

THE MONTHLY FARMERS' ADVOCATE

PERSEVERANCE SUCCEEDS

Vol. 4] DEVOTED TO THE BEST INTERESTS OF THE COUNTRY. [No. 10

WILLIAM WELD,
Editor & Proprietor.

London, October, 1869.

Postage Prepaid.
Office—Richmond St., op. City Hall

THE FARMER'S ADVOCATE FOR 1870.

NOW is the time to subscribe! The remainder of this year's numbers FREE! Sixteen months for \$1, to New Subscribers if the cash is sent in at once. This paper is Edited by a Practical Farmer, and it furnishes accounts of the

AGRICULT' L EMPORIUM

Where Seeds are Imported, Tested and Disseminated, and where information is given in regard to Stock and Implements. It is commended by Agricultural Societies and County Councils. No farmer should be without it. Agents wanted in each township and County where they are not yet established, to take subscriptions for the paper and solicit orders for Seeds and Implements. Terms of the Paper \$1 per annum in advance. Advertisements ten cents per line. Address,
W. WELD, London, Ont.

Extract from Minute Book of the County Council of Middlesex.

We earnestly recommend the usefulness of the Agricultural Emporium established by Mr. Wm. Weld of London, for the dissemination of superior stock, seeds and implements among the farmers of the Dominion, more especially at this time, when from the ravages of the midge and other causes, our wheat crops are diminishing yearly. The exertions of Mr. Weld to procure new kinds of seed are praiseworthy. We also recommend his paper the "Farmer's Advocate," to the support of all persons interested in the success of Agriculture. And your committee would also recommend Mr. Weld to the favorable consideration of the Legislature of Ontario, praying that honorable body not to overlook the claims of Mr. Weld to encouragement in the efforts he is making for the advancement of our Agricultural interests.
JAS. KEEFER, County Clerk.

**T. STREET,
Land & Loan Agent
CITY HOTEL, LONDON.**

**TORONTO NURSERIES
ESTABLISHED 1840.
G. LESLIE & SON
PROPRIETORS.**

EXTENT - - - 150 ACRES.

THE Stock embraces Trees, Plants, and flowers of every description, suitable to the climate. Priced descriptive Catalogues sent to applicants enclosing a two cent stamp. Address,

A FEW Choice Leicester Ewe Lambs, and one fine Shearling ram. Apply to
JOHN KENNEDY, London.

ALLEN'S LUNG BALSAM!

THE REMEDY FOR CURING

Consumption, Coughs, Bronchitis, Asthma, Croup, Diseases of the Throat, Pains and Oppression of Chest or Lungs, Difficult Breathing, and all the Diseases of the Pulmonary Organs.

This Balsam is introduced to the suffering public after its merits for the positive cure of such diseases have been fully tested. The formula from which it is prepared is referred to by the leading medical Journals as being equal to any prescription that can be made up for such diseases by the medical faculty. The Balsam is, consequently, recommended by physicians who have become acquainted with its great success.

As an Expectorant it has no equal

It is composed of the active principles of Roots and Plants, which are chemically extracted, so as to retain all their medicinal qualities.

Ministers and Public Speakers

Who are so often afflicted with Throat Diseases, will find a sure remedy in this Balsam. Lozenges and wafers sometimes give relief, but this Balsam, taken a few times, will insure a permanent cure.
Sold by all Druggists.

**FARMERS SHOULD USE
MILLER'S
Tick Destroyer!
FOR SHEEP.**

It Destroys the Ticks, promotes the growth of the Wool, and improves the condition of the animal. Every day brings additional testimony of its thorough effectiveness. No flock-master should be without it. Sold everywhere in boxes at 35c, 70c, and \$1. A 35c box will clean 20 sheep, or 35 lambs.
HUGH MILLER & Co., Chemists,
Toronto, Ontario.

HANSON'S FORCE PUMPS.

THE Subscriber begs to announce to the inhabitants of Middlesex and surrounding counties, that, having made some valuable improvements in these already celebrated pumps, he is now prepared to fill with promptness and dispatch, all orders with which he may be favored.

For cheapness, durability, simplicity of construction and ease in working, these pumps are unsurpassed by any now made in the Province.

They never freeze, and never run dry, and are capable of throwing water on any part of an adjoining building, and being made of quartered timber and well painted, they never crack from the heat of the sun. Several hundreds of these pumps have been put in, during the last two years, in London and vicinity, and are giving entire satisfaction. They need not be taken apart to make any repairs that may be necessary.

PRICE OF PUMPS.

No. 1, \$5 for top, 30cts. a foot below platform. No. 2, \$4 for top, 25cts. a foot below platform. No. 3, \$3 for top, 20cts. a foot below platform. No. 4, \$2 for top, 20cts. a foot below platform. This is a Churn Pump. No. 1 will fill a pail at from two to six strokes. No. 2, from four to five. No.'s 3 and 4 at six strokes.

Persons calling at the shop for pumps, or sending an order requiring them to be shipped from London, and stating depth of well before platform, will get them for one dollar less than at the above prices. Please to call and examine before purchasing elsewhere. Manufactured on lot No 31, 1st con., Westminster, one half mile west of the Wharfedale Road.
JOHN D. CLEVELAND, London P.O.

FOR SALE CHEAP

In Quantities to Suit Purchasers.

200 BUSHELS of Prime Alsike Clover Seed.
100 bushels of Daniel O'Rourke, Excelsior and Crown Peas. 100 bushels Early Rose Potatoes, all warranted true to name. Address,
H. M. THOMAS, Brooklyn, Ont.

HARRIS'S CHAMPION CHURN

PATENTED 15th MARCH, 1869,

It, Without doubt, the best invention for the saving of labor in the dairy. This churn works with ease, does its work satisfactorily and expeditiously. It only requires to be tested, and it is sure to be appreciated. It is now to be seen on the Fair Grounds. Examine it.
I. A. HARRIS, Kerwood P.O.
Inventor and Patentee.

PATENT RIGHTS FOR SALE.

W. W. GARLICK, VETERINARY SURGEON
and John L. A. Poett, member Royal College Veterinary Surgeons, England, and graduates of the Edinburgh Veterinary College, late Veterinary Surgeon to the Royal Horse Artillery and First or Royal Dragoons. Horses and cattle attended to, and medicine always on hand for Ring Bone, Spavin, Curbs, &c. Office, next door west of engine house, North street, London Ont.

The Late Provincial Exhibition.

We live in an age of great progress! We find in all mechanical branches, wonderful improvements. Science and Arts are doing much for our advantage. Agriculture is also improving, but not at the rapid rate that some other branches of our commonwealth are doing. One great drawback is that farmers are not so much united as other classes. They are not rulers, but the ruled, the led, or the driven. This great exhibition, successful as it has been pronounced and has been in regard to the number of tickets sold, and it may be in the good that it is intended for, has made no improvement in its management and progress in all branches over which it has any power; the same prizes are given, with very slight alterations to what they were years ago. The stock department has been well encouraged with large prizes, but in no class can we point to any marked improvement from the stock exhibited here four years ago. On the whole, we consider the exhibition of stock rather on the wane in regard to quality, than on the improvement side. Perhaps more and better might have been here, had the time of entry been known soon enough.

In all classes there were fine animals to be seen, but no particular animal that we could see to surpass what we have previously seen at our exhibitions.

