

## CANADIANS IN BRILLIANT CHARGE ON GERMAN TRENCH INFLICT SEVERE LOSSES ON THE ENEMY

### MORE MEN READY TO JOIN FRENCH COLORS

Class of 1915 have Completed Training and Ready for Call to Join Army at Front.

Paris, Mar. 5.—The instruction of the young men of the military class of 1915, which was begun in 1914, is sufficiently advanced for them to join the active army. As legislation is necessary if they are to be called before autumn, however, M. Millerand, the minister of war, has introduced a bill in the chamber of deputies, authorizing their call at the discretion of the war minister. The bill also would empower the government to call into training the class which is normally due to join the colors in October, 1915.

The list of recruits for the class of 1917 will be posted publicly not later than Easter Monday. This is in preparation for a call into training of the young men who are due to serve in October, 1917. The step is taken to provide for eventualities.

### AMERICAN TEXTILE MEN AGREE TO BRITAIN'S TERMS

British Government Will Accept Guarantee, Without Bonds, That Wools and Yarns Will Not be Re-exported.

Washington, Mar. 5.—Agreement by the members of the Textile Alliance to the conditions under which the British are willing to permit exports of black face and merino wool from Great Britain and her colonies to the United States, was announced today by the British embassy.

The British government, it was stated at the embassy has agreed to accept the guarantee of the officers of the Textile Alliance that the imported wools and yarns will be used in American manufacture only, and not for re-exportation. No bonds will be required.

Licenses will now be granted, and the wool delivered through the medium of the Textile Alliance, whose function it will be to ascertain and guarantee the destination of the imported product.

### CAMPAIGN AGAINST EGYPT ABANDONED

Paris, Mar. 5.—The supreme Turkish war council, according to a despatch to the Temps from Petrograd, has decided to abandon all further operations against Egypt; to recall to European Turkey the troops sent to Egypt.

### DACIA'S CREW LEAVE STEAMER FOR HAVRE

Brest, via Paris, Mar. 5.—The crew of the United States steamer Dacia, which was seized recently by a French cruiser while on the way from Galveston, Texas, to Rotterdam, with a cargo of cotton consigned to Bremen, left for Havre at 4.50 o'clock this afternoon.

### Turkey Looking to The United States for Flour

Washington, Mar. 5.—American Ambassador Morgenthau at Constantinople, cabled to the Department of Commerce today that quotations were wanted in the Turkish capital on the various grades of flour at New York.

### WAS FIRST TO LOOP-HE-LOOP IN AIRSHIPS

Famous French Aviator, Pezoud, Awarded Military Medal for Services During the War.

Paris, March 5.—Official announcement is made that Adolphe Pezoud, the famous French aviator, has been awarded the military medal for services rendered the army during the war.

The announcement says that Pezoud, on several occasions pursued enemy aeroplanes, and on February 2 attacked, at a great height and caused the fall of a German machine. Soon afterwards he attacked two other aeroplanes, causing the first to fall and the second to land.

Adolphe Pezoud first came into fame in 1913 as the originator of the feat of flying upside down in an aeroplane, while making experiments for obtaining safety in the air. A short time later he enhanced his reputation for daring, by performing for the first time by any aviator, the feat of loop-the-loop. For his experiments Pezoud was awarded the decoration of the Legion of Honor.

Several times since the outbreak of the war Pezoud has come into notice. On August 20, he returned to Paris from the front to get a new aeroplane, his old one having been riddled by enemy bullets. He was mentioned in despatches for valor in November, and later in January was reported to have destroyed a German explosive depot by dropping bombs on it.

### HER CABIN MATE A GERMAN SPY IN WOMAN'S CLOTHES

Lady Recently Arrived in Canada from Liverpool Given Surprise on Her Landing.

Toronto, Mar. 5.—A lady who recently came to Canada from Liverpool tells a remarkable story of German espionage. Her cabin mate was a lady of about 50 years of age, with whom she became great friends. On reaching their Canadian port of destination the two descended the gang plank together and to the Canadian woman's surprise they were met by a squad of police and the handcuffs were slipped on her companion's wrists. It turned out that her cabin mate was a German male spy, and that a wireless warning had been sent to Canada to prepare to meet him.

### MINE FIELDS IN NORTH SEA

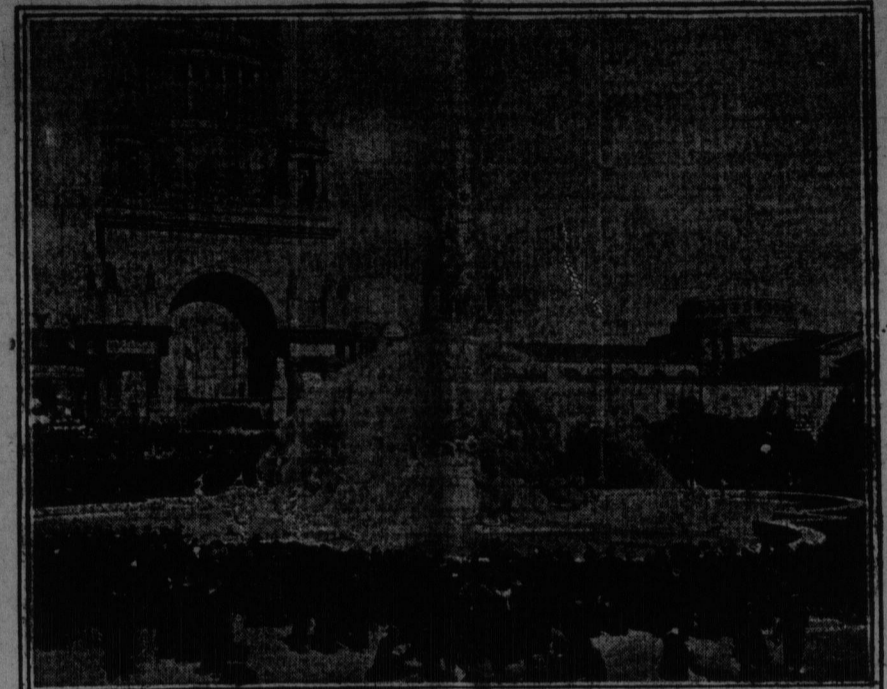

London, March 6.—The British Admiralty publishes in the Gazette today a renewed warning to mariners that a system of mine fields, on a considerable scale, has been established in the North Sea, and that it is advisable for mariners to take a London pilot when navigating between Great Yarmouth and the English Channel.

The Admiralty announcement also says that pilotage is now compulsory in the Firth of Forth, Moray Firth and the Scapa Flow.

### SEVENTY-EIGHT BODIES RECOVERED FROM MINE

Hinton, West Va., March 5.—Seventy-eight bodies have been recovered up to tonight from the workings of the Layland Mines, where an explosion Tuesday entombed more than 170, of whom only ten escaped alive. Various estimates of the number of victims agree that the total will reach 150.

### SCENE AT THE OPENING OF AMERICA'S GREAT EXPOSITION

THE "TOWER OF JEWELS" AND THE CALDER FOUNTAIN OF ENERGY WITH THE GATHERING CROWD ON OPENING DAY.

This picture shows the Fountain of Energy when the water was released by President Wilson presiding at a luncheon at the opening of the Panama-Pacific International Exposition. This fountain is the work of A. Stirling Calder and is located between the Tower of Jewels and the main entrance at Scott street. The figures in the basin of the fountain represent the North Sea, the South Sea, the Pacific Ocean and the Atlantic Ocean. In the picture is shown some of the great throng which was present.

### ALLIES' MAKE PROGRESS RECOVER LOST TRENCHES

Paris, March 5, via London, March 6.—The French official statement issued here tonight says:

"In Belgium, in the region of the Dunes, we have organized solidly the advanced trench taken by us yesterday. The Germans attempted to push forward their trenches into contact with ours, but twelve times our fire dispersed them. To the north of Arras, our counter-attacks in the region of Notre Dame De Lorette were crowned with complete success. On Thursday evening we captured a machine gun company. On Friday, the enemy made a new attack but we pushed them back, regaining the lost positions which had been for two days in their possession and made numerous prisoners.

"Rheims has been bombarded all day long. In Champagne, in the region of Perthes, we made marked progress. On Thursday evening a company of the German guards became surrounded in our lines and was captured. On Friday we gained ground on the whole front, carried a trench to the north-

west of Perthes and occupied to the north of Perthes a salient where we took prisoners.

"We captured 600 metres (about 650 yards) of trenches with a depth of 300 metres beyond the group which lies northeast of Meulil, and made progress in the adjoining woods. Finally we gained possession of several trenches in the ravines, northwest of Beaunejour. According to prisoners' accounts the enemy's losses were extremely high. The morale of our troops was excellent.

"In the Argonne region, at Vanquels, we made important progress in the western portion of the village, the only part where the Germans still hold their ground.

"In the forest of Le Pretre a German attack was easily repulsed. In the region of Badonvillers and in the region of Celles our attacks made headway, having brought us into immediate contact with the enemy's wire entanglements. We repulsed a counter-attack. In Alsace at Hartmann-Walckerkopf, we captured a trench, a small fort and two machine guns.

### DUTCH STEAMER REPORTED TORPEDOED

In the English Channel — Returning to Rotterdam on Account of Broken Machinery.

London, March 6.—According to the Daily Express it is reported that the Dutch steamer Noorderdyk, which was returning to Rotterdam with broken machinery, after having sailed for the United States, has been torpedoed in the English Channel.

The Noorderdyk, a Holland-American line freighter, sailed from Rotterdam on March 2 for New York, Baltimore and Newport News. On Thursday she was reported as turning back for Rotterdam, while off the Isle of Wight, for the purpose of making repairs to her machinery. Twice during the last two months the Noorderdyk has gone aground, but has been pulled off each time. On January 13, while leaving Port Talbot, England, for Baltimore, she went ashore in the harbor. She was refloated the next day and proceeded. On her return voyage to Rotterdam from the United States, she went aground on February 24 in Rotterdam harbor.

### AUSTRALIA STOPS EXPORT OF LEATHER

Washington, Mar. 5.—Exportation of leather from Australia has been prohibited, except on consent of the trade minister, according to a cablegram received at the department of commerce today from Consul General Skinner, in London. The consul general at Christiana cabled that Norway had placed an embargo on copper and brass plates, bars, bolts, spikes, nails and pipes and foundry press.

### MEASLES EPIDEMIC IN HAMILTON, ONT.

Hamilton, Ont., Mar. 5.—There are more than 500 cases of measles in the city, and the disease is spreading so fast that the Board of Health has decided that stringent regulations are needed to deal with the situation. There have been four deaths. Unless the epidemic abates it may be necessary to close the public schools.

### RUSSIANS ON OFFENSIVE ALONG WHOLE FRONT FROM THE BALTIC SEA TO ROUMANIAN BORDER

Again in Possession of Stanislaw — Allies Continue on Offensive in the Western Area, but are Meeting with Stubborn Resistance — British Warships Sink Four Submarine Since War Began — No News From Dardanelles.

### CANADIAN TROOPS AGAIN DISTINGUISH THEMSELVES ON FIRING LINE IN FRANCE

Paris, March 5.—A despatch to the Havas Agency from Bethune says that on March 3 a bold attack on a German trench was made by Canadian troops. The Canadians lost one killed and one wounded, and are said to have inflicted a considerable loss on the Germans.

London, Mar. 5.—Except in the Central Beskid Pass of the Carpathians, where the fierce Austrian attacks have moderated somewhat, the Russians are now on the offensive along the whole length of their extremely long line, from the Baltic Sea to the Rumanian border. Apparently they have definitely disposed of the German and Austrian attempts to outflank their two extreme wings, and, having turned, are making slow but steady progress westward.

After retiring right back to the Dniester river, the Russians again have crossed into Bukovina and are unofficially reported to be back in Caernowitz, which military men say is extremely probable, as they already had captured Sadagora, a few miles to the northeast of the capital. Further to the west they are again in possession of Stanislaw, and have crossed the Lukwa river, a forward step which, in the opinion of military experts, probably will compel the Austrians to evacuate Bukovina.

In the Beskid, Tukholka and Uszok Passes the Austro-Germans are in possession of strong positions whence they are continually attacking the Russians, while in the western passes, especially the Dukla, the Russians are on the Hungarian slopes, where the fighting has degenerated into trench warfare. The Russians are sending large reinforcements to this southern line.

Advancing Also in Northern Poland. In Northern Poland the Russians are advancing slowly westward from the Niemen river, and the Germans are fighting a rear-guard action. Only at one point is the German attack being seriously pressed—against the fortress of Osowetz. Here the Germans can use their railway from Lyck, and there is a good road across the marshes, but with their armies falling back on either side they cannot remain long, British military experts say.

To the south, according to a Berlin despatch the Germans have evacuated Myszynek, which is right on the East Prussian border, northwest of Lomza, while further west, near Miawa they are believed, actually to have crossed the border, after a contest at Przasnysz. The Russians also show revived activity in Central Poland, and have attacked the Germans east of Plock and near Skiernewice, southwest of Warsaw.

In the western theatre the Anglo-French armies, like those of their Russian ally, are doing most of the attacking, but latterly without apparently making any further progress, although they claim to have repulsed German attacks, which were delivered in an effort to regain lost ground.

The sinking of the German submarine U-5, as officially announced today, makes the fourth of these vessels to be sunk by British warships since the beginning of the war, the others being the U-15, the U-18 and one rammed by the destroyer Badger off the Belgian coast. It is believed that a French destroyer also sank one, and the captains of two British merchantmen are claiming the prizes offered for the first merchant captain to account for a hostile submarine.

The claim of the captain of the steamer collier Thorold, in connection with which the Admiralty says he probably sank a submarine, is being disputed by the captain of the steamer Aintow, who says he previously sank one.

There is no news tonight of the naval operations in the Dardanelles.

### Pugsley "Explains" How The Squid Incident Was Omitted From Hansard

Places the Onus on the Official Reporter—Not Anxious that Coming Generations Shall Read of Colossal Blunder He Made, so He Makes No Move to Have the Omission Rectified.

Social to The Standard. Ottawa, Ont., Mar. 5.—The House was treated to another remark or two again today regarding Hon. Wm. Pugsley's "squids." The question of the obliteration from Hansard of the remarks of that gentleman about squids being a fertilizer or an insecticide of great value to the farmers of New Brunswick was explained "officially." And the "official" explanation we have to accept.

The House prepared to enjoy itself when Mr. Pugsley rose to say that he had no hand in the omission of his blunder regarding squids from Hansard. He admitted the break all right, and his own side, particularly Sir Wilfrid, laughed heartily along with the Conservative members.

He denied, however, that directly or indirectly he had any communication with Hansard on the subject. He presumed that the reporter had corrected his judgment and had corrected the error he had made.

The "explanation" given by another member was that the reporter had thought he was justified in using his intelligence instead of mere mechanical skill, and had omitted the portion which had dealt with Mr. Pugsley's confusion over squids.

But the member for St. John did not (Continued on page 2)

### EMPRESS CASE CONCLUDED

Argument Closed Yesterday and Judgment Reserved.

Montreal, Mar. 5.—The argument in the Empress-Starstad case was brought to a conclusion this afternoon, after having occupied the attention of the court for two weeks. Mr. Geoffroy, K.C., counsel for the C.P.R., concluded his address, in the course of which he dealt principally with the contradictory testimony as to the movements of the two vessels immediately prior to the collision. He submitted that Captain Kendall's testimony was amply corroborated by that of the Starstad witnesses themselves, and particularly by the entries made in the engine log of the defendants' vessel. Judgment was reserved.

# INDIAN TROOPS IN A MIRA OF THEIR COMRADES ON BATTLEGROUND IN FRANCE

## INDIA'S SOLDIERS READILY ADAPT THEMSELVES TO UNUSUAL CONDITIONS ON FIRING LINE

(Frederick Palmer, who is at the front in France for the Associated Press ends the following.)

British Headquarters in France, via London, March 5.—The picturesque of the Indian troops of the British Empire breaks the monotony of the grim, colorless business of modern war at the British front. The little mule carts of these soldiers move about among the powerful motor trucks from England.

