ARE LIKELY TO FORCE CAPT. D'ANNUNZIO TO LEAVE FIUME

Ultimatum Is Expected To Come From Allied Powers Whose Representatives Have Been in Conference Concerning Situation in Disputed City — Duke of Aosta May Act As

Paris, Sept. 20.—Capt. Gabriele D'Annunzio may be given 24 hours to move his forces out of Fiume, on which city a squadron of Allied warships has turned its guns, according to advices received here by way of Berlin, Laibach and Vienna. It is indicated that this ultimatum will come from the Allied powers, representatives of which are reported to have conferred at Abbazia, about two miles northwest of Fiume, to which place they retired when Capt. D'Annunzio entered the latter city.

Advices from Rome say that the Duke of Aosta, a close friend of D'Annunzio, has conferred with King Victor Emmanuel and Premier Nitti, and it is suggested he may act as mediator in an effort to bring about an abandonment of Fiume by the D'Annunzio

Capt. D'Annunzio is reported to have with him many members of his famous aerial squadron, which fought on the southern front oughout the war. The Italian Government, however, has ored the magnetos at all aviation camps removed so that no more chines may go to Fiume.

LEET OF ITALIAN AIRPLANES IS PLACED AT DISPOSAL OF CAPT. D'ANNUNZIO IN FIUME

Rome, Sept. 20.-Premier Nitti and Foreign Minister Tittoni have disagreed over the Fiume incident, the latter disapproving of the premier's attitude, according to the newspapers.

A dispatch from Trieste says a fleet of airplanes has landed near Fiume and has been placed at the disposition of Captain Gabriele D'Annunzio having flown from one of the Italian aviation camps. A brigade of Lombardy troops which arrived at Fiume and volunteered to join the D'Annunzio forces, was sent back to its garrison, says a dispatch to the Messagero. Capt. D'Annunzio's action in taking over control of Fiume is approved in a manifesto issued by the national association of wounded soldiers.

LINER WITH TROOPS FROM N. RUSSIA IS REPORTED ASHORE

White Star Steamer Believed To Have Met With Accident in Gale.

London, Sept. 20.—An Evening News dispatch from Kirkwall today reports a White Star ship ashore north of Ronaldstay. It is believed, it says, that 2,000 troops from Northern Russia are on board, according to the dispatch.

The liner ran ashore during a gale, adds the dispatch, which gives no further details.

Ronaldshay, where the White Star liner is reported ashore, is in the Orkneys, to the North of Scotland. The Orkneys lie along the route taken by vessels coming from the Arctic and along the Norwegian coast to British ports. Presumably the liner was carrying British troops from the Archangel sector of North Russia, which the British army is now evacuating.

TO SOW LESS WHEAT

Recommendation is Made by American
Department of Agriculture.

Washington, D. C., Sept. 19.—A reduction in the acreage to be sown to winter wheat this fall of approximately its recommended to the farmers of the country today by the department of agriculture. This reduction, which would mean a total of about 42,000,000 acres this year, was recommended on the basis of prospective conditions of world supply and demand, as judged by specialists of the department, who were sent abroad to report on the wheat crop status of European countries.

With the added recommendation that 20,000,000 acres be sown to spring wheat in 1920, a reduction of 12 per cent from the 1919 spring sowing, the department said this would mean an aggregate production in 1920 of approximately 330,000,000 bushels, or equal to the average yield for the five years from 1915 to 1919 inclusive. This average was taken as a safe guide for American farmers. It was estimated that it would leave a surplus of about 200,000,009 hushels for export.

London, Sept. 20.—Great Britain's treaty with Persia does not constitute a protectorate of the latter country in any way, the only object of the agreement being to insure Persia an opportunity to work out her destiny as an independent country, said Earl Curzon, government leader in the House of Lords, and president of the council, in speaking at a dinner given hare last night in honor of the foreiga minister of Persia. The speaker admitted there had been misunderscandings of the treaty, but said there was no ground for suspicion, and this would be proved by the working cut of the agreement. An era of choos and confusion in Asia was forecast by Earl Curzon, who declared it would be some time before stability is restored in regions formerly dominated by Russia and Turkey.

"When we speak of the independence of Persia," Earl Curzon said, "meaning the political and national independence of the country, I contend now, as I have always contembed, that the independence of the country, I contend now, as I have always contembed, that the independence of the country, I contend now, as I have always contembed, that the independence of the country, I contend now, as I have always contembed, that the independence of the country, I contend now, as I have always contembed, that the independence of the country is instead in the political and national independence. The BALDWIN Mine is situated in the famous Kirkland Lake district and is owned outright by the Company. The property, plant and machinery are all paid for and free of encumbrance. The Company has done a considerable amount of development work—the shaft is down 215 feet—cross-cutting 150 feet, drifting about 70 feet—all in ore bodies. The location is exceptional, with the railway running clear across the north end of the property and trains stopping at the mine. The Blanche River runs through the property, which is thickly wooded, thus providing fuel, building material and water in

A petition is being circulated and be ing signed by every ex-member of the battalion. It was thought by them that Kane had been pardoned and allowed to proceed to France, and they were shocked on their return to learn that he is still lying in prison.

The petition is addressed to the min ister of justice in Ottawa, and points out that Kane was not a bad man, but was under the influence of bad whiskey at the time of the murder. His mother died broken-hearted about three months ago. It is the intention of the Comrades to send a copy of the petition to the minister to be immediately followed by one to every member of parliament from Military District No. 1.

