past few months from \$3 to \$5 a thousand, and the tendency is towards still higher prices.

Are the people of Ontario getting their lumber any cheaper than anybody else? What good does it do them to own the great forest reserves of the world?

True, the politicians at Toronto get some money every year with which to help run the provincial government, but what does the Ontario consumer, the plain citizen, get out of it?

A great deal might be said about the absurdly inadequate sum realized from the timber limits of Ontario. While theoretically the timber leases are revised annually, as a matter of fact, they are not revised at all, and thousands of square miles have been held for forty and fifty years at a merely nominal rent.

Great natural gifts should be developed by the government for the benefit of the people, and for the benefit of the consumer. A man in Nova Scotia should have cheaper coal than a man living in some province which has no coal.

A man living in Ontario should have cheaper lumber than a man living in some province less fortunate in its resources.

If a man struck a vein of living water on his farm, would he not make sure that he and his family and servants and stock had all the water they needed before turning the spring over to some company at a rental, and then buying the water back? Surely, if the province must farm out its wood or its coal to some private corporation, it should see to it that cheap wood or cheap coal is assured to the people.

Then, again, all money from such sources should be ear-marked. It should benefit the consumers who pay

the price. The City of Toronto, for instance, has no more real right to use the \$400,000 rental paid annually by the street railway company, for relief of general taxation, than any other trustee has to spend trust funds held for special purposes, on other uses.

That misapplication represents injustice to the passenger in the shape of excessive fares. The company could charge less, if it did not turn over these 20,000 nickels every morning to the City of Toronto.

But, as a matter of fact, the company would not charge less, and therefore the city may as well take the money. But this money should be ear-marked and represented by sinking fund debentures and other securities, paving the way to expropriation and full municipal operation and control of the street railways of Toronto.

OVERCHARGING. Complaints continue to reach The World respecting the extortion practiced by the International Railway Company, which operates a tramway thru the Queen Victoria Niagara Falls Park from Chippewa to Queenston.

This line is built entirely upon lands belonging to the Province of Ontario, and the provincial government, thru the Niagara Falls park commission, should be able to compel the company to fix a reasonable schedule of fares. The Ontario railway and municipal board, however, has no jurisdiction, and the two-cent-a-mile limitation does not apply.

Other complaints relate to the Grand Valley Railway and other radials which have secured Dominion charters and are thereby immune from the maximum fare limitation fixed by the Ontario Railway Act. It is to be hoped that parliament will provide that no road exclusively within the boundaries of one province may charge a higher fare than the maximum fare established for provincial roads.

Otherwise all our radials will soon apply for Dominion charters, and our provincial act will become a dead letter.

WHAT IS THE BEST MINING POLICY? If the Hon. Frank B. Litchford, late provincial minister for public works, really committed himself to the statement that a royalty on Cobalt ores would be a mistake because it would discourage the investment of capital and the development of the camp, he either spoke without consideration or with some other object than the public interest.

The proposition, which is said to have received his imprimatur, is one of the most preposterous that ever assumed the appearance of reason. If Mr. Litchford had paused to think, he might have seen that what the anticipation of profits by intermediate owners does not do, the imposition of a royalty, which is merely a reserved profit for the original owner, could not have done.

Let the position of Cobalt to-day be compared with that of the Gilles limit and the contrast cannot fail to strike the most cursory observer. The Cobalt claims have passed thru successive hands in each case at vastly enhanced prices and the final issue of this stock to the public has been accompanied by rapidly advancing prices, representing increased capitalization, a return for which must ultimately come from the mines. The enormous profits which have been made have largely gone to speculative syndicates and the province has received nothing in respect of its original ownership save the beggarly pittance stipulated by the operative mining regulations. To all appearance further advances in price will soon be the order of the day, and the new anticipations of profits thus resulting will likewise yield no benefit to the province unless a royalty is imposed.

On the other hand take the case of the Gilles' limit now being prospected and proved by the government staff. Suppose for the sake of argument that veins are found to exist of paying quality, will the demand for claims on the part of working companies be hindered by the fact that their capitalization will be free from the burden of large anticipated profits created by the transfer of claims from one body of private individuals to another? Clearly the prospects of a Gilles company holding a straight lease from the original proprietors and paying a reasonable royalty are infinitely better than that of a Cobalt company loaded with millions of capital representing profits anticipated and paid to one or more intermediate private owners.

What the provincial government ought to do is to apply the policy which created the Gilles reservation to the whole mineral lands of the province. The government should do its own prospecting and should deal direct with companies formed to carry on the actual mining operations. In fact it should be on behalf of the people in precisely the same situation as, for example, a private owner of minerals is in Great Britain, where no difficulty is found to lie in the imposition of a royalty on the output of the lessee. Far from a system of this kind discouraging the investment of capital it would encourage it by providing the best of all stimuli—individual enterprise—security of tenure—direct transaction with the government—freedom from overloading of capital—every factor indeed to make the industrial conditions acceptable to the labor employed and profitable both to the working companies and the province. For the evil results of the contrary policy regard need only be

had to the situation in the Transvaal, where the world's richest gold fields have become an industrial sore and a grave political danger.

HATS OFF TO MAYOR BIGGAR. If the Hamilton strike is to be settled soon, and that is by no means improbable, there will be left no ugly scars, no gaping wounds to tell of it. The men have behaved with splendid decorum, the crowds, after all, have been boisterous rather than vicious; no property of any great consequence has been destroyed; there is no crepe on the door; no bitterness lingers in the hearts of the people.

The strike has benefited, rather than damaged, Hamilton. She has passed superbly thru a severe strain and has shown her capacity for self-government. There will always be badinage back and forth between the cities, but beneath the mask of careless speech there lies real sympathy and affection. Toronto is proud of the strength and glory of Hamilton.

And whatever comes Mayor Biggar is to be relied on. Had his place been filled by a fool or a coward, what injury might not have been done! Patient, forbearing, merciful, the city owes him a great debt. It is easy to talk about killing, but the feeling changes when a fellow-man lies in his coffin, and women and children weep at the bier.

Hats off to Mayor Biggar! Good luck to Hamilton!

THE DON VALLEY VIADUCT. Excellent as was the send-off given on Tuesday night to the movement in support of the proposal for a high-level viaduct connecting Bloor-street with Danforth-avenue, the desired improvement will not be achieved without vigorous and sustained effort. However strong the arguments in its favor may be—and they are irresistible when the situation is thoroughly understood—they cannot be driven home without the prosecution of a strenuous campaign of education. The building of this viaduct means much more than an amelioration of merely local conditions. It is demonstrable that the provision of a northern artery of traffic between east and west will vastly relieve the central congestion, and materially aid in creating the new centres which, in days to come, will help to keep Toronto what it is to-day—a city delightful to live in and profitable to work in.

All that is needed for the development of the northeast is the closing of the gap exposed by the Don Valley. In that quarter the best land to be found for residential purposes, and also the readiest means of access, and the need for moderately rented houses, within easy distance from the manufacturing centres. Toronto must avoid the mistakes made by the cities of the United States, which are now striving to remedy defects which a wiser policy would have avoided. All the trouble has arisen from the congestion of public works and industries, and the consequent inconvenience to the general public. But, as was pointed out at the Danforth Hall meeting, a ready means exists for carrying out this great public improvement at little public expense. Give the city power to expropriate adjacent properties, and the enhanced values arising would greatly minimize, if not compensate for the cost of this important public improvement.

A CHANCE FOR THE GOVERNMENT. Now that a Toronto man has discovered the secret of refining ores which has helped to make New Jersey famous, he is in receipt of several enquiries from United States people who want to buy from him the formula.

