Board of Health Organizes With Mr. Charles M. Gibson Elected As Its Chairman

Citizen Complains That Collegiate Girl Caught Smallpox Through Holding Books Belonging to Another Pupil Who Had Caught the Disease.

Charles M. Gibson was elected chairman of the Board of Health at the organization meeting yesterday. The Finance Committee is composed of D. W. Eagle and W. P. Holmes.

The Management Committee is composed of Dr. Curry, chairman, and the whole board. W. E. Emmitt, 51 Chaplin avenue, wrote the board, claiming that his cousin, Alma Macdonald, had contracted smallpox by being asked by the science master of the Collegiate Institute to leaf over books belonging to other pupils while he fumigated them. The girl went home and in time contracted the disease. Her mother is a widow and supporting herself by dressmaking, was compelled to lose her source of income, as the home was quarantined, together with the added expense of a doctor, etc. The total expense was \$23.57, which bills Mr. Emmitt presented to the board. He said the case was a matter for investigation.

Dr. Curry thought there should be an investigation. If it is true Mr. Jackson asked this girl to remain after four o'clock and help him to fumigate, there certainly should be some explanation. Mr. Jackson certainly must have thought there was some danger or he would not have fumigated the books. Of course the board was responsible for the account.

Dr. Curry thought a copy of the letter should be sent to Principal Coombs with the request for an explanation. This was made into the form of a resolution and passed. The account was also ordered paid. D. Fraser complained of the city dumping ground at the bridge of the

old canal near Geneva street. The sanitary inspector will investigate this and report to the board.

Mrs. H. L. Murray, matron of the Isolation Hospital, sent in her resignation to take effect March first, because of shortage of salary and otherwise of work.

Dr. Currey in a report to the board showed that since November first about three times the number of contagious disease cases have been reported than for the previous twelve months, outside of influenza.

It advised calling a meeting to discuss means to combat the flu if it comes.

The Isolation Hospital is doing excellent work and he highly complimented Mr. and Mrs. Murray, who certainly deserve more consideration in the way of salary, conveniences, etc.

He suggested prizes for children for fly-swatting.

Dr. Curry made a strong plea for increased wages for Mr. and Mrs. Murray, as if they carried out their intentions to leave he didn't know what would happen. The present diphtheria visitation is likely to last for several months. The couple had been offered about double what they are making in another town. They are paid \$1200 a year now.

It was decided to give Dr. Curry a gratuity of \$1000 if he will stay. They have been there five years.

Mayor Lovelace brought up the question of garbage disposal. Some cities sell theirs and make something out of it. He moved that information be obtained by the secretary and salvage of city garbage. The board adjourned till next Tuesday evening at 8.30.

WILL HEAD THE NEW BOARD OF HEALTH

CHARLES M. GIBSON, New Chairman of the St. Catharines Board of Health.

Make Estimate As to the Value Of the N. S. & T.

The Journal learns that representatives of the Ontario Hydro Power Commission were in the city yesterday, looking over the N. S. & T. Ry. system, with a view of a little later placing a figure before the Dominion Government that the Commission, acting on behalf of municipalities, is willing to pay for the lines, plants, equipment, etc. Sir Adam Beck is on his way back from England, and it is stated that as soon as he returns negotiations will be opened for the purchase of the Dominion Cataract Power and Transmission Company, of which the Lincoln Electric Company of this city is a subsidiary, and for the purchase of the N. S. & T., if satisfactory terms can be arranged.

It will be recalled that Hon. Dr. Reid, Minister of Railways and Canals, in his letter to Mr. Chaplin in November said the Dominion was prepared to consider negotiations for the transfer of the electric lines of the National system to the Power Commission if an agreement could be reached. The representatives of the Commission are said to be looking over the system for the purpose of calculating what figure is to be offered.

If the Cataract Power Company is taken over by the Commission there will go with it the Hamilton and Grimsby electric railway, and there is the possibility that instead of building an entirely new road from Hamilton to St. Catharines, this line may be improved and utilized as far as Grimsby, and an extension would in that case be built into St. Catharines from Grimsby.

A right-of-way for the proposed Hydro railway from Port Credit to St. Catharines is being bought, this paper is informed, and it is possible that this summer may see a commencement on the actual construction of the road which would take a considerable time for completion.

Sir Wm. Tritton and Major Wilcox have been awarded fifteen thousand pounds sterling between them in respect to their claims as Tank inventors.

Owing to a grave illness, Dr. Cecil Lyster has retired from charge of the electric therapeutic department of the Middlesex Hospital in England.

Bell and George Watkins, the moving men.

Howard Freeman interpreted the "Mystic Shrine" huffy truly, and Ben White gave a satisfactory performance of "Philip Evans."

"Fair and Warmer" is of the class of "close to the wind" in a moral way, farces which seem to have caught the popular taste, and it comprises situations so funny that, as was mentioned before, the suggestiveness is forgotten in one's risibility emotions. Look the word up in the dictionary—we think it's right.

PITIED AND YET ADMIRED

She was wonderfully pretty and lithe, a childish figure; perhaps, though, she would be seventeen or eighteen. And there, right on the busiest part of St. Paul street, this morning, was this gentle fairy, without a stitch of clothing on her, complacently stepping forth for a bath in spite of the freezing weather.

To the sweet maiden unadorned except for what Nature had given her, the fact that she was in such a state appeared never to appeal to her. Except for a downcast eye, her one intimation of modesty, she seemed quite indifferent to the gaze of male passers-by, and the sniffs of disdain of awestruck prudes of her own dear sex. And that bit of modest pretence was most gloriously fetching, if you will take the word of the relator of these facts.

Trus, we pitied her unprotected state in the freezing weather, and fame would have reasoned with her and prevailed upon her to his herself off to the nearest ready-made store—yet, so indifferent seemed the maid to all prospective offers of assistance, that we refrained, as no doubt did many another mere male, taking it for granted that it was all a pleasant dream.

And yet, she stood there—graceful is scarcely the word—a rare picture of innocence and beauty, in spite of seeming evidence to the contrary. And, bless us, she continued to stand there, apparently enjoying the atmosphere and reluctant to take to the water—as most maids and men are at first—until the indignation drew by the congregation of horrid men, swept out onto the sidewalk, snatched the unblinking maiden away with urgent hands, and carrying her into the store, deposited her among the other magazines.

For, understand, dear and every other kind of reader, the sweet girl adorned the front page of a popular monthly.

MERCHANT WATCHES FINANCIAL DRIVE

MR. CHARLES AUSTIN. Few men have shown greater devotion to the Methodist National Campaign than Mr. Austin, who is chairman of the London Conference executive, and has oversight of southwestern Ontario in the great financial drive. He is a prominent merchant of Chatham, Ontario.

Says Teacher May Have Asked Girl to Hold Book

Principal Coombs of the Collegiate was asked with reference to Mr. Emmett's complaint that a collegiate girl, Alma Macdonald, had caught smallpox through leafing over books belonging to another girl who had taken the disease, while the science-master fumigated them. This complaint was made in writing to the Board of Health last night.

Mr. Coombs said it had been the intention to have the caretaker fumigate the girl's books, but that Mr. Jackson, science-master, had apparently done the work to save time, and Alma Macdonald being in the room at the time, it was possible he had asked her to hold the books for him.

THE WEATHER

TORONTO, Feb. 6.—The Atlantic coast disturbance is now centred near Nantucket, it is causing snow in Quebec and snow and rain in the Maritime Provinces, attended by strong winds and gales. There is very little cold weather reported in Canada and no present indications of a return to cold conditions.

FORECASTS—Moderate winds, generally fair to-day and on Saturday with stationary or a little higher temperature.

ONTARIO LEGISLATURE

First Session of New Body Will Be Held on March 9th.

Toronto, Feb. 6.—W. E. Raney, attorney-general, after a consultation with Premier Drury, announced that the Ontario Legislature will meet on March 9. He also announced that his nomination meeting in East Wellington will be held on Feb. 23, and that the election will be on March 1.

Premier Drury said it had not yet been decided what formalities will be observed on the opening of the house. "We will have as little formality as we possibly can," he added. Asked as to the situation in East Wellington, he said he had no information whether Mr. Raney would be opposed or not. Mr. Raney says the same thing.

SOLDIERS LEAVE SIBERIA

WASHINGTON, Feb. 6.—Half of the 8,000 United States soldiers in Siberia have been withdrawn. The war department announced to-day that on Jan. 27 there remained 271 officers, 4,910 enlisted men and 500 civilian well-areworkers.

longs to the stage not the ball-room.

7. Don't dance from the waist up; dance from the waist down.

8. Don't permit suggestive movements.

9. Don't permit dancers to copy the extremes that are now used on the modern stage.

10. For the benefit of refined dancers, don't hesitate to request objectionable dancing couples to leave the room. Remember that the majority of the people want to dance properly.

Woman Agrees to Go Back And Look After Her Family Of Eight and is Allowed To

Unique Case in Police Court To-day, When Gainoboro Man and His Wife Are Charged With Abandoning Their Family of Eight Children.

One of the most remarkable cases in the record of St. Catharines police court came up today when John Giles and his wife were charged with abandoning their eight children ranging in age from sixteen years to a baby of fourteen months.

