BEWARE OF TENDER GUMS

Unhealthy soil kills the best of wheat. Unhealthy gums kill the best of teeth. To keep the teeth sound keep the gums well. Watch for tender and bleeding gums. This is a symptom of Pyorrhea, which afflicts four out of five people over forty. Pyorrhea menaces the body as well as the teeth. Not only do the gums recede and cause the teeth to decay, loosen and fall out, but the infecting Pyorrhea germs lower the body's vitality and cause many serious ills. To avoid Pyorrhea, visit your dentist frequently for tooth and gum inspection. And use Forhan's For the Gums. Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions, and consult a dentist immediately for special treatment. 35c and 60c tubes in Canada and U.S. If your druggist cannot supply you send price to us direct and we will mail tube postpaid. MIRACLE MAN WILL BE FAIR ATTRACTION

Will Be at George Creary's Semi-Ready Store on Charlotte Street for Ten Days.

The Miracle Man has promised to spend ten days in September at George Creary's store on Charlotte street, and he has timed his visit so that it will cover the whole period of the fair.

"Visitors to the exhibition at St. John say that they read in the papers about tremendous bargains, but when they make their annual visit to our city prices revert to normal and they never get any opportunity to get real bargains," said Mr. Creary. "Perhaps they are right—I know that the dollar has depreciated in value—but this year I am going to attack that problem with vigor. I believe the visitors to our fair should be regaled with other things than amusements and entertainments. They should be given the best investment and money saving opportunities. The Miracle Man is going to help me in the greatest money saving sale right at the opening of the fall season, and the clothes I will sell are all genuine semi-ready tailoring—every suit of them!"

J. H. Wheaton, of Metcalf street, a deck hand on the steamer D. J. Purdy, fell down a flight of stairs on the boat on Tuesday morning, injuring his arm.

MISPLACED FAITH.

There was an utterly fruitless discussion of harbor commission by the city council yesterday. The motto—"Have faith, trust the government," will not do in a matter so vital to the city's interests. The city would commit an act of folly to give away its harbor now, after all the years of effort. That effort was based on faith, not in a government, but in the harbor, and it has been amply justified by the fact that now more trade is offered than the present facilities can accommodate. It was a sore disappointment to hear the doctrine of despair preached at city hall. The members of the city council know very well that there can be no comparison between Montreal and St. John, and that the St. John harbor commission act differs from the others cited. This city did not ask for harbor commission. There was no need of it, unless upon terms that would guarantee the rapid development of facilities and conserve the rights of the port. If we cannot trust the government to carry out the agreement of 1911 why exchange it for a worse one?

The apparent desire of one or two members of the council to give the act to the people without themselves giving clear expression to their views will not favorably impress the citizens. If members of council do not know how to vote and give clear and satisfactory reasons therefore, they should never pass the question on to the people.

The Globe says that the opponents of this harbor commission act have nothing else to offer. Again the Globe misrepresents. They offer the agreement of 1911, which, if carried out will give the west side all the facilities required, as fast as they are required. They offer also the fact that great concessions were given the government to enable it to provide terminals for the C. N. R. at Courtenay Bay. Where are these concessions? What has been done to carry out the 1911 agreement and the pledge of Sir Robert Borden? The government now has two railway lines running to St. John, and has a rapidly growing fleet of steamships which must use St. John and Halifax as winter ports, or fall to carry out Premier Meighen's ambition to make Canada independent of the United States in this respect. In other words, the 1911 agreement, which look after West St. John and the needs of the government in respect to its own railway and steamship lines, will look after the east side and Courtenay Bay. Bury the harbor commission act as at present framed and the decks will be cleared for sane and fruitful action. The doctrine of despair concerning the harbor but ill accords with faith in a government which does not fulfill its solemn agreement of 1911.

In his address at the Pilgrim celebration at Provincetown last week, Dr. Charles A. Eaton denounced the proposal to bring into the United States great numbers of foreign immigrants to do the "dirty work." He said that during the war he had occasion to visit a city where the majority of men were Americans but where men were afraid to say they were Americans, and where the only people who dared speak out were the advocates of the dictatorship of the proletariat. And he added: "If you import millions of ignorant peasants from Europe as beasts of burden and meet them as Mr. Gomperz did the other day with arguments regarding the rights of man to quit work you will be working for them within a year instead of having them working for you."

