FOUND THE BODY OF A YOUNG POLE TUESDAY

Grand Trunk Pacific Workmen Discover the Body Carefully Concealed.

PROBABLY MURDERED

(Special News Service.)
QUEBEC, Wednesday.—It is believed that another murder was discovered at La Tuque yesterday. The body of a young Pole was found under a heap of brush and dry leaves. The body had been carefully concealed and was discovered by the G. T. P. bushmen.

After they had set fire to a heap of leaves, they were puzzled at the appearance of a pair of boots emerging from the fire as the leaves were consumed. Investigation disclosed the body of a man, probably murdered. Coroner Jellecoeur was notified.

FINED FOR GIVING INDIAN LEMON EXTRACT

Magistrate Says It Is Intoxicating and Imposes Fine.

\$5.00 AND COSTS

VICTORIA, B. C., Wednesday.—Is lemon extract an intoxicating liquor, under the law? Such is the point the courts are called upon to decide in the appeal of U. E. Bender, of this city.

Mr. Bender was recently in Alberni on a fishing trip, where he caught an unusual number of fish. An Indian known as Cukus John helped Mr. Bender with his fish, and carried some of them up to the hotel. This Mr. Bender did, making a present of a bottle to the St. Mary's by way of recognition of his services.

An Indian policeman was in the vicinity, and saw the lemon extract incident. Next morning Mr. Bender received a summons, citing him to appear before the local magistrate to answer to a charge of selling an intoxicant to an Indian. He admitted freely having given the man a bottle of lemon extract, but said that he had no idea it was intoxicating, and that he gave it to him just as he would have given a bottle of Worcester's sauce.

"Worcester's sauce is also intoxicating. Fifty dollars and costs," was the reply of the rural dignitary.

"Ticking, tight coughs, can be surely and quickly loosened with a prescription. Druggists are dispensing everywhere as Dr. Shoop's Cough Remedy. And it is so very, very different than common cough medicines. No opium, no Chloroform, absolutely nothing harsh or unsafe. The tender leaves of a harmless lung healing mountainous shrub, gives the curative properties to Dr. Shoop's Cough Remedy. These leaves have the power to calm the most distressing cough and to soothe and heal the most sensitive bronchial membrane. Mothers should, for safety's sake alone, always demand Dr. Shoop's. It can with perfect freedom be given to even the youngest babies. Test it yourself and see. Sold by all dealers.

EDITOR OF PRESBYTERIAN
DEAD AT TORONTO.

TORONTO, Ont., Tuesday.—Rev. Malcolm McGregor, M. A., editor of the Presbyterian, died this morning. He had been ill for some time, but the end was hastened by pneumonia.

NO HOPE OF RECOVERY
FOR HON. MR. AGNEW.

WENNEPEG, Man., Wednesday.—The condition of Hon. Mr. Agnew is growing steadily worse, and he cannot last over a few hours. Just a year ago today Hon. Hugh McLean died under similar complaints.

FREDERICTON WOMAN
KILLED IN BOSTON.

ST. JOHN, N. B., Wednesday.—Mrs. Charles Brady, formerly of Fredericton, N. B., was run over by a train in Boston, and killed.

BOYD GOVERNMENT MAY BE DOWN AND OUT

Opposition Have So Far Elected Eleven to Government Six.

FEW RETURNS YET

(Special News Service.)
HALIFAX, N. S., Wednesday.—Election bulletins from Newfoundland show the following in a house of 36 members:
Carleton, Government 1;
Harbor Grace, Opposition 2; government 1;
Harbor Mathe, opposition 2;
Port de Grave, opposition 1;
St. John's (west) opposition 3;
St. John's (east) government 3;
In the Harbor Grace poll, the contest was very close, Dawe, the highest on the government ticket, getting his election by one vote over Seymour of the opposition.
Candidates so far elected are: Government—Harbor Grace, Dawe; South Shore, Ellis; Carleton, Maddox; St. John's (east), Kent, Shea and Dwyer.
Opposition—Harbor Grace, Prescott and Parsons; St. John's (west), Morris, Bennett, and Kennedy; Harbor Mathe, Murphy and Woodford; South Shore, Cashen; Bay de Verde, Crosby and Whiteway; Port de Grave, Warren.

SCHR. IS WRECKED AT FALUATION COVE

Bound for Boston From Campbellton With a Cargo of Lumber.

CREW ON BOARD

(Special News Service.)
CHAMPLAIN, N.W., Wednesday.—In the storm on Saturday and Sunday the schooner Calabria, Capt. McLean, was driven ashore at Faluation Cove, near Summerside. The Calabria was a schooner of 450 tons, owned by Mr. McLean, of St. John, and was bound for Campbellton, N. B., for Boston. The schooner arrived off Summerside harbor on Friday last, anchoring in Bedouque Inner Roads in an easterly gale.

During the night the wind suddenly shifted to the westward and blew with hurricane force, causing the vessel to drag her anchor. On Sunday morning she struck very heavily, driving her rudder up through the casing, and causing the vessel to fill with water. Capt. McLean, when he found the vessel was filling, slipped one of the anchors to prevent the vessel from foundering in deep water, when the force of the wind drove her upon the bar of Faluation Cove. She draws seventeen feet of water, and is now lying in a depth of twelve feet. The vessel is uninsured. The cargo is insured through a Boston agent. He was in communication with the captain, who was landed at Bedouque yesterday morning. The captain and crew are still on board, and will remain there until the arrival of the owner tonight.

A Methodist Minister Recommends Chamberlain's Cough Remedy.

We have used Chamberlain's Cough Remedy in our home for seven years, and it has always proved to be a reliable remedy. We have found that it would do more than the manufacturers claim for it. It is especially good for croup and whooping cough.

REV. JAS. A. LEWIS,
Pastor Milaca, Minn., M. E. Church.
Chamberlain's Cough Remedy is sold by all druggists.

LOCKS JAILOR IN CELL.

YREKA, Cal., Tuesday.—Denny Hazel, who was to have been sentenced Thursday for the murder of Joseph Silva, effected his escape from the County Jail, leaving E. I. Dudley, the jailor, locked in the cell.

POOL CHAMPIONSHIP.

ST. LOUIS, Mo., Tuesday.—November 16, 17 and 18 have been selected as the dates for the pool championship match between Alfred De Oro, the present holder of the title, and Thomas Hueston, challenger.

WHITES LEAVING SOUTH AFRICA.

LONDON, Tuesday.—General Booth states that if the rate of emigration from South Africa to Canada and Australia continues, South Africa will soon be without a white working class population. They must Christianize and settle, otherwise there will be a falling population.

Minard's Liniment Cures Diphtheria.

YOUNG MAN KILLED IN THE LUMBER WOODS

Tree Fell off Ernest Johnson and He Expires in a Short Time.

