

BLOOD IS WATER THE SPRING

It is lacking the essential, life-giving principle, which is best obtained by the use of DR. CHASE'S NERVE FOOD--This great Food Cure brings new hope, new vigor, new energy and new health to overcome, tired, languid and depressed feelings which come with Spring and are the outward indications of the weakened condition of the blood and the low state of vitality.

Makes Weak Women Healthy and Strong

WHEN the blood gets thin and watery the waste of the human body is more rapid than the process of reconstruction. Gradually the action of the heart grows weaker and weaker, the lungs do not work to their full capacity, the stomach and other digestive organs fail to perform their duties, and the result is all sorts of bodily derangements. Aching head, dizzy spells, indigestion, feelings of weakness and despondency, lack of energy to perform the duties of the day, loss of appetite, failing memory and power of concentration of the mind, irritability, nervousness and sleeplessness are among the symptoms which distress you, and all can be avoided by the use of Dr. Chase's Nerve Food. There is no preparation to be compared to Dr. Chase's Nerve Food as a spring restorative. It does not stimulate and so whip the organs of the body to over-exertion, but by enriching the blood instills new vigor into the system. By noting your increase in weight while using this great food cure you can prove that new firm flesh and tissue is being added

Mrs. T. Wilkes, 95 Eather street, Toronto, states: "My trouble for a long time has been with my nerves, and as a result of nervousness I was very dizzy and had severe shooting pains in my head. I have been using Dr. Chase's Nerve Food for some time with excellent results. My nervous system has been toned up, the dizziness and pains in the head are gone, and in fact I am greatly improved in health."

Mrs. R. H. Scott, 667 Queen street, Toronto, states: "For a long time I was a great sufferer from a run-down system and nervous dyspepsia, and as a consequence of my stomach trouble I was nervous and sometimes had severe headaches and dizzy spells. Since using Dr. Chase's Nerve Food I can say that my health is greatly improved, digestion is good, and I am entirely freed of the other troublesome symptoms. I think this an excellent treatment for nervous dyspepsia, as well as an invaluable system builder."

Mrs. D. W. Crossberry, 168 Richmond street west, Toronto, Ont., states: "My daughter, who sews in a white goods manufactory, got completely run down by the steady confinement and close attention required at her work. Her nerves were so exhausted and she was so weak up work entirely, and was almost a victim of nervous prostration. Hearing of Dr. Chase's Nerve Food, she began to use it, and was benefited from the very first. It proved an excellent remedy in restoring her to health and strength. After having used four boxes she is now at work again, healthy and happy, and attributes her recovery to the use of Dr. Chase's Nerve Food."

Mrs. M. Birch, 486 Dufferin street, Toronto, Ont., states: "I have suffered a great deal from nervous headaches and strange dizzy spells. As I was also quite nervous and not feeling at all well, I concluded that my nervous system was not as it should be, and began using Dr. Chase's Nerve Food. This treatment seemed to have exactly suited my case, for my health has been greatly improved by using it, my nerves are restored, I am cured of the headaches, and this is the Nerve Food, a splendid medicine. It has certainly done wonders for me."

Mrs. Hann, 8 Leonard avenue, Toronto, states: "For a number of years I have been troubled with weakness and fainting spells, nervous, sick headaches, and in fact, my nervous system seemed to be in an exhausted condition. Languid, depressing feelings would come over me at times, and I would become discouraged and despondent. Since a course of treatment with Dr. Chase's Nerve Food, I do not hesitate to pronounce it a splendid medicine for weakness of all kinds. It has been of great benefit to me, for my nerves are much steadier, and dizziness and fainting spells no longer trouble me, and my system has been generally built up."

Mrs. M. Simpson, 48 Edward street, Toronto, states: "I believe Dr. Chase's Nerve Food to be a splendid nerve-restorative, and speak for it from personal experience. My nerves were very weak and exhausted; I was easily fatigued, and would start up nervously at any unusual noise. I could not sleep at night, and during the daytime dizzy feelings would come over me, and I would feel as though I were going to faint. Dr. Chase's Nerve Food has done for me what other medicines failed to do. It has strengthened and steadied my nerves so that I sleep and rest well, and have not had a dizzy spell for some time. I feel healthy now, thanks to this food cure."