Guaranteed to Strengthen Ey esight 50 Per Cent In One We ek's Time in Many Instances

Philadelphia, Pa. - Victims of eye Philadelphia, Pa. — Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription, and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would pain dreadfully. A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overwork, tired eyes which induced fierce headaches. I have worn glasses for several years both for distance and work, and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

New York, Sept. 20.—Industrial unrest, especially in the steel and iron
trade, was the one outstanding factor
of an irregular and comparatively dull
week in the stock market, transcending all other events in extent and influence There was an under-current of firmness at times, due mainly to the strength of equipments and specialties, notably tobaccos, but much of this tone was forfeited later when several leaders, including United States Steel, registered tered minimum prices for the current In speculative circles it was believed hat intervention from high quarters might yet serve to avert next week's walkout, but this feeling found new

walkout, but this feeling found new supporters elsewhere. Some encouragement was found in the easier tone of the money market, time funds being in freer supply, even though restricted to the shorter periods, but call loans stiffened beyond the average rate of the previous week.

Foreign exchange suffered further violent depreciation, bills on London approximating their recent exceeme discount, while French, Italian, German and Austrian remittances fell below all previous records. The exchange situation was not without bearing on the country's foreign trade, exports of cotton, for example, showing a furtner decrease, shipments of other commodities also being curtailed.

Quilly Porcupine was like many people who entertain, so tired getting ready all the good things to eat that he or anything else, and he sighed and groaned, and said to the white procupisit me, but never any more parties for me, I find I am too old for that "That's queer! I am not tired at all, just as fresh as a rose," said Alphonse, I would think you would be rested for you haven't done at thing but sleep ten hours a day, and I have done all the work. But look here, Alphonse, I have the best joke—you know those shelves in the cellar pantry where I put all the refreshments for the party; well, everything is eaten up by those rascals except the hemlock bark and the lily pads for us! "Never mind, Quilly, if we have enough, I shall die daughing to see those guests when the time comes for refreshments. They will all be ashamed that they have crawled in the back way and eaten everything up."

I wish you could have seen that party My, everyone did have such a good time! The only trouble was that the house was so small that when the porcupines got into it there wasn't room for the other guests. There were four brown porcupines, and Quilly and the reels and jigs were danced by everyone.

All at once the orchestra played a fox trot, and of course Mr. Red Fox thought that was an invitation, and so up he popped and asked Peter's mother to take a turn with him.

You would be surprised how in less than no time, all of those little animals darted into Quilly's front door and out of the back door and away.

The Way Mother Graham Greeted Madge

"Do I look like a fool?" was my mother-in-law's response to this contribution of mine. "You'd better own up the whole thing. Richard simply handed me that note in order to pull the wool over my eyes. But," grimly, "he never has been able to do it yet, and I'm not quite in my dotage, although you and he probably think that I am. No, you've had a disgraceful row, and I don't wonder Richard tried to get out of it by pretending he had such a rush of orders on that he couldn't get home to sleep for a month. Said a lot of them had come in yesterday, and that he had told you about them." I bless my stars for my mother-in-law's garrulity, She had given me my cue. If Dicky had betrayed no inkling

The Way Mother Graham Greeted Madge.

For a moment as I gazed upon the blank sheet of paper which Dicky had seen fit to inclose in the envelope he had given his mother for me I "saw red" in primitive feminine fashion, and could have shrieked my anger and humiliation at the trick my husband had played upon me.

Then, as I remembered that the keen eyes of my mother-in-law were fixedly watching me, I controlled my wrath with an effort of will power that cost lightly as I crumpled the paper in my hand.

"Poor Dicky!" I said carelessly. "I wonder if nothing will ever cure him of being absent-minded. I suppose he is carrying the note to me around in his pocket under the impression that it is a sheet of blank paper, while he has put no writing at all into this envelope."

Madge Gets a Cue.

I tried to make my friend's connection with the affair as sketchy as possible; thought that I had succeeded until after I had finished and my mother-in-law had relaxed somewhat from the breathless attention with which she had followed my story, she said caustically:

tically:

"If that red-headed friend of yours doesn't look out she'll find herself held as an accessory or whatever they cail it. She seems to be making an 18-carat idiot of herself. For my part I wouldn't put it past her to have slipped something in the other woman's tea at that. What's the matter?"

I knew my face must have betrayed the inexplicable feeling which had recurred to me at the commonplace phrase "the other woman's tea," which my mother-in-law had used. Why should I be haunted at every turn by the memory of Milly Stockbridge's hands reaching out greedily for the packets of tea which I had offered her at the schoolhouse the last day I had seen her alive? But not to my mother-in-law could I confide my psychic powers.

I bless my stars for my mother-in-law's garrulity, She had given me my cured. If Dicky had betrayed no inkiling of our disagreement I assuredly should not be the one to "spill the beans." In spite of my anger at him I could not help a twitching of my lips as I remembered how often the crude phrase was upon his lips.

"He did speak of the orders," I affirmed unwinkingly, salving my conscience with the remembrance that upon our motor ride home he had sald that his work was picking up most encouragingly, "And you are utterly mistaken, mother, in your theory that Dicky and I have had any disagreement over Alice Holcombe."

"Well, if it wasn't she it was something else!" she asserted stubbornly. "I know the earmarks of a row when I see them, but, of course, if you make up your mind not to say anything, why, I suppose you'll be as mulish as you generally are. Now never mind standing on one foot in your hurry io get away, I want to hear all about what happened today. I feel it in my bones that something mighty unpleasant is going to develop from that woman's death."