BELONGED TO CARLETON

A sad accident took place on the southeast Upsalquitch on Tuesday by which Ernest Johnson, son of John Johnson, of Carleton, was so seriously injured that he died shortly after being removed to the camp. Young Johnson was employed by the Dalhousie Lumber Company, and was at work on Tuesday as usual. In some way a large tree fell on him, crushing him badly. His fellow workmen carried him to the camp where everything possible was done for the unfortunate young man, but he died in a short time.

The body was taken to Charlo and from there was shipped by rail to his home at Carleton.

ANOTHER VERSION OF A SHOOTING ACCIDENT

Young Man Up for Examination—Says It Was An Accident.

HAD QUARRELED

(Special News Service.)
FREDERICTON, N. B., Wednesday.—The examination of the shooting of Chester Urquhart, charged with causing the death of a boy named George Clary, at Covered Bridge, was continued in the police court this afternoon. The evidence of George Murray and James McDonald was taken, and went to show that the boys had quarreled on the day before the shooting, but the accused had not issued any threats.

Urquhart went on the stand and declared that the shooting had been accidental. He said that he went to pass the rifle to Clary when the hammer caught in his clothing and the piece was discharged. He was most sincere and emphatic in his declaration that the shooting had been accidental.

Col. Marsh postponed the examination and consult with the attorney general in regard to the case.

It isn't so difficult to strengthen a weak stomach as it goes at it correctly. And this is true of the Heart and Kidneys. The old fashioned way of dosing the stomach or stimulating the Heart or Kidneys is surely wrong. Dr. Shoop first pointed out this error. So to the weak or ailing nerves of these organs, said he. Each inside organ has its controlling or 'inside' nerves. When these nerves fall then those organs must surely suffer. This vital truth is being druggists everywhere to dispense and recommend Dr. Shoop's Restorative. A few days test will surely tell! Sold by all dealers.

JUDGE CASSELS IS AGAIN HOLDING COURT

Investigation Into Affairs of Marine Department Now On.

MANY WITNESSES

(Special News Service.)
QUEBEC, Wednesday.—The investigation as to the affairs of the department of marine and fisheries, was opened here this morning before Hon. Judge Cassels.

It promises to be quite lengthy, for upwards of 150 witnesses, principally those who have been on the purchase list of the department, have been subpoenaed. Senator Choquette is acting as counsel for Mr. J. U. Gregory, who has been the agent in Quebec since 1870, and who will be the principal witness.

The first witness called was Mr. Archer, a coal and lumber dealer, whose account with the department has amounted to \$151,887.

REMBROKE, ONT., SUFFERS FROM BAD FIRE

Forty Places Were Destroyed and Others in Flames.

IN BUSINESS SECTION

(Special News Service.)
SMITH'S FALLS, Ont., Wednesday.—The town of Rembroke was devastated by fire at an early hour this morning.

Forty places have already fallen a prey to the flames and twenty-eight are now burning.

Among those that are already burned are the Copeland House, the finest hotel in that part of the country, the Pembroke House, the Leyland Hotel, two banks, the Munroe block, the G. N. W. telegraph office, and the telephone office.

The whole business section of the town was swept.

The fire started at four o'clock in the morning, in the foundry of the National Manufacturing Company's plant and spread rapidly through the business section, fanned by a strong gale of wind.

TRYING TO SAVE CROOKED NECK SMITH

Department of Justice Is Being Asked to Grant a New Trial.

WILL REVIEW CASE

(Special News Service.)
OTTAWA, Ont., Wednesday.—Mr. R. A. E. Greenfield, K. C., of Montreal, is today consulting with an interest with the department of justice in reference to the case of "Crooked Neck" Smith, who is to be hanged at Montreal on the 27th instant for the murder of a companion in an opium joint.

He told the department that he had affidavits from two important witnesses of the shooting, now in New York, and he applied for a new trial, under the provisions of Section 122 of the criminal code.

An appointment was made, with Hon. Mr. Aylesworth, for early next week, when the whole case will be reviewed.

SUES OTTAWA FREE PRESS FOR DAMAGES

OTTAWA, Wednesday.—Hon. Geo. E. Foster has given notice of an action for damages against the Ottawa Free Press for alleged libel. Early in the campaign the Free Press published an editorial on Mr. Foster's handling of the I. O. F. funds, and upon certain statements contained in this the action was based.

WEALTHY MAN'S SON JUMPED INTO RIVER AND WENT OVER FALLS.

NIAAGARE FALLS, Tuesday.—Chas. A. Hangerer, son of the late Wm. Hangerer, and former vice-president of the William Hangerer Co., one of the largest department stores in Buffalo, committed suicide here by jumping into the river and going over the falls. Hangerer was seen wading in the river at a point about 75 feet above the brink of the falls by Edw. King, of Malden, Mass. King rushed to the place, went into the river and tried to save him. Hangerer threw himself forward into the swift current and was swept over the falls. He left an overcoat on the river bank, and a card found in one of the pockets led to the identification. R. L. Hangerer, treasurer of the Buffalo department store, came here this afternoon and identified the coat as one belonging to his brother.

FOLLOWS DOG IN DEATH.

CHIPPewa FALLS, Wis., Tuesday.—Frank Spitz, aged 60, was found dead by the side of his dog near Bloomer. Spitz's dog died five days ago and he refused to bury it because of his love for it.

PENNY-A-WORD CABLES

LONDON, Tuesday.—Henniker Heston announces a meeting in support of penny-a-word cables for the 15th. It is intended to urge the Government to hold a conference with the Postmaster General with a view of buying out existing cables. If the latter refuse, the object can be attained by extending the land systems in conjunction with Marconi wireless.

ONE THIEF STOLE FROM OTHER THIEF

Now All are Behind Prison Bars Awaiting Action of the Magistrate.

DESTROYED THE MONEY

(Special News Service.)
The chief of police had a mixed up theft case on his hands yesterday and after considerable work on his part, assisted by Officer Brown, the facts were brought out.

Two laborers, Thomas Webb, and John Underhill were paid off by Mr. Thomas Malcolm Tuesday evening. They came to town and began to "load up." They were both pretty well along when they went to their boarding house, to sleep.

During their brief rest, Underhill became somewhat restless and his hand wandered into his chum's pocket and came out with fourteen dollars, which were unconsciously placed in his own pocket, then he reposed in peace so far as he was concerned.

But another hand got busy. This time it was the hand of Charles Debover, and he got hold of the fourteen dollars, but did not go to sleep. No sir. He hid it off and placed it in a hiding place, where it would be handy when his thirst became intense.

Later Webb and Underhill were arrested for being drunk and they reported that they had been robbed.

