Ottawa, Feb. 13, — The Government's bank bill will be taken up seriously in the banking committee next week, and the details of the measure thoroughly gone into. It has been decided that there shall be considered each Wednesday and Thursday. Friday will be devoted to the consideration of private bills. Bankers and other outside interests will be welcomed before the committee to make any representations which they desire, and there shall be twenty-four hours' notice before any amendment is voted upon. It is expected that he discussions of the Government's bank bill will be interesting. There are a good many members on both sides who are not satisfied with it, and are prepared to go to considerable efforts to force the hands of the finance minister to adopt modifications.

"Wednesday we moved 700 cars out of the yards at Black Rock and Fort Erie, and Tuesday we moved 600 cars, Since last Friday we moved 600 cars, Since last Friday we moved in the neighborhood of 3,000 cars from the different connections in that district, and everything is running smoothly at present. "During January of this year we carried 2,500 more cars of coal into Canada for Ontario and Quebec than we did in the same month last year. Taking into consideration the fact that last year was considerably colder than this, such an increase is phenomenal. "During the past month 1,100 cars of coal consigned to and from Ontario and Quebec were taken through the yards at Sarnia, and 6,000 cars passed through the yards at Niagara Falls. This sets a record for shipping for Canada, and means that business all through this district is increasing wonderfully." U. S. EASTERN RAILROADS FACE A GIGANTIC STRIKE

Bank Building, was attended by the largest number of businessmen of any annual meeting ever held in Goderich. Many interesting speeches were made by members dealing with a number of questions concerning the promotion of trade and commerce in Goderich. A publicity campaign has been launched, and an active transportation committee has been appointed, who will pursue the question of late connection and rail facilities, which now exist owing to the splendid condition of Goderich harbor.

The following officers were elected for the year 1913; President, A. H. Macklin; vice-president, J. G. Geddes; secretary, James Mitchell; treasurer.

b., \$8 60. Calves—\$8 to \$9 50.

TORONTO, Feb. 12.—The run at the Union stockyards was 48 cars, with 763 cattle, 177 calves, 137 sheep and lambs, and 792 hogs. The light run at today's market held prices about steady for the better class of butcher cattle, although, as has been the case for some time past, common butcher stock was easier, the run containing great many medium cattle. The short supply during the last few days of sheep, lambs and hogs has kept quotations for this sort of live stock up, and hogs today were in good demand.

FRIDAY AND 45c, 85c and 98c SATURDAY... 45c, 85c and 98c

Regular 75c, \$1.10 and \$1.35 Qualities

Friday and Saturday 250 yards of thoroughly seasoned, best quality Imported Inlaid, suitable for office, dining-room, hall, living-room, kitchen, etc. When we mention "best quality," we mean that this is positively the highest grade Inlaid you can buy. Its exceptional weight insures its lying perfectly flat on your floor. The colors will show clear and bright after years of the hardest wear. We have no hesitation in guaranteeing you entire satisfaction when you buy our best Inlaid. On sale Friday and Saturday, 98¢ square yard. (Regular selling price is \$1.35).

400 yards of the same maker's Inlaid as the above, but in a slightly lighter weight. Designs for the office, living-room, bathroom, kitchen, etc. On sale Friday and Saturday, 85¢ square yard. (Regular selling price, \$1.10).

ENGLISH CORK CARPET-Special for the bedroom in art designs of rose, blue, green and tan. This special floor covering only needs to be better known to have an immense sale. It is perfectly sanitary, warm, comfortable and soft to walk on, being cork instead of an all painted surface. The designs are artistic and dainty enough for any bedroom. To introduce it we will sell Friday and Saturday just 300 yards, so advise early shopping. Friday and Saturday, only 45¢ square yard. (Regular selling price, 75c).

HEAVY IMPORTED CORK LINOLEUM-Suitable for public buildings, offices, schools, stores, or wherever exceptional wearing qualities are needed. This comes in plain colors only, and our stock is always large enough to undertake large contracts at a very short notice. \$1.25 and \$1.00 per square yard.

