

NOVA SCOTIA CROP PROSPECTS

Returning from a brief business trip through the Western Counties, the Secretary for Agriculture states that whatever the rest of Nova Scotia may do the Annapolis Valley is going in for big production this year.

It is too early to make predictions regarding the apple crop, although conditions are so far very favorable. As an indication of farming intentions along other lines, however, the secretary states that he is informed by those who know that the shipment of fertilizer into that district is 50 per cent. In excess of last year's at the corresponding date. There is no more reliable criterion of the possible production next fall than the amount of fertilizers purchased.

Conditions in other parts of the Province are more difficult to sum up. Activity in the purchase of seeds and fertilizers, however, has become much greater than was anticipated a month or more ago.

As to crop and market prospects, there are certain factors which should be kept in mind by Nova Scotia farmers. Recent reports indicate failure in the Southern States potato crop. The large potato-growing districts of New Brunswick and other parts of Canada have already determined to reduce their acreage. These facts would seem to afford good reason for Nova Scotia farmers planting at least the usual amount of this crop.

With respect to grain, it is hardly necessary to state that whatever the Western harvest may be, transportation rates are so high that imported grain feeds are sure to remain on a pretty high level. The wise policy is to produce all possible grain and other foods.

THE ENHANCING DOLLAR

Time was, not so long ago either, when the dollar was looked upon almost with contempt. Measured in the copper coin of 1914 as worth one hundred cents, its purchasing power began to drop in 1917 until every husband and housewife grew accustomed to receiving about 45 cents' worth of value in exchange for one attenuated dollar. It took just twice as many dollars to make the family purchases as it required in ante-bellum days.

Now, however the dollar is beginning to climb toward its old pinnacle of value, according to all reports. Slowly, uncertainly, the dollar ascends like the climbing mercury in a thermometer, while the public watches the performance hopefully, eager to lend a boosting hand, if necessary.

For instance, your dollar is worth 80 cents today when you buy a suit of clothes and 90 when you buy groceries. Its purchasing value is 80 cents for meats, and in all other lines.

The rising money value furnishes kind Nature's compensation for a falling national income. Deflated industries do result in bigger dollars. There is a shifting but not catastrophe.—Ex.

A Woman's Health Needs Great Care

When the Blood Becomes Watery a Breakdown Follows

Every woman's health is dependent upon the condition of her blood. How many women suffer with headache, pain in the back, poor appetite, weak digestion, a constant feeling of weariness, palpitation of the heart, shortness of breath, pallor and nervousness? Of course all these symptoms may not be present—the more there are the worse the condition of the blood, and the more necessary that you should begin to enrich it without delay. Dr. Williams' Pink Pills are a splendid blood-building tonic. Every dose helps to make better blood which goes to every part of the body and brings new health to weak, despondent people. Dr. Williams' Pink Pills are valuable to all women but they are particularly useful to girls of school age who become pale, languid and nervous. There can be neither health nor beauty without red blood which gives brightness to the eyes and color to the cheeks and lips. Dr. Williams' Pink Pills build up the blood as is shown by the experience of Mrs. Jos. E. Veniotte, West Northfield, N. S., who says: "For several years I was in a bad state of health. I was pale and nervous, my appetite was poor, and I suffered from weakness, headaches and a feeling of oppression. I got so nervous that I was afraid to stay in the house alone. All this time I was taking medicine, but it only did not help me, but I was growing weaker. Finally I decided to try Dr. Williams' Pink Pills, and after using six boxes I felt much better. I had a better appetite, slept better and felt stronger. However, I continued taking the pills for a couple of months longer and now I am feeling as well as ever I did. I give all the credit to Dr. Williams' Pink Pills, and hope that my experience may be of benefit to some other weak woman."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

When a man realizes that he is a great man, his greatness begins to diminish.

A counter irritant is a woman who shops all day and doesn't buy anything.

Ask for Minard's and take no other.

Phone 217 WOLFVILLE, NOVA SCOTIA P. O. Box 462

**FOREIGN BASIC SLAG**

The United Fruit Companies ask why we have not seen fit to answer their challenge as to the Citrate Soluble Phosphoric Acid Content of our Slag. In reply we ask why the United Fruit Companies should endeavour to fool the farmer by referring to a test which is now discredited. To settle the matter once for all, we suggest that any farmer who is interested should refer to the Fertilizers Act as assented to on the 6th June, 1919, and find if there is any reference whatever therein to Citrate Soluble Phosphoric Acid.

With regard to Fineness, why do The United Fruit Companies carefully evade this point? The answer is because they are vending an article which is much inferior in this respect to the Canadian product. Their guarantee is 75% as against ours of 85%. While this is our last word in the controversy, we would just ask farmers to compare the results got from this Foreign Slag and the Canadian product, and consider if it was worth their while to pay a price so much in excess of what they could have been supplied at home for.