Mother Graham's Idea.

"Your premonition is justified this time," I said stiffly. "Mr. Stockbridge was arrested this afternoon upon suspicion of having killed his wife."

"You don't tell mej" she exclaimed, her face and eyes alight with the en-

Women At Home and Abroad

MOTHERS OF POLAND PRESERVED N. TIONAL SPIRIT. The little country of Poland, now stepping again into the ranks of independent nations, does so because during the 300 years of oppression at the hands of Russia, Poland never lost her national aspirations. This was because the fires of patriotism were kept burning in the hearts of the people by the mothers who bore them. In teaching their children the secret aspirations of the nation, they were preparing for the

ing in the hearts of the people by the mothers who bore them. In teaching their children the secret aspirations of the nation, they were preparing for the day when it would be possible for them to step forth a free nation again.

Mme. Kluszynaka of Poland, the only accredited woman delegate to the peace conference, who has been an educator in that country for more than 17 years, declares that the women of Poland have a better knowledge of the problems of state government and are far more interested in political problems than are the women of any other nation.

In certain events, it is probable that Mme. Kluszynaka will automatically become a member of the Polish Diet.

Why Ty Went Hitless

DETROIT, Mich., Sept. 19 .-

Rain sorta stepped in on the rugby practice last night, but the drills will be continued this afternoon if J. Plu. lays off with the sprinkler long enough, starting right sharp at 2 and continuing until the squad has had a real workout. In a few weeks, rain, or for that matter snow, won't mean anything to the workout program, but just at this stage the enthusiasm of the candidates, which is visibly increasing each tryout, might easily wash off. Most of the work has been light, and the hard gruelling will come next week. The Tecumseh Park grounds are next thing to a feather bed to fall around on now, but with a couple frosty nights which are due before long, some of the candidates will have more trouble kidding themselves into condition on the grounds of how hard and how often they can friction with old Mother Earth and still like it.

HOW IT HAPPENED.

"I am eighty-three, says Mr. Ashelman, and I doctored for rheumatism ever since I came out of the army, over 50 years ago. Like many others, I spent money freely for so-called 'cures' and I have read about 'Uric Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not bold a pen. But now I am again in active business and can walk with ease or write allday with comfort. Friends are surprised at the change." You might just as well attempt to put out a fire with oil as try to get rid of rheumatism, neuritis and like complaints by taking treatment supposed to drive Uric Acic out of your blood and body. It took Mr. Ashelman fifty years to find out the truth. He learned how to get rid of the true cause of his rheumatism, other disorders and recover his strength from "The Inner Mysteries,,' now being distributed free by an authority who devoted over twenty years to the scientific study of this trouble. If any reader of this paper wishes "The Inner Mysteries of Rheuma-tism" overlooked by doctors and scientists for centuries past, simply send a post card or letter to the author below. INGERSOLL. Sept. 19.—Three boys from 14 to 16 years of age were in police court today charged with the theft of fruits and vegetables from Geo. A. Ionson, who estimated his loss during the last two weeks at \$50. Two other boys will appear in court Monday. When Acting Chief Jackson visited Ionson's premises last night five boys were in his corn and mellon patch. Those appearing in court today were allowed to go with a warning.

Great Fortunes Are Made When Oil Is Struck

All the oil enterprises that are today pouring forth such vast riches were at the start speculative. This is speculative. If this were not speculative—if oil were actually spouting from wells on this property today-you wouldn't have this opportunity-your money wouldn't be needed or accepted.

It has been proven, many times, where one has lost a few dollars in one of these speculations that same person invested in another that

The men back of this enterprise are perfectly frank with you-not only because of the moral consideration but because they believe it pays Already the wisdom of this course has been amply demonstrated.

A Wonderful Chance To Win Big Or Lose Little

So far you will admit this proposition is different from the usual stock offer. It is clean, legitimate, fair and square—where all investors are treated alike—where we all win together—or lose together where there is a better than usual chance of making big money.

The Company's methods are open to the closest scrutiny. Its organization, its directors and officers may be thoroughly investigated. You may have whatever information you desire before you part with your \$10. After remitting you will be given ten days in which to make any inquiry you like. Then, if you are not fully satisfied you have invested your money wisely, you can have your money back by asking

The men behind this Company have put their capital into this enterprise. They are risking thousands. You are asked to risk \$10.

This clear cut simple map shows the location of the Great North Central Texas Oll area and the properties of the Buffalo-Texas Oll Company, a common law company that does business through a Board of Trustees elected by the shareholders. You will note by the square black blocks that we are located in known oil bearing centres-It's not acres you want but "loca-

located in known oil bearing centres—It's not acres you want but "locations."

Property "A"—Fisher County—317 acres northeast of Roby. Our leases here are well within the area of new test wells and a gusher here would mean thousands perhaps millions to our stockholders.

Property "B"—Wilbarger County—140 acres in three leases, one of 86 acres and two 30 acres each. Many experienced oil men and eminent geologists believe that the oil sands here are directly connected with the immense producing sands of the wonderful Burkburnett and North West Burkburnett Extension pool districts, and predict that this is a continuation of one or both of these pools with enormous production.

Property "C"—Where We Are Now Drilling—25 acres in Wichita County south of the town of Electra 700 feet from Good wells. The world now knows of this county as being one of the Glant producing counties in which is situated the Burkburnett original development. Everybody interested in oil knows this district to be a phenomenal producer. Will you be one of those who will have a real interest in the way of money returns?

