

ing this method we used to use the old-fashioned slides, but the people are getting more modern and we are using the motion picture altogether now.  
"Most of the pictures which I will take are to be used by the C. P. R. Our work does not really begin until after Christmas. Then we send ten or twelve men out through the country with reels of film to exhibit in the different towns and also to deliver lectures. This, in my mind, is one of the greatest helps in securing settlers for the dominion. The inquiries which we have been receiving of late from the English and Scotch newspapers for pictures of Canada, show the interest that the people of the Old Country are taking in the dominion. After touring New Brunswick, I will start for home and will at once begin to get the films and advertising matter ready for the winter's work."  
Asked as to what the immigration outlook is for the coming season, he said that ever the rush this year would be greater than ever. "The class of settlers that have been coming to New Brunswick the last year or two have been first class, and this year I think they will be better than ever."  
Mr. Gibson left on the Montreal express for Fredericton and from there he will proceed to Woodstock and other provincial towns. He was accompanied by Mr. Wilmet, of the immigration department.

#### Roosevelt, Angered at Query About Who is Paying Expenses of His Trip, Seizes Man and Holds Him Till Help Arrives, When He is Put Out.

(Associated Press.)  
Fargo, N. D., Sept. 5—A man who fought his way to ex-President Roosevelt and called him a liar gave a bad scare today at Grand Park, in this city. Col. Roosevelt seized the man and helped to eject him from the platform.  
The colonel had just finished his Labor day address, which was delivered to one of the largest crowds which had gathered to see him on his western trip. A heavy rain storm which came up shortly before the colonel began to speak drenched the people but most of them sat through the afternoon in the wet clothes to hear him.  
As he spoke the last sentence, the crowd cheered and there was a rush for the speaker's stand by thousands of people who sought to get near enough to see Col. Roosevelt at short range and shake his hand.  
The man in question, a moment before, was engaged with a surging, struggling mass of men and women. Others in the crowd, who were standing on the ground, jumped on the platform and added to the crush.  
A good-natured laughing crowd and the colonel shook hands with every one who could get near enough to him.  
A small poorly dressed man pushed his way through the mass of people until he reached the speaker's stand. He looked at Roosevelt and asked a question. "I have a question to ask you, Roosevelt," he shouted. He raised one arm over the heads of the people, waving it to attract the colonel's attention and called out again and again that the magazine in which he was published was not a success.  
Col. Roosevelt saw him and watched him closely.  
Fighting his way through the crowd the man at length reached the short flight of stairs leading to the speaker's stand. He mounted the steps and stopped and then he looked at Roosevelt and asked a question. "I want to know what you are doing for the expenses of this trip of yours about the country?"  
The question angered Col. Roosevelt and he stepped forward and seized the man by the neck of his coat. He explained later that he did not know who the man was or what his intentions were and that he had taken hold of his arm as a measure of self-protection. He pushed the arm forward turning the man half way round, so that he was powerless to use the arm. The man shouted out: "Your expenses are being paid by the people of the United States."  
Although Col. Roosevelt was the first to see the man, he called out to others and before the man had finished his remarks two men seized him. The colonel did not release his grip until the stranger was moving rapidly from the stand. He was turning the man half way round, so that he was powerless to use the arm. The man shouted out: "Your expenses are being paid by the people of the United States."  
Members of the labor organizations have come to me and told me that they did not know him," he said. "I thought that he had come from out of town." An effort was made to find out but all traces of the man were lost. Col. Roosevelt said that he was not at all alarmed by what had happened.

#### Negotiations With United States in Regard to Trade Treaty to Be Taken Up Soon—Sir Wilfrid Duffin in Capital Tomorrow.