The Union National Gas Company which supplies the municipalities of southwestern Ontario with natural gas, is asking increased rates. The representatives of the municipalities called a meeting and passed very strong resolutions in favor of public ownership. The Toronto Globe reports: "The attitude of those in attendance today was simply to stick together, force the gas company to live up to the present franchises and to develop the fields now under lease or surrender the leases, or else give up the ghost and allow the gas business to be conducted as a public utility by the provincial government."

Four steel steamers are being built in Halifax shipyards, which were established only a couple of years ago. The first of the steamers, the Canadian Mariner, the largest ever built in the lower provinces, will be launched next Saturday. She will register 8,100 tons dead weight. The launching will be the occasion for a great celebration. How long, after St. John's great dry dock is finished, will it be before there is a shipbuilding plant in Courtenay Bay?

Bangor Commercial—There are many things that are difficult to understand in the food market. For instance we read that the Revere Sugar refinery cannot afford to sell sugar at the prices now quoted in New York. It is paying 11 cents a pound in the Cuban market and is asking 23.5 cents, leaving 12.5 cents for its expenses after purchase and its profit on a pound. And formerly sugar was selling for six and seven cents a pound.

Mrs. E. Atherton Smith, will represent the St. John Women's Canadian Club at the Annual Conference of Canadian Clubs to be held in Montreal on Monday and Tuesday of next week.

THE CASE OF VANCOUVER.

The federal government, which took over the Canadian Northern, does not consent to carry out promises made to the city of Vancouver by the old Canadian Northern executive when what is termed the False Creek site on the water front was conveyed to them by the city. Hon. J. D. Reid, minister of railways, told the Vancouver people recently that the government would finish the seawall, filling in the area for the approach to the C. N. R. station, and would provide the million yards of sand wanted in False Creek for warehouse and industrial sites, but it would not build a hotel, or a promised tunnel into False Creek, nor would it electrify the terminals unless all the railways entering Vancouver got together on a scheme for general electrification.

St. John people will not be surprised, since the government practically repudiates its own 1911 agreement in relation to this port, that it does not pay any attention to promises made by the Canadian Northern executive, even if those promises did cost Vancouver the False Creek property. We wish, however, put some emphasis on the fact that the government is to spend money on a sea-wall and to provide warehouse and industrial sites, and that it is to be done by the railway department for its own purposes, without any reference to harbor commission or charges for interest and sinking fund.

There is another feature of the case in Vancouver which should interest St. John. We hear of millions to be spent for terminals at that port, although Canadian Finance says—

"It is realized that there are some difficulties which will have to be solved before the B. C. ports can come into what they believe to be their own, the principal being lack of shipping and profitable return cargo from Europe to B. C. The latter is the more difficult problem, but Vancouver hopes at some future date to be the distributing point for imports from Europe to British Columbia, Alberta and parts of Saskatchewan."

Vancouver "hopes" for traffic, and millions are to be spent by the government for terminals. Why should St. John, which already has the traffic, crowding its harbor in winter to such an extent as to cause vexatious delay, be neglected by the government and left without proper terminals—or offered a scheme which would throw the burden of their whole cost upon the trade of the port? St. John does not want harbor commission so much as it wants a square deal.

In his address at the Pilgrim celebration at Provincetown last week, Dr. Charles A. Eaton denounced the proposal to bring into the United States great numbers of foreign immigrants to do the "dirty work." He said that during the war he had occasion to visit a city where the majority of men were Americans but where men were afraid to say they were Americans, and where the only people who dared speak out were the advocates of the dictatorship of the proletariat. THE MORTGAGE.

I had a mortgage, years ago, on my pretentious home; and Worry and its brother, Woe, were camped upon my dome. I couldn't sleep on straight, but oftentimes I wept; I tasted Mortgage when I ate, and dreamed it when I slept. It spoiled for me the Sabbath day, when I sat in my pew; the choir, in singing, seemed to say, "When mortgages are due." It cast its shadow on my door, and like a raven croaked; it took the zest from every chore, and spoiled the weed I smoked. They took away my House of Pride, by means of writ and sash; and since then it's been occupied by one who's idly rich. And he is welcome to the place, for when winds are blowing keen; no mortgage makes a man as vain as I, and over no man's red, than vainly try to be a swell, with mortgage overhead.

