J. SUTTON CLARK,

St. George, N. B.

West St. John, September 7th, 1908. Editor of Granite Town Greetings. Dear Sir,

We are of the eve of an election to send county representatives to parliament at Ottawa to support, or oppose, that grand man Sir Wilfrid Laurier. Is there any reason why Charlotte County should oppose the present administration? They will surely be returned to power, and Charlotte Co. N. B., should be in line. It is the writer's opinion that the county of Charlotte is one of the brightest stars in the province, if it was properly developed. There is water power enough to run all the R. R.'s and factories that can be established for some time to come. You have bays and rivers patiently awaiting to be assisted by the art of man for the benefit of the people without regard of the personality of the candidates, the people of Charlotte Co., should support the man who will support Sir Wilfrid Laurier, and back up Hon. Wm. Pugsley, who is doing so much for Charlotte Co., and New Brunswick, and more is expected. Do not be in opposition but help the good work along. Charlotte Co. is first on the map in Canada towards the west, let it be, this time, first for the good Liberal administration at Ottawa.

Yours truly, ALEX. WILSON.

Ticking or dry Coughs will quickly lighten when using Dr. Shoop's Cough Remedy. And it is so thoroughly harmless, that Dr. Shoop tells mothers to use nothing else, even for very young babies. The wholesome green leaves and tender stems of a long healing mountainous shrub give the curative properties to Dr. Shoop's Cough Remedy. It calms the cough and heals the sensitive bronchial membranes. No opium, no morphia, nothing harsh used to injure or suppress. Demand Dr. Shoop's. Accept no other. Sold by All Dealers.

Eat Sour Milk and Live Long

The latest producer of long life discovered by European physiologists is zoghurt, a preparation of sour milk. Professor Elias Metchnikow, of the Pasteur Institute, was the first to direct attention to it, but no sooner had he done so than Professor Reinhardt, of Vienna, announced that he had known all about it for years and that it was in general use in country parts of Bulgaria. Professor Metchnikow's theory is that the ferment contained in the milk attacks certain bacteria which develop in the human system and have poisonous effects. He has proved by experiment, he says, that the zoghurt has an absolutely disinfecting influence, and that by destroying the poisonous germs it not only prevents disease, but also arrests the process of aging.

In a paper published in the "Austrian Review" Dr. Reinhardt tells how the Bulgarians prepare the zoghurt. Cows or goat's milk is boiled in an open vessel until reduced to about half its original volume. Then it is cooled, and when it reaches a temperature of about 115 degrees some zoghurt already prepared is stirred into it and it is left to ferment. The germ, which the doctor calls mava fungus, acts quickly and the zoghurt is ready for use in a day.

Dr. Reinhardt thinks the health-giving qualities of the preparation are amply proved by the fact that Bulgaria, in a population of four millions, has three thousand eight hundred zoghurt eaters of one hundred years of age and upward while in the whole German Empire, with sixty-one millions of people, there are only seventy-one centenarians.

Farm Poetry

Mr. Editor: Will you kindly give space in your paper for a farmer's wife to "speak her piece". We have lately been reading a few items regarding the beauties of life on the farm with which we differ. Where is the poetry of farming? "Tell me, ye winged winds," or any one else who can, for we really ask for information on the subject. We have heard of a person living all his lifetime in sight of a most beautiful landscape, but he never saw the beauty nor dreamed of such a thing, till his attention was called to the fact by another. It may be so with us; we may be living in the very midst of the poetry and pleasure of rural life, and our dulled senses fail to realize the fact. Therefore please who can, point us to the bright way. But please don't mention, among the attractions of country life the wood-lane dells, where tiny leaflets clap their merry hands and all nature smiles in serene happiness; nor say anything about the "pure, fresh country air". We have a nice grove on our farm, and often when we run out for an armful of wood or a pail of water, we look at the grove and think how pleasant it would be to sit there and rest; but the kettle waits for the water, the fire for the wood, and back we go. And when the work is done, there is the baby—she cannot be left alone, and we think we prefer rest indoors to an enjoyment of nature's beauties under such circumstances.

As to the "pure fresh air," we have breathed quite as pure air in cities as that which is wafted from the neighboring pig-yard. And when the wind sweeps from our big marsh, it is almost too fresh for comfort or the well-being of the clothes hanging on the clothes-line.

We should never have thought so much about this were there not so much written about the beauty and poetry of farm life, by those who know least about it. There are charming rural retreats, we know, but charming rural life is another thing. A party may spend a hot summer day in the cool woods and be delighted; but let them pass the same day over the cook stove or ironing board, or in the hay field, they will find a difference. The former is the ideal rural life; the latter the real.

There are many pleasures in the farmer's life, but plenty of hard work to destroy all idea of poetry, and bring one down to very common prose. Is there poetry in butchering, sausage making, lard frying? Is there poetry in hauling manure? Is there, oh, is there, poetry in picking potato bags?

A FARMER'S WIFE.

Winding a Watch

"You wouldn't think," said a watchmaker, that it would make any difference whether a watch is wound up in the morning or at night; but it does make considerable difference. When a watch is wound up at night, coming out of a warm pocket, and laid down or hung up in a cool place, the mainspring will contract by the cooling off of the metals being wound up tightly, all chance of contracting has been shut off and the spring is bound to break.

"If, however, the watch is wound up in the morning, having partly run down through the night, there is room enough left in the barrel to contract. Another reason why it should be wound up in the morning is that the spring will then have more power, and this will be in a better condition to resist the disturbing movements of the bearer during the daytime."

