

42ND YEAR. NO. 17748.

THE ADVERTISER, LONDON, ONTARIO, MONDAY, FEBRUARY 12, 1906.—TEN PAGES.

PRICE TWO CENTS.

**BOXERS PLAN TO MASSACRE FOREIGNERS;  
THE BUTCHERY SET FOR FEBRUARY 24****Prominent Chinaman in U. S. Cables European and American Friends to Leave  
the Country at Once—Says Massacre Will Be Greatest of Modern Times.**

Chicago, Feb. 12.—A dispatch to the Inter-Ocean from Cincinnati, O., says: Wong Fong, former secretary of the Six Companies in San Francisco, who is visiting in this city, says he thinks the Boxer trouble in China is about to culminate in the greatest massacre of modern times.

He issued the following warning to several American friends last night, telegraphing it to Seattle, Los Angeles and San Francisco: "The blow is about to fall. Cable warnings to friends to leave China at once. Tell them to seek protection of Germany temporarily, and to get out of the country before Feb. 24."

Fong is visiting Ah Loo Wal, the wealthiest of the local Chinese residents, and after the messages were sent explained their purport as follows: "I received word yesterday that the order has been sent out to the subordinate circles of the Chinese Reform Association to throw off the foreign elements in our country."

**Worse Than the Last.**

London, Feb. 12.—Private information from diplomatic sources at Peking indicates that the gravest view is taken of the situation in China. The present agitation is declared to be far more formidable than the Boxer rising under another name and of far more serious proportions than the one of five years ago.

**B'ame the Viceroy.**  
Hong Kong, Feb. 12.—A dispatch from Canton states that the anti-foreign feeling there is considered to be due to the passive attitude of the Viceroy in connection with the representations made by the consular body regarding the recent attacks on missions. It is stated that the Viceroy is determined to create friction with the United States.

A leaflet has been widely circulated in the city of Canton urging the people to co-operate with a view to the expulsion of the Viceroy.

**BIG DAY'S WORK  
ON GRAND TRUNK****East and West Bound Freight  
Traffic of Sunday One of  
Biggest on Record.**

Yesterday was one of the busiest Sundays in the freight line which the Grand Trunk has experienced in several weeks.

Out of Toronto, the company hauled 570 cars of westbound freight alone, during the 24 hours. Much of this passed over the old main line, via Stratford, while a good share came around via London.

The eastbound traffic from the Tunnel was heavy. Freight reached the border from Chicago in such large quantities on Saturday, that every available locomotive was brought into use to clean it out and avoid any congestion. Engines which do service on the branch lines and generally lay up on Sunday were utilized, and were run on double headers, of which there were quite a number.

The amount of soft coal handled from the west was exceptionally large, and gave rise to the belief that the road may be stocking up to prevent a scarcity in the event of a strike of the miners.

**THOSE RELICS OF 1813****British Government To Be Consulted  
as to Sunken Warships.**

Ottawa, Feb. 12.—Hon. C. S. Hyman is communicating with the British Government in regard to the sunken vessels lying in the River Thames. There were three ships in all, but one was raised and placed in a public place at Chatham, where it disappeared piece by piece before the hordes of the relic hunter. Mr. Hyman is asking what disposition the British authorities want to make of the remaining two. The vessels were carrying supplies for General Proctor's troops in 1812, and were set on fire to prevent them falling into the hands of the United States forces. The ships sank before they were loaded. It is likely they contained ammunition. Mr. Hyman, a Detroit historian, had arranged to raise the hulls and bring them to the United States, but they will not be allowed to pass out of British possession.

**ROBBERY AND MURDER****Two French-Canadians Accused With  
a Series of Crimes.**

Exeter, N. H., Feb. 12.—Two burglars, supposed to be French-Canadians, who robbed a shoe factory in Dover at midnight, and who murdered an Italian laborer in the smoking car of the Sunrise express train, bound from St. John, N. B., for Boston, at Rockingham Junction, on the Boston and Maine Railway, early yesterday morning, were captured this afternoon after an exciting chase of fifteen miles through Rockingham County, in which deputy sheriffs, police and citizens participated.

**A Frontier Dispute.**

Constantinople, Feb. 12.—The Turkish-Persian frontier dispute remains unsettled. The Persian ambassador has demanded of the Porte the evacuation of Lahijan by Turkish troops and compensation for the depredations by the Turkish cavalry. It is believed that the Turkish commission, which has arrived at the disputed territory, will recommend the withdrawal of the Turkish troops.

**\$20,000 Diamond Robbery  
Thief Gets Away in Fog**

Vancouver, B. C., Feb. 12.—A daring diamond robbery occurred here Saturday evening at 6:30 o'clock, whereby A. F. McMillan, jeweler, is a loser to the extent of between \$15,000 and \$20,000. His store is located in the new Jones block at the corner of Hastings and Homer streets, one of the most frequented spots. A heavy fog, however, enveloped the city early in the evening, and this aided the thief, about the time mentioned people in

**MR. BALFOUR IS  
STILL LEADER****Chamberlaines Give Up At-  
tempt to Oust the Former  
British Premier.**

London, Feb. 12.—The dispute between the followers of Mr. Balfour and Mr. Chamberlain as to which of these two men shall conduct the opposition of the remnant of the Unionist party in the House of Commons, may be considered to have ended in a victory for the Balfourites. Mr. Chamberlain's definite declaration of his determination not to lead while Mr. Balfour is in the House of Commons is a disappointment to his supporters, who claim they are a great majority of the Unionists both in the house and the country.

They declare that Mr. Balfour's leadership only means a partial unity of the party, for the protectionists must remain a party within the party, acting with their colleagues for all ordinary purposes, but maintaining an independent organization for the furtherance of their own policy.

The announcement last week of the appointment of two new heads of the machine, which has since been contradicted. It was doubtless a strategic move on the part of the Balfourites.

Opinion is being expressed in unofficial Conservative circles that the machine's organ should be thoroughly reformed not only in the point of lack of energy, which it is claimed, is largely responsible for the party's debacle, but in the personnel, inasmuch as the solid rank and file of the party is not sufficiently represented.

The Irish party met in Dublin today and unanimously passed a resolution that the party as a first act reiterate the demand of the Irish nation for the restoration of national self-government.

The resolution declares that the party cannot enter into any alliance to give permanent support to any English party or government which does not make this a cardinal point of its programme.

**WOLVES NEAR KENORA****Large Numbers of Deer Attract the  
Savage Packs.**

Kenora, Feb. 12.—An alarming story has been brought to town concerning the great number of timber wolves that are prowling about the lake at night, and it is impossible to get an Indian to travel after dark. One Indian a few nights ago was compelled to stay in a tree all night, a ravenous pack of wolves whirling for his blood underneath him. They only retired as the daylight came on. Four wolf skins were brought to town yesterday, each measuring 7 feet in length. Traders state that the presence of a large number of wolves this year is owing to the vast numbers of deer on the islands. They have not been so common for a good many years. Some \$15 bounty is provided by the Government for every wolf skin that can be got, but the Indians and traders say it is not enough, as the risk is too great.

**THEATER TRAIN  
HITS STREET CAR****Two Killed and Many Injured  
in South Chicago Crossing  
Crash.**

Chicago, Feb. 12.—A theater train on the Pennsylvania Railroad, running at the rate of 20 miles an hour, crashed into a crowded street car in South Chicago last night, instantly killing two persons and injuring twelve. The killed and injured were all occupants of the street car. The engine and first coach of the passenger train left the rails and were overturned.

The dead are Mrs. Wm. Bacon, South Chicago, and Minnie Warsaw, 12 years old, Chicago. The passenger train was a local, leaving Chicago at 11:24 p.m. for East Chicago, Ind. It was well filled with passengers, who were thrown into a panic by the crash. The street car was hurled into the air, overturned and ground to splinters before the locomotive. The crash came almost without warning, and but few occupants of the street car had an opportunity to leap from the car before it was struck. The passengers on the railway train hurried to the assistance of those imprisoned in the debris and began the work of rescue. Calls for assistance were sent to the nearest police station and physicians were summoned to aid the injured. The engineer of the passenger train and the crew of the street car were placed under arrest.

**A MYSTERY SOLVED****Woman Found Dead Near Welland-  
port, Was Inmate of Refuge.**

Welland, Feb. 12.—The body of the woman found dead by the roadside near the village of Wellandport on Sunday, Jan. 14, was exhumed yesterday and identified by Keeper Kottmeier, of the Welland Industrial Home, as that of a Mrs. McKelvie, a former inmate of that institution. Mrs. McKelvie, whose mind was slightly deranged, made her escape from the home at early dawn some few days previous to the finding of her body.

During the five years which she had been an inmate of the home, Mrs. McKelvie had run away on several occasions, but had returned in a few days. When she disappeared this time, Keeper Kottmeier entertained no fear as to her safety. She was a former resident of Crowland Township, and without any known relatives, her husband having deserted her in the State of Michigan about six years ago.

**CHOQUETTE QUILTS****Withdraws from Contest at Request  
of Liberal Leaders.**

Quebec, Feb. 12.—Senator P. A. Choquette, who sought to be elected mayor of Quebec, suddenly retired from the municipal campaign just on the eve of nomination on Saturday. His retirement came as a public surprise, inasmuch as the campaign waged during the past several months was an extremely aggressive one. Le Soleil, the French organ controlled by Senator Choquette, daily sought to discredit the municipal administration of Hon. S. N. Parent, who resigned some time ago. Parent's policy was defended by a French newspaper recently published under the direction of Mr. L. A. Taschereau, K.C., M. P., who entered the aldermanic lists in opposition to Senator Choquette's candidacy. The campaign became so acrimonious that it was dividing the Liberals of Quebec into two hostile camps and finally the Liberal leaders thought it high time to interfere. Hon. Charles Fitzpatrick came from Ottawa on Friday last to look over the situation, and the following day Senator Choquette retired from the contest.

The first news of the senator's retirement was posted on Le Soleil bulletin and later in the afternoon the reason was made apparent in the Le Soleil. When the senator explained that he retired from the contest at the request of Sir Wilfrid Laurier, Senator Choquette also announced that he no longer edits Le Soleil.

**Lost With Crew.**

London, Feb. 12.—The steam trawler Varonica, belonging to Stavanger, Norway, has been lost off Lossiemouth, Elgin-shire, Scotland, with a crew of ten. She was disabled and in tow of the steam trawler Zodiac, when the rope broke. The crew of the Varonica launched a boat, but when within eighteen feet of the Zodiac a heavy sea capsized it, and they were all drowned. The Varonica went down soon afterwards.

**SANDWICH DESIRES AUDIT****Attorney-General of Ontario Asked  
to Look Into the Books.**

Sandwich, Feb. 12.—A petition has been sent to the Attorney-General of Ontario urging an immediate audit of the township books for Sandwich West for the past 30 years. The petition sets forth that the township has not derived the benefit it should from amount of taxes collected.

**FUNERAL OF E. B. EDDY****Remains of Hull Manufacturer Taken  
to Vermont for Burial.**

[Special to The Advertiser.]  
Ottawa, Feb. 12.—The remains of E. B. Eddy were removed this afternoon from his late residence in Hull to the railway depot and were forwarded to Bristol, Vermont, for interment. Rev. Dr. Herridge conducted service. A large number followed the remains to the railway station.

**WHIPPED THE TURKS****Latter Lose Forty Men in Clash  
With Servian Bands.**

Belgrade, Serbia, Feb. 12.—A serious fight has occurred in old Servia between Turkish troops and two Servian bands near the villages of Nikujan, Dragomirzi and Chelopez. The Turks lost forty men, killed or wounded. The Servians lost eighteen, killed or wounded.

**ICE GIVES WAY; PANIC****3,000 People on Frozen Lagoon, But  
All Reach Bank.**

Chicago, Feb. 12.—At the close of a skating tournament on the Humboldt Park lagoon yesterday, the ice slowly gave way beneath 3,000 people, causing a panic, in which many were injured. The ice sank slowly until covered by two feet of water, and the crowd reached the bank in safety. In the panic many women and girls were trampled on.