Linoleums, Carpets, Wall Paper and Furniture-Third Floor.

Corset Demonstration Will End On Saturday

We have heard most complimentary remarks from many customers who have already availed themselves of the opportunity, or rather, as some have put it, the great privilege of consulting with one who has such valuable information to impart regarding the developing or cultivation of a perfect graceful form by the proper selection and adjustment of the corset, which with the present style of dress (and particularly the modes for the coming season), is the most important article of dress in every lady's wardrobe.

The suits and gowns you see on the fashion plates are pictured on the most improved corset models.

The remark is often heard, "You cannot look like the plate." If you are properly corseted you may come close to it.

Miss Milne, by special arrangements, will be with us until Saturday, and future engagements make it impossible for a return visit this season, so Friday and Saturday will finish what we consider, from an educational point of view, the most successful demonstration ever conducted by this store. The new 1913 models have been received, and you are invited to inspect. Demonstrator will explain and advise.

SIR JAMES AS A LOGICIAN. Sir James Whitney's new chain of reasoning will make old ladies shiver. Here it is:

Tax reform is Henry Georgeism. Henry Georgeism is political social-

Political socialism is the abolition of home, marriage, and religion.

link, so-called, Mr. Rowell proposes a num. buildings than Mr. Rowell suggests. to choose their own incidence of tax-

ation, is in this godless conspiracy. , Because Henry George wished to appropriate all land values, for public purposes, is it Henry Georgeism to exempt buildings from taxation? Because Socialists advocate the public ownership of all the means of production and distribution, is a man a Socialist because he prefers public ownership of a waterworks system? Mr. Rowell's proposal is no more Henry Georgeism or single taxism, or even an installment of it, than the public control of the postoffice is a step toward socialism. But if it were single taxism, the second link of Sir James' wonderful chain of logic would be as flimsy as the first. Single tax is the antithesis of socialism, as Sir James would have known playing to the grandstand. But isn't If he had even glanced at the literaon the subject. Herbert Spencer, the most unmitigated individualist of the latter half of the nineteenth cenary, regarded the public ownership of and as essential to a completely inavidualistic system. When Henry "Progress and Poverty" ap-Karl Marx, the intellect movement of Socialist denounced the single

"Socialistically-fringed attempt to save the rule of capitalism and to establish it in fact on a still larger foundation than at present." Kautsky, the great Socialist pamphleteer, stated the objection in more detail: "The quantity of wealth that a landlord can appropriate from the capitalist class becomes larger in

proportion as population grows, in proportion as the capitalist class needs land, i. e., in proportion as the caitalist system of production expands. In proportion with all this, rent rises; that is to say, the aggregate amount of wealth increases when the landlord class can slice off -either directly or indirectly-from the surplus that would otherwise be by the capitalist class

W. English Walling, who has writen the most authoritative book on Socialism in recent years, said only

"The industrial capitalists have every motive to put an end to this kind of parasitism (landlordism), and to use the funds secured through contiscatory taxation of the unearned increment of land to lessen their own

As to the third link of Sir James Whitney's chain, the Socialists can fight it out with him. The man who can deduce the abolition of religion and marriage from a reduction of 25 per cent, in the taxation of improvements, would be an easy mark for any tubthumper addressing a fortuitous gathring on the market square.

WHERE WESTERN ONTARIO SUFFERS.

The authorities of Toronto University are out after a larger financial support from the province. The university's net revenue for the past year was \$854,594, its expenditure \$875,849. In 1905, only eight years back, the whole expenditure of the university was only \$185,000, much less than a quarter of that of 1912. And still the University of Terento needs more of

the province's money. The Farmers' Sun says that the great buildings denated by benefactors are impoverishing the University of Toronto, as they did McGill a while ago. The upkeep of the palaces is costly, and "the cry is still more hay," as of the elephant in "Wang." The Toronto Star complains that the doings of the university governors are secret and compares their expenditures to the "secluded" control over \$5,000,000 surrendered by a subservient legislature to the the salt water. Compare out sea-front Whitney tyranny for nursing Northern Ontario. "Would it not be better," asks the Star, "if the meetings of the governors were public, and if the expenditure were under the control of the

Legislature, so that university policy vould be freely discussed in the Legisature?