The Giles, who are of the ordinary middle-aged couple class, were arrested in Toronto on complaint of the Children's Aid Society, and were brought here. Agent Boyle of the Children's Aid Society had found the youngsters on the 150-acre farm in Gainoboro, looking after themselves as best they could, a sixteen-year-old boy as head of the establishment and his little sister of thirteen doing the cooking and looking after the household generally.

Testifying today, Mr. Boyle stated that he found the children very poorly clothed and hardly anything to eat in the house. Some of the children were barefooted. The livestock on the farm had been neglected, two or three horses having died; also some pigs. The surviving pigs he found eating off the carcasses of the dead horses in the yard.

The children said their parents had left on November 5th. The father had been home once since then, and the mother several times.

Giles and his wife, both went on the stand. They told a simple story, especially Giles himself, which appealed to the court. Misfortune had met them. They had had a fire and their crops last year were a complete failure, so with notes for six or seven hundred dollars to meet, they could see nothing but to go away and find work to meet the debts and support

the children. In charge of the boy of sixteen they thought the children would be all right.

"But don't you consider that the proper care of your children was more important than paying your debts?" asked Crown Attorney Brennan.

"I suppose so," admitted the father, in a tone which was expressive of a long fight against adversity. "I suppose the worst they could do was put a man in jail."

"Oh, but they can't send a man to jail for debt," Mr. Brennan informed him.

"I didn't know that," said Giles, and his wife spoke up from her place in the dock.

"If we had known that we would not have gone away."

Giles was frank about it. He had paid \$1,000 on a farm, the price of which was \$8,000. Everything went wrong and he saw there was nothing for him to do but to get out and earn money to try and meet those notes for farm implements, cattle, etc. His wife thought she could help too, and she had gone with him. She got a job at a lamp factory in Toronto, and Giles at Swift's. They earned about fifty dollars a week between them and had managed to pay off some of the debts. They intended to come back in the spring and again work the farm.

Mr. Brennan said he did not blame Giles, but his wife should have waited to mind the children. If she went back home and staid there nothing more would be said. Mrs. Giles was quite willing to do this and so promised the magistrate.

Medical Health Officer Makes Recommendations To the Board of Health

Suggests Prizes For Fly Swatting—Call Meeting to Arrange to Combat Flu—Milk Centre For Babies.

Dr. Currey, medical health officer, has made the following report to the Board of Health:—

The total number of contagious diseases reported since November 1 has been nearly three times the number of the previous twelve months. (This with the exception of influenza.) We have had quite a marked epidemic of small-pox, five are now under treatment; and diphtheria, with four deaths from the latter, and eight cases still under treatment. Both these epidemics are under control. The first twenty-two cases of smallpox were all under school age. Compulsory vaccination of school children was demanded, with the result that since that time only one child has developed the disease—it being now confined to adults who have not been vaccinated successfully in recent years. Most of the cases have been of a very mild type. The work of the sanitary policemen has been excellent.

Numerous complaints have been received in regard to the gas fumes in the Steel and Radiation works, caused by using open coke fires for heating purposes—this has been pointed out to the firm and I believe it will be remedied.

The new motor ambulance is being finished and should be in use early in the spring.

The isolation ambulance has done good work already. The first week it was in commission five patients were removed to the isolation hospital. Lincoln Avenue has been blocked up

with snow and considerable difficulty was experienced in reaching the hospital.

This board will have considerable work during 1920, and I would ask you to pay particular attention to the following: A milk centre for babies and expectant mothers should be opened early in the spring. The public health nurse should be in charge and assistants from the various churches, etc., should be asked for.

A few streets of the city still remain to be severed in order that all outside toilets may be done away with.

Garbage receptacles conforming to the bylaw should be purchased by the city and sold to the citizens at cost. This seems to me to be the only way we can enforce the bylaw and keep down the flies. I would institute a "Swat the Fly" campaign and give substantial prizes for children to kill these pests. In this regard particular attention will have to be paid to manure receptacles being made fly-proof.

The flats above many stores should be visited and the owner of the premises held responsible for the cleanliness of same. The water supply and the sanitary arrangements in some of these are abominable.

An office for the M.O.H. should be provided for our department to do its work properly. Files must be kept, and rooms should be provided for the health nurse and sanitary inspector. The unsanitary condition of the

A NEW MOVEMENT

A campaign is being started for the creation of a Chamber of Commerce for St. Catharines. The step is one that should have been taken prior to this. The old Board of Trade has accomplished much in its day, and its officers always had the best interests of the city at heart, we feel confident, but a Chamber of Commerce organized and conducted on business principles and taking up important public matters with some degree of thoroughness and efficiency should prove of infinitely more value to the whole municipality.

The Journal has felt for some years that there should be a paid secretary of the Board of Trade, and when a Chamber of Commerce is established, the same thing will apply. The proper man holding such a position would also be useful as an industrial conciliator. (There is too much) work to expect any man to do it for nothing, and there is too much that could be accomplished to let the work go by default.

St. Catharines has several problems to solve. They should receive the attention, not only of the members of the City Council and other purely elective bodies, but of all business and professional men who desire to see the city go ahead and develop along the most approved principles.

The Painters Criticize Council

Editor The Journal: Dear Sir—At the regular meeting of the local Painters, Decorators and Paperhangers' Union, I was instructed to write you stating that after discussing the matter, we decided to go on record as protesting in strong terms at the action of the City Council in refusing to recognize our city firemen joining the International Association of Fire Fighters, and affiliating with the Trades and Labor Council—both lawful organizations.

We are of the opinion that the aldermen who objected, acted in a very high-handed, illogical and unjustifiable manner, especially when we consider that recent commissions have endorsed The Treaty of Peace (Paris) Article 2, which says that workers should be allowed the right of association for all lawful purposes. I have also been instructed to write the City Council on the matter.

Thanking you for your valuable space, I remain, yours truly, Wm. D. Outram, Secretary Local Union Painters and Decorators.

Lord Crewe is chairman of a committee to enquire into the position to be given Greek and Latin in the British educational system.

Subtle and Otherwise

TO BE EXACT

The weary traveler was trying to get to Swampton, but the going was by no means easy. Green ponds and mossy bogs met him at every turn, the roads were eluded with mud from the heavy rains, and the fields were quagmires.

"How far to Swampton?" he inquired of a whistling youth, after two hours' wading.

"One mile as the crow flies!" came the answer.

The traveler looked ahead at the unpleasant prospect.

"H'm!" he muttered. "I think you're wrong my boy. Looks more like one mile as the duck waddles.—London Tit-Bits.

HER POINT OF VIEW

The house where granny lived was said to be haunted, and fifteen-year-old Eric was rather nervous of sleeping alone in it. During the first night he fancied he heard all sorts of strange noises, too.

So in the morning he tackled the old lady.

"Do you believe in spirits, granny?" he asked.

The old lady hought deeply for a moment, then suddenly her face brightened and she said slowly.

"Well, they do say that 'whisky's good for rheumatism!'—London Answers.

SPEAKING THE TRUTH

Father—I am grieved to hear, my boy, that you have told your mother several falsehoods. Always tell the truth, even if it should bring trouble upon you. Will you promise me to do so?

Boy—Yes father.

Father—Right, you are. Now go and see who is banging at the door. If it's the landlord, say I'm out.

COULDN'T BE CAUGHT

"And now, ladies and gentlemen," said the guide of the local museum, "we come to the armory. On our right we have the identical knives with which the fobbers fought when they took the Babes into the Wood. On our left we 'ape' the ax with which Sir Walter Raleigh was beheaded.

Next to it we see one of Dick Turpin's pistols, and again, next to that, we have the shield which the Black Prince used in the Cyprian war. 'Ere we have the bow and arrow used by the Duke of Wellington at the battle of Mons, and, passing along a little further, we see the actual sword with which Balaam slew the ass."

"Just a moment," said one of the party. "I didn't know Balaam had a sword. I thought he only wished for one."

"Quite so—quite so! And if you'll give me the time to finish and not interrupt—I was just going to add that this is the one 'e wished for."

COLLEGIATE TEST EXAMINATIONS

The results of the January test examinations at the Collegiate Institute are given below. Owing to the small-pox and vaccination troubles chiefly, a large number of pupils were unable to take the examinations. This fact will not count against them on their mid-summer examinations if they are able to cover the work which they were compelled to miss during their absence from the school. Industrious habits, particularly with respect to the school work, are most desirable, and the principal and staff will appreciate the help of the parents in keeping the pupils' minds centred on school work during school days. The minds of the people should be occupied with school work. The school age will soon be gone. Let us have reasonable diversion, but lots of attention to school work.

In Class 1 names represent the order of merit. Class 2 contains the names of those who were not graded owing to absence from all or part of the examinations.

ALMA LADIES' COLLEGE Canada's National Residential School for Girls combines all the advantages of health, culture, and practical and aesthetic training. Thorough courses in Music, Art, Grammar, High School, Business, Domestic Science, and Superior Physical Training. Opens its thirty-ninth year on September the fifteenth, nineteen hundred and nineteen. PRINCE S. DOBSON, M.A., Principal. R. I. WARNER, M.A., D.D., Principal Emeritus. For terms address Registrar: ALMA LADIES' COLLEGE, ST. THOMAS, ONTARIO.