WEDDING BELLS

The home of John Kerr, Bocabec, was the scene of a quiet and very pretty wedding on Wednesday, Sept. 2nd, when Ada Katharine Millen was united in marriage to Alexander Stewart Kerr, in the presence of a few intimate friends and relatives. The ceremony was performed at 12 noon by Rev. T. Hunter Boyd, assisted by Rev. J. R. Kerr, brother of the groom. The bride, who was unattended, wore a dress of white silk muslin with lace trimmings and carried a shower bouquet of white sweet peas. The wedding march was played by Miss Adeline Kerr. The rooms were prettily decorated for the occasion. After the ceremony luncheon was served. Mr. and Mrs. Kerr leave very soon for Eureka, Cal., where they will make their future home.—Beacon.

Bocabec Cove was the scene of a delightful wedding party on Saturday, Sept. 29, when Miss Carol Forsberg, of Dorchester, Mass., was united in marriage to Mr. A. Ross Lambert, of Lord's Cove, Deer Island, in the presence of a large number of the relatives and friends of the young couple. The ceremony took place in the parlors of the spacious summer home of the bride's parents and was performed by the Rev. Mr. McQuarrie, of Deer Island. The bride in her gown of white net and lace over white silk made a lovely picture as she slowly entered the front parlor on the arm of the groom preceded by the little flower girl, Inez Holt, and her maid of honor, Miss Arla Lambert. Both of whom were also in white. Mr. Fred Lambert, brother of the groom, officiated as best man and the ushers were Messrs. Hugh McGregor, Howard and Harold Mitchell. The entire lower suite of rooms, parlors, dining room and hall, were made beautiful by an elaborate disposal of evergreen and golden rod, and at the close of the simple but impressive marriage service, the bride and groom received the congratulations of their friends standing against a background of the green and gold which made a very effective setting for the receiving party. The wedding supper which followed the reception was suitably served, by friends and relatives. Miss Mabel A. Woodworth, of Jamaica Plain, Mass., cousin of the bride, having charge of this part of the occasion, assisted by Miss Orr, Miss Crichton, Mrs. Harold Mitchell, Miss Holt, Mrs. Howard Mitchell and others.

The presents were very beautiful and many.—Beacon.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for St. John Harbour Wharf Extension, will be received at this office until 4.00 P. M. on Monday, October 5, 1908, for the construction of an extension to the Wharf in West St. John Harbour. St. John County N. B., according to a plan and specification to be seen at the office of E. T. P. Stevens, Esq., Resident Engineer, St. John N. B., C. E. W. Dolwell, Esq., Resident Engineer, Esplanade N. S., J. L. Michael, Esq., Resident Engineer, Merchants Bank Building Montreal, and at the Department of Public Works, Ottawa.

Tenders will not be considered unless made on the printed form supplied, and signed with the actual signatures of tenders. An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works for twenty-three thousand dollars (\$23,000), must accompany each tender. The cheque will be forfeited if the person tendering declines the contract or fails to complete the work contracted for and will be returned in case of non-accepted tenders. The Department does not bind itself to accept the lowest or any tender.

By order, NAP. TESSIER, Secretary, Department of Public Works, Ottawa, September 4, 1908. Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

Over Two Hundred Sturdy Fishermen in Convention

Union Never More United and Harmonious than at Present.

The Weirowners and Weirfishermen's Union met in connection in Coitt's hall Friday afternoon, with over two hundred enthusiastic members present. This meeting was a mighty demonstration of the strength of the organized fishermen of Charlotte County. The same spirit, courage and energy that was shown at the first meeting of the Union was in evidence on this occasion.

Several eloquent speeches were delivered by members of the executive, all showing that conscientious endeavors to arrive at a satisfactory settlement, with the packers, had been made, and every proposition rejected.

Pres. Belyea in his address regretted that a few had deserted the ranks, but it was very evident that from the enthusiasm of this meeting, more than two thirds were determined that no settlement other than a fair and honorable one would be made with the packers.

He would ask those who had dropped out to remember that they owed a debt of gratitude to the members who had fought their battles and refused to sell their fish at other than Union prices.

Mr. Everett McConnell made an impassioned speech, and warned the members to be on their guard against the deception and tricks of the packers who were leaving no stone unturned to disrupt the Union. He suggested that valuable lessons could be taken from the recent granite cutters strike, in which the cutters won a notable victory, by being united.

Mr. Andrew McGee said that a number of the packers association told him that they were willing to pay the Union price for fish, but must have the whole pack. This he considered very unfair, to the independent packers, who had stood by the Union during this fight, and he would not agree to a settlement on this basis, and he knew the Union felt the same way. A motion that the present price be made a standard price was voted down.

J. Sutton Clark, Geo. M. Byron, Bismark Dick, Will Holt, Wm. Hinds and several others made addresses urging all to stand together in this fight against monopoly.

Before adjourning Pres. Belyea impressed upon the members the fact that the executive would make every honorable effort to effect a settlement at any time the packers showed a disposition to treat with them on a reasonable basis. With three musing cheers for the Union, the executive, the President and the King one of the best meetings in the history of the Union was brought to a close.

OBITUARY

The death of Selgefield Webber occurred this evening from inflammation of the bowels. Mr. Webber had been a very sick man for some weeks but hopes of his recovery were still held by his friends until his death was announced to-night.

