

YORK COUNTY ...AND... SUBURBS COUNTY CONSTABLES ALL DENY CHARGES MADE BY MEMBERS OF ONTARIO MOTOR LEAGUE

Claim That Joy Riding and Disorderly Conduct Cause Trouble in the County and That Many More Fines Should Be Imposed, and Would Be, if the Police Were Paid Salaries Instead of Fees.

Charges against the county police system were a feature of Wednesday's meeting of the York County Council, and naturally enough yesterday's session was almost entirely occupied by counter charges and explanations made by the principal members of the force.

Constables Heard. Constable McLeod was glad to have an opportunity of denying the many allegations which had been made against him and his colleagues.

He then referred to some case that had been kept out of court for fear a home would be ruined, and said: "If the Motor League had been allowed to go on, I would have been a lot of homes ruined."

He claimed to have nine cases one night of driving without lights which should have been reported as disorderly conduct, and that these were the men the Motor League were representing.

Referring to the reports which had appeared in the paper, Constable McLeod stated that he had taken the editor of the World into W. F. Maclean's private room by the scruff of the neck and made him apologize for something that had appeared in the paper.

He claimed that The Toronto World had never made any derogatory reference to any individual member of the county police, but always made it clear that the police themselves were the victims of the iniquitous system under which they had to work.

Constable Brown also stated that there was a great deal of disorderly conduct at night, and he didn't see why the County of York should be made a place of assassination. "They run out," he said, "the suburbs in auto load after auto load and we are not equipped to deal with them."

Night Work Fruitless. He then referred to night work which a constable was not paid for such as quarrels between man and wife when he would advise the man to go to bed and himself would not go to law, thus losing time for which he did not get a dollar.

MEETINGS, CONCERTS

Plague of Rats Follows Sewer Operations—Other Local News.

Rev. J. L. Keith MacLeod, who a short time ago resigned the pastorate of Ascot avenue Baptist Church, has received and accepted a call from Vittoria Baptist Church, Vittoria, Ont.

Very successful font roll party was held at St. Chad's Church at 3 o'clock yesterday afternoon in the basement of the church, Dufferin street. Tea was provided for the members and children.

Rats are becoming a pest around the northern city and at the present time, no doubt following in the wake of the work of the main trunk sewer on Morrison avenue.

A meeting of the Dominion Elks, St. Clair Lodge, was held last evening at the residence of Mr. Geo. E. Phillips, St. Clair avenue. A number of candidates were initiated and lodge business transacted.

The following were appointed to high school trustees: No. 2, Weston, N. M. Lyon; No. 2, Markham, G. W. Reesor; No. 3, Richmond Hill, Wm. Harrison; No. 4, Newmarket, Dr. W. G. Hunt; No. 5, Aurora, Chas. Webster.

The public library board is making preparations to build a Carnegie library this spring. P. W. Lindsay has been chosen as architect and tenders have been called for the erection of the building.

Have You Seen the Two Gowns—

La Maxixe and Le Tango?

They are two of the most successful models which New York has produced as desirable for the new dances. One is an afternoon dress, the other for evening wear—La Maxixe, composed of white satin, with low cut bodice, draped with long tulle scarf, and Le Tango, of black satin, with bodice of black Chantilly lace. Both are distinguished by full skirts arranged in Turkish trouser effect, being sewn together at the foot, with vents for the ankles.

Le Tango and La Maxixe are now on exhibit in the Costume Section

—Third Floor, James Street.

You Were Inquiring?

"Fussy"—Something not too grand for the kitchen or nursery, but nice enough for the garden—something that will not crush or require laundering, but that if laundering be necessary, will not need starching—something light enough for Spring and Summer, but not so sheer or thin as to call for elaborate undergarments, but of material that will stand up to the test of time and wear, with a pleasing color and weave, but without being expensive in price. This is the most little bit of requirements, is it not? Well, in so far as one solitary, modest bit of material can do so varied a part, I should think that delicate would be the most likely choice for your gowns. At 36c a yard—30 inches wide—is a navy blue de laire, with a green stripe, a green dot, or a blue dot, any one of the patterns full of possibilities for the contriving of a dainty little dress. A navy blue de laire, patterned with a tiny pink rosebud and a blue forget-me-not, is the same width and price at 40 cents a yard. I should suggest the simplest manner of making, with removable set frills at the neck and wrists. Silk velvet for a man's house coat is \$3.50 a yard—40 inches wide.

There are quiet stripes among the blazer fashions. What colors do you wish?

"Perplexed One"—I think I can venture to say that three of the best magazines for boys are "Chums"—15 cents a copy or \$1.50 a year; "The Boy's Own Paper"—the same price; and an English periodical called "The Children's Magazine," for boys and girls between 10 and 17 years of age—at 20 cents a copy and \$2.00 a year. Why not procure a single copy of each and study their respective merits from your own personal viewpoint?

Shy—One of the most popular improvers is the Juno-form, obtainable at 25 cents, 50 cents, 75 cents and \$1.00. Telephone to the Corset Section.

M. E.—"The Inside of the Cup" by Winston Churchill, is \$1.25. In an address the other day, Mr. George Locke of the Toronto Publishing, cited it as "the largest seller" of the present year.

America—Well, there is this to be said for the twentieth century—throws a kindly veil over your deficiency. The woman who can't sew a stitch can now hire her diminished head under the fact that the ready-to-wear garment means an immense saving of time and worry. Moreover, I doubt very much if, for the price of some of the frocks, you could much more than buy the raw materials. Velvet dresses are particularly well cleared out at this date, but for \$3.85 you can get a nice little brown or navy serge gown for your daughter or thirteen. It has a pleated skirt, long sleeves, and is trimmed with scarlet plings and white. And by the way, at \$4.95 each, are two-piece suits in navy blue serge—less than half the regular price.

The average boy of 11 years old wears size 28 in suits. About the best suspender in 12 year size are in black or white webbing elastic with C. M. C. clasps, priced, 85 cents.

Six Photographs for \$7.50 is the special offer from the Portrait Studio for Saturday and the following days. The size of the picture is 6 by 10 inches, the same being enclosed in an artistic brown folder.