"Go Teach All Nations Beginning at Jerusalem"

"THAT'S it," says a critic, "beginning at Jerusalem! You should correct paganism at home before going abroad to look for it. I do not believe in Foreign Missions."

The Need of Africa Africa was first explored by a Missionary who lies in Westminster Abbey, honored by all nations. David Livingstone was succeeded by other devoted men, who gave themselves unreservedly to the people of the Dark Continent. Tripitapan's success in some districts—Uganda for instance—is balanced by dull failure in others. Yet the general prospect is encouraging. Through Canadian Missions in that land, men are raised out of slavery, women are emancipated, children are cared for and educated.

Yet Jerusalem was not Christianized when the Apostles went to Antioch; when Philip was sent to the Ethiopian.

Remember This The man who does not believe in Foreign Missions stands today clothed and educated because of Foreign Missions. When did English culture begin? With the visit of St. Augustine, a Foreign Missionary from Rome. Who Evangelized Rome? A Foreign Missionary named Paul of Tarsus and Jerusalem! What if he had gone to the Ganges instead of to the Tiber? Certainly Canada needs more Christianity, but the best way to improve our own spiritual life is to help bear the burdens of the world.

The Missions Established

Five Christian Communions in Canada—Anglican, Baptist, Congregational, Methodist and Presbyterian—have an extensive mission work abroad. They have sent overseas many devoted men and women. By their work, barriers have been broken down and in every land there is an eager call for more missions, more teachers, more doctors, more hospitals. Now, owing to the declining value of the dollar, it is necessary to double the expenditure in order even to hold the ground won. Until that is done, an advanced Missionary programme can not be undertaken.

Mass Movements in India India is our brother-land, a loyal British dependency. Illiteracy is the rule. Caste imprisons the people and stifles all ambition. British administration has taught the folk the value of peace. English-speaking Missionaries from Canada are teaching them the value of education and the power of the Name which is above every name. Great masses of the people are asking for baptism, but there are not enough Missionaries to teach them.

A Mandate for Expansion

All men, who think honestly realize that the Gospel of Christ is unique in moral splendor; in spiritual force, in civilizing influence. It redeems the individual and exalts the nation. It has made the modern world of thought, of industry, of progress. It must go out over all the earth to ease international relationships, to put an end to cruelty and misery. There is free entry for the Gospel in every nation under Heaven. Lift up your heads, O ye Gates of India, and be ye lifted up, ye everlasting Doors of China and Japan and Africa, and the King of Glory shall come in.

The Chance in China China is attempting to develop a democratic spirit before the nation is prepared for it. Many of the leaders got their first glimpse of true liberty in Christian Mission Schools. Now they talk of establishing one million Government primary schools. They look to Canadian Missionaries for help in the establishment of normal courses. Was ever such an opportunity before the Church—to help influence the school teachers of a great, new nation of four hundred million people?

The Need of the World Japan, Formosa, Korea, the South Sea Islands, South America, and not least, the pagans in our own land, need the Gospel. The Missionary is welcomed in all lands. Men everywhere appreciate the spirit of those Canadians who forget themselves in order to serve the suffering and the weary. Idealism in action counts!

The Call to Action

Canadians, Churchmen or non-Churchmen, you met the charges of the war with cheerfulness, since it was waged to establish righteousness in the earth. Now hear the call of the Churches for adequate means to continue by peaceful suasion the work which for four years was done by batteries and bayonets. Your Church appeals directly to you, civilized and educated by Foreign Missions of an ancient time, to meet your obligation to that same Great Cause today.

E. B. OSLER, President. C. A. BOGERT, General Manager.

AUDITORS' REPORT TO SHAREHOLDERS
We have compared the above Balance Sheet with the books and accounts
of the Chief Office of The Dominion Bank, and the certified returns received
from its Branches, and after checking the cash and verifying the securities
of the Chief Office and certain of the principal Branches on December 31st,
1919, we certify that, in our opinion, such Balance Sheet exhibits a true and
correct view of the state of the Bank's affairs, according to the best of our
information, the explanations given to us and as shown by the books of the
Bank.
In addition to the examinations mentioned, the cash and securities at the
Chief Office and certain of the principal Branches were checked and verified
by us at another time during the year and found to be in accord with the
books of the Bank.
Information and explanations required have been given to us and all
representations of the Bank which have come under our notice have, in our
opinion, been within the powers of the Bank.
G. T. CLARKSON
R. J. DILLWORTH, of Clarkson, Gordon & Dilworth, C.A.
Toronto, January 20th, 1920.

TELL THE WORLD
THIS WOMAN SAYS

That Lydia E. Pinkham's
Vegetable Compound made
Me a Well Woman.

Los Angeles, Cal.—"I suffered with
female troubles for years, was sick
most of the time, was not able to do
my own housework, and I could not get
help from doctors. I saw Lydia E. Pink-
ham's Vegetable Compound advertised
in the newspapers, and took six
bottles, and am a well woman. You
can use my name to sell the world the
good your medicine has done me as I
shall praise it always."—Mrs. A. L.
DEVINE, 647 St. Paul Avenue, Los
Angeles, Calif.
Women who suffer from any form of
weakness, as indicated by displace-
ments, inflammation, ulceration, irregu-
larities, backache, headaches, nervous-
ness or "the blues," should do as Mrs.
Devine did, and give Lydia E. Pinkham's
Vegetable Compound a thorough trial.
For over forty years this famous
remedy, which contains the creative,
strengthening properties of good old
fashioned roots and herbs, has been
correcting just such ailments. If you
have mysterious complications write for
advice to Lydia E. Pinkham Medicine
Co., Lynn, Mass.

NEVER HAVE SEEN
A DOG OR A CAT

Children in War-Scarred
Europe Never Even Hear
the Birds Sing.

When you grinned at the six-year-
old son of the house romping in the
yard with his dog, or watched his
small sister carefully dividing her at-
tention between ribbon bows for her
house "laddy" and the robin on the
lawn, did it ever occur to you that
nowhere in the world there are lit-
tle folks of the same age who have
never seen a dog nor a cat nor heard
a bird sing. Yet there are some
hundreds of thousands of youngsters
in war-stricken Europe to-day who
are ignorant of the existence of the
furred and feathered creatures which
help to make a Canadian kiddie's day
worth while.
Jewish relief workers who have re-
turned from the Eastern and Central
European countries cite the absence
of domestic animals and birds to il-
lustrate the desolate bareness of the
countries that were swept again and
again by the warring armies for
nearly five years. Jacob Basheha, who
had charge of a unit for the Joint
Distribution Committee, the relief
agency disbursing relief funds raised
by the Canadian Jewish Relief Com-
mittee, the Central Committee for re-
lief and the Jewish People's Relief
Committee, has described the condi-
tions there.
"In that bare stretch of country
where there are scarcely any trees,
no habitations other than the miser-
able dug-outs in which refugees have
taken refuge—the 'no man's land' of
Poland—we did not see a single cat
or dog, and in all the time we were
there we never heard a bird sing.
Armed men sweep bare the country
and trampled the ground to the con-
sistency almost of rock, while shell-
fire has blasted the countryside. No
animal, even domestic animals, was
left there. So there are children to-day
of five or six years of age who have
never seen a dog nor a cat and have
never heard the singing of a bird!"

DESTITUTE JEWS
HAVE NO HOUSES

Six Million Unfortunates
Compelled to Use Packing
Cases, Cans and Sacks.

Patterning on the block houses
that children build, the destitute
Jewish refugees of Eastern Europe,
whose homes have been destroyed
during the war, are trying to solve
their housing problem with the pack-
ing boxes in which relief supplies
have been sent to them. As the re-
ports received by the Canadian Jew-
ish War Relief Committee from relief
workers abroad.
Not only is every particle of food
and clothing used to the utmost ad-
vantage in these stricken lands where
6,000,000 Jews are at the point of
starvation, but the cans and sacks
and wrapping cases in which the food
and clothing come are made to do
duty as well. There is neither lum-
ber or nails in most of the countries
of eastern Europe at present, and
the packing boxes are handled as if
they were the finest mahogany, when
the shipments arrive. Not a nail is
allowed to go to waste, when the
boxes are taken carefully apart.
All over eastern Europe at pres-
ent men, women, and children, many
of them sick with typhus, are living
in cellars, in devastated houses, in
old freight cars, on rooftop plat-
forms, open to the wind, or in fields,
unprotected from the elements. The
clothing of these destitute Jews, con-
sisting for the most part of ragged
garments that they have worn for the
five years of the war, afford them little
warmth.
For this reason, the packing boxes,
which might not be considered partic-
ularly luxurious homes at another
time, are welcomed as life-savers just
now. Boards from them are used to
re-build broken houses, and men
make lean-to shelters where no
building stood before. Some of the
smaller boxes are piled one above the
other, like children's blocks, and
hugged together, to serve as temporary
houses.

MOTHERS PRAY THAT
BABIES MIGHT DIE

Suffering Among Jews is So
Bad That Death Alone
Gives Relief.

