The Opening.  
The first session of the seventh legislative assembly was formally opened this afternoon by His Honor Lieutenant Governor Wood. On account of the recent political changes more than usual interest attached to the proceedings and the attendance of spectators was very large. More than 800 ladies and gentlemen occupied seats on the floor of the house, while the galleries were crowded to their capacity. The governor of honor was furnished by the 23rd battalion and was in command of Captain E. J. Mooney. The guard, wearing kilts, left the barracks at 2:30 o'clock and proceeded by the hand, marched to Parliament Square and took up a position facing the main entrance. The governor and party were received with the customary general salute. The members assembled in the chamber at three o'clock and were called to order by Attorney-General Currie, who declared that His Honor would give his reasons for summoning the legislature when a speaker had been elected.

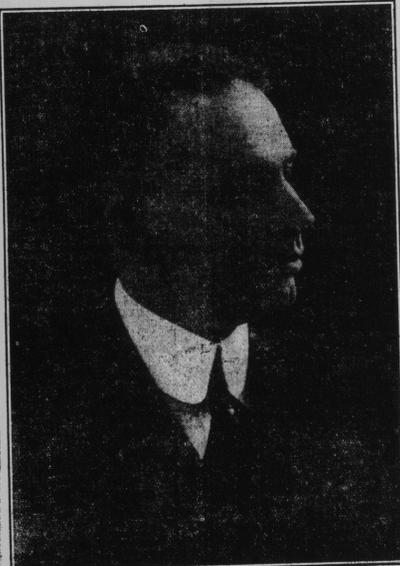

William Currie, Speaker.  
Premier Foster nominated William Currie, of Restigouche, which motion was seconded by Attorney-General Currie, and carried. The new speaker was then escorted to the chair, and in a brief speech thanked the house for the honor conferred upon him. He then retired and the lieutenant-governor, preceded by his military staff, entered the chamber. His Honor, being seated upon the throne, was pleased to open the session with the following speech:

The Speech.  
Mr. Speaker and Gentlemen of the Legislative Assembly:—  
It affords me much pleasure to welcome you on your assembling for the discharge of your legislative duties for the first time since the general election, and I extend to you all a hearty greeting, and trust that the result of your deliberations at this time may be of great benefit to the province.

It is a matter of regret that you should be called upon to assemble at this inconvenient season of the year, when the attention of so many of you is required in connection with the general election, and the recent general election and the change of administration made an earlier meeting of the legislature impossible, and also makes it necessary to postpone legislation upon many important matters.

Since the last session of this assembly, His Royal Highness, the Duke of Connaught, has completed his term of office as Governor General of Canada and returned to the mother-land, bearing with him the sincere appreciation of the people of the Dominion for the able, impartial and tactful manner in which he discharged his important duties, as the representative in this country of His Most Gracious Majesty, the King, and with the kindest wishes for his future welfare and that of his gracious consort and family. It was therefore with deep regret that I deeply regret that it was learned that Her Royal Highness the Duchess of Connaught, after returning to England, had been taken seriously ill and passed away, and I am sure that the sympathy of the people of this province will be in common with that of the whole Dominion, go out to His Royal Highness and family in their great bereavement.

His Royal Highness was succeeded by another distinguished representative of

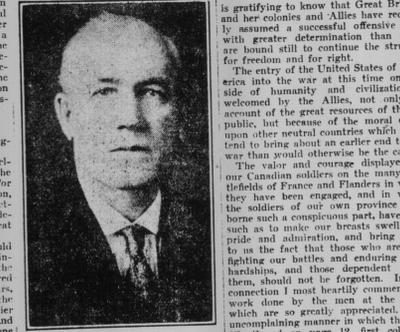

HON. W. E. FOSTER, Premier.

SETBACK AT FRESNOY NOT  
LOOKED UPON AS SERIOUS

Hard to Hold and Recapture Cost Enemy  
Heavily—Brunt of Defence Not On  
Canadians

London, May 10.—Correspondents at British headquarters in France, referring to the situation at Fresnoy, say the village had been difficult to hold ever since the Canadians captured it on last Thursday. As the British were not in possession of the villages of Achelle and Oppy, respectively to the north and south, Fresnoy was greatly exposed. Standing out from the line like a bastion, the Germans made strong attacks daily on each side of the village to prevent the British from getting forward to strengthen their position. In their final assault the German employed their own resources to give the British had used in taking the village. Their losses are declared to have been so severe that if we had used up every man we had on the field we should not have approached them in numbers, and if the operation costs us some ground we have a large credit in man power to balance it. The Canadians apparently were not the main defenders of the position, the brunt of the attack falling on South England troops, whose stubborn resistance is highly praised. It is said that they were worn out and compelled to give way before the overwhelming strength of the enemy. Nevertheless it was the same men who, after an hour's breathing spell, reattacked and recovered a large part of the ground. The correspondents describe the set back as being on a small scale and such as is bound to occur from time to time, provided the enemy is willing to stand the losses such assaults entail.

WILLIAM CURRIE, Speaker.

our sovereign, in the person of the Duke of Devonshire, who has already shown a deep interest in Canada by visiting several of the provinces, and acquainting himself with the people and the various industries carried on, and we join in extending to His Excellency, and the Duchess of Devonshire cordial welcome to Canada, and trust that they may visit our province at an early date, where a hearty welcome awaits them.

There was also very general regret that during the recess Honorable George J. Clarke, who had filled the office of premier and minister of lands and mines in this province, passed away after a long and severe illness.

The War.  
It is a matter of the deepest regret that the great world-war which has been going on with increasing intensity for the last three years, still continues. It is

British And French  
Both Make Gains

Haig's Men Advance Near Bullecourt and Elsewhere—French Forces Capture Fortified Position and Defeat Fresh German Troops

London, May 10.—Progress was made by the British last night in the neighborhood of Bullecourt, east of Grisecourt and south of the Souchez River, so says today's official announcement.  
FRENCH GAINS.  
Paris, May 10.—A fortified position on the Vaucourt plateau was captured last night by the French. This is announced officially. Heavy artillery fighting continues in this region, where the Germans made a counter attack with a division of fresh troops. Several German counter attacks along the Chemin des Dames were repulsed. The statement follows: "During the night the enemy attempted, without success, several rather feeble counter-attacks at various points along the Chemin-des-Dames. All his efforts were defeated by our fire. A counter attack in greater force against positions carried by us in the region of Chevreux met with the same fate and did not prevent us from making further progress and capturing a fortified point of support. Prisoners and a machine gun remained in our hands. "On the northern slopes of the Vaucourt plateau we carried out on operation which enabled us to enlarge our gains and to take prisoners belonging to this part of the front. Artillery divisions of troops which arrived recently on this part of the front, Artillery fighting continues actively in these sectors. East of Hill 105, near La Poisselle, north of Beaucourt, and in the region of Metzereil, patrol skirmishes and grenade fighting occurred.

RUSSIAN GENERAL  
IS ASSASSINATED

Riga, Russia, May 9, via London, May 10.—Major General Kartsoff, commander of the Siberian rifle division, has been assassinated. He was attacked while walking near the railroad station. BITTER ATTACK IN  
FATHERLAND ON  
GERMAN AMERICANS

Amsterdam, May 10, via London.—The "Dutchman" of Rotterdam is the feature of an article in the "Kroniek" of Amsterdam in which the author attacks the German-Americans in the United States. Referring to the loyal resolutions passed at meetings of German-Americans, he says: "German-Americans could not betray their old mother country more shamefully, seeing that nobody will assert that the United States is a land of slaves, and that the German-Americans are in danger by Germany. The more pitiful is the cowardly side with which the million German-Americans in the United States are treating their own people to the German people as to themselves."

