ROWELL OPENS LIBERAL CAMPAIGN BEATS AROUND BIG PUBLIC ISSUES

Four Thousand People Assemble in Massey Hall—New Leader Takes No Definite Stand on Bilingual Schools—Hon. Mackenzie King Criticizes Whitney Government's Attitude on Workmen's Compensation Question.

Young Liberalism turned out last night in honor of the new leader, who has been so cordially hailed by the party in all quarters of Ontario. Old Liberalism sat on the Massey Hall platform, also, and Dr. Albert Carman and Senator Cox represented the progress of 50 years ago. The applause at the close of Mr. Rowell's speech indicated thorough satisfaction on the part of all classes of Liberals.

Massey Hall was filled as full as it could be seated, and an official door-keeper and constable were so afraid of a crowd at 9 o'clock they took a newspaper man by the throat to keep him from entering. The crowd outside mustered nearly 20 at the time, and was not dangerous. Rev. J. A. Macdonald, who spoke last, admitted that he had to climb in by another way, when he came later.

Those inside were warmly enthusiastic and broke into applause when there was any warrant. The best Liberalism of the city was in evidence, and there was a really large contingent from outside points, interested in the inauguration of the new leadership of N. W. Rowell, K.C.

W. L. M. King was sufficiently brave in the chair and his speech pleased his auditors, but Mr. Rowell's address was the objective point, as the thinning out of the house showed when he concluded.

Dr. J. A. Macdonald was insistently called for and spoke briefly. He must have been gratified by the warmth of his reception. Joseph Oliver aroused the greetings of his temperance friends. The big meeting closed with cheers for the King, about 10 o'clock.

A Grand Reception.
 As N. W. Rowell and Hon. Mackenzie King came on the platform, the band played "The Maple Leaf," and the big audience rose en masse and cheered and cheered again. The crowds of students up in the top gallery gave the Varisty yell.

Among those on the platform, in addition to N. W. Rowell and Hon. Mackenzie King, were: Ex-Mayor Joseph Oliver, E. Fielding, Dr. A. Carman, J. E. Atkinson, Senator Jaffray, Senator Kerr, Dr. J. A. Macdonald, George W. Verral, Wallace Cruickshank, A. E. Dymond, Gideon Grant, James Ryle, J. W. Curry, R. J. McCormick and many others.

Hon. Mackenzie King introduced N. W. Rowell as the honored leader of the Ontario Liberal party and the future premier of this province.
 Mr. Rowell received an ovation.
 Just as the Liberal leader stepped to the front of the platform a beautiful bouquet of pink roses and ferns was presented to Mrs. Rowell by little Miss Edna Bruner of St. Michael's School, Toronto. The applause was renewed with increased vigor.
 Mr. Rowell Speaks.
 "Language fails me to adequately express my feelings."

MR. ROWELL'S DEBUT

There was one tense, electric moment last night in Mr. Rowell's speech when the audience was prepared, every man of it, to lay the fortunes of the party at the feet of its new leader. Bilingual schools was the question. For seven years, Mr. Rowell said, Sir James had failed, knowing the conditions, to approve or to disapprove, or not knowing was unfit to govern. "For myself," said Mr. Rowell, "I am prepared to state where I stand, and to stand or fall by that statement." There was a tremendous burst of cheering, which was renewed when a stentorian voice cried: "It takes a man to do that." One was prepared for a huge development, and the revelation of a new and fearless leader. But the result was an anti-climax, and Mr. Rowell whittled away his point and the cheering died down to a mild hand-clap. Mr. Rowell would seek to acquire for every child a working knowledge of English. He would not forbid it to be taught the language it learned at its mother's knee. He was prepared, he said, to stay out of power forever on that basis.

The temperance question elicited some enthusiasm also, which Mr. Rowell dissipated in a condemnation of the three-fifths clause. He charged the minister of education, Hon. Dr. Prynne, with having something to do with the partisan administration of the License Act in Toronto. The difficulties of legislation did not relieve the government of responsibility, he declared.
 The other point that most pleased the audience was the reference to the Ontario Railway and Municipal Board, which he would reorganize to put an end to the scandal of issuing two orders contradicting each other. "I think if they were reconstructed they would not double-track Yonge-street." All of which will be good for Premier Whitney to note. Mr. Rowell made his best joke on the Conservative newspapers.

The Conservative press have on the whole treated our platform very fairly. Their attitude, however, on some of the details is a little different. Some say it is a milk-and-water policy, others that it is not progressive, but they all unite in saying that it's just like Sir James Whitney's. (Laughter and applause.)

OWENS IN SOUTH FIND JESSIMAN GOODERHAM IN B SEAT GUILTY OF MURDER

J. R. L. Starr Receives but Poor Support—E. W. J. Owens Gets Class "A" by Acclamation—More Representation for Toronto is Hope of Younger Men.

