#### IS YOUR COUGH GOING FROM BAD TO WORSE.

If you catch a cold (which very often develops into a cough) everyone can tell you how to cure it! If one tried half the things his friends recommended he would be a physical wreck! Fortunately it isn't necessary to experiment with ginger tea and such things, get a bottle of Stafford's Phorastone Cough and Cold Cure, take according to directions and you will be relieved in a few hours. Phorastone is not like most things put up for this purpose. There isn't a particle of Quinine in it. It relieves the inflamed congested condition of the mucous membranes of the nose and throat, and soon rids the system of the poison that cause colds. Don't wait until you get that horrible, hacking cough, which you are not able to get rid of. No treatment having been found successful up to the present time. Try Phorastone Cough Cure at once. Try Phorastone Cough Cure at once. Postage 5 cents extra.

# WON AT LAST.

CHAPTER XXXII.

"I have no reason beyond my own conviction, and that is amply sufficient for my own satisfaction!"

The inspector coughed again. "Just so, miss—just so, I am sure. But the law—"

"The law can not move unless it is set in motion; and I refuse to do it. Virtue Dent is innocent of this robbery. Mr. Blake, and I say that she shall not be arrested."

"My dear Natalie," madame interposed, laying her hand upon her shoulder, "you are altogether forgetting the state of the case. It is placed in Mr. Blake's hands, and—"

"Not by me," said Nat. steadily, laying her other hand upon her arm; "and, pardon me, madame, I am the only person who has the right to do it—the stolen jewels are mine!" With a quiet dignity new to her, and which madame herself might have exhibited, she turned to the inspector. "Mr. Blake, as the person robbed and the owner of the stolen property, I authorize you to do all that you can to recover it; but take no course of action which has in view the crimination of Virtue Dent. She is innocent, and I will never be a party to shaming her with even an assumption of guilt. Any question which you may wish to ask me I will answer of course, and I will give you any information which lies in my power. But remember, if you please, that I not only make no charge against this girl, but that I refuse to hear any more." She broke off, passed her hand over her forehead, and looked at him again. "Is there anything more that you wish to say to me now?"

With an air almost ridiculous; perplexed and astonished, the inspector shook his head, then darted a discomfited glance at madame; but madame was looking steadily out of the window, and she would not see Natalie turned away quietly, crossed to Virtue, who was sobbing still, and put her hand upon her arm. "Don't trouble about it, Virtue," she said, sweetly. "I am more sorry than I can tell that this has happened. Don't cry any more—there's a good girl; it is sure to come right in a week or two, you know." She flashed a bright, scornful glance at the white face of mademoiselle, who was still looking at her amazedly, and then moved across to Valla. "I am tired, Valla," she said. "Come with me," and with that she passed out of the room.

CHAPTER XXXIII.

Two days passed, but nothing occurred to throw any light upon the disappearance of Natalie's jewels, and it seemed likely to remain a mystery. Indeed Miss Nat had so tied the inspector's hands by her course of conduct that the unlucky officer could really do nothing. He openly persisted in his belief that the robbery had been committed by some one within the house, and, failing to find any clue, he was obliged to leave the room, not even madame making any effort to detain her.

## Psoriasis All Over Body

Doctors Said Incurable, But Now There is No Sign of Disease, Thanks to Dr. Chase's Ointment.

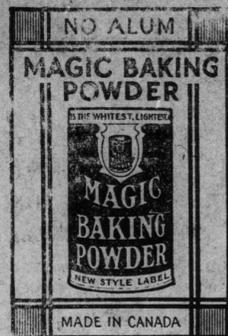

Mrs. N. Massey.

Psoriasis is one of the most dreaded of itching skin diseases. It is a sort of chronic eczema. The itching it causes is almost beyond human endurance, and doctors are accustomed to give it up as incurable.

But here is a case that was given up and pronounced incurable. The result proves that Dr. Chase's Ointment almost works miracles in curing the worst form of itching skin disease imaginable. Mrs. Nettie Massey, Concession, Ont., writes:—"For five years I suffered with what three doctors called psoriasis. They could not help me, and one of them told me if anyone offered to guarantee a cure for \$50.00 to keep my money, as I could not be cured. The disease spread all over me, even on my face and head, and the itching and burning was hard to bear. I used eight boxes of Dr. Chase's Ointment, and I am glad to say I am entirely cured, not a sign of a sore to be seen. I can hardly praise this ointment enough."

The soothing, healing influence of Dr. Chase's Ointment is truly wonderful. Eczema, salt rheum, barber's itch, ringworm and scores of such irritating ailments are relieved at once, and as certainly cured if the Ointment is used persistently. Mothers find Dr. Chase's Ointment invaluable in preventing and curing the skin troubles of babies, such as chafing, irritations of the skin and baby eczema. Dr. Chase's Ointment, 40 cents a box. All Dealers or Edmondson Bates & Co., Limited, Toronto.

and coat, and stepped out into the moonlight and the crisp, cold air. Walking and brooding uneasily and gloomily enough, and paying little heed as to the direction in which I went, it was not long before I found myself at the little gate leading into the lane. For a minute I stood leaning over it and thinking, my thoughts flying, as they nearly always did, to Roger York. I had seen him only once since the loss of the jewels, and then he had been cold and taciturn—as unlike my friend, as possible. I do not believe he himself knew exactly what his plans were, but he was steadfast in his determination to leave Whittleford as soon as might be—within the next week or two probably. That I was intensely miserable about it I need hardly say; and now, as I thought of it, the fancy came into my head to go over and see him. Most likely I should find him at the village, and if I did not, the walk to the village would be at least as good as mooning about by myself, getting more miserable every minute. I being fidgeted to exasperation by mademoiselle and her knitting, I swung open the gate and turned toward Whittleford.

Walking pretty briskly, I soon got into the village, and so on into the High Street, where the few shops were lighted up brightly. Among the brightest was Haddon the tailor's, and that personage himself stood at the door, complacently surveying things in general and his own window in particular. Of course he saw me, and said "Good-evening," and I was obliged to stop.

