OUR COUNTRY FRIENDS COUNTRY STORE

Do you remember the big night at the Nicklet Theatre about this time last year when our Country friends gathered together a large amount of farm produce which was distributed to the patrons of the theatre who held the lucky numbers. Well, another such event will take place on Thursday evening of this week. Our good country friends are bringing boxes of apples, bushels of vegetables, carrots and turnips, packages of butter and eggs, poultry, beef, etc., all fresh products of the farm. Last year there was about twenty prizes. On Thursday night there will be as many prizes and possibly more. The Peerless Quartette will render selections and a special picture bill will be presented including a Charlie Chaplin comedy.

POULTRY MEETING

The annual meeting of the Kings County Poultry Club will be held in Kentville on Monday, Nov. 5th at 8 p. m. W. PLANT, Secy.

A Falmouth farmer is shipping from Windsor in the three masted schooner, St. Maurice, to Cuba 8,500 bushels of potatoes.

On Monday, October 29 the campaign to obtain \$100,000 for Kings University was started.

Dr. Michael Clark in an address at Edmonton said that Hon. F. B. Carvell would be the next leader of the Liberal party in Canada. In Dr. Clark's opinion neither he, nor Mr. Carvell, nor any other Liberal has dropped his Liberalism by making the winning of the war the supreme issue in their minds at the present time.

Immanuel Baptist Church at a special business meeting last evening in the Church Vestry unanimously extended a call to the Rev. Brice D. Knott of Mahone Bay, to their vacant pastorate. The church has every reason for believing that Mr. Knott will soon be added to the list of Truro Preachers.

SOMETHING OF INTEREST TO THE LADIES

A fine demonstration of LA. PARISIENNE TOLLET requisites will be given on Wednesday, Oct. 31st, at the Millinery Parlors of SLOAN & KEARNEY and orders will be taken for same.

KENTVILLE "Y" IS ENTERTAINED

On Thursday evening, Oct. 25th a number of the young people of the town responded to the invitation of the W. C. T. U. to meet with them at the residence of Mrs. A. L. Pelton. After a well rendered musical program, Mrs. Pelton introduced Miss Eleanor Smith, Provincial "Y" secretary. Miss Smith in her winsome and sincere manner made a strong appeal to the girls for renewed zeal for the work, she represents. She pointed out that at the beginning of the present war, W. C. T. U. work had been taking a secondary place. Now the workers had come to realize that the principles for which W. C. T. U. and its branch society stand are not only strong forces in helping to bring the war to a successful issue but are also important factors in the future welfare of our beloved Canada after the war is over. Then followed a discussion of the different phases of the work that might be accomplished by an enthusiastic Kentville "Y" and a meeting for the election of new officers was appointed for the following Monday. A delicious lunch contributed to the spirit of sociability pervading this informal gathering. Let us hope that such a widespread interest was created that still a larger number of girls will become identified with the Kentville "Y" and help to make it a very effective power in these times of stress.

DAGON HAS FALLEN

It is more than a coincidence that many things that are happening today have their parallel in ancient history. In that book which is the source of everything most valuable in the life of the world it is recorded that, on a certain occasion, "when they of Ashdod arose early on the morrow, behold Dagon was fallen upon his face to the earth before the ark of the Lord. And they took Dagon, and set him in his place again. And when they arose early in the morrow morning, behold Dagon was fallen upon his face to the ground before the ark of the Lord; and the head of Dagon and both the palms of his hands were cut off upon the threshold; only the

stump (i.e. the fishy part) of Dagon are not in the habit of bowing the knee to this modern Dagon, to note the efforts of his devotees to set him up again.

This story is suggestive of the condition of the Dagon of partyism in our country at the present time. He has had a multitude of devoted worshippers, who have tried to bolster him up, but war conditions have disclosed his rotteness, and before the sentiment of an awakened conscience, he has fallen, and is sprawling all over the lot. It will be exceedingly interesting to those, who

THE ATTRACTIONS OF KINGS COUNTY

By a New York Physician
To the Editor of the Advertiser.

Since the war has prevented the traveller from seeking afar, the scenes which distance lends enchantments to the attractions at his own door, promise to come into their own. The poet says, "Who travels far may lack the seeing eye; stay thou and see what wonders round thee lie." In this peerless country of Kings, may be seen every variety of scenery that the heart of dyspeptic could desire. But the modern tourist is afflicted with the craze to do something new, a restless itch to get away from old habits into something uncommon and to escape the ennui associated with lack of interest in life.

Emerson said, "Our first journeys discover to us the indifference of places; the vision, the best spectacles I have seen I might have had at home." Kant never travelled more than 40 miles from Konigsburg, and Saint Bueve for fifty years seldom left Paris. Yet, the tourist subjects himself to the distracting impacts of foreign travel and fails to realize that he can find practically everything he wants at home. Having in the past explored the streams and covers of this Country, one is fairly qualified to describe its landscapes and beauties that never fail to charm the eye. I have just re-visited those delightful scenes, and am full of the gladness of woods skies and waters.

Our first excursion was made from Port Williams to the North Mountain the Mecca of all visitors. Its base was reached after passing broad dykes and prosperous homesteads, the wild mountain ascent to Hall's Harbour was broken by a half way up, from which an entrancing view of the valley was obtained. As far as the eye can reach, are farm houses, broad lands, orchard upon orchard, lovely winding roads, groves of trees, and pastures dotted with cattle; every clump of tall trees revealing a farm house and buildings—all dissolving into the haze of the South Mountain—ten miles distant. From the summit of the North Mountain a refreshing fall of temperature is felt. As we approach the ocean nearby, several small farms are passed, once productive of fine crops of wheat and potatoes, the mountain land being held by some to be superior to that of the valley. Halting at the crest, the Bay of Fundy comes into view, its splendid expanse of green water scintillating in the sunshine. To the east stands Cape Split, guarding the Race,

and to seaward, dimly discerned in the haze, the D'Haut rears itself. The Cumberland shore stands out clear and forges a background for glistening Cape D'or. Spencer's Island, Port Creville and a score of smaller hamlets near the shore. Hall's Harbour is a picturesque fishing village "far from the madding crowd." It boasts of an excellent harbour; and its life-giving air is a resort for those who suffer from small worries or great tragedies of life. The natives are plain fisher folk with the unconventional frankness of those who live close to nature every ready to place themselves at the service of visitors. Returning, the wild wood road brought us to the "Look Off", famed and commanding. Its solitary hostelry possesses a register which boasts of autographs of many noted personages living and dead. The panoramic view from here is an inspiration for painter and poet alike. Five hundred feet below, far as the eye can reach, are villages and hamlets cozy cottages, orchards and green fields. In the distance Cheverie, Wolfville and the Maitland shores stand out in relief. Upon the distance is the lofty South Mountain, upon which bush fires were sending up columns of hazy smoke, reminders of signal fires of the wild Scottish crags. Down the steep descent, firs, maples, birches and mountain ash cluster in great profusion. It comes as a great surprise to the casual visitor to find so great a variety of scenery within so limited an area, and the general effect viewed from any commanding point hereabouts, is exceedingly diversified, and the beauty of the landscape is still further enhanced by the distant view of the sea.