Note—You probably know the close proximity of these properties to the various locations where other wells are now drilling and many spouting oil —where hundreds of wells have been brought in including Gushers shooting up thousands of barrels a day. (See press reports here quoted—You probably see hearing of these brought in any development.

were numered by wells have been brought in including dustress should be thousands of barrels a day. (See press reports here quoted—You probable are hearing of these big giants that go over the derricks frequently now).

Our Holdings in This Rich Field Offer Choice Locations for Many Wells

Our leases are fully paid for and ample funds new in Texas banks for work in hand and our leases offer choice locations for upwards of 60 wells. Our chances of striking a gusher are equal to any and better than most. The Company's land shows all the surface indications of oil that these other fields ever had. Producing wells are being brought in nearer to our properties every day—wells are now drilling to the north, east and south of us. You are invited to 'look up' this Company through any channel you may choose. The officers and directors whose names follow, are all men of integrity and reliability. They are putting their own money, their time and faith in this enterprise with a determination to make it a big success.

Many new locations are being made near our leases—driking rigs are being rapidly moved in and constructed to begin operations at once. The activity in this section is increasing daily and development is being rushed on a large scale. Any day word may reach us of the bringing in of these wells—a gusher—would mean thousands or perhaps millions of dollars in increased values of our leases and the stock of this Company.

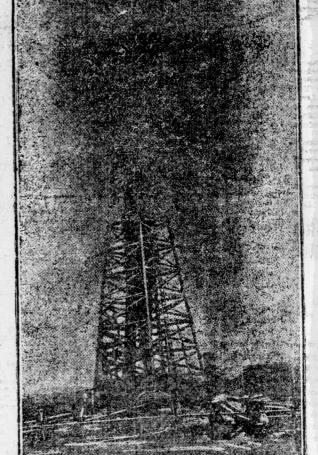

These are some of the reasons—without going into geological or technical details—why the officers and directors of the Company have such faith in this property.

Beginning with "Sahara," the greatest Oriental production, starring Louise Glaum, which plays the Majestic, commencing Monday, September 29, one can run through a list of great productions, each following one another without a break in the excellence of the offerings. There is E. K. Lincoln in "Virtuqus Men," a thrilling melodrama of American society life; the first national production of "Choosing a Wife," and the British special, "Comradship." It must also be mentioned, the big special Mack Sennett five-reel comedy, "Jack Canuck in Berlin," which comes for the full week of October 13. The beautiful Mack Sennett bathing girls, who have been ad-Sahara," the greatest Oriental produc-

BOSTOCK RIDING SCHOOL HEADS

Sam Yee Troupe Headline Attraction Thursday, Friday and Saturday—Attractive Program Changes Twice Weekly -Includes Ten High-Class Keith Acts.

The headline attraction on Monday. Tuesday and Wednesday's all-star Keith oill will be Bostock's Riding School, a mammoth comedy act, with five circus riders and horses, showing how circus riders are made. The minds of vaude-ville producers are ever at work striving to devise acts that are different from the usual run. It isn't an easy matter, for there is little new under the theatricasi sun. Consequently, when something absolutely new does glisten in the amusement firmament it causes deserved comment. Bostock's Riding School will present just such an unusual act in their wonderfully Comic Circus Rider, in which five famed circus performers star. It is the most pretentious act of its kind ever produced, barring none.

Elbert Hubbard, the popular American

Philosopher, said:

"We are all sentenced to death: Our life is only a reprieve for a longer or a shorter time." This statement has a scientific basis and our "reprieve" de-

creases with advancing age. For example, if they are now in normal health—then on the average—

Men aged 20 will live 42 years, 2 months 30 " " 34 years, 8 months 27 years, 5 months 20 years, 3 months 60 " " 13 years, 9 months

Note that the expectation decreases with each added year of life, and this is the reason that in life insurance there must be a higher premium at each higher age.

Note also that we cannot tell how long any individual will survive. The average may not apply to any one man. He may live a year, or maybe fifty years, but taking a large number the average number of years is indicated correctly for the above ages. Therefore if you have insurance, cling to it, "like

VAUDEVILLE PROGRAM

LAST HALF OF WEEK.

Although Mary Pickford's greatest production, "The Hoodlum," will remain at the Grand all week, there will be a complete change of the vaudeville program on Thursday. For the latter half of the week the management has arranged another vaudeville bill that will be the talk of the city.

The Sam Yee troupe of Chinese novelty artists: Charles and Sadie MacDonald and Company in a comedy sketch; Swain's Cockatoos, a somewhat different offering: Fred S. Paine, xylophonist of the Detroit Symphony Orchestra in a repertoire of popular hits, and the Carr trio in an unusual offering of varieties are the attractions that will be offered Grand patrons on Thursday, Friday and Saturday.

MLLE. NITTA-JO IS AT THE GRAND TODAY FOR THE LAST TIME

Four Other Big Keith Acts and Feature Photoplay on Program.