**FIGHT ELECTRIC BILL****London Alliance Sends Delegate to  
Oppose Hendrie's Measure.**

Rev. Dr. Ross, pastor of St. Andrew's Church, went to Toronto this morning to represent the London Ministerial Alliance on the deputation which waits on the Ontario Government today in opposition to Hon. Mr. Hendrie's electric railway bill.

All sections of the Province are to be represented on the deputation. The chief objection to the bill is based on the fact that it does not prohibit the operations of radial railways on Sundays.

**ITCH AT THE JUNCTION****Toronto City Worked Up Through  
Fear of Contagion.**

[Special to The Advertiser.]  
Toronto, Feb. 12.—Parents at Toronto Junction are alarmed at an outbreak of itch at Carlton school. Many of the children are being detained at home in order to prevent contagion. The matter was brought up at a meeting of a board committee last night and referred to the medical health officer for a report. It has awakened the agitation for a more thorough medical inspection of the children attending the public schools.

**THE WEATHER.****Tomorrow—Fair and Mild.**

London, Monday, Feb. 12.  
Sun rises, 7:21 a.m. Moon rises, 9:47 p.m.  
Sun sets, 5:43 p.m. Moon sets, 9:21 a.m.

FORECASTS.

WEATHER NOTES.

The weather is fine throughout the Dominion, with a general tendency toward higher temperatures. A disturbance now near the south coast is likely to cause dangerous winds off the Nova Scotian coast on Tuesday.

LOCAL TEMPERATURES.

The highest and lowest readings of the thermometer at the local observatory for the 24 hours ended at 8 p.m. Saturday were: Highest, 24°; lowest, 6° above; Sunday: Highest, 24° above; lowest, 10° below.

**May Have Killed Father;  
Dance, Carousal, Death****Coroner to Investigate Taking Off of Wm. Pollock,  
a Farmer in Aylmer District.**

Aylmer, Feb. 11.—William Pollock, a farmer, who resided three miles from Stratfordville, twelve miles from Aylmer, is dead at his home, and Coroner Sinclair, of this place, through the urging of neighbors, today visited the Pollock home and decided to hold an inquest tomorrow at 12 o'clock.

A dance, which was held at the Pollock house on Thursday night, was marked by the predominance of the liquid over the solid refreshments, and, it is said, terminated in a carousal. When Mr. and Mrs. Pollock, and the

son, William, Jun., were left in the house, after the guests were gone, Mrs. Pollock suddenly jumped from a second-story window and ran to neighbors, crying to them to come to her home, where a fight was in progress.

When they arrived they found the elder Pollock dead, with marks of violence upon him. His son was still in the house, but could not explain his father's death. He is said to have admitted to the coroner striking him, but his story was an incoherent one. He will be called as chief witness at the inquest.

**JOHN MITCHELL MUM****Refuses to Discuss the Attack Made  
by Dolan.**

New York, Feb. 12.—John Mitchell, president of the United Mine Workers of America, who is in this city to confer with the operators of the anthracite mines, said today that he did not care to discuss the statement given out by President Dolan, of the Pittsburgh district, yesterday. In this statement Dolan said that President Mitchell was coming to New York to ask the anthracite operators for a contract, which he has not the power to enter into, as the national convention has tied him hand and foot. He also attacked President Mitchell's conduct of coal strikes in the past and declared that every strike in the soft coal regions under his leadership had ended in failure.

"What do you think of Patrick Dolan's attack on you before the Pittsburgh miners?" Mr. Mitchell was asked today.

"I do not care to discuss Mr. Dolan," was the reply.

To all other questions Mr. Mitchell made similar answers.

**DANGEROUSLY INSANE****Aged Donald McPhee, of Strathroy,  
Committed to the Asylum.**

Donald McPhee, the old man who was brought in from the House of Refuge at Strathroy the other day, appeared before Judge Macdowell this morning to be examined as to his sanity. He was found to be dangerously insane, and was committed to the Asylum.

McPhee is a very old man and is nearly blind.

**FUMIGATE AFTER  
CONSUMPTION****Health Officer Thinks it Necess-  
ary and Will Do It  
Without Cost.**

Should houses in which consumptives have been quartered, or in which consumptives have died, be fumigated before others are allowed to occupy them? Dr. Hutchinson, medical health officer of London says they should, and he announces that he will without cost fumigate such houses if notified.

The doctor says that the trouble at present lies in the fact that the law does not make it compulsory for anyone to report such places to him at present, nor does the law compel physicians to report cases of tuberculosis, and the result is that the health department of the city is not aware of the death of a consumptive until some time after it has happened. Dr. Hutchinson thinks that when a consumptive leaves a house it should be at once reported to him, so that all traces of the disease may be killed before the premises are occupied by other people.

Toronto is taking this matter up in a vigorous manner. The Telegram says:

"The decision to disinfect houses where persons have died from consumption is a good move on the part of the local board of health. Hundreds of people die of consumption to every one who dies of smallpox, and yet people go in and occupy without disinfection houses from which consumptive patients have just departed. Instances were given at the board meeting where people brought the effects of a deceased consumptive and went in to use furniture, carpets, linen and bedding, even to the mattresses, without any disinfecting being done. When people are as alarmed about tuberculosis as they are about smallpox the disease will claim probably only a few victims."

**Ten Thousand Pilgrims**

Mexico City, Feb. 12.—Nearly 10,000 pilgrims will arrive here today on the part of the shrine of Our Lady of Guadalupe at the village of that name near this city.

**RADICAL MOVE  
BY LABORITES****Bill to Demand Free Meals  
for School Children****AND FREE MEDICAL ATTENDANCE****Threatened Unionist Split To Be  
Avoided by Compromise—Bryce  
Suspends Irish Crimes Act.**

London, Feb. 12.—The first official act of the new Labor party has been to draft an education bill which is to be put forward on behalf of the Trade Union Congress. Its principles are interesting. It advocates secular education and the abolition of religious tests for teachers. State-aided schools are to be provided everywhere by local authority at the imperial cost. Secondary and technical education also must be furnished by local authority where required. Public medical examination and treatment and a free meal a day are also provisions of the bill, which has thus to some extent a socialistic flavor.

This measure has no chance of becoming law, but there is no doubt that its promulgation will largely affect opinion in Parliament, as representing the coming power of labor, and very possibly it may influence the Government education bill, which is to be introduced next session.

The best informed opinion in several quarters seems to agree that what has been called the Unionist crisis may pass away without any open split or formal choice between retaliaion and tariff reform. Mr. Chamberlain's letter, formally renouncing the official leadership of the Conservative party although it lays bare very clearly the deep rooted differences, has tended to smooth things over. Mr. Balfour's position has improved greatly since the beginning of the week, and he is now sure of strong support in the proposed party meeting next week. There is no absolute necessity for the party in opposition to avoid a dual leadership, and the probability is that the decision of all awkward questions will be indefinitely postponed.

Mr. Bryce has marked the beginning of Liberal government in Ireland by suspending the operation of the crimes act in the proclaimed districts, to which the Times this morning takes violent objection, predicting a revival of agrarian crime and an elaborate conspiracy of the Land League to force down land prices to pittance value. This is mere surmise as yet, and the new policy may justify itself. The Ireland act is a permanent measure, and its repeal would have to pass the House of Lords, but at present it is inoperative.

Lawn tennis players welcome the news that Americans will compete this year for the Davis Cup. It is believed that Wright and Hildebrand would have a good chance of lifting the trophy if they were selected as American representatives.

**REACHING OUT  
FOR OUR TRADE****A Shipping Company to Add  
New Ships to Liverpool-  
Montreal Route.**

London, Feb. 12.—The International Mercantile Marine Company proposes to more actively compete for the Canadian trans-Atlantic traffic during the coming season. According to information received in British shipping circles, this will be done by strengthening the Dominion Line controlled by the International Mercantile Marine Company, by the addition of a number of vessels either newly constructed or transferred from the fleet now engaged in the traffic between Liverpool and the United States.

**Trans-Andine Railway.**

Santiago, Chile, Feb. 12.—The first section of the Trans-Andine Railway was inaugurated today. The line reaches to the foot of the Andes, where the tunnel begins. The line will shorten the time to Buenos Ayres by six hours. The President and the civil authorities were present at the inauguration ceremonies.

**THE OTTAWA TORIES IN REVOLT  
RIGHT UNDER LEADER'S NOSE**

Ottawa, Feb. 12.—There is one feature in connection with the open revolt in Ottawa against the Whitney Government, led by Thomas Birkett, ex-M. P., which should not be overlooked. The mutinous display took place right under the very nose of the Conservative leader in Federal politics, and was an example of flagrant insubordination, a thing only too common among the Conservatives in the Dominion House, accompanied by open flouting of the man to whom they have professed loyalty and obedience. This is not all, however. At Wednesday night's meeting Mr. Borden's theme was the elevation and purifying of politics. His remarks seemingly fell upon deaf ears, for no sooner had he finished than Thomas Birkett, a leading merchant in Ottawa, who is expected to furnish an example to the community, brought forward the spoils question. He complained that Liberals have not been dismissed to make room for Conservatives, and dragged into the mire the lofty sentiments uttered by his leader a few minutes before. There is room for missionary work for Mr. Borden in setting his own household in order before setting out on a purely crusade, so sadly out of harmony with the sordid motives of his followers.

## AN AUSPICIOUS OPENING DAY FOR ADELAIDE STREET BAPTISTS

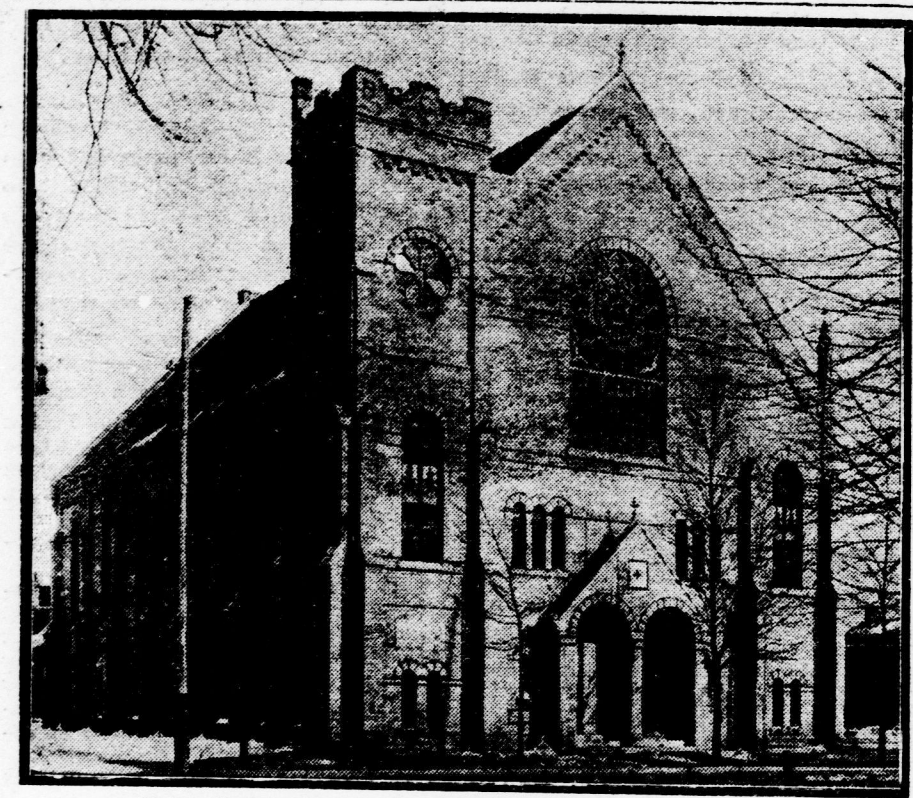

**Handsome Auditorium Filled to  
Overflowing at the In-  
augural Services.**

Members and friends of the Adelaide Street Baptist Church are greatly gratified by the success that attended yesterday's opening services. The handsome and commodious auditorium was completely filled in the morning, while in the evening not only the auditorium itself but the pastor's platform and its steps, the vestry, choirroom and the organ loft, were occupied by interested listeners, and many had to go away, unable to obtain admission. The 15th of July, 1905, was the last

day. A rich crimson Brussels carpet covers the entire floor, which has a forward slope of two feet. The stairs and corridors are very roomy, and the sound there is deadened by cork carpet and matting. Arrangements for lighting the building with electricity and providing heat are ample and up-to-date.