A few hundred yards beyond this enchanting spot, the view opens upon the basin of Minas, a magnificent sheet of water, and the eye fairly revels in the delightful and picturesque objects seen:—Blomidon in its grandeur, looming up like a great sentinel, five islands dimly showing their heads, and the Sugar Loaf Mountain crowning the distant hills. Away to the East, the church topped highlands of Cheverie, Kingsport and Wolfville are seen reposing in the stillness. The mountain road to Percé is delightfully rural. The smooth descending road, the cool of the evening, the scent of the ever changing shrubs and firs, the golden rods and yellows of the maples that fringe the roadside, all make a drive to be remembered. As you descend the vaulted road, the dark hillsides, become closer; and meeting overhead, present a riot of gold and yellow foliage until dissipated by the timber cleared

hill which opens out upon the level land near the water. The road from Percé to Middleton, furnishing a greater variety of pastoral and picturesque scenery than can be found anywhere in the province. The admirable roads, orchard after orchard, great dykes following lesser ones, well kept houses and grounds, splendid barns and fruit houses, all attest the prosperity of the neighborhood. I could not but observe the great improvement in the countryside since I last saw it. Beyond Upper Dyke, holdings become estates. The senses become sated with the great orchards and trees, sweeping the ground with their fruit laden branches. The residences show that the early settlers improved with great taste, the natural beauties of the sites. Some of those broad acres show that they have been tilled continuously for almost two centuries. On each side, we pass modern farming appointments, machinery, attractive lawns and beautiful meadows fed by winding brooks, and sprinkled with hay stacks, and well fed cattle. From Billtown to Melvern Square, the scenery changes and improves with every mile. A forest of orchards and productive meadows are passed in rapid succession. Nearing Aylesford, that fine place shows an age and culture not generally met. The lofty old elms and oaks show the refined taste of some early pioneer. In the valley, the well ordered fields, shaded lanes and church spire rising above the tall trees, suggest an English landscape. This beautiful part of the valley is less known to visitors and tourists than the more accessible points near the towns, but the choicest bits are to be found hereabouts.

The mountain scenery of the North and South ranges with the fruit areas between, cannot be surpassed anywhere. Canard Street rich in its well kept homesteads and splendid dykes extending from the sea to Steam Mill village, for rugged picturesqueness, the South furnishes a most enjoyable drive. For Mountain perhaps excels the North, and the Black River Mountain on to Sunken Lake, boasts a variety of gorge, hill and river, impossible to describe. The foliage of the South Mountain exceeds in brilliance anything in the County. From White Rock down stream to the sea, the rugged wildness is beautifully blended with the sylvan and pastoral beauties of the Gaspereau valley. The serpentine stream fringed with graceful yellow elms, the restful green meadows, prosperous looking farms and gambrel roofs, delight the eye; and the cool air laden with the scent of elms, and freshly garnered hay. The roads are all delightful for the motorist, and distance is as nothing. Grand Pré, the theme of song and story, needs no mention; its charming historical associations must always attract the visitors to its great meadow fringed with old willows and monuments erected upon the site of the old Acadian village. From the top of the hill overlooking the old village of Grand Pré, the loveliest view is had of undulating lands sprinkled with prosperous homesteads and luxuriant orchards, a land of fair pastures and purling brooks, of sheep and cattle and snug cottages.

The town of Wolfville in its delightful setting of hills and meadows is by far the most attractive town in the valley. The many handsome cottages standing in well kept grounds shaded by ornamental trees, give evidence of prosperity and good taste. All roads lead to Acadia University which stands in a commanding position, overlooking the town, and the Basin of Minas as far as the Cumberland Mountains. As an educational centre, it exerts wide influence in the Province. Its grounds are charming with generous stretches of lawn shaded by well grown trees; its setting of attractive residences lends an air of distinction to it. There is a fine fragrance of academic repose about the place that the quiet little town at its gates does nothing to disturb; its faculty of cultured gentlemen is known far and wide and her sons and daughters occupy the highest positions throughout the country.

A delightful drive through the Deep Hollow Road enclosed by wood clad mountain on each side, serves to heighten the beautiful and almost endless view obtained from the summit of Greenrich Mountain. A spot better calculated to inspire the pen of scholar and poet would be ill to find. An unbroken view of stream, dykes and villages as far as the North Mountain, feasts the eye; behind, is the towering South Mountain with its maples or flaming red and gold. The rugged picturesqueness of Beech Hill overlooking Kentville should be seen. The prospect from here is beautiful. The valley and Basin of Minas as far as the shore of Hants County, lie before you; the town reposes at its foot embowered

Ever Taste Crushed Coffee?

If you have, you've wondered at the entire absence of even a hint of bitterness. It is because the small, even, clean, crushed grains of Red Rose Coffee are entirely free from bitter chaff or dust. You taste the true rich coffee flavor—and that alone. Red Rose Coffee is of such a quality that no egg is necessary to clear it. It is as easily made as Red Rose Tea, and pours out of the pot bright and clear, with a fragrance that fills the room, and your heart with joy. It's the class, is

Red Rose Coffee

in beautiful shade trees; and its green lawns, handsome residences and alluvial meadows in the foreground make it an exceedingly attractive and prosperous town.

The railway journey from Annapolis to Windsor affords no indication of the wealth of attractive farms and orchards which abound in the distance near the base of the mountains. The motor car is the vehicle par excellence for enjoying the widely distributed attractions of the county. The tourist in the car gets reasonable exercise and enjoys the scenery, and sees three times as much of it in the day with a cool head a fresh and more receptive brain. To the jaded mind refreshed by these Arcadian scenes, the cares of farm and pulpit, shop and office, become light as thistle down.

J. T. W. DOWE
Wards Island, New York City, Oct. 20th 1917.

NO MORE GRIT AND TORY IN SASKATCHEWAN AND EVERY MAN IS FOR OR AGAINST UNION-VICTORY GOVERNMENT

WINNIPEG, Oct. 25—The Regina correspondent of the Winnipeg Tele-

gram says:—"Last night the two political organizations, which have fought for the control of the government since the territorial status was abandoned in 1916, passed out of existence for the period of the war, so far as the federal elections are concerned. Their places have been occupied by the new National Government association of Saskatchewan. This is the climax of negotiations which have been underway since the Federal Union government was formed.

