THE hen is a contrary critter, which persists in laying lots of eggs when eggs are cheap, but lays only an odd one occasionally when eggs are dear, and when everybody wants fresh eggs, and can't get them. Another thing that causes annoyance is the habit that some hens have apparently formed of laying bad eggs.

ACCORDING to a scientific paper of Europe, chickens are now plucked in a wholesale manner by the use of pneumatic machinery. There is a receptacle in which the fowl is placed after being killed, and into this are turned several cross currents of air from electrical fans revolving at the rate of 5,000 turns a minute. In the twinkling of an eye the bird is stripped of its feathers, even to the tiniest particles of down, and the machine is ready for another.

ACCORDING to a statement by an officer of the Grand Trunk, the recent dismissal of several conductors on that road is a closed incident, so far as the company is concerned. The dismissals were made after careful deliberation and in the firm conclusion that they were required for the good of the service. The further statement is made that the Grand Trunk wants first-class men as conductors, and never dispenses with the services of men in this or any other branch of the service without good cause.

CHILDREN'S coats, from 3 to 14 years old, our prices and assortment will surprise you.—SWIFT BROS.

REFERRING to the probability of the C. P. R. extending its line to Sarnia the Post says: "The building of a branch line of the C. P. R. to Sarnia is a comparative simple matter, and so far as engineering hindrances are concerned, there is nothing that would prevent their putting the line through within a couple of months from the time they begin work. Citizens of Sarnia are not unmindful of the situation, and there are those who are keeping in touch with the question from time to time. It may be said that the prospects for an early building of the line are quite encouraging.

SEVERAL recommendations were submitted to the Minister of Agriculture as a result of the conference between representatives of the Eastern and Western Dairyman's Associations, inspectors and sanitary inspectors and Mr. G. A. Putnam, director of dairy instruction. These call for the inspectors of creameries to visit the farms and advise producers: that a uniform fee of \$12 be charged every factory and creamery to assist in defraying expenses; that inspectors be required to test milk when application is made, and that owners and managers using bad milk shall be subject to a fine.

A CASE of interest to railway companies and their employes has been disposed of by the Privy Council. It arose out of the agreement between certain employes of the G. T. R. and the company whereby the former, in view of participation in a certain insurance scheme, contracted themselves out of the privilege of suing the company for damages in case of injury. The legality of the contract was questioned, and the lower courts decided that while a man might make such a contract in regard to himself he could not contract away the privilege of his wife and family of suing the company. The case was finally carried to the Privy Council which has just decided against the company.

THERE has been considerable shifting done around town within the past few days. D. O'Neil has moved into Mrs. Bell's house on Front St., and Arch. Cook, of Kerwood, has moved into C. F. Abbott's house on Rachel st., and Mr. Watson to J. H. Hume's cottage near the Park.

SPEAKING of the endless prayer chain fakes referred to in these columns recently the Toronto Star remarks:—"Have you received one of the endless chain prayer letters yet? If not you may, unless your friends who have received them have sense enough to destroy them without obeying the command which is said to have been given by Bishop William Lawrence, the Episcopal Bishop of Massachusetts. As a matter of fact this prayer chain is one of the biggest and most ridiculous fakes that have ever been perpetrated upon the religious people of America. Started by some irresponsible lunatic in the name of Bishop Lawrence, it has spread until now it has reached all corners of America and is commencing its travels through Europe. By prophesying dire misfortune to the person failing to send it on, the superstitious fears of the recipients have been aroused to such an extent that they have obeyed the injunction. Bishop Lawrence, who is one of the most prominent Episcopal bishops in the United States, has issued statement after statement denying having any knowledge whatever of the origin of this huge hoax, which was started about a year ago. If you get one tear it up and do the world and Bishop Lawrence a service."

Soper & Livingston have purchased J. E. Pedlow's dry goods business in Alvinston.

## THE MADE IN CANADA FAIR.

One of the most successful affairs of the kind ever held in Watford was the "Made in Canada" Fair, under the auspices of the Women's Guild of Trinity Church, which was held in S. B. Howden's store on Friday and Saturday of last week.

The energetic ladies in charge secured an attractive and varied array of Canada's leading productions, and throngs of customers visited the fair and made their selections from the many tempting bargains displayed, a competent staff of salesladies were in waiting to fill all orders, and everything was conducted with Eatonian promptness and dispatch. There was something for everybody, and every visitor got something. The total sales amounted to \$250 which, after deducting expenses, will leave the neat sum of \$225.

The ladies of the Guild are to be congratulated on the energy and enterprise they displayed in making the fair a success. In addition to local donors, who contributed handsomely, the ladies wish to express their appreciation of generous donations from the Alpha Chemical Co., and Doerr & Co., Berlin; Chamberlain Medicine Co., Cowan & Co., Cocoa; Pugsley Dingman & Co., Comfort Soap; E. W. Gillett & Co., Pure Gold Mfg. Co.; Stewart & Co., Confectionery; Christie & Co., Toronto; Edwardsburg Starch Co., Cardinal; W. A. Green & Co., Waterloo; D. H. Howden & Co., McCormick & Co., Perrin & Co., Fraser Cap Co., London; Fairbanks & Co., Montreal; Mack's Pharmacy, Hamilton; Parke, Davis & Co., Walkerville; Niagara Pure Food Co., and many others.

The election of officers resulted as follows:—President—R. Gibson, M. D. Vice President—D. C. Parker. Secretary—F. P. McDonnell. Treasurer—R. A. Baird. Manager—H. W. W. Taylor. Executive Com.—E. A. Brown, G. McIntosh, H. F. Williams.

C. Dodds and R. A. Baird were appointed a committee to solicit subscriptions for the club funds, the executive to make arrangements with the rink management as to nights of practice, etc. The club membership fee was fixed at 50c.

An effort is being made to arrange a western group that would be compact and convenient of access. Sarnia, Strathroy, Petrolia and Watford would be a convenient quartette, and games could be pulled off at light expense. Alvinston would be eligible if the town was provided with a suitable rink. It is hoped that the hockey enthusiasts in the towns mentioned will co-operate in making the arrangement suggested, and a good winter's sport would be afforded lovers of Canada's great winter game.