"Good-evening, Haddon. Awfully cold, isn't it?"

"Well, it is, sir, but seasonable—seasonable. Doesn't do to expect good weather here all the time, does it? Beg your pardon, sir, but nothing new at the Mount, I suppose—I may ask the question?"

He meant about the jewels, of course; ever since the robbery every one who got a chance to speak to me had contrived to drag them in. The fact is that Whittleford had not had such a fine subject for gossip for the last ten years, and so was enjoying its unwonted treat to the full. But I was getting heartily tired of saying the same thing incessantly, and now answered shortly that there was nothing new, and, furthermore, that I did not expect anything. Haddon raised his eyebrows and looked sympathetic.

"Ah, indeed, sir? Nothing new, but yet they say that Inspector Blake is a sharp man too."

"He isn't sharp enough to catch the thief in this case, anyhow," I returned.

"Just so, sir; and each day makes me more unlikely, of course. Most mysterious, I am sure. But I beg your pardon, sir—I am keeping you, it is cold. Walk in, pray. Mr. St. George is at home—indeed his dinner was taken up only a few minutes ago—he has been out all the afternoon, it is said. Walk up, sir, pray!"

Now certainly I had not come out with the idea of seeing Raby St. George at all, much less of absolutely going to see him; but Haddon stood out of the way, so evidently expecting me to go in as a matter of course that I did so almost without thinking. I had not seen St. George since the day when I had interrupted that scene in the park, and more than once since then, thinking of his white face and wild eyes, I had been sorry, and pitied the man. I had said something then too which had hurt him, although without any intention of doing it; and so altogether I thought that being here I would just say a word or two to him. It would not take long, and I knew he liked me.

Well, as I was going to say, he had been, and he had taken himself off; Nat was upstairs; madame sat by the fire pretending to read, and by a little table with a shaded lamp upon it mademoiselle was established, clicking her needles as she worked away at her everlasting knitting. The silence of the great room, broken only by the crackle of the fire and the regular click-click of the needles, worked me up gradually into such a state of nervous excitement that I could not sit still, or read, or at last keep quiet in my chair. I looked at my watch; it was barely half-past seven—for dinner had been earlier than usual. I would go out, I thought, and stroll about the park until I was tired. I left the room quietly, got my hat

besides. I ran upstairs, thinking as I went of the amount of mischief which our nut-brown maid's black eyes had contrived to do in the few months which had elapsed since they first shone upon our quiet corner of the world; and for the hundredth time I wondered what the end of it all would be.

I tapped at the door of St. George's sitting-room, and, pushing it open almost at the same time, saw him before he saw me. He was sitting at the table, but, with his plate pushed away and his eyes cast down moodily, seemed to have forgotten his meal. He glanced up at the sound of the opening door, and it seemed to be that his haggard face looked ten years older. He started up and greeted me cordially enough, though rather constrainedly, too; and at his invitation I sat down in a chair by the fire, he resuming his own seat, and beginning upon his dinner quickly, as though not wishing me to notice that he had forgotten it before. One or two questions he asked about the robbery, listening with but a languid interest to the replies, and hoped that madame was well, never mentioning Nat's name at all. Then we were both silent, he sitting drawn back from the table, toying with a knife as he looked at the fire, and I sitting looking at him awkwardly enough. The fact is that, being there, I wanted to say something, but did not in the least know how to bring it out. At last I began, coloring and stammering a little too:

### Masonic Lecture.

It was determined some years ago, by the Masonic fraternity, to have alternate sermons and lectures in connection with the Tasker Educational service, and to-night Past Master C. S. Pinaent, Esq., will begin the fourth Biscanal lecture. Mr. Pinaent is Past Deputy District Grand Master of the English Lodges and it is a rather striking coincidence that the youngest Past Master, Mr. Walter Edgar, delivered the lecture last year. Mr. Pinaent is deeply versed in Masonic annals and history in Newfoundland, and no doubt, a large gathering of the members of the Mystic Tie will assemble to hear the discourse and incidentally help the Tasker Educational Fund which has done so much

### Our Outgoing Road Board.

While the new Bell Island Council has had much newspaper space devoted to it, we have seen nothing about the outgoing Road Board. We desire here to speak a word in their behalf. They held a very unenviable position, and were blamed for many things for which they should not have been held responsible. They had little money to do a big work and if they failed to satisfy the public it was principally because they had no money at their backs to make the necessary improvements. And we would venture to say that if the new Council does not receive a goodly sum, for public expenditure, it will also be unable to carry out the many needed reforms.—Wabana Druggist.

### Bruce Passengers.

The Bruce arrived at Port aux Basques at 8.20 a.m. today, bringing J. and Mrs. Wels, C. B. Daby, Jas. Barry, Z. Moore, W. J. Halley, G. G. R. Parsons, J. M. and Mrs. McDonald, A. Lewis, T. Bellin, N. ### B. I. S. Will Not Parade.

The adjourned annual meeting of the Benevolent Irish Society was continued yesterday morning, President Hon. J. D. Ryan, in the chair. Six new members were admitted, and the usual routine business transacted.

The matter of the celebration of St. Patrick's Day was discussed, and it was decided that in view of this day falling on the Monday of Holy Week, which prevented the usual attendance at High Mass, to hold no parade of the body this year.

His Grace the Archbishop, the Patron of the Society, has, however, kindly given permission to the Society's Dramatic Troupe to hold the usual national performance in honor of the festival, on the afternoon and evening of Monday March 17th, and accordingly the Society's recognition of the anniversary of Ireland's Patron Saint, will this year take this form. This being the regular holiday, the Society, will, therefore, not proceed with the proposal to ask for an alteration.

### McMurdo's Store News.

MONDAY, March 3, '13.

