DOCTOR HAS GIVEN LIFE FOR SCIENCE

Allowed a Venomous Indian Snake to Bite Him.

Missed Treating the Fifth Wound Inflicted by Reptile.

[By Special Wire to The Courier] CALCUTTA, British India, Feb. 28.—Dr. Frederick Fox, an Australian scientist, who had devoted his life to the treatment of snake bites, died late last night as the result of a bite from a snake, which he was using for experimental purposes.

Dr. Fox fell a victim while he was trying to prove the efficacy of what he had claimed was a sure antidote to the virus of the snake. He had just finished treating a goat which had been bitten bitten and he had succeeded in saving its life when he was attacked by a deadly krait snake, which is peculiar to British India.

The krait is a very venomous reptile of elapid variety, possessing grooved poison fangs and solid upper teeth behind them. During its attack on the doctor the snake inflicted five punctures.

The doctor, who had often voluntarily submitted to snake bites in order to demonstrate the efficacy of his cure skillfully incised four of the punctures, but the fifth escaped his notice. Later in the day symptoms of poisoning developed. The antidote made by Dr. Fox himself was used, but it was too late and Dr. Fox was added to the roll of martyrs to science.

J. H. FISHER, M. P. IS FIGHTING GAS COMPANY

He Secured Promise at Ottawa for Abatement of Nuisance.

OTTAWA, Feb. 28.—The situation which has been created in Western Ontario towns and cities by the introduction of unpurified natural gas from the Tilbury fields was brought before Hon. W. B. Nantel, Minister of Inland Revenue yesterday by John H. Fisher of Brant, and W. C. Weichel of North Waterloo, with results that should mean an early relief of the unpleasant conditions that have prevailed since this gas made its advent about the middle of December.

Just what action the department will take, was not announced, but it is understood that the minister has power that will compel the companies to purify the gas or cease to dispose of it. This is the assurance that was received by the two Western Ontario members who waited upon him yesterday.

Paris Patient.
Mr. Fisher presented the case for Paris. The people of that town had been exceedingly patient, he said, but the conditions had now gone on so long that the residents' patience had ceased to be a virtue. The town had made protests to the company but without avail.

Mr. Weichel acting on behalf of personal knowledge, being himself a consumer of the gas company in Paris.

Mr. Weichel, acting on behalf of George Clare, who is absent through illness, pointed out that about the middle of December, Tilbury gas was turned into the mains at Galt, and that there was an immediate protest. There were conferences with the gas company but there had never been other than a promise to purify as far as the company was concerned. He had been asked by Mayor Buchanan of Galt, to bring the attention of the minister to the violation of the law, with the request that the department should pass an order setting a date within which the company should provide for the necessary purification of the supply.

Hon. Mr. Nantel promised that the best efforts of the department would be exerted to secure an abatement of the nuisance.

In response to the Duke of Connaught's appeal for funds to employ a Dominion Secretary for the Canadian Boy Scouts, \$35,000 has been contributed, besides the \$10,000 promised by the late Lord Strathcona.

The New Ocean Palace Steamer, The Britannic, Just Launched

This is a picture of the new White Star Line leviathan "Britannic," launched at Belfast on Thursday, February 26th, 1914. The "Britannic" perpetuates the historic name of a pioneer vessel of the famous White Star Line fleet, and the comparison illustrated here is most interesting. The original vessel built in 1871 was a single-screw steamer 468 feet long, 45 feet broad and 5000 tons gross register—a mighty vessel for those days. The old steamer was retired from active service nearly a decade ago, and is now succeeded by this mighty vessel of 50,000 tons, which has just taken the water. The new "Britannic" is 900 feet long and 92 feet broad—the largest vessel by tonnage ever launched from a British shipyard, thus retaining to the White Star Line the supremacy long held in British shipping. Notable changes in the methods of ship construction have been introduced, and with a complete double hull similar to that built in the White Star Liner "Olympic," which now holds the record for size in British shipping, the "Britannic" will be literally two ships in one. Every device for safety and comfort will be introduced into this new vessel.

EXCITED SOLDIERS SHOT BENTON, SAYS OFFICER

Story How Scotchman Came to His Death Told By Member of Villa's Staff—Benton Had No Chance to Defend Himself.

[By Special Wire to The Courier] VANCOUVER, B. C., Feb. 28.—The Sun is in receipt of a special letter from a member of General Villa's staff in Mexico. It throws illuminating light on the death of William Benton. The letter follows: "Judging from the papers all of you Britishers and Canadians in Canada and elsewhere are up in arms over the killing of the Scotch rancher, William S. Benton of Juarez, Meico. Here, where I give you Gen. uVilla's side of the story. A special messenger of General Villa told the story last night at a meeting of the Constitutional Junta, of which I am an honorary member. Benton entered Villa's headquarters armed and pushing the guard, who attempted to stop him rudely aside, with boisterous language and oaths he made demands which Villa refused to comply with and when the general leaped to his feet and ordered him out he yelled back: 'I'll stay until he freezes over unless you pay me for my stolen cattle.' Then Villa ordered him thrown out and the soldiers being much excited and fearing a second attempt on the general's life shot the Scotchman to death.

Those of us who know and respect General Villa have always been given a square deal, but like most Mexicans he is not headed and it will not do to bull-doze him. Many Britishers and Americans slight him because of his Indian blood and he is quick to resent insult. Benton's act in forcing his way into the general's private office was a mistake which cost him his life. Everybody regrets the incident.

Respectfully,
(Signed) GUSTAVE H. SCOOPF, Squadron Sergeant, 23rd Alberta Rangers."

Sergt.-Major Scoop of the 23rd Alberta Rangers is a soldier of fortune. He is well known in Winnipeg, Man., having lectured there on one occasion. He passed through Winnipeg about two years ago while on his way home to Alberta from Mexico, where he assisted in overthrowing the Diaz government. Scoop was through the South African war with one of the British regiments, but has been a resident of Alberta for a number of years. He loves the war game so much that as soon as trouble came in Mexico he took his horse and travelled south to the fighting zone.

Dr. McGuire Is Registrar Of Norfolk

[By Special Wire to The Courier] TORONTO, Feb. 28.—The following appointments are announced in the Ontario Gazette, issued to-day.
Dr. William O. Stevenson and Dr. Theobald Coleman, Hamilton to be associate coroner for the county of Wentworth.
Dr. William M. McGuire, of Waterford to be registrar of deeds for the county of Norfolk.
W. F. Schwenger, Hamilton, has been created a notary public.

INCORPORATED TO-DAY.
TORONTO, Feb. 28.—The Ontario Gazette to-day announced the incorporation of the following limited companies: The Huntsville Woolen Mill Company, Huntsville, \$40,000; the London Investment Company, London, \$50,000; Sterling Supply Company, Ottawa, \$40,000; the Capital Brewing Company, Ottawa, \$100,000; the Hamilton Sand & Gravel Company, Hamilton, \$80,000. The directors of the latter company are W. F. Platt, William Kerr, E. S. Kerr, Harry H. Davis and Walter T. Evans.

Might Have Been a Mortal Combat

Grand Trunk sectionmen and Hydro Electric employes at the C. I. borne St. power house clashed yesterday, when picks, spades and shovels came near being the instruments of warfare. The timely arrival of Mayor Spence on the scene, followed subsequently by the arrival of Sergt. Donnelly, stopped what might have been mortal combat.

The railway sectionmen noticing that the Tilsonburg track was a great waterway for surface water from the surrounding district, dug a trench from the tracks, said trench drawing the water right down into the Hydro Electric store room.

no time the store house resembled a natatorium, and it looked as if serious damage would be occasioned. The Hydro men blocked the dam but the G. T. R. forces nullified their efforts by opening it up again. Then the Mayor arrived.

To the boss sectionman he declared: "You are looking for a ride in the patrol wagon and you'll get it mighty quick." His Worship followed it up by a call for the police. Thereupon the Grand Trunk proceeded to make water run up hill, and they got rid of it in some other direction. Thousands of dollars worth of stuff might have been badly damaged.

No Duty on People's Food, A Tariff on Manufactures

Principal of Preference to the Dominions is Policy of Unionists, Says Bonar Law in Pamphlet Issued in London.

[By Special Wire to The Courier] LONDON, Feb. 28.—Bonar Law, in a pamphlet to-day, gives an outline of the Unionist policy touching the tariff. Following are the main points: "If as a result of the next election no new duties on the food of the people, but, on the contrary, we hope to take off some food duties which we now have to pay.

"We shall impose a moderate tariff on foreign manufactured goods, not exceeding an average of 10 per cent.

"We shall at the same time establish at once the principles of imperial preference.

"In my belief, duties such as these, apart from any other considerations, can be justified by the strictest free trade principles by the needs of revenue. We shall give the self-governing dominions what at every conference for more than 25 years they have unanimously asked for us. We shall give them immediately a preference on all duties imposed in the United Kingdom."

A VENUS CASE IN MONTREAL

[By Special Wire to The Courier] MONTREAL, Feb. 28.—A grand jury here is to be called upon to decide whether statues of naked venuses and other mythological ladies who dispensed clothing are to be allowed to be exhibited for sale in Montreal stores in the future. A test case upon which the grand jury will sit in judgment is that of David Rubin, an art dealer, with a store on St. Catherine street, who is being prosecuted at the instance of Captain Robert of the

Dogs Watch The Militants

[By Special Wire to The Courier] NEW YORK, Feb. 28.—A London cable to the Tribune says: Recent activities of the suffragettes in their campaigns of destructive propaganda in Scotland are being met by remarkable precautions. The Mackintosh of Mackintosh has installed a system of dog guards at his home, Moy Hall, Inverness, where some of the finest Jacobite relics are kept.

The large number of sporting dogs usually kept in the Moy Hall kennels have been distributed around the mansion, and they raise the alarm on the approach of any person during day or night. Since the Mackintosh began this system of dog guards, other owners of houses have decided to do the same, and almost every Highland mansion and shooting lodge now has its dog guard.

BILL AIMING TO CANCEL FRANCHISE

Mr. Brewster, M.P.P., Will Introduce Legislation Re Gas.

Amendment to Give the Right to Go Into Business.

Mr. W. S. Brewster, M.P.P., announced that he had in preparation, and would introduce at the earliest moment, a bill in the Ontario Legislature to wipe out the sulphur gas nuisance perpetrated not only on Brantford, but several other municipalities in the western part of the province.

"You may say," said Mr. Brewster, "that the object of the bill is to give Brantford, Paris, Galt and all other places the power to cancel the franchise of the Gas Company if a pure and proper supply of gas is not supplied. It will also give the power to the municipalities, if the franchise is cancelled, to go into the gas business themselves.

The bill will be in the form of an amendment to the Public Utilities Act passed last year, and Mr. Brewster was hopeful of getting it through. From the present outlook, with Brant's representatives at Ottawa fighting against the Gas Company, and Mr. Brewster acting at Toronto in a direct way, it should not be long before the sulphur nuisance is a matter of history in these parts.

A FAREWELL TO AMERICANS

Hearty Send-off at London to the Touring Ball Players.

[By Special Wire to The Courier] LONDON, Feb. 28.—An enthusiastic demonstration was made to-day by members of the American colony in London and English athletes and sporting men who had gathered at the station to bid farewell to the New York, and Chicago baseball teams when they departed from London for Liverpool to board the Lusitania on their return home.

The players expressed regret that they could not stay longer in London, where they had been extensively entertained at dinners, luncheons and theatre parties given by their admirers.

John J. McGraw in a few words spoken from the train, uttered the thanks of the teams to those present for the cordial way in which the tourists had been received here.

Among the other passengers on the boat train were the members of a Japanese Government commission headed by Baron Kogoro Takahira, which has been investigating the judicial systems of Europe.

MANITOBA, Man., Feb. 28.—At the Liberal convention. Dr. I. R. Davidson of Manitoba, was nominated to contest the constituency of Manitoba at the coming provincial election.

DEPUTATION WAITS UPON MR. ASQUITH

Asks That Compulsory Military Training be Enforced.

Empire is as Well Able to Defend Itself as Ever, Says Premier

[By Special Wire to The Courier] NEW YORK, Feb. 28.—A cable to the Tribune from London says: One of the most notable deputations ever constituted waited on Premier Asquith yesterday to urge the need for the adoption of a system of national military training.

The deputation was entirely non-partisan, and among the members were Lord Roberts and two other distinguished field marshals, Sir Evelyn Wood and Lord Grenfell, as well as two distinguished sailors, Admirals of the Fleet Sir Gerard Noel and Sir Edward Seymour. These five men urged the need for compulsory training from the point of view of the safety of Great Britain and the maintenance of the empire. Mr. Asquith asserted that the fears of the deputation were groundless. He saw no adequate ground for apprehension that the capacity of this country to render a thoroughly good account of itself in case of an invasion was less than at any previous time in Great Britain's history.