**EXACTING CARE OF SPARK PLUGS**

No Expert Knowledge Required  
These Simple Rules Are Followed

A good, hot spark eliminates a multitude of ills to which the motor car's power plant is heir. To explode the mixture of gasoline vapor and air inside the cylinder each time the piston comes to the head of the compression stroke, a spark of sufficient intensity must be made to jump across the gap of the spark plug at exactly the correct time. No expert knowledge is required to insure this if the following of simple rules covering the care and adjustment of spark plugs is observed.

Whether the insulation of the plug be of porcelain or mica, it must be kept free from carbon and from the little checks and cracks that often develop. The carbon may be wiped off with a piece of waste, or it may be scraped off with a knife blade if it is too hard to remove by wiping. Neither emery cloth nor sandpaper should be used for this purpose, because they cut through the glaze and make a rough surface for the accumulation of more carbon.

After cleaning the insulator, the next most important thing is the correct spacing of the spark plug points to provide the gap for the spark to jump across. For the average motor and ignition system this space should be approximately .025 of an inch. If less than this the engine is likely to miss when running light or idle. If more the engine will miss when pulling hard.

Often drivers use a worn ten-cent piece for this spacing, but such coins vary in thickness, and a few of them are thin enough to give the proper spacing for perfect ignition.

After the plug has been screwed into the engine, the bushing which holds the insulation of the plugs should not be tightened. Nor should a pair of pliers be applied to the binding post of the plug. Either of these operations is likely to alter the spark gap spacing, and this will certainly give trouble. Because the plug has just been cleaned and adjusted, the average new car owner will be baffled as to the cause of the trouble.

Dirty spark plugs probably cause more missing or skipping of the engine than any other single thing, so the motor novice should bear in mind these simple pointers on the plug.

**DISCONCERTING**

The engine had just been "thoroughly overhauled," and the driver—who "didn't know a lot about her innards"—had driven the lorry out of the garage for about a hundred yards. Then she stopped, and the driver after a hurried inspection, ran back to the repair man.

"Are you sure she's all right?" he asked breathlessly.

"Of course, she's all right," said the mechanic. "When I do a job it's done."

"I don't pretend to know much about it," said the un-mechanical driver; "but there seems to be something wrong."

"Wrong!" exclaimed the repair man indignantly—"What's wrong?"

"Well," said the driver, "there's oil pouring out of the carbureter, water out of the pump, and the bloomin' radiator's on fire! I'm pretty sure there's something not quite as it should be."—The Commercial Motor.

Famous words of famous mothers, "You've got to practise your music lesson now."

When those long skirts, now in style in Paris, reach this country a man will begin again to note the color of a girl's eyes when he's introduced.

**COLORED LIGHTS TO INDICATE CAR SPEED**

Automobile Invention That Would Kill Joy-Riding

A speed indicator for motor vehicles to be seen and read by all men at a glance and that registers speed by the flash of colored lights, is the recent invention of Col. Charles Gore, of Los Angeles.

The mechanism, according to description in The Scientific American, is enclosed in a metal box to be fastened to the front of the radiator, in the box or case are three large eyes, white, green and red respectively. A regular speedometer cable connects the mechanism with the front wheels of the car, and when it begins to move the white light burns automatically.

This continues until the rate of travel passes the limit of the city ordinance, when the green light comes on, showing that the country rate is being used. If the driver exceeds that the red light flashes its signal of danger to all within seeing distance. Since the mechanism cannot be manipulated from within the car, it is impossible for the motorist to falsify his speed.

These lights lock automatically, hence, if a driver breaks the city law for only a few minutes the green light will continue to burn after he has slowed down to the white range. By this means a traffic officer or any observer outside the car can tell by a glance what has been the rate of travel.

**POOR PRACTICE TO START TOUR WITHOUT A SPARE**

Why spoil the pleasure of a motor trip by setting off on a trip without a spare tire? With a view to economy many drivers are carrying no spares today but it is a form of economy that does not pay. A spare tire of good quality is one of the absolute essentials for a car; it is the tire you depend on to bring you home.

The spare ought to be covered to protect it from the effects of sunlight and heat says the president of a company. Sunlight has a bad effect on rubber even in the coldest weather for it produces a "cracking" or "checking" on the surface which rapidly extends to the interior, causing deterioration. Heat has an even more destructive effect. Spares sometimes are carried uncovered near the exhaust. This is poor practice if the heat strikes an uncovered tire directly.

An auto top which has been up for a long time is apt to sag a little in the middle. This sag can be taken up by tightening the nuts by which the windshield is fastened to the cowl. Also tighten the connections between the top and the windshield. Tightening the windshield nuts may also eradicate some mysterious squeaks which have been bothering you for some time.

**THE PAPER ENTERPRISES**

The present position of many pulp and paper making companies may represent a sort of poetic justice, but they would not all serve as illustrations of safe and sane business. In order to pay dividends on inflated capitalization they took advantage of a temporary condition to extort high prices on newsprint, with the result that many daily and weekly papers in Canada and the United States were forced out of business. Now many of the pulp and paper companies find that they must adjust their business to a greatly lessened demand, and in some cases the value of their share capital has been greatly reduced. On top of their other troubles they have also in many cases their employees striking against reductions of wages.