CORP. CHAS. HUMPHRIES  
BACK TO FIRING LINE

Fairville Soldier Has Been in Hospital in France—Hopes to See War End This Year

Many Fairville friends will be glad to know that Second Corporal Chas. Humphries, son of Charles E. Humphries, has about recovered from illness and by now is being discharged from No. 1 Base Hospital, France, where he has been undergoing treatment. Corp. Humphries is a very popular chap in his home town, being a member of the baseball league. It is good news to hear that he is able to be out and at it once again. The following are extracts from the letter to his mother:—  
France, April 10, 1915.  
Dear Mother—  
Just a few lines to let you know I am O. K. and expect to leave the hospital today or tomorrow, on my way back to the firing line. I would sooner be up there than down here, as the time goes slower here, there being nothing to see and no people that I know. We get plenty of clean clothes and can have a bath every day. I suppose you will hear of the great Canadian attack. I hope to be up there to see some of the fighting that is going on. It will make a big difference in the end of the war what our boys are doing now. We may see Canada this year after all. I am making great plans on that, anyhow.  
The United States joining in will help matters out a great deal and bring things to a close much sooner than would otherwise be possible.  
I don't know how the weather is in Canada, but it is very cold here. I have never seen such cold weather here at this time of year.  
Your loving son,  
CHARLIE.

Admits Forcing Belgians to Fight in German Ranks

Copenhagen, May 10, via London.—A representative of the German war department had admitted in the Reichstag that some Belgian subjects resident in Cologne were drafted into the German army, in spite of their protests that they were veterans of the Belgian army. The admission was made in answer to an interpolation by a radical socialist deputy. The war department official pointed out that the question of citizenship in the case would be reviewed.

RETURNED SOLDIERS  
AIR GRIEVANCES AT  
TORONTO MEETING

Urge Employment Bureau in Toronto And Reorganization of Canada's Pension System

Toronto, May 10.—Returned disabled soldiers aired some grievances at a public meeting in Massey Hall last night presided over by His Worship Mayor Church. They complained that the government was dilatory, that the Patriotic Fund officials were unympathetic, and that alien enemies and society workers were being employed in munition factories to the exclusion of returned soldiers and soldiers' wives. They urged the establishment, at once, of a civic employment bureau for returned soldiers and re-organization of the pension system in Canada.

NEWFOUNDLAND  
PREPARES FOR BIG  
FISH BUSINESS

St. John's, Nfld., May 10.—Preparations are being made for the operation of Newfoundland fishing fleets and curing plants on a larger scale than ever this year. It is the general expectation that an unusually large amount of fish will be exported to the United States, where it is thought the demand will be greatly increased by the war conditions and the high prices of other food.

SAYS STEAMER SUNK;  
PROMINENT PEOPLE LOST

London Chronicle Criticizes Admiralty For Not Giving Out News

London, May 10.—The Daily Chronicle says:—"Perhaps the House of Commons will be given some explanation today of the mysterious reasons why the admiralty pursues its inconsistent policy and conceals facts as well as issues misleading statements. About two weeks ago a large steamer was sunk and seventy lives lost, some of them people of note. No news has been published of the disaster. Other outrages involving loss of life have been announced and descriptions published. On what principle does the Admiralty censorship work?"

### Good Things Coming — Theatres of St. John

#### BEST ASSORTED BILL YET AT OPERA HOUSE

Everybody in town is going to the Opera House this week and the high class programme of five good vaudeville acts and the 13th chapter of the "Crimson Stain Mystery," has been universally commended as the best assorted bill of the present vaudeville season. Adeline Lowe and Company, four English music hall pantomime artists, present a novelty act that is seldom seen outside of the very largest city theatres, and there are other acts on the programme of equal calibre. Whether you are a regular vaudeville patron or not—if you only go to the theatre once in a while, you will find a heavy load and genuine entertainment in this week's programme. Every afternoon at 2:30; every evening at 7:30 and 9. People's little price.

#### ONE OF THE BEST OF BILLS AT THE GEM

Clara Kimball Young in "The Dark Silence," gives a gripping performance of a great part in superb play. St. John has before paid twenty-five cents to see this great actress. The Gem keeps to its own small prices. Then the vaudeville is exceptionally good. There's music with merry jingle and fun galore is enjoyed. Come tonight.

#### FIRE ON BRITISH MOTOR SHIP

Newport, R.I., May 10.—The British motor ship Sebastian, which was abandoned by her crew today while on fire off Nantucket shoals tonight was reported by a United States war vessel last night as in tow bound for this port. Postmasters have been directed to post it daily in their offices.

A weekly bulletin also is planned, especially for issuance to weekly newspapers, which will be asked to copy as many items as possible. Edmund S. Hooper, former editor of a Washington newspaper, is editor of the Official Bulletin.

#### DOUBLE TEAM RUNAWAY

A span of horses owned by the Dominion Express Company took fright while standing in King street this morning and ran away. They threw off a large iron head weight and dashed across the street, heading for one of the largest windows in the Royal Hotel. When the wagon struck the curb stone of the horses was thrown on the sidewalk and both were brought to a stop. The harness was torn off one of the horses and partially off the other. Both animals were caught before they had a chance to run farther.

### WASHINGTON HEARS TALK OF PEACE ADVENT

#### Idea, Says Steck Report, Appears to be German Back-down—The Stockholm Conference

J. M. Robinson & Sons' private wire (telegram)  
New York, May 10.—"Underground rumors" of peace have become persistent. For two or three days there have been vague suggestions in well informed circles referring to peace developments of a definite character. It is intimated in some quarters that Washington has had information of this character from German sources. The idea appears to be a backdown by Germany. The advice here influenced very important operators to settle short commitments, notwithstanding the liquidation by wealthy individuals in connection with the war financing.

Copenhagen, May 10.—"The Peace Mission" of M. Borgbjerg, a Danish Socialist leader and editor, as made known to the executive committee of the socialist and workers' delegates of Russia, apparently is taken more seriously in radical socialist circles here and there. Here or here in Berlin. M. Borgbjerg's own paper here hastens to weaken the positive statements of the Copenhagen News Agency by a denial that M. Borgbjerg has any official mission beyond inviting the Russian socialist to the Stockholm conference and the declaration that the peace conditions he described may be regarded as part of the peace programme which the Danish Socialists, after a conference with Philip Scheidemann, leader of the majority Socialists in Germany, may suggest as the possible basis for a settlement.

No comment has yet been received from Berlin concerning this situation, but the latest advice received by the Associated Press here is that M. Borgbjerg and his associates now entertained little expectation of any immediate peace, and that the utmost they expected from the Stockholm conference was to keep burning the flickering torch of the German government through Dr. Helfferich, the vice chancellor, and the Cologne pacifist, has dissociated himself from the Socialist programme and there is hope to believe that no placing this upon an independent act of negotiation.

Russians Decline.  
Petrograd, May 10, via London.—A conference of the extreme wing of the Socialist party has discussed M. Borgbjerg's peace terms and passed a resolution of that nature. The fact that M. Borgbjerg was acting in agreement with Philip Scheidemann and other German Socialists, and that the latter is directly or covertly the agent of the German government, has been pointed out by the Russian Socialists who take no part in a conference with him or Herr Scheidemann.

### BANGOR BELIEVES IN CLEAN-UP WEEK

(Bangor Commercial.)  
Bangor will have its annual Clean-Up week beginning Monday and everyone will have the privilege of having the accumulation winter rubbish carted away free of expense. There will be a co-operative movement of city officials, the Chamber of Commerce, the children, women's club members and school children to make Bangor as spick and span as possible.  
The teams of the street department, under direction of Street Commissioner Woodbury, will make collections. Mayor Woodman, President F. W. Farrar of Bangor Chamber of Commerce, the leaders in the women's clubs, School Superintendent Wormwood, and the teachers in public, parochial and private schools will all lend their help to make Clean-Up week a big success.  
"Every citizen ought to have pride in his city's appearance at all times," said Mayor Woodman, "but during the summer season when Bangor has so many visitors it's the duty of all to take an interest in cleaning up and spread the clean up idea as far as possible. Every man, woman and child should co-operate to make Bangor look its best. Co-operation for Clean-Up Week will mean successful results and I'm hoping that this will be the best clean-up week we have ever had."

