Under these circumstances, what right has the Governor General, on his personal responsibility, to proclaim to Canada—nay, not only to Canada, but to America and Europe, as such a proceeding on his part must necessarily do, that he believes his ministers guilty of the crimes alleged against them? Were it possible at the present time to make a call of the House and place myself in direct communication with the Parliament of the Dominion, my present embarrass ment would disappear, but this is a physical imposibility, I am assured by my Prime Minister, and the other report of the proceedings at the time bears out his statement that when Parliament adjourned, it was announced by him as the Leader of the House, that the meeting on the 13th of August would be immediately followed by prorogation, and that no substantiative objection was taken to th's announcement, and that, as a consequence, a considerable portion of your fellow members are dispersed in various directions. various directions.

I should therefore only deceive myself were I to regard the present assembly as a full parliament.

Since the adjournment, indeed, circumstances have occurred which render your proximate re-assembly highly desirable, but in the country there are physical circumstances which necessarily interpose a considerable lapse of time before the representatives of the various provinces,

You, yourselves, gentlemen, do not form an actual moiety of the House of Commons, and I have no means therefore of ascertaining that the majority of that body subscribed to the opinion you have

easons are above the suspicion of having been suggested by his wishes. One portion of the reply refutes, it the most emphatic manner, the loudly claimed slander that the Ministry intrigued for the disallowance of the Oaths Bill. This has been the chief pillar in the charge that Sir John Macdonald is responsible for the delay that has taken place in the postponement of the investigation. It has been asserted and inshuated over and over again that the Premier "managed" the disallowance, and only offered the

Dorion were members power to swear witnesses because he knew it would be refused. We have contended that the ostponement of the investigation has been forced on the country by the deiberate action of the Opposition, for their own party purposes, and that the Ministers have done everything they possibly could to secure an early sworn inquiry into all the facts of the case. Lord Dufferin will not be accused of falsehood, and he explicitly declares that his Government did all they could to protect the Oaths Bill from 2. Does he not know that in deflance disallowance, sending it to England, in of such understanding that the Opposi-

Law Officers of the Crown declared it inconsistent with the Act of Confederation. What then could Lord Dufferin do but disallow the act? And, then, when Messrs. Blake and Dorion refused to be clothed by the Executive with power to swear the witnesses, thus preventing the sworn inquiry ordered by venting the sworn inquiry ordered by Parliament, what could the Government do until prorogation had dissolved the Committee? NEW YORK. Aug 13—[From the Shipping List]—The arrivals have been more numerous, but a considerable proportion having been previously chartered, and most of the remainder promptly provided for, the market remains very fi m. The season is so far advanced that the den and for Petroleum tonnage for the Baltic has slackened, but it is wanted for other parts of Europe at full rates, as is also Grain tonnage. Short Foreign voyage and Constwice business is moderately active, with a very strong market, especially full rates being current for Cuoa. Long voyage tonnage is scarce and wanted. The engagements include: To Liverpool, per sail, 35,000 bushels Grain at 113/2612/4d. California Freights, via Cape, are decidedly higher, under the scarcity of ships and the high rates at which they are held, together with the increased offer increase of goods. they are held, together with the increased offer ings of goods.

The chipments of Petroleum, owing to the low price of that article, are heavy; and a cood many building materials are also going forward, on account of the late fire in Portland, Oregon The withdrawal of California orders in England is stimulating increased shipments hence of Manufactured Iron; and we also notice liberal engagements of Hardwood Lumber for bridge, dock and railway purposes, together with considerable Iron on sand Water Pipe. Noile, White Lead, Naval Stores, Cement, Chair Stock, &c. There are very few Candles, Case Goods or Tribacco going torward at present, and the indications are that the bulk of the Falt shipment of Agricultural Implements will be made by steam and rail. We note through shipments of M.chinery, &c., to Japan by steam, via Isthmus and San Francisco, at 3c gold 7 fb., a.d. \$1.50 % foot mesurement.

Ayer's Sarsaparilla. ROR PURIFYING THE BLOOD, nothing has ever been offered which can compare with this Extract of Sarraparnia. It is found a great promoter of health, when taken in the spring, to expel the humors that rankle in the system at this season of the year. Many complaints have their origin in the spring, and in the causes above mentioned, for which no better remedy has ever been devised. By its use multitudes can spare themselves from the endurance of foul crustions and ulcerous street, through which the system strives to rid its. I corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitifated blood whenever you find its imparities bursing through the skin in pimples cruptions, or soresticance it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feedings will tell you when. Even where no particular disorder is felt, people en loy better he alth, and live longer, for cleansing the blood. Keep the blood healthy, and al is well; but with this pabulum of life disordered, there can be no lasting health. Prepared by Br. J. C. AYER & CO.
