Ballantyne States Canadian Construction Will Continue Into Next Year.

MUST BE A LIMIT

Government Orders for Vessels Being Continued Partly to Aid Labor.

Ottawa, May 8.—The Dominion government is to give more orders for ships. "It is not the intention of the government," declared Hon. C. C. Ballantyne, minister of marine and fisheries, in the house today, "to cease our shipbuilding program now. We are going to order additional ships, at least enough to keep the yards requiring business busy throughout the balance of 1919, and probably into the year 1920."

Shipping was under discussion in the house during practically the whole day. It opened when the house was in supply on the estimates of the marine department. The vote was one of \$30,000,000 to complete the shipbuilding program already announced. When the committee rose at 6 o'clock, the vote had not been passed. In the evening the house reverted to discussion of the war vote of \$50,000,000, opened yesterday, and again discussion centred around the department of marine and fisheries, while announcing that the government intended to build more ships, emphasizing that there must be a limit to the number which the government could use and "we are getting very near to that point." There were, he said, about 40,000 men engaged in Canada in connection with shipbuilding and to throw these out of work at the present time would be a rather critical thing for any government to do. He had today, Mr. Ballantyne said.

McCULLOUGH CAPTURED

MADE NO RESISTANCE

Had Been Hiding in Bathurst Street House Since Escape, Having Gone There With Woman Supposed to Be Vera De Lavelle.

Frank McCullough, the murderer of Acting Detective Frank Williams, who escaped from the jail April 15, two weeks before the day fixed for his execution, was yesterday recaptured by Detectives Cronin, Tuft, Armstrong, Jack Young and Silverthorn at the house at 18 Bathurst street.

Scarcely a stone's throw from the spot where he is under sentence of death, was the spot chosen by McCullough to be hidden from the police and it appears that the murderer has been in this house practically all the time since he left the jail.

The detectives, every one armed, as a fight was expected, were despatched to the house yesterday morning at 10.30. Detectives Cronin, Tuft, Armstrong, Young went in the front door and proceeded to the room, which was on the second floor. When they entered, McCullough, a man and threw up the window with his right hand and jumped out feet first. As he fell he was immediately covered by Detectives Silverthorn and Armstrong, who had been hiding at the side of the house. The three detectives also covered him from the window above. When he saw there was no chance of escape he exclaimed, "I have nothing on me. I am off guns. What are you going to do?"

Had No Gun.

At headquarters, McCullough told Inspector Guthrie that he had made up his mind to never handle a gun again, and that if they had not captured him he intended to leave for parts unknown. He was clothed in a suit, a white shirt, a tie and a pair of blue pants. With the exception of looking thin and pale, as if he had undergone considerable strain since his escape, McCullough was cool and composed. He talked and joked with the detectives. He almost nervously devoured a small hot lunch which was brought to him, and appeared weak from the lack of food. He was held at the detectives' office about forty-five minutes, and was then led from the room under high guard, and instead of handcuffs, a thick rope was tied from both wrists to the wall.

In the room where the condemned man was hiding from the law the police found a new bicycle, a fully-packed kit and a quantity of wearing apparel. Most of these articles the police have ascertained, were stolen from the man's home in the night last, when he broke into the house of E. L. Hickey, 527 Crawford street. On that night there were found missing a sweater, watch, jewelry, opera glasses, etc. The bicycle found in

IRISH DELEGATES' VISIT TO EUROPE EXCITES COMMENT

Questions Will Be Asked in British House Regarding Notes With Wilson.

Others Are Indignant at Interference in Britain's Private Affairs.

London, May 8.—Very soon we shall hear much more of Ireland. Questions will be asked in the house of commons concerning the visit of the Irish-American delegation to Paris, London and Dublin with their communication with President Wilson when the home rule issue was urged and there was an attempt at an interview with Premier Lloyd George.

The Daily News' which from Gladstonian days, has firmly supported home rule, says the English public cannot put this visit down as just one more irresponsible adventure of a community which acts ungraciously from the simple motive of hatred to Britain. It means England must face the issue which has been becoming clearer and clearer since the 1916 rebellion. Without a complete and decisive change of attitude, adds The News, we shall continue to stand condemned before our dominions, before America and before the world.

The Westminster Gazette which carries considerable weight with old-time Liberals, ironically speaks of the minister being in a "scramble" and advises him and President Wilson to remain calm under demands of "immediate explanation," leveled by The Times and Morning Post.

Government Did Right.

The government did quite right in permitting the delegation to go to Ireland, says The Gazette, for it is far better they be allowed to go and see for themselves than that they should return and say that Ireland is a spoiled country. The Gazette, however, says the News, already quoted, maintains that Delegate Frank Walsh is a distinguished American politician, and asserts that there is not the least reason why Englishmen should fly into a temper if President Wilson should see his own countrymen on their return from Ireland or bring to the prime minister's notice anything in their reports which he considers serviceable.

AFGHAN TRIBESMEN CROSS THE BORDER

Britain Has Taken Military Precautions and Addressed Vigorous Note To Amir.

London, May 8.—Afghan tribesmen have crossed the Afghan border with the assistance of Afghan regular troops and have occupied certain positions on the Indian side of the border, according to a despatch from the Indian foreign office. Military precautions have been taken by the British, who have addressed a vigorous note to the Amir.

It has been reported for some time that the new Amir had adopted an unfriendly attitude toward the British and contemplated a violation of the north-west frontier and Khyber Pass, the principal northern pass into that country from India.

No large number of tribesmen are concerned, but they have occupied some heights of importance commanding two roads leading across the frontier.

ment stood up especially well. Strong head winds were encountered, throwing the planes thirty degrees off their course, an extraordinary condition, according to Commander R. E. Bird, who piloted the number three plane, the first to arrive in Halifax harbor, and the apparatus recorded perfectly the divergence entailed, enabling the ships to hold to their course with the greatest ease. Commander Towers stated that the visibility throughout the trip was remarkably good and as an instance said that the Cape Cod district was spread out before them like a map, before they turned east for the Nova Scotia coast. The two planes flew at various altitudes during the trip, number one plane at one point ascending to 3,500 feet, the highest altitude recorded.

MANAGER

BRITAIN'S PREMIER RECEIVES DEGREE

McMaster University Honors Statesman — Graduates Receive Parchments.

Castle Memorial Hall was filled to overflowing at the annual commencement of McMaster University Wednesday night, when various degrees were conferred and addresses delivered by prominent members of the Baptist body and by the minister of education. The opening prayer was said by Rev. J. A. Gordon, D.D., and the first to receive university honors were Manasse B. Parent and John Frederick Vichet, both of whom received the degree of doctor of divinity.

A feature of the evening was the bestowal of the degree of LL.D. upon David Lloyd George, whose name was presented by Rev. John McNeill, pastor of Bloor Street Baptist Church. Dr. McNeill spoke of the premier of Great Britain and Ireland as the most influential individual force in civilization at the present time. Lloyd George was described as diminutive in stature but intellectually towering above all men. He was a friend of small nations and small peoples and had won victory for democracy in England, and in 1916 the whole nation had turned to him as one man. In the belief of the speaker it is to Lloyd George more than to any other individual that the world owes its deliverance. Dr. McNeill considered that the university had been greatly honored by the acceptance of the degree by its recipient and hoped that some day he might meet the Baptists on this continent. The letters of the degree, LL.D., meant something more than ordinary in this case, they meant "Long live David."

The chancellor, in conferring the degree, said that it had been received in most appreciative terms and it was with unique pleasure that he conferred it.

Life's Equipment
The address of the graduating class was delivered by Professor Gilmour, who pointed out that intelligence, Christianity, industry, sacrifice and a knowledge of one's place in the world were the equipment with which they should face the new life upon which they were entering. Short addresses were also made by Drs. Vichet and Parent.

The office of delivering the commencement address fell to the minister of education, Dr. Cody, who referred to a previous occasion, fourteen years before when he had delivered an address on modern theology. The speaker congratulated the school on its good work, saying that he found the graduates of McMaster in the position of head master of high schools in many parts of the province. Referring to the membership of the class he pointed out that one who had received the degree of D.D. was from across the line and said there were no international barriers between men and good will. Referring to some remarks of Dr. Parent, the minister asked him to tell his compatriots in Quebec that their fears of hatred from Ontario were unfounded and that they were mistaken. We do not seek to crush in Prussian fashion the glorious French tongue, said Dr. Cody, but we do feel that the children of Quebec would be handicapped if they did not learn the English tongue. If regulation 17 is viewed as administered it will give equal protection to the children and to the official tongue of the province. The minister of education also made a strong appeal for pure English, saying there was no excuse for the slavish use of the English tongue by any man or woman graduate of a university.

MORE DOPE FIENDS SINCE PROHIBITION

In answer to Alderman Sam Ryding, at the board of health yesterday, as to whether dope fiends had increased since prohibition, Dr. Hastings, M. O. H., said there had been somewhat of an increase, but this was only of a temporary character and would decrease in time.

Alderman Ryding: Then you are of opinion that if prohibition continues the number of dope fiends will be decreased in time?

Dr. Hastings, who had previously stated he intended dealing with this in the bulletin in the near future, replied: Absolutely, without the slightest doubt.

With reference to a question raised as to medical prescriptions and the kind of liquor supplied, Dr. Hastings stated, assuming there was sickness, he thought the vast majority of physicians would not write a prescription unless they feel that liquor was required. It was extremely important that liquor required for medicinal purposes should be pure. It was up to the government to see the public was properly protected.

The board approved the regulations suggested by Dr. Hastings that all bread be wrapped and a conference will be held with the bakers at an early date.

In connection with the monthly statistics the M. O. H. said Toronto had the lowest infantile death rate on the continent for cities of 300,000 or more.