The smelting of the ores which Cobalt and all New Ontario for that matter, yields is almost as much a factor in the welfare of the camp as the obtaining of the minerals in their crude form. Just now it is all going across the border, and it is reported that the yards of the New Jersey smelters are stacked high with ore awaiting treatment, which means that months must elapse before it can be turned—figuratively—into gold for the producer's profit.

If Dr. Island has solved the secret so jealously guarded the Ontario government should not lose the opportunity which is offered to secure from him the use of his discovery for the benefit of the mine owner, especially the small mine owner, who cannot afford to wait any length of time for the return of his money. Once in possession of enterprising American capital they may choose to impose as far removed as it is now.

EARTHQUAKES IN JAMAICA. Kingston, Jamaica, Nov. 14.—An exceedingly sharp earthquake was felt south and north of this island at eleven o'clock last night.

It was followed immediately by a second shock, which was the heaviest experienced here in many years.

TOBACCO AND LIQUOR HABITS. Dr. McTaggart's Tobacco Remedy removes all desire for the weed in a few days. A vegetable medicine and only a safe and inexpensive home remedy, it is hypodermic injections, no publicity, no loss of time from business and a certain cure. Address or consult Dr. McTaggart, 75 Yonge-street, Toronto, Canada.

Let Your Wife Advise You Her Intuition May Mean YOUR SUCCESS.

This is a big, heavy, confusing world. Many nations, many people, many languages, many hatreds and many hopes are hidden away in it. But when you sit it down, when you look at it closely, whether your eye alights on Connecticut or the Congo, on China or California, on New York or the Netherlands, you see the individual family.

There sit the father, the mother and the children, many or few. The real problem of this world is the family problem. The real success of this world is the family success.

As men of the same nationality we struggle and fight and hope together here in America. As members of the great human race we study, invent and plan together.

But the real work that counts, the real effort that pushes us upward is the quiet, earnest, intense loving work in the home, far from the noise, far from the struggle.

That is where the real work of the world is done. In that small, domestic trinity of the home, mother, father and child, emblematic of the higher Universal Trinity, the great life of this earth is reflected.

What a drop of water is to the ocean the family is to the nation. The ocean is nothing but so many drops of water. The nation and the human race are nothing but so many individual families.

The great thing in the world, readers, is harmony—confidence between man and woman. The picture that we put on this page is a picture of the right kind of a family circle.

A man is happy and wise who seeks and encourages the advice of the woman who has joined her life to his. That man is better than others, wiser than others, who realizes that in his wife, Providence has given him a judgment that should help him, a strong spirit to lift him over the hard places and an intuitive faculty for seeing the truth that no man possesses.

Men, remember that, after all, your most important work is doing your duty. And your most important duty is to take care of the helpless children that you put into this world and to give to the next generation men and women capable of meeting its problems.

Your children will be what your wife makes them. Man is the active, powerful, aggressive, proud feature of this generation. But woman is the queen, the creator of the next generation. Every woman knows instinctively truths that are hidden from men.

Every woman has in her heart an unselfish devotion of which the best man is incapable. A man is unfortunate who fails to advise with his wife, to encourage her, to honor her and consult her.

Even the red Indians whom we found here and whom we dispossessed had the brains, amid all their brutality, to consult with their women, who wanted neither glory nor reward, but safety for the tribe.

Saul consulted the wise—probably rather mannish—lady of Endor. Macbeth talked to deceptive females with the queer broth and mustache. All this was foolish, superstitious recognition of the great fact that in matters of instantaneous judgment the woman is far superior to the man.

Beside you at your table, patient and kind, economical, caring for the children, putting up with your ill-temper, managing as well as she can, you have an adviser far above any of these famous witches of old days.—Consult her.

Every owner of a big factory will tell you that the great problem of success is to utilize the by-product. Almost every great industry to-day puts in bank its millions made by utilizing the wealth of the by-product neglected until within a few years.

Married men in their daily lives neglect a by-product of success excellent any chemical treasure from the copper mine or the oil refinery.

It is the instant sound judgment of the wife and the mother, the unselfish woman interested only in the welfare of her children and of their father.

Men, consult your wives, encourage them to think for you, show respect for their opinions. You will find in them a power of suggestion, criticism and judgment far above your own.

—New York American.

AGED GROOM SHOOTS FOUR OF GAY CHARIVARI PARTY

Offered Money to Send Hoodlums Away, But They Returned and Were Received With Gunshot.

Brookville, Nov. 14.—(Special.)—At least four young men will have occasion to remember a charivari in which they took part near Bishop's Mills, about 17 miles from Brookville.

One lies with a badly shattered leg, which may yet require amputation, and the other three are carrying minor gunshot wounds. Mr. and Mrs. Davis, an elderly couple, were being charivari on the night of their marriage. The boys were particularly noisy in their demonstration, and the offered money to go away, refused, saying they would return the following evening to continue the performance.

Davis, it is said, warned them to be prepared for the consequences. The gang turned up about 10 o'clock. William Hutchinson knocked on the door, which quickly swung open. As it did, Davis gave him the contents of a charge shot and the others on different parts of the body, but not seriously.

That evening Davis and his wife suffered no further molestation, he being excited through the neighborhood. No prosecution has as yet been instituted.

OFFICIAL CHARGED.

Winnipeg, Nov. 14.—(Special.)—A sensation was sprung at the meeting of the park board this afternoon when one of the members, John Waugh, accused R. England, superintendent of the park's board, of the unkindness of taking the laborers and using them for his own work and using his position for his own aggrandizement. He demanded immediate resignation, to be suspended. It was finally decided to hold an investigation.

ROYAL BANK BUYS SITE.

Winnipeg, Man., Nov. 14.—(Special.)—The Royal Bank to-day bought the Imperial site for \$200,000, and will this spring turn it into a modern bank building.

To Ottawa and Montreal. At 10 o'clock every evening in the year the C.P.R. night express for Ottawa and Montreal leaves the Union Station. Through sleepers are carried to both cities, arriving Ottawa 6.5 a.m., Montreal 7.35 a.m. Makes good connections for Quebec, New England and Maritime Provinces. Heavy vestibule coaches run smoothly over the fine road-bed, assuring a good night's rest.

AT OSGOODE HALL

ANNOUNCEMENTS.

Master's Chambers. Cartwright, master, at 11 a.m. Single Court. Cases set down for argument at 11 a.m.—Re Dominion Roller Screen Co., re Roaf, re Roaf, Foster v. Hynes, Gibson v. Barber, re Gamble, McConnell v. Carter.

Divisional Court. Peremptory list for 11 a.m.—Cummings v. Dundas, Vivian v. Kehoe, Troy v. Hamilton, Baxter v. Gordon, Jackson v. Serravallo, re John MacKay. Court of Appeal.

Peremptory list for 11 a.m.—Monarch Life Insurance Co. v. Brophy, J. D. Shier Lumber Co. v. Township of Lawrence, Mickie, Dymont Co. v. Township of Sherbourne, Northern Elevator Co. v. Lake Huron and Manitoba Milling Co.

Chas. C. Foster sued J. F. Eyles and T. E. Elward for specific performance of an agreement to buy the northwest corner of Queen-street and Broadview-avenue for \$28,000 and got judgment. Later Foster secured an offer of \$30,000 for the property, which is up on Saturday, and he is asking the court now to declare the former agreement void. The case goes on to-day.