Dr. Bowman of Weyburn, president of the Conservative association, resigned with the other officers and their headquarters in the capital were closed. Similar steps were taken by the liberals. Hon. J. A. Calder, acting for them in the ultimate arrangements. The Unionists central organization will be an executive committee, composed equally of liberals and conservatives and each constituency will have local executives, similarly organized on which will devolve the obligation of calling conventions and naming Union candidates. Final details were harmoniously arranged, dividing the province by conceding ten seats to liberals and six to conservatives."

ALLIED FORCES ATTACKING IN YPRES REGION

Hundreds of Prisoners Taken

LONDON, Oct. 26.—The French and British troops are attacking today in the Ypres region, the war office announces, and are making satisfactory progress in their new attack. The statement follows:

"At 5.45 o'clock this morning, attacks were launched by the French and British armies north, northeast and east of Ypres. The allied troops are reported to be making satisfactory progress. Rain fell heavily during the latter part of the night and is still continuing."

PARIS, Oct. 26.—The village of Driehank, Pappesgœd Wood, and a number of fortified farms were captured by the French in an attack launched this morning on the Flanders front, the war office reports. Hundreds of prisoners were taken. The French forced a crossing of two rivers, wading thru water up to their shoulders.

On the Aisne front the ground newly won is being consolidated, and no important fighting occurred during the night.

ESTIMATES ON CANADA'S CROPS

OTTAWA, Oct. 18 1917. The Census and Statistics Office published today the second or provisional estimate of the yield of the principal grain crops of Canada in 1917, a statement of the quality of these crops at the time of harvesting and the condition of root crops on September 30. The report is compiled from the returns of crop correspondents made at the end of September.

Why Canada Needs More Money

UP to date the war has cost Canada about \$700,000,000. Canada has spent in Canada over \$400,000,000 on her own account. Canada has spent in Canada on behalf of Great Britain over \$300,000,000. What Canada spends for Great Britain is really loaned to Great Britain and will be repaid or credited to Canada later on.

Great Britain needs so much ready cash to finance her own expenditures at home for herself and for our Allies that she must buy on credit from Canada, and from every other country where she can get credit.

Of course Great Britain's credit is so good that other countries, in order to get her trade, are quite as willing to give her credit as we are in Canada.

Canada wants to help Great Britain not only because Canada wants Britain's trade but because we are Canada and she is Great Britain—both members of the same great Empire, kin of our kin, our motherland.

For Canada it is both a filial and patriotic duty to supply Great Britain's war needs and remember, her needs are our needs. Also it is in Canada's self-interest to supply those needs and thus keep open a market for our products.

Now Britain needs our wheat, our cheese, cattle, hogs, and many manufactured articles.

Canada also needs many of these things—between the two it amounts to more than a million dollars a day in cash.

And the producers must be paid in cash.

Neither Canada nor Great Britain could go to a Canadian farmer and buy his wheat or his cattle on credit.

The farmer and all other producers might be ever so willing to give their country credit but they could not do it because they have to pay cash for wages,

for rent, materials, etc. They must be paid in cash, or its equivalent.

So Canada says to Great Britain:—"I will lend you the money so that you can pay cash to Canada's producers for what you want."

"I will borrow this money from our own people just as you borrow money from your people."

"I will also borrow from the people of Canada money to pay cash for all the products that Canada, as well as Great Britain, needs in Canada."

That is Canada's practical, patriotic part in helping to win the war.

Without this credit the Canadian producer could not sell to Great Britain, and without these Canadian products the war would be prolonged.

So it is necessary for Canada to give to Great Britain the credit in order that Canada's own producers, who need a market, will have one; and in order that Great Britain which needs the products to win the war, will get them.

Now how does Canada get the money by which both Canada and Britain can pay cash for Canada's products?

By borrowing it from the people of Canada through the sale of Canada's Victory Bonds to be offered in November.

That is why Canada's Victory Bonds are offered to the people—to raise money to help to finish the war.

"Canada must keep her shoulder to the wheel even though it be a chariot of fire," and the way for Canada to keep her shoulder to the wheel is by buying

Canada's Victory Bonds

Next week this space will tell why Canada raises money by selling Canada's Victory Bonds

Issued by Canada's Victory Loan Committee in co-operation with the Minister of Finance of the Dominion of Canada.

THE NEWSPAPER OR POLITICIAN WHO CLAIMS TO BE FOR UNION BUT EULOGIZES SIR WILFRID LAURIER, IS STABBING UNION IN THE BACK

There has got to be a careful sifting of real and fake friends of Union government. At present there are too many politicians and candidates, and newspapers who are supporting union for election purposes only. Thus, we have the spectacle of men who denounced Union government and all that it means up to the eleventh hour of its consummation, becoming Unionists in the twinkling of an eye and shouting lustily that it's the only thing to win

the war and save the country from ruin. Union is Big enough and Broad to embrace men of A-L political faiths who are willing to forego their party convictions long enough to make A UNITED EFFORT TO WIN THE WAR, but there is no room in it for OPPORTUNISTS and TRAITORS, men who are in it because they want to be on the winning side as candidates, but who, once safe in parliament, WOULD STAB IT IN THE BACK WITH THE FIRST FAVORABLE CHANCE.

On Saturday last in Ottawa a conference of Laurier candidates decided that their campaign should be a sort of free-for-all that in constituencies

where sentiment for union was strong, the candidate should profess to be a Unionist, but in a riding where union might not be popular, the candidate should be openly for Laurier. This species of glaring dishonesty constitutes A GRAVE MENACE for the permanency of real union and must be guarded against for any Union government whose existence would be dependent upon Unionists whose unionism was acquired at a Laurier convention, would be smashed within ten days of the meeting of parliament.

Nor should sincere Unionists, whether liberal or conservative, be misled by newspapers who, professing to be sup-

porters of the new government, are in truth opening their columns to everything that is calculated to do union harm. The only way to support union is to support it. And the newspaper that declares on one page that it is for union, but protests on another page that Sir Wilfrid Laurier is "Canada's greatest statesman, etc., etc." is merely stabbing union in the back. TO MAKE UNION GOVERNMENT WIN THE FORTH-COMING FIGHT IT WILL BE NECESSARY TO BEAT LAURIER. And the newspaper or politician who claims to be for union but eulogizes Laurier is not helping union to win.