**REASONABLE AMOUNT OF CARE ECONOMICAL**

Simple Rules Assist to Lengthen Life of Motor Storage Batteries

Car owners can reduce the large item of expense incurred by battery and ignition deflections if they will follow the simple rules laid down by an authority on the care of storage batteries, as follows:

1—Keep the interior of the battery box clean and dry. Moisture condenses easily in a metal box and if not removed will cause the box to become rusty.

2—Put nothing but the battery in the battery box. The battery should have a free space around it.

3—Keep the battery clean and dry. The top of the battery should be kept free of dirt, dust and moisture. Moisture on top of the battery causes a leakage of current between the terminals of the cells and tends to discharge the battery.

4—Keep vent caps clean. The cap which fits over the filler tube at the centre of the top of each cell is pierced by one or more holes through which gasses formed within the cell may escape. These holes must be kept open, otherwise the pressure of the gases may blow off the top of the cell. If these holes are found to be clogged with dirt they should be cleaned out thoroughly.

There is no "mystery" connected with a storage battery. It is simply constructed and easily kept in order by the exercise of these simple instructions. The following of these rules, enables the motorist to get really reliable service out of a reasonably-priced battery.

Minard's Liniment used by Physicians

**THINGS NEEDED**

There are many other things needed in a car by the driver who is going on a tour. One of these is a set of electric light bulbs of the right voltage and candle power for the particular car. These may be bought in sets boxed at any supply store. At the same time if the car has fuses in the electric system a set of fuses should be carried. A small ball of stout twine is likewise handy.

**THE ACADIAN**

(Established 1883)

Published at Wolfville, N. S., every Friday by

**DAVIDSON BROS., Printers and Publishers**

Members of the Canadian Weekly Newspaper Association.

**Subscription Rates**—In British Empire, in advance, \$2.00 per year. To U. S. A. and other countries \$2.50 per year.

**Advertising Rate Cards** and information respecting territory and samples of paper mailed upon request, or may be seen at the office of any advertising agency recognized by the Canadian Weekly Newspaper Association.

**Advertisers** must have copy in by Tuesday noon in order to insure changes for standing advertisements. New display advertising copy can be accepted one day later.

**Correspondence**—Letters addressed to the Editor and intended for publication must be short and legibly written on one side of the paper only. The longer an article, the shorter its chance of insertion. All communications must bear the name of the writer, not necessarily for publication. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for the opinions expressed by correspondents.

**Editorial Notes**

Fortunately no one was injured as a result of the auto collision in front of the post office on Thursday but it was a close call and such good fortune is not likely to continue if bad driving and disregard for the rules of the road are allowed to continue. THE ACADIAN is not willing to take the responsibility for the bad accident that is likely to occur later, and therefore again calls the attention of the authorities to the lack of control being exercised over traffic on our streets. Some day an action for manslaughter may result if present conditions are allowed to go on.

To a former popular Wolfville girl, Margaret Murray Dodds, of New York City, THE ACADIAN is indebted for a most interesting and informing booklet on "The City Manager Plan". In a private note to the editor Mrs. Dodds says: "Wolfville is exceedingly up-to-date in many matters and I should think this would make a strong appeal as the most efficient form of municipal government." It is refreshing to know that Wolfville's daughters "tho scattered far" still retain a lively interest in the welfare of the old town. It ought to meet with a more general response by those who remain at home.

Acadia Anniversary season is again at hand and the next few days will once more witness the closing exercises of the different institutions of learning which constitute Acadia University. Many old students returning to Wolfville this year will miss with a sense of loss the old College Building fraught with so many pleasant associations. The exercises this year promise to be of exceptional interest and with good weather a very pleasant and profitable time is anticipated. THE ACADIAN extends a cordial welcome and citizens will do all in their power to make the stay of the visitors pleasant.

The garden plot and lawn at the railway grounds, which has sometimes been a credit and real ornament to the town, still presents a somewhat neglected appearance. We are not advised whether the responsibility for the care of this property rests with the railway or some local organization. At any rate the town is interested in its appearance and ought to be sufficiently so to see that a move was made towards making it the beauty spot which it might easily again become.

Evidently the only method that will give us clean and tidy streets is that followed some years ago when a boy with a cart paraded Main street each morning and gathered up the refuse of the day before. The scraps of paper and other materials with the street and sidewalks are littered every morning give them a very untidy appearance and is not a good advertisement for the town. THE ACADIAN is not an advocate of the lavish expenditure of public money but we believe the expense necessitated in keeping our town attractive would prove a wise one.

**A SATISFIED CUSTOMER**

One of the numerous patrons of THE ACADIAN's monotype service, under recent date, says: "We should have acknowledged the receipt of work done by your monotype before this as well as told you how satisfactory your work was. We enclose cheque in payment of account, and now we want you to send us some more type". Other customers may be assured similar experience. Get your order in early.

