PEARY IN ST. JOHN TELLS TIMES OF HIS POLAR TRIP

Commander, Success Achieved, Says He Will Go Back No More Declines to Discuss Cook, But Hopes Controversy Will Be Settled By Men Competent to Judge—Future Plans in Hands of Friends—Visiting Newspaper Men Grateful To Hon. Mr. Pugsley

Enroute from the North Pole to his country villa, at Eagle Island, Maine, Commander Robert E. Peary was in St. John today for a brief half hour, arriving on the Halifax express at 6:30 and departing on the American train.

Peary on C. r Platform Here This Morning

In spite of the early hour a number of people had gathered and for nearly half an hour before he alighted about in the still of the morning fog to get a glimpse of the man who has occupied such a position on the world's stage.

Peary Leaves Train As the train was about to approach the depot there was a rush of the waiting crowd and as the Peary cars came up to a standstill at the lower end of the train shed eager eyes scanned the passengers as they threaded their way through the assemblage.

Without looking to the right or left he passed through the passage made for him and, after giving some directions with reference to his baggage, he boarded the Pullman of the waiting train followed by a group of St. John newspaper men and camera men.

As the time was brief no time was lost in speaking to the commander who though showing the fatigue of "grilling" good naturedly submitted to the reporters. He was accompanied by Mrs. Peary, Miss Marie Peary, the "snow maiden" and Robert E. Peary, Jr.

THE PROSPECT OF STREET CARS TO MILLIDGEVILLE

Col. H. H. McLean, vice-president of the St. John Railway Company in referring to a statement in one of the newspapers that surveys were being made with the object of extending the railway to Millidgeville, said that the matter had not as yet come before the directors and that no definite announcement could be made.

STRANDED STEAMER IS PREY TO FLAMES

Detroit, Mich., Sept. 23.—(Special)—A special despatch from Sault Ste. Marie says: "The steamer Montague which, while on its way from Duluth to Oswego, struck a submerged crib at the upper end of Mud Lake, near Sault Ste. Marie on Sunday night, and had to be beached, caught fire about midnight last night, and was destroyed. Captain Murphy and crew were asleep when the fire broke out. All had thrown escapes."

**LOWELL WINS IN SLANDER CASE**

In the circuit court yesterday afternoon, James Lowell won his case brought against Dr. J. H. Grey of Fairville.

On the resumption of the court at 2:30 his honor concluded his charge. He told the jury that if they came to the conclusion that the defendant had used the words attributed to him and that the fact meaning to be taken out of them was that which Mason and Mills took out of them, it would be fair to find a verdict for the plaintiff. He had, he said, already instructed them as to the mode in which they were to assess damages and he left the matter with them.

The jury retired to consider their verdict at 2:40 and returned at 2:50. Foreman Herbert J. Dowling announced that they had found a verdict for the plaintiff with damages for \$1.

His honor discharged the jury for the day.

**MILLIONAIRE HEAD OF NEW CANADIAN RAILWAY LINE**

Montreal, Sept. 23.—J. O'Brien, the millionaire railway contractor and owner of the O'Brien mine at Cobalt, and many other mineral properties in different parts of Canada, has been elected president of the Matane and Gaspé Railway Company, and has taken over the contract which was given out some months ago to H. J. Desjardis. The line, which is about forty miles in length, starts at St. Flavie station of the Intercolonial, and runs down the south shore of the St. Lawrence to the town of Matane, in the county of Rimouki.

Now that the road is in the hands of Mr. O'Brien, it is practically certain to be pushed on rapidly to completion. The contract has been sublet to Hugh De-hony, who has been for some time superintendent of the O'Brien railways for the National Transcontinental Railway in this province, and is thoroughly experienced in railway construction. The company was incorporated a year or two ago, with Senator Choquette as president, and he remains its legal adviser.

**ABRUZZI TO SPEND A YEAR AFLOAT**

**Believe He Has Asked for Flying Squadron Command and Elkins Match is Off**

Rome, Sept. 23.—It is reported here that the Duke of the Abruzzi finally has given up all hopes of winning the hand of Miss Katherine Elkins, and that the romance which attracted so much interest in Europe and the United States is at an end.

On the duke's return after his mountain climbing trip to the Himalayas, an expedition said to have been suggested by his royal cousin, the King of Italy, with the hope that the young man would be cured of his attachment for the American girl, he visited Marseilles. At the time Miss Elkins was in Paris, and it was reported that they would soon meet. The duke left France without going to Paris, and Miss Elkins disappeared from the French capital about the same time.