A novelty is the placing of the baptistry, which is behind the choir loft and on the gallery level, in full view from every part of the auditorium, the approach and exit being out of sight. Full provision is also made for robing rooms.

The seating capacity is double that of the old building, and when the galleries are put in, there will be accommodation for over 1,000 people. A pipe organ, costing about \$2,000, is being given for the church, and will be in position before long. The turret on the

THE NEW ADELAIDE STREET BAPTIST CHURCH.

Sunday that services were held in the old building and the work of tearing down was at once begun. Mr. C. W. Smith kindly gave the church the use of the Jubilee Rink, services being held there fourteen Sundays, and two Sundays in the Auditorium. On the 12th of November, the schoolroom in the basement of the new building was far enough advanced to be used, and was the meeting place until yesterday. The work of finishing the schoolroom is already under way, and will soon be completed.

The enlarged edifice, which has practically been rebuilt at a cost of between \$15,000 and \$16,000, is of white brick with stone trimmings; it is 97 feet long and 57 feet wide, having been extended 24 feet to Adelaide street and 16 feet to King street; the walls were raised about 10 feet, to make room for the projected gallery, which will cover both sides and the west end of the building. The ceiling is of wood, and, with the walls, is at present finished in white.

A feature of the building is its handsome stained-glass windows, while the seats, the preacher's platform

### SIMPLE HEALTHFUL LIVING

The Problem Not Difficult of Solution

A western woman, who had been for years a sufferer from "chronic gastritis," induced, it is believed, by over-indulgence in coffee, gives an interesting experience with a good, healthy moral attached to it:

"For five or six years I tried every patent nostrum advertised for the relief or cure of dyspepsia. Sometimes I found temporary relief; sometimes I was for months blistered and burned with plasters externally, or drugged and doctored till I was too disheartened and despondent to care whether I lived or died, for I never got any permanent relief."

"I have lived for weeks at a time on raw eggs, or dry toast, or buttermilk, or sweet milk. I have fasted for days, suffering the agonies of starvation, and then endured equally acute agony because I must eventually eat."

"My kidneys became badly affected, and a female weakness resulted. I was dropsical at times; at others much emaciated. I tried change of climate and spent three years traveling in search of health, coming back home to the same old routine of medicine."

"It is about three years now since I first tried Grape-Nuts food—not with any hope of finding anything I could eat, but because I was so tired of anything else, I liked the flavor of Grape-Nuts so much that I ate scarcely anything else for a week."

"I well remember my astonishment when I found I could satisfy my appetite without paying the penalty of hours of suffering; that I could eat a supper of Grape-Nuts and sleep all night afterwards—something I had not done for years."

"But even after a month's use of Grape-Nuts I did not imagine the relief was anything more than temporary, till I found I was gaining flesh at the rate of five or six pounds per month, that my digestion was restored, my kidney trouble had disappeared, and my nerves had become toned up and steady. I have eaten Grape-Nuts daily ever since and shall continue to do so as long as I live."

"At present I weigh 157 pounds—not flabby, dropical fat, but hard, solid flesh. I eat three meals every day, can indulge in fruit, and never suffer a single pang from indigestion. My husband, who used to suffer from coffee-poisoning (sour stomach, flatulence, and heartburn) has long since given up the Arabian berry and, using Postum Coffee and Grape-Nuts food, has become a hale, hearty, healthy man."

"We think we have solved the problem of simple, healthful living, for after three years of Grape-Nuts food we are not tired of it. It is still delicious and supplies so perfectly the place of meat that our butcher's bills are almost unknown quantities." Name given by Postum Company, Battle Creek, Mich.

There's a reason.

## THREE LINKS WILL BE 25,000 STRONG

**Immense Gathering of Oddfelloes  
in Toronto in September  
When Grand Lodge Meets**

A Toronto dispatch says: Twenty-five thousand Oddfelloes will be in Toronto, during the last week in September. Twenty-five thousand dollars will be spent on the reception and entertainment of the largest body of men that has ever visited Toronto at one time. The occasion will mark the meeting of the Sovereign Grand Lodge for the first time in Canada since 1880. Preparations for the entertainment of the visitors have been going on for some time, but the meeting of the grand lodge executive Saturday afternoon brought matters to a climax. Representatives were present from all over Ontario, among whom were G. M. F. R. Blewett, Listowel; G. W. E. R. Brett, Essex; G. R. J. B. Turner, Hamilton; G. R. K. Cowan, London; P. G. M. W. H. Cole, Brockville; V. H. Hoyle, M. L. A. Cannington; T. Woodruff, Brantford; Henry White, Port Hope; A. H. Blackbee, Kingston; Leonard Ferguson, St. Thomas; E. J. Spackman, Exeter.

After much discussion it was decided that the grand lodge should appropriate \$25,000 for entertainment purposes. The city has been asked for \$5,000, and other institutions will be asked to make up the required amount.

That the entertainment will be one of the most unique, and at the same time one of the most lavish ever sprung on this city by any single organization, is shown by the fact that a committee of 72 of Toronto's leading Oddfelloes was appointed to take charge of the reception. A parade miles long will be the feature of the meeting. Thousands of lodges from all over the continent will be represented. Bands from every state in the Union and every province of Canada will lead the demonstration.

It was also decided Saturday that an excursion would be run to Muskoka the like of which had never been attempted in this country. Festes on the bay, fireworks displays, garden parties, will be the order of the week. A grand concert will be given at Massey Hall, the talent for which will be the best on the continent.

Two thousand dollars will be set aside for prizes for competition in design work and \$1,000 in prizes for the patriarchal march of the order. Lodges will turn out in full force from all over Canada. Already hotel accommodations have been spoken for. Americans who have never visited Canada have expressed their intention of being present at the great meeting in September.

### SKIRTS TO RULE TROUSERS

**Essayist Agnes Peppier Says Man's  
Garb is His Downfall.**

Chicago, Feb. 12.—That the passing of the days of doublet and jerkin, and "derby" hats marked the downfall of man as the lord of creation, and the beginning of the ascendancy of woman, was the conclusion of Miss Agnes Peppier, essayist and club woman of the Philadelphia, in an address before the Friday Club of Chicago last week.

According to Miss Peppier, man's adoption of ill-becoming and untidy dress revealed his real ugliness and weakness, and in the light of the revelation woman has begun to assert herself, and will eventually have complete ascendancy. The lecture was given at the residence of Mrs. Keating Fairbank, 407 North State street, where Miss Peppier is a guest. She spoke on "The Temptation of Eve."

"I sincerely believe," said Miss Peppier, "that much of what is now called the 'woman's movement' is the result of the audacious and unwarranted self-assertion of the sex, due to the clothes which men have elected to wear. Men have rashly abandoned those details of costume which enhanced their loveliness and charms."

"As long as men wore costumes which interpreted their strength, enhanced their persuasiveness, and concealed their shortcomings, women accepted their domination without demur. They made no idle claim to equality with creatures not only bigger and stronger, not only more capable and more determined, not only wiser and more experienced, but as beautiful, beautiful and impressive as they themselves."

"With the loss of his fine trappings, man has found a corresponding loss of illusions on the part of the women who saw them. Black broadcloth and derby hats are enough to destroy the most robust illusions of Christendom. Men have refused to keep a single article of dress which can assist in any way an imperfect ideal of how he should be clothed."

"The whole attitude of women in this matter is fraught with significance. Men have abandoned rashly those details of costume which enhanced their comeliness and charm, but women have never, in all the long centuries abated one part of their concentrated and anxious interest in their dress, and dare not if they would; too much is at stake, and they play into the hands of following, whether instinctively or intelligently, the great principle of self-adornment."

"The flexibility of their dress gives them every opportunity to modify, to enhance, to conceal. It permits them to express mental as well as physical attributes. It is in the highest degree symbolic and interpretative. It is their universal language, in which they assert the great, triumphant principles of femininity."

"The adoption of ugly sameness and the regard for utility in man's attire has brought about an unholy result. Since men have ceased to wear pleasing clothes they have devoted more time than is strictly necessary to the counseling and cursing of women."

"In their lambskin obedience to the kind of clothes they wear, just so they are like every other man's clothes. It does not matter if it is a perfect marvel of ugliness, if it is not, heavy and disfiguring, if it is right as long as it is like the hats of fifty other men which he will meet on the way to his business."

## SUCCESSION TO AUSTRIA'S THRONE

**Francis Karl to Follow Fran-  
cis Ferdinand—Harmony  
in Empire.**

Vienna, Feb. 12.—Count Adelbert Sternberg, a member of the Austrian Reichsrath, has submitted a scheme to the executive committee of the Hungarian coalition to bring about an accord between the two countries.

The count draws attention to the present paralysis of action, and illustrates his case by the fact that "the most insignificant and the least reputable of the Balkan States—Serbia—has challenged the empire, and defied its wishes by entering into a convention with Bulgaria."

"Serious action must, therefore, follow," writes the count, "and such action is only possible if we place the guidance of the affairs of the dual monarchy in responsible hands. I therefore, appeal to the leaders of the majority in the Hungarian Parliament to unite with the Government of Austria."

"The count shows how the coalition of the Hungarian and Austrian parliaments should be constituted, and then suggests that a president of the combined cabinets should be chosen from the royal family. The letter continues:

"The difference which exists between the throne and the heir-presumptive should not be introduced into this question. The public will have confidence only in a man, who has not hitherto taken part in political affairs. The Archduke Leopold Salvator is the one who meets all requirements, and he is, moreover, a good soldier and a patriot."

This letter represents the opinion which has obtained in the highest circles for more than a year—that in the event of the abdication of Francis Joseph and the succession of the Archduke Ferdinand into existence.

During the last year several prominent German and Austrian lawyers have been asked, in a discreet way, how they regard the "pragmatic sanction," particularly as regards direct succession.

As a result of these inquiries, a feeling has grown up that the first direct male successor, the Archduke Francis Karl, eldest son of the Archduchess Valeria (daughter of the Emperor), born on Feb. 17, 1892, should be assured that the Emperor has made a will in this effect, which will be published after his death.

When a crime is committed, suspicion turns quicker to those who once loved the victim than to those who once hated him.

## WOMEN'S NEGLECT

**SUFFERING THE SURE PENALTY**

**Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.**

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness or other female weakness.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Mrs. Clara Beaubien, of Beaufort, Quebec, writes:

"Dear Mrs. Pinkham: Several years I have suffered with a female weakness which proved a serious drain on my vitality, sapping my strength and causing severe headaches, bearing-down pains and a general worn-out feeling, until I really had no desire to live. I tried many medicines, but did not get permanent relief until I took Lydia E. Pinkham's Vegetable Compound. In two months I was much better and stronger, and in four months I was well; no more disagreeable discharge, no more pain. So I have every reason to praise the Vegetable Compound, and I consider it without equal for the relief of women."

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address, Lynn, Mass.

The Celebrated  
English Cocoa.

## EPPE'S

THE SATISFACTORY STORE.

## Look Like Kid! But Are Lambskin

A truthful example of that old saying—"appearances are deceptive"—will be found at our Glove Counters. You'll find

### Fine Dressed Lambskin Gloves

that look and feel just like genuine kid. Skins are smooth, soft, pliable—easily mistaken for kid. In fact, gloves like these are, almost without exception, sold as genuine kid.

They have two clasps, oversewn seams and come in shades of

Black, White, Tan, Brown and Beaver.

And the price—it's truly exceptional—result of a fortunate purchase of a large quantity, at an unusual price, from a leading glove house.

## Good Time to Select New Spring Dress Goods

The present is a good time to choose the new spring dress goods.