HYDRO UNION HOLDS BANQUET

Will Ask for Subsidy of \$6,400 for Province Owned Radials.

[By Special Wire to The Courier] GUELPH, Feb. 28.—At a largely attended banquet held at Guelph by the Hydro-Electric Railway Union last night, the whole question of the proposed deputation to Ottawa covering three all important co-related measures was fully discussed and unanimously endorsed.

First, that they ask the Dominion government for the usual subsidy of \$6,400 a mile for important lines of railway to be built by the Hydro-Electric Power Commission of Ontario. Private companies have invariably received such aid, and the people's own lines should receive the same treatment resulting in cheaper living and better transportation. Such accommodation wherever supplied has doubled and tripled the value of land.

Second, to ask the assistance of the Dominion government in finding means to greatly increase the amount of the power in the Niagara Peninsula for the use of the Hydro-Electric Power Commission; their power under contract at present being only 100,000 horse power, which will be practically all in use at the end of the year; it being understood there are several methods by which a greatly increased supply of power can be secured, providing the Dominion government is willing to assist in the solution, such power being absolutely necessary to provide for Hydro-electric railways and increased consumption in Western Ontario.

Third, to ask for an ocean waterway of thirty-five feet in depth from Montreal, via the St. Lawrence and the lakes to Port Arthur and Fort William and that international features of the project be taken up with the United States for the earliest possible solution it being understood that the improvement of the St. Lawrence will of itself supply eastern Ontario with millions of horsepower of electrical energy, greatly to the benefit of manufacturers, cities and towns and the farming communities with the view that hydro-electric power becomes universally used for the whole benefit of the people urban and suburban.

It was announced at the meeting that the Hon. Adam Beck had consented to accompany this deputation to Ottawa.

CHAMPIONS TROUNCED
VICTORIA, B. C., Feb. 28.—The Victoria champions were unmercifully trimmed by Vancouver last night the final score being 13 to 6. Some pretty hockey was witnessed, Taylor for Vancouver playing a fine game, and if the champions were off color they were suffering from the reaction of winning six straight games and the championship.

Sunday School Lesson

For March 1, 1914
INTERNATIONAL SERIES

In the last verse of the previous lesson He said, "The Holy Ghost shall teach you." On the last night that He was with them, ere He suffered, He said, "The Comforter, the Holy Ghost, whom the Father will send in my name, He shall teach you all things. He will guide you into all truth. He will show you things to come. He shall testify of Me (John xiv, 26; xv, 26; xvi, 13), and many other things He said of the Spirit of Truth. But we are blind and deaf and so slow to perceive or hear spiritual things.

Well might He say of each of us, "I have written to him the great things of my law, but they were counted as a strange thing" (Hos. viii, 12). When He spoke of false teaching even the disciples thought He referred to bread for the body, and now here is a man, one of the company, so little impressed by the great truths of our last lesson and the solemn things of the future that he is more concerned about a bit of earthly property.

Is it not so still, and are not men, with rare exceptions, so occupied with things temporal that they can scarce find time to give a thought to things eternal? How weighty and heart searching the Master's words, "A man's life consisteth not in the abundance of the things which he possesseth" (Lk. xii, 15). Since "covetousness is idolatry" (Col. iii, 5), how much we need the words, "Having food and raiment, let us be therewith content." "Trust not in uncertain riches, but in the Living God, who giveth us richly all things to enjoy" (1 Tim. vi, 6-8, 17). How aptly and forcibly our text comes forth the truth in the parable of the rich poor man who could only talk with himself about the smallness of his barns and the abundance of his fruits and his goods, and if he had larger barns what an easy, merry time he might have for many years to come. He seemed to have no thought of God, who had caused his ground to bring forth plentifully, nor of the poor, with whom he might share his goods. There was no one to be considered but himself. He knew nothing of the love of God and therefore had no love for God nor for his fellow men. "But God said unto him, Thou fool, this night thy soul shall be required of thee" (verse 20).

Now what were barns and fruits and goods to him? He had to leave all and went out of the world poor indeed, like the rich man of Luke 19:28. How often we read of one who died at his desk in the office or sitting in his home or taken by an accident, and the words come to mind, "Thy soul is required of thee," and the great question is, Was he saved? and then, "Was he saved by God? It is possible to be saved as by fire and have no rewards for service, no crowns to cast at His feet (1 Cor. iii, 11-15; Rev. iv, 10).

A true believer may still be so blinded by the god of this world as to fail to see the advantage of the kingdom of heaven and so lay up treasure for himself in this world which must all be left behind when he is called out of the world. From verse 22 He speaks to His disciples, truly saved men, all but Judas Iscariot (John xiii, 10, 11), and teaches them that since there is no room for anxiety about food or raiment, the kingdom is made sure to them (verse 32), and if they will now live to hasten its coming by living only unto God and winning souls to Him He will see that all things necessary for this life are given to them.

The teaching of verse 31 and Matt. vi, 33, is not that of seeking our souls' salvation, for the words were spoken to saved men, but it teaches saved people that as such their first aim in life should be the coming of the kingdom for which we pray, "Thy kingdom come," "Our Father, who art in heaven. . . . Thy kingdom come. Thy will be done on earth as in heaven." There is no use talking of extending the kingdom, for there is no kingdom to extend. It was at hand when our Lord was here, it is possible in the person of Himself, the King, but when they cried "We have no king but Caesar" and killed their Messiah they caused the kingdom to be postponed till He shall come again.

See carefully Luke xix, 11-15; Matt. xxiii, 39; Act. i, 20, 21. We are in the age between the postponement of the kingdom and its coming at the second coming of Christ, the mystery hid in God from the beginning of the world, but specially revealed to Paul (Eph. iii, 9-11; Rom. xvi, 25-27). Seeking the kingdom seems to me to mean "counting all things but loss for the excellency of the knowledge of Christ Jesus our Lord" (Phil. iii, 8) and making the supreme object in all church life, social life and business life, to make known in all nations as quickly as possible His great salvation for "whosoever will" that His body, the church, may be completed, this age end and the kingdom come.

Thus we may learn restful lessons from the ravens and the lilies and become rich toward God. As one has said, "Make thou His service thy delight; He'll make thy wants His care." It is no part of His service to entertain or amuse people, but the one great thing is to save souls.

Lightning never strikes twice in the same place. For that matter, luck seldom comes back to play a return engagement, either.

The Ladies Aid of Oxford Street church held a most successful talent tea on Thursday evening at the home of Mr. and Mrs. W. Mooney, Richardson street. A neat sum was realized.

A very pleasing event was held last evening under the auspices of Grace Church Chapter of St. Andrew's Brotherhood. Mr. John Hill acted as chairman, and the program was greatly appreciated. Scotch selections by Mr. Lamb were the favorites with the old people, and were rendered in fine style. The program included recitations by Miss D. Lewis, violin solo, F. Perrin, songs, R. G. Lamb, Sid. Easton. A vote of thanks was moved by Mr. A. Watmough, seconded by Mr. Bart Benning, and the concert was brought to a close with prayer by Mr. Fielden, and the singing of the National Anthem.

Church Bazaar
At ELEM AVE.
The Ladies Aid of the Elm Avenue Methodist Church, held a bazaar in the vacant house on the Deverwood Park survey, which was so kindly supplied by the Gilbert Realty Company. The ground floor of the house was very prettily decorated. Fancy work, home-made cooking candy, ice cream and tea and coffee were served. The convenors of the various committees were: Fancy work, Mrs. H. E. Craddock; home made cooking, Mrs. F. Banister; ice cream, Mrs. M. Parry; candy, Mrs. S. Davison; tea and coffee, Mrs. A. West; brook, The graphophone, which was very kindly lent by Mr. T. J. Barton, was situated on the stairs about the centre of the house. Its melodious tones delighted both old and young. Last, but not least, came the auction sale. There were a few cakes, etc., from the home-made cooking booth and a few pieces of fancy work left. Mr. J. J. Burke very capably acted as auctioneer. He received the highest prices anticipated for the goods, which showed that he was not amateur at the business. About \$80 was realized.

All the Tired Nervous Women
Can Find a Cure in Dodd's Kidney Pills.
Madame Perreault Tells How She Cured Her Kidneys with Dodd's Kidney Pills, and Found Health and Contentment.
VERNER, Ont., Feb. 28.—(Special)—"I am very content. Dodd's Kidney Pills have made me well." Those are the words of Madame Eugene Perreault, a highly respected lady of this place and mother of a large family. For twenty years she was a sufferer. But let her tell her own story.

"I was always tired and nervous," she states. "I felt heavy and sleepy after meals. My limbs were heavy, and I had a dragging sensation across my loins. My skin itched and burned at night. I had a bitter taste in my mouth, especially in the morning. In 20 years I hardly knew what it was to have a well moment. Then I commenced to use Dodd's Kidney Pills. Six boxes cured me.

Madame Perreault's symptoms were those of kidney disease. They are the symptoms of nine out of ten cases of the nervous, run-down, pain racked women of Canada. Madame Perreault found a speedy and complete cure in Dodd's Kidney Pills. They simply cured her kidneys.

SCOTS UNITED CONCERT AND DANCE

Most Successful Event Last Night in the Masonic Hall.

The sons and daughters of bonnie Scotland congregated in large numbers at the first annual concert and far Masonic Hall. Scotch songs, Football club, and held at the popular Maconic Hall. Scotch songs, Scotch dances and Scotch reels sounded through the spacious hall and great enthusiasm was shown throughout the entire proceedings, and the enthusiasm was only evoked by very worthy efforts on the part of the entertainers. Heading the program were the four lassies, and these maidens who are quite young, excelled in all they undertook. They are Miss Jean Walker, Gladys Comber, Posey Charlton and Ethel Thompson of London, whence they came. They danced Scotch reels, English hornpipes, sword dances, gipsy dances and Spanish dances with perfect precision. For each dance they were garbed in characteristic costume, and they captured the Scottish hearts with their graceful exposition of national dances. Great praise is due to Miss Henderson and to her skilful maidens of the light fantastic toe. As a sweet singer of sweet songs, Miss Ida Fuller, the local singer, who has made for herself a name, sang with emotional feeling and thrilled her hearers. She has the art of putting her soul into her song, and had to respond to encores repeatedly. Her rendering of "Twilight Faces" and "Don't Cry" was splendid. Duetts of fine calibre are Miss Ross and Mr. Anderson, and their efforts met with well merited approval. Mr. Anderson sang a solo, "The Village Blacksmith," and the "Standard Braes o' Mar," and his sonorous voice was suited to his songs, for they stirred the latent feeling of the Scotch heart. Time would allow no encores. Miss Ross sang in her usual good manner, and is too well known to need any eulogy. The old time song, "Thora" was rendered by Mr. H. Hughes in true spirit, whilst he also sang "Killarney" with fine tone. The concert was throughout a great success and speaks well for the thoroughness of the clansmen. After the concert was concluded, the company assembled for dances, and to the strains of lively music, waltzes, two steps and hesitations were indulged in. A break for refreshments gave some variety to the amusement and after all had voted the affair an immediate success, the merry-makers dispersed, after singing the time-honored "Auld Lang Syne." A Scotch supper to be held in St. Andrew's church on March 9th was announced, and all were invited to attend.

WEAPON NOT TOO ANCIENT TO GET HIM PRISON TERM

Dick Ranger Pointed it at Hotel-keeper's Head—Gets 15 Months
WINDSOR, Feb. 27.—Fifteen months in Toronto Central Prison was the punishment awarded "Dick" Ranger yesterday when he appeared in police court charged with having attempted to hold up a Wellington avenue hotelkeeper a few nights ago by pointing a rusty pistol at his head. Ranger appeared to treat the whole matter as a huge joke until he heard sentence pronounced. He protested that he should not be sent to prison, as his weapon was so ancient as to be incapable of doing any serious damage. His plea proved too weak, and the sentence will stand.

The Music Hall block in Sackville, N.B., was burned, loss \$20,000.

PRICES ON LOCAL MARKET TODAY

There was not a big market in the city this morning, and prices, with few exceptions, remained as they were last week. Eggs took a decided drop of 6 or 7 cents per dozen. Pork was steady, and dropped a cent, whilst turkeys came down to 15 cents from 25 cents. On the other hand onions rose to 60 cents, and apples went to 50 cents per basket from 30c. List found elsewhere.

GETS ANSWER TO HER AD. THEN CHANGES HER MIND

Toronto Woman Wanted a Husband, Then Backed Down at the Last Minute.