The Gilchrist Transportation Co., of Cleveland, is suing the Zenith Grain Company, of Winnipeg, and the C.P.R. to recover damages for alleged false declaration of the defendants that they had loaded upon the plaintiff's ship, the Ogilby, at Port Wilfrid, 146,167 1-2 bushels of wheat. The plaintiff on the understanding that this amount was on board issued bills of lading acknowledging the receipt of grain to the said amount, whereas it is claimed, there was 2178 bushels less loaded. They sue for damages and for loss of freight.

The Rex Tailoring Co. has issued a writ against the Canadian Express Company, to recover \$391 for non-delivery of goods and damages. Claims Antonetta Perry alleges that she had an agreement with A. E. Emery to sell a millinery establishment on Spadina-avenue to her for \$50. The sale fell thru, and C. A. Perry is suing for \$600 damages for breach of agreement. H. L. Drayton is acting for the plaintiff.

Hugh Porter in 1887 left his farm to his son. In the will was a clause providing that the farm should never be mortgaged. The son recently applied to the court to have this clause declared invalid, but Judge Britton refuses the application.

The liquidator of the Library Supply Company is suing certain shareholders for unpaid shares and the case will be heard by Judge Hodgins on Nov. 22. A seaman named Allison of the steamer Dundurn, plying between Hamilton and Montreal, is suing for \$300 of Pennerston, who entered suit against Hodgins of the admiralty court, at Hamilton on Nov. 22.

Joseph O'Meara, pork packer, of Pennerston, has entered suit against A. J. McCann to recover \$1000 damages for loss he claims he suffered thru certain improper sales made by this defendant while he was in his employ.

WALL STREET BUOYANT ON A FEW SPECIALTIES

St. Paul Moved Up Against Shorts Strengthens Whole Market—Toronto Issues Quiet.

World Office, Wednesday Evening, Nov. 14.

The Toronto stock market advanced very little buoyancy to-day and was disappointing to those who think the market should do better.

London settlement concluded to-day. Tone in foreign markets generally cheerful.

Prospects for peaceful settlement of Erie lake troubles improving.

American Cotton Oil report analyzed justifies common dividend.

Currency movement now about balancing and tide should turn this way in the next few weeks.

Some demand for stocks and St. Paul in the loan crowd.

Railroads will earn in the coming year \$25,000,000 from farm products alone.

Money working easier, both here and abroad.

Assistance from treasury to money market not needed, for period of dear money will be passed without further serious disturbance.

Fortcoming rights on Northern Pacific estimated to exceed \$40 a share.

Erie orders 58,500 tons of steel rails for delivery next year.

General Electric Company made general advance in prices of electrical apparatus and supplies.

St. Paul road has granted advances in wages to switchmen and firemen.

Bulle, Mont.—The Anaconda has struck the largest body of copper lodes ever discovered in the district on the 2400-foot level of the high air shaft, No. 2.

Banks lost \$1,904,000 to sub-treasury since Friday.

Baltimore—Executive of the Baltimore & Ohio characterizes as ridiculous the report that the company has filed a complaint with the Interstate Commerce Commission charging that the various southern railroads have the advantage in rates by a part-water haul from northern points and speculating the commission that these roads be prohibited from reducing their freight rates under the direct rail rates.

Hart to R. R. Bondage: I am told that 60,000 shares of St. Paul are being taken out of the market during the last two days, and that St. Paul will sell much higher. Also that a plan is under way to separate the Union Pacific Railroad from the investment department by issuing a six per cent. railroad stock and a four per cent. investment stock and the present shares. From this I should think that the general stock market will do better.

Joseph says: The monetary situation needs no immediate relief, but if the emergency issues \$50,000,000 or more will be forthcoming. Our cables are just to hand read, "Advance bank rate to-morrow most unlikely. Do not be afraid to buy and carry some B.R. Big short interest in it. There is something greater than the market movements impending in Rock Island, M.K. & T., and Mexican Central. Be wise to get into these at market. Speculating the commission that these roads be prohibited from reducing their freight rates under the direct rail rates.

New York, Nov. 14.—Specialty improvement is likely today and seems to be on the program for the day with occasional drives at vulnerable issues by bearish profits. Development over night seems to us to be a little more favorable in general.

St. Paul may be able to reach well towards 180 on this movement, but there is considerable stock for sale towards that point. We are bullish on Union Pacific, but would rather buy it on reactions, owing to the temporary technical weakness exhibited. Amalgamated Copper is bought by Boston interests, and should be taken whenever soft for time at least. We are still advocating the bull position on steel, with average whenever necessary. Information continues bullish. Southern Pacific is tipped for higher prices by Morgan interests, according to reliable reports. We are not altogether satisfied with the position of Pennsylvania as yet, and would not buy it when weak. The same may be said of Reading and Erie.—Financial News.

Pittsburgh, Nov. 14.—The board of directors of the Pennsylvania Railroad voted to increase in wages to all permanent employees of the road to 10 per cent. The increase will be effective Dec. 1, and affects about 50,000 men.

London, Nov. 14.—Before the chart was

instituted of secretaries of London, W. Dawson, in a paper on "The Money Market," referring to industrial and speculative "booms," Mr. Dawson said: "Information for the share in the industrial boom has been comparatively small. The phenomenal boom has been all foreign. There is about all we get for helping to finance the booming prosperity of Germany, Argentina, Chileans and others. These four countries having far outrun their own banking resources, naturally make the most of the money that is available. London advertises itself as the monetary centre of the world, and borrows from all nations to take it as a loan. Our money market is short in holding the funds to the vast army of foreign speculators and American only, but Argentine and Mexican. One of its hottest centres is in Chile."

New York, Nov. 14.—Baltimore & Ohio stock is now selling just about where it was before the advance in the dividend rate to 6 per cent, and there is no reason to believe that it will hang around the present level very long. The road's earnings are on a tremendous scale and the Harlan influence so strong in the management there is some possibility of an advance in the dividend to 7 per cent. within the next few months. Besides there is every reason to believe that a deal of importance is developing in reference to this property that will cause a sharp rise in the price. We recommend the purchase of B. & O. at 110 to 115 and believe a profit of six to ten points can be secured within the next month if the market generally continues to advance. The character of the buying that is going on is generally speculative, and purchases on all soft spots. Norfolk & Western directors have been called to meet in New York Nov. 15, to discuss the possibility of issuing new stock and that consideration will be given the advisability of issuing new stock and that the stockholders will receive rights of subscription on a favorable basis. The Erie stock is large in this company and intrinsic value has been much higher than it will be recorded for the stock before a great while.—Town Topics.

On Wall Street. Marshall Spader & Co. wired J. G. G. Erie, bid 12 1/2, asked 13; Lake Superior bonds, bid 54, asked 56.

WHEAT FUTURES ARE FIRM
ON BETTER CASH DEMAND

Rally at Chicago is Well Held
 and Partially Supported by
 Foreign Quotations.

World's
 Wednesday Evening, Nov. 14
 Liverpool wheat futures closed today 1/4
 higher than yesterday, and corn fu-
 tures 1/4 to 1/2 higher.
 At Chicago, December wheat closed 1/4
 higher than yesterday, December corn 1/4
 higher, and December oats unchanged.
 Chicago car lots today: Wheat, 37,000;
 corn, 180,000; oats, 12,000; week ago,
 420,000; 21,000.
 Northwest cars to-day, 505; week ago,
 124; year ago, 305.
 Chicago car lots to-day, 324; year ago,
 357.
 Primary receipts of wheat to-day, 1,017,
 000; shipments, 357,000; week ago, 2,221,
 000; 1,385,000; year ago, 5,000,000; 4,077,000.
 Corn to-day, 2,000,000; 2,540,000; week ago,
 1,000,000; 553,000; year ago, 8,600,000; 7,040,000.
 London, Nov. 14.—Wheat—Foreign demand at
 previous rates; English firm. Corn—Ameri-
 can steady; Canadian quiet but steady.
 Flour—American dull, with moderate busi-
 ness; English quiet but steady.