### Sunshine Brings Smiles.

It was first feared that the Indians might not stand shell fire well, but they became used to it and now they are even contemptuous of it. Accustomed to a hot and dry climate, the chill and rainy weather and the milder mud of Northern France has been their worst enemy. When the sun shines a smile spreads over the whole Indian force. Thanks to many layers of warm clothing, and careful attention, the sick report of the Indian troops is normal. The food of these men has to be brought from India. Speaking no word of English, these dusky strangers have come from the other side of the world to fight in France for Great Britain. Billed in barracks, with thick layers of straw for their beds, each rack cooking its food to its taste and according to its caste customs, they form a separate world of never-ceasing wonder to the French inhabitants. This morning there was seen 3,000 cavalry men riding by on a muddy road, with a background of flat and misty landscape, with all the precision they would show at a royal review. Occasionally among the dusty faces upon the turbans there were the white countenances of the English officers who had trained these varied tribes, and who have stood with them in the trenches, in icy waters up to their waists, against the enemy.

### Chooses Battlefield for His Deathbed.

Sir Pettab Singh, 72 years old, rode at the head of his regiment. "They told me I was too old," he said, "but I replied, 'if you will not let me fight in France, I will go to Afghanistan and fight there. I don't mean to die in my bed, and I cannot live much longer. So they let me come.' Although all the cavalry is fighting as infantry in the trenches, cavalry officers keep up their cavalry drills, and the horses are in good condition. This is because there may be a chance for the cavalry when the expected German breakthrough comes. Every day the line speaks of the Germans going back, as if this was certain as the coming of Spring. One of the British officers, with whom the newspaper correspondents watched the Indian troops ride past,

## PUGSLEY "EXPLAINS" HOW THE SQUID INCIDENT WAS OMITTED FROM HANSARD

(Continued from page 1) offer to have the missing portion of his speech inserted in Hansard as did A. K. MacLean of Halifax. That gentleman had made an attack upon the "made in Canada" movement, which he again described today as "discriminate and thoughtless."

And so the "squid" incident is closed, except that Mr. Pugsley has acquired for himself a nickname which may stick to him as long as he lives. He is quite commonly referred to already as "squid."

Ottawa, Mar. 5.—There was another reference to the report of the "brutal treatment" of the 17th Highland Regiment at Salisbury at the opening of the House today.

Mr. G. W. Kyte asked whether the Premier had received a communication referring to the matter from Mr. H. C. Crowell, correspondent of the Halifax Chronicle, and whether that communication would be laid on the table. The Premier replied that he had received a telegram from Mr. Crowell, and would lay it on the table, if desired.

Mr. Crowell had telegraphed him that he had not seen General Alderson personally, but had had communication with him by telegram. Mr. Crowell had asked the Premier to read to the House his telegram, giving an account of the circumstances, that Mr. Crowell said he had replied that as the substance of Mr. Crowell's message had already been communicated to the press, he saw no object in reading it to the House. He had further told Mr. Crowell that he had cabled the acting High Commissioner, requesting that an investigation be held into the circumstances, that Mr. Crowell should be given an opportunity of making good his statement.

Mr. A. K. MacLean gave notice that on Monday, or at the earliest opportunity, he would move to have the paper in regard to the Garland affair referred to the Public Accounts Committee. He suggested that it might be better for a member of the government to take this action.

Mr. Sinclair Has Begun To Revise His Figures  
Mr. J. H. Sinclair stated that in the calculation he had made yesterday of the number of additional appointments, in the last year, he had made an error of one thousand. The total number of new appointments, he found in checking over the figures, was 28,100 instead of 27,100, as he

made the remark: "The Canadians in their trenches are now doing well." The driver of the motor car in which the correspondents were conveyed to the front revealed his Americanism by the use of New York slang. He had had sixteen taxicabs running in New York, but he came over, as the English say, "to do his bit."

One meets here, Englishmen, Irishmen and Scotchmen from every part of the world, ready to serve in any capacity in order to help. "Now you take this message to all my Irish friends in America for me," said an elderly Irish medical officer in charge of a hospital train. "Tell them I have been sleeping on that car seat for six weeks, with the harp alongside of me and the Union Jack over my head. It was a fine time we had when they let me load my train with wounded right where the shells were falling, but they do not permit that any more."

At another place the correspondents entered a building which seemed neither a hospital nor wholly a U. S. C. The reason that the location of this and many other places is not given is because no German aeroplane bombs are wanted. In this particular building, men over-exhausted from their visit in the trenches remove their filthy clothes, get warm baths and a disinfecting spray, and have a warm meal, including bread pudding with raisins or currants in it, of which they are extremely fond. There are also bean cots where they turn in, and a reading room with games. Here no one is kept longer than fourteen days.

If in that time they have not sufficiently recovered from the exhausting demands of the trenches to return to the front, they are sent back to the base. Only a Few Shirkers.  
"Does not some malingering," I asked, "ever hesitate to face the horrors of the trenches again?" "Occasionally there is one," was the answer. "That's human nature. We are amazed at how few. When well enough the average man goes. He says he will play the game. You will soon know what he is going to do."

Mr. Wilcox, the convalescent at home the correspondents were given each an identification metal disc, with his name on it. "It is best to have one," was the remark on going into the trenches tomorrow.

Mr. Wilcox pointed out that a certain Liberal newspaper had published an article which the member for North Essex characterized as one of the smallest and meanest pieces of anti-Liberal partisanship he had ever seen. It had asserted that when Sir Wilfrid Laurier was stumping Quebec, calling for recruits to serve in the war, Sir Robert Borden was rolling and dancing in Virginia. Although Mr. George P. Graham had waxed eloquent on the subject of the true last night, the Brockville Recorder, with which he was connected, had attacked the Minister of Militia.

Nevertheless, he pointed out, the Minister of Militia and the government had been bearing, since the outbreak of the war, the heaviest responsibilities ever placed upon a Canadian minister.

Hon. Mr. Pugsley rose to point out that the increased tariff tax on fertilizer under the war budget, would amount to \$46,000, not \$4,900, as Mr. Wilcox had stated on Wednesday.

Mr. Wilcox stated that even this would only work out to five and three-quarter cents a piece for the farmers of Canada, no great burden for them to bear. In further reference to Liberal charges that the party truce had not been kept, he observed that the chief Liberal who had attended a Liberal meeting in South Huron last November and there delivered a most offensive political address. He had taken the ground that if the Liberal policy of 1910 had been adopted it might have been a Canadian cruiser which had the glory of sinking the Emden. Mr. Wilcox reviewed the history of Canadian naval legislation, contending that the Liberal party would not have accepted the Australian naval scheme, under which it was made possible for the Australian cruiser Sydney to sink the Emden.

Mr. Turgeon of Gloucester appealed to Hon. Mr. White to reconsider the five per cent increase in the British preferential before the tariff proposals were passed and it was too late. He also referred to the question of unemployment.

Continuing the eight sitting, Mr. Turgeon maintained that if there were any justification whatever for tariff increases the proper policy would be to increase the duties against foreign countries by ten per cent, and leave

## ST. PIERRE A COLONY WITHOUT BREAD WINNERS

Only Old Men, Women and Children Left at Home, Others Gone to the Battle-grounds of Europe.

St. Pierre, Islands of St. Pierre and Miquelon, March 1.—(Correspondence)—A colony without bread winners. Such is this tiny insular possession of France, the last remaining vestige of her once great empire in north America. The "catch" upon which the whole history of the islands is dependent, is known to be promising, but the fishing vessels swing idly at their moorings, the dorries are nested on the beach, and the trawls are coiled in tubs on shore. Every able bodied man who could meet the requirements for military duty, there were 64 in all, has crossed the seas to fight for the motherland.

Nearly 3,000 miles of ocean separates St. Pierre from the battle-grounds, and the people, who intensely loyal, know little of the causes of the war and of its progress. Since the beginning of hostilities a strict censorship of the cable has permitted only vague tidings from the outside world to reach the fisher folk. Occasionally a mysterious message from Paris was received by the civil administrator, M. Chabaud, and one day the late posted notice announcing that the time had come for St. Pierre and Miquelon to play its part in the world tragedy. All able bodied men of fighting years were ordered to be at the pier at 8:30 o'clock on the morning of February 3. Two hours after the time set the steamer Chicago dropped anchor in the harbor and when she sailed again only the old men, women and children remained.

The French government is paying 25 cents a day to the wife of every fisherman soldier, with an additional allowance of ten cents for each child. The winters are long and hard, and fuel is a prime necessity. The soil of the islands is barren and all food-stuffs must be imported.

## Mrs. W. J. Maloney Took Dodd's Kidney Pills for Backache.

She Had Tried Numerous Other Medicines, But Found No Relief Till She Used the Great Canadian Kidney Remedy, Dodd's Kidney Pills.

Barachois West, Gaspé Co., Que., March 6, (Special).—Mrs. W. J. Maloney, a well known resident of this place, is recommending Dodd's Kidney Pills to those who suffer from kidney troubles. In an interview Mrs. Maloney says:

"After suffering for many years with backache and trying many remedies without obtaining relief I read about Dodd's Kidney Pills and decided to try them. After using two boxes I was greatly benefited, and recommended them to other sufferers. I also used them for my little girl for kidney troubles."

Mrs. Maloney got relief from her backache because Dodd's Kidney Pills cured her kidney trouble, and this was the cause of her backache. Dodd's Kidney Pills cure diseased kidneys. Cured Kidneys do their work and strain all the impurities out of the blood. That's why Dodd's Kidney Pills cure so many diseases that are caused by impure blood.

Washington, March 5.—Exports of copper at the ten principal customs ports during the week ended February 27, totalled \$1,467,214 or 10,172,719 pounds, the Department of Commerce announced tonight. Imports for the week were 3,664,296 pounds, worth \$378,103. France, Italy, England, Canada and Denmark were the principal buyers.

The British preference as it is. The opposition was resolved to vote every dollar required for war without criticism or objection, he said, but there was no reason why, at the same time, they should not criticize the neglect of the government to look properly after the domestic interests of Canada, even in war time.

Grits Would Make Hundreds of Workmen Dependent on Charity.  
Mr. Geo. Bradbury, of Selkirk, claimed that the Conservative party had always advocated the "made in Canada" propaganda, which was directly in line with its policy. He strongly emphasized the inability of stopping exportation of public works as urged by the opposition.  
"The working" people of this country," said Mr. Bradbury, "do not want charity. They want work. It is the duty of a patriotic government to see that they get work."  
Mr. Bradbury quoted from the Toronto Globe to show that the Liberal opposition was opposed to a cessation of public works at this time, which would leave the workmen with only the charitable organizations to depend on.  
Mr. Bradbury then moved the adjournment of the debate which was followed by the adjournment of the House as well.

## ANOTHER OF ENEMY'S SUBMARINES SUNK?

Paris, Mar. 5.—The Ministry of Marine today gave out a statement to the effect that a German submarine of the U-3 type had been fired on by a French cruiser in the English Channel yesterday. The submarine plunged and no further trace of her was found. The text of the announcement follows: "During the day of March 4th a French warship belonging to the second light squadron, cannonaded a German submarine of the U-3 type, in the English Channel. Three shots struck the under-sea boat, which then plunged and disappeared. No trace of her could be found."

## TRI-WEEKLY STEAMBOAT SERVICE TO TAKE SUPPLIES TO ALLIES

Will be Inaugurated from Canada at an Early Date as Result of Co-operation Between Canadian Government and the British Admiralty.

Ottawa, March 5.—A tri-weekly service between Canada and France for the conveyance of the huge quantities of supplies which are continually being shipped from Canada under orders given by the Imperial government here will shortly be established as a result of co-operative action between the Canadian government and the Admiralty.

Between August 20 and the close of the year, the Canadian government will forward to British and French ports, during December and January 5,000 tons were shipped from St. John and Halifax. This vast tonnage was handled by chartered vessels and at freight rates averaging those prevailing in normal times. Taking into consideration the scarcity of tonnage and the war rates which had otherwise prevailed, the result is a notable achievement. As is well known, a serious shortage of tonnage was caused soon after war began by the appropriation and withdrawal from the Atlantic service for Admiralty purposes of a very large proportion of the steamships hitherto employed in that service.

Shortly after the declaration of war conference with Sir Thomas Shaughnessy, and with the heads of other large transportation companies, obtained from Sir Thomas the services of Mr. A. H. Harris, special C. E. R. traffic representative, who has since acted as director of overseas transport with great credit.

Mr. Harris suggested at the end of August when the shipping situation was daily growing more serious, that a representative of the government should be sent to London to arrange a joint conference between the War Office and the Admiralty to establish a regular service for the conveyance of war supplies from Canada to France.

Mr. Harris was sent to England in January last with this purpose in view, and his mission has been successful. The Admiralty have undertaken to provide eighteen vessels for the service until the end of the war, thus ensuring a tri-weekly service between Canada and France. In addition to these ships, colliers conveying coal from Great Britain to Halifax for Admiralty use will be utilized on their return voyages for the carriage of supplies.

Sir Robert Borden, it is understood will make a statement on the subject in the House of Commons on Monday.

Montreal, Mar. 5.—The first detachment of the second contingent to sail from Canada arrived safely yesterday at Liverpool and Queenstown. The steamship Mississauga docked at Liverpool with a section of the force, while the steamships Megantic and Southland put into Queenstown. Included in the units carried by these three vessels were the 3rd Westmount Battalion; the 6th Canadian Field Artillery; Montreal; the 32nd Battalion of Winnipeg; and the 30th Battalion of Victoria, B. C.

Great secrecy was observed in connection with the sailing of the second contingent across the Atlantic, due to the blockade of the British Isles announced by the Germans. Every precaution was taken to prevent the enemy from learning the movements of the transports, and the first official information of the actual departure of the contingent is the bare announcement from the steamship companies that these vessels have arrived at their destination.

The detachment was about 4,000 strong. The flotilla left Halifax Monday, Feb. 22, convoyed.

Halifax, N. S., March 5.—Nearly 300 delegates were present tonight at the opening session of the Boys' Work Conference of the Y. M. C. A. in the J. Wesley Smith Memorial church. D. McEwen, manager of the Canadian Bank of Commerce, welcomed the delegates.

Sedley, Ediles, of Sydney, and Mr. Mosher, of Windsor, replied to the address of welcome. Then followed inspiring addresses by Rev. A. B. Cohen, and Taylor Statton, of Toronto, secretary of Boys' Work.

## AUSTRILIANS DRIVEN FROM CAPITAL OF BUCKWANA BY RUSSIANS; QUIT STANISLAU

London, March 5.—The Bucharest correspondent of the Evening News, telegraphs today that the Russian offensive movement in Galicia has forced the Austrians to evacuate Czernowitz, the capital of Bukovina.

The despatch adds that the main Austrian forces in this region have retired in the direction of Franzthal to the south of the Carpathians.

Petrograd, March 5, 10 p. m., via London, March 6.—Advices received in Petrograd are to the effect that the Austro-German forces have met with a series of reverses at the hands of the Russians recently, culminating in the re-occupation today of Stanislaw, which was evacuated a fortnight ago.

Serious battles are reported between the Mazolobetz Pass, in the Carpathians, and the river San, where the Austrian advance is said to have been checked. In the vicinity of Salinka, midway of this line, two Austrian regiments are said to have been wiped out by the Russian machine guns. During the fighting on March 2 and 3, the Austrians charged the Russian lines repeatedly, at times reaching the Russian trenches.

Austrian officers captured during the fighting are reported to have said that their losses never had been heavier.

At Lutowick, just east of the San and thirty-five miles south of Przemyel, on the night of March 2, the Austrians made four attacks on the Russians which are said to have been repulsed with heavy losses. The surrender of Stanislaw was preceded during the period from Feb. 21 to March 3, by heavy fighting the Austrians having heavily fortified Malicz, a short distance to the north, and also the valleys of the Lomnica and Lukwa rivers. Here it is asserted, the Russians captured a large number of guns and rapid-firers, many officers and men and a quantity of stores.

London, Mar. 5.—The Petrograd correspondent of Reuter's Telegram Company sent the following despatch: "It is announced that during the operations around Stanislaw, (Galicia), between February 21 and March 3, the Russians made 153 officers and 15,522 men prisoners, and captured 5 guns, 62 machine guns, 519 horses and numerous trains."

Russians Captured Large Amount of Ammunition.  
London, March 5.—A despatch to the Exchange Telegraph Company from Przasnysk declares that although the Russians captured 12 guns and 29 maxims, with their cars, and 122 ammunition cases and one aeroplane. The message adds that the Osowetz fortress is successfully withstanding the German siege artillery. In the Carpathians the attacks of the Austrians are reported to be everywhere growing weaker.

