RICE MUST HANG

Executive Decides not to Inter-
fere in His Case.

Ottawa, Ont., June 25.—The appeal of Mr. T. C. Robinson to the Govern-
ment, asking that executive clemency
be extended to Fred. Lee Rice, await-
ing execution at Toronto for the mur-
der of Constable Boyd, was considered
by the cabinet at a sitting this after-
noon. The recommendation of the
Government still awaits the signature
of Sir Henry Strong, acting Governor-
General, and no official announcement
could be made, but it is understood
the ministers decided not to interfere
with the verdict of the jury confirmed
by the Court of Appeal. Rice's last
chance has now gone, and he will
hang on the day appointed for execu-
tion.

DIED OF HER INJURIES.

Albany, N. Y., June 25.—Miss Alice
Forrest, a young actress who was in-
jured by falling through a trapdoor
while playing at Harmanus Bleeker
Hall, died in the Albany hospital yes-
terday. Miss Forrest was 19 years of
age, and was a cousin of John Drew.

A DECIDED IMPROVEMENT MADE BY THE ROYAL PATIENT

Thirty-Six Hours Have Passed Since the Operation Without
Complications—Immense but Orderly Crowds in
the Streets of London.

London, June 25, 11 p. m.—The fol-
lowing bulletin was posted at Buck-
ingham Palace at 10.52 p. m.:—

"The King continues to make satis-
factory progress. (Signed) Treves,
Laking, Barlow."

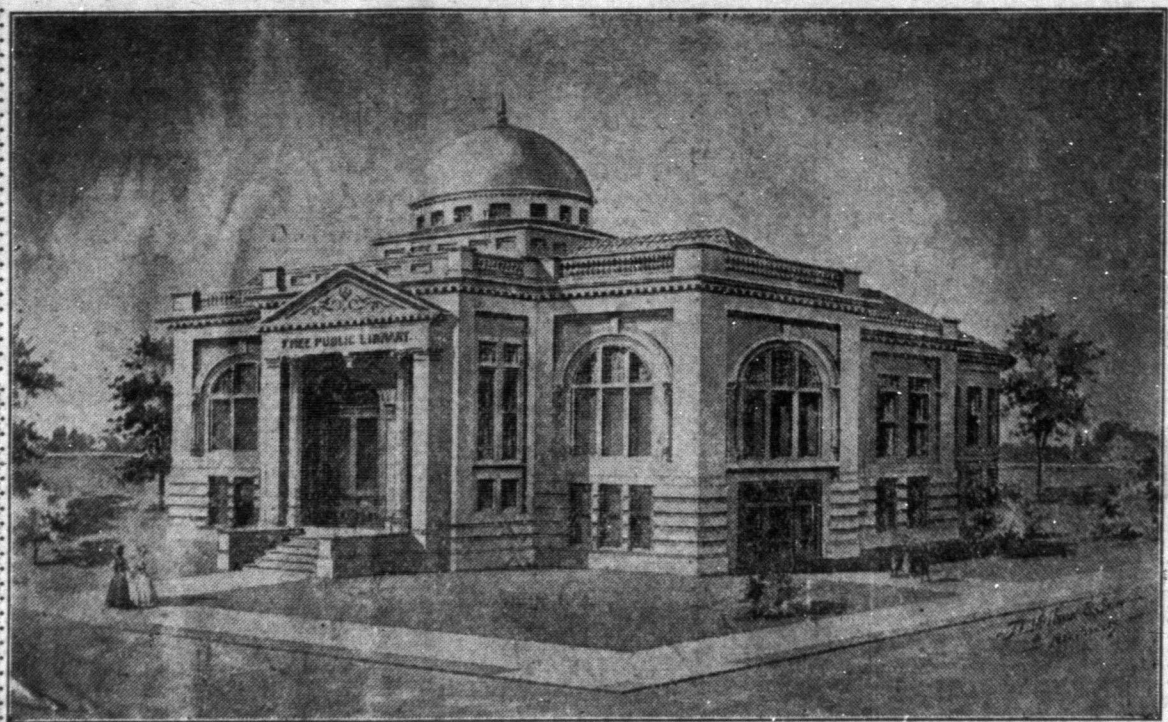

11.30 p. m.—The following amended
bulletin was issued after 11 o'clock
tonight:—

"The King continues to make satis-
factory progress. He slept some
hours during the day. He complains
very little of discomfort and is more
cheerful. The wound is doing well.
(Signed) Treves, Laking, Barlow."

the bulletin is concentrated therein,
the rest being purely corollary there-
to.

ANXIOUS ENQUIRERS.

Throughout the morning the vicin-
ity of the Palace was invaded by
anxious seekers after information. A
curiously cosmopolitan crowd gather-
ed about the railings, awaiting the
morning bulletin, and directly after
it was posted there was a great
scramble to read its contents. The
Prince of Wales arrived just as the
bulletin was being issued. Lord Lis-
ter, who came directly from the
King's apartments after having as-
sisted in drawing up the bulletin, left
shortly afterwards, and the more
cheerful expression apparent in his

LEADING MEN ASSEMBLE

Conservatives From all Over
Ontario Meet and Strong
Resolutions Passed.

Disgraceful Tampering With
Ballots Condemned—Con-
fidence in Whitney.