### REACHED VIMY CREST AND THERE WAS HIT

#### Pte. J. G. Parrett of St. John Writers of the Fierce Canadian Charge

Miss M. Graham, of 42 Brussels street, has received a letter from her nephew, Private J. G. Parrett, who was recently reported wounded. The letter follows:  
"No doubt by this time you have been notified of my being wounded, but do not worry, I am coming along fine. I was wounded at Vimy Ridge, and no doubt you have read all about that terrible battle and wonderful advance we made. It was the first day of the big push and the Canadians stormed the ridge with fixed bayonets. It is something that I will remember to my dying day. Hell itself could not compare with it. We drove the Germans like a flock of sheep, for it was impossible to stop us. We had advanced about three miles and then we stopped on the top of the ridge and that was where I got hit.  
The Germans were shelling us very heavily, and a shell struck just beside me. It was a miracle that I was not blown to pieces. As it was blown about ten feet in the air and landed on my back. When I realized what had happened I looked around to see whether or not I had lost a leg or arm, but they were all there. I had a piece of shrapnel in my left arm at the elbow, another in the right lung and about twenty small pieces in the left side. I got bandaged up as well as possible and started back. I will never forget it. I sure had a rough trip. Well I am in England at last. The wounds are very nearly healed and I am able to move around."

### SOME SEWERAGE PROBLEMS

After considerable difficulty, the water department has succeeded in clearing the main sewer in Water street, which has been blocked between Princess street and Market square. It was found to be filled solidly with sand and gravel which had been washed in off the streets. As the pipe is practically level, the material accumulated.

Owing to the wet weather it was impossible to make repairs today to the collapsed wooden sewer in Winter street. The sewer is not only directly under the car tracks but is down ten feet below the surface.

A renewal of the main sewer from Union to Waterloo streets has been practically completed except for the portion under Unger's laundry. At one point the sewer was found to be completely blocked and the sewerage had been escaping through a hole in the side, running along the side of the adjoining building and re-entering another hole in the wooden sewer.

Work will be started tomorrow laying a new sewer in Adelaide street from Main to Metcalfe.

### THE U. S. WAR TAX BILL, PLANNED TO RAISE \$1,800,000,000

Washington, May 10.—The new war tax bill to raise \$1,800,000,000 in the next year was reported to the house yesterday with the approval of the ways and means committee. It probably will be brought up for action today and house leaders expect its passage within a few days.

Most of the revenue would come from these taxes:  
On incomes, normal rate of 4 per cent for individuals, with exemptions of \$2,000 for married persons and \$1,000 for unmarried, and graduated super-taxes on incomes of more than \$5,000; 6 per cent on corporations; increased taxes to be effective from January 1, 1917.

On excess profits, 16 per cent.  
On luxuries, new taxes by a graduated scale running from one-half to 15 per cent, present inheritance taxes to remain.

On imports all existing tariff duties raised ten per cent, and ten per cent duty imposed on articles now admitted free.

Minor taxes include:  
Increase of letter mail from two to three cents an ounce, and of newspaper rates by a same system.  
Liquor and tobacco taxes probably doubled.

Levies by stamp taxes or other means on life insurance policies, pipe lines, electric power, telephone and telegraph lines, and on the manufacture of automobiles, cosmetics, proprietary medicines, musical instruments and pleasure boats; on newspapers 5 per cent of advertising collections.

### NEW DRILL ARRIVES

The steam drill for use in the stone quarry at the corner of Rodney and Lancaster streets has arrived in the city and will be put to work immediately. It was ordered on March 31 and cost \$269. The new drill was needed to replace one transferred to the Kennedy street works. So far this season the crusher in West St. John has been running on stone left over from last fall and on material left by Kane & Ring, who were quarrying large stones there for a government contract during March and April. The material which was too small for their purpose has kept the crusher going while the department was waiting for the new drill to arrive.

PROSPECTIVE LEGISLATION

The speech from the throne at the opening of the provincial legislature to-day, shows clearly that the new government has taken an intelligent grasp of public affairs and is proceeding to carry out the pledges made when in opposition.

CANADA LACKS LEADERSHIP

Referring to the promptness and energy with which the United States has entered upon a great food-producing campaign, the Toronto Globe points out how this had already been done by Germany, Austria, France and Britain, and adds these unpalatable but unhappily true remarks:

"The only country of any great importance in relation to the general food supply of the world which has not made even a good beginning in this sort of preparation for war is the Dominion of Canada. Not that the people of this country are unaware of the importance of the problem, nor that the inevitable shortage of food during and after the war; they are quite aware of the danger of inaction and delay, but they are without organization, and there does not seem to be any help coming to them from any effective source. For any unpleasant, not to say disastrous, consequences that may result from national inaction in this crisis the Dominion government will be held solely to blame. It alone can control absolutely the whole food situation, including production, storage, transportation and marketing. Millions of acres of land are available for cultivation that will be left untilled, because it is not the business of anyone in particular to see that it is utilized. Voluntary organization can do and is doing a great deal, but all it can accomplish is a bagatelle compared with what might have been done by the government had it set to work in time to make the necessary preparations. When it is brought face to face with any unusual situation the government always falls down, as it is doing now, and appears to the public as an aggregation of weaklings."

An authority on tuberculosis says: "The cure of tuberculosis is not a matter of drugging, but of intensive hygienic living, mental and physical. It is wholly a question of developing within the patient great resistive power. Outdoor life, restful life, well nourished life, cheerful life—this is the essential thing. On this basis thousands who seemed doomed to an untimely end have been restored to health. It is said up to about 1850 tuberculosis caused from 20 to 25 per cent. of all deaths. Today it causes hardly more than 10 per cent. And this rate is certain to be further lessened as public knowledge grows of the means both of preventing and curing tuberculosis."

The fact that seventeen requests from farmers for boys had come in to the local immigration office before the present school-boy movement had been started, is an indication that every available boy will find a place and an opportunity to aid in the campaign for increased production.

We will all want to see the president of the board of trade and Mr. Estabrook and other leaders in business circles renewing their youth in the fields that are ripe for the harvest. Fortunately many of them knew the farm in their boyhood and know where the buttermilk jar is usually to be found.

The battle of Fresno is still in progress. The casualty lists coming over the cables will be a constant reminder of the thinning ranks of the Canadian divisions. And yet no adequate effort is made to get recruits.

The toll of the submarine was smaller last week, but it was still far too great. The shipbuilding programme cannot be hastened too fast. It will take months to build a vessel.

The weather man is affording the people ample time to organize for farm work. Let us hope he will hasten the crop growth later in the season.

The attempt to get volunteers for the defence force in Canada is as fruitless as that to get men for overseas. What will the government do about it?

Those who cannot help to increase food production can reasonably be expected to prevent waste of food. It all helps to beat the Germans.

Are the Four Fruits Used in Making "Fruit-a-tives"

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-tives because I have tried other remedies and they did me no good." On the other hand, the fact that "Fruit-a-tives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. "Fruit-a-tives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 30c a box, 6 for \$2.50, trial size, 25c. AMERICANS ARE PUTTING FULL WEIGHT INTO WAR

(New York Times)  
Lord Curzon tells England that "the Americans are already putting their full weight into the war." It is true, and it surprises England it was not altogether expected by us. It is a variation from our record, and not what is customary either with England or with this country. Our ancient custom has been to begin a war by deprecating it, and it has been England's too. This is the first war we ever went into which we began as if we were going to have a big job on our hands. England did not begin this war in that way, and undoubtedly did not expect us to do it. What is more important, neither did Germany. If England is surprised at learning it, Germany will be astounded when she learns it.

ried bidding to secure immediate delivery for far future needs." The United Mine Workers' new wage scale, which went into effect last week, increases production cost between 24 and 30 cents a ton, and "is a beneficial and steady factor in the industry," say the commission. Leading operators' prices at the mine for May provide for this wage increase, and "there is no justification for a larger increase to be passed on to the consumer."

Prices for May at the mines are quoted at \$3.61 a net ton for egg, \$3.84 for stove, and \$3.98 for chestnut coal.

WAS TROUBLED WITH SHORTNESS OF BREATH

When the heart becomes affected, there comes a feeling of choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness, and a weak, sinking, all-gone feeling of oppression and anxiety.