A very pretty wedding took place on Tuesday in St. John's Church, Cookstown, when Miss Ethel J., youngest daughter of Mr. and Mrs. John Moir, became the wife of Mr. T. Albert Adams, of Watford. At the hour of 2.30 p. m. the bride, leaning on the arm of her brother, entered the church to the strains of the Lohengrin Wedding March, played by Miss Addie Heaslip, of Cookstown. Little Miss Irene Monkman made a charming little flower girl, and Master Louis Monkman acted as ring bearer.

Miss Emily Moir, of Sunnidale, cousin of the bride, sang, in a very pleasing style, as a solo "Promise Me." The marriage ceremony was performed by Rev. T. G. McGonigle, Rector of St. John's. After the customary congratulations the bridal party left the church, while Mendelssohn's Wedding March was being played, for the home of the bride's father, where a reception was held for the relatives and intimate friends of the bride. The bride was handsomely gowned in cream silk eolienne over taffeta with embroidered silk tulle veil and orange blossoms. Her travelling dress was of grey ladies' cloth trimmed with green velvet ribbon and vesta braid and hat to match. The happy couple left on the 8.30 train for Barrie and points north before going to their home in Watford. The bride was the recipient of many costly and useful presents, among them being a handsome morocco bound bible from the Sunday School and a white morocco bound prayer book from the Girls' Auxiliary of St. John's, testifying to the sterling qualities of the bride. All are unanimous in wishing Mr. and Mrs. Adams a long and prosperous life. The groom's gift to the bride was a crescent brooch, to the flower girl a gold bracelet, and to the ring bearer, a garnet ring.

Conductor Harry Neil, of the Grand Trunk, is confined to his house at Sarnia Tunnel, owing to illness. At the office of the assistant superintendent Thursday, it was stated that there was no foundation for the report that conductor Neil had been relieved of his train.

## Food For Beasts.

No where on earth is there such a terrible tribute in human life demanded by the beasts and reptiles of the jungle as in India. The figures are appalling.

Every year in that unhappy country about 24,000 persons fall victims to wild animals or deadly snake bites. In 1904—the last year for which statistics have been completed—the number was 24,034.

Of this enormous total, 21,800 were bitten by the cobra or some other of the five species of deadly serpents; 796 were pounced upon and carried away by the dreaded man-eating tiger; 399 were killed by leopards and the remainder fell victims to wild animals of other kinds—perhaps to packs of prowling wolves, to attacks of hungry panthers, or the infuriated rush of the mad elephant.

In all the world serpents claim 30,000 victims a year. Of these it will be seen, then, that India contributes three-fourths as her dreadful toll.

The ordinary mortality from snakes and wild animals and the heavy loss of property—nearly 100,000 cattle are killed each year—has long been of concern to England, as well as to the Indian Government. Rewards are offered for the destruction of pests and careful experiments have been made in the way of providing antitoxins for snake bites. Still, the death roll is increasing, instead of diminishing, with the years.

## If Farmers Were Business Men.

There is no telling of what tremendous heights of prosperity Canadian farmers might rise if they would more generally apply the careful business economy that is required to make a marked success in other lines of industry.

The head of a manufacturing concern keeps his eyes open to prevent waste. There must be no extravagance in labor, in time, in fuel, in machinery. He looks for the minimum cost and the maximum profit. It is a matter of business and he manages it strictly along business principles! Too few hereabouts. And yet farming is as much the farmers business as manufacturing is the business of the other. If the manufacturer trusted to luck, allowed his machinery to lie out of doors and rust, worked only when he felt like it, failed to keep books and figure everything on a dollar-and-cents basis he would soon find himself a bankrupt.

The owner of the average farm is so

Then tell him about Ayer's Cherry Pectoral. Tell him how it cured your hard cough. Tell him why you always keep it in the house. Tell him to ask his doctor about it. Doctors use a great deal of it for throat and lung troubles.

secure in his living that there is not that keen incentive for vigilant care regarding the matter of eliminating waste of time and materials in his business that is required in other occupations. But the application of better business methods on the farm, the keeping of accounts to know the comparative value of various crops, and the cost of labor for production would be a means of considerably increasing the revenues of every farmer.—Exchange.

## Success.

A Kansas woman, Bessie A. Stanley, of Lincoln, won a \$2.50 prize by writing the following definition of "What Constitutes Success." It is worthy of the distinction given it "He has achieved success who has lived well, laughed often and loved much; who has gained the trust of pure women and the love of little children; who has filled his niche and accomplished his task; who has left the world, better than he found it, whether by an improved poppy, a perfect poem or a rescued soul; who has never lacked appreciation of earth's beauty, or failed to express it; who has always looked for the best in others and given the best he had; whose life was an inspiration; whose memory a benediction."

## The Big Head.

The "big head" is a popular way of expressing a common and very frequent ailment. It arises from various sources, but the real foundation is the lack of sense. A little money develops it in some people; a few good clothes gives it to others; a little office where a chance is given to exercise a little authority, is often the cause of it, while others get it having a little better job than their associates. The truth is no sensible person gets the "big head." The ones who become stuck up and stiff-necked from sources of any kind are weak in the intellectual caliber.

## MOTHERS MUST HAVE ABUNDANT STRENGTH.

No Mother Can Bear A Healthy Child Unless She Is Strong Herself.

A woman's anxieties multiply ten-fold about the time the new baby is expected.

If her strength is exhausted and her blood weak, it goes hard in the hour of trial.

Ferrozone should be used, because it makes the blood nutritious and rich. By instilling new strength into every part of the body, it uplifts your spirits at once.

Childbirth is certainly made easier by Ferrozone. The following statement expresses the earnest gratitude of Mrs. M. E. Duckworth, of Durham. It is a woman's story,—of her own case—told that other women may profit by her experience:

"Before baby was born I was in a weak, miserable, nervous state. I had no reserve strength. I tried to build up, but nothing helped me. I looked upon the coming day with dread, knowing I was unequal to the occasion."

"Ferrozone braced me up at once. It gave me strength and spirits, brought back my nerve and cheerfulness. From my experience with Ferrozone I recommend it to all expectant mothers."