Toronto, June 25.—Three hundred
Conservatives from all parts of On-
tario met in convention at Victoria
Hall to-day, and applauded to the
echo their leaders and proclaimed the
certainty of conquest. A more en-
thusiastic gathering could not be
imagined. Mr. Whitney received an
ovation, which left no doubt of the
respect and affection in which his fel-
lows hold him. The men who rede-
emed the old strongholds of the Liberals
in the recent election were accorded
applause that must have made their
blood tingle. As one of the speakers
said, the Conservatives assembled did
not appear to be in any sense a de-
feated party. Mr. J. J. Foy, K. C.,
L. L. D., the president of the associa-
tion, was in the chair.

The election of officers to the vac-
cant positions on the executive took
place.

Mr. R. Blain, M. P., Brampton, nom-
inated Mr. Edmund Bristol for the
post of third vice-president, rendered
vacant by the defection of Mr. G. F.
Marter, M. P. P. Mr. Blain incident-
ally pointed out that the voters of
North Toronto had already given
their verdict on Mr. Marter's kind of
independence. Mr. Bristol was forth-
with elected.

Mr. A. Claude MacDonald was elected
secretary, and Mr. E. E. Ryckman
was chosen his successor in the of-
fice of treasurer.

Resolutions were adopted, pledging
the support of the party to work in
preserving the sanctity of the ballot
and expressing renewed confidence in
Mr. Whitney.

A resolution of sorrow at the death
of the late Mr. Wardell was also car-
ried. A large number of the gentle-
men who redeemed constituencies in
the recent election spoke and were ac-
corded great ovations.

The association passed a resolution
of sympathy with the King, on motion
of Mr. Whitney and Dr. Reaume, M.
P. P., and sang "God Save the King."

DECIDED IMPROVEMENT.

London, June 25.—(Midnight)—King
Edward's condition to-night is even
more satisfactory than has been in-
dicated by the last bulletins. He has
made a decided improvement and the
feeling at Buckingham Palace is very
hopeful. His Majesty is able to take
nourishment. He had scrambled eggs
and a little hock and soda this even-
ing, and with his own hands he open-
ed several telegrams. The bulletin,
issued at 11 o'clock to-night, is re-
garded as intensely satisfactory. This
bulletin is generally taken as being
the first occasion upon which the
King's doctors have allowed them-
selves to express even to a small de-
gree the hopeful feelings they un-
doubtedly, even though privately, en-
tertained. Thirty-six hours have now
elapsed since the operation was per-
formed, and the absence of complica-
tions creates hopefulness in all
quarters. "Though several days must
pass before the possibility of danger
can be eliminated."

EARLIER REPORTS.

London, June 25, 11.27 a. m.—Anx-
ious suspense over the condition of
King Edward is shared, as is evi-
denced by shoals of telegrams from
abroad, by the whole civilized world,
hardly will be much lessened by the
bulletin issued by the attending phy-
sicians at 10.30 this morning, as fol-
lows:—

"His Majesty was very restless, and
had no sleep during the early part
of the night. He obtained some sleep
however, after 1 o'clock this morn-
ing, is free from pain, and no untow-
ard symptoms presented them-
selves. Considering all circumstances,
His Majesty may be said to be pro-
gressing satisfactorily."—(Signed) Lis-
ter, Treves, Laking, Smith, Barlow.

OFFICIAL BULLETIN RATIFIED.

Private information from Bucking-
ham Palace substantially bears out
the official bulletin issued at 10.30
o'clock except that the King had
rather a worse night than was in-
dicated therein. His Majesty, how-
ever, is resting easier, and was sleep-
ing at 10.30 o'clock this morning.

SAID ALL THEY COULD.

Earlier unofficial reports had been
more favorable than the official
medical pronouncement. They spoke
of the King as having passed a good
night, with peaceful rest, and the an-
nouncement of His Majesty's restle-
ssness and lack of sleep are regarded
by the general public as by no means
reassuring, although court officials
profess satisfaction. The absence of
all mention of the patient's tempera-
ture causes comment, although, prob-
ably, the statement that up to the
present "no untoward symptoms pre-
sented themselves" is intended to in-
dicate that there has been no danger-
ous rise in temperature. In medical
circles the opinion is expressed that,
in the phrase just quoted, the sur-
geons are saying all they possibly
can. In fact, the whole meaning of

face was taken as an indication that
he was satisfied with the condition
of the patient. Callers continued to
arrive in great numbers throughout
the morning. Among the earliest dis-
tinguished persons were Lord Salis-
bury, who rode up on a tricycle;
Archduke Francis of Austria and the
Duke of Norfolk. The Duke of Cam-
bridge, who arrived later, had pre-
viously presented a set of colors to
the Middlesex Regiment, addressing
which he said the King's illness was
a very grave blow and a very trying
one. But, he added, he was very
glad to be able to speak hopefully
of the progress made by His Majesty,
because he had received favorable
news from those in attendance upon
the King.

A SOCIETY EVENT

Marriage of one of the Maple
City's Most Popular
Young Ladies.

The Rutley-Braunstein nuptials was
the fashionable event in Maple City
society circles this season. The home
of the bride's parents, Selkirk street,
was the scene of the ceremony and
the house within was daintily decorat-
ed in pink and white. Nature fur-
nished the decorations, and the rooms
were buried in a wealth of foliage
and flowers. The front parlor was
banked along the walls with ferns
and palms.