CANADA—EAST AND WEST

Domestic Happenings of Other Days

THE SELKIRK SETTLERS

Five years of painful toil and anxiety on the part of the Selkirk settlers at the Red River seemed at an end when the summer of 1815 came. The fields were in the grain and the colony was rejoicing in the prospect of a fine harvest—its first in the new land—when the blow fell. For months they had been harassed by the North-Westers and by Indians but the danger seemed past. Then it came. The blow fell when one day a herd of the Bois-Braves appeared on the plains, some of the settlers were taken prisoners and again the order was given to the Selkirk settlers to leave the land. Painfully they betook themselves to their boats and set out for Norway House, at the northern end of Lake Winnipeg, to await help and news of Lord Selkirk.

The colonists, of course, had little to lose. The last year they had been living in tents for in the previous summer when they were driven away, most of the houses had been burned. In 1816 there was only one ranch in which the Selkirk settlers were housed. The Selkirk settlers were employed by the Hudson's Bay Company during the day on the land, although they slept inside the colony during the night. But the little they possessed had to be left behind under pain of death. The Bois-Braves sent a messenger far and wide to tell how they had won a great victory and had driven out the Selkirk settlers. In this way ended the effort he had made to improve the condition in life of the Scots and the Irish; five years of anxiety and hardship ended in a toll of more than twenty deaths.

SANCTUARY.

(Una Malleon, Poetry Review, London.)
Strange fancies haunt me at the eventide,
In that dusky hour before the night,
Pale, piteous wraiths of lovely things that died,
And sad, sweet, amorous dreams of dead delight.

They thought about me as the days departed,
The tired ghosts of wistful bygone years,
Pain lifts her bitter and useless in my heart
To the slow, head fall of listeners there.

Silent I gaze into Life's hopeless eyes,
While round my heart the waiting shadows
Till Night, O Mother, infinitely wise,
Folds me within the tender arms of sleep.

LIGHTER VEIN.

Starting Right,
"And what is that lad of yours going to be when he grows up?"
"I rather fancy he'll be a golf caddy."
"Really?"
"Yes. The last thing I gave him, he turned round and told me I was holding the stick the right way."—London Opinion.

Extending A Policy,
"It is becoming more expensive every day to run an automobile."
"Yes," replied Mr. Cuggins. "Some of us motorists won't be able to keep going unless the government comes to the rescue the same as they did for the railroads."—Washington Star.

A Difference,
Lady—Can you show me something suitable for a birthday present for a gentleman?
Shopwalker—Men's furnishing department on the next floor, madam.
Lady—Well, I don't know. The gift is for my husband.
Shopwalker—Oh, pardon, madam. Bargain counter in the basement.—Punch.

REPUBLICAN PLOT IN GREAT BRITAIN?

Dr. Ellis Powell of the London Imperial Press party, made the statement in Vancouver that a plot to overthrow the British monarchy and establish a republic in Great Britain was hatched during the war. He was one of the men responsible for the exposure of the conspiracy, and asserts that the danger is not yet past. Referring to the alleged plot to assassinate King George, Dr. Powell declared that this danger and the menace to the British throne did not originate among the Sinn Feiners, but among British politicians. The president was selected and the whole scheme was ripe. The conspirators, declared Dr. Powell, are still anxious to effect their aims.

WILL PROSECUTE DELINQUENT MILKMEN

The board of health has instructed Dr. William Warwick, district medical officer, to take steps to remedy the unsanitary condition in which much of the milk sold in the city is delivered. It is felt that dealers whose milk contains an excessive quantity of bacteria, which does not measure up to the required standard in other respects should be prosecuted. Dr. Warwick said yesterday that the names of some six or eight dealers had been handed to the board's solicitor with instructions to prosecute.

