When this contract was let the ention was to cut the first bluff, which contains about 75,000 cubic yard of rock, "clean through to daylight," hat is, remove the whole bluff from track-level on the face, and back to the south line on the right-of-way. leaving a clear open space for terminal tracks. Had this been done, Ross & Carlson could have had at least 200 working drilling holes along the this big bluff alone, but now "thorough cut," a passag through the rock wide enough to ad-mit one track, has been decided upon, will be much slower work, as the Irilling can only be done at both ends, e gangs working towards each other Considerably less than half the amount of rock will be taken out and it will be nuch more expensive to handle, but

Water Supply. In November last the Grand Trunk Pacific installed a water system here, oringing the supply from a dam on Hay's creek on the mountain side, a mile and a half distant, and 300 feet above the town. The supply is quite sufficient to meet the requirements of the town at present, but when the place has a population of 5,000 inhabitants it will be totally inadequate. The up-per and lower Shawatlans lakes, two of the finest fresh water lakes on the coast, five miles distant from the town, and it is to these lakes that the future city must look for its water; but now it appears that a record of 3,000 miner's inches of water from the upper, and 5.000 miner's inches from the lower Shawatlans lake has been granted to a company incorporated on June 30th, 1906, and known as the "Prince Rupert Power & Light Company, Ltd.," thus cutting off the water supply of the city-o-be, unless they buy it from the above mnany at their own terms. A largely nd residents of Prince Rupert has been orwarded to the government, protestng against the granting of such a monoly, which will no doubt retard the growth, and hinder the progress of a city so handicapped for one of its greatest necessities.

La Porte Widow Comely Wanted Victims Amply Supplied With Funds.

La Porte, Ind., May 7.-The grisly story of the private graveyard at the farm of Mrs. Bella Guiness, a mile north of La Porte, is still in its early chapters. To-day the estimates of the number of persons murdered at the place through the lure of a matrimonial bureau runs all the way from twelve to twenty.

The exhumation yesterday of four dismembered bodies wrapped in burlap brings the total of victims known to have been murdered to nine, including the bodies, supposed to be those of Mrs. Guiness and her three children, discovered after the fire which burned the farmhouse on April 28th. The total of deaths to be investigated and accounted for is thirteen.

There was scant doubt that Sheriff Smutzer to-day would discover evigraves as yet unopened. All the sus picious parts of the premises are to be dug up with special attention to soft spots beneath rubbish heaps which so far invariably have been used to con-

COLLAPSE OF QUEBEC BRIDGE SAVES ONE IN U.S.A.

Chairman Parent Comments on Findings of Royal Commission of Investigation.

Ottawa. May 5.-In an interview yes terday in reference to some of the find-ings of the royal commission which nvestigated the collapse of the Quebec bridge, Mr. Parent, president of the Quebec Bridge Company, and chairman of the National Transcontinental Railway commission, says he was informed on good authority that in spite of the utmost attention to every detail of plans and specifications, a similar great disaster to one of the largest bridges now being erected in the United States was prevented by the experience gained by the scientific world from the collapse of the Quebec bridge.

In the case of such a large under-taking as the Quebec bridge, in the aband specifications, and in view of the day as the provincial election in On-undesirability of confining bidders to a tario. single system, which in the end might not suit, and would almost certa have led to alterations afterwards. Mr. Parent said the company thought it best to invite tenderers to furnish their own ideas and plans to obtain the best results of the competition and on broader basis than could be obtained from any individual designer. In that respect the company secured the services of Mr. Cooper, of New York, who was considered the best man in the United States for making a selection. At all events, Mr. Parent said, there could be no visible connection between such remote actions on the company's part, and the disaster which occurred ten years afterwards, and which was solely due to scientific errors, the com-mission of which would likely have been unavoidable under any other bidding conditions, since it is now admitted that professional knowledge at large is still deficient on the experimental strength of large bridges.

cruiser Indomitable to take the Prince carrying out the King's express desire to pay the highest possible compliment. The Indomitable is unique fensive qualities, gun power and speed. She will be called the lightfooted sister of the Dreadnought.