At six o'clock the bride descended
the stairs and advanced to the place
of the ceremony down an aisle made
through the guests by white ribbons
held by the ushers. The east corner
of the drawing room was banked with
ferns and green foliage, which fur-
nished a soft and subdued back-
ground for the bright dresses of the
ladies of the bridal party. The Rev.
Mr. James performed the ceremony
which united in marriage Miss Louise
Rutley, daughter of Mr. and Mrs. T.
J. Rutley, Chatham, and William
Frederick Braunstein, Cincinnati.
Mrs. Thomas Alexander Hazen was
matron of honor and the groom was
supported by his brother, Joseph
Braunstein.

After the wedding service, the
guests, who numbered about sixty,
sat down to an excellent repast.

The bridal table was a work of
beauty and was the admiration of all
the guests. The centre piece was a

BALLOTS MISSING

The Prince Edward Election
Ballots Have not yet Reach-
ed Toronto.

Toronto, June 25.—The ballots in the
Prince Edward election are missing.
They were mailed to Toronto, on June
18th for use at Osgoode Hall, in con-
nection with the appeal from the re-
count, but so far as the officials can
discover, they have never been receiv-
ed here. G. O. Alcorn came up from
Pictou to-day to trace them up. It
is supposed that the case is one of
misdirection, and that the package
will be found in one of the offices of
the parliament buildings or Osgoode
Hall.

THURSDAY, JUNE 26.

BOUNCER DE BARRY.

It seems that somebody is after Bouncer De Barry, the energetic deporter of Canucks, who makes Buffalo a terror to the alien. Uncle Sam is just now thinking that perhaps a little business friendship with Canada might not be a bad thing for himself, and that portion of his territory in which Buffalo lies would benefit vastly from a reciprocal trade arrangement with Canada. Perhaps it is by reason of this fact that the Bouncer is being investigated. At all events he seems to be in trouble. The Buffalo Courier says: "The charges against Immigration Inspector John De Barry, who is probably the most cordially disliked resident of the United States by Canadians, have apparently assumed more serious proportions than originally outlined some weeks ago in the Courier. This one case, of an alleged assault, would probably not be weighed heavily against Buffalo's inspector, were it not for the fact that there have been other charges and objections, which have cumbered the files of the immigration bureau of the treasury department for several years. Mr. De Barry believes he has a good defense, but his very zealousness seems to have been his undoing. Still this, in the days of a strenuous government, under a strenuous president, and with a strenuous congress, passing strenuous acts, ought to be in favor of a strenuous immigration inspector, even in Buffalo."

LAYING THE PACIFIC CABLE.

Nearly all the grand projects that have been discussed at conferences of the statesmen of the empire at congresses of its business men, and at meetings of the British Empire League remain unrealized, says the Mail-Enterprise. Mutual preferential trade, a fast Atlantic service, the assimilation of the commercial laws of the Empire, a common system of defence—these are changes yet to be ushered in. There have been disappointments, delays, obstructions, but public opinion is nearing ripeness and their day is fast coming.

One great Imperial scheme, however, has passed out of the stage of speculation and is fast becoming a completed actuality. This is the all-British Pacific cable. The construction of that great link of empire is being rapidly pushed forward by the board which has charge of the work—a board consisting of three representatives of Great Britain, two of Canada, two of Australia, and one of New Zealand. Mr. Reynolds, the board's general manager, arrived a few days ago at Vancouver on his way to London. He says the cable is likely to be completed in November next, a month or two before the date specified in the contract with the Pacific Telegraph Construction and Maintenance Company. Mr. Reynolds' last work was at the Fiji Islands. At Suva, the capital of that group, he opened on the 23rd of April the spur to Norfolk Island, thus bringing Queensland, New Zealand, Norfolk Island and the Fiji into telegraphic connection. The completion of that part of the work has, he says, been followed by a great lowering of cable rates to Australian points. Norfolk Island is the centre of the constructed system. The spur from that island to the Fiji Islands on the north-east, is about 1,000 miles long; that from Norfolk Island to Australia on the west is 850 miles long; and from Norfolk Island to New Zealand on the south-east is 750 miles long. These lines, aggregating 2,600 miles, are reported by Mr. Reynolds to be very busy. The line from New Zealand to Queensland, via Norfolk Island, carries on an average 350 messages a day. Owing to the fact that three lines radiate from Norfolk Island, a very

large station will be put up there, 80 acres of land being reserved at Anson Bay for the purpose. Some buildings are being put up there now by the New South Wales government.