Mr. Webber leaves a widow and four sisters, Mrs. John K. Gillespie, Galais; Mrs. Alice Harford, Portland Me.; Mrs. Robert Kirkpatrick, Milltown, and Miss Nellie Webber of this town, and two brothers, Fred Webber, Woodstock, and Harry M. Webber, of St. Croix Courier.

Mr. Webber's age was fifty three years eight months, most of which he spent in the St. Croix Valley, where he was highly respected for his integrity and honesty. He was a staunch temperance worker and a member of the old Howard Division S. of T. Mr. Webber was for many years assistant superintendent of the Methodist Sunday school and was a valued member of the Methodist official board and of the trustee board of the church. He conducted a dry goods business for several years with Duncan Stewart under the name of Stewart & Webber. The business passed into the hands of Manchester, Robertson & Allison, St. John, for whom Mr. Webber was agent.—Telegraph.

The infant son of Mr. and Mrs. J. R. O'Brien died on Thursday after a short illness. The funeral took place Friday afternoon, the services being conducted by Rev. H. I. Lynds. A number of carriages followed the remains to the rural cemetery where interment took place.

Died at his home in Mascarene on Sept. 13rd, Andrew Stewart eldest son of Mr. Allan Stewart after an illness of two months of consumption which he bore very patiently. He was cared for during his illness by a loving wife, and devoted father who left his home and work to watch by the bedside of his son day and night for over eight weeks, but all that could be done was of no avail. He leaves to mourn a wife, one little son, a father two brothers, Harold and Percy at home and one sister Mrs. Frank Leland and a host of friends. He was well liked by everybody who knew him. He was laid to rest on Sunday Sept. 14th, in the Lowe burying ground beside his mother. The service was conducted by the Rev. Mr. Munroe of Pennfield, the funeral was largely attended and the floral tributes were beautiful. The pall bearers were Roscoe Burgess, Willie Leland, George Chambers and Benny Penny.

It's a pity when sick ones drug the stomach or stimulate the Heart and Kidneys. That is all wrong! A weak Stomach, means weak Stomach nerves, always. And this is also true of the Heart and Kidneys. The weak nerves are instead crying out for help. This explains why Dr. Shoop's Restorative is promptly helping Stomach, Heart and Kidney ailments. The Restorative reaches out from the actual cause of these ailments—the falling "inside nerves." Anyway test the Restorative 48 hours. It won't cure so soon as that, but you will surely know that help is coming. Sold by All Dealers.

"The public" says the St. John Globe "can have no reason to doubt Mr. John McKane's statement that in the few months in which he has been the owner of the paper he has just sold he has lost one hundred and thirty thousand dollars. He has maintained a costly paper under a costly management, and has had some heavy handicaps. Probably many experienced newspaper publishers will be surprised at the moderation of his announcement of his loss. Apparently he might have given the paper and plant away long ago and saved considerable cash. Of course, it must be a great luxury for a gentleman of means to do the brilliant work which Mr. McKane has accomplished in journalism in a very

short period of time. And from that point of view he must regret his departure from a field in which he has so triumphantly and in which he has surely made a record. But it is quite clear that the pace was too rapid for even his Napoleonic capabilities. He may be assured however, that this journal is very sorry that he leaves the field, as there is no person left in it can stand such a heavy loss, and take the result so philosophically. Further than that his plan of work for his party was a reasonable one and never excited harsh criticism. Of course the gentlemen who take up his proprietary interest in the paper are men of means, but there are more of them to bear the burden which he lays down. While thus expressing appreciation of prominent features Mr. McKane's journalistic career, we may sincerely venture to hope that should he ever again enter the arena of journalism it will be an orbit much more extended than New Brunswick, which is entirely too limited for the comet-like course of so daring an operator.

Drive Rheumatism out of the blood with Dr. Shoop's Rheumatic Remedy and see how quickly your pain will depart. Rheumatism never did reach the disease, Rheumatism isn't in the skin. It's deep down—it's constitutional. Getting rid of the pain, is after all what counts. That is why Dr. Shoop's Rheumatic Remedy goes, by word of mouth from one to another. And herein lies the popularity of this remedy. It is winning defenders everywhere. Tablets or liquid. Sold by All Dealers.

What's in a Name? Editor: About six years ago a new Cast Iron Range was put on the market by the McClary Manufacturing Company, and a contest commenced for procuring a suitable name. Some 20,000 were suggested but the one that prevailed most to the judges was "Pandora".

The same year an extensive advertising campaign was put on, and has kept up ever since, by which this name and the Range have become nationally known. Pandora is now a synonym for Merit.

If there could be any doubt in any person's mind as to the value of newspaper advertising, in Canada, the success of the Pandora Range, and the widespread acquaintance with the name Pandora, is the best proof that advertising does bring the people in closer touch with exploited goods.

"Pandora" sales record is unequalled anywhere. Yours truly, THE MCCLARY MANUFACTURING CO. Editor's note: A series of Pandora advertisements will commence in this paper at once. They were prepared by A. A. Briggs, Advertising Manager of the Company, and placed by McConnell & Ferguson, Advertising Agency, London.

MUST HAVE OVER FIFTY DOLLARS Immigrants Minimum Money Qualification Has Been Doubled.

OTTAWA, Sept. 12.—An order in Council has passed raising minimum money qualifications of \$25 now required of all immigrants coming to Canada to \$50 for period from January 1st to February 15th. The doubling of qualification during midwinter is with a view to restricting as far as possible the arrival of any immigrants who might become dependent during the period when employment is not easily obtained. The restrictive immigration regulations adopted by Government early this year have had the desired effect in cutting down immigration this year by considerably over one half and the total immigration for year will, it is expected to be only a little over one hundred thousand.