Early Clearance of Model Spring Suits

This is an event awaited by scores of women each year—the opportunity to secure one of the individual model suits imported as style educators for our designers. This year, instead of holding the suits until the season is advanced, we will offer them on Saturday at two prices—\$15.00 and \$27.50. There are nearly a hundred suits, and ONLY ONE OF A STYLE. Practically every fashion innovation for Spring and all the new materials and colors are represented; the fabrics, including bayadere weaves, new Bedford cords, gabardines, worsted suiting, honeycomb suiting, shepherd's check, dark navy and Holland blue men's worsted serge, etc. Divided into two groups for clearance at \$25.00 and \$27.50.

Latest Models of the "Nemo" Fitted by Miss Newport

THE "NEMO" never stops to rest on its laurels. Every season finds it moving on to new achievements. And now behold a model characterized by the self-reducing front which has made the corset famous in all quarters of the well-dressed world, plus a new arrangement of the semi-elastic bands at the back. These bands produce in the most successful manner the fashionable slender effect when the wearer is standing, and perfect comfort when she is sitting.

This "Duplex Self-reducing Corset" Miss Newport is now fitting, models number 327—with low bust—and number 328—with medium bust—being available in fine white coutil in sizes from 22 to 36, at \$3.50 each.

—Third Floor, Queen St.

The "Swirl" Back is the New Idea in Separate Coats

WHICH MEANS that the lower edge of the coat flares out like a minaret turret. Sometimes the "swirl" is produced without a seam, but often it is effected by the addition of a peplum-like flounce. But, howsoever achieved, it is the mark of the new season in separate coats, and may be seen in a collection of Spring models recently arrived in the Cloak Department.

One coat of this order is in black and white shepherd's check, bordered with wide band of black satin and lined with vivid green silk. Two or three others are in taupe and in black moire. The shoulder yoke is another new feature, grafted on to the standard straight back kimono-sleeve coat. For this model the favorite fabrics are such rough-surfaced materials as split velours, velours de laine, chinchilla cloth and heavy bayadere weaves, colors for the most part being bright, willow blue and Empire green claiming a large measure of popularity. There is a pronounced vogue for gay colored linings.

This is a consignment of coats as notable for good values as good style, prices ranging from \$17.50 to \$30.00.

FREE WHEAT WAS DEFEATED IN HOUSE

Government Had Majority of Forty-Five—Alarming Conditions in West.

(Continued From Page 1.)

(Saltcoats), Mr. Douglas (Strathcona), Mr. Buchanan (Medicine Hat), Mr. Warnock (McLeod) and others. They drew an alarming picture of affairs in the west, showing that agriculture was at a standstill in the prairie provinces, and that a large exodus had set in towards the United States. They united in declaring that the western farmer can make no money under the present conditions, but that he would get better prices and lower freight rates by gaining free access for his wheat to the American markets.

Mr. W. F. Maclean (South York) reiterated his adherence to the national policy and a protective tariff. He declared, however, that Ontario and eastern Canada should not deny the unanimous demand of the west for the removal of the famous Shakespearian Quoting from the King Henry V. scene between King Henry V. and Katherine of Valois, he said: "Nice customs must curtsy to great kings."

Ontario should to gain everything in the growth and prosperity of the western provinces, and should not flout the demand of these provinces for better

markets and lower freight rates. In the end he believed the railways, which were now fighting the west, would gain by permitting the west to have its way. In the reciprocity campaign the people of Chamby and Vercheres had been encouraged to go ahead under more favorable conditions, immigration would increase, the west would grow, and the railways could afford to do business at more reasonable rates.

No policy, in Mr. Maclean's opinion, would be more short-sighted than for Ontario to antagonize and embitter the people of the west.

Wheat Prices Compared. Mr. McNutt (Saltcoats) said the same quality of wheat averaged 10 cents a bushel higher in the United States than in Canada for the decade ending Dec. 31, 1911. Since then the "spread" has been less pronounced, amounting at present to about 6 cents. The price of wheat at Liverpool had been steadily falling of late. Wheat which brought \$1.18 in the Liverpool market in 1912 dropped to 98c in 1913. Mr. McNutt said that he could not understand why the government turned a deaf ear to a unanimous request from the people of western Canada, unless it was because they were severer up with the railway companies and the big milling companies, and had to obey their mandates.

Plan for Railways. Mr. Rainville (Chamby and Vercheres) reminded the western members that the people of eastern Canada had made great sacrifices in order to construct the Canadian Pacific, the Canadian Northern and the Grand Trunk Pacific Railways. These expenditures had not been sanctioned with the expectation that the products of western Canada would be shipped to the United States.

"We want these products," he said, "to be preserved for the benefit of our railways, our ports and our people. If the Canadian railways could not afford to make the low rates given by the American railways, then the government should bonus railways and thus enable them to reduce their rates."

free access to the American markets. The duty on hay, he said, had been reduced, by 32 per cent, but the Canadian farmer did not get any more for his hay. In the reciprocity campaign the people of Chamby and Vercheres had been encouraged to go ahead under more favorable conditions, immigration would increase, the west would grow, and the railways could afford to do business at more reasonable rates.

A Naive Admission. Mr. Proulx: "Did you not favor reciprocity in that campaign?" Mr. Rainville: "No—(applause)—but when we found that the people thought they might get \$2 a ton more for their hay if reciprocity passed, I had to take what you call the sidetrack" (Laughter).

More food, Mr. Rainville argued, and free food was the need of Canada, and he recommended some changes in the immigration policy, and that more attention be paid to intensive farming. He thought the middleman should be largely dispensed with by co-operation among the producers under government supervision.

Mr. Rainville said the highways bill should be introduced and passed by both houses without delay. People did not care a button about the constitutional argument, or concern themselves much about whether the senate or the house of commons was right. What they wanted was to have the money voted and the roads improved as quickly as possible.

Mr. Cruise (Dauphin) argued for free wheat. The government, he said, should show a sympathetic feeling for the west. Mr. Maclean's Position. W. F. Maclean (South York) said he desired to briefly state the reasons which impelled him to vote for the amendment. For many years he had protested against the extortionate and discriminatory rates levied upon the people of western Canada. "I suggested to this government when it first came to power," Mr. Maclean continued, "that it should at once address itself to the task of securing lower freights for the farmers of the west. Today the opportunity is presented of giving the western farmer railway competition, and presumably cheaper rates, in so far as

his great staple, namely, wheat, is concerned. I do not understand that any one in Ontario is opposing this concession to the west. But one voice in this house has been raised in opposition, and that is from Quebec.

West is Sold. "The western press, without regard to party, favor free wheat, and the Liberal legislature of Saskatchewan has combined with the Conservative legislature of Manitoba in asking that it be granted. No one in western Canada opposes giving the western people what they want in this regard, except the big railway companies and the big milling companies. Ontario certainly has no grudge against the west, but desires, above all things, the well-being and prosperity of the three great provinces so largely settled by Ontario people."