WILLS AND BEQUESTS.

Edward T. Smith, a slater, who died in Toronto March 29, 1919, left his entire estate, valued at \$3200, to his widow, Mrs. Jane Johnston Smith. The will was filed for probate by the beneficiary yesterday.

William Lang, an agent, who died on March 12, left his estate, valued at \$2858, to be divided among his four daughters and sons.

Mrs. Lotie Thompson and six children are the beneficiaries under the will of Robert Thompson, a farmer, who died in Newmarket on March 6, 1919, leaving an estate valued at \$1863.

Cecil J. Worthington, a blacksmith, who was killed in north Russia, while on active service on Jan. 20, 1919, left his entire estate, valued at \$3229, to his widow, Mrs. Ellen Worthington.

Elizabeth Sommerville, who died on April 21, left an estate valued at \$630 to be divided among a number of relatives and friends.

Arthur N. Durrant, a conductor, who died March 28, left an estate valued at \$550 to his widow and son.

GIRL GUIDES' RALLY.

The girl guides are looking forward to a great rally when Sir Robert and Lady Baden-Powell, who arrived on the Baltic on Wednesday, will be in Toronto. The rally has been arranged for Tuesday, May 27, and will be held at Casa Loma, the home of the chief commissioner for Canada, Lady Pellatt. A reception will be held on the evening previously at which Lady Pellatt will be the hostess.

COUNCIL TO AGAIN TACKLE HOUSING BILL

The city council holds another special meeting at noon today to consider the housing bill. This follows the fiasco of Wednesday, when, owing to the criticism the bill was encountering and particularly the amendment that the commission consist of seven instead of five members, the mayor read a lecture to those who had seen "playing football" with the legislation, informing the council that the five prominent gentlemen on the commission could not be expected to act if such interference were to be allowed, and carried a motion that the committee rise, thus bringing the discussion to an end. The mayor also blamed aldermen, who favored the amendment for "killing the bill." It is not expected that there will be so much talk today.

In an interview yesterday Sir James Woods, one of the members of the commission, stated that that body was in full sympathy with the returned soldiers and the labor classes. "A commission stands," said Sir James, "is as large as it should be to make it workable. To make it larger would have a tendency to make it unwieldy."

GUILTY OF WOUNDING RUSSIAN SOLDIER

Pte. George Serenko, a returned Russian soldier, was yesterday found guilty by a jury in the assizes of having wounded Vasil Nezbertyky, another returned Russian soldier, on February 14, 1919, with intent to do grievous bodily harm. The original indictment had read with intent to murder, but the jury thought there was not sufficient evidence in the case to warrant this heading, and Serenko was found guilty on the less serious charge. Chief Justice Sir William Mulock, who heard the case, postponed sentence.

According to the evidence the accused in company with another man had entered a restaurant on York street, and after ordering a meal proceeded to find fault with the soup. Nezbertyky attempted to remonstrate with Serenko, but the latter, who had evidently been drinking, headed nothing, and pulling his army knife stabbed Nezbertyky with such force that for a long while after his life was despaired of.

In the box yesterday Serenko, who is a huge six-footer, and who was dressed in his army uniform, stated that he did not remember anything that occurred that day in the restaurant. He stated he had been drinking some vile concoction of alcohol which had had made him sick, stated the accused. Serenko told of being at the front for some 15 months while a military authorities representative gave character evidence for the accused.

CENTRAL RATEPAYERS EXPRESS STRONG VIEWS

Say Municipal and Government Housing Schemes Are Opposed to Canadian Ideals.

The annual meeting and election of officers in connection with the Central Council of Ratepayers was held Wednesday night in the council chamber, city hall, and the following were elected: President, Geo. Shields; honorary president, J. M. Skelton; first vice-president, Clifford Blackburn; second vice-president, L. W. Mulock; recording secretary, William Farquhar; corresponding secretary, Mrs. McIver; recording secretary, Ald. R. Honeyford; treasurer, Sydneyham Thompson; treasurer, E. Cook.

The housing question was the principal subject discussed and a resolution was unanimously adopted, which was moved by J. M. Skelton and seconded by W. Bullock: "That we beseech it to be contrary to Canadian ideals and customs for the municipality or the government to involve itself financially to provide homes for the individual citizen, but that it is their first duty to bring about conditions thru which it would be not only possible but easy for the individual to build and own his own home."

"I am not in favor of the Ontario government or the city council financing the building of houses," said J. M. Skelton, the mover of the resolution. "The Ontario government would like to make the city council responsible, but the most logical solution is the establishment of a home building department by the civic authorities, and a report of this kind should be brought in for consideration by the city council. The average thrifty workman has a home of his own, and what right has the government to take portion of his taxes to build a home for another man?" said Mr. Skelton, who added that the subject of the housing problem has been talked around and an undesirable condition at present exists.

A. Hanna, W. Bullock, J. Ferguson and others also spoke.

ATTEMPTED MURDER OF BROTHER-IN-LAW

John Turner appeared before Chief Justice Sir William Mulock in the assizes yesterday charged with wounding with intent to murder Benjamin Pringle. According to the indictment Turner had let himself into the cellar of a house at 525 East Queen street on March 14, and had been discovered by Pringle, who was his brother-in-law.

Turner, after discovery, was alleged to have thrown a bottle at the head of Pringle, and when that missed, he closed with him and used a knife. Pringle, in the box, stated that he had been stabbed in the stomach. He was wearing the clothes that he wore on the night of the affray, and his sweater coat showed a gash on the left side where the knife had entered. The case will continue today.

City Death Rate Lower Than This Time Last Year

The city's death rate in April was lower than that of the same month last year, the figures being 13 per 1000 per annum and 15.6 respectively. Deaths registered, exclusive of still births, were 564 last month, including 107 infants under one year. Deaths from pneumonia in April, 1918, numbered 181, while from pneumonia and influenza together last month they were 128.

YORK COUNTY AND SUBURBS

DANFORTH

The first number of The Separate School Chronicle, a monthly magazine devoted to the interests of the Toronto Separate School pupils, and almost entirely written by them, was issued yesterday. The magazine, which is neatly got up in an attractive cover, has 32 pages of reading matter, consisting of "Notes From Schools," staff notes, verse and poetry, prize essays, sporting news and interesting short stories together with other features.

The intention of Rev. Brother Rogation and the publishers in placing The Separate School Chronicle before the 208 teachers and over 8500 pupils of the separate schools in Toronto is to bring them into more intimate connection, which cannot but be productive of much good.

The annual meeting and election of officers in connection with Danforth Methodist Church Sunday School took place in the school room Wednesday evening and the following officers were elected:

Alderman W. W. Hiltz unanimously re-elected to the office of superintendent.

Associate superintendents: W. D. McCallum, W. J. Welch, Mrs. Burgess, Mrs. R. W. Walters, and F. H. Richardson.

Secretary: John Muir.

Assistant secretaries: M. Muir and James Muir.

Treasurer: W. A. Day.

Librarian: H. Hadley.

Assistant librarians: W. Hiltz, M. White, A. Anglin and Miss Schmidt.

Grading officer: H. Miller.

Lantern operator: T. Reeves; assistant, Mrs. Reeves.

Musical director: G. H. Honsberger.

Pianist: J. C. Richardson.

Superintendent of home department: Mrs. Ketchison.

Superintendent of cradle roll: Mrs. Mowbray.

Teacher of training department: R. W. Anglin.

Assistant musical director: Harry Taylor.

Missionary committee: George Anglin, Miss E. Burton and Miss Ballie.

The secretary reported a roll call of 1259 pupils and teachers in all departments.

It was decided to hold the annual picnic at Rosebank on June 25.

There was a large attendance and Ald. W. W. Hiltz occupied the chair.

The annual meeting and election of officers in connection with Danforth Methodist Church Epworth League was recently held in the school room, Danforth avenue, and the following officers were elected:

President: Miss Ethel Todgham, re-elected.

Vice-president Christian Endeavor: Alec Johnson.

Vice-president Messenger Department: Stella Glover.

Social vice-president: Mrs. Hough.

Pianist: Mrs. Walters.

Assistant pianist: Miss Miller.

Secretary: Mrs. Bertha Hallam.

Treasurer: Miss Rice.

The reports of the various committees showed progress in all departments and were unanimously adopted. The treasurer reported donations to missionary department \$359, and general fund \$100.

There was a large attendance and Mrs. Ethel Todgham, president, occupied the chair.

WOODBINE RATEPAYERS

The regular meeting of Woodbine Heights Ratepayers' Association was held at the residence of J. Solomon, Lumsden avenue, recently. William Miller, president, occupied the chair.

Petition forms were issued and a strong committee of two residents of each street in the district will canvass the heights for signatures for hydro-electric light. It is hoped by the association that this effort will bring the transformers, poles and wires at an early date as the provincial hydro, it was stated, has already

sent its engineers thru the section. Robert Barker, second deputy reeve of York Township, who was present, took charge of the local improvements solicited by the ratepayers.

The new culvert path on Woodbine avenue met with endorsement, and when Mr. Barker assured the meeting that the township engineers had already surveyed the entire district for a comprehensive sewer policy to be submitted to the city, he was accorded an ovation.

Inspector Jordan addressed the meeting on the educational needs of the section. He hoped to come again in the fall and go fully into the question of the amalgamation of school sections 7 and 24, with a view to building a public school in the locality of Woodbine avenue which, with continuation classes, would afford free high school education to the pupils of both these school sections.

The committee in charge of the electric light will meet on Monday evening next at Lumsden avenue.

A hearty vote of thanks was tendered to Messrs. Barker and Jordan. There was a good attendance.