The mechanical department was well represented, and the most important article in that line was Carter's Ditching Machine. Draining is of importance to the country; anything tending to cheapen and facilitate that expensive operation should be greatly encouraged. We believe that Mr. Carter has expended four years of hard labor in perfecting this machine, and as it now stands it has cost him \$4000. We tried to induce the Board to grant a special Board prize to it as nine was offered for it, and we considered it of more importance that the objects to which \$30, \$60 or \$100 prizes were awarded; but it is difficult to move a cogged wheel out of an old track, and the cogs here have run too well in one another for years passed.

The grain on exhibition was good, but not so many entries as we should liked to have seen. The fruits were good, flowers not as good as usual; the roots and vegetables were the best we have seen.

The ladies, or some of them, had undoubtedly been very busy as their neat and beautiful work in wax, wool, worsted, beads, &c., fully testified; but in painting and drawing there was but a sorry show.

Mr. Wilmot may have done some good by introducing the artificial breeding of fish, but we cannot see why a strong party editor should call our particular attention to it, and wish us to show the farmers the great profit they might realize by cultivating fish

in their creeks and ponds. It may be true, but our attention is directed to the cultivation of the soil and the introduction of good seed. We consider that of far more importance to us in Ontario, than fish spawn, and if that editor and all the party that support him, would call more particular attention to the introduction, testing and giving correct information about varieties of seed that are most proof against the attacks midge, rust, pea bug, rot, mildew, &c., they would be doing a greater service to the country. By the by, we were so fully engaged that we were unable to scarcely look at a hen coop as we deemed machinery, stock and seed of greater importance. But on one occasion when in conversation with the Hon. Minister of Agriculture, he informed us that he had been waited on with a request to aid the Poultry Association. There may, perhaps be more important things that tend to increase our export receipts at a greater rate, that are not so much attended to as the poultry business; not that poultry should be neglected but we think the cereals of our country have been most neglected, and are of the most importance.

In the stove department we noticed an improvement. Mr. Jones, of Markham, had on exhibition, a strong, substantial stove, with doors to draw up on either side so that the blaze can be seen as well as felt. They are the best design we have seen for School-rooms or dining halls. At no exhibition that we ever attended did we hear such loud complaints about the decisions given by some of the judges, in fact we are fully satisfied that there is some wire pullers still about that association, or the servants belonging to it that ought to have the placards pasted on their backs that we saw pasted on some articles exhibited, that is, "Ruled out," and could point our finger at a few such individuals. We have no complaints to make this year on our own stock not getting fair play, as we did not exhibit an animal. The greatest attraction to this exhibition was the presence of Prince Arthur. He was an invited guest of the Association, and it cost them a pretty round sum; but the receipts at the gate may have repaid them. We cannot look on the charges made by one of the Aldermen for the use of his house and sundries for the Prince's reception, as being reasonable. The sum of \$2500 to one man is a large bill to pay, especially as this has to be paid by the farmers of the country, and hundreds and thousands of our poor farmers in the North-Eastern part of Ontario, can barely exist; and one highly intelligent farmer writes that he wishes to continue our paper, but poverty compels him to abandon it. Another sends us 25c. for as many good kinds of grain as we can send him, as he can get no more money; yet they have to be taxed for all this expenditure.

THE IMPROVED BERKSHIRE HOGS.

We have tried the Essex, the Berkshire, the Suffolk and the Chester Hogs, and crosses of different kinds, and have found no other to surpass our requirement for good, thriving, quiet, easily fattening, than the Improved Berkshire. My sons on the farm now have as fine a lot young ones of pure breed, from 10 weeks to three months old, as can be found in the country. Their prices are from \$10 to \$20 each, and any enterprising farmer may make a good return from them by introducing them into their sections. John Kennedy, of Hyde Park, realized \$130 from sows taken to one that he procured from us last fall. It has improved the hogs around his section and he sold four pigs from him for \$35. Now is time to ship them before the weather gets too cold and the roads too bad.

OUR PROGRESS.

We made but two entries at the Provincial Exhibition. One was of our large painting to bring into notice our Agricultural Emporium plan, the other was the result of our trial of seeds. We exhibited twenty-three varieties of Fall wheat as sown last year, and showed the samples raised from sixteen of them. His Excellency the Governor General stopped to examine them. We were introduced to him and explained briefly our undertaking, and our desire to continue our testing and dissemination of seed. He said that it should be continued. Sir John A. McDonald, our prime minister, also looked at our samples and said the Hon. Jno. Carling should attend to it. The judges on Seeds and Roots recommended that a prize should be awarded to us for our samples of seeds and roots. The Agricultural Board passed the following resolution unanimously.

Copy of Report of Judges on Mr. Weld's samples of Grains, Seeds, and roots at the London Exhibition, 1869.

"We recommend William Weld a prize for his samples of different kinds of grain, and seeds and potatoes."

RESOLVED.—That the exertions made by Mr. Weld in improving and testing various kinds of Farm Cereals, and in diffusing a knowledge thereof through the medium of the Press are deserving the encouragement and support of the farmers of this Province, and that this council will give to the object of improving and testing seed, its best consideration.

Certified,
HUGH C. THOMPSON,
Secretary.

Office Agl. Association, Toronto, Sept 30, 1869.

CLUSTER OF CORN EARS.—A singular natural curiosity in the shape of an ear of corn, has been presented to the editor of the Paducah Herald. There is a centre cob, around which are clustered and interlaced sixty-two distinct ears of corn, each regularly grained. It is about five inches in length by about the same in diameter. It grew on the farm of B. A. Johnson, near Viola Station, in Graves county. On the stalk on which it grew there is another ear, or combination of ears, equal to this in number, making, as the product of one stalk, one hundred and twenty four ears.

EARLY ROSE POTATOES GIVEN AWAY.

One package of four ounces sent free, per mail, to every new subscriber that sends in \$1 during this month, for the "Farmer's Advocate," for 1870, and the remainder of this year's numbers sent free. In clubs of four at \$1 each, we will send one peck per rail or express to the getter up of the club.

Remember from one of our four ounce packages last year forty one pounds were raised. The Harrison may be sent in the place of the Early Rose, and in double quantities except when sent per mail. They are the most productive potato we have ever seen. Send your orders at once and be ready for spring planting.

TAKING AGRICULTURAL PAPERS.

Why is it that so many who follow the noble and useful pursuit of farming, are so adverse to studying the experience and practice of our best farmers, as published in our agricultural periodicals? When you urge the claims of our journals, and ask them to subscribe and thus help to sustain papers devoted to their interests, they will tell you that they cannot afford it, while at the same time they take one or more simple trashy story papers, which are poisoning and ruining the minds of their children; or perhaps they will tell you that they have not time to read, while at the same time they can, many of them, find time by the hour to sit at the store or bar-room and jabber on politics. I often think that it would be far better for them to be at home with their families.

Others again will tell you that they want none of your book-farming—that it is all a humbug, and that they know as much about farming as those who write for the papers. On, profound wisdom! I cannot help thinking that, if they are really past learning, they are fit subjects for translation to some higher sphere. For my part, I expect to study and try to profit by the experience of my brother farmers, as found in our papers: and I desire no greater treat than, after the labors of the day are over, to take an agricultural paper and read its valuable pages at home with my family. Now, brother farmers, let us sustain our papers, and let me also urge each one to contribute to its pages something of his experience on his farm, to prove all things and hold fast that is good.