With a speed of 25 knots, she has twice the effective gun fire of foreign battleships built before the Dreadnought, has a displacement of 17,250 tons, length 530 feet and draught 26 feet. She has eight 8-inch and sixteen inch guns, which are operated with the ease of rifles, so absolutely are they under control. The ship cost \$9,000,000. The prince's escort includes four battleships of the Duncan class, the new armored cruiser Minotaur and two protected cruisers, one of which will be the Arrogant. It will be altogether the finest squadron ever in North American waters, and far exceeding anything any foreign power ould provide.

It was a sister ship of the Arrogant, MAN WHO SAW LIGHT named the Gladiator, which the St Paul sent to her grave in the snowstorm in the Solent on Saturday week Prince's Pleasure in Trip.

The Kilmeny was seventy-eight days to Cape Horn. Off this point the vessel had a succession of southwest gales for twenty-one days. Variable winds were had to the equator, which was crossed April 2nd. Thence to San Francisco the vessel had light and variable north-northwest winds.

SPIRAL TUNNEL.

Cilley Originated it on the Peruvian Central Railway.

Resort to a spiral tunnel by the Canadian Pacific railway to reduce the heavy grade on the main line up Kicking Horse canyon in British Columbia recalls the fact that the originator of this clever plan for overcoming obstacles to railroad mountain bing was the late Mr. William H. Cilley, an American engineer, says th Mining and Scientific Press. After long and costly efforts to find a way a feasible grade up the valley of the Rimac, the solution of the problem came as a flash of genius. Mr. Cilley turned into the mountain, lengthened the road by a spiral tunnel, and reduced the grade. The method was later applied for a like object in the St. Gothard tunnel in the Alps.

The live who went up to solve the man nad nad ample time to escape.

Continuing, Kruse said that about seven minutes after the occurrence his nephew had seen Scaling come out of a nearby store and had run towards him. He had heard Scaling say to his nephew, "I wasn't in your yard."

This nephew was not in court to corroborate this evidence, but a son of the love with the ferederick Norris Harrison and Bertha Hottowe, sent up for a year for stealing a watch from John Curtis; Andrew Devine, sent up for vagrancy; and Fred Dolph and Charles Reed for being frequenters of houses of prositution.

IN SHOOTING CASE

Man Accused of Threatening Mrs. Kruze is Dismissed by Magistrate.

(From Tuesday's Daily.) The stellar attraction in the police cour this morning was the charge against Henry Dent Scaling of having threatened to shoot Mrs. Edward Kruse of 1911 Douglas street. Saturday evening last. After siderable evidence the case was disconsiderable evidence the case was dis-missed, although the magistrate warned Scaling to keep away from the Kruse home in future. Scaling was defended by J. A. Alkman, while H. W. R. Moore, as-sistant to the chief of police, prosecuted. The first witness called was Mrs. Er-nestina Kruse. She swore that Saturday light last she had gone out to the woodshed, and while there had seen a revolver pointing at her through a broken window, but did not see the face of the person holding it. The person had said that he had her now, and she thought the voice was Scaling's, although she could not be sure. At the same time the age of the vessel and the heaviness of her cargo coupled with her tardiness in arriving have created uneasiness in many quarters.

One May Be Operated While The rate on the old Norwegian barque Adela, now 95 days from Tacoma for Valparaiso, has been raised to 50 per cent. The Adela is not making a very long passage but her age and other circumstances have been taken into consideration by the underwriters in increasing the rate. On the ship Bangalore, 196 days out from Nor-folk for Honolulu with coal, the rate

has jumped to 45 per cent.