Some Day

"Some day," said a well-known physician, whose practice is largely among children, "parents, teachers and people generally will reach such a high state of civilized comprehension that this one important truth will be universally accepted and acted on, namely: No healthy child is ever ill-tempered; no sick child is good-natured; disease creates ill nature; bad temper is due to some physical ailment, invariably."

Timmins, who believes in the old saying: "See pin, pick it up, and all day long you'll have good luck," one day saw a pin in the street. Bending down to get it, his hat tumbled off and rolled in the gutter. His eyeglasses fell and broke on the pavement, his suspenders gave way behind, he hurt the buttonhole on the back of his shirt collar, and he all but lost his new false teeth. But he got the pin.

SHORN LAMBS.

Ways of the Man Who Loses Their All in Wall Street.

What becomes of the men who lose in Wall street. They are seldom heard of. The visitor to New York gets the notion that the gay crowd of money is the Wash-off-the "uptown street"—comprises them all. But this crowd is altogether misrepresentative and has no true sign value, says a writer on Wall street in the New Broadway Magazine.

You can retain your equilibrium easily in watching them by remembering that the man of New Britain is hiding somewhere, a fugitive from justice; that August of Mirvance is in prison; that there are many other men who went down hard with big crashes, and that for every one of the big men there are 1000 little men whose losses are smaller, but not a whit less fatal.

You would find some of them tonight in New York, if you knew in what window to look, figuring anxiously and endlessly, looking over insurance papers to see if further loans are admissible.

Their wives are sewing; their daughters are studying stenography. You will find others hanging about hotel lobbies, and the moment you catch their eye or grip their hands you know that they are nervous, distraught, broke, restless—typical Wall street victims.

The others, professionals, parasites, satellites, winners, you will find in the cafes and hotel restaurants, making up a large part of the crowds at Sherry's and Delmonico's, Martin's and Hector's, the Waldorf, Manhattan, Astor, St. Regis and Holland House. Wall street by day demands the Great White Way at night. From the moment the market opens till its close the case is a fast and furious one of sharp trickery, clever dodging, millinery, bluffing, hypocrisy, lying.

Nerves are constantly tense; the brain must be clear and quick at every move. Successful lying uses no gray matter, and the dash and festivity of the Tamboresque at night are just unnatural enough to fit in and offer the kind of recreation desired.

SAW HIS OPPORTUNITY.
The Reporter Seized It and Got His Real Start in Life.

As the city traveling public loves a cheap changer because it has a fellow traveler for him. This is why the story of how Frank Vanderlip, the banker, got his start has an almost universal appeal. It happened when Vanderlip was a reporter on a Chicago newspaper writing financial news. The traction situation then, as now, was almost impossible. Charles T. Yerkes was traction dictator, and the stockholders and the public never had a word to say in the conduct of the roads. Nor could they get any definite idea of the financial condition of the properties.

The time for the annual meeting of the stockholders of the principal road came along. At all the meetings Mr. Yerkes had rattled off the reports in the usual undecipherable corporation way, and no one knew what was doing. So Vanderlip planned a coup. He bought a share of stock, which admitted him to the meeting. He had been a stenographer before he became a newspaper man. When Mr. Yerkes called to his breezy explanation of finances the young reporter took down everything he said. Mr. Yerkes used one striking phrase, and it was this: "The traction companies have rents that are the highest in the world."

The next day the sentence topped Vanderlip's account of the meeting. It aroused a storm of discussion, for it laid bare some of the traction methods; also it got Vanderlip a raise in salary and a promotion.

Nothing Like That in America.
"This was told me the other day," said a man, "by a friend who has just made the tour of Ireland. He was at the lakes of Killarney, and a Jarvey driving one of those side-saddle cars was telling him of a visitor who was attempting to masquerade as an American, but had all the outward signs of being an Englishman."
"You say, sorr," said the Jarvey, "that you live in the United States. Were you ever in Dublinoir, In.?"
"I was," said the traveler. "I was there for a fortnight."
"Oh, wul ye?" said the carman. "Ye were never there. Divil a fortnight do they have in America."

Getting it Right.
It was on a street car in the city of Washington. Two colored women in cheaply gorgeous splendor were talking and one chanced to mention a Mr. Jenks in her conversation.
"Excuse me," said the other woman, "but his name is not Jenks. It is Mr. Jenks."
"Oh, I sees," said the other woman complacently. "I sees that you puts de access on de pronoun."

A Bit of Sarcasm.
A young man who had prolonged his call on his sweetheart a few nights ago was surprised when a window in an upper story was raised as he left the house and the voice of the mistress called out: "Leave an extra quart this morning, please!"—Argonaut.

Her Fourth.
Lawyer—As your husband died intestate, you will of course get a third. Widow—Oh, I hope to get my fourth.

Appropriation for the public wharf, dredging, construction of the fishway and work actually commenced! Now will you be good!

Lincoln's Advice.—I like to see a man proud of the place in which he lives. I like to see a man who lives in it so that his place will be proud of him. Be honest but hate no one; overturn a man's wrong doing, but do not overturn him unless it must be done in overturning the wrong. Stand with anybody that stands right. Stand with him while he is right and part with him when he goes wrong.