The annual choir concert in connection with Danforth Methodist Church was held last night in the church. The program was contributed to by the choir members to the number of 40, assisted by the Elgar Male Quartet; Charles Rigby and Miss Margaret Eaton, elocutionist, under the leadership of H. G. Redferne. There was a capacity audience.

EARLSCOURT

Rev. (Capt.) W. A. Cameron, pastor of Bloor Street Baptist Church, Lady Falconer, and other well-known Toronto people will take part in the opening day of the seventh annual Women's Institute and child welfare exhibit at the Central Methodist Church, Earls Court, next week. There will be a large number of competitions during the three days' meeting. Revs. Peter Bryce and E. C. Hunter are busy organizing.

Earls Court progressive poultry association held a fine show of birds in the basement of Harris' barber shop on West St. Clair avenue last night. A large number of poultry fanciers in the Earls Court and Oakwood district were present. Several classes were exhibited, a predominance being shown in the white wyandotte class.

General Manager W. J. Burton of the Robert Simpson Co., will speak at the Men's Own Brotherhood meeting at the Central Methodist Church on Sunday afternoon. His subject will be "Adjustment and Co-operation."

Children from the Earls Court and Oakwood public schools were present at a meeting in the Oakwood Collegiate School last night to hear an illustrated lecture on home gardening. Alexander MacGregor, president of Earls Court fall fair, who presided, outlined the value of home gardening as an economic advantage, and explained in detail the various kinds of vegetables, how to plant and when to expect the best results after careful observation. He also mentioned what splendid results had been obtained from the cultivation of gardens during the war period, and strongly emphasized a continuance thereof the present year.

Earls Court assisted in no small measure to an allied victory by the courage with which it went in for cultivation of foodstuffs," he said.

The death is announced of Mrs. McKittrick, of Earls Court avenue, Earls Court, who was taken suddenly ill yesterday and by Dr. McCormack's instructions was removed to the Western Hospital where she died early yesterday morning from blood poisoning. She leaves a young family of seven children, the oldest being 12 years old. Her husband, Wm. McKittrick, has been the Earls Court letter carrier for many years. A subscription is being

taken round this district in aid of the bereaved family.

Amateur night at the G.W.V.A. Belmont Hall takes place this evening and a large number of novel stunts are promised. There are some 25 contestants which cover a variety of performances and the members of this branch are entering into the affair with every confidence that headquarters will be filled to overflowing. The committee have asked Alex. McGregor, president of the fall fair, to occupy the chair.

The agitation has again been revived for a jitney bus to operate between Earls Court and Vaughan Road Heights a distance of two miles or more from St. Clair avenue. Residents in the Earls Court section complain of the long distance to walk to their homes after a hard day's work and the opinion is that a line of buses would be welcome during the summer months and could be made a paying proposition.

Earls Court and Fairbank are worked up over the arrest of Frank McCullough yesterday and the death watch, Ernest Currell, whose home is in Fairbank, has again become the centre of attraction. Mrs. Currell, who is known to the girl Vera De Lavelle, refused to be interviewed. Currell is a member of the Earls Court branch of the G.W.V.A., but has not been attending any of the meetings since the trouble caused by the escape of the murderer, although it was thru the action of this branch that he was secured for him after his arrest on an alleged charge of aiding and abetting McCullough to escape from prison.

PROGRESSIVE POULTERERS

The regular monthly meeting of the Earls Court progressive poultry association was held last night at 1243 St. Clair avenue west. President W. H. Smith occupied the chair. A good

WORK ON HIGHWAYS.

Tenders for the construction of the Provincial Highways will be opened by the department of public works on Thursday, and it is probable that the actual work will begin before the end of the month. Surveys have been conducted by government engineers along both the southern and central routes from London, but no announcement has yet been made by the department as to which route will be followed.

They Risked THEIR Lives; What Have YOU Risked?

Have you even risked that bank balance of yours to help them now in the only way they can be helped?

RIVERDALE

Rev. Robert Avon, assistant rector of St. Matthew's Anglican Church, First avenue, is leaving the parish on May 26 to take over the rectorship of Marpole Parish Church, Vancouver, B. C. to which he has been appointed.

Rev. Dr. Seager, rector, will receive temporary assistance during the meantime until Rev. Norman Larmonth arrives from British Columbia next September to fill the vacancy.

A. Hanna, secretary of the Danforth Ratepayers' Association, strongly criticized the city council's action regarding the housing problem, at the recent meeting of the central council of ratepayers in the city hall. He pointed out that the high cost of building material should be investigated before discussing the personnel of the housing commission by the board of control. "If they had not the council all the way thru. Combines they should not discuss the housing problem," said Mr. Hanna, adding that there is nothing but maladministration of the city's business by the council at the way down. Combines are running the government and strikes are the result. He endorsed the ex-president's motion that the

high cost of building material, should be investigated.

Under the auspices of the Riverdale Methodist Church Sunday School senior department, a concert and social was held last night in the school room. A special feature of the entertainment was the sketch, "The Minister's Bride," cleverly performed by a cast composed of senior members, which was thoroughly enjoyed by the large audience. Rev. Dr. Long, pastor, presided.

SCARBORO

Scarboro command of the G.W.V.A. is conducting a campaign of funds to build two club houses in the township. The houses will not only benefit the veterans but will also be used as community halls by the residents generally. This branch of the veterans has organized for two months and has already done much community work.

The project of the Scarboro veterans includes a picture show given in the club houses at least one each week with a returned man as operator. Perhaps one of the things most deplored by rural communities is the lack of entertainment, and under the veterans' scheme this want would be supplied. Concerts, dances and public meetings could be held in the proposed houses, and each club would be so located as to give north and south Scarboro equal facilities.

The campaign is just as important to the township as the Big Four Drive is to Toronto, and it is hoped that the residents in the community will give the veterans whole-hearted support in their effort to build what would eventually become social centres for the district. There is not the slightest doubt that at some later date private enterprise will locate picture houses in Scarboro, and the people will have no control over the entertainment then given. It is better to build now a self-

supporting community hall than to be later exploited by corporations. Finally in the proposed club houses the people of the township will be able to point with pride at the buildings which would prove that they had not forgotten the sacrifice of the men who fought in Flanders. Judging by the war record of the old township it is inconceivable that the campaign can be other than successful.

RUNNYMEDE

A meeting of the Church of the Advent A. Y. P. A. was held Wednesday. The officers were elected and the finance turned over for the six months shows that the Advent A. Y. P. A. holds the record for the diocese, having raised over \$200, thru the good work of the executives.

Rev. Herbert Naylor was unanimously re-elected honorary president for the ensuing year. The other officers, most of whom retain their offices from last year, are: Honorary vice-president, Mrs. J. Jarvis, rector's warden; honorary vice-president, Mrs. A. Morris, people's warden; president, Mrs. E. Bunting; vice-president, Miss H. Sheppard; secretary, Miss G. Griffen; treasurer, Miss C. Wright; pianist, Mr. F. Dyer. Entertaining

committee—Miss G. Innes, Miss L. Wright, Mr. Mellin, Mr. Walker. Social Committee—Mrs. McCreary, Mrs. Tanton, Mrs. Evans, Miss N. Davidge.

It was decided to carry on thru the summer months and make that branch a yearly work rather than six months. This being a suggestion of Rev. Naylor's at a previous meeting, to hold the young people together.

"BOB" PIGOTT DIES PLAYING IN LONDON

Prominent Singer and Actor Had Many Friends in Toronto.

London, May 8.—While making ready for a matinee, Robert Stuart Pigott, an American actor, died in his dressing-room here yesterday. He was playing in the "Lilac Domino."

Robert Stuart Pigott was very well known in Toronto. He first came to this city as stage manager for Edith Wynne Matheson when that actress produced "Everyman." A little later he settled here and became a regular member of the Toronto Conservatory staff, and rapidly gained an enviable reputation as a vocal instructor. He himself was a singer of rare charm of voice and style and his extraordinarily wide acquaintance with the literature of his art was a matter of never ceasing wonder to his friends. The late Mr. Pigott was also a polished actor, and in this connection was of great service to the Toronto Press Club when that organization produced a series of annual plays. He was a son of the famous British play censor.

For a time he was choir master of St. Thomas' Church, and later left Toronto, taking an important position in New York in connection with the artistic side of higher public school training. He leaves a widow and one daughter, who resided in Toronto until a short time ago.

TRENCH RAID WAS REALISTIC AFFAIR

Eight Thousand Spectators Imagine Themselves on the Western Front.

It required but little imagination for the 8000 spectators at the exhibition grand stand last night to imagine themselves transported to the western front in front of some hotly contested village. When the Big Gun of the Royal Canadian Garrison Regiment. The opening tableau showed everything in complete darkness, when suddenly there came a flare, from the German trenches, another shell, and the attackers in steel helmets, wearing the white bomb carriers, were seen worming their way across No Man's Land. Suddenly there came a line of straggle fire from the Boche trenches, more star shells rise in the dark night, the scene is lit up with a red glare, and in the glare can be seen the boys of the attacking party, who have gained their first objective, Bayonet. They open fire till they are in the rear of the German lines open, up with their ominous boom. The little village behind the German trenches is seen to be in flames, and with a rush, and a final burrah, the attackers come up to the first line trench to find that the Hun, with their characteristic cowardice, had deserted the redoubt after firing the village behind them. By this time the second wave rolls up, and the first wave has launched its attack on the second line trenches, and they are over the top, to round up the Germans who are huddled in a traverse of the trench. One little returned Englishman, after witnessing a performance, turned to his mate and said, "Reminds you of old times, eh, Joey?" And his chum's satisfied approbation, "Not 'arf, it don't."

All in all it was one of the most spectacular events ever put on by anyone. It had its thrilling moments, too, for one of the attacking party, a zealous lad, placed his firework bombs pretty nearly every time in the attacked trenches, and when the "phut, phut" of the machine warned the defenders that it was going to go off, there was some tall scurrying to get out of its way, much to the discomfort of the men on the parapets who were forced to slide down and let the others pass.