If the exempting of buildings from taxation would end in abolishing reigion, as Sir James Whitney says, nadn't we better tax the churches?

Mr. Armstrong, M. P., would like to see the Intercolonial extended to this city. Hasn't he heard that certain people in London are trying to keep steam roads out?

The hydro-electric commission is not the proper body to decide the dispute over street lighting between the city council and the waterworks board. The commission is an interested party.

The new ward of this city will enjoy for 15 years a lower assessment on most of the land than on new buildings. By that time its moral condition will be shocking, will it not, Sir James?

If Dr. Friedmann, as reported, is asking money for the formula of his tuberculosis serum, he is a renegade to his profession, whose noblest tradition is that its discoveries for the benefit of humanty belong to humanity.

Charges against two or three Brit ish cabinet ministers in connection vith a Government contract with Maroni have been completely exploded. Experience With A Book Agent

[By Special Arrangement With the Winnipeg Telegram.]

The tribe may still flourish in Onario, but there are few book agents in Manitoba. It is only at very rare intervals that I am able to afford my self the pleasure of refusing to buy a fifty-dollar, morocco-bound, de luxe edition of someone's travels. Today, however I had that rare experience. A handsome, well-dressed young gentleman gained access to my study. No sooner had he seated himself in a graceful manner than he informed me in a few well-chosen words that he was "How beautifully your pannier an agent for such and such a work in line. That's the only way the Rileys gown fits, dear, I thought you grave fourteen volumes. This was a surprise to me, because I had not sized him "'Oh, no, said she, 'We all believe up for a book agent. However, I was here in the survival of the best fitsweep of my hand, I pointed to a table in a corner of the room, a table that was groaning under the weight of rows and rows of new books. Trying to consaid: "My dear young friend, do you see that pile of new books? I have not read one of them yet, so why should I buy your fourteen volumes? Besides I never buy any books; they are sent to me without money and without price by publishers who crave my blessing." As I unfolded this tale I could see a weary look spread over the book agent's face. Up to the moment when I began to speak he had looked upon me as a victim, but my words took the breath out of his sails. He looked at me in amazement, tried up for a whole year, and you are the first person that I have called upon my job so long that I do not know whether I can recall the lecture which usually deliver to prospective buyers. I capitulated at once and said, 'Proceed-fire ahead-unstop your flow f eloquence!' or words to that effect. Then that handsome young man in the costly, fur-lined overcoat began. Memory had not played him false, oh, no! He fixed me with his glittering eye, and I knew in that hour just what the wedding-guest felt like when he was transfixed by the glowing optic of the ancient mariner. But I was really deepy interested in the book man's art, or rather his "song." UGH! HOW CHILDREN HATE CASTOR OIL

To Clean the Little One's Stomach, Liver and Waste-Clogged Bowels Give Gentle "Syrup of Figs."

Look back at your childhood days. Remember the physic that mother insisted on castor oil, calomel, cathartics. How you hated them, how you fought against taking them. With our children it's different. The

day of harsh physic is over. We don't force the liver and 30 feet of bowels now; we coax them. We have no dreaded after effects. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. little stomachs and tender bowels are injured by them.

Problems of the Fair Sex Solved by Cynthia Grey

To "A Motherless Girl."