E. W. J. Owens received the nomination by acclamation as candidate to contest seat "A" in the riding of South Toronto at the South Toronto Liberal-Conservative convention last night in Victoria Hall.
 Five names were submitted for seat B, but three, Arthur Van Koughnet, Dr. Chas. Sheard, and Thomas Hook, retired in favor of Geo. H. Gooderham. J. R. L. Starr allowed his name to stand. As Mayor Geary, chairman of the meeting, was wading thru the long list of delegates, the scrutineers agreed to settle the nomination by a standing vote. Only two supporters of Mr. Starr voted.
 Mr. Starr asked that the convention make the nomination of George H. Gooderham unanimous, amid a wild outburst of cheering from the delegates.
 As E. W. J. Owens arose to speak, Mayor Geary called for three cheers, leading the cheering himself.
 Owens Makes Bow.
 "As far as my duty goes as your candidate."

Defending Counsel Will Appeal Verdict of Jury on Ground That Man Who Shot James Loughheed Was Insane at the Time—Alienists Give Evidence.

Joseph R. Jessiman, charged with killing James Loughheed on Hayter-st., on May 23 last, was found guilty of murder yesterday in the criminal assizes.
 His counsel will appeal the decision on the plea of insanity. Justice Riddell intimated that he would defer punishment until further investigation.
 A solemn hush settled over the crowded court room. The jury came in. The accused man's life hung in the balance.
 One by one the jurors stepped into the box. They seated themselves, each unconscious that his neighbor was doing likewise, turning his eyes from the prisoner's box, and staring blankly at the ceiling. The clerk of the court called the names.
 "One."
 The silence hung as heavy as if the shadow of the prisoner's doom was upon all present.
 "Two!"
 The prisoner stared vacantly at the ceiling.

RUSSIA RESENTS U.S. METHODS IN PERSIA

W. Morgan Shuster's Attempts at Constructive Financing Irritating to Great Britain Too—Mohammedan Uprising—Issue Raised in Commons.

WASHINGTON, Nov. 14.—The crisis in Persia involves the peace of all countries in which Mohammedans have found a footing, and not alone the future of W. Morgan Shuster or the American financial structure which he has endeavored to raise in the eastern country, according to information reaching official circles in Washington from various parts of the east.
 The ultimatum from Russia to Persia, that apology must be made for the seizure of the property of the deposed shah's brother, is the culmination, apparently, of developments that have been steadily since American financial experts were selected by the new nationalist government to attempt the regeneration of the finances and commerce of the country.
 It is claimed here that the grant to Mr. Shuster, as treasurer-general of complete executive power, did much to irritate Russian. The vigorous assertion by Mr. Shuster and the Persian Assembly of the complete independence of the country and its freedom from any obligation to Russia or Great Britain, has been a source of irritation to the former, and of criticism from leading sources in Great Britain.

Unrest Among Mohammedans.
 There now is a disposition amongst leading figures in Mohammedanism to construct as a concerted assault on the Mohammedan people the continued attack upon Persia, and the situation in Tripoli, Morocco and in Paris or India. How far this unrest of the Mohammedans will develop if Persia becomes more seriously involved with Russia, officials here are not ready to say.
 Persia is regarded as the brain of the East.

Beware of Fur Frauds.
 Buying imitation furs can be compared only to dealing in "paper shoes." Do you know that the Canadian market is receiving an overdose of this spurious product? Imitation fur is the substitution of some inferior pelt for the real thing. Of course it is dyed and looks good, but the quality is not there—the pelt is too frail to hold the fabric and it tears with a few weeks of wear.
 In the United States the public is demanding some government protection against fur frauds and at the next meeting of congress a bill will be put through along the lines of the "Pure Food" Act, and it is expected that after this only certified skins will be offered for sale. In the meantime Canada is being used to some startling extent as a dumping ground, and it is recommended that buyers of fur garments deal only with accredited furriers. The Dineen Company desires to impress on the citizens of Toronto the fact that they have always maintained an absolutely high-class line of fur, purchasing all pelts direct from the trapper and in the big European markets and making every garment on the premises.

CHINA'S "STRONG MAN" SHIES AT PREMIERSHIP

Office is Lofty But Also Somewhat Perilous—Working to Re-establish Credit.

PEKING, Nov. 14.—While the imperial government is endeavoring to force the premiership on Yuanshikai, China's "strong man," in his various conferences to-day with the prince regent, the acting premier, Prince Ching, and other members of the nominal cabinet, took occasion to point out the insecurity of that office, the retention of which depended upon the caprice of the national assembly. Yuanshikai, if he accepts the premiership at all, desires a fixed term of office, and he so stated to the regent. But he must obtain this thru the national assembly, as an edict would be likely to arouse suspicion.
 It is not considered probable that Yuanshikai will undertake the government.

Protecting the Consumer.