Mr. Maclean went on to say that he would dispute the removal of the wheat and flour duties would give the western farmers wider markets, better prices, and lower freight rates. He did not believe it should be refused simply because as a nation we were devoted to the principle of a protective tariff. Nice customs must curtsy to great kings.

The United States having largely torn down her tariff wall, we face a different condition in some respects from the one against which our tariff of 1879 was levelled. We have fought for and achieved our fiscal independence, and we need not fear to meet advances by the United States. Our reciprocity treaty with the British West Indies will have to be revised in the light of the Underwood law, which gives the sugar of the islands free access to the American market in the near future.

Will Benefit Railways. "Let me advise the government to hearken to the western people, who are now inclined to be discouraged and depressed. Let us make western Canada contented. I believe the railways are mistaken in putting up this fight against the west. If the western people obtain the boon of wider markets, better prices and lower freight rates, they will raise

FRIDAY MORNING, JAN. 30. THE TRUE PRINCIPLE OF ASSESSMENT. Assessment Commissioner Forman's report is an interesting contribution to the partial stocktaking which the city is supposed annually to indulge in.

People are so in the habit of thinking of their assessment as a positive quantity that they quite overlook the far more important exemption side of it, the negative quantity, by which they lose money through their neighbors' exemption than they lose by their own taxation.

JOY IN OLD BERLIN PRESTON TRIMMED

Dutchmen Do the Unexpected by Downing Springs Town Outfit by One Goal.

BERLIN, Ont., Jan. 29.—Before a crowd of 4000 spectators Berlin defeated Preston by a score of 2 to 1 here tonight. Preston's 800 supporters brought every available dollar and bet lavishly on Bernhard's crew, and after the game they were as silent as the funeral cards which they issued to Berlin a week ago, for a sudden death game to decide the group.

St. John's Hockey Club will do their utmost this evening to break in to the win column in the Beaches Juvenile League. The following players are requested to be at East Toronto Y.M.C.A. rink at 7:30 o'clock, Friday, Jan. 30: Flanagan, Frog, Peasey, Flaherty, Grenan, Jolyville, MacDonald, Routledge, Schmitt, and Smith. With the above players in line the green shirts are confident they can trim the Y.M.C.A. team.

On Saturday night two good fast games will be played on Royal Templars floor, starting at 8 o'clock when College play Jarvis and Dovercourt B play Beverley at 9 o'clock. College are putting on their best team and will make Jarvis go all the way to win. Dovercourt B will be reinforced by Kelly and should push the game to the limit. A large crowd will see these games, as a surprise will change the standing in the league.

Central Business Men's Basketball

The final in the Central Y.M.C.A. Business Men's League last night was between the Toronto and the Nationals and was a great game. It was to be the best two out of three, but the Toronto, by all round team work, won the straight. The first game was the hardest of the two, the Toronto just winning out after the Nationals had the score 10 to 12, the final score being 15 to 14 in favor of the Toronto.

The second game was not so hard, but was closer than the score would indicate. The teams lined up as follows: Toronto: Fred G. Mars (capt.), Frank Stolley, R. J. Wilson, J. Palmer, Dr. Guy Hume, H. J. Smith, W. L. Amos, Donlin, R. Ratcliffe (capt.), Frank Pearson, Frank G. Gibb, C. V. Stark, H. S. Horwood, A. G. Gibson, T. R. Smith. Referee: G. A. Kingston.

ARE CHICAGO FEDS AFTER LOCAL BOY?

Mysterious Letter Signed Joe Tinker Inquires After R. Clark of Park Nine.

President Gilmore of the Federal Baseball League and Richard Carroll of the Buffalo Reds, spent yesterday looking over ground for Bill Bradley's team. They still have the site selected and also decline to disclose the location. Further than this the magnates refused to divulge any information.

Bill Bradley is busy at his home in Cleveland signing up players. He will be left to his own resources, and as the Reds have already covered their men under contract it is to be presumed that a fair portion are the property of Bill Bradley.

Asked as to the ability of Clark, Tommy Benson, manager of the Park Nine, says he could hold his own as a fielder in any company, lacking only experience. Clark is a good-sized man, 5 feet 10 inches tall, a fair right-hand hit, and remarkably fast on his feet. According to Joe Tinker's letter, Clark was recommended by Bill Fyvie.

WORLD'S RECORD FOR TROTTERS

Sensational Mile by Lucy Patchen at Ottawa—Eel Direct Wins Stallion Stake.

OTTAWA, Jan. 29.—(Staff Special.)—The opening day of the Hull Driving Club's ice races was ushered in under the most favorable conditions. The weather was mild and the track lightning fast, as will be noticed by the summary, a world's record for trotters being made for a race on ice over a half mile track. Lucy Patchen, owned by R. M. Norton of Waterville, N.Y., and driven by W. Flemming, trotted the second heat of the race in 2:17 1/2, thus clearly establishing herself as the champion ice trotter of the world. The attendance was good, including many of the fair sex.

The officials for the meeting are: P. P. Salter, Ottawa, presiding judge, with Wm. Moffatt, secretary, and R. S. Preston of Carleton Place acting as associates; C. P. Pike of Windsor, Vt., starter, J. C. Wright of Ottawa, referee, and J. C. Wright of Ottawa, referee, and J. C. Wright of Ottawa, referee.

The second race was for local horses and was won in straight heats by Daley C., driven by John Neville. The third race was the 2:18 trot, and was won by Lucy Patchen, by the Patchen Boy, after losing the first heat to Woodpoints in McEwen's stable. Summary: 2:10 Stallion Stake, purse \$1000—Eel Direct, S. Mahon, Thorncliffe, Ont., 5 1 1 1. Blue Line, C. S. Paige, East Aurora, N.Y., 1 2 3 3. Capt. L. L. Putnam, Merrickville, Ont., 2 3 3 4. ### SUFFRAGETTES RIOTOUS AT LABORITE MEETING

Score Screaming and Fighting, Were Ejected From Glasgow Hall.