 Horsehair, per lb., 0.05 to 0.06

GRAIN AND PRODUCE.
 The following were the last quotations
 on the board of trade call board. All quo-
 tations, except where specified, are for out-
 side prices:
 Dec.—\$15 bid.
 Shorts—No quotations.
 Spring wheat—None offering.
 No. 2 wheat—No quotations.
 Manitoba, No. 1 hard, 81c sellers; No. 1
 northern, 79c buyers; No. 3, sellers 77 1/2c;
 winter wheat—No. 2 white, sellers 72c;
 No. 2 mixed, buyers 70c; No. 2 red, sell-
 ers 71 1/2c.
 Buckwheat—Buyers 54c, sellers 58c;
 barley—No. 2, 51c bid; No. 3X, 48c bid,
 sellers 71c.
 Rye—Sellers 74c.
 Peas—No. 2, 81c bid, sellers 81c.
 Oats—No. 2 white, buyers 38c, sellers
 39c; No. 2 mixed, 35c bid, sellers 35 1/2c;

steady at \$3 to \$3.25; few choice at \$3.00;
 colls. \$1.50 to \$2.00; lambs higher at \$6.00
 to \$7.00; Canada, \$7.00; colls. \$4.25 to
 \$5.25.
 Hogs—Receipts, 7400; market steady at
 \$3.00 to \$3.50.

East Buffalo Live Stock.
 East Buffalo, Nov. 14.—Cattle—Receipts,
 125 head; steady; prime steers, \$4.50 to
 \$6.15; shipping, \$4.75 to \$5.50.
 Veals—Receipts, 125 head; active; new
 25c higher; 50c to \$1.00; 10c to 15c
 Hogs—Receipts, 4300 head; fairly active
 and about steady; Yorkers, \$6.35 to \$6.45;
 roughs, \$5.70 to \$5.90; dairies, \$6.20 to
 \$6.35.
 Sheep and Lambs—Receipts, 3000 head;
 active and higher; \$5 to \$7.50 for lambs;
 wethers, \$5.75 to \$6; sheep, mixed, \$5.20
 to \$5.75; Canada lambs, \$7.25 to \$7.35.

Montreal Live Stock.
 Montreal, Nov. 14.—Receipts today were
 900 cattle, 25 milch cows, 200 calves, 1000
 sheep and lambs and 1800 hogs. A fea-
 ture of the trade was the weaker feeling
 in the market for hogs, and prices de-
 clined 10c to 12 1/2c per 100 lbs. owing to increased
 supplies. As the demand for hogs from
 packers was ample to absorb all offer-
 ing, and sales of selected lots were made
 at \$6.00 to \$6.25, the market for hogs
 lbs. weighed off cars. Trade in cattle was
 very slow, there being no choice heaves on
 the market, and none being sold at over
 4c per lb. Pretty good sold at 3 1/2c to 3 3/4c,
 and the common stock at 1 1/2c to 2 1/2c, with
 the lean old cows at 1 1/2c to 2 1/2c. A num-
 ber of the cattle were sold. Milch cows
 sold at \$50 to \$50 each. Steady all the
 calves were given, with lots at 25c to
 8 1/2c per lb.; good sold at 4 1/2c to 5c. Sheep
 sold at 3 1/2c to 4 1/2c per lb.; lambs at 3c
 to 3c 1/2.

Chicago Live Stock.
 Chicago, Nov. 14.—Cattle—Receipts, about
 20,000; best steady; others weak to 10c
 lower; common to prime steers, \$4 to \$7.00;
 colls. \$2.45 to \$4.75; heifers, \$2.90 to \$5;
 bulls, \$2.45 to \$4.75; calves, \$2.25 to \$3;
 stockers and feeders, \$2.40 to \$4.50.
 Hogs—Receipts, about 30,000; steady;
 choice to prime, \$6.35 to \$6.45; butch-
 er's, \$5.75 to \$6.25; good to
 choice, mixed, \$5.25 to \$5.35; feeding, \$5.00
 to \$5.05; pigs, \$5.40 to \$5.15.
 Sheep and Lambs—Receipts, about 25,
 000; heavy, \$5.25 to \$6.00; mixed, \$5.00
 to \$5.25; yearlings, \$5.25 to \$6.00; lambs, \$5.20
 to \$7.35.

Chicago Markets.
 Marshall, Spader & Co. (G. H. Hays),
 King Edward Hotel, reported the follow-
 ing fluctuations on the Chicago Board of
 Trade:
 Wheat—Open High. Low. Close.
 Dec. 74 74 1/2 73 1/2 73 1/2
 May 78 78 78 78 78
 July 77 1/2 77 1/2 77 1/2 77 1/2
 Clearances to-day: Wheat, 139,000; corn,
 420,000; oats, 21,000.
 Northwest cars to-day, 505; week ago,
 124; year ago, 305.
 Chicago car lots to-day, 324; year ago,
 357.
 Primary receipts of wheat to-day, 1,017,
 000; shipments, 357,000; week ago, 2,221,
 000; 1,385,000; year ago, 5,000,000; 4,077,000.
 Corn to-day, 2,000,000; 2,540,000; week ago,
 1,000,000; 553,000; year ago, 8,600,000; 7,040,000.
 London, Nov. 14.—Wheat—Foreign demand at
 previous rates; English firm. Corn—Ameri-
 can steady; Canadian quiet but steady.
 Flour—American dull, with moderate busi-
 ness; English quiet but steady.

Chicago Cattle Market.
 London, Nov. 14.—Canadian cattle in the
 British markets are quoted at 1 1/2c to 1 3/4c
 per lb.; refrigerator beef, 10c to 10 1/2c
 per lb.

STATION AGENTS NAMED.
 C.P.R. Appointments on the Guelph-
 Milverton Branch.

The following appointments on the
 Guelph to Milverton extension of the
 C. P. R., were announced yesterday:
 To be agents—F. W. Pierce, at Wallen-
 stein; L. M. Patterson, at Millbank; J.
 H. Marshall, at Linwood; and W. H.
 Sanderson, at Milverton. The tele-
 graph wire was completed between
 Toronto and Milverton last night. The
 despatching of the trains will be done
 from Toronto instead of Guelph. The
 first train will leave Union Station for
 Milverton to-morrow morning.
 P. L. Sommerville, resident engineer
 of the Grand Trunk, left for Hamilton
 to-day to arrange for the building
 of a bridge at Ferry-street, Hamil-
 ton.

The surveys of the Canadian North-
 western Railway at work on the
 projected line from Toronto to Onta-
 wa, have now reached a point
 about half a mile east of Orono, and
 are expected to be ready for Bowma-
 ville, eight miles west of Orono, in a
 few days.

The winter freight rates on both C.
 P. R. and G. T. are to be raised in the
 east of Toronto, go into effect to-mor-
 row. The winter rate this year will
 be 50 cents per 100 pounds, on first-
 class freight.
 The C. P. R. boats will discontinue
 service between Owen Sound, Port
 Arthur and Fort William on the 24th.

ALDERMEN NOT IN FAVOR.
 Ottawa seems to have a Preference
 for Commission.