Two or three years ago the ice manufacturers of New Zealand formed a combine and raised prices. Without more ado the government stepped into the field, started an ice plant and sold at cost. The combine promptly disappeared. Precisely the same principle is being acted upon to-day in Des Moines, Iowa, Indianapolis, Ind., and other cities in the United States.
 Convinced that the middlemen were advancing prices of farm produce without giving the producer any better return, the mayors of those cities started to buy agricultural products and to retail them at prices sufficient to meet the first cost, transportation and other distributive charges. In Indianapolis, Mayor Tanker has been buying potatoes in that way, and selling them to the consumer at 75 cents per bushel. Up to Nov. 11 he had sold 8000 bushels, representing about \$6500, including cost of delivery.
 As a result of his determination to show up the commission men, and between the time when he announced his intention and the arrival of the first car, the wholesale price of potatoes dropped 25 cents a bushel and the retail price was out and has since been further reduced. The incident illustrates the only effectual method of dispensing with the middleman, if so be that he is responsible for undue increase in prices. It is one, too, which farmers and growers of agricultural produce can apply themselves if they are willing to follow the example of Denmark, Ireland and other European agricultural communities.
 In connection with the above, the following Toronto figures are of interest:
 New Brunswick potatoes are worth \$1.15 per bag for car lots track To-

WOULDN'T TAKE CAR AHEAD BROUGHT BACK TO YONGE

Passengers on Dundas Car in Fighting Mood—Make Round Trip at Company's Expense.

Sixteen people boarded the car at Yonge and Richmond, bound for West Toronto last night. Upon arriving at Eglinton, they were told to take the next car behind. This being a nightly occurrence they refused. The car was turned back and they were brought back to the corner of Queen and Victoria, where they were ordered out by a street railway inspector.
 A policeman got on the returning car at Bathurst and Queen-streets, presumably to arrest the delinquents, but upon seeing the number he left the car.
 None of the people arrived back home in time for the evening meal, and some remained down town.
 Noble Scott of 480 Arnetto-street, one of the round trip passengers, will circulate a number of petitions among West Toronto car users protesting against the deplorable car service on the Dundas line. This will be sent to the Ontario Railway Board.
 Ontario potatoes are worth \$1.05 to \$1.10 per bag, for car lots, track, Toronto, and retail at \$1.25 to \$1.35 per bag delivered.
 Commission dealers report that offerings are none too liberal at present.

NEW LINES IN ONTARIO

Sir William Mackenzie Not Explicit as to Motor Power For Toronto—Guelph Branch.

Sir Wm. Mackenzie stated yesterday that building operations on the new Canadian Northern line from Toronto to Hamilton will be commenced early next spring. This line will run over the Toronto Power Company's line.

Work, he said, would also be commenced on the company's railway line from Toronto to Guelph as early as possible next year.

When asked if there were any new developments in the Winnipeg street railway matter, he replied that as far as he knew there were none.

At St. Dorothy, the line will branch in two directions, one connecting with the C. N. R. system at Malton, and the other running thru the proposed tunnel to the company's station in Montreal.

EXTENSIVE ADDITIONS TO CITY'S MAIL SERVICE

Ottawa Orders Improvement in Collecting and Delivering Systems—New Sub Offices.

On Nov. 20 a new mail service will be inaugurated in Toronto, under instruction of the postmaster-general.

In addition to the establishing of a large number of sub-offices, the delivery and collection of mails will be greatly extended.

The new order also calls for a more frequent service at night, so that an accumulation of mail will be impossible.

An additional improvement will be made in service as soon as the new automobiles are put into use.

They will be the first installed in the mail service in Canada.

HEBERT WITHOUT FUNDS MAY CALL ON PUBLIC

Justice Charbonneau Intimates That Celebrated Case is in Danger of Collapsing.

MONTREAL, Nov. 14.—That the fight to decide the validity of the Ne Temere decree may of necessity be financed by the people of the country, who are interested in seeing the matter finally decided, was the opinion expressed by Justice Charbonneau, when it was intimated that Eugene Hebert was without funds to continue the litigation over the validity of his marriage to Emma Cloutier.

L. J. LeFebvre, attorney for Hebert, stated that owing to a lack of funds a suspension was desired on one point of the contention to save court costs.

Justice Charbonneau, in replying, stated that the question was so difficult and complex, that if sufficient funds were not forthcoming from the litigants themselves, the people of the country who had taken sides in the matter should provide funds to carry the matter to the privy council for a final decision.

There are oppositions by both the child and its mother to the annulment of the marriage. Mr. LeFebvre noted in saying the petition before the court, the opposition on behalf of the child, and declared that the double opposition would be too much for the parties to bear because they were too poor.

The issues in both oppositions being the same, he could not see any reason to carry on both cases.

The proceedings were only postponed temporarily, however, on the child's opposition, and it is expected that the case of the wife's opposition will go on.

PRAYER FOR MISSION WORK

Methodists Recognize Universal Day in Metropolitan Church.

The annual day of prayer for the mission work all over the world of the Methodist Church will be observed Nov. 24 at the Metropolitan Church.

The services will be in charge of the 31 Methodist auxiliary societies and 21 young women's circles of the church in the city.

The different societies will organize into seven bodies, each of which will be given one hour during the day's service.