At Doubtless Bay, the New Zealand landing place, the colonial government has erected some substantial cable buildings. None have gone up yet at Southport, the Queensland terminus, temporary offices having been rented there for station purposes. The two connections yet to be made are, first, that between the Fiji Island station and Fanning Island, on the north-east, about 2,000 miles in length, and, second, that between Fanning Island and Vancouver Island, a stretch of about 3,500 miles. The Anglia, the steamer from which the other lines have been built, is now on her way to London to load the Fiji-Fanning section, which she will begin to lay from Fanning Island. For the construction of the 3,500 miles between Fanning Island and Vancouver Island, a special steamer has been built, the Colonia. This is the largest cable steamer in the world, and it had need to be, for it is laying not only the longest, but also the thickest submarine wire in the world. The Colonia is expected to begin operations at Vancouver Island in September, and to get the other end of the cable attached at Fanning Island by the end of November at latest. In a considerably shorter time the Anglia will have spanned the gap between Fanning Island and the Fiji Islands. Though long, the section from Fanning Island to Vancouver Island is not likely to get as much out of repair as that between the Fanning and Fiji Islands, for the ocean bed in the former section is much the smoother. There was long delay in getting the great enterprise started, even after the parties to it were agreed upon it. In the first place, Sir Wilfrid Laurier objected to paying more than two-thirds of the cost, though it had been originally agreed that Canada should pay one-third. Then the intrigues of the Eastern Extension Telegraph Company seemed to prevail for a time in the British Cabinet itself, British Columbia became impatient and declared she would pay one-ninth of the cost herself sooner than see the project stopped. Finally the work was begun, and this year it will be finished.

The coronation procession in London with no King and no coronation will be like Hamlet with the chief character missing.—Mail-Enterprise.

Everybody was to have sung "God Save the King" this evening at eight o'clock, thus carrying the National Anthem around the world. The necessity is the stronger now, although the circumstances have changed.

FAMOUS SAILOR

Death in England of Canadian Settler With a Romantic Career.

Froome Talford, a former resident of Lambton county, died recently in England at a great age. He went to sea when a boy as a clerk, and sailed with Captain Mayhew, for whom he prepared the manuscript of several of the famous sea stories beloved by all boys the world over. After leaving the sea he settled in Canada on the St. Clair River. He founded the village of Froomefield. He was appointed Indian Superintendent. When about to pay a visit to England he gave the Indians a feast on his birthday, and intimated that if he should not return next year he would give another feast; and so it happened that year after year for 30 years or more the Talford feast was given. To the gratification of the tribe, at Sarbia, After his return to England, his pleasant home at Wandsworth was always open to welcome Canadian friends. At 86 years of age, when visited by a Canadian acquaintance he wandered about with the activity of a young man, taking his friend to various places of interest, and being apparently as much interested in them as if he had never seen them before.

WANTED MONEY

Mrs. Johnson Appealed to the Police to Recover Her Share of Inheritance.

"The Yankees think that the law in Canada is very strict, but they don't know a thing about it. The people here are too easily led and I tell you, young man, there is many a crooked thing in law."

Such was the doleful plaint of Mrs. Lucinda Johnson as she made her appearance at the police court seeking an interview with the magistrate. Judge Houston, however, was not in and the unfortunate Lucinda proceeded to tell her painful story to Chief Holmes—and to any one else who wished to listen.

It appears that Lucinda, who formerly lived in North Buxton, but who now resides in Cleveland, has for some time been dabbling in law with the result that she, like many other unfortunates who have done likewise, has come out at the "slam end of the horn."

Her experience with law commenced, according to her story, in 1891, when her mother, Emily Barritt, died, leaving no will as to the distribution of 50 acres of land which she owned. Mrs. Barritt was a widow, and as soon as she died, Lucinda claims that the family—of which there were quite a few—all commenced to scramble for the property.

As there were no executors, there being no will, Richard Groce, a son-in-law of deceased, very considerably offered his services in the matter and advertised the property for sale. Now this was directly contrary to the wishes of Lucinda, who would rather have seen the property divided, and naturally she felt hurt that she had not been consulted in the matter. However, when she quietly mentioned the matter to Groce he would do nothing but sell the property, as a result the farm was disposed of.

Lucinda attended her mother during the latter's illness and took upon herself the expense of burying the remains, thinking that this money would be included in her share of the property.

Lucinda soon thought that she scented something in the wind and that the family intended to do her out of her share of the money, and the result was that she engaged lawyer Sol White, of the farm, she brought \$14,750, and her share of this would be about \$410, including her mother's dowry. Imagine her surprise when that her share of the farm, \$21, was now ready for her to claim.

"Just think of it," she said, "I offered to see to my mother's share \$410. 'Where is the rest of the money?'" she was asked.

"That's what I want to find out, and I am going to do it, too. I have proof that my sister forged my name to get the dowry money, and if that is not a criminal offense I don't know what is."

She expressed her intention of entering criminal proceedings against Groce and her sister. She positively refuses to accept the \$21.

MUSIC EXAMS.

The following is the results of examinations in the Theoretical department of music at the Ursuline Academy:

On the 17th, 18th and 19th of this month "The Pines" students who took the Toronto Conservatory of Music examinations were busily engaged writing in the large Assembly Hall at the Academy, Mr. Wm. McKenough presiding. This morning the results of the examinations were received, being as follows:

No. 255—Miss Mabelle Edmonson, first class honors.
No. 256—Miss Ethel MacKerrall, first class honors.
No. 257—Miss Agnes Bower, honors.
No. 258—Miss Josephine Morrison, honors.

HOPELESS CASES.

When the doctor leaves and says the case is hopeless, what remains to be done? Nothing, if the doctor's word is final. Much, if you will listen to the statements of men and women who were once "hopeless cases," given up by doctors, and who were perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery.

