THE CORPORATIONS MUST BE MADE TO "PLAY FAIR."

The Globe takes it for granted that the Consumers' Gas Company has violated the law of 1887, in which the relations between the company and the citizens of Toronto are defined in specific language. The Globe accepts it as true that the repairs and renewal fund has been used for capital extensions, and that enormous and unnecessary additions to the works were made out of this fund, thus postponing indefinitely the creation of the special fund for reduction in the price of gas.

"Another fruitful device in the handling of the company's finances," the Globe goes on to say, "was to wipe off large sums for depreciation when frequently the condition of the company's plant did not warrant it." Adverting to the terms of the proposed settlement, the Globe takes under the new deal the company ought to be able to set aside \$50,000 a year to be used for future reductions in the price of gas. But, we are told, the value of the proposed agreement depends entirely on the attitude of the company's officers. "If they are prepared to play fair, there should be important benefits from the agreement."

This is truly a nice confession for the Liberal party to make on the eve of a general election. The people have certain specific rights under the Act of 1887. The Globe admits that the Gas Company has cheated the people out of these rights, and yet there is no remedy. The statutes passed by the Liberal government when the rights of the people are concerned are so much waste paper, because the people can only get their rights when the corporations "are prepared to play fair."

The proposed agreement to be as ineffectual as the existing one unless the Gas Company's officers "are prepared to play fair." The Globe, in these few words, has accurately described the spathy of the government in dealing with the rights of the people. The carrying out of the laws passed by the Legislature is dependent altogether upon the pleasure of the corporations. The 200,000 people living in Toronto have no prospect of getting their rights under the existing or proposed agreement with the Gas Company, unless the officers of the company "are prepared to play fair."

Surely the people of Ontario will not stand much longer this shameful subservience to corporations. How subject this subservience must be when the organ of the Liberal party openly proclaims that the laws passed by the Legislature of Ontario are enforceable only when it pleases the officers of the corporations interested to have them enforced!

The Liberal government has been so long under the spell of corporation influence that it has lost all sense of obligation towards the people. When the companies imagine their interests are in jeopardy they fly to the government and order such legislation as will protect them. Recently the gas and electric light companies prevailed upon the government to pass a law making it compulsory in municipalities to buy out existing lighting plants before establishing plants of their own. Previous to the passage of that law the municipalities could have started plants of their own without being subjected to the loss of having to buy up the worthless plants of such companies as happened to be in the business. The government has no compunction whatever in robbing the people of their vested rights when the interests of the corporations are thought to be in danger. But when the people wish to have any grievance against the corporations righted the government treats their demand as ridiculous. The people have no rights. They can only get them when the corporations "are prepared to play fair."

If ever an opportunity was presented to the Conservative party it is today. "We will make the corporations play fair"—if the party went to the country under such a battle-cry as that it would sweep every thing before it.

Let the Conservative party tell the people that the value of a statute or an agreement does not depend on the attitude of the corporations, but upon the honesty of the government and the representatives of the people. The Ontario government has the power in its hands to make the Consumers' Gas Company play fair. The mere intimation of the government that it would at the coming session amend the Act of 1887 so as to provide adequate machinery for enforcing the rights of the people would start the officers of the company "playing fair" in a way that would surprise the community. But it wouldn't suit Hon. Mr. Mulock, a large shareholder and legal adviser of the Consumers' Gas Company, if the officers of that concern were made to play fair and to disgorge the tens of thousands they have stolen from the people of Toronto. The corporations as a body would resent any attempt on the part of the government to make the officers of the Consumers' Gas Company play fair, and consequently, the government does not make the attempt.

The government having admitted its

helplessness and incapacity to make the corporations play fair, Mr. Whitney has the opportunity of his life to come out boldly and champion the cause of the city of Toronto. In fighting for Toronto he will be fighting for every other municipality in the province, because they are one and all at the mercy of the predatory corporations. The people vs. the corporations is the great issue before the people today. The Liberal party has accepted the brief of the corporations. Let Mr. Whitney announce himself as counsel for the people, and express his determination to make the corporations play fair. If he embraces the opportunity the people will surely give him their support and place him in a position where he can carry out his promise to make the corporations "play fair."

AMERICAN COAL AND CHARCOAL IN EUROPE.