Jergen's Violet Glycerine Soap can justly claim to be a triumph in Glycerine Soap making, such a remarkably fine product is the result of the process. It is a transparent soap, and is thoroughly well dried before being marketed, so that its lasting qualities are remarkable. Daintily but sufficiently perfumed, it imparts the odor of natural violets for the toilet, bath and shampoo. There is no free alkali, so this soap cannot injure the skin or complexion. It sells at the very reasonable price of 15 cents a cake, or two cakes for 25 cents, and is worthy of attention from all lovers of good soap.

Throat and Throat-Ease is an excellent lozenge for hoarseness, throat irritation and sore-throat caused by cold, smoking or the overirritation of the voice. These lozenges are delightfully soothing and cooling to inflamed membranes. Price 15 cents a box.

**MANY SEALERS ARRIVE.**—The local train which arrived to-day brought in over 200 sealers from Conception Bay.

**LOADING FOR BRAZIL.**—The Clutha is loading at Bishop & Sons for Brazil. She sails the latter part of the week.

**MILD OVER WEST.**—It is mild to-day across the coast with little snow. The Topsails are clear. No rotary going over them last night.

**BELL GOES NORTH.**—The s.s. Bellaventure sails this afternoon for her sealing crew calling at Pool's Island, Trinity and Greenspond.

**HEAVY ICE; NO SEALS.**—Messages received to-day, state that the northern outports are blocked with ice, and that there are no seals in sight.

**DISLOCATED HER ARM.**—While driving from Portugal Cove to Torbay to visit friends yesterday, Mrs. Churchill, of the former place, was thrown from the sleigh and had her arm dislocated. She was attended by Dr. Shankland.

**BUYERS COMING.**—Messrs. A. Goodridge & Sons had the following message to-day from Mr. Geo. Mott, dated Manchester: "Sailed Friday for Halifax with Messrs. Robertson, Ayre (2), Mrs. Mitchell, Miss Carberry and Miss Stick."

**HANDSOME PRESENT.**—Mr. M. Brown, of Bishop & Sons' retail store, who was married Wednesday last, was presented Saturday evening by his fellow employees with a handsome dining room lamp as a wedding present. Mr. Harry Mitchell made the presentation and the recipient heartily thanked the kind donors.

### The World's Iron.

"When will the world run short of iron? The question is suggested," says the Daily Chronicle, "by figures given in a Parliamentary White Paper, dealing with the iron and steel trades during 1911."

"It is estimated that the total actual resources of iron existing in deposits at present that can be worked at a profit amount to 10,192 million tons. This would supply the world for considerably less than two centuries, even were the present rate of output not exceeded. Resources not yet developed are estimated at 63,186 million tons, and very large supplies of iron ore are said to exist in China, Canada, and other countries, but no definite information as to their extent is yet available. The total quantity of pig-iron produced in the world in 1911 may be estimated at about 63 million tons. The world's output of steel may be estimated at between 58 and 60 million tons."

According to official information received here the Balkan States insist upon following the conditions for conclusion of peace even through the mediation of the Powers. First, contracting parties pledge themselves to an immediate and simultaneous cessation of hostilities after signing the treaty of peace. Second, contemporaneously, Turkey must surrender to the allies Adriatic, Scutari and Janina. Third, Bulgaria-Turkish frontier shall extend from Rodostop to Midia, an exact line to be established by military commission composed of Bulgarians and Turks. Fourth, Peninsula Gallipoli to be ceded to allies. Fifth, all Aegean Islands occupied at present by Greeks be ceded to allies. Sixth, prisoners of war and hostages to be exchanged with briefest delay. Seventh, Turkey pay allies \$300,000,000 war indemnity, deducting from it, however, that portion of the Ottoman public debt borne by Turkish European Provinces.

# SEALERS and FISHERMEN!

Secure a pair of GENUINE SPECIAL ICEGRAIN SEALING and FISHING BOOTS. Always SOFT and WATERPROOF. Manufactured by THE NEWFOUNDLAND BOOT & SHOE MANUFACTURING CO., Limited, Job Street. Can be bought from all reliable dealers. Insist on getting the genuine article. 10,000 pairs sold last season.

**TESTIMONIALS.**  
(Copy.)  
Care General Post Office, Portland, Oregon, Sept. 6th, 1912.  
C. R. THOMSON, ESQ., Manager Nfld. Boot & Shoe Co., Ltd., St. John's, Nfld.  
Dear Sir,—This will introduce to you, Mr. A. G. Park, of Wolf Creek, who is one of the largest ranch-owners in this State. He is anxious to secure the exclusive agency for California, and Oregon, for your special boots.  
We have had the very best satisfaction from the boots which you made for us, when we were last in Newfoundland, and so far, we have travelled 25,000 miles in them, and they are still in first-class condition.  
I may also add that we have had them resoled seven times.  
In closing would say that should you decide to establish an agency here I know of no one better suited than Mr. Park to take it, as he has a very large acquaintance among his fellow-ranchers.  
Yours very truly,  
HARRY HUMPHRIES and WIFE, Travelling round the world.  
Law Chambers, St. John's, Feb. 28th, 1913.  
The Nfld. Boot & Shoe Mfg. Co., Ltd.  
Dear Sirs,—In December of 1910, you supplied to my order a pair of boots made from the "Icegrain" leather, manufactured by the Sudbury

Tannery, and you now ask me to report my experience of their use.  
I wore the boots constantly during the winter and spring of 1910-11 and of 1911-12. They proved to be perfectly watertight, warm, soft, and comfortable, and of very enduring quality. They are infinitely superior to porpoise hide boots in resisting snow-water, and they do not, like porpoise hide boots, harden, and crack and keep the feet cold.  
I am still wearing the same pair of boots, and there is yet no sign of cracking, or hardening of the leather, and they have kept their original shape, without stretching or wrinkling.  
Yours very truly,  
(Sgd.) HERBERT KNIGHT.  
St. John's, Nfld., March 1st, 1913.  
C. R. THOMSON, ESQ., Manager Nfld. Boot & Shoe Mfg. Co., Ltd.  
Dear Sir,—I take pleasure in bearing testimony to the extraordinary value of my pair of "Icegrain" leather boots that you made for me four years ago.  
They are remarkably light and comfortable to wear, but the best quality of all is that in spite of four winters' hard usage they are to-day, as thoroughly waterproof, as on the day they were first worn. These boots have come new from the wet cold weather of spring, and also during heavy rains, and for out-of-town holiday trips.  
Yours truly,  
(Sgd.) PERCIE JOHNSON.