(Special to The Telegraph.)  
Ottawa, Sept. 5—Cabinet meetings will be resumed next week, when an accumulation of business will be dealt with.  
Sir Wilfrid Laurier is expected back from the west at noon Wednesday and he will leave in the afternoon for Montreal to attend the Eucharistic Congress, and will be there for the remainder of the week.  
Hon. Mr. Fielding, who will reach Canada from England on Thursday, will not come to Ottawa direct, but instead will go to Chester (N. S.) to spend a few days with his family, who are summering there. Soon after his return it is expected that reciprocity tariff negotiations with the United States will be opened. These are likely to keep the finance ministers pretty well occupied until parliament opens.  
The people of Ottawa are preparing a big popular demonstration of welcome to Sir Wilfrid as a recognition of his triumphant tour throughout the Canadian west.

#### Enlarged Grounds and Buildings So Roomy That Attendance Seemed to Be Much Smaller

#### Everything Ready for Perfect Performance Today, and it is Believed That All Records Will Be Broken—All a Blaze of Light Last Night—Amusements Delighted Thousands—Cattle Sheds Said to Be the Finest in Canada—Judging of Poultry and Cattle to Begin This Morning—The Programme for Today.

Monday, Sept. 5.  
With an attendance of nearly 15,000 yesterday, the Dominion Exhibition has started on its record breaking career. Despite the fact that there were many people who took advantage of the holiday baseball games and horse races drew thousands more, the attendance yesterday, the second day of the show, was more than double the same day last exhibition, and 4,000 in excess of the labor day crowd of 1906. All day long the turnstiles kept up a merry clicking, and when the total was made up last night it was a surprise to many that the attendance figures were so great. The enlarged grounds and buildings seemed to absorb the crowds so that they are not as noticeable as in other years.  
Following is a comparative statement of the attendance for the first two days in 1906 and of the present exhibition:  
1906. 1910.  
Saturday.....3,908 Saturday.....3,862  
Monday.....6,514 Monday.....14,808  
The programme for today is as follows:  
In both of the amusement halls. The biggest attraction is the performance of Lady Betty, the big chimpanzee, in the large amusement hall. Those who have seen this animal perform say it is nothing short of wonderful, the performance of the great ape. Besides this act there are three other big acts in this hall which are all worthy of the price of admission. In the smaller hall is the big electrical act which was shown at the Lyric last week. This act was also largely attended.  
The Pike.  
The pike this year is conducted on rather more extensive lines than on previous years. The principal show this year is that of Perer's Wild Animal Show. This show is a regular circus in itself, and the attendance yesterday was very large. The entire front of the big show is composed of wood, covered with gold leaf, and encased therein is a five thousand electric organ, which in itself cannot but demand much attention, not only because of its novelty but by reason of the magnificent floral exhibit of W. & K. Pedersen. There are five thrilling acts in the steel arena at each and every show, and all of them are under the direction of world-famous animal trainers. A visit to the floral exhibit of W. & K. Pedersen is now completed and is a very handsome one. In this exhibit there are large collections of annuals, sweet peas, dahlias, asters and many other varieties of flowers. E. Hiltz, of Bridgetown (N. S.) superintendent of the Annapolis County Hospital, has also an excellent floral exhibit, consisting of zinnias, annual phlox, dianthus pinks, gladioli, etc. There are five thrilling acts in the steel arena at each and every show, and all of them are under the direction of world-famous animal trainers. In his speech at the exhibition on Sat- urchon Hon. Mr. Hazen devoted much at- tion to the development of the potato trade with Cuba. As the Dominion govern- ment sent a trade commissioner to Havana and subsidized a line of steamers to carry the freight to that port, credit for the growth of the potato export business will naturally be given to the Federal author- ity rather than to Mr. Hazen's party. It is well to keep these facts in mind. This matter has been pretty thoroughly dis- cussed in the Legislature and elsewhere, and the evidence is very clear.