Mrs. J. H. Bell, 34 Mission avenue, says: "To one who has suffered a great deal from nervousness, Dr. Chase's Nerve Food comes as a great boon. I was so nervous that I could not sleep, and very distressing, dizzy feelings came over me at times. The use of Dr. Chase's Nerve Food has made a radical change in my condition. My nerves are now strong, I sleep splendidly and seem to have a rid entirely of weakness and dizziness."

The Body Feeds on Rich, Red Blood.

The blood is the medium by which nourishment is supplied to the various parts and organs of the body. When the blood fails to derive proper nourishment from the food, or is depleted by overwork, worry or disease, a general breakdown of the system is sure to follow.

Because of the readiness with which it is taken into the blood stream and because of its exceptional vitalizing powers, Dr. Chase's Nerve Food is the greatest blood-builder and enricher which it is possible to obtain. Such ailments as anaemia, chlorosis or green sickness, general debility and physical exhaustion are overcome by this food cure.

Dr. Chase's Nerve Food

Gradually but certainly Dr. Chase's Nerve Food increases the quantity and improves the quality of the blood, nourishes the nerves back to health and vigor, and through the blood and nerves carries new vitality to every part of the body. This great food cure brings health to the broken-down, energy to the worn-out, strength to the weak, sleep to the sleepless, and health and happiness to the sick and despondent.

GETTING GRAIN TO WINNIPEG

Continued From Page 1.

past, and declares that this weakness is being rapidly repaired. He says a hundred engines at least have been brought into the west in the past year by the C.P.R.

"It is not from Winnipeg east that our real difficulty is experienced, but rather in getting this volume of grain to Winnipeg. This was one of the essential propositions advanced by Mr. Roblin. This weakness is one of the natural results of the astonishing development of the west. Who could have foreseen such a stream of immigrants? The railroads could scarcely have met the rush even with prior notice. But the equipment was lacking. When the grain gets to Winnipeg, however, we can get it east in good shape. The heavy yield is sent to the coast would immediately inject the element of competition which the west can utilize with much benefit. The government, however, in refusing to agree to the insertion of a clause declaring the Grand Trunk Pacific rates should not exceed in the west those of the C.N.R., indicates clearly that it does not propose to permit the question of competition to enter into the considerations. As a competitor of the C.P.R., the proposed transcontinental road could confer on the west as well as the east immense benefit."

West supports Public Ownership. "It is a fact that the average haul

farmers make in the west today with their wheat is about five miles. This illustrates how completely Manitoba and the immediate wheat belt is served by railroads. Of course the C.P.R. must parallel existing lines to get thru this part of the west. That is inevitable. This would tend to destroy the accepted railroad dictum that a line can properly serve territory fifteen miles on each side of its right of way.

The west is thoroughly and irrevocably committed to the principles of public ownership and public control of railroad operations. This does not necessarily imply actual construction of and operation of the railroads, but I favor the extension of the Intercolonial and as a problem in transportation economics I believe it is favored by the west generally. Really the C.P.R. is not favored, except perhaps by speculators and what immediate territory it may touch which is not reached by railroads. You hear little of the proposition in the west for it is not looked upon as a practical solution of transportation difficulties.

"What is demanded is a strong competitive factor, such as the Intercolonial would supply if it reached into this territory. I want to add that the prospects for the west are most propitious this year. The seeding campaign properly be said to be delayed since there is usually a period after seeding begins normally when stress of weather causes a suspension of active farm work. The wheat belt is just getting this unseasonable weather a little earlier than usual. The volume of immigrants continues to tell up to last year. I have observed that the most of the home seekers from continental Europe exhibit the most serious concern to have their children educated in our schools. This is an excellent symptom as forecasting their early assimilation. I recall that some of the foremost men of the western states are the sons of these continental migrants. Strains thru the public school system removes any objectionable trait this element may contain. It is one of the hopeful signs that these foreigners accept so readily the conditions imposed. Altogether the forces making for the best references, and each one under a west are so numerous and so powerful as to leave no room for doubt as to the ultimate outcome." G. C. Postar.

S.A. IMPORTING DOMESTICS. The immigration and transportation department of the Salvation Army, working in connection with the government officials will accept deposits sufficient to pay the fare of domestic servants from England; all being brought out to be possessed of the best references, and each one under a year's contract. Once settled in Canadian home, and assured of reasonable wages, the amount of fare will be deducted. A party of 50 is expected this week, and 200 more are on the ocean. In the past three weeks 150 have been given passes.

Premier Roblin.

