BISHOP RIDLEY COLLEGE.—(Front view.)

BISHOP RIDLEY COLLEGE.

The City of St. Catharines in which the College is situated, is in the Niagara peninsula, thirty miles south of Toronto, and is surrounded by the most picturesque range of country, the garden of Canada. The climate is much milder there in winter than in other Canadian Cities, on account of its sheltered situation between the two great lakes. The summer is from three to four weeks longer than is the case to the north of Lake Ontario. The place itself is the healthiest and has the lowest death-rate of all the cities of the Dominion. St. Catharines is noted as a summer resort, and for its famous mineral springs. These mineral waters are a well-known specific for certain diseases, and they are largely used during the summer months. One of these valuable springs is on the property of Ridley College. St. Catharines is easily approached by land and water. The Grand Trunk and Niagara Central Railways pass through the City, which is only twelve miles from Niagara Falls. Two steamboats cross the Lake to Toronto daily, throughout the summer, and there is a regular service between St. Catharines and Montreal, and intermediate points.

The Building.

The property used for the purposes of the College, is a large and capacious brick structure, substantially built, and capable of accommodating between 100 and 125 boys. The building is admirably adapted for its purpose. It is heated with steam throughout. The class-rooms are commodious, and well aired and lighted. The dormitories are thoroughly ventilated, and lighted with gas. The newest system of sleeping arrangements now in use in the best English schools has been introduced. The dormitories are divided into cubicles, each containing the articles of furniture necessary for one boy. Each boy thus practically has a room to himself, containing from sixty-five to seventy square feet of space. The dormitories are used for sleeping purposes alon

The sanitary arrangements are as perfect as it is possible to make them, and the rooms used for those purposes are isolated. The drainage system is as complete as possible in every respect. There is a steam laundry in connection with the building.

Religious Instruction.

The religious instruction is that of the Church of England in Canada. Morning and Evening prayers are said in the College building. Regular instruction is given in the Holy Scriptures in the first half hour of each day. Instruction is also given in the Catechism and Book of Common Prayer. It is the aim of the authorities to develop manly and earnest Christian character.

Literary Instruction.

Thorough instruction is given in all the usual subjects, special attention being given to Classics, Mathematics, Modern Languages, and the various branches of the English Department. Boys are prepared for matriculation, with honours in all departments, in any University; for entrance into the professions of Law, Medicine and Theology; for admission into the Royal Military College, etc. There is a Commercial Department for boys wishing to enter business life, without a University education. Special care is taken to have regular supervision in the preparation of lessons, especially among the younger boys. See page 30.

Physical Training.

The facilities afforded by the climate and situation of St. Catharines for physical culture are unequalled in Canada. Care is taken to make every boy take a regular amount of healthy exercise every day. All the masters are expected to take an active interest in the boys' games.

The Gymnasium.

One wing of the building has been fitted up as a gymnasium. It is seventy-five feet long, and is amply large for all requirements. It is well lighted, and heated by steam, and is fitted up with the best gymnastic instruments obtainable.

Drill.

Every boy in the College is obliged to take the instruction in Military Drill. The College is divided into two squads. The squads are drilled on alternate days, except Wednesday and Saturday.

Cricket.

The principal summer game is cricket. A very fine cricket ground has been purchased in close proximity to the College, containing about seven and a-half acres of level land. It is 726 feet long and 400 feet wide. In time it will be one of the finest cricket grounds in Canada. There is a flourishing cricket club in existence, and great enthusiasm is manifested in the game.

Football

is the other great College game. It is played in the autumn, and the long open season affords special facilities for the attainment of excellence in this invigorating game. The cricket ground is available for football also, there being sufficient room for two, or even three matches to be played at the same time.

Tennis.

The tennis club is by no means a minor organization. The game is very popular and is played a great deal. There are three excellent courts, two grass and one cinder court, and it will be easy to add others to the home play ground, when necessary.

Boating.

One of the great advantages of the position of the College is the many facilities for physical development. The institution has already made a reputation for the vigorous health of the boys. Not the least important factor in this result is the fine stretch of water lying just in front of the building. The old Welland Canal, almost a river from the College down to the lake, is now used hardly at all for traffic. From the lock, a few hundred feet away, to the lake, it is a wide and picturesque stream, two miles long. A large and commodious boat-house has been erected on the College property for the use of the boys' boats, and canoes.