Paris, March 5.—A despatch to the DIED.  
HANINGTON—Suddenly at Norton on Friday, March 5th, Clarence P. Hanington, 6th of Norton Parish and oldest son of the late William J. M. Hanington, of Shediac. Notice of funeral hereafter.

ROBERTSON—Suddenly at 155 Queen street, on March 4th, Elizabeth Marion, infant daughter of Harry P. and Grace Robertson, aged 18 months. Funeral at 2:30 Saturday afternoon from 155 Queen street.

BOURQUE—In this city, on the 4th inst., Lumina, widow of Wm. P. Bourque, in the 68th year of her age, leaving three sons and three daughters to mourn. Funeral from the residence of her son-in-law, Dr. J. O. Lupien, 94 St. James' street, Saturday, at 2:30. Friends invited to attend.

TO ARRIVE: 60,000 Ft. Plaster Board. Price Low. Gandy & Allison, 3 and 4 North Water.

MUSSENS, LTD., BY FIRM OF CONTRACTORS, GOES INTO LIQUIDATION.  
Montreal, Mar. 5.—Mussens, Limited, purveyors of railway, mining and contractors supplies, were placed in liquidation today on petition of W. H. C. Mussens, this step being taken as a direct result of the depression recently experienced in the business. The liabilities are in the neighborhood of \$300,000, according to Mr. Mussens, and the assets about \$550,000. John J. Robson has been named provisional liquidator.

Halifax, N. S., March 5.—Nearly 300 delegates were present tonight at the opening session of the Boys' Work Conference of the Y. M. C. A. in the J. Wesley Smith Memorial church. D. McEwen, manager of the Canadian Bank of Commerce, welcomed the delegates.  
Sedley, Ediles, of Sydney, and Mr. Mosher, of Windsor, replied to the address of welcome. Then followed inspiring addresses by Rev. A. B. Cohen, and Taylor Statton, of Toronto, secretary of Boys' Work.

## FIRST DETACHMENT OF THE SECOND CONTINGENT ARRIVES IN ENGLAND

Montreal, Mar. 5.—The first detachment of the second contingent to sail from Canada arrived safely yesterday at Liverpool and Queenstown. The steamship Mississauga docked at Liverpool with a section of the force, while the steamships Megantic and Southland put into Queenstown. Included in the units carried by these three vessels were the 3rd Westmount Battalion; the 6th Canadian Field Artillery; Montreal; the 32nd Battalion of Winnipeg; and the 30th Battalion of Victoria, B. C.

Great secrecy was observed in connection with the sailing of the second contingent across the Atlantic, due to the blockade of the British Isles announced by the Germans. Every precaution was taken to prevent the enemy from learning the movements of the transports, and the first official information of the actual departure of the contingent is the bare announcement from the steamship companies that these vessels have arrived at their destination.

The detachment was about 4,000 strong. The flotilla left Halifax Monday, Feb. 22, convoyed.

Halifax, N. S., March 5.—Nearly 300 delegates were present tonight at the opening session of the Boys' Work Conference of the Y. M. C. A. in the J. Wesley Smith Memorial church. D. McEwen, manager of the Canadian Bank of Commerce, welcomed the delegates.

Sedley, Ediles, of Sydney, and Mr. Mosher, of Windsor, replied to the address of welcome. Then followed inspiring addresses by Rev. A. B. Cohen, and Taylor Statton, of Toronto, secretary of Boys' Work.

## RESTIGOUCHE MEMBER TO SECOND ADDRESS AT OPENING OF HOUSE

Fredericton, March 5.—Another member of the provincial government will be held here on Monday evening to complete the preparations for the session of the Legislature. B. Frank Smith, M. L. A., for Carleton, will move, and Arthur Gilliland, M. L. A., for Restigouche, will second the address in reply to the speech from the throne at the opening on Thursday. All the members of the government have returned home except Premier Clarke. He will remain here over Sunday.

Black Sea Fleet Moving  
London, Mar. 5.—The Russian Black Sea fleet is steaming toward the Bosphorus, says a despatch from the Giornale D'Italia, of Rome, telegraphing that the Russian fleet has passed Burgas, Bulgaria.

"NERVILINE" SROPS EARACHE IN 10 SECONDS, FIXES TOOTHACHE IN 2 MINUTES.  
It Seems To Possess Almost Some Divine Power Over Pain.  
RUB ON NERVILINE.  
Toothache is usually due to neuralgia in the gums or to the congestion and swelling of the nerve pulp. As "Nerviline" relieves congestion, you can easily see why it cures toothache.

Nerviline does more—cure any ache or pain—in any part of the body. It matters not where your pain is. It may be in a joint or muscle; it may be neuralgia or lumbago; it may be a surface pain or a deep seated neuralgia; it may be sciatica, rheumatism, pleurisy, strain or sprain; the large 50-cent family size bottle is more economical than the 25-cent trial size. Dealers everywhere sell Nerviline, or direct from The Cataractose Co., Kingston, Canada.

What is Nerviline, you ask? Just a liniment, but very much stronger in pain subduing power than other liniments—one that penetrates more deeply in the tissue than any other liniment. It is a liniment that cures quickly, that gives permanent relief.

You might spend ten or a hundred dollars, but you couldn't buy as much relief as you get from a single bottle of Nerviline.

We guaranteed Nerviline; we refund your money if it does not relieve you.

In many lands it is a household trust a remedy that has justified itself under the experience of those who have used it. Guaranteed for neuralgia, sciatica, lumbago, rheumatism, pleurisy, strain or sprain; the large 50-cent family size bottle is more economical than the 25-cent trial size. Dealers everywhere sell Nerviline, or direct from The Cataractose Co., Kingston, Canada.

# Was the Mystery of Life Ever Solved? Is the Human Body Electrical?

### Modern Investigators and Physiologists Seem to Have Confirmed This Theory: To Be Healthy Means a Normal Supply of Electricity; to Be Ailing Means a Lack of This Energy. The Question Is: How Can This Missing Electric Force Be Restored in the Best Possible Manner?

The human body is electrical no longer a mere theory among scientists and up-to-date physicians. It is generally conceded to be an absolute fact.

Professor Edgar L. Larkin, discussing the new physiology, writes as follows:

"A man, brain and body, is a battery, and nerves correspond to wires. It is now certain that transmission of sensation over them is electric. Nerves have been cut and a galvanometer inserted. The needle moved, proving that nerve power is electric. The human system is an electro-chemical battery and the life is electrical. The electric age is here. Drugs are hard hit on all sides, and an intelligent physician tells me he has almost entirely stopped their use. The word health now means a normal supply of electricity in the body, and the word disease means an insufficiency of that power."

"Dr. Albert J. Atkins, the eminent California scientist, is still at work proving that every principle in what we call our electrical science is merely borrowed from the human body. We propel railroad trains and automobiles by means of electricity and think it wonderful, but the human dynamo has always known how to propel itself, and with skill and almost absolute safety in either walking or running, and now Dr. Atkins shows us that the millionaire in his automobile and the hobo on foot are alike carried forward by electrical force."

"With a man's stomach as the only electric battery, Dr. Albert J. Atkins and E. J. Lewis recently charged an ordinary telephone apparatus so that it conveyed sound," says a San Francisco morning paper.

"It demonstrates that the human body is an electric battery."

"The experiment consists in the swallowing of two platinum electrodes, so that they touched the walls of the living stomach."

"By means of copper wires the electrodes were connected with a telephone and a microphone, a sensitive instrument which greatly intensifies sound."

"There was absolutely no mechanical or chemical battery in the circuit, yet the human organs were swallowed sufficiently to touch the walls of the stomach, human electricity flowed over the wires, rendering audible sounds. The electric charge measured from seven to eight volts on a western galvanometer."

clusions as to the effect of the treatment upon the favored fifty.

At the end of six months the electrified pupils had, on the average, grown 51 millimeters (2 inches), the "check" students only 32 millimeters (1.14 inches). The increase in weight, etc., was proportionate to that in height.

The mental progress was as remarkable as the physical. Taking as a standard of advance in studies that of the very brightest children, and demonstrating that 100 per cent. the average advance of those who had been subjected to the new treatment was 92 per cent., and fifteen out of fifty pupils were recorded as having attained a maximum on the other hand, the average progress of the "check" was represented by 75 per cent., and none of them attained to the maximum. There was also a notable improvement in mental alertness and attention and in capacity to resist fatigue, on the part of those in the electrified room. Teachers as well as pupils benefited by the treatment.

**ELECTRICITY, THE GREAT CONSTITUTIONAL TONIC**

A prominent physician recently remarked:—"If I had my way I would use electricity on every man, woman and child in the world, just the same as I would give them food. It is just as necessary for the human body, in order that it may retain its functions and keep them in good equilibrium."

I believe all that has been written by the authorities, especially those who have used the galvanic current extensively; it would be almost impossible to exaggerate its strength and vitality to the body in general, in curing certain diseases, and in relieving symptoms of others.

The sensation produced by my appliance is pleasant and soothing.

When you consider my theory that electricity is life to the organs into which my appliance sends it, you can see how we get our results. My success is due to the results effected by its application. If it did not produce results, my business would have died out long ago.

When I say that my appliance gives results, I don't ask you to accept my word alone as evidence. I can refer you to people who got back their health through the use of my appliance, and they will tell you what it did for them.

**HERE IS POSITIVE PROOF**

**Clergyman Suffered 8 Years From Lumbago Permanently Cured**

Dear Sir: This is to certify that I suffered from lumbago for eight years; was confined to my bed for several days each Spring and not infrequently in the Fall as well. I tried everything I could hear of, and while medical skill in the form of medicine would help me for the time, yet it did not drive out the trouble, nor prevent it from returning.

Having seen your appliances advertised, I sent for one. The results are, I have recommended its use to several, and have not since given me any trouble. I may say it has far exceeded my most sanguine expectations. I cannot speak too highly of it, and have recommended its use to some of my friends who are troubled with rheumatism, etc., and at least one of them has purchased a Hercules from you and am pleased to say he has had similar results.

I feel satisfied that anyone using your Electric Hercules according to instructions would have the same beneficial results which I have had.

Yours very truly,  
**HARRY PERLIN, N. P.**  
Hartney, Man.

quite a few dollars, but no cure. I am highly delighted with the Sandet Electric Hercules, and would never do without one in time of trouble.

If ever the opportunity comes my way, I will do everything in my power to help make a sale for your wonderful invention, and I strongly recommend Sandet Electric Appliance to any one the world over and let them take the Hercules on its merits, and can safely say that they would not be sorry, or money wasted.

Hoping you will live long to have the pleasure of seeing people restored to health and happiness by your wonderful cure, and wishing you every success in the future, I remain,  
Yours truly,  
**ARTHUR D. SHEEHAN,**  
119 Morris St., Halifax, N.S.

**HEALTH WITHOUT DRUGGING**

M. d'Arsonval, a well-known savant of the Physiological Institute of Paris, in an address at the Institute, said that electricity would be the medicine of the future. He showed that it is excellent also for certain maladies, and described the difference between the sudden shocks and the slow method by which it pervades the system without the patient's consciousness.

**"THE WORD HEALTH NOW MEANS A NORMAL SUPPLY OF ELECTRICITY IN THE BODY, AND THE WORD DISEASE MEANS AN INSUFFICIENCY OF THAT POWER."**

Professor Andrew MacConnell, President of the Society of Universal Science, in a recent essay, made this statement:

"The only difference between a well man and an invalid is that the invalid is not producing enough electric power to run the functions of his body and keep the vital organs up to the necessities of life."

"This power is electricity, that, by understanding the laws governing the production and control of electricity in life, any human can cure himself in a few weeks, can increase his vitality to the point of having an overflow of happiness and joy, and also that any person, feeble from age, may in the same way reinvigorate himself."

ed. Thousands know that my appliance has not failed. It is electricity, and "electricity is life." That probably is what you require, and the proper use of this grand appliance should give you health and happiness.

**VITAL, HEALTHY PEOPLE ATTRACT ALL**

A man may learn the degree of his own social importance by the attraction he has for those who know him. If you are not "magnetic," if you are nervous, unstrung, and lack nerve and courage, men and women naturally pass you by for the full-blooded, clear-eyed, even-nerved, fellow, whose very power, magnetism and electro-vital force make him the centre of all attraction. Thousands have said, in effect: "Your Hercules gave me back my courage and ambition. It made me bubble with life and spirits; it gave me a foundation of renewed strength to rely upon."

Mr. H. Gifford Sinclair, 2904 Market Street, Wilmington, Del., writes: "It affords me great pleasure to say that your Hercules has restored my nerve power. Prior to my purchasing your Hercules, I was a complete nervous wreck, and it very gratifying to know that this little instrument is capable of supplying new vitality and nerve power in a natural and unobtrusive way."

**WHY USE A BODY BATTERY?**

A party asked the other day why it is the faradic batteries and static machines do not give the same up-building results as my electric body appliance.

"That's because you can't stand the treatment for more than a few minutes at a time. A nervous person can't endure it long on account of the shock. When a man tries that method and finds that it does not help him, his natural conclusion is that electricity is no good."

Now, my system is different. With my plan a current is sent into the body for several hours every day, or night, usually while the person sleeps.

The delicate nerves are not jarred or shocked by this current, as it goes into them like drizzling rain, saturating a newly plowed field. They absorb it, drink it in, and as it is their very life they grow strong with it.

Poor digestion, inactive liver, constipation, sluggish blood, slow thinking, dormant energy and laziness are all due to lack of electricity. Understand that electricity is the motive power of the human machine, the power that keeps the organs active and you will see how we mean. In such cases you will see how my appliance can put energy into the body. It renews the vitality of the nerves, and transforms the sluggish into a bundle of vigorous energy.

Because you have experimented with faradic batteries, or taken electric treatments without success, is no reason why my method should fail. The ordinary battery can only be applied for a few minutes at a time, and that is not enough. Besides, that method is inconvenient and expensive. My appliance can be used all day or all night without interfering with your work or rest. It takes up none of your time.

**ELECTRICITY FOR WEAK NERVES**

A great many people suffer from ailments caused by weak, impoverished nerves, and try to cure these troubles by dosing their stomach with drugs. It is impossible.

If you are weak, run down, nervous and unambitious; if you suffer frequent headaches, and have spells of despondency, it probably means that your nerves are starving for new energy, electricity. That's all they need, and nothing else, in my opinion, will restore them so quickly and pleasantly.

I claim that my appliance saturates the nerves and vital organs with electric life while you sleep. That it builds up strength and vitality in every weak organ and drives out pains and aches.

If there was any nourishment in drugs they might do some good, but you know there is not. Drugs are stimulants, narcotics, antidotes, poisons, not food. I maintain that electricity is nerve food—nerve life. That it soaks into the nerves and is taken up by them just as a sponge absorbs water. That it nourishes and vitalizes the parts which drugs cannot reach.

Every dose of drugs that you put into your stomach weakens your nerves. Every time you kill an ache by stopping the nerves with poisonous drugs you are hurting them, and anyone can see that in time by steady dosing your nervous system will be completely broken down.

**RHEUMATISM**

You know that rheumatism is caused by uric acid in the blood. There's only one thing on earth, I think, that can get at this uric acid and drive it out of your system—that's electricity. It soaks into every vein and tissue of the body and drives the poisonous matter through the circulation back to the kidneys, which filter the blood of all impurities.

People say my electrical appliance has cured some of the worst cases of rheumatism after drugs and other methods have failed. When electricity goes into the body rheumatism must go out.

My claim is that no pain should exist in a body charged with electricity. You should have no rheumatism, no weakness or inactive parts, because the life generated by this grand force gives health and strength to every organ.

"The power of electricity to relieve pain is very great,"—Quain's Dictionary of Medicine.

**MEN MADE TO FEEL YOUNG AT SIXTY**

There is no excuse for men being old at 60, complaining about pains in the back, stiffness in the shoulders and legs, the "tired feeling," nervousness, indigestion, constipation, and failure of vitality. Nature starts you with a constitution that ought to have held good until you are 80, and you ought to feel like a man now. But you have overcome some things and wasted vitality. You still have the constitution, but lack the force. That is electricity. My appliance is intended to restore it.

Look at the men who have used electricity and you will see men of force, men of power and confidence, men who respect themselves and are respected, and admired by their fellow-men.

Wouldn't you like to be the man you were a few years ago; to have the same ambitious spirit, the strength and vitality that you used to possess? Wouldn't you like to be free from pains and aches, and to feel that you are the equal in strength of any man of your age? Probably you can be.