A tiny bottle of Freezone ointment had been in the city was there, and later all combined.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers—No pain!

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right off. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

SEAPLANES ARRIVE; ONE IS MISSING

During the journey. At times the two planes were out of sight of each other, but they adhered closely to the schedule and came flying up the harbor within ten minutes of each other. An enthusiastic reception awaited them.

WERE WILDLY CHEERED.

Captain H. K. Hines, senior naval officer at this port, accompanied by United States Consul Young and a gathering of ladies and gentlemen prominent in official life in Halifax, were aboard the naval tug Iroquois, stationed near the entrance to the harbor, and wildly cheered the planes as they took the water. The craft anchored in the harbor joined in the enthusiasm, and the city was apprised of the fact that the real start had been made in the conquering of the Atlantic by hydro-airplanes. Later, Captain Hines and Consul-General Young went aboard the Baltimore and warmly congratulated the aviators upon their achievement. They found the intrepid aviators at dinner, thoroly tired as a result of the day's trip, but enthusiastic over the performance of their planes, and eagerly discussing with Professor McArdie the possibilities for the morrow.

FRIDAY MORNING, MAY 9.

The Peace Terms.

No one who has been familiar with all the horrors of the German-made war, and all the long evil this infuriated nation poured out upon the world will consider that the peace terms are too severe or otherwise than just. But even in justice there may be a heavier burden than the humane man would desire to impose, and civilization which condemns Shylock's demand for his pound of flesh, must consider the consequences of making a similar demand. It is exactly because we have no sympathy for the Germans that we must see that we do not create sympathy for them. We have long ago taken the position that it is impossible to apply the Golden Rule to a tiger. Militant Germany was in the tiger stage, and for such elements as still continue in that stage, such elements as Marshal Poch very naturally refuses to trust, we have no thought of mercy.

If the Germans are well advised they will accept the peace terms—terms which are mildness itself compared with the published statements of what Germany had intended to exact from France and Britain if she conquered, and such as she did exact in the treaty forced on Russia now to be repudiated. There is nothing in the treaty that will prove really onerous to an industrious and peaceful people. The ability to produce wealth in such a nation as Germany with its genius for organization and efficiency is remarkable. They could probably repeat the feat of the French in discharging the indemnity of 1871. The peace terms expressly remove from their shoulders the load which has weighed so oppressively for fifty years of military armament, and the extra load carried now for nearly thirty years of an entirely unnecessary naval armament. Not only will the expense of this policy cease but the labor locked up in military drill will be freed for trade and commerce. There are tremendous forces in a nation of 70,000,000 people, and while some of these millions will be lost thru the peace terms, those which remain will be all the more solidly united.

Germany is being sent to Coventry by the civilized powers. Here we have not a question of the justice of the policy, but of its ultimate effect upon ourselves. Granted that we have caged the tiger, but do we desire to maintain a caged tiger as a component part of international economy? If Germany were as isolated as China was in geographical situation which excluded itself from the rest of mankind no one could raise any objection if Germany adopted a similar attitude. But Germany's isolation is not voluntary—very much the reverse. We are putting Germany in a ghetto and the success of that method has never been admitted, either for the interned or for the jailers. We threw the Jewish people back on themselves, and they have developed in consequence a variety of talents which now enables them to exercise a control that never was imagined.

We have caged the tiger, but we are taking no steps to denature the beast. It is characteristic of our civilization that there is nothing in the treaty that would make for the exercise of any chastening or purifying or refining influence upon the German people. That is left to the German people themselves. In much less than a generation the great majority of those responsible for the war will have passed away. The younger generation of Germans, who are now growing up, will have the advantage of a democratic government to live under, but much more depends on the ethical influences and ideals surrounding them than their form of government. Intercourse with other free and enlightened nations will be the best antidote for the poison of the Hohenzollern regime which still remains.

If Germany could accept the peace with a broken and a contrite heart; if she could bring herself to the frame of repentance whose fruit is warrant of the changed life we could rejoice in the signing of this treaty as the beginning of a new era.

We may all wish that Germany could show such a temper as Tennyson's Sparrow-Hawk or Angelo in "Measure for Measure":

I am sorry that such sorrow I procure,
And so deep sticks it in my penit-
tent heart.
That I crave death more willingly than mercy:
'Tis my deserving, and I do entreat it.
But at least provision is made for the real sufferers, the broken homes, and scattered families of Belgium, France, Serbia, Poland, and all who took part in the gigantic struggle, such reparation as material compensa-

tion can bestow. But the black crime of the war can not be compensated nor forgotten while Europe is a continent.

The World's Greatest Silver Mine.

The price of silver is going up and the mines of Ontario may, before a month is over, bring twice what their output brought when Cobalt was first discovered. And the chances are that our silver mines will increase in number and in output. There are favorable indications of new silver fields being opened up. In fact, the Miller-O'Brien mine, near Gowganda, about forty miles northwest of Cobalt, is probably the richest producing silver mine in the world. It ought to turn out over two million dollars in value this year. And it will continue to do so for years. And mines almost as productive are likely to develop in that immediate neighborhood any time this year. In fact, several are right in sight. And we are only breaking in on the fringe of the silver-bearing deposits of the Timiskaming country.

ON BUTTER PRICES.

Editor World: I read in your paper your discussion on "butter." The various reasons given were scarcely at all, only excuses for the high price.

What about the enormous quantity of cream that is saved up all over the country for the ice cream manufacturers? It is nothing short of a crime that a necessity like butter should be sacrificed for a luxury. It would be a pity to stop the ice cream, but there is reason in all things.

IRISH-AMERICANS TO MEET PREMIER

Lloyd George Said His Present Duties Prevented Him for a Few Days.

London, May 8.—"We have had no conference and have requested none with Premier Lloyd George, as has been stated," was a statement made last night by Frank P. Walsh, chairman of the delegation of representatives of Irish societies in the United States, which has been visiting Dublin during the past week. Mr. Walsh left Dublin Monday night, leaving his colleagues in the United States.

"We wanted safe conduct from Ireland to Paris for Professor Edward De Valera and a delegation representing the Irish republic," he continued, "and transmitted our request to Mr. Lloyd George directly. He answered to Col. R. M. House that he wished to confer with us before acting, but that his duties prevented his seeing us in less than a week. So we went to Ireland and will be back early next week to meet the premier."

Mr. Walsh stated that he came from Dublin to this city on purely private matters and had not made any effort to see any members of the government. He is traveling on a diplomatic passport, being given over by British and American authorities. Confidence was expressed by Mr. Walsh tonight that the Irish representatives would be given an opportunity to lay their case before the allied representatives in Paris.

THE DAY AT OTTAWA

By TOM KING

Ottawa, May 8.—The government's shipbuilding program and the future of the shipbuilding industry in Canada was under review in the house of commons this afternoon. Hon. C. C. Ballantyne, minister of marine, had the laboring oar, and, on the whole, he made a good defence of the government's policy. Mr. Ballantyne may have his limitations, but he is a shrewd and successful business man. His delivery today had the true Canadian ring, and he expounded his course and defined his policy with marked ability. The minister began by explaining that when he came to office he found the shipyards of Canada encumbered with orders from the imperial munitions board. The Dominion government was financing the construction of wooden ships for British register. He was of the opinion that Canadian shipyards would be better occupied in building steel ships for Canada. He had therefore let contracts, which were now being carried out, for the construction of 45 steel cargo vessels, with an aggregate tonnage of 264,000 tons net, to cost approximately \$50,000,000.

There were three good and sufficient reasons for this program of ship-building. In the first place we were at war, and the tonnage of the allies was being increased. In the second place, the government fleet of merchant ships on both the Atlantic and Pacific coasts, were needed to complement our national railway system; several of the steel vessels had been completed, and 25 would be in commission by the end of the year.

The contracts were so awarded as to give work to shipyards in every part of the country. Sydney, Halifax, Lewis, Montreal, Kingston, Welland, Collingwood, Port Arthur, Vancouver, Victoria and Prince Rupert were all remembered. The only place left out in the cold was Toronto, and according to Mr. Ballantyne all the berths at the Point shipyard were at that time engaged in building ships for British and Norwegian register.

The ships would cost the government between \$180 and \$200 per ton, and he could sell them all as fast as they were completed at cost price. The ships would be ready to purchase the ships as fast as they were completed at \$190 per ton. The government, however, had no intention of selling them. On the contrary, orders for more ships would be given.

THE SITUATION IN EUROPE

The Associated Press issues the following on the situation in Europe. While the German plenipotentiaries are discussing the lengthy peace treaty handed them Wednesday and communicating with the Weimar government as to the demands made upon Germany by the allied and associated powers, the council of four is engaging itself with the formulation of peace terms for Austria and Hungary.

The German-Austrian delegation is reported already to have started for St. Germain, France, there to await the arrival of Versailles, to learn what is to befall the one-time dual monarchy in the way of the payment of indemnities, the making of reparations and the relinquishment of territory.

Estimates have been made in Paris that 5,000,000,000 crowns will be demanded as indemnity from Austria-Hungary, in addition to the de-limitation of frontiers. The pre-war debt of the former empire and kingdom, it is said, is to be divided among the newly formed states which have arisen or are to arise in their old territories.

It is reported that when the terms of peace with Turkey are concluded the United States is to be requested to become the mandatory of Armenia, and that President Wilson will place the matter before congress in order that a decision may be arrived at.

The Hun government in Hungary is said to have declined the terms laid down by Rumania for an armistice, and has decided to continue the fight. The Rumanians have included disarmament and the surrender of war materials and also the return of war prisoners without reciprocity.