Mothers begging for death to re-
lieve their children's suffering, was
the most tragic thing seen by Leo
Wolfson, New York attorney and
journalist, in seven weeks spent in
Roumania, Galicia, Bessarabia and
Bukovina. Mr. Wolfson, who has
just returned to New York, made the
trip in order to study political condi-
tions in these countries.
"There are one and one-half mil-
lions Jews in this section of Eastern
Europe who are in immediate want,"
declared Mr. Wolfson. "In every
town I visited, I saw starving, naked
Jews stretching out their hands to
passers-by for a piece of bread."
"They hardly look like human be-
ings. All one sees are living skele-
tons, covered with yellow skin. The
children are small, worn-out, fright-
ful, little creatures, who just drag
themselves aimlessly around."
"How they will live through the
winter, no one knows. No one can
begin to describe this picture of
despair and want. But one can get
a faint idea of it by knowing that
approximately 150,000 children are
starving, praying that death take
their children, to relieve their ter-
rible suffering."

The freedom of the City of Not-
tingham was presented to Sir John
McCrath while lying dangerously ill
in bed.

WHAT CORNELIA SEES
The taffeta blouses in bright
plaids are to be feature din spring
blouses.
That a woman never "sees" any-
thing in "the man her sister marries."
That beige is favorite color for
afternoon dresses in crepe chiffon.
That in California, flying is becom-
ing such a fad that women are buy-
ing and flying their airships.
That the vogue for broadtail, not
only as a trimming, but for entire
suits is signified by Fifth avenue
womenfolk.
That little Japanese boys are sent
out in the streets, carrying placards
and singing songs urging the people
to conserve rice and other foods.
That a wealth of embroidery detail
distinguishes the new lingerie frocks
and crin net dresses embroidered in
angora of soft blue or dull red tones
appear among the new models.
That manufacturers say fall prices
of silk must advance from 25 to 50
per cent., and they see no relief at
present price of raw silk.
That a dramatization of Daisy Ash-
ford's much discussed story, "The
Young Visitors," will be produced at
the Court Theatre next week in Lon-
don.
That grey and café au lait suede
shoes with cut steel buckles and and
worn with hose of same shade will
be Palm Beach's smartest footwear
this season, and most women appear
to find the short vamp French shoe
too unbecoming.
That the many light gray duvetyn
and peachblow suits worn on Fifth
avenue by smartly dressed women
during the past week, bring up the
question as to whether this color as
a fall vogue will last throughout the
spring season, replacing perhaps the
tan and twine shades.

Notice to Creditors
IN THE MATTER OF the Estate of
HOWARD HODGKINS of the city of
St. Catharines in the County of Lin-
coln, Contractor, Insolvent.
NOTICE is hereby given that the
above named Howard Hodgkins, car-
rying on the business of a contractor,
in the said city of St. Catharines, has
made an assignment under the R.S.O.
1914 chapter 134, of all his estate,
credits and effects to Henry O'Lough-
lin of the city of St. Catharines in the
County of Lincoln, sheriff of the said
County, for the general benefit of his
creditors.
A meeting of creditors will be held
at the office of the Assignee in the
Court House in the city of St. Catha-
rines on Friday the thirteenth day
of February 1920 at the hour of two
o'clock in the afternoon, to receive a
statement of affairs, to appoint in-
spectors and for the ordering of the
affairs of the estate generally.
Creditors are requested to file
their claims with the Assignee with
proofs and particulars as required by
the said Act; on or before the day of
such meeting.
And notice is further given that
after the thirteenth day of February
1920 the Assignee will proceed to
distribute the assets of the estate
amongst the persons entitled thereto
having regard only to the claims of
which notice shall then have been
given, and that he will not be liable
for the assets or any claims he shall
not then have had notice.
Dated at St. Catharines this second
day of February 1920.
JAMES A. KEYES,
Solicitor for the Assignee.
Feb. 2-5-7-10.

ALGONQUIN PARK
Conditions in Algonquin Park this
winter are ideal. The days are bright
with sunshine and ideal for all the
winter sports, including toboggan-
ing, ski-ing, snow-shoeing, skating,
etc. At present the moonlight nights
are perfect. The Highland Inn, own-
ed and operated by the Grand Trunk
Railway, offers first-class accommo-
dation. For all particulars and win-
ter booklet apply to N. T. Clarke,
Manager, Highland Inn, Algonquin
Park Station, Ontario, or to C. E.
Hornung, Union Station, Toronto.
It is thought probable that the
Speaker of the House of Commons
will retire from Parliament in May
next.

PAY FOR PRIVATE IN U. S. ARMY IN GERMANY HIGHER THAN COLBLENZ OFFICIALS

COLBLENZ, Feb. 5.—The rate of exchange for the pay of American soldiers in the occupied territory has been fixed at 100 marks to the dollar, giving every private 3,300 marks monthly. This is considerably more than the pay of any German official in Coblenz.

BIG BLACK EARNED A REST

NIAGARA FALLS, N.Y., Feb. 5.—For many years Dick, the big black horse which has been in the service of the water department for five years and the city police department for many more years, has been combating the advent of the automobile in city affairs, but he has at last succumbed. Dick will be pastured out, the city council having voted last night to buy a car because Dick was becoming infirm.

DANDELION WINE WITH KICK GIVES ECHOTA FOLKS CAUSE TO WORRY

NIAGARA FALLS, N.Y., Feb. 5.—Residents of the Echota district have complained that foreign residents of the neighborhood have been selling dandelion wine at a big profit to their American neighbors. One of the women said that the husband of one of her friends drank the wine a few days ago and became intoxicated. The kick, she said, was stronger than that from whiskey.

COMMISSION TO HANDLE PULPWOOD SITUATION WASHINGTON, D.C., Feb. 5.

Appointment of a presidential commission to negotiate with the Canadian Government and with several provincial governments for the withdrawal of various official orders preventing the exportation of pulp wood into the United States was proposed in a resolution introduced by Senator Underwood. The resolution said that the total exhaustion of pulp wood threatened in the United States had caused the extensive acquirement of crown lands, especially in Quebec, by American producers prior to 1910, but that these resources had been kept in part unavailable by orders-in-council, issued in 1910, forbidding the exportation of pulp wood.

CATTLE MARKETS

UNITED STOCK YARDS. TORONTO, Feb. 5.—Receipts of cattle and live stock of all kinds at the Union Yards yesterday were very light, the run being especially small—516 head of cattle—even for a Tuesday. At that, there was no scarcity, Monday's relatively big receipts, nearly 4800 head—coupled with the weakness of the market, giving lots to come and go on. For some unexplained reason, the market has absolutely no snap or go to it, and the quotations of from 75c to \$1 off on practically all classes of butcher cattle.

CHICAGO LIVE STOCK.

Chicago, Jan. 27.—Hogs: receipts, 57,000; weak; bulk, \$15.50 to \$15.75; top, \$15.75; heavy, \$15.25 to \$15.50; medium, \$15.50 to \$15.75; light, \$15.50 to \$15.85; light lights, \$14.87 to \$15.00; heavy packing sows, smooth, \$14.75 to \$15.15; packing sows, roughs, \$14.25 to \$14.75; pigs, \$13.75 to \$14.75. Cattle—Receipts, 21,000; weak. Beef steers, medium and heavy, choice and prime, \$15.50 to \$17.50; medium and good \$11.50 to \$15.50; common, \$9.50 to \$11.50; light, good and choice, \$13 to \$14.25; common and medium, \$9 to \$13; butcher cattle, heifers, \$6.50 to \$13.75; cows, \$6.75 to \$12.50; canners and cutters, \$5.65 to \$8.75; veal calves, \$17.50 to \$19.25; feeder steers, \$8 to \$12.25; stocker steers, \$7.50 to \$11. Sheep—Receipts, 12,000; strong. Lambs, \$19.20 to \$21.35; culls and common, \$15.75 to \$18.75; ewes, medium, good and choice, \$10.50 to \$13.25; culls and common, \$6.50 to \$10.

EAST BUFFALO LIVE STOCK.

East Buffalo, N.Y., Jan. 27.—Cattle—Receipts, 89; steady. Calves—Receipts, 325; 50c higher; \$8 to \$25.50. Hogs—Receipts, 4,200; 15c to 20c higher; heavy, \$16.75 to \$17; mixed, \$16.35 to \$17.15; Yorkers, light, \$16.40 and up; \$17.25; roughs, \$15 to \$15.25; stags, \$10 to \$12.50. Sheep—Receipts, 2,400; steady. Lambs, \$12 to \$22.15; others unchanged.

Let Hohenzollern Sell the Castles.

BERLIN, Jan. 28.—The German Government is about to make arrangements with the Hohenzollern family for the disposal of the various royal castles. The proposal for the agreement with the Hohenzollerns shortly will be submitted to the Prussian Assembly. It is said part of the castles, part in that of the royal house. The royal house is to retain full right of disposition over the property remaining to it and is to receive an agreed sum of money for objects of art and the furniture of castles passing from it to the state.

Red Garrison at Moscow Revolts.

HLSINGFORS, Jan. 28.—Reports from Dorpat say a revolt has broken out among the Red garrison at Moscow. Another report says the People's Commissars at Moscow have moved to Tver, owing to the spread of the plague. The farmers' executive in East Wellington decided to accept Albert Hedley's resignation to open the riding for Hon. W. E. Raney.