The nerves become unstrung, you dread to be alone, have a horror of society, start at the least noise and are generally fatigued.

On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills should be taken. They are just what you require at this time. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mrs. C. M. Corrier, Buctouche, N.B., writes: "Since two years ago I was troubled with a shortness of breath, and sometimes I could hardly breathe. I went to see several doctors, and they said it was from my heart and nerves, but they did not seem to do me any good. One day I got one of your B.B.B. Almanacs and read of a case, similar to mine."

"I bought a box of Milburn's Heart and Nerve Pills, and after taking it I noticed such a change that I kept on taking them until I had used four more boxes, when I was cured."

Milburn's Heart and Nerve Pills are 25c a box, three boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Reports Submitted at Annual  
Meeting Show Wide Extent of  
Valuable Work Carried on

The annual meeting of the Soldiers' Comfort Association was held yesterday  
afternoon in Centenary church parlors  
with Mrs. H. A. McKewen presiding.  
The recording secretary, Mrs. John  
LeLachur, in her annual report, told  
of the securing of a secretary, Miss Mar-  
ion Belyea.

The treasurer's report, by Mrs. J. W.  
Holly, then followed, and showed a  
very encouraging financial standing. To-  
tal receipts for year were \$10,842.28; to-  
tal expenditures, \$7,819.91, leaving a bal-  
ance in the bank of \$3,022.78.

Mrs. Holly also read the wool report  
for the past.

The organizing secretary, Mrs. P. R.  
Warren, stated that three new branches  
had been formed during the past year,  
making a total of thirty-one branches.

Packing and shipping committee, con-  
venor Mrs. H. H. McLellan, reported \$49  
cases sent overseas, containing 2,818 pack-  
ages, besides socks and magazines.

The Girls' Circle, S. C. A. report, read  
by Miss Hilda Shaw, showed a total of  
160 packages sent last year besides 1,000  
cigarettes to the Canadians in East Africa  
and also a consignment of socks to the  
5th Mounted Rifles.

The Alexandra Circle, Mrs. Mathison,  
secretary, have shipped 100 parcels and  
their cash receipts for the year are about  
\$200. They are giving 88 each month to  
the yarn fund.

Mrs. M. E. Grass, gives total cash re-  
ceipts as \$810.12, socks donated, 800 pairs,

Rothsayer Circle, and the following  
branches all sent reports: Campbellton,  
Gagetown, Perth, Ingleisle, McAdam,  
Woodstock, Welsford, Chipman, Macer's  
Bay, Sussex, Norton from New Brun-  
swick, and Laurencetown and Yarmouth  
in Nova Scotia.

the officers for the coming year. Most  
of the appointments were unanimous,  
there being little or no competition. The  
officers are as follows:

President, Mrs. George McAvity.  
First vice-president, Mrs. H. A. Mc-  
Kewen.

had joined a battalion in the trenches.  
He is only eighteen years old.

charge of the office in the city, has been  
transferred to the 62nd C.D.F. He is  
the only member of clerical staff so far  
appointed.

Mrs. Thomas Tracy, Richmond street,  
has received a brief letter from her son,  
Edmund, who has been a prisoner in  
Germany for months. It is five months  
or more since word had been received  
from him and his people were getting  
anxious. Of course the letter contains  
no information regarding conditions in  
the camp.

Mrs. William Campbell of Frederic-  
ton, has received word from Ottawa  
that Gunner Albert Johnson, of the  
88th Field Artillery that was stationed  
in Fredericton for some months, has

the word received yesterday by Dr.  
James Manning, his father, in a letter  
from Captain Harvey F. Crowell, second  
in command of C company, 88th bat-  
talion. The officer speaks highly of the  
courage, bravery and thoroughness of  
the gallant young officer and of the great  
attention he gave to the welfare of his  
men.

held in their rooms, in Prince William

Knowlton in the chair. W. Frank  
Hatheway was the first to give evi-

the claims, he stated that, as a general  
rule, it was very hard to depend on  
them, and gave several examples from  
the case of Ohio, where this system is  
used. Some companies in particular  
make very large profits. One, during  
eight years, had 65,000 claims made by  
workmen, of which only six per cent  
were ever paid. He also quoted the  
case of a combine of companies in  
Ohio, which, for a period of two years,  
received \$3,000,000 in premiums and only  
paid out \$2,500,000 for losses. This ex-  
tra forty-six per cent, which was paid  
for the injured workmen, went to the  
policy holders of the companies. This

Knowlton in the chair. W. Frank  
Hatheway was the first to give evi-  
dence. As regards depending on in-  
surance companies for the payment of  
the claims, he stated that, as a general  
rule, it was very hard to depend on  
them, and gave several examples from  
the case of Ohio, where this system is  
used. Some companies in particular  
make very large profits. One, during  
eight years, had 65,000 claims made by  
workmen, of which only six per cent  
were ever paid. He also quoted the  
case of a combine of companies in  
Ohio, which, for a period of two years,  
received \$3,000,000 in premiums and only  
paid out \$2,500,000 for losses. This ex-  
tra forty-six per cent, which was paid  
for the injured workmen, went to the  
policy holders of the companies. This  
great waste would be done away with

of the government insurance scheme were  
carried out. In Ohio when this plan  
was finally adopted, the cost of admin-  
istration for the first year was forty  
per cent, the next three months, twelve  
per cent, and the next week five per  
cent. This steady reduction brought  
the cost well below that of the neigh-  
boring states. The Ohio act includes  
all classes of persons, even those ex-  
cluded under our act.

The chairman expressed as his opinion  
that New Brunswick's pay roll of but  
\$100,000 would suggest the framing  
of an act with special regard as to  
where the revenue was to be obtained.  
In Ontario, where there was a very  
large revenue, the cost of administration  
was comparatively small, but in New  
Brunswick, where the revenue is very  
small, the proportionate cost of admin-  
istration would be large. Little or no  
help could be got from the experiences  
of other provinces, as all legislation on  
the point was very recent.

John W. Bruce, labor organizer, spoke  
on behalf of the workmen. He stated  
his belief in the moral right of the  
laborer to compensation for injuries re-  
sulting from the course of his work, as he  
received in the course of his work, as he  
was injured, it would have to be  
repeated, and so with the laborer.  
Only seven per cent were the fault of  
the employer, 7.8 per cent of the work-  
er, and 69 per cent the result of the  
act of the business. This  
great proportion of injury which is  
caused by the business, should be paid  
for out of the business.

Fred R. Taylor, appearing for the  
C. P. R. and Dominion Express Com-  
panies, mentioned that the present act  
was not entirely satisfactory to anyone,  
but it might not be wise for the com-  
mission to make any changes until the  
new act was passed. He thought that  
New Brunswick was rather small to  
carry out the state insurance scheme. It  
would become hard on the careful em-  
ployers to have to help bear the cost  
of another's carelessness. He expressed  
an opinion that a large part of the ex-  
pense of administration might be done  
away with by giving this to the county  
courts judges. As it seemed to him, if  
the present act were remedied and  
amended and the proportion of com-  
pensation increased, it might be a very  
satisfactory act. The meeting broke up  
about 9.45.

Don't Go By—  
Blue-jay

Don't Keep That Corn  
Every drug store that you pass has Blue-jay  
waiting for you.  
Stop and get it, and it means the end of any corn.  
Pass it by, and the corn will stay. You know  
that from experience.  
Blue-jay does more than end a corn. It proves  
that corns are needless.  
Apply it, and the corn pain stops. Leave it on  
two days, and the whole corn disappears. Only  
extra stubborn corns need a second application.  
Prove that once, and corn troubles end forever.  
You will never again permit them.  
To millions of people—users of Blue-jay—corns  
are a pest of the past.  
Do what they did—try it. See what a Blue-jay  
does. Learn why so many millions are now used  
each year.  
Lay aside the old-time methods. Use this  
modern way tonight. You will wish that you had  
started years ago.