Trouble seems to be brewing for the Afghan tribesmen, who, aided by Afghan regular troops have violated the British Indian border by crossing it and occupying certain positions on the Indian side. The British are taking military precautions and also have addressed a strong note of protest to the Amir of Afghanistan.

THE PROMOTER'S WIFE

By JANE PHELPS.

Mr. Powers Looks Up Properties Neil Advertises.

CHAPTER LXXX.

"Did I not think I could help you, I should hesitate to distress you as I must," Mr. Frederick resumed gravely. "But I do think I can. So I must make things plain to you. Your husband was the first decided to promote big schemes did not, am sure, intend to be dishonest either with himself or his clients. But the lure of big business caught him. Easy money in natural channels, hard, and a slow proposition. He was very young. When he moves he easily people bite when they think they can make big money with little; how quickly and eagerly they swallowed any idea that promised big returns, he commenced to look around for properties, which he could handle to advantage in this way. Properties in which there was a certain element of risk for the client, none for him. From that it was but a step to simply imagining he had something to sell. None of the people who put in their money ever investigated; they were satisfied to get the big interest he paid them, and then to live on the promises of immense profits. It was a temptation. Forbes succumbed because I had been suspicious of some of his deals for some time; but when I found he had associated himself with Connor and Teale I was sure of it. I tried to make him get out from under that combination when I talked to him the other day. I told him all I knew, and I could prove every word I said. They are two sharpers. If trouble came the brunt of it would fall on your husband. They are sick, and always manage to slide out from under. Of course, Mr. Forbes didn't believe me, thinks me an old woman for meddling, I expect. Altho I tried to be as plain as possible because I want to be your friend and—his." I smiled little as I recalled that Neil had called him an "old woman" when speaking of him.

"I talked to Neil last night," I volunteered.

"What did he say?"

"He laughed away my fears. Told me kindly, of course, to look after the game and baby. That he would attend to his business."

"I'm sorry he wouldn't be serious with you. I had hoped great things if he were—if he would listen to you. He is so young that he will be forgiven in time if he stops short now, but if he goes on I am afraid there is nothing but trouble ahead for him."

"What can I do?" I am so ignorant of business, have trusted him so implicitly—trust him now." I added.

"Not to this man who I knew cared enough for me to try to straighten out the tangle of our lives would I own that I had lost faith. Trust him as being honest himself, even if he has been led astray by others." It was only a half declaration of faith. But I had to say something.

"Yes, I know. But—pardon my business—you must not let your faith in him—your—love," he hesitated over the word, "blind you to the necessity of recognizing his danger—his danger. You go back to Mr. Powers. He talked frankly with me. He, like others, recognizes Forbes' ability, his cleverness. He said many complimentary things about him. But he also said that he feared for his future. That he had become mixed up with many shady transactions, that he personally knew of cases where he, Forbes, had misrepresented matters to people to get them to invest—"

"Not knowingly misrepresented. I am sure," I interrupted, my face burning.

"I am afraid he did," his voice serious but kind. "At least he took no pains to see if what he promised could be done, or if even he had the properties he claimed were to turn out such a bonanza. He has sent out prospectuses which pictured in glowing language the land containing oil wells, etc., they—the company—intended to own. Upon investigation there are no such lands even—that is they do not own them, or they are worthless."

"Who investigated?" I was anxious to learn all I could, yet I understood very little of all I was told. One reason my lack of business knowledge, the other the fight in my mind to believe in Neil; my refusal in face of all I was told to believe he was really dishonest.

"I have—I did it for your sake. I was afraid things were not as they should be when I was here before. Very much afraid. I took pains to look up several of the advertised prop-

erties—and didn't find them as represented." Then after a minute: "Powers, too, took pains to look Forbes up. I don't want to hurt you, but he did it at his wife's request."

FAMILY QUARREL OVER GOULD ESTATE

New York, May 8.—The heir of Jay Gould, the railroad financier who accumulated one of America's greatest private fortunes, are in a quarrel over the administration of the \$83,000,000 estate he left them. His son, George J. Gould, chief executor of the estate, is required by a state supreme court order signed today to show cause why he should not be removed.

Gould is charged with frauds, "perpetrated by him even on his own brothers and sisters," and which resulted in an aggregate loss to the estate of \$25,000,000.

added, received an offer from New York to purchase the Canadian government boats at \$190 a ton.

Trade Needs Ships. Mr. Sinclair criticized the prices paid for ships by the Dominion government, saying there were entirely too high.

The leader of the opposition, Mr. McKenzie, complained in the course of the evening discussion, that demobilization of men in the naval service at Halifax was being delayed.

The bill to appropriate \$350,000,000 for demobilization and other purposes was reported from committee shortly before midnight.

When Treaty Binds Hume Cronyn of London inquired of the government as to what the procedure was to be for ratification of a peace treaty.

Hon. Rodolphe Lemieux after reading a news despatch from London with regard to Canadian representation at Washington, asked the government whether it was the intention to submit this matter to the imperial authorities.

Power at Washington Hon. N. W. Rowell replied that the Canadian representative in Washington, would, when appointed, have powers very different from those of an agent.

Mr. D. D. McKenzie asked Sir Thos. White if he had understood him to say that the Canadian parliament would have nothing to do with the signing of the peace treaty.

Sir Thos. White repeated his former statement to the effect that the Dominion parliament would be asked to ratify the treaty, after its signature, the treaty not to become binding until after ratification.

happen if the Canadian parliament refused to ratify the peace treaty.

Sir Thos. White replied that, if it was signed by the prime minister and the accredited representative of Canada, he could hardly anticipate that parliament would refuse to ratify it.

Start War Again Hon. W. S. Fielding asked if the acting prime minister was not wrong in using the word ratification.

He argued that once the treaty was signed, it was binding on Canada. All that parliament could do would be to approve or disapprove it.

Sir Thomas took the ground that the treaty was not binding until after

parliament had passed on it. He referred to a treaty executed in Washington which was not binding until ratified.

Mr. Fielding said that this was not a treaty, but merely an agreement between the two countries.

Sir Sam Hughes: "Supposing this parliament refuses to ratify the treaty, I suppose the war will start again."

Sir Thos. White: "Well, if my friend was in good fettle, he would probably be able to start a war."

Shipbuilding Program.

The house went into committee on supply on the estimates of the marine department. Hon. C. C. Ballantyne made a statement with regard to government shipbuilding operations.

He said, he had caused a tremendous loss in shipping. This was one reason why he had recommended that Canadian yards should be used for building ships in Canada.

Another reason was that if Canada was to extend her export trade she must have ships. The third reason was that Canada had acquired a great railway system, and required cargo vessels to work in co-operation with the railways.

Mr. Ballantyne said he thought that Canadian money could better be used for creating a Canadian merchant marine. There were 45 steel ships now under contract in Canadian yards from Prince Rupert to Halifax.

Over \$52,000,000 in Contracts.

The value of the contracts was \$52,891,450, the net tonnage 364,050, and 25 would be completed during the present year.

The price varied from \$160 to \$215 per ton; \$20,000,000 would have been paid up to the end of the fiscal year.

The speed of these vessels, he said, varied from 8 to 12 knots for the largest and he added, that in no country in the world, not even in the old country, did they turn out better ships than in Canada.

Build Until 1920.

Mr. Ballantyne continued: "In view of the fact of the great demand for ships and in view of the fact that we could sell our ships, we are not going to discontinue shipbuilding for the moment."

We realize that there are 30,000 men engaged in the shipbuilding yards throughout Canada. We realize also that there are fully 10,000 more men engaged in allied industries.

To cause forty thousand to be out of work at the present time would be a rather critical thing for any government to do. Therefore, it is not the intention of the government to cease our shipbuilding program now.

We are going to order additional ships at least to keep the yards working.

ENGINEER AND FIREMAN DIE IN WABASH WRECK

Train Jumps Into Ditch Near St. Thomas—Twelve Passengers Slightly Hurt

St. Thomas, Ont., May 8.—The twelve passengers who were on the Wabash express train which was derailed at Darling road three miles east of Canfield Junction arrived in St. Thomas late this afternoon.

Nearly all were suffering from the effects of shock and minor injuries but were able to proceed west to their destination. The engine left the rails and turned up-side-down in the ditch, pinning Engineer Frederick Bechley and Fireman Emery Bellows under the debris.

The bodies of the unfortunate engineer and fireman were recovered and taken to Dunville where a coroner's inquest was opened and later adjourned.

Engineer Bechley was one of the oldest engineers of the Wabash, coming to St. Thomas twenty-five years ago.

Fireman Emery Bellows has been engineer and fireman on the Wabash for fifteen years but owing to slackness on the road was acting as passenger fireman for the past month.

New Train Toronto to Trenton, Via Canadian Pacific Leave Toronto 8 p.m. daily except Sunday, arrive Trenton 11.45 p.m. making intermediate stops.

NEWSPRINT INQUIRY RESUMES HEARINGS

Is Considering Certain Phases of Inquiry Referred Back by the Paper Control Tribunal.

Ottawa, May 8.—Paper Controller R. A. Pringle resumed hearings with regard to certain phases of the newsprint inquiry which had been referred back to him by the paper control tribunal, and it is hoped to conclude this aspect of the probe by the end of the week.

Mr. Pringle will report his findings to the tribunal, which will then be prepared to deal further with the case. The price under discussion is still the one which newspaper publishers had to pay for newsprint prior to Dec. 1, 1918, namely, \$69 per ton for roll news, retroactive to July 1, as compared with \$35 per ton in 1916.

Price fixation, as applied to later months, has yet to be dealt with by the appeal tribunal.

To the veterans and relatives of members of the above Battalions:

The 19th and 20th Battalions are shortly expected home. Arrangements are being made for their reception. Look out for further notice in the press.