SEED GRAIN.

The prosperity of our Dominion must depend on our productions of the soil. Grain is our main staple export. Too little attention has been paid to the dissemination of good varieties of seed, a change of seed is even of greater importance than in Europe, as our climate tends to refine the quality of grain for a time, and in a few years it ceases to yield a good return, showing a change to be necessary. There has been no establishment in Canada where proper tests have been made of different kinds, and no place where a person could reliably procure a change. In many countries the same kinds of wheat are known under different names. Our country has lost more from the lack of proper seeds and proper information about

them than the Intercolonial Railway will cost. In looking over the list of \$12,000 of prizes, we only see \$36 awarded for fall wheat, excepting the Canada Company's prize, and the two others that it has caused to be offered. These prizes have, we believe, been invariably, for years past, awarded to the Soules Wheat, which is undoubtedly one of our finest wheats, but most liable to the attacks of the midge, and the encouragement and discrimination of that variety has caused more loss to our country than any other variety known. The whole of the \$36 remaining must be awarded to red or white wheats. The amber wheats, which we believe to be the most valuable, cannot take a prize.

In the spring wheat department there is advertised \$64 to be given away as prizes; one-fourth is to be awarded for a Midge Proof variety. We know not how it can be given, as we have tested all varieties we could procure and can safely offer \$100 for one ounce of Midge Proof Spring Wheat, for we have not yet found it.

The second quarter of the money has to be awarded to the Fife Wheat; there is no kind of Spring Wheat we know of that has suffered more from the attacks of the midge. We think, for the advantage of the country, that some alteration should be made by the managers of the Agricultural Affairs of this Dominion, in regard to the encouragement of testing new varieties and giving reports of them, as they must tend to the general good.

WHO ARE THEY.

There are some people in Canada that would try to complain about the inefficiency of the tests that have been made for the Agricultural Emporium, and of its management, &c., &c., &c. At the same time they may never have purchased a single grain nor any animal, perhaps not even paid the subscription to the Farmers' Advocate, and at the same time they may be in receipt of salaries or expending public money for which the country is taxed for the express purpose of advancing the Agricultural prosperity of the Dominion. We know of no person that comes under this clause that keeps the Farmers' Advocate paid for in advance.

We have now made arrangements with Mr. G. Roach of the County of Wentworth, to supply our customers with his celebrated stock of Essex and Improved Berkshire Hogs. Mr. Erskine Irvine, the celebrated breeder of South Down sheep, has also made arrangements with us, and his flock will be at our disposal, at least such as he will sell.

NOTICE—Our heavy seed business for this fall is closed; only small quantities to test will now be supplied in 25c. packages. Call at the Water-room on Richmond Street and see samples.

FALL SHOWS TO COME.

- Euphemia and Dawn, at Florence, on Thursday, October 14th.
- Bothwell at Thamesville, on Wednesday, Oct. 6.
- Raleigh, in the Town Hall, Middle Road, on Thursday, Oct. 7.
- South Perth, at St. Mary's, on Tuesday and Wednesday, October 5 and 6.
- North Perth, at Stratford, on Thursday and Friday, October 7 and 8.

West Williams, at Parkhill, on Friday, Oct. 8.
 Harwich, at the Bridge End, Wednesday, Oct. 13.
 Orford, at Duart, on Friday, October 8.
 Lambton, at Sarnia, on Wednesday and Thursday, October 6 and 7.

West Middlesex Agl. Exhibition at Strathroy, on Wednesday, 6th of Oct. Entries to be made on or before the 5th.

North Middlesex, at Ailsa Craig, 12th and 13th.

The East Riding of York and Markham Agricultural Societies Fall Fair will be held on the Agricultural grounds, Markham, on Wednesday and Thursday, the 6th and 7th of October. Upwards of \$2,000 in prizes will be awarded.

Elma and Wallace show will be held at Listowel on the 5th October.

The Raleigh township show will be held at the Town Hall on the 5th October.

The Tilbury East fall show will be held at Valetta on the 12th October.

Chatham township show will be held at Wallaceburg on the 14th October.

The Nichol show will be held at Fergus on the 5th October.

The Zona fall show takes place at Bothwell, on the 15th of October.

The fall show of Eramosa, will be held at the Centre Inn on the 30th inst.

The annual exhibition of the Pakenham Branch Agricultural Society takes place on Wednesday the 27th inst., at the drill shed in Pakenham village.

The annual Agricultural exhibition of Sophiasburg, will be held in Demorestville, on the 2nd October; the Hillier and Hallowell (united) exhibition will be held in Wellington on the 5th of October, and the Ameliasburg exhibition will be held at Robin's Mills on the 15th of October.

The County of Kent Agricultural Society will hold its annual exhibition at Chatham on Thursday, the 7th of October next. The prize list contains an extra prize of ten dollars, "for the best new mechanical invention applicable to agricultural purposes."

The Whitby and East Whitby Townships Agricultural Exhibitions will be held at Oshawa on the 7th of October. North Ontario county fair at the village of Uxbridge on the 5th and 6th of Oct. Reach and Scugog townships fair at Prince Albert on the 28th of September. Pickering township fair at Brougham on the 12th and 13th of October.

The fall show for the riding of South Grenville, will be held on the 29th instant at Prescott.

Markham, on October 6th and 7th; over \$2,600 in prizes.

The McGillivray Fall Show will be held at Mack's Hotel, Oct. 9th.

Application is made to us for China Wheat, and any person having a good, clean samplet would do well to send us a sample and state price.

What rural amusement does a nigger afford his brethren at his death?—Going a black-berrying—(burying.)

When may a man be said to have a fishy origin?—When his father was a good old sole, and his mother a little common (plaide)

LONG CORN.—The Decatur Magnet says:—Mr. Joseph Long recently brought to their office a half a dozen stalks of corn of the California yellow variety, which were fourteen feet in height. It was a specimen of a thousand acres now growing on his farm in Friends' Creek Township, this county. He also brought a couple of ears of sod corn planted in raw prairie the past spring. It was of the Potomac yellow variety, and measured fourteen inches in length.

Provincial Agricultural Association's Prize List for 1869.

HORSES.

Class 1—Blood Horses.

Thorough-bred stallion, four years old and upwards, Alex. McArthur, London, 36 dols. 2nd, John Rattenbury, Brucefield, 26 dols. 3rd, Major Cole, St. Thomas, 16 dols.

Three year old stallion, James White, Bronte, 22 dols.

Two year old do, do, 15 dols

Thorough-bred stallion of any age, J White, Bronte, Diploma.

Three year old filly, Major Cole, St. Thomas, 18 dols.

Two year old filly, J White, Bronte, 14 dols. Yearling filly, J White Bronte, 8 dols. 2nd, J White, Bronte, 6 dols.

Mare and foal, or satisfactory evidence that a foal has been raised this season, J White, Bronte, 22 dols. 2nd, J White, Bronte, 14 dols.

CLASS 2—AGRICULTURAL HORSES.

Judges:—A D Fraser, Hamburg; J C Aikins, T McMichael, Seaforth.