The bill, playing at the Grand for the ast time today, is headlined by Mile Nitta-Jo, the biggest sensation in vaudeville, one of France's most popular character singers, who is making her first tour of America. Here she has created a positive furore, and has been acclaimed the greatest artist to be imported in years. She impersonates "La Gigolette Parisienne," which is a feminine Apache. Her characterization is graphic and exceedingly interesting. Mlle. Nitta-Jo is the possessor of an unusually beautiful and melodious voice, and this she uses to the best advantage. It is very difficult to describe an artist. Art is something that invariable makes its presence felt, but baffles descripion, and Mile. Nitta-Jo is an artist to her finger tips. She has played throughout the world. Mademoiselle was born in Paris, and made her stage debut when only nine years of age. She is

when only nine years of age. She is an actress as we as a sainger, and combining the two qualities has made her one of the most unusual person allties on the stage.

A special feature of this bill is Sidney Taylor & Co. who present a comedy sketch. Mr. Taylor is known throughout the country as the producer of vandeville sketches that are not only highly amusing, but thoroughly novel in their conception. His present offering is a one-act comedy that fills all the requirements of perfect entertainment. Bolger Brothers, billed as "the banjo boys," in popular and classical selections: Mason & Gwynne, a pair of blackface funsters, and The Youngers in a gymnastic surprise, are the other acts on this bill.

THE FAMOUS SOLDIER SHOW, COMING HERE

Appears at Grand For Three Nights, Commencing Sept. 29.

The "Dumbells," the favorite theatrical troupe of the Canadian soldiers in France, and now making a home-coming tour of the larger Canadian cities, presenting their original overseas musical revue, "Biff, Bing, Bang," will be the attraction at the Grand Opera House for three nights commencing Monday, September 29th, and a matinee on Wednesday, October 1st. The members of this organization are all soldiers who have served an average of sixteen months in the front lines before having been chosen by Capt. M. W. Plunkett for service in the entertainment branch of the service.

They hold a record of over five hundred performances given immediately behind the lines in France, as well as forty performances, given since the armistice in Brussels, and fifty-eight performances in London, England, two weeks of which they were the attraction at the Coliseum, where they played to 91,200 people, who were anxious to see just how the boys were entertained at the front, The consensus of opinion, as voiced by the press and public, seems to be that the soldier boys were "sitting on the world" when it came to amusements. This clever group of actor-soldiers present an up-to-the-minute musical revue, with special stage settings, gorgeous gowns and dazzling

effects.

It is the only all man "girl show" in the world, and the singing of both the principals and chorus might be likened to a symphony played upon a great pipe organ, full of rich, deep tones.

There are about twenty song numbers in the show, and a half dozen dancing specialties. Seats on sale next Thursday. Mail orders now filled if accompanied by check or money order and war tax.

MUSICAL SPECTACLE, "MY SOLDIER GIRL" **COMES TO THE GRAND**

Season's Success Appears. Here For Three Nights From Oct. 2.

Containing more than a score of novelties and elaborate scenic ideas, the musical spectacle, "My Soldier Girl," the season's greatest success, coming to the Grand for three nights commencing Thursday, October 2, and a matinee on Saturday, is without a doubt the most novel attraction of the entire season. The producers, LeComte and Flesher, have spent money freely to make this play elaborate in every detail -the first act presents an evening a Col. Stone's home, Miami, Fla., a lawn fete is in progress, and a night of gayety prevails—while the last act presents a brilliant musical spectacle measuring well up to the Follies or Winter Garden in all its grandeur. ANNOUNCE DATE OF FRENCH ELECTIONS WHEN PACT RATIFIED

Clemenceau Refuses To Make Announcement Until This Is Done.

PARIS, Sept. 19.—(Associated Press).

—Premier Clemenceau's intervention in the debate on the electoral law, which threatened to be prolonged indefinitely, settled the discussion in a few minutes itoday, the Government taking the stand that the elections should be held according to the law of July last, providing for proportional representation. The debate on the subject had been going on in morning sessions for nearly three weeks.

The solution is considered in parliamentary circles to be a great step toward the prompt prorogation of the chamber and subsequent elections.

Premier Clemenceau refused to answer a request that he fix a date for the elections, saying:

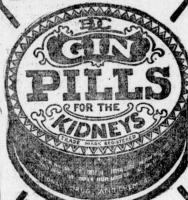

"Ratify the peace treaty first. Immediately dpon racification I will inform the chamber of the date of the elections."

LIBERALS BACK FRASER

Member For North Huron Placed in Field-Major Tolmie Speaks.

[Special to The Advertiser.]
WINGHAM, Sept. 19.—The Liberals of North Huron held a successful provincial nominating convention in the town hall here this afternoon. Considering the wet weather there was a good attendance with a good representation of women. Every municipality in the riding was represented. Shelden Brisber of Fordwich, president of the association, occupied the chair. Major J. C. Tolmie delivered a stirring address. [Special to The Advertiser.]

J. C. Tolmie delivered a stirring address.

President Brisber, in opening the meeting, gave a review of the contest of last fall, when A. H. Fraser, the present member, redeemed the riding largely by the votes of the farmers. Mr. Fraser was born and raised on a farm, and is farming from choice.

W. H. Fraser Nominated.

On the president asking for nominations, Mr. Fraser was nominated by Alex. Gibson of Fordwich, and H. B. Elliott of Wingham. There were no further names offered and on a standing vote Mr. Fraser's nomination was made unanimous.

ing vote Mr. Fraser's nomination was made unanimous.

Mr. Fraser, in accepting the nomination, thanked the Liberals for the confidence they had placed in him.

"With the third party in the field with a policy nearly like that of the Liberals, the prospects may not be as good as a year ago, but we went in a year ago and won, and we will give them another run for their money."