48th HIGHLANDERS

AN APPEAL TO THE CITIZENS OF TORONTO FOR AN ORDERLY AND MILITARY PARADE OF THE 15TH BATTALION, 48TH HIGHLANDERS, ON THEIR RETURN TO TORONTO.

The crowding in on the troops, by the on-lookers, has been one of the most regretful features of the parades of returning battalions.

There is no reason or necessity for it in this case, as the men will have seen their relations and friends before they parade.

The route of the parade is sufficiently long to enable all Toronto to comfortably see it. The men of the 15th Battalion desire to make as good a showing as possible.

No civilians are to be permitted to march with the Battalion, or invade the Stadium parade ground.

CHEER THEM—BUT DO NOT CROWD THEM. STAND BACK TO THE CURB. YOU CAN SEE THEM BETTER FROM THERE.

48th HIGHLANDERS

The parade of the 15th Battalion, 48th Highlanders, will commence at the Armories at 1.30 p.m. Saturday, May 10, 1919.

The Highland Brigade, Color Party, and Guard of Honor will form up at the Armories at 1.00 p.m. Saturday.

A full attendance is requested of all the various units, including ex-members 15th Battalion drafts to 19th, 35th, 58th, 74th, members 92nd and 134th Battalions, and members of 48th Highlanders who enlisted in other units.

ANDY HIT A HOMER WITH BASES FULL

Leafs Piled Up Winning Lead in First Round of Final at Reading.

Special to The Toronto World. Reading, Pa., May 8.—Reading made merry with the offerings of Kid Brown in the first inning today and by piling up a seven point lead during the opening round, Reading's fourth straight defeat, 9 to 7. Brown occupied the hill for one-third of an inning, but it must have seemed ages to him, for during his brief tenure, the Leafs got to him for two home runs and three singles, sending runners across the plate in seemingly unending procession. As there was only one man down, manager Doon beckoned Brown to the bench and sent in pitcher Donohue, who vago what he could out of the wreckage. Donohue retired the Leafs without further scoring, but only after they got to him for two hits. Such a carnival of hitting was never witnessed at Lehigh Park. There were four home runs, three by the Leafs, all over the centerfield fence. One of these was made by Doon, who hit the bag with full swing. Reading's home run was made by Fitcher, Donohue when two of the stations were occupied at the time. Donohue dealt out passes with a lavish hand, and the Leafs, who had coped with the fact that the Leafs continued to assert themselves with the bat, kept Toronto in front at all times. The marathon around the paths in the first started when Brockbridge worked Brown for a pass. Gonzales and White-man singled, the latter's blow scoring Brockbridge. Doon's error, which eluded Onslow's single. Purcell was safe on Sheridan's error. With the sacks loaded, Anderson made a homer, and Sandberg, before the dust of that circuit drive had settled, made another. Reading scored its first run in the second when Sheridan, who tripled in the second over the plate as Weaver went out, Gonzales to Onslow. Two more were hung up by Reading in the third. Donohue singled and Baker walked, Burns lifted one over right field fence, but it was a foul. He singled and scored the pair of runners. In the fourth Onslow drew a base on balls. Holden doubled and Anderson was safe on Sheridan's error. Sandberg singled, scoring Holden. Reading broke into the home-run column in the fourth inning. Weaver was safe on a fielder's choice, which eliminated Sheridan, who walked, at second. Doon singled. Fitcher and Donohue scored these players and himself when he sent the ball over the fence. In the seventh, the Leafs crawled within a run of the Leafs. Crossin doubled and went to third as Baker went out. Gonzales to Onslow. The Leafs' catcher scored on a wild pitch by Justin. Holden made the fourth home-run of the game in the eighth. Holden of the stations were occupied at the time. Purcell, the first man up, having gone out, Baker to Weaver. The fans pulled hard for another score when Justin walked the first two Reading batters in the eighth, Weaver and Hummel. Sheridan hunted to advance the runners, but Hummel was cut down by a third baseman. The Leafs' easy outs and the two runners expired. Donohue singled and Baker walked, Burns lifted one over right field fence, but it was a foul. He singled and scored the pair of runners. In the fourth Onslow drew a base on balls. TEN STARTERS IN KENTUCKY DERBY

Lexington, Ky., May 8.—With the near approach of the date for the running of the forty-fifth renewal of the Kentucky Derby, a fairly good line on the probable starters can be had, and a prediction that the following horses, together with their riders, with compose the field, is timely: Horse, Wt. Jockey. Owner. Biondi, 122 (A. Schuttler)...J. W. McClelland Billy Kelly, 119 (E. Sande)...J. K. L. Ross Sir Barton, 112 (—)...J. K. Ross Vindex, 122 (W. Knapp)...H. P. Whitney Regalo, 117 (F. Murphy)...Gallaher Bros. Be Frank, 119 (Butwell)...Calumet St. Under Fire, 123 (M. Garner)...P. Dunne St. Bernard, 119 (E. Pool)...E. J. Brannon Frogtown, 119 (J. Morse)...W. S. Kilmer

WILL TRY TO REPEAT FEAT OF EXTERMINATOR

Lexington, Ky., May 8.—Acting for Willis Sharpe Kilmer, Trainer Henry McDaniel has purchased the yearling foal Frogtown, by Magneto—Beth Miller, from J. C. Millam, and the colt will be Mr. Kilmer's representative in the Kentucky Derby next Saturday. The price paid was not made public, but is said to be in five figures. Some are inclined to believe in the purchase a possible repetition of history as to the 1918 Derby outcome, for it was about this time last season that Mr. Kilmer bought Exterminator from Millam when Sun Briar began taking his Derby "prep" in bad style. Frogtown has worked some fast trials recently, and it would not surprise many who have viewed his preliminary work that Exterminator's success, Regalo, which will be the only filly to start in the Derby this year, was taken to Louisville yesterday by Trainer J. C. Gallaher. She has been gaining steadily in favor here, and will be liberally backed by Lexington people.

BRITISH COMMENT ON PEACE TERMS

Mail Thinks There Are Too Many Loopholes on the Financial Side.

OTHER OPINIONS VARY Daily Telegraph Says It is "Rigidly a Peace of Justice."

London, May 8.—The peace terms, while receiving considerable approval from almost the entire London press, do not escape sharp criticism on certain points. The objections centre mainly on the question of financial compensation from Germany.

than might have been anticipated. It has in it the principles of a good peace if these principles are put into practice.

treaty would not be a peace, but a truce. The Herald, the labor organ, roundly denounces the whole treaty, saying: "There is no honor left for any of us. The league of nations is a body without a soul. President Wilson has been beaten. He forced acceptance of his 'deals' on other powers but they have beaten him secretly. He compromised on essentials and, therefore, the details have gone astray. From the moment he abandoned the first of the fourteen points he abandoned them all."

TRANSPORT ESSEQUIBO IS DUE ON TUESDAY

Ottawa, May 8.—The ambulance transport Essequibo, with 538 Canadian wounded on board, and 17 nursing sisters, is now on her way across the Atlantic, and will probably reach Portland, Maine, on May 13. The soldiers and nursing sisters are divided as follows: London, 75; Toronto, 221; Kingston, 37. The militia department which is due on or about May 11, will dock at Halifax. The transport Cassandra, also due about May 11, will dock at Montreal.

Mr. Married Man---Do This

Write out instructions for your wife to follow with reference to earning an income for the support of herself and your children after your death.

After you have found out how "easy" it is to write out these instructions, figure out how "easy" it is going to be for your widow to carry them out.

The task we think will convince you that you must maintain as much life assurance as you can possibly afford in order that your family shall not be dependent upon the charity of others, if you should die.

Don't put it off. Don't say

that you expect your business to be in such shape that your family will have nothing to worry about. Think of all the men who do not own \$500 in real money today who were worth thousands of dollars two years ago.

Every Wage Earner An Investor

Every wage earner can be an investor in gilt-edged securities bearing a high rate of interest without sacrifice or worry.

The plan is so simple and secure that it commends itself to everybody.

All of us spend a portion of our earnings thoughtlessly. It is human nature. Yet most of us would be glad if someone would take the money we fritter away and save it for us, because we find it difficult to save it ourselves.

Make your employer do it by means of War Savings Stamps. Say to him: "I want you to take five per cent. of the money in my pay envelope each week and buy me Thrift Stamps. Then with each \$4.00 worth of Thrift Stamps buy me a War Savings Stamp. When you have bought each War Savings Stamp, put it in my envelope. Go on doing that for a year."

That is all. Your mind is free. You will not miss that 75 cents or that dollar which you have hitherto squandered on trifles.

But at the end of the year you will have a little package of War Savings Stamps, each bearing the \$5.00 mark, but which have cost you but a few cents over \$4.00 each. These Canada will redeem in 1924.

Woodstock
Mrs. T. Allenby, 369 Main St., Woodstock, Ont., writes:—
"For several years I have made use of Dr. Chase's Nerve Food as a tonic and blood-builder. Whenever my system gets run down or I do not feel quite up to the mark, I resort to this medicine, and they never fail to build me up and strengthen me. Different members of our household have also made use of Dr. Chase's Nerve Food with splendid results."

Peterboro
Mrs. James Bogue, 220 Dublin St., Peterboro, Ont., writes:—
"Three years ago I noticed that our children seemed to be suffering from bad nerves and poor appetites, and were inclined to anaemia. Knowing the good of Dr. Chase's Nerve Food, I started to give them a treatment of this medicine. I found it built them right up, made them bright and cheery and restored their usual good health."