- H. Winters, returned.
- Arthur Wood, C. E. F.
- *Brothers.

Canning has not enjoyed the recent flood of rain, water and mud.

Miss Marion Spicer, daughter of Mr. Lee Spicer has joined the staff as clerk in Mr. Stanley Robinson's grocery store.

A musical recital of much interest will be held in the vestry of the Methodist Church, Canning, on Friday evening next, Nov. 2nd, at eight o'clock. It will be given by the pupils of Miss Minnie Millar—voice, piano and violin, and will consist of twenty full musical numbers. A Red Cross collection will be taken. All interested in the young musical talent of Canning should attend.

Mrs. Mosher and daughter, Marguerite of Parraboro have come to Canning for the winter and are living in the house formerly occupied by Mr. and Mrs. C. Cameron.

The Women's Institute which was postponed last week will meet with Mrs. Ainley on Tuesday afternoon.

Lady Borden is spending the month in Ottawa.

Mrs. Chas Lockwood and Mr. A M Lockwood were in Halifax last week and attended the exhibition of war trophies at the armouries.

Mrs. Frank Sheffield of Canard spent the week end with her sister Mrs. R. W. North.

Prizes were awarded in the United Baptist Sunday School Sunday morning for regular attendance and good lessons for July, August and Sept. to the following. Edna Eaton, Dorothy Harris, Nellie Eaton, Greta Pineo, Austin Cox, Burgess Pineo, Feredick Melvin.

Work the shipyard is progressing rapidly, new workmen arriving every day.

Mr. Phillip Brown celebrated his 57th birthday last week and a number of his friends called and extended congratulations. Mr Brown is hale and hearty for his years but travels little about the County as he did in former years. Mrs. Brown's health keeps her confined at home.

The new firm of Dickie & Lockhart are busy in their business. Their adv. is in this issue.

The Exemption Board composed of Lieut. Col. J. A. Northrup and Mr. F. W. Rand will commence their sittings in the Armory on Nov. 8th and thereafter from day to day.

A large number from here went to Kentville last week and passed their medical examination before the military service board.

Mrs. Clarence Spicer of Boston, Mass., formerly of Canning and who spent the greater part of the summer at her old home for the benefit of her health. But failing to see any improvement Mrs. Spicer returned to Massachusetts in September where the following week she entered a private hospital and underwent a very serious but successful operation. Her many friends will be glad to know that she is now recovering.

WILLIAMS-CLEVELAND—Captain and Mrs. G. N. Cleveland, Crichton Avenue, Dartmouth, announce the engagement of their daughter, Mary Justina, to Mr. E. R. Williams, of Saskatoon, Sask., marriage to take place November 14th. The family resided many years at Kingsport before moving to Dartmouth.

Mr. John H. Burgess met with a very severe accident at Sheffield Mills Station on Friday last. He fell from the platform with a barrel of apples and was badly crushed no bones broken.

Mrs. Telford Messinger who has been spending a fortnight at Somerset at the home of William Baker returned to Sheffield Mills on Saturday's train.

At the Sunday evening service of the United Baptist Church. Rev. F. H. Bone gave an interesting report of the U. B. Convention held in the First Baptist Church Halifax, last week.

Mrs. Earle Bigelow who has been at Yarmouth visiting her relatives returned home on Saturday.

**THE BIRDS OF THE GRAND PRE RE-
GION**

Mr. Robie Wilfrid Tufts of Wolfville son of Prof. J. F. Tufts of Acadia University, has put us all under obligations for a republication of his "Notes on the Birds of the Grand Pre Region, Kings County, Nova Scotia," read before the Nova Scotian Institute of Science May 14, 1917 and which appears in Vol. XIV, Part 3 of the Transactions of that Institute.

These Notes of some 45 printed pages are exceedingly interesting and instructive. The author gives credit to his brother, Dr. Harold Fremant Tufts now of Boston, Mass., for much general data, more particularly in reference to the "water birds."

The region covered by these Notes is largely within a radius of ten miles of Wolfville and the observations recorded-by the pains-taking author are the results of field work carried on for many years.

In this most interesting pastime, with many a day of fogged hard work to go with the untiring patience of a job, the author has discovered the nests or seen the fledglings of 91 of the 180 species subspecies that he has noted down in his Notes. His description of these birds is most interesting and the scientific numbers and home of the American Ornithologists Union are followed by the local bird name in use in the district where these birds were found.

These Notes of this well-posted Nova Scotian Ornithologist we have read in fact studied with great interest and we know a lot more about these species of Birds, their habits, breeding, and every day life than we ever did before.—News.

ALLIES WILL AID

PARIS, Oct. 29.—The Italian situation is summarized by the Temps Military expert as follows: "The Austro-German offensive on the Italian front develops with disquieting energy. The enemy's right, descending in the valleys that converge on Azzide, have reached Cividale. All the Italian forces on the plateau of Bainsizza and on the Carso as far as the sea, menaced with envelopment, have been obliged to evacuate the regions that they were at so much pains to conquer. They are retreating towards the west beyond the Isonzo.

"In the same way as the Germans went to the aid of the Austrian troops, the Allies are going to give their support to the Italian Army, where they will find on the Tagliamento a line of resistance where it is to be hoped the Italian positions will be re-established, as was ours on the Maric. 'There is no time to lose. Cividale is only twenty five miles from the Tagliamento, and the enemy's columns march with prodigious speed."

Lost—On October 2nd between Sheffield Mills and Canning; Man's Oiled Raincoat; said to have been seen hung on a tree opposite F. E. Burgess' house; Finder suitably rewarded on returning to Frank A. K. Walker, Sheffield Mills

WOLFVILLE

Dr's Cullen, DeWolfe, Rev. N. A. Harkness, E. S. Mason, and J. Howard Bars were attending the Convention at Halifax last week.

Mr. J. C. Mitchell has purchased from Mr. J. D. Chambers his house property on Highland Avenue.

Wolfville Division held a Halloween Social last evening.

Prof. Haycock and family have moved from their farm and will spend the winter in town occupying one of the apartment houses of Mr. C. M. Gormley.

On account of poor health Mr. J. D. Chambers has been excused from acting in the Exemption Board of Wolfville. The Board now consists of Dr. G. E. DeWitt, Capt. J. B. Tingley and Ernest Bars (returned from overseas) as the military representative on the board.

Mrs. Frank P. Rockwell has been in Halifax the past two weeks and attended the Baptist Convention. She will be absent a month.

Miss Marguerite Christie has accepted a position with the Sun Life Insurance Co., and left for Montreal recently.

Mr. L. M. Sleep was in Halifax on Monday.