A Motherless Girl.—I fear you made mistake in being so lenient with the roung man. You should, I think, have given him to understand that you could not overlook such an offence so lightly However, that cannot be helped now but if he makes further overtures to regain your friendship do not give him the impression that you are just waiting to fall into his arms. It is your right to be reserved and somewhat cool until he proves that he is sincerely sorry for his conduct. If he does not do this, and avoids you, you must use every endeavor to quit thinking about him as a lover. I am heartily sorry that you have to sign yourself "motherless," for yours is just a case when a wise mother's guidance and advice are most needed. Come to me again if I, can help you. Perhaps it helps a little just to tell your troubles to some one else, and I'm always ready to lis-

might intimate. 3. You might cover the hat closely with a thick piece of cotton, and dip the spray into gasoline, rubbing it gently between the fingers. It will come out limp, but in a few minutes it will commence to dry and "fluff up" again. Take care to carry on the process in a room without a fire or artificial light. Another method might be to cover the hat and rub finely powdered starch into the spray. Let it remain for a few hours and then shake off the loose powder.

In the second game, the A. M. C. eam defeated the Meds by the score of 7 to 1, with the half-time count 5 o 1. The game was a good one and ast all the way through. The Meds have a strong team, but seem to lack eam work and combination play. If hey could get a little bit of combination going they would make the other eams hustle to beat them.

In the first half the A. M. C. team played a hard, close game, and ran in ive goals. However, the Meds grew etter as the game progressed and while they did not seere themselves hey kept their opponents down to two coals. Hymans had double the shots on coal that their opponents had, but the reat work of Campbell in the nets and he fast clearing of the Hussars de-ence saved the day. The Hussars vere without Harold McPhillips, their star coverpoint, but Fred Wells who has been out of the game for two weeks has been out of the game for two weeks was back again, and he played a great lefence. His rushes from the danger zone around the Hussars nets to the Hyman end of the rink saved the Hussars time and again when they were pressed hard, and his good work was partly responsible for the victory. Hymans got off to an early start, scoring two goals in the first five minutes. The Hussars woke up then and Bilbrough shoved the puck past Pat-en. A minute later Hymans added an-other and the Hussar also came back with their second. Just before half-time Manley shot another goal for the

Hussars, and at half-time the teams were on even terms.

In the last half the Hussars added two more and held their opponents scoreless. Quite a number of penalties were handed out, and some criticism was made of Referee Carrothers' decisions. However, both teams suffered airke, and there was little kick coming. "Crow" was out to keep the game clean, and he did so.

......14 Edmunds NTAIONAL LEAGUERS IN A SERIOUS CLASH

Delay in Ratification of the Schedule Involves Brooklyn Club's Opening.

New York, Feb. 12.—Delay in the ratification of the National League baseball schedule, which was postponed yesterday until today, is said to involve a serious clash over the plan to allow Brooklyn's club to open its new stadium with the Philadelphias on April 9, one day ahead of the opening games in other cities. It is understood that the New York National club is vigorously opposed to the plan, and that President Lynch of the league is also inclined against it. It was said today, however, that six of the clubs in the league were in favor of letting Brooklyn celebrate a day earlier.

President Stevely, of the London Club, this morning received a letter Guelph's score after being beaten in the first game in the Royal City by \$ to 7. Tonight's figures were 10 to 5. The visitors were delayed en route and the game did not start until after 10 o'clock.

Keen ice and hard checking by both teams prevented much combination, but the locals were able to use two-men rushes to advantage at times and have improved in this respect. Armstrong and Sandercock were the best for Woodstock. McKen, of Guelph, starred for his team. The half-time score was 6 to 1. The teams: from Del Chaput, who pitched for the landed him. TWO MORE PLAYERS SIGNED UP BY MANAGER DENEAU

Myers and Chickerber, Third Baseman and Outfielder, Are Men Landed-Oskee Neale Also Signs Up-Joe Keenan Gets Contract of Bradshaw, Berlin's Young Hurler.

[BY JINX.]