POLAND FACES CRISIS.

Signs Are Ominous and Uplifted May Occur. BERLIN, Jan. 28.—Fighting is going on between the Poles and Bolsheviks on the Dunsburg (Dvinsk) front, according to dispatches from Warsaw, where, it is reported, serious operations are looked for. It is said that Kerensky is organizing a new white Russian army to fight the Soviet Government. In official circles here is the opinion that in case the Reds attack Poland all the powers signatory to the treaty must, under the terms of that document, send aid to the Poles. General conditions in Poland are so intangible that a breakdown is only a question of a few weeks, according to Ralph Rogers, a member of the American Red Cross, who has just returned from Warsaw. "I cannot see how a revolution can be avoided," he said. "The morale of the army is shattered on account of dissatisfaction with the food and clothing supplied. This is especially true of the troops on the Bolshevik front. I saw men clad only in shoes and an army blanket standing on sentry duty during the bitterly cold nights, while others slept in unheated barracks with icy blasts sweeping the rooms from broken windows. The prison camps inspected by us were in an appalling condition. The Bolshevik prisoners had next to nothing to eat or clothes and no blankets. Every day in Camp Kowal from twenty to thirty die and their bodies are thrown into a deserted house where the dogs can get at them. Starvation as well as typhoid causes the deaths. Small villages have also suffered terribly from the food shortage. When I visited a village south of Brest-Litovsk in November the population was 300; when I returned two weeks ago the population had dwindled to 290. Five hundred had died from starvation."

REPRIVE GRANTED.

Hanging of Murderer Delayed for Thirty Days. KITCHENER, Ont., Jan. 28.—A last-minute reprieve saved Stocky Boyoff from being hanged Monday. Word was received Sunday night from Ottawa by Sheriff Lackner to stay proceedings for thirty days. M. A. Secord, of Galt, who acted as counsel for Boyoff at his trial, is believed to have found a new clue which may have considerable bearing on the murder. Boyoff was to have paid the extreme penalty with Ivan Petroff for the murder of John Sorokaty at Galt May 24 last. On Saturday Petroff's sentence was commuted to life imprisonment.

ESCAPED MARTIAL LAW.

DUBLIN, Jan. 28.—Dublin city and county escaped declaration of martial law by only a few hours, it was learned Monday. Lord French had prepared a proclamation ordering establishment of martial law, effective Monday, but for some unknown reason late Sunday night countermanded the order. The countermanded order was brought under posters had been printed in the Government office. The order arrived only a few minutes before the posters were to leave the building to be posted throughout the country. The proclamation will be made effective at the first sign of renewed radical outbreaks, it was understood. Meanwhile, Sinn Fein expected a big roundup of Irish Nationalists. None of them would appear in public.

Sheriff Asked Trial.

WINNIPEG, Jan. 28.—Sheriff Colin Inster and Deputy John Pynker were made defendants Monday on charges of wilful misconduct in connection with the return of a panel of 231 members called to try seven strike leaders. The officials went on trial at their own request for a full investigation of the charges brought by defence in support of its challenge to array. This fact and motion by John Queen, one of the defendants, for a change of venue constituted the morning's features.

Herr Erzberger Attacked.

BERLIN, Jan. 28.—Matthias Erzberger, the Minister of Finance, was wounded by a shot fired at him on Monday. Herr Erzberger was shot as he was leaving the Criminal Courts Building after a hearing in the Helfferich suit. Only one shot struck the Minister.

To Organize Citizens Army.

WASHINGTON, Jan. 28.—By a vote of nine to five the Senate Military Committee approved a provision providing for compulsory military training for boys between 18 and 21 years, inclusive, and ordered a favorable report upon the Army Reorganization Bill.

Irish Smuggle In American Rifles.

LONDON, Jan. 28.—A report received from County Clare says that 2,000 rifles of American manufacture have been smuggled on to the Irish coast. The police were aware of the smuggling, but did not interfere until the number reached big proportions. Many Anglican churches held their annual meetings Monday. The U. S. Senate passed the Kenyon Americanization Bill, which would require all residents of the United States 16 to 21 years of age, and all alien residents who cannot speak English, to attend school. Sunderland beat Burnly in a replayed English soccer cup second-round game.

FATALITIES IN WRECK

Pullman of Stalled Train Was Telescoped. Second Section of No. 1 C.P.R. Express for Vancouver Dashed Into First Section, East of North Bay, and as a Result 15 People Were Killed and 25 Seriously Injured. NORTH BAY, Ont., Jan. 28.—Fifteen are dead and a large number injured as the result of one of the worst train wrecks in the history of this division of the Canadian Pacific Railway, which occurred at Corbell, 11 miles east of here, Sunday morning. No. 1, Canadian Pacific Express for Vancouver, due here at 10 a.m., was running in two sections. No. 1 section became stalled owing to failure of the engine to make steam under the condition of severe frost obtaining, and No. 2 section came round a curve on it, the locomotive of No. 2 section telescoping the rear sleeper of No. 1 section. It is stated that torpedoes had been placed and other precautions taken by the crew of the stalled train, but there is as yet much confusion existing to be certain on this point. The two sections, it is stated, were running close together. Eight passengers on the stalled train were killed outright, and seven others died after their removal on the way to the hospital here. At the hospital it is reported that none of the injured there are fatally hurt. So far as known all the casualties are immigrants for Western Canada or residents of the West on the way home from Europe. Among those killed were Mrs. Peden and her two young sons, who were on their way to Vancouver. The two boys were killed outright. Mrs. Peden died after removal from the wreck. Others in hospital here include a bride and groom, names not yet learned. Nearly all the passengers on the train were western people, and all the casualties were in the rear Pullman, which was telescoped. It is assumed from the latter fact that the rear section of the train could not have been running at full speed when it came in collision with the leading portion. Displacement of the locomotive, due to extremely cold weather, is given as the cause of the first section having been stalled. The accident occurred at 10:30 a.m. and at that hour the thermometer stood at 22 below zero. Of the score of injured now in the hospital here, it is stated that all have a good chance of recovery. The train bringing them from the scene of the wreck reached here Sunday afternoon, and was met by ambulances, autos and cabs. On receipt of the news of the collision, nurses and doctors had been rushed to Corbell on street cars and private cars. The following is the list of known dead:— Mrs. Hugh Peden, 1973 Seventh avenue, Vancouver, B.C. Wallace and Hugh Peden, sons of Mrs. Peden. James Tilley, Vancouver, B.C. Dr. J. W. Chambers, Calgary. Charles H. Beale, son of C. H. Beale, Vancouver. The injured are:— Charles H. Beall, Vancouver, slight cuts. Arthur Benaglia, Calgary, arm bruised, hand and leg cut. Helen Braekentridge, Calgary, scratched about hands and face. Capt. Leslie B. Burrows, Victoria, head and back injured. C. A. Coderie, Winnipeg, injury to head. Maude Copley, Winnipeg, injury to head. Lt.-Col. R. Innes, presumed of Victoria, injuries to back and right arm. Mrs. and Mr. Wm. Klemme, Calgary, no details of injuries. Mrs. S. B. Klemme, Calgary, no details of injuries. A. J. Lapierre, McLeod, Alta., shock. Miss McLaughlin, Vancouver, hands cut and face bruised. Mrs. G. Murray, Saskatoon, internal injuries. Capt. G. MacLaren, presumed of Victoria, cut about head of neck. George Rasmussen, Seattle, internal injuries. Mrs. George Rasmussen, Seattle, internal injuries. Miss Dorothy S. Keene, Los Angeles, internal injuries. T. I. Spencer, Medicine Hat, left arm and hand bruised. G. T. Graham, Winnipeg, dislocated shoulder, cut on leg and hip. John Adamson, Calgary, hip cut and bruised. Local advices are to the effect that none of the crew was killed. Pullman Car Conductor was severely injured, a fractured knee and bruises about the head and hands.

Vatican Tribunal Soon to Decide.

ROME, Jan. 28.—The Sacred Rota Tribunal is approaching conclusion of the case of defamation between Monsignor Fallon, Bishop of London, Ont., and the Reverends Beaudoin, Langlois, Leureux, Loiseau and St. Eyr, the last of whom is now dead. The case originated with articles appearing in Canadian papers in 1919 accusing Monsignor Fallon of favoring the Irish against the French-Canadians. The attacks extended to the Apostolic Delegate at that time. Investigation into the case has been going on for ten years.

6,000 Russ Troops Die of Typhoid.

STOCKHOLM, Jan. 28.—Six thousand Russian troops are dead in the typhoid epidemic, according to a special despatch from Revel. The situation in that territory is grave owing to the lack of medical supplies. British manufacturers complain that mid-week soccer games are so largely attended by mechanics that production in the Old Country is being seriously interfered with. Woodstock Intermediates beat Ingersoll 4 to 1, but failed to overcome Ingersoll's lead eight-goal lead for their group title. Ingersoll is second.