The chief and Officer Brown got after the suspects, and before long arrested Noble Best and Charles Debover on suspicion. Best later told the chief that he had seen Debover take the money off Underhill. The money was not recovered, it being said that the prisoner burned it so that it would not be found on him.

IS YOUR CORN TROUBLESOME?

Why not cure it—eradicate it with Putnam's Corn Extract? No pain or sore—Putnam's is a guaranteed success, try it.

SCHOONER CAPTAIN WASHED AWAY SUNDAY

Dr. Grenfell's Schooner at Sydney Reports Loss of Captain.

WAS FROM BOSTON

(Special News Service.)
HALIFAX, N. S., Wednesday.—The schooner Lorna Doone, Captain Roberts, which arrived at North Sydney today, reported the loss of Captain Roberts, who was washed overboard on Sunday afternoon, when off Cape Sable. The Lorna Doone sailed from Boston Saturday morning, and when near Cape Sable encountered a heavy gale.

The captain was standing near the stern speaking to one of the men when a wave struck the vessel and it was about 60 years of age, and leaves a wife.

The vessel was brought about in a raging storm but it was found impossible to lower a boat which could not live in the raging storm. The vessel was driven many miles out of her course and after great difficulty succeeded in reaching port.

The vessel is loaded with a general cargo for the mission to Labrador, and has been in charge of Mate John Welch.

Captain Roberts was a native of Twillingate, Newfoundland, and was about 60 years of age, and leaves a wife.

AMATITE—A HEAVY WEIGHT ROOFING

The resisting ability of a roofing depends largely upon the amount of material there is in it—not upon the thickness nor upon the number of layers, but upon the actual density of the roof—that is upon its weight. A light weight ready-roofing may be as thick as Amatite, but if it is not as heavy, roll for roll, it can't have as much good stuff in it. Amatite weighs as much as roofings that cost three times its price.

NO DATES ARE SET FOR THE BYE ELECTIONS

The Provincial Government Concluded Monthly Session Yesterday.

LITTLE BUSINESS

(Special News Service.)
FREDERICTON, N. B., Wednesday.—The provincial government concluded its monthly session last evening, and today Premier Hazen and members of the government are here on departmental business. Provincial Secretary Flemming and Hon. Robert Maxwell went to St. John this morning. Regarding the by-elections, nothing has been announced.

STONE FORMING IN HEART.

ST. LOUIS, Tuesday.—William Gentry, 26, a patient at the city hospital, is suffering from a calcareous growth on the valve of the heart, which is nothing less than stone.

GETS INDEMNITY AND NOW WILL NOT WORK

Lost Three Fingers and Gets Weekly Pension in Consequence.

PREFERS TO LOAF

Much amusement was caused at the Bow County Court in London last week by a young man who had lost three fingers in an accident, and who claimed damages under the workmen's compensation act. It was stated that he had been offered work by the firm, but had refused it on the ground that he still suffered from nervousness.

"Are you willing to do any work at all?" inquired counsel.

"No," the young man replied, stoutly.

"Do you say you are not willing or not able?" the judge asked.

"I said not willing," was the unflinching reply.

"Would you rather live your present life at 10s 1d a week than take a job as caretaker or anything of that kind?" counsel asked.

"Yes," said the man with decision.

"You are looking forward to 10s 1d a week for the rest of your life?"

"That is not much is it?"

"Won't you get tired of doing nothing?" "No, sir."

"What do you do with yourself?" "I sit and watch the fire."

"If your doctor said that you were entirely recovered, would you go back to work?" "No."

A witness, who took the young man out for a walk, daily, said that he was highly nervous. If spoken to roughly he burst into tears.

The judge said it was impossible for a crippled man to go upon the market, and the firm must pay 10s 1d weekly. "I still think work of some kind would be good for him," he added.

TO MOVE OFF A COLD

Cough mixtures 'dope' a cold—but don't cure. Above all else, keep the bowels regular and stimulate the eliminating organs. More valuable than any cough syrup are Dr. Hamilton's Pills. They clear the system of every trace of cold—the dull headache, aching limbs, and cough disappears. Take the pills before retiring, they work while you sleep, and by morning your cold is broken and passes away quickly. All dealers sell Dr. Hamilton's Pills in 25c boxes.

TWO BALLOONISTS WILL MAKE A LONG TRIP.

LOS ANGELES, Cal., Wednesday.—Captain A. E. Mueller and Captain H. B. Wild, who are to sail the two big balloons "United States" and "America," in the race across the continent, which is being arranged in Los Angeles, are preparing to make their first flight on Sunday in this city. Both aeronauts are enthusiastic over the prospects of the flight. Captain Mueller believes there is an upper current sweeping in down the coast, which will take the balloons into San Diego County, thence toward the Gulf of Mexico, and then up the Mississippi river and northward.

Captain Wild believes, however, that the balloons will cross the range of mountains and then sweep up the Salt Lake Basin, and then in a northeasterly direction, into Canada.

Stop Your Cough

Three or four drops of Johnson's Anodyne Liniment on sugar relieves tickling in the throat and stops the cough. Colds, if unchecked, may cause serious throat and lung troubles. To avoid risk, apply Johnson's Anodyne Liniment promptly.

Johnson's Anodyne Liniment

Has been a successful family remedy for nearly a century. For both internal and external uses. Internally for Coughs, Colds, Hoarseness, Bronchitis and most respiratory diseases. Externally it soothes any pain. Cuts, Wounds, Sprains, Muscular Rheumatism, Swollen and Frost-bitten Feet. Pain leaves the moment the liniment is applied. Guaranteed under the Food and Drug Act, June 30, 1906.

At all Druggists, 50c and 10c. Get a Bottle now. **KEEP IT IN YOUR HOME.**

L. S. Johnson & Co. Boston, Mass.

ITALIAN STABBED IN FIGHT AT MINTO

One Man Stabbed Fifteen Times, the Other Nine—Now at the Point of Death.

MADE FREE WITH WOMAN

(Special News Service.)
FREDERICTON, N. B., Monday.—A gentleman who arrived here today from Minto, Sunbury County, brought the news of a serious stabbing affair in which an Italian miner named John Endine was the assailant and John McKay and Christopher Pettley the victims. McKay was stabbed fifteen times, and Pettley seven, and the two men are now lying at the point of death.

The fracas took place at 9 o'clock Sunday night at the home of a Russian miner at Minto, McKay and Pettley, who were on friendly terms with the Russian, called at his home during the evening, and while preparing to depart McKay caught hold of the Russian's wife, and began to whirl her around the room.

Endine, who was a boarder at the house, became incensed at McKay's conduct, and seizing a shot gun which was standing in the corner, made for him.

At this stage Pettley interfered and took the gun away from the Italian.

INDIANS HAVE STORY OF DELUGE

Missionary Tells of Ancient Legend Repeated by Mexican Tribe in Reference to Flood.