Many of our spring importations have arrived and some have already departed to our customers' homes.

Their freshness, beauty and stylishness appeals to a fashionable lady in an irresistible way.

And selecting now you give the dressmaker plenty of time to plan an unusually smart and attractive suit or dress for spring.

These are new arrivals.

### Wool Taffeta 65c

A lovely material. Very firm, plain weave. Tucks just like a silk, and pleats nicely. A good dust repeller, and bound to be popular. 46 inches wide. Almost any shade you wish for a stylish dress.

### Silk Stripe Taffeta 85c.

Another handsome fabric. Self colors—a nice variety. Pretty striped with a wavy silk thread.

### Armure Weave 90c

Very handsome. Beautiful soft finish. Lovely shades of apple green, reseda, navy and brown.

### More Felt Hat Shapes 25c

More felt shapes, have been added to our 25c table. Must make way for our spring arrivals, which will be here before very long.

## Make Boys' Suits From These New Wash Goods.

**BOULTON SUITINGS—**Very strong materials, suitable for boys' blouses and suits. Plain shades of brown, light and dark blues, and blue and white stripes, 29 inches wide. Colors are fast. Only, yard. 20c

**A HEAVIER QUALITY** in plain red and linen shades. Yard. 25c

**GALATEAS—**Also used for boys' blouses and suits. Plain navy, butcher blue and old rose, also fancy stripes of blue and white. Colors are fast. 27 inches wide. Yard. 15c, 18c

Window.

## Stylish Corsets Are the W. B.'s

They are made by up-to-date corset manufacturers, who own two factories, among the best equipped in the world—one in United States, other in England.

Their English designer is only a few hours distance from Paris. Consequently, they are always in touch with the newest European fashions—ready to employ the most approved style ideas in the modeling of W. B. Corsets—keeping them up-to-date.

Every line, every curve, every contour of a W. B. creation bespeaks of skilled designing—wherein lies the secret of the immense success of these corsets. They fit perfectly and in a great degree possess the graceful elegance of the more expensive French makes.

We are the sole distributors of these high-class corsets for this city.

Mention a few lines of W. B. Nuforms, which are very stylish and graceful models.

403 W. B. NUFORM (see cut).

An excellent style for average figures. Made with long hip, and long tapering waist lines. Strong gray or white coutil. Front and side supporters. \$1.25

736 W. B. NUFORM. Especially constructed for long waisted and fully-developed figures. Splendid quality. Strong fitting. \$1.25

406 W. B. NUFORM. Adapted to medium or full forms. High bust and deep hip. An important feature of this style is the apron extension, which, while containing no boning whatever, is strong enough to restrain overfleshy around the hips. Front and hip supporters. \$2.00

411 W. B. NUFORM. An exceptionally fine grade of corset for a medium price. This model has the high bust and deep hip effect, double supporters, material of firm sterling jean. Try it. \$2.50

## Spun Silk Combinations For Evening Wear

Ladies desiring beautiful underwear for evening occasions—say at the **Military Ball**—will be delighted with these spun silk combinations. They're so exquisitely dainty, low neck and sleeveless, with handsome hand-crocheted yokes, and prettily lace trimmed. Two sizes. \$2.75 and \$3

SMALLMAN & INGRAM, 149, 151, 153 and 155 Dundas Street.

Because of the growing scarcity of timber matches are now being made of paper, rolled spirally and dipped in wax or stearine, which prevents unrolling and gives rigidity. The roll is cut into lengths, which are then dipped in the phosphorus composition. The matches are said to burn well. The boycott of British goods in Beau-

gal has, since the division of the province, taken a more serious form, and assaults on Europeans are frequent, particularly in Calcutta. The students have been warned that if they join in the political agitation they will be barred from Government employment. With 29,200 physicians, Germany has one for every 1,700 inhabitants. In the

city of Berlin 46 per cent of all the physicians have an income of less than \$700, and 5 per cent of the whole number do not have sufficient income to return it for taxation. WORMS DERANGE the whole system. Mother Graves Worm Expeller cures worms and gives rest to the sufferer. It only costs 25 cents to try it and be convinced.

E. W. GOETHE QUANTZ, ORGANIST New St. James, has resumed teaching. 210 Oxford street, or Central Conservatory. 48

VOICE PRODUCTION AND SINGING—J. Farnell Morris, 406 Queen's avenue. 48

W. E. MCCANN, ORGANIST ASKIN Street Methodist. Teacher of piano, voice, theory. 48

## SNAP-SHOTS AT VARIOUS SPORTS

The talent still continue to be shaken to death. Notice Ottawa and the winter merry-go-rounds. Behold, he that betteth during the winter racing game, shall not lay up much treasure to take his wife and children abroad for the summer.

Now the dope artists are getting busy at the Ottawa ice races. The bookies need the money, even if the winter is not severe. An honest horseman is the noblest work of nature.

Berlin is coming up to Stratford very strong tonight, and is bound to win. Stratford made the Dutchmen hurry when they played in Berlin, and can see nothing but a victory for their team. Excursions are being run to Stratford tonight from Toronto, Berlin, Woodstock and London. The local excursion leaves at 5:19 o'clock.

William Hendrie, one of Canada's veteran racing men, has taken his son, W. Hendrie, Jr., into partnership in the racing stable. Registration of partnership has been filed, with the younger man having a one-quarter interest. It evidently is the intention to begin the season much earlier than usual, as stable accommodations have been applied for at Benning. The stable will be a large one. The horses will be shipped at an early date and prepared for the spring meeting.

The New Zealanders beat the British Columbia team, but they will never see the pinnacles of fame until they visit Hamilton's only bluff.

Rowe, of Harris, is suspended now. You never can tell when a man is suspended by the O. H. A. executive. There is a tide in hockey affairs, which taken at the flood, leads to a suspension, but omitted you are liable to get your blooming heads beaten off.

We are beginning to wonder, if Stratford is beaten tonight, whether they will unearth some evidence to boost Berlin. It generally happens when the Classic City get theirs.

Selly Henderson, the crack Winnipeg oarsman, will try for the diamond sculls at Henley this summer. He is a member of the Argonaut Rowing Club of Toronto, and will row under their colors in the event. He ought to win.

Quite a bunch of Londoners are going to Stratford tonight to see the Berlin-Stratford game. It promises to be a hummer. Betting is about even on the match. With keen ice there ought to be something doing every minute.

The scandal that has come to light the last few days regarding the doping of Lou Dillon in the match race, gives a bad view of conditions prevailing in the harness racing. The Grand Circuit was none too free from crooked work last year, and Canadians especially complained of the treatment they received. It would be well if the stewards kept a more watchful eye this season.

The "turf history" of ancient Rome shows some curious points of contact with that of our own time. According to Prof. Rodolfo Lanciani, the education of colts was generally finished when they were three years old, and their racing career often ended when they were five. Lists of the horses with their names, and those of their riders and drivers (in the chariot races), and the colors were circulated some days before the races, and heavy betting was the rule. It is lamentable to learn that Roman racing stables were hotbeds of intrigue, and that the bribing of jockeys was practiced on a large scale. An inscription discovered in Rome on May 19, 1878, gives some details of the career of a jockey named Cresceus, who began riding at the age of 13 in the year A. D. 115. He won his first race on Aug. 1 in that year, "driving" four horses whose names are given as Cirdus, Acceptor, Delicatus and Cotymus. Cresceus died in A. D. 124, having in ten years saved no less than \$2,325.

The Grand Circuit racing at Readville this season will follow the methods of the running tracks in other respects that in making the racing virtually dash racing. Each event will consist of three dashes of one mile each, in which the same horses will contest. The betting will be confined to the result of each one of these dash races, and will not, of course, afford any opportunity for pool selling. The starters in these events will draw for position before the first dash, but in the two following dashes will start in the positions they finished in in the preceding heat. The most important particular in which these events resemble the races on the running tracks after the dash features, is the division of the money. Each purse will be divided into three equal parts, one of which will be raced for each time the horses start. The winner of the dash will get 70 per cent of the purse, second horse will get 20 per cent, and the third horse will get 10 per cent. This division of the purse will certainly furnish an incentive to drivers to try for first money, for there will be mighty little money in it for a driver who lays up in any of the dashes. The big trotting event of the Readville meeting, the Massachusetts purse, which will be for \$3,000 this year, the horse that will finish first in each of the three heats or dashes will win \$5,000, which is much more than could be won under the old system. Just how this new plan will take with the trotting-horse men is difficult to predict, but it need not be surprising if it jumps into favor after a trial.

There has always been much interest in the McGovern-Nelson bout on March 14, but it has not been enhanced by the slanging match between the two managers. Each has called the other some choice names, and the distressed public is willing to concede the correctness of all the accusations, providing the two belligerent managers will cease their tirades. As to the contest, most people doubt Terry's ability to drop the Battler, as he has shown himself to be tough as armor plate. On the other hand, Terry is known to have an extremely weak jaw, and if the Battler lands it will be the wind-up for the Brooklyn boy. At the same time there is a lot of McGovern money coming to the front, and it promises to be a heavy betting fight.

The sensationally fast pacing filly, Lady Patch, by Dan Patch, 1:55, dam Wina G., 2:19 1/4, by Coleridge, 2:05 1/4, that paced a mile fast season as a 2-year-old in 2:11 3/4, last half in 1:05, and last quarter in :31, has been placed in the stable of the well-known trainer, Dallas Custer, of Indianapolis, Ind., to get ready to race next summer. Several good judges look for this daughter of Dan Patch to beat 2:07 this season in her 3-year-old form.

Were it not for what Fred Marriott did with his little steamer, which is hardly a true automobile, the reports on the races on the Florida beach would seem to have come from a foreign land. American cars scarcely had a "look in."

He had led her out to look at his new automobile, with its magnificent bay-windowed body. He was one who had seen some grievous experiences, through reckless driving on the road, too. "Isn't that a stunner?" he exclaimed.

"Oh, I think it is just perfectly killing!" she cried gushingly.

"Huh!" said he.

Pitching records of the National League for the season of 1905 are interesting to fans. Following are some of the facts disclosed by the records: Mathewson hit but one man during the entire season. Hahn averaged less than one base on balls per game. Fraser, Boston, allowed greatest average bases on balls per game, 2.8. Ames struck out most men per game, average 5.3. Leever led in percentage of victories, .800. Pittenger and McGinnity pitched in largest number of games, 46. McFarland, St. Louis, allowed greatest number of hits, 3.1 per game. Elliott, New York, allowed smallest average hits per game, 4.1. Mathewson allowed smallest average runs per game, 2. Mitchell, Brooklyn, allowed largest average runs per game, 4.1.

COVERPOINT.

## FOOTBALL

## LIKE NEW ZEALAND GAME.

Bekeley, Cal., Feb. 11.—The New Zealand Rugby football team defeated the Vancouver, B. C., team yesterday 41 to 6. The New Zealanders played a strong and fast game and their team work was almost perfect.

President Jordan, of the Stanford University, and President Wheeler, of the University of California, together with members of the faculty interested in athletics, witnessed the game and were favorably impressed with it. As a result it is likely that the game will be adopted by the two universities.

## OVER \$25,000 IN STAKES FOR FORT ERIE AND WINDSOR MEETS

The stakes to be decided at the Fort Erie and Windsor meetings this summer were announced Saturday with dates by Ed. Mills, Buffalo representative of the Highland Park Jockey Club. The Fort Erie meeting will begin on July 17 and continue to Aug. 25, during which time nine valuable stakes will be decided. The principal event, of course, will be the Canadian Derby, which will be run on the opening day as usual. The stakes close on March 5. Seven stakes will be decided during the Windsor meeting, which runs from June 16 to July 7. A list of the Fort Erie stakes with their conditions and values follows:

The Canadian Derby, \$3,000.—A sweepstake for 3-year-olds, \$20 to accompany the nomination, \$100 additional to start; value of the stake to be \$3,000, of which \$2,300 to the winner, \$400 to second, \$200 to third, fourth save start; winners of a 2-year-old stake of \$1,500 value to carry three pounds extra; of any two stakes in 1906 aggregate value of \$3,000, or one of \$5,000 value, five pounds extra; non-winners of a 2-year-old stake of \$1,200 value that have not won three races this year, selling races excepted, allowed seven pounds; non-winners this year, twelve pounds; maidens, eighteen pounds; fillies allowed eight pounds. One and one-quarter miles.