RED ROSE TEA is good tea WE were among the first to put up tea in sealed packages. We were the first to use automatic electric weighing machines so as to insure accurate weights. We were the first to make known the qualities of the now world-famous ASSAM teas. And we are now the first to adopt a new package for the better protection of these fine quality teas. The lead package has served its purpose well for generations, but it was easily broken or torn, allowing not only a loss of tea from the package but exposing the tea to the air, odors and dust that it was so necessary to protect the tea against. Our new package—the waxed board carton—is stronger, more secure and more completely air tight; altogether the best container for tea that has yet been devised. RED ROSE TEA is good tea

Four Good Reasons for a National Forward Movement

"For God so loved the world, that He gave His only begotten Son, that whosoever believeth on Him should not perish but have everlasting life."

DESPITE the four years' fury of War, and the year of uncertainty just ended, the people of Canada have prospered. Yet, spiritual glories revealed to us in the great Conflict are being clouded by drifts of class-hostility, mutual suspicion and cynical materialism.

The world is troubled. Old conceptions are giving place to new. Yet, the Kingdom of God remains, firmly grounded on the great principle of love. It has the one remedy for a world diseased:—"Believe on the Lord Jesus Christ and thou shalt be saved."

Five Christian Communion—Anglican, Baptist, Congregational, Methodist and Presbyterian—call their various constituencies and the whole nation to a livelier and more sacrificial Christianity. They are making a great financial appeal. It is fitting that the public should know the reasons.

1 The Decline of the Dollar The sharp rise in prices the world over has affected injuriously the position of every man working for a fixed salary. Missionaries are in this category. Stipends that were ample in 1900, and nearly adequate in 1912, are utterly insufficient in 1920. There has been no general increase in these stipends. There cannot be, until the Canadian people scale-up their giving to balance the decline in purchasing-power of the Canadian dollar.

International exchange has been unstable. Money for export has been subject to heavy discounts. In view also of the increased cost of materials and of labor, any new building programme abroad has been out of the question. But the need for new buildings is imperative. Some missionaries are living in clay-floored huts.

New Standards are Necessary The Anglican Synods, the Baptist Conventions, the Congregational Union, the Methodist Conferences, and the Presbyterian General Assembly, have set new standards for the salaries of Clergymen actively engaged in Canada. But, for the Missionaries, and for the Superannuated Ministers, no increases have been possible.

One of the aims of the Forward Movement is to show the fine-spirited, generous, Christian people of Canada that the old standards of giving for Missions must be revised. It is impossible to maintain existing stations, even on a pre-War basis, without more men and much more revenue.

2 The Call from Abroad Coincident with this financial difficulty, new and glorious opportunities for the extension of Christian teaching have appeared. In India, literally millions of "outcasts" are pleading for Missionary preachers and doctors. In China, a new National spirit has been born. Missionary teachers are urgently required to help formulate the National system of education. Hospitals, Missionary nurses, doctors and dentists, are heartily welcomed by the people. From Japan, Africa and the Islands of the Sea, comes the same story.

3 The Home Responsibility Here in Canada, the work of evangelizing Indians and Eskimos must now be undertaken wholly by the Canadian Church. The rapid growth of our cities, the expansion of the West, the great immigration of the last twenty years, and the depopulation of rural areas, make a four-fold problem which can be solved only by radical readjustments of policy and greatly increased resources of men and money.

4 The Pressure on the Colleges Finally, the decline of the dollar has created difficulties in financing the Colleges and Universities established and maintained for the training of the Clergy. Last year, one College which had been able before the War barely to subsist, faced an additional charge for coal alone of \$1600. All other expenditures have risen in like proportion. Christianity has been the mother of Higher Education. A thoroughly trained Ministry is the great need of the times.

The men of faith, filled with the Holy Ghost, who proclaim the Gospel story by the frozen Copernice, beneath the cone of Fujiyama, along the banks of the Yangtse and the Ganges are the product of our Canadian Colleges. There the Vision first appeared to them. The Church must stand behind these institutions.

The Unity of Faith and Prayer These are the facts. Faced with such conditions, the Church leaders, at first, were appalled. They went to their knees, first in separate denominational groups, then in company. Putting aside for the time being differences of religious temperament, considering only their common belief in the Everlasting Father, the Almighty Son, and the everpresent Holy Ghost, they prayed together. Then they arose, thrilled with a glimpse of the wonderful Missionary opportunity, to appeal together to the whole body of Christians in Canada.

The Greatest of All Gifts You are a believer in the Lord Jesus Christ, and in the Gospel He proclaimed. Your country has become great through Christianity. The hope and love of the Gospel have warmed your heart and illumined your life. Next week you will be asked by the representatives of your Church to show practical proof of your convictions. Be prepared—not to give a trifle out of your abundance, but to taste the full sweetness of Sacrifice.

"What Shall I Do Then With Jesus, Who Is Called Christ?"

Pilate's Question Is Yours To-day

THE Church is not impersonal. It is a company of individuals, each of whom has expressed determination to acknowledge Jesus as Lord and God, to accept His teachings and follow His example.

The Active Christians

Those who persist in the Way find their lives radiant with hope. They have an object in living. They are not plunged into hopeless misery by bereavement. They develop character. They learn contentment. Being themselves men of hope and good-will, they are centres of hope and good-will in the world.

The Inactive Christians

Not all continue faithful. Many neglect to keep the Pattern before them. They cease to pray. They forego public worship. They become only nominal Christians. Their sympathies are on the side of Right, but they miss the full-orbed peace that comes from being obedient to the Heavenly vision.

Aiding the Enemy

Apart from their own loss, lukewarm Christians do positive harm to the Faith. Enemies never cite the lives of notable Christians as a proof of the inefficiency of the Church, or of the Gospel it proclaims. If, therefore, all lukewarmness should disappear the critics of Christianity would be confounded.

Where Do You Stand? You are a Christian. Are you ardent or careless? Are you whole-hearted or half-hearted? Do you realize that the Church in Canada faces unprecedented responsibilities? You believe that the Gospel of Christ is a perfect solvent of selfishness and class-hostility. Will you do your part to give it free course?

A Great Possibility

"Righteousness exalteth a nation, but sin is the reproach of any people." If all the Church Members of Canada would begin today to follow earnestly the principles enunciated by their Divine Master, if they would acknowledge their stewardship in full measure, the name of Canada would ring around the world. Therefore, the Question is to you:

"What shall I do then with Jesus, who is called Christ?"

A United Appeal

FIVE Christian Communion—Anglican, Baptist, Congregational, Methodist and Presbyterian—have in Canada ten thousand congregations, over one million communicants, and represent more than half of the population of the Dominion. Under the stimulus of five great Forward Movements, it is in the power of these people to root out the evils of materialism in Canada, and to conserve the spiritual values revealed by the chastisement of War. Are you ready for active service?

The Decision Is Yours

LET Christianity have a fair trial in your own life. Make Jesus Christ master in your home. Test the reality of prayer. It will give your life direction, purpose and power.

You can help to cure the ills of Canada and the world. Be prepared to serve. Begin NOW.

Representing the Simultaneous but Independent Forward Movements of the Anglican, Baptist, Congregational, Methodist and Presbyterian Communion in Canada.

JOBS FOR TEACHERS

Instructors in English Required to Live Among Foreigners.

Manitoba will be offering profitable openings to teachers who are willing to take up work among the foreign settlements in that province very soon, according to Mr. Ira Stratton, special school organizer for the Manitoba Department of Education.

"I will give teachers \$300, a house and fuel to start with," he stated. Mr. Stratton is on an extended visit to this province and has been addressing various congregations and meetings.

The work in Manitoba is more in the nature of mission work than regular academic tuition. Forty-two and a half per cent of the population is other than British birth, very largely of Slav origin.

Mr. Stratton is attempting to provide the children of these immigrants with an education in the English language and Canadian ways and customs at the same time. To this he is having his teachers go and live among the people, in cottages which he provides.

He finds that the foreigners are anxious to secure the knowledge he is offering them and he tells of many cases of where very average immigrants have already become Canadianized citizens of excellent quality. He calls the teachers who undertake his work, "the Apostles of Canadianism."

A spirits order recently issued prohibits the sale by auction of whiskey, gin or rum, except authorized by the food controller of Great Britain.

Princess Mary made a speech and supped with the land girls on the occasion of the presentation of decorations to the Women's Land Army.

Manchester, England, has applied for an order to compel a landlord to sell land needed for the garden suburb which will cover an area of 7 square miles.

Constipated Children Gladly Take
"California Syrup of Figs"
For the Liver and Bowels

Tell your druggist you want genuine "California Syrup of Figs." Full directions and dose for babies and children of all ages who are constipated, bilious, feverish, tongue-coated, or full of cold, are plainly printed on the bottle. Look for the name "California" and accept no other "Fig Syrup."

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION

A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

RHEUMATIC AILMENTS

SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, AGING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man

BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

FEW FOLKS HAVE GRAY HAIR

Druggist Says Ladies are the Recipe of Sage Tea and Sulphur.

Hair that loses its color and or when it fades, turns gray, is caused by a lack of life in the hair. Our grand old Sage Tea and Sulphur Compound made up a mixture of Sage Tea and Sulphur to keep her locks beautiful and thousands of beautiful and thousands of men who value that ever that beautiful dark shade of which is so attractive, use our old time recipe.