Lieut. Col. N. H. Parsons, who commanded the 246th Battalion and went with it to Great Britain has returned to Canada. He arrived last week at Quebec and is expected home at Wolfville this morning.

MARRIED

At Wolfville by Rev F. McAvoy, Judson H. Pulsifer and Mrs. Sarah Clowry, both of Sunnyside.

Death of Dr. R. V. Jones

All former students at Acadia as well as residents of Wolfville and vicinity will be deeply pained to hear of the death of Dr. R. V. Jones, for many years Professor of Classics at Acadia University. He passed away on Thursday last, and the funeral service took place from his residence on Sunday afternoon.

The service was conducted by Pastor Harkness assisted by Drs. Cullen, De Wolfe and Dixon. The students attended and marched in a body to the cemetery headed by Professors of the University.

Robert Vaughn Jones was a native of Prince Edward Island. He came to Acadia and graduated in 1860 in a brilliant class of 14 members. Included in the number were such noted men as Dr. Silas Alward, Alfred H. DeMille, Chas. F. Hart, Theodore H. Rand, James E. Wells, William N. Wickwire, John Y. Payzant, D. C. L. John Y. Payzant, Esq., of Halifax, was the only member of the class to attend the funeral. Dr. Silas Alward, of St. John, is the only other living member of the class.

A further sketch of his life, works and family will appear in a subsequent issue.

The schooner "Saint Maurice" sailed on Tuesday from Kingsport with a full load of potatoes for Cuba. She was loaded by Howard Bligh & Sons, Ltd.

PREMIER BORDEN FOR KINGS CO.

The daily papers of the Upper Provinces have made public the statement that Right Hon. R. L. Borden has been offered a nomination for his native County, Kings.

There would seem to be especial reasons why he should be selected as a candidate at this time. The strenuous duties devolving upon him in the matters of government and carrying on the war successfully for Canada, more than occupies his time. When added to this is the time required and attention necessary to look after all the details of business calling for attention from a representative of a constituency like Halifax through which flows the trade of a whole continent, the premiers duties are too heavy for the energies of an ordinary man. The representation of a county like Kings would relieve Sir Robert of a great load of responsibility.

While Halifax City and County, no doubt deserves to be represented by Canada's greatest statesman, yet for the cause of the Empire they should permit him to devote almost his entire energies to developing Canada's share in winning the war. Of all other countries in the Dominion none have such a claim upon him as Kings. Here he was born and educated. Here he comes at intervals to visit his near relatives and care for his large orchard and home-stand property.

Kings County looks with pride upon its honored son and our people would undoubtedly desire to elect him by acclamation, should he signify his willingness to sit as a representative for this County.

KENTVILLE

The wet season seems to have given place to fine weather.

WANTED—A few cords dry hard wood for furnace use, giving description, price, date of delivery, etc. to A. B., Box 513, Kentville.

In the future Rev. A. C. Borden will preach at North Alton twice a month, the first and third Sundays, instead of the third one as in the past. Service in the Hall next Sunday, Nov. 4th, at three o'clock.

Private Douglas Arenburg of the 85th Battalion, arrived home last week. Pte. Arenburg was wounded in the battle of Vimy Ridge last April receiving a shrapnel wound in the head, and his right arm paralyzed from the shock. His many friends wish him a speedy recovery from his wounds.

Mrs. Fred Harris of Bridgetown has been visiting with Mr. and Mrs. W. H. Seaman in Kentville.

A MOST USEFUL GIFT TO KENTVILLE

Mayor Pelton at the last meeting of the Town Council announced that he would present to the town for use in the fire department an auto truck. While not a new one it is one that will be of great service to the town for the conveyance of firemen and the fire apparatus and other purposes. It shows the deep interest our Mayor has in his town and is a gift that our citizens must fully appreciate and may be the means of saving thousands of dollars in any conflagration which may befall us.

OLDE
FIRME

**If You've Shut any
Rooms in Your
House of Life**

If you are only living in parts of the many roomed mansion that was given you to make the most of, you are missing something that makes life fuller and richer for others.

Throw open the doors—install a Heintzman, and you'll realize that music was what you dimly felt was lacking.

For playing, for singing, for artistic appearance, it is as much superior to the average piano as the organ of a great cathedral is superior to the average organ.

Yet it is not expensive in proportion. The seventy years experience of its manufacturers and the fact that they make more pianos by far than any firm in their field leads to large economies in operation.

Perhaps a Heintzman is just what you have been hungering for—you can tell if you come in and see it.

CAN BE HAD
at PARKER'S, Kentville and Canning

Wanted—A reliable man to do general farm work by the month or year. Good wages to the right person. Apply at "ADVERTISER OFFICE." sw 3 ins.

The roll of bills advertised in our last weeks issue was found by an honest person and returned to the owner by a lady of Lakeville.

Mr. Johnson of Ottawa has been in the Maritime Provinces the past week looking into the matter of supply of potatoes, apples, etc., and prices for same. He passed through Kentville on Monday for the western part of the Province. With the great abundance of potatoes in the Dominion with a large quantity for export and an immense quantity for export in the United States it looks as if the present high prices for potatoes would not continue. The mat-

ter of distribution being delayed by train and water routes is keeping the price up.

DEFEAT OF ITALIANS
VERY DISASTROUS

The Austro-Germans claim a great victory over the Italians on the Isonzo frontier. They report 100,000 prisoners together with 700 guns.

The second and third Italian armies are in retreat.

The city of Gorizia, in Italy is again in the hands of the Germans.

The Italians were outnumbered from four to one.

Reports from Rome state that portions of the army surrendered without fighting.

It is a great disaster from any and every standpoint.

PRINCIPAL GRAIN CROPS
 The yield per acre of wheat, barley and flax are higher than those reported in August, and the reduction in the yield of all provinces. The later results appear to indicate that the first estimates, based upon the appearance of the crops in the field, were too high. The total yield of wheat for Canada is now provisionally estimated at 231,730,200 bushels, the average yield per acre being 15 3-4 bushels, as compared with 16 3-4 bushels reported a month ago and with 17 bushels the yield of wheat 1916. Of oats the total yield is 393,570,000 bushels, as compared with 410,211,000 bushels in 1916, the average yield per acre being 29 1-2 bushels in 1917 as compared with 37.30 bushels in 1916. Barley yields 51,684,000 bushels, as compared with 42,470,000 bushels in 1916, the average per acre being 21 1-2 bushels as compared with 23.72 bushels in 1916. The yield of rye is 4,239,800 bushels, which is slightly more than quantity returned a month ago; the yield per acre is 20 bushels as against 19.3 bushels in 1916. For the three prairie provinces the yields are as follows: Wheat 209,784,200 bushels, oats 237,925,000, rye 2,534,000 bushels, barley 36,727,000 bushels, flaxseed 6,747,000 bushels. The total yields of the remaining grain crops, now reported for the first time this year, are as follows: Peas 2,786,600 bushels from 151,030 acres, an average of 18 1-2 per acre; beans 635,700 bushels from 43,000 acres, average 14 3-4 bushels per acre; buckwheat 7,380,000 bushels from 336,400 acres or 12 1-4 bushels per acre; mixed grains 15,741,000 bushels from 469,140 acres, 33 1-2 bushels per acre and corn for husking 6,193,000 bushels from 173,600 acres, an average of 35 3-4 bushels per acre.