BIG INCREASE IN THE PRICE OF SCHOOL BOOKS

Provincial Government Is Supplying Them at the Price Fixed Twelve Years Ago.

(Fredericton, N.S.)
Although school books have steadily advanced in price the last two years, the provincial government's school book department is still supplying them at the price fixed nearly twelve years ago. This means that they are being sent out at a loss in some instances of more than 100 per cent, and the people who have children of school age are reaping the benefit of it. For upwards of a month past the department has been sending out 20,000 to 25,000 worth weekly, the shipments being made to every part of the province. It is estimated that the revenue from school books for the year will amount to \$20,000, while the expenditure will be in excess of \$40,000. The advance on the cost has been general all along the line. For instance, in the case of the arithmetic which sell at ten cents now, the department twenty-three years ago paid for the purchase price is allowed to the vendors.

All of the school books being handled by the department this year were ordered prior to last December and the price of the books at that time was then prevailing. There has since been sharp advances in the price of paper, which means that the province will be in for much higher prices on school books next year.

JUST LONELY, TAKES HIS LIFE

Wealthy Man, Kindly of Heart and Generous of Purse, Yet Had No Friends.

New York, Sept. 2—What prompted Arthur Briggs, wealthy man-about-town, to an unprovoked, "suicide" of heart and generous with purse—everybody's friend—to commit suicide by hanging himself in the cellar of his pretty home in Bound Brook, N. J., is the question they are asking in Greenwich Village, where he was well known and loved, and the question finds echo in his home town, for which he did so much.

That the big fortune inherited from his father, who was a heavy stockholder in the Cunard Steamship Line, has been dissipated finds no credence with those who are in a position to know.

In Greenwich Village friends of the dead man think they have found the answer. It was loneliness.

He spent money with both hands. He delighted in doing so. On the opening night of the first "Follies" he bought \$1,000 worth of flowers and sent them to the girls in the show, playing the part of a fortune teller. No man appealed to him for aid in vain, and he never accepted a note or an I. O. U.

"Forget it, old man," was always his smiling rejoinder.

He suffered the loneliness of the stranger in a big city, a greater loneliness than one feels in the heart of the desert. He was suspicious of friendships, feeling that he was buying them with his money, and that there was none among them he might take to his heart as a real friend.

He was everybody's friend, and yet there was none that was his—man or woman or dog.

Just lonely—that was all.

MARRIES FOURTH TIME

Mrs. Iring, After Three Divorces, Secures Weds Again.

(New York Times.)

After obtaining her third divorce, Mrs. Ora Boies-Kemper Iring of Louisville, became the bride of O. M. Borer, President of the Natural Dry Milk Company and head of the Borer Case Company, Inc., of 1270 Broadway. The wedding took place secretly in Canada.

After a court order had blocked her fourth marriage, Mrs. Iring, obtained her divorce last July, naming Mr. Iring's housekeeper as co-respondent. Mrs. Iring was to have married Mr. Borer last winter at the Waldorf-Astoria, but a court order interfered. She obtained a divorce from Mr. Iring in January, but the decree was set aside when Judge Kirby of Louisville was informed that she had obtained two previous divorces upon the same grounds, which is contrary to Kentucky law.

Mr. and Mrs. Borer, who are now at Montreal, will live at Mr. Borer's Summer home on Long Island when they return to the United States.

Harbor Commission Is Discussed By Council

Lack of Provision for Ferry is Objected to—The Matter of Insurance on West Side Debated—Motion for Plebiscite Not Considered.

Beyond showing an entire unanimity in objecting to the proposed federal harbor commission having full power with regard to the Carleton ferry, nothing of importance was accomplished by the city commissioners at the special meeting of the common council, called yesterday afternoon to discuss the question of harbor commission. Mayor Schofield, the chairman, submitted a comprehensive report on his findings with regard to commission control of Canadian harbors and all the commissioners spoke on the subject. A resolution, moved by J. H. Frink, that the question be placed before the public in the form of a plebiscite to be called October 5, was not considered. After almost two hours' discussion adjournment was made with the understanding that the subject would be taken up again immediately after the council meeting next Tuesday afternoon.