It looks as if the United States had secured a permanent market for its coal in the Mediterranean ports. The United States Consul at Marseilles reports that, during the first six months of 1901, 97,622 tons of United States coal were received at that port as against 7,730 tons for the same period in 1900. In the first six months of 1901, 457,702 tons were received from England as against 389,622 in the same period of 1900. The total receipts for the year 1900 were 850,038 tons from Great Britain and 118,401 tons from the United States. Steadily increasing shipments are being made from America to the ports, and the probable result during the present year will exceed 200,000 tons. The total receipts will exceed 200,000 tons. The year 1900 was a record for the coal trade, and may be said to have passed the experimental stage. In face of the very notable decline in freight rates from Cardiff, American coal has not only succeeded in holding its own, but is increasing its local importance, thus tending to disprove the idea that its sale could be undertaken only during the prevalence of abnormal conditions in Great Britain. The freight charges are steadily decreasing. A little over a year ago the rate was \$4.25 per ton, while, at the present time, \$2.51 is a fair average. Last year the rate from Cardiff ranged about \$2.55. If it is possible for the United States shippers to send coal to the Mediterranean, there ought to be money in the business for the Nova Scotia coal owners. It is not at all unlikely that an immense trade in coal will yet be developed between Canada and the South of Europe. The conditions for such a trade are eminently favorable.

The United States consul also reports on the coal trade of Southern Europe and the Channel. He says that the coal trade is being done by the United States shippers to the Mediterranean, there ought to be money in the business for the Nova Scotia coal owners. half and "war" and other words, when properly pronounced, as members of the same family as "gaws of wata." Deceiving or deluding as in "gaws of wata," its effect upon the senses of the hearer is not quite so cruel as "gawling" met for "half an hour." The same were sung in choruses. And the latter form of pronunciation, or mispronunciation, is far more general among Canadians who are supposed to have received a "good education" than the former among any class of Englishmen. As for the two, it is a choice of evils, and one is an evil with which only a comparatively few Englishmen and Canadian imitators are afflicted, while the other is as much epidemic among native-born Canadians. It is with the latter that the greatest credit of information must be accomplished, not only on the score of numbers, but because their patrons is not merely a bad taste, but a choice of evils, and one is an evil with which only a comparatively few Englishmen and Canadian imitators are afflicted, while the other is as much epidemic among native-born Canadians. Services of Scholars Command but Slight Compensation in Germany...

BECAUSE SUPPLY EXCEEDS DEMAND. Tutor Does Well to Get \$30 a Month and a Professor \$100.

Chicago, Nov. 5.—W. E. Curtis in his Berlin letter to The Record-Herald, says the price of brains in Germany, like other marketable commodities, seems to be regulated by the law of supply and demand.

As a rule salaries are much lower in this country than in the United States. The Ministers of the Empire receive three or four times the amount paid to our Cabinet Ministers in Washington.

The greatest difference in salaries, however, is among the professors. The average salary in a German university will do well if he gets \$25 a month.

Some of the professors who are dependent upon their fees do not make more than \$500 or \$600 a year. Their compensation depends largely upon their ability and popularity.

Several specialists in law, medicine, chemistry and other sciences are handsomely paid. Their salaries are nearly as large as that of Mr. Astor's cook and Mr. Whitney's jockey that rides his horses at the races.

University professors, however, are not permitted to enter into the active practice of any profession. Law lecturers often write opinions which are great valuables and are sometimes filed as arguments in the courts.

Formerly litigants could appeal to the law faculty of the university. In the medical department are also lecturers for consultation in serious cases of sickness.

Chemists and spectroscopists are employed for tests of laboratory work, or for giving opinions upon their ability and for giving opinions upon their ability and for giving opinions upon their ability.

But it is only the select few who enjoy these pecuniary advantages in Germany. School teachers in the United States and there are 2800 regular professors in the United States.

There were more highly appreciated if they were not so numerous as a Berlin capitalist, was attending one of the lectures.

He appealed to one of the faculty to coach him, and promised to give him certain money would assist him in his studies.

SHE PATIENTLY BORE DISGRACE

A Sad Letter From a Lady Whose Husband Was Dissipated. How She Cured Him With a Secret Remedy.

"I had for years patiently borne the disgrace, suffering, misery and privations due to my husband's dissipated habits. He was completely cured of his habit of drunkenness, which I could give my husband secretly, I decided to try it. I procured a package and mixed it in his coffee and tea, and as the remedy was odorless and tasteless he did not know what it was. He soon began to pick up and he stuck to his work regularly, and we now have a happy home. After he had been his savings, he had not the heart to go to the office. I had to advise all women afflicted as I was to give my remedy a trial."

FREE SAMPLE particulars, testimonials and price sent in plain sealed envelope. Correspondence secretly conducted. English stamps for 2000 copies. Slaters, Toronto, Canada. Also for sale at Birmingham, England.

Collegiate Institute Board Rejects Motion by a Vote of Eleven to Four.

Disposed of at Last. Complaint That Cadets Wear Uniforms Too Often Will Be Acquiesced Into.

Balance of \$18,946 Still on Hand.