WHERE THE ARK LANDED

LOS ANGELES, Cal., Saturday.—A missionary who has returned from Mexico, where he worked among the Yuma Indians, says that there is a similarity between the story of the deluge recorded in the Christian bible and the legend of a flood dramatically told by the Yumas, and which came down to them unaltered through centuries.

Their deluge, as described by the few who were miraculously saved was the more grandly terrible in that it came on suddenly. From the high lands occupied by the Indians they saw the waves of the sea sweep in upon the land and recede, only to advance with immensely increased volume and stupendously large breakers. Then there came a terrific storm which seemed to blow from all directions. The deluge caused huge water-towers, which appeared all over the wild ocean as far as the eye could see. The terrified people fled to the mountains, but the mountains soon became submerged, with the exception of one. This mountain, which alone remained uncovered by the flood is called Avenhellah (Mountain of the Moon). Yet today it is not a very high mountain.

A Boat Mysteriously Appears.

For a while before the mountains became submerged, there was a great calm, and a dense fog covered the earth. Then suddenly a mighty boat appeared to the awed view of the Indians; it approached and stopped at several mountains still uncovered by the waves, and at each point where it touched, as if guided by some invisible intelligence, the Indians, as if obeying an unspoken but potent command, entered the boat.

The boat rested first at a place called Avee-quah-lul (Mountain Peak), now Pilot Knob, on the border of Mexico. There was a mesa on the top of this mountain, though at this day it does not exist, and on this mesa the Indians first celebrated their deliverance. This they did by playing sacred dances, chanting sacred songs, etc. On this peak at the foot of the mountain there are photographs in an unknown language, which some of the Indians believe were made by those who survived the flood.

Petrified driftwood is still to be seen two-thirds of the distance up the sides of Avenhellah, which drift, the

NEW BYE-LAWS ARE NOW IN FULL FORCE POLICE REPORT

Payment For Steam Laundry Property Ordered on Delivery of Proper Deed to Town—Foor Fund Is Exhausted.

OTHER BUSINESS TRANACTED

(From Wednesday's Graphic.)
A meeting of the town council was held last evening, all members being in attendance except Coun. Miller. The resignation of Angus McKenna as commissioner of public charities, was read by the clerk and on motion was laid on the table.

Joseph Boudreau's application for a reduction in assessment, was referred to the assessment committee.

Applications for licenses were received as follows:
J. Greenberg, dry goods business; Andrew Johnstone, photograph business; W. H. Wallace, trucking. All were referred to the police and license committee.

A number of accounts were then passed.

A resolution was adopted explaining and elaborating and giving more in detail the resolution in regard to exemption from taxes of the wood-working plant of J. and D. A. Harquail Company, Limited.

Licenses were granted as follows: J. Greenberg, dry goods, \$25; Andrew Johnstone, photograph business, \$10; W. H. Wallace, trucking, it being stipulated that owing to the illness of the season, a rebate of \$2 be granted.

The report of Chief Crawford for the month of October, was submitted by Coun. McLennan, as follows:
Number of Prisoners and Offences.
Given in charge for drunkenness . . . 2

Drunk and using profane language . . . 20
Prostitution . . . 15
Common drunks . . . 15
Assaulting and beating . . . 6
Sealing ride on I. C. R. . . . 3
Drunk, and obscene language . . . 2
Interfering with police . . . 1
Refusing to assist the police . . . 2
Furious driving and grievous bodily harm . . . 2
Capitales . . . 3
Theft . . . 3
Fighting on Street . . . 2
Deserting from ship . . . 4
Total . . . 66

Mrs. David Lamely, 137 1/2 means, 35 of which have been paid for by the prisoners, leaving \$3 to be paid for by the town.

The building is kept in a very clean condition, and the town is in a manner very quiet.

I have been supplied with a new winter overcoat. Officer Brown has had his coat remodelled and cleaned.

Yours very respectfully,
ROBT. CRAWFORD,
Chief of Police.

It was moved by Coun. McDonald, seconded by Coun. McLennan, that whereas, the council has authorized the purchase from Mr. R. M. Currie of the laundry building and site on Water street, therefore resolved that the town treasurer be authorized to issue a cheque for two thousand dollars when Mr. Currie delivers to the town a satisfactory title to the said property. Motion carried.

It was moved by Coun. McDonald, seconded by Coun. McLennan, that whereas, the council has authorized the purchase from Mr. R. M. Currie of the laundry building and site on Water street, therefore resolved that the town treasurer be authorized to issue a cheque for two thousand dollars when Mr. Currie delivers to the town a satisfactory title to the said property. Motion carried.

KING EDWARD.

Rumor That He Was in an Automobile Accident Unfounded.

NEWMARKET, Eng., Monday.—There is no truth in the rumor that King Edward has been injured. He is dining tonight with Sir Ernest Cassell.

The rumor was circulated, to the effect that His Majesty had been rendered unconscious as the result of an automobile accident, in which his chauffeur was killed.

A HORRIBLE DISCOVERY.

ADRIAN, Mich., Monday.—A dried human head, apparently cleanly severed from the body, and with the mouth stuffed with rags, rolled out of a pile of sacks in an outbuilding on the farm of the late Samuel Bryant, eleven miles west of here, near Clayton, where threshers were working.

They were taking the sacks down from a shelf in the building and shaking the dust out of them, when suddenly out of one of them rolled a ghastly head. Cooney fled in terror and notified the other men.

Mr. Bryant, who has been dead for six months, lived alone on his farm for several years, after having had trouble with his wife. So far as is known, no one has even been reported missing from the neighborhood. Some of the men on the farm think the head resembles Mr. Bryant, who died from natural causes six months ago, and was buried in a country cemetery near his home.

Deputies Holt and Zager brought the head to this city this afternoon. Close examination indicates that it was severed probably by a saw. It was badly mutilated. Dr. Wilcox, of Clayton, who examined the head, declared it was not the head of Samuel Bryant, but neighbors who have seen it are unanimous in saying it is the head of the dead farmer.

LORD MILNER TALKS TO WOMEN'S CLUB.

MONTREAL, Que., Tuesday.—Lord Milner spoke today before the members of the Women's Canadian Club, the talk being of an informal character. Lady Drummond, president of the club presided. This evening Viscount Milner was entertained to dinner at the Mount Royal Club, J. Drummond, president of the board of trade, being host.

Repeat It—Shiloh's Cure will always cure my coughs and colds.

D'ARCY SCOTT TAKES SEAT ON COMMISSION.

(Special News Service.)
OTTAWA, Ont., Tuesday.—D'Arcy Scott took his seat as a member of the railway commission this morning when a number of important cases were heard. Prof. McLennan was not present, and there was no reference to the death of Thomas Greenway. The complaint of Senator Jules Tessier, of Quebec, that the Ottawa Street Railway Company would not allow him to ride free on its cars, was laid over until a sitting when parliament is in session.