All that you lack is vitality—new life. You are like an engine without steam—you have the motive to keep the machinery of your body working properly.

Anything that will restore your "steam" will make a new man of you. Drugs have been tried and failed.

**ELECTRICITY TO SUPERSEDE DRUGS**

I maintain that electricity is the power which runs the human body—the force that keeps the heart going, the blood circulating and the various organs performing their functions like so many machines. I claim that electricity works the miracle of digestion and assimilation and converts the food into blood and bone, tissue and muscle, and supplies the brain with power to think.

I have had my theories confirmed by some of the world's most learned scientists, and today the use of electricity as a curative agent is spreading to every corner of the civilized world.

While others were speculating and arguing over the merits of electric treatment, I have gone ahead achieving results, and I can point with pride to men and women in all walks of life who say they regained their health and strength through the use of my Electric Body Battery.

Before I talk further regarding the use of my appliance you must understand my claim, that the human body is an electric organism deriving its motive power from the digestion of food in the stomach. This electric force generated in the stomach, is taken up by the nerves and conveyed to the different organs of the body, and in their turn, as there is sufficient electric energy to satisfy the demands of nature, the vital organs perform their regular functions properly, but just as soon as the natural electric force is overtaxed in any way the organs become weak and inactive and sickness or disease is the result. Now you can't cure the trouble until you restore the lost force. Nature must have more electricity, or vitality, as it is termed by medical men, in the ailing part. You cannot renew this force by dosing the stomach with poisonous drugs, which only help to drain away the vitality that you have. When every organ of the body has all the motive power—electricity—it needs, weakness and disease should not exist.

Now the purpose of my invention is to restore this electric force in a natural, scientific way. When the stomach is unable to supply the demands of the vital organs you must assist nature by filling your nerves with galvanic electricity.

My appliance is a generator of a powerful but soothing current of electricity, worn about the body while you sleep. It sends a subtle stream of electric life coursing through the nerves and vital organs for hours at a time. Its touch is gentle, without sting or burn. There is no shock. All you feel is a glowing warmth.

Electricity fills the nerve cells with new life. It drives out pains and aches, builds up vitality and strength and overcomes permanently such troubles as lumbago, nervousness, rheumatism, insomnia, many female complaints, varicose veins, weakness, and ordinary stomach, kidney, liver or bowel disorders. This is my claim.

**THE EFFECT OF ELECTRICAL TREATMENT UPON SCHOOL CHILDREN**

From Cosmos L'Electricien, and other sources, the following data have been secured, bearing upon experiments conducted for a number of years past, in Stockholm, in accordance with suggestions made by Prof. Svante Porbentius, with the object of determining whether or not electricity affects advantageously the development of the human body. Two groups of fifty children each, were carefully selected so that the two groups were, as nearly as possible, absolutely equivalent from the standpoint of the health, height, weight, etc., of their members. Each group received instruction in one of two rooms identical in dimensions and exposure. One of the two rooms, however, was wound—walls, ceilings, and apparently floor—with a coil of great number of windings of insulated wire, which thus formed a huge solenoid; and through this coil were sent alternating currents of high frequency. The conditions within this room were therefore in part similar to those in the core of a great electromagnetic; the other room was on a grand scale. The fifty pupils who constantly occupied this room were thus immersed in a magnetic field while at work, the other group, used as "check" studied under conditions otherwise entirely similar. Presumably, both pupils and masters were kept in ignorance of the treatment to which those in the electrified room were being subjected.

All the pupils having been carefully measured physically, were also classified minutely according to age, capacity of mental labor, and state of advancement in studies. In other words, every effort seems to have been made to reach satisfactory con-

**CURED OF LONG-STANDING COMPLICATED DISEASE, RHEUMATISM, ETC.**

Dear Sir,—I can speak in the strongest terms of the good I have derived from the use of your Electric Hercules. It certainly cured me of long-standing complicated diseases, including the different forms of rheumatism. After wearing your appliance a short time it cured me of the terrible pain I used to have in the back. For years I had been a great sufferer from weak kidneys and pains in the back, which rendered me quite unfit for work.

I was led to try one of your appliances, through the advice of a friend, and it is a truly wonderful invention, and a blessing to humanity. I will take pleasure in putting in a good word for you whenever possible. You may use this testimonial as you wish, as I consider it my duty to let sufferers know how they can be cured.

JAS. RENDER,  
Iroquois, Ont.

**WEAKNESS CURED, HIGHLY DELIGHTED**

Dear Sir,—I must apologize to you for keeping you waiting so long for an answer. It is with the greatest pleasure that I honestly and truthfully state that your appliance has done wonders for me. The Hercules is certainly a wonderful gift to anyone troubled with weakness. I feel completely cured now, and feel like a new man entirely.

I feel entirely satisfied that I invested my money safely and with the greatest possible results; very satisfactory indeed. I have often thought I would never get clear of the weakness, and despaired more than once of ever finding a cure. I had spent

Beard and Rockwell in the U.S. and Debat in France have shown that in animals the rate of growth can be accelerated by suitable electrization.

Electricity is also being used very successfully to stimulate the growth of vegetables and garden plants and destroy the germs of plant disease. The yield of various crops being increased from 10 to 62 per cent. through its use. (See very interesting article in Literary Digest, of May 9, 1914.)

**Dr. C. S. Neiswanger, in "Electrotherapeutic Practice," 18th edition, page 8, says: "When we come to consider the fact that all animal and vegetable life is not only due to but dependent upon the electrical conditions that surround and are within them, is it not reasonable to suppose that we should be able to restore the equilibrium of the body (Health) by supplying electricity from such outside source?"**

If you have a pain or an ailment of any kind, you don't want to fool yourself into the belief that you are getting well when you are not. That's all you

**PREJUDICE AGAINST ADVERTISED TREATMENTS**

There is a whole lot of prejudice against advertised remedies, and a doubt to the large number of quacks and schemers that have foisted worthless remedies on the public.

It were not for this prejudice I would not be able to handle all the business that would come to me. The many fake remedies advertised by charlatans have made many people skeptical, but I know that have a good thing and will hammer away until every body knows it.

I claim any organ of the body, any part that lacks the necessary vitality to do its work, or any organ that can be restored by this electrical treatment, excepting, of course, conditions which require a physician's attention. It gives strength, it makes the blood rich and warm; it vitalizes the nerves and puts vim into the brain and muscles, it just makes a good man out of a bad one in every way.

My appliance overcomes rheumatism, pains and aches, weak nerves, general debility and any other trouble which can be cured by restoring the life force.

No matter where you live, you can use my appliance as successfully as if you could come here to my office.

**VALUABLE BOOKS FREE**

To any man or woman who will mail me this coupon I will send free (close this book) a finely illustrated book. This book is written in plain language, is sealed, is filled in plain language, and explains many secrets you should know. One especially for men; another for women.

Don't spend your money on drugs and medicines.

Electricity is, in my opinion, far superior. You should know about it. Don't wait another minute.

Cut out this coupon right now, and mail it. I will send the book without delay, absolutely free. Address—The A. F. Sanden Co., 140 Yonge Street, Toronto, Ont.

If in Toronto, would be pleased to have you call as you would then have an opportunity of seeing and testing the Appliance and of having a talk with me regarding your condition. Investigation of my method, either personally or by mail, places you under no obligation. Hours, 9 to 6. Entrance, 6 Temperance Street.

**ELECTRICITY THE BASIS OF HUMAN VITALITY**

Professor Jacques Loeb, after 10 years' research and experiment, made this statement:

"A part of the chemical energy of foodstuffs is transformed into electrical energy, which in turn gives energy to the muscles and organs of the body. Electricity and not heat is the life of the body. These discoveries are going to upset the theories of medicine, as administered by the physicians of today, as it is settled that electricity is the basis of human vitality."

**THE EFFECT OF ELECTRICAL TREATMENT UPON SCHOOL CHILDREN**

From Cosmos L'Electricien, and other sources, the following data have been secured, bearing upon experiments conducted for a number of years past, in Stockholm, in accordance with suggestions made by Prof. Svante Porbentius, with the object of determining whether or not electricity affects advantageously the development of the human body. Two groups of fifty children each, were carefully selected so that the two groups were, as nearly as possible, absolutely equivalent from the standpoint of the health, height, weight, etc., of their members. Each group received instruction in one of two rooms identical in dimensions and exposure. One of the two rooms, however, was wound—walls, ceilings, and apparently floor—with a coil of great number of windings of insulated wire, which thus formed a huge solenoid; and through this coil were sent alternating currents of high frequency. The conditions within this room were therefore in part similar to those in the core of a great electromagnetic; the other room was on a grand scale. The fifty pupils who constantly occupied this room were thus immersed in a magnetic field while at work, the other group, used as "check" studied under conditions otherwise entirely similar. Presumably, both pupils and masters were kept in ignorance of the treatment to which those in the electrified room were being subjected.

All the pupils having been carefully measured physically, were also classified minutely according to age, capacity of mental labor, and state of advancement in studies. In other words, every effort seems to have been made to reach satisfactory con-

**THE PRODUCT OF EXPERIENCE**

I have devoted years to the perfection of my appliance. I have removed defects as fast as they appeared in actual use, and have supplied new features from time to time, so that my appliance is in a class by itself.

The current can be regulated to any degree of strength by the pressure of a finger upon the regulator arm.

Compared with mine, all other electric body appliances that I know of are rank numbers.

I guarantee Electric Hercules to be a true galvanic battery for body wear, constructed upon the highest scientific lines in accordance with my claims, and that each will generate a current which can be instantly felt, even before adjustment to the body.

**CLERGYMAN CURED OF DERANGED AND WEAK KIDNEYS**

Dear Sir,—During the early part of my university course I was greatly troubled with weak kidneys. I had tried almost all the best known "cures" without any relief. As a last resort I sent for one of your Hercules

**CURED OF LONG-STANDING COMPLICATED DISEASE, RHEUMATISM, ETC.**

Dear Sir,—I can speak in the strongest terms of the good I have derived from the use of your Electric Hercules. It certainly cured me of long-standing complicated diseases, including the different forms of rheumatism. After wearing your appliance a short time it cured me of the terrible pain I used to have in the back. For years I had been a great sufferer from weak kidneys and pains in the back, which rendered me quite unfit for work.

I was led to try one of your appliances, through the advice of a friend, and it is a truly wonderful invention, and a blessing to humanity. I will take pleasure in putting in a good word for you whenever possible. You may use this testimonial as you wish, as I consider it my duty to let sufferers know how they can be cured.

JAS. RENDER,  
Iroquois, Ont.

**WEAKNESS CURED, HIGHLY DELIGHTED**

Dear Sir,—I must apologize to you for keeping you waiting so long for an answer. It is with the greatest pleasure that I honestly and truthfully state that your appliance has done wonders for me. The Hercules is certainly a wonderful gift to anyone troubled with weakness. I feel completely cured now, and feel like a new man entirely.

I feel entirely satisfied that I invested my money safely and with the greatest possible results; very satisfactory indeed. I have often thought I would never get clear of the weakness, and despaired more than once of ever finding a cure. I had spent

# The St. John Standard

Published by The Standard Limited, 32 Prince William Street, St. John, N. B., Canada.  
H. V. MacKINNON, Managing Editor.  
ALFRED E. MCGINLEY, Editor.  
United States Representatives: Henry DeClerque, Chicago, Ill. Louis Klebahn, New York.  
British Representative: Frederick A. Smyth, London.

ST. JOHN, N. B., SATURDAY, MARCH 6, 1915.

"We are fighting for a worthy purpose, and we shall not lay down our arms until that purpose has been fully achieved."—H. M. The King.  
TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

### AN EXCELLENT POLICY.

If Mr. P. J. Veniot of Gloucester County has any evidence that officials of the Provincial Government, in the Public Works Department or any other branch of the provincial service, have not been faithful, honest and capable in the discharge of their duty, he now has the opportunity of making his charges and of having them thoroughly investigated by a commissioner whose ability and bona-fides no one will question. The Provincial Government has appointed Mr. W. B. Chandler, K. C., of Moncton, a commissioner to make a complete investigation of any and all charges preferred and, at the same time, has engaged Mr. William M. Dunlop, an auditor of repute, to go over the books of all departments and pronounce upon their condition.

It will be remembered that Mr. Chandler conducted the recent investigation into the St. John police force and those who were brought into touch with the proceedings at that time could not but be impressed with his absolute integrity and outstanding fitness for his duties. In his hands the people of New Brunswick may rest assured that the provincial departments will be thoroughly probed and if there is fault it will be speedily brought to light.

At the same time the Government, while willing and anxious that all light be turned on the methods and administration of the various departments of the public service, do not intend to give loud-mouthed partisans of the Carvell, Veniot class an opportunity of converting the proceedings into a political picnic for the glorification of the Opposition party. In the hearing by Royal Commission into the Dugal charges Mr. Carvell set all the rules of court procedure at defiance and, on more than one occasion, almost succeeded in turning the whole affair into a farce. Only a very lenient commission would have permitted him to go so far and, it will be remembered, that he was more than once called to account from the bench for his unprofessional and ungentlemanly conduct. Men of Mr. Carvell's ilk will have no opportunity to use the coming investigation for their political ends or to satisfy private grudges though at the same time there will be a thorough and business-like investigation into all departments.

The idea of an investigation was decided upon by Premier Clarke when he accepted the leadership of the Government. It will be heartily endorsed by all. At the same time the statement may truthfully and fairly be made that never during Mr. Pugsley's term as premier of this province did he dare to permit a commissioner to investigate the departments of his administration. The only investigation in which Mr. Pugsley was concerned was that into the Central Railway and from that he did not emerge too cleanly, while the only occasion on which the services of Mr. Dunlop were called into requisition in this province was when he investigated the financial condition of the Crown Lands Department of the province after the overturn of the Robinson government and the revelations then made were such as to create a most unfavorable impression.

There has been no charge against any department or any official of the Clarke Government, though Mr. Veniot and others of similar calibre have been doing considerable talking as to what they could do if the opportunity were presented. The opportunity is now at their hand if they care to avail themselves of it.

Premier Clarke and his colleagues are to be commended for the honest and businesslike method they have chosen of disposing of all rumors such as Mr. Veniot and his friends have assiduously sought to set in motion. Mr. Chandler's appointment is another testimonial to the quality of the "fair deal government."

### THE POLICE FORCE.

The resignation from the city police force of two experienced and, so far as the public knows, thoroughly competent officers, and their replacement by men of less experience, for even Commissioner McLellan's marked ability as a police administrator will hardly guarantee that he has experienced men on tap to fill such vacancies, will hardly add to public confidence in the quality of the force. The Standard is informed that in the past six weeks seven experienced members of the police force have either retired or been dismissed, while two sergeants who had given valuable and long service had, in the one case suffered reduction both in rank and pay, and in the other

a reduction in pay. During the past few months the police force has been the subject of investigation and much publicity and it would appear that the end is not yet. The police force of the City of St. John is a most important part of the civic administration. The Standard believes that the most sweeping methods should be employed to have an efficient force. If its members are not qualified for their positions it is the duty of those in control to remove them and replace them by men who are, but if the controlling power is such that competent men will not remain in the employ, how would it do to investigate the controlling power?

It has been a favorite statement of Grit newspapers and Grit speakers that the new tariff in its relation to the British exporter is unpatriotic. Just where? Our humble opinion is that, relatively, the British exporter receives an added advantage in comparison with other countries. Of course, the new tariff operates more favorably toward the Canadian manufacturer and the Canadian exporter but is this such a bad thing? Do the Grits object to the establishment of factories in Canada or to assistance given to Canadian industry, the great employers of the Canadian workmen? If they do we can imagine no better time for them to place themselves on record in this regard than just now. There are hundreds of thousands of Canadian workmen who will be glad to have the Grits definitely placed.

Readers of the Telegraph cannot have failed to notice that that newspaper is rushing to the defence of Mr. Pugsley in his foolish reference to squids as a fertilizer with the same feverish and valiant eagerness it used in upholding Mr. F. B. Carvell's ill-timed, disloyal and insulting reference to General French. There are times when the Telegraph likes to pose as a real newspaper and others when it is quite content to remain as it is—the servile and purchasable mouthpiece of anybody or anything with the money to buy its support.

The Sultan of Turkey is said to have retired from Constantinople and taken his court with him. The eminent ruler of the Turkish exponents of the Kaiser's "Kultur" evidently believes in safety first. It is as well for after British and French warships finish with the little job they have in hand in the Dardanelles there is not likely to be much of Constantinople.