## As Moslems See German Rule

Rejoicing Over Victory By the British

### Treated Like Abject Slaves

### Vivid Glimpse of Tribulations of Islam Under German Flag—Plots Against Their Religion

"Successful propaganda on the part of the Germans," says the Algerian Al-Harb, "has been obtained only in Moslem lands," and this, the Arabic journal in London, says, is the result of the German diplomatic in inducing Turkey to enter the war and the Semait to revolt against the British in Egypt. The Moslem organ then proceeds to paint a picture of what would happen to the Islam if the world if it were passed under the German rule, and supports its arguments by citing a quaint account of the medieval notable in Dar-es-Salaam who gives us a vivid glimpse of the tribulations of Islam under the German flag. The writer says that Akbar-el-Harb, according to a translation in the Literary Digest, is Sayid Sulaiman bin Yusuf, the leader of the Moslems in German East Africa.

### Hunting the German Tiger

He writes exultantly of the capture of Dar-es-Salaam by the British, and says: "The German tiger who were wont to devour the Moslems here has been hunted away by the victorious British forces, who have captured Dar-es-Salaam. God having delivered us from their claws we are filled with gladness and rejoice, as men who come forth from a prison of misery where they have languished long. Truly my pen is powerless to describe all the sufferings endured by the Moslems of Dar-es-Salaam under the German rule. We have been treated as abject slaves, and worse; assuredly the very dogs in civilized lands are better treated than the Moslems here. They are a nation who hate Islam with an implacable hatred and hold it in utter detestation. For our persons and property they showed no respect. We endured at their hands many forms of suffering and injury—seizure of our goods, reviling, and imprisonment without cause—for the considered end and purpose of the Germans nothing else but the destruction of our race and the ruin of our religion.

### Fighting Islamism.

"The German officials here were cruel oppressors, imposing upon the natives a single law—that of the rod. If any Moslem complained to a German official, he was treated as a criminal, and that governor paid not the slightest attention to his complaint, nor granted redress, but treated him as a criminal and delivered him to his minions, who would revile and beat the man and cast him into prison. For our persons and property they showed no respect. We endured at their hands many forms of suffering and injury—seizure of our goods, reviling, and imprisonment without cause—for the considered end and purpose of the Germans nothing else but the destruction of our race and the ruin of our religion.

### What Smuts Found

Curiously enough, Sayid Sulaiman's contentions are in a measure confirmed by General Smuts, who found among the captured papers at Mosh a circular signed by Dr. Schner, the governor of German East Africa, and sent to all military stations, instructing the recipients to report on methods used to combat the spread of Islam. According to the London Times, in which it is published, the circular asks of each local officer:

"Do you consider it possible to make a regulation prohibiting Islam altogether?" "The encouragement of polygamy among natives is recommended by the spread of Islam.

### AIM IS TO SHUN TROUBLE AND AVOID WORK

The country has had no organization and leadership during the war. The government has been afraid to do anything that might provoke dispute. It has put things in the hope that the danger could be avoided, or that the danger would be solved by the flower-bed farming of the great cities of Canada. It is in part due to this policy that the government has been unable to do anything to solve the problem of the unemployed.

## FAMINE, APPROACHING, FINDS OTTAWA IN TRANCE

In Still Another Crisis Everything Left to Private Initiative—No Lead From Government

(Toronto Star.) It has quickly become a matter of universal knowledge that the world is about to go hungry. The evidence that proves it is so plain that nobody can doubt it. Germany and Austria, being half-starved already, are striving by means of ruthless submarine warfare against every ship that floats to prevent food supplies reaching Britain and France. But even without the Atlantic menace—which will gradually, but surely, be taken care of—something like famine threatens the nations because there is not in sight the promise of enough food to go around, even if it can get around.

The world is in arms, and for three years in succession has the carting of food production has been stopped. Millions of men—shall we say twenty or forty millions of them—are withdrawn from productive occupations and engaged in destructive work. Not only so, but the crop outlook is bad. Argentina and the United States are not producing wheat for their own supply. Britain is actually borrowing half of its food from the bushel, when the North American crop is harvested. And on top of that is the fact that the United States will be the poorest in thirty-five years.

There is, therefore, the utmost need for such a country as Canada putting forth her utmost endeavor in the way of food production. In this country we have almost unlimited facilities with our western plains, and with such a province Ontario to be speeded up. In England public parks and private grounds have been put under cultivation because only in that way could extra production be secured. In Canada we have a few hundred acres of fertile land in England. Here we have half a continent devoted to agriculture, but only wheat at half price for lack of national credit. In Canada we have a vast area of land, but we are not utilizing it. We are not utilizing it because we are not utilizing it because we are not utilizing it.

### CLARA KIMBALL YOUNG STAR IN ONE OF BEST OF GEM'S PROGRAMMES

Superb War Picture in Which Great Actress in Red Cross Nurse—The Vaudeville Full of Laughs

Everybody knows it. But the government of Canada has not ventured to undertake anything new, has failed to organize in advance for the conditions of war, and instead of a great national effort being in full swing at this time, we are left with individuals and groups, anxious to do what they can, but without the aid of the government. The government has not the need that exists, and we are aware, every one of them, that the world while can be done, but it is not done. Here we have a continent devoted to agriculture, but only wheat at half price for lack of national credit. In Canada we have a vast area of land, but we are not utilizing it. We are not utilizing it because we are not utilizing it.

### RECENT DEATHS

John W. Smith. On Friday morning, May 4, John W. Smith died suddenly of heart failure at the home of his daughter, Mrs. Juliana Wright, Dorchester (Mass.). Percy Pickard Gunn. The death occurred in Sussex Tuesday morning, May 9, of Percy Pickard Gunn, the only son of the late John Gunn, of Fredericton. The deceased was a well-known citizen. For some years he was the representative of J. & A. McMillan, of this city, and afterwards travelled for McFarland Sons & Hudson, Montreal, later establishing the business of the Gunn Paper Company, which he was engaged in for a few months ago, when he was compelled to retire on account of ill health. As a salesman he was very energetic and popular among the trade and associated travelers, who will learn of his death with extreme regret. His wife, who was the daughter of the late Rev. A. S. Townsend, survives him, also four sons—Edwin, Townsend, Jack and Gustav—Edwin, Townsend, Jack and Gustav. Deep sympathy is felt for the wife and family. The funeral services will be held at 2 p. m. Thursday from his late residence, School street, Sussex.

John Chickard. St. George, May 8—John Chickard, aged seventy-five, died on Monday from the effects of a shock suffered some time ago. He was born in Penfield but had lived in St. George for many years. Mr. Chickard was a good citizen and well thought of in the community. The funeral was held Wednesday from his residence to St. Mark's church, where services were held by the rector, Rev. Mr. Spencer. Burial was in the family lot at Penfield. His widow survives to mourn the loss of a loving husband.

Mrs. Leonard Mason. Apolquai, May 9.—The death of Mrs. Leonard Mason occurred at her home here on Tuesday, the 8th, under particularly and circumstances, leaving as she did five motherless little children, the eldest being but seven years old, and the youngest twenty-eight years of age, and before marriage was Miss Agnes Mason, and coming from England when a young girl. Besides her husband and children, she leaves one sister, her parents being dead. Much sympathy is expressed for the husband and little ones in their great loss.

The death of Mrs. Thomas Smith, of Harcourt, occurred on April 18. She was ninety-eight years old.

Richard W. Birmingham of East Boston, probably the oldest man from point of service in the Eastern Steamship line, has passed away. He was well known in St. John, as he ran to this port for many years while connected with the Steamship service. It was, until recently, captain of the Camden. The funeral will take place tomorrow in Bangor.

These huge mechanical cars to bear on an aeroplane 20 miles away will be placed on the roof of the Philadelphia City Hall. ### DISPEPTICS SHOULD AVOID DRUGS AND MEDICINES

Try a Little Magnesia Instead.

Some people instinctively shut their eyes to danger, and it may be that, in some cases, they do so. They apply to take drugs, patent foods and medicines, artificial digestants, etc.