At this time when it was believed that the interrupted romance would be renewed, it was learned from an authoritative source that the true reason why the suit of the duke had not prospered was that he had never been able to win Miss Elkins' consent to a marriage, although he had consented to overcome the objections of the Dowager Queen Margherita and others of the court to his marriage to other than a member of the royal family.

The duke has requested King Victor Emmanuel to give him a naval command, and it was learned from an authoritative source that he has been appointed to the command of the flying squadron sailing in December for a prolonged cruise to northern Europe.

Under his present orders there will be no opportunity for a year at least for the duke to meet Miss Elkins, who will be in Europe.

**PROBLEM OVER SOLDIERS' QUARTERS AT GLACE BAY**

Glace Bay, N. S., Sept. 23.—(Special) Colonel Fages, commanding the troops in the strike town, has sent a communication to the town authorities advising them that unless the town takes steps at once to furnish winter quarters for the military it will proceed himself to build them and in the latter event it will likely cost the town considerably more than if the town authorities did the work.

The coal company has offered the town to erect the buildings at net cost of labor and material, estimated cost is \$7,500. The company also offers the site without rent, if the land selected belongs to the company, and also to give as many of its houses as soldiers need without charging rent for these dwellings. The company also offers to buy back the houses at the termination of the stay of the soldiers.

The matter will come up at special meeting of town council.

**22 Children in 27 Years**

Skowhegan, Maine.—Mr. and Mrs. Charles Dickey, of Canaan, announce the birth of a daughter, their twenty-second child in twenty-seven years.

Mrs. Dickey was married when fourteen years of age and Mr. Dickey was only one year younger her senior.

Of the twenty-two children, not one has ever suffered from a serious illness. Here is health and strength and bodily vigor personified. The parents are well—therefore there have been no weak, puny, peevish children.

The health of the child depends much on the health of the parents. Thus, there is the necessity of expectant mothers especially paying great attention to their general health.

**GIRL MUST CHOOSE**  
**ACTOR OR FORTUNE**

Catherine Bigelow, Now Twelve, Has Much Money Left to Her Conditionally

New York, Sept. 22.—"I desire that my granddaughter, Catherine Bradley Bigelow, shall at no time marry a divorced man or actor, and in case this provision of my will shall be broken she shall forfeit her interest in my estate, both real and personal, and the same shall go to my son and daughter, Forbes Hennessey and Ellen Mary Parker, respectively."

Ellen M. Hennessey, widow of former Fire Commissioner James S. Hennessey, made this provision in her will, which has been filed with the surrogate. Violation of the clause by the grandchild, who is now under twelve years of age, will mean that she will lose one-third interest in the estate, which is valued at more than \$500,000.

Mrs. Hennessey made careful provision for the rearing of the child. Francis Xavier, the name of the will stipulates that a maid or chaperon of refinement and education shall be provided for the girl.

**Principal When 25**

Until Catherine is twenty-five years of age the money will be held in trust by the executors of the will. They are to apply \$1,000 yearly for her support and education until she is twenty-one, and \$1,200 until she is fifteen; \$2,000 yearly from the age of twenty-one until she is twenty-five. If she has not wedded an actor or a divorced man by that time she will receive the principal.

The residue of Mrs. Hennessey's estate is divided equally between her son, Forbes Hennessey; her daughter, Ellen Mary Parker, and her grandchild, Catherine Bigelow. She makes her son, daughter and grandchild executor, and provides that the consent of any bequest shall annul the same.

The largest charitable bequests are \$1,000 to the College of St. Francis Xavier for the "Catherine Bradley scholarship"; \$1,000 to the Church of St. Francis Xavier; \$200 to the pastor of the Church of St. Ann; \$200 to St. Francis Hospital; \$250 to the Society of St. Vincent de Paul; \$200 to the pastor of the Church of St. Francis Xavier for masses to be said for the repose of the soul of the testatrix; \$100 for the rector of the Church of St. Francis Xavier for the repose of the souls of the testatrix's father, mother, husband and brother; \$50 to St. Patrick's school.

The cook and coachman are left \$100 apiece. The articles of furniture and accoutrements in the home at No. 117 East Eighteenth street, are bequeathed to the immediate family of the testatrix.