Judging by a letter received by the writer this morning, Manager Rube Were Beaten — Canadiens Deneau, of the London club, is making hay while the sun shines, or rather while the snow is on the ground, if such mixed metaphor is allowed. Rube Beat Wanderers at Montreal. while the snow is on the ground, if such mixed metaphor is allowed. Rube has signed up a couple more players for his Tecumseh Park collection, and he writes that he believes they are good ones. One of them is Harry Myers, who was with London a short time at the beginning of the 1911 season, but was with London a short time at the beginning of the 1911 season, but was later sent to Berlin, to whom he rightfully belonged. Myers is a good third baseman, and has recovered from the injuries which put him out of the game

The other player Manager Deneau has signed is an outfielder named Chickerber. Of him, Rube says that he is a fast man and a good hitter, and should be a valuable man.

Manager Deneau is not losing any time in grabbing up some good play ers. Although it is a little early yet to be preparing for Canadian League basebath, Rube does not intend to let any grass grow under his feet in the way of securing players. He is in touch with a few more likely enes, and will have Torontes 11 to 2 in a N. H. A. fixture a likely looking gathering when the snow melts and the balmy breezes of the springtime are once more blowing over Tecumseh Park.

> NEALE SIGNS A CONTRACT. President Stevely also received a signed contract this morning. Oskee Neale was the gent who had affixed his signature to one of the London club's 1913 agreements. Neale will not report to Manager Deneau until June 20, owing to his college term not completing until that time. However, he expects to come to London in the best of shape and ready to jump in and play his old position in left field. The terms offered by the London club were satisfactory to him, and he had no hesitation in signing a contract.

> > KEENAN LANDS BRADSHAW.

Joe Keenan expects to have a strong pitching department on the Berlin eam this coming season. Joe received the signed contract of young Bradshaw, the most promising lad in the Canadian League last season. Bradshaw is eager to get back into the Canadian League with Berlin, and Manager Keenan believes that he has a good one in the Chicago youngster. Bradshaw is only 18 years of age, yet he was as good as any of the plachers in the Canadian League last season.

JO-JO IS NOT "DUTCH." A number of Jo-Jo Keenan's friends have christened him "Dutch" since the news was made public that he had been signed by Berlin to manage the Dutchmen in 1913. Rumor has it that Jo-Jo has been studying German and burning the midnight oil trying to master the language so that he will be able to announce the batteries to the Berlin fans and otherwise make himself understood. Jo is already able to say "Auf Weiderstein" without stuttering, and he expects to be able to say "Hoch der Kaiser" without the Irish brogue,

in a few days. ABBIE JOHNSON MAY GO WEST. Abbie Johnson, the former Guelph manager, but more recently of the Strathroy Stars, will likely go to Fort William and manage a team there this summer. Zince Jo-Jo Keenan has signed up with Berlin the Fort William club have given up the idea of landing him, but they are after Johnson, who was recommended by Keenan. Abbie is still a good ball player, and he should make good. He knows the game, and has a lot of experience managing clubs. The Fort William club is negotiating with him at present, and it is likely that he will accent.

He came forward with a five dollar bill in his hand and stood before Trumbull. The latter blinked at it in silence, "There's a good deal of scrappin' been goin' on here, and I don't like it," said Nat to the group. But so long's it's begun I want to see it through. I don't ask any favors for 'Gene Page on account of his bein' my brother. He don't ned any favors. But he's here workin' like the rest of ye, an' I won't say No if he or any of the rest of ye stick up for your rights man-fashion. There's been a lot of loose talk floatin' round 'bout him, an' I don't blame him for kickin'. He wouldn't be a man if he didn't; he wouldn't be the husband of Julie Moulton if he didn't."

Trumbull drew back into the crowd. Trumbull drew back into the crowd. Nat still held the bill in his hand. "I'll back him ag'n any of ye—any time

Though matters had now reached oint where Nat needed every man and very minutes for his work, he called Gene to one side about the middle of

ednesday forenoon. "The funeral's today," he said. Gene held his breath. He had dreaded is day. He had an uncanny feeling that he came anywhere near that dead body mething would happen. He had heard of such things; of corpses rising in their shrouds to point an accusing finger, and was superstitious enough to believe hem. He had hoped against hope that Vat would go off by himself and leave him out of it. There lay a worse danger refusing to go. In his present mood felt that it would take but a trifle to

At the foot of the mountain Nat once again hired the Dutton rig, which brought them home at about one o'clock. Tommy and his father had spent all the day in making the house ready for the event. They had cleaned it from the front step to the back, and in the living-room had arranged a solemn row of chairs in a arranged a solemn row of chairs in a semi-circle. Mrs. Paga had attended to the other details which had to do with the mute figure in the closed room. When he two men came in she was at the othe ouse with the child, dressing for the

Make Farm Attractive.