On Friday evening, the officers and members of Benj Lodge of Free Masons, gave an at home in honor of Mr. Atherton who leaves in a few days to reside in the west. **\$18,000 LOSS IN STUBBORN NORTH END FIRE**  
**Entire City Department Fought Blaze for More Than Six Hours**  
**TWO HORSES WERE BURNED IN BARN**  
**Flames Started in Seely's Livery Stable, Main Street, and a Large Number of Carriages Were Destroyed—Four Buildings Burned—Insurance Amounts to About \$5,000—Looked Bad for a While.**

Flames rising high in the air and clouds of dense black smoke that could be seen from all over the city caused great apprehension among residents in the North End and citizens in general, who feared a repetition of the conflagration of some years ago when a large portion of that part of the city was laid in waste. The blaze, which was in Main street, was a spectacular one and was not subdued till four buildings had been destroyed with a total loss of about \$18,000, less than half of which was covered by insurance. The entire city department was on the scene and though several streams of water were directed on the flames, the firemen battled from about 2 o'clock in the afternoon till 7.30 in the evening before the last burning embers were put out. During the blaze two horses were burned in Seely's livery stable.

**Started in Stable.**  
 The fire started in the stable where Samuel Seely carried on a boarding and livery stable, and with the old Price & Shaw carriage factory, which included three stories, owned by N. C. Scott, were destroyed. The buildings, occupied by Mr. Seely as his stable, were formerly the Mabee woodworking factory, and more recently the North End Woodworking Factory, and was owned by J. Fraser Gregory. The Price & Shaw factory was the property of the estate of the late Henry Hilyard.

**Had Good Start.**  
 The alarm was rung in by Patrolman Totten, but it was not until yesterday afternoon before it was discovered. When the North End department arrived the flames were licking about the sides of the building and when the fire was made to enter, the firemen were met by a burst of fire. Crowded in among a lot of wooden buildings in the rear of Main street, it was at once seen that the fire was a serious one and a general alarm was sent in, it was not long before the city fire fighting force was on hand. It was not any too soon as by this time the adjoining buildings had caught and with the fire shaking in the air the department had a serious proposition to deal with. The heat was intense, making it more difficult. Fortune favored the firemen as there was little wind at the outset and what came was north-west, west or it is not improbable that there would have been a clean sweep, as the fire was in the heart of several wooden buildings, many of which were very old ones.

**The Horses Burned.**  
 The horses burned to death in the stable belonged to Joseph Long, of Baywater, and John W. Goddard, of this city. The former had arrived in St. John, N. B., the noon hour with a load of hay and put the horse and load in the stable for the purpose of feeding, losing not only the animal, but the load of hay and wagon. Mr. Goddard lost beside his horse, his carriage and harness. Seven horses, including boarders were gotten out, among the number a valuable horse, the property of Knight, of J. T. Knight, of J. H. Scammell & Co., the well known shipping firm. Mr. Knight, however, lost two fine carriages. Mr. Seely was the heaviest loser, his loss last night being estimated at about \$10,000, made up of carriages, large wagons, harness, hay and feed. He had just placed in his barn a carload of about \$3,000 in the Occidental, of which P. A. Clarke is the agent. It happened that the eighteen or twenty horses owned by Mr. Seely were nearly all out at the time or his loss would have been much heavier. It was there was considerable difficulty experienced in getting out the horses, many of them being rushed out through the flames. In the Price & Shaw factory building was the Maritime Rug Works, of which Alfred E. Howes is the proprietor and he says that while most of his customers' stock was saved, his loss in plant and other goods will be quite heavy, about \$2,000. He carried in the vicinity of \$1,000 in the Equity. J. M. Queen, agent. Also in the same building William A. Kearns, who does business in carriages, lost about \$2,000, of which there was no insurance. Mr. Kearns was unfortunate in that the stock saved was covered by insurance. George A. Hilyard said that the loss to the building was about \$2,000, with no insurance. The horses were broken but he received very painful injuries. Dr. Calkin is in attendance.

**Disasters.**  
 Chatham, Mass., Aug. 30—Sch Ada Ames, which was on fire Monday yesterday afternoon, fled and sank during the night. Captain and crew brought to Chatham this forenoon by life savers and furnished with transportation to Boston.