SARNIA, Feb. 28.—William Bourke, of Ocellona, Mich., and Mrs. E. Raymond of Toronto, retired to their homes yesterday, sadder but wiser, as a result of their experience with a matrimonial agency.

Mrs. Raymond a young English widow, came to Toronto some seven months ago. Tired of her lonely life she advertised in matrimonial weekly.

Mr. Bourke, also lonely, answered the appeal and asked Mrs. Raymond to come to the United States to marry him.

Yesterday at the tunnel station, the United States immigration officers detained her, heard her story, and telephoned for Bourke to come and meet her.

The Probable Plan. The exact intention of the license department is not plain. There is the possibility that they may create new posts officers out of several license inspectors and thus obviate many of the present difficulties in the matter of arrests for violation.

TORONTO, Feb. 28.—The tabling of the supplementary estimates in the Ontario Legislature yesterday by the Hon. J. B. Lucas marks the direction of financial assistance into several new channels.

Mr. Lucas marks the direction of financial assistance into several new channels. The total expenditure for the year will be in the neighborhood of 11 1/2 millions.

The growth of the fish hatching trade, which is now under the supervision of the Government, demands a new fish car fitted up with modern improvements.

Disbursements in connection with the work of the Associated Charities are greater than the contributions and the work is still reported to be pressing.

The public institutions of Ontario out of the whole carry the largest estimates. In nearly every case large sums appear in the main list to be applied to construction.

HOLD BELIEF IN SECOND COMING

International Phophetic Bible Conference Held in Chicago.

CHICAGO, Feb. 28.—A belief in the second coming of Christ is one of the professions in a new expression of faith issued last night at the close of the fifth international prophetic bible conference.

"We believe in the second, visible and imminent coming of our Lord and Saviour, Jesus Christ, to establish his world wide kingdom on earth."

The report expresses the belief in the bible as the word of God; in the deity of Christ; in his virgin birth and in salvation by divine sacrifice.

"We believe in the universality and heinousness of sin and in salvation by grace, not by works lest any man should boast; that zionship with God is attained only by regeneration by the holy spirit and faith in Jesus Christ."

"We believe in the personality and deity of the holy spirit. We believe in the great commission which our Lord has given to his church to evangelize the world and that this evangelization is the great mission of the church."

Report was prepared in addition to Dr. Russell, by the Rev. Canon F. E. Hewitt, Hamilton, Ontario; Rev. R. A. Torrey, dean of the Bible Institute; A. C. Gabelien, New York and the Rev. L. W. Munnhall, Germantown, Pa.

DEWEY WAXED WARM AT GERMAN

An Incident of Manila Seige Crops Up—Admiral Mad.

BERLIN, Feb. 28.—Admiral Von Diederichs replies in print to-day to the statements made in the narrative given in the biography of Admiral Dewey of the exciting incidents between American and German naval commanders in Manila Bay during the Spanish-American war.

The reply is published in the official Marine Rundschau and is spread over 11,000 words. It contains the report of the visit made to Admiral Dewey on July 10, 1898, by the then Flag Lieutenant Von Hintze, who is now German Minister in Manila.

It is evident from this report that Admiral Dewey threatened the Germans with war if they did not cease their interference with the blockade regulations and if they refused to permit the Americans to make the inquiries necessary to establish the identity of neutral warships.

"Admiral Dewey gradually talked himself into a passion. He said: 'Why I shall stop each vessel whatever her colors. And if she does not stop I shall shoot at her, and that means war, do you know, sir.' When the phrase: 'If Germans want war,' etc., occurred again I took my leave."

"It was under the impression that this in itself, a trivial incident, put a match to a mass of explosives which had long been accumulating in Admiral Dewey's mind from suspicion, rumor and newspaper reports."

A Birthday Party. Last evening the family of Mr. Ransom Woodard, 57 Sheridan St., gave a party in honor of their father's birthday. About sixty guests were present, including the members of the S. A. band of which organization Mr. Woodard has been a faithful and honored member for many years.

Collegiate Estimates. Mr. John Buskard, secretary-treasurer of the Collegiate Institute submitted estimates of receipts and expenditures for the year 1914, to a meeting of the Finance Committee held last night. They showed the estimated receipts to be \$31,645 of which fees total 2,400 and the grant from the city \$21,353. Expenses concurred with receipts and the largest expense item is that of salaries, amounting to \$22,315.

GENERAL AND MRS. FELIX DIAZ ON ARRIVAL IN THE UNITED STATES.

GENERAL FELIX DIAZ NYH PHOTO

MRS. A. B. COOK, WIFE OF LIEUT. A. B. COOK, USN

MRS. FELIX DIAZ

Felix Diaz, who helped bring about the downfall of Madero, but later had to flee from Mexico for his life, arrived in New York recently with his wife from Havana. He declared that he had no intention of allying himself with Carranza and Villa, and declined to discuss what plans, if any, he had for regaining the power he once had in Mexico. Friends who accompany him in his exile said he left Havana because he feared the hostility of the Huertistas, who had already made one attempt to kill him since he fled from Vera Cruz.

Mrs. Arthur B. Cook, wife of Flag Lieutenant Cook, who is attached to the American fleet under command of Admiral Mayo at Vera Cruz, arrived on the same ship. Lieutenant Cook, it will be recalled, was shot while escorting his wife and her friend, Miss Ethel McKenzie, to the Morro Castle.

INGERSOLL WON EXHIBITION GAME FROM BRANTFORD

Bud Kelly Got an Ovation From Fans and Played a Great Game—Score Was 15 to 8.

INGERSOLL, Feb. 28.—Another was chalked down to the local intermediates last night. They took the measure of the Brantford seven by a score of 15 to 8 in an exhibition game that was fast throughout. Brantford exhibited unexpected form and worked desperately. The score was tied several times, the standing at half time being 4 to 4. Brantford broke the tie but Ingersoll soon came back for another. They continued to fight on even footing for some time, and the play was very exciting. Finally the old time combination proved a problem to the visitors and Ingersoll piled up the goals. The fans gave Bud Kelly an ovation and he played a great game. The teams: Ingersoll—Goal, Manser; defence, Tuer and Moulton; rover, Ruppel; centre, Gregory; right wing, Weichel and left wing, Kelly. Brantford—Goal, Wicke; defence, Pace and Woolman; rover, Knight; Knight; centre, O'Connor; right wing, Klersey; left wing, James. Referee—Bang Dillon, Ingersoll.

JEALOUSY CAUSED MURDER, BUT HE FORGETS CRIME

Ellis Tells Story of His Wife Being Infatuated With Canadian Merchant.

CHICAGO, Feb. 28.—Jealousy caused him to kill his wife, but he has no recollection of committing the crime, was the testimony to-day of William Cheney Ellis, former Cincinnati leather merchant, on trial for wife murder. Ellis on the witness stand

yesterday, in an effort to avoid the death penalty, told a story of his wife becoming infatuated with a young Canadian merchant.

"Something snapped in my head," said Ellis "I don't know what happened. I only knew that I felt I had more misery than I could bear."

Ellis had finished his direct testimony and cross-examination had just started when the court was adjourned until Saturday.

Electric Current To Raise Chickens

Poultry Fancier in England Makes Some Surprising Discoveries.

LONDON, Feb. 28.—That chickens grow faster, take on more weight for a given amount of food, and are less likely to die when living in an intense electric field is the discovery of a poultry fancier named Meech,

whose place is at Poole, Dorset. The chickens, one series of experiments, shows, grow nearly twice as fast when stimulated with a certain electrical apparatus. This means the output is doubled or the food bill halved.

Mr. Meech now has 1,500 chicks growing in the ordinary way, and 1,500 being raised under the influence of electricity.

Young chicks in their first few days after hatching very rarely die when electrified, while the majority in this period under ordinary conditions is often very great.

The electrified chickens are grown in specially constructed intensive houses to which electricity is applied

by means of the combined high frequency and positive electricity apparatus. The currents are turned on for ten minutes every hour from 7 a.m. till 6 p.m. A large coil of heavy insulated wire is wound round each intensive house in the form of a spiral, and when the current is applied to this it has the effect of producing an intense electric field, which stimulates the chickens and enables them to get increased weight from a given quantity of food.

The birds are so highly charged with electricity that sparks can be taken from their beaks, though they are entirely unconscious of anything unusual. The electrified chickens show a curious absence of timidity.

WOODSTOCK BEAT DETROIT

DETROIT, Feb. 28.—Woodstock came back strong last night and more than evened up for its previous defeat by the Detroit Arena seven, winning 4 to 1, half time 2 to 1.

The game was a fast one with the local fan's skating rings all about the locals and proving their superiority at every style of play. Child's goal tending and hard driving was a feature in itself. Smith and Sandcock starred for the Woodstock crowd, while Johnson and Kennedy did most of Detroit's good work.

Don't allow yourself to be thrown on your own resources unless you are sure they are there.

Why Should You Send Your Laundry Here?

- Because: The Brantford Laundry is strictly a fresh-air-and-sunshine laundry. Light, airy, clean and absolutely sanitary in every respect. We employ only white help. And they work under the very best possible conditions—a limited number of hours each day. They are well paid, intelligent, conscientious, healthy, happy and contented workers. The Brantford Laundry most cordially invites your inspection any time. We Certainly Do Know How!
- Because: We use the very latest methods in laundry practice. Thousands of dollars are here invested in the most modern machinery and equipment. And these are added to and replaced as speedily as we deem it essential. No expense is spared to make Brantford Laundry Service as absolutely perfect as human ingenuity can devise. Every piece of machinery in use here is both highly efficient in its work and in its material-saving quality. Your garments are protected in the Brantford Laundry. We Certainly Do Know How!
- Because: We use only the very best materials and supplies the market affords in the cleansing, bluing, starching of clothes, etc. We purchase in large quantities. Many of our ingredients could be bought a few cents cheaper and would be nearly or just as good. This would effect a considerable saving in the course of the year. But our standard is the best at any price. And the best we buy. Because only the best is good enough for you. We Certainly Do Know How!
- Because: The Brantford Laundry has one of the finest water-softening plants in America. All of the water before it comes into the laundry is softened, filtered, etc., as clear as crystal, and as soft as rain-water. This means cleaner, whiter clothes. And the scarcest perceptible wear upon the daintiest of materials. The water-softening plant cost a great deal of money to install, and costs time and money to maintain. But it was necessary to the absolute perfection of Brantford Laundry service. We Certainly Do Know How!
- Because: We very rarely lost a customer. That, in itself, is a direct guarantee to you. It means that Brantford Laundry work is better; that attention here is prompt and courteous. It means that, aside from knowing how to actually do our work well we offer in addition conscientious, considerate service. And this service is important to you. We Certainly Do Know How!

WOODSTOCK BEAT DETROIT
DETROIT, Feb. 28.—Woodstock
come back strong last night and more
than evened up for its previous de-
feat by the Detroit Arena seven, win-
ning 4 to 1, half time 2 to 1. The
game was a fast one with the Cana-
dian's skating rings all about the local's
and proving their superiority at
every style of play. Child's goal tend-
ing and hard driving was a feature in
itself. Smith and Sandercock starred
for the Woodstock crowd, while
Johnson and Kennedy did most of
Detroit's good work.

Don't allow yourself to be thrown
on your own resources unless you
are sure they are there.

Because :

We very rarely lost a custom-
er. That, in itself, is a direct
guarantee to you.

It means that Brantford Lau-
dry work is better; that atten-

**TURNED "WELCOME"
INTO BEAR GARDEN**

British Laborites Fell Out at
Reception to Deported
Strike Leaders.

LONDON, Feb. 28.—The much-
boomed welcome to the strike leaders
who were deported from South Africa,
at the London Opera House last
night, ended in pandemonium, which
demonstrated the well-known anta-
gonisms of the various branches of
British labor organizations.

When the curtain was rung up the
stage was filled with labor men of all
brands, with the South African de-
portees seated in the centre. The
opening scenes were harmonious
enough and the speeches of the men
from South Africa were listened to
attentively and applauded enthusias-
tically. They proclaimed themselves
entirely innocent of the charges made
against them, denounced General
Botha, the Premier of the Union of
South Africa, and announced their
intention of returning to that country.

The trouble began when Mr. Wain-
wright, one of the deported men, said
something which the audience took to
be a reflection on the British Labor
party. The speaker began to disclaim
any such intention, but got excited
and put his foot into it deeper than
ever. After this all harmony van-
ished. The extremists shouted down
James Ramsay MacDonald, M.P., the
official head of the Labor party, who
was at the same time shrieked at by
suffragettes, who were seated here
and there throughout the theatre.