On Friday evening last, at the Opera House, the Varsity Troupe, of King's College, Windsor, presented the comedy drama "Mrs. Temple's Telegram" to a large audience of townspeople and students who enjoyed a first-class performance. The Varsity Players is one of the best amateur companies that ever visited Wolfville. The characters in this clean-cut crisp comedy were well represented in all three acts. The specialties featured some of the best jokes and song hits of the season. The piano and violin renditions were particularly good.

**CARD OF THANKS**

Dear Editor:—Please allow us through your paper to thank our many friends for their loving sympathy and kind acts, in the time of our greatest sorrow. We wish to thank those who so kindly gave the use of cars, those who supplied music, those who gave beautiful flowers, those of our own household who left nothing undone that loving hearts and hands could do.

Mrs. J. W. VAUGHN  
W. A. VAUGHN

**Buildings For Sale**

Tenders for the purchase of the House and building in the rear, situated on Main street opposite the Residence of Johnson H. Bishop, will be received by the undersigned up to May 24th instant. Buildings to be removed not later than the 30th of June.

The Committee does not bind itself to accept the highest or any tender.  
A. COHON,  
Sec'y. Executive Committee,  
Governors of Acadia University.

**SUMMER SERVICE ON THE YARMOUTH LINE**

The two trip schedule will continue until June 3rd, and commencing June 7th there will be four trips per week—Leave Yarmouth on Tuesdays, Wednesdays, Fridays and Saturdays: Return from Boston on Mondays, Tuesdays, Thursdays and Fridays. The full summer service will become effective on July 3, with six round trips weekly: Leave Yarmouth daily except Sunday, and return from Boston daily except Saturday. Steamships PRINCE ARTHUR and PRINCE GEORGE will perform the service. Present indications are such that there will be heavy travel to the Provinces this summer, as shown by the number of bookings at the present time.

The large pulp mills which have been under construction at Bear River, N. S., for the past two years, were opened Saturday when they turned out their first cocks of pulp.

**Notice to Ratepayers**

An enormous impression appears to be on the minds of ratepayers in this county that the taxes on their property are not due and cannot be collected until after Dec. 1st.

Such an idea has undoubtedly been got from the instructions given to collectors to issue warrants for unpaid taxes at the above date.

But for the information of the ratepayers, I may say that the taxes are due when the first notice of amount due is given by the collectors, and any further time given for payment is a matter of arrangement between the ratepayers and collectors.

By order,  
C. L. DODGE,  
Mun. Clerk and Treas.

**CENSUS FIGURES BY END OF JUNE**

**Precise Instructions Given to Enumerators.**  
(Toronto Globe.)

Ottawa, May 1.—"The census must be taken and all the returns be made to the office in Ottawa before the end of the month of June, or within a time to be fixed in special instructions to each commissioner." This sentence occurs in the special letter of instructions sent to each of the 235 census commissioners appointed to preside over the taking of the census in each constituency. Most precise instructions are given in this little pamphlet as to means of taking the census by the enumerators for each census sub-district, the exact information to be sought, and so on. It is to be the most elaborate census ever taken in Canada, as it includes a census of the wealth of Canada and of every living domestic animal of economic value, as well as of every person.

**MIDNIGHT MAY 31 IS DEADLINE.**

The decisive hour of reckoning is midnight on the night of May 31, or the moment when that day passes over into June 1, 1921. An infant born one hour before midnight would be included in the census figures, but one born one minute after would have to wait for the 1931 census before being included. A death just before midnight, on May 31 would lessen the total population of Canada by one. If that death happened just after midnight it would not be noticed by the enumerators, because the census is to show the exact number living at midnight on the day mentioned.

Each enumerator has secrecy enjoined upon him as to information obtained. He is expected to keep inviolate every bit of information given him, and the same secrecy is enjoined on the Commissioners. The Statistical Department will not even give the income tax branch information as to earnings of various persons tabulated. Only the total figures resulting from the particular information given will be published or divulged, but heavy penalties are provided for every person giving false information or refusing to give information asked for.

**35 QUESTIONS.**

There are 35 questions to be answered by or for every person in Canada, and if he is a farmer, or a manufacturer or trader, or keeps hens, bees, pigs, horses or cows in city or country, he will have to answer a host more. The most intimate information is asked, from the time, place or birth and language and religion of the parents, to all the details of his own life and his children's lives and his wife's. Therefore this insistence on secrecy is necessary, and also the penalties.

A list of 44 principle languages spoken in Canada are given for the information of the enumerators to help them understand answers and be correct. On farming statistics, if correct replies are given the Statistics Department will be able to show exactly what is being done in every district, how much abandoned land there is tilled, and how much could be tilled, and how well the farmers did out of their respective acreages.