This does not comprise all of the mission prayers, but is a day set apart each year for universal prayer.

SINISTER PLOT REVEALED

Letter Used as Evidence Against Pole Tried for Attempted Murder.

MONTREAL, Nov. 14.—"Dear Friend, We inform you we have done what you wanted us to do. We have succeeded in catching him. He will live no longer to lick you or anybody else. Only bones and dirt will remain of him. We have done it so no one will know about it. We wanted to come to your house, but we have decided not to go as it would perhaps look and feel as if we were together. I write you this note, and soon as you receive it you will come to us, and you shall not be disappointed. It is so that you shall know what we will do for you. We have wished has been done, hide this note and come to us and we will tell you what we have done for you."

The above unsigned letter, received by the young Pole, John Senuk, charged with instigating the attempted murder of Michael Schullin, 59 Manufacturers-street, was the principal part of the evidence heard in the enquete court today in this attempted murder case, where four unknown men, bound Schullin to the axle of a freight car a few weeks ago. Senuk was arrested as being back of this plot on account of a letter he had written to the three, receiving, but says he knows nothing about it.

Gotham City of Garbage. NEW YORK, Nov. 14.—It will be a full week, according to an official estimate, before New York wholly rid itself of the garbage which has been an eyesore and health menace in its streets for six days. Street Cleaning Commissioners' officials said to-night that he had over 2500 men at work today, or more than the number of strikers, but notwithstanding this it would take until next Wednesday to get all the streets cleared of the garbage. The strike so far has cost the city \$158,700, and some 2000 men their positions.

Mayor Gaynor remained firm in his stand not to take the strikers back. The strikers' places have been more than filled, he said.

Turned Ship to Aid Operation. MONTREAL, Nov. 24.—The three latest arrivals in part, the Ansonia, the Corican and the Lake Manitoba, all report unusually light passages, without a single day of moderate weather, which explains the fact that all were late in reaching Montreal.

On board the Ansonia a young Swede was taken suddenly ill and an operation for appendicitis was immediately necessary. The captain turned the ship to the aid of the patient, and the operation was successfully performed by the ship's surgeon. The patient was doing well on arrival here and was taken to one of the hospitals.

Rates, routes and literature will be gladly furnished. They will be glad to answer all questions or write to M. G. Murphy, District Passenger Agent C.P.R., Toronto.

Beck Goes to Ottawa. Hon. Adam Beck left last night for Ottawa, and will attend the opening of parliament to-day. It was at first thought that the minister of power was going specially to represent the Ontario Government, but Sir James Whitney stated yesterday afternoon that this was not so.

Would Believe Motor-Car. BRANTFORD, Nov. 14.—(Special.)—In spite of the fact that witnesses swore positively that the motor was damaged and it was impossible to break the speed limit, F. H. Gott, a local motorist, was fined \$10 here today by Magistrate Livingston, who accepted evidence of two constables with stop watches. The conviction was the eighth one in two days as the result of special efforts by the police.

The fines on Tuesday last were \$700 other cases being adjourned.

The Women of Tripoli. One of the most discouraging features of life in Tripoli, as in other Mohammedan countries, is the condition of these veiled, fatalistic women. Those of the richer classes live in unimpaired idleness, the poor, in even more ignorance and constant ill-directed drudgery. A missionary, for whom the wife of a minister was preparing supper, noticed that she set aside in a curtive way a small part of the tea and sugar.

New Apartment. Two apartment houses will be erected by A. B. Coleman on his property on Queen-street between Triller-ave. and King-street. Mr. Coleman has just purchased a piece of land 66 x 100 feet at this point, which, with the property he already holds, will be sufficient ground for a building containing 31 suites.

ANOTHER INVESTIGATION OF WORKS DEPARTMENT

Controller Church Wants to Know Exactly How Much Intake Repairs Have Cost.

Controller Church says he will move at Wednesday's meeting of the board of control for a detailed bill in connection with intake repairs to date.

He says that an official in the city treasurer's department has told him that the outlay has been so far \$0 per cent. more than Mr. Rust said.

On Nov. 7 Mr. Rust reported that to them the repairs had cost \$31,267.

The controller says he is going to find out who is right, the official or Mr. Rust.

City Auditor Sterling was asked later how the figures had been mentioned, and he put it at \$170,000. Mr. Rust was then seen and he accounted for it by saying that they had put intake repair and new intake work together. Intake repair work to date, totaled about \$80,000, he said.

When told that the auditor had given the figures as referred to, intake repair work he said that his figures had been given him by Mr. McCaskey and he had been told that they covered all accounts to that time.

Lee, 579 Innes-ave., was injured in a football game between Parkdale and Harbord Collegiates on October 24 in a critical position at his home as a result of the injury. Meningitis has developed and Dr. Henwood, who is attending him, considers his condition very grave. The injury was the result of a head-on collision with another player.

Dies in Bed. Mrs. Eliza Phillip was found dying in her bed at the home of Walter Cory, 13 Beverley-street early yesterday morning. Her husband, who was secured she had passed away.