Genoa Hotel Handicap, \$1,500.—For 3-year-olds, \$10 to accompany the nomination, \$40 additional to start; value \$1,500, of which \$1,200 to the winner, \$200 to second, \$100 to third; weights to appear three days prior to the race; time of closing of entries, one mile.

Canadian Sportsman's Handicap, \$1,500.—For 3-year-olds and upwards, \$10 to accompany the nomination and \$10 additional to start; value \$1,500, of which \$1,200 to the winner, \$200 to second and \$100 to third. Weights to appear three days prior to the race; time of closing of entries, one mile.

Buffalo Stake, \$1,500.—A selling stake for 3-year-olds and upwards, \$10 to accompany the nomination, \$40 additional to start; value \$1,500, of which \$1,200 to the winner, \$200 to second and \$100 to third. Weights to appear three days prior to the race; time of closing of entries, one mile.

## O. H. A. CONFIRMS ROWE'S SUSPENSION

## Also Orders Stratford Club to Remove an Objectionable Bandstand in the Rink.

Toronto, Feb. 10.—The O. H. A. executive met this afternoon and confirmed the suspension of Rowe, the Barris player, who failed to appear before the sub-committee to explain his connection with the Portage professional team. It has been intimated that the injunction proceedings will be dropped.

Parry Sound and Sturgeon Falls were ordered to play a sudden death game at South River if satisfactory terms can be arranged with the rinks there. Alliston and Collingwood played an intermediate game in the latter town on Monday and Barris in Collingwood on Wednesday.

The next round in the junior series will be between Lindsay and Midland. Lindsay plays in Midland on Tuesday night and Midland in Lindsay on Friday night.

The Stratford club was ordered to remove an overhead band stand from its rink. Visiting teams complain that it stops lifts. This action was taken at the request of Berlin seniors, who play a championship game there Monday night.

A fine of \$10 imposed upon the Alliston club for being late was remitted. There were present: President Darroch, J. Ross Robertson, A. F. Webster, H. E. Wettlaufer, H. E. Jamieson, A. B. Cunningham and A. W. MacPherson.

## AN IMPORTANT CHANGE MADE IN SPRING DATES

New York, Feb. 11.—The stewards of the Jockey Club met Friday and made an important change in the arrangements of the dates allotted for the spring meeting at the Belmont Park and Gravesend race tracks.

The two tracks have divided their spring meetings so that beginning May 10 at Belmont Park, racing will be conducted by the Westchester Racing Association until May 19. Then there will be a switch to Gravesend May 21 racing to be conducted there until May 26; when the scene changes again to the Belmont Park, May 28 to June 6. Gravesend's spring season will then be concluded with racing from June 7 to 20. The Sheephead summer meeting will follow June 21. In addition to the long meeting of 22 days from July 11 to Aug. 4, the Brighton Beach track has arranged six days of racing, from Oct. 1 to 6.

The revised list of dates now read as follows: Washington Jockey Club—March 25 to April 14 and Nov. 15 to Dec. 1. Maryland Jockey Club, Baltimore—April 15 to April 23. Queens County Jockey Club (Aqueduct)—June 21 to July 10 and Nov. 3 to Nov. 15. Metropolitan Jockey Club (Jamaica)—April 27 to May 9 and Oct. 22 to Nov. 2.

Westchester Racing Association (Belmont Park)—May 10 to May 19, May 25 to June 6 and Oct. 8 to Oct. 15. Brooklyn Jockey Club (Gravesend)—May 21 to May 26, June 7 to June 20 and Sept. 17 to Sept. 23. Coney Island Jockey Club (Sheepshead)—June 21 to July 10 and Sept. 1 to Sept. 15. Brighton Beach Racing Association—July 11 to Aug. 4 and Oct. 1 to Oct. 6. Saratoga Racing Association, Saratoga—Aug. 6 to Aug. 21.

The stakes to be decided at the Fort Erie and Windsor meetings this summer were announced Saturday with dates by Ed. Mills, Buffalo representative of the Highland Park Jockey Club. The Fort Erie meeting will begin on July 17 and continue to Aug. 25, during which time nine valuable stakes will be decided. The principal event, of course, will be the Canadian Derby, which will be run on the opening day as usual. The stakes close on March 5. Seven stakes will be decided during the Windsor meeting, which runs from June 16 to July 7. A list of the Fort Erie stakes with their conditions and values follows:

The Canadian Derby, \$3,000.—A sweepstake for 3-year-olds, \$20 to accompany the nomination, \$100 additional to start; value of the stake to be \$3,000, of which \$2,300 to the winner, \$400 to second, \$200 to third, fourth save start; winners of a 2-year-old stake of \$1,500 value to carry three pounds extra; of any two stakes in 1906 aggregate value of \$3,000, or one of \$5,000 value, five pounds extra; non-winners of a 2-year-old stake of \$1,200 value that have not won three races this year, selling races excepted, allowed seven pounds; non-winners this year, twelve pounds; maidens, eighteen pounds; fillies allowed eight pounds. One and one-quarter miles.

Genoa Hotel Handicap, \$1,500.—For 3-year-olds, \$10 to accompany the nomination, \$40 additional to start; value \$1,500, of which \$1,200 to the winner, \$200 to second, \$100 to third; weights to appear three days prior to the race; time of closing of entries, one mile.

Canadian Sportsman's Handicap, \$1,500.—For 3-year-olds and upwards, \$10 to accompany the nomination and \$10 additional to start; value \$1,500, of which \$1,200 to the winner, \$200 to second and \$100 to third. Weights to appear three days prior to the race; time of closing of entries, one mile.

Buffalo Stake, \$1,500.—A selling stake for 3-year-olds and upwards, \$10 to accompany the nomination, \$40 additional to start; value \$1,500, of which \$1,200 to the winner, \$200 to second and \$100 to third. Weights to appear three days prior to the race; time of closing of entries, one mile.

## ROUGH HOUSE AT OTTAWA GAME; ROTTEN EGGS HURLED AT PLAYER

## Referee Also Assaulted—Ottawa Has an Easy Win With the Victorias.

Ottawa, Feb. 11.—By a score of 7 to 4 Smith's Falls defeated the Victorias of Ottawa on Saturday night and virtually won the Federal League championship.

The game was marred by tactics disgraceful to Ottawa. One of the spectators threw a rotten egg, which hit Armstrong, of Smith's Falls, square in the neck. The offender is known and the police will likely take the next hand in the game.

Shoulders, of the Victorias, distinguished himself by assaulting Referee Lester Patrick, of Montreal, and threatening the judge of play. He will be reported to the union.

QUEBEC DEFEATS SHAMROCKS. Quebec, Feb. 11.—The Quebec hockey club won last night, defeating Shamrocks 14 to 8. The game was a one-sided affair. Quebec outclassed Shamrocks at all stages. Shamrocks put up a half game in the first half, but in the second they were not in it. The feature of the game was Jordan and Powers' close combination. They were responsible for the high score. The game was clean all the way through. About six men being put off for minor offenses.

PAN DRIESD LOSE. Ingersoll, Feb. 11.—The Warriors, of Ingersoll, defeated the Pan Drieds, of Tillsonburg, in a fast and exciting game of hockey here last night by a score of 6 to 3. Half time score, 3 to 1, in favor of the visitors.

## WON IN NEW RINK.

Chesley, Feb. 10.—The first game of hockey was played in Chesley's new rink, in which the home team defeated Hanover by a score of 6 to 1. The

## FAVORITE BEATEN ON THE ICE, IS SAID TO HAVE BEEN DOPED

## Fully \$15,000 Changed Hands By the Defeat of Conduct at the Ottawa Meet.

Ottawa, Feb. 11.—The Ottawa ice races closed yesterday with fully 1,000 spectators present. The event closed rather ingloriously, however, as charges of fraud are made out of the five-mile race.

Conduct, owned by W. T. Mason, of Port Rowan, Ont., was the favorite, and the odds were 10 to 3 in his favor. Instead of Conduct winning R. and R. in the betting, however, never heard of in the betting, crossed the wire first.

After Conduct had gone a mile or so he began to stagger and was completely out of the race. Driver Kennedy, an Ottawa man, claims that the horse was doped, and his knowledge of horses and reputation for honesty got his charges a hearing for honesty got his

Fully \$15,000 is said to have been changed by the men alleged to have been behind the despicable trick.

The National Trotting Association of New York has been made acquainted of the charge by wire, after the judges held a meeting behind closed doors today. Smith, of Buffalo, who was one of the judges, however, made no attempt at concealing his belief that Conduct was doped. Kennedy, the driver, says the dope given was of the kind that takes effect after the horse became heated, which was the case on Saturday.

The charge created intense excitement, and an angry mob was on the lookout for the man alleged to have been responsible for the deed. He kept in hiding, however, and only by that was his safety assured.

All the races were close and some neck-and-neck finishes were witnessed. The summary was as follows:

Five-mile dash.—R. and R. J. Renaud, Montreal; Wauntha H. Donald, Redwood, New York; Sabie, Alcaner C. Cry, Ogdensburg; Shina, N. Ray, Toronto; Sir Christopher, A. D. McBride, Ottawa; Conduct, W. T. Mason, Port Rowan, Time, 13:42.

## DIFFERENCES SETTLED BY TROTTING ASSOCIATIONS

Chicago, Ill., Feb. 10.—A satisfactory adjustment was reached on all questions under discussion between the Grand Circuit trotting tracks and the American and National Trotting Association at the rules committee meeting today. As a result of the final negotiations there will be presented at the congress of the National Association, to be held in New York next week, a rule which reads as follows:

"Any circuit of five or more tracks belonging to either the American or National Association may, after incorporation, have authority to appoint racing stewards, who shall have full power over the racing at the tracks of the circuit. The names of these stewards shall be submitted to the presidents of the American and National Association, and, if the nominations are agreed to by both the particular associations, they will constitute a governing body for the circuit, by which they are named, acting jointly for the tracks, and the parent association, and their decisions shall be binding until the close of racing on the circuit for which they act."

Another matter of which the conference took notice is the making of time records by trotters and pacers. At present the rules governing trials against time are not observed in spirit by some of the tracks where trials are made. A new rule was formulated, which provides, among other things, that not only must the meetings at which time trials take place be in every respect bona fide, but also that the events, aside from the time trials, making up each day's programme, must be real contests in which every horse tries all the time.

A stop also is to be put to the practice of having three colts making up a so-called race, arranged for the purpose of giving each animal a mark about as fast as it can go.

## SPRINTING.

## SHERRING FOR ATHENS.

Hamilton, Feb. 11.—It is a certainty that "Bill" Sherring, Hamilton's famous sprinter, will go to Athens to take part in the Marathon race in April. Sherring yesterday bought a ticket for Naples and he will sail from New York next Sunday.

## ROUGH HOUSE AT OTTAWA GAME; ROTTEN EGGS HURLED AT PLAYER

## Referee Also Assaulted—Ottawa Has an Easy Win With the Victorias.

Ottawa, Feb. 11.—By a score of 7 to 4 Smith's Falls defeated the Victorias of Ottawa on Saturday night and virtually won the Federal League championship.

## THE ALDERMEN ARE DETERMINED THAT POLICE SHALL TAKE CENSUS

The aldermen are still determined that the police shall take the census this year, principally because this will be the cheaper means of securing the figures, but also because the police, all intelligent men, reliable and with no axes to grind, will be able to do the work with a greater degree of satisfaction to the city than any others who might be secured.

According to the latest figures the police can do the work for about \$100, against an estimate of at least \$1,000 to cover the cost of census taken by specially paid enumerators.

Some talk is being heard around the city hall as to whether a police census would be binding on the street railway company, even if it were ordered by the city, but the answer to this is that any authorized census ordered by the municipal council must of necessity be legal and binding on all the city's agreements affected by it.