There is more concentrated nourishment in Ferrozone than you can get from anything else. It supplies what weak systems need. Simply take one tablet at meals and you'll feel benefited in a thousand ways.

Ferrozone makes healthy, virile, vigorous women; try it. 50c. per box of fifty tablets, or six for \$2.50, at all dealers.

Deposited a Lunatic.

London, Ont., Nov. 8.—The first deportation of an indigent immigrant under the new ruling of the government has just taken place at the London Asylum for the Insane.

The case is that of a young Englishman who, shortly after arriving here, developed symptoms of insanity, and was placed in the institution. An examination of the records showed that he had been a resident of Canada but a very short time—much less than the required term of two years. The young man has consequently been sent back to England.

## Dies From Injuries.

Thamesford, Nov. 9.—The death of Robt. Knox, a young retired farmer of the place, occurred this morning under sad circumstances. Yesterday morning the deceased was leading a horse, which bolted, dragging Knox off his feet and through the orchard.

When found he was unconscious, having received severe wounds about the head, and only regained consciousness a short time before death.

## Conductors Are Agitated.

Conductors on the Grand Trunk are agitated over their dismissal from the company's services and it is said that redress will be sought.

No dismissals have been made the past few days. It is said that the conductors already discharged will ask for proof of dishonesty, as claimed by the railway officials.

## Detroit Democratic.

Detroit, Mich., Nov. 8.—With but one precinct to hear from to-day, Wm. B. Thompson, Democrat, has defeated Mayor George P. Oddy for re-election by the majority of 3,341.

## LOCAL OR OTHERWISE.

JOHN J. BELL was elected mayor of Port Huron on Tuesday, defeating C. E. Spencer by 37 majority.

POWL for table use is very scarce and high in price, and if the ruling charges hold on till Christmas, a buyer will have to have a burglar's nerve to look a turkey in the eye.

BETTER a slice of bread, then toast the side not buttered. When nicely brown turn the buttered side to the fire long enough to let the butter soak into the bread. This makes a much nicer toast for invalids and elderly people than the ordinary toast.

A YOUNG English farmer, wishing to have his banns published, went to see the parish clergyman. The reverend gentleman asked him several questions, all of which he was able to answer with the exception of one. "Is your intended a spinster?" the clergyman asked. He paused in thought. Then he replied, "No, Sir; she's a dressmaker."

THE turkey crop has come to be like the peach crop. Stories are circulated as to the scarcity of the fowls and the high prices they will command about Christmas. For some years these stories have simply resulted in some people refusing a fair price for their birds and perhaps have them left on their hands. People will not pay above a certain price for a turkey, because they can get something else.

PEOPLE who write things which they would like to see printed in a newspaper, should bear in mind that what they write as their personal opinion should be fathered by them, and when they write stuff that is not fit for them to attach their names to it should never be printed. Remember the rule of all decent newspapers and you will never have occasion to put on the shoe. This is the rule which we give in all kindness. "Never ask a newspaper to do anything you are ashamed to do yourself."

BILL JONES is a country storekeeper in Kent and last summer he went to Toronto to purchase a stock of goods. The goods were shipped immediately and reached home before he did. When the boxes of goods were delivered at his store by the drayman his wife happened to look at the largest; she uttered a loud cry and called for a hammer. A neighbor, hearing her screams, rushed to her assistance, asking the cause of the trouble. The wife pale and faint, pointed to an inscription on the box, which read as follows: "Bill inside."

THE man who wrestles with the fowls and leaves the calves to such, who casts the corn before the swine, is now in great luck; for butter's on the upper grade, veal's higher than a kite, pork is climbing up the scale and beef is out of sight; eggs he gathers every day from his Poland chicken coop are almost worth their weight in gold and we are in the soup. His corn brings him a fancy price, his rising every day, and he takes in all kinds of mon for a half load of hay. The farmer is in the saddle and when he comes to town the rest of us by right should go way back and sit down.

## A Case In West Archat.

Mrs. A. P. Ferguson, a well known Cape Bretoner has cured asthma by "Catarrhazone." Her statement is convincing.

"Although I was troubled for years it was only recently I tried Catarrhazone. When an attack started I got out my inhaler and invariably got quick relief. Feeling satisfied Catarrhazone would cure, I continued the treatment till one bottle was finished. I didn't use more because I was cured and the asthma has never returned." Catarrhazone is sure death to asthma and Bronchitis. Try it and be convinced. Two sizes, 25c and \$1.00 at all dealers.

## Dried Apples.

When drying early and fall apples be sure to dip in salt water immediately after peeling and quaterning, then drain and dry quickly on a rack over a stove. By this means nice, bright dried apples can be produced, which will sell readily at higher prices.

It is a very great pity that so many apples are wasted yearly in Ontario which could be turned into good money with a little effort.

## The Editor and the Tramp.

Bret Harte's first stories appeared in the San Francisco Overland Monthly. Then he was appointed editor of this magazine. That was in 1869. About this same period two or three weekly newspapers were struggling for existence.

One day the office boy went to the editor of the Soaring Eagle and said:

"There is a tramp at the door, and he says he has had nothing to eat for six days."

"Fetch him in," said the editor. "If we can find out how he does it we can run this blamed paper for another week!"

## The Prisoner.

An inspector arrived unexpectedly at a Scottish jail. He asked the solitary warder for the governor. "He's away fushin'," was the answer.

"Well, I'll see the prisoners," said the inspector.

"Him! He's out, sir."

"Out? The prisoner out? Why, has he escaped?"

"Ach, no, sir; he's just awa' wi' the governor at the fushin', carryin' the bag."

BUILT UP HER HEALTH

SPEEDY CURE OF MISS ECLISON

She is Made Well by Lydia E. Pinkham's Vegetable Compound, and Writes Gratefully to Mrs. Pinkham.