"Make the farm attractive for the young man of today, and he will not want to go to the city," he said. "The greatest trouble is the average farmer only seeks to make enough to pay the taxes and his hired help, thus leaving nothing for his labor. By proper management the farm can be made to produce greater earnings than the city

Professor A. E. Chamberlain, develpment commissioner of the Great Northern Railway, St. Paul, Minn., spoke in the afternoon on "Improvements of Standards by Breeding and Selection." He was followed by J. H. Smith, M.A., I.P.S., of Chatham, who took for his subject "A Young Canadian Yeoman."

He made a strong plea for the keeping of the boys and girls on the farms. He would form an organization somewhat similar to the Boy Scouts, but open only to country boys and girls. One of the requirments for admission to even the lowest grade, activities against the police grafters, of this organization would be a certain knowledge of agriculture and the ability to perform certain farm labors. The provision of a cheap uniform and a badge would, he thought, do much to interest the boys in the movement.

> Tax Reform, In urging the Government to recon-

ider its attitude towards tax reform, fr. Rowell pointed out that a system of taxation was much more than a method of collecting revenue. It was a means of raising money for a definite public purpose, but the method adopted had a serious effect on the social and industrial welfare of the community. He quoted from the report of the British housing commission of 1884 to show that the own ers might profit by the growth of the community. In a growing community, where the annual charge on land was low, under the present system an owner could take his time and hold his land for an increase in value that would far exceed the yearly tax. If land was taxed, continued Mr. Rowell it would be unprofitable to allow it to remain idle. On the other hand if the burden of taxation was placed upon improvements-upon products of industry and skill-the tendency was to discourage the products of industry. Tax reform was not a Henry George theory any more than was the report of the British housing commission. But it matterhousing commission. But it mattered little what theory it might be called, if it was right and touched the social problems of the day they should be willing to adopt it.

> As a breakfast food, another variety of the healthful cereals which is much used in America would be advantageous. Grape-Nuts, in which the floury substance has been dextrinized by long baking and thus rendered digestible and easy of assimilation, is eaten with cream and would be a useful addition to our usual breakfast.

The recommendation of this eminent European authority to the wealthiest healthseekers in the world (those who frequent the famous baths of Carlsbad) is especially interesting to Americans.

Grape-Nuts

Is sold by grocers almost everywhere in America for 15c the package.

While GRAPE-NUTS may be a "health luxury in Europe, this sturdy health-giving food is within the reach of practically every American at trifling cost.

In thousands of families GRAPE-NUTS and cream is the regular breakfast dish of wide-awake, go-ahead people.

Rich in the brain-making, body-building elements of prime wheat and malted barley, this food has won for itself at home and abroad the title of "The King of Breakfast Foods."

SMALL ATTENDANCE ON LOCAL MARKET

Hay Sold From \$11 to \$13-Vegetable Offerings Were Light.

Owing to the fact that there was not a brisk demand for the offerings on the local market on Tuesday there was a small attendance today. Some fifteen to eighteen loads of bay

sold at prices ranging from \$11 to \$13 per ton, and the majority of the sales were made at \$12.50 per ton. A couple of loads of straw were sold at \$7.50 per ton, Oats were firm at \$1.06 per cwt. Few vegetables were offered today,

as the weather was too severe to bring greenhouse produce to the market. A few loads of potatoes were sold at \$1.05 per bag. Cabbages, turnips and carrots were the other varieties of vegetables sold this morning.