**Gyroscope Airship
Is The Latest**

LONDON, Feb. 28.—A gyroscope
airship is the latest idea, and the man
who claims to have invented it—Al-
fred Rutt, says he will give a dem-
onstration within a few days.

"My machine," Mr. Rutt says, "has
risen over a thousand feet, and has
attained a speed of eighty miles
an hour. It is cylindrical, with bluntly
pointed ends. Its landing apparatus
is a simple pair of skids. When it
lights on the sea, it is so arranged
that it floats upright.

"The motive power is provided by
six gyroscopes worked by a petrol
engine, and the secret of their action
is my discovery after six years of the
closest study of the gyroscope. The
gyros, raise the machine and then,
by altering the incidence of the
planes of revolution, they propel her.
The machine has one disadvantage
at present. It cannot swerve and
twist as does the aeroplane."

Mr. Rutt declares he will enter the
Trans-Atlantic flight, starting from
Ireland.

In trying to get to the top, don't
place too much dependence on the
elevator.

**SYNOPSIS OF CANADIAN NORTH-
WEST LAND REGULATIONS**

ANY PERSON who is the sole head of a
family, or any male over 18 years old,
may homestead a quarter section of avail-
able Dominion land in Manitoba, Saskat-
chewan or Alberta. The applicant must
appear in person at the Dominion Land
Agency or Sub-Agency for the District.
Entry by proxy may be made at any
agency on certain conditions, by father,
mother, son, daughter, brother or sister of
intending homesteader.

Duties—Six months' residence upon and
cultivation of the land in each of three
years. A homesteader may live within
side miles of his homestead on a farm of
at least 80 acres, solely owned and occu-
pied by him or by his father, mother, son,
daughter, brother or sister.

In certain districts a homesteader in
good standing may pre-empt a quarter-
section along side his homestead. Price
\$100 per acre. Duties—Must reside upon
the homestead or pre-emption six months
in each of six years from date of homo-
stead entry (including the time required
to earn homestead patent), and cultivate
50 acres extra.

A homesteader who has exhausted his
homestead right, and cannot obtain a pre-
emption, may enter for a purchased homo-
stead in certain districts, price \$100 per
acre. Duties—Must reside six months in
each of three years, cultivate 50 acres and
erect a house worth \$2000.

"AMERICAN MILITANTS" WHO ACTED IN ENGLISH SUFFRAGE FARCE

Enthusiastic members of the Congres-
sional Union for Woman Suffrage—
sometimes called the American mili-
tants—paraded Washington down-
town streets, carrying box banners ad-
vertising the English suffrage farce,
"How the Vote Was Won," which was
produced at the Columbia Theatre re-
cently.

Carol Bird, Mrs. Maud Howell Smith,
Miss Mabel Grandin, Miss Edith Goode,
Mrs. Randolph Keith Forrest, Miss
Frances Carpenter, Mr. Henry Sands
and Mr. James Daly.

A sketch entitled "Before Sunrise"
was the curtain raiser, with Mrs. Zillah
Jenkins in the leading role. Miss Effie
K. Baker, daughter of Dr. Frank Baker,
of the Smithsonian Institution, gave a
solo dance of "Triumphant Joy."

**Peace Centenary
Blow-Out All Bosh**

LONDON, Feb. 28.—Geo. Bernard
Shaw, playwright, author and cynic
says that the peace centenary cele-
bration between the United States
and England is all "bosh." After
stating that the people of the two
countries individually and collectively
loathe and hate one another, he con-
tinued:

"Suddenly they realize they haven't
fought each other for a hundred years.
Immediately they wish to raise a big
sum of money in order to celebrate
the event by slobbering over one an-
other."

"Now, if they had been fighting
with one another for a hundred years
and suddenly stopped, I would be
able to understand such a movement.
But for two nations suddenly to con-
jure up feelings of thanksgiving be-
cause they happen to have behaved
like decent citizens, although all the
time ready to fly at each other's
throats, is beyond my powers of com-
prehension."

In answer to the question as to
what he thought the proper method
of celebrating the one hundred years
of peace he suggested that monu-
ments would be a fitting tribute as
then no lies would be told except in
speeches made at the unveiling of the
memorials and in the actual inscrip-
tions thereon.

**Irish Fair A
Great Success**

His Worship the Mayor paid a
visit to the Irish Fair of the Boy
Knights last night, where he was
greeted with three rousing cheers
and a tiger. After visiting thevarious
booths, he addressed those pres-
ent for a few minutes, saying he was
very glad to see the large attend-
ance. The Boy Knights had been
doing a most creditable work in
every way. They had had to face in-
numerable difficulties and were sur-
mounting them one by one. He con-
gratulated them and their leader on
the success that had thus far attended
their work. They certainly needed an
enlargement of their building, which
he hoped would soon be able to be
done. He was especially pleased to
see the mothers taking such an ac-
tive part in the work, as it meant
much in the lives of the boys. The
various boy movements were doing
much in leading our boys so as to
make good men of the boys, a move-
ment among which the Boy Knights
was one of them.

score being 21 to 2. The feature of
the game was the stellar battery work
of Hetherington and Allan for the
Dufferin Rifles. They couldn't hit
Hetherington at all, while they bat-
ted Tozer all over the room. Snappy
fielding by the London nine was the
best the Brantford team has yet had

THE PROBS

TORONTO, Feb. 28.-Pressure is quite low over the northern portions of Ontario and Quebec, while a moderate cold wave has spread with great rapidity over the west. Fair weather prevails generally.

Forecasts. Strong southerly to southwesterly winds, fair and mild to-day. Sunday, strong west to northwest winds, local snow flurries, but mostly fair and colder.

Local News

Mrs. T. Foster arrived at Grand Forks last night after an uneventful journey from this city.

Will Make Inventory. Arrangements were made at the meeting of the railway committee of the City Council yesterday to take an inventory at once of all the street railway assets.

Sad Intelligence. Mr. T. J. Barton received the sad news this morning of the death of his sister, Mrs. James Heredeen, who passed away suddenly shortly after 4 o'clock this morning from heart-failure at the family residence.

Mr. Chas. Brown, who resides on Sarah street, is a son of Mrs. Heredeen, and left for Windsor this morning. Mr. Barton will go to-morrow.

With office located in the Canadian Bank of Commerce building, Market street, Mr. Arthur E. Foulds of this city has opened a building supply business as manufacturers' direct sales agent, handling a line of high grade materials for use in various stages of construction work, also a complete line of contractors' equipment.

In this new capacity Mr. Foulds hardly needs any introduction by the press, his long connection with the Schultz Brothers Co., giving him the acquaintance, particularly of the building trades of the community, is experience fitting him to give the trade good service.

BRADDICK ACCUSES BOY OF THEFT

Developments took place at the police court this morning in the case in which Harry Braddick was recently fined for stealing bicycles. Braddick charged a 15 year old youth with the theft of a new wheel. It turned out that he laid the charge in order to vindicate himself, for he had been convicted of stealing the wheel which he alleged the boy had taken. It was admitted that defendant had taken the machine, but for him it was pleaded that he had committed an error, for which his father was willing to atone. He was said to be a tool in the hands of Braddick, who had suggested he could bring along acting upon this incentive the boy had taken a brand new \$45 wheel and sold it to the dealer for \$4.50. Braddick, under these circumstances, bought the machine and at the court declared he did not know it was stolen. The magistrate was of the opinion that as Braddick had been convicted for the actual stealing, some restitution was due to him, but at the same time he had proved by his own story that he had some knowledge of the origin of the wheel. The fact that the machine was taken to pieces and partly effaced, also was against him. The magistrate thought the penalty of the fine had not fallen upon the wrong shoulder. Still, even if the boy was young, he was old enough to understand he had committed a theft and he should have known better. The boys' father had bought a machine from Braddick, and he thought it strange that Braddick should be receiving charity, he having himself given the man coal, whilst he had a number of machines to sell. He had not spoken during the recent trial, as he did not think at the time the wheels were stolen. More particulars of this case are to be brought to light, and in the meantime the charge will stand over.

Obituary

Gladys Rutherford Seldom has a death occurred in this village which has occasioned such sorrow and sympathy as that of Gladys, youngest daughter of Mr. and Mrs. Rutherford, which occurred on Wednesday morning, Feb. 25th, in her 16th year. She passed peacefully away after a lingering illness. Always of a bright and loving disposition, ever ready with a smile for everybody, she will be sadly missed by young and old, and the sympathy of the whole community goes out to the bereaved family, of whom she leaves to mourn a great loss the following: father, mother, Fries of Regina, Chas. W. of Elmira, Mrs. D. McPherson, Mt. Pleasant, Hattie and Joanna at home. The funeral took place from her late residence, Mt. Pleasant, Friday afternoon, Feb. 27th, at 2 p.m. interment in Mt. Pleasant cemetery. The Rev. Mr. Todd conducted the services at the house and grave. He spoke forcibly of the bright young life that had been taken from among us while still so young, but as one who had no fear of death.

Four young girl friends sang very feelingly, "No Burdens Yonder." The deceased was a faithful member of the Sunday School and Sunday School choir until her illness caused her to give it up.

A wealth of floral tributes testified to the high esteem in which she was held.

For the girls from the senior division of the Mt. Pleasant school walked beside the funeral cortege carrying the flowers. The floral tribute; were as follows: Pillow, Rutherford family; cross, senior division of Mt. Pleasant school; sprays, Mr. and Mrs. C. W. Rutherford, Mr. W. Hartley Torrance, Miss Florence Senn, Mr. and Mrs. W. Kinzie and Grant, all of Brantford; Mr. Lloyd Eagle of Burck; Mr. Pleasant Methodist S. S. Class, Mr. and Mrs. I. T. Edwards, Mr. and Mrs. Stephens, Mr. Bear, Mr. and Mrs. Lossing, Mr. and Mrs. S. Sayles, Mr. and Mrs. S. Sloan, Athol Murray Mr. and Mrs. W. H. Biggar, Misses Kathleen and Gladys Biggar, Mr. and Mrs. Will Guest.

The sympathy of the entire community goes out to the bereaved family in their sorrow.

The pallbearers were: Mr. A. Bean, R. Dunlop, Dell Whiting, H. Verrin, C. Eadie, Lloyd Eadie.

The Late Mrs. Logan With great regret the death is announced of Mrs. Agnes Logan, an aged and very much respected citizen of the city. The late lady was carried off suddenly this morning, a sufferer for a week from pneumonia, at her home, 165 Darling St. She was born in Glasgow, Scotland and came to this city some fifty years ago. To mourn her loss are a sorrowing husband, daughter, Mrs. Alex. Stevenson of this city, and five sons, William and John of Brantford, Albert of Pittsburg, John of Baltimore and Robert of Sudbury. The funeral will take place to Mt. Hope cemetery on Monday.

LONDON, Feb. 28.—Sarnia's excellent hockey team kept the string of victories intact here last night at the Princess Rink before a large crowd when they nosed out a victory in the final ten minutes of play by the score of 6 to 5 over a picked London team.

London had them well in hand up to that time, but two goals with six minutes to play by Jack Dore tacked the game away for the Tannet Town boys in a closely contested and fast game. The tally in the opening period ended with London leading by the score of 3 to 2.

Outside of considerable team work added to which more or less single man rushing, the game was featured by the parade of the players of both teams to the penalty box, ordered by Referee Stanley Burgoyne of Toronto, who would not stand for anything that bordered on the rough order.

London's line up appeared much shifted, and appeared like the best ever on the ice here in some time, with Beatty and Simpel of Midland, playing wing positions, while Sch-

macher tried his hand as a defence player in the absence of Alf Hall, who is nursing a lame shoulder.

Goalers Were Busy

Goal minders Prout and Wardrope both had a busy night, but for wild shots on the part of both teams they would have been still livelier. Time and again the forwards would break through with no one but the goaleer to beat, but every time the blocking was wonderful.

First Half

Sarnia opened the score column when a four man rush resulted in a goal scored by last season's London defense player, Granary, after three minutes of play. Both teams rushed up and down the defense, in both instances getting their men. Schmacher stopped Imbleau, who was sent to the boards for cross checking a little later. Imbleau and Dore rushed but McAvoxy saved and circled down the ice and Prout stopped his shot. Dave Reid rushed but Prout blocked. McCart and Dore lost the puck to Wardrope. Dave Reid broke in and shot, Simpel trying the score on a rebound after seven more minutes of play. Beatty and Schmacher tumbled down together, passed Granary, and Schmacher made it 2 to 1 midway in this period of the half. Four Londoners went down together but a wide shot was the result. Imbleau on a lone rush tied up the game again three minutes later on a low shot past Wardrope.