For the wonderful help that she has found Zula Eclison, 6 Erie St., East, St. Thomas, Ont., believes it her duty to write the following letter for publication, in order that other women afflicted in

Zula Eclison

the same way may be benefited as she was. She writes:

Dear Mrs. Pinkham:—
I heartily recommend Lydia E. Pinkham's Vegetable Compound as a tonic and regulator for female troubles. I suffered for four years with displacement and no one but those who have experienced this dreadful agony can form any idea of the physical and mental suffering those endure who are thus affected. Your Vegetable Compound cured me. Within three months I was fully restored to health and strength and now my periods are regular and painless. What a blessing it is to obtain such relief when so many doctors fail to help you. Your medicine is better than any doctor or medicine I ever had."

No other medicine has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound.

Women who are troubled with painful or irregular periods, backache, bloating (or flatulence), displacement of organs, inflammation or ulceration can be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Her experience is very great, and she gives the benefit of it to all who stand in need of wise counsel. She is the daughter-in-law of Lydia E. Pinkham and for twenty-five years has been advising sick women free of charge. Address, Lynn, Mass.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it to be incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

American Money and Titles.

It is estimated in London that more than \$200,000,000 of American money has gone to titled foreigners through their marriage with rich American girls. According to report, the most heavily dowered bride was the Duchess of Roxburgh—born Miss Golet—with a fortune of \$40,000,000. Others in the list are: The Duchess of Marlborough, \$10,000,000; Lady Curzon, \$5,000,000; Mrs. Countess Castellane, \$5,000,000; Mrs. Vivian, \$12,000,000; Lady William Beresford, \$3,000,000; the Countess von Larraich, \$4,000,000.

His Impression of Kings.

David R. Francis, ex governor of Missouri, who has been abroad presenting St. Louis fair medals to Europe rulers, gives some interesting impressions of these notables. King Edward of England amazed Mr. Francis with his intimate knowledge of American affairs and treated the Roosevelt spelling as a huge joke. The Emperor of Germany has a frank and brusque way similar to that of Mr. Roosevelt and speaks English as fluently. The aged Emperor of Austria was depressed in spirits on celebrating his seventy-second birthday. He thought President Roosevelt a strong and able man. Oscar, the learned King of Sweden, was delighted to hear what splendid American citizens his subjects made in the United States. The king of Italy and the queen of Holland were not at home but they received the medals with no stint of compliments and with graceful phrases in writing.

BOSANQUET COUNCIL.

Fraser, \$2 serving engineer's report S. B. drain on reserve of Warwick.

The application of Jas. McFarlane for bridge over Walden drain not entertained. The engineer's report for the repair of the Coultis drain was read and by-law provisionally adopted.

Hanna & Co's letter re Mud and Golden Creeks was left in the hands of the solicitor.

Council adjourned to meet on Monday, Dec. 3d, at 10 a. m. at Court of Berings on the Coultis drain and at 1 p. m. for general business.
Geo. Sutherland, Clerk.

Spolis His Little Princess.

The Emperor of Germany is an indulgent husband but a rather severe father. He believes in a soldierly training for his boys, such as he himself had. He makes an exception in the case of his only daughter, whom he affectionately styles his "Nesthaken" a term popularly employed in Germany for the last-born, and who habitually takes liberties with the dress of her lord which his own wife would shrink from.

The Thrifty German Empress.

While recently receiving a party of Americans, whom she had met before, the German Empress gave an illustration of how thrift is practiced by a royal mother. The royal household is allowed more than \$1,000,000 a year by the parliament for state receptions and public expenses, but the Emperor's home is maintained out of his own purse and the empress has control of this. She was talking with her visitors when a loud crash came from an adjoining room. Servants hastened to the spot, but the empress was there first.

On her return she said composedly to the company: "One of my nieces who has been visiting us broke a jardiniere, something I paid \$30 for because I liked its shape. She will have that much sewing to do to pay for her carelessness and my loss. The nice was given plain sewing and embroidery work to do, representing labor equivalent of the value of the ornamental jar—a lesson she was not likely to forget. In showing her company through the royal home the empress brought them to the sewing-room, a place in which her daughter, her nieces and poor girls to whom she gives assistance work so many hours each day. Nearly all of the useful dress articles of the royal family are made in this room, which is fitted with machines, working tables and measuring apparatus. "We Germans," said the empress, with a pleasant smile, "try to avoid having idle little girls or women."

This good advice of a queen are none too numerous through the country. Sportsmen should govern themselves accordingly.

## Old Boy's Re-Union.

The Fair Board has taken the initiative in the matter of holding an Old Boy's Re-Union in Watford next summer. We have been rather behind our neighboring towns in this respect, in fact the former residents of the old town, on the occasion of their visits home, have repeatedly advocated having a gathering of this kind when they would have an opportunity of meeting many old friends they would not otherwise see. Preliminary arrangements will be made in a few days, and with the co-operation of the citizens of the town and vicinity there is no reason why the affair should not be a great success. Watch for further announcements.

## COLD STORAGE.

The question of a local cold storage warehouse was discussed at a recent meeting of the Board of Trade. This is an important matter and we would like to see some definite action taken to secure this much needed convenience. Large quantities of perishable produce and poultry are shipped from this point, which, with proper storage facilities could be stored and held until market conditions were more favorable. A number of shippers have expressed themselves as willing to take a financial interest in the enterprise and a company could no doubt be formed to erect a plant that would be a great convenience and a profitable investment.

## THE BUSY TIME.

There never was a time in the history of the Dominion, when the country was more uniformly prosperous. All lines of manufacturers are rushed with orders, many being months behind in their deliveries. Factories are working night and day to catch up with orders and thousands of additional hands are required to meet the demand. The city of Toronto alone is asking for two thousand female employes. The railroads are unable to supply the demand for cars and freight is congested all along the lines. All kinds of grain and produce are commanding top prices and every able bodied man or woman can secure employment. These are busy and prosperous times and a reasonable occasion to make provision for the day when the outlook will not be so bright.

## BROOKF.

Holy Communion in St. James on Sunday morning, usual hour, 10.30.

Wellington W. Harrison, only son of Mr. and Mrs. J. B. Harrison, con. 12, passed away on Tuesday after a lingering illness. Deceased had been a helpless invalid for nearly eight years, and, although everything that medical skill and attention could do was tried, nothing seemed to give relief. The funeral took place Thursday afternoon to the Watford cemetery, and was largely attended.