The manner in which coal has been taking fire in the hot latitudes, notably in the case of the United States depots in Cavite Guam and Honolulu where fuel has been assembled for the U.S. fleet, and the burning of the ship Arthur Sewall at sea, have induced the underwriters to make the rate heavier. ANNOUNCEMENTS MADE CONCERNING MISSIONS

### New Quarters for Local Japanese Work and Indian Church Site Secured.

(From Thursday's Daily.) Rev. Dr. Sutherland, general missionary secretary of the Canadian Methodist church, is in the city to-day. He has come West to be present at the meeting of the B. C. conference in Vancouver next wheels. He has taken the opportunity while on the Coast to visit Victoria in connection with mission work. He will attend the meeting of the Victoria district, which opened here to-day, leaving again this evening for Vancouver. Rev. Dr. Sutherland when seen to-day

announced that arrangements had been made for permanent quarters for the Jap-anese mission and for the Indian work in this city. The former is to be located at what was known as the Revere House, or Pandora street. These premises will be fitted up at once for the duties for which they are intended. The necessity for new quarters for the Japanese mission work is made necessary by the fact that the former home on Broughton street has been removed.

A site for the new Indian mission church

to take the place of the one destroyed by fire last year has been secured. It will be built on Chatham street, instead of in the old location on Herald street. Rev. Dr. Sutherland, who is one of the most forceful leaders in Canadian Methodism, has made a rather rapid trip west ward. He made a short stop off at Win nipeg on the way, and then came right through to the Coast. His stay in Victoria has been made very short. He only arrived last night, and will leave again this evening for the Mainland.

It must be remembered that he is a stranger in most cases and knows no one in the city, or at least very few people and is, therefore, naturally pleased to have a genial greeting on arrival. I will say that the man who comes to your town gains his first impression of the city by the treatment he receives at the hotel counter and the pinion then formed stays with him during the time he is here and goes away with him to his home and friends when he leaves. If that opinion is a good one he will say to the friends who think of coming to the coast: 'Go to Victoria, they give you a good reception there, and the chances are that in so doing he will name the hotel where he obtained the impression. All this elps the hotel men and helps the city.

"It brings the money here, and that is what every tourist city wants. This city, and I will say that it is the tour-ist city of the Sound. It is a fine city, beautiful. The city is very restful after for a vacation. I only wish I could stay longer and spend more time here than my other engagements will allow me to do at the present time. Of course, in speaking of what the tourist looks for in a city on his arrival, when I say that civility and attention are essential I don't mean that they can be given at the expense of comfort and good service. These two latter are absolutely necessary, as well as good beds, good meals and good, clean service. That you have in this city, and in this recontinent. The hotels of a city have more to do with its prosperity than be said. I have travelled the whole of America and I know this to be true.

Speaking on the question of Oriental labor in hotels, Mr. Bohn said he thought it was a pity the race question had invaded the hotel world, but in conversation with the hotelmen of the Sound he has found that the Orientals sustaining congregations, 35 augmented are the only permanent help they are congregations, 123 mission fields and 515 able to obtain. The complaint is generally that Canadians and Americans do not like the hotel kitchen work and will not do it while they can get other employment, consequently when they are engaged they are discontented with the position they hold and are not reliable, as they are likely to leave at a noment's notice if some position more their liking offers itself, while the expand so do the cities. Miss Wake's resignation was accepted with regret and Miss Stewart advanced to her position, and applications will be called for to fill the vacancy caused by this promotion.

Barn is All Right.

The building inspector reported having looked into the complaint of T. M. Sturgis regarding a barn on St. Lawrence street. The barn, he had found, had been erected years ago and recently Mr. Sturgis had built a house within eight feet of it on the adjoining lot. Under the by-laws he could do nothing in the matter as they applied only to new stables and barns. He had found that there was only one horse in the barn in question and there was nothing in connection with it that could barn in question and there was nothing in connection with it that could classed as objectionable.

## DONDERO MUST STAND TRIAL

ALLEGED THAT KISS HAD IMPORTANT PART

San Francisco is Committed.

(From Tuesday's Daily.) Dondero, accused of robbing Tony Parrayincini of \$1,440, was yesterday committed for trial and will come up at the assizes. Parravincini gave the details of the confidence game which he alleges was worked on him.