**SUITS \$15.12—NOT HERE**

A tailor-made suit of the finest blue serge for \$15.12 reminds the ordinary mortal of the good old days when the name profiteer was scarcely known in these parts. But the above amount is what it actually cost for 800 or more suits last week. Of course it was not in Digby the transaction took place. It was in Montreal. The civic heads purchased the finest of blue serge themselves to make suits for its policemen. They then called for tenders for the making of the suits, and when they were delivered—everything guaranteed and finally approved of—each suit cost the city \$15.12! A similar suit in these parts could not be procured for less than \$50, or \$55. And everybody wonders why?—Digby Courier.

A story is going round about a man in St. Louis who wrote a will in which he named six bankers to be his pall-bearers. "They have carried me for twenty years," he explained, "and they might as well finish the job."

Those fussy persons who object to short skirts overlook how handy they are when a woman has to get at her money. —Guelph Herald.

**THE FIGHT FOR BETTER HEALTH**

It has been said that humanity makes its greatest advances after what seem to be narrow escapes from catastrophe. Be that as it may, it appears that the next great advance—and one of the greatest forward movements of the time, will be in the realm of personal hygiene, home hygiene and public health, three fields to which the Red Cross proposes to devote its energies in fulfilling its peace time programme. There does not seem to be any need for any further crusade for the attainment of political rights. It becomes us to use those we have with more intelligence, justice and unselfishness. A fair measure of general education is now within the reach of all. There is no longer need for fighting for freedom of conscience in religious matters. The manual and skilled workers are on the way to obtain a more nearly equitable proportion of the proceeds of production and to acquire a beneficial say in the management of the industries in and conditions under which they work. And one may very well expect that the League of Nations in the near future will prohibit war. There is still left for humanity the task great—perhaps the most difficult and certainly one of the most worth while in all its tasks—that of winning good health as the birth-right of all, with particular protective care of the mothers and children.

Towards that end the Red Cross calls upon all intelligent men and women to join the Crusade for Good Health, and to join the Red Cross which can do more for the country in peace than it was able to accomplish in war.

Sandy McNab took a sixpenny ticket in a raffle for a pony and trap. He won it. Was he pleased at his good fortune? Not a bit.

When the pony and trap were brought to him he surveyed them gloomily and said:

"I tell ye the whole thing was a swindle."

"What's the matter?" asked his friends.

"Where's the whip?" demanded Sandy.

There are 25,226 Canadians in the city of New York.

Keep Minard's Liniment in the house.

**RAILWAY MILEAGE**

According to figures given by Senator Casgrain of Montreal in a recent speech, the number of miles of railway in each province with the number of people per mile are as follows:

Province.	Miles of railway.	Population per mile.
Ontario	11,000	260
Quebec	4,792	420
Manitoba	4,168	133
Saskatchewan	6,162	105
Alberta	4,273	116
British Columbia	4,227	106
New Brunswick	1,959	180
Nova Scotia	1,428	367
P. E. I.	279	336

**When Baby is Sick**

When the baby is sick—when he is cross and peevish; cries a great deal and is a constant worry to the mother—he needs Baby's Own Tablets. The Tablets are an ideal medicine for little ones. They are a gentle but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation and indigestion, break up colds and simple fevers and make teething easy. Concerning them Mrs. Philippe Payen, St. Flavien, Que., writes: "Baby's Own Tablets have been a wonderful help to me in the case of my baby and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The medical men in charge of a hospital used this test in determining the state of patients. A tap was left running in a bathroom till the tub overflowed, and three were instructed to go in and dry the floor. The first worked faithfully with cloth and pail without success; the second was found on his knees in the water frantically trying with a wrench to disconnect the pipe; the third calmly regulated the supply with the tap placed there for the purpose. He was pronounced sane.

An income tax form was returned recently with the following remark: "Sir, I belong to the Foresters and don't wish to join the Income Tax."

**MAN'S WORST ENEMY**

It is said that "the first law of nature is self-preservation". Every man will fight for his life. But another instinct equally strong is that of self-perpetuation. Not only will a man fight to preserve his life, but he also will fight for his wife and children through whom he would perpetuate himself and his race.

We have a horror of decay and death. We like to grow old gracefully, honorably and comfortably. Yet we cannot blink the fact that the decay of the human organism is the great enemy whose advance mankind always is trying to delay. General Decay is assisted most ably by his lieutenants, Dirt and Filth. The dark, dirty and filthy holes are the natural breeding places of cholera, fevers, small-

pox, tuberculosis, and other deadly diseases. It is in such places that epidemics get their start.

What is the answer to this problem? In simple language it is "Clean Up and Stay Clean."

"Banish dust, dirt and disease, and live longer," should be the motto of every citizen.

**"How dear to my heart Are the scenes of my Childhood"**

THE old home where we spent so many happy days—the games we played with dear old father and mother looking on. The old home itself, mellowed with time is still as well preserved as it was in our childhood days. Its preservation is due to the surface protection which only good paint can give.