But closing the eyes does not banish the danger, and it is certain that neither drugs nor medicines possess the power to destroy the harmful excessive acid in the stomach, which is the underlying cause of most forms of indigestion and dyspepsia. They may give temporary relief, but ever increasing quantities must be taken, and all the time the acid remains in the stomach as dangerous as ever.

Physicians know this and that is why their advice so often to sufferers from indigestion or stomach trouble is "Just get out from your druggist and take the natural, the safe, the excellent, the responsible in a little water immediately after every meal. This will instantly neutralize all the harmful acid in the stomach and stop all food fermentation, thus enabling you to enjoy hearty meals without experiencing the least pain or unpleasantness afterward.

### Coal Prices

### Not Justified

Verdict of U. S. Federal Trade Commission:

### Supply To Be Big One

Will Expose Dealers Who Try To Take Advantage of Situation Arising From Public Excitement

Washington, May 9.—Retail prices of coal generally obtaining are unwarranted, the Federal Trade Commission ruled today in a report to congress wherein it censured the public not to indulge in a "buying panic."

The consumer should buy as in past years, not try to hoard four months' supply in a single month, the commission said.

Moreover, it announced that it intends to expose any dealer or speculator who tries to stampede the public into abnormal buying, or who tries to justify high prices, especially at this time, for all and the output will be increased.

The board held that there is no justification to pass on to the consumer any increase in the price of coal that is not warranted by an increased cost of production or to apply.

The wage increase agreed upon April 29, the commission states, will involve an increased cost of production of from twenty-four to thirty cents per ton.

"But there is no justification for a larger increase to be passed on to the consumer," the commission warns.

The coming year, the commission has been assured by operators and miners' representatives will be one of unusually large production.

### Denounces Car Storage System.

The commission flays as "intendable" and "unwarranted" the practice which caused the coal panic of last winter. Coal was held in cars by speculators, while storage cars were alleged as a cause of fuel shortage, the commission found. Continuing the report says:

"The commission also calls attention to other activities of speculators in anthracite coal who perform no useful service in distribution, but who insert themselves as a disturbing factor upon the industry and whose unearned profits are so much greater than those enjoyed by either miner or operator or honest dealer."

"These profits in many instances more than 100 per cent, were paid by the consumer."

### Little Boy Had Eczema

On Face and Hands—Local Doctors Treated Him in Vain—How Cure Was Finally Effected.

Trenton, Ont., May 10.—This letter will interest all mothers of young children, because it tells of the best means obtainable of overcoming the annoying and torturing skin troubles which come to so many children.

Mrs. Waldron had several doctors treating her boy for eczema, but all in vain. Finally she heard about Dr. Chase's Ointment and her letter tells of the wonderful results obtained by the use of this soothing, healing ointment.

Mrs. Samuel Waldron, George street, Trenton (Ont.), writes: "About four years ago my little boy had a rash on his face and hands which the doctor called Eczema. He gave us a wash for it, and some ointment which we used, but without benefit. I think we tried all the doctors here. Finally we tried Dr. Chase's Ointment, and gave it a good trial. We could see that it was gradually healing. At first it appeared as if it would never get rid of it entirely. During the winters of the next two years we noticed a symptom of the disease under the skin. Each time we used Mrs. Chase's Ointment curing it both times. The last two years he has not had any return symptoms at all, so we think that he is now entirely cured."

Dr. Chase's Ointment, 60c a box, at all dealers, or Edmondson, Bates & Co., Limited, Toronto.

### How You Can Remove Every Trace of Hair

(Toilet Talk.) A stiff paste made with some powdered delatone and water and spread on a hairy surface about 2 minutes will, when removed, take every trace of hair with it. The skin should then be washed to free it from the remaining delatone. No harm can result from this treatment, but be sure it is delatone you get and you will not be disappointed.

### Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon, apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

### SUPREME AND INEXORABLE

### A Boston Paper's Tribute to the British Navy

(Boston Herald)

So silent is about our classics work, so little does it present to public observation, that we may be apt to forget for a time that the British navy is the most powerful force in the great war.

There are just now a few small reminders of its existence. Foreign Secretary Balfour and his party have voyaged securely to one of our ports, doing us the honor to come all the way from London to Washington for a conference on American co-operation in the war.

Premier Lloyd George has returned from Italy to England, after a consultation with the French and Italian premiers. Half a squadron of German destroyers, attempting what Admiral Jellicoe calls a "tip and run" raid, has been sunk in the English Channel, the other half fleeing in the dark.

These things tell us that there is a British navy. And if we survey the whole war situation, and consider for a moment, we see that it would have been vastly different and might have been disastrously so, but for the British naval operations.

In this stupendous war the forces engaged in actual fighting at sea have looked less important than the forces fighting on land, and the naval battles have really been comparatively trifling in themselves, though their consequences are felt throughout the world.

It was no great feat for the British navy to begin with the capture or destruction of the German cruisers on the east and west coasts of Africa, and in the Indian Ocean, but the control of those waters prevented Germany from sending any troops to succor her most valuable colonies.

After the easy demolition of Cradock's little peace squadron in the south Pacific by Von Spee, it was almost as easy for Sturdee to come from England with his battle cruisers and send the German admiral's squadron to the bottom. The Dogger Bank engagement was no more than a running fight, Beatty sinking the Blucher, and two other German cruisers only escaping in flames.

The one fleet action, off the Jutland falls to cure. Send for list of testimonial. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists, 7c.

### GERMANS DISBELIEVE WAR OFFICE REPORTS

Number of Doubting Thomases is Growing Large; Bulletins Treated With Scepticism—Frenzied Explanations

Copenhagen, May 9, via London.—All is apparently not easy sailing for the German military authorities in their efforts to convince the people at home that everything is going well on the western front. The German military critics occasionally refer in their articles to letters of criticism from readers on this or that feature of the war reports, indicating not only an unwillingness to take the official bulletins and the despatches of the war correspondents at their face

value, but also that the number of doubting Thomases is large.

A few weeks ago, as is evident from articles by Captain Salimann in the Vossisch Zeitung, and by other writers laboriously replying to a flood of critical letters, there was displayed an inability to see a great victory in Von Hindenburg's strategic retirement. Now a writer in the Deutsche Tages Zeitung says that many a good patriot is struck by the discrepancy between the German and the foreign reports and is showing a hesitation to accept the German figures of the number of enemy airplanes destroyed.

Another point now made as during the Somme offensive, is the refusal of the British and French to discontinue attacking, despite the often reiterated official declarations that the general offensive has broken down in defeat. These were accompanied last year by calculations to show that Germany's opponents had exhausted their vast reserves, but the statements were subjected to such repeated revision that this year a more opening use is made of the argument.

A feature of the war in recent days has been the steady extension of the appeal to public sentiment on the part of the military. The attitude at the outset was that the public were entitled to no information and that the less published, even in the official bulletins, the better. This, however, has yielded to recognition that without popular sentiment behind it, the conduct of a successful war is impossible. The military authorities themselves established for this year's campaign a big organization to supply the press with popularly written discussion and description of military events to supplement the official bulletins and the despatches of the war correspondents. These articles are now being issued so copiously that the press is able to print them only in part, although they generally are timely and well written.

It seems probable that the army's official bulletins, despite the numbers that regard them skeptically, still hold the confidence of the general public. They certainly did so up to the time of the Associated Press correspondent's departure from Berlin in contrast with those of the admiralty, whose publicity work, especially after the Bluecher fight and the battle of Jutland, was received with considerable skepticism in Germany.

Miss Lillie Krans of St. Louis joined the Bowman Sunday school in 1894 and has not missed a session since that time. Miss Stella Krans, a sister, has 20 years' perfect attendance. Miss Marie Krans has completed 14, and a brother, Carl, has attended 10 years.

"Lady, kind lady," cried a tramp, "I won't deceive yer—I'm dying for a drink." Well—there's the pump. "I said a drink lady," was the outraged rejoinder, "not a bath."

### RAILROAD MEN MUST KEEP FIT

There is a splendid fraternal spirit among the men who earn their living on the railroad. Good news is passed along from man to man, and it was in this way Mr. Frank Lee, a well-known Buffalo Pullman car conductor, learned how he could free himself of terrible pains in the groin and back and painful urination from gravel, the result of his kidneys being out of order.