GLASGOW, Jan. 29.—(Can. Press.)—Altho the Labor party is the only one which has espoused enfranchisement of women, the militants are always more obstreperous at the labor meetings than at any other. This was strikingly illustrated at the meeting held in St. Andrew's Hall tonight at which James Ramsay Macdonald, Socialist and Labor member for Leicester, presided. From start to finish his speech was punctuated by interruptions from the women. More than a score of militants were ejected, most of them screaming wildly and striking out in all directions.  
Mr. Macdonald's declaration that the Labor party was out to fight for women's franchise failed to modify the militant hostility.

### STOLE FUR ROBE.

Only four days in Toronto from Pittsburg, Joshua Barry, a negro, stole a fur covering from a motor car standing on Queen street last evening. He was caught by Officer 249 trying to sell it for \$2 in a York street pawn shop and placed under arrest. He admitted the theft.

PARKVIEW FOOTBALL CLUB.  
 The Parkview Football Club will hold their general meeting tonight (Friday), in Occident Hall, 50 Dundas street. The election of officers will take place, also arrangements for their annual dance. All old members and any new ones that would like to join a live club are requested to attend. Parkviews will be there again this year with a senior and junior team.

DETROIT BASKETBALL TEAM COMING.  
 The Detroit basketball team will travel to Toronto Saturday, to play their scheduled game with the West End Y. M. C. A. team. Detroit has the fastest basketball team in Michigan. They proved this without a doubt when they trimmed the West End squad last year, and by the games they have added to their list this year, having defeated Hamilton, Chicago and several other of the fastest teams in the States. Manager Mel Brock of the West End team has had his men working overtime this week, and by the determined way they entered into their practice last night they will make Detroit travel every inch to win. The preliminary game will be between Stratford and the Balmly Beach Harriers.

HELD FOR RANSOM.  
 F. L. Clark, the Spokane Millionaire, Detained by "Blackmailers."  
 LOS ANGELES, Jan. 29.—(Canadian Press.)—According to an anonymous letter received by a morning paper, Francis Lewis Clark, the Spokane millionaire, is being held for ransom of \$75,000 by "blackmailers" in or near this city. Clark disappeared from Santa Barbara, Jan. 17, after seeing his wife off on a train, and was thought to have committed suicide by throwing himself into the ocean.

JAPANESE ADMIRAL IS ACCUSED OF GRAFTING  
 Commission Appointed to Investigate After Stormy Scene in Diet.  
 TOKIO, Jan. 29.—(Can. Press.)—A heated discussion took place in the diet today on the allegations that Vice-Admiral Kouchi Pujii, former Japanese naval attaché at Berlin, had received illicit commissions on contracts secured by a German electrical concern from the Japanese government.  
 The premier, Admiral Count Cumber Yamamoto, and the minister of marine, Admiral Baron Minoru Sato were kept busy for four hours replying to questions from members of the opposition. The ministers denied that any officers of the Japanese navy had accepted commissions, and announced the appointment of a naval commission headed by Admiral Baron Shigetaro Dewa to investigate the allegations.

JAPAN STILL EXPECTS U. S. TO FIND SOLUTION  
 California Land Question Still a Live One at Tokio.  
 TOKIO, Japan, Jan. 29.—(Can. Press.)—Hopes are expressed in official circles here today that a basis of understanding on the Californian alien land ownership will be found by the United States and the government which are both actively seeking a solution.  
 The chief concern here at present seems to be in regard to future legislation in America, and it is said any additional enactments unfavorable to the Japanese will be considered a serious menace to the friendship of the two countries.

CHALKED UP "NO HUERTA" AND THEN FADED AWAY  
 Pall Mall Gazette Makes Trenchant Comment on Wilson's Policy.  
 LONDON, Jan. 29.—(Can. Press.)—The relations of the United States with Great Britain in regard to the Panama Canal tolls, the controversy between Washington and Tokio over the Californian alien land ownership legislation and President Wilson's policy toward Mexico are the subjects of lengthy despatches today from British correspondents in Washington, but there is a singular lack of editorial comment on these questions.  
 The Pall Mall Gazette is the only newspaper to mention Mexico. It says President Wilson has laid himself open to a charge of having chalked up "no Huerta" and then run away, and it concludes: "It is a position that becomes worse for the prestige of the Washington government every day on which nothing happens."  
 Financiers here interested in Mexico are becoming impatient at the lack of action shown by President Wilson.

DISMISSED, GETS SOLACE.  
 LONDON, Jan. 29.—(C. A. P.)—An action for wrongful dismissal by Managing Director Turnbull against the Canadian Townsites, Limited, was settled today, the company agreeing to pay the plaintiff £5000 damages.

URGED ARCHBISHOP TO HELP "MARTYRS"

Primate's Palace—Dissatisfied With His Reply.  
 LORD KNUTSFORD DEAD HAD A NOTABLE CAREER  
 Was Colonial Secretary Under Conservative Administration, Lawyer and Churchman.  
 LONDON, Jan. 29.—(C. A. P.)—Lord Knutsford, formerly Conservative colonial secretary, died today, aged 89. He was the almost solitary example of a permanent official becoming head of his department. He was president of the colonial conference in 1897.  
 Lord Knutsford was distinguished as a lawyer and a churchman. He was a son of the famous physician, Sir Henry Holland. His son and successor in his department, he was president of the London hospital.

BANDIT BAND BURNED WHOLE CITY IN CHINA  
 Catholic Missionaries Still in Looched City, But Probably Unhurt.  
 SHANGHAI, Jan. 29.—(Can. Press.)—A force of 2000 bandits today sacked and burned virtually the entire City of Luan Chow, in the Province of Ngunhwei.  
 W. Entwistle of the China inland mission, with his wife and children, succeeded in escaping to Luchawfu, but the Catholic missionaries are still in the looted city, and it is believed they have not been injured.  
 The brigands apparently are connected with the bands commanded by "White Wolf" who have for a considerable time been ravaging the eastern part of the Province of Honan.  
 The World is Toronto's most progressive newspaper.

CONFUCIANISM IS RELIGION OF CHINA

Bill Prescribing Its Adoption Passed at Instance of President.  
 PEKING, China, Jan. 29.—(Can. Press.)—A bill prescribing the worship of heaven and of Confucius by the president of the Chinese republic was passed today by the administrative council, which took the place of the Chinese parliament, recently dissolved by President Yuan Shi Kai. The measure was submitted to the council by Yuan Shi Kai himself.  
 It is understood that the president's idea is to set an example to the Chinese nation, which he thinks needs the moral-building influence of religion. The president will worship at the Temple of Heaven annually in the same way as the Manchu emperor did, but without wearing the diadem. The diadem was proposed, but was not adopted owing to criticism that it was another indication of Yuan Shi Kai's monarchical designs.  
 The question of the introduction of a state religion has created considerable controversy in China, the Christian missionaries of all sects opposing such a step. The constitution adopted by the Chinese parliament made no provision for any state religion, but for some months a Confucian revival movement has been in evidence, and a league was formed by representatives in China not only of Christianity but of Mohammedanism, Taoism and Buddhism to oppose the adoption of a state religion.