Guelph
Mrs. Emma Leach, 95 York Rd., Guelph, Ont., writes:—
"Last year my system became run-down, and I was troubled with nervousness. I had frequent headaches, and found it difficult to get a good night's sleep. I sometimes had a creepy sensation, or hot flashes over my body. I secured some of Dr. Chase's Nerve Food in January, and after using them for a time I noticed an improvement. I therefore continued the treatment until the headaches and that creepy feeling disappeared. I got better control of my nerves, and now can go to bed and get a real good night's rest. We think a great deal of Dr. Chase's medicines, and I can certainly recommend the Nerve Food."

Hamilton
Mrs. S. Staunton, 136 McAb St. N., Hamilton, Ont., writes:—
"I have used Dr. Chase's Nerve Food for a run-down system, and found it splendid for strengthening and building up the body. I can recommend it to any person requiring a good tonic."

London
Mrs. S. Meathrel, 23 Hyla St., London, Ont., writes:—
"About a year ago I had a complete collapse from my nerves. I was taken to the hospital for a treatment, but it did not give me much relief. When I was brought home again, I went to the country for a change of air. I seemed to be a little better while there, but after my return home I did not feel much better. I used to have nervous spells, when my limbs would begin to shake, then grow cold, and I would be completely exhausted. I was also troubled with an accumulation of gas on my stomach, which caused palpitation of the heart. At last I decided to try Dr. Chase's Nerve Food, and after I had used them for a while, I could see that they were helping me, so I continued using them until I became quite well again. I became real strong and healthy, could sleep well at night, and was able to do my own household work. As I got stronger the nervous spells disappeared, and I have not had one since. I also used an occasional Kidney-Liver Pill in connection with the Nerve Food, which I think cured the gas on my stomach. I have received such benefit from these medicines that I wish to recommend them to others."

Picton
Mrs. Arthur Hicks, Picton, Ont., writes:—
"About a year ago I was on the verge of nervous prostration. I became very irritable, and could scarcely stand the noise of the children. As for sleep, it was impossible. Then I had an attack of neuritis in my right arm and little finger. I had spent a great deal of money on different medicines, and doctored with different doctors, trying to get relief, but without success. Finally I tried Dr. Chase's Nerve Food, and they have given me great benefit. My husband could see a great improvement in my looks in a short time. I feel so much better that I cannot speak too highly of Dr. Chase's Nerve Food, and would recommend them to anyone suffering from nervous troubles."

Brockville
Mr. M. B. McCarten, 88 Church St., Brockville, Ont., writes:—
"About five years ago I was troubled with nervousness and sleeplessness. Owing to my business (a baker) I had long hours and only broken rest, and became so run-down that when I could get the time to sleep, sleep would not come. Through reading some of the advertisements and also looking over a family receipt book, I decided to try Dr. Chase's Nerve Food. I purchased a box, tried it, and continued the treatment until I found myself much improved, and could get a good night's rest. Since then, when I feel the need of them, I resort to Dr. Chase's Nerve Food again, with the same good results. I gladly recommend the use of this treatment to anyone suffering from nervousness or sleeplessness."

Collingwood
Mr. Harry Edward Trotman, First St., Collingwood, Ont., writes:—
"It is with great pleasure I write to tell you the splendid results I have secured through the use of Dr. Chase's Nerve Food. Before I commenced this treatment, I suffered from nervousness---was restless, easily worried; had frequent headaches and neuralgic pains through my body, especially in the back. I could neither sleep nor eat well, my circulation was poor and the heart action seemed weak. I also had attacks of indigestion. I tried several different remedies, but could not gain permanent relief. A last I started taking Dr. Chase's Nerve Food, and this treatment, together with an occasional Kidney-Liver Pill, worked wonders in my case. Five boxes of Nerve Food cured me. My wife has also derived great benefit from the same treatment, and we shall never be without these medicines in the house as long as we can get them."

At this season almost everybody is in need of restorative treatment to keep up energy and vigor and to maintain health, strength and vitality. Everywhere people are talking about Dr. Chase's Nerve Food, because it seems to be exactly what is required in the great majority of cases to restore the run-down human system. 50 cents a box, 6 for \$2.75, all dealers, or Edmansson, Bates & Co., Ltd., Toronto. The portrait and signature of A. W. Chase, M.D., are on every box.

GERMANS BEHAVED WITH ARROGANCE

Entered Hall to Receive Terms With All the Confidence of Victors.

EVOKED RESENTMENT

Count Von Rantzau Delivered His Speech Sitting and Roused Indignation.

Versailles, May 8.—The scene at yesterday's session of the peace congress when the terms of the treaty were presented to the German delegates was an impressive one, and the moments, indeed, the entire half hour which it took, Count Von Brockdorff-Rantzau to deliver his reply was a period of tension for Premier Clemenceau and Lloyd George and President Wilson, and in fact, for virtually everyone present.

The program was unaltered, however, and when the German reply had finished, Premier Clemenceau arose and put the customary phrase: "Has anyone further observations to make?" And when there was no response, continuing: "I then declare the session closed."

Scene in the Hall.
At the head of the table the striking faces of Premier Clemenceau and Lloyd George and President Wilson attracted every eye. Marshal Foch sitting with the French delegation at the head of one of the side tables, was another conspicuous figure. The bearded faces of the Serbian statesman, M. Pachitch, and the Greek premier, M. Venizelos, as well as the familiar head of Ignace Jan Paderewski, the Polish secretary, also stood out from the mass of delegates. The impressive faces of the Japanese representatives, the Oriental lineaments of the Chinese, the brown countenances of the Arabs from Hedjaz, and the presence even of the two delegates from Liberia and Haiti gave evidence that this was really a world congress.

The Germans, who entered the chamber with all the confidence of victors, bore themselves without a trace of nervousness and acted as if they were taking part in the deliberations on equal terms with their adversaries. The ceremony, which attracted to the hall a crowd of correspondents and officials, began arriving at an early hour, started at 2.30 o'clock when servants brought in huge armfuls of the printed conditions of peace and distributed them, one copy to each delegate, the taking part in the deliberations around the hollow rectangle.

Heralds Approach of Germans.
After a five minutes' wait Colonel Henry, the French liaison officer, appeared in the chamber, heralding the approach of the German delegation. The Germans entered the door an instant later, proceeded to a functionary of the French government, who announced in a loud voice, "Messieurs, the German delegates." There was some little confusion among the Germans while they were finding their proper places. Count von Brockdorff-Rantzau, who entered gloves in hand, took the centre chair, with his five colleagues and Director von Stockhammer of the foreign office flanking him on either hand. Five German secretaries and six interpreters took their places at tables in the rear.

Premier Clemenceau, as president of the congress, then rose and declared the session opened. He started immediately upon his opening speech, pausing to permit this to be translated into English and German by French interpreters. The translation in into German was decidedly faulty and halting. The premier then addressed the Germans again to explain the conditions of the negotiations, telling them that there would be no oral discussion permitted and that they must submit their observations in writing within 15 days. The premier then read the headings of the treaty and made his suggestion that the Germans within a few days might be ready to commence the discussion of certain sections of the treaty.

When the premier concluded with the customary phrase: "Has anyone observations to make?" Count von Brockdorff-Rantzau raised his hand, but he was not recognized until the premier's remarks had been translated.

During the translation Paul Dutast, the general secretary, as the embargo proceeded almost unnoticed across the open space in the centre of the rectangle and deposited a copy of the peace treaty before the head of the German delegation.

"Count von Brockdorff-Rantzau has the floor," said Premier Clemenceau, as soon as the translation had been finished.

The head of the German delegation did not rise like Premier Clemenceau, reading his speech sitting, but it was remarked by some that his apparent discourtesy to his adversaries may have been dictated by his physical condition.

After the first sentence of the count's speech had been delivered in German the interpreter began the French translation. The words did not reach the head of the table distinctly and Premier Clemenceau called for a louder utterance. He was equally dissatisfied with the second attempt of the interpreter, and two of the German officials finally left their places with the German delegation and moved across to the head of the table to deliver the German plenipotentiary's bold and frequently offensive message sentence by sentence right into the faces of Premier Clemenceau, Lloyd George and President Wilson.

Spoke With Strong Emphasis.
Count von Brockdorff-Rantzau's guttural German repeatedly rang out in strong emphasis on particularly vigorous phrases of words of his speech as, for instance, when he declared that the admission by Germany of sole guilt for the war would be a "lie," and when he forbade the allies to speak of "cruelty and murder" in view of the sufferings and deaths of German civilians under the blockade and after the armistice.

SAYS PROSPECTS GOOD IN BEEF EXPORT TRADE

Ottawa, May 8.—H. S. Arkell, Dominion livestock commissioner, addressed the agricultural committee today upon the prospects and markets for the livestock industry for 1919. He said there was a great future for Canadian beef in Great Britain, but it would have to be finished better, probably for a week yet, but it is evident that most of the G. W. V. A. recommendations are regarded as fair. The greatest difficulty seems to be the re-establishment of the maximum pension for totally disabled men.

Federal Pensions Committee Considers G.W.V.A. Requests

Ottawa, May 8.—The pensions committee of the commons has been meeting daily and sometimes twice a day receiving the evidence and reports presented to it in connection with soldiers' pensions. Today they had under consideration the recommendations of the Great War Veterans' Association. No decisions have yet been arrived at, nor will they be probably for a week yet, but it is evident that most of the G. W. V. A. recommendations are regarded as fair. The greatest difficulty seems to be the re-establishment of the maximum pension for totally disabled men.

PLAINS ROAD SCHOOL

The school board of S.S. 7, Township of York, met last night in the Plains Road School, the chairman, Robert McGregor, presiding.

It was decided to call for a new analysis of the well to see if the cleaning of the well during the Easter holidays had removed the recent contamination. It was also resolved to ask for the regular government inspection of the boilers.