The streets are thronged with neatly dressed happy faced boys and girls, making a bee-line for school, where our new, and old teachers, are ready to receive them with a hearty and loving welcome. These young people ought to be thankful and grateful that they live in a time, a country and a town where the best education on earth may be had for the asking. We all, as citizens, should be proud of our schools, of our excellent faculty of instructors, and of the pupils under their charge.

We acknowledge our weakness for flattery, but we have received one of the nicest letters that it has been our province to receive for some time. The graceful writer, a Lord's Cove lady, says in part: Greetings is very popular here, as it is all over Deer Island, and we are always glad to get it.

The Census Taker—Your name mum? "I don't know."
"Beg pardon, mum."
"I've been divorced. At present my name is Mrs. Jones in this State. In several states, it is Miss Smith, my maiden name, and in three states, it is Mrs. Brown, my first husband's name."
"This your residence mum?"
"I eat and sleep here, but I have a trunk in a neighboring state, where I am getting a divorce from my present husband."
"Then your married at present?"
"I'm married in Texas, New York and Massachusetts, divorced in South Dakota, Missouri, Alaska, Oklahoma and California, a bigamist in three other states and a single woman in eight others."—Chicago Tribune.

Associate Justice D. R. Brewer, the wit and story-teller of the United States Supreme Court, is credited with the following:

A millwright was converted to the way of thinking of a sect which periodically was inspired with a fore-knowledge of the imminence of the day of doom and set the date, preparing for Gabriel's greeting.

The date was set and the day came. The millwright donned his white robe and went out into the fields to await the coming meeting with the celestial throng. The day passed until it was late in the afternoon, and the millwright, having risen at the stroke of midnight on the morn of the eventful day, grew drowsy, and throwing himself down upon a pile of hay, fell asleep on his watch.

Boys' discovered him, and, with the natural mischievousness of boys they set fire to the hay. The smoke and the heat soon woke the slumbering millwright, and, sitting up with a start, he cried with the anguish of the lost.

"Just as I expected! In hell, after all!"—Milwaukee Sentinel.

"There is no doubt that someone blundered this year in the handling of the harvest hands. There are far too many men in the West and they are not properly distributed. We believe that in the first instance the crop reports have been misleading all the season, and from our knowledge of the province we could not concur in the glowing reports handed out by the railway officials and crop reporters. We have only an average crop and the threshing returns will be very disappointing for the whole of Saskatchewan.

"One half of the Eastern men now in the country can handle the harvest, and the threshing will not give employment to the extra men now lying around the large centres who cannot find work.

"It is an injustice to the citizens of Moose Jaw to have to feed hundreds of these men gratis. We believe that the department of agriculture has been sadly lacking in executive ability in dealing with the harvest help in Saskatchewan, and with them the railway companies must assume a share of the blame, although considering the cheap fare and the loss of their property destroyed by these excursionists, there is no doubt but that the companies are at a financial loss on the whole transaction. The fact remains, however, that thousands too many men have been brought into this province, and having them thrown upon the charity of our citizens cannot be justified."—Regina Paper.

BOYD BROS.

It is of interest at this time to recall the result of the last Dominion contest in this province. The majorities polled by the successful candidates in the last election were as follows:

LIBERAL	
Restigouche—Reid	438
Gloucester—Turgeon	1,310
Northumberland—Loggie	285
Kent—LeBlanc	101
Westmoreland—Rimerson	1,046
Carleton—Carvell	275
Victoria-Madawaska—Costigan	1,188

CONSERVATIVE	
Kings-Albert—Fowler	359
St. John City—Daniel	1,211
St. John City and County—Stockton	637
Charlotte—Ganong	254
Queens-Sanbury—Wilmot	118
York—Crockett	162

In connection with the above it will be noted that in Kent there were three candidates in the field which resulted in Mr. LeBlanc's comparatively small majority.

Since the last election which took place on November third, 1904, some changes in the representation have taken place. In St. John city and county a vacancy was caused by the death of Dr. A. A. Stockton (Conservative) and Hon. Dr. Pugsley was elected by acclamation, making the present representation eight Liberals and five Conservatives.

In Victoria-Madawaska Mr. Michaud was elected by acclamation to fill the vacancy caused by the appointment of Hon. John Costigan as Senator.

Conservatives in other parts of the country frequently anticipate gains for their party on account of the success of the Hazen party at the polls on March third last. But, as is well known in this province, this was achieved with the help of Liberals who in the Federal contest will give their hearty support to the Laurier government.

We do not expect to see eye to eye with our readers on all public questions, but we are honest in our convictions, and anything that appears in our columns is justified by the conditions that exist. We are confident that our position in the community will not be endangered one particle by unreasonable and petty means taken to "get square" for some fancied grievance, on the contrary such steps produce farcical results, and the impression made on the community by an apparent slap at us has not worked the injury intended. Broad minded business men, never have narrow views—they are above petty measures boarding on the tit-for-tat methods of children, alive to their own and the public interests they do business on abroad basis.

Len Sellers who injured his hand so badly some weeks ago is rapidly improving, but is still inconvenienced by the accident.

A meeting of the St. George Penfield and Lepreau Agricultural Society will be held this evening, in Spinney's hall Penfield, to meet arrangements for the annual fair.

A dance and social entertainment was held in Drageorgian Hall on Friday evening last. About thirty young couples attended and spent a most enjoyable evening.

Beautiful weather for the past two weeks, and the farmers are taking advantage of it. Vegetables are plentiful, and farmers teams are on the streets selling their produce.