In order to correct some wrong statements that are being circulated regarding my work, the following testimonial is published. The undersigned, had Jno. O'Connell working in my saw mill last spring and was satisfied with his work.—ALEX. MCKENZIE, Oil Springs.

A strange sight was witnessed one night recently, when a man was noticed driving along the road with the two front wheels of his rig missing. Perhaps the driver had the wheels concealed in under his hat.

In North Tonawanda, N. Y., on Wednesday, Nov. 7, 1906, at the residence of the Rev. D. A. MacClymont, pastor of the First Baptist church, Mrs. Winifred H. Mason, eldest daughter of Mrs. Nelson Emigh, of London, formerly Mrs. J. H. Mason, 6th line, Watford, and Mr. Walter H. Evans, of Holland, Landing, Ont., were united in the holy bonds of matrimony.

A Bellaire (Mich.) paper contains a portrait and lengthy sketch of a little Canadian hero from which the following is taken:—Willie Stillwell, 14 years old and the only son of Wm. Stillwell of Pellston, Mich., has been awarded a Carnegie medal and \$2,000 to be used for educational purposes from the Carnegie Hero Fund. The lad had rescued Miss Ruth Schoolcraft from drowning in a river some months ago. It was a remarkable incident as he was small of stature weighing only 72 pounds while the young lady was older and 35 pounds heavier. The object of the medal contains a por-

trait of Andrew Carnegie with the inscription "Carnegie Hero Fund"; on the reverse is the motto "Greater love hath no man than this, that a man lay down his life for his friends." The young hero was born in the township of Dawn, Lambton County, and is a nephew of Geo. Stillwell, of Warwick, Wm. Stillwell, sr., being his brother.

## DIED IN BERLIN.

(London Free Press.) Berlin, Nov. 13.—It is with regret that we chronicle the death of an esteemed townsman in the person of Harry M. Andrews, who passed away at the general hospital Sunday.

Deceased was born in Galt on January 27, 1843, where he received his early education, and later at the Tassie Grammar School there, afterwards taking up the study of law, and was successful.

After graduating at law he was identified with the firms of Durand & Andrews, Roe & Andrews, Miller & Andrews and the present crown attorney, Ward H. Bowlby, K. C., with whom he was a junior partner, for some time, but later practiced alone.

Mr. Andrews could well be termed one of Berlin's oldest citizens, as he came to Berlin in 1859, 46 years ago, and was known to everybody as a popular citizen.

He was a staunch Conservative in politics. His wife, Lily Geiger, predeceased him four years ago, to whom a family was born of three children; Grant, with the Green Shirt and Collar Co., Waterloo; Nonie and Isabel at home, who survive, as well as one brother and two sisters, E. R. Andrews, London; Mrs. Thomas Harris, Watford; Mrs. J. Vicary, St. Thomas.

The funeral was held from his late residence to St. John's Anglican church, thence to Mount Hope Cemetery.

Mr. and Mrs. Harris, of Watford, attended the funeral which was a large one, the Bench and Bar attending in a body, the pall bearers being selected from their number. The service was conducted by the Rev. Mr. Andrew, assisted by Rev. Mr. Darnford, of Waterloo.

**G. P. R. CONNECTION.**

The Strathroy papers have the following report of the visit of the delegates from that town to Toronto and their interview with Mr. Leonard, Assistant General Manager:—"A delegation consisting of the Mayor, W. S. Calvert, M. P., S. M. Smyth and A. E. Kinder, met Mr. Leonard at the appointed hour and found out that he knew about as much concerning the industries of Strathroy and the surrounding country as the delegation did itself. However the strength of the delegation, which was certainly representative, added considerable weight to the interview, and in a few minutes Mr. Leonard called his resident engineer and arranged to have an engineer visit Strathroy, make a thorough inquiry into local conditions and report at once. The deputation at once departed, feeling that its mission had been very successful. A short comment on Strathroy's claim to another railroad is not out of place. No one who is posted will imagine for a moment that a decrease in rates would result, as rates are made jointly by the railroads, nor would the presence of another line reflect at all upon the old reliable Grand Trunk and their local staff. It would simply be an inducement for other industries to locate here, where shipping facilities would be increased and desirable sites along a new line be available. It would save two rates of freight to Ontario and eastern points that are on the line and not the other, which is a very important point to our factories which do considerable shipping in less than carload lots.

Sir Thomas informed Mr. Kinder that Mr. Leonard would report direct to him, and it is expected the decision will arrive without delay.

**McMillan—Brand.**

The home of Mrs. David Brand, 216 Richmond street, London, was the scene of a happy event at high noon, Monday, November, 5th, when her daughter, Mary Elizabeth, was united in the holy bonds of matrimony to Mr. John W. McMillan, of Fairbanks, Alaska, formerly of Bosanquet. The ceremony was performed by Rev. H. Currie, of Theford, only a few friends being present. The bride and groom were unattended. Mr. and Mrs. McMillan will visit friends in Forest and vicinity for a few weeks and expect to leave for Alaska in January, where Mr. McMillan is engaged in the lumber and mining business.

**BENTLEY—SHEPHERD.**

The St. Marys Argus of November 8th contains the following:—"The marriage of Miss Alice Shaw Shepherd, of Calgary, Alberta, to Dr. D. B. Bentley, of Sarnia, took place Wednesday, Oct. 31st, at the home of the bride's uncle, Mr. E. Shepherd, Elgin street, east. The Rev. A. Grant conducted the ceremony, a double ring service. The bride, who was unattended, was given away by her brother, Mr. W. G. M. Shepherd, of Montreal, and wore an exceedingly dainty gown of point d'esprit over white silk, long tulle veil arranged on a wreath of orange blossoms, and carried a beautiful bouquet of cream roses, an exquisite pearl pin, the groom's gift, being her only ornament. The wedding music from Lohengrin was played by Miss Alma S. Shepherd, cousin of the bride. Pale pink chrysanthemums, lilies of the valley, smilax and ferns were the pretty and effective decorations of the house. The guests present were Mrs. Bentley, mother of the groom, London; Mr. and Mrs. W. Fletcher, Shephard, London; Mr. W. G. M. Shepherd, Montreal; Mrs. W. W. Shepherd, Toronto; Mrs. Marshall Saunders, Sarnia; Miss Margaret Whittier, Boston; Rev. Mr. and Mrs. Grant, St. Marys.