**FRA DIAVOLO AT OPERA HOUSE TONIGHT**

Following is the cast of the Robinson Opera Company, which opens at the Opera House tonight:

Fra Diavolo, a bandit..... Frank D. Nelson  
Giacomo, a confederate..... Edward Beck  
Beppo, in command of the band..... Jack Leslie  
Lord Alceah, a tourist..... George LeRoy  
Lorenzo, a captain..... John O'Donnell  
Matteo, an innkeeper..... Kirk Newell  
Roberto, a servant..... Ardie Allworth  
Lady Alceah..... Essie Barlow  
Zerlina, the innkeeper's daughter..... Lucia Nola  
Carabinieri, peasants, brigands, etc.

The opera treats of the adventures of the famous Sicilian bandit Fra Diavolo (the devil's brother), a historic character who, like Robin Hood, of merry old England, robbed the rich that he might bestow upon the poor, of their wealth.

**PEARY SNAPSHOTS AND WAR SHOW AT NICKEL**

Tonight at the Nickel some snapshots of Commander R. E. Peary, the North Pole discoverer, his wife's family and newspaper party will be thrown upon the curtain. These snaps were taken here by the Nickel's own photographer, in the haze of the early morning as the intrepid explorer retraced to take the Yankee express for his home in Maine.

In addition to this, Miss Grace Renard will lecture that emotional story, "Ten Nights in a Bar Room" to motion picture illustrations. Miss Dorothy Curtis will sing "I Love But You," and Fred Driscoll has an extreme novelty in the song entitled "Strawberries." The feature film for the evening is the great Selig drama, "A Crooked Path," and there will be three other pictures; comedies as usual. This is a magnificent programme, full of up-to-date novelties and a timely news item of great interest.

**THRILLING TALE OF SEA IN THE CROSBY'S EXPERIENCE**

The schooner Henry Crosby, which is owned in Bangor and vicinity, is now at St. John, N. B., where she will be inspected by Capt. Hezen, the master, and repaired if he thinks practicable. The Crosby was dismantled in a hurricane about a month ago, and all her masts and bowsprit were torn away. After a thrilling voyage under jury masts she was met a few days ago about 50 miles off Mobile and towed to port.

The story of the disaster to the Crosby is a most interesting one, and the crew of the New York Sun gives some idea of the hardships which the crew were forced to undergo.

"The dismantled three-masted schooner Henry Crosby, was towed into Mobile, having been picked up off Mobile bay without provisions or crew, and was towed to port. The schooner was wrecked in the hurricane of Aug. 24.

"The bringing of the vessel 700 miles under jury masts is considered a remarkable feat, doing credit to C. M. Crooks, the master of the vessel, and his crew of seven men. The Crosby ran into the West India hurricane 150 miles northeast of Grafton.

The storm continued with such force that in order to save the vessel from total destruction the three masts were cut away. When the weather subsided jury masts were rigged with booms, and the sail that was left the course was fixed toward Mobile. The Crosby made the entire trip under the jury rig and would have come into port under that sail if the provisions and water had not run out on Saturday night. The Crosby sighted the mainland early Sunday morning and arrangements were made with the captain to tow her in.

The Crosby sailed from Mobile on June 30 for San Juan, Porto Rico, with a cargo of lumber and was unloaded and sailed again on August 13 and was out but a short time when the hurricane struck her. Eight days after the storm struck the vessel an offer of \$2,000 to tow the vessel was made by a passing steamer, but it was refused. E. & L. K. Stetson of Bangor are agents for the schooner.

**LABOR MEN CRITICIZE RAILWAY COMPANY**

Lebanon, N. H., Sept. 23.—Resolutions strong in condemnation of the policy of the Boston & Maine R. R. were passed yesterday at the second day's session of the eighth annual convention of the New Hampshire State Federation of Labor.

Following a discussion of the accident of yesterday at Pater, in which several were killed, the following resolution was passed: "Resolved: That the sympathy of this convention be extended to the families and relatives of those who lost their lives or were injured in the railroad accident at Pater. We condemn the negligence and penny-pinching policy of the Boston & Maine R. R. in continuing the use of old and antiquated cars, and we further condemn the management for its heartlessness in compelling train dispatchers, telegraph operators and trainmen to work long hours for small wages, and we strongly urge our state authorities to make a rigid investigation of this accident that the traveling public may not be sacrificed to the greed of the Boston & Maine R. R."

**THE MEAN MAN.**

"Pop," said the farmer's boy, "I have been reading a lot about these Marghons these days and I'd like to enter some."

"All right, my lad," hastened the old man, taking a fresh chew of tobacco, "just you go down to the woodpile and start a wood-chopping Marathon and when you are through you can use the sawdust to play circus. Now, who says I'm not a considerate father!"

If you want to keep your domestic on the top of the ice, place a newspaper over the ice and your dishes never slip off or tip over.