Celebrated "Icegrain" Sealing and Fishing Boots.

St. John's, Nfld., March 1st, 1913.  
C. R. THOMSON, ESQ., Manager Nfld. Boot & Shoe Mfg. Company, Limited, St. John's, Nfld.  
Dear Sir,—Replying to your inquiry of recent date as to how I found the boots made from your "Icegrain" leather, I wish to say that I consider the article meets all the requirements of a waterproof boot.  
It is most durable, and after twelve months wear is soft and pliable as when they first left your hands.  
Yours faithfully,  
(Sgd.) C. P. EAGAN.

C. R. THOMSON, ESQ., Manager Nfld. Boot & Shoe Mfg. Company, Ltd., February 28th, 1913.  
St. John's, Nfld.  
Dear Sir,—It affords me great pleasure to add my testimonial to those you may already have about your "Icegrain" waterproof boots.  
Four years ago I purchased a pair of these boots, and two years ago had another pair made, and the first pair is to-day as good as when they left your hands, with the exception that they have been re-soled.  
I have worn many kinds of so-called waterproof boots, but never had such satisfaction and comfort as that which I experienced since wearing your boots.  
I have and shall recommend your goods to every one I know who are looking for a genuine waterproof boot, combined with softness and pliability.  
Yours truly,  
CAPT. COUCH.  
153 Gover Street, St. John's, March 1st, 1913.  
St. Mary's Parsonage, Curling, Bay of Islands, Dec. 3rd, 1912.  
THE MANAGER, Nfld. Boot & Shoe Mfg. Co., Ltd., St. John's, Nfld.  
Dear Sir,—Last year Mr. Sweet got a pair of "Icegrain" leather gaiters from your factory.  
I would be much obliged if you would send me a pair of the same kind, size 9.  
My boots are still good and tight, though they have had hard usage. I

want the above for a friend.  
I am, dear sir,  
Yours very truly,  
(REV.) HENRY PETLEY.  
St. John's, Nfld., February 28th, 1913.  
C. R. THOMSON, ESQ., Manager Nfld. Boot & Shoe Mfg. Company, Limited, St. John's, Newfoundland.  
Dear Sir,—In reply to your inquiry, I beg to say that the "Icegrain" boots made by your Company for myself and my boys have been entirely satisfactory both as regards their wearing qualities and their imperviousness to water. I can recommend them for sportsmen and others needing a light waterproof boot.  
Yours very truly,  
(Sgd.) CHAS. O'NEILL CONROY.  
(Copy.) Waverly Hotel, Campbellton, N.B., Canada.  
C. R. THOMSON, ESQ., Manager Nfld. Boot & Shoe Mfg. Company, Limited.  
Dear Sir,—I would like very much to secure the agency for the Maritime provinces and Quebec for that special boot which you manufacture.  
From the recommendations I have had from several parties who have worn your boots, I feel sure that a big trade for them can be secured, with the best accounts, in the above territory.  
Kindly send me a pair as a sample.

and trusting to receive an early reply.  
Yours very truly,  
(Sgd.) CHARLES A. LeBLANC.  
Croable Hotel, St. John's, Nfld., Sept. 27th, 1912.  
C. R. THOMSON, ESQ., Manager Nfld. Boot & Shoe Mfg. Company, Limited, St. John's, Newfoundland.  
Dear Sir,—Early in the summer I purchased a pair of your water-tight engineer's boots for use in Labrador, and I wore these boots during my Labrador trip, and also on several long surveying trips I made in Newfoundland.  
They were subjected to very rough usage, but I have pleasure in informing you that I found them satisfactory in every way. They were perfectly water-tight.  
I could safely stand in water, and on wet ground all day without any water entering them, and the sole leather withstood heavy travelling over the roughest country.  
I have had similar boots made for me by many of the leading American manufacturers of engineers' boots, but never had a pair to give such satisfaction as those made by you.  
I am informed by several local engineers who have purchased boots from you that they find boots manufactured by you for engineers' use invariably give the greatest satisfaction.  
Yours very respectfully,  
(Sgd.) ARTHUR SELWYN BROWN, C.E., PH.D., LL.D.

## Women's Mission Ends

**A SPLENDID COLLECTION.**  
Yesterday afternoon the Mission for the women of St. Patrick's Parish came to an end. At 3 p.m. devotional exercises were given and a beautiful sermon was preached by Rev. Fr. Brock, after which there was Benediction of the Blessed Sacrament. At Saturday night's service the altar of the Blessed Virgin Mary was beautifully decorated by the women, natural flowers predominating in the ornamentation, while myrtle tapers lighting at the shrine rendered the scene in the Church most impressive. A splendid collection was taken up yesterday afternoon among the women at the close of their mission, the sum of \$648 being subscribed by them. This is a most liberal return for St. Patrick's Parish which is not nearly as populous as the Cathedral parish.

**MEN'S MISSION BEGINS.**  
At the 10.30 Mass yesterday Rev. Fr. Holland was the Celebrant, and Rev. Father Brick preached a very eloquent, earnest and convincing sermon on the efficacy of prayer. The Mission for the men opened at 7 p.m. yesterday and it was edifying to witness the great concourse of men present. The church including the aisles was packed from the Sanctuary rails to the main doors, and the responses in the Rosary which was recited by the Rev. Father Brick were given loudly and with evident devotion. Rev. Fr. Holland occupied the pulpit and delivered a practical and impressive sermon on the salvation of the soul in which he showed how man must work and watch and pray if he is to save his soul. Benediction of the Blessed Sacrament was given by Rev. Fr. Kelly, and the music was rendered by the boys of the city Name choir in faultless style.