Reports from the war zone indicate that the Canadians have again been in action and have given a splendid account of themselves when opposed to the finest of the German soldiers. Long before this war is over the Kaiser will learn that the "whelps of the lion," who fight for love of the mother, are, when roused, fully as dangerous as that mother herself.

A scholarly lecturer spoke last evening on "A Roman Rubbish Mound in Egypt." At the present rate of progress it will not be long before lecturers will be able to discuss "German Rubbish Mounds in Europe." The subject will be an interesting one for the descendants of the men who helped to make the mounds.

Canadian customs and excise revenues showed a substantial increase during the month of February. While there may be some complaint regarding the new tariff which contributed in no small degree to the increase the fact that there was an increase must be regarded as a satisfactory sign.

Germany's boast before this war was that Britain was unprepared. Well, every true Britisher today can find much cause for pride in the way this "unprepared" Britain is vanquishing her prepared and mighty enemy.

General Lensard inspected the New Brunswick regiment yesterday. Judging from the smart appearance of the men on the street he probably found that they measure well up to the highest standards of efficiency.

To England's programme of retaliation Germany replies that she is prepared for the war to the death. She must be for there is only one other course and that course unconditional submission.

Mr. J. W. Vanwart announces that he is behind the movement to bring about a return to the old system of civic government. The pot is commencing to simmer.

## INVESTIGATE GOVERNMENTAL DEPARTMENTS

### W. B. Chandler, K. C. Has Been Appointed Commissioner to Hold Inquiry.

Fredericton, N. B., Mar. 5.—Premier Clarke announced this morning that W. B. Chandler, K. C. of Moncton has been appointed a commissioner under the departmental enquiries act to carry on an enquiry into the administration of the different departments of the government. This investigation has been foreshadowed in previous announcements by the Premier, who determined upon such a course when the recent re-organization of the government took place. William M. Dunlop of Ottawa has been recommended to assist the government in re-organizing and systematizing the different departments of public service. Mr. Chandler is one of the foremost members of the New Brunswick bar, and has had considerable experience in conducting enquiries as a commissioner. He carried on the investigation into the affairs of the St. John police department. Mr. Dunlop is one of the leading expert chartered accountants of Canada, and has been engaged in similar work in other provinces of the Dominion, including British Columbia, and after the general election in this province in 1908 he conducted the audit of the books of the Crown Land and other departments here, which resulted in such startling revelations. This investigation will give any person with any real charges to the credit of any member of the government or any official of the various departments an opportunity of coming forward with the information. There have been many people only too willing to make insinuations, and this will furnish them with an opportunity to make good their talk or to hereafter hold their peace. Any real charges will be thoroughly investigated. The inquiry is not confined to any one department, but to all—agricultural, crown lands, public works and provincial secretary's departments.

## LONDON MARKET IN A HEALTHY CONDITION

### Lloyd George and representatives of Dominions will discuss financial position as it affects the latter.

London, Mar. 5.—The Newfoundland contingent is the subject of an appreciative article in the *Financial Times* which says that the members of the contingent made many friends during their short stay at Fort George, near Inverness. The financial position as it affects the Overseas Dominions will be discussed shortly at a conference convened by the Chancellor of the Exchequer, Mr. Lloyd George, who will meet the High Commissioners and Agents-General of the various colonies. A leading Canadian banker expressed the opinion today that the government will realize the necessity of accommodating overseas financial requirements either by raising money or by allowing loans to be raised under certain conditions. He declared that the London market was in the healthiest condition owing to the enforced inactivity of recent months. A question as to whether commissioned members of parliament will have the amounts received in pay deducted from their parliamentary salaries will be raised in the house shortly. At present the government holds that the treasury order under which payment is made justifies the deduction.

The memorial to Mabel Hackney, Lawrence Irving's wife, who perished in the Empress of Ireland disaster, will take the form of a lecture in Savoy Chapel Royal, designed by Gilbert Bayes.

### SUFFERED FROM BILIOUS HEADACHE.

At Times Thought She Would Go Mad. Headaches are one of the most aggravating troubles a person can have. They are many and varying, but when the headache starts you may be sure that there is some other chief cause of this most painful difficulty. The stomach may go wrong, the bowels become constipated, the blood may not circulate properly, but the presence of the headache clearly shows that there is some other baneful disease which is liable to assert itself unless the cause of the headache is removed. Get rid of the headache and thus perhaps save yourself many years of trial and suffering.

Burdock Blood Bitters has, for the past forty years, been curing all kinds of headaches, and has also proved itself to be a remedy that cures where all others fail. It does this by removing the cause of the trouble. Miss Mary A. Roberts, Hampton, N.B., writes: "For about two years I have suffered from bilious headache. At times I thought I would really go mad. Not long ago a friend advised me to try Burdock Blood Bitters which I did, and after taking three bottles I have never been troubled with any kind of a headache. I think that B.B.B. is one of the wonders of the world. I can safely recommend it to all who suffer from bilious headache." Burdock Blood Bitters is the oldest and the best known blood medicine on the market today, and is manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

## Little Benny's Note Book.

By LEE PAPE.  
I was wawking-around yesterday to see if Mary Watkins was settin' awn her front steps, and I found a littel piece of red crayon, and I was wawking-around looking at it wundring how big it was to be wen it was awn there, and who did I see wawking-around in the saim direcshun but Puds Simkin's elassy cussin Persey.  
Hello, Benny, sed Persey.  
Ware are you goin', I sed.  
I'm soing-around to set awn Mary Watkins's front steps, sed Persey. But that's wat I'm goin' to do, I sed.  
Then we can both do it, sed Persey.  
And we both wawked-around, and after a wile I sed, Do you want to no how to make a big hit with Mary Watkins.  
How, sed Persey, and I sed, Let me make littel marks awn yure face with this red crayon, and then she will think yure funny and laff at you, and if she wunts thinks yure funny you can make a hit with her eery, that's the way I made a hit with her.  
And Persey sed awl rite, and I took the crayon and made so many red dots awl over his face he looked as if he had a red vale awn like a lady, and then we kepp awn wawking-around to Mary Watkins, and she was settin' out awn the front steps awl rite, and we came up and I sed, Hello, Mary, did you heer about Persey havin' the meezils, thare contayjus.  
Persey Jenkins, you get rite away from heer with those meezils, sed Mary. And she ran in the vesterbule and jest peeped out the door, saying, Go away, do you heer, I wont kum out till you go away, you look orrill.  
Thare not meezils, look, I can wipe them awl, sed Persey. And he started to rub his sleeve ovir his face but the red spots jest amored insted of kuming awl, making him look worse than evvir, and Mary Watkins sed, Benny, make him go away, I dont want to ketch them awl of him.  
Go awn away, I sed.  
You tell her thare not meezils, sed Persey.  
She woodent bleeve me, go awn away, you dont think its verry pullite to keep a lady in her vesterbule, do you, I sed.  
Ill go hoam and wash them awl, then you'll see, sed Persey. And he went away and Mary Watkins came out agen and us 2 sat thare awn the steps tawking to setch uhir and Persey didnt kum back agen, proving he must of had to stay in the house awn akkount of gettin' his face lookin' like that.

## PUTS TRANSFER TERMS UNDER CONTROL OF RAILWAY COMMISSION

Ottawa, Mar. 5.—W. F. McLean, M. P., has given notice of an amendment to the Canadian Pacific Railway bill to provide that the terms of the transfer of the company's ocean service to a separate corporation be made subject to control by the Railway Commission. This amendment was proposed in the Railway Committee and rejected two or three days ago.

## PAY THEIR WAY TO ENGLAND TO FIGHT IN KITCHENER'S NEW ARMY

Calgary, March 5.—Mr. J. F. Naylor, a prominent local business man, just returned from England, states that crossing with him on the *Missanable*.

### CAN'T FIND DANDRUFF

Every bit of dandruff disappears after one or two applications of Danderine rubbed well into the scalp with the finger tips. Get a 25-cent bottle of Danderine at any drug store and save your hair. After a few applications you can't find a particle of dandruff or any falling hair, and the scalp will never itch.

### The Best Quality at a Reasonable Price.

"Time is the Stuff That Life is Made of"  
Did you ever think of it in that way? Rather a startling fact, isn't it?  
Poor Richard—who was a modern Solomon—stated it as above, beginning with, "Waste not time."  
You cannot help wasting "the stuff that life is made of"—time—unless you carry a good watch. It is actually remarkable how much time a good watch saves its owner.  
Howard, Waltham, Hamilton and Decimal Watches are guaranteed time-savers. They are the best watches made.  
You can well afford to buy one of these watches now. You'll find complete lines at Sharpe's at prices representing the utmost in watch value. Step in and examine watches.

## L. L. Sharpe & Son, JEWELERS AND OPTICIANS.

PRINCESS PATRICIA'S AT THE FRONT

OXO CUBES

within sound of the guns

How OXO CUBES helped Princess Patricia's Regiment to make their Christmas dinner

An interesting letter from a sergeant in the above regiment:

"At last we are where we wanted to be, and are contented with our little lot. We had a fairly good Christmas dinner, which consisted of bully beef and biscuits, and whatever we could forage.

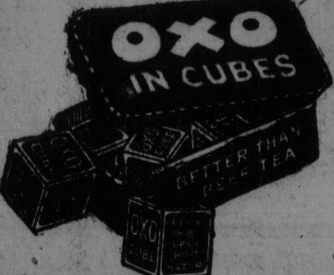

[Reprinted from the "Montreal Gazette", Jan. 7, 1915.]

Winter weather is OXO CUBE weather. What could be more invigorating and sustaining than a steaming, delicious cup of OXO, which gives that rich, strengthening beef-nourishment the body needs to withstand cold and fatigue?

OXO CUBES beat all the old ideas for food-quickness. Simply drop an OXO CUBE into a cup of hot water—stir—and it's ready.

A daily cup of OXO is an excellent safeguard against colds and La Grippe.

A Cube to a Cup In 10c and 25c Tins

PURSE OF GOLD FOR CONSTABLE DAWES

Many Present at Interesting Presentation in Market—Popular Man Enlists For Service.

After the country market had closed yesterday it was noticeable that many of the stall-holders seemed disinclined to go home, and W. T. Dawes, the affable toll collector and special constable couldn't quite understand it.

Mr. Dawes was not alone, and wonderment reposed in the breast of W. T. D., but not for long. In the meantime the address had been read in the market, every implement that could be brought into requisition had been made the medium of a well-meant bang or clang, ending in a general assembly.

A beautiful illuminated address was presented to Mr. Dawes by Mr. Dickson, after the turmoil had subsided, and it expressed in no uncertain terms the regard which all had for the man who has now quit his employment in the market to fight for the Empire.

CANADA'S REVENUE LAST YEAR SHOWS GOOD GAIN OVER FEB. 1914

An increase of \$825,224—Expenditure shows considerable decline compared with that of the corresponding month last year.

Ottawa, March 5.—For the month of February the Dominion's revenue shows an increase of \$825,224, as compared with February of last year.

Expenditure for the month shows a considerable drop as compared with February of last year. Current expenditure decreased by \$1,488,421 and capital expenditure by \$557,722.

At the end of the month it was \$401,391,300 as compared with \$317,139,891 at the end of February last year, an increase of \$84,222,108 during the twelve months.

PEJASCOT LUMBER CO. WILL GET OUT BIG CUT IN SPITE OF WEATHER

Robt. Connelly says his Company will get out a cut of 12,000,000 feet—Question of horses and hard work.

"In spite of the peculiar weather we are getting out the logs," said Robert Connelly of Salmon river, manager of the Pejabscot Lumber Company, who was at the Royal yesterday.

"As to what other lumber operators have been able to do, I know little," added Mr. Connelly. "To get out our cut we have had to put an extra shift to work; I have been in our camps for the last six weeks, and it means extra expense to get the cut out."

CITIZEN CLAIMS HE HAS GRIEVANCE

Complaint May Follow Visit of Police Officers to Market Street Pool Room.

Last night Policeman Storm was called into a Market street pool room to assist in ejecting a man who was not wanted there.

Later on in the night the man stopped the policeman on the street and said he had no right to be moved as he had been on business; the officer said he did not wish to talk with him; and then the man claimed that the policeman had insulted him and he wished to have the bluecoat's name.

Your System Demands

an occasional corrective to insure good health and strength. Success is almost impossible for the weak and ailing. Enjoyment is not for the sick. Impaired health and serious sicknesses usually begin in deranged conditions of the stomach, liver, kidneys or bowels.

Beecham's Pills

are recognized all over the world to be the best corrective of troubles of the digestive organs. They tone the stomach, stimulate the liver, regulate the bowels. They cleanse the system, purify the blood and act in the best and safest way.

W.C.T.U. OF ST. JOHN COUNTY IN SESSION

Quarterly Convention well Attended—Interesting Reports and Papers—Concert in Evening.

The regular quarterly convention of the St. John county W. C. T. U. was held yesterday afternoon in Union Hall, North End, the president, Mrs. Mary McAvity, in the chair.

Mrs. McIntyre also spoke of the good work of the Union, as did Mrs. R. Morton Smith, who referred particularly to the activities of the Russian people in the cause of prohibition, and to the declaration recently made by Chancellor Lloyd-George that liquor was a hindrance of the present war.

A vote of sympathy was ordered to be sent to Miss Jane Lockhart, who for a very long number of years had been secretary of the county union, and who is now in ill-health.

YOU'RE CONSTIPATED, BILIOUS!—CASCARETS

Tonight! Clean your bowels and end Headaches, Colds, Sour Stomach.

Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

BED FOR WOUNDED N. B. SOLDIER SURE

Hospital in France will reserve one bed for Provincial man.

It will be of interest to the subscribers of the Standard who have made possible the endowment of a bed for a wounded soldier at the front, through the agency of the St. John Ambulance Brigade, to know that the sum collected in the province, and sent forward by Lady Tilley, has been received by Lady Perrott, who wishes to thank all who had so generously subscribed.

SICK HEADACHES PERMANENTLY CURED

Dr. Williams' Pink Pills Correct the Cause of This Trouble.

There are few ailments that cause more genuine misery in the home than attacks which are generally termed sick headaches. The attacks are often periodical and when the mother of a family is prostrated at intervals there is not only her own suffering to consider, but the discomfort caused the other members of the household.

It is by building up and enriching the blood and strengthening the nerves that Dr. Williams' Pink Pills work seemingly marvelous cures, and what they have done for others they will do for all ailing people if given a fair trial.

# Late Gossip Of The Sporting World At Home And Abroad

## LIVE TOPICS ABOUT BIG LEAGUERS

### TURNED DOWN FEDERALISTS

Hammering Hank Gowdy has received and turned down an offer of \$30,000 from President Gilmore of the Federal League. For some weeks, it leaked out today, scouts from the Federal League have been on the trail of the Braves' catcher. Hank admits receiving the offer direct from Gilmore, and it is said a bonus was mentioned. Gowdy, however, declared he felt bound by the terms of his three-year contract with Manager Stallings, and that he was not over-anxious to take chances, especially as the prospects of Boston were declared to be getting another chance at the world series money, in his opinion, were very bright.

### WALTER JOHNSON WORRIED

Walter Johnson is said to be greatly worried. Baseball fans are interested in an announcement that Johnson would issue a public statement within a few days explaining that he now doesn't know whether he belongs to the Federal League or to the American League.

He is quoted as saying that Fred Clarke, of Pittsburgh, and Clarke Griffith of Washington, persuaded him into believing that he belongs to Washington. Since then he has heard arguments to the contrary that put him up in the air. He will welcome court action to decide where he belongs, he is said to have declared to friends. He awaits the decision of Judge Landis with anxiety.

### MATHEWSON'S ARM

"The arm of Chris Mathewson is gone," remarks one National League ball player. That may be true, but Chris hasn't lost his home. People around certain parts of the country think Chris has been pitching his arm for the last two or three years. That's an optical illusion. The old-time power and cunning left Matt's arm a few years ago, and Chris has been pitching with his head ever since for an average around 700. So you see, even though Matt has lost his arm, he will be listed among the 1915 Giant pitchers.

### CATCHER WANTS TO UMPIRE

William J. Sullivan, veteran catcher of the Chicago White Sox, who recently was unconditionally released, decided to apply to President Ban Johnson for a position as an umpire in the American League.