Nowadays we get this famous improved by the addition of other ingredients by asking for a bottle of "Vigor and Sulphur Compound." Sage and Sulphur Compound makes the hair so naturally, so that nobody can possibly tell it has been applied. You just sponge or soft brush with this through your hair, one small strand at a time. By the gray hair disappears what delights the ladies with Sage and Sulphur Compound besides beautifully darkening hair after a few applications. It brings back the gloss and lustre and gives it an appearance of youth.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmothers made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old time recipe.

Nowadays we get this famous mixture approved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which the hair so naturally, so even, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw it through your hair, taking care to reach the scalp. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

EX-KAISER PROTECTED

He May Remain in Safety in Holland.

Netherlands Government Refuses Request of the Allies to Hand Over Former Emperor of Germany to Face Trial for Crimes Against Civilization Committed During Great War.

PARIS, Jan. 28.—It has been formally announced that Holland will not surrender the former German emperor to the Allies to be tried for crimes in connection with the great war.

Following is the reply of the Netherlands Government to the Entente: By verbal notes, dated January 13, 1920, to the King of the Queen at Paris, the powers, referring to article 227 of the Treaty of Versailles, demanded that the Government of Holland give into their hands William of Hohenzollern, former Emperor of Germany, so that he may be tried.

"Supporting this demand, they observe that if the former emperor had remained in Germany, the German Government would, under the terms of article 228 of the Treaty of Versailles, have been obliged to deliver him. "In citing as precedentiated violations of international treaties, as well as a systematic disregard of the most sacred rules of the rights of man, a number of acts committed during the war by German authority, the powers place the responsibility, at least morally, upon the former emperor.

"They express the opinion that Holland would not fulfil her international duty if she refused to intercede herself with them, within the limits of her ability, to pursue, or at least not to impede, the punishment of crimes committed.

"They emphasize the special character of their demands, which contemplate not a judicial accusation but an act of high international policy and they make an appeal to Holland's respect for law and love of justice, and to her moral authority as a power, in the essential principles of the solidarity of nations.

"The Queen has the honor to observe, first, that obligations which for Germany could have resulted from article 228 of the Treaty of Paris cannot serve to determine the duty of Holland, which is not a party to the treaty.

"The Government of the Queen, moved by irrefragable reasons, cannot view the question raised by the demand of the powers except from the point of view of its own duty. It was absolutely unconnected with the origin of the war, and has maintained, not without difficulty, its neutrality to the end. It finds itself then face to face with the facts of the war in a position different from that of the powers.

"It rejects with energy all suspicion of wishing to cover, with its sovereign right and its moral authority, violations of the essential principles of the solidarity of nations; but it cannot recognize an international duty to associate itself with this act of high international policy of the powers.

"If in the future there should be instituted by the Society of Nations an international jurisdiction competent to judge in case of war deeds qualified as crimes and submitted to its jurisdiction, by statute antecedent to the acts committed, it would be fitting for Holland to associate herself with the new regime.

"The Government of the Queen cannot admit in the present case any other duty than that imposed upon it by the laws of the Kingdom and national tradition.

"Now, neither the constituent laws of the kingdom, which are based upon the principles of law universally recognized, nor a respectable secular tradition which has made this country always a ground of refuge for the vanquished in international conflicts, permit the Government of Holland to defer to the desire of the powers by withdrawing from the former emperor the benefit of its laws and this tradition.

"Justice and national honor, of which respect is a sacred duty, oppose this. The Netherlands people, moved by the sentiments to which in history the world has done justice, could not betray the faith of those who have confided themselves to their free institutions.

"The Government of the Queen is pleased to believe that the powers will recognize the good grounds of these considerations, which rise above any consideration of personalities, and which seem to it so peremptory that they could not reasonably give rise to wrong interpretations.

Big Wool Profits Made by Britain. LONDON, Jan. 28.—Great interest still centres in the post-war profits of spinners in the wool textile trade. W. Mackinder, who first made allegations before the Central Profiteering Committee, is making the subject the main plank of his platform in the municipal campaign at Bradford. Mr. Mackinder, in a speech, said the Government had made more than \$30,000,000 profit in wool deals last year.

N. Y. Herald and Sun Amalgamate. NEW YORK, Jan. 28.—Frank A. Munsey announces that the Sun and the Herald would be amalgamated February 1 under the name of the Sun and New York Herald. Mr. Munsey explains that because the ground lease upon which the Herald building now exists expires in a few months, the paper will be published from the plant of the Sun.

Z. A. Lash Dead. TORONTO, Jan. 28.—Z. A. Lash, K.C., LL.D., is dead, and Canada has lost a jurist of wide reputation and outstanding ability, a lawyer who, for over half a century had practiced his profession in the Dominion. Death came late Saturday, as a result of a stroke of paralysis suffered about two weeks ago.

Prince Albert was recently initiated into the mysteries of Freemasonry

When The Day Is Over

When the hours of a day have passed and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but headache, backache and worry, turn to the right page—Dr. Pierce's Favorite Prescription. Dr. Pierce's Favorite Prescription is a medicine made of vegetable growths that nature surely intended for backache, headache, weakening pains, irregularities, and for the many disorders common to women in all ages of life.

Orlinda, Ont.—"I suffered from a bad case of a woman's trouble with backache, nervousness, disordered digestion, irregularity, and I had great pain all the time, sometimes I would faint at my work. I had one physician after another but they did me no good. I then took Dr. Pierce's Favorite Prescription and it fixed me up all right. I look much better and feel fine. I will recommend the Prescription to all suffering as I did."—MRS. MAYBELLE B. GRATRICH, 115 Albert St.

Write Dr. Pierce's 'Medical' Hotel, Buffalo, N. Y., for confidential advice and you will receive the medical attention of a specialist, wholly without fee—no charge whatever.

UNFAIRNESS ALLEGED In Dealing With Imperial ex-Soldiers Regarding Land Grants

WINNIPEG, Feb. 4.—Strong condemnation of the alleged unfairness of the Soldiers' Land Settlement Board in dealing with Imperial ex-soldiers was made today by delegates at the Imperial Veterans' Convention. Delegates from different parts of the west declared that they knew of cases where Imperials' applications were passed over without their having previous farming experience. It was suggested that representatives be demanded by Imperial veterans on the Soldiers' Civil Re-establishment, Soldiers' Land Settlement Board, the Immigration and Colonization Boards. No definite action was taken.

The Liquor Trade Protection Association of Birmingham is strongly averse to returning to pre-war hours

MUSIC AND DRAMA

WINNIPEG KIDDIES

There will be a strange school in St. Catharines when the original Winnipeg Kiddies arrive for their engagement at the Grand for three days commencing Monday.

The school will be conducted in the parlor of a local hotel, and will be on stricter lines than any classroom in our public schools. Every one of the eleven pupils will be stage stars—the Winnipeg Kiddies themselves.

Just as soon as breakfast is over, school begins. Their teacher says there are no more industrious children in any school—they are veritable gluttons for learning. Their travels over this continent have sharpened their wits and they imbibe knowledge freely.

As for their stage work—that is their recreation just as children play during recess. They have learned that quarrels destroy happiness, so they never quarrel. They are just one

Foreseeing Their End

Many Examples of Noted Men Who Have Done That

A book of poems has just been published which was written in trench and battle during the war by a young officer, who distinctly foretells his own death, and never for a moment believes that he will live to come home, says Tit-Bits. Instances of such foreknowledge are not uncommon.

One of the most remarkable was the case of Von Spee. If it is true, and it was reported on very good authority, it does credit to the German admiral, who showed a rare spirit and delicacy. After the Battle of Coronel the German colony at Valparaiso gave a banquet to celebrate the occasion, at which the final toast was "destruction to the British Navy."

It is said that Von Spee immediately rose and said that neither he nor his officers cared to respond to the toast, and they withdrew.

Th steps near the door were covered with flowers, and the admiral said: "I think you had better keep these for my grave. They may be wanted."

A few weeks later he encountered Sturdee at the Battle of the Falkland Islands.

The personality of Abraham Lincoln has been vividly brought to the minds of playgoers lately, and all his biographers agree that the great president had premonition of the tragic death which befell him on April 14, 1865. Of the danger of assassination he was fully aware, and at a cabinet meeting on the morning of the fatal day he was observed to wear a grave and troubled look.

When Queen Alexandra celebrated her seventy-fifth birthday on December 4th last, the lord mayor of London on behalf of the citizens sent congratulations.

Tracks in Snow Led to Arrest Chicken Thieves

Walter Bray, who lives on Queen street, had nine Plymouth Rock chickens stolen last night, and when the tracks in the snow leading to and from the hen house were followed, they brought up in a house in Merriton occupied by two foreigners.

Upstairs in a room, the nine Plymouth Rocks were discovered with a lot of other chickens, together with a big black rooster which had recently disappeared from another hen-roost.

Chief of Police Moffatt arrested the two men and brought them to police headquarters here, and they are being tried this afternoon before the magistrate.

One of the prisoners is the man who was caught in M. E. Proctor's home on Wellington last summer. He claimed at the time that he was drunk and had got into the wrong house. When arrested on that occasion a hose loaded with lead was found on his person.

Lord Lee told a Lincoln, England, audience that at one time in the war it was feared it would be necessary to bring in food by submarines.