Parravincini, who spent last year in Alaska, where he saved considerable noney, told of having met Dondero in Seattle and of Dondero having intro-duced him to two other men, one of whom was named Parodi and the other a short fat man, whose name he did not get. When he had first met him, Dondero had asked him how much he had and he had told him he had \$400 with him and more in the bank in Victoria. The short fat man had said he had been left \$27,000 by his father for distribution for charitable purposes, and it was eventually agreed that all four should come to Victoria when if Parravincini could put up the amount of money he said he pos the fat man's \$27,000 would be divided between him, Dondero and Parodi. They met in a box in the Poodle Dog cafe in this city and the fat man had produced a bundle of paper which look-ed like money and had said it contain-ed the \$27,000 which was to be divided up. Dondero and Parodi also produced which appeared to contain purses money. After some persuasion Parravincini had agreed to put his money on the table too. This consisted of the \$420 he had with him in Seattle, \$1,000 he had withdrawn from the Dominion Savings Bank, and a gold nugget val-ued at \$20. All the money was to be wrapped up in a handkerchief and than anyone in the world."

"So I did." interjected Mrs Hene, "but that is when you are all right." The that is when you are all right." The father continuing his statement, said: Parodi leaned over and kissed him in father continuing his statement. such a way as to shut off his sight of the valise. The valise was duly locked and the key kept by one of the while the valise was given to Parravin-cini to take to Nanaimo, where Donder and Parodi were to meet him and divide the \$27,000 with him, and each get back his own money incaddition. They were then to buy a ranch at Nanaimo Dondere had threatened him that he Donders had threatened him that he would shoot him if he opened the value before the arrival in Nanaimo of mmself and Parodl. Donders had walked with him to a station outside the city and had put him on the train for Nanaimo, giving him 38 in money.

He kept the valise with him all the time until next morning, sleeping with it under his pillow. As his two erstwhile friends and the participants in

while friends and the participants in his alleged good fortune did not arrive on time he had broken open the valise only to find that the parcel which he had thought contained \$27,000 in money was nothing but a bundle of old paper and that the purses put in by Dondero and Parodi were empty. His purse was not there. He had returned to Victoria and had notified the police of the theft.

The next time he had seen Dondero was in jail at San Francisco. He iden-tified a purse and a handkerchief, the former as the one Dondero had said contained his money and which had been placed in the valise, and the lat-ter as the handkerchief in which all the money was supposed to be wrapped.

Parravincini in cross-examination by
Mr. Aikman, said that the prisoner
asked him to place his money in the
handkerchief and the fat fellow tied up the handkerchief. He did not know what was done with the handkerchief. He saw it tied up with the purses in it. It was the same handkerchief as had been produced in court. It took about one minute for Parodi to kiss him. Parodi was the only one near him, "He kissed me only once and put his arm n front of my eyes while he did so. did not again see the handkerchief. The vallse was between Dondero and the fat fellow, and after the kissing the fat fellow had it. Parodi told the fat fellow to give the value to me. It was locked. I heard the lock click when the other man was kissing me. He kissed me under the chin. He kissed me quietly. It was not a noisy kiss.

Questioned as to how he came in pos session of the money he said he had worked for it at Dawsen and had been employed by the Guggenheims on their works there. He had been six years

saving it. "Did you ever see me up there?" asked Mr. Aikman.

"I don't know. I may have seen you in the local mission. I was often there."
"I went from here to Seattle for a job. I met accused in a hotel there. I thought I was going to make \$9,000 out of the deal at the Poodle Dog." "Did you think you were going to get

the \$9,000 easy?" "No. They threatened to kill me if I did not put up my money, because they would lose their fortunes. I was frightened. There was only the waiter in the cafe. It was about 11 to 11.30 at the time they robbed me. I did not open the valise until 5 a. m. in the morning I threw the valise away when I found the money was not in it, and it is there yet. I was mad and went and told the police. The prisoner gave me \$8 going down to the station on the 28th of November. I had another \$1,000 in the bank which I couldn't get out under fifteen days' notice. Good job, or that

would be gone like the other." "Do you think through taking these proceedings you will get your money back?" asked Mr. Aikman of the wit-

Duncan, May 4.—The King's Daughters' flower show on Saturday was a success. The decorated tables attracted a great deal of attention. The first prize was won by Mrs. Prevost, the second prize was won by Mrs. John Hirsch, and the third by Miss Hall.