Billy Sullivan served behind the bat in the big league for fourteen years. He certainly should be qualified to tell the difference between a ball and a strike. He has handled thousands of both kinds.

### JACK JOHNSON'S WHEREABOUTS

After a thorough study of the situation we find that Jack Johnson is in Havana, Santiago, Tampico, Juarez, Chihuahua, Buenos Aires, Vladivostok, Shanghai, Cape Town, Alexandria, Constantinople, Petrograd, Etah, Reikjavik, Stockholm, Calcutta and points adjacent thereto. An enterprising newspaper correspondent can find anywhere but in Leavenworth, Kan.

### WEE WILLIE KEELER.

William H. Keeler, better known as "Wee Willie," one of the greatest outfielders and brainiest batters in the history of baseball, is 43 years old. For fifteen years Keeler swatted the pellet 300 or better in the big leagues and in 1897, while with the Baltimore Orioles in the National league, his batting average was .432. That season he hung up a new world's record by getting 243 singles. Keeler started playing ball with Binghamton in 1892 and batted .373 for that club, then in the Eastern league. In 1893 he broke into the main show with Brooklyn and New York, but was returned to Binghamton the next season. He joined the Orioles in 1894 and remained there until 1899, when he was with Brooklyn for four seasons. In 1903 he went over to the American league with the Yankees. Keeler remained in the main tent until 1911, when he finished his playing career with the Toronto club of the International league. He then settled down in Brooklyn and accumulated a snug fortune.

## ST. JOHN CURLERS AT BOSTON-- ST. ANDREWS LOSE TWO MATCHES

Special to The Standard.  
Boston, Mass., March 5.—Three rinks from St. Andrew's Curling Club, St. John, played two games today at the Arena with the Brookline club and were defeated with the following results:

**Morning Game.**  
St. John Coombs, Mace, Mace, Robinson, Beattey, Skip. 12  
Boston King, McCausland, Francis, Porter, Pfalzer, Denny, Young, Skip. 23  
Total.....35

**Afternoon Game.**  
Coombs, Magee, Robinson, Beattey, Skip. 6  
Gould, Skip. 22  
Allison, Lockhart, McDonald, Smith, Skip. 15  
Peters, Thomas, MacNeill, Merrill, Skip. 14  
Total.....35

The visitors are to be guests at a theatre party tonight, and a dinner tomorrow at Brookline Country Club, and have been received with most cordial greetings. This is the third meeting between the two clubs. Tomorrow a third game will be played. The ice today was in excellent condition.

## CANADA HAS TURNED OUT GOOD FIGHTERS

While Tommy Burns is the only native of Canada in the list of the world's heavyweight champions, the Dominion has turned out many classy "heavyweights." First among these is Samuel Langford, who started life in Nova Scotia, and who is about as handy a man with his fists as any to be found on the crust of this oblate spheroid. Old-time fans will recall many other Canadian heavyweights who made their mark on the faces of their opponents—among whom were two native sons of little Prince Edward Island, Joe Lannan and George Godfrey. Lannan, who was born in Charlottetown just half a century ago Monday, March 1, 1865, was a contemporary of John L. Sullivan, Charlie Mitchell, Peter Jackson and other heavyweights who gave zest to the life of the fight fan some twenty-five or thirty years ago. Godfrey, best remembered as "Old Chocolate," because of his decidedly brunet skin, was too light to aspire to the heavyweight championship, but the game and clever negro gave the big fellows of that day a lot of trouble.

Like nearly all the Canadian boxers, Joe Lannan began his ring career in Boston. It was about thirty years ago that Joe began mingling with boxers now all but forgotten, but fairly prominent in that period—such fellows as Denny Kelliher, Matt Cunningham and Jim Duffy. In 1885 Lannan went to St. Paul and whipped Joe Brady and Billy Wilson, but lost to Pat Killen. He also bested Ed. McKeon at Grand Forks, N. D. Back in Boston he knocked out John P. Loughlin and Frank Herald, and fought a draw with his countryman, George Godfrey.

Lannan got into the limelight in 1887, when he was matched with Jake Kilrain for the championship of America. Jake then claimed the title because of Sullivan's refusal to meet him, and a little later he was presented with a belt symbolic of the title. The Canadian put up a good fight, but he was defeated in eleven rounds. In 1889 he fought another draw with George Godfrey, and then met Jack Ashton, who knocked him out in the nineteenth round. Later that year Lannan and Peter Jackson tried to fight at Revere, Mass., but the cops butted in and stopped the proceedings. In 1892 Lannan fought a three-round draw with Jim Corbett, and then met George Godfrey again. The fight was staged at Coney Island, and this time Lannan was knocked out by the negro. That ended his career in America, although he later fought a few battles in England.

## LOCAL BOWLING YESTERDAY

### THE CITY LEAGUE.

Last night on Black's alleys in the City League the Sweeps captured three points from the Braves. The following are the scores:

Braves.	
McKean	107 103 96 306 102
Logan	85 87 75 248 82 23
Teed	92 98 77 267 89
McLeod	79 85 89 253 84 13
Bailey	102 99 90 291 97
466 472 427 1365	
Sweeps.	
Coughlan	85 99 88 272 90 23
McLiven	84 88 98 270 90
Gambin	84 84 92 260 86 23
Ferguson	90 104 86 280 83 13
Sullivan	86 100 124 310 103 13
429 476 488 1393	

H. Sullivan won the daily roll off with a score of 124. Tonight in the City League the Ramblers and Elks will play.

## AMATEUR NIGHT AT THE OPERA HOUSE

The amateur contest at the Opera House last night presented one of the best and most diversified programs of the season. It opened with a laughable shoe-string tying contest by five smart, scrappy kids. Louis Doherty followed with a good song, then "Jeff and Bunk," an alias, not their real names, made a real hit with a vocal duet of much merit. Wm. Cousins, a step dancer started but forgot to finish and the audience demanded the hook; Miss Dolly Gibb brought down the house with a cleverly executed Highland fling; David Edwin Mass rendered some harmonica solos; Teddy Merritt showed the latest steps in clog dancing; Lawrence Pemberton, a young chap, presented some acrobatic feats worthy of a place in the Robinson Circus program, and Arthur Bailey did some dare-devil stunts in high diving over chairs that must require considerable courage to even think about, let alone attempt. The first prize went to little Miss Gibb; second to Lawrence Pemberton, third to Jeff and Bunk, and the fourth to David Mass. Amateur nights at the Opera House are surely bringing some exceptionally clever local talent into the limelight.

### USE TARGET FOR CONTROL

Harvard pitching candidates were subjected to a test for accuracy by Dr. Sexton, the baseball coach.

The coach erected a backstop six feet high, and about nearly as wide, with an opening corresponding to the limits within which called strikes would pass after crossing the plate. The pitchers delivered balls at this hole, and were scored on their successes and failure in locating it.

## WAR HAS NO EFFECT ON BASEBALL

Manufacturers of baseball supplies are laughing at a report which has gained circulation to the effect that the national sport will be seriously handicapped next season due to an insufficient supply of skins the world's series might have to be played next October with defective balls if played at all. Investigation showed that plain everyday American horsehide is the only skin used for covering baseballs and that there is the usual supply in sight. This hide does not stretch or sag under the impact of the bat and has always proved satisfactory.

### ZIM HOLDS RECORD

Heinie Zimmerman regrets when the baseball season opens that he must give up the golf driver for the baseball bat. Zimmerman is credited with being the longest driver in the game. As he learned the art of playing when a caddy he has natural swing, and knows the true value of timing the stroke, which is quite necessary to get a long ball.

"MADE IN CANADA"

## Ford Runabout Price \$540

Prices of other Ford cars are: Five-passenger Touring Car \$590, Two-passenger Coupelet \$850, Five-passenger Sedan \$1150. All cars fully equipped, including electric headlights. Prices F. O. B. Ford, Ont. Buyers of all Ford cars will share in our profits if we sell 30,000 cars between August 1, 1914 and August 1, 1915. All Ford cars are on exhibition at Ford Motor Company, St. John, N. B.

Perfection Scotch Whisky

Practically every doctor advises his patients to keep a little whisky in the house—a whisky that is absolutely pure and wholesome, that is up to the full strength standard and that has the mature flavor and digestibility of natural age. McCallum's Perfection Scotch adequately meets these requirements of the medical fraternity.

Beware of Imitations—Always Ask for D. & J. McCallum's

### LATEST GOLF IDEA

Learning to drive by means of a moving picture is the latest idea to find its way into golf instruction. The Illustrated Golf Magazine has taken a picture of Chick Evans which shows him in about thirty different positions, and as they follow each in perfect order it is possible to get a good conception of every movement he makes from the time he addresses the ball till he has followed through and the club has come to rest behind his back. No better player could be picked out to illustrate a drive than Evans, who is the possessor of a fine style and gets very satisfactory results.

The Latest News and Comment from the World of Finance

POOR SHOWING BY BANK OF ENGLAND WEEK, AND AN INCREASE IN TRADING

Carrying a heavy burden—Great reduction in Bullion holdings. London, Eng., March 4.—This week's return is the poorest showing the Bank of England has made in the present year, or even since the notable return to normal of the late autumn.

New York, March 5.—Stocks attained their highest level of the week today on buying of a comprehensive and confident character. The rise was occasionally interrupted by realizing for profits, which had little effect on prices, however, the more material gains being recorded in the final dealings. Trading was in excess of recent sessions, and commission houses reported an awakening of investment demand, although the inquiry from this source was moderate, at most.

on May 1, and some apprehension is felt as to its ability to meet this payment. Other issues which failed to participate in the general advance included Maxwell Motors, first and second preferred; International Harvester and Baldwin Locomotive. There were no outward developments to account for the day's movement, foreign conditions showing little change.

SEVERAL ORDERS FOR MOTOR SHIPS

English yards are being kept busy and orders booked for two years ahead. New York, Mar. 4.—Shipping interests here are in receipt of information which shows that many orders have recently been placed with shipbuilders of motorships in Great Britain. Sufficient business is said to have already been booked to keep the yards busy for the next two or three years.

Amusements of the Week

and especially did Mrs. Smith wish to thank the ladies—the volunteer workers of the various companies and committees who, by their splendid efforts in connection with those of the members of the Royal Standard Chapter, had made Patriotic Day such an unparalleled success.

Twelve gentlemen members of the St. Andrew's Curling Club left for Boston on Thursday night, to compete with the curlers of that city in a friendly "bonsplé."

Mr. John Black, Vancouver, accompanied by his sister Mrs. Dixon, Riverside, Albert County, and Miss Hilton Green spent a few days in the city this week. Mr. Black received a hearty welcome from his many friends in St. John.

Mrs. John H. Allingham spent a few days in Fredericton this week a guest of her sister, Mrs. T. E. Ryder.

A cable was received by Mr. Justice Grimmer on Thursday from his son, Mr. Don S. Grimmer, saying he was leaving for France on the 4th, that day. Mrs. Grimmer, who has been in London with her husband, will remain there for some time.

The Misses Kerr entertained very informally at the tea hour on Thursday afternoon in honor of Miss O'Leary Richbuck.

Miss Helen Russell, Douglas avenue, entertained a number of her young friends at a very enjoyable thimble party on Thursday afternoon.

Mrs. James Johnston entertained at a delightful bridge at her residence Douglas avenue on Friday evening.

Mrs. James F. Robertson was hostess on Thursday afternoon at an enjoyable sewing party at her residence Carleton street. During the afternoon the guests had the pleasure of hearing Mrs. G. W. Ritchie and Mrs. Pauline Winslow render several delightful piano solos.

A very enjoyable day was spent at the L. M. Club on Tuesday. After luncheon bridge was played and afternoon tea served. The guests were Mrs. A. W. Adams, Mrs. Heber Vroom, Mrs. Busby, Mrs. George F. McLeod, Mrs. H. Robinson, Miss S. D. Smith, Mrs. F. E. Sayre, Miss Laura Hazen and Miss Mabel Sidney-Smith.

Mr. and Mrs. J. V. Anglin will entertain at bridge this evening very in Mr. Justice Grimmer, Mrs. Grimmer, Mr. and Mrs. A. C. Skelton and Mr. and Mrs. Ambrose.

Major-General Rutherford, officer commanding the No. 6 Division (Canadian forces) arrived in the city on Thursday and was entertained at dinner at the Union Club by Colonel McLean.

The finals in the doubles, St. Andrew's Curling Club, were played on Friday morning, resulting in a victory for Mrs. George Fleming and Miss Jean White.

Mr. and Mrs. Simeon Jones left on Monday evening on a trip to New York.

Mrs. Frank Fairweather was hostess at a very enjoyable bridge of three tables on Tuesday afternoon at her residence, Duke street, in honor of Mrs. W. A. Truman, Winnipeg. Mrs. Fairweather received her guests in a very becoming gown of blue charmeuse with touches of fur. The guests were Mrs. Truman, Mrs. Robert Cruikshank, Mrs. William Vassie, Mrs. L. P. D. Tilley, Mrs. M. F. White, Mrs. James D. Seely, Mrs. Charles Bostwick, Mrs. P. W. Thomson, Mrs. Alexander Fowler, Mrs. F. Caverhill Jones, Mrs. Frederick Schofield, Mrs. Skelton, Mrs. G. D. Ritchie, Winnipeg, Mrs. George McAvity, Mrs. H. C. Flood and Miss Mary Blizard. Mrs. Tilley and Mrs. F. C. Jones were the winners of the very pretty prizes.

Mrs. A. C. Skelton received on Wednesday at her home, King street east, when many friends called to pay tribute to Mrs. Gordon Dudley Ritchie, who with her little son leaves on Monday for their home, Winnipeg. Mrs. Ritchie during her short visit in our city has made many friends, not only by her own personality, but by the pleasure she has given others who have had the opportunity of listening to her solos on the piano, being a very accomplished musician.

Captain Graham and Lieutenant Hill, of No. 5 Co. C. A. S. C., entertained informally at a very delightful dinner at the Union Club on Tuesday evening. The table decorations were elaborate, the floral decorations being pink tulips and violets. The guests were Lieutenant D. F. Pigeon, Mrs. Pigeon, Mr. and Mrs. Fran S. White, Mr. and Mrs. F. C. MacNeill, Mrs. Pauline Winslow, Miss O'Leary, Miss Jean McDonald and Mr. Samuel Gregory.

Mrs. R. Downing Paterson was hostess at one of the most enjoyable and largest sewing parties given for some time on Tuesday evening at her residence, Carleton street. A delicious supper was served during the evening. Amongst the guests were Mrs. Robert Cruikshank, Mrs. Alborough, Halifax; Miss Jamieson, Digby; Miss Cecelia Armstrong, Miss Bessie Seely, Miss Church, Boston; Mrs. Roy Campbell, Mrs. L. P. D. Tilley, Miss Louise Howard, Mrs. J. B. Cudlip, Mrs. Russell Sturdee, Mrs. Eber Turnbull, Mrs. Frederick Daniel, Miss Penney, Mrs. Kerr, Miss Frances Kerr, Mrs. Lucien Allison, Mrs. Frank Allison, Mrs. Peters, Gagetown; Miss Ethel Jarvis and others.

The Twilight recital which is to be given this afternoon in German street Baptist church from four until five, under the auspices of the "Willow Workers" of that church, will be a musical treat, and without a doubt will be well patronized. A very fine programme has been prepared. Those taking part are Mr. D. Arnold Fox, Guy, Mr. Ernest Bowman, Dr. Percival Bonnell and others. A silver collection will be taken, the funds to be used to carry on the good work which already has been accomplished by this energetic circle.

Mr. and Mrs. P. W. Thomson and Mr. Fred Fraser who have been on a visit to Boston returned home on Friday of last week.

Mrs. George D. Scarborough was hostess on Wednesday afternoon at a very delightful drawing room tea in honor of Mrs. Harper, who is visiting Mrs. D. W. Harper. The prettily appointed tea table had for its decorations pink roses and was presided over by Mrs. D. W. Harper. Other guests were Mrs. H. A. Austin, Mrs. T. Nisbet Robertson, Mrs. David McLaughlin, Mrs. E. L. Stevens, Mrs. McLoch, Mrs. J. M. Barnes, Mrs. T. N. Vincent, Mrs. A. P. Paterson and Miss Hyman (Sussex).

Mrs. William A. Lockhart accompanied her husband to Boston on Thursday evening on a short visit.