NORTH YORK LIBERALS PICK ON J. M. WALTON

Aurora Banker is Hope of Northern Men—North and West Toronto News.

NORTH TORONTO, Nov. 14.—(Special.)—At tonight's meeting of the North Toronto Board of Works strong representations were made by Messrs. Meen and Meen and Engineer Brookes relative to the widening of Avenue-road thru the Gamble property south of Eglinton-avenue. At this point Avenue-road is only 10 feet wide and is a narrow and poorly owned alley. The Sons of England held a most enjoyable concert and dance in the Town Masonic Hall last night.

Engineer James is absent in Rochester, N.Y., where he is in attendance at the annual meeting of the Municipal Engineers of America.

The engineer has started a gang of men on the 18-inch trunk sewer. The work is completed thru the Wilson property. The electric light is attached to Glenview and the wires for the camp is already in the Bedford Park district.

Councillor W. W. Reid of North Toronto, who has written a short trip to Boston, whether enroute to investigate personally the adaptability of the municipal engineering to Toronto, has this to say about them:

"The stations without any pretence to architectural beauty, the street and only occupy on the surface about 20 x 40 feet space.

"A close investigation amongst artisans completely convinced me that it is not the wealthy as much as the poor and middle class who were benefited by the subway in Boston. A blue nose from N. B. Canada, said he had lived in Boston about twenty years. He was a fireman and received \$3.00 per day. The tunnel as he called it, saved him over half an hour's time in the morning and the same at night and the extra charge was one cent each way. But he did not mind the street car an extra hour each day. Would tradesmen and laborers vote for the architecturally beautiful station before them? Yes, every man of them, he replied, for they save us time and money.

"Yes, the tubes are money-saving, time-saving and life-saving. They save money because they are a paying investment for any city. They save time because they give a rapid transit. They save life because they reduce congestion, where skulls are cracked, limbs broken and severed and nerves and spinal fluid are exposed to the fire and light committee."

Real Irish Tweed Suitings

(FROM DONEGAL)

Need we tell you anything about the Donegal tweeds? Famous the world over. To the man who has worn these suitings it is only necessary to say "we have them." Nothing else like them for business or general wear. The designs are singularly attractive. You get the "mottled" effects in deep, dark tones of grey and brown, the wave effects with colors interwoven in blue, green and red, pinhead effect, and the simple black and white, black and brown mixtures. And they'll wear like leather. Always full of life and vim. That's Donegal.

Made to order first-class, \$20
 We would like you to step in and look.

AERONAUT ENDS LIFE.

PARIS, Nov. 14.—The U. S. Consul here has been notified from Calais that it is believed that Edgar W. Mix, the well-known sportsman, committed suicide by jumping from a channel steamer which left Dover for Calais Sunday night.

Mr. Mix, who was formerly of Columbus, Ohio, has been engaged in business in Paris for many years, and being a member of both the Aero Club of France and the Aero Club of America, has represented both countries in international contests. He was a noted aeronaut, and won the international balloon race at Zurich, Switzerland, on October 5, 1909.

KILLED BY FALL FROM MOW.

PARRE, Nov. 14.—Alex. D. Gilchrist, a farmer, aged 70 years, of Orr Township, met sudden death on Monday by falling from the mow in the barn, where he had gone to throw some oat straw to the stock shortly before noon. He was found by his only son, John Gilchrist, some time afterwards. The coroner was called, and announced death as having been instantly caused by the fall of about eighteen feet.

Deceased had spent 58 years of his life in the township and in the locality in which he died.

The "guinea" trousers continue to be a feature at the House that quality built. A special shipment of very worthy fabrics in gentlemanly and exclusive patterns has just been passed into stock at R. Scott & Son's, Limited, tailors and haberdashers, 77 West King-street, which will prove to be some of the best values that this old established and reliable drapery house has yet offered at the same old fixed "guinea" trousering price, \$5.25 per pair.

Ladies Are Barred.

MONTREAL, Nov. 14.—No women will be admitted to the sessions of the men's missionary congress, opening to-morrow afternoon in Montreal, after sweeping thru the west, according to a fiat to the ushers who will be in attendance at each meeting. At some of the western meetings the presence of women embarrassed some of the speakers, and prevented the free, direct treatment of their subjects demanded. There will be, however, a ladies' meeting Friday afternoon, which will be addressed by Sir Andrew Fraser.

Extending Winnipeg Terminal.

WINNIPEG, Nov. 14.—The Canadian Pacific Railway is at present working on plans for increasing the capacity of its Winnipeg terminals. Whether the present yards will be extended or whether new yards will be constructed at points east and west of the city where property is cheaper, has not yet been decided.

TAKE "DAVIS" FOR YOUR PILOT

Men used to navigate by the stars before the compass came into use, and when the stars were not shining they were very, very much at sea.

THEY WERE SHORT OF A GUIDE.

When your grandfather bought cigars he got a roll of tobacco, but was often very, very much at sea on quality.