Stallion for agricultural purposes, 4 yrs old and upwards, G Teasdale, London, 36 dols; 3rd, T Patterson, Elsmere, 26 dols; 3rd, R Garbutt, Hagersville, 16 dols.

Three year old stallion, J Whitley, Goodrich, 22 dols; 2nd, J Rice, Woodstock, 14 dols; 3rd, J O Stewart, Goderich, 7 dols.

Two year old stallion, Isaac Bolton, Weston 15 dols; 2nd, R Metters, Cromarty, 10 dols; 3rd, J Jackson, Harrietsville, 5 dols.

Yearling colt, H Russell, Highfield, 10 dols, 2nd, James Carroll, London, 7 dols; 3rd, R Briggs, Arva, 4 dols.

Stallion of any age, G Teesdale, London, diploma.

Three year old filly, J Warner, Belmont, 18 dols; 2nd, James Robson, Ilderton, 11 dols; 3rd, Thos Smith, London, 7 dols.

Two year old filly, G S Shaw, Bowmanville, 14 dols; 2nd, W Elder, Rodgerville, 9 dols; 3rd, T Seldon, Ingersoll, 5 dols.

Yearling filly, G S Shaw, Bowmanville, 8 dols; 2nd, John Rowell, Birr, 6 dols; 3rd, T Patrick, Ilderton, 4 dols.

Brood mare and foal, or evidence that a foal has been raised, F W Stone, Guelph, 22 dols; 2nd, Jas Robson, Ilderton, 14 dols; 3rd, W H Odell, Belmont, 6 dols.

Span matched farm team (geldings or mares) in harness, Albert Colver, Simcoe, 20 dols; 2nd, J B C Frank, London, 15 dols; 3rd, H D Smith, Clearville, 10 dols.

CLASS 3—ROAD OR CARRIAGE HORSES.

Roadster or carriage stallion, 4 years old and upwards, E N Orr, Georgetown, 36 dols 2nd, R Thorburn, Caledonia, 26 dols 3rd, G C Wood, Morpeth, 16 dols

Roadster, three years old, G W Vail, Tempo, 22 dols 2nd, W Cunningham, Daimquin, 14 dols 3rd, R & E Knight, Milton, 7 dols

Roadster, two years old, Jas McDonough Carlow, 15 dol 2nd, G O Laidlaw, London, 10 dols 3rd, R R Richmond, Uttotexter, 5 dols

Yearling colt, Jas Flood, Arva, 10 dols 2nd, G Richardson, Woodbridge, 7 dols 3rd, T McLean, Coldstream, 4 dols

Stallion of any age, G B R Frank, London, diploma

French Canadian stallion, W Robertson, Dalkeith, 30 dols 2nd, E St Germain, Adare, 20 dols 3rd, H D Smith, Clearville, 10 dols

Three year old roadster, or carriage filly, G B Patrick, Birr, 18 dols 2nd, J Doty, Aylmer, 11 dols

Two year old filly, O Robertson, Aylmer, 14 dols 2nd, L Hunter, Exeter, 9 dols 3rd, Alex Marr, London, 5 dols

Yearling filly, Jas Palmer, Fingal, 8 dol, 2nd, R Stevens, Birr, 6 dols 3rd, I Nelson Luan, 4

Brood mare and foal, or evidence of having raised a foal, H Kennedy, Birr, 22 dols 2nd, T Frank, London, 14 dols 3rd, A McArthur, London, 6 dols

Pair of matched carriage horses (geldings or mares) A Nicholls, St Mary's, 20 dols 2nd, G O Battersby, Simcoe, 15 dols 3rd, J Coote, London, 10 dols.

Single carriage horse (gelding or mare) in harness, Hendrie & Co, Hamilton, 10 dols 2nd, do, 8 dols 3rd, O Clinac, Duncrief, 6 dols.

Saddle horse (gelding or mare) Thos Durand, Aylmer, 10 dols 2nd, H Hutton, Belleville, 8 dols 3rd, J C Hutchinson, Arva, 6 dols.

Highly commended—Jas Dalzul, Chesterfield, ponies; H Doxtatter, Cayuga, ponies; C Dicken, Lambeth, ponies; Geo Macbeth, London, pony; A McCormick, London, pony; G A Ross, London, pony; W Cummings, Port Burwell, pony; W & J Peters, London, extraprize.

CLASS 4.—HEAVY DRAUGHT HORSES

Heavy draught stallion, 4 years old and upwards, J J Fisher, Ben Milley, 36 dols 2nd, T Evans, St. Mary's, 26 dols 3rd, J Johnston, Cathcart, 16 dols.

Three years old stallion, R Ferris, Richmond Hill, 22 dols 2nd, J Laurie, Malvern, 14 dols.

Two years old stallion, C Mason, Clinton, 15 dols 2nd, J Ketchen, Columbus, 10 dols 3rd, J Laurie, Malvern, 5 dols.

Yearling colt, D McConachie, Orono, 10 dols 2nd, D S Macfarlane, Claremont, 7 dols 3rd, J H Gould, St Mary's, 6 dols

Draught stallion, any age, J J Fisher, Ben Miller, diploma

Three years old filly, Neil Taylor, Bowmanville, 18 dols 2nd, J J Dayidson, Balsam, 11 dols

Two years old filly, J Guy, Carlingford, 14 dols 2nd, James Moffat, Sanfield, 9 dols 3rd, J Elliot, Ratho, 5 dols

Yearling Filly, N Taylor, Bowmanville, 10 dols 2nd, J J Davidson, Balsam, 6 dols

Best brood mare and foal, or evidence that a foal has been raised, F W Stone, Guelph, 22 dols 2nd, D McConachie, Orono, 14 dols 3rd, J H Gould, St Mary's, 6 dols

Span of draught horses (geldings or mares), Hendrie and Co, 20 dols 2nd, T Kane, Frankand, 15 dols 3rd, Hendrie and Co, Hamilton, 10 dols

CLASS 5—THE PRINCE OF WALES PRIZE.

The best herd of thorough-bred Short Horn or Durham Cattle, consisting of one bull and five females, of any age or ages—Prize presented by His Royal Highness the Prince of Wales, John Snell, Edmonton, 60 dols

CLASS 6—DURHAM'S.

Bull, 4 years old and upwards, G Wood, Stratford, 36 dols. 2nd, R P Mills, St Thomas, 26 dols. 3rd, T R Haskett, Falkirk, 16 dols.

Three years old bull, J Snell, Edmonton, 36 dols. 2nd, J Moffatt, Washington, 26 dols. 3rd, W & B Barker, Paris, 16 dols.

Two year old bull, J Miller, Brougham, 36 dols. 2nd, W Jeffery, Whitby, 26 dols. 3rd, J Nimmo, Campden, 16 dols.

One year old bull, 20 dols. 2nd, J Miller, Brougham, 15 dols. 3rd, J S Thompson, Whitby, 10 dols.

Best bull calf (under one year), J. Snell, Edmonton, 15 dols. 2nd, J Snell, Edmonton, 10 dols. 3rd, A Carmichael, Nairn, 5 dols.

Bull of any age, J Snell, Edmonton, Diploma.

Best cow, J Miller, Brougham, 24 dols. 2nd, J Miller, Brougham, 18 dols. 3rd, J S Thompson, Whitby, 12 dols.