BRITAIN MAY LOSE IT.

Albert Edward Nyanza Found to Be in Congo Free State.

London, April 28.—The Associated Press understands that one of the most important results of the delimitation in East Africa along the Anglo-German-Congo frontier, west of Victoria, Nyanza, is the discovery that the whole of the Albert Nyanza belongs to the Congo independent state. As a result Great Britain loses an important strip of territory, including the valuable salt deposits north of the Albert Nyanza.

It is also announced that the mouth of the Kagera River is in British territory. Hitherto it has been believed to be German territory.

STREET CARS TO WHARVES.

The Toronto Railway Company, in regard to the proposed extension of the tracks on Lake-street, asks if the city will agree that no mileage be charged on the new route except from May 20 to Sept. 20, and that the company shall not be compelled to operate the service when the boats are not running.

The engineer, in his fortnightly report, says that the conditions are practically the same as were agreed to by council in 1898. He also favors the use of a Y at Yonge-street wharf while the bridge is being constructed. The engineer recommends that the street be allowed to build about 1200 feet of track running south on Woodbine-avenue from Queen-street.

CANADIANS FOR JAPAN.

About 200 Have Already Joined Mikado's Army.

A few weeks ago Dr. Dick of Yokohama was in Toronto and informed The World that he was securing recruits for the Japanese army from the Canadian veterans of the South African war. This statement was denied by the Japanese consul at Montreal, but the Calgary Herald is authority for the statement that many Canadians are enlisting in the service. It says: "Despite the statement of Consul-General Nosse to the contrary, Canadians are said to be weakly leaving Canada to take part in the Russo-Japanese war."

For some time past, great efforts have been made by the Japanese government to secure the services of Canadians who acted in the various campaigns. About 200, it is stated, throughout the length and breadth of Canada, have engaged themselves to the Japanese government.

The Japanese seem to have a very complete knowledge concerning the Canadian who took part in the various campaigns. It is stated that every one of those who took part there has received an offer from the Japanese government to proceed at once to Japan.

The offer is one which has attracted a great number of those who saw service in South Africa. Thirty dollars a month is promised, and all expenses guaranteed during the campaign. The moment the Canadian volunteers sail from Canada across the Pacific for Tokyo, he has six months' salary in advance put in his hand, to bind the agreement.

It is stated that the negotiations on behalf of the Japanese government have been conducted thru a secret service agency, which is quite independent of the bureau of the Japanese consul-general.

VISIONARY.

(Canadian Associated Press Cable.) London, April 28.—Sir George Clarke, one of the reformers of the war office, in an article in the Nineteenth Century, says he is convinced that formal schemes directed towards a closer political union between the motherland and the colonies are visionary and may be harmful. The two highest interests of the British people are security and intercommunication. The difficulty of applying an imperial fund for the army might give rise to jealousies and re-arrangements, and he suggests a 1 per cent. tax amounting to £4,000,000 for the strengthening of the maritime communications within the empire. The assistance should take the form of subsidies, bounties and loans, and an imperial maritime council should administer the fund. The council might be formed thus: The United Kingdom, 2; representatives from India, 2; from Canada, 2; South Africa, 2; Australia, 2; Newfoundland, 1; other colonies, 2; and it could sit at intervals of four years in the great centres of imperial commerce, such as Montreal, Cape Town, Bombay and Sydney.

THINGS WHICH MUST COME TO KEEP CANADA IMPERIAL

The Sunlight way of washing requires little or no rubbing. You should try Sunlight Soap. Will not injure dainty fabrics.

Byron Walker Outlines Changes Which in Future Will Decide the Empire's Destiny.

The Empire Club had a full attendance to hear Byron E. Walker discourse on "Practical Imperialism" yesterday at the Metropolitan Hotel. Walker, president, and Prof. Clark said grace. There had never been any refuge from imperialism but independence he said. Probably it was an alternative they never would have to adopt, but it was the only alternative possible to Canadians. The British, however, had an idea that we were just a little different from the British born in the island, and this was a factor to be reckoned with.

England had gone to sleep on account of her tremendous prosperity for the last 40 years. If Chamberlain's estimation did nothing more, it would have accomplished a great work. The British workman does not do a full day's work, nor a very good day's work, nor an intelligent day's work, and will have to be taught to get back to the old English standard.