ONTARIO LEADS IN RAILWAY MILEAGE

Official Statistics Show Past Year Was One of Expansion.

EARNINGS INCREASED

Accounting System Makes Stocks and Bonds Show Nominal Shrinkage.

OTTAWA, Jan. 29.—(Can. Press.)—Some interesting facts about Canadian railways and the statistics in connection with them are contained in the annual report of Sir John Lambert Payne, comptroller of railway statistics, tabled in the house this evening by Hon. Frank Cochrane.

During the year ended June 30 last operative mileage increased by 2,576, bringing the total up to 29,804 miles. Ontario leads with 9,000 miles, Saskatchewan is second with 4,651, Manitoba is third with 3,993 and Quebec fourth with 3,986.

At the end of the year 18,847 miles were under construction. During the year a careful and judicial revision was made of the capital statement. Duplication and extinguished liability has been carried along for many years.

At the end of the year 18,847 miles were under construction. During the year a careful and judicial revision was made of the capital statement. Duplication and extinguished liability has been carried along for many years.

Decrease is Nominal. Since the process of deletion cut out more liability than was added during the year, there appears a small reduction in the total for 1913 as compared with 1912.

Dividends on stocks amounted in 1913 to \$33,670,651. In 1908 the volume of dividends was \$12,955,243, so that the increase within that period was equal to 160 per cent.

Ten Millions in Subsidies. The amount of cash subsidies paid during the year was \$9,759,084, distributed as follows: \$1,100,000 by the Dominion, \$8,659,084 by the provinces \$554,500, by municipalities \$27,500.

Big Increase in Earnings. Gross earnings for 1913 aggregated \$267,702,742 as compared with \$219,493,719 in 1912, an increase of seven per cent. The increase of \$48,208,953 was considerably the largest in any year.

MISS AGNES SENKLER DEAD

BROCKVILLE, Jan. 29.—(Special.)—The death occurred here today of Miss Agnes Senkler, daughter of the late Rev. E. J. Senkler. The family came to Canada from Dorking, Norfolk, Eng., and after residing at Quebec and Sorel, settled in Brockville, for a number of years residing at "Hornington," west of the town. After the death of her parents, Miss Senkler travelled extensively, and spent considerable time in Europe. She is survived by one brother, Judge Senkler of Perth, and by several nephews and nieces, including Judge Reynolds and Col. D. Buell of Brockville.

# NEWS FROM THE CITY HALL

## POLICE VILLAGES ON THE OUTSKIRTS

Ex-Ald. May Brings Deputation of Reeves to Board of Control.

## USE BURNSIDE BUILDING

As Detention Home for Insanity Suspects, Advises Dr. Hastings.

Reeves of surrounding townships conferred with the board of control yesterday upon J. T. V. May's plan to form police villages in the congested area fringing on the city limits, and each village to come automatically into the city when its population and public utilities are up to a certain standard.

Reeve Syme of York Township, Reeve Silverthorn of Etobicoke, and Reeve Cornell of Scarborough, represented the outlying territory. Mr. May said the reeves are willing to cooperate in applying for legislation.

"We have no way at present for dealing with the necessity for supplying water and sewerage to the congested area caused by the overflow of Toronto's population," Reeve Syme said. "A well-fixed plan of co-operation in giving the outer territory a system of drainage would prevent the squandering of many thousands of dollars."

"Before we go any further I suggest that surveys be employed to give us an idea of what a system of drainage would cost," said Reeve Silverthorn. "Drainage in Etobicoke may be a costly proposition."

"It is merely a matter of adjustment between the city and townships," Reeve Cornell said. "Water and sewerage must certainly be given as soon as possible to the outer territory."

Committee of Seven—W. Clarke, chief of York Township, advised against the policy of police villages. He said that the townships have the power to carry on local improvements, and that an extension of the city's services into the congested areas is all that is necessary.

Mr. May asked for a special committee of members of the board and the reeves to report upon a practical policy.

Controller Simpson put thru a motion that the council be asked to appoint a committee of seven to cooperate with the reeves in reporting upon a policy.

Dr. Bruce Smith advised the board that it is illegal to admit the insane to the Toronto jail. Controller McCarthy suggested that the Burnside building at the old general hospital be utilized as a detention home, and that the provincial government be asked to provide at once for its maintenance.

Dr. Hastings, M.O.H., was sent for and supported the suggestion to establish a detention home at the Burnside building for those under examination for insanity, the city to bear the expense. Commissioner Chisholm was instructed to get the building ready at once. Dr. Bruce Smith will be requested to co-operate in the matter of maintenance.

George H. Comerford complained that the public library at Church and Adelaide streets is congested with men who apparently have no means of subsistence. Controller Simpson said the unemployed are using the library as a resting place. He and Controller McCarthy will investigate conditions there.

The board of trade asked that the city banquet be delegates to the convention of the Ontario Boards of Trade next month. This was not granted as only international conventions are to receive civic grants this year.

It was decided that each report from the civic survey be sent to the head of the department affected, with instructions to report upon it to the board.

Has the Backbone.—With intent to protect the innocent from the guilty Controller Simpson interpellated Commissioner Wilson as to the justice of a sweeping rule that all employees of the street cleaning department go on half pay when on sick leave. "You should have the backbone to dismiss employees who abuse the sick leave privileges," Controller Simpson declared.

"I intend to show that I have the backbone to do so," Commissioner Wilson retorted. "The moment I find an employee is imposing I will discharge him. What should be done is to authorize Dr. Hastings to supply a physician upon whose certificate an employee will be entitled to sick leave."

Will Prepare Policy.—"Sick leave in the street cleaning department cost the city \$10,000 last year, and that must be stopped," Mayor Hocken declared.

Commissioner Wilson urged that he be allowed to use his judgment this year as to who on his staff should be paid during sick leave, and in the meantime a policy could be decided upon by the board.

Commissioner Harris stated that any employee of his department who meets with an accident while at work or who is ill from overwork or undue exposure, is paid during illness, but any employee who is sick thru excesses is not paid while sick. Each case is investigated. — Dr. Hastings cooperates.