Fish at the factories have not been quite so plentiful this week as formerly, the great number of large fish and the unusual amount of dogfish and horse mackerel being accountable for the scarcity, it is said.—E. Sport Sentinel.

A few evenings ago the relatives of Mr. and Mrs. Vaughan Dewar gathered at their home to celebrate the 20th anniversary of their marriage. The evening was very pleasantly spent with games and music, and a dainty lunch was served. At a late hour the guests departed, wishing Mr. and Mrs. Dewar many more happy years of wedded life.

The St. Stephen Carnival was a big success. Fine weather, big crowds, and a good program of sports helped to make the three days of festivities a pleasant one for all who attended. The sports were well managed, and elegant prizes were given for every event. The important event the reel race was captured by St. Stephen with Calais second, prizes \$800.00 and \$125.00.

The shooting season in New Brunswick opened on September 1st for wild geese, brant, duck, snipe and other shore birds. Non-residents are charged a \$10 license for such shooting, but residents are free. The partridge season opens Sept. 15, and licenses cost non-residents \$10. The big game season opens on the same day. A hunter's license to shoot one bull moose, one bull caribou and two deer costs residents \$2, non-residents \$50.

Messrs. Josiah Wood, of Sackville; William H. Thorne, Robert B. Emerson, Miles E. Agar, Leonard P. D. Tilley, John W. Daniel, and John B. M. Baxter, St. John, are asking incorporation as The Standard Printing Company, Limited, with a capital of \$60,000. The objects for which incorporation is sought are: To start, acquire, print, publish, conduct and circulate or otherwise deal with any newspapers or other publications, and generally to carry on the business of newspaper proprietors and general publishers, lithographers, engravers and advertising agents. Mr. L. P. D. Tilley is solicitor for the applicants.

D. C. Clinch on Thursday was acquitted of the charge of having misappropriated \$9,000 belonging to Capt. George Morrissey, of E. Grand.

Judge McLeod in addressing the court said the case was a most unfortunate one. It was clear that Capt. Morrissey had lost a large sum of money. To prove the case it was necessary to show some act of absolute misappropriation and the crown had failed to do this. The crown had not gone far enough. They must prove their case and show the defendant guilty.

The jury through their foreman returned a verdict of not guilty without leaving their places and the defendant was discharged.

Several places are yet to be visited of where due notice will be given. It is hoped that the supporters of the Liberal party will be present at the meetings, as it is important that organization be perfected as early as possible.

The dredge New Dominion arrived here Friday, in tow of tug Victoria. It was the intention to begin work at the basin, but owing to the difficulty of getting down river at low water, it was decided to work up river from Silver Island. Operations have commenced at this point and the work will be pushed forward until the river and basin have been dredged to a sufficient depth to allow the passage of vessels at any time of tide. So the dredge is here, and the good work under way, to the contrary notwithstanding.

Mr. and Mrs. M. E. Lynott who have been living in the states for many years, and are at present residing in Bangor Me., have been enjoying a trip through some parts of Charlotte County.

Mr. Lynott who is a retired farmer was greatly struck, by the farming possibilities in parts of the County over which he travelled, especially in the vicinity of St. George. He was also impressed with the beauty of scenery and remarked that if St. George was in Maine it would be overflowing with summer visitors.

Mr. and Mrs. Lynott enjoyed their trip and we hope will be able to come this way again in the near future.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situated. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

ENTRIES.—(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.

Rheumatism

I have found a relief and tested cure for Rheumatism. Not a remedy that will scratch the disordered limbs of chronic cripples, nor turn their groans back to fresh agonies. That is impossible, but I can now surely kill the pains and pass of this dreadful disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfect, obedient prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism. Not only that, but I formerly cured all chronic cases of this horrid disease. Those people who are afflicted with Rheumatism, found in Rheumatic Blood, seem to dislocate and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, those poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual cause to suffer longer with-out help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy

"ALL DEALERS"

The St. John Exhibition.

The space in the Industrial building is all taken up, extra accommodation is being provided for the enormously large entries of cattle, sheep, horses, poultry, etc. There will be a great display of agricultural and horticultural exhibits than at any previous Fair, and many wonderful new and interesting machines will be seen in operation in the Machinery Hall.

Every afternoon and evening the driving horses, King and Queen, the magnificent white beauties, will give their thrilling performance of diving from a high platform into a large tank of water. This is one of the most astounding acts now to be seen in the amusement world, and it was secured for the St. John Fair at great expense.

The display of fireworks for this year's show will be on a grander scale than ever before attempted in Eastern Canada. The eruption of Mount Vesuvius; a mammoth picture in colored fire of this great volcano belching forth smoke and flame and rivers of burning lava is one of the most lavish pyrotechnic features ever presented. Many other interesting set pieces will be shown, comprising in all no less than 55 pieces.

Admire and her performing lions, a troupe of Japanese acrobats, Torelli's pony and dog circus, and Mrs. General Tom Thumb and her company of Lilliputians, are some of the other features that will make this year's exhibition far superior to any previous Fair.

The dates are from September 12 to 19, and special excursion rates are issued on all railway and steamship lines at such low rates that no one can afford to miss this great opportunity.

FOR THE WOMEN

The women who visit the fair this year will find much to interest them in the women's department. Entries for exhibits in the art room are coming in freely and some very fine paintings in oils and water colors as well as embroideries and various articles of woman's handiwork, will be shown. There will be demonstrations of domestic science and free kindergarten work, a room set apart for serving 5 o'clock tea and a very cosy rest room where those weary of much sight-seeing may find rest and comfort.