An Imperial Justice.
 The colonial constitutions had some rule for the local power, and the supreme power with the federal government. Australia had reversed the usual practice, and had a supreme court of its own. He looked for the establishment of an imperial council or parliament on something of the kind in the future. It may be fifty years, and he did not know how long it would take, but he thought it must be there as well as any real imperialism.

There was no reason why there should be a universal marriage and divorce law, and the question of capital punishment, the uniformity of judicial systems, where Anglo-Saxon races were concerned, and a common notion of justice through the empire might become part of the great movement toward imperialism.

Senator Young drew attention to the grievous similarity between one-dollar and four-dollar bills at the present time, and urged that they should be altered.

Senator Beane spoke of the difficulty experienced in Montreal in meeting the wishes of the immense number of American visitors who came there to spend the winter.

Senator McMillan recalled the bill passed after the close of the American war, when the receiver-general took American money at 20 per cent. discount. He would like to see the Canadian banks refuse to accept American money. He also pointed out that American silver was not worth its face value, and reminded the house that silver certificates were not worth anything.

Senator Miller thought it a great pity that Canadians could be found to accept American money at all. He would not accept it under any circumstances, they would ruin the Canadian money, Canadians should not take American money. He referred to the circulation of American silver certificates thru the medium of Pullman car conductors.

Hon. R. W. Scott said the remedy was in the hands of the people. The banks should refuse to accept American silver. He called the attention of the house to the fact that the demand for small bills was so great it was almost impossible to get them.

The senate adjourned till May 18.

FRATERNAL SOCIETIES CONFERENCE

Annual Meeting of Association That Represents Some 300,000 People.

The annual meeting of the Canadian Fraternal Association was opened in the Temple Building yesterday with some 60 delegates present, representing the leading insurance fraternal associations of Canada, with some 300,000 members. W. J. McCann of Belleville is presiding and in the morning these committees were appointed: (1) Credentials—L. W. Hickson, chairman; (2) Finance—C. V. Emory, M.D., chairman; (3) Constitution and Laws—E. T. Essary, chairman; (4) Officers—W. H. Hunter, J. I. Shelgrove, chairman; (5) Statistics and Good Association—Hon. Robert Clark, chairman; (6) Resolutions—John Aldridge.

In the afternoon the president's address was read and referred to the report of the National Fraternal Council report was sent to the committee on the finance committee, and that of the Medical Officer Bell to the medical section which met last night in private. The paper dealt with hereditary diseases as a factor in insurance. The various committees also met last night.

Edwin O. Wood of Flint, Mich., president of the National Fraternal Council of the United States, and A. E. Stevenson, secretary of the press section of the same body, delivered addresses and were awarded votes of thanks. The supreme chief of the I.O.F. entertained the delegates during the afternoon. The meeting continues to-day, and is for the purpose of talking over matters of general interest from the standpoint of an advisory board. Dr. J. Howard Hunter, registrar of friendly societies, will address them this morning.

Those present are: President W. J. McCann, Belleville, P.C.C.F.; vice-president, J. A. Paterson, K.O.T.; secretary-treasurer, W. H. Hunter, W. J. TAX ON CIGARET SELLING

Owen Sound Dealer Would Quash the Local License Fee.

Henry Fox, an Owen Sound tobacconist, has opened an interesting argument. Are cigarettes a necessity or a luxury? He is protesting at Osgoode Hall against the right of the Owen Sound council to impose a \$250 license fee on the sale of cigarettes. H. G. Tucker, who yesterday urged that Justice Macdonald that the by-law was illegal, was in restraint of trade and aiding in constituting a monopoly. Besides, Lord Roberts had testified that cigarette smokers had more endurance, and Queen Victoria had approved of them by presenting them to her officers. The government received a large revenue from their sale, and the dealers were respectable men. Now, too, these cigarette smokers had to enter bars, which were exempt from the tax. Evidence concerning the license fee was presented by H. G. Tucker, J. C. Paterson, K.C., and W. Frost, contending that as cigarettes could still be bought in Ontario, the monopoly was created.

Mr. Fox had been fined for breach of law by Magistrate Spencer, 82 years of age, who had smoked since a boy. His argument was reserved. In Toronto \$20 license fee is exacted.

WILL LABOR AFFAIR.

Four Young Women Missionaries Appointed by Methodist Board.

There was a meeting of the executive committee of the general board of the Methodist Women's Mission Society in Wesley Building yesterday.