"That is the practice in my department," Commissioner Wilson said.

Controller Simpson undertook to prepare a policy and submit it to the board and this ended the debate.

## FEAR EMBANKMENT MAY BREAK

## PROPERTY BRANCH UNDER CRITICISM

Complete Reorganization is Proposed by New York Municipal Experts.

## COMMISSIONER'S DUTY

Too Much Work is Now Expected From Head of Department.

A complete reorganization of the property department and the amalgamation of it with the city architect's department is recommended in the report of the New York Bureau of Municipal Research, in its report on the property department, made public yesterday.

The criticisms of the department are that the organization is chaotic. The commissioner is more of an investigator than an executive head. The city garage is overcrowded. The payroll at the department is too high. The civic cattle market is deserted. There is no standardization of accounts. There is too much duplication of work. It takes six weeks to pay a bill. Garage records are in need of revision. Payroll procedure needs revision. Market accounts are inadequate. Smoke inspection reports and records are cumbersome. Appropriation control is unscientific.

Recommendations. Recommendations are made to bring to "a better adaptation of organization the work to be done," and with this end in view it is advised that the following functions and activities be transferred to other departments:

The recovery of dead bodies from waterways, to police or to the marine division of works.

The restriction of buildings and structures, to works.

The supervision of coal deliveries, to weights and measures.

Inspection to prevent smoke nuisance, to the architect.

Supervision of baths and lavatories, to works or health.

Supervision of chimney sweeps, to fire or police.

That the new department of public property include in its duties: The supervision of building design and construction.

The operation and maintenance of public buildings.

The operation of the city garage.

The operation of the abattoir and city market as a separate and distinct organization, if a separate department is not formed to take over this work.

Several revisions in the accounting, reporting and business procedure of the department are also suggested. These include recommendations:

That the central accounting officer of the city be instructed to formulate standard accounts and to install such accounting methods in the property department.

That appropriations and payroll accounting be made more scientific.

That proper orders for the maintenance division be revised.

That the market and garage accounts be revised.

That the duplication of work in the field reports and office records of the smoke inspection division be eliminated.

That proper costs on the operation of automobiles be established in order to show unit costs per mile.

## PLAN NEW USES FOR STREET CARS

Various Ways of Increasing Revenue and Adding to Efficiency.

## PEOPLE SOON TO KNOW

Agreement of Purchase Will Be Published in Short Time.

Heads of civic departments are planning to utilize in various ways the street railway system when it comes under municipal control. The long haul with horses and auto trucks can to a large extent be made with much less cost by freight car between rush hours.

Because of the inadvisability of storing a large number of cars in one place, and thereby disorganizing the service for a long time should fire destroy many cars, more and smaller car barns will be provided under municipal ownership. In connection with these numerous barns could be established distributing stations for packaged freight taken there between rush hours.

With Post Boxes.—At present the street cars are utilized very little by the postoffice department. When under municipal ownership and giving a service to all of the city, the cars could be equipped with letter boxes and would also be utilized to convey the mails from substations to headquarters and to the railway stations. The incoming parcel post service could be hastened by the use of the street railway system.

These are a few sources of revenue to the street railway system that await development. Other sources of revenue would be possible under municipal control. Express companies would save long haul by using cars and distributing stations. As a transportation plan the street railway system, under municipal control, could have its service so extended as to produce revenues that would increase the totals away beyond those given in the reports submitted by the experts.

Soon to Know.—The anti-purchase element are so busy trying to prove that the system would not pay that they are completely dead to the possibilities of enlarging services and revenues. Everyone will be fully enlightened upon the real value of the street railway purchase to the city before the bylaw is submitted to the voters. In the meantime the agreement of purchase is being brought to completion as rapidly and persistently, and the people will soon know what value they will get for their money.

## RABBI WAS ACQUITTED.

## Charge Was Misappropriation of Trust Funds.

MONTREAL, Jan. 29.—(Can. Press.)—Rabbi Simon Glaser was acquitted by Judge Lanctot in police court on a charge of misappropriating trust funds. Insufficient evidence before the court to justify the proceedings with the case was given in explanation of the verdict.

Relatives of the late Mrs. Henry Miller accused the rabbi of collecting \$3000 money and jewelry belonging to Mrs. Miller's estate and converting it to his own use.

## FIRST BANQUET IN CITY HALL

Nine Hundred Employees of Works Department Had Good Time.

## BIG EYES ARE NEEDED

Mayor Hocken Praises Civic Officials for Their Efficient Work.

"Let's all sing and be happy," was the humor of everyone of the nine hundred at the first annual banquet of the civic department of works last night in the city hall. Music from a large orchestra flowed along the main corridor where the banqueters were, and between every course 500 male voices followed the lead of the orchestra in singing matches from popular songs. It was all delightful. The first dejection was lavish.

When Mayor Hocken came down the main stairway to take a seat of honor he received an ovation. Following him came Commissioner Harris, and the cheers that broke forth showed his popularity with his staff.

W. R. Worthington was the toastmaster, and his popularity caused cheers from every direction when he opened the toast list.

It is only the enthusiasm that is being shown here tonight for the municipality of Toronto that makes it possible to build up so great a city as Toronto has become," said Mayor Hocken in opening one of the best of his many good speeches since he became chief magistrate. He was cheered repeatedly.

Referring to the civic survey he said: "When I saw them lay their hands upon the sacred head of 'Holley' (Commissioner Harris) I felt that the people of this city would lose interest in the findings of the surveyors. On this continent there is no city with better or more efficient government than Toronto."

Want Big Eyes.—"Men who are enthusiastic for Toronto are said by some to have big eyes," Mayor Hocken said. "We want men in Toronto who have big eyes," he declared. "We don't want carping critics. There is no place in Toronto for carping critics. Despite the findings from the civic survey I feel certain that there is no municipality served with greater spirit and success than by the officials of Toronto."

Controller McCarthy responded to "Canada and the Empire," Mayor Hocken and Ald. Dunn to "The Municipality of Toronto"; G. G. Powell, Dean Galbraith, L. Clarke and P. W. Ellis to "Sister Departments"; and Controller Simpson and Commissioner Harris to "The Department of Works."

The banquet originated with a desire to have the army of employees of the works department better acquainted with each other, with a view to more frequent social intercourse. Organization was attempted last winter but was not completed until this winter. The start of last night was on a magnificent scale, and the annual banquet policy is well established. This banquet is the first held in the city hall. Other departments are considering adopting the policy of an annual banquet.