SHORT CUTS IN HOUSEKEEPING
 Clean aluminum ware with a cloth dipped in lemon juice.
 The only hopeless sorrow is the one that shuts itself up in self.
 Discoloring on teacups disappear under vinegar and salt treatment.
 Rankness may or may not be a virtue. Much depends on the spirit back of it.
 If you want to cool a dish of food quickly, set it in a pan of cold salt water.
 The worst thing about an excuse is that we deceive ourselves when we make it.
 Remember that entire failure is not possible when one honestly tries to do her best.
 Tell your friend at the seashore to bring you a round, hard clam shell for a pot scraper.
 Fruit gathered just after a rain falls more slowly than that gathered on a bright, dry day.
 It is often quite a consolation to remember that those who work for money alone get only what they work for.
 It pays to keep the kitchen cupboards and drawers neat day by day. They should never need a thorough cleaning out.
 Has the fire gotten down to coals and you want a pressing iron quickly? Set a stove lid on the coals and the iron on that.
 The method of putting up cabbage by fermentation has a number of advantages over the present process of making sauerkraut.
 Each day put a fresh slice of bread (removing the stale one) in the cake box. The bread will dry and the cake remain fresh.
 An empty lard pail of the right size, turned upside down on the closet shelf, makes a good hat rack, keeping both crown and rim in shape.
 To make buttonholes on lace put tiny squares of lawn underneath and work through it. When the buttonholes are finished cut the lawn away.
 If filling is needed for couch or hammock pillows, cut cotton batting into small squares and stuff to twice their size by putting in a warm oven for half an hour. Be careful not to scorch.
 If dried fruit has become wormy but is not hurt, put in kettle, cover with boiling water for a few minutes then pour off water and dry fruit.

CONDITION OF FODDER CROPS
 Correspondents were asked to report on the quality of the grain crops at the time of harvest, as measured against a standard of 100, representing grain well headed, well filled well sowed and unaffected to any appreciable extent by frost, rust, smut, etc. The average results for the whole of Canada are as follows: Fall wheat 76, spring wheat 72, all wheat 73, oats 74, barley 75, rye 79, peas 69, beans 71, buckwheat 65, mixed grains 79, flax 67 corn for husking 67. The figures are generally high for Ontario wheat being 80 oats 82 and barley 89. In Quebec wheat is 87 and oats 78. In the Prairie Provinces wheat is 75 in Manitoba 70 in Saskatchewan and 75 in Alberta. Oats are 62 in Manitoba, 57 in Saskatchewan and 56 in Alberta.

CONDITION OF OOT FODDER CROPS
 The condition of root and fodder crops, measured against a standard of 100 as representing a full crop, was, on September 30 as follows: potatoes 64, turnips 72, mangolds, carrots etc. 77, sugar beets 76, corn for fodder 72 and alfalfa 81. The condition of the potato crop by provinces was on Sept. 30 as follows: Prince Edward Island 81, Nova Scotia 77, New Brunswick 57, Quebec 47, Ontario 81, Manitoba 69, Saskatchewan 71, Alberta 89 and British Columbia 70.

- MAJOR HUDGINS Son of Mrs Helen Hudgins Killed in action June, 1917.
- HE SEIZED THE TICKETS LONDON, Opinion: A German captain of Engineers has related how he once sent a green corporal and three men back with instructions to put a railroad station completely out of commission so that it could by no possible means be of use to the enemy. The corporal rejoined command in a surprisingly short time, considering the nature of his task. The captain asked if he had carried out his instructions. "Ja Wohl, Herr Hauptmann," said the corporal, "the Russians will never be able to use that station again. You see," pointing to a large sack on his back, "I have carried away all the tickets."

Synops of Canadian North-West Land Regulations.

THE sole head of a family, or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take expurchased homestead in certain district. Price \$3.00 per acre. Duties—Must reside six months of three years, cultivate 50 acres an acre a house worth \$300.

The acres of cultivation is subject to reduction in case of rough, shrubby or any land. Live stock may be substituted for cultivation under certain conditions.

W. W. COREY, C. M. G.,
Deputy of the Minister of the Interior

Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to get what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

C. O. COOK & SON,
Waterville

Farmer's LOOK HERE!

It is a positive fact that there will be a great advance in having machinery before July 1st. We sell the famous Frost and Wood Mower with 3 1/2, 4, 4 1/2, 5 and 6 feet cutting bar, also the Tiger Self Dumping Rakes, 8, 9, and 10 feet wide, which any boy who can drive a horse can operate. Hay Tedders and Loaders. We have a limited number of Cultivators and weedeis. So place your orders early and Save Money. Extra repair parts always on hand.

THE HEN'S MOULTING PERIOD SHOWS HER UTILITY

Each year the hen goes through a physiological process known as moulting, in which the fowl sheds the old feathers and replaces them with new. This is a very serious drain on the vitality of the laying hen. Usually they cease laying entirely during the months of October November and December. Where the late and early winter usually furnish cold weather, it is a period of extreme hardship for farm poultry unless they are properly taken care of. The New York State College of Agriculture has made some interesting findings regarding the moulting period of fowls. This may be summarized as follows:

- 1—The hen feathers more quickly in those areas which protect the vital parts.
- 2—From the incubator to the laying period, chicks experience at least four moultings, either partially or completely.
- 3—Hens frequently lay during the summer while partially moulting but seldom during the general moulting.
- 4—Young hens moult more quickly than older ones.
- 5—Hens moulting very late moult in less time than those moulting earlier.
- 6—Hens moulting very late give a higher yearly production than those moulting earlier.
- 7—Hens lose in weight while moulting.
- 8—Broodiness appears to retard moulting.
- 9—Starving the hens appears to increase broodiness.
- 10—Hens moulting early resume production more quickly after moulting than those moulting later.
- 11—Hens moulting early lay more eggs during early winter than hens moulting late.
- 12—The most prolific hens moult the latest.