**DR. MINOT SAVAGE LEAVES THE PULPIT**

London, Dec. 22.—Dr. Minot Jubon Savage, before leaving here for New York on Monday announced his permanent retirement from the pulpit. To a few friends gathered to see him off he said:—"I am out of pulpit and public life. Hereafter I will devote my entire time to writing."

It is understood that Dr. Savage does not purpose to divert his literary talent from its accustomed channel, but will devote his whole time to work in connection with the Unitarian cause. For two years he has been suffering a nervous breakdown. Long and careful treatment and extended rest have largely restored his health and vigor. When seen in London he seemed to be in excellent spirits and suffered in no way from indisposition.

**REFUSES LOAN TO SAVE WIFE FROM PRISON**

Cleveland, O., Sept. 22.—Rather than lend his former wife \$500, which would have kept her from going to prison Jacob Fickel, a brewer, saw her sentenced to the penitentiary for two years. Sentence was suspended, and Mrs. Fickel's son will attempt to raise the money and save his mother.

Mrs. Fickel was charged with embezzling \$800 from the estate of Bertha Bounbar while acting as guardian to the woman's last winter. She was convicted, but Judge Vickers told Mrs. Fickel she could go free if she would repay the money. Mrs. Fickel's son tried to raise the money but he failed.

The judge scored Fickel because he would not pay the amount of the embezzlement and save the woman released. "Any man who is half a man would do as much as is asked of Fickel to save the mother of his children, even though he has no regard for her as his wife," said the judge.

**SUPERIOR PAINLESS DENTISTRY!**

"There is a world wide cry against the dentists that they torture their patients. Those of strong physique submit and endure the agony. With a second class this is simply impossible, and thousands of teeth are neglected and lost even though the patients may be able to pay for our most skillful services. Then there is a third class who, after months of mental torture in anticipation, finally come into our hands, and with nerves strung to a painful point, pass through the ordeal, but at what a cost! We do not sufficiently consider the consequences of shock in the dental chair, yet undoubtedly many suffer for months and even years from injuries to the nervous system received whilst in our hands.

The greatest duty of our profession today, is to discover and adopt a mode of painlessly performing our operations."

NOTE—The above is an abstract from a paper read by an eminent dentist of New York City before a society of dentists in Philadelphia.

Roy, trade commissioner for Canada in Newfoundland, who is here endeavoring to interest exporters in the development of trade between the dominion and the island colony, says that imports to Newfoundland amounted to \$12,000,000 last year. He deplores the fact that few Canadian commercial travelers are seen there. Mr. Roy will meet any exporters who desire to see him in the board of trade rooms this afternoon.

Several parties of hunters are out after partridges, and woodcock and some good bags have been made. Woodcock are plentiful, but because they are moulting and scattered about they are hard to find. Indications according to some of the local sportsmen are that woodcock will be more plentiful than ever this year. The height of the woodcock season is along about the first week in October, and the large number of birds that can be found now promise many in October. Partridges are still in the swamps where it is impracticable to hunt them, but as cold weather approaches they will be out on the ridges, and present indications point to plenty of them, also.

**WHITNEY HAS SEVERAL TIMES VISITED HERE**

**Man on Whom Much Depends in Peary-Cook Controversy Has Friends Here—His Visits**

Much in the Cook-Peary controversy over the discovery of the North Pole will centre in the return of Harry Whitney to civilization, and it will be of interest here to know that Mr. Whitney has visited St. John on several occasions, and that word has been received from him by St. John friends more than once since Peary's just completed pole hunting expedition started for the frozen regions.

It will be remembered that Dr. Cook in substantiation of his claim discovery of the top of the earth, said the other day that a duplicate of his records and observations, and some of his instruments had been given into the care of Mr. Whitney, whom he met in Greenland, the idea being that, if his own set of records should by any mischance be lost, Whitney would have duplicates.

Whitney is a wealthy young man of some 32 years, who spends his time roaming about shooting, hunting, touring hither and thither and as the family are in the millions list, he has all the leisure to indulge his taste for the roving life.

Some five years ago he came to St. John in a handsomely appointed yacht with several wealthy New York friends. They went to Bonny River, in Charlotte county, and had good sport. One result was that Whitney had almost induced Andrew Carnegie, with whom he is very friendly, to come here fishing and shooting, but something prevented.