He treated for two months, when one of his railway friends whose life had been despaired of, but who had made a very quick recovery through using Gin Pills, strongly recommended Mr. Lee to try them, and as he says, "The pain left me entirely. I feel as well as I ever did in my life. I recommend Gin Pills to everybody in any way troubled with kidneys or bladder."

Not only do Gin Pills assist nature to cleanse the system through the kidneys, but they stimulate the bowels, quickly relieving constipation.

All good dealers sell Gin Pills at 20c a box or 6 boxes for \$2.50. Free sample upon request to the National Drug and Chemical Company of Canada, Limited, Toronto.

## The Onward Sweep of Prohibition!

When the staggering cataclysm of the world-upheaval broke over Europe in 1914, the Entente Nations faced not one, but two powerful foes—Germany and drink!

By one gigantic stroke Russia shook herself free from the toils of the monstrous vodka demon. Many other nations followed her wonderful example in varying degrees. From the great upheaval must come compensations. One of the greatest for Canada is her great heritage—Prohibition.

### Sports and Drink

A well-known baseball manager says:

"Because constant, 'moderate' drinking gets a ball player just as sure as boozing. I don't bother with youngsters that drink."

### THE CANADA TEMPERANCE ACT

The policy of the Dominion Alliance is to encourage the repeal of the Canada Temperance Act (Scott Act) in counties in which it has been operating. Where this is done the new Provincial Prohibition Law would then become effective.

It is always easier to enforce one uniform law. The New Brunswick Government cannot put its new law in effect in Scott Act counties, as the latter is Dominion legislation, which has precedence over provincial legislation. Friends of temperance who live in Scott Act counties are, however, asked to co-operate in the more thorough enforcement of that Act so long as it continues in operation.

### Help to Enforce Prohibition

Since September 16, 1916, Ontario has enjoyed good enforcement of Prohibition in all, but a few districts. Not the most daring anti-prohibitionist harbors the slightest hope for a return to the curse of the traffic in Ontario. Here are some figures showing results in Ontario's largest cities for the last three months of 1915 and 1916:

	DRUNKENNESS		ALL OFFENCES	
	Under License	Under Prohibition	Under License	Under Prohibition
Toronto	1915 2,908	1916 953	8,291	5,682
Ottawa	286	234	587	607
Hamilton	498	61	1,341	749
London	367	144	783	501
Brantford	152	16	354	260

Note—"It will be noted that Ottawa has not much reduction in arrests for drunkenness, and that it has an actual increase in all offences. It is perhaps strange that it should show any reduction in the drunkenness record, inasmuch as it is separated only by a river from the license city of Hull."—Pioneer, Toronto.

United public opinion in New Brunswick can enforce any law—upon every man and woman in the province lies the responsibility of helping the officers of the law enforce Prohibition properly.

Government Has Delayed for Six Years

Liberals Urge Action

Valuable Report Has Been Neglected—House Discusses Scott Act in New Brunswick

Ottawa, May 9.—It is now nearly six years since a commission, after visiting all the countries of Europe, made a report and recommendations on the question of technical education. The report was one of the most comprehensive and exhaustive ever made by any royal commission in the dominion and the recommendations contemplated the appropriation by the federal government of \$3,000,000 per year for ten years for the development of an effective scheme in all the provinces of the dominion.

Hon. Mr. Lemieux was informed that the government would consider a suggestion that postal rates be reduced on parcels addressed to men on overseas service. E. M. MacDonald, of Pictou, was told that information would be secured as to the proposal made in the committee of ways and means of the United States congress in regard to an extra duty for war purposes and its effect upon free wheat. P. B. Carvell, of Carleton, suggested that the government bring in legislation repealing the Canada Temperance Act in the eight counties of New Brunswick where it was in force and interfering with provincial prohibition. Sir George Foster pointed out the doubtful wisdom of interfering with a law that was in effect by the vote of the people. The people themselves could vote for the repeal of the act.

But that didn't end the matter. Thornburn, of North Lanark, and Blain, of Peel, both voiced approval of the resolution from the minister's own side of the house, and Clarence Jamieson, of Digby, came out in open revolt against the deplorable policy of the minister. "Parliament," he declared, "has been for eight years considering this question. The matter of cost should not be taken into consideration in view of the results which could be obtained. We are told to wait till the war is over, but opportunity does not wait. We did not prepare for this war, but let us prepare for peace."

The minister of labor even then did not lose his expression of self complacency, but Sir George Foster, acting premier, perceived the need of doing something. That something, it is true, was about as indefinite as it well could be, but it served to save the situation. He objected to the motion of Mr. Lemieux as binding the government to the acceptance of all the recommendations of the commission. He would, however, be pleased to move an amendment providing for "reasonable assistance at the earliest practicable opportunity."

A committee of the house of commons is to be appointed to consider means of reducing the cost of the session of parliament. In the house tonight Sir George Foster as acting premier accepted a resolution moved by W. B. Northrup, of East Hastings, urging that in view of the pressing need for national economy, a committee of nine members of the house be appointed, five to be named by the acting leader of the government and four by the leader of the opposition to consider and report upon the total cost of parliamentary sessions and the best way of reducing that cost.

A resolution moved by H. Boulay, of Rimouski, calling for the appointment of men only to all positions in the public service carrying a salary of \$800 or more was given a cool reception and finally was withdrawn. Before the house adjourned several questions were put to the government.

PALE, DELICATE GIRLS

Does your daughter inherit a delicate organization from you? The anemia of young girls may be inherited, or it may be caused by bad air, unsuitable food, and irregular eating, insufficient out-of-door exercise and not enough rest and sleep.

It comes on gradually, beginning with languor, indisposition to mental or bodily exertion, irritability and a feeling of fatigue. Later comes palpitation of the heart, headache, dizziness following a stooping position, frequent headaches, and breathlessness. In a majority of cases constipation is present. There may be no great loss of flesh, but usually the complexion takes on a greenish-yellow pallor.

Cases of this kind, if neglected, become serious, but if taken in time there is no need to worry. The treatment is quite easy and simple. Dr. Williams' Pink Pills, which are free from any harmful or habit-forming drug are just the tonic needed to remedy this wretched state of health. Though it is not noticeable, improvement actually begins with the first dose. As the blood is made rich and red the pallor leaves the face, strength and activity gradually return and if the treatment is continued until the last symptom disappears the danger of a relapse is very slight.

If any symptom of anemia appears, prudence suggests that Dr. Williams' Pink Pills should be given at once, and the sooner they are taken the more speedily will the trouble be overcome. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

NATIONAL EFFICIENCY

To the Editor of the Times-Star: Sir,—These terrible days of war are making us think of and plan for efficiency. It is to be sincerely hoped, when peace is declared, that the lesson learned at so great a cost will not be forgotten.

"Experience is a dear teacher." Writing from Mesopotamia to a friend in Winnipeg, in May, 1916, the late Sir Victor Horsley says: "Our gross failures and stupidity are, in my opinion, due to the whiskey affecting the intellectual organs and clearness of our leaders. Of course they do not realize that alcohol in small doses, acts as a brake on their brains. If they did, then they would have sufficient loyalty to follow their King's example."

It was no far-fetched or fanciful declaration of Premier Lloyd George when he said: "Alcohol is Britain's greatest foe." Prof. Kraepelin, of Munich, invented an instrument for testing human efficiency. With it he proved that a single glass of beer lessens a man's efficiency by seven per cent, and two drinks of

whiskey robs him of twenty-three per cent, of his normal power, leaving him little better than three-fourths of a man. The Cox of all the Russians knew the truth of all this when in effect he said to his army: "You are only three-fourths of a man."

If we need four-fourths men to go to the front, what manner of men do we need for the heroic battles of home and peace?

\$75,000,000 LOAN FOR BELGIAN RELIEF

Washington, May 9.—The United States has arranged to make a loan of \$75,000,000 to Belgium which will be expended by the Belgian Relief Commission. The loan will be advanced at the rate of \$12,500,000 a month, of which

\$7,000,000 will be available for relief in Belgium and \$5,000,000 for relief in northern France.