**A RARE OPPORTUNITY FOR HIGH CLASS ENTERTAINMENT**

**Mt. Allison Players to Present "Strongheart" at the Opera House, Wednesday Night, May 25th.**

The management of the Opera House has been fortunate in securing the "College Players" in their banner production of "Strongheart" for Wednesday night, May 25th. This play is one of Wm. C. DeMille's best—full of life from start to finish. Romance, love and action are blended with unusual skill and furnish a climax which is as unexpected as it is impressive. The four act drama is enlivened throughout by rollicking comedy.

The cast is composed entirely of college students who are especially suited for their respective parts. For years the college play has been a feature of college life at Mount Allison and has resulted in producing players of exceptional ability. The star of the 1921 production is Mr. A. S. Fergusson, who will play the title role of "Strongheart". Mr. Fergusson played most successfully in last season's Shakesperian production, "A Midsummer Night's Dream". He is playing "Strongheart" with rare ability and is especially fitted for the role. Playing opposite Mr. Fergusson and as the feminine lead is Miss Inga Rafuse, graduate in Oratory of Mount Allison. Miss Rafuse is a star of the Mount Allison Ladies' College 1921 production of "As You Like It" and has recently won the admiration of the capacity houses which greeted her. Few parts are better adapted to those that play them than is this one to this most charming and talented young lady. Equally effective is the supporting cast in their respective roles, several of whom were also featured last season.

The cast consists of twenty people and is under the personal direction of Miss Ida M. Leslie, B.L.I., head of the Mount Allison Oratory Department, who has had much experience in staging theatrical productions. The "College Players" are bringing with them special musical effects, featuring, among others, Miss Kathryn Thompson, graduate from the Mount Allison Conservatory of Music in both piano and vocal, and Miss Bernice Stultz, graduate in violin from the same Conservatory.

**FROM THE BUDGET SPEECH**

Ottawa, May 10.—Canada's financial position as shown by the budget speech is briefly as follows:

Revenue collected 1920-21: \$432,000,000.

Total expenditure 1920-21: \$533,368,077.

Present net debt: \$2,350,236,700.

Estimated total expenditures 1921-22: \$591,437,697.

Estimated revenue from present sources: \$372,600,000.

Total revenue to be raised: \$435,360,971.

Amount to be secured by new taxation: \$62,760,971.

Expected increases revenue in sales tax: \$60,000,000.

One New York hotel has 2,300 bath rooms.

Spend a certain time every day thinking how mean you are. It will do you good.

Sold by A. V. Rand.

**IMPORTING FRUITS AND VEGETABLES FROM THE STATES.**

In nine months last year Canada imported \$27,000,000 worth of fresh and preserved fruits from the United States. "Would it not be good business this year to wait for our own strawberries and tomatoes?" says the Southern Press which points out that with very little sacrifice on the part of Canadians as individuals the whole \$27,000,000 (\$30,000,000 of our money) could have been kept in Canada. Sir Henry Drayton, who for months has been urging Canadians to buy goods made and food produced in Canada, said recently at Ottawa: "In the eleven months ending February 1920, we imported from the United States \$707,000,000 worth of goods. In the corresponding period this year we imported \$792,000,000 worth. Do you think it is a good thing to multiply commodities in a falling market? At a time when the Canadian dollars were without 100 per cent. recognition, we nevertheless increased our purchases by \$65,000,000. "Canada is one of the chief agricultural countries in the world. Canada is capable of providing excellent fruits, yet in the nine months ending December 31, 1920, Canada imported \$27,000,000 in fresh and preserved fruits—and these from the most expensive market. "What is the matter with the Canadian apple? During that period we imported 198,000 barrels—our magnificent last year's crop was left largely to rot and waste in the fields. What is wrong with us? "We imported 2,000,000 pounds of strawberries all from the U. S. We get into Canada from the most expensive market, 4,000,000 pounds of out-of-season tomatoes. Last year we got 3,000,000 dozen of eggs from the United States.

**CANADA HAS 5 PER CENT. OF THE WORLD'S POPULATION**

She produces:—

- 90 per cent. of its cobalt.
- 88 per cent. of its asbestos.
- 85 per cent. of its nickel.
- 32 per cent. of its pulpwood.
- 20 per cent. of its lumber.
- 20 per cent. of its cured fish.
- 18 per cent. of its oats.
- 15 per cent. of its potatoes.
- 12 per cent. of its silver.
- 11 per cent. of its wheat.
- 11 per cent. of its barley.
- 4 per cent. of its gold.
- 4 per cent. of its copper.