MOVING MACHINERY

One of the most interesting features will be the machinery hall where machines of many descriptions will be seen in motion. Gasoline engines both stationary and marine, brush and nail making machines, looms for manufacturing toweling, and many others will be in operation. The Canadian Fairbanks Co. will demonstrate how their gasoline engines can be utilized about the farm. Many labor saving pieces of machinery will be shown and the visitor will no doubt find this one of the most fascinating places in the big show in which to spend an hour or so with profit and pleasure.

FAR AHEAD OF 1906

From the standpoint of entries received the success of the St. John exhibition is assured. Already the management report that in nearly all departments the entries are double what they were last year. The entries for cattle so far number more than 300 as against 280, to years ago. The sheep entries have just doubled and the horses nearly so. In poultry more than 1,000 entries have been received, and with the improved facilities the poultry house ought to be more fascinating than ever to visitors.

It is quite likely that the butter and cheese exhibits will attract more attention than usual. Special efforts have been made by the management to enhance the practical and educational value of this feature and, judging by the tone of the letters received, their efforts are being appreciated. Already seventy have signified their intention of sending exhibits.

LIVING REPTILES AT THE NATURAL HISTORY EXHIBIT

The Natural History exhibit will be one of the most interesting and instructive features of the approaching exhibition. The display will be the most comprehensive of its kind ever shown in St. John.

Valuable collections of gems and precious stones have been secured, all the best known minerals in their rough state will be shown, glass cases containing living reptiles will be exhibited, and specimens of plants, minerals and insects, collected by school children, also other interesting features will make this part of main building a place of great interest. Keeps the dates in mind—September 12 to 19.

At a country fair out in Kansas (a man went up to a tent where some elk were on exhibition, and stared wistfully up at up at the sign. "I'd like to go in there," he said to the keeper, "but it would be mean to go in without my family, and I cannot afford to pay for my wife and seventeen children." The keeper stared at him in astonishment. "Are all those your children?" he gasped. "Every one said the man. "You wait a minute," said the keeper. "I'm going to bring the elk out and let them see you all." "Argonaut."

"Now," said a Irishman, after a serious accident to a fellow-miner, "we'll have to send some man to break the news to poor Moriarty's wife."

"Send Aanigan," suggested one of the gang. "He's just the man to break the news gradual—mind 'how he stutters!"

Nerveless Women No Animation, Lack endurance, Weak, Unstrung, Tired.

FERROZONE WILL CURE.

For sick women an remedy exists that uplifts like Ferrozone.

No remedy exerts so profound an influence upon the functions that supply clearness of skin, brightness of eye, elasticity of spirit, abundance of strength. Ferrozone is a marvelous former of blood—rich, red nutritious blood, the kind that circulates life and activity to every organ in the body.

Buoyancy, vigor and vim are restored. —to the nerves is given vitality, in weak places is strength sent.

Wonderful power in Ferrozone, and any weak, pallid woman can be quickly nourished back to joyous health if Ferrozone is used.

Won't you try Ferrozone?
It will cure you just as it did Mrs. Abram Carley of Strange, P. O., Ont.— who says: "I consider that I should recommend this preparation because I have proved it is simply wonderful in building up. I was all run down, suffered from an extremely nervous and unstrung condition. My sleep was broken and didn't rest me as it should. My appetite was fickle and only certain food appealed to me. My color was dull and I looked sick. Ferrozone gave me a splendid appetite. —I grew stronger day by day. My nervousness and apprehensions disappeared. Ferrozone has given me absolute, strong health and I recommend it highly."

No tonic is more effective, absolutely safe for women girls and even children, good wherever there is weakness, debility, nervousness or ill-health. Try Ferrozone, 50c per box at all druggists.

Useful Hints

In making cake, grease the tin with sweet lard rather than butter, and sit a little dry flour over it.

To remove ink stains from white cloth, heat a pint of sweet milk, soak goods in it and the stains will disappear.

Onions, if rinsed several times in fresh additions to boiling water before they are cooked, are much more digestible than if boiled in the ordinary manner.

The best way to freshen homemade bread so that it is as good as new is to dip the loaf in cold water, put it in a pan and bake it until it is heated through. Then wrap in a damp cloth, and when cold it is as good as when first baked.

A broom supporter made of spools is a simple and convenient device. Screw two large empty spools high up on the middle frame of a door, just far enough apart to allow the handle of the broom to slip in. The broom part rests on the spools.

When getting ready for a week's general sweeping, if you take down your lace curtains and the portieres, shake them and lay them aside until you are through, then put them in place again, they will keep clean much longer.

Don't use soda when washing china ornaments with gilding, for soda will in time surely take off every vestige of gold from the pattern. Soap may be added to the water with impunity, and it will do the work of cleansing without roughening the hands of the operator, who, in cold weather especially, will find soda has a very bad effect on the skin.

Gilt picture frames frequently become fystained in hot weather, when flies are particularly aggressive. The white of an egg will be found most efficacious in removing the stains, a soft camel's hair brush being employed in applying it. Dull frames may be much improved by an application of onion water. A couple of good-sized onions should be boiled in sufficient water to cover them. This should then be strained off and brushed over the frame and into all the crevices.

WJOING SLEEP.

A Prescription That Worked Well in Philadelphia.