With Simpel and Imbleau off, R. J. carried the puck into the corner and on a shot to centre the disc glanced

TALK OF PEACE IN BASEBALL TROUBLE

AMERICAN ASSOCIATION AND THE FEDERALS MAY COME TO AN AGREEMENT

CHICAGO, Feb. 28.—Followers of baseball believed they read between the lines of a story published here yesterday, news that organized baseball had virtually "recognized the belligerency" of the Federal League. The story said that the Federals and the American Association leaders had agreed to arrange their playing schedules so that conflicts in two towns in which they are both represented—Kansas City and Indianapolis—will be avoided. Such an agreement would indicate that the association, one of the large leagues in organized baseball, had decided not to make war on the Federals, but rather had concluded to enter into a working agreement.

PETROLEA TEAMS WIN TWO GAMES AT HOME

PETROLEA, Feb. 28.—Columbus ring was the scene of two exciting hockey matches last night, when Petrolea Bankers defeated Bridgen by 8 to 1, and Petrolea Stars notched two goals to Watford's one. The Bankers had the game clinched from the start. "Faddy" Regan played a spectacular game, and continually bombarded Bridgen's goal.

Canadian League Circuit Clippings

Popular Harry Corns was the first player on the reserve list to return his signed contract. Corns is one of the most agreeable chaps in the Canadian league. He never gives a bit of trouble and is always trying. At the present the only holdout in connection with the players on the reserve list is Billy Donohue. Bill was given an increase in salary when his contract was mailed to him last month, but he wants more. He is sure to come around by the time that the call is sent out for the players to report. Donohue is married now and perhaps figures that he needs a little increase.—Hamilton Spectator.

The deal for the purchase of the Hamilton Baseball club was completed yesterday and the Hamilton Baseball Club, Limited, now owns the franchise and assets of the club formerly owned by Messrs. Lee, Robinson and Burns. The money involved was paid over yesterday in the office of Crerar and Awrey, with the result that all is now plain sailing for the shareholders of the new company. The provincial directors of the company were present yesterday when the deal was completed with Geo. H. O'Neil, holder of the options on the club, and all expressed themselves as well satisfied with the manner in which matters had progressed. At the conclusion of the meeting several of the directors who form the park committee, had a conference with John G. Gaud, K.C., the Agents Limited representative, and the lease of Britannia Park was drawn up.—Hamilton Spectator.

Ottawa expects to have first call upon Detroit players now with Providence and other clubs.

Yesterday's bulletin from the National Association contained the award of Shortstop Al Tesch to the Ottawas and Pitcher Bob Sterlong, Ottawa's old jinx, to Peterboro'. Two clubs claimed Sterlong. Ottawa could have claimed Frank Fox back from Peterboro' on a similar protest, but they let them have him.

LANGFORD A WORTHIER OPPONENT FOR JACK JOHNSON THAN MORAN

England's bid for a Johnson-Langford bout in London seems to have more reliability to it than the offer of Parisian promoters for a Johnson-Moran battle. Both offers are for a match in June, the month set by "Lil Artha" as the one in which he will be ready to defend his clouded title. Just how Frank Moran came to horn into the proceedings is difficult to understand, since California fans refuse to regard the Pittsburgh heavyweight seriously.

If Johnson, however, should enter the ring a physical wreck, which he is said to be at the present time, Moran might beat him, but Johnson is only half fit, ought to outfight the Pittsburgher with considerable ease, in the opinion of the New York sporting men who are riddling the match.

Johnson will be 36 years old in March, in which Moran will celebrate his 27th birthday. The negro is six feet 1-4 inch tall, three quarters of an inch shorter than the white challenger. Moran in good condition weighs about 200 pounds, at least 30 pounds lighter than Johnson will be when he enters the ring.

Moran's ring record, however, does not indicate topnotch fighting ability. He began as a professional in 1910, taking part in 15 mills. He knocked out four rivals, all unknown, and outpointed others of equal insignificance. Incidentally he met Johnson in a four round exhibition in Pittsburgh and was a toy in the hands of the champion.

In the winter of 1910-11 Moran boxed to round, no decision bouts with Dummy Maxson and Al Palzer in Brooklyn. He beat Maxson, but Palzer drew with him. In another Brooklyn bout, Jim Savage, a fourth rater, outboxed Moran, who then went to England and France in 1912.

He stopped Tom Cowler in six rounds and Charlie Wilson in two, both in London, but these men were nothing more than punching bags. Moran beat Fred Storbeck of South Africa on a foul in seven rounds at a London club, knocking him out in 12 rounds when they met again in that city. Stoker Smith, another cub, was unable to sleep in less than a round in Paris.

When the Pittsburgher returned in May of that year he made a poor showing in a 10 round affair with Al

NEW YORK MAN AFTER THE CUBS

NEW YORK, Feb. 28.—Truly Warner, a manufacturer of this city, returned to New York yesterday after a visit to Chicago and Cincinnati, and declared that negotiations he has been conducting to buy the Chicago National League Club from Charles P. Taft, had progressed favorably, and he had every reason to believe he shortly would become the owner of the club.

He would give no details as to the terms of the pending trial, but declared he expected the transaction to be closed in the near future, and said he would not be surprised if he represented the Chicago club at a meeting of the National League on March 6.

Ed. Mack with the Fine Feathers company which appeared at the here last week, has written the club applying for the managerial position. He states that he was urged by a number of Hamiltonians to apply. However, he is a trifle too late.

With entrances on Wentworth St. and Sanford avenue, and two exits on each street, Britannia park will be easy of access. The improvement will convert it into an ideal park. It looks like a new era all around.

ST. THOMAS, Feb. 28.—Chas. O. Stanley, president of the St. Thomas Baseball club, returned today from attending the schedule meeting of the Canadian League in Toronto. Mr. Stanley stated that from reports of the different magnates attending the meeting, the league is going to be a hummer this season. The Hamilton gentlemen, who took over the Lee-Robinson-Burns holdings in that town, have secured a manager recommended by Connie Mack, manager of the world's champion Athletics, and according to Hamilton delegates, the club is going to farm out four players to the Ambitious City club for the season. From other news gleaned, he states that every club is straining every effort to get a real ball club for the race this season.—London Advertiser.

WALLACEBURG, Feb. 28.—Over 1,000 spectators witnessed two very good harness races yesterday afternoon made possible by the thriftiness of Messrs. J. T. Saint, A. Mahoney and Sam. Watson and much interest was taken. The ice track was in good condition and made the fast going possible. A. Popp's Patch Bars won the first event, while Jack Dillard won the second, owned by E. Fergie of Bickford. The Sarnia hockey team failed to show here last night for a schedule game with the locals and the bowling team from Petrolea also disappointed the locals.

Soon after reaching Paris Moran refused to box Georges Carpentier or Sam Langford. His manager wanted Johnson or nothing, evidently believing that if perchance Moran should happen to win a golden harvest would be gathered all over the civilized world. It is worth of note that Johnson accepted Moran's challenge and once again did track the persistent Tar Baby from Boston. On past performance, Genbat Smith, instead of Moran should have had first crack of the negro title holder.

The board of United States general appraisers decided in favor of Quebec in the wood pulp and newspaper export case.

Kubiak in Albany. Tom Kennedy knocked out Bombardier Wells, held Moran to a 10 round draw in New York, while clumsy Tom Ross got a verdict over him in 10 rounds before a Cleveland club. It took Moran 10 rounds to stop Harvey West, a bag of meal, in Columbus, but he went to Juarez, Mexico, after that and knocked out one Dave Willis in 8 rounds.

In August, 1912, Moran tackled Denver Jack Geyer, a fifth rater, in a four round bout in San Francisco and lost the referee's decision. He whipped Sailor Schaefer and Jim Cameron, local heavies, in jig time, and then got a 20 round match with Genbat Smith. That affair was staked in San Francisco on Dec. 27, 1912, but Moran lost the chance of a lifetime to become famous by fruiting the tactics of a Marathon runner.

The Gunboat chased him fruitlessly the entire route and then was declared the winner on points.

Moran took part in five battles last year. In March he stopped Al McBeat Sailor White, a fourth rater, in Cluskey, in five rounds, and when he faced the late Luther McCarty in New York in April he was beaten in clean cut fashion in 10 rounds. After that mill Moran offered an excuse that he went into the ring with a broken hand, but just why he didn't tell about it before the bout nobody was able to learn. Moran subsequently knocked out Tim Logan in four rounds at New Orleans, and also disposed of Palzer in seven rounds at a New York club, when it was well known that Palzer's physical condition should have kept him out of the ring.

LIVE HOCKEY GOSSIP ABOUT PRO. CHAMPS

Now that the Toronto Hockey club have a strange hold on the N. H. A. championship the fans are wondering where the players come from who compose the "blue shirted" sextette. It is no mean feat, to gather a team together in two years to defeat such well known teams as Quebec, Ottawa, Wanderers and Canadiens who had their players in line before Toronto had a chance of having a professional aggregation.

While there is little doubt that the signing of Jack Marshall had a lot to do with the success of the team a little of the credit should go to Bruce Ridpath, who gathered the material.

Harry Holmes, the goaler, who is having the best season of his career, is 25 years of age and weighs 175 pounds. He is a Parkdale boy and has played his first hockey with the Young Torontos in the old Aquatic League. Later he was with the Parkdale Canoe Club in the senior O. H. A. and was originally signed by the Torontos as a spare goaler to Marshall, and who is now occupying the bench for the Canadians. Holmes soon showed his ability and earned the regular berth. Holmes is also a lacrosse player and guards the nets for the Torontos in the good old summer time.

Jack "Jawn" Marshall, the big chief of the squad, is captain, manager, boss and everything else in connection with the playing part of the club, and knows the game from top to bottom and back again. Marshall is only 36 years of age, despite rumors to the contrary, and weighs 162 pounds. He is a chunkily built man, and has probably been handed as much abuse in the hockey and lacrosse arena as any man in Canada. Marshall is a born leader and his good coaching is responsible for the present high standing of the Torontos.

Marshall has had a varied career in the hockey world. He started in as a goal keeper with the Point St. Charles team of Montreal in 1894, and continued there until 1898. In 1899 he went to Winnipeg, where he played with Winnegons and the next year joined the Victorias, who won

the Stanley Cup. In 1902 and 1903 he played with Montreal on the team that was known as the "little men of iron." He then joined the Wanderers and played with them from 1904 to 1906. In 1907 he lived in Toronto and did not handle a hockey stick. He was with the Shamrocks of Montreal again in 1909-10 and then retired from the game until he joined the Torontos.

Marshall is certainly a wonder, and when he took hold of the Blue Shirts had very little intention of playing, but there was a hole in the defence to be plugged up and after practising for a while he decided he could fill it himself, so he got back in the game. Always taking good care of himself he found it easy to get in shape, and is now playing just as good as any point player in the league, and he has the big advantage of being on the ice to coach his team.

Marshall was also one of the best lacrosse players that ever handled a stick in Montreal. He was always fearless, and many the hard bumps he took when the national game was played in a real strenuous manner. I have seen Marshall on several occasions with his face and head cutting in on a defence, trying hard to get through, and after witnessing his display one can hardly wonder that he should make an ideal leader. Full of courage, he would never ask a player to do anything he would not attempt himself, and this is what makes him the idol of the fans, as well as his own little family of hockey players.

One instance only need be pointed out to show what a big happy family the Toronto Hockey Club really are. Yesterday morning, with the season nearly over they were all out on the ice chasing Marshall, who had the puck in his hand, trying to take it away from him. It may not have been practice in the strict sense of the word, but the whole squad were having as much fun as a lot of school-boys out for a lark.

Harry Cameron, the brilliant cover point, is just 24 years of age, and weighs 155 pounds. Pembroke is his home and they have every reason to feel proud of the best cover point that any team in the N. H. A. possesses. Fast as a streak of lightning and a clever stick handler, backed up by a great shot, he stands alone as the best individual player in the game. Cameron played with Port Arthur two years ago and the Torontos and Tecumsehs had quite a battle for his services. But the Blue Shirts won out in a committee room battle for his services and they should be tickled to death that luck can be their way. Cameron was a sensation in the first game he played last winter, and still continues to pull off spectacular rushes that simply drive the supporters of the Torontos wild with delight.

The Torontos certainly carried "horse-shoes" in their pockets when they grabbed Jack Walker from the Maritime League to replace Nighbor who was sold to the Coast League. Nighbor was good, but Walker has them all faded as a hockey player. He is just 23 years of age and only weighs 122 pounds. He is a Port Arthur boy and played with Moncton in the Maritime League last year. He came here last winter and turned out with the Torontos a couple of times, but did not impress anyone with his style, but he sure showed something this winter. His great back checking and beautiful "poke check" and all around playing have had a lot to do with the standing of the Torontos.