Minard's Liniment Cures Colds, etc.

TAFT WILL LIKELY EQUAL ROOSEVELT'S 1904 MAJORITY

(Special News Service.)
NEW YORK, Tuesday.—Taft and Sherman were given a plurality of 32,000 in Maine. The Republicans won in Massachusetts, sending sixteen Taft votes to the electoral college, placing Ebon S. Draper in the govern-

ment. Taft's total majority in the United States will come close up to Roosevelt's in 1904.

Taft carried New York, and Hughes was elected governor by about 25,000 plurality.

Undigested Food

When any portion of food remains in the stomach and refuses to digest, it causes the torments of indigestion. This undigested food rapidly ferments, irritating the sensitive coating of the stomach, while other parts of the body, particularly the head, suffer in consequence.

So long as this undigested food remains in the stomach, the discomfort continues. A few doses of

BEECHAM'S PILLS

stop all fermentation, sweeten the contents of the stomach and give natural assistance that relieves the stomach of its burden. The use of Beecham's Pills gradually strengthens the stomach nerves and soon restores them to a normal, healthy condition.

Beecham's Pills positively cure all stomach troubles, while their beneficial effects on the liver and kidneys greatly improve the general health.

Beecham's Pills have been used and recommended by the general public for over fifty years.

Prepared only by the Proprietor, Thomas Beecham, St. Helens, Lancashire, Eng.

Sold everywhere in Canada and U. S. America. In boxes 25 cents.

STABBING AFFAIR AT LEVIS P. Q.

A Foreigner Attempted to Murder a Peaceable Carter and Was Roughly Handled.

HAD BANK NOTES TO BURN

(Special News Service.)
QUEBEC, Tuesday.—Answering to the alarm that a foreigner had attempted to murder Omer Ringue, a peaceable carter, on the stand at the ferry company's landing on the Levis side, about half past five last evening, a mob of angry Levisians, numbering about two hundred, threatened to throw him into the river. The aggressor was Johannes Strephodanathia, who with three Greek companions, Nicholas Pavalatz, Nicholas Latsos and Stophode Blietache, arrived during the day from Sydney Mines, N. S., where they had been employed by the Dominion Coal Company as miners. All but Blietache had apparently landed rather freely.

About half past five they quitted the Victoria Hotel bar and going up the street Strephodanathia approached Ringue and scrutinized him suspiciously, then retreated. Ringue, who remained in the street, bit the Greek.

The Greek immediately recovering himself, drew a sharp bladed knife and plunged it into Ringue's right cheek bone, inflicting a wound fully two inches in length, and of considerable depth.

The men average between 30 and 40 years of age, and speak scarcely any English. They were all supplied with money, and as they have a few hundred dollars' worth of provincial bank notes it is thought they had something to do with the St. Raphael Bank robbery.

Ringue's condition seems almost hopeless as blood poisoning is setting in.

THE KAISER AND CANADA.

LONDON, Monday.—A railway magazine states that when at Kiel in 1904, the Kaiser told Mr. Archer Baker, of the C. P. R., that he would visit Canada when steamers could do the trip in four days. Mr. Baker remarks that as this is now possible, we may yet see the emperor a passenger by the all-rail route.

P. E. I. ELECTION IN FULL SWING

Premier Hazzard Has Issued a Platform Which Ought to Catch the People.

THE TUNNEL SURVEY

(Special News Service.)
CHARLOTTETOWN, Tuesday.—The provincial campaign is now on in full swing, only 15 days remaining till election.

Premier Hazzard has issued a Liberal platform including the following planks:

Pressing further claims against the Dominion, including a share of the fishery award.

Consolidation of the educational system, and the appointment of an educational commission.

Cheaper school books.

The further encouragement of agriculture.

PAPER MAKERS HAVE RETURNED TO WORK.

NIAGARA FALLS, N. Y., Monday.—The strikers at the paper plant of the Clift Company, who struck recently in sympathy with the striking paper makers of the International Paper Company, have returned to work today. It is expected that the strikers at the Pettibone mill will follow the same course.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, Ohio.

We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALLING, KENMAN & MARVIN
Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists.

Take Hall's Family Pills for Constipation.

TRAFFIC EARNINGS OF THE C. P. R.

MONTREAL, Que., Tuesday.—The traffic earnings of the C. P. R. for the second week in October, which have just been made known, amounted to \$1,611,000, as against \$1,501,000 for the same week a year ago, an increase of \$110,000. The Grand Trunk railway earnings for the same period were respectively \$849,270 and \$955,632, a decrease of \$106,362.

LOS ANGELES, Cal., Monday.—Six students of the Polytechnic High School were suspended today and three others are in danger of being served with the same fate, for brandishing the foreheads of two students of the Los Angeles High School with nitrate of silver in the initiation ceremonies of the Kappa Delta fraternity, a forbidden secret society.

The boys who were branded and whose condition for a time alarmed their parents, are Frank Rouse and Edgar Lusk. On Lusk's forehead the letters "K. D." were branded. On Rouse's forehead were the figures "99." Ugly red scars were made, but it is not believed that the boys will be permanently disfigured.

It was learned from the authorities that in the course of the initiation Rouse and Lusk were stripped and they were taken to a vacant field, where they were bound with wire shackles, branded upon the forehead, and left to shift for themselves. They were finally able to free themselves sufficiently to make their way to a neighboring house.

LONDON, Eng., Tuesday.—The immense floating grain elevator built in England for use at Montreal, and which broke away recently while being towed across the Atlantic, has left Stornoway for Barrow, where it will be kept for the winter. Another effort will be made to send it to its destination in the spring.

THURSDAY, NOVEMBER 5.

WORK UNANIMOUSLY.

Can nothing be done to boom Campbellton as a desirable location for new industries?

This is a fit subject for discussion of the Board of Trade, if that body has any life.

Campbellton has nearly every facility to make it a great manufacturing centre. It has unlimited shipping facilities by rail and water, raw products, and cheap labor.

What it lacks is capital, and men to boom the natural facilities.

Another factor which would contribute to the town's development would be cheap power. At the present time an industry using from one to ten horsepower for power purposes, is obliged to pay a very large sum for power, and many that could use power in their business are obliged to get along without it on account of the excessive cost. This is a matter that should come before the Board of Trade.

With numerous small streams and rivers, within a few miles of Campbellton, there ought to be unlimited water power, which only needs harnessing. It would perhaps be a good investment for the town to engage a first class hydraulic engineer to look over the territory and report upon it.

If it is possible to get sufficient horsepower from any stream, the town would save thousands of dollars by generating electric power therefrom, and a substantial reduction could be made in the prices charged to consumers of power.