He was probably now expelled from the U. F. O. because he would not renounce his Liberal principles. If he were expelled from the U. F. O. he was glad he had not yet been voted out by the electors of North Huron.

He had no use for class legislation. Liberalism stood for legislation for the masses and not for the clesses. He would use his independence in the future as he had done in the past. Prior to the U. F. O. convention he had been wested on by a delegation from that organization asking him to resign as Liberal member and accept their nomination.

resign as Liberal member and accept their nomination.

DELEGATION ASSURED HIM.

The delegation assured him that their nomination would mean his election. Only yesterday a U. F. O. delegation requested him to refrain from accepting itoday's nomination, as it would interfere with their chances. U. F. O. leaders were carrying their bitterness into the campaign, which was not a proper spirit. The main issue was the tariff, but Ontarlo politics had no bearing on this question. is question.

I. D. McGregor of Halton, a practical form. The continue of the composition of the composition of the composition of the composition of what they had done for the farmers. The Liberals in their time spent only half a million a year on agriculture, spending the farmers of experiment was benefit of the farmers of composition of what they had done for the farmers.

Mr. McGregor said any fool could spend money, but it required an experienced man to show results, and the Liberals had always shown results tor the money expended.

Mr. McGregor said any fool could spend money, but it required an experienced man to show results, and the Liberals had always shown results tor the money of the farmers are being described and allowed to go to grass at a continue, it will expend the farmer of the farmer of a continue and the continues, it will see the farmer with contempt, in place of furnishing seed and loaning money and producing seed grain, the Government should have made an effort to procure labor for the farmers.

Hearst should not have taken the position as minister of agriculture, as a practical farmer would have given better results. He was sorry to find that Hon. Mr. Henry as minister of agriculture, was not giving good results.

Gertal Britain in the league assembly. While confident the semandment will would not reopen the whole difference the recurred to the farmers. U. F. O. members were retarding their mutant full the procession of the farmers. The procession of the farmers. The procession of the farmers are baid backers. The procession of the farmers are baid to make the procession of the farmer

for the temperance legislation secured in Ontario.

"Anything we ever did get as farmers we had had it from Liberal Governments, and we should support Liberals rather than join a movement that is out and antagonizing all other classes."

Major Toimie Speaks.

Major J. C. Tolmie, M.P.P for Windsor, made a splendid impression, and his address was well received. Mr. Fraser had made a good member, and on numerous occasions in the House he had championed the interests of the farmers. The speaker said he had been absent from Canada for three years, and was rather out of touch with the affairs of the country. He said the U.F. O. movement would be a factor in the coming campaign, and no person could tell what would be the outcome. Legislation of the Hearst Government had not been satisfactory, or there would have heen no U.F. O. movement.

The speaker referred briefly to agri-ulture, and felt there should be a model culture, and felt there should be a model farm in every county.

He referred feelingly to what the soldier boys have done in the fight for freedom, and that Liberals stood for better pensions to wounded soldiers and widows There, should be equal pensions to all with similar wounds, no matter what rank held in the army. If a soddier wishes to farm he should be given all enougagement in old Outstrice.

"We do not want class legislation. We want legislation that will help all the people. We should all receive and be satisfied with a square deal. Sir William Hearst is not treating the people fairly when he does not announce the date of election. The Ontario ministers are not fit to govern, if they do not announce the date of the election."

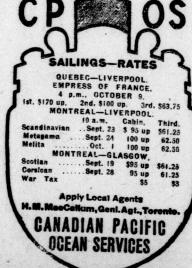

New do not want class legislation. The under the want of the want will help all the people who have never lelt a twinge of rheumatism, and many who have conquered it by simply keeping their blood rich and pure. The blood making, blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and it is the more general use of these pills that has robbed rheumatism of its terrors. At the first sign of poor blood, which is tario ministers are not fit to govern, if they do not announce the date of the election."

Major Tolmie gave the new franchise act a bad knock. He declared it as being partislan and made places for party workers as enumerators, etc. Many names had been left off the lists. The two by-elections in Toronto had cost the Government \$24,000, and at this rate a general election would cost the people of Ontario one and a quarter millions.

The old method of preparing the voters' list was the most satisfactory. He was a strong believer in proportional representation. The Liberals were not standing on the promises of one man, but were on a platform laid down by a democratic Liberal convention. We should put our country above our party at all times.

The history of the Liberal party on the temperance question was outlined by the speaker. It made no difference how individual leaders or members of a party voted on the Hquor question. The main thing was the stand of the party as a party on this matter. Leader Dewart is standing on the platform of the Liberal party on the temperance legislation.

The speaker referred briefly to agriculture, and felt there should be a modal.

Booze Costs Years of Life

Insurance Records Prove Moderate Drinking Increases Death-rate 35%

And the highest percentage applies to men in the prime of life.

It is the business of Life Insurance Companies to know the risks a man takes when he uses liquor. Actuaries of the big companies, with access to records of many years and covering hundreds of thousands of lives, have tabulated your chances of death by the great law of averages. And these chances vary according to your use of alcohol.

Ages	Total Abstainers	Moderate Drinkers	Excess Deaths Amos Moderate Drinkers
20-30	4,221	4,617	11%
30-40	4,201	7,041	68%
40-50	6,246	10,861	74%
50-60	13,056	18,524	42%
60-70	29,078	34,568	19%

These Insurance men have no theories to prove and no doctrine to preach. Their figures are as cold as ice, and they make you pay for the risks you run. To them it is simply business—a matter of dollars and cents. But to you it is a matter of life and death.