Nothing is more sure than that thousands of men and women with diseased lungs, obstinate coughs, hemorrhages, emaciation and night-sweats, have been restored to perfect health by the use of the "Discovery." Will it cure you?

It has cured in ninety-eight cases out of every hundred where it was given a fair and faithful trial. By that record you have only two chances in a hundred of failure and ninety-eight chances of being restored to perfect health. It is worth trying.

Abram Freer, Rev. of Rockbridge, Greene Co., N. Y., writes: "My wife had a severe attack of pleurisy and lung trouble; the doctors gave her up to die. She commenced taking Dr. Pierce's Golden Medical Discovery and she began to improve from the first dose. By the time she had taken eight or ten bottles she was cured, and it was the cause of a large amount being sold here. I think the 'Golden Medical Discovery' is the best medicine in the world for lung trouble."

FREE. Dr. Pierce's Common Sense Medical Adviser containing over a thousand large pages is sent free on receipt of stamps to pay expense of customs and mailing only. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Diplomas will be forwarded to successful candidates next month.

HE HAD A BIG HEART.

An Old Miner Who Was Mark Twain's Ideal Gentleman.

"The finest gentleman I ever knew," said Mark Twain in a chat with a reporter one day, "was an old California miner who could barely write his own name. He was a forty-niner, and he and his partner had struck it rich in the early days. The old man had neither child nor child, and he had worked hard all his life, and when he did get his money he hardly knew what to do with it."

"He did not try to jump into society or to push his way with the 'big fellows' there. He continued to live with the people whom he had associated with all his life, and many an act of kindness was done, many a wandering son and father saved, many a sorrowing woman's burden lightened and her home brightened by an unknown donor whose identity with the old man was only known to a few."

"It was different with the partner. He had a wife and two daughters with social aspirations, and after a whole lot of pushing and hauling and showing they landed in society. The expense was too much of a drain on the husband's purse, and he speculated, with the inevitable outcome. He lost his entire fortune and then shot himself. Then it was that the true gentleness of the old man showed itself. The widow and her daughters had no one to turn to but him, and he did not disappoint them. He saved their home for them when everything else went under the hammer, and he maintained them in all the regal style to which they were accustomed, although he still lived in his old lodgings. He lived long enough to see both of the girls well married and the mother carefully settled for life. Then he died in a charity hospital in San Francisco. He had spent every penny he owned on the family of his partner."—St. Louis Republic.

Statues in the Paris streets. It is not the Londoner only who grumbles at the lack of beauty in the statues adorning the streets and squares of his city. The Frenchman makes a point of grumbling quite as loudly at the "almost unanimous" ugliness of the modern statues "decorating" Paris. These statues, says the outspoken Journal des Debats, are not so much erected in honor of one dead man as for the glorification of several living ones, who form the "commission" for the erection of a statue and receive decorations for their endeavors.

A famous French sculptor is quoted in this connection who had sent in his design for a statue of Pasteur. He had suggested the genius of the great scientist by symbols, but the commission would have none of them. "Your work," they said, "is fine, but it is incomplete. What about the diseases of silkworms, the muzzling of vineyards and of beer and vin, about cholera in fowls?"

And nothing the artist could say as to the impossibility of reproducing sick silkworms and cholera ridden fowls on a statue could move the commission. Under such conditions it is small wonder Paris statues are no better than they should be.

A King and a Miller. Every reigning member of the Hohenzollern dynasty has been noted for his sense of fair play in dealing with his subjects.

It is said that the Emperor Frederick the Great was greatly annoyed by the presence of a flour mill that stood close by one of his palaces in Berlin. The miller refused to sell his mill and insisted that he should retain possession of it as long as he lived. The emperor stormed at him without avail and finally threatened to drive the miller out by force and confiscate his property.

The dauntless miller replied to his threat by saying, "After my wife is still judged in Berlin, your majesty."

This reply, which has since become famous throughout Germany, impressed the emperor so favorably that he withdrew both his threat and his request, and the flour mill is standing to this day.

Expected a Fight. A Fifeshire farmer gave his herd lad, Jamie, a half wit, a ticket to admit him to a sacred recital in a neighboring town, to be given by local talent, and told the lad to be sure to enjoy himself.

The farmer was greatly surprised to find his servant in the kitchen long before the conclusion of the performance, and upon asking him why he had returned from the recital Jamie replied:

"Weel, maister, as man yondyr began to sing, 'I'm the King of Glory,' then another said he 'was the King of Glory,' and when I saw three livers standin' up an' sayin' they were the Kings of Glory, I kent there was to be a fecht, so I cam awa' an' left them to finish it amon' themselves."

No Taste For Mathematics. "How many times did you vote in the recent election?"

The prisoner was silent.

"Answer the question! How many times did you vote?"

"Marse Tom," pleaded the prisoner, addressing the judge, "ain't you know me long enough ter know dat I don't know nuttin' 'bout 'rithmetics?"—Atlanta Constitution.

KING EDWARD HAS IMPROVED

Official Bulletin Says that He Has Had Some Refreshing Sleep.

Special to The Planet.

London, June 26.—2:12 p. m.—The following bulletin was issued from Buckingham Palace at two o'clock in the afternoon: "The King's condition still remains satisfactory. Signed, Treves, Laking, Barlow."