The custom house clock is still on strike and the city is doing its best to figure out a scheme whereby the work of winding the city clocks may be thrown back again to Ald. Gillespie, who did the work and did it satisfactorily up to the time he was elected an alderman.

At the time the worthy alderman was selected by the people to represent them at the council board, they did not know that he was robbing themselves of the privilege of seeing the time from a couple of clocks, but such is the case. The alderman formerly received the splendid salary of \$25 a year to do the work and keep the clocks in repair. As a matter of fact it cost Ald. Gillespie more than he received each year to look after the big tickers, but he felt it was a sort of civic duty and he performed the work uncomplainingly. When he gave up the job, the man who followed him lost money on the deal at \$32, and he asked for a salary of \$100 to attend to the business this year.

Now it is up to the city to get a man who can do the work and do it properly. Weighed down by the

troubles of Father Time, as heaped upon him through the instrumentality of two barefaced clocks, City Engineer Groydon has asked the Dominion Government to pay Ald. Gillespie to do the work. The alderman may work for the Government, but not for the city. And herein lies Mr. Groydon's hopes for a way out of the difficulty.

A meeting of the manufacturers' committee is being held this afternoon to consider schemes for advertising the city's advantages from an industrial standpoint, with a view to securing more factories for London.

Medical Health Officer Hutchinson said today that 100 tons of north branch ice is being stored daily, and he thinks there will be plenty of home-grown ice for all purposes this summer. This will be cheering news to citizens who have been wondering if they would be compelled to pay \$2.50 a month for ice this summer.

Up to date Inspector McCallum has collected about \$900 of statute labor taxes. Only about \$12 of last year's taxes are outstanding—a fact which speaks well for the diligence of the inspector.

Today Mr. McCallum was writing out an information against a young fellow who had failed to pay up. Then he thought he would give the delinquent another chance, and he phoned him at the shop where the young man worked. The result was that the money was paid over inside of twenty minutes, and all trouble was avoided.

Today a man, who had evidently seen better days, and who claimed to have been a school teacher in Australia, called on Inspector Sanders in the city hall. He had walked all the way from Chicago to Windsor during the recent cold weather, and had beaten his way to London. He had also been through the South African war and had suffered greatly through the campaign. Mr. Sanders is looking after him for a while.

## GOVERNMENT WILL BE URGED TO ACT

### Travelers Want Local Option Measure Amended—Good Accommodation Their Cry.

At a meeting of the members of the Travelers' Club held at the club Monday night, the principal topic of discussion was local option from a traveler's viewpoint. All of the speakers expressed the belief that the time has come when the commercial traveler must assert his rights. And they stood united as one man in the endeavor to secure legislation that will grant them such protection in sanitation and accommodation as their vocation requires. It was pointed out by one of those present that their health and even their lives were in jeopardy through the taking of local option. The fact that there was afforded them under the Ontario license laws, upwards of 300 licenses have been taken away under local option, and conditions are growing so serious that the traveler will shortly be entirely without any properly regulated lodging or eating house, in the rural districts. It was also pointed out that in one town alone the increased rates of the different hostels under local option will cost the traveling man or his employer \$6,000 more than under the present rates. It seems most unfair that a municipality should be allowed to force this heavy burden on the travelers who are forced to visit the district. A committee composed of Messrs. H. E. Buttery, Donald Ferguson, F. S. Fisher, J. J. Dyer, C. W. McGuire, S. F. Glass, W. L. and J. L. Johnson, J. J. Dyer, A. H. Bremer, J. N. Wood, J. L. Loughlin, F. S. Fisher, S. F. Glass, H. C. McBrine, E. W. M. Flood, J. H. Moran, Fred J. Lines and A. Masurel.

At a subsequent meeting of the special committee held today, the secretary was instructed to immediately communicate with the Provincial Secretary as to the proposed amendment, and it was also decided to ask all travelers' associations to send a delegation and co-operate. Hon. Adam Beck, who was present, promised all possible assistance, and will introduce the delegates.

## LONDONER DIES AT 100 YEARS

### Death of Mrs. Cynthia Churchill, Possibly City's Oldest Resident.

There passed away in this city yesterday Mrs. Cynthia Churchill, who was perhaps the oldest resident of London. Had Mrs. Churchill lived until April next, she would have reached her 100th birthday, her age at the time of her death being 98 years and 10 months. The greater portion of her days were spent in this city. Mrs. Churchill was born in New York State, and moved in early life from there to London. Her husband, Mr. George Churchill, died several years ago, and but two daughters survive—Mrs. R. L. Millard, of 162 Mount Pleasant avenue, West London, and Mrs. B. Bowers, of Cincinnati, Ohio. Mrs. Churchill was living with Mrs. Millard at the time of her demise, and the funeral will be held from tomorrow afternoon, and will be of a private nature. Mr. Robert B. Millard, of 34 Princess avenue, is a grandson of deceased.

## Liberal Whist Party

Liberal, attention! The whist party, to be held tonight at the Liberal Club, corner of Queen and York avenues, will be one of the most pleasant of its kind this season. Two handsome prizes have been offered for competition. Come to all to be present. A cordial invitation is extended to come and take hand in the game, or watch the play. The Liberal Club is for the use of every Liberal. And every Liberal is once again invited to be present tonight.

## A Marvel of Healing.

It is hard to understand how any preparation can heal so quickly as Echinacea does. Apply it to chapped or roughened skin and there is immediate sense of relief, and a cure in the briefest possible time. This preparation is not a beautifier. It only preserves beauty. It puts back into the skin all that the weather or harsh soaps take out of it. Price, 25 cents.

## C. N. SPENCER

STOCK BROKER.  
Sole Agent for the sale of Cash or on Margin.  
Phone 130. Office, Market Lane.

**MAY BUCK J. P. MORGAN**  
The Pere Marquette Stockholders  
Will Not Lie Down.

Cincinnati, O., Feb. 12.—There promises to be a warm time at the special meeting of the Pere Marquette stockholders at Detroit on the 27th instant. There are rumors in financial and railroad circles to the effect that Morgan will not have his way and that his representatives will be outvoted.

The meeting was called to have the stockholders vote to cancel the lease with the Cincinnati, Hamilton and Dayton railroad as recommended by the board of directors.

The situation is as follows: The Pere Marquette has \$28,000,000 capital of which \$15,000,000 is common and \$13,000,000 is preferred. The Cincinnati, Hamilton and Dayton holds \$1,000,000 of the common; there is \$2,500,000 in the treasury and \$2,500,000 scattered among a number of stockholders. Of the preferred, which also has voting power, there is \$1,000,000 outstanding and \$1,000,000 in the treasury. The preferred holders' committee believes that it will be able to secure enough proxies from the common stock to vote against the cancellation of the lease and also to prevent Morgan from having control of the road.

## BALFOUR ON THE JEW

Says Europe Should Have Treated Race as Has Britain.

London, Feb. 11.—The most famous among the Hebrews of England and many Christians of note assembled at the Hotel Great Central the other night to celebrate a banquet the Whitehall conference at which, 250 years ago, Oliver Cromwell decided that there was no law which forbade Hebrews to return to England.

Mr. Balfour was to have been present, but was prevented, and the chairman read a letter from him in which among other things, the former minister wrote: "If Continental Europe had followed the example set by this country for the last 250 years its history would not be stained by so many crimes and injustices, which now stand on record as a perpetual reproach to Christian civilization; that in this country there is no Hebrew question; that race prejudice, religious prejudices, which elsewhere play so disquieting a part in the social organization, are unknown here, is due in no small measure to the fact that Hebrews have proved themselves entirely worthy of the rights and privileges which they enjoy as citizens of this country, and that those rights and privileges have been granted them in full measure."

"Long may these conditions prevail; long may they bear all the good fruit which they so abundantly produced in the past."

## WHAT FRANCE WILL ACCEPT

Conference Could Guarantee Republic's Policing of Morocco.

Paris, Feb. 11.—A fresh semi-official note emanating from Germany and claiming that Germany's "amour propre" demands that the police of Morocco be either recognized, or entirely entrusted to neutral powers, has attracted much attention here.

The Temps today devotes its leading article to the note, pointing out that either the special rights of France, which were recognized by the opening of the Algerian conference, must be confirmed without thereby injuriously affecting the general rights of the other powers, or France's claim must be entirely rejected and the general rights of the other powers thus remain unguaranteed; in other words, the resumption of the former situation.

If, however, the paper says, the conference at Algiers gives its mandate to France, it would be in the nature of a guarantee for the integrity of Morocco, averting the possibility of France's military domination and permitting all nations to reap an equal advantage from the open door.

As a whole the powers represented at the conference would guarantee the carrying out of its decisions.

This solution of the question, the Temps declares, is the only one acceptable to France.

## What a Joy To Feel Well.

Do you know what it is to feel well—to feel young and hearty and vigorous—to feel full of energy and ambition—to enjoy work and look forward to the future?

This is the way you will feel if you revitalize your wasted and depleted nervous system by the use of Dr. Chase's Nerve Food.

Not in any miraculous way—not after the first dose or first box, it may be—but when your system has been gradually built up, your blood enriched and new vim and vigor instilled into the nerves.

Dr. Chase's Nerve Food is a wonderful medicine, but its wonders are accomplished in Nature's way, by thoroughly restoring the elements lacking in your system. No other treatment for the nerves acts in exactly this way.

There is lots of evidence of what this great food cure has done for others. Ask your neighbors about it. It is a box, at all dealers, or Edmanston, Bates & Co., Toronto.

## FOIL MOB BENT ON LYNCHING NEGRO

New York Police Save Murderer From Summary Justice of Infuriated Crowd.

New York, Feb. 12.—One thousand men and boys today beset a squad of policemen who, with drawn revolvers, protected Clarence Brooks, a negro, from the crowd which threatened to lynch him.

The negro had been pursued through one of the city's busiest centers after a sensational shooting affray in which another negro was killed.

Both the shooting and the chase occurred on Seventh avenue near Thirty-sixth street, at an hour when the streets were crowded. Brooks, when rescued by a mounted policeman, was placed on his back in an express wagon, and other policemen formed a square about the vehicle. Without waiting for the arrival of a patrol wagon, the negro was hurried in this way to the nearest police station.

There he was placed under arrest, charged with shooting William Mitchell, a negro, known as Gold Tooth.

It is charged that the two men met on the sidewalk just as Mitchell emerged from a Seventh avenue pool and billiard room and that Brooks without hesitation, began firing at Mitchell. He continued to pour bullets into Mitchell's body after the latter had fallen helpless upon the sidewalk, and did not stop firing until frightened away by the gathering crowd. Mitchell was dead when picked up.

## KAISER GRIPPING SOUTH AMERICA

Germany, Through Commerce, Securing a Firm Hold on Brazil.

Rio de Janeiro, Feb. 12.—To Germany Brazil owes about one-third of her external national debt of \$200,000,000. Germany has three steamship lines plying to Brazilian ports, placing the preponderance of the trans-Atlantic trade in German hands.

Germany is negotiating for the control of the Amazon River commerce, which will lodge the command of internal trade in her hands. German controls commercial houses, factories, plantations and industrial works generally, in innumerable parts of the country.

German capital in excess of \$100,000,000 is invested in various Brazilian enterprises, from banking and railways to agriculture.

The guarantors for the safety of this money are the warships of Germany.

Germans know that they will not be deserted by the Kaiser if trouble ever comes, and they therefore have no hesitation in placing their gold in the Latin republic and leaving it there to work for them.

Rivalry among the big German companies interested in Brazilian ventures does not exist. They are encouraged by the far-reaching political goals in Berlin to divide the country into various spheres of influence, and in consequence an absence of competition among the Germans themselves.

They serve all their energies for fighting the other foreigners in Brazil, and when necessary they work together for the good of German interests.