Are You Willing to Die Before Your Time for Sake of Booze?

BY actual experience of the United Kingdom Temperance and General Insurance Company covering a period of sixty years the number of deaths among moderate drinkers averaged 35% higher than among abstainers.

All insurance companies prefer risks upon lives of total abstainers. Some companies charge lower rates to abstainers. Other companies allot a larger share of the participating profits to policy-holders who abstain from

Certain companies in Canada, several companies in the United States, England and elsewhere specialize on Temperance Insurance. Their records invariably show a lower percentage of deaths among abstainers, the average for the Canadian Companies being only 31.5% of ordinary expectation.

Every insurance company wants to know your alcoholic habits before issuing your life insurance policy. If you are and have been a drinker to excess, no Company will insure you.

If during the working years of your life you have habitually taken two glasses of whiskey per day or the alcoholic equivalent in beer or other intoxicating beverages, your chances of dying before your time are double those of total abstainers.

If when you apply for a policy your present alcoholic habits are satisfactory to the company, but your history records excessive drinking in the past, the company deducts four years from your life chances.

And it has been costing total abstainers yearly millions of dollars in premiums to help pay for excessive deaths among drinkers!

Ontario has suffered the loss of 25,000 men killed in battle. We have entered upon a period of Reconstruction. Human life is the nation's greatest asset. In the face of this enormous wastage Ontario cannot afford to lose a single life, or a single year or a day of life, because of beer or whiskey or any other form of alcoholic intoxicant. Ontario's men and women should be 100% efficient.

Vote "No" to repealing the Ontario Temperance Act. Vote "No" to 2.51% beer (equal to 5.46% proof spirits) in Government Liquor shops. Vote "No" to the sale of 2.51% beer (5.46% proof spirits) in standard Hotel Bars. Vote "No" to sale of whiskey, beer, and all spirituous and malted liquors in Government shops for consumption in the home.

THE LONDON ADVERTISER'S

50 Cash Prizes

AT \$2,750 PUZZLE CONTEST

THIS CONTEST IS FOR OLD AND NEW SUBSCRIBERS

The Advertiser Offers 50 Cash Prizes, Having a Value of \$2,750.00, to Those Submitting the Best Solutions of Its Circle Puzzle. Everyone May Enter This Contest, Which Is Merely a Test of Accuracy and Perseverance.

The London Advertiser's Own Puzzle Contest scriptions, So You Can't Lose

All Payments Apply on Sub-

Deciding Ties

The Problem

Count the circles in the Puzzle Chart Every circle is complete and the chart is entirely free from tricks and illusions. However, to pick out every circle and count it requires patience and care. Those who do this the best will win the valuable cash prizes offered for solving the puzzle.

Any method which contestants hit upon that seems to be best adapted to making the count may be adopted. The Advertiser will be glad to receive short notes explaining how the results were obtained. As many different solutions may be submitted as contestants wish. Before sending in a solution, however, read the general rules carefully.

This contest will not only prove profitable to the winners of the prizes, but solving the puzzle will also prove to be a pleasant and fascinating pastime. Taking advantage of this opportunity may net you as much as \$864. The plan of this contest permits everyone to work out his own results. He will not only know what he has done himself, but will also have an opportunity to check up the work of his competitors.

Read carefully all the rules, then make up your mind to enter this very interesting contest. It is open to all present subscribers, as well as to those who wish to become subscribers.

As the main prizes have an increased value, according to the amount paid on subscription when solutions are filed, contestants should familiarize themselves with the prize list before sending in their solu-

Have you sent any other solutions in?.....(Yes or No.) If you reside outside of London, and where there is a dealer, do you want the paper sent through the dealer or by mail?.....

If the person sending in this blank is one of the new subscribers that a contestant has interested, write in below the name and address of the contestant who interested you. Remember, you also have the right to send in a The name of the person who interested me is: Name

NOTE: This blank, whether used by a contestant for his own solution and subscription, or by someone who has been interested to become a subscriber, whether he enters the con test or not, will enable the records to be kept correctly, and also will insure the one sending in a new subscriber to get proper credit on the prize awards.

Important Features

The attention of contestants is called to two important features in connection with the prizes.

1. While the amount you pay for subscription to The Advertiser has no effect on your winning a prize, it does affect the value of the first five prizes should you win one of them. For instance, each of the first five prizes has a fixed value, to which is added from five to fifty times what the winners pay when they register their solutions. This is explained further in the prize list,

2. The first five prizes may also be increased ONE HUNDRED DOLLARS each by your interesting five persons who are not now regular subscribers to become subscribers. You will receive twenty dollars for each one, whether you secure one or five. Each one of these new subscribers must pay not less than the minimum amount (\$2.00) required of

contestants. They may pay up to the maximum (\$12.48) if they desire, and they may also become competitors for the prizes if they wish to submit one or more solutions of the puzzle. That is, they may enter the contest under the same conditions exactly as any other contestant, the payment they make entitling them to entry.

The name of each one of these new subscribers must be sent in on one of the accompanying blanks, whether he becomes a contestant or not. The fact that he was secured by you must also be indicated in the proper place provided in the blank, so you will receive credit. You may send in any or all of these five names whenever you wish, either when you send in your own solution or later. Just use one of the blanks for each one, and then there will be no mistake made in regard to your getting due credit.