London, June 26.—1:13 p. m.—The King's satisfactory condition was fully maintained at 1 p. m. to-day. His Majesty looks well and has a cheerful appearance, quite bearing out the good tenor of the medical bulletin. The official bulletin issued at 10:15 o'clock is as follows:

"His Majesty has had a better night and has had some refreshing sleep. He has improved in all respects. His constitutional condition is quite favorable, and the state of his wound also is satisfactory."

The absence of ambiguity in the language of the medical bulletin, which, unlike previous statements, has no qualifying phrases, has done much to restore confidence in the public mind in regard to the outcome of the King's illness.

The King's progress in convalescence occasions the greatest satisfaction in all official circles. His Majesty is already displaying the greatest interest in all public questions and is expressing his gratitude over the evidences of the world's solicitude by opening a number of telegrams with his own hands.

The Duke of Connaught called at the palace at 9:30 o'clock. After his visit he said: "The news concerning the King this morning is most encouraging. The King's pulse and temperature are normal, and his condition, on the whole, is most satisfactory."

King Edward saw several members of his family during the morning. The queen remained at the palace, but the Princess Victoria drove out this morning.

In most of the churches throughout the land to-day the services which were to commemorate the coronation of King Edward are taking place in the changed form of intercessory services.

Speaking of the use of quotations, the London Chronicle says:

"The silly trick of peppering pages with these inverted commas. You will find some of these bacilli in the Bible. Take this passage, chosen at random:

Now Jesus knew that they were

deceitful to ask him, and said unto them, Do ye inquire among yourselves

of that I said, A little while, and ye shall not see me; and again, a little while, and ye shall see me?

The modern compositor would set that passage between two brackets of inverted commas, for it is a quote within a quote. But it is beautifully clear as it stands, and among all Biblical misunderstandings no one, we think, has been misled by the absence of an inverted comma.

Perhaps they say "time is money" because it takes time to make money.

CARNEGIE LIBRARY

It will be one of the finest Public Buildings in the City.

A Description of its Interior and the Location of the Various Rooms.

There are few people in Chatham who realize the great addition the new library will be to our public buildings. The site which has been chosen by the board is on the corner of Queen and Cross streets, and the proposed building promises to be one of the finest pieces of architectural work in the city. The accompanying cut is an exact reproduction of the prospectus drawn by J. L. Wilson & Son, and represents the Library exactly as it will be. It is understood that the estimates will not run over the appropriation (\$15,000) which Mr. Carnegie has given for its erection.

The building will consist of one storey and basement, with an entrance facing Queen street. Just inside the entrance will be a vestibule with tile flooring. Upon ascending a few steps from the vestibule, the Delivery Hall is reached. This will be a large, airy room, with entrance from it to the gentlemen's reading room on the south side and the ladies' reading room directly opposite on the north side of the building. At the West end of the Delivery hall, facing the entrance, is the Librarian's desk, and directly behind this is the stock room, which will have a capacity of holding 20,000 volumes. This can be increased by means of a gallery, so that the capacity can be practically doubled if necessary. Off the stock room on the south side is the reference library and on the north side is a staircase leading to the basement. These rooms are separated by panel wainscoting and art metal screens, and arranged so that the Librarian from her desk can see into every one of the rooms. From the vestibule also are steps leading to the basement. In this basement is the board room, and the ladies' reading room and the assembly room under the stock room. There is also an entrance to the board room from Cross street. The assembly room or auditorium has a capacity for seating 200 people and may be used for lectures, concerts, etc. The building will be fitted up with the best of workmanship, including metal ceilings, slate roof and up-to-date plumbing. It is expected that the plans will be ready for the contractors on Tuesday.

L. B. Beck, expert Piano tuner, and regulator, of Berlin, has taken up his residence in the city. Orders left at Tschirhart's music store, or Box 64, will receive prompt attention. 6dlw

A SOCIETY EVENT

Continued From First Page.

large mound of green foliage brightened with pink and white roses. These two colors were used for all the decorations. At each plate was a hand-painted favor and, in addition each lady had at her plate three large pink roses tied with a yard of pink ribbon. A covering of similar roses hung over the table and the bridal party.

All the table decorations were pink and white. The divisions were made with shades of pink ribbon. The bride and groom sat at the head and the matrons of honor, Mrs. Hazen, and Mrs. A. Hazen faced them. The favored few were:—Miss Braunstein, Miss Joseph Braunstein, Mrs. H. H. Haufman, Eugene Haufman, Miss Margaret McQuire, Mr. and Mrs. Alexander Thomas Hazen and daughter Miss Mary Howard—Hazen, Cincinnati.

Over the arch at the back of the altar couple were draped the two flags, the Union Jack and the Stars and Stripes. The emblems of the two nations met only at the top of the arch. Both countries were toasted by the bridal party, and the future home of the bride in the United States was remembered.

The bride was attired in white panne crepe over white tulle, trimmed with applique and tulle veil. Her only ornaments were orange blossoms. She carried a shower bouquet of lilies of the valley, sent specially from Cincinnati.