Ottawa, Nov. 14.—(Special.)—Hon.
 Henry B. McFarland of Washing-
 ton, chairman of the commissioners of
 the District of Columbia, addressed the
 Canadian Club to-night on "The Govern-
 ment of Washington." He outlined the
 commission form of government,
 and described its operation.
 There is a growing feeling in Ottawa
 that the city would be much better
 in the hands of a commission than
 run by the present municipal council.
 He is in the hands of a commission than
 run by the present municipal council.
 He is in the hands of a commission than
 run by the present municipal council.

FARMER'S BAD FALL.
 Lindsay, Nov. 14.—(Special.)—John
 Farrell, a young man of Valmetia, met
 with a serious accident yesterday.
 While in the barn finishing the evening
 chores, he became weak and fell out
 of the open barn door to the
 ground, a distance of about ten feet.
 He fell on to a water trough with
 great force.
 A few minutes later he walked into
 his house and complained of being
 sick. On examination by the doctor,
 he was found that his skull was frac-
 tured in two places. He is in the Ross
 Hospital here in low condition.

BODY RECOVERED.
 Kingston, Nov. 14.—(Special.)—The
 body of Joseph Bowden, which fell
 from a cliff last evening, was found
 this afternoon on the shore
 of Wolf Island, about three miles
 from where he fell.
 It had kept afloat, and proved that
 death occurred before Bowden fell
 into the water. The theory is that
 he stood up to put on or take off his
 coat, and being stricken with apoplexy,
 of which he had a prior attack five
 years ago, he fell out a dead man.

Street Railway for Welland.
 Welland, Nov. 14.—The Niagara, St.
 Catharines and Toronto Railway Co.
 is petitioning the council for a fran-
 chise to operate a branch line from
 their main road, which will pass west
 of the town. All the passenger cars of
 the road will pass over this branch
 line into the town, where a central de-
 pot will be located, and cars will be
 in operation by May, 1907.
 The Welland Electric Street Railway
 is also applying for a charter.

Reckless Daughter Dead.
 Cannes, Nov. 14.—Mrs. Charles A.
 Strong, daughter of John D. Rocke-
 feller, died at 8 o'clock this morning
 in the Hotel d'Arc.

INCREASED LICENSE FEES
THESE HOTELMEN WILLING

Blind River to Raise the Price
 From \$350 to \$1000
 a Year.

Port Arthur, Nov. 14.—(Special.)—An
 important step is being taken by a
 number of municipalities, Blind River
 being one of the most advanced, to
 increase the rate of liquor licenses.
 The present fee in the northern towns
 of \$350 is considered to be altogether
 too low, and it is desired to have this
 increased to \$1000. Bylaws for this
 purpose will be submitted in several
 cases in January, and the number will
 probably be increased before long.
 Business has increased enormously in
 these places, and licensed premises
 a few years ago could be
 bought for \$5000 or \$6000, will now
 bring from \$15,000 to \$25,000. In one
 instance a much higher figure is men-
 tioned.

Many of the hotelkeepers are in
 favor of the move, and so far there has
 been no open opposition.
 The License Act fixes a minimum
 rate for license fees, but it lies with
 the municipalities to fix any maximum
 they please.
 A seizure of liquor worth \$500 has
 been made by the local inspector at
 Port Frances. The raid was made on
 unlicensed premises, and is of some
 importance.

A. F. OF L. INVITED.
 Mayor Promises a Good Time if
 They'll Come Next Year.

Yesterday afternoon the mayor sent
 the following despatch to Frank Morri-
 son, secretary of the American Federa-
 tion of Labor, Indianapolis: "On
 behalf of the citizens of Toronto I
 take pleasure in extending a hearty
 invitation to the American Federa-
 tion of Labor to hold their next an-
 nual convention in Toronto, the Queen
 City of Canada. Should you accept
 this invitation you may rest assured
 of an enjoyable and profitable meet-
 ing."

FOR THE BOYS.
 A meeting of the Toronto Boys'
 Workers' Union is to be held to-night
 in the Sunday school of Wesley Metho-
 dist Church, corner Dundas-street and
 Ossington-avenue. Plans and prob-
 lems of boys' work in Toronto will
 be discussed.
 All boys' workers and those inter-
 ested in boys are asked to be present.

New Cure
For Rupture
 New Scientific Appliance Always
 Effective. No Operation. No Pain.
 No Discomfort. No Danger.
 No Objections. Slips on
 Face. Only Lasts Ten Days.
 Common Strusses—Made
 for Men, Women or
 Children.

I have invented a rupture appliance
 that I can safely say, by 30 years' ex-
 perience in the rupture business, is the
 only one that will absolutely hold the
 rupture and never slip, and yet is cool,
 comfortable, conforms to every move-
 ment of the body without chafing or
 hurting, and costs less than many or-
 dinary trusses. I have put the price

so low that any person, rich or poor,
 can buy, and securely guarantee it
 to you—wear it, and if it doesn't sat-
 isfy you send it back to me and I will
 refund your money. That is the fair-
 est proposition ever made by a rupture
 specialist. The banks or any respon-
 sible citizen in Marshall will tell you
 that in the way I do business—always
 absolutely on the square.

Before Judge Winchester.
 Judge Winchester yesterday senten-
 ced Samuel Jackson to six months in the
 Central Prison for theft of \$200 from
 the Iron Moulders' Union six years ago.
 Clifford Stracy, theft, will be sentenced
 next Wednesday. Collicie Cockburn,
 theft, was refused a renewal of bail.
 His counsel was not ready to go and
 the judge was tired of adjourning the
 case on bail.
 The case of J. L. Lee & Co., charged
 with keeping a public house, was set
 over until Judge Morson goes to New
 York to take evidence in the way of
 accounts in brokers' books there.

Revell Goes Free.
 St. Thomas, Nov. 14.—Charles Revell,
 the Dundas man accused of commit-
 ting an indecent offence upon Mrs.
 Elizabeth Campbell, Wallaceburg, an
 imbecile, was dismissed to-day, the
 physician declaring she was not an
 imbecile. The police do not know what
 to do with the woman.

Killed by Vagrant Bullet.
 Columbus, Ind., Nov. 14.—Myrtle,
 the 7-year-old daughter of William
 Neal, who resides near this city, was
 shot and killed late yesterday near her
 home by an unknown hunter.
 The little one had gone to the rural
 free delivery box, which is a quar-
 ter of a mile from the residence.

SAFETY.
 Never in all the history of transporta-
 tion has travel been safer than it is
 to-day. Seated in perfect comfort in
 any of the mile-a-minute trains of the
 Lake Shore Railway you are in less
 danger by far than you are in a way
 that is but little short of marvellous.
 Every device that skill or money can
 provide is used without regard to the
 expense, and in spite of the high speed
 —the faster in the world—you are as
 safe here as in your own home. Com-
 bined with safety and high speed are
 luxurious comfort and punctuality—
 combined to make a service unequalled
 the world over. See that your ticket
 reads "via Buffalo and the Lake Shore
 Railway" and write for full informa-
 tion to J. W. Daly, Chief Agent, C. P.
 A., Buffalo, N.Y.; A. J. Smith, G.P.A.,
 Cleveland, Ohio; or W. J. Lynch,
 Passer, Traffic Mgr., Chicago, Ill.

Fac. Britton, Cured of Rupture
 by C. E. Brooks.

So low that any person, rich or poor,
 can buy, and securely guarantee it
 to you—wear it, and if it doesn't sat-
 isfy you send it back to me and I will
 refund your money. That is the fair-
 est proposition ever made by a rupture
 specialist. The banks or any respon-
 sible citizen in Marshall will tell you
 that in the way I do business—always
 absolutely on the square.

FAVOR BUILDING A VIADUCT
INSTEAD OF PARALLEL BRIDGE

Board of Trade Deputation Con-
 sult With Controllers on
 Railway Matters.