Mayor's Report. The report of Mayor Schofield, said in part: "I do not feel that the taxpayers should be called upon to finance the large amount of money that would be required in order to provide the necessary capital expenditure for the proper repair of the present wharves, the building of concrete warehouses, the supplying of necessary equipment to put the port in shape to handle, and handle expeditiously, the immense amount of cargo that should be handled through the port and even then, judging from past experience, it would be problematical whether it would be possible to get sufficient revenue to carry the interest and sinking fund, and if that was not provided through the earnings of the port, it would become a load on the taxpayers.

"In some cities along the Atlantic coast, the city councils have made provision for municipal owned port facilities, but it seemingly has required a very large revenue to earn the necessary amount to carry the same. "There can be no question that, if the government would only equip the port, an immense amount of business would be brought through here at the present time and for all time to come. In Montreal the suggestions of the commissioners along this line have been accepted and today that port is one of the most economically equipped ports in the world.

National Work. "I do not feel that the taxpayers should undertake this further development on account of the national character of the work involved, inasmuch as it is for the benefit of the nation at large and as such should be undertaken by the government on a well planned and much larger scale than hitherto.

Dual Control. "There has been in the past, and there will continue to be, some friction between the shipping men at this port on account of the fact that the city owns part of the terminals while the government owns the other part and, consequently, there is a dual control which at times has made it awkward for shipment and shipping facilities and an unhealthy rivalry that has injured the port.

Payment for Improvements. "I am also of the opinion and, from what I have been able to gather, I am led to believe that the government should and will take into account the additional expenditures that have been made by the city since the sum named in the present act was stated.

"I would like to refer you to development that has taken place in some other ports under commission control, as in that of Montreal. "There they have spent approximately \$20,000,000, and it has been quoted that 'it affords the best example of modern seaport organization, possessing unity of control, opportunity for expansion, on a carefully prepared plan, which permits of such expansion for generations to come; adequate articulation of land and water factors and co-ordination of their uses under intelligent supervision,' and this has been true in the case with Montreal.

"Montreal port development is looked upon as a 'business-man's development,' and it is stated, absolutely outside of politics, that the commission has a free hand to act as they deem best in the interest of the country, without any political interference. They make their own plans and the work is done by their own departments and by labor directly employed by themselves; they engage their own employees and retain them as long as they perform efficiently their duties, and it is these facts that explain what has been accomplished at a minimum of friction and cost.

"Where this has been done for Montreal, and it is a matter of record, there seems to be no good reason why it should be refused the port of St. John, and as Montreal closes her gates for from four and one half to five months of the year, it is absolutely necessary that those opportunities should be provided here.

MISS STEWART WELL AND HAPPY

"My, What an Improvement Tanlac Made in Me," Explains Clifton Woman.

"I'm now well and happy again, and words simply can't express the gratitude I feel toward Tanlac for all it's done for me," declared Miss Winona Stewart while in St. John (N. B.) the other day. Miss Stewart is a highly respected resident of Clifton, Kings county (N. B.), where she lived for a period of ten years.

"I suffered from a bad case of stomach trouble, indigestion and gastritis. My appetite was so poor that I didn't relish a thing, and just had to force myself to eat the little I did live on. My stomach caused gas to form in such quantities that it would press up into my chest and worry me a great deal. I had such acute pains in my stomach that they almost drove me to distraction, and some days I couldn't even eat a thing. I was simply in misery all during the day, and many nights would wake up in such dreadful pain that I would just have to get up and walk the floor.

"Nothing seemed to help me until I got Tanlac one day, and my, what a big improvement it has made in my condition. Why, it has only taken five bottles of the medicine to put me in splendid health, and I'm just feeling fine in every way. I have an excellent appetite, and eat anything I want now without my stomach troubling me a particle. When my friends ask me what I've been taking to make me look so well I don't hesitate to tell them Tanlac. I am truly grateful to Tanlac since it's done so much for me, and I just want everybody to know what a grand medicine it is."

Tanlac is sold in St. John by the Ross Drug Company and P. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, Highway; P. F. Meagher, Debec; O. D. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station, and by the leading druggists in every town.—(Adv.)

bor. With the city owning part of the harbor and the government owning a part, there was a dual control that always was a source of friction. The C. P. R. ultimately would demand development of the area over which their properties stood, and they were informed that the C. P. R. would look after the development of Courtney Bay. The point was, if the city retained ownership of the harbor, would the taxpayers be willing to pay for the needed development of the property.