Mrs. Thos. Alexander Hazen, matron of honor, and cousin of the bride, wore her bridal dress. The bride was bridesmaid at Mrs. Hazen's wedding a few years ago. Mrs. Hazen's dress was of Duchess satin, trimmed with white chiffon and old rose point lace. She carried an armful of pink roses sent from Cincinnati.

The bride's mother, Mrs. T. J. Rutley wore a heliotrope dress trimmed with white chiffon and lace. Mrs. Braunstein, mother of the groom, wore a silk and point lace.

Miss Braunstein was veiled in black embroidered Brussels net and pink panne velvet.

Miss Mary Braunstein wore white chiffon, applique and black lace over green silk.

Mrs. Howard, of Detroit, aunt of the bride, was robed in a costume of black sequin, over black silk, trimmed with

rose point lace and diamond ornaments.

The gift of the bride to the Matron of honor was a beautiful volume of Shakespeare, illustrated.

The groom's gift to the bride was a diamond ring, set with ruby and emeralds. His gift to the groomsmen was a scarf pin.

The wedding gifts were very pretty and expensive.

Mr. and Mrs. Braunstein will spend their honeymoon in Montreal and the Eastern States.

Dr. J. J. Schreiner provided music.

The following were the guests from a distance:—Mrs. W. J. Howard, Frank C. Howard, W. Bruce Howard, Mrs. M. E. Kanter, Miss Marie Kanter, Mrs. William McKay, Mr. and Mrs. John Stephenson, Detroit; Harry Rutley, Montreal; Misses Pearl and Irene Rutley, Toronto; Mrs. Catherine Braunstein, Miss Braunstein, Miss Mary Braunstein, Joseph Braunstein, Mrs. H. H. Haufman, Eugene Haufman, Miss Margaret McQuire, Mr. and Mrs. Alexander Thomas Hazen and daughter Miss Mary Howard—Hazen, Cincinnati.

A number of telegrams of congratulations were received from all over the United States and Canada. Europe also was represented.

The funeral will take place to-morrow (Friday) afternoon at two o'clock. The deceased was a member of the Loyal Orange Lodge for over 40 years. He went to Detroit to reside about five years ago, and has been ill for over a year.

The Garden Party and Bazaar at the Manse, Dover Centre.

In Dover, the township of pines, the greatest success of years for gatherings of this kind, was the garden party and bazaar under the auspices of the Ladies' Aid Society of the Presbyterian Church, Tuesday evening, June 17th.

It was an ideal evening for such an affair—good roads, delightful weather, and a lovely moonlight night. At four o'clock the good time began, and by eight o'clock all available space in front of the manse, church and in Serey's orchard, where the tables were set and the refreshment stand stood, was thronged with crowds of pleasure-seekers, among them many from Chatham, Walkerville, and Chatham township.

The Maple Leaf Brass Band furnished the music in a very acceptable manner, giving a life to the gathering, nothing but a brass band can give.

A very noticeable and interesting feature of the evening was the bazaar where the ladies conducted in front of the manse, which was quickly attracted attention by the red, white and blue bunting which streamed from tree to tree and the Chinese lanterns which dangled from the branches. For sale, was to be found every shape and form of useful and artistic article which the imagination of ladies can design. Everything found a ready demand.

The entertainment of this throng was excellently provided for. At five o'clock the bicycle races, for which the roads had been prepared, were called. The prize winners were:

First Race.
One mile—first prize, a silver cup, Albert Lozon.

Second prize—a bicycle lamp, John Finlay.

Third prize—a sweater, Ernest Montgomery.

Slow Race.
Hundred yards—first prize, Roy McKenzie.

Supper was now ready, and for the next hour and a half table after table of people partook of the sumptuous spread which had been prepared by the ladies. The cooking was of so inviting a character that it would have done credit to a city bakery, and speaks well for the skill in this community which has attained.

At seven o'clock the football match between S. S. No. 11 and S. S. No. 8 was called. When the players lined up in the field the boys of S. S. No. 11 were found to be matched against a combination of heavier and more experienced players from S. S. No. 8.

At eight o'clock the players lined up in the field the boys of S. S. No. 11 were found to be matched against a combination of heavier and more experienced players from S. S. No. 8.

The next evening an open air concert free to all. A very excellent program was rendered. A. A. Smith, of Chatham, acted as chairman in a very able manner. His mustard plaster, and more convenient for the outside. Nervine penetrates the tissues instantly, soothes the pain, allays inflammation, and cures sore throat and hoarseness simply because that's what it is made for. The large 25 cent bottle of Nervine is unexcelled as a household liniment. It cures everything.

Buds and Flowers of Home Life

Paine's Celery Compound

MAKES AND KEEPS THE CHILDREN WELL AND STRONG.

Mothers Make it the Home Medicine for The Little Ones.

The children, God bless them, are the buds and flowers of our home life. Without their prattle and hearty laughter, our homes would be desolate. They should ever be carefully tended in childhood and youth, if we expect them to ripen into perfect men and women.

In the home and at the school, the children need the best of health and suffering. We often note the pallid and bloodless cheeks, heavy eyes, nervous movements and twitchings of limbs and muscles. They complain of headache, dizziness, weakness, dyspepsia and indigestion. All such symptoms and ailments, mean that the seeds of disease will have a fast and firm hold, unless proper measures are taken to restore a perfect condition of health.