Butter and eggs were scarce, but there were no changes in the prices. It is not thought that the price of eggs will advance much more, as there is a large quantity of eggs in storage at the present time, and this will assist greatly at keeping the prices about the same as are prevailing at present.

Tells Officers and Men of the Seventh Regiment Competition Would Help.

New Garrison's Rooms for Rank and File Opened With a Happy Gathering.

In an atmosphere of thorough good fellowship, and with euchre tables surrounded by red and blue coated military men and others in "civics." the new garrison room in the northwest wing of the armories was officially declared opened Wednesday night by Colonel Hodgins, D. O. C.

The credit of securing the warters must be given to Lieut,-Col. Campbell and the officers of the Seventh Regiment, who have worked untiringly in the interests of the men and have finally gained the Government's consent to use this portion of the armories for a garrison room. The commodious apartment formerused as a bowling alley has been efitted and presents a most homelike

appearance. Magazines and papers are spread about the quarters for ose who desire to read, and en tables are also scattered here and there. Later on a couple of pool tables will probably be installed.

Officers Give Furniture. The furniture in the room has been provided by the officers of the First Hussars, Sixth Battery of the Canadian Field Artillery, Seventh Field Company of the Canadian Engineers, Seventh Fusiliers, No. 16 Company of the C. A. S. corps, and the Signallers'

The official from Toronto delivered a two-hour address in which he explained the regulations. It had been considered after much study that the method proposed would be the one best suited to the exigencies of the situation and with this in view it has been proposed to try it for the present school year. It had been pointed out that bilingual schools under the old method were not efficient, and the new system, while not involving any extraordinarily radical changes, proposed to remedy this by giving the pupil a good working knowledge of the English languae, which he was required to study, after the preliminary

use of his native tongue.

If the board refuses to carry out the regulations and persisted in so doing, it would lose the Government grant, and not only this, but the present model and training schools for teachers in this city would be removed. It was also made clear to the teachers

NO FURTHER REPORTS ed the Matter To Lay on the downtown streets.

Acting on instructions from the fire and light committee, City Engineer Brazier submitted a plan of the streets in the recently annexed district, together with the approximate number of lights required to properly light the streets, at a meeting held Wednesday

He estimated that it would take 271 lights, one on every other post, where-ever there are any residences, to give a proper illumination to the new dis-

Ald. White thought the question of the installation of lights in the new districts should be left over until some definite decision was arrived at between the city and the hydro-electric commission, but Ald. Stein and Rose did not agree with him, it being their contention that the lights should be installed at once.

Wants Further Report.

After considerable argument, in which Ald. Ashplant stated that the engineer should go over the district and find out whether a light was unnecessary, and report back to the committee, a motion by Ald. Stein to the effect that the lights be erected subject to the approval of the city engineer, carried. Following are the streets on which

The city council will assist the medical men of the city in entertaining the delegates to the convention of the Canadian Medical Association to be held here in the first week of June. At the meeting of the manufacturers' committee held on Wednesday af-ternoon it was decided to lease the Masonic Temple on Queen's avenue for the convention, and in other ways assist in entertaining the delegates. It is expected that from 600 to 700 medical men will be present.

A representative of Lloyd's, an English firm, asked for an appropriation for advertising in a set of books being prepared by them on Canada. The ommittee agreed to take space. Ald. Spittal presided.

PAPER PRODUCTION

Would Do Away With Cutting Down of

New York, Feb. 13. - A London cable says: A new material for the production of paper was suggested at the Royal Society of Arts last night. It was stated that if a plant called Hedychium coronarium, which is a native of India, was cultivated over vast tropical or semi-tropical spaces, mankind would have no need to cut down the forests and make them into paper. The forests, it was said, could go on fulfilling their natural purpose, and newspapers could be printed on the substance, which looked just like what is now called paper.