This is an important question and should be dealt with at once.

THE GERMANS PUZZLED.

The "Frankfurter Zeitung," a leading German newspaper, takes the sensible view that Germany and Great Britain should renew the commercial treaty between them, exclusive of the colonies. The Berlin correspondent of the London Morning Post is quoted as saying that Germans now realize that they must treat with Great Britain and their overseas dominions separately.

It will be remembered that the Anglo-German treaty was denounced at the instance of Canada, because it forbade Canada to give more favorable terms to Great Britain than to Germany. Under it Great Britain was part of Great Britain as being required to give most favored nation terms to Germany, but outside of Great Britain and a separate nation when she tried to give more favored terms to Britain. As Canada had been granted the right to frame her own tariff, Great Britain could not compel her to accept the provisions of the treaty, even had she been minded to refuse Germany's sake the preference we gave her.

So she had no other course open to her but to denounce the treaty. The Germans made commercial war on Canada, to punish us for our part in her loss of the British treaty. It was under the circumstances a very unreasonable thing to do, and turned out an injurious proceeding for them.

They have taken several years to arrive at a clear understanding of the situation. Germany's tariff, like that of France, applies to all her dependencies, and they are at a loss to understand why Great Britain would not apply her fiscal policy in the same Imperial manner, which, considering that they were asking Britain to insist on higher colonial duties against herself, was somewhat absurd. The Germans seem, however, to have at last grasped the idea of British colonial commercial independence, and come to the conclusion in the circumstances as stated by the Berlin newspaper. Probably the treaty negotiated by Canada directly with France may have helped them to an understanding of a situation which is admittedly anomalous. If history international law has regarded the making of treaties as the prerogative of sovereign states only, for only these

could enforce the observation of treaties. But now Canada can make treaties with foreign powers on her own account, and leave to the Mother Country the responsibility of enforcing them. When it is borne in mind that Canada imposes import duties on British manufactures, it is not at all surprising that Germans should be puzzled to understand so curious a relationship. Our Imperialism is getting mixed, and will have to be overhauled and straightened out before long.—Witness.

THE FEAST OF YULE.

It was Pope Telesphorus, who died before the year 150 A. D., who instituted Christmas as a festival, though for some time it was irregularly held in December, April and May. But for centuries before there had been a feast of Yule among the northern nations, whose great enjoyment was in drinking the wassail bowl or cup.

Nothing gave them so much delight as indulging in "wassailing," especially at the season of the short days, when fighting was ended. It was like the custom of all feasts "for the master of the house to fill a large bowl or pitcher, to drink out of it first himself, and then give to him that sat next, and so it went around." This may have been the origin of that popular American custom known as "wassailing."

The Duke D'Abruzzi says he is determined to marry Miss Elkins. He evidently puts not his trust in the princes, when it comes to tussle with the gilded bond issues.

The bank trial now going on in New York proves, what has often been suspected, that the worst enemy of a bank is a bad banker. And it is against him that fewest precautions are taken.

The Chinese at Amoy refused to become excited over or to go to gaze at the United States battleship fleet. The Chinaman is the philosopher of the Orient, and, anyway, why should a people, who will over the sight of a neighbor's arsenal?

A system of bribing jurors now appears to have been part of the San Francisco grafters' machinery for avoiding punishment for crimes against the treasury of the city. The grafter has no conscience. The people must crush him or he will crush them.

That forest fires have killed thousands of trout in the streams of New York State is the latest report.

Every time a tree is burned down, 40 to 100 years of nature's work disappears.

Tea is a germicide, according to a Boston physician, who claims it is an especially rank enemy of the typhoid bacillus.

Queer that one day defeat looks black and utterly hopeless, and that the next day it becomes a source of rather comfortable philosophy.

The Kaiser's fourth son was married the other day. This means that the world will soon be thinking of this impetuous young monarch as grandpa.

Breakfast food stocks have made their appearance on the Toronto stock exchange. They are recommended as supplying a highly nutritious diet for bulls and bears.

A party of musicians have just sailed from New York to Panama. They go back at the suggestion of the government in its efforts to amuse and keep the canal workers happy.

Public ownership, says an acute critic, is a modern myth, devised by politicians to get into their own hands the management of undertakings that not one in a hundred of them has the business sagacity to create as a private enterprise.

At Bath, England, October 23, Whitehead, the American Ambassador, unveiled a tablet in memory of Edmund Burke the celebrated Irish statesman and orator. The tablet has been set upon the house where Burke lived in Bath.

Lord Northcliffe says he has found two types of Canadians—one who thinks that John Bull is merely a grasping bondholder, and the other who thinks that the old fellow may easily be played with. A third and much larger class is attending strictly to the business of building up Canada by Canadian enterprise and energy.

Help! Help! I'm Falling

Thus cried the hair. And a kind neighbor came to the rescue with a bottle of Ayer's Hair Vigor. The hair was saved! This was because Ayer's Hair Vigor is a regular hair medicine. Falling hair is caused by a germ, and this medicine completely destroys these germs. Then the healthy scalp gives rich, healthy hair.

BLACK CAPE NEWS.

BLACK CAPE, Monday.—On Saturday morning we were visited by a high gale of westerly wind and toward the evening Jack Frost began to put in his appearance, and all day Sunday the wind continued, accompanied by snow flurries.

Mr. Rustle Steele has returned from Campbellton where he has been for the past few weeks.

Mr. George Break has returned from the Tobique, where he has been for the past summer working on the International Railway.

Mrs. Robert Fair has given her cottage a new coat of paint. The building is painted white, with green trimmings, which gives it a very neat appearance.

Mr. Sydney McMillan, is also making improvements to his house in it raised and making a concrete basement.

Mr. J. H. Starratt, of Little Caspacia has closed down his mill after a successful season of sawing. He will also commence lumbering on the fourth range in the near future.

Sunday night was the coldest of the season.

We believe MINARD'S LINIMENT is the best—
Mathias Foley, Oil City, Ont.
Joseph Snow, Norway, Me.
Charles Whooten, Mulgrave, N. S.
Rev. R. O. Armstrong, Mulgrave, N. S.
Pierre Landers, St. Fiacre, N. B.
Thomas Wasson, Sherbrooke, N. B.

Take iron mold out of marble thus: Wet the spots with lemon juice or with oil of vitriol, let it remain for a quarter of an hour, then rub dry with a soft cloth.

A recipe for paste that will never dry or turn sour is one teaspoonful of powdered alum and two drops of clove oil, added to a pint of smooth thick paste.

Picture wire may be used instead of tape to gather curtains on. Draw the end of the wire and it will run through smoothly. Curtains run on wire do not sag in the middle.