Allan Davidson, big, good-natured, 22 years old, and weighing 182 lbs., is the school-boy of the team. He would sooner practice or play hockey than eat his meals and thoroughly enjoys himself as long as he has a hockey stick in his hand. He comes from Kingston and was a star for the Frontenac juniors three years ago. Davidson possesses one of those "bullet-like" shots that made "Grindy" Forester famous in years gone by,

and it is generally right on the nets. He uses his weight to good advantage and can "mix it" with the best of them.

Frank Foyston, another O. H. A. product, hails from Barrie, is 23 years old and weighs 160 pounds. He was a star wing man for Barrie juniors in 1909 and played with Eatons, senior O. H. A. champions in 1911. Last winter he was used at intervals by Marshall at centre and did relief duty for McGiffin this year, until the last four or five games, when he started to go like a house afire, and just at present looms up as one of the best in the game. Fast and fearless, he checks well and is generally around the goal waiting for the pass.

The above six men are the regulars of the team at present and when you figure out that two years ago all but Marshall were never heard of in the professional game, they sure deserve some credit. Walker and Cameron came from the west, while Davidson, Holmes and Foyston are products of the O. H. A.

Jack Marshall is a firm believer in having spare men on the bench who are right up to the standard of the regulars, and carries two defence men, two forwards and a spare goaler, who can go in at any time and play right up to the standard of the first sextette.

Geo. McNamara was secured from the Ontarios in the middle of the season. He was one of the star defence men of the Tecumsehs last year, and while he has played for the Canadian Soo, Shamrocks of Montreal, Waterloo and Halifax, it is only 27 years of age. He weighs 185 lbs., and, along with his brother Howard, were the mainstays of the Tecumsehs last year. A good, steady player at all times, he could go in at any time and play clever hockey.

"Con" Corbeau, extra defence man, has played hockey so long that some people imagine he is getting old, but Corbeau only confesses to 26 years. A big fellow, weighing 190 lbs., he has been with Pittsburgh, Calumet, Houghton, Canadian Soo, Tecumsehs and was one of Alex. Miln's Toronto professionals who won the Ontario League and nearly captured the Stanley cup from the Wanderers. He was refused a contract by the Ontarios this year and joined the Torontos. He is a handy man to have around and is one of the best shots in the league.

"Minnie" Roy McGiffin is another Toronto boy, weighing 151 lbs., and is 23 years of age. He played his first hockey with Teddy Marriott's Simcoes in the O. H. A. Five years ago his family moved to California, but McGiffin loved to play hockey, so he went to Cleveland two years ago, where he was secured by the Torontos, McGiffin, while he looks very small on the ice, weighs more than Walker, and is a bundle of nerves and aggressiveness. He is a little rough, but his roughness is not of the deliberate kind and he has not learned the art of covering it up like some of the eastern artists. McGiffin is a prime favorite with the local public, who delighted to see him bother the big fellows. He is a fast skater and a great back checker.

"Gully" Wilson is just 21 years old, and while he looks small, weighs in the neighborhood of 155 lbs., and can make them all go for twenty minutes. Wilson falls right in on the nets whenever he gets a chance, and does not back away from anything. He comes from Winnipeg, where he played with the Woodlances and Morrecos before coming to Toronto.

"Claude" Wilson, the spare goaler, is only 21, and weighs 140 lbs. He comes from Ottawa, and played for the juniors a year ago. He shows good form in practice, and while he does not get a chance with Holmes going so well, he is always ready in case of accidents.

Bricklayers and Masons Convention

Toronto Had a Clear Majority Over All Competitors as the Convention City of 1914.

The big convention of the bricklayers and masons, which convened in Houston, Texas, on January 12th, last and remained in session for two weeks, was one of the most successful in the history of the organization. While there have been a larger number of delegates in attendance at some of the former conventions which have been held in more central districts, there never was one in which such a large membership was represented, or in which the finances were in such splendid shape. In fact, the organization has grown to be a big institution, one of the strongest and most compact craft unions in existence.

The Toronto delegates, Joe Bamber, Watson, and Tommy Izzard of Local No. 2, and Business Agent McLeod, of the stone masons local, report that the northern delegates were well pleased at the hospitality of their southern hosts and thoroughly enjoyed their visit, while the weather during their stay in the Texas city was simply ideal.

Altogether there were over 300 delegates present, and they came

from practically every state in the union and province in the Dominion. The affairs of the organization were found to be in such a satisfactory condition that the old officers were retained, all being elected by acclamation as follows:— President, V. J. Brown; vice-president, Thos. J. Reece; secretary, W. Dobson; treasurer Patrick Murray. The vice-presidents were as follows: Second Geo. Thornton Boston; third Joe. Duly. San Francisco; fourth Thomas Izzard, Toronto; fifth, Bert Childs, St. Louis; sixth, James Hickey, New York City; seventh, John Nolan Scranton, Pa.; eighth, Wm. O. Carroll, Battleford, Sask. It will therefore be noticed that there are two Canadian vice-presidents.

The boys are greatly elated over their success in securing the 1914 convention for Toronto, and as the city is in such a central position, it is expected that between five and six hundred delegates will meet there. Toronto, Ont., Montreal, Que., St. Louis Mo., and Portland Ore. were in the running, but the Queen City came out a winner on the first ballot by a clear majority of fifty over all the other cities combined so it may be imagined that the local quartette must have got down to business in proper shape

Old Age Pensions

The question of old age pensions is one that the politicians will not be much longer able to ignore. It is a problem of vital interest to the wage-earning class, and, moreover, one that is beginning to engage the attention of thinking men and women in all the various walks of life. There can be no denying that the average worker who has a family to raise and maintain is under modern social conditions unable to make adequate provision for old age. With all the advances that have taken place in the science of production owing to invention and machinery, despite the fact that goods are produced to-day infinitely cheaper than they ever were before, the wealth producers find it more difficult with each succeeding year to make both ends meet, without putting by anything in preparation for a time of adversity.

There is no better attested or recognized fact in modern industry than that the tendency of trade is to lower the purchasing power of the dollar without a compensating raise in wages. The life of the average mechanic is a constant struggle to keep his head above water and in a very large number of cases he does not succeed in doing so.

The evidence that has been submitted before the select special committee appointed by the Dominion government to investigate and secure data on the question of old age pensions, goes to prove that the average wage in Eastern Canada is not over \$500 per year, and the cost of living is considerably over \$750, for an average family of three children and parents, eliminating many things that are necessities, for instance, medical attendance, etc.

The greatest dread of the modern wage-earner is the problem of what old age holds in store for him. The majority of the workers live in rented houses, many of them in hovels, and have not even roof that can call their own, and the only possible prospect of relief is along the lines of a comprehensive old age pension scheme.

Even in the slightest paid craft at the present time, the wage rate is utterly inadequate to meet the requirements of modern society. In many of the highest paid mechanical vocations the worker has to pay out fully one-third of his salary in house rent alone, and it is the industrious, not the idle, who are face to face with the ever grim spectre of impending want.

It is a fair proposition that the workers whose energy and labor have created the entire wealth of the nation are entitled to something better in their declining years than to be ruthlessly regulated to the industrial scrap heap, dependent upon private or public charity. It is easily demonstrated that under present conditions the average worker cannot put by anything for old age, and each succeeding year finds the struggle for existence more strenuous, and in a majority of cases altogether hopeless.

The wage-earning class are waking up to a realization of the fact that after a life-time spent in the service of the public it is the plain duty of the commonwealth to see that their declining years are freed from the fear of object dependence and poverty. An old age pension would be in the best interests of Canadian nationality. Other countries are grappling with the problem and there will never be a better time for the Dominion Government to act than at the present moment.

It is worse than a travesty upon justice that the men and women who

have given public service, who have spent the flower of their years and their manhood and womanhood on the altar of industrial achievement, should see the wealth that their labor has created go to enrich a class of millionaires, while grinding poverty alone is their outlook. Society owes it to itself to see that the veterans of industry shall be duly recognized as the mainstay and dependence of the nation, and it is clearly up to the government at Ottawa to recognize that the problem is one that presses for immediate and intelligent action.

The growing sentiment in favor of the old age pensions is evidence of the fact that the public conscience is being aroused, that the men and women who have enriched the nation by their industry are far more worthy of recognition than the soldier who is a non-producer and has never added one iota to the national wealth. The nation owes to every industrious citizen not only the right to earn a livelihood, but the assurance that after years of effort and sacrifice when he has reached the threshold of old age he shall enjoy as a citizen's right, and not as a charity, the full assurance that his declining years shall be passed in honorable contentment, absolutely free from the fear of want.

The question of old age pensions is to the front, and the workers, the wealth producers of Canada, are behind it, and will keep it there. It is up to the politicians in the Federal Parliament to recognize the fact. The workers are speaking out, and they propose that their voice shall be heard and respected, or they are going to know the reason why.

The Standing Shopgirl

The men who on a large scale supply the needs of the public usually come to regard their judgment of the value of the public wants as infallible. A case in point is that of the shopkeeper who entertains the fixed idea that women will not buy of a seated shopgirl.

The standing position has indeed been considered so essential to success in salesmanship that in many cases shopkeepers have fought bills brought before state legislatures for the purpose of providing seats for shop girls. At the present time, although such laws are on the statute books in most states, many shopkeepers evade them—as for example by putting all the seats required into the upper story, where they cannot be used. Furthermore, some of the state laws are so vague that they virtually leave it to the shopkeeper to determine how many seats are sufficient for his saleswomen. Only in the very best managed stores, or in their very managed departments, are the girls encouraged to sit as often as they can.

Probably without realizing it, shopkeepers do not apply for what they want to the saleswoman who is standing and do pass by her who is saving her strength by keeping her seat.

The responsibility for the prejudice among shopkeepers in favor of the standing shopgirl rests upon the shopkeepers. Prolonged standing by women is now known as the cause of trouble serious enough to be reckoned among "occupational diseases." Even the saleswoman who may sit down with a clear conscience whenever she is not actually waiting on some one, probably has to be on her feet more than is good for her. Surely women, who do most of the shopping, should need no further incentive to redress the wrong they have done than the knowledge that they have done it. Let every woman desire, and show that she desires, that shopgirls shall have seats at their disposal, and it will not be long before the shopkeepers are rid of their fixed idea that the shopgirls must always stand.

Labor Takes Action

Upon the assembling of the Local Legislature, the Secretary of the Labor Educational Association of Ontario forwarded to the Hon. J. J. Foy, Acting Premier, and the Hon. J. B. Lucas, who has charge of the bill, a strong resolution, in which the views of the organized workers of the Province upon the question of the proposed Workmen's Compensation for Injuries Act was submitted for the consideration of the Cabinet. The names and locations of the various organizations endorsing the communication are appended, and it may be stated that they represent an overwhelming majority of the organized workers of the Province.

The document in question places the position assumed by organized labor in Ontario clearly before the Government, and contains the intimation that while the workers are prepared to accept the draft act of Sir William Meredith in its entirety, they cannot tolerate any mutilation or amendments that tend to curtail its clear intent. It points out that the organized workers firmly believe the rate of compensation should be placed at a higher figure than 55 per cent. For these reasons it is clearly set forth that the workers cannot in justice to themselves consent to accept any measure that falls below the standard of the draft act, and, if amendments are introduced and carried that tend to impair its usefulness the labor movement will resist any attempt to deprive them of the protection of the present Common Law Act.

They Will Not Stand For It

The Minister of Labor can make up his mind, good and quick, that organized labor in this big Dominion is not in favor of having the awards of Boards of Conciliation, under the Lemieux Act, made compulsory. The organized workers get too many raw deals handed out to them now, and they do not propose to have any additional fetters shackled upon them. It is not the fault of trades unionists that the present Department of Labor has fallen into such disrepute. A little more backbone upon the part of the Minister of Labor in regard to the British Columbia miners' strike would be far preferable to tinkering with the present Act. The Hon. Mr. Crothers would do well to make the best of his present opportunities before he enters upon further experiments.

Element of Safety

One of the greatest arguments in favor of workmen's compensation is that wherever legislation of this character has been enacted it has tended to materially reduce the percentage of accidents and fatalities in the field of industry; in some instances to the extent of fully fifty per cent.

Speaking before the convention of the Canadian Lumbermen's Association, which recently met in the city of Ottawa, Senator Edwards, who spoke in pronounced opposition against the proposed act for the province as embodied in the draft act of Sir William Meredith, acknowledged that there was no doubt if the measure carried it would tend to materially reduce the number of accidents and fatalities which annually occur.