Mass was celebrated at 5 a.m. to-day and Rev. Fr. Brick and also at 8.30 and on each occasion the church was crowded with men.  
In the Cathedral parish 9,000 adults went through the Mission.  
At St. Patrick's the men's mission began at 11 a.m. and will continue at 3 p.m.

## Father McCandish Preaches.

Last evening, Pontifical Vespers were celebrated at the R. C. Cathedral after which Rev. Fr. McCandish ascended the pulpit and preached an impressive and touching sermon on the efficacy of prayer, taking as his text: "Hitherto you have asked nothing in My name." St. John, 16th chap., 24th verse. We should pray devoutly and with humility and perseverance. It is said the preacher, the spiritual food of our souls and without prayer we cannot expect to save our soul. At the close of Benediction of the Blessed Sacrament was imparted by Rev. Dr. Greene.

## OBITUARY.

**JOSEPH HORWOOD.**  
The death occurred at the General Hospital last evening after a lingering illness of Mr. Joseph Horwood, in his 67th year. Mr. Horwood was well known and highly respected man, and a cooper by trade, gave the best part of his life to the service of his native city in the Fire Department. He was a fire fighter of note and was prominent in the old Cathedral and Volunteer Fire Brigades, as well as in the re-organized forces under Inspector General McCovey and Sullivan. He held the rank of Sergeant, up to his retirement last year on a pension. His wife predeceased him by some months. He was an ardent hunter and Watsonian. He had many friends in St. John's who will learn of his demise with regret.  
MRS. E. McGUIRE.

The oldest resident of Torbay and one of the oldest women in the county in the person of Mrs. Elizabeth McGuire, died on Saturday last after a short illness. The deceased was the relict of the late John McGuire, who had reached the remarkable age of nearly 100 years and almost up to the day of her death her faculties were unimpaired. Only a few weeks ago her daughter, Mrs. Byrne, passed away. Mrs. McGuire leaves one son and two daughters with several grand and great-grandchildren. Detective Sergeant Byrne, of the Police Department, is a grandson, while a large number of relatives also survive her. The funeral took place to-day at Torbay.

Minard's Liniment Co., Limited.  
Gentlemen,—My daughter, 13 years old, was thrown from a sleigh and injured her elbow so badly it remained stiff and very painful for three years. Four bottles of MINARD'S LINIMENT completely cured her and she has not been troubled for two years.  
Yours truly,  
J. B. LIVESQUE.  
St. Joseph, P. O., 18th Aug., 1900.

Special Evening Telegram.  
LOS ANGELES, March 2.  
Happiness and excitement killed Marcellina Leon, said to be 106 years old, after she had shown strength of mind and body sufficient to win her way and obtain the consent of the courts to marry a man, who for 50 years had been her sweetheart. She is dead at her home, to-day, after being a bride for five days. Relatives opposed her marriage to Plesantine Leon, 87 years old. She fought them in the courts and obtained the dissolution of her niece as guardian, establishing her competency to do as she chose. Shortly after the marriage ceremony she collapsed.

## Missionary Anniversary.

At George St. Church.  
The services at George St. Church yesterday were of a missionary character, and will long be remembered by all who were privileged to attend. At the morning service the pastor, Rev. J. W. Egan, was the preacher. His text was taken from St. John's Gospel, chapter 10, verse 16: "Other sheep I have which are not of this fold." These are the words inscribed on the monument of David Livingstone at Westminster Abbey, the centenary of whose birth we celebrate this month, and regarding whose life and work the preacher spoke. The lessons for the world from the life of this great missionary were given with eloquence and power as he reviewed his life and emphasized the

decisive moment when Livingstone heard God's call and obeyed. The extensive Christian work carried on right throughout Africa to-day is a living monument to the heroic sacrifices and marvellous faith of this great man of God. The preacher's application of the theme was intensely practical and made a deep impression.  
A large congregation at the evening service availed of the valuable opportunity of hearing a noted missionary from the heart of the great Chinese Empire. Rev. Dr. Endicott, who has just returned from China, where he and his wife labored for twenty years, was the preacher. His topic was: "Missionary work in China twenty years ago and to-day." Commencing with the first years of his labours he placed the condition of things in striking way before the audience. When he undertook work in that country, difficulties on every hand appeared insurmountable. Although protection was officially provided, still

the attitude of the people was such as to make life almost unbearable. The opposition could be accounted for by reason of universal ignorance, racial pride, religious intolerance and political antipathy. The inconceivable superstition of the people, coupled with an intense hatred of the "foreign dogs and devils," placed missionaries in an impossible position from the human standpoint. The atmosphere was surcharged with a hatred of the foreigner, aggravated by an onslaught on a religion and traditions in which the Chinese life has been steeped for long centuries. Now, however, a change has come to pass, such as has not been witnessed in any country in all history, and this change is the development of practically the last five years. An enormous and far-reaching awakening has taken place, which is changing every phase of life. In no way is this noticed more than by the fact that the Chinese are becoming a reading people. Educa-

tors are amongst them who have passed through the universities of the world, and enlightenment is supplanting ignorance everywhere. In this fact lies the great hope of the future. Education is as John, the Baptist, making plain the way of the Lord. Also, the moral improvement of the people is most remarkable. No country in the world has ever grappled with an evil as China has with the opium question. She determined to stamp it out. It first in face of tremendous opposition from outside, but with bewildering rapidity has almost completely over-taken it.  
The keynote of the address was that of optimism. When first he went to that country there was nothing more discouraging under the sun, but since then "Breath from the hills of God has swept over China," and she now stands at the parting of the ways, leaving the superstitious traditions of the ages for the light of Christianity. The discourse was a earnest and eloquent appeal for the prayers and support for the Church in the great work in that land.  
Special missionary music was provided by the organist, Mrs. R.F. Horwood, and the choir. The anthem at the morning service was "Make a joyful noise unto the Lord," and that of the evening service, "The Radiant Dawn." Also a solo by Miss Elsie Herd. "Oh, Rest in the Lord," was rendered beautifully and very much enjoyed by all.