The best collection of garden flowers was sent in by Miss Hall, and the second by Mrs. Leather. The children's work was particularly good, one feature of which was illustrated essays on the wild flowers of the district. The first prize for this went to fourteen good watercolor illustrations. The best school work was from Duncan school and received as a prize a picture of the King bautifully framed. Of the municipal school Pearl Simons of Maple Bay school, sent in the best essay, and June Ventress of Duncan, the second. Under 12 years, Marshall Smith and Laura Bell of Duncan, sent in the best essays. Of schools other than municipal schools, Lorna Springett, from "The Cliffs," and Grace Stephens from Glenora, had the best. Both of these esays were beautifully illustrated. Rev. Mr. Leakey, N. B. Souper, B. A. Cantab and the Ven. Archdeacon Scriven,

were the judges. Mrs. Hazell, from Victoria, E. Skinner and Mrs. Leather, were the judges of the collections of wild flow-ers, and Mrs. Scriven and Mrs. Calcott of the table decorations and bouquets.

Booths had been taken by the merchants and beautifully decorated. W. P. Jaynes showed Wild Rose flour and cof-fee; F. Prevost a splendid Heintsman piano and some gramophones; Ventress photographic supplies artistically arranged under an immense Japanese umbrella; Pitt & Peterson showed Mc-Clary ranges, dinner sets, a coffee per colator; The Echo office sent a job press and printed during the afternoon. All the world of Duncan was there. The hall was splendidly decorated.

Mrs. Day, of Quamichan lake, put in a beautiful collection of butterfles and moths, some from the district, and some that Mr. Whittome had brought from South Africa, and some from Eng-

There were so many interesting and attractive exhibits at the flower show that in the short time it was impossible to take them all in.

It is to be hoped that the flower show will be an annual event. The people of Duncan appreciate the kindness of the Archdeacon and Mrs. Scriven and Mrs. Hazell in helping to

judge exhibits. Ceccotti Concert.

On Saturday evening Signor Ceccotti Miss Emma Sehl, Frank Armstrong and Howard Russell gave a concert in the opera house. The house was not full because of inefficient advertising, but those present had a rare treat. Every number was perfect. Not the least enjoyable part was the playing of Mr. Russell, whose accompaniment blended exquisitely with both the voice and the violin. Social Notes.

Mrs. Hazell, Mrs. Rycart, Miss Mary Lawson and the Archdeacon and Mrs. Scriven came to Duncan on Saturday to attend the flower show.

CAR AS ISOLATION HOSPITAL.

Case of Smallpox Is Discovered at Sicamous.

Armstrong, May 5.-A case of smallpox was discovered at Sicamous on Tuesday morning by Conductor Bongard, of the freight train. The unfortunate patient is a young man who was travelling with his father and was walking up and down the platform when accosted by Bongard, who imme diately recognized the disease. The patient was quickly placed in an empty car, which was turned into an isolation hospital and switched on to the old Y at the east end of the bridge, and the father is nursing his son. As every precaution was instantly taken there is no danger of the disease spreading.

Vancouver, May 4.—"Will you take this \$219 down to the bank and deposit it for me. Just give it to the cashier with this slip. I can't get out this morning."

This was the kindly order given by a prominent West End lady to her donestic on Friday morning.

But when she reached the street Ethel Knight changed her course, gave the bank quite-another slip, told the glad news to her supposed "Prof." Edward Knight, and within four hours they were on a zig-zag ourney to the sunny south on \$219.

At the same time the telephone and telegraph wires to and from the office of Chief Chamberlin were dancing with

Case of First Woman to Be Tried for Murder in Terminal City.