It is thus seen that hens which moult late are usually the heavy producers. There is a lesson in this for every poultry keeper. Take proper care of the hens that moult late because of the cold weather. Such hens make excellent breeders in the spring and should be properly cared for. This can be done by putting them into the house early and not allowing them to suffer from the cold winds.

The shedding of feathers is a heavy drain on the constitution of the fowl because it is necessary to manufacture a new coat. The making of new feathers can be greatly aided by feeding highly protein or meat foods. The ordinary grains like wheat, corn and oats do not contain enough protein. Most scraps from the house or commercial beef scraps are necessary if best results are to be obtained. If a fowl is thoroughly chilled and thereby weakened by late moulting during cold weather, she will find it difficult to recuperate until the late winter or early spring. By giving her extra care she can

POULTRY HOUSE DISINFECTION

The principal factor of eradication of poultry diseases is the adoption of proper sanitary measures at the outset. Infectious disorders will recur no matter how wisely treated, unless such treatment is supplemented by the liberal use of efficient disinfectants. Disinfection is the one basic principle upon which rests freedom from disease and prevention must occupy the foremost place if headway is to be gained.

The Proper Method of disinfecting fowl houses is as follows:

Remove all litter from the floor and nesting places and burn as near the building as convenient to avoid contamination of the surrounding soil. If possible remove nests, roosts, and other portable fixtures and place in the sunlight. Empty all hoppers, feed bins, etc., of dry mash and other grains and discard grit or scald with boiling water before using a second time. Scald all utensils, pans, etc., if cotton froths are used, these should be removed and either washed thoroughly or scalded with boiling water. The windows should be taken out and washed with warm water and soap, the frames being well scrubbed with a hard brush. If straw lofts are used, the straw should be removed and burned with the litter. The inside should then be thoroughly swept down to remove cobwebs, dust accumulations, etc., or if possible, flushed out with a good hose. All accumulations of hard droppings should be loosened by softening with water and then scrapped clean with a hoe or other sharp instrument. Disinfection may be commenced. Mix fifty pounds of unslaked or quicklime in a barrel of water and add to this one gallon of good commercial disinfectant. If a smaller amount is required it may be made by adding two and one-half pounds of quicklime to a pail of water plus half a teaspoonful of disinfectant. Be sure that the lime is not slaked by exposure to the air as all its disinfecting power is thereby lost. The easiest method of applying the lime-wash is by means of a spray-pump which can be purchased at a reasonable cost and can be used to advantage in other buildings. Before using the lime solution it is advisable to strain it through a fairly fine sieve or cheese cloth as the filter is liable to become clogged. In the absence of a spray pump, a whitewash brush may be used although it is difficult to fill the cracks and crevices without a stream to drive in the solution. These cracks as breeding places for mites, lice, etc., and should be given careful attention. Where an infectious disease, such as tuberculosis, has been present, it is wise to spray the interior at least twice with an interval of one week between each application. Otherwise one good treatment will be sufficient. The runs, if not too large, should be covered with a thin coating of air-slaked lime and when spaded or plough-

Gillette Safety Razor

He'll Appreciate Your Good Judgment As Well As Your Good Will

If for Christmas, 1917, you send him a Gillette Safety Razor! That is the gift that is valued Overseas for itself as well as for the sake of the sender. Few articles of personal equipment are so welcome, for the Gillette is known up and down the Allied lines, by Canadian, British and Anzac, Frenchman, Italian and American, as the one sure passport to a clean and enjoyable shave.

Even if he has already had one, the man in whom your hopes centre will be glad to get another Gillette Safety Razor. For under active service conditions, equipment so sought after as the Gillette strays easily and often, and he may now be trying to worry along again without one. So whatever else your box may contain, don't forget a GILLETTE SAFETY RAZOR—and a good supply of blades.

If you prefer, we will take your order, through your dealer or direct, and deliver the razor of your choice from our nearest depot Overseas. Ask your dealer about this when he shows you his Gillette assortment.

Standard Sets and "Bulldogs" cost \$5.00—Pocket Editions \$5.00 to \$6.00—Combination Sets \$6.50 up—at Drug, Jewelry and Hardware Stores.

Mails are congested—shipments slow. Send his Gillette early!

Forward Money Without Delay to THE ADVERTISER--Kentville, N. S.

to discharge that duty to the uttermost. The interests of the Dominion are paramount at this time. Co-operation with a union government does not require a liberal to leave his party or a conservative to leave his. In these circumstances and for these purposes this paper believes that the liberal party of Nova Scotia should give its co-operation to the new government. We believe further that the liberal party of this province should accept the invitation of Sir Robert Borden to name representative of that party to sit in the cabinet at Ottawa, and, by so doing further strengthen the claim of the new government to be in name and fact a union government."

SEVIGNY BLAMES LAURIER

Says Liberal Leader Responsible for Trouble in Quebec

Quebec, Sunday—In an interview, Hon. Albert Seigny, Minister of Interior Revenue, affirmed that Sir Wilfrid Laurier committed a crime in refusing to unite the two great races that live in Canada. By his attitude and that of his members, who wanted to save their skin and not their honor, the French-Canadians, who were a brave people had been made to appear a race of cowards. If Laurier had accepted union there would have been a prompt settlement of the Ontario and Manitoba difficulties.

"Instead of rising to the height of the situation," said Mr. Seigny, "Sir Wilfrid Laurier gave the weight of his prestige and his influence to the Montreal dynamiters, to the Quebec wind-owashers and to the opportunists of this province."

As a result of his attitude the Quebec minister said that Sir Wilfrid now found himself abandoned by the best men of his party and the French Canadian people were humiliated and demoralized.

Mr. Seigny roundly scored the Liberals and the Nationalists in this province for the manner in which they had poisoned public opinion and worked up racial hatred.

MEICAL BOARD AT KENTVILLE

The Travelling Medical Board has
spent two days at Kentville. The first
day they examined about 35 and on
Thursday last they spent a strenuous
day here examining 73 applicants. Many
men who were in attendance were ob-
liged to wait until another day.
The Board is now announced to meet

at the Drill Hall, Kentville, on Nov. 5th,
6th and 7th. Young men desiring exam-
ination should note these dates.

About one half of the persons exam-
ined were placed in Class A as fit for
overseas service. The other half were
divided into Class B, C, and E. Those
in Class E are unfit for military ser-
vice.

HARBORVILLE

I've lived here nigh onto sixty years,
and never knew this old village to be
so worked up over elections as it is
right now.