For instance, the three shipping companies that ply between Brazil and Germany, the North German Lloyd, the Hamburg-American, and the Hamburg-South American, have divided the coast of Brazil into three sections, and each company confines itself to its own district. This and similar co-operative activities by the Germans lead to a belief that the Kaiser's guiding hand is directing the various Teutonic movements in Brazil, and that he is using them all as pawns in his great game to call check at last to the Monroe doctrine.

The Brazilian bank for Germany, having a capital of \$2,500,000, is doing everything it can to help along Germany's increasing economic hold on the country. It is a joint bank of the Norddeutsche Bank of Hamburg and the Disconto Gesellschaft of Berlin, which secretly used by the Kaiser to further German aims abroad. Its policy is directed from across the Atlantic, and it has done great work for the Kaiser in Brazil.

It discounts bills of Brazilian buyers of German goods, permitting German dealers to send imports into Brazil at prices lower than the long credit invariably demanded by the Brazilians. The economic tie not only strongly binds Brazil to Germany, but also is causing Germany to lean with increasing weight on Brazil.

This is the raw material for innumerable industries in Brazil, and Germany is dreaming of the dawn of a day when it will be gathered in the Southern American republic by Germans and sent to Germany for use at home, thus emancipating the Teutons from any further dependence on foreign powers for their economic well-being.

## DEATH CLAIMS MILLIONAIRE EDDY

The Veteran Hull Manufacturer Dies in His Eightieth Year.

Ottawa, Feb. 12.—Erza Butler Eddy, Hull's industrial prince, known the world over as "The Match King," died Saturday afternoon at his home at 1201 St. Patrick street, of a heart attack, owing to which he was unable to retain nourishment.

This assumed an acute condition only two weeks ago, though he had been ailing for about a year. As a matter of fact, some trace his decline to the year 1900, when his immense industries were completely destroyed. Always a man of great vitality and undaunted energy, he immediately commenced the work of rebuilding his mills, but the decline in his physical powers was noticed shortly after.

He was in the office last on Jan. 25.

His industries at Hull embraced 27 mills, employing 2,000 hands, and manufacturing paper, matches, woodware and kindred articles. The product of the match factory alone was \$2,000,000 a year.

In his career he had 27 wives, twice being married to the same woman.

A widow and one daughter, Mrs. Dessey, survive him. Mrs. Dessey is at present in a sanatorium in Guelph, and only son bears Mr. Eddy's name, and lived with him, his father being dead.

The funeral will take place on Monday afternoon, when the remains will be taken to Bristol, Vt., for burial.

Erza Butler Eddy was one of the largest manufacturers of woodware and paper in the British possessions, his establishment at Hull employing between 2,000 and 3,000 hands. His ancestors came originally from Scotland.

He was born near Bristol, Vermont, Aug. 22, 1827, the son of the late Samuel Eddy and Clarissa Eastman, who was a direct descendant of Miles Standish.

Mr. Eddy was educated at the district school at Bristol and commenced his career in New York City. He afterwards removed to Burlington, Vermont, and embarked in the manufacture of friction matches in 1851.

In 1854 he removed to Hull, where he erected extensive shops and warehouses, the business at that time being confined to the manufacture of matches, as pails and tubs, and in 1892, paper.

Mr. Eddy formed a joint stock company in 1896, and since then the business has been carried on under the name of the E. B. Eddy Company, of which he has been president.

From 1871 to 1875 he was set for Ottawa County in the Quebec Legislature as a Conservative. He also served a term as mayor of Hull.

Mr. Eddy held high rank in the Masonic Order, and was a member of the Presbyterian community. His first wife, whom he married on Dec. 1, 1846, was Zaida Diana, daughter of T. P. Arnold. She died in 1893. In 1894 he married Jennie, daughter of the late John Sherfield, of Chatham, N. B.

He was accounted one of Canada's millionaires.

The remains will be taken to Bristol, Vermont, by special train. They will be interred in the family plot by the side of his first wife.

**The Estimates First.**  
Toronto, Feb. 11.—The Government has decided, beginning with the approaching session of the Legislature, to adopt the Ottawa practice of bringing down the estimates before the budget speech.

They can then be thoroughly discussed and disposed of in the earlier part of the session in conjunction with the public accounts, which, it is understood, will also be distributed early.

It will also allow the latter period of the session to be devoted almost entirely to Government and private legislation.

## French Prelate Dead.

Autun, France, Feb. 11.—Cardinal Adolphe Perraud, Archbishop of Autun, died here on Saturday night from pneumonia. An inventory of the cathedral of Autun was about to be made on Saturday afternoon, but hearing that the condition of Cardinal Perraud was much worse the work was postponed for a day when it was put out of respect for the distinguished prelate.

## NEW ISSUE OF G. T. P. STOCK

General Manager of Grand Trunk Has Left for England to Consult Directors.

Montreal, Feb. 12.—Charles M. Hays, second vice-president and general manager of the Grand Trunk, has left for England for the purpose of consulting with the directors on matters relating to the company's policy preparatory to the half yearly meeting which will shortly be held, preparatory to this is understood, to another issue of Grand Trunk Pacific capital.

An important question to be considered is their next issue of Grand Trunk Pacific securities. The success of last year's flotation was an indication that the investing public are prepared to take up very readily this extremely promising investment and thus to share in the building of the new transcontinental system.

The time of the next issue has not been fixed, but it is understood that Mr. Hays' visit has relation to this as well as to the amount to be issued.

The company's directors in London have their fingers on the pulse of the market. They know, if anybody knows, the favorable moment for action.

With one of the heads of the great house of Rothschild on the board of directors, there can be no doubt whatever that the next issue of capital will be made under the most favorable conditions.

The company's present necessities will be put before the directors by Mr. Hays, whose practical knowledge will guide them as to the requirements on this side and the opportunities that will be offered by western development.

## WAS EDUCATIONAL DAY

Dr. Cleaver, of Toronto, Delivered Special Sermons at First Methodist.

Rev. Solomon Cleaver, D.D., pastor of the Metropolitan Church, Toronto, preached educational sermons at the First Methodist Church yesterday. He delighted large congregations by scholarly and eloquent sermons. In the morning his subject was Elijah, whom he characterized as the founder of the first religious schools of which we have a record. He gave a decidedly instructive biographical sketch of the work of this great saint. In the evening, Dr. Cleaver's subject was the Saviour of the world. The sermon was an evangelistic style, and produced a splendid impression.

Dr. Cleaver outlined the great work the Methodist Church was doing at its educational centers, Toronto, Winnipeg, Edmonton, Mount Allison, and in Belleville.

The collections for the educational work were satisfactory.

Yesterday's anniversary services in the Askin Street Methodist Church were very successful. The fact that Rev. Mr. Treleven was the speaker, both morning and evening, lent an interesting feature to the proceedings inasmuch as he not only delivered a very clever address, but he was the pastor of the church nineteen years ago. Special music was given by the choir under the direction of Mr. McCann. During the afternoon, instead of the regular classes, an open session was held. Rev. Mr. Treleven and City Clerk Baker addressed the gathering.

Rev. J. J. Ross, of the Talbot Street Baptist Church, has been called to Ottawa, owing to the serious illness of his mother.

Rev. Canon Dann and Archdeacon McKenzie, of Brantford, exchanged pulpits yesterday.

Rev. Dyon Hague delivered a lecture yesterday at Wycliffe College, Toronto.

Rev. Canon Smith took Rev. T. B. Clarke's place at All Saints' Church yesterday, the latter being out of the city.

A call has been extended to Rev. T. H. Mitchell, of Toronto, from St. Andrew's Church at Guelph. The stipend is \$1,800 a year.

Rev. J. A. Brown, D.D., of Scarborough, will preach in New St. James' Presbyterian Church next Sunday.

Rev. T. H. Mitchell, B.A., occupied the pulpit of New St. James' Presbyterian Church at both services yesterday. For several months past he has occupied the pulpit of St. Ennock's Church, Toronto, during the absence of the regular pastor, who is on a twelve-months' vacation in Europe. Mr. Mitchell conducted a successful nine-years' pastorate in Barre, Vermont, but had to relinquish it owing to failing health. He then returned to his native province (Ontario), and his health has greatly improved.

Rev. J. G. Stuart, who had just recovered from a three-weeks' illness and was expected to have occupied his pulpit at Knox Church yesterday, unfortunately took ill again on Saturday with an attack of congestion of the lungs. Although his condition is not very serious, he will be confined to his room for two or three weeks longer.

## THE WHITE HOUSE WEDDING

No Bridesmaids to Attend (Miss Alice on the Seventeenth).

Washington, Feb. 11.—The wedding of Miss Alice Roosevelt, daughter of the President, to Representative Nicholas Longworth will take place at the White House at 12 o'clock noon on Saturday, Feb. 17. The ceremony, which will be performed in the historic east room, will be attended by the Right Rev. Henry Y. Satterlee, Protestant Episcopal Bishop of Washington.

There will be no bridesmaids. The bridegroom's best man will be Thomas Nelson Perkins, of Boston, a classmate and long-time friend; three of Mr. Longworth's classmates and a colleague of Harvard, A. Wallingford, Jr., of Cincinnati, who married Mr. Longworth's oldest sister, Larz Anderson, of Washington, great-grandson of Nicholas Longworth, the founder of the Longworth family fortune; Viscount Charles de Chambrun, brother of Count Adolphe de Chambrun, who married the bridegroom's youngest sister, and Theodore Roosevelt, Jr., the oldest son of the President and Mrs. Roosevelt, will be the ushers.

One thousand invitations to the wedding have been issued. Those issued, exclusive of the wedding party, include the members of the cabinet and their wives, former members of the cabinet, no more now in the United States Senate and their wives, the heads of the foreign embassies and the missions and their wives, the justices of the United States supreme and circuit courts, the members of Congress and the New York delegation to Congress.

Late in the afternoon Mr. Longworth and his bride will leave Washington on a trip to Florida, traveling in a special car. After the adjournment of Congress they expect to make a trip to Europe.

## Two Boys Drowned

Montreal, Feb. 11.—Two small boys were drowned here today by breaking through thin ice on the River St. Lawrence. One was Edward Burton, aged 8 years, 49 Wellington street, and the other Willie Gogerty, 9 years old, 98 St. V. street. They ventured too far on the ice, not thinking that it was so thin. The river at the point where they went through is quite rapid, and so the bodies were quickly carried away beneath the current, and have not yet been recovered.

**British Magistrate Lets Thief Off Ordering Him to Canada.**  
London, Feb. 12.—On the understanding that he went to Canada, the magistrate in the central criminal court on Saturday allowed a young man, charged with obtaining goods on false pretenses, to go on suspended sentence.

"I am simply amazed at the ignorance that exists in England in regard to the natural resources and opportunities Canada offers."

This is the testimony of E. G. Jellicoe, a Canadian philanthropist, of Liverpool, who made a tour of Canada for the purpose of obtaining information to ameliorate the condition of the unemployed at home.

"It seems to me," he continued, in the course of an interview, "it is almost criminal not to take a vigorous step to secure for those with a share in the superabundance of employment and prosperity that at present exists in Canada, by making arrangements with subsidized steamers for special terms to intending emigrants to the colony by organizing an efficient emigration service."

"Some sort of Government office should be established for aiding and supervising emigration within the empire. We should grant loans to assist passengers to any place where there may be a demand for labor of our people."

Mr. Jellicoe speaks enthusiastically of the possibilities of western Canada, and names the different agencies needing help.

## SHIPS CRIMINAL HERE

British Magistrate Lets Thief Off Ordering Him to Canada.

## Two Boys Drowned

Montreal, Feb. 11.—Two small boys were drowned here today by breaking through thin ice on the River St. Lawrence. One was Edward Burton, aged 8 years, 49 Wellington street, and the other Willie Gogerty, 9 years old, 98 St. V. street. They ventured too far on the ice, not thinking that it was so thin. The river at the point where they went through is quite rapid, and so the bodies were quickly carried away beneath the current, and have not yet been recovered.

## LAWSON ROUNDS UP GOVERNORS

Declares That He Has the Standard Oil Crowd on the Run.