## CLAIMS THAT BROTHER WAS OF UNSOUND MIND

Sister of Former Missionary Priest Brings Action to Set Aside Will.

Mrs. Katherine Mahoney of Ottawa, who is contesting the will of her brother, the late Rev. Father George C. B. D. Brophy, of Kingston, has filed her statement of defence in the probate action brought by the executors, Father Brophy, a missionary priest. It was worth \$176,356 when he died in September of last year, but his annuity to his sister, Mrs. Mahoney, was only \$75.

Mrs. Mahoney states that her brother was of unsound mind when he made his will in 1910.

## "LANKY BOB" IS STILL IN EXCELLENT FETTLE

Pugilistic Experts, After Seeing Fitzsimmons in Ring, Acclaim Loudly.

WILLIAMSPORT, Pa., Jan. 29.—(Can. Press.)—Robert Fitzsimmons former heavyweight champion of the world displayed much of his old-time speed and ring generalship here tonight in a six round bout with "Knockout" Sweeney of Cleveland. It was his first contest since he retired from the ring several years ago, and the pugilistic experts who witnessed the battle declared he had "come back."

Fitz's blows were powerful, and while Sweeney remained in the fight for the limit, he was knocked down and took the count repeatedly.

# In Bread There is Strength

Bread is the one food which perfectly combines in itself all the elements which give strength to the body. It is, and always has been, the chief food of the earth's hardiest peoples.

None of the "breakfast foods," "health foods," or other "fad foods" can equal bread in nourishment. Nor can meat or other heavy foods.

Good bread is, also, the most digestible food—and, withal, the cheapest. Those are good reasons why you should

Another Reduction in Bank Rate Strengthens the Inter-listed Stocks.

C. P. R. ALSO HIGHER

Market at Toronto Closes With a Number of Soft Spots.

A precipitate further decline of one per cent. in the Bank of England rate, bringing it down to 3 per cent., was given British capitalists in London and Canadian interested issues. C.P.R. and Brazil's made a strong response. Both issues jumped about two points over night and were keenly bought at the advance. Barcelona was also favored by the decline in the rate of interest, and the local list is beginning to show a full supply of stock, and until this is absorbed or selling orders are withdrawn higher prices are not probable.

The market yesterday was quiet, with a fall of 75 per cent. of the business was done in Barcelona and Brazil. Out of those issues the trading was scarcely more than when the exchange was in the doldrums a month ago. Mackay common receded a point during the day and Twin City was down that amount. Toronto Halls and General Electric are withdrawn from the market.

BANK OF ENGLAND THREE PER CENT.

Another Big Reduction in Discount Rates Made Yesterday—Reserve Increased.

LONDON, Jan. 29.—The Bank of England was enabled today in consequence of further world-wide ease in the monetary situation and of the strong position of its reserve to lower its minimum discount rate by one per cent., making it three per cent. This was the third reduction since the beginning of the year, the first being made on Jan. 22, when the rate was reduced from 4 1/2 to 4 per cent. The weekly statement of the bank of England shows the following changes: Total reserves increased \$1,757,000; circulation decreased \$1,000,000; bullion increased \$1,000,000; other securities increased \$3,498,000; other deposits increased \$5,538,000; public deposits decreased \$20,000; notes reserved increased \$1,788,000; government securities unchanged. The proportion of the bank's reserve to liability this week is 56.38 per cent; last week it was 57.42 per cent.

WINNIPEG, Jan. 29.—Bank clearings for the week ending Jan. 24, 1914, were \$47,592, as compared with \$41,910 for the corresponding week last year, and \$22,800,776 for the same week in 1912.

HALIFAX, Jan. 29.—Bank clearings for the week ending Jan. 24, 1914, were \$707, as compared with \$1,732,256 for the like week last year.

MONTREAL, Jan. 29.—Bank clearings for the week ending Jan. 24, 1914, were \$23,424,222, as compared with \$25,697,240 for the corresponding week last year, and \$22,224,222, as compared with \$22,224,222 for the like week in 1912.

QUEBEC, Jan. 29.—Bank clearings for the week ending Jan. 24, 1914, were \$2,765,033, as compared with \$2,765,033 for the corresponding week last year, and \$2,765,033 for the like week in 1912.

OTTAWA, Jan. 29.—Bank clearings for the week ending Jan. 24, 1914, were \$3,417,597, as compared with \$3,535,501 for the like week in 1913.

BRAZILIAN EARNINGS.

Brazilian Traction Light and Power Company Limited, gross earnings for the week ending Jan. 24, 1914, were \$457,592, as compared with \$411,910 for the corresponding period of 1913; increase \$45,682.

BRAZILIAN EARNINGS.

Total gross earnings: 1912, \$2,002,585; 1913, \$1,881,558; increase, \$120,980. Operating expenses: 1912, \$851,029; 1913, \$806,777; increase, \$44,252. STOCKS DECLINED UNDER PRESSURE

News Developments Favored Bears and Tone Soon Became Heavy.

READING BOOM OVER

Poor Statement of Southern Pacific Was Another Adverse Factor.

NEW YORK, Jan. 29.—The stock market gave way today under pressure, which, although not severe, was applied steadily by professional operators. At the beginning of the trading movement was confused and irregular, but as the session advanced the tone became distinctly heavy. Reading and the shorts were singled out for bear attacks, and together with New Haven, New York Central, Southern Pacific, Smelting and a few other representative issues, at times showed losses of a point or more. Selling was not on a large scale until the last hour, when the shorts got the market fairly in hand and the list sagged sharply. The trading element was ranged on the short side. In fact speculative opinion for several days was inclined to the belief that a substantial reaction was due.

BEAR FACTORS.

Denial that Reading was contemplating segregation of its coal properties, which might have bestowed valuable rights upon shareholders, accelerated the decline in that stock. Southern Pacific's December statement was exceptionally poor, showing a decline in net of \$679,000. Another disturbing feature was the decline of low-priced stocks, some of which have been strong recently. It is probable that the decline would have been more severe had it not been for extensive purchases here for foreign account. Both London and the continent were times inclined to bear stocks, taking forty thousand or more shares on balance. Improvement in sentiment abroad was associated with a reaction of the English and French bank rates. Such an unusual change as a drop of one per cent. in the English rate ordinarily would be expected to do immediately reaction here, but even such striking evidence of improving monetary conditions was ineffective in view of the prevailing tenor of speculative sentiment. Bonds moved uncertainly.