Vancouver, May 4.—With the heavest list in the court records of Vancouver, the criminal assizes will open co-morrow, likely before Mr. Justice Morrison, and with Deputy Attorney-General MacLean as prosecuting at-

torney. There are four charges of alleged nurder, six of alleged wounding with intent to murder, one of burglary, one

of forgery and one of perjury. The first case to be heard to-morrow will be three in one, the charges preerred against the three Japanese, Hashinaki, Nakahm and Murato, of attempting to murder the jolly, homeward-bound firemen as they passed the Japanese boarding-house on Powell street on New Year's eve. Frost, one of the firemen, was brutally slashed.

The first of the four charges of alleged murder is against E. B. Bowen, grievously misconducted himself. The second is against Roger Venetta, the negro accused of the murder of Clementine Nahu at Moodyville. The third is against Eva McDaniels. She will be the first woman to be tried for murder in Vancouver. The alleged crime followed the visit of George Black, a logger, the supposed victim, to house in the restricted district.

The fourth charge of murder is pre-ferred against O. O. Buice, who does not deny that he fired the bullet which killed an aged man named Massender. Puice says he intended to frighten an other and that the bullet accidentally went through the wall of Massenger

## HAS RESIGNED FROM DIOCESE

ARCHBISHOP ORTH'S HEALTH IS IMPAIRED

He Has Therefore Retired-Father Brabant is Apostolic Administrator.

On Sunday last at St. Andrew's Roman Catholic cathedral it was announced that His Grace Archbishop Orth, who is in Italy, had resigned owing to fail-Vancouver Couple Plan Good ing health. The archbishop, it was announced, was in serious ill-health and the physicians give little hope of his recovery. On this account Archbishop Orth had asked leave of His Holiness the Pope to resign and his resignation had been accepted. Notice to this effect has been received at the Bishop's Palace in the form of a decree from His Holiness the Pope.

The announcement was also made

that Rev. Father Brabant, a pioneer priest of British Columbia, had been named to succeed Archbishop Orth, as apostolic administrator subject to the Holy See until such time as the ap-pointment of an archbishop to succeed Archbishop Orth permanently is made. Two years ago the archbishop's health began to fail and at the beginning of the present year he decided to journey to the south of Europe on vacation in search of rest and restored health. From the Riviera short bulletins were received from him from time to time telling of his continually failmg health. As time advanced the re-ports were not reassuring and it be-gan to be feared here that the archbishop's return was not likely to be possible. At last the news came that his full recovery was regarded as impossible and following on this has come the announcement of his resignation.

The retiring archbishop was very popular in Victoria and there will be converge regard that he has been found.

Since he took charge at the Bishop's Palace in Victoria, Archbishop Orth has been a hard worker and very successful. He has paid off all the debt on the cathedral and church property, and not only is the cathedral free of debt, but nothing is owing on the Bishop's Palace. > PAROLE OFFICER AT NEW WESTMINSTER

> Pays Annual Visit to B. C. Penitentiary—Investigating Complaints.

New Westminster, May 4.- Dominion Parole Officer F. P. Archibold arrived in the city yesterday afternoon for the purpose of paying his annual visit to the B. C. penitentiary, where he will investigate any complaints which convicts may have to make and listen to any pleas for clemency which may be put forth by the inmates of the big penal institution.

Mr. Archibold annually spends several days at each of the places where penitentiaries are located, devoting all his time to the adjusting of matters between the convicts and those in charge of them. Whenever he comes across a case where, in his opinion, a prisoner shows that he is desirous of leading a better life after once leaving behind him the garb of the lawbreaker, Mr. Archibold looks carefully into the man's antecedents and record, and if ne is satisfied that the repentant once is sincere in his intentions, he recom-mends that the convict be placed on the parole list, which means that the reeasted guest of the government is from that time to all intents and purpose a free man, with the exception that he has to report to the police at stated in-tervals and satisfy the authorities that he is not drifting back into his old evils habits. If at any time the police have reason to believe that a paroled man is committing, or conniving at, crime, he can be placed under arrest and com-pelled to finish out his sentence. According to Mr. Archibold, only a very small percentage of released prove unworthy of the trust reposed

in them.