Tri-partite Agreement. "The citizens need not be taxed for improvements, and the government could be forced to carry out its original tripartite agreement with the city. The wharves needed no more improvements now than they ever did, he said, and they were being tended to year by year. All that needed to be done was without adding to the burden of citizens. He estimated that the harbor revenue would be \$200,000 annually, but that last year, when the department broke even with receipts of \$150,000. There was no kick from the taxpayers regarding the proposed only the port of New York, which has been demonstrated during the war.

"Our revenue for the last two or three years has practically broken even; that is, it has been sufficient in a way to meet the expenditure, though it has not permitted of any capital expenditure to amount to anything at all, but this will have to be undertaken before very long and then it would be next to impossible to create revenue enough to take care of the same.

"The reduction of the city's bonded debt by \$1,842,917, together with the discontinuance of the annual assessment for interest and sinking fund, as well as the use of the accumulated sinking fund and the interest on the harbor commissioners' debentures (\$67,282.45, amounting to 5 per cent, or \$2,862 annually, will make in all a considerable easement in our finances, I understand.

"The city is only carrying \$286,000 insurance on west side properties. The taxpayers stand being assessed for \$1,000,000, the least that there should be in case of conflagration the taxpayers will have to assume fresh indebtedness to meet the emergency. It is good business to put such possible burdens upon the community for the benefit of the nation?

"So far therefore as I personally am concerned, I would certainly vote for the act to be presented to the people if it can be understood, of course, that additional expenditure incurred by the city since the act was created, would be included. This, I would judge at the present time, would be in the vicinity of \$100,000.

"If it goes to the people, I purpose setting up a public meeting or several of them, so that the situation may be thoroughly discussed and put before them that they may gain a full knowledge of the proposal.

Mr. Thornton said that further negotiations should be taken up with the government, with regard to the harbor, would be fulfilled. He reiterated that it was a matter to be left to the people for good or for evil. He thought there would be a small vote polled at the plebiscite, though he hoped for a large one.

A high financial authority said yesterday that Canada's credit position following the war had advantage over other countries. BATHERS RESENT PARSON'S ATTACK ON THEIR ATTIRE
Trenton, N. J., Sept. 2.—Rev. Frederick Kopffman, pastor of the Methodist Church at Titusville, N. J., who has been endeavoring to "drive the devil from the hearts of the immodest bather" at Washington Crossing, was greeted day this week with a shower of overripe tomatoes when he appeared at the resort to lecture them on the immodesty of their attire.

The pastor's automobile was wrecked and he was punched and mangled, and an attempt was made to duck him in the Delaware River. He finally escaped when a constable held the mob back with a drawn revolver.

Parson is Undisgayed.
Lover the person was found nursing a bruise on his face. His clothing was covered with tomato seeds and juice, and his face streamed with perspiration. He was still full of fight, however, and determined he said to appear at the hearing before the township board next Tuesday to present his evidence on immorality among the summer colonists.

TRANSFERRED TO HAMILTON.
Adjutant Gilbert Best, for the last five years chancellor of the New Brunswick division of the Salvation army, has been appointed to a similar position at Hamilton, Ontario, with headquarters in West-Edmonton. He will leave for Hamilton on Tuesday next, accompanied by his wife and two children. Before his St. John appointment Adjutant Best was attached to the staff of the financial secretary of the Salvation Army in Toronto.

MAY HAVE TO COME TO ABUTTORS' TAX

Union Street and Lansdowne Avenue Paving Matters Before Council—Douglas Avenue Ready.

Judging by the way the taxes are coming in and the numerous objections to increases in the assessment, Commissioner Frink said this morning that it looked as though the city would soon be compelled to come back to the local improvement act and assess abutters for payment in public streets.

This opinion was expressed during a discussion on the petition of the Union street property owners for a remission from further taxation for pavement laid there.

The council met in committee with the mayor presiding and all the commissioners present except Mr. Thornton.