Take a "Davis" for your pilot and be sure of "quality" when buying cigars.

The Davis Perfection 10c Cigar

represents a standard of quality hitherto unknown at the price.

"PERFECTION" in the selection of leaf, and "PERFECTION" in the blending of it, has been attained by the experience of over half a century.

The "PERFECTION" Cigar lives up to its name and the name of the house that makes it.

NEW MARKET.

Jesse M. Walton of Aurora is North York Candidate.

NEW MARKET, Nov. 14.—(Special.)—Nearly 200 Liberals from all parts of the riding met in convention here this afternoon to select a candidate for North York in the coming provincial election. Half a dozen names were placed in nomination, but none of the candidates had the necessary support for a moment, and it was a repetition of the East York fiasco of last year.

Finally Jesse M. Walton of Aurora, banker and broker, was induced to offer himself as a sacrifice, and this occasion on the part of Mr. Walton was hailed with tumultuous applause.

Following Mr. Walton's acceptance and his inaugural address, Harry H. Dewart, the ever-present, ever-ready, spoke at great length, reiterating his words of reciprocity and pleasure for all the ills to which the farmers are heir.

The Liberal candidate is a native of Kentucky, King Township, is a successful business man, a neighbor of T. Herbert Lennox, a life-long Liberal and in religious life a member of the Quaker Church.

Mr. Editor: I thought the difficulty we experienced in getting an adequate number of our school rate payers for our children in Section No. 25 might interest some of your readers. As to our school rate payers, the coming year will be 14 miles to the dollar (more than twice as high as the city rate, I believe), we are in the unique position of having only a two-roomed frame school building with seating accommodation for 125 pupils, 175 children on the books, and another pos-

Nervous Action in Wheat Market Prices Up and Down All Day

Chicago Exchange in Apprehensive Condition—Closes on a Rally With Prices Unchanged for Day

CHICAGO, Nov. 14.—The basis for raising estimates on the Argentine wheat output to-day was a belief that the average had been calculated too low, although it had been calculated to be nearly one-sixth over 1910. News of this sort from South America seemed to act as a wet blanket on prospects for a material advance in quotations. Besides, the world's available supply of wheat was shown to have climbed to the colossal total of a year ago. Nevertheless, scattered commission houses absorbed all pit offerings, raising prices and brought the market back from each decline. The reason was that winter wheat receipts and supplies were seasonally small, and the leading cash interests were reported as large, the market here reported steady 2-4c up at 63 1/2c was steady. During the season, the market was steady 2-4c up at 63 1/2c and 63 3/4c, with the last sales at 63 1/2c and 63 3/4c, a net gain of a shade.

Corn Was Stronger

Corn developed strength on account of small receipts and light country offerings. Besides, stocks are scant here and the market is quite a general desire on the part of large local shorts to get sellers. December ranged from 63 1/2c to 63 3/4c, closing steady 2-4c up at 63 1/2c.

Home and Dome Ex. Lead Market in Day of Great Activity

Mining Market Fairly Boils Old-time Enthusiasm Shown

Porcupine Issues Score Sharp Advances in an All-round Buoyant Session—Hollinger the Only Weak Spot.

World Office, Tuesday Evening, Nov. 14. There was a good deal of old-time enthusiasm in the mining exchanges to-day, the market in so far as the Porcupine issues were concerned, displaying more acumen than in a long time, and prices recording sharp advances in most of the general favorites.

Trading turned decidedly more active, the speculative movement showing a definite broadening tendency, and a strenuous demand for the leaders being evolved. It was noteworthy that there was no let-up in the demand throughout, and the idea was frequently expressed of a "floor" that things were looking better than in a long time.

Speculation Disseminated Thru List. The buoyancy was fairly well disseminated throughout the list, and advances were so widespread as to be discernible almost everywhere. The big issues, the stock resuming its upward trend, and scoring a sharp gain at 85, an advance of a couple of dollars a share. The bulge was inspired by the optimistic utterances of Managing Director Monell, concerning the results of the drilling on the property.

Hollinger did not do so well as its sister issue, the shares recording a decline from yesterday's high point. The range for the day was \$10.25 to \$10.12 1/2, with the close at the latter figure. Real sold at 88, but was back again at the close for some days.

Market Baffling Over. The market in so far as cheaper issues were concerned fairly boiled over with some Extension, Vipond and Crown Chartered the features. Dome Extension sold up 2 points to 75, on a sustained buying demand of better caliber than has been witnessed for some days.

Vipond moved up to 50 1/2, a gain of nearly two points for inside account was again mentioned as responsible for the advance, but the announcement that the company would be one of the first to operate a mill in the camp had more to do with inspiring the outside following than anything else. The close was strong, at 50 1/2 bid, 50 1/2 asked.

Crown Chartered was one of the most active issues for the day, and an advance of over a point was piled on top of the recent bulge. A new record figure for the movement was established at 50, and that price was bid at the close, a strenuous demand being still in evidence.