The board of trade is not much in
 favor of building bridges leading to
 the waterfront. It thinks a viaduct is
 the proper way out of the difficulty,
 and the only satisfactory way.
 Yesterday Secretary F. G. Morley,
 Peleg Howland, president; R. C.
 Steele, Hugh Blain and J. P. Watson,
 as a deputation called on the board
 of control and expressed their views.
 In their opinion bridges were only a
 makeshift, and the scheme too small
 to control the entrance of the railroads
 into the city and provide proper access
 to the waterfront. A viaduct would
 permit of trains arriving and leaving
 the city at a much greater speed than
 on surface tracks. This would be of
 great benefit to the railroads as a time
 saver.

Controllers Shaw and Hubbard were
 of the opinion that the railroads would
 not stand for the great expense of a
 viaduct.
 Controller Shaw said the Yonge-
 street bridge would be built next year
 if the people so voted. The deputa-
 tion thought "perhaps."

It was decided to arrange a meeting
 between the board of trade, the board
 of control and the railroads at an
 early date.
 Residents in the vicinity of Charles
 and Isabella-streets have petitioned
 the board of control against the erec-
 tion of an animal hospital in the
 neighborhood. As the elections are ap-
 proaching the petitioners' protest will
 likely have some effect.

To offset the Canadian Pacific Rail-
 way Company's action to keep street
 cars from Lake-street, Corpora-
 tion Counsel Fullerton will argue that
 permission for the tracks was granted
 both by the Dominion government
 and the company itself; and that
 1902 Lake-street was excepted from
 the Windmill agreement, on which the
 company bases its claim.

Price Commissioners Complain.
 In a letter to the board of control
 Chief Graesset asks that body to
 change the wording of its notifica-
 tion in regard to butchers and laun-
 dry licenses. "From the way you
 word the letters," says Colonel Graesset,
 "it would appear that the board
 intend to decide about these licenses
 and not the price commissioners."
 There is trouble between the two bod-
 ies over the question of jurisdiction.
 A letter from the Guild of Civic
 Architects to the board of control, a
 professional landscape architect to frame a
 comprehensive plan for the laying out
 of the exhibition grounds. The Guild
 mentions the names of three men,
 any one of whom would be com-
 petent. They are D. H. Burnham of
 Chicago, Frederick G. Todd of Mont-
 real and Frederick Law Olmstead of
 Brookline, Mass.

Selling City Land.
 The following sales of city land,
 held for arrears of taxes, were ap-
 proved by the board of control yester-
 day.
 To Mrs. J. Howard Stowe, a 22-foot
 lot on the northeast corner of Bloor-
 street and Dundas-avenue; taxes,
 \$12 per foot; assessment, \$18, and
 sale price \$25 per foot.
 To James M. and Mrs. Strat, a 32-
 foot lot on the south side of Grand-
 view-avenue; assessed at \$75; taxes
 against it \$46.22, and sale price \$224.

To E. Percy Beatty, insurance agent,
 a parcel of 17 feet square, on a tax-
 side; assessed for \$34; taxes in ar-
 rears \$196, and sale price \$102.
 To Orville J. Hutchinson, 21 Brook-
 lyn-avenue, and to John Borekay, 15
 Grant-street, half of each of a 24-foot
 lot on the east side of Pope-avenue;
 assessed at \$420; taxes \$760, and sale
 price of each 21 feet \$238.

To Mrs. Lillian May Smith, an 15-foot
 lot, south side of Grandview-avenue;
 assessed at \$150 per foot; taxes, 22
 cents per foot, and sale price \$7 per
 foot.

ONTARIO IN IRELAND.
 Suggestion That Province Exhibit
 at the Dublin Show.

Hon. Nelson Monteth said yester-
 day that the World was the first to
 speak to him of the possibility of
 having Ontario represented at the big
 international exhibition at Dublin, Ire-
 land, to be opened next May. The
 grounds at Ballsbridge, which have
 been selected, will afford a particu-
 larly beautiful location for those
 who have the matter in charge as a
 guarantee of the success of the un-
 dertaking.

Considering the slight extent of im-
 migration taking place from Ireland to
 Ontario it was suggested to Mr. Mon-
 teith that the opportunity would be a
 good one to bring the province before
 the people.
 "The Dominion having an exhibition
 bureau, the province would simply co-
 operate in the exhibit, which the Do-
 minion government has resolved upon
 making, and Mr. Monteth said the
 matter would be considered."

Architectural Eighteen Club.
 The following have been elected offi-
 cers of the Toronto Architectural
 Eighteen Club: President, Edson
 Smith; vice-president, C. D. Lennox;
 J. C. B. Horwood, A. H. Chapman;
 secretary-treasurer, J. P. Hynes.
 The meeting also decided to remove
 the present restriction on the num-
 ber of members in order to admit a
 number of architects eligible for mem-
 bership, who could not be elected un-
 der this part of the constitution was
 changed.

Floods in Washington.
 Tacoma, Wash., Nov. 14.—Swamped
 by a soaking rain the snow on the
 slopes of the Cascades Mountains has
 melted and flowed into the rivers at
 the base, thereby resulting in one

Who Said Hats?

While we are doing an enormous business in Furs, we're not asleep in the Hat department.

The very latest styles in the well-known Christy hats are here at

\$2.00

and anyone paying less than that can depend upon it—they get less.

You can buy a Dineen hat with confidence and wear it with satisfaction.

Temperance and Yonge Streets, TORONTO

CHURCHILL'S CONSTITUENCY

Sir Gilbert Parker Says It Is Not Manchester, But the Empire.

(Canadian Associated Press Cable.) London, Nov. 14.—Sir Gilbert Parker, who was the guest of the Colonial Club of Oxford, emphasized the debt the colonies owed to the motherland, and also said that the under-secretary for the colonies should realize, perhaps he did, that his constituency was not Manchester, but the Empire.

One Day Strike

London, Nov. 14.—The 25 cormakers and brass molders employed at the Latham Manufacturing Company, who went out on strike yesterday morning, have returned to work again.

Ex-Patient Sues

Charlottetown, B.E.I., Nov. 14.—(Special.)—Frederick MacRae, a resident of Little Sands, handed himself this afternoon. He was released from an insane asylum a week ago.

Special Business Suits \$25.00

Tweeds purchased direct from the manufacturers in Scotland by Mr. Score, and are really marvelous value.

YORK COUNTY AND SUBURBS

FOUND DEAD IN HIS WAGON GOING HOME FROM THE CITY

George F. Stiver of Markham Township Succumbs From Hemorrhage of the Brain

Unionville, Nov. 14.—(Special.)—George F. Stiver, one of the best-known and most highly respected farmers in Markham Township, living about a mile west of this village, was found dead in his wagon at the Townline Hotel, some six miles north of East Toronto, about 3 o'clock this afternoon. Deceased was on his way home from the city, and was accompanied by his young son. Shortly after leaving East Toronto, Mr. Stiver is said to have entrusted the management of the team to his son, and lain down in the bottom of the wagon. When O'Sullivan's Corners was reached, it was found that he had expired. Dr. Siseley of Agincourt was passing at the time, and was called in. An examination disclosed that death must have taken place half an hour previously, the cause being hemorrhage of the brain. The remains were subsequently removed to his own home. Deceased was 48 years of age, and was the eldest son of William Stiver of the 5th concession of Markham. He is survived by a widow and large family.

Riverdale.