Talkin in Parker's shop, the other
day, Boyd said he thought we ought to
get McNeil from Halifax, to run in our
County. So I sez to him, well, I suppose
you would just as soon have us people
round here get down to Halifax and buy
our coffee, and sugar and such
like stuff, and he sez he didn't care a
— if we did.

So, I went up and had a talk with the
old fellow on the hill, and after a
while I found him gettin in his hen-
house talkin to an old Rhode Island
hen. I told him what they was talk-
in about in the shop, and asked him
what he thought about it, and he told
me to read the Kentville Chronicle and
find out. But after a while he got mad,
and then how he did talk. Says that
old fellow can talk the hair off a brass
monkey and I was lookin around for
fear the hen house would be afire. He
was some mad. Says he the idee, of
Kings County, now as I see it, a king is
at the top of the heap, so Kings Coun-
ty must be the county of Nova Scotia,
going down to Halifax, to dig up a man
to run for Parliament! What's the mat-
ter with A. E. McMahon, Tom Morse,
W. H. Chase, Arch Pelton, A. E. Ad-
ams, Sam Chute, A. E. Calkin, George
Graham, Bruce Woodworth, Chp Par-
ker, and a thousand more?

I told him, I didn't see anything
wrong with them excepting that per-
haps they didn't have a barrel. I don't
know just what that means, but I saw
it in a paper once that a candidate had
a "barrel." Well, if it's apples or per-
taters, we ain't got any candidates in
our county that would have one because
Wallace Ogilvie and Ben Beanson and
Sam Chute and Edson Wood is shipping
them all out of the county.

But I could see that the old man
was a little mad. In his
mind, and after I got him little
madder, he told me that the best man
we could get right now would be Dr.
McNally. That kind a took my breath
away, because I never thought the doc-
tor would mix up with that kind of
people, but now when I come to think
about it, he would make a darn good
man. He's got the brains, and he was
mayor of a city two times, and he's never
been swell headed, and thought he
was the whole thing, so now when we
are all Unionists, whatever that is, why
won't he be a good man? I'm for him!

Instead of putting in all our time
talkin politics, and cutting each others
throats, we could let McNally pack his
carpet bag and go to Ottawa, while we
put in our time gettin in our crops,
helpin the women get in the winter's
wood, and getting them sleds on the
Berwick road cut down so that when
winter gets here we could get the mail
over from Berwick.

It makes me feel good all over to
think I don't live on that road,
because it will be some fun to get
out and shovel the roads this winter.
I was talkin to our county councillor
Monday and he says that the thieves
aint all shut up in Dorchester yet, so I
sees why, and he says this Thursday
he dug six bushels pertaters, and
dug them up, and then had to go on
to the shore and load pertaters, and
when he got back to his pertater patch,
some cuss had took away two bags.
I told him he oughter be darn glad he
was decent enough not to take em all.
He sez he wouldn't mind, but them
was particular fine pertaters that he sold
to the manager of the Bank at Berwick.

Now sez that something? If I bought
pertaters from Ben, he would shovel
them out just as they come, but when
its the bank manager, he picks em out
so they be particularly fine. There
seems to be something in being man-
ager of a bank, besides the wages.

The rain storm we had, Sunday night
done a whole lot of things to us round
here. Ed Curry's bridge was buried, and
Ben Beanson's empty lavers come near
going down into the beach. As it was,
the mast of his back yard, including the
trees, now repose on the beach, and
that's where his old taven is going
some day.

Ben Beanson, sez that he is buy-
in all the pertaters he can get to
ship to Cuba, because the niggers down
there need them. So he sez, that if the
fellow that stole those two bags out of
his field will bring them down the shore,
he will pay 1.25 a bushel for them,
less them without inspection because
he knows they are AI for he picked them
out for the bank manager at Berwick,
and he wont ask the fellow how he got
em either.

I got to thinkin this election business

The Annual Meeting of the Kings County Liberal Conservative Association

will be held at Court House,
Kentville, on Saturday,
Nov 3rd, 1917 at 1 o'clock

Reports of Officers and Commit-
tees will be received and new
officers appointed or
**Formation of a Union Gov-
ernment Association
Considered**

All supporters of the Lib Conserva-
tive party are invited to attend.

deen Street. SW 41

last night, and so this morning, I went
up to see the old fellow on the hill, he
was ugly, because he had to get out
and dig some more pertaters in the mud,
and when I talked about the election,
he sez, you don't see old fossil (what-
ever that means) you wouldn't know pol-
itics if they hit you in the head, but
I sez, what is the matter with Barclay
Webster, for Ottawa, and sez he, your
more of a fool than I thought you was.
Here we've just got him made County
Judge. He's a "Gentleman, a Scholar
and a —" Then he stopped, he was
going to say something else, but didn't.
Sez he the Judge will make a judge
that Kings county will be proud of,
and now you want to drag him through
a mire or dirty politics or something
like that. I can't make that old fellow
out. His crazy same his hens.

They tell me this morning, that the
big rain we have just had, has made
the alders grow six feet on the Berwick
road, and many one of them cut yet.
Tom Morse's hired man started to drive
a cow over to him in Berwick so he
could have milk to home and he got
lost in the alders, and never got through
till the last of the week.

We tried to get the government to
dredge out the bar in our harbor so
that Baleon's steamers could by here
and get the rest of our pertaters for
the niggers down in Cuba. The Govern-
ment never heard us, but the BIG
RAIN did, and cleaned out the bar.

MEETING OF THE KINGS COUNTY TEMPERANCE ALLIANCE

A meeting of the Kings County Tem-
perance Alliance will be held in For-
vester's Hall, Berwick, on Tuesday Nov.
6th at one o'clock, to consider the sit-
uation regarding the coming election.
Meeting of the Executive at 11.30.
A full attendance is requested.

By Order of Executive,
S. V. SANFORD, Secy.

Protect your trees from Leaf Eating
Pests by banding them with Tree Tangle
Foot. We have 10 and 25 pound pails.

APPLICATIONS FOR EXEMPTION

At the Kentville Post Office up to the
end of last week there had been 68 pa-
pers filled out for exemption and six
only applying for enlistment. This is
less than ten per cent enlisting.

Some persons are claiming that boys
asking for exemption are showing the
white feather. This is not correct. They
are merely asking for exemption so that
the Exemption Board may decide whether
they are needed the most at home
at production or in overseas service.

FOR YOUR CAR

It is not Economical to eco-
nomize on Lubricants
You more than pay for what you might
save on lubricating oil in increased cost
of overhauling and in the shortened ser-
vice life of your motor.

TIOLENE is the most trust-
worthy and hence
the most economical
lubricant to use.