Swimming.

Within a short distance of the boat-house is the bathing crib, a large and very strongly built structure, made of heavy timbers. It is forty feet long, and eighteen feet wide, surrounded by a stout trellis work, to allow the water to flow freely through it. The bottom is planked. This immense bath tub is two and a-half feet deep at the bank, sloping gradually down to four feet in the deepest part. There the boys take a daily bath in the summer time, no boy being allowed outside the crib until he has learnt to swim. This year there was only one boy in the whole College who could not swim.

Carpenter Shop.

A carpenter shop has been fitted up on the grounds, and regular instruction is given, during the winter months. A small fee is charged for instruction. The cost of a set of tools for beginners is \$8.

Medical Inspection.

In the matter of regular Medical Inspection, the College follows the rule in practice in many of the best English Schools. A physician inspects the College twice a week, at a stated hour. Any boy is at liberty to consult him privately. Slight ailments are thus detected at once, and taken in time, preventing serious developments. Every precaution is taken to insure as perfect a state of health as possible among the boys.

Fees.

The fees are as follows:—

BOARDERS.

Board and Tuition	-	-	-	\$267	per annum.
“	“	-	-	89	“ term.

If, however, payment be made in advance, that is, within fifteen days from the beginning of the term, a discount will be allowed, reducing the fees to the following:—

Board and Tuition	-	-	-	\$240	per annum.
“	“	-	-	80	“ term.

DAY BOYS.

Tuition	-	-	-	-	-	-	\$67.50 per annum.
"	-	-	-	-	-	-	22.50 " term.

If, however, payment be made in advance as above, the fees will be as follows :—

Tuition	-	-	-	-	-	-	\$60 per annum.
"	-	-	-	-	-	-	20 " term.

Each new boy, upon admission to the College, is required to pay a fee of \$4, which is devoted to the maintenance of the Boys Library and Reading Room. He is also required to pay a fee of \$10, to provide for the cost of bed-linen, towels, etc.

The above fees include everything except Music, Drawing, Books, Stationery, and Medical attendance, in case of serious illness.

A Half-term's Notice must be given in writing before the removal of any pupil. If such notice is not given, a half term's fee will be collected.

Books and Stationery are supplied in the College, at the ordinary prices.

Music.

Fee for Piano with use of instrument,	\$15 per term.
" Violin	15 "

Bursaries.

A number of Bursaries of the annual value of \$90 each, may be obtained by the sons of the clergy throughout the Dominion of Canada. Application for them must be made to the Principal. These Bursaries are held from year to year, but may be extended throughout the whole course of a boy's residence at the College, if his conduct and progress are considered satisfactory.

Regulations for Boarders.

All boarders are required to have every article of clothing, linen, etc., clearly marked with the full name. A list of things required will be found on the last page. It is intended merely as a guide to parents.

Boarders from a distance will be allowed to remain in the College during the shorter vacations, upon payment of \$5 per week for board.

Boarders are strictly prohibited from having eatables in their bed-rooms.

Parents are particularly requested to send the boys' pocket money to the Principal, who will see that a small sum of the money so sent, is supplied to them weekly. The system of occasional remittances to the boys personally, is strongly deprecated.

Terms and Vacations.

There are three terms in the College year, *Michaelmas Term*, *Lent Term*, and *Easter Term*.

The vacations are as follows:—Three weeks at Christmas; one week at Easter; nine weeks at Midsummer.

Special Awards.

Thomas R. Merritt, Esq., presents a Gold Medal to the college boy standing first at the Matriculation examination of Toronto University.

The Hon. S. H. Blake, Q.C., presents a Gold Medal to the Head Boy, if recommended for faithful performance of duties as Head of the School.

Mr. Alderman Griffith, of Hamilton, presents a Silver Medal for General Proficiency in the Fifth Form.

The Rev. A. H. Baldwin, M.A., will offer a prize next year for proficiency in Latin Prose. N. W. Hoyles, Q.C., will offer a prize for proficiency in Greek Prose. The Right Rev. the Bishop of Huron presents a prize for proficiency in Divinity. Geo. Goulding, Esq., will offer a prize next year for proficiency in the Holy Scriptures. For the names of generous donors of prizes this year, see page 23.