An important sale of real estate in Riverdale has just been put thru in the disposal of several acres of land near the corner of Gerrard-street and Woodbine-avenue to William Cornell. The sale was made by Mrs. John Thompson, and the price paid was \$8800. The property will, it is said, be subdivided and sold off.

Residents of Riverdale, more especially the northern portion, are delighted at the success attending the public meeting for the promotion of the Bloor-street viaduct. The Business Men's Association will give the movement their cordial support.

Good progress is being made with the erection of the new glass works on the eastern bank of the Don, just north of Queen-street.

The R. C. B. Club's new building on Broadview-avenue will be ready for occupation before Christmas.

Inspector Hays has definitely announced his candidature for alderman in the First Ward.

Toronto Junction.

Toronto Junction, Nov. 14.—Some evil-disposed persons threw four stones thru the windows of the house of Geo. Mainprize, on Queen-street, last night, between 10 and 11 o'clock. One of the stones went thru the parlor window and struck the piano, and another went thru a bedroom window and broke a large mirror. Mainprize was away from home.

Shekna Chapter held its regular meeting last night and the following officers were elected: First principal, F. T. McMillan; second, Thomas Ferguson; third, Jesse Smith; S. E. P. E. Hartney; S. N. Dr. Nuneir; treasurer, W. J. Sheppard; P. S. J. T. Jackson; secretary, J. Miller.

The Martin & Leveck Abattoir is slaughtering a lot of cattle every day. Between twenty and twenty-five butchering wagons leave there loaded every morning.

Mayor Smith has been presiding at the police court for the past week. At Mackenzie Mills is up north in Muskoka, shooting.

East Toronto.

East Toronto, Nov. 14.—The members of the hunting party will arrive home on Saturday, every man bringing it is said, secured his quota.

The concert given in the Y.M.C.A. hall in connection with the auspices of the railwaymen was most successful. A program of illustrated views, depicting railway life, together with a concert by local talent, contributed to a delightful evening.

Myrtle.

While drawing a wagon load of onions and potatoes to Oshawa over the C.P.R. crossing, at the crossing north of Hazelton, John White was struck and instantly killed by a heavy train. For this there may be certain cases by the C.P.R. local from Hazelton, due in Toronto at 10:25. He was driving a heavy load and could not see the train approaching, owing to the curve at this point. The train plowed right thru the wagon, killing both man and horse. Mr. White was hurried to the hospital, but died at the age of 200 feet. A quantity of the contents of the wagon were carried on the engine pilot into Myrtle, where an inquest was opened in the evening by Coroner Mallow of Oshawa. Deceased leaves a widow and three young children. He lived one and a half miles west of Blackstock.

Wychwood.

To-morrow night another meeting will be held in Hillcrest school house for the purpose of finally reorganizing the ratepayers' association. The business will consist of electing officers, adopting a code of rules and bylaws, and selecting candidates for the municipal council of the Township of York.

North Toronto.

The electors of North Toronto think the time is opportune to revive the shelved question of a sewage system, and contend that the town has outgrown its babbling brook, and that the sanitary precautions at a sewage system are a necessity.

On Tuesday afternoon a Newmarket passenger car ran into a construction car of the Metropolitan line, just opposite the Presbyterian Church, the former going north and the other south. The result of the collision was a smashed-in and the fender put out of business, while the Newmarket passenger car escaped without injury. Nobody was hurt, but the passengers received a bad scare.

The Daville Young Men's Club will give an entertainment at the town hall next Wednesday evening. The proceeds will be devoted for the erection of a skating rink.

The falls on the Avenue-road street car extension are laid as far as St. Clair-avenue, and the roadbed for the Y is pretty well advanced.

Thornhill.

Rev. W. Johnston, who has been living for some years at W. Norman's, has left for Manitoba to take charge of a church there.

At a special meeting of the Chosen Friends several were initiated. Another meeting is called for Wednesday next, when refreshments are to be served, and a social more initiated.

The Public Library has been moved from the town hall to a more convenient room, adjoining Francis' store. A number of new books will shortly be added thereto.

Miss M. Brown of Cooksville is spending a few days with Miss L. Martin.

Stouffville.

Dr. Fotheringham, public school inspector, paid an official visit to the Stouffville Public School.

Miss Sproule, for several years a missionary in Algoma district, will deliver an address in Spottford's Hall on Nov. 18. Sproule comes here under the auspices of the W. C. T. U. Society.

Todd & Cook have purchased the residence owned and lately occupied by Dr. J. R. Storey, on Somerset-street.

F. W. McDonald is again on duty in the Standard Bank, after two months' leave of absence on account of typhoid fever.

THRU LINE TELEGRAPH COBALT'S GREAT NEED

Delay in Transferring Telegrams Between Services at North Bay Source of Inconvenience.

North Bay, Nov. 14.—(Special.)—Five hundred messages were sent from Cobalt to-day, all handled by a single operator.

It is reported the C. P. R. and the government have arranged to have a thru wire from Toronto to Cobalt in operation next week.

There is no difference of opinion about the fact of the miserable telegraph service supplied the public at Cobalt. Everybody suffers, even the government itself, and there is no end to the worry and friction and annoyance caused by disappointments, dilatory messages, non-deliveries, and all the other faults that go to make up an inferior system.

It is a common experience to have a letter, sent to confirm a telegram, reach the person for whom it is intended before the telegram has arrived. This is not a pleasant experience, and it is worse than inferior. It is fraudulent. Important business cannot be transacted by wire when a business man is obliged to wait for a letter to come from the train and go to Cobalt to get a telegram. It cannot be seriously expected to encourage passenger traffic on the railway by discouraging telegraph service on the wires.

Any man who meets from Cobalt who is asked to endorse a telegram, or to give a message, is apt to summarize it in two words, "Pretty bad," or in one, "Rotten."

This is the coarse, common, colloquial view of the case, and officialdom behind the service would do well to take the reflection to heart. The criticism is not a mere matter of opinion. Wherever there is a stop at the service, there is loss. In some cases the losses may be trivial, but in the particular case of business messages, they are not. The highest financial and commercial importance, and the risks of loss are correspondingly great. The World has its attention directed to the fact that one such matter, necessarily confidentially, and there is no doubt that it is a telegraph service to Cobalt put into decent shape.

The messages are sent over the C. P. R. wire to North Bay, where they are transferred to the government line, and re-telegraphed to Cobalt. At North Bay there is, therefore, a possible limit source of error and delay. At Cobalt the deliveries are supposed to be promptly made. The supposition is frequently groundless.

For this there may be certain cases by the C.P.R. local from Hazelton, due in Toronto at 10:25. He was driving a heavy load and could not see the train approaching, owing to the curve at this point. The train plowed right thru the wagon, killing both man and horse. Mr. White was hurried to the hospital, but died at the age of 200 feet. 550 FIRE; 3 MEN INJURED TRUCK AND WAGON COLLIDE

Hose 16 and Aerial 1 in an Accident—Two Firemen Hurt and Horse Killed.

MEN'S ATTIRE

We keep almost everything a man wants to wear. In the first place we have exceptionally fine

Overcoats \$20.00

These overcoats are said to be the best value of any overcoat in the country at the price.

Suits \$10.50 to \$14.50.

At this figure there is an opportunity for any man to get a suit worth from \$18 to \$20 at a remarkable reduction.

Gloves \$1.00

Hats \$1.00

Underwear.

Men who want furnishings of quality will find them at "The House of Quality."

J. W. T. Fairweather & Co. MEN'S FURNISHERS 84-86 Yonge St., Toronto.

Responding to an alarm from Box 31 at 3 o'clock yesterday afternoon, Hose 16, from Richmond-street Station, and Aerial 1, from Lombard-street, came into collision at Church and Lombard-streets. As a result, Lieut. Arthur Everist and Fireman Albert Elliott of the hose section are in St. Michael's Hospital with painful injuries to the head and shoulders.