Commissioner Frink said that the residents of Lansdowne avenue had agreed to the new grade for that street and had sent a letter agreeing to relieve the city of responsibility in the establishment of the new grade. On motion the communication was placed on file.

Regarding the petition from residents of Union street for abatement of taxes for the pavement in that street under the local improvement act, the common clerk produced a motion presented in a previous case of this kind in which the council decided that the abutters be informed that the council had been advised by its solicitor that the city had no power to relieve them from the payment of the assessment.

Commissioner Frink said that he had received a petition from owners on Lansdowne avenue to have pavement done there, and should the Union street owners be relieved there was no reason why the Lansdowne avenue residents should not come back and ask relief from the tax which they had signified their willingness to pay. The matter was left to the commissioner of public works to take up with the city solicitor.

A letter from Vassie & Co. recommending the reopening of the dominion provincial employment bureau was referred to the mayor.

Regarding Douglas avenue, Commissioner Frink reported that he had taken up the matter of gas main and telephone conduit renewals. The N. B. Power Co. had informed him that the gas main's there were laid twenty-six years ago and were in good condition. The N. B. Telephone Company had advised him that it would not be necessary to lay conduits in Douglas avenue.

Commissioner Jones said that outside the service pipes to vacant lots, Douglas avenue was now ready for pavement.

RECEIVES PURSE

Presentation Made to E. A. Kerr at the Presbyterian Church, Grand Bay, Last Evening.

E. A. Kerr, a student who has been supplying at the Presbyterian church at Grand Bay during the summer, was the guest of the residents of the community last evening at a social held in the church. Mr. Kerr will leave next week to resume his college studies and last night's affair was to say farewell and to present to him a well filled purse with the best wishes of the congregation.

Daniel Usher presided, made the presentation and read an address to Mr. Kerr.

An enjoyable programme was carried out in which Mrs. Stanley Harrison, Miss Edith Hamm, Mrs. George Moore, Miss Geraldine Melick, William Charlton, Thomas Bringley and Mr. Smith took part, after which refreshments were served.

Mr. Kerr has made a great many friends during his stay at Grand Bay and best wishes for success will follow him through his college career.

BALANCE NOW ON THE RIGHT SIDE

Although at the end of July the city's overdraft at the Bank of Nova Scotia was more than \$676,000, the influx of this year's assessment has changed the total over to a credit balance of more than \$500,000, so Mayor Schofield announced this morning.

POLICE COURT

Charles Anderson was in the police court this morning charged with being drunk, having liquor in his possession illegally and with allowing people to become intoxicated in his residence. He pleaded guilty to drunkenness charge, not guilty to having liquor and no plea was entered on the last charge. Sergeant Hesse said that in consequence of a telephone message last evening about five o'clock he went to the residence of the accused in the rear of 181 Erin street and he found him and another man there drunk. He said he also found a bottle of gin in the pantry, about 200 empty beer and whisky bottles, three empty gin bottles and seven empty whisky bottles. Policemen Linton and Duffy corroborated the evidence. The case was postponed and the accused remanded.

Harold Williams was charged with assaulting a woman in St. Patrick street. He pleaded not guilty and Mrs. Minnie Cameron, the complainant, said she was walking along the street on Saturday afternoon when the accused struck her in the face causing a cut on her lip and tearing her dress and damaging it to the extent of \$25. The accused was remanded for other witnesses.

A case against Mrs. Rosy Wing charged with assaulting George Rusanoff, and a case against Rusanoff, charged with assaulting Mrs. Wing, were dismissed.

Three men charged with drunkenness pleaded guilty and were remanded.

ACTRESS AND POET

Margaret Anglin recently surprised a large theatre audience by interpolating into her role the entire poem, "My Boy's Room," from Adelaide Manola Hughes' book of verse, "Diantha Goes the Primrose Way".

Miss Anglin is so impressed, she says, with the dramatic quality of Mrs. Hughes' poems that she is planning to give a reading of the whole of "Diantha Goes the Primrose Way"; Miss Anglin has also asked Mrs. Hughes to turn some of her feeling for the dramatic into a Margaret Anglin play.

Howe's eyes.