It may not be generally known that, in anticipation of the passage of a Liberal Compensation for Injuries Act at the present session of the Ontario Legislature, many of the largest manufacturing interests in Toronto and throughout the province, have already secured the services of experts to give advice in regard to the installing of safety devices for the protection of their employees. A fair and equitable measure of compensation for the Province of Ontario would undoubtedly mean a larger measure of protection and safety to the workers and added precaution upon the part of the employers to install the latest and most up-to-date devices to minimize the number of casualties occurring in their various workshops and factories.

The facts must be apparent to the members on both sides of the House. Let the adherents of both the old parties, assisted by Allan Studholme of East Hamilton, see to it that the draft act of Sir William Meredith is adopted in its entirety. It will fill the bill most acceptably, at the present time. Let the workers have a fair and a safe deal.

Labor Notes

Big 4 Typographical Union of New York City has a membership of nearly eight thousand members.

Two thousand tailors have just succeeded in winning union conditions in New York and New Haven.

There were two thousand delegates representing 450,000 members of the United Mine Workers of America, present at the recent big convention of the craft in Indianapolis, Ind.

Trades unionists in Australia are arranging to publish a great labor daily in Sydney, N. S. W., and will commence operations as soon as half a million dollars are in hand. So enthusiastically have the workers taken hold that only some ten thousand dollars yet remains to be raised. Such a paper will be of immense value in propaganda work and the fighting of political campaigns. It is proposed to establish a similar publication in every state in the commonwealth.

The Burlington, Iowa, Typographical Union has signed a four-year contract that calls for \$20 for day work and \$24 for night work. The job scale has been raised \$1 a week. After two and one-half years the new paper scale will be \$21 and \$24. Over-time will be paid for at the rate of price and a half, with double time for Sundays and holidays. Pressmen in this city have organized and it is proposed to form an Allied Printing Trades Council.

FACING THE MUSIC

The stereotyped sugared reports of fashionable marriages palls. One hails with delight the Missouri up to date style of doing such notices. They run this way:

"Married—Miss Sylvia Rhodese to James Carubahan last Saturday afternoon. The bride is an ordinary town girl, who doesn't know any more than a rabbit about cooking, and never helped her poor mother three days in her life. She is not a beauty by any means, and has a gait like a fat duck.

The groom is well known here as an up-to-date loafer, has been living off the old folks all his life, and don't amount to anything now."

"They will have a hard life while they live together, and the News hastens to extend absolutely no congratulations, for we don't believe any good can come from such a union."—Ex.

NEW OTTAWA BOOKLET.

The General-Advertising Department of the Grand Trunk Railway has just issued a handsome booklet entitled "Ottawa," which deals with that beautiful city.

The Chateau Laurier, and incidentally with the attractions and accommodations that are to be found in the Algonquin Provincial (Ontario) Park. The booklet is composed of thirty-two pages, printed on antique paper, handsomely illustrated with views printed in seven colors and bound in a drab cover printed in and brown and embossed in gold. The text is interesting and describes the Capital City of Canada, its many Government Buildings, the attractions found within its limits, as well as its suburban resorts. It also gives a good description of the Chateau Laurier, the Grand Trunk's magnificent hotel in the Capital City.

Mr. H. W. Fitton was in Toronto Thursday.

Mrs. Alfred Gonyou of Brighton, is the guest of Mrs. R. C. Tegart, Church street.

Many friends will regret to hear Mrs. L. Van Westrum, Langley Park and two of her little daughters are laid up with whooping cough.

Miss Gretchen Dunstan, Mrs. Forsyth, Miss Van Norman, Mr. A. J. Wilkes, Mr. Hastings Webling were visitors in Toronto Thursday.

Mrs. Rose will receive on Tuesday, March 3rd for the last time before leaving town. Her sisters Mrs. Boyd and Miss Morgan will receive with her.

Mrs. Potter Howard of Mexico, (former popular visitor in town, nee Miss Genevieve Moran) will arrive Monday to visit Miss Gretchen Dunstan.

Mrs. Lloyd Harris and Miss Blackmore, were in the Queen City Thursday, accompanying their guest Miss Rowe, that far, on her homeward journey.

Miss Dunstan was the hostess Tuesday evening at an informal but jolly little farewell party given for Miss Rowe, when music, cards and games filled an enjoyable evening's program.

Miss Cora Rowe of Fredericksburg, Virginia, who has been the guest of Mrs. Lloyd Harris, Pensans, left for the South Thursday stopping over en route, a day or two to see Toronto.

Miss Gould is busy with her company of amateurs (who are certainly very popular players) and will present three playlets at Victoria Hall, March 10th. The playlets are always appreciated and greeted with an enthusiastic and largely attentive audience.

The Mises Adam, Darling street, were the hostesses this week of a very enjoyable sleighing party in honor of their guest Miss Vera Brownlee. After a couple of hours drive, in a cosy big fur robed sleigh, they returned to partake of a delicious supper that was awaiting the party, after which games and music finished a delightful evening.

It was a very pleasant annual reunion held at Victoria Hall yesterday afternoon under the auspices of the art league when Mr. Philip Buck and Miss Colter cordially welcomed many friends, who were in evidence, and who at the tea hour enjoyed a cup of the favorite "brew." A pleasing feature was a song rendered very sweetly by Miss Annie Howarth, and the physical culture class gave a very interesting exhibition of fancy drill, under the direction of Miss Josie Whitney. The executive are: Mrs. Philip Buck, Mr. John Marcus, Mrs. William Watt, Mr. Walter Turnbull, Mrs. (Dr.) Hart, Mrs. Mastyn Cutcliffe.

This is a quiet week, socially. The advent of Lent, with its introspection should make us all pause and look backward on the road that we are all quickly traversing and that leads to where? The weather is ideal, the sun glittering merrily and peeps of blue sky, happy harbingers of spring, that is about to dawn, with its riot of color; its glorious open air orchestra Nature awakening from her ice-bound sleep, to robe herself in her enchanting tones of green. My lady of the garden will soon be busy, tending and watching things that grow, in the best of all places, the drawing room of the gods.

"God of the open air, To Thee I turn, To Thee I pray."

One of the perfect things about life in English country houses is the delightful and comfortable way in which breakfast is served. A gong sounds at the hour at which breakfast begins but the guests come down quite at their leisure, and take what place it pleases them. The table is set very simply. It stands as often as may be in a flood of sunshine from an eastern window, and low bowls of garden flowers give it freshness and daintiness. Dishes of butter, of toast, of scones and muffins, jam and marmalade, pitchers of cream and bowls of sugar are placed at intervals within reach of everyone. At another side table there are copper heaters, holding plates and dishes and hot cereals, eggs, bacon, kidney, fish and devilled chicken legs, baskets of fruit are on the sideboard. In this manner twenty or more people find their breakfast comfortably hot, and it is so very informal, only one servant need be kept on duty.

Parliamentary Reception. Lady Whitney and the wives of the Ontario Cabinet Ministers held a large reception in the Speaker's Chambers of the Parliament Building yesterday afternoon, when the former was wearing a most becoming gown of peacock blue silk trimmed with Hoxton lace and embroidery in pastel shades, diamond ornaments and smart blue hat to match her gown.

Mrs. W. W. Hearns, in a resplendent gown, with lovely overdrift of tulle embroidered in crystal; Mrs. Pyle, looking very handsome in mauve silk and chiffon, with amethyst ornaments and corsage bouquet of lily-of-the-valley and violets. Mrs. I. B. Lucas in taupe charmeuse with lace and chiffon and stole of ermine received the guests at the hall entrance.

Two of the new and quite unique members of Washington society are the Misses Lucille and Georgia Parker. They are part Choctaw, and trace their ancestry with a great deal of pride, back to the leaders of the tribe when it roamed through the South. The girls are sisters of Gabe E. Parker, who recently took up his new duties at the Chapel as one of the "wampum chiefs" of the Government, that is to say, Register of the Treasury.

Why Men Do Not Marry. Why men do not marry is a much discussed question at home and abroad at present. 'Twould take up too much space to quote the various reasons given for the amazing decline in the matrimonial market. 'It is not due altogether to the high cost of living but to the vision of luxury abroad. "Perhaps," writes Mme. Clara Butt, "women know their men better, and men their women than formerly." Possibly there is too little idealism in life and may-hap the vulgarity of the daily press is the cause of it. E. Temple Thurston, author of "Richard Furlong" writes: "The younger generation, I have larger ideas, more varied and modern interests; one reason is certainly to be found in the new gospel of the pursuit of happiness and the sort of happiness which money buys and leisure affords. Marriage upon small means demands effort, struggle, discipline, all the things which the present generation dislikes and affects to despise. Young ladies who have been brought up in a luxurious home, decline to share the lot of a young man in a cottage—and a young man does not care to struggle with expensive living in a cottage. And so the story goes; only a snap shot given of the many views presented, why marriage is declining.

Miss Donkin of Halifax, Nova Scotia, is the guest of Mrs. E. J. Mabon, Dufferin Ave.

Mr. and Mrs. Harry Cockshutt and little Miss Isabel leave Monday for St. Augustine, Florida.

Miss Simpson was the guest of Mrs. W. C. Boddy for a few days, returning to Guelph Thursday.

Mr. Stuart Henry, Windsor, spent a couple of days this week the guest of his aunt, Miss Philip, Darling street.

Mrs. (Dr.) Brownlee and Miss Vera Brownlee, Grimsby, were weekend visitors of Mr Mark Adam, Darling street.

Mrs. Passmore and Miss Louise Jones were visitors this month at the Sanatorium from the Brant Chapter, I. O. D. E.

Mrs. George Dunstan of Brantford is the guest of Mrs. Mandeville Merritt, 666 Huron St., and will receive with her on Friday.—The Toronto News.

Wednesday evening Mr. Harvey Cockshutt entertained about thirty young people, at a snow shoe tramp. They looked quite picturesque in sashes over blazer coats and gaiters, as over the hills on nature's snowy carpet they hid away to the Golf Club. Later on the march home down hill and dale in the crisp atmosphere was in order. Then a crackling fire and a hot supper, was a jolly good end up, not to speak of an informal tango, added just to make the program complete.

Mrs. F. S. Hartley, Pearl Street, wearing her pretty wedding gown of white crepe de chene, held her first reception since her marriage, Thursday afternoon. The bride was assisted by Mrs. Moir and Mrs. Robert Hartley. The table which was much admired, was bright with daffodils and tulips, and was presided over by Mrs. Thomas Logan, while Mrs. DeVin and Mrs. Fred C. Harp had charge of the drawing room, with a trio of prettily gowned girls assisting. Miss Edna Hartley, Miss Katie Burns, Miss Winnifred Carling.

Mud Splash Beauty Spot, Newest Fad

Made to Look as Though Passing Motor Had Disfigured Face.

LONDON, Feb. 28—Although this city is not at the moment troubled with muddy weather, the mud splash beauty spot is the latest eccentricity of women.

The beauty spot was revived last year when there was an attempt to introduce the wearing of white of powdered hair.

Although the latter idea did not become fashionable in London, the beauty spot has remained.

Recently at a very important society wedding, it was noticed that many of the guests wore beauty spots, but these were not the "mouches"—the French beauty spots that are made of court plaster, and "stuck on" the face—but the mud-splash "spots" which are put on with cosmetics.

Women are to be seen on the streets of London wearing mud-splash spots. These seem to be placed anywhere on the face, not as the original idea was, to draw attention to a dimple or to especially beautiful eyes or any other good feature, but to look as though a passing motor omnibus had on a muddy day disfigured the face with a mud splash.

A woman who was seen in Bond street yesterday, had a mud-splash beauty spot almost upon the bridge of her nose.

Women's Press Club

The Honorary President of the Canadian Women's Press Club, Miss Marjory MacMurche, has invited the members of the Toronto Women's Press Club to meet Miss Marshall Saunders, the Vice-President of the C.W.P.C., for the Maritime Provinces at the club room to-morrow afternoon at half past four.

TORTURE RELIEVED RHEUMATISM CURED.

Superintendent Of Sunday School In Toronto Says "I Am Pleased To Tell You That I Am Cured", After Taking "Fruit-a-tives".

R. A. WAUGH, Esq., 55 Dovercourt Road, TORONTO, Oct. 1st, 1913.

"For a long time, I have thought of writing you regarding what I term a most remarkable cure effected by your remedy 'Fruit-a-tives'. You may publish this letter, whole or in part, if you wish to do so. I have lived in this city for more than 12 years and am well known."