Everist had five stitches in a scalp wound, and Elliott complains of his head aching.

The horse which pulled to hose wagon had to be shot.

It is a matter for congratulation that the accident was so slight, for to by apparatus were well manned. Indeed, it is likely due to the prompt and co-ordinated work of Tillerman Harris Smith of the truck that saved the life of Foreman Knight, who was on the running board, and who, when he saw that a collision was inevitable, jumped in the roadway, and, as a result, Harris-Smith, who was watching him, put all his strength to the wheel and swung the rear wheels towards the curb, missing Knight by a narrow margin.

No one is to blame for the collision, which could easily have had far more serious consequences. The truck, which is drawn by three splendid grey horses, was coming west on Lombard-street after a run of a block. As per driver, James Leslie pulled up and then, seeing that a trolley car was danger at the corner—had stopped, and his horses ahead to clear the crossing, which was done quickly as a matter of safety. The hose wagon had made an extra quick hitch, and a fast run from the station on Richmond-street, which was along from the truck house. Lieut. Everist was driving.

The truck was crossing the car tracks when the Jo-Jo horse on the hose wagon drove headlong into it. It had half turned to go west, but could not make it. The hub of the wagon caught the running board, the horse went down, and Everist and Elliott were thrown headlong from the seat.

Firemen Doughty, Gordon and Crawford were also thrown to the roadway when the crash came.

On the truck platform standing beside the driver, on the running board to the north were Mr. McCurdy of the Halifax Herald, Fireman McCurdy, Mr. Cameron of the Water-works Engine Works, and Fireman Oliver. On the other side of the truck were Fireman Joyce, McCurdy and Cameron. When at fire headquarters with a party of other officials to test of the big ladder and when the same name had decided to enjoy the excitement of a ride with the firemen.

The shock to the truck was hardly felt, and the only damage was to the windshield, which was found to be broken. The truck pulled up within its length, and the men dismounted and ran back to the crossing fully expecting to find at least two men dead, for it was believed they had been run over. Fortunately the horse was not killed, and was carried into a nearby stable by the firemen.

On the more disputed question of the responsibility for the accident, the two companies were quite willing to discuss the telegraph situation at Cobalt, and readily admitted that the structures already had not been without justification. In fact, he was able to supply instances from his own knowledge. But he thinks that these complaints are not of recent origin, at any rate so far as the telegraphing line is concerned.

"There is no better," he continued, "and you can't put that as strong as you like. The line is well handled and well manned."

Staff increased.

Hon. Frank Cochrane, who, as minister of public works, has charge of such matters, was quite willing to discuss the telegraph situation at Cobalt, and readily admitted that the structures already had not been without justification. In fact, he was able to supply instances from his own knowledge. But he thinks that these complaints are not of recent origin, at any rate so far as the telegraphing line is concerned.

"The staff has been increased," he said, "and the line is well handled and well manned."

Richard Grigg of 345 Parliament-street, and Mrs. Grigg left yesterday morning for Montreal, having received a telegram that their son, Horace, had been shot by footpads in Montreal the previous night.

The young man, who is about 21, was until 18 months ago with the R. Simpson Co. here, and was sent to the Montreal branch.

He is reported that he was waylaid, and on refusing to give up his valuables was shot three times.

LOCAL TOPICS.

The Sons and Daughters of Ireland Protestant Association will be "at home" in Victoria Hall to-morrow evening.

The Union Arbitration Court, which is the payment of the costs.

The Holiday week was further advanced next Wednesday, when the Mrs. Sarah Johnston, 276 Carlton-avenue, and her family, were waylaid and their valuables were stolen.

William Lee of 55 Edward-street fell yesterday while painting, but was not seriously hurt.

THRU LINE TELEGRAPH COBALT'S GREAT NEED

J. W. T. Fairweather & Co. MEN'S FURNISHERS 84-86 Yonge St., Toronto.

Responding to an alarm from Box 31 at 3 o'clock yesterday afternoon, Hose 16, from Richmond-street Station, and Aerial 1, from Lombard-street, came into collision at Church and Lombard-streets. As a result, Lieut. Arthur Everist and Fireman Albert Elliott of the hose section are in St. Michael's Hospital with painful injuries to the head and shoulders.

Everist had five stitches in a scalp wound, and Elliott complains of his head aching.

The horse which pulled to hose wagon had to be shot.

It is a matter for congratulation that the accident was so slight, for to by apparatus were well manned. Indeed, it is likely due to the prompt and co-ordinated work of Tillerman Harris Smith of the truck that saved the life of Foreman Knight, who was on the running board, and who, when he saw that a collision was inevitable, jumped in the roadway, and, as a result, Harris-Smith, who was watching him, put all his strength to the wheel and swung the rear wheels towards the curb, missing Knight by a narrow margin.

No one is to blame for the collision, which could easily have had far more serious consequences. The truck, which is drawn by three splendid grey horses, was coming west on Lombard-street after a run of a block. As per driver, James Leslie pulled up and then, seeing that a trolley car was danger at the corner—had stopped, and his horses ahead to clear the crossing, which was done quickly as a matter of safety. The hose wagon had made an extra quick hitch, and a fast run from the station on Richmond-street, which was along from the truck house. Lieut. Everist was driving.

The truck was crossing the car tracks when the Jo-Jo horse on the hose wagon drove headlong into it. It had half turned to go west, but could not make it. The hub of the wagon caught the running board, the horse went down, and Everist and Elliott were thrown headlong from the seat.

Firemen Doughty, Gordon and Crawford were also thrown to the roadway when the crash came.

On the truck platform standing beside the driver, on the running board to the north were Mr. McCurdy of the Halifax Herald, Fireman McCurdy, Mr. Cameron of the Water-works Engine Works, and Fireman Oliver. On the other side of the truck were Fireman Joyce, McCurdy and Cameron. When at fire headquarters with a party of other officials to test of the big ladder and when the same name had decided to enjoy the excitement of a ride with the firemen.

The shock to the truck was hardly felt, and the only damage was to the windshield, which was found to be broken. The truck pulled up within its length, and the men dismounted and ran back to the crossing fully expecting to find at least two men dead, for it was believed they had been run over. Fortunately the horse was not killed, and was carried into a nearby stable by the firemen.

On the more disputed question of the responsibility for the accident, the two companies were quite willing to discuss the telegraph situation at Cobalt, and readily admitted that the structures already had not been without justification. In fact, he was able to supply instances from his own knowledge. But he thinks that these complaints are not of recent origin, at any rate so far as the telegraphing line is concerned.

"There is no better," he continued, "and you can't put that as strong as you like. The line is well handled and well manned."

Staff increased.

Hon. Frank Cochrane, who, as minister of public works, has charge of such matters, was quite willing to discuss the telegraph situation at Cobalt, and readily admitted that the structures already had not been without justification. In fact, he was able to supply instances from his own knowledge. But he thinks that these complaints are not of recent origin, at any rate so far as the telegraphing line is concerned.

"The staff has been increased," he said, "and the line is well handled and well manned."

Richard Grigg of 345 Parliament-street, and Mrs. Grigg left yesterday morning for Montreal, having received a telegram that their son, Horace, had been shot by footpads in Montreal the previous night.

The young man, who is about 21, was until 18 months ago with the R. Simpson Co. here, and was sent to the Montreal branch.

He is reported that he was waylaid, and on refusing to give up his valuables was shot three times.