That whereas the question of amalgamation of the Collegiate Institute Board and the Public School Board of the City of Toronto was referred to the electors of the City of Toronto, and that by a vote of more than two to one they declared their wish for the said amalgamation; therefore, it is resolved, that this Board place itself on record that it is in favor of a consolidation of the supervision of the educational system of the said City of Toronto, and that it does approve of an educational Board being formed to carry on the same.

This long-standing motion of motion by Trustee Dr. Thompson has at last been faced and disposed of by the High School Board. Last night they met, and by a vote of 11 to 4 they decided against it.

When the matter was first broached there was a manifest disinclination on the part of several of those present to discuss it, as to where the question stood at present.

Trustee Hastings thought that a committee of the Board should be appointed to be referred to Trustees McCollum, Hastings, Fraser and McBratney.

Trustee McCollum was for facing the question then and there, and deciding whether or not to accept the amalgamation or not.

Finally a vote was taken on Trustee Hastings' amendment, which was lost on a vote of 11 to 4.

Trustees Hastings, Fraser, McCollum, Hastings, Fraser and McBratney, who were present, were in favor of the amalgamation.

ASTHMA CURE FREE

Asthmalene Brings Instant Relief and Permanent Cure in All Cases. SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overruken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. Bnai Israel, New York, Jan. 5, 1901. Dear Mr. Bros. McCann: I saw your advertisement for the cure of Asthma, and thought you had overruken yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-size bottle."

Avon Springs, N.Y., Feb. 1, 1901. Dr. T. B. Bros. McCann: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic Asthma for the past 12 years. Having exhausted my own strength as well as many others, I chance to see your sign upon your windows on 130th street, New York. I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease.

Yours respectfully, O. D. PHELPS, M.D.

Dr. T. B. Bros. McCann: I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief. I have since purchased your full-size bottle and am now in the best of health and am doing business every day. This testimonial you can make such use of as you see fit. the finest success at North Toronto on the arrival of the Duke and Duchess last month, it has been decided to repeat the program with other numbers next Friday evening in Massey Hall, when the chorus will be assisted by the foreign press corps and a number of solo artists. The plan is now at Massey Hall, and seats may be reserved without extra charge.

A talented violinist. The Buchanan-Walker recital which takes place to-morrow night at Association Hall, promises to draw a big house if the present appearance of the plan at Goutary Winter-Leeming's counts for anything. The public curiosity about the young violinist is great, and the foreign press corps claims of his work have stirred local opinion to a very considerable degree. The singing of Miss Ella Walker and Mr. Tripp's piano numbers will be features of the recital.

Miss Dunn's Recital. At Miss Margaret Dunn's recital to-morrow night in the Guild Hall, Mr. Dunn will give, with his combined cello, three very interesting selections, and Mrs. Macpherson will play Brahms' "Appassionata" in her own mastery style. The mandolin and guitar clubs are always pleasing, but without doubt Miss Dunn's recital will be the variety of her selections, will appeal to all tastes. "How Salvator" is a masterpiece description of a great artist, and more to please; with the scene from "Hansel" will cater to the musical tastes.

Wives Traded a Second Time. Huntington, W. Va., Oct. 20.—The Kentucky Hills, near the city, were the scene of a story which for some time has been a story books discredited. Just across the line lives John Liles and Edith Liles and George Danner and Lillian Danner. For 30 years these couples lived happily. Miss Danner is about 68 and Danner is 70. Edith couple have grandchildren by their first marriage.

The Elephant's Ancestry. From The London Chronicle. A satisfactory answer to this wondrous conundrum is at last forthcoming. Among the 38 boxes of fossil remains just discovered at the Cromwell-road Museum from the Libyan Desert there has been recovered an interesting vertebrate which is considered by Dr. Andrews to be the original ancestor of the modern elephant. The animal was not unwilling. Agassiz held an amicable council. The divorce was once again proposed. The divorce was followed in quick succession, and Mrs. Liles and her children were again free. Mrs. Liles again Mrs. Edith Liles and Mrs. Lillian Danner.

Children's Royal Chorus. Many of the citizens having expressed a desire to hear the school children's Royal Chorus, which was such a success at the school on Friday night.

"The Cipher Code." Many well patronized of the Grand Opera House will remember the production of "The Cipher Code," which was pronounced the best drama of the season and its revival with interest. Mr. John E. Keenan will again appear in the leading role.

The Famous Padettes. To-night at Massey Hall the second entertainment in the Hartman course will be given by the Padettes Women's Orchestra. The orchestra will be conducted by Mrs. Hartman. The orchestra has made a tour of Canada with success, and has been appearing in every eastern city, having appeared in every eastern city from Halifax to Toronto, and in all of the places being most enthusiastically received.