To brighten a mirror, rub with a clean cloth dipped in a cream made of whiting and cold water, to which a few drops of ammonia are added; polish well with old newspapers.

To remove a glass stopper catch the head of the stopper in the hinge space of the doorway, closing the door sufficiently to make it grasp the stopper firmly. Carefully turn the bottle.

Instead of putting a piece of potato into the fire to burn them and experience difficulty in taking out the potatoes, pour the water off of boiled potatoes into the bottles; let them soak, then wash in hot soda.

Try wet tea leaves as a means of destroying cockroaches. Just squeeze them with the hands and lay on sheets of paper near the hearth when starting up for the night. The cockroaches go to the leaves and the tannin kills them.

CONCERNING WOMEN.

Berlin has the distinction of having a hospital whose entire staff is composed of women. The hospital, as one might expect, is the outgrowth of a feminine mind. There is a similar institution in Savannah, Ga., the Telfair Hospital. Miss Mary Telfair left a fund sufficient to endow this institution, which now has upwards of fifty beds.

An Egyptian princess, daughter of a former khedive of Egypt, is said to be anxious to go on the stage. In an offer she made to play, she said she would provide \$500,000 of jewels, but in most plays something else than lavish display of jewelry is thought to be necessary, and this young woman does not seem to have offered to provide.

Miss Violet Hawk, the novelist, says that people pass their time in enjoying the red-haired girl, but in explaining her, and that this must be stopped. Mrs. Eleanor Glyn thinks that red-haired women are always unhappy, and in the meantime the girl herself calls her hair auburn and is generally blissfully unconscious that she needs any sympathy.

A sociologist, who has made a study of the wages paid the 6,000,000 women working for a living, says that the

low standard is due to a great extent to the fact that many women who live at home and have no need to work, are occupied simply for the sake of making pin money and consequently cut down the wages of those needing the money.

The middle class housemother is said to be the hardest working woman in the country, as she not only does all her household work as a general thing, but sees for her children, helps them with their studies and wastes her strength in many ways that life may be more enjoyable for them. She is usually broken down at an early age, and the fact that she can be accounted for often by the fact that she has not learned the first principle of economy—that energy must not be wasted.

There have been many ingenious forms of honeymoon since the young couple of Mark Twain's story took their separate ways, but none more odd than that of Mr. and Mrs. Gonsky, who on their wedding day in 1906 started to walk around the world. Last week they left Dover for Calais, having traversed Siberia, Europe, Japan, North America, South America, and Africa, a distance of 60,000 miles. It sounds more than twice the distance necessary to cover before settling down to housekeeping and domesticity. It was Puck who used to put a girdle round the earth; this time it is Cupid.

ALL AROUND THE HOUSE.

A scratch on polished furniture can be almost obliterated by rubbing vigorously with linseed oil.

Keep a vegetable brush to remove the dirt quickly from ears of corn. A new nail brush with a handle, is equally useful.

If an iron is not at hand when marking clothes with indelible ink, hold the writing against a lighted lamp chimney or gas globe.

Garments that are hung out to air can be put on hangers rather than pinned to the line. This prevents sagging and wrinkling with clothes hanging.

Brick-a-brac containing mother-of-pearl, should never be cleaned with soap and water. Instead it should be rubbed with a cloth dipped into whiting and water.

If, when using lemon for flavoring, you need only half a one, put the other half on a plate and cover it with a glass tumbler. This excludes the air and prevents it from drying up or getting moldy.

"Flower vases often" overbalance, when in use, for the flowers put into them are apt to make them top-heavy.

This defect is easily remedied by putting bits of lead, shot or pebbles at the bottom of the vases.

To prevent shoe laces from becoming undone tie the laces in the usual manner, but before tightening the bow, pass its right-hand loop through the knot in the centre. Then draw the bow tight and it will stay tied until you pull the string to undo it.

William Dutcher, president of the National Association of Audubon Societies, died at the annual convention of the association at the Natural Museum of Art, that Americans were robbing posterity in permitting an annual crop loss of \$300,000,000, due to destruction of insect-eating birds.

He called for a fund to fight the commercial bird-killers in every state legislature.

A man who has been married six times, says that it is no trouble to get a wife—the trouble begins after getting her.

THE BACK IS THE MAINSTAY OF woman's organism. It quickly calls attention to trouble by aching. It tells, with other symptoms, such as nervousness, headache, pains in the joints, weight in the lower part of the body, that a woman's feminine organism needs immediate attention.

In such cases the one sure remedy which speedily removes the cause and restores the feminine organism to a healthy, normal condition is

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. J. A. Laliberte, of 34 Artillerie Street, Quebec, writes to Mrs. Pinkham:

"For six years I have been doctoring for female weakness, heart and nervous liver and kidney trouble, but in Lydia E. Pinkham's Vegetable Compound I can safely say I have found a cure."

"I was continually bothered with the most distressing backaches, headaches, and bearing down pains, and I kept growing more and more nervous."

"Lydia E. Pinkham's Vegetable Compound relieved me of all these distressing symptoms and made me a well woman. I would advise all suffering women, young or old, to use Lydia E. Pinkham's Vegetable Compound."

FACTS FOR SICK WOMEN.

For thirty years, Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ailments.

It has positively cured thousands of women of all ages, and is the only medicine that can be safely used by all.

It is a purely vegetable compound, and contains no harmful drugs.

It is the only medicine that can be safely used by all.

It is the only medicine that can be safely used by all.

NATURE A VERY SKILFUL PHYSICIAN

Puts Up Her Medicines in Most Tempting Form.

Have you ever tasted anything more delicious than the fresh, ripe, luscious fruits? These are Nature's medicines. A regular diet without fruit is positively dangerous, for the system soon gets clogged with waste matter and the blood poisoned. Fruit juices stir up bowels, kidneys and skin, making them work vigorously to throw off the dead tissue and indigestible food which, if retained, soon poison the blood and cause indigestion, headaches, rheumatism, neuralgia, and a host of other distressing troubles.

But there is a quicker way to stimulate the organs to do their work properly. Take one or two "Fruit-a-lives" tablets every night, besides eating some fresh fruit every day. "Fruit-a-lives" combine the medicinal properties—many times intensified—of oranges, apples, prunes and figs, with the best tonics and internal disinfectants added.

They act on Bowels, Liver, Kidneys and Skin as natural as Nature's own, but quicker and more effective. Sold by all dealers. Price, per trial box—50c. for regular size—6 boxes for \$2.50. Fruit-a-lives Limited, Ottawa.

ABOUT THE HOUSE

Sort out the fruit and vegetables stored in the cellar and remove the rotting specimens.

Get in a supply of firewood for the fireplace. In cutting the trees always keep in mind the principles of forestry, and cut with a view to ultimately improving the remaining timber. Chestnut is the poorest fire-place, hickory is the best.