Three year old cow, J Miller, Brougham, 20 dols. 2nd, J Miller, Brougham, 15 dols.

Two year old heifer, J Snell, Edmonton, 16 dols. 2nd, J S Thompson, Whitby, 12 dols. 3rd, F W Stone, Guelph, 8 dols.

One year old heifer, J Miller, 12 dols. 2nd,

F W Stone, 9 dols. 3rd, John Snell, 6 dols. Best heifer calf (under one year), John Snell, 10 dols. 2nd, F W Stone, 6 dols. 3rd, John Snell, 4 dols.

Judges—J Craig, Cornwall; Col Mitchell, Credit; J Vine, St. Catherines; J Miller, Spencerville.

CLASS 7—DEVONS.

Bull, four years old and upwards, G Mann, Bowmanville, 36 dols.

Three year old bull, G Rudd, Guelph, 32 dols. 2nd, H Howe, Thornbury, 20 dols. 3rd, Peter Scott, Elgin, 12 dols.

Two year old bull, R Foley, Bowmanville, 24 dols. 2nd, John Pincombe, London, 16 dols. 3rd, H H Spencer, Brooklin, 8 dols.

One year old bull, W & J Peters, London, 20 dols. 2nd, John Pincombe, 12 dols. 3rd, W & J Peters, 7 dols.

Best bull calf (under one year), R Foley, Bowmanville, 16 dols. 2nd, W & J Peters, London, 10 dols. 3rd, John Pincombe, 6 dols.

Bull of any age, George Rudd, Guelph, Diploma.

Best cow, W & J Peters, 24 dols. 2nd, G Mann, Bowmanville, 16 dols. 3rd, G Rudd, 12 dols.

Three year old cow, R Foley, Bowmanville, 20 dols. 2nd, W & J Peters, 14 dols. 3rd, H H Spencer, Brooklin, 10 dols.

Two year old heifer, R Whetter, 16 dols. 2nd, G Mann, 12 dols. 3rd, W & J Peters, 8 dols.

One year old heifer, R Whetter, 12 dols. 2nd, H H Spencer, 8 dols. 3rd, G Rudd, 6 dols.

Heifer calf (under one year), J Pincombe, 10 dols. 2nd, R Foley, 6 dols. 3rd, G Mann, 4 dols.

Herd of Devons, consisting of one bull and five females, of any age or ages, G Mann, 30 dols.

CLASS 8—HEREFORDS.

Three year old bull, F W Stone, Guelph, 32 dols.

Three bottles sweet wine, J Taylor, St Catharines, 3 dols 2nd, W Bissel, London, 2 dols.

Six bottles sparkling wine, J. Taylor, 5 dols.

COLLECTION.

Open to all—Professional and General.

The best collection, distinct from other entries, (the excellence of the collection to consist in qualities and kinds) of named varieties of apples, pears, grapes, plums, peaches, crabs, and quinces, contributed by any one person, or any number of persons, or any society, Hamilton Horticultural Society, \$50.

Judges:—A Leslie, London; R Currie, Niagara; A B Bennett, Brantford.

The judges wish to note the particularly fine collection presented, especially in Pears, 200 varieties being presented, almost uniformly well-grown handsome specimens, properly designated.

Of Peaches, about 24 varieties were shown, generally very fine, some seldom surpassed. The apples were, in themselves, a display worthy of particular notice.

The judges regret that the competing entry from the Galloway Society Niagara, was not fully placed on the table, owing to the sudden and melancholy death of G Z Rykert, Esq., who had charge of the collection.

Two mammoth field pumpkins, Mrs Allen, Ingersoll, 3 dols 2nd, W Cairncross, 2 dols.

Four common yellow field pumpkins, A Kerr, Westminster, 3 dols 2nd, J Barnes, St Thomas, 2 dols 3rd, W Bissel, London, trans.

Ten lbs of cured tobacco leaf, growth of Ontario, A Shaw, Kingston, 4 dols.

CLASS 28—GARDEN VEGETABLES.

Twelve roots of salsify, E. C. Fernside, Hamilton, 2 dols 2nd, W. Carnicross, Westminster, 1 dol.

Three heads cauliflower, A. W. Taylor, Hamilton, 2 dols 2nd, A. B. Baker, Guelph, 1 dol 3rd, J. Worrell, Longwood, 1 dol.

Three heads cabbage (summer), S. Sinfield, Hamilton, 2 dols 2nd, T. McBroom, London, 1 dol 3rd, G. Tyas, do, 1 dol.

Three heads cabbage (winter), D. Anderson, London, 2 dols 2nd, D. Anderson, do, 1 dol 3rd, T. McBroom, do, 1 dol.

Four sorts winter cabbages including savoys, 1 of each sort, D. Campbell, London, 3 dols 2nd, W. Burgess, Mimico, 2 dols 3rd, D. Anderson, London, 1 dol.

Silk and felt hats, E Beltz, London, 5 dols

Stockings and socks, factory-made, woollen, three pairs of each, Armstrong, McCrae and Co, Guelph, 4 dols

OPINIONS DELIBERATELY FORMED AND CONFIDENTLY EXPRESSED.

1. Over-stocking the field with bees presents the greatest obstacle to the bee-keeper's success in his business, which he has to surmount.

2. When there are too many colonies in a field for the honey produced, the following results arise: The bees must be a longer time in gathering their load, having occasion to go farther for their stores, and to visit a much greater number of flowers to make out their load. From these causes it takes them a much longer time to gather their stores, and only a few of the strongest swarms will be able to give any surplus to the boxes.

3. The greater distance travelled by them exposes them to greater danger from high winds, sudden heavy showers, and the enemies that often take them on their flight to and from the hive.

4. Wherever this state of things exists a number of the colonies fail to secure a winter's supply, and perish unless they were broken up in the fall, or a winter's supply of stores given them by the keeper.

5. When reduced in numbers and stores, both moths and robbers are ready to make an attack, and often a successful one, upon them. Only weak swarms are in imminent danger from moths or robbers. If the apiarian keeps his hives so full as to have in all of them a large and effective force of bees, there is much less danger to his colonies from the depredations of either.

6. Surplus must depend again upon the working force of the colony. The working force of two good colonies placed in one hive, with ample surplus box room for their whole labor, with only the brood from one queen to provide for, will give four times as much surplus as they would give in the two hives sustaining the brood of two queens.

7. Thirty colonies in the old swarming hives transferred to twenty hives with surplus boxes, of the aggregate capacity of 150 or 200 pounds, and placed in two fields, ten in each field, would give from one to two tons of surplus honey—or in one field, if it was a very good one.

8. From my experiments thus far, I am satisfied that with hives properly constructed and arranged, an apiary may just as well be kept up to an average per colony of 100 or 200 pounds of surplus, as in the small swarming hives to 10 or 20 pounds.

9. Only three things are necessary to secure an average of 200 pounds per colony:—First, a hive with box room for 200 pounds of honey in most intimate connection with the breeding apartment; second, a sufficient working force in the hive; third, a sufficient field.

10. These three conditions are very easily secured:—

First—We already have the hive in the largest sized Eureka hive.

Second—The working force may be secured by doubling colonies or swarms by transfer or hiving, in any common manner of hiving, transferring or uniting colonies.

Third—They may be limited in number to the capacity of the field, either by doubling colonies in any manner, or by removing supernumeraries to another field.