MONTREAL STOCKS QUIET AND STEADY

Brazilian's Advance Was Chief Feature—C. P. R. Strong at Close.

MONTREAL, Jan. 29.—Trading was weak on the local exchange and the tone of the market steady. The majority of the local stocks closed the day with a reaction of one point or more, being confined to the smaller issues. Brazilian featured the day in activity and opened a better at 91 1/2, continued to advance and sold at 92. The net gain for the day was 2 points. C.P.R. opened 3-8 lower at 212 1/2, but did not remain there long. It closed strong at 213 1/8, or 2 1/8 better on the day. The performance of this stock influenced the better class of stocks, and Powder was 2-4 up and closed at 220 1/2 bid. Ottawa and Toronto Railway each had advances of 1 point. Central issues were better. The common was up 1-2 at 92 1/2, and the preferred 2 at 92 bid. Ames-Holden securities eased off and closed with losses of 1 point and 3-4 points respectively. Trading in Quebec Railway larger on the previous day, but the closing bid of 15 1/2 showed a loss for the day of 7-8. Dominion Steel opened 3-8 lower at 39 1/2 and did not regain the loss. It closed 39 1/4 bid.

NEW DOME STAMPS READY BY MARCH

Work of Doubling the Capacity of Plant to Be Completed Soon. The Dome mill treated 530 tons over one day last week. This is, of course, much above the average, but it is an indication of what the mill will be able to do when the other forty stamps are dropping. The installation of the additional stamps to the plant has made such progress that it is most probable that the whole eighty stamps will be dropping late in March or early in April. This will double the capacity of the plant and more than double the profit since the last per ton milled amount can be cut down very materially.

DULUTH SUPERIOR ANNUAL MEETING

Earnings for Last Year Showed Big Increase Over Previous Twelve Months. The annual statement of the Duluth Superior Traction Co., presented at the meeting of the shareholders held yesterday, showed gross revenue of \$1,283,914.30, and net revenue of \$538,750.28, or an increase of \$127,878.30, or 18.25 per cent. After payment of fixed charges, preference and common stock dividends, there was a surplus of \$80,928.98, from which \$74,100.50 was appropriated for depreciation reserve, leaving a net surplus of \$6,828.48. The percentage of total operating charges to the net revenue was 62.23 per cent. of gross revenue for the preceding year, 70.28 per cent. Comparative statement of earnings: 1910, Gross \$1,091,581.73, Net \$487,705.12; 1911, Gross \$1,135,295.75, Net \$527,164.60; 1912, Gross \$1,083,250.11, Net \$493,071.98; 1913, Gross \$1,283,914.30, Net \$538,750.28. Increase in 1913 due to employees' strike.

LONDON MARKET MUCH STRENGTHENED

Reduction of Bank of England Rates Affected Gilt-Edged Securities Especially. LONDON, Jan. 29.—The reduction of the discount rate of the Bank of England and the Bank of France strengthened the stock market today, especially the gilt-edged securities, which soared 1 1/2 points to 7 1/2 and closed at 7 1/2. Home rails were buoyant and from one to three points higher. New issues continue to be readily subscribed. American securities opened steady. A fair amount of business was done during the forenoon and the list advanced under the lead of Canadian Pacific. The market reacted sharply after the opening of Wall Street, but recovered in the course of the day. Money was plentiful and discount rates were weak.

LOANS OVER-SUBSCRIBED

LONDON, Jan. 29.—A new two million sterling 4 per cent. loan for western Australia was over-subscribed in the course of a few hours. This loan was issued at 9 1/2, yet only 28 per cent. of western Australia's loan last November, issued at 87, was subscribed by the public.

IRON AND STEEL

The Iron Age says: There is now so much of a tendency to overdraw the improvement in iron and steel that exact statements seem tame. What is more plainly shown by recent buying is the extent to which stocks of finished steel were used up in the last week following September. The January business, which was used up in the last week following that of November and December, has been largely replenishment. Manufacturers are expected to be busy for the next few months.

MUCH FACE TRIAL FOR ARSON

KINGSTON, Jan. 29.—(Special)—Frank Hoover will stand trial on a charge of arson. He was arrested today, charged with setting fire to the Mountain Pacific Railway station at Kingston today, where he was formerly employed as station agent. A. F. Smith, before County Magistrate Smith, he elected to be tried before the court of general sessions.

SECRETING DAY ON MINING MARKET

Nipissing Lost Several More Points—Pearl Lake Very Inactive.

Mining issues had a tendency towards weakness on the Standard Exchange yesterday. Peterson Lake was off to 2 1/2 at the close, but in the opinion of several of the brokers this depreciation was the result of manipulation. Yesterday's several broken days to the front of the market that insiders are keeping to advantage when a little may buy in the afternoon. Nipissing was again very weak and sold as low as 7 1/2. The mine of a character to account for probably that being given out, and it is within the next few days, will recover to some extent. There was also a settler and the company's statement issued Wednesday morning, but it was not quite as encouraging as many of the shareholders expected. Some of the smaller investors in this feature among the Cobalts is the fact that the last few days to stock seems to be available, and yesterday's closing did some time past, which is a high record for Superior brought the top notch price of the market in the stock, which was 2 1/2.

STRIKE CALLED AT CONIAGAS MINES

Underground Men Claim They Are Working Nine Hours Instead of Eight. COBALT, Jan. 29.—Claiming that the Coniagas Mines are evading the law by reference to the eight-hour day for underground miners, and working nine hours, 75 underground miners walked out on the night shift. The strike of these men does not in any way affect the surface employees and the mill and surface gangs are working as usual. About 60 men being unaffected thru this fact. The hours worked at the Coniagas collar to collar, are from 7 a.m. to 12 noon, and while the others work 12 noon to 10 p.m. The eight-hour day states that eight hours shall be worked, face to face. This is the first trouble arising in the Cobalt camp from the working of the new eight-hour law.

PRICE OF SILVER

PERFECTLY LOGICAL

The mining market is acting in a perfectly logical way. Cheap money, first of all creates a demand for bonds and high-class investments, and later for the more speculative industrial and mining shares. This process is now on, and we expect a much wider demand for mining stocks from now forward. To take full advantage of a movement of this nature, it is imperative that you should be in a position to view this issue as the best pick in the market, there are many other issues which will advance in price. We are prepared to give an unprejudiced opinion on any listed stock, and to execute buying or selling orders for them.