Thousands of wise and prudent parents have made their children happy, healthy and vigorous by giving them Paine's Celery Compound.

In many severe and complicated cases, Paine's Celery Compound has restored health when the little ones were given up by physicians.

If your dear ones are not as hearty, strong and rugged as they should be in June, try the health giving virtues of Paine's Celery Compound. It makes and keeps the children well.

Malt Breakfast Food

Has No Equal in the World

The Most Concentrated Form of Nourishment

As a hot weather breakfast dish, Malt Breakfast Food has no equal in the world. It has health nourishment in the most concentrated form. It is delicious to the taste, satisfying, appetizing and easily digested. Malt Breakfast Food energizes and invigorates body and brain. It is the only sensible food for young and old in the hot weather. Your grocer recommends it.

I see I must be more severe with you, Alfred! If you get home again late I'll dismiss the cook and begin doing the cooking again myself!

"Cleanliness is next to godliness." Dirt and depravity go hand in hand. This is just as true of the inside of the body as the outside. Constipation clogs the body and clouds the mind. Constipation means that corruption is breeding in the body, poisoning the blood with its foul emanations, befogging the brain, and its untold exhibitions of more diseases than, perhaps, any other single disorder. The consequences of constipation are legion. Headache, dizziness, nervousness, indigestion, flatulence, and a score of other ailments are directly caused by constipation. Care constipation and you cure its consequences. The quick cure of this evil is obtained by the use of Dr. Paine's Pleasant Pellets. They are small in size but wonderful in result. They cure permanently. They contain no injurious ingredients. The use of them does not breed the "pill habit." Ask your druggist for them.

Send 31 one-cent stamps, the expense of mailing and customs, and receive Dr. Paine's Common Sense Medical Adviser, in paper covers. This work contains 1008 pages and 700 illustrations. For 50 stamps it can be had in substantial cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

STEVENSON--SALES

Wednesday afternoon Alvin McAlister Stevenson was united in marriage to Miss Margaret Georgina Sales, at the home of the bride's parents, Mr. and Mrs. H. Sales, Middle Road, Morlin. The ceremony was performed on the lawn with a background of pines, by the Rev. T. Dobson, according to the solemn and impressive rites of the Church of England.

The bride was robed in an elegant dress of white organdie trimmed with lace and ribbons, and white carnations. She was attended by her cousin, Miss A. Jinks, of Darrell, who was attired in a dress of white Swiss muslin with blue ribbons and pink carnations; both looked charming.

The groom was assisted by his brother, Oliver Stevenson. The bridal party took their places as the wedding march by Mendelssohn was played by E. Jinks, of Darrell; the bride being led out by her father, Henry Sales.

After the ceremony was performed the church again peeled forth and congratulations followed.

WIRE WOUNDS.

My mare, a very valuable one, was badly bruised and cut by being caught in a wire fence. Some of the wounds would not heal, although I tried many different medicines. Dr. Bell advised me to use MINARD'S LINIMENT, diluted at first, then stronger as the sores began to look better, until, after three weeks, the sores have healed, and best of all, the hair is growing well, and is not white, as is most always the case in horse wounds.

QUEEN STREET SCHOOL SOLD

William Gray & Sons Co. Purchase the Property for \$2,000.

The Board Thought the Price Low but Decided it Was Best to Sell.

Another special meeting of the Public School Board was held last evening to decide whether or not the Queen street school and property belonging to the Board would be sold to the Wm. Gray & Sons Company.

Secretary Macnab being out of town attending the funeral of his sister-in-law in Hamilton, Robt. Park, I. P. S. took his place.

Dr. McKeough was moved to the chair, as Chairman Campbell had not arrived. The Doctor explained the object of the meeting, and so doing said that the offer was \$500 less than the valuation, but if the property were sold it would bring in taxes. He also said that the property would be decreasing rather than increasing in value.

Wm. Benson—I think it is a low price for the property, but probably the taxation would make up for it. It is a very low price when you take into consideration that the Board wants \$1,250 for the Payne school property.

Mr. Campbell—The Payne school property is larger than the Queen street.

Mr. Benson—But not so valuable. Mr. Morley agreed with Mr. Benson. He thought it would be best to hold.

Mr. Heyward—The price is certainly low, but I don't think its value will increase. If we don't sell it we will lose it at the rate of about \$150 a year. We need the money badly just at present as there are so many places to put it.

Mr. Robertson agreed with Mr. Heyward.

Mr. Benson said he did not know before that the property had been offered for sale, and others should be given a chance at it, and we might get a larger price.

Mr. Heyward—Wm. Gray & Sons are a big firm and we are proud of them and would be glad to see them extend the business of the school rather than to let it go to a speculator for \$2,000.

Dr. McKeough—That's right. Dr. McKeough—Heard! Hear!

Mr. Heyward continued—"And to bring the matter to a head I will move that we sell the said property to Wm. Gray & Sons at \$2,000, and that the Board's solicitor be instructed to make out the necessary transfer."

Dr. McKeough seconded the motion.

It was carried with Messrs. McKeough, Heyward, McKeough and Robertson for the sale, and Messrs. Benson, Morley and Cornish against.

On motion of Messrs. Benson and Morley, Mrs. Jessie Snell was granted leave of absence to attend Normal School.

Meeting adjourned.