**CARE OF THE BABY.**

A mother's work and worry in caring for her little ones is greatly lightened if she has on hand a safe remedy for the cure of indigestion, colic, sour stomach, constipation, diarrhoea, simple fevers and the other little ailments that are apt to come to children suddenly. For these troubles Baby's Own Tablets are better than any other medicine. They are mild, laxative, prompt in their action, and a few doses usually leaves the child in perfect health. They do not contain an atom of opiate or poisonous soothing stuff. They always do good—they can not possibly do harm, and may be given with equal safety to the new born infant or well grown child. Mrs. Reginald James, Fenaghvale, Ont., says: "I have used Baby's Own Tablets and find them unfixed as a medicine for children. They promote sleep and general good health. You can get the Tablets from your druggist or by mail at 25 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont."

**Lloyd Manufacturing Co. By-Law Carried at Goderich.**

Goderich ratepayers voted on Saturday on a proposition that was originally offered to Watford. The Free Press correspondent writes:—"Two money by-laws were voted on and carried in Goderich Saturday. A loan of \$50,000 to the Lloyd Manufacturing Company, of Minneapolis, to establish the Goderich Wheel Rig Company with a building and plant of \$150,000, and to employ 100 hands, was carried by 617 to 23, and a by-law to furnish power to the Jackson Clothing Co., who will start a branch of their Clinton establishment here with 25 hands, was carried by 620 to 22."

Both these by-laws are the result of the efforts of the local board of trade, who have been united in their efforts to secure new industries and otherwise promote the town's interests.

The Wheel Rig Company will construct at once a two-story factory, 30x600, and will employ about one hundred hands.

**EVERY HOME NEEDS ZAM-BUK**

Experiences of Housekeepers Who Keep it Handy.

In every home cuts, bruises, scalds, and similar injuries are sure to occur, especially where there are children. In most homes too chapped hands, chilblains, eczema, ringworm, ulcers and other skin diseases occur.

For these you need a balm which is pure, herbal, free from mineral compound, free from animal fat antiseptic, able to stop bleeding and which should heal.

Zam-Buk meets all these requirements. Why not prove its merits. Read this:—

Mrs. Angus, of Penelon Falls, says:—"In 40 years of housekeeping I have never met with such an excellent salve as Zam-Buk."

Mrs. Everett Brown, of Markham, (Ont.), says:—"Zam-Buk cured some bad bruises on my knee. I also find it excellent for chapped hands."

Mrs. Lizzie Gilmour, of Kingston, says:—"I had an ulcerated leg, which became so bad that I could not wear a boot. The foot and ankle were swollen to nearly double their ordinary size, and the pain was terrible. The ulcers spread in a ring all round the limb. Doctor's treatment brought no relief, and at one time it was thought only amputation could end the agony I suffered. Zam-Buk was brought to my notice, and I bought a few boxes. Each box gave me more ease and healed the ulcers. To-day I am quite cured, the limb is sound, and whereas before I could not stand, now I can go up and down steps with ease. I owe it all to Zam-Buk."

Zam-Buk also cures eczema, cold sores, ringworm, stiff joints, bad leg, sore nipples, boils, abscesses, blood poison, poisoned wounds, etc. Used as an emollient it cures rheumatism and sciatica and rubbed well into the chest cures lung troubles, colds, etc. For all purposes to which a household balm is put Zam-Buk will be found unequalled. All druggists sell at 50c a box, or direct from the Zam-Buk Co. upon receipt of price, 6 boxes for \$2.50.

**Thieves Operating in Petrolia.**

Petrolia, Nov. 12.—Thieves were busy in this town during Saturday night, the residence of J. L. Englehart and E. Pollard being entered and an attempt being made on the residence of Mr. Dale. The thieves secured \$125 in Mr. Pollard's house and eatables and some small stuff at Mr. Englehart.

Mr. Englehart has notices up about town offering a reward of \$200 for the conviction of the guilty person or persons who entered his dwelling. The chief of police thinks that he has a clue to the guilty parties.

**Fifty Persons Killed in Train Wreck.**

Chicago, Nov. 12.—Fifty persons were killed, 48 immigrants and two trainmen, and 46 seriously injured, some fatally, in a head-on collision between a Baltimore and Ohio passenger train and a freight train near Woodville, Ind., ten miles this side of Valparaiso, early this morning.

Six passenger coaches and a number of freight cars were burned, and many of the victims were cremated before the rescuers could drag them from the wreck.

After the flames were extinguished the dead immigrants were collected at the side of the track and the bodies were piled into two boxes and burned at the side of the right-of-way. Two trainmen who were killed were taken to their homes at Garrot, Ind.

The injured, who, like the dead, are nearly all immigrants bound for the North-west, were brought to this city on a special train, arriving at 3 o'clock this afternoon. Nearly all the dead were foreigners, and their names have not yet been learned.

Investigation by the Baltimore and Ohio officials of the cause of the wreck established, so the officials declare, that it was due to negligence on the part of the train crews. This negligence consisted of the alleged failure of the crew of the first section, which preceded the wrecked passenger train, to display the proper signal lights and to signal with whistle to the freight train.

Some boys threw a stone through the window of a passenger coach at Wyoming when it was pulling into the station. This is the second or third time this has occurred and Detective Hodges of the G.T.R. secret service was in town looking into the matter.

## WELL KNOWN IN JARVIS, ONT.

Haldimand County Councillor tells how Psychine cured his Lung Troubles

"I contracted a series of colds from the changing weather," says Mr. Bryce Allen, a well-known resident of Jarvis, Ont., and a member of Haldimand County Council for his district, "and gradually my lungs became affected. I tried medicine and doctors prescribed for me, but got I no relief. With lungs and stomach diseased, nervous, weak and wasted, I began to use Psychine. With two months' treatment I regained my health. To-day I am as sound as a bell, and give all the credit to Psychine."