In the large hive the keeper gets in surplus ten-thirteenths of the product of his field, consuming but three-thirteenths. In the small hive he obtains one-fourth in surplus, the bees consuming three-fourths. Which shall we have?—*Country Gentleman.*

A NEW CROP.

Has any one in Canada tried sunflowers as a crop? From some experience of cultivating the sunflower, and from what I have read about it, I think the following points are in its favor:—

1st. It will produce a greater aggregate weight of stalks, leaves, flowers and seeds than, perhaps, any other crop that can be planted.

2nd. It has no enemies, and requires no care except to sow it thinly in a rich soil. It will overcome weeds, but would, of course, be the better of being kept clear of them.

3rd. Horses are extremely fond of its leaves, flowers and seed-pods, all of which they will eagerly devour without any cooking or chopping, and cows will eagerly eat the leaves and flowers and tender stalks, though I have not found them eat the riper heads of seeds.

4th. The seeds are, probably, as rich in oil as linseed, and are eagerly devoured by poultry and all kinds of graminivorous birds.

I do not know how the leaves would be relished if dried as hay, nor indeed how they could be cured and stored at all. Neither can I say how the seeds could be preserved, for I believe they are very liable to heat; but, from the 1st of August to the 1st of October, the plants might be cut or drawn up daily and fed to stock, and the more mature seeds would feed poultry during at least five weeks of that time. Indeed, by sowing early, rather thicker than necessary, and thinning continually, and sowing in succession, I have no doubt cattle could be fed on them from the 1st of July to the 1st of November without any trouble except bringing the plants from the field to the stable.

Every farmer knows that these months include the time when, in warm, dry seasons, fodder is scarcest, and all know how important it is to put these months well over. I believe the sunflower would just accomplish this object, as it is in a great measure independent of weather, though in a damp season it grows most luxuriantly.

There is another advantage in cultivating sunflower which I have seen stated, but cannot vouch for, namely, that it absorbs deleterious gases, and renders a fever and ague neighbourhood quite healthy.

Will some intelligent and enterprising farmer try an eighth of an acre of sunflowers, giving them plenty of manure and plenty of room to grow, say at least five feet each way, and let us know the result? The common single sunflower is the best, as it produces the greatest quantity of seed. J. D.

DRAINING!

FACTS FOR FARMERS.

The best authorities on Agriculture say that thorough drainage will add at least one third to the product of the soil.

Drainage will often save a crop. Drainage will enable a farmer to work his land much earlier in the spring, and thereby his crops escape risks to which late planting exposes them.

Drainage will often convert useless land into the most productive.

Rain should not be permitted to run off the surface of the soil, nor should it remain in it to sour, but should precolate through it, and then be removed, thus imparting to vegetation the valuable properties it contains, so necessary to the sustenance of vegetable life. Hence the great importance of underdraining.

A THOROUGH SYSTEM OF UNDERDRAINING Prevents the Soil from baking.

Preserves it always in a moist and porous state, so that the roots can extend to great distances in the soil in search of nourishment, and thus causes a vigorous growth of the crop. The undersigned has therefore great pleasure in introducing to the enterprising farmers of Ontario,

CARTER'S IMPROVED DITCHING MACHINE

An invention which will supply a great want, and greatly help the agriculturist in causing "two blades of grass to grow where but one grew before," and at a price greatly under the cost of ditching and draining in the usual manner—by spade and mattock.—This Machine was tried last summer on Mr. Leslie's farm, near Toronto, and earned the approbation of all the practical men present, and received flattering notices from the representatives of the press sent to report upon its merits.

The following additional testimonial is now submitted, and as it is subscribed by prominent and well known farmers in the County of Elgin, the undersigned rests confident that the merits of the machine will remain unquestioned, and that the more it is introduced the more useful and popular it will become.

Testimonial of Eye-Witnesses.

We, the undersigned, having been present at a trial of Carter's Improved Ditching Machine, held on the farm of Mr. Andrew Murray, Malahide, Ont. 28th July, 1869, hereby certify that the said machine in our judgment is perfectly adapted for the purposes of Land Draining, supplying a machine exceedingly simple in construction, easily handled, and admirably adapted for agricultural purposes, and for which we feel assured a good return will be realized by any person requiring it, being satisfied that under ordinary circumstances the Machine is capable of making drains from 2 1/4 to 3 feet deep and 8 inches wide at a cost of from two to four cents per rod according to the nature of the soil operated on; and we therefore recommend the said Machine to the favorable notice of the farming community.

To make a rat and mouse-proof house Mr. J. M. Hartwell, of Colebrook, N. H., tells the New York Farmers' Club to take some mortar and bricks, and after the frame of the house is up and boarded and the partitions set, lay one or two thicknesses of brick between every stud, both on the lower and upper floors. Then lath and plaster to the floors, and put on a narrow mop or washboard, not so high as to have the upper edge come above the brick. As the rats and mice gnaw in, just over or under the washboards, bricks thus laid will make the house rat and mouse proof, at an expense of \$5.

THE PEACH TRADE AT NEW YORK.—The New Yorkers are revelling in peaches at the present time, and enjoying the luxury at an unprecedented cheap figure. On Friday, one hundred and fifteen car loads (only think of it) of the delicious fruit arrived in that city, on the New Jersey Railroad, containing no less than 51,750 baskets. It is estimated that if each basket be rated at two hundred peaches each, the receipts of this immense shipment must have been 10,350,000 peaches, about nine for each inhabitant of the city.

Communications.

To the Editor of the Farmer's Advocate.

"RULED OUT."

DEAR SIR:—Allow me the favor of stating a few facts in connection with our late Provincial Fair. You are well aware that I generally exhibit largely at all our shows, in fruit—and I am proud to say, generally with good success—having taken several prizes at the Provincial Show held here in 1865, including first prize for the best 20 varieties of apples. I also entered this year in seven classes, including the best twenty varieties; but what do you think my surprise was on reading "ruled out," written in very large letters across my card, as also the same on the cards of Messrs. BATTERY of Adelaide, and of course the public could not but think that we had been guilty of some great fraud or deception, to be so outlawed. No explanation was given, and what, sir, do you think we had done for being thus publicly advertised "ruled out?" simply because we happened to show more varieties than was called for. I had, I think, thirty, and the Messrs. BATTERY twenty-two. Now what great crime this was I cannot see, as the catalogue does not state not more than twenty varieties, as it does with pears just below, where it says "not more than five varieties." Now had it been worded so, we could not have gone according to the class named, but I cannot see why a man should be excluded from competing, simply because he showed too many varieties.

Now it was evident to any one, that ours was the best twenty varieties shewn, and one of the judges stated to me that it did not take them two minutes to say which was the best twenty varieties. Yet these bigoted and ignorant judges, in their own estimation thought fit to exclude us. I think that some of their friends below, who had given them prizes the day before, may to receive some like favor from them. One of them told me they had consulted Mr. Thompson, the Secretary, and he had decided we must be "ruled out." Now Mr. Thomson stated to me that he had never been consulted about it at all; so much for their veracity. Now, Mr. Editor, it's not the amount of the prize I care for, but I do like fair play, and a little courtesy. If we had made an error—surely it was not intentional, and besides done with a good intent to make the display as good as we could. But for this we are publicly "ruled out," a great act of injustice; but when such ignorant and bigotted men are appointed we cannot expect fair play, especially as the whole of their interests and feelings are in the East, and those in the West. I hear from many that parties have not got justice done them. If the judges acted strictly to the catalogue, why did they give first, second and third prizes to parties whose fruit was incorrectly named, when it calls for twenty varieties of apples correctly named? Now why not rule these out? It did not answer; they belonged to friends below, who were judges of their fruit the day before. I will show twenty varieties of apples for size, firmness and quality, this fall against either of the gentlemen who took first, second, or third prizes—to be correctly named and to be judged by men who have some sense of honor about them, and not by men who are totally unfit to act as judges.