Washington, D. C., Feb. 11.—Thomas W. Lawson, who holds a large number of proxies of policyholders in the New York Life Insurance Company and the Mutual Life Insurance Company, was here trying to round up a few more governors to serve on his committee to take charge of the campaign which he is waging against the Standard Oil Company.

Mr. Lawson has just been sent conferring with Governor Cummins, of Iowa, and Governor Johnson, of Minnesota, whom he has invited to serve on his committee, and he came here to interview Senator Robert M. La Follette, former governor of Wisconsin, who consented to take his proposition under advisement.

Mr. Lawson also went to the White House, where he had a short interview with the President. He said he went merely to pay his respects to Mr. Roosevelt.

Mr. Lawson declared he had the Standard Oil Company "on the run." He declared he had all the proxies he needed to control the great life insurance companies in the interest of the policyholders.

According to Mr. Lawson's plans his committee will appear before the New York Legislature's insurance committee, and ask the enactment of three laws.

The present charter of the New York Life provided that only one-fourth of the board of directors shall be elected at each annual meeting. The legislation will be asked to provide that a majority of the board be chosen in April.

The second law to be urged will cancel all old proxies now in existence, which have been given for some other purpose than that of the impending meeting. The third law will nullify all proxies obtained and collected by the expenditure of the policyholders' money.

Mr. Lawson said, after his White House visit, that, determined as Mr. Hughes was to get at the facts in the insurance scandals, he was held in check by the Armstrong committee for the reason that the Republican party in the state could not afford to have made public its associations with the real big offenders who were back of the infamous things done with the money of the corporations in the elections of President McKinley and President Roosevelt.

The sop that was thrown to the public, said Mr. Lawson, was the degradation of the McCall, McCurdy and Hydes.

## JOTTINGS FROM NEAR-BY PLACES

Furnished by the Special and Occasional Correspondents of the Advertiser.

**DELHI.**  
Delhi, Feb. 9.—Mr. W. Wimmer, of Port Rowan, visited relatives here this week.  
Mr. John Charlton is spending a few weeks at Clifton Springs, N. Y.

## HACKETT'S BANQUET

Loyal Orange Lodge Has a Pleasant Social Gathering.

Hackett Loyal Orange Lodge held its annual banquet at the Brown House, the affair proving very pleasant for all. When the good things had been disposed of, Bro. Joseph Murray gave an address, after which the King's health was drunk. Then came the toast of "Canada," the company responding with "The Maple Leaf," after which the following toasts and responses were given:

"The Supreme Grand L. O. L. of British America," Bro. D. Tripp.

"The Provincial Grand Lodge," Bro. W. B. Walker, D. C. M.

"The Hackett Benefit Lodge," No. 805, Bro. S. H. Wood, P. D. M.

"The Army, the Navy and the Volunteers," Bro. J. E. Showler and H. Wooster.

"Our Sister Societies," Bro. A. Butler and D. Tripp.

"Municipal Corporations," ex-Ald. Carrothers.

"The Host and Hostess," Bro. W. Brown.

Songs were contributed by Messrs. Wooster, Baskerville and Homister.

Cerebral Salt will not cake. Dr. Smythe's, Richmond and Hyman, Phone 1201.

The cutting of the Panama isthmus by means of a ship canal will mingle the animal life of two coasts where there are marked differences. Scientists think that a thorough study of the fauna of the isthmus ought to be made before the waterway can be completed.

Coughs, colds, hoarseness, and other throat ailments are quickly relieved by Cresoline tablets, ten cents per box. Aldruggists.

Augustine Poole, a veteran trader, who fought in the Crimea in 1854-56, was thrown into a burial trench while wounded after the battle of Tcheraya, but made a slight movement that was noticed and was pulled out again, died in England the other day. He lived just 50 years after his first funeral.

**GUARANTEED CURE FOR PILES** (itching, blind, bleeding or protruding). Your druggist will refund money if PAIN OINTMENT fails to cure you in 6 to 14 days. 50c.

At Baku, on the Caspian, the people have been suffering under a most deplorable affliction ever since the recent firing of the oil wells by the rioters. The burning naphtha throws up with the oil great quantities of water, which, transformed into steam by the tremendous heat, hangs like snow-white clouds above the town. When these clouds fall in the shape of rain they bring down with them a quantity of finely atomized naphtha, which covers houses, windows and streets with a greasy coating of ill-smelling oil.

IF A COUGH makes your nights sleepless and weary, it will worry you a good deal, and with good cause. To dispel the worry and give yourself rest try Eick's Anti-Consumptive Syrup. It exerts a soothing influence on the air passages and allays the irritation that leads to inflammation. It will subdue the most stubborn cough or cold, and eventually eradicate it from the system, as a trial of it will prove to you.

## EXECUTOR

The selection of an Executor is as important as the making of the will.

## THIRTY-FIVE YEARS AGO

TODAY

[From The London Advertiser of Feb. 12, 1871.]

Rev. G. M. Innes will deliver a lecture before the Church of England Y. M. A. in Bishop Cronin Hall next Monday evening; the subject, "The Life of Peter the Great."

A rink of the London Club, with Col. Moffatt as skip, played a game with the Strathroy curlers last Wednesday, defeating them by 4 shots. The Thames Club of this city will play for the Calcutta medal with the Chatham Club on the ice here next Monday.

The London railway deputation, after their triumphant tour through Huron and Bruce, returned home today. The trip was enjoyed immensely by the whole party, and all unite in praise of the country and the people up north. A meeting of the board of trade will be held on Monday afternoon, at the usual hour and place, to receive the report of the deputation.

The debate in the rooms of the London Literary Society last evening was largely attended, many ladies being among the audience. The subject of debate was that, in the event of a separation of the colonies from Great Britain, "Resolved, that an independent form of government would be preferable to annexation." The affirmative was supported by Messrs. Gibbons and Meek, and the negative by Messrs. Land and Knowlton. By a vote of the meeting the question was decided in favor of the affirmative.

Messrs. McNab, Gibson and Howard, law students of this city, passed creditable examinations before the Benchers in Toronto this week.

The London railway deputation held a meeting in the town hall, Kincardine, on Wednesday, the 8th inst. R. Baird, Esq., reeve of Kincardine, occupied the chair.

chair. The speakers were Messrs. Murray Anderson, D. Cameron, Thomas Churcher, Alex. Johnston, Robert Held, John Cameron, John Stewart, A. Andrews, Mayor Cousins and Capt. Barker.

"The only thing you can make men out of is the little boys. The biggest job God ever gave to men and women is to make men out of your little boys, and grand women out of your little girls. When you have done that, you have done the best work that mortal can do."

"When the world's history shall be made up, the richest chapters in it will not be along the lines of our development commercially, agriculturally or financially. One true, splendid, real man will give more history and character to Canada than all the products of our country will give for a hundred years."

"Mothers, do you ever take your little boy and say you will make a man of him, even if his father is a scrub? A boy has not got to have the advantage of a great father to make a great man. He must have another."

## No Patience With Speculation.

"I have no patience with your speculation in the financial world. The man who speculates is unreliable. There is not a solid bank in America that will give credit to a man who is a speculator. No church has any respect for the preacher who speculates with theology."

"If you have, there are preachers in this country of advanced criticism have me down where they think I will have to part with the Bible or the other preachers? Well, the preachers can go to the devil for I am going to hang on to the Bible. There is this about the Bible, if it does not do some preachers, he will not get much."

"I never hear a scientist sporting around but I want to spit on him and drown him—and if you find one that cannot swim you have got him."

"The great trouble today in the world is just what the devil would the professions—little teachers, little lawyers, little preachers, little doctors. Why, they come out of seminaries and universities just like round sausages out of a machine. They are all the same size. The premium on pure honesty, industrious, upright manhood was never so high in the world's history as it is today. We have lawyers, doctors, teachers, merchants—anything you want except men. We have men short of men."

"The man who is a bigger than a king or a president. He is the biggest thing in God's universe, except God, who made him."

## Doesn't Like Politicians.

"Whatever we hold dear today has come to us as a heritage from the men who stood up for right. We don't owe anything to politicians. Take the politicians of Ontario—if they all died to-night and trooped down to the gates of hell, the devil would sweep through the keyhole, and when he saw who they were he would shut up shop. I have no respect for, or confidence in, politicians. A dangerous citizen in Canada is the demagogue and politician."

"What we want today is an embodiment of manhood and moral stamina. The boy that will win is the boy that has courage to do right and has the sense to know that it is right."

"With all our advantages, we are not producing the men in the world today that our fathers and grandfathers produced. Just look at all the seminars and sources of information! You would think that with them all, men should be as thick as the stars of heaven, yet you can only find one here and there. Those old-fashioned schoolboys turned out more men than do the modern schoolhouses."

"Then there is the good old-fashioned religion. There is not much of it in Canada today. You have churches enough in Canada to serve the whole world, and I see something to the effect that they are going to unite. But I tell you, you will have to improve wonderfully or you will not drive the devil out of Canada with the gang you have now."

## "Eight-Cent" Christians.

At this stage of the address Sam Jones took a rap at the saloon—or, more particularly, at the people who tolerate the existence of the saloon. Being informed by a person in the audience that London was the model city of Canada, he calculated from figures furnished him that the saloon business here netted the city \$4,000 a year,

had been troubled with what he supposed was only a severe cold, but in spite of good care and medical treatment he could not shake off his disease, which proved to be pneumonia, and after a week's suffering death came. His relief, Mr. Lilliman, who was a member of the Anglican denomination, was a man of sterling integrity, and quite recently in Rochester, N. Y. The funeral arrangements will be announced later.

## NOT MUCH GOOD OLD-FASHIONED RELIGION IN THE COUNTRY TODAY

## Sam Jones Scores "London's Eight-Cent Christians"—Doesn't Like Politicians.

Sam Jones, the Georgia evangelist, was in the city over Sunday, having come in connection with the twenty-eighth anniversary of the Y. M. C. A. He spoke three times. On Saturday evening he was at the Auditorium, and discussed morals and money. At twenty-five and fifteen cents a head the place was filled. Yesterday morning he was at the Dundas Street Methodist Church, and in the afternoon he held forth at the Opera House, where fifteen hundred persons heard the unique character.

## Morals and Money.

Mr. Jones talked for over an hour at the Auditorium on Saturday night on "Morals and Money." Here are a few of his sayings.

"One mistake the world has made is that it has put gold before God. We think more of gold than God, more of chattels than character, more of mammon than of man."

"Really, we have run short of men, and every married woman in town thinks she has got a great man for a husband, whereas she has not got a man at all—just a pair of old breeches waddling around."

"The only thing you can make men out of is the little boys. The biggest job God ever gave to men and women is to make men out of your little boys, and grand women out of your little girls. When you have done that, you have done the best work that mortal can do."

"When the world's history shall be made up, the richest chapters in it will not be along the lines of our development commercially, agriculturally or financially. One true, splendid, real man will give more history and character to Canada than all the products of our country will give for a hundred years."

"Mothers, do you ever take your little boy and say you will make a man of him, even if his father is a scrub? A boy has not got to have the advantage of a great father to make a great man. He must have another."

## No Patience With Speculation.

"I have no patience with your speculation in the financial world. The man who speculates is unreliable. There is not a solid bank in America that will give credit to a man who is a speculator. No church has any respect for the preacher who speculates with theology."

"If you have, there are preachers in this country of advanced criticism have me down where they think I will have to part with the Bible or the other preachers? Well, the preachers can go to the devil for I am going to hang on to the Bible. There is this about the Bible, if it does not do some preachers, he will not get much."

"I never hear a scientist sporting around but I want to spit on him and drown him—and if you find one that cannot swim you have got him."

"The great trouble today in the world is just what the devil would the professions—little teachers, little lawyers, little preachers, little doctors. Why, they come out of seminaries and universities just like round sausages out of a machine. They are all the same size. The premium on pure honesty, industrious, upright manhood was never so high in the world's history as it is today. We have lawyers, doctors, teachers, merchants—anything you want except men. We have men short of men."

"The man who is a bigger than a king or a president. He is the biggest thing in God's universe, except God, who made him."

## Doesn't Like Politicians.