**FORMER N. B. MAN DEAD IN THE WEST**  
**David L. Kelly, Head of Lumber and Logging Company, Was Born in Sunbury Co.; Leaves Large Estate.**

(Seattle Post-Intelligencer).  
 Portland, Ore., Aug. 22—David L. Kelly, a member of the D. L. Kelly Lumber & Logging Company, of Warrenton (Ore.), died in this city from pneumonia.

Mr. Kelly was born in Blissville, Sunbury county, N. B., November 8, 1862. He left New Brunswick in 1889 for Stillwater (Minn.), where he entered in the logging, timber mining and real estate business. He came to the coast in 1901 and bought timber lands in British Columbia, Washington and Oregon.

With his brother, George M. Kelly, he opened in 1902 a logging camp at Knappa, Clatsop county, which he continued until the time of his death. In company with his brother, Frank, he organized the D. L. Kelly Lumber Company, Mr. Kelly confined his efforts to logging, while his brother Frank managed the lumber end of the business, which has attained considerable proportions.

Mr. Kelly leaves a widow, residing at Portland, and three brothers—John B., of Woodville (Wash.); F. G., of Warrenton (Ore.); and T. G., residing at Clifton, Ore. He was engaged in the business during the illness of his brother. He is survived by his wife, Mrs. M. M. Kelly, his three sisters—Miss Louise S. Kelly, of St. John (N. B.); Mrs. T. B. Roberts and Mrs. N. M. Dibble, both of Blissville (N. B.).

Mr. Kelly was well and favorably known to the timber and logging interests of the west. He made friends and kept them, and he regret his demise. The body will be taken by a sleeping car for Astoria, accompanied by his widow and his brothers, E. G. and T. G. Kelly. Mr. Kelly leaves a large estate, consisting of timber lands, real estate and other property.

**RAILWAY SALARIES**

FOR the first time in Canadian railway statistics, an analysis of salaries and wages has been given in the Government statistics for 1909. The railway employees numbered, in that year, 125,195, and they received \$63,216,662.08 for their services, this amount being 60.43 per cent of the total operating expenses. The average daily compensation and the classification of employees are as follows: General officers, 328, average daily compensation, \$11.73; 574 other officers, \$4.59; 5,967 general office clerks, \$1.91; 2,624 station agents, \$2.09; 10,789 other stationmen, \$1.65; 4,104 engine-men, \$4.13; 4,330 firemen, \$2.52; 2,831 conductors, \$3.31; 8,178 other trainmen, \$2.33; 3,294 machinists, \$2.89; 3,877 carpenters, \$2.23; 13,958 other shopmen, \$2.33; 4,216 section foremen, \$2.15; 28,401 other trackmen, \$1.59; 1,624 switch tenders, etc., \$2.00; 2,899 telegraph operators, \$2.09; 9,824 employees in steamship service, \$1.26; 18,527 other employees, \$1.95. Compared with the wages paid in 1907, there is an increase shown to all classes, except that of general officers.

As he was entering the barn on top of a load of hay, the team bolted and threw Mr. Baxter to the ground, the hay fork going ahead of him, he fell on it, and one of the times passed through his wrist. He was also considerably shaken up, but was able to go to Dr. Folkins' office, where he had his injuries attended to.

**THE WORLD LOOKS DARK**  
 To the Dyspeptic. How to Make it Bright.

Father Morrisey, the learned priest, recently realized that many of the difficulties and troubles of this world are due to indigestion. He believed that to get a proper mental and spiritual attitude, a normal digestive apparatus is very helpful. The good Father therefore made a most study to the important question of the stomach.

His famous prescription, "No. 11" has been prepared to contribute to the health of simple tablets cleverly compounded from the materials in Nature's laboratory. Each tablet will perfectly digest a full meal of 1 1/2 pounds of food.

Father Morrisey's "No. 11" has brought ease and continued health to thousands of sufferers who had previously tried other remedies in vain. It is instantly relieved in due time restores the stomach to full vigor.

If you suffer at times or regularly from a sick, sour, dyspeptic stomach, try No. 11, and see how quickly you can regain enjoy hearty meals, and how bright the world looks once more.