Overhaul the furnace now. Examine all smoke pipes for soot accumulation and obstructions, test valves for leaks and have them packed, dust radiators and be sure the safety valve on the steam furnace is working all right.

Get a winter supply of dry leaves for bedding and plenty of road dust for the poultry dust bath.

Tackle the San Jose scale this month. Three commonly used remedies are white oil soap, lime sulphur salt wash and the sulphate oils. The last named process is the easiest and best. Cut out and burn as much of the infected wood as the tree will stand before applying the spray.

If the house is to be closed for the winter, be sure that all precautions against frost have been taken. Empty all the water from water tanks and boilers and drain the pipes. All piping systems should be drained thoroughly at the lowest point. Empty traps and basins. Three things you will probably forget to protect from freezing are bottles in the medicine chest, jars of fruit in the pantry and the fire extinguisher.

The cellar should be cleaned thoroughly before it is closed up.

If you are planning any buildings in the spring put in the foundations now to get an early start. Never work with concrete in freezing weather.

All ditching and drains should be completed this month.

A new lawn should not be cut in the late season. The tender roots will need the protection of a grass cover.

If you want a perfectly safe place for children to skate, dam up a brook to the height of a foot or so to form a meadow. Such an arrangement is possible in almost any neighborhood.

Dogs that sleep outdoors should have a dry kennel. This may easily be accomplished by raising it a few inches off the ground. A piece of carpet across the front will keep the wind out.

CONCERNING WOMEN.

Mrs. Frank R. Sturge, of New York has given to the American Museum of Natural History, a fine collection of birds of paradise.

Miss Martha Van Rensselaer, of Cornell University, says lives with the present cost of living, salaries of the majority of instructors are inadequate and they are obliged to give up house-keeping and board.

Queen Alexandra has put a stop to the stories that she wears cigarettes by an official statement that she does not, and this is enough to make it a matter of discourtesy for anyone else to wear the feathers of the ostrich in her presence.

A young woman from Aurora, Ind., went to Paris with a party this summer and came home very much depressed because of the lack of "style" in Paris. She says Chicago and New York are much superior in that some thing that women admire and call by the name of style.

King Alfonso is said to telegraph three times a day to his queen when she is away from home, and he joins her at the earliest opportunity. Upon the whole the domestic lives of the rulers of Europe are a pattern for the rest of the world.

The taxpayers of South Nyack, N.Y., voted the other day on the proposition to bond the village for permanent improvement. The resolution in favor of issuing bonds to pave and lay cross walks on certain streets was carried by a vote of 25 to 18. Ten women voted in the affirmative and two in the negative.

Probably no reader has the least idea what is the total amount of imprisonment, to which offenders in England, are sentenced every year. The figures are remarkable. In round numbers, 950 people receive sentences of 2,200 years' penal servitude, and 195,000 people receive 16,800 years' imprisonment. That is a total of 20,400 years. What a dreadful loss this is to the country! Not only do these people to be fed, clothed, housed, and guarded, but they are practically idle—or, at least, their work is of little value. The great majority of them are in the prime of working life, aged from 20 to 40.

Lawyer Jerome says that he has grabbed his hands clear of the Thaw case. They are asking what kind of soap

WATER CARRIED SEVENTY MILES

Will Be Used to Wash Out Gold in the Yukon—A Great Feat.

A LARGE CREW OF MEN

VANCOUVER, B. C., Monday.—The work of lifting a river of water seventy miles over mountains and turning it against the golden gravels of the heart of the Klondike has been completed by the Yukon Gold Company. The tremendous labor involved has required three years of persistent activity, and a corps of thousands of men, headed and directed by skillful engineers. The mammoth conduit is ready for the water, but the stream will not be turned on until next spring it is stated. It is probable also that much of next season will be required to get the ditch into first class shape but the gravel will be sent spinning before the year has gone. The new undertaking should mean much for the history of the Yukon.

A. N. C. Treadgold, promoter of the Yukon Gold Company, and organizer of the properties, who has just left Dawson after a hurried visit, spoke very highly while in the northern city of the good work done by the operative force in the construction of the ditch and the installation of the pipe line.

"I deem the work done by the men here," says Mr. Treadgold, "one of the greatest accomplishments of the kind in the history of the world; in fact, considering that this enterprise has been carried out in the sub-Arctic it may be declared the greatest undertaking of the kind in history. The managers here on the ground deserve great credit. I should say that it is a triumph of young manhood. Old men never would have accomplished it. The work is a splendid example of what pluck, hustle and energy can accomplish. In two or three years more the entire equipment will be operating at its best, and the splendid results will be apparent."

The men engaged by the Yukon Gold Company this year have numbered approximately two thousand, of whom two-thirds have been on the pipe line work. O. B. Perry, the general manager, has been in the field even since the opening of navigation, while C. A. Thomas, the local manager, has not left the field once, summer or winter, since the vast enterprise was undertaken three years ago. Both are young men, both on the sunny-side of thirty-five. At present the large force of men who have been at work along the pipe line during the summer, are pouring into Dawson as fast as the camps at the various points are closed.

Angus Macdonald, the chief field man of the pipe line, is squaring up his work of the general construction, and is having the camps closed as fast as the work at each place is finished. In his opinion the work has been far more difficult than it had been undertaken in the tropics or at the Isthmus of Panama, and in this opinion there are many others who agree with him.

This autumn sees the completion of the work from Tombstone to Lovett and Cripple Creeks. The pipe line is intended to convey 5,000 inches of water, but it is said to have a capacity when crowded, to 7,000 inches.

The Young Turks now threaten to dethrone the Sultan, and they probably have fair reason. The Sultan's conversion to their views about government was so sudden as to create doubt as to its being deep, and counter-revolutions have been heard of before.

PAINTING A ROOF IS WORK. Buying the paint is expensive. Both are needless if your roof is Amatie.

When you finish laying Amatie, take away your ladder, pick up your hammer and knife, go away and leave the roof to take care of itself. A few years later you may go back and look at it if you care to, but it won't be necessary, and there won't be anything to do.

This is due to the fact that Amatie has a real mineral surface—a surface that is too strong to need protection—too durable to require painting.

If you buy one of the smooth smooth Amatie roofs, you need not paint it every two or three years to keep it from leaking. In fact, such roofs depend on the paint almost entirely for their waterproofing qualities.

Amatie on the other hand depends for its waterproofing upon double layers of Coal Tar Pitch, the greatest known remedy to water.

Amatie comes in rolls of 110 square feet ready to lay. No special tools are required, and anyone can lay it properly.

A Sample of Amatie will be forwarded free on request. Send for it and see how much better it is than the kind which requires painting to keep tight.

The CARRITTE-PATERSON MFG. CO., LTD., ST. JOHN, N.B. HALIFAX, N