Much sympathy is extended to Mr. and Mrs. Charles S. Hamilton on the loss they have sustained by the death of their son, William Stanley, which occurred at their home on Tuesday. Little Stanley, who was in his thirteenth year, was an unusually bright boy and was greatly beloved by old and young with whom he came in contact. The funeral took place on Thursday, many handsome flowers being sent from far and near, testifying the esteem in which he was held.

SUSSEX

Sussex, Mar. 4.—Mr. and Mrs. Garfield White left on Wednesday for Boston, while away they will visit New York and Atlantic City.

Miss Lenora Mills entertained a number of young friends at a birthday party on Friday afternoon last. Among those invited were Helen Dobson, Edna White, Irene Lamb, Kathleen McKeen, Martha Jonah, Freda Reid, Dorris Williams, Dorothy Hoyt, Mable Lutz, Dorothy Davidson.

Mr. and Mrs. W. C. Elliott returned last Friday from their wedding trip and have taken up their residence on School street in town.

James H. Reardon, Moncton, is spending a few days at his home here. Mrs. N. W. Eveleigh who has been visiting friends in Woodstock has returned home.

George L. Wetmore, St. John, spent the weekend in town the guest of his uncle, F. G. Lansdowne. Miss Wigmore, St. John, is the guest of Miss Kathryn Prescott.

Miss Helen Williams, Moncton, was visiting Mr. J. H. Hickman, St. John, last night. Miss Bessie Williams, Moncton, was the week end guest of Mrs. Garfield White, Church Avenue.

Miss Carrie Baskin spent the week end at her home here. James Lamb is visiting his son Kenneth in Fredericton.

Miss Theresa Reardon, Boston, was called here this week on account of the death of her father.

Miss Hazel Davis and brother Percy were in St. John this week attending the wedding of their brother, Albert Davis.

Frank Reardon and Edmund Reardon who spent a week at their home here, returned to Boston Friday last.

Walter L. Parise and Mrs. W. W. Scholfield, Jamaica Plains, Mass., were the guests of their sister, Mrs. W. N. Biggar on Saturday last.

Mrs. H. J. McAvity of Fredericton is in the Cottage Hospital.

A chain of teas has been started in aid of the Red Cross fund. On Thursday last Mrs. D. McKenna started the chain and this Thursday tea was given by Mrs. O. R. Arnold, Mrs. G. N. Pearson and Mrs. H. H. Reid.

The guests of these ladies will be hostesses next week, and so all invited will entertain these guests. Ten cents is the charge for the tea and the funds will be handed over to the Red Cross Society.

Mrs. Jamieson, St. John, will deliver the address in Chalmers' Presbyterian church on Sunday evening on missions.

Mrs. James Lamb is visiting his son Kenneth in Fredericton.

Chipman Lutz, River Glade, spent Wednesday here visiting his son W. F. Lutz.

DORCHESTER

Dorchester, March 2.—Miss Marie Landry who spent the past month in St. John the guest of friends, returned home last week.

Miss Calvin, of St. John, who has been visiting her father, Miss Jo. Oulton, has returned to her home.

Mr. and Mrs. M. G. Teed, formerly of this town, but now of St. John, have received announcement of the marriage of their son, Lieut. Hugh Teed of headquarters' staff of First Infantry, Brigade with the first contingent, now in France, to Miss Violet Stacey, of Salisbury, England.

Miss Mabel Palmer has returned from Fredericton, where she was visiting Miss Doris McGrath.

Mr. Will Landry, son of Judge Landry; Mr. Joe Hickman, son of Mr. and Mrs. F. H. Hickman; and Mr. Justice J. McGrath, son of Mr. H. McGrath, of Fredericton, formerly a resident of this town, left last week for Kingston, where they will take a lieutenant's course.

Mrs. W. T. Bell, of Boston, is the guest of Mr. and Mrs. John Hickman.

Mrs. Freeman-Lake, Miss Eleanor Woodstock, March 5.—Mr. and Mrs. William Balmain have returned from Fredericton where they spent a few days.

Mr. and Mrs. Frederick Hume of Nelson, B. C., were the guests of Mr. and Mrs. George E. Balmain this week.

Dr. Manzer is recovering from his recent serious illness, and is able to attend to his business interests part of the time.

Mrs. Alfred H. Prescott has returned from St. John where she went to visit her brother of the 26th Battalion.

Mr. Douglas Balmain, who has been in Halifax taking a course in the military training, returned home on Monday. Although he was two weeks late in starting in, he passed all the examinations satisfactorily.

Miss Emma Henderson is the guest of her sister, Mrs. Samuel S. Miller, Hartland.

Mr. and Mrs. Edgar W. Mair and their guest, Miss Stevens of Coticouk, Que., left for St. John on Tuesday, where they spent a few days visiting friends.

The Woodstock Branch of the Women's Institute held its first meeting at the Fisher Memorial School on Wednesday, February 24. The meeting was conducted by Mrs. I. B. Merriman, the president here. The Rev. W. J. Smith, field secretary of the Social Service Department of the Methodist church of Montreal addressed the members. The following are the officers: President, Mrs. I. B. Merriman; vice-pres., Mrs. C. J. Jones; sec-treas., Mrs. G. F. Clarke; directors, Miss Ella Gallagher, Mrs. Donald Munro, Mrs. A. G. Bailey; auditors, Mrs. Patrick Bradley, Mrs. T. F. Sprague.

Mr. and Mrs. George E. Balmain and Mr. and Mrs. Fred Hume (Nelson, B. C.), visited Fredericton and St. John last week.

Mr. Henry Wisdom of the Bank of Montreal, St. John's, Nfld., is spending his vacation here.

Miss Edie McRobertis has returned from Tobique where she has been for a few weeks.

Mrs. J. N. W. Winslow entertained informally at auction bridge on Saturday evening. Miss Winnifred Smith and Miss Kathleen Hand assisted Mrs. Winslow. The guests were Mrs. W. B. Jones, Mrs. W. H. Hay, Mrs. W. B. Belyea, Mrs. A. D. Holyoke, Mrs. Godfrey Newnham, Mrs. Thomas F. Griffin, Mrs. T. C. L. Ketchum, Mrs. A. Ross Currie.

The condition of Mrs. J. Sprague Flemming is causing her friends grave anxiety.

Miss Ella Smith is visiting friends in St. John this week.

Mr. J. C. Machum, who has been visiting Rev. F. Orlehard and Mrs. Orchard and other friends here, has returned to his home in St. Mary.

ROTHESAY

Rothesay, Mar. 4.—The afternoon tea served as usual at the Red Cross meeting on Tuesday was in charge of Mrs. John W. Davidson and Miss Florence Gilbert. The attendance was good, thus adding to the society's funds for carrying on the good work. Every body willing to help will always find garments ready cut and plenty of wool for knitting socks. Meetings on Tuesday and Friday 2 to 5 o'clock.

Rev. Dr. J. H. MacVicar, St. John, who is about to leave for China, to resume missionary work, spent Monday among his Rothesay friends.

Miss Cameron of Boston arrived last week to visit her sister, Mrs. Andrew Blair.

March 17th, St. Patrick's Day, has been chosen for the holding of a sale of fancy articles, ice cream, candy, and afternoon tea, for which little Miss Ethel McFadden and a few girl friends have been sewing. The hours are 2.30 to 6 o'clock. The proceeds will be for the benefit of Belgian children and the place Rothesay Presbyterian Church hall.

On Wednesday Mrs. A. W. Daniel, who is recovering from a severe cold, went to St. John on a little visit to Mrs. James F. Robertson, Carleton street.

Mr. and Mrs. Leonard Tilley of St. John were week end guests of Mr. and Mrs. Frink.

Miss Pitcher's pretty cottage is to be occupied during the summer holidays by Mrs. Vassie of St. John.

Miss Eileen City of Hampton is here visiting her friend Miss Emma Turnbull "College Hill."

On Friday Miss Frances MacKeen, who has spent a few weeks here with her sister the Misses MacKeen, left by C.P.R. Many friends were at the station to see her off. Miss MacKeen is going with the 2nd Canadian Contingent as Red Cross nurse.

Members of the Willing Workers' Circle were pleasantly entertained last Thursday by Mrs. J. B. McMurray and Mrs. Fred McPadden. Today they are guests of Mrs. J. H. Henderson.

For a few days Miss Birchill of Nelson, N. B., who is returning home after a visit to New York, was guest at the Kennedy House. Her stay was enjoyed by a brother and sister who are attending school here, "Netherwood" and the College.

Mrs. Beverley Armstrong of St. John is guest at the home of Mr. and Mrs. John M. Robinson.

Captain Walter A. Harrison came from Fredericton on Wednesday and paid a short visit to Rothesay, guest of Mrs. J. H. Thomson, where his little daughter Miss Ruth, is guest of her grandmother.

On Thursday afternoon Mrs. W. J. Davidson and Miss Davidson entertained at a sewing party when among those present were Mrs. Fred Crosby, Miss Ayer (Bangor), Mrs. Percy Fairweather, Mrs. Hubbard, Miss Angel (North Sydney), Mrs. J. H. Thomson, Miss Pitcher, Miss Ganong, Miss Palmer, Miss Florence Gilbert, Miss Purcy, Mrs. Fred Foster, Miss Puddington, Mrs. W. S. Allison, Miss Daniel, Miss Nan Fairweather, Mrs. John McIntyre, Mrs. Olliver Peters, Mrs. John Davidson, Mrs. Blanche.

Miss Mary Eason (St. John), and Miss Annie Lynch (Annapolis) are here visiting Mr. and Mrs. J. H. Henderson.

On Monday afternoon the regular meeting of the Women's Auxiliary was held at the home of Mrs. A. H. Hamilton. A mission study class, with Mrs. W. J. Davidson as leader, was started with a good membership, the subject being "India."

Mr. Harold Ellis has taken Mrs. Herbert Tilley's cottage in the park for the coming summer.

Miss Kate Hetherington of Cady's spent a day or two here at the Kennedy House where her sister, Miss Virginia Hetherington, who is attending popular 4th Sunday which the pupils are allowed to spend with friends.

Miss Ayer of Bangor is a visitor at the home of Mr. and Mrs. Fred Crosby.

Miss Jean Foss spent last Sunday and Monday with school friends in St. John.

After a week's visit to her daughter, Mrs. A. F. Paterson and Miss Hyman (Sussex).

Mrs. William A. Lockhart accompanied her husband to Boston on Thursday evening on a short visit.

Much sympathy is extended to Mr. and Mrs. Charles S. Hamilton on the loss they have sustained by the death of their son, William Stanley, which occurred at their home on Tuesday.

The guests of these ladies will be hostesses next week, and so all invited will entertain these guests. Ten cents is the charge for the tea and the funds will be handed over to the Red Cross Society.

Mrs. Jamieson, St. John, will deliver the address in Chalmers' Presbyterian church on Sunday evening on missions.

Mrs. James Lamb is visiting his son Kenneth in Fredericton.

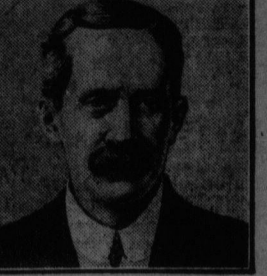

Chipman Lutz, River Glade, spent Wednesday here visiting his son W. F. Lutz.

Mrs. H. J. McAvity of Fredericton is in the Cottage Hospital.

A chain of teas has been started in aid of the Red Cross fund. On Thursday last Mrs. D. McKenna started the chain and this Thursday tea was given by Mrs. O. R. Arnold, Mrs. G. N. Pearson and Mrs. H. H. Reid.

WHOLE FAMILY USES THEM

"Fruit-a-tives" Keeps Young and Old in Splendid Health.

J. W. HAMMOND, Esq.

Scotland, Ont., Aug. 25th, 1913. "Fruit-a-tives" are the only pills manufactured, to my way of thinking. They work completely, no griping whatever, and one is plenty for any ordinary person at a dose. My wife was a martyr to Constipation. We tried everything on the calendar without satisfaction, and spent large sums of money until I happened on "Fruit-a-tives." I cannot say too much in their favor.

We have used them in the family for about two years and we would not use anything else as long as we can get "Fruit-a-tives."

Their action is mild, and no distress at all. I have recommended them to many other people, and our whole family uses them.

J. W. HAMMOND. Those who have been cured by "Fruit-a-tives" are proud and happy to tell a sick or ailing friend about these wonderful tablets made from fruit juices.

50c a box, six for \$2.50, trial size 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

Mrs. Walter Leonard, Mrs. James Pettigall has returned home to Quispamsis.

A happy party of young people were guests of Mrs. F. W. Storey at Kingshurst. Among these were Miss Grace Armstrong and Miss Etta Storey of Moncton. Miss Leslie Green, Miss Margaret Green, Miss Beatrice Eagles and Miss Ethel Eagles and others from St. John. Coming from the city by noon suburban train they enjoyed a skate on the river, high tea, a pleasant evening and returned to town by the nine o'clock express.

On Monday afternoon the regular meeting of the Women's Auxiliary was held at the home of Mrs. A. H. Hamilton. A mission study class, with Mrs. W. J. Davidson as leader, was started with a good membership, the subject being "India."

Mr. Harold Ellis has taken Mrs. Herbert Tilley's cottage in the park for the coming summer.

Miss Kate Hetherington of Cady's spent a day or two here at the Kennedy House where her sister, Miss Virginia Hetherington, who is attending popular 4th Sunday which the pupils are allowed to spend with friends.

Miss Ayer of Bangor is a visitor at the home of Mr. and Mrs. Fred Crosby.

Miss Jean Foss spent last Sunday and Monday with school friends in St. John.

After a week's visit to her daughter, Mrs. A. F. Paterson and Miss Hyman (Sussex).

Mrs. William A. Lockhart accompanied her husband to Boston on Thursday evening on a short visit.

Much sympathy is extended to Mr. and Mrs. Charles S. Hamilton on the loss they have sustained by the death of their son, William Stanley, which occurred at their home on Tuesday.

The guests of these ladies will be hostesses next week, and so all invited will entertain these guests. Ten cents is the charge for the tea and the funds will be handed over to the Red Cross Society.

Mrs. Jamieson, St. John, will deliver the address in Chalmers' Presbyterian church on Sunday evening on missions.

Mrs. James Lamb is visiting his son Kenneth in Fredericton.

Chipman Lutz, River Glade, spent Wednesday here visiting his son W. F. Lutz.

Mrs. H. J. McAvity of Fredericton is in the Cottage Hospital.

A chain of teas has been started in aid of the Red Cross fund. On Thursday last Mrs. D. McKenna started the chain and this Thursday tea was given by Mrs. O. R. Arnold, Mrs. G. N. Pearson and Mrs. H. H. Reid.

On Thursday afternoon Mrs. W. J. Davidson and Miss Davidson entertained at a sewing party when among those present were Mrs. Fred Crosby, Miss Ayer (Bangor), Mrs. Percy Fairweather, Mrs. Hubbard, Miss Angel (North Sydney), Mrs. J. H. Thomson, Miss Pitcher, Miss Ganong, Miss Palmer, Miss Florence Gilbert, Miss Purcy, Mrs. Fred Foster, Miss Puddington, Mrs. W. S. Allison, Miss Daniel, Miss Nan Fairweather, Mrs. John McIntyre, Mrs. Olliver Peters, Mrs. John Davidson, Mrs. Blanche.

Miss Mary Eason (St. John), and Miss Annie Lynch (Annapolis) are here visiting Mr. and Mrs. J. H. Henderson.

On Monday afternoon the regular meeting of the Women's Auxiliary was held at the home of Mrs. A. H. Hamilton. A mission study class, with Mrs. W. J. Davidson as leader, was started with a good membership, the subject being "India."

A Beautiful Complexion

May be Obtained by the Use of Stuart's Calcium Wafers, the Greatest of all Blood Purifiers.

Longer for anyone to go about any face with a face covered with pimples, blotches, eruptions, blackheads and live all these things all due to impurities in the blood. Cleanse the blood thoroughly and the blemishes will disappear.

No need for anyone to go about any face with a face covered with pimples, blotches, eruptions, blackheads and live all these things all due to impurities in the blood. Cleanse the blood thoroughly and the blemishes will disappear.

That's what Stuart's Calcium Wafers are intended to accomplish and do accomplish. Their principal ingredient is Calcium Sulphide, the quickest and most thorough blood cleanser known.

These wonderful little wafers get right into the blood and destroy eruptive substances present in it. In some cases a few days are sufficient to make a marked improvement. And when the blood is pure the whole system is a hundred per cent better.