There is a proof of what Psychine does. It not only cures Colds and kills the germs of LaGrippe, Pneumonia and Consumption, but it helps the stomach, makes pure, rich blood and spreads general health all over the body. You will never have Consumption if you use

## On the Veldt

By FRANK H. SWEET

Copyright, 1906, by M. M. Cunningham

It was the dry season on the veldt, and the grass was burned down and half covered with yellow dust. Not a kraal was to be seen or a habitation, not a tree or shrub so far as the eye could reach—only the other brown earth stretching away and at last ending in the same level sky lines to the north and south and east and west, and crossing the sun blistered waste one little animate dot, the canvas covered wagon of a Boer family trekking with the sheep and cattle in search of a water course that had not dried up.

For three days had the dot been moving across the waterless waste, and for three days had the sun left the thirsty sky line in the east only to glare down pitilessly until it dropped behind the equally thirsty sky line in the west, and now the tongues of the cattle were hanging from their mouths and the sheep bleated piteously, and the small quantity of water brought along for the trekkers' own use was exhausted.

By the end of the second day they had expected to find water, but the stream counted on had proved but a dusty, sun dried depression, and for twenty-four hours they had followed its course, hoping to find some sink hole from which the water had not dried. Now they were pondering the necessity of seeking the next water course yet another twenty-four hours away. If that were dry also, what then?

Other families had trekked over this veldt before them, and more would follow, for this was the annual custom. When the dry season came and burned every vestige of green from the home grazing land, the Boers would load their families into the great wagons, drawn by many spans of oxen, and driving the sheep and cattle before

whose mission it is and which mission it fills in freeing thousands from the bondage of dreaded, disgusting, discouraging, distracting catarrh, that cruel, relentless master that is no respecter of persons. How do you know you are in its thrall? Note the symptoms—headache, watery eyes, pains over the eyes, deafness, buzzing in the head, drooping in the throat, offensive breath, dryness in the nostrils—any or all of these symptoms are forerunners of catarrh, and catarrh in the headstage can be relieved in 10 minutes by Dr. Agnew's Catarrhal Powder and the sufferer may be saved the suffering that comes with the chronic stage and the distress and maybe fatal results when catarrh takes hold on the lung tissues.

Take catarrh in time with this wonderful cure, which, as thousands have said and thousands more could say, "works like magic," and you will have struck the chord that is the keynote to health and happiness.

them, seek the water courses that had not dried up. And there they would

"WELL," HE SAID HARSHLY, "WHAT DO YOU WANT?"

remain as long as the drought lasted, until weeks of steady and violent rains should come and transform the dry, barren veldt into a tropical garden. Then they would trek back home.

Long before the sun rose for a new day of burning heat and thirst the dot of wagons and animals was ready for departure. But even as it began to crawl away from the river bed that was dry toward the one that might contain water, several of the mounted Boers who were circling about the cattle deserted something less than a third of a mile away.

In the dim light they at first thought it a wild animal, and examined their rifles; then, as the object drew near, they made it out to be a man, and that he was on foot instead of horseback. But it was not until he had approached to within a few rods that they discovered he was very young, scarcely more than a boy, and that he was an outlander.

Now there is nothing more obnoxious to a Boer than an outlander or witlander—alien. He feels that their coming into the country threatens his institutions, and that the very object of their coming is wrong. The treasures of the earth belong to the earth, and should not be wrested away. The bustle and desire for change, for wealth, for investigating, even the progressive ideas of these outsiders are causes for suspicion and dislike. So when a cherry "Hello" came from the wayfarer their answer was but a gruff and unintelligible grunt.

All this time the train was moving forward, but slowly, for oxen are plodding travelers. The boy was obliged to pause for the animals to pass, and he watched the long, straggling line with the interest of a newcomer. After the cattle and sheep and their guard came the creaking, unwieldy wagons, with their inspanned oxen. Beside the first of these wagons rode a large, broad faced man whose white hair and air of authority proclaimed him the head of the family. As he came opposite the boy stepped forward.

"Hello," he called cheerfully.

The man looked down at him, his face hardening, but he stopped.

"Well," he said harshly, "what do

## Women Martyrs

Bileans have been called "a woman's medicine" because they are so peculiarly fitted to the needs of the female system. They correct irregularities, cure constipation and piles, remove poisons from the blood which cause those terrible headaches, and which occasionally break out in pimples, unsightly eruptions, etc. Bileans make weak women strong; and give pale, sickly women the much-needed internal strength. Bileans are a vegetable tonic as well as a corrective. They help make new rich blood, they end digestive troubles and enable the system to utilize to the full the food you take. Doctors prescribe them, nurses recommend them. Write for free sample and test them for yourself!

### AILING FOR YEARS—BUT NOT NOW.

Mrs. J. Witfield, of Swan Lake, Manitoba, says:—"I had been ailing for years when Bileans were brought to my notice. At that time I was so bad that I cannot properly describe my feelings. I could not eat, my liver was disordered. I had a pain in my side, and was unable to obtain any really refreshing sleep. My kidneys were also disordered, and I was quite jaded and run down. Three boxes of Bileans restored me and brought me to my present healthy state."

### GOOD FOR CONSTIPATION.

Mrs. W. Hall, of Dean Lake, says:—"I find Bileans very good for constipation from which I was suffering."

IF YOU SUFFER FROM indigestion, debility, liver chill or any liver disorder, wind pains or spasms, constipation, piles, debility, kidney troubles, neurasthenia, headache, anemia, female ailments or irregularities—if you are run down and weak, Bileans will restore you. Send for free sample box. All druggists sell, at 50c. box, or post free from the Bilean Co., Toronto, for price, 6 boxes for \$2.50.

FREE BOX Post this to Bilean Co., Toronto, with cent stamp and free sample will be sent you.

## Bileans for Biliousness

you want? Isn't it a little strange for a boy to be crossing the veldt without a horse?"

"Oh, I don't know," the boy answered carelessly. "I walked up from the coast three months ago. You see, I didn't have money enough for a horse and a good outfit, and I needed the outfit most. Besides, I was raised on a farm and am used to walking. A man I met carried my outfit to the mines, and I pegged on behind."

"And now you are going back home empty handed?" the Boer asked, sarcastically.