Pa. don my taking up so much of your valuable space, but it will be satisfactory to many to know why we were ruled out.

I forgot to state that the party who got the second prize had eight Golden Russet apples which were shown as two varieties, viz: Roxbury Russet and Golden Russet, thus making only nineteen varieties. So much for favoritism and ignorance.

Yours, obliged.

ABDIEL G. DEADMAN.

To the Editor of the Farmer's Advocate.

THE EARLY ROSE POTATO.

MR. WELD—Dear Sir:—About the middle of May I procured from you a potato of the Early Rose variety, weighing five ounces. This was divided into fifteen pieces, and planted on the 20th of May, in a row about twelve feet in length. Twelve of the cuttings grew luxuriantly, each one sending out three or four strong stalks. They were hoed once during the season. On the 21st of August the produce was gathered, and amounted to rather over forty pounds of beautiful potatoes—one of which weighed 17 ounces, another 15 ounces, and several others a pound each. I had the pleasure of eating some of them, and a sweeter, drier or more mealy potato I never saw or ate.

A peculiarity of the Early Rose which I never noticed with any other variety is, that on the stalks grow, instead of "apples," perfectly formed small potatoes.

Yours respectfully,

T. MACK.

London, Aug. 28, 1869.

[The above is certainly a great yield, but we have heard of several that have even had a greater return. We find them a very superior potato, and as soon as they become cheap enough every farmer will raise some of them. The Harrison and the Early Rose will be the potatoes for the coming season. We never had such a large crop as we have from the Harrisons, and the Early Rose, for quick maturity and quality, surpass any early variety we have yet tried. The Harrisons are a later potato, still they ripen about ten days before Peach Blows.]

To the Editor of the Farmer's Advocate.

Dear Sir:—The Deihls, Tredwell, and Kentucky Midge Proof supplied by you have yielded well; in fact they have yielded double the amount of some of the other varieties sown here.

R. J. DOYLE,

Owen Sound, Aug. 31st, 1869.

CARE OF TOOLS AND IMPLEMENTS.—The injury done to all kinds of hand-tools and farm implements by long exposure to alternate rain and sunshine, often amounts to much more than the wear and tear while in active service. Even when implements are made entirely of iron and other metal, the scales of rust that will form on smooth and bright surfaces in a few days will often injure the running parts more than the actual wear during the entire season. Steel ploughs are frequently left standing in the furrow with the damp earth in close contact with the bright surface of the mould-board and the landside, where a thick scale of rust will form in a day or two, which will wear out the plough more than to plough several acres. A hand hoe is frequently left with the bright blade covered with wet earth pressed down on the surface, thus facilitating the formation of a thick scale of rust, which wears out the steel and makes the tool work unaccountably hard. It should be one of the inflexible rules of the farm and garden to wipe the bright surfaces of all tools clean and dry as soon as

they are not to be used again, for even half a day, or more, and cover the parts with any kind of oil or grease that contains no saline matter. The wood work of hand tools and farm implements, even when painted, is often seriously injured by rains, dews and sunshine. Water and dampness will raise the grain of the timber, settle in the joints and hasten their decay; and the hot sun will crack the surface, and warp, contract, and twist the wooden parts to such an extent as to damage the machine more than all the work that has been done with it. If one would have good tools, they must be taken care of: Tools are a reliable index to the character and skill of the workman.

HOW A FARMER MAY LOSE MONEY.

By not taking a good home paper.

Keeping no account of home operations.

Paying no attention to the maxim, "a stitch in time saves nine," in regard to the sowing of grain and planting of seed at the proper season.

Leaving the reapers, ploughs, cultivators, &c., uncovered from the rain and heat of the sun. More money is lost in this way than most people are willing to believe.

Permitting broken implements to be scattered over the farm until they are irreparable. By repairing broken implements at the proper time many dollars may be saved, a proof of the assertion that time is money.

Attending auction sales and purchasing all kinds of trumpery, because, in the words of the vendor, the articles are "very cheap."

Allowing fences to remain unrepaired until strange cattle are found grazing in the meadow, grain fields, or bruising the fruit trees.

Disbelieving the principle of a rotation of crops before making a single experiment.

Planting fruit trees with the expectation of having fruit, without giving the trees half the attention required to make them profitable.

Practising economy by depriving stock of proper shelter during the winter, and giving them unsound food, such as half-rotten and mouldy hay and fodder.

Keeping an innumerable tribe of rats on the premises, and two or three lazy dogs that eat up more in a month than they are worth in a whole lifetime.

The New York SUN says:—DEXTER was put before a sulky for the first time this season on Thursday, p.m. on the Seacucus track. The track was very muddy and heavy, and it was necessary to drive on the extreme outer edge to go at all. Notwithstanding these unfavorable circumstances, Mr. Bonner drove DEXTER a half mile in 1:07. A good deal of curiosity is felt to know in what time he could trot a mile now, with the track in good condition.

PROLIFIC.—We are assured that Mr. Gregg, of Churchill, Innisfil, recently dug eleven pounds and two ounces of potatoes from one accidentally left in the ground last winter, and that five out of the number weighed four pounds and three ounces.

Our prize list occupies so much space that we are unable to put in all the reading matter or advertisements. We issued thousands of supplements during the Exhibition, but our distributor did not leave sufficient for all of our subscribers.

It is much to be regretted that the authorities of this city have not acted as honorably toward the Agricultural Association as they should have done. Also the enormous charge made against the Association by one of the city alderman, namely, \$2500 for the entertainment of the Prince for two and a half days, shows a great desire to grasp too much of the funds from the Association. These citizens may talk about the encouragement of agriculture, &c., but No. 1 is the first consideration. We know not in what way the tickets were taken from the Association, but they were procurable at two stands and a box on the streets. The Association will in future look more closely after this part of the business.

The Parry Sound ADVOCATE says that in the township of Watt the spring wheat is a good sample. Peas a large crop. I counted 24 pods on one stalk. Turnips doing well. In McDougal, the crops are excellent. Potatoes will also be a large yield. The spring wheat in McKeller is a heavy crop, roots also will be a large yield. Peas, oats, and spring wheat in Draper are all that could be desired. Potatoes and turnips never looked better. This is the best year we have ever had. The crops in Macaulay this year are much in advance of former years, and an abundant harvest crowns our toil.

INVENTION.—The "Oregonian" says, Mr. C. Howe, of Astoria, showed us last Saturday, an invention of his which will doubtless be highly appreciated by all equestrians. It consists of rings for girths, which are so made that the rider can tighten the girth without dismounting from his horse, by merely pul-

ling upon a strap passing through the rings. This strap is held in its place by a tongue working upon the principle of a lever, the lower end pressed upon the horse's side, and is held the more firmly the tighter the girth is drawn.