By making this loan the United States will take the burden of the relief of Belgium and France from the shoulders of Great Britain and France and conduct it from this country so far as possible.

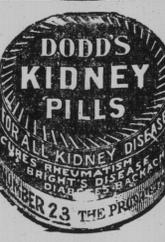

New York Welcomes Joffre. New York, May 9.—New York surrendered unconditionally to Joseph Jacques Joffre, marshal of France, and the French war commission at 4:35 o'clock this afternoon. Not only did the new world's largest city capitulate to the hero of the Marne and to Rene Viviani, former premier of France, who headed the war mission to the United States, but it accorded them a triumphant entry.

Never have visitors to New York been given so tremendous a welcome. At least 1,000,000 of its citizens turned out to pay homage to the great soldier and the great statesman of the sister republic.

Things gained are gone, but great things done endure—Switzerland.

WAR TAX WILL HIT BALL MAGNATES; PARKS MAY CLOSE

New York, May 8—American fans probably will have to pay baseball's share of the war tax. Magnates in all leagues are bending their energies toward the enactment of a Federal law which will require the payment of a stamp tax before a fan passes the gate. They claim the requirement of a tax on a club's gross receipts, as has been suggested, would result in a tax on each admission ticket, would have to go out of business in some sections. President John K. Tener of the National League, is one supporter of the plan to tax single admissions.

(Continued from page 1.)

The province have borne the imposition of a tax of more than half a million dollars in aid of the Canadian Patriotic Fund is an evidence of their determination to do all in their power to assist the empire to win the war.

I am pleased to inform you that my government has under consideration a proposition of the Military Hospital Commission to assist in providing hospitals for the treatment of returned soldiers suffering from tubercular disease, and also for a convalescent hospital. You will be asked to make provision for the amount required to effect this most commendable object.

**Food Question**

I am pleased to be able to congratulate the farmers of the province upon an abundant harvest, for which they have realized good prices. The increased production of foodstuffs is one of the most important matters now commanding the attention of the empire, and upon it depends in a considerable measure the successful issue of the war. My government recently called a conference of all those interested in this important matter, which was very largely attended, and gentlemen of national reputation in agricultural matters delivered most interesting and instructive addresses. I have no doubt that the provincial committee appointed by the said conference will forward the movement with energy and success.

**Valley Railway Inquiry**

My government on assuming office found the Saint John Valley Railway, legislation for the construction of which was passed at the session of 1910, still uncompleted. A commissioner has been appointed to enquire into the affairs of the Saint John and Quebec Railway Company, and the evidence taken and the report thereon will be laid before you when the same are received.

Tippett, of West St. John, and he is also survived by a sister, Mrs. William Johnston, of the west side. The funeral will take place on Saturday afternoon at half past two o'clock from the home of E. F. Tippett, 229 King street, west end.

**SACKVILLE HEADQUARTERS**

Blanchard has received authority to commence recruiting at once. It is understood that he will take over the old quarters of No. 1 divisional ammunition column, which was mobilized in that town under the command of Lieut. Gunn.

**THINKS THERE'S SOMETHING LACKING IN THE SYSTEM**  
Case of St. John Carpenter Who Wanted to Assist in Aviation Work

In the efforts to build up the Canadian aviation corps, opportunity is given for the employment of a large number of skilled mechanics in various lines, in addition to the men who are to be trained as fliers. Several local mechanics are anxious to aid the cause in this way, but so far, have been unable to join.

Reporting his own experience and that of several friends, a St. John man today ventured the opinion that there is something wrong with the system.

This man is an experienced carpenter and cabinet maker, and he believes that he could be of service in constructing the air machines, even if he was not fitted to fly them. He wears the "A. R." button, to which he shows his right by five rejection, for technical reasons which do not interfere with his work at his trade. He is still anxious to do his bit, and was delighted when he received a communication from Ottawa, drawing attention to his statement in his national service card and suggesting that he could be used in the aviation corps. A circular enclosed said that they could use skilled mechanics even though not up to the overseas standard, and pointed to this as an opportunity for men who had been rejected. Instructions were given that applicants would be given transportation to upper Canada to pass, first a trade test and then a physical test, or else they could apply at the nearest recruiting office.

In order to save the expensive trip, the local man applied to local military doctor and the latter, after an examination, assured him that he could not pass the physical test. Among his friends there are several other skilled workmen who have been rejected for overseas service, but whose general health does not interfere with their putting in a hard day's work six days a week. These men cannot understand why they would not be of as much use to the government as to private employers, and are inclined to question the wisdom of such stringent physical tests for purely mechanical work in Canada.

**FURTHER WORD TODAY**  
Letter From Comrade Confirms Sad News—Certain Now That Lieut. K. T. Creighton Has Been Wounded—Bombardier McInerney in Casualty List

Mrs. Thomas Maxwell of 52 Prince street, West St. John, received word this morning from Ottawa, that the effect that her son, Pte. James Maxwell, who had recently been reported missing, believed to be killed, was now officially reported killed.

A letter received by Mr. Wheaton, West St. John, from his son, confirms the official message, Young Wheaton was a chum of Pte. Maxwell, and in his office and only yesterday received a letter from Maxwell at his side during a charge. Pte. Maxwell is the first of a large number from St. George's church, West St. John, who have enlisted, to give his life. Pte. Maxwell is survived by his wife, a native of England, and two children, the elder two years old; also his parents, Mr. and Mrs. Thomas Maxwell, West St. John.

**Lieut. K. T. Creighton**  
While the first report may have been in error, there is now no room for doubt that Lieutenant Kenneth Thompson Creighton, formerly of this city, has been wounded.

A despatch from Winnipeg, where he had been engaged as day editor with the Winnipeg Telegram, before the war, appeared in a Montreal paper about a month ago announcing that Lieutenant Creighton had been wounded. As no further particulars were received and his name did not appear in the casualty lists, his father, H. C. Creighton of this city, made inquiries through the record office and only yesterday received a letter informing him that Lieutenant Creighton had not been wounded up to April 18 and, as the newspaper report had appeared before that date, the family was greatly relieved.

Following close on the reassuring communication another letter from Ottawa arrived today, with the official announcement that "Lieutenant Kenneth Thompson Creighton, Canadian Expeditionary Force, was admitted to No. 30 General Hospital, Calais, France, on May 5, 1917, suffering from a wound."

**Bomb. H. O. McInerney**  
Bombardier H. O. McInerney, of Richibucto, N. B., whose name appeared in the casualty list given out in Ottawa last night, is a son of Edward McInerney, and a first cousin of Judge H. O. McInerney of this city. His brother, George, who is also in the Canadian militia, was wounded some time ago while fighting in France. Another cousin, George Y. McInerney, of Rexton, N. B., was wounded and has returned to the fring line.

### ST. JOHN MEN AT FRONT

Writing from France on April 21, having rejoined a Canadian unit there, after recovering from wounds, a St. John soldier writes that four members of the "B" Squadron and four more of the original 6th C. R. in the camp to which they were sent, were killed on the 14th. One was wounded once, two twice, and the fourth three times, but all have recovered and are again on active duty. He met Lieut. Cecil Hicks, and also saw Murray, of Broad street, St. John, whose brother was wounded last year, but is again at the front. He also saw Harley Grimmer, who is now a sergeant-major and looking very fit. The latter is a brother of Lieut. Grimmer of the old 6th and later of the 140th.

### FROM PTE. J. H. POWERS

Private James H. Powers, who left here with a New Brunswick unit, writing to Miss B. McEwaine of 75 Bridge street, from London, England, says that he said that he is attending a signal school. He said that the 104th regimental band had given a concert in Brighton on Sunday and received a great reception. "The air rounds with regimental music," writes Private Powers, "and I was to have gone to France but unfortunately did not reach there as yet. I saw Lieut. Collins, also Fred and Wilfred Kelly last week and they are looking well. I saw Lieut. Powers attached to a Company of the 13th Reserve Battalion. He sends his best regards to all his friends in St. John.