Rate of Subscriptions

On account of this contest all previous subscription offers are withdrawn, The following rates will Evening Edition-Delivered in London. Two Years\$12.48 Morning or Evening-Called for in London. Two Years\$10.40

Morning or Evening-Through Agents-Outside of London, Two Years\$10.40

Morning or Evening-By Mail Outside of London.

In the event of ties those tieing will be required to solve a second puzzle in order to determine who shall receive the prizes. This second puzzle, if one should be required, will be equally as attractive and practical as the first. Under this plan those who win will be assured of receiving the full value of their prizes without having to divide them with other contestants. Should still further ties ensue a third problem of the same order as the second will be submitted to those again tied to solve. This plan will be continued until all have been eliminated except the actual prize winners. Should there be no ties on the first puzzle, only the one, of course, will be presented. In the event that a second puzzle is required, one week will be allowed in which to solve it. This will prevent the contest being prolonged for any unusual length of

General Rules and Information

There is no objection to several members of one family or several friends working together to obtain a solution, provided only one of them turns the solution in. The prizes are awarded for individual effort, and it would not be proper for one person to turn in a solution, then give it to someone else, and for the latter to submit it as his own.

If the paper is already being sent to your residence, either by carrier or through the mails, send in the renewal in the name of the person who is already subscribing. If some other member of the family wants the solution credited to him, or to her, merely attach a note to the blank giving the name of the one who wants to have credit for the solution. The purpose of this is to avoid sending two papers when only one is needed.

When, in the judgment of the Contest Manager, more than one member of the same family, or any others, send in two or more solutions which have the appearance of having been worked in collusion, The Advertiser will reserve the right to use its best judgment in refunding any of the subscriptions paid in connection therewith and rejecting the solutions.

Information will be furnished and rulings made on any points contestants may want information about. The Advertiser reserves the right to decide any and all questions which arise, and those entering the contest as a part of the contract must and do agree to abide by such rulings.

The date a solution is filed has nothing to do with its winning a prize. It is always safe, however, to send in a solution as early as convenient. Then you will have ample time to go over your figures and, if you find you can get a better solution, you will still have an opportunity to profit by your later effort.

As many prizes will be reserved as there are people tied before any prizes are awarded for less correct solutions. That is, if three people should tie on the best solution the first three prizes would be reserved for them, and they would be awarded these prizes in the order of the standing of their solutions of the next puzzle. That is, the best solution would be awarded the first prize, the next best the second and the third best the third prize.

All solutions must be sent in on the blank herewith. No solution unaccompanied by a cash subscription will be accepted. No solution may be changed after it is once registered.

No one directly or indirectly associated with The Advertiser will be allowed to participate in this contest.

WHY NOT LIST YOUR PROPERTIES with Reeley? First, because one price from the owner to the buyer; secondly, from the owner to the buyer; secondly, because no sale, no charge; thirdly, if you buy your home you will save a lot of money by moving, also you save every time you move, you have to pay extra for your fire insurance policy every time you move. Therefore, it is better to own your own home than pay rent all the days of your life. I want you to sit down and reckon up what it costs you for moving and how much you pay in rent instead of owning your own home. You will find you have nearly paid for your home. Therefore, buy your c n home or farm off Reeley, or list your properties, or do your insurance with us. Apply 795 York street.

YORK MARKET INDUSTRIAL TRADING HEAVY SALES CLOSE

U. S. Steel Makes Low Record Tuckett's Tobacco Shares a For Week — Liberty Bonds Strong.

New York, Sept 19.—Apart from its frequent pauses and the heavy selling movement at the close, today's stock market received with apparent indifference the news that the labor leaders had ordered a general strike of steel workers.

had ordered a general strike of steel workers.

United States Steel moved within a marrow area most of the time, but made its low record of the weak toward the end, decliming to 101½, a loss of 1½ points. Allied shares, which had been one to three points higher with equipments, reacted to the same extent, and tobaccos, shippings and food shares, and present the fairly extensive liquidation. Sales amounted to 775,000 shares.

The market for Liberty bonds was again active and etrong. Railroad and industrial bonds were irregular. Total sales (par value) amounted to \$18.
Old U. S. bonds unchanged on-call.

Chicago, Sept. 19.—Profit-taking sales on the part of new buyers of corn acquired sufficient volume today to operate as more than a counterbalance for bulkish sentiment associated with prospects that rainy weather would delay receipts. The market closed weak prospects that rainy weather would de-lay receipts. The market closed weak, ½c to 1½c net lower, with December \$1.23½ to \$1.23½, and May \$1.21½ to \$1.21½. Oats lost ½c to ½c. In pro-visions the outcome was variable, rang-ing from 50c decline to a rise of 7c. Oats swayed by the action of corn. Slowness of both domestic and for-eign shipping demand had a depress-ing effect on provisions. For the most part higher quotations on hogs were part higher quotations on hogs were

by individual members.

Dr. Barklie will speak on the subject of "Health and Business Efficiency," and has promised not to mince matters in dealing with some of the vital points included in his address.

The usual round-table discussion which will follow his talk is expected to evoke some most interesting replies on matters of national as well as individual import. A musical feast is being prepared by the Brunswick Trio, and with President W. J. Ashplant in the chair a smoothly conducted, profitable evening is assured. The London Advertising Club particularly invites strangers in the city to attend its meetings, and many a travelling manhas passed pleasantly what might otherwise have proven a duil evening, by entering Into the cordial circle around the dinner-table of Canada's livest advertising club.