Four appointments were made to home and foreign fields. The application of Miss De Wolfe of Nova Scotia was accepted and she was appointed to station in Japan. Miss Dunfield and Miss Hamby of Toronto will go to Chientu, China. Miss Munn of Peterborough, who has returned from work in Japan, will be sent among the Gaidians in the northwest.

The ladies present were Mrs. W. E. Ross, Hamilton; Mrs. E. S. Strachan, Hamilton; Mrs. A. Cunningham, Kincardine; Mrs. Gordon Wright, London; and Misses Dr. Carman, Mackay, Briggs, Wilmore and Miss Wilkes of Toronto.

AT POISONED CANDY.

Winnipeg, April 28.—Norman Wilson, aged 7 years, ate poisoned candy at his home in Roland, Man., and lived only two hours.

Joseph Bourgeois, Toronto representative of La Presse, Montreal, will leave on Sunday for France, on a visit.

John Macdonald has asked the city to sell the lot on the west side of Avenue Road, formerly used for waterworks purposes.

Judge Winchester has gone to Lindsay to preside over an arbitration between landowners and the Bobcaygeon, Lindsay & Pontypool Railway.

E. J. Zavitz has been appointed director of the Forest Free Nursery which it is proposed to establish in connection with the Ontario Agricultural College.

Mayor Tripart was compelled to leave his office yesterday, as he is suffering from a severe cold, his voice being about gone, the result of exposure on the night of the fire.

A reunion of friends took place at the residence of Mrs. Boggs, 28 Westmount, yesterday to present Harry Burger, late employee of the motive power department of the Grand Trunk Railway, with a token of friendship and show the esteem in which he was held by his fellow-workmen.

Among the visitors at the city hall yesterday was Major Baker Brown, who is on his way home to England, after five years with the Royal Engineers at Hong Kong. He was recalled from Singapore on account of the breaking out of the Russo-Japanese war. Major Brown is a cousin of City Engineer Rust, and believes that the Japanese will prove victorious in the contest.

 It is Canadian Currency and Not Yankee Silver.
 Ottawa, April 28.—(Staff Special).—Sir Mackenzie Bowell drew the attention of the senate to-day to the fact that the country is swamped with the United States money. This money, he said, should not be received. A larger amount of Canadian silver and small bills was needed to meet the demands. Senator Ellis said the St. John bankers took American silver and withdrew it from circulation.
 Senator Young drew attention to the grievous similarity between one-dollar and four-dollar bills at the present time, and urged that they should be altered.
 Senator Beane spoke of the difficulty experienced in Montreal in meeting the wishes of the immense number of American visitors who came there to spend the winter.
 Senator McMillan recalled the bill passed after the close of the American war, when the receiver-general took American money at 20 per cent. discount. He would like to see the Canadian banks refuse to accept American money. He also pointed out that American silver was not worth its face value, and reminded the house that silver certificates were not worth anything.

THE HOUSE OF QUALITY

The Man's Store is still growing

We're only "shy" the boots to sell a man everything he needs to wear just now—started out contented to sell him hats and furs—and do it well—but we weren't long in finding out that there were other things we could do well—as well—if we had the store to do it in.

We've got the store—and now the "directory" in the men's section reads—"hats—furs—raincoats—two-piece suits (the newest department)—shirts—waistcoats—underwear—hosiery—gloves—collars—cuffs—neckwear—umbrellas—and leather goods"—selling the nicest goods in the city—patterns that are so different to the ordinary run—qualities that outwit comparison and selling at fair prices—

WATERPROOFED TOP-COATS

Coats that are right stylish for spring—genuine waterproofed yarn weaves in Donegal tweeds—Harris' tweeds and Priestley's cloths—we were careful to pick nice gentlemanly patterns and just as careful to have them confined to our trade—something in that you'll appreciate too—the finest stocks in the city bar none—priced from 10.00 to 30.00—like you to see a horse show week special—in a fine worsted coat—Oxford—fawn and olive shades—at 12.00

Men's Fine 2-Piece Suits

Maybe a little surprise to you to say that we're selling men's stylish 2-piece suits now that for style—quality—and finish overtop the good name of many a downtown custom tailor—well—just let your surprise make you curious enough to see for yourself what we're showing—navy and black serge—single and double-breasted—and genuine Irish and Scotch tweeds in single-breasted styles—with military patch pockets—well cut garments and the very latest New York styles 10.50 to 16.00