Within Day's Reach of Victoria.

Alberni, May, 5.-The tri-weekly mail service between here and Nanaimo begins this week. It is reported that the mail will leave Alberni at 9 a.m. on Monday, Wednesday and Friday of each week, arriving from Nanaimo at 10 p.m. on Tuesday, Thursday and Saturday but no public intimation of the changes has been made. In view of the fact that the C. P. R. is to run two trains a day from Nanaimo to Victoria greatly improved service could have been arranged by making the mail, The Prospects He Says Are leaving Alberni in the morning, connect with the afternoon train, from Nanaimo so that mails and passengers could reach Victoria from Alberni and vice versa in one day.

Ladvamith May 5.-Little business of importance was transacted at last night's meeting of the city council. A long letter was read from Dr. Fagan, the purpose of which was to interest the city in the movement for the prevention and eradication of the white plague. The matter was laid over for & week so as to give the aldermen time to think it over.

Mr. Mohun, the Victoria engineer, who has been engaged to prepare levels, specifications, and estimates for a complete sewerage system for the city, again wrote regarding the necessary profiles from Fourt to Sixth avenues. It was decided to lay the letter over for one week, the city clerk meanwhile be-ing instructed to ascertain what fur-ther charges Mr. Mohun would make for supplying the necessary profiles

The mayor announced that a start was to be made with the street improvements. Gatacre street, the central avenue to the depot, is being attended to first and after a small hillock has been removed in front of Jones' hotel the sidewalks are to be torn up and relaid on the proper street level As they are now, they run at all kinds of angles varied by break-neck stairs, and the whole street has long been a public eye-sore as well as a posi-tive menace to life and limb. Football Gossip.

There was, and still is, some disappointment in the city at the failure of the football eleven to collar the shield. The large bunch of supporters took advantage of the Joan excursion to see the game, and, though they cherish some hard feelings against Mr. Ellis for some of his decisions, they are all ready to admit that the Caledonians vere the superior team. In any case the boys have suffered no loss of pop ularity and command the same loyal and generous support. VADSO DELAYED.

Work of Repairing Damaged Main Keel Proves Longer Job Than Anticipated.

Although the Victoria Machinery deot workmen have been working night and day to repair the buckled keel of the steamship Vadso, which touched an uncharted rock in Schooner Passage, River's inlet, last trip, she will not be ready for launching until to-morrow afternoon at the earliest.

The work assumed heavier propor-tions than was at first anticipated owing to the fact that a couple of plates had to be removed to allow of the keel being repaired. It is anticipated that the Loscowitz steamship will get away o-morrow night for Naas and way

BOUGHT SANTA CRUZ

Old Steam Schooner to Be Used in American Waters.

A new salvage company, which has been formed by J. E. Pharo, formerly agent for the B. C. Salvage Company in Seattle, and others, has purchased the old steam schooner Santa Cruz from the Pacific Coast Steamship Company, and will convert her into a salvage vessel for use in American waters, and particularly on the

The deal was put through by Capt. Thomas Wallace on Saturday last at San Francisco, but the price paid has not been divulged. It is understood that the company, which will be known as the North Pacific Salvage Company, will tender for the raising of the wrecked Pacific Coast Steamship Company's Alaskan liner Saratoga, ashore on Busby Island reef. If the work should be performed by the Santa Cruz it will amount to the salvage of one of the company's newer steamships by the earliest vessel of its

Reports have been published broadcast in the Seattle papers to the effect that the purchase of the Santa Cruz was acemplished on behalf of the B. C. Salvage ompany, and that the latter concern ould operate her as a salvage vessel in American waters, keeping her under the American flag. This story is absolutely denied by officials of the local company.

The Santa Cruz is an ancient vessel, built in 1862, and rebuilt on a number of coresions. The home