Other strong points were Foley-O'Brien, which sold up 10 points above last week to 77, and Pearl Lake, which gained a fraction at 48.

The market throughout was in prime condition and look for higher prices practically throughout the list.

LAURENTIAN MINE SOLD. The famous Laurentian mine, in the Manitowishiting, is now the property of E. B. Hedges, a mining man of Boston, Mass., who on Saturday returned from a trip to Sturgeon Lake. He proposes to go ahead with the development of the property during the winter, and is now arranging to ship additional machinery to the mine just as soon as the lakes are frozen hard enough to permit freight across the ice route.

Mr. Halston Retains Complete Management of United Porcupine. Mr. P. Halston denies emphatically that any arrangement has been made with T. S. Jenkins, at present manager of the Eldorado, to take charge of the work on the United Porcupine.

STATUS OF STEEL TRADE

Trend of Prices Downward and Developments Are Discouraging.
 NEW YORK, Nov. 14.—The tendency of steel quotations continues downward, and new low prices have been made lately in bars, sheets, plates and structural steel. Notwithstanding this downward tendency, there has been no increase in buying. Orders so far this month have been at about the same rate as in October, and operations of mills show little change.

The United States Steel Corporation is operating at 75 per cent of its rated capacity and the average of the independent is slightly less. While the independent companies claim to be operating more capacity than the Steel Corporation, others are down to 50 and 60 per cent of maximum.

Finished steel prices average about 10 cents a ton lower than a week ago, and the fact that the Steel Corporation has been receiving business at the rate of 75 per cent of maximum capacity on a basis of prices that represent a very little profit, particularly the independent companies, is not an encouraging development by any means.

In the price war of 1909 orders were 10 per cent larger than they have been in the last several weeks. Operations in February, 1909, were between 50 and 60 per cent of capacity and increased from that time until October, 1909, when they had reached 96 per cent.

A year ago the Steel Corporation was operating only 52 per cent of capacity, compared with 75 per cent at present. Besides, the corporation is in a position to turn out more steel than it was a year ago.

LONDON MARKET EASY

British-Americans Generally Hold Firm—C.P.R. Loses a Fraction.
 LONDON, Nov. 14.—Money and discount rates were easier to-day. The stock market was generally dull, largely due to the reaction in New York. Home rails made a slight advance at the opening, but fell to the level of the previous day. Chinese bonds were better. Union Mail Steamship Co. shares advanced on rumors that the line had been bought up by the Union Government of South Africa.

The break in Wall Street probably had something to do with depressing the market here, but outside of adding a little more weight to the already heavy situation, it did not pose as any material influence.

The feature of the day was the slump in Rio, which set off a reaction in the manner in which prices fairly crumbled under liquidation demonstrated the over-extended nature of speculation during the recent advance. There seemed to be a barrel of Rio on offer, and it was freely hinted that a good deal of stock had been bought on margin lately and that margins were wiped out in drastic manner in this slump.

EXCEEDED AUTHORITY

Commerce Court Takes a Sharp Rap at Interstate Commission.
 WASHINGTON, Nov. 14.—The opinion of the commerce court in the Interstate Mountain case was made public to-day. It covers about 30 printed pages. The court declares the fourth section of the act to regulate commerce "long and short haul clause" to be unconstitutional. The crux of the opinion is declared in this declaration: "In so far as the interstate commerce commission attempts to determine the relation of the long and short haul rates, irrespective of absolute rates, it goes beyond any authority that has been vested in it, for it is not in the power of the commission to say that 100 per cent, or 107 per cent, or any given percentage of an unknown less than reasonable rate to the coast is necessarily a maximum and non-discriminatory rate from the same point of origin to any interior point."

Trust Selling Proceedings.

JEFFERSON CITY, Mo., Nov. 14.—In the case of the State of Missouri against the International Harvester Co., suing for a writ of ouster, the state supreme court to-day granted a writ of ouster and fined the company \$60,000.

European Bourses.

BERLIN, Nov. 14.—Profit-taking depressed prices at the opening of the bourse to-day. Later the market recovered and closed steady.

PARIS, Nov. 14.—Prices were irregular on the bourse to-day.

Morgan and Steel.

NEW YORK, Nov. 14.—J. P. Morgan attended a private meeting of the finance committee of the U. S. Steel Corporation to-day.

It is reported Morgan will sell control of the Peru Marquette to a New York syndicate, which includes Newman Egan and his associates.

Elevated Road Goes Under.

NEW YORK, Nov. 14.—A receiver has been appointed for Chicago and Oak Park Elevated Railroad Co.

Prices Drift to Lower Levels Profit-taking Still Under Way

New York Market Shows Poor Absorptive Power and Stocks Lag—Rio Leads Decline in Toronto Exchange.