### Rev. Dr. Endicott at Wesley Church

The Rev. Dr. Endicott presided at Wesley Church yesterday afternoon, taking as his subject "The Development of the Christian Church in China." The preacher began his discourse from the advice quoted by William Carey, the coiner, namely, "Is it true so many millions in the vast continent of Asia worship idols?" He resolved to tell the masses that were in darkness that the Saviour did not die for a section of humanity, but for the whole world. The preacher reviewed the condition of affairs in Western China, when he went there twenty years ago, and how it flourished since among the ten millions of people which were under the charge of the Methodist Church of Canada. The doctor explicitly told of the adversities encountered by the missionaries in a foreign land. He reviewed how the women stood at doors and bolted them and explained how dangerous and treacherous the men were. He told touchingly of the methods conceived by which to distribute the Word of God. The preacher related a very interesting story of the reformation of Wong, the opium victim. The preacher was of the opinion that in future, China will evangelize its own people by its native preachers. They can do it better than our people because of their smiles and customs.

Last night, Rev. F. R. Mathews preached on the career and usefulness of David Livingstone, whose centenary will be celebrated on March 10th. Owing to Dr. Endicott's engagement this week, the meeting set down for to-morrow night has been called off.

### Breaks a Cold in a Few Hours—Pape's

First dose Pape's Cold Compound relieves all grippe misery.

After the very first dose of "Pape's Cold Compound," relief distinctly felt the cold breaking and all the disagreeable grippe symptoms leaving.

It is a positive fact that a dose of Pape's Cold Compound, taken every two hours until three consecutive doses are taken with cure Grippe or break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly ends the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrh, discharges, soreness, stiffness and rheumatic twinges.

Take this wonderful Compound with the knowledge that there is nothing else in the world which will cure your cold or end Grippe misery so promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist can supply. It contains no quinine—be sure you get what you ask for—no opiate—no substitute—beings in every home. Tastes nice—acts gently.

### The Police Court.

A drunk and disorderly was fined \$5 or 14 days' imprisonment for 31 days and a third was discharged. In the magistrate's court two Water St. firms were summoned for permitting waste of water to take place on their premises. One firm was nearly heard and postponed till Friday to be concluded then. The other was finished and the defendant was ordered to pay costs.

An assault case was dismissed for want of prosecution. If you would have your eyes accurately tested and correct glasses fitted, see H. H. TRAPNELL, Eyeglass Maker, 101-103.

### To-Day's News.

Special to Evening Telegram.

**NAPLES, To-day.**—Rumblings at Mount Vesuvius, which had been persistent for some time past, have caused considerable alarm in the fear that an eruption may be pending. New cracks and fissures can be seen and a great mass of basalt has rolled down.

**MEXICO CITY, To-day.**—General Felix Diaz was accorded a great ovation at the bull ring, the first performance of the Matadors sport since before the bombardment of the capital. Ten thousand spectators stood and cheered lustily when Diaz entered his box in the arena, attended by his Secretary and Chief of staff and a few friends. The hero of the revolution was forced to rise time and again to acknowledge the demonstrations. Diaz granted the request of the Matadors to kill the bull and presented favors to the popular heroes in the arena. When the animals had been despatched at noon, President Huerta, General Diaz, General Mondragon, and General Blanquet stood on the balcony of the National Palace and reviewed a parade organized by the Felix Diaz Club in honor of the men who were most closely identified with the recent revolt. A feature of the parade was the rickless horse of General Bernardo Reyes walking behind the carriage in which reposed a painting of the General draped with crosses. Bared heads along the route evidenced the love and admiration of the people of the Capital for the dead chieftain.

**CONSTANTINOPLE, To-day.**—The Government appears to be apprehensive of a fresh revolution since the discovery of a conspiracy on Thursday, when several prominent officers and civilians, including a former military Governor, were placed under arrest. Young Turk leaders are nervous. The garrison has been increased by two regiments; the guards at the Porte has also been strengthened. Other measures were taken to enable immediate suppression of any attempt of a coup. Many officers have been dismissed from military service. "Thin-skinned" officers delegated by the army at Teheran, to make representations to the Government, were arrested to-day on their arrival at Constantinople. Severe weather continues, and the country is covered with snow. French and Italian steamers passing Charcut have been fired upon by Bulgarians. One Italian vessel was badly damaged and in consequence was beached. Reported British vessels attracted the fire of the Bulgarians.

**BERLIN, To-day.**—Emperor William is credited in connection with proposed increased peace footing of the German Army with the remark: "1912 was a year of sacrifices, but 1913 also be so, for every one for the time is scarcely less critical than in 1813." First cost of Germany's increased armaments, according to a semi-official announcement is to be covered by an unprecedented general levy on property. German subjects throughout the Empire are to be called upon to contribute a lump sum in proportion to their possessions. Relieving houses, according to an official report, are to be asked to sacrifice their freedom from taxation, but persons possessing less than \$750 or \$12,500 according to the decision of Parliament, when it deals with the subject, are to be exempt from levy. Estimated \$20,000,000 as cost of the change published to-day. Generally accepted as reliable the proposal of a general levy is regarded as making the German army increase in value as much a national sacrifice as is the French extension of active service in the army from two to three years. Other taxation contemplated in order to cover the regular annual change brought about by increased force. Emperor William is reported as favoring both general levy and taxation.

### From the Wabana Druggist.

The utility of the Beach Hill new road has been amply demonstrated this winter. For the past two months the old road has been a sheet of ice and wholly impassable, and had the new road not been opened, very little freight could have been brought from the Beach. Next summer we hope to see the road completed. We presume the new Local Council will henceforth have charge of the public roads, and we are safe in predicting that if they can get adequate funds the Beach Hill and Fancy Hill and a few other hills, will be put in passable condition.

Mr. McGrath has placed four new pews in the choir of the R. C. Church. The pews are of high class and elegant finish and cost in the vicinity of \$400.