When Queen Alexandra celebrated her seventy-fifth birthday on December 4th last, the lord mayor of London on behalf of the citizens sent congratulations.

Children Cry for Fletcher's

CASTORIA

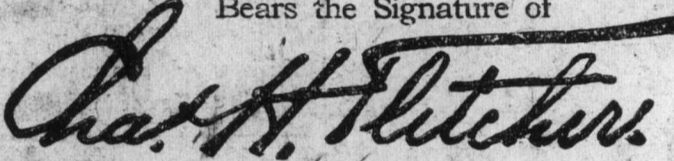

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulence, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

There were no calls for the firemen last night.

The snow is disappearing rapidly and is being carried off satisfactorily.

Several accidents are reported of persons falling on the icy sidewalks. It is said several arms and elbows were broken yesterday.

Women's Canadian Club will meet at the Welland, Tuesday, February 10th, at 4.15. Speaker, Jean Blewett. Subject, "Woman Beloved." F-6-7-9

Officers and members of Union Lodge I.O.O.F. are arranging a banquet to-night to the members of the Lodge who served during the war.

A social meeting in the interests of the Anglican Forward Movement were laid tenderly to rest among Homer Rev. Mackenzie Norton delivered an address. Refreshments were served afterwards.

A very large number of friends and relatives gathered to attend the funeral of the late George Oscar Doughty which took place from his late residence, 24 Mary street, Rev. F. W. Stewart officiated at the house and graveside, William Bowman, Fred. Bowman, Webster Burch, W. Backus, Albert Haynes, and S. Piper acted as bearers. The numerous floral tributes were very beautiful. The remains were interred in Victoria Lawn Cemetery.

LAI D AT REST

The funeral of the late Mrs. Edward Jones took place from the family residence, 15 Taylor avenue, on Thursday afternoon to St. George's church. A short service was conducted at the house by Rev. Canon Broughall, who was also present at the church service assisted by Rev. A. H. Priest, the latter conducting the service at the graveside in Victoria Lawn cemetery where the remains were laid tenderly to rest among beautiful flowers which were sent by sympathizing friends. Those who acted as pallbearers were: Thomas Matthews, William Hunt, Arthur Adams, Walter Purdy, James Pettifur and Earl Norton.

At the entrance of the tent or yurt as the Mongols call it, was a wooden door fitted to a framework resembling a wooden sash. The door was so low that I had to stoop as I entered. The floor was about two feet below the level of the ground, giving the inside circular wall a height of about six and a half feet, and thus made it possible for even a tall man to move about freely in any part of it.

The framework of the tent consisted of a circular fence of watted staves supporting a superstructure of slender poles which came together in a truncated cone. At the top the poles fitted into a piece of wood shaped like a wheel. At the lower end the poles were lashed to the wicker work with stout thongs and bits of rope. Several sheets of gray felt about half an inch in thickness were stretched tightly over the framework. Altogether, the structure had the appearance of firmness rather more suggestive of a house than a tent.

This kind of habitation is admirably adapted to the needs of the Mongols, as they are only a semi-nomadic people and do not change their place of habitation as frequently as grates. Even within the borders of tracts beyond which they do not migrate have their own distinct districts generally supposed. The various these allotted areas they move about but little. Most Mongols have only two camping places; one for the winter and another for the summer. Custom as well as expediency requires them to move twice a year—in the spring and in the autumn. These two migrations are necessary because they do not wish the labor of laying in a supply of winter hay. In the autumn they have to move to some place where the grass has been closely cropped, so that their herds may graze on the tall grass protruding through the snow. In the winter the animals do not require to be watered, as they eat enough snow with their grass to make up the deficiency. As soon as the snow disappears in the spring it is necessary to move the herds again, so that they may be near prairie lakes or wells.

Every plate made by us is manufactured in our own laboratory by men of unsurpassed skill in their profession. Accuracy, one of the most essential requisites to plate-making, is a point we pride ourselves on.

Lastly, the impression that a good plate is costly, beyond our means, will quickly be corrected by learning of our very moderate prices.

For careful examination and consultation, we make no charge, a service necessary to all who require plates.

Fillings 50c and up.
Very good Plates, \$3.00.

CANADA IS IMPORTING LESS FROM UNITED STATES NOW

Ottawa, Feb. 6.—There has been a slight natural decrease in imports from the United States recently, owing to the adverse exchange situation, according to the officials of the Canadian trade and commerce department. The officials believe that the falling off is also due, to some extent, to the fact that merchants are waiting for more favorable times to stock up.

Officials are urging Canadians to buy at home more freely, rather than to call for imported goods, if exchange rates are to be kept within reasonable limits.

No Housing Problem

Mongols Carry Their Houses With Them When They Move

(Luther Anderson in the Asia Magazine.)

The hospital has outlived its usefulness and this board should consider very carefully the advisability of having a new one built.

The isolation ambulance will be kept at this hospital and Mr. Murray will drive it. This will help us out greatly, but will make much extra work for him, as he will be called at all hours.

The salaries of the sanitary inspector and the public health nurse should receive your consideration. Both of these officials have done excellent work for us and we should show our appreciation for their services.

This board must consider the epidemic of Spanish influenza, which is present in many of the cities of Canada. I think it would be wise to call a meeting of those interested in public health work, so if the epidemic reaches here we shall be prepared for it.

Medical Health Officer Makes Suggestions

(Continued from page 1)

police court cells should be investigated and remedied, and a separate room built for female and child prisoners. I would ask the City Council to act at once.

The laboratory has been handling many diagnosis and release swabs for diphtheria, and I consider that this is partly responsible for the control of the epidemic.

I think, the whole board should visit the Isolation Hospital and get an idea of conditions there. Do you realize that the stairs prevent a stretcher from being carried up them and that there is only one bathroom for the whole building? The only reason we have not had cross-infection is due to the excellent work of the matron, Mrs. Murray, who has worked faithfully with very little encouragement from previous Boards of Health. She and her husband started on a combined salary of sixty dollars (60.00) per month. This has been raised gradually to one hundred dollars (\$100.00) a month, out of which they must feed themselves.

Gentlemen, is it not a disgrace to ask two people to work for this remuneration? I would ask you to make a very substantial increase in the salary. During the past month as many cases were treated at this hospital as were formerly treated in a year, and the help there have been working day and night.

MEAT INJURIOUS TO THE KIDNEYS

Take a Teaspoonful of Salts If Back Hurts or Bladder Bothers.

We are a nation of meat eaters and our blood is filled with uric acid says a well known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediments, or the bladder is irritable, compelling you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism on bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink, and nobody can make a mistake by taking a little occasionally, to keep the kidneys clean and active.

The Value of Saving

All successful men begin by saving. Later, perhaps, they invested, but they first had to accumulate capital.

The first step towards wealth is to open a Savings Account. The second is to save regularly.

Come in and ask about our simple, convenient Savings Accounts. Interest compounded every six months soon amounts up.

THE Bank of Nova Scotia

PAID-UP CAPITAL \$ 9,700,000
RESERVE FUND 15,000,000
RESOURCES 220,000,000

CHICKENS GO BUT MAGIC THE T

No Evidence to Officers With Theft Rooster — Foot Showed Where

Charged with stealing nine with Rock hens, the property of Mr. Bray, John Lohovicia and Mr. McCarroll appeared in police court yesterday afternoon. They pleaded guilty through their counsel, Mr. McCarroll.

The men were traced to their hideout by footprints in the snow, which led to their place. The chickens were there that morning at day-break. There was a peculiarity about the prints, which led from the house to the Merrittion house. To Mr. McCarroll he admitted

Church is An A B

Forward Movement Humanity to So deacon Perry at

That leaders of thought are to the church as the one unit situation in the world to overtake them. They should actively revolution and that the Forward Movement in the North American continent will be an antidote for conservatism and intolerance as the expressed last night by Ven. deacon Perry in a forceful and address before a meeting of ladies and women at St. Thomas' Church. The gathering was held in the parlour of the Forward Movement Anglican Church and was well attended.

Banquet Served.

Through the co-operation of members of the Ladies' Aid a splendid banquet was served after Mr. Mr. Howitt outlined briefly the purpose of the assembly. He said Mr. J. M. Elison to introduced the subject. The latter expressed the opinion that the spirit of service for humanity is which enriched the ages. People of the world could not disassociate themselves from the responsibilities of citizenship, and all mature minds recognize the church as a power for good through the ages for the betterment of races. The Forward Movement in Canada was conceived primarily a work for laymen. The church on a sound financial basis that it could do a greater amount of work.

A Powerful Influence.

Archdeacon Perry reviewed the social and political unrest of the present time, the danger of anarchism headway and the possibility of such a situation that it had to be built. Other agencies had to be able to cope with the present problems, but the church stood a strength and a power in times of trouble and stress. The purpose of the Forward Movement was not simply to raise a large amount of money, but to turn the thoughts of men and women to higher things. All departments of human activity were to be improved. He quoted Hon. Richard Harcourt, saying that if the money were to stop abruptly now a large amount of money was raised, here would be an inestimable amount accomplished.

St. Thomas' Church Genealogy. From what he had learned Archdeacon said he believed that