UNITED STATES BANKERS.
 NEW YORK, Nov. 14.—Prices drifted slowly toward a lower level during most of to-day's trading in stocks. At no time was the movement abrupt and a rally late in the day reduced losses largely, so that at the close changes for the most part were small. Profit taking was continued in a moderate way and the willingness of holders of long stock to sell whenever favorable opportunities were presented apparently was largely responsible for the course of the market. No general investment demand has appeared, with the result that the absorptive power of the market is limited, altho it has been sufficient to preserve the greater part of the recent large advances.

The late rally in prices apparently was based upon the recent order of the commerce court granting a temporary injunction in the inter-continental freight case, the text of which was made known. Much was made of the restrictions laid upon the Interstate Commerce Commission in regulating rates under the long and short haul clause. The decision showed that the question had been studied carefully against what is probably the commerce commission's most important order of the kind, and was regarded as of importance. Railroad stocks were bought heavily on publication of the text of the court's order.

Decree Against Harvester Company. The bears found ammunition earlier in the day in the ouster decree of the Missouri Supreme Court against the International Harvester Co. The stock had been moving uncertainly for several days on reports that the company had not been able to agree with the International Harvester Co. on a plan of reorganization to improve its standing under the Sherman law. When the decision of the Missouri court against the Harvester Co. was announced, the bears attacked the list vigorously and succeeded in depressing prices some what. The bears found small excitement in the case of International Harvester itself, which subsequently recovered half of its decline.

The coal roads were again prominent. Leigh Valley touched 181 1/4, equaling its high price for the present movement. Reading fluctuated within a narrow range, and a point closed nearly two points off. U. S. Steel again showed weakness, and U. S. Steel lagged behind.

TORONTO STOCK EXCHANGE.

World Office.
 Tuesday Evening, Nov. 14.
 The Toronto stock market turned weak to-day under the lead of the Boston market. The first impression was a sharp reaction, and indicated a feeling of nervousness throughout the whole list.

The break in Wall Street probably had something to do with depressing the market here, but outside of adding a little more weight to the already heavy situation, it did not pose as any material influence.

ON WALL STREET.

Ericksen Perkins & Co. (J. G. Beatty) wired: Stocks have gotten into a trading zone and seem likely to work back and forth within a 3 to 4 point range for the present—or until some important news occurs to change the drift. At to-day's bottom prices Steel, Union Pacific and Reading were down about four points each. Early in the afternoon they showed a hardening tendency and recovered rapidly, making up fully half the loss for some of the leaders. Later on they became irregular. Not much long stock appears to have come out on the early break. It looked more like the attack of traders who are, as a rule, bearish. The general outlook is fairly good. Public confidence is returning and should any considerable short interest develop we will see higher prices soon. We would buy on all drives for moderate terms. Reports of trouble in the case of some of the lower priced specialties will probably be heard from.

Chas. Head & Co. wired at the close:

Opening prices generally showed a firmer tone this morning and several issues made new high records. A reaction followed which by noon time had carried quotations down from one to two points. Throughout the day the business has been quiet and uncertain in trend. There have been but few features. Reports of trouble in the case of two bear houses are current. Closing prices were heavy at a reaction of 1-3 to 1 point, with sentiment unsettled and uncertain. We would still suggest buying of the better class of stocks on all breaks of two points or so for sales on rallies.

MONTREAL STOCK MARKET

Further Reaction in Prices—Rio Down to 111 1/4.
 MONTREAL, Nov. 14.—There was a further reaction in prices on the market to-day, and there was a general decline throughout the stock list, with marked losses in some cases.

Rio, which was under pressure, the sales amounted to 3570 shares, had a pronounced decline, selling down from 113 at the opening to 111 1/4, as compared with 113 5/8 at the close yesterday. It recovered fractionally at the close to 111 1/2, with that figure bid and 111 5/8 asked at the close.

Steel Corporation stock, which was another of the active issues, after selling at 85 1/2, declined in the late market to 83 1/2, with that figure bid and 85 5/8 asked at the close. There was some selling of Montreal Power, which declined to 185.

Shawinigan weakened to 120, as compared with 122 at the close yesterday. Richelle weakened to 123 1/4 as compared with yesterday's close of 124. Canadian Pacific sold off to 239 3/4, with the closing bid 230 1/2. Montreal Street weakened to 22 1/4, a loss of four points from yesterday's close, and Toronto Ralls sold off to 138 as compared with 139 at the close yesterday.

Paris Tunics

Paris, Oct. 25th, 1911.

The Robert Simpson Co., Toronto.

Gentlemen:

We have this day forwarded (in answer to your cable) 45 of the newest Tunics. They are all units, so you will find that there are no duplicates in America.

We show these beautiful goods to-morrow (Thursday) in our Tunic Section, Waist Dept., 3rd floor, and in view of the ball on the 29th, and various other functions, they should prove of immense interest. The dressmakers of Toronto are all too busy to take any more orders. These tunics only require a slip to make them a complete gown.

CRYSTAL TRIMMINGS.

On Tuesday, November 14th, we placed in stock fifteen hundred dollars' worth of Crystal Trimmings. These we had cabled for, in view of the brilliant evening season, and it is a satisfaction to us to feel they have arrived in time.