"No, indeed," quickly. "I didn't come here for fun. I'm going to college some time, and that takes money; and I've got half a dozen brothers and sisters who are planning for different things. It was easiest for me to leave, so all of them put in their savings toward my expenses. Of course, I don't expect to get rich, frankly, but I shall work hard to take back enough to get us all a good start."

The Boer grunted.

"Why are you going back, then, without your outfit?" he demanded.

"Got to have something to eat," the boy answered easily. "I went to the mines first, but the only opening was to work for somebody else or to buy a claim at a fabulous price, so I shouldered my outfit and struck off prospecting. I kept it up three weeks, and now," his eyes flashing eagerly into the grim ones above him, "I believe I've found a spot that will turn me in a lot of money. But I'm out of provisions and must go back after a supply. I don't suppose you have any you would sell?"

"No," shortly, "but where's your outfit?"

"Oh, I've concealed that in the sand. I guess it'll be all right. Anyway, there was nothing else to do. But I didn't stop you to talk about myself," coloring a little. "I wanted to say that your cattle are awful thirsty. At home we would drop everything to furnish such cattle with water quick."

The Boer's face relaxed somewhat.

"Even if there was no water between four days' journey?" he asked contemptuously. "You outlanders, who would do all things, can make rivers as you need them, I suppose?"

"There is the water course only one day's journey behind you," the boy retorted, "and your cattle show they were not attended to there. No matter the hurry a man may be in, it is a crime to neglect beasts as you have yours."

"The water course behind was dry, as this is, and as the next one may be," the Boer said. "My teams have not had water in three days, and God knows what may happen if the next river bed is like this one and the last."

The boy's face paled suddenly.

"The river dry," he gasped. "Why, I counted on getting water there. I've only just enough with me to last one day." Then he forgot himself in concern for the cattle.

"You must turn back toward the place I've found," he cried authoritatively; "it's only five or six miles away. There's a hole in the river bed that has water, and it's thirty yards or more across and several feet deep. It will be enough to supply your herds for some weeks. And beyond it are three or four miles of good grazing where the soil has not yet become dry. If you keep on this course the cattle will all perish."

The Boer had straightened up, preparatory to riding on, but at this he

turned sharply.

"Water," he cried, "and plenty of it." He raised his hand to his mouth and called to the men in front. One of them rode back. To him he gave a quick, peremptory order. Then he turned back to the boy.

"Do you understand what you have done?" he demanded. "This place you have discovered will need water to work it, and if we use that, as we doubtless shall, you will lose all the benefit of your discovery for this season."

The boy threw back his head as though to ward off the insinuation.

"The cattle need the water more than the land," he returned. "If the water is gone when I return with the provisions, I can go and prospect somewhere else, and perhaps come back after the rains set in. The folks at home would not want me to put by money at the expense of suffering."

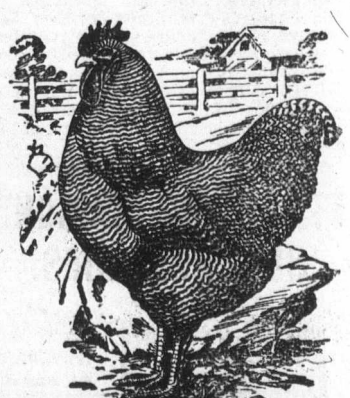

The Boer leaned down and held out his hand.

"It is well," he said simply. "You will go back to the basin with us. We do not sell provisions, but we have plenty which we will give you. And it may be," with a friendly twinkle banishing the last trace of hardness from his eyes, "that we will be able to advance the success of your object here."

**STARVED BY ANAEMIA.**  
Health Restored by the Rich Blood Dr. Williams' Pink Pills Ac- tually Make.

Thousands and thousands of young girls throughout Canada are literally passing into hopeless decline for the want of the new rich red blood so abundantly supplied by Dr. Williams' Pink Pills. They are distressingly weak, pale or sallow, appetite fickle, subject to headaches, dizziness, are breathless and the heart palpitates violently at the least exertion. The doctors call this anaemia—which is the medical name for bloodlessness. Dr. Williams' Pink Pills actually make new blood—they cure anaemia just as surely as food cures hunger. Here is a bit of the strongest kind of evidence: "Dr. Williams' Pink Pills and nothing else saved my two daughters when doctors had failed to help them." This statement is made by Mrs. Joseph Martel, St. Oliver Street, Quebec. She adds: "My daughters are aged respectively twenty-two and twenty-three years. For two years they suffered from the weakness and distress of anaemia, and had I learned of Dr. Williams' Pink Pills earlier, it would not only have saved me money, but much worry and anxiety as well. Both girls were as pale as a sheet. They suffered from headaches, poor appetite, and grew so feeble that they could hardly go about. They were under a doctor's care, but did not improve a bit. I despaired of ever seeing them in good health again, when a friend called my attention to Dr. Williams' Pink Pills. Soon after they began the pills there was an improvement in their condition and in less than a couple of months they were again enjoying good health, active robust girls. I am so grateful for what Dr. Williams' Pink Pills have done for my children that I strongly recommend them to every mother who has a weak, pale faced boy or girl."

Dr. Williams' Pink Pills do only one thing, but they do it well—they actually make new, rich blood. They don't tinker with symptoms. They act on the bowels. They simply change bad blood into good blood and thus strike straight at the root of such common ailments as headaches, sideaches and backaches, indigestion, neuralgia, St. Vitus dance, partial paralysis, and the special, painful secret ailments of growing girls and women. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Chalk. The bride entered the parlor leaning on the arm of her father to the strains of a wedding chorus played by Mrs. T. Kimberly and took her place beneath an arch of green and white cut flowers. She was attired in a gown made of Persian watered lawn trimmed with insertion and frills, as was also the bridesmaid, Miss Edith Stevenson, both carrying bouquets of white flowers. Alex. Rundle acted as best man. The ceremony was performed by Rev. Mr. Wallace, of Inwood, in the presence of the immediate friends of both parties. After congratulations all repaired to the dining room where a beautiful wedding supper awaited them, it being the thirtieth anniversary of the bride's parents wedding day. The evening was spent in games, music and singing. The many and beautiful presents received testify to their popularity. The bride's going away gown was grey broadcloth with hat to match.