A haggard looking man strolled into a downtown drug store the other day and asked the druggist for help. He said he had trouble in getting to sleep when he retired. No matter how sleepy he might be during the day or how much sleep he might have lost, the moment his head touched the pillow he was wide awake and lay thus for several hours. Once asleep he was very hard to waken, but he had to be up at a certain hour, and the consequence of his peculiar affliction he was losing more sleep than he could stand. The druggist regarded him quizzically a few moments and then replied:

"My dear man, you don't want medicine. What you want is something to change the trend of your thoughts. Do as a friend of mine did. He was troubled the same way and found that the old folks' plan of imagining sheep passing a barrier and counting them was out of date, so he began trying to name all the states in the Union. He soon got them so he could classify them alphabetically. Then, when they no longer interested him, he started on the counties of his state. He now has them at his tongue's end, classified up to the fourth letter. Now he is starting on state capitals and their locations. Thus he will take up county seats. A moment's glance at an atlas during the day shows him when he is wrong, and the beauty of the plan is that he rarely has to think about these lines longer than ten minutes before he is sound asleep. To make it short, the study of geography is a good narcotic."

A BOY HUNT.

Chased From Hedge to Hedge by a Big Pack of Weasels.

The following extract from an interesting book may be of interest to our friends. It is "From My Life as an Angler" by William Henderson, published in London in 1870.

"About this time, while rambling in the picturesque lane leading from Merdington to Windstone with two other boys, an adventure occurred sufficient to startle to two little fellows from nine to ten years old. We were busily engaged in picking wild strawberries, which clustered in the hedgerows, when we saw at about a hundred yards distance a pack of at least twenty weasels running from hedge to hedge and evidently scenting out foot-steps. It flashed upon us that we were being hunted. So, springing over the nearest hedge, we ran across a pasture field and, standing upon the farther bank, looked back toward our assailants. To our dismay we saw the whole pack, with noses to ground, steadily tracking our course. The word was given, 'Run, run, and off we scampered across another field to take up our position on another hedge. Still the pursuit was going on, and the creatures were evidently gaining upon us, so with a wild shout we fled to the village, which, happily for us, was not far off. I have frequently heard of persons being attacked by weasels, but was never hunted by them on any other occasion."

The above must have occurred about 1812, the locality being the north of England.—Forest and Stream.

Shooting the Steenbock.

Many of the poor Boers in the Transvaal, by whom all the shooting that is done is for the pot and not for sport, have perfected a system of shooting with the assistance of oxen. A steenbock has no fear of cattle and will still even if they graze right up to him. The hunter gets together a few cattle and with his gun walks behind them in such a way that he cannot be seen from the front. Great care has to be exercised to drive the oxen so that they may seem to be grazing naturally. The hunter must be ready to shoot without having to aim, his position. The slightest movement is noticed by the buck.

Peculiarities of Long Island.

The class in geography in one of the Brooklyn schools was asked by the teacher, "What are some of the natural peculiarities of Long Island?"

The pupils tried to think, and, after awhile, a boy raised his hand.

"I know," said he.

"Well, what are they?" asked the teacher.

"Why," said the boy, with a triumphant look, "on the south side you see the sea and on the north side you hear the sound."

Fatalism Exemplified.

She—I hope, dear, that you are not going to worry about my exceeding my allowance this time.

He (brightening up)—You don't mean to tell me, dearest, that there isn't any necessity for it?

"Certainly not. What's the use of worrying about something you can't help?"

The Flesh She Lost.

"You're not looking well, Mrs. Giles. Surely you have lost a lot of flesh lately, have you not?"

"I have that. I've lost me 'usband. I weighed nineteen stone when I died."—London Telegraph.

Modern Modesty.

"You say a modest woman. Just what do you mean by that?"

"Well, a woman who costs her husband less than \$2,500 a year in modest prices go."

Times Change.

Mrs. Benham—You used to say that you would give your life for me. Ben-

Maine's Fire Waste.

(From the Springfield Union.)

Here rains have put out the forest fires in Maine, it seems, but not until a loss of \$500,000, and perhaps more had been inflicted. It is strange the State has not enacted legislation calculated to avert such destruction, and strange too that the lumber companies and wild land owners have not organized to protect their property.

With so much of the territory given over to forest, Maine has been singularly slow to adopt even the simplest measures of protection which while not sufficient in every case to avert loss, nevertheless reduce the danger and check fires in the early stages in many instances. Here in Massachusetts a beginning has been made in a movement to safeguard our forests, but this year's experience goes to show that protective measures will afford little relief until fire wardens and others are impressed with the importance of being vigilant in combating this menace in a dry season.

A clever, popular Candy Cold Cure Tablet—called Preventics—is being dispensed by druggists everywhere. In a few hours, Preventics are said to break any cold—completely. And Preventics, being so safe and toothsome, are very fine for children. No Quinine, no laxative, nothing harsh or sickening. Box of 48—25c. Sold by All Dealers.

Regular Exercise.

Diet and exercise will reduce your weight if you persist. Do you exercise until you perspire freely? And do you abstain from all sweets, cereals, starchy vegetables, butter, cheese, milk and chocolate; also pork, veal, salmon and heavy soups? In general, avoid fatty, starchy and sweet foods. Don't be discouraged. You will succeed unless there is some serious reason for your stoutness.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any even-numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres, more or less.

Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub-agency for the district in which the land is situate. Entry by proxy may, however, be made at any Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.

DETTIES--(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. He may also do so by living with father or mother, on certain conditions. Joint ownership in land will not meet this requirement.

(3) A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.