**IMMODEST ATTIRE.**

To the warnings uttered by the clergy of every denomination from Cardinals and Bishops down, against the demoralizing tendency of the immodest fashions of the present day of feminine attire, are now heard words of wisdom from the Bench. One of the leading American authorities, Judge Arthur Tuttle, of Detroit, has just declared that the modesty of our country's girlhood is crumbling away because of immodest styles. He added: "American morals—the future of our race—are speeding toward destruction, because of a growing delinquency among the country's girlhood, tolerated, yes, fostered, by unsympathetic and careless mothers and fathers. Modern clothes spell ruin for the young women of to-day; fashionable immodesty is the greatest menace to our national life, a disappearing institution—the family fireside—must be revived to save the American girl in her ideal form. As a nation we are losing our home life. The family fireside is a thing of the past, banished by a diversity of interests. It is easily accounted for why the divorce courts are working overtime and white-slavery flourishes. I consider our fashionable immodesty the most sinister influence in all our national life and believe it is pulling many girls from the path of righteousness. For how is it possible for a woman, child though she may be, not to grow calloused to shame when she endures day after day, open and suggestive stares at her gossamer-clad legs, bare knees, bare breast and face painted in a manner that even Jezebel would not have dared? And for these things I say mothers are responsible." These are startling words, and we may well hope that they are not as applicable to Canada as they are to those whom they were addressed.

**Personal Paragraphs**

Mrs. F. C. Churchill is spending a few days with friends in Halifax.

Mr and Mrs. Withrow spent the weekend with relatives in Hants county.

Mrs. H. Troyte-Bullock returned on Friday last from Fredericton, N. B., where she visited her sister who recently arrived from England.

Mr. Morgan J. Tamplin went to Hopewell, Pictou county, on Tuesday, to look after the planting of a farm which he owns at that place.

Mr. H. H. Hamilton, travelling passenger agent of the C. P. R. was in town on Wednesday afternoon and paid THE ACADIAN a pleasant call.

Mr. R. B. Blauvelt went to Yarmouth by the late train last night, having been summoned by the news that his father had suffered a paralytic stroke.

Mrs. Louisa Mason, of Springfield, Annapolis county, came to Wolfville on Wednesday and will visit for a few weeks at the home of her son, Rev. E. S. Mason.

Dr. Clarence Hemmeon, of McGill University, has arrived in Wolfville to spend the holidays at the home of his mother. Many boyhood friends are glad to give him a welcome.

Mr. Rouillon, Principal of the Mechanics Institute, New York City, was an over Sunday visitor in Wolfville. In company with Dr. Cutten he was in Halifax on Saturday, his first visit to that city.

An old resident of Wolfville, Mr. Elias Curry, who has been spending the winter in Boston, returned to Wolfville this week and was gladly welcomed by old friends. Mrs. Curry will return later.

D. G. Whidden left on Wednesday morning for Sherbrook, P. Q., where he will attend the Grand Lodge of the I.O.O.F. of the Province of Quebec, as a representative of the Grand Lodge of the Maritime Provinces.

Mr. and Mrs. W. H. G. Phipps and family left on Saturday morning last for Boston, where they will in future make their home. Numerous friends, who they have made during their sojourn in Wolfville were at the train to see them off and follow them with best wishes for future happiness and prosperity.

**A LONG AND USEFUL LIFE**

There passed away, at his home on May 10th, Daniel Coldwell, the oldest and life-long resident of Newtonville, Kings county, N. S.

Mr. Coldwell was well known to the past generation as an upright and industrious farmer. Born on Aug. 8th, 1834, he was one of six brothers, four of whom lived to be well past eighty, and one, past ninety years of age.

In early manhood he united with the second Horton Baptist church, of which he remained an honorable member, faithfully attending its various services as well as the prayer-meeting in his home village, until prevented by the feebleness of age. His testimonies will long be remembered.

The deceased was married on April 25th, 1860, to Harriet A., daughter of the late Ebenezer Miner, by whom he is survived: and by four of their seven children: Lothrop L. and Mrs. John E. Coldwell, of Newtonville; Mrs. Bennett, of Franklin, Man.; and Mrs. Byroee Coldwell, of Davison Street; fifteen grandchildren, and one brother Samuel R. Coldwell, of Goff's Falls, N. H.

Mr. Coldwell retained his faculties to a remarkable degree, conducting his own business affairs neatly to the last.

His familiar figure will be greatly missed.

The death of Mary, relict of the late Egbert Card, of Gaspereau, took place at her late home on Thursday last week. The deceased, who was in the 58th year of her age, was a highly esteemed lady, active in every good work, and will be greatly missed. She had been in ill-health for the past two years but the end came suddenly. She is survived by a family of twelve children who mourn the loss of a loving mother. The funeral was held on Sunday afternoon and was largely attended, the interment being in the private cemetery at Newtonville. Rev. Mr. Gibson, a former pastor, came from Annapolis to conduct the service and gave a very appreciative address.

The many friends of Mr. W. J. Boates are glad to see that he is able to be back at his post at Wright's Mill after his most unfortunate experience of the past winter and spring. His right hand is of very little use to him as yet but is gradually improving. Mr. Boates has had the sympathy of the public generally in his misfortune and all will hope for him the compensation of future good fortune.

**NOTICE**

Your taxes are now due and you will greatly oblige by paying same at once.

Discount allowed.

H. Y. BISHOP,

Town Clerk.