Go to any drug store and get a 50-cent box of Stuart's Calcium Wafers. Get them today.

Don't fret any longer about those blackheads, pimples, boils, tetter, eczema spots or skin eruptions, they all go and "go quick" if you use Stuart's Calcium Wafers. A small sample package mailed free by sending coupon below.

FREE TRIAL COUPON. F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich., send me at once by return mail, a free trial package of Stuart's Calcium Wafers.

THE WEATHER.

Maritime—Fair today, not much change in temperature. Toronto, Mar. 5—The disturbance from Texas, which has been moving slowly northward during the past two days, is now centered in Iowa, causing northeasterly gales and snow over the Great Lakes, elsewhere in Canada the weather has been fair.

Temperatures.

Table with columns: Location, Min., Max. Includes entries for Prince Rupert, Vancouver, Kamloops, Edmonton, Battleford, Calgary, Medicine Hat, Moose Jaw, Winnipeg, Fort Arthur, Parry Sound, Toronto, Ottawa, Montreal, Quebec, St. John, and Halifax.

Around the City

Will Try Again Today. An attempt to float the sunken Norton Griffith hopper in the Courtney Bay channel was unsuccessful yesterday morning. With the use of a powerful pump and lighters another attempt will be made this morning.

Had Leg Broken. Lorne, the youngest son of Mr. and Mrs. J. M. Parners, Dorchester street, was the victim of a painful accident last evening. The little fellow fell and besides breaking his right leg, sustained other painful bruises. He was taken to the hospital where he received all attention possible.

Duffy Again Remanded. Many weeks ago a man named Duffy was arrested for being the proprietor of a disorderly house on St. Patrick street. The occupants of the house were dealt with by the court while Duffy was remanded to jail. He was taken to court yesterday and once more remanded to jail.

Drop in Flour. Both Ontario and Manitoba flours dropped thirty cents per barrel in the local market yesterday. It is thought by dealers that in the event of further successes by the British and French fleets in the Dardanelles, which will mean the opening up of the markets between the British and the growing country of Russia and the other markets of the Allies, there may be further reductions in flour prices in St. John and other Canadian centres.

On Force But a Short Time. As a wearer of the blue coat and the brass buttons on the police force a young man named Sheehan has had a real idea what the word rapid transit means. He was appointed a patrolman and sent out on a beat Thursday night; last night he handed in his uniform and other equipment. Twenty-four hours was apparently long enough for Sheehan as a cop. Before going on the force as a real live copper he, for the past few weeks had been acting as one of the specials.

Inspecting Mounted Rifles. Owing to the fact that papers from Halifax did not arrive Major Francis Gow was unable to proceed with the medical examination of the men enlisted for the mounted rifles yesterday. Dr. Gow expects, however, to complete the examination of the men here by Monday afternoon. He will then go to Hampton, Sussex, Moulton and Sackville to examine the recruits for a squadron of the mounted rifles. The recruits have already passed one medical officer, and the special examination by Major Gow is intended to obviate the necessity of turning back men from Amherst.

The Retail Market. There was a moderate supply of provisions in the retail market yesterday. Retailers report average sales for this time of the year. No changes in prices from last week have to be recorded. Eggs are more plentiful, but the price remains at 32 to 34 cents a dozen for fresh, and 28 to 32 cents for case. Butter also remains at last week's prices, 36c a pound for creamery being still obtainable. Fish has been fairly plentiful this week, and the demand seems more than usually keen for the Lenten period. There is a plentiful supply of salmon at from 12 to 24 cents a pound.

Violet Day. Saturday, April 3, is to be observed as Violet Day in St. John, the funds to be raised to be devoted to the work of the Playgrounds Association. It had been planned to name an earlier date, but the executive of the Association felt that they should not do anything to divert attention from Patriotic Day and the campaign for a substantial addition to the patriotic funds. The date of Violet Day was therefore fixed as April 3. The lady members of the executive met at the Girls Club Thursday and discussed the general arrangements for the day. The work is well in hand, and it is the hope of the Association that the appeal on behalf of the boys and girls and the general work of the Association will meet with a generous response.

PERSONAL. Captain D. F. Pidgeon, of the Ammunition Column, Fredericton, came to the city last night. Hon. James W. Murray, minister of agriculture, went through to Sussex last evening. Lieutenant-Governor Wood came in on the Boston express last night. Hon. J. B. M. Baxter, Attorney-General, returned from Fredericton last evening.

CITY COUNCIL DID NOT VOTE TO LEGISLATURE

Commissioners failed to carry out provisions of new Charter regarding appointment of a Commission to draft new Assessment Law.

A citizen who was identified with the movement to establish the commission form of government pointed out yesterday that at the time the commission system was being discussed the question of revising the assessment system of the city was brought prominently to the forefront, and the understanding was that the commissioners would give this matter their early and earnest attention. Commissioner Potts' proposal to revise the assessment system by piece-meal has aroused considerable interest, and the Board of Trade proposes to conduct a campaign of education on assessment matters. It is said that if the city commissioners had carried out the provisions of the act to provide for the government of the city by an elective commission such a campaign would not now be necessary.

When interviewed J. A. Belyea, chairman of the charter committee, said the whole matter of assessment was brought up at the time the new charter was being prepared. "We were asked to revise the assessment system, but we thought it was too big a job to tackle off hand," said Mr. Belyea. "So in the new charter for the city we made provision for the appointment of a commission to draft a new assessment system. The supposition was that this commission would make a study of the whole assessment question and draft a law which would represent the best ideas obtainable on the matter."

Mr. Belyea's statement refers to section 23 of the commission charter, which says: "The common council is hereby empowered to appoint a commission on the assessment law of the city of St. John, which commission shall possess all powers for obtaining information at present vested in the assessors of the said city, or which have been conferred on any commission or body by the Acts 62nd Victoria, Chapter 43 (1898), 1 Edward VII, Chapter 47 (1901), and 5 Edward VII, Chapter 56 (1905), and which commission shall prepare and submit to the council a draft of a new assessment law or amendment to the existing law."

The city commissioners have never appointed such a commission, although from the wording of the section it would seem to be obligatory upon them to do so. It is well known that at the time commission government was being advocated it was the intention that the question of assessment should be dealt with as soon as possible, and by a commission which would secure expert advice, but in the words of the chairman of the charter committee, "the city commissioners have left undone a lot of things they should have done, and done a lot of things they should not have done."

MEN'S BROTHERHOODS FORM FEDERATION FOR CHRISTIAN WORK

Steps taken last evening to organize a St. John Federation of Brotherhoods — Marked enthusiasm at meeting.

A meeting of delegates from five of the Men's Brotherhoods of the city churches was held in the Y. M. C. A. rooms last evening, with T. H. Bullock in the chair, for the purpose of forming a St. John Federation of Brotherhoods. Those present were: Messrs. Robinson and Bruce Robb, representing the St. David's church; Rev. W. H. Barraclough, G. E. Barbour and T. H. Bullock, of the Centenary church; Rev. F. S. Porter, W. F. Burditt and R. G. Halsey, of the German street Baptist church; J. A. Kennedy, and W. Linsley, of the Portland street Methodist church; Rev. R. J. Haughton, J. A. Brooks, S. K. Smith and J. W. Flaws, of the Congregational church; Rev. J. S. Porter, and Bruce Robb were appointed to draw up a constitution for the new organization, and to report at a later meeting, to be held at the call of the chair. The idea of the Federation is to unite the various Christian forces of the city in one organization and thus enable more effective work to be done along the lines of moral and social reform. The programme for the meeting last evening was marked by great earnestness and enthusiasm.

AN ENORMOUS EMBROIDERY EVENT

The entire surplus of a great St. Gall manufacturer's stock of embroideries on sale at F. A. Dykeman & Co's store Saturday morning at a discount of about a third from usual prices. The patterns are extremely desirable and the assortments are very extensive. Have a look at these embroideries Saturday and be convinced of the fitness of the work and the quality of the lawn. They are priced from 5 cents to \$1.15, according to width. This sale is remarkable for three reasons, the worthiness of the materials, the beauty of the patterns and the prices.

FIVE SPECIALS OF MESSRS. D. BATTALION

General Lessard Made Careful Inspection of Regiment Yesterday — Other Military News.

Major General F. L. Lessard of Toronto, and Inspector General in Eastern Canada, made a thorough inspection yesterday of the second contingent men stationed here. He spent almost the whole day in the open with the soldiers and his inspection was complete. He examined into the books of the battalion and found everything in first class condition.

When seen by a Standard reporter last night General Lessard said he was well pleased with the soldiers here. The 26th was a fine body of men and their work in the field was particularly good. Physically the men were all fine specimens and he was pleased with their intelligence.

General Lessard was assisted by Major General Rutherford of Halifax and was accompanied by Captain Victor Northmore of Toronto and Capt. Langford of Halifax. The 26th Battalion was taken to the Manchester field early yesterday morning and did not return till nearly 7 o'clock last night. General Lessard, after first inspecting the men of the Army Service Corps, went to Manchester's field and saw the battalion put through different kinds of work. He spent the time with them and at luncheon partook of the jam and biscuits of the soldiers. His luncheon was taken while on the move. He saw that the men and officers as well were given much work and he said last night that all acquitted themselves well.

The 26th Battalion was taken to the Manchester field early yesterday morning and did not return till nearly 7 o'clock last night. General Lessard, after first inspecting the men of the Army Service Corps, went to Manchester's field and saw the battalion put through different kinds of work. He spent the time with them and at luncheon partook of the jam and biscuits of the soldiers. His luncheon was taken while on the move. He saw that the men and officers as well were given much work and he said last night that all acquitted themselves well.

General Lessard said he could make no comparisons of different units but he was surprised at the fine appearance of the New Brunswick men in general. The Ammunition Column at Fredericton had particularly pleased him. Here he had found many college men in the ranks and they were all enthusiastic in learning the details of their work.

General Lessard left last evening for Halifax where he will inspect the second contingent units there. Before leaving he said the inspection in St. John was particularly satisfactory. He had also met many old friends. Last evening General Lessard and officers with him were the guests of Colonel H. H. McLean at the Cliff Club where they were entertained and an enjoyable evening spent.

NEW BATTALION

Other news of special interest yesterday was the announcement that another New Brunswick Infantry Regiment would be enlisted. The new corps will be the 45th Battalion and will include men from Pricce Edward Island and New Brunswick. It is intended that all men now enlisted from these two provinces in the 40th Battalion will be transferred to the 55th.

Lieutenant Colonel Armstrong received word yesterday to proceed with the recruiting at once. No announcement has yet been made as to the points of muster for this battalion. There was some talk of the new battalion being mobilized in Sussex but nothing definite is known concerning this. There has been some speculation as to the officers for the new battalion. It has been said that Lieut. Col. Kirkpatrick would command it. Capt. E. C. Weyman has been appointed to the new unit and will look after enlisting in the vicinity of Sussex. Captain Herbert J. Smith has also received an appointment and will look after recruiting about St. Stephen.

Will Stay With D.A.C. Lieut. W. H. Eagar, A.M.C., who is attached to the Divisional Ammunition Column in Fredericton, has been offered a place with McGill Club Hospital, which is to be sent to the front. Lieut. Eagar is a graduate of McGill, having received his degree in 1900. He will not accept the offer, however, preferring to remain with Major W. H. Harrison and the Ammunition Column.

Lieut. Eagar was particularly sought for by the McGill Club to do special work in connection with X Ray examination, being a well known specialist in this work. The McGill Club Hospital will have 100 beds, and will include on its staff some of the best physicians and surgeons in Canada, many of the most noted graduates of McGill having already offered their services.

Word has been received by the Y. M. C. A. officials here that six of its representatives will go from Canada with the second Canadian contingent. All will go from Upper Canada and the west. Chris. Graham, who went from St. John as Y.M.C.A. representative in the first contingent, is now with the expeditionary forces at the front. In Amherst the churches are co-operating with the "Y" in anticipation of the arrival of the troops in the near future.

BOARD OF TRADE WILL EDUCATE CITIZENS ON ASSESSMENT MATTERS

Expect to bring on a speaker to explain Ontario's Assessment System.

At a meeting of the council of the Board of Trade held last evening it was decided to continue the educative campaign in regard to matters of civic taxation, and an effort will be made to secure a speaker from Toronto

POLICE FORCE "NOT FIT JOB FOR ANY MAN"

Officer James Ross tells the Standard why he resigned — Seven experienced officers off in six weeks.

The police force was depleted yesterday by the resignation of two more officers, both of whom had served a considerable time on the force. The latest members to shed the uniform are Officer James Ross and Officer Pitt. Officer Ross had been ten years and seven months on the force and a few weeks before the retirement of Chief Clarke had been promoted to sergeant. The promotion was not sanctioned by the new chief and the Commissioner of Police Safety, and, as a result, Sergeant Ross was reduced to the ranks and Officer Charles Rankine promoted to his place. Officer Pitt has been twice on the force, doing patrol work and, latterly, mounted duty. Both officers are regarded as good, efficient men and the news of their resignation was heard of with general regret.

The retirement of the officers named brings the number of old experienced men who have left the force, or been dismissed, during the past six weeks, up to seven, and already there is some question among taxpayers as to where it will all end. The list includes Sergeant W. H. Finley, Police Officer George Watson, Police Officer George Clark, Police Officer Garnett, Police Officer Watson, ex-Sergeant James Ross and Police Officer Pitt. In the same time Sergeant George R. Baxter was reduced to the ranks and Sergeant Aaron Hastings, at one time captain of the Northern Division, had his salary cut but was kindly permitted to retain the stripes.

Mr. Ross called at this office last evening and in conversation with the editor of this newspaper declared he had resigned from the police force because under present conditions it "was not a fit job for any man. A man is not required to do police duty but to be a veritable spy. Good service is not rewarded as it should be. I have been ten years and seven months on the force and in that time have never had a black mark against me nor have I ever lost a case."

The first intimation of Officer Ross' resignation was published in the evening papers of yesterday and it speaks well for the esteem in which the officer was held that up to nine o'clock last evening he had received three offers of employment. He has accepted a position with N. A. Hornbrook & Co., and will enter upon his new duties on Monday. The resignation of Officers Ross and Pitt was the sole topic of conversation among the surviving members of the old force last evening and the question most generally asked was "who will be the next?" Many citizens are asking the same question and at the same time quietly speculating among themselves as to the reason for it all.

ROMAN RUBBISH MOUND IN EGYPT RICH IN INTEREST

Prof. Currelly of Toronto Gave Interesting Lecture Before St. John Archaeological Society Last evening.

A very interesting lecture, entitled "A Roman Rubbish Mound in Egypt," was delivered by Prof. Charles T. Currelly, in the Natural History Society rooms last evening under the auspices of the St. John Archaeological Society. H. A. Powell occupied the chair, and there was a good attendance. Prof. Currelly, who is a graduate of Toronto, and has been engaged in excavation work in Egypt and Palestine was able to make the Roman Rubbish Mound an exceedingly interesting affair, his remarks being richly illustrated with a splendid series of views, showing what had been found in the rubbish mound.

His lecture dealt with the time the Romans were administering affairs in Egypt. He said that Romans gave the country a good government, and that it developed rapidly in wealth at that period, the influence of Roman authority being shown in a great improvement of the workmanship. At that period the Egyptians carried the art of weaving to perfection, seldom equalled by any people. A great deal of light was thrown on the domestic life of the Egyptians of the period. At the conclusion of the lecture a vote of thanks moved by Archdeacon Raymond and seconded by Rev. J. J. McCaskill was tendered the lecturer.

Town Planning.

The Town Planning Commission has arranged for a visit by Thomas Adams, who has made a careful study of the scheme. His ideas will no doubt, be of great assistance to the local commission. Mr. Adams has been in Halifax and the spirit of town planning has been revived there.

qualified to present the case for the assessment system in force in Ontario.

Another matter dealt with was the visit of Mr. Adams, the town planning expert of the Conservation Commission. Mr. Adams will address a public meeting to be held in the High School assembly hall on Monday evening. On Monday afternoon he will hold a conference with members of the Board of Trade at which the general question of town-planning will be taken up.

The STANDARD CYPHERS INCUBATOR. Fifteen years of practical experience, in all countries, under widely different conditions, have proven the STANDARD CYPHERS INCUBATOR, with its Patented Features and freedom from "borders," losses and disappointments, to be the most perfect machine of its kind, first, last and all the time, producing, as it does, strong, healthy, vigorous chicks.