Bronchitis is an acute inflammation of in silver or stamps. the membranes lining the air tubes of the lungs, and begins with a tightness across the chest, and a difficulty of breathing accompanied by a hard dry cough which later develops into the raising of a greenish or yellowish phlegm.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, and thereby preventing it becoming chronic thereby preventing it becoming chronic and perhaps turning into some serious lung trouble. Mrs. John Fawcett, Salisbury, N.B., writes: "A year ago I was a victim of Bronchitis. I was so bad I could not lie down, and had to be propped up in bed. As the doctor failed to do me much good a friend, who came to visit me, advised me to try Dr. Wood's Norway Pine Syrup. The first bottle helped me so wonderfully I took five bottles in all, and was cured. I have not had an attack of it since."

MENACE TO FIREMEN

Underwriters' Inspector Urges

NEW MARKET WALKS

Will Be Put Down in the Spring Tractors To Be Purchased.

Inspector Minions, of the Fire Underwriters' Association, appeared before the fire and light committee at its regular meeting Tuesday night and urged upon the members the necessity of making some move to clean out the maze of overhead electric wires

They are, he claims, not only a great handicap to the firemen, but a menace to life.

Some of the wires, he says, are put up flimsily, particularly the ones used by a telegraph company as a call system. He has made a detailed report of the condition of the wires belonging to the hydro-electric commission, the Helena Costume Company, the London Electric Company, and the C. P. R. Telegraph Company, and has forwarded these reports to two of the companies.

Both these companies have started gangs to work on the repairing of the system. Mr. Minions was advised by Chairman Rose to send a communication to the council at its next meeting, and assured him that something would be done about it.

The Market Walks, Market Clerk Maker and City Engineer Brazier made a report on the cost of installing cement sidewalks in one portion of the market square for the market gardeners, who are anxious to rent them. The former claimed that there are 80 men who would be willing to pay \$10 a year as rental for a certain space, and the latter that it would cost \$570 to construct the walks. As the rental of one year will more than pay for the walks the committee will recommend to the council that the work be dene.

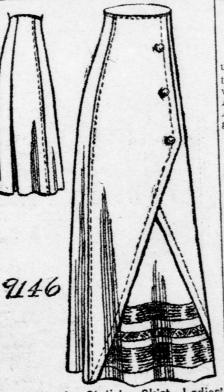

A petition presented by McKillop, Murphy & Gunn, complaining on be-half of a number of residents of the north end of the smoke from the chimneys of the Hyman tannery and the Carling brewery was read, and the city engineer instructed to make an investigation and report.

Request Was Granted.

.Chief Aitken asked permission to purchase enough lumber to make wheel-locks for fire apparatus to be used when the department receives a call for aid outside the city, His request was granted. He also asked for lights to be placed in front of each of the fire halls. Two will be erected in front of the central hall immediate. y, and the chief will report on the eost of the erection of the others. On motion of Ald. Stein it was decided to call for tenders for a tractor to haul the combination wagons of the north, south and east end halls im-mediately. It was estimated that the cost and upkeep of horses in a year amounted to more than a tractor would and in all probability one or more tractors or automobile appartus will be purchased.

Tenders for firemen's uniforms were submitted by three firms, but they will not be dealt with until the special meeting which is to be called next week.

Dizzy Spells.

Those feelings of weakness, those dizzy spells and "all gone" sinking sensations, which come over some people from time to time, are warnings that must not go

They indicate an extremely weakened condition of the heart and a disordered state of the nerves. One dizzy spell may pass off, but the

next may be more serious. Those who are wise will start taking Milburn's Heart and Nerve Pills, before their case becomes hopeless. They have no equal for reviving and strengthening the heart, and invigorating the nerves.

Mrs. A. E. Martell, Rockdale, N.S., writes:—"I was troubled for a long time with my heart, had weak and dizzy spells, could not sleep, and would have to sit up the greater part of the night. At last I got a box of Milburn's Heart and Narve Pills and they did more much and Nerve Pills and they did me so much good I got another, and after taking it I could sleep as well as before I was taken sick. They are the best medicine I ever heard of for heart or nerve trouble."