I suffered from Rheumatism, especially in my hands. I have spent a lot of money without any good results, until I used 'Fruit-a-tives'. I have taken 'Fruit-a-tives' for 13 months now, and am pleased to tell you that I am cured. All the enlargement has not left my hands and perhaps never will, but the soreness is all gone and I am doing any work. I have gained 35 pounds in 13 months. I am very grateful for what 'Fruit-a-tives' has done for me!"

Rheumatism of any kind—whether in hands, arms, feet, legs, joints or back—is caused by uric acid in the blood. Uric acid is formed when there is any stomach trouble, coupled with any disturbance of the kidneys, bowels or skin, which prevent these organs from properly ridding the system of waste matter.

This waste, or uric acid, acted upon by an acid condition of the stomach, forms uric in the blood. The only way that Rheumatism, Sciatica and Lumbago can be cured, is to cure the kidneys, regulate the bowels and improve the digestion and skin action. 'Fruit-a-tives' cures Rheumatism because this wonderful Fruit medicine gives new strength and vitality to the stomach, liver, bowels, kidneys and skin—purifies the blood and prevents the formation of an excess of uric acid. Rheumatism is an tuberculous disease, but 'Fruit-a-tives' will always cure it when faithfully used according to directions. 50c. a box, 6 for \$2.50, trial size, 25c. ANCIENT LINEAGE LINKS MR. MARTIN HARVEY WITH HISTORIC PAST

Research Shows Distinguished Actor Has a Lengthy Genealogical Tree. Actors' and actresses' lives have been talked about, written about and "flung" about, but seldom have the great mass of people, and few of the literary giants, ever turned to an actor's genealogical tree. There is an actor of note appearing in Toronto next week; let us take a look at his antecedents.

While it is not necessary to dig deeply for the roots of the genealogical tree, a kindly expert in this delightful field of research tells us that Martin Harvey, of Wyvenhoe, is descended from an ancient Breton family, which settled in East Anglia at the time of the Conquest.

In the reign of King John there was an Osbert de Harvey, a prominent personage of the Counties of Norfolk and Essex. The elder line of his descendants is now represented by the Earl of Bristol, but it was from the younger branch that Martin Harvey descends through a long line of distinguished ancestors.

Sir Nicholas Harvey was Gentleman of the Bedchamber to King Henry VIII, and John Harvey, was Comptroller of the Household to the same monarch. Sir Thomas Harvey, was another ancestor, who, in his day, was Knight Marshal to Queen Mary (Tudor). Another Harvey was High Sheriff of Essex in the reign of Charles II. In the year 1603 there was a Martin Harvey of "ye Middle Temple, sonne of Sir Francis Harvey, one of His Majesty's Judges of ye Common Pleas."

During the stormy times of the 17th century the family moved from Wit-ham to Wyvenhoe, and for the past two centuries the family, true to the tradition of their Celtic Ancestors, have followed the call of the sea. The name of Martin linked to Harvey represents another fascinating chapter in genealogy. It is sufficient for our purposes to say that it comes from an ancient family of Saffron Walden. It is interesting to note that the Martins still bear upon their coat-of-arms the blue and gold of the bear upon their Chapel or Cope of St. Martin of Tours, the colors of the Norman Conqueror's patron saint.

So far as the world is concerned, it has been under a great deal of sentence of Divine Justice, "Dying, thou shalt die." But Natural and Spiritual Israel have been dealt with as freed from the original sentence and on trial for life or death afresh under God's judgments, or disciplines. Thus it is written, "Jehovah will judge His people." Not all under these judgments have understood them; not all were in the condition of heart to receive their instructions.

A SUNDAY SERMON BY PASTOR RUSSELL

Lord's Gracious Provision For the World of Mankind. HIS PLAN OF REDEMPTION

Eternal Torment Wholly Foreign to the Divine Character—God's Judgments Are "Righteous Altogether"—Death the Divine Judgment Against the Race of Adam—God's Special Judgments—The World's Judgment During the Millennium—Healing and Uplifting From Sin and Death Conditions—Destruction Only For the Wilfully Rebellious.

Feb. 22.—Pastor Russell still preaches orally as he writes. His secret is the Lord and who were able to rejoice in His judgments—His righteous dealings. They have realized by faith God's love for them. "The Father loveth you" (John, 16:37). By faith they have appreciated the Apostle's assurance that "all things work together for good to them that love God, to them who are called according to His purpose"—Romans, 8:28.

We have seen that God's judgments in the past have been merely with those who shall constitute the Seed of Abraham and Spiritual, through whom, according to the Promise, "all the families of the earth shall be blessed" (Genesis 22:18). We now note the fact that the Seed of Abraham is made up of those who are called according to His purpose, for their judgments could be discerned only by the eye of faith. Our text refers to the world's judgments during the present age.

The judgments of the Lord are in the earth—not confined merely to one nation or especially called class—and will include every member of Adam's race. And while these are not the fact that they will be administered by the Christ of which our glorified Redeemer will be the Head, it is a mistake to glorify in the judgments of the Lord as if they were the judgments of the Lord. The judgments of the Lord are in the earth will not mean havoc and dismay to mankind in general, but only destruction to the rebellious, to all who come into line with all the righteous arrangements of that Kingdom, designed for their uplifting from sin and death to eternal life.

But now in the dawning of the New Dispensation, the Word of God is shining as never before. One passage illuminating another, our fear gives place to reverent love and glad awe. We begin to understand that the torment doctrines which we received are wholly foreign to the Divine character, which, on the contrary, is distinctly marked by love, justice, mercy and love toward all. We find ourselves now in agreement with the Scriptural declaration that "mercy is the Lord's name, and His name is righteousness altogether," and we delight in them.

Instead of a judgment of eternal torment as a penalty for sin, we find the judgment, which is the result of sin, to be the Divine penalty of His agreement to the righteousness of Christ. We agree to the righteousness of that verdict, or judgment. God had a right to demand of His creature the obedience of the heart to render. He had a perfect right to destroy him in death when he refused the blessing of life eternal on the terms of obedience. Seeing this, how rejoiced the obedient heart, who were the Plan of Redemption for the sinner and his offspring through the sacrifice of Christ. As a result we have good hope of eternal life.

Before the Lord; For He cometh, For He cometh to judge the earth; He shall judge the world with righteousness, And the people with His Truth."—Psalm 96:10-13.

Note the words of St. Paul respecting what God has in reservation for the world. He says: "The appointed Day of the thousand-year Day of Christ) in which He will judge the world in righteousness by that Man whom He hath ordained."—Acts 17:31.

In this work ordained for our Lord He is to have associates—the elect Church, His members, of whom the Apostle writes, saying, "Know ye not that we shall all judge the world?" (1 Corinthians 6:2.) And the Ancient Worthies enumerated by St. Paul (Hebrews 11:32-40) will also be judges, earthly representatives of the Kingdom of God. As it is written, "I will restore thy judges as at the first and thy counsellors as at the beginning."—Isaiah 1:26.

Our all-wise Creator who has thus provided both the Heavenly and the earthly judges of the world in the election from Israel and the election of the Gospel Age, has thus demonstrated the fact that the Kingdom of God is not a mystery hidden from ages and dispensations' past. It is evident that there will be no disappointment, no failure, in respect to God's great Oath-bound Covenant made with Abraham—"In thy Seed shall all the families of the earth be blessed." The basis of the blessing is the redemption work of Christ, finished at Calvary. The outcome of that blessing will come through the glorified Lord and the Church, His Body.

The first work will be the establishment of a righteous government in the hands of those already proven absolutely loyal to God and to His righteousness—faithful even to death. We may have full confidence that in that Kingdom justice will be laid to the line and righteousness to the plummet, as God has promised. (Isaiah 28:17.) Not only so, but we may have full confidence that mercy nor have direct intercourse with the glorified Christ, Head and Body—the King of Glory.

Americans in Berlin Pose in Living Pictures from Canvases New and Old

Affair Is a Benefit for the Catholic Women's Alliance, and the Art Treasures of the Kaiser Friedrich Museum Are Copied by Those Who Appear in Tableaux.

THE AMBASSADOR AND MRS. GERARD ARE ACTIVE

(Special Dispatch.) BERLIN, Feb. 28. MANY Americans took part in the living pictures given by court and diplomatic society for the benefit of the Catholic Women's Alliance. There were nineteen pictures after originals in the Kaiser Friedrich Museum, which were arranged by Count Harrach and Countess von Henckel von Donnersmarck.

Countess Moltke, who before her marriage to the Danish Minister was Miss Cornelia Thayer, of Boston, appeared in a reproduction of Velasquez's historical canvas, "Maria Anna, Wife of Ferdinand III." The last picture was unusually interesting and reproduced Van der Goe's masterpiece, the latest acquisition to the museum.

Week of Court Mourning. The death of the venerable Princess Wilhelm of Baden plunged the court and diplomatic society into mourning for a week, and the younger set in society was much disappointed at not being able to accept invitations to the fancy dress ball arranged in the Berlin Palace by the Crown Prince and the Crown Princess for Wednesday.

The Crown Princess has just returned from Zoppot, the well known Baltic resort, where she has been supervising the arrangement of her new property, the Villa Heloback, the gift of this seaside municipality. An outstanding event of the week in German-American society and academic circles was the official dinner given by Professor Shorey, of the University of Chicago, and Professor Archibald Coolidge, of Harvard, in return for the hospitality they have received during their temporary connection with Berlin University.

Besides well known personages in German academic circles, there were present the American Ambassador and Mrs. Gerard, the American Consul General and Mrs. Skinner; Lieutenant Commander and Mrs. Gherardi, Major Langhorne, Mr. and Mrs. Rüdbeck, Mrs. James Norton Winslow, Mr. Lanier Winslow, Mrs. Harry J. Luce, Mrs. Stephen H. McFadden and Mr. William Spencer.

Dr. Cooley discussed the subject, "What the European School System Has to Teach to Our Own." Mr. Arthur Schubeck, well known in the Berlin art world, has painted a portrait of two daughters, Mrs. Harry J. Luce, of Philadelphia, which will be exhibited in the spring salon in Berlin.

Doors of London Tivoli Are Closed

Famous Old Music Hall Will Be Demolished Only To Be Later Rebuilt.

(Special Dispatch.) LONDON, Feb. 28. COLEST and most typical of music halls, the Tivoli, in the Strand, has closed its doors to enable the Strand to be widened at that part, and the thousands who frequented that most popular of London's places of amusement are in mourning. It will be rebuilt, but not for a long time.

MISS ELLIOTT ONE OF BEST SKATERS (Special Dispatch.) St. Moritz, Feb. 28. SUNSHINE prevails continuously, but the large army of skiers is beginning to call for snow.

GHASTLY IF THE LIGHT IS NOT RIGHT, PRETTY IF IT IS, ARE COLORED WIGS

This Is the Verdict of the Innovation Attempted at Mrs. George Keppel's Party in London—Each "Transformation" Has To Be Made to Suit the Peculiarities of the Wearer, Says the Man Who Makes Them.

(Special Dispatch.) LONDON, Feb. 28. THE season having been opened by the King and Queen, London is rapidly filling with well known persons for the gaieties of the social round. The usual number of pet charities is receiving the attention of society women, educational fixtures are numerous, and the theatres have notable audiences nightly.

King Attends Smoker. The King added to his popularity this week by taking twenty-two guests from his dinner at Buckingham Palace to the smoker at the Royal Amateur Orchestra Society. It was a night of smoke and music. The King was in real Bohemian mood and not for ceremony.

London Market for Art Shows Tendency Toward Improvement

From Obscurity to Fame in Three Years Is Record of James McBeay, a Bank Clerk Until He Found He Had an Artist's Instinct.

(Special Dispatch.) LONDON, Feb. 28. ART does not seem to be ill patronized in England at the present time. It is true that artists in general are an impecunious body. Many, indeed, cannot even like Constable—exchange their production for a receipted tradesman's bill.

Queen Mary Is Fond of Sea Pictures

King George Will Select Artist to Complete Bacon Painting of Coronation.

(Special Dispatch.) LONDON, Feb. 28. THOUGH Queen Mary is by no means a good sailor, she is very fond of sea pictures. She has just purchased three charming little water colors, the work of Mr. R. Edsall Richardson, of Sandown, Isle of Wight.

"Should Girls Be Told?" Has Opened Discussion in England

Storm Raging Over a Schoolmistress Who Ventured to Enlighten Some of Her Pupils on Mystery of Birth—Prominent Persons Take Up the Controversy.

(Special Dispatch.) LONDON, Feb. 28. A GREAT storm is raging among the members of England because Miss Outram, headmistress of Drogheda, a village near Chesterfield, has ventured to tell the elder girls in her school something about motherhood, instead of leaving them to find out from unsuitable companions.