Little Building of a Permanent Nature Going On—Outlook Just Fair, Judge McLatchey Says—Here to See Premier About Government Assistance—Mr. Brodie Talks on Conditions There.

Saturday, Sept. 3.  
 Although it is now more than a month and a half since the disaster here in Campbellton, very little has been done in the matter of putting up new permanent buildings. Up to the present apparently no work has been started and the outlook for the winter is none too bright. One of the greatest needs of the present time is a first class hotel.

F. Neil Brodie, architect, of this city, returned yesterday after a business trip to the town. He was looking after the work on the new building being erected for the Bank of Montreal and also awarded a contract for the building of the new brick block to R. A. Corbet. This structure will have a frontage of 66 feet, 7 feet in depth and three stories high. The ground will be occupied by two stores, two first floor offices and the third floor as warehouses. It will be roughed in by December 1.

Mr. Brodie said it was very cold up in that part of the country and he was compelled to invest in heavier clothes. As there was no hotel, he had to look about for a place to spend the night and was fortunate in being allowed to occupy a berth in a sleeping car that the I. C. R. officials there are using. On one of his previous trips he had to be content with a bunk in a temporary shack and as the place had been hastily constructed there were huge cracks between the boards which did not add to the pleasure, as the night was pretty cold.

No attempt has been made as yet to put up a hotel, but it is thought that the men claim that they will not pay them to rebuild, as a hotel would not be a paying proposition in Campbellton unless they have a sell liquor. Mr. Brodie expressed the opinion that a hotel there now would be a bonanza.

There are still about 100 tents occupied in addition to a number of temporary shacks. Up to the present apparently no work has been done to provide permanent dwellings for the people during the coming winter. Even now many of those living in the tents are suffering from the cold nights.

**Here to Meet Premier.**  
 Judge McLatchey and F. E. Blackhall, of Campbellton, arrived in the city yesterday and are at the Royal Hotel. They are here by appointment to meet Premier Hazen to confer on the question of the local government extending aid to the relief fund. Judge McLatchey, as treasurer of the relief fund, says that up to date they have received about \$60,000 and expect that it will reach \$100,000. This, he is afraid, will be little more considering the demands upon it. He added that they had put \$150,000 to excellent use. What had mitigated against them most up to the present, he explained, was the uncertainty of the Ottawa administration. He said that the Ottawa government on the question of assuming the burden of the interest on the town's indebtedness. This amounts to \$13,000 annually. The provincial government has promised to contribute \$20,000 annually on condition that the Dominion assume the other \$8,000. Personally, Judge McLatchey said he had no doubt of the intentions of the Ottawa administration, but only reason the committee did not receive a favorable answer when they visited Ottawa recently, he believed, was that most of the ministers were away. Now, however, these have either already reached the federal capital or are on their way there and he expected that the question would be settled in a week or ten days at the outside.

**Present Conditions Fair.**  
 Concerning present conditions in Campbellton, Judge McLatchey said they could be described as very fair. Nearly 400 houses were going up. Of these only about

**THAT'S YOUR WEAK SPOT**

ten per cent were permanent structures. The relief committee was building thirty houses to be ready October 1. These were not large and would cost about \$9,000 apiece without the land. These houses were for the accommodation of families which the fire had left absolutely destitute who had no insurance, no land and no money in the bank. Out of the relief fund between \$60,000 and \$80,000 have been devoted to building for families in just such circumstances.

He feared that the worst pinch would come between the months of December and May. Work is plentiful just now in the town owing to the extensive building operations, but when this is suspended it will be necessary to supply the families of many of the men with food and fuel till the weather. He thought that this work would take about \$20,000. At the present time there are about 3,000 in Campbellton, of whom more than 500 are still living under canvas. In spite of the catastrophe the people here have just come through, Judge McLatchey said, there is a marvellous degree of cheerfulness about them. In fact in all his moving in and out among them he had heard no grumbling, even these have either already reached the federal capital or are on their way there and he expected that the question would be settled in a week or ten days at the outside.

As to the outlook for the future, Judge