THE BEST GRASSES.

Out of 160 indigenous English Grasses, only the following have been found of any value for permanent pastures:

Dactylis Glomerata	Cock's-foot Grass
Alopecurus pratensis	Meadow Foxtail.
Festuca pratensis	Meadow Fescue.
Festuca duriuscula	Hard Fescue Grass
Phleum pratense	Greater Meadow
	Cat's-tail Grass.
	Sweet-scented
Anthoxanthum odoratum	Vernal Grass
	(which gives its
	scent to hay.)
Avena pratensis	Meadow Oat grass
Avena flavescens	Yellow Oat grass.
Cynosurus cristatus	Crested Dog's-tail
	Grass.
Holcus avenaceus, or Ar-	Tall Oat-like soft
rhenatherum avenaceum	Grass.
Hordeum pratense	Meadow Barley
	Grass.
Lolium perenne	Rye Grass.
Poa annua	Annual Meadow
	or Suffolk Grass.
Poa trivialis	Rough-stalk Meadow
	Grass.
Poa pratensis	Smooth-stalk Meadow
	Grass.

IMPROVEMENT IN PLOWS.—About a hundred and thirty years since, a Scotchman invented the cast iron mould board, which was a marked improvement on the wooden one, and after this, the plow manufacturer and the plow holders seem to have remained content for half a century, when an English inventor gave a new start to their ideas of progress by bringing out one better adapted to the work for which it was intended, and since that time there have been continued improvements made.

AGRICULTURAL EMPORIUM PRICE LIST FOR OCTOBER.

The Empire Seed Drill, the 1st Prize Machine, giving entire satisfaction; without Grass Sower	\$65
With Grass Sowing Attachment	\$70
The Celebrated Little Giant Thresher and Separator, highly approved of; price in Cash	\$100
On Credit, with seven per cent. interest	\$105
With Horse Power, Tumbling Rod, Band Wheel and 60 feet of Belting	\$180
On Credit with seven per cent. interest	\$185
Sell's Patent Cider Press, 1st Prize	\$30
Double Geared do.	\$35 and \$40
Abell's Patent Grain Crusher	\$28
Gardener's Patent Root Cutter	\$50
Straw Cutters with reversed feed, 12 inches	\$45
do. do. without reversed feed	\$40
do. do. do. do. 10 1/2 inches	\$36
do. do. do. do. 9 1/2 do.	\$30
For Hand Use	\$130
Carter's Improved Ditching Machine	\$40 to \$43
Sell's Patent Hay Rake and Self-Loader	\$3
Young's Patent Sheep Marks per 100	\$10 to \$130
Jones Amalgam Bells, from	\$4
Newell's Patent Corn Sheller	\$10
Baker's Patent Washing Machine	\$10
Sell's Patent Washing Machine	\$5
Fryatt's Patent Bagholder and Carrier	\$10 to \$25 each.
Improved Berkshire Hogs from	\$15 to \$30 each.
Leicester Ewes from	\$15 to \$30 each.
do. do. Lambs, very good	\$15 to \$30 each.
Ram Lambs	\$15 to \$50 each.
South Downs from	\$15 to \$50 each.
Early Rose Potatoes, four ounces per mail 20cts. per peck \$1, per bush \$3. Harrison's, four ounces 20cts., per peck 50cts., per bush \$1. per barrel \$2.50. Australian, four ounces 20cts. per peck 75cts. per bush \$1.50. Early Goodrich, 374cts. per peck, \$1 per bush, \$2 per barrel.	

Send your orders, per mail, for implements, &c., through the Emporium.

Worthen's Patent SELF-ACTING HAND LOOM.

THIS Loom will weave a greater variety of Goods with less Power, greater ease, and with more rapidity than any other loom now in use, and is every way adapted to weaving all kinds of hand spun woolen yarns, also cotton and wool, with great speed. Any person can weave on this loom when the warp is drawn through the harness.

It lets off the warp, winds up the cloth, throws the shuttle, and treads the treadles by simply turning an easy crank. When the warp is drawn through the reed and harness, on the same warp, Jeans, Satinette, Tweed Linsey, Blanket Twill, Double, Plain, Sencing Twills, and various kinds Ribbed Goods and Balmoral Skirtings can be woven. To make the changes from one kind of Cloth or Twill to another, requires but two minutes, and they are so easy and simple that a child can make them after one time showing. This loom has taken

FIRST PRIZE

in nearly every state of the United States, and has been greatly improved, and received the first prize at Kingston, 1867, also first prize and silver medal at Montreal, Sept. 16, 1868, and first prize at Hamilton, Sept. 24, 1868, and at London, Sept. 24, 1869. For Lower Province, Worthen Loom Co., Coaticook, Province Quebec, or S. Worthen, Toronto. J. H. BECK, Medina P. O.

AUCTION SALE of Thorough-bred Long Wool Sheep, Cattle, &c. The subscriber has instructed Mr. Richard Neil, to sell by Auction, On Lot No. 17, 1st Range, South of the Longwood Road, Moss Township, in the village of Wardsville, on Thursday, October 21, 1869, the following stock, viz: 40 Sheep, comprising Rams, Ewes, & Yearling Ewes, and Ewe Lambs. Also 1 thorough-bred Durham Bull Calf, 1 Grade Ayrshire Cow, 1 Grade Devon Cow, 3 Superior Milch Cows, &c. Sale to commence at 11 o'clock. J. T. WRIGHT.

LONDON PUMP AND FANNING MILL FACTORY

Bathurst-st., London Ont. J. M. COUSINS, Manufacturer of Improved Force and Lift Pumps, Fanning Mills, and "Little Giant" Straw Cutters. Pumps repaired, Wells dug and Cisterns built.

THE Services of Anglo Saxon, the King of Canadian Stock, may now be engaged for the Spring season by any Agt. Society that wishes to procure the most valuable stock producer for Beauty and Utility.

EXTENSIVE SALE OF REAL ESTATE!

IN AND NEAR LONDON. WILL be sold by private sale, and immediate possession given, that valuable property known as "ELMHURST," being the homestead of the late Honorable Mr. Justice John Wilson, consisting of a handsome stone house, finished in the most complete and substantial manner, with stone stable and coach house, orchard, greenhouse garden and grounds, in all about 16 acres of excellent land, in the best cultivation, and delightfully situated on the bank of the river, within ten minutes walk of the market or post office, and free from city taxes. Also, The Homestead Farm, of about 100 acres of excellent land, on the Wharfedale highway, with good brick farm house, two large barns, sheds, and about seventy acres cleared, and all well fenced, within a mile of the city; a good gravel road and no toll. Also, 180 acres in the township of Delaware; about 60 acres cleared, balance well wooded with beech and maple, seven miles from London, on the gravel road. Also, part of lots 3 and 4, 1st con. Lobo, about 100 acres; a good brick house and frame outbuildings on the property; beautifully situated on the River Thames. Also, north part of Lot 7, 1st Con Westminster broken front, about 90 acres, with frame farm house and outbuildings. Also, several houses and lots in the city of London. Terms liberal. Apply to PHILIP MACKENZIE, Solicitor, London, Ont. or J. J. HUGHES, St. Thomas, Executors. Wm. BAYLEY, London.