**AN AVONPORT WEDDING**

On May 12th the home of Mr. and Mrs. William A. Holmes, Avonport, was the scene of a pretty wedding when their youngest daughter Roselena Grace was united in marriage to Mr. James William Watt of Curkygarth, Scotland. At 1.30 p. m., the hour set for the wedding, to the strains of the "Bridal Chorus", rendered by her sister Miss Dolpha Holmes, the bride leaning on the arm of her father entered the parlor and took her place beside the waiting groom, where the ceremony was performed by Rev. John Meisner. The wedding party stood under a lovely arch of evergreens from which hung a large white belle and streamers of white ribbon. Only the immediate family and relatives of the bride were present, the bride looked very girlish in her wedding dress of white silk crepe-de-chine with lace trimmings over which hung her wedding veil caught up with flowers.

The grooms, gift to the bride was a handsome gold watch and pin, to the organist a beautiful string of pearls. Following the ceremony a dainty luncheon was served after which the happy couple left on the afternoon train for their future home in Vancouver, B. C. The bride's travelling costume was a suit of navy blue serge with hat to match. Mr. and Mrs. Watt have a host of friends here and elsewhere all of whom join in wishing them many years of happiness.

**GASPEREAU NOTES**

Mrs. Freeman, of Milton, Queens Co., spent Sunday, May 8th, with Mrs. Dr. Bennett.

Miss Hazel Dodge, of Kentville, spent the week-end at the home of her friend, Miss Estella Miner.

Mr. Snow the organizer of the "Sons of Temperance" visited the Gaspereau "Sons of Temperance" on Friday evening, May 6th. Mr. Snow gave a very interesting address along the work he is doing.

An exchange very truly remarks: "A town will support a baseball team which practices and develops rather than one which loafs and leans on one lone star." That's a real mouthful, boys!

**WHITE ROCK ITEMS**

Congratulations are extended to Mr. and Mrs. Ralph Ells upon the birth of a daughter, their first child, about three weeks ago.

The many friends in this place and vicinity of Mr. Jacob Pick, are sorry to know he is very ill with pneumonia at his home. All wish for him a speedy recovery to health.

Mrs. Elijah Smith has been very ill for some time, but we understand she is improving which is good news to her many friends.

Many of the larger school boys of this place, have been busily employed the last few weeks over on Belcher Street, at Mr. Manning Ells', taking up strawberries plants, to be crated and boxed for shipment to buyers, also in transplanting the plants on the farm and renewing the earth of old plants. We understand Mr. Ells has shipped thousands of plants again this year all of the best kinds.

Last Sunday showed a good beginning for the summer, of the travel from people outside to view the Electric Power Plant and Pulp Mill on the river, also could enjoy the lovely drive thru the Deep Hollow or up over the Hill, with all nature starting forth in its new Spring dress. A great number of automobiles and teams passed thru the Village.

**N. GRAND PRE NOTES**

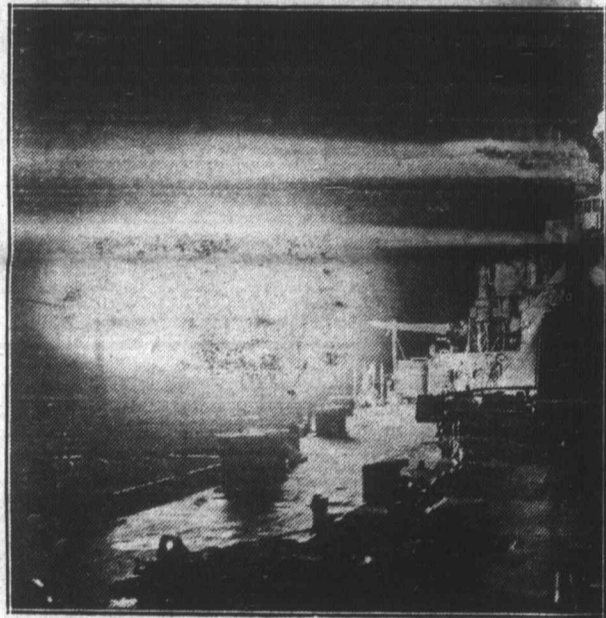

Miss Elizabeth Palmeter has been spending a few days in Halifax.

A tennis court has been erected on the lawn in front of Mrs. Ross Fullerton's house and is providing good sport for the young people here.

Messrs. Wiley and Frank Dayidson, who have been ill with the measles, are quite recovered.

Mr. and Mrs. Harry Palmeter received word on Saturday of the birth of a granddaughter, Beverley Anita, a daughter of Mr. and Mrs. Kenneth Palmeter, of Yarmouth.

Mr. H. D. Joynson entertained nine tables of gentlemen friends at "Auction bridge" on Friday evening last, when a very enjoyable time was had. Nothing was left undone to add to the enjoyment of those present.

**TARGET PRACTICE AT NIGHT**  
An interesting picture of the guns of a great battleship being fired at night. The deck is brilliantly illuminated by the flash from the gun. It was by means of the flash this picture was made possible.