Mr. Whitney, however, has been here twice since, staying at the Royal Hotel, and has also been at Kennedy's in the city. He had planned another New Brunswick visit just about the time that Peary was starting for his last expedition to polar regions, and meeting the commander in a New York street, was invited by him to sail on the Roosevelt on its Arctic voyage. He had been twice to the Arctic before, and he accepted Peary's invitation—not, however, to go the whole way with the explorer, but to accompany him to Greenland, where he would enjoy hunting the wild animals of the north land. Whitney had built for the trip the boat, a picture of which was shown in the Times last week.

He left Peary at Greenland and encountered Dr. Cook there, and was given by the doctor the use of his hut as a hunting headquarters. Whitney is now supposed to be somewhere in the Labrador country hunting. When he will come out is not known, but it is thought possible he will return to the states via St. John.

The St. John family to whom he is well known, have received postal cards from him at various times, including the "Peary postal," of which there is a series, and have also in keeping for him a handsome set of fishing poles, which he had sent to St. John in their care to await his coming here.

Whitney's visit to New York is said to have received a letter from him, written before knowledge of the controversy reached him, and in which he wrote:—"I am too bad that Commander Peary should have failed in being the first to get to the pole after all these years and all his attempts."

**ARTILLERY BAND TO GO TO MILWAUKEE**

The members of the cast and choruses in the production to be given in the Opera House for four days, commencing October 10 by the St. John's Club of Milwaukee 10 Club, are rehearsing diligently several nights each week. The entire staging is under the personal direction of H. H. M. Gardner, of New York, and he speaks in the highest terms of St. John's talent.

The proceeds of the entertainment are to be devoted toward paying the expenses of the Artillery Band to Milwaukee on the occasion of the supreme lodge K. of P. convention in 1910, and are not to pay the expenses of the knights, as so commonly thought.

The play to be presented is "A Fool for Luck," a piece that has been produced with great success by Mr. Gardner in many parts of the United States. It is a two act comedy interspersed with specialties and musical numbers. The choruses are being drilled by A. Chip Ritchie, which is a guarantee of their excellence and he will have a special orchestra of eighteen or twenty pieces from the Artillery Band under F. C. Jones and Allen Crawford.

**HAIRDRESSERS TO REAP HARVEST ON OCTOBER 4**

The fact that one hair dressing establishment has already booked forty orders for October 4 is some slight indication of the interest which society is taking in the Buchanan-Henck concert, which will without doubt be the society event of the season. For this reason alone it will be an event well worth attending, apart altogether from the afforded opportunity of hearing one of the greatest singers of the age. Next Wednesday the seat plan will open to subscribers at the box office at 9 o'clock.

**MR. MCGAFFIGAN AND PARTY HUNTING**

Bathurst, Sept. 23—J. J. McGaffigan of St. John, was in town for a few days last week arranging a trip to the woods.

On Tuesday last there were with him Dr. M. W. Seagers, of St. Augustine, Florida, and J. F. Greaves of Miami, Florida. They have three guides and a cook to care for the party.

They went into the head of the big Tracadie, and after a stay of four or five days there, they will go down that river to Pokemouche Landing and go over to the head of the Pokemouche Landing and go over the river to the Pokemouche waters. From there they will proceed to "Alderwood" Mr. McGaffigan's summer home on the Little Tracadie, where they will enjoy some days hunting partridges. Later they will shoot wild fowl, geese, brant and black ducks.

Fairview fishermen have been occupied during the past few days in putting their park and base ball ground in shape and next season will probably see important improvements completed. The ground is being levelled and will be sown with grass seed to provide a good lawn. A grandstand will be erected overlooking the base ball field and next summer the fishermen expect to provide some good sport there.

**The Man Who Wants to Spend \$20 for His Fall Suit Can Choose From 35 Styles at Oak Hall, Any of Which Would Cost \$25 or \$28 in Other Stores.**

There's no question about the saving. It's evident to any one who makes a comparison of our \$20 suits with those sold generally at \$25 and \$28. Make the comparison as critically as possible. Examine the fabrics, the workmanship, the trimmings, the style. Rip the coats apart and look at the insides. The more thorough the inspection the more you'll appreciate the exceptional value we offer you.

We're sure of our ground. We know that other stores which pay the maker a good profit for themselves must ask at least \$25 or \$28 for such suits as we sell at \$20.

You see, it's because you buy directly of the manufacturers when you buy at Oak Hall and have only one profit to pay that you can buy for so little. But you not only save money in buying at Oak Hall—you also get the best clothing that skill and care can make and you can choose from a larger and better variety of new style than any other store can show.

Where else, for instance, outside of Oak Hall can you find 35 distinct styles at \$20? And it's the same at every other price from \$5.00 to \$30—both assortment and values are matchless.