The S.S. "Euphrates" became caught in the ice off the Nova Scotia Co.'s pier on Saturday, February 28th. The steamer had 150 men on board, all bound to their homes at the head of the bay. The men landed from the steamer on planks.

The Dominion Co.'s new store and staff house are both now well under construction and the former building will be completed in the spring. The staff house which is just south of the new store will probably be ready about June.

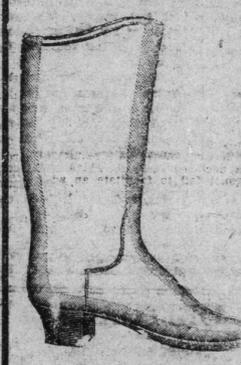

### Getting Childish.

How are the mighty fallen! The little man whose utterances (according to himself) heretofore would be the talk of the clubs, societies, etc., is gone "daffy," as a friend of his would say. Saturday he became hysterical, certainly incoherent, and what relevancy hockey has to the employment of a Northern boat only himself knows. The poor little man is getting childish and should be superannuated. Now, as regards the Northern boat, seems the Telegram's words have had effect. The Herald to the contrary notwithstanding, and to-day the Government are hastily confining and fitting out the Stella Maris to go as far North as possible. This will certainly jar the little editor who claims that because the "powerful" dreadnought Kite could not get along North nothing else could. As regards "rattling," what a subject for one who ratted from the Winter party, then ratted from the Bond party and is prepared to-morrow if he saw defeat ahead to rat from Morris.

Samuel Thorne et al. vs. Eli Thorne and Richard Codrington, executor.  
This was an application on the part of the plaintiff, that as the master has reported herein pursuant to an order made on the 23rd of January 1912, an order be made for the administration of the Estate. Kent K.C. was heard in support of the motion.  
Gibbs, K.C., for defendant, consented, and it was order accordingly.

Special to Evening Telegram.

**LONDON, March 2.** The Daily Telegraph claims special information regarding the Turkish-Balkan situation, in which peace is said to be nearer than at any time since the beginning of the armistice on December 3rd. Turkey is about to entrust her cause unconditionally to the Powers, who will treat directly with the Allies.

**ATHENS, March 2.** Heavy losses were inflicted on a Turkish detachment which was routed yesterday by a Greek force near Molaita, to the north of the fortress of Janina, after a severe battle. The fight is said to have lasted six hours. The Greeks declare that they buried on the field 112 Turks, including 8 officers, besides taking 180 prisoners. The Greek losses are given as only 4 wounded, but independent observers here regard the story with some scepticism.

**BERLIN, March 2.** The new German military bill involves an expenditure of about \$250,000,000 spread over three or four years. Thereafter there will be an annual increase of the Army Budget of from two hundred to two hundred and fifty million marks. A large part of the billion marks is to be devoted to the building of forts on the eastern frontier, while a hundred and fifty million marks will be used for new barracks.

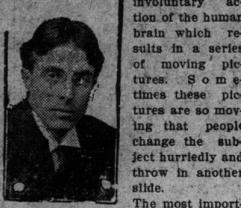

**LONDON, March 2.** To-day's inauguration by the suffragettes of the period of self-denial, was attended by demonstrations inconspicuous for its success. Crowds of people showed a new spirit, and a number of wrecked barrel-organs and dishevelled suffragettes was the result. This evening the police were obliged to rescue women who had fallen into the hands of gangs who threatened to strip them and duck them in the nearest fountain.

**LONDON, March 3.** The Turkish Government has definitely abandoned her prohibitive stipulations in connection with bringing about cessation of hostilities and has placed the Ottoman cause unreservedly in the hands of the European Powers, with the request that they conclude peace as advantageous as possible for Turkish interests. Unless, as has been the case heretofore, and Turkey changes her mind before negotiations can be brought to fruition, it is believed in official circles here that peace negotiations will be resumed speedily, and with every prospect of an early settlement.

**RIGA, Russia, March 2.** Over 30 steamers are frozen fast in the Gulf of Riga. Ice-breakers have been sent to their assistance.

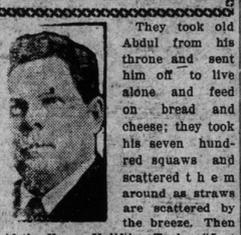

## Worst Stomach Trouble Ended.

No Indigestion, Gas, Heartburn or Dyspepsia five minutes after taking "Pope's Diapepsin."

Every year regularly more than a million stomach sufferers in the United States, England and Canada take Pope's Diapepsin, and realize not only immediate, but lasting relief. This harmless preparation will digest anything you eat and overcome a sour, gassy, out-of-order stomach five minutes afterwards. If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Get from your Pharmacist a 50-cent case of Pope's Diapepsin and take a dose just as soon as you can. There will be no more sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors. Pope's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there. Relief in five minutes from all stomach misery is waiting for you at any drug store. These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disorder.

## Reform in Turkey

They took old Abdul from his throne and sent him off to live alone and feed on bread and cheese; they took his seven hundred squaws and scattered them around as straws were scattered by the breeze. Then watch us run the blooming works and cleanse corruption's pool. The lid is on the Tyrant now, and peace shall rest on Turkey's brow, when we, the Peepul, rule! From nations that are wise and great we'll learn the way to legislate, and gather helpful hints; we'll pass a thousand bully laws and elocute until our jaws are all done up in splints! Now look at Turkey, reader fair, and note that peace that's reigning there, the peace so lately born; and mark the happy people sing and smile and dance their Highland Fling and chortle—in a horn. The little war of which you wot has hewn the Sirk Man has dry rot in body, soul and brains; of honesty here is no trace, there's crookedness in every place, and rascals hold the reins. And in the homes of Turkish men they long for Abdul back again, or, though he was a knave, he didn't claim to be a saint or on his brow a halo paint, or of the Peepul rave. You can endure a tough old crook who shows, by ever act and look, that he is wholly vile; but heaven save us from the frauds who fool us with their moral gawds and spring the saintly smile.

## Memory

BY H. L. HANN.

Memory is an involuntary action of the human brain which results in a series of moving pictures. Some of these pictures are so moving that people change the subject hurriedly and throw in another slide. The most important mission of memory is to keep a man from getting stung twice in the same place. A well-trained memory has prevented many a person from loaning music to a natural-gated procrastinator or biting heavily more than four times on a Wisconsin gold mine. If it were not for a ranking memory, the crop of suckers in this country would average 12,000 to the square mile. Women are endowed by nature with more tenacious memories than men. A woman can be married for thirty years without forgetting who played the wedding march. One of the severest trials a man has to endure in this life is to have his wife pull a pair of bridal slippers out of an old trunk and ask him to identify them by the pictures on memory's wall. Nine times out of ten he will murmur something about the last dance the hired girl attended or make some other sacrilegious guess, after which it will take a \$12 brooch to patch things up. Men who have been married for some time do not call upon their memory any oftener than is necessary. This is also the case with some women who made the fatal mistake of marrying a quadruped instead of a biped. Married people who can throw their memory back several years, however, without running into any serious snags, find it a great aid in conversation and use it without injurious effects. The memory of very old people sometimes backs up about sixty years and refuses to bring anything to the surface that happened since. This kind of memory can always recall the hard winter of 1862, but it is happily forgetful of the events of day before yesterday. If there was any of this kind of adjustable memory, there would be fewer people trying to forget the discourtesies and meannesses chalked up against them.

## 12 Months For Store Breaking

There arrived by the mid night train Saturday from Bowwood, Constable Churchill in charge of a man named Chaytor who was sentenced to twelve months imprisonment for breaking into the A. N. D. Co.'s store and stealing goods. The prisoner belongs to Bowwood. He was conveyed to H. M. Penitentiary yesterday to serve his term. Chaytor was convicted of a similar charge before.

## Sealing Notes.

The Labrador and Viking which sailed Saturday for Channel experienced quite a lot of difficulty in getting outside the Narrows owing to the ice that was coming from the north. The Neptune did not get away having abandoned the idea of going to Lunenburg for coal for fear of the Cape Breton coast being filled with ice. About a dozen stowaways went on the former two ships. The crews of the Ranger, Eagle, Bloodhound and Southern Cross will sign on to-morrow. The S. S. Beothic is due from Glasgow on Thursday when she will go north for her sealing crew.

## The Pricing Nuisance.

Editor Evening Telegram. Dear Sir—Will you please give me space in your valuable paper to suggest to the lady sale friends who inhabit this city, that if they want to go to sales and purchase, to do so, but for goodness sake, please do not get into the habit of going around the city from store to store, getting the prices of furniture, etc., and wasting the clerk's time, as he is another man's servant and is supposed to sell goods, and not to give you prices to take to a sale to compare with other goods. In conversation, recently, with two or three salesmen, I was informed that it is the practice for people before they go to sales to walk into the store of one of the men who wants to purchase a lot of goods, and have the clerks pull and drag every piece of goods they lay their eyes upon and will praise and admire the goods (also your patience), and will coolly inform you that they are going to or coming from a sale, and just wanted to see the price of this one, as Mr. Terbrush bought one just like that for so much. Now, Mr. Editor, we have no objection to people going to sales, but what we do object to, is for those friends who are to be found at every sale who go about from store to store tawking and putting other people's servant and convenience for nothing, but to satisfy themselves if they are being gulled or otherwise. Please remember it is just as much money to steal a person's time as his tin to steal a person's space. Thanking you for intruding on your valuable space, I remain, CHAIRS.

Warning  
To Sealers and to the Trade!

THE SUDBURY WATERPROOF SEAL AND LEATHER MANUFACTURING COMPANY, LIMITED, finds it necessary to state that they have lately heard of many complaints of the Waterproof and lasting qualities of boots pretending to be made of "Icegrain" leather. These complaints have been investigated, and have all been found to be made concerning boots which are not "Icegrain," and are not of leather manufactured by the Sudbury Company.

Warning is hereby given that the word "Icegrain" is the exclusive Trade Mark of THE SUDBURY WATERPROOF SEAL AND LEATHER MANUFACTURING COMPANY, LIMITED, and that every attempt to sell as "Icegrain" any leather or manufactured product of leather which is not manufactured by the Sudbury Company is a fraud and will be prosecuted as such.

Every side of the "Icegrain" leather manufactured by the Sudbury Company is stamped in many places on its inside with the word "Icegrain". Of this all manufacturers of boots and shoes are required to take notice. Sealers may protect themselves from imposition by demanding at the shops boots made of "Icegrain" leather. If any substitute is then palmed off on them it is a fraud, and persons who are so deceived are requested to communicate with the Sudbury Company. Further, all sealers' boots made of "Icegrain" leather can be identified by the stamp "Icegrain" which appears in several places on the leg of the boot and is easily to be perceived.

The Trade is particularly warned that every attempt to sell as "Icegrain" any leather or manufactured product of leather which is not manufactured by THE SUDBURY WATERPROOF SEAL AND LEATHER MANUFACTURING COMPANY, LIMITED, will be rigorously prosecuted.

The proprietors of the Trade Mark "Icegrain" are determined to protect the public and themselves against every effort to impose upon our people as "Icegrain" leather which are not the manufacture of the Sudbury Company.

The Waterproof and enduring qualities which have won such fame for "Icegrain" leather in the past will still be found in all genuine "Icegrain" leather, and in genuine "Icegrain" leather alone. These qualities cannot be imitated by any competitors. The Sudbury Company stands at the back of the "Icegrain" leather it manufactures. It cannot be expected to stand at the back of leathers which never saw their tannery.

Superior  
Merit Alone

Can win the approbation of those accus-  
tomed to the luxuries of life. Their approval is  
not lightly given. The unstinted praise accorded  
OLD HOME TEA by tea-drinkers of this class  
clearly proves its vast superiority.

Made from the finest, purest and most care-  
fully selected teas, OLD HOME is precisely  
what a perfect tea should be—full flavored, rich  
and exquisitely mild.