The motion to have the free textbook equipment ready for the September term was defeated. Secretary Treasurer Barber pointing out that on account of the great expansion in the school attendance this year a deficit of \$1500 was in sight, but it was unanimously resolved that the fall term would be purchased during the fall term and distributed for use at the beginning of 1920.

It was decided to hold the annual picnic for the pupils on the last Saturday in June, and a special meeting of the board was called for Wednesday evening, May 21, to plan the arrangements.

TODMORDEN

An incubator lamp in the chicken house at the rear of Albert Parker's residence, 25 Gable avenue, Todmorden, was the cause of an outbreak of the shortly after 4 a.m. yesterday. The poultry house was destroyed, together with twenty valuable fowl and 20 chickens, to the value of \$300. The property was not insured. The reels from Bolton avenue fire hall were quickly on the scene and saved the adjoining building.

DEER PARK

A thoroughly enjoyable time was the "welcome home" tendered the two Barber brothers, W. J. and Harold, recently returned from overseas at the home of their parents on Pleasant boulevard, Deer Park, Wednesday night. Before going overseas W. J. Barber was actively identified with the Northend Retail Merchants' Association and last night's little function was largely a reunion of warm personal business associates. Some of those present were: Dr. Duffin, C. Rudlan, G. H. Moore, P. Stevenson, W. Cheshire, L. H. Sharpe, J. Downing, F. Ireland, F. Hackett, E. A. Snider, F. G. Gibbons and others.

A delightful social evening of music and song followed by a sumptuous repast featured the occasion. The Barber boys are widely known and deservedly held in the very highest esteem in the Deer Park district and this was abundantly evidenced at last night's gathering.

AURORA

At a meeting held in the Methodist Church last night it was decided to form a branch of the Y. M. C. A. at Aurora. This new branch will take care of all territory from the north of York county as far south as Thornhill and will be known as North York Y. M. C. A. Dr. Brown, of Toronto, was the principal speaker, Dr. Wilkinson, Newmarket, was appointed president, and temporary committees were elected for each town, township and village concerned. All details of organization are in the hands of the committees. Messrs. W. H. Fleury, Crookboard and MacDonald are acting for Aurora.

IMPOSSIBLE TO GRANT INCREASE ASKED FOR

Massey-Harris Notifies Its Employees, Demands Cannot Be Complied With.

In a circular distributed to every employe of the Massey-Harris Co., Thomas Findlay, president, emphasizes the claim that an increase of 25 per cent. in the wages of their employes, if granted, would be against the best interests of the workers. This demand, says Mr. Findlay, is utterly impossible of attainment at the present time, due to the economic situation throughout the world. "We desire to say without reservation," says Mr. Findlay, "that the management of this company is not opposed to the principle of an eight-hour day, but it is all wrong to press this feature in advance of other countries and other industries, at a time when it is most difficult to secure the necessary business to keep the factory busy."

The circular refers to the industrial council now in process of organization, and which will be in operation within a few weeks, remarking that all matters at issue could be settled by that council. Mr. Findlay was to have left for Europe a few days ago, but postponed his trip because of the seriousness of the labor situation due to the action of the Metal Trades Council.

RETAIL SHOE DEALERS CALL BIG CONVENTION

At a meeting of the Toronto and Hamilton shoe dealers on Tuesday all arrangements were completed to call a Dominion-wide convention of the shoe retailers to deal with matters pertaining to the trade. The convention will be held in Toronto on July 21 and 22 next and representatives are expected to be present from all parts of Canada. The arrangements are in charge of an executive of 30 prominent shoe dealers with Mr. W. T. Pezan, of Toronto, chairman, and Mr. Edward Cook, of Toronto, secretary.

HAGERMAN'S CORNERS

What might have been a most disastrous fire out in Markham township a day or two ago, on the farm of Dr. Wesley, near Hagerman's Corners, was happily averted by the coolness and hard work of two men, Dr. Wesley himself and C. E. Silver of Unionville, who was engaged in making repairs to the barn.

A young son of Dr. Wesley, in tinkering around the gasoline engine standing on the barn floor, allowed some of the gasoline to escape, and in some way this became ignited, and, running on the barn floor, began to spread. The straw mow was within six feet of the engine, and all efforts to put out the flames failing, Dr. Wesley and Mr. Silver, by superhuman strength, managed to pull the engine out of the barn and a distance of 30 or 40 feet away from it. The falling to catch in the straw, some of the burning oil ran thru the floor into the stables, and it was only by the greatest effort, aided by the women of the house, who brought out wet blankets, that the fire was eventually put out. There were about 25 head of cattle together with a number of horses, a lot of hogs and the big barn itself.

BEACHES

Under the auspices of the Rovers Club a dance and social was held in Balmby Beach club house last night. The gathering was the largest ever held in the building and Linton's orchestra furnished the musical program.

"Oh, I Cannot Eat. There is Not a Thing that I Want"

"BUT you will never gain strength if you do not eat."

"No, I suppose not."

"What did the doctor say?"

"He blames it all on my nerves; says my nervous system is exhausted and that I have nervous indigestion."

"Does he think you will soon be better?"

"No; he says I will have to be patient and let my digestive system rest and my nerves gradually regain vigor."

"Well, I know what I would do."

"What is that?"

"I would start in right now with Dr. Chase's Nerve Food. I have been nursing on so many cases just like yours and have seen so many cured by using Dr. Chase's Nerve Food that I am sure it is just what you need to restore your nerves and make you well."

"I have heard lots of my friends tell about using Dr. Chase's Nerve Food when they get run down, but it never occurred to me to try it myself."

"Well, I certainly would try it if I were you. I have never seen such results as a treatment for the nerves from any medicine that the doctors give."

"If you will go around to the drug store and get me a box I will start in right now. Goodness knows, I need something to build up the nervous system so that I can eat and sleep and get some strength."

"All right, I will do that, and I know you will thank me for suggesting it."

DUNLOP TIRES
SEAL OF QUALITY
BICYCLE

"It's Either a 'Dunlop' or an Imitation!"

That phrase came into dealers' minds through the coming of other bicycle tires. As "Dunlop" were the basic tires, naturally other tires had to be more or less patterned after the original. But no man living can make a pattern of Quality. You can still get the "original" tire with its wealth of unmatched features. Why buy the imitation—the experimental tire?

CATHOLIC "BIG SISTERS" ENLARGING ITS SPHERE

Twenty new members were received and encouraging reports given at the meeting of the Catholic Big Sister Association held at their new quarters 30 Bond street. In the absence of the president, Miss Mary Power, the chair was taken by Miss Mamie Kavanagh, vice-president of the organization. An address on the object of the movement with special emphasis on the need for getting in

touch with those whom the society seeks to benefit, was given by Rev. Father Cline. The Toronto branch of the Catholic Big Sister movement, the but recently formed, has made considerable progress, 46 members being now on the roll. There are also 34 Little Sisters and reports on some of the "cases" were among the most interesting items of the last meeting. Membership in the Big Sisters is invited. Attention is now centred on the furnishing of quarters at above address with the hope of everything being soon satisfactorily equipped.

WOMEN MISSIONARIES

Reports read at the meeting of the women's auxiliary of the Anglican missionary society show that during the war receipts were \$28,742 and expenditure \$28,690. The membership in the 210 senior branches is 7,433 and in the girls' membership 1,574. A burden becomes light when well borne. He that examines every bush will hardly get into the wood.—German proverb.

NOT GHOST OF CHANCE, SAYS SUPT. BISHOP

Cannot Use Stool Pigeon Methods in Purchase of Property.

"There is not a ghost of a chance," said Supt. Bishop at the property committee of the board of education yesterday afternoon, when the prospect of buying property adjoining Hillcrest public school was discussed. The owner was wealthy and it was no use to try to use stool pigeon methods. Hillcrest school is overcrowded, and the half-time system has been adopted to wedge in one additional class.

At Ogden school the congestion in the playground equals the space per pupil in the classrooms.

Trustee W. Abel said the Ontario Department of Education ought to close Ogden school owing to the overcrowding.

The resignations of Supt. Bishop, A. D. Wast and Architect Webb were sent in to the board.

Dr. Caroline Brown introduced a motion: That no additions or enlargements be added to any school where the number of classrooms is at present twenty-three or more.

That no addition shall exceed two storeys in height.

That a competent architect be secured to draw plans and specifications for each of the proposed additions or annexes.

That such architects have access to plans and specifications re school's to be enlarged.

That the work be proceeded with as expeditiously possible, and that the property committee report progress at each meeting of the board.

VETERANS

Items of Interest to Returned Soldiers Will Be Printed in This Column if Phoned or Sent in.

TURLEY IS QUESTIONED.

Three hundred returned men, vocational training students at the Central Technical School, attended a meeting held in the auditorium of the school last night to discuss a statement recently made by W. Turley, secretary of the G.W.V.A., in connection with the proposed government grant of \$200,000 to veterans who have seen service in France.

Mrs. Turley is said to have told a meeting of veterans held in Columbus Hall on April 28 that he was glad to say that in Ontario the majority of the returned men were not in favor of the grant. "We had not the laborers, and if we demand this blood money we shall be little better than pork packers and war profiteers."

The above statements, credited to Mr. Turley by the men, caused a great deal of dissatisfaction, and after much discussion a resolution was prepared and carried unanimously.

"Resolved that we, disabled students attending the vocational training school, desire to place on record our strenuous objection to the remarks made by Mr. Turley. We claim that he has no authority to make public a statement in which the interests of all returned men are concerned, and that holding the position he does is not warrant for his acting as spokesman for all returned men."

When the resolution was placed before the meeting a strong vote was taken and every man responded. Sixty per cent. of the audience belonged to the G.W.V.A., and certain of those ex-soldiers complained that the Turley view of the grant question had been "railroaded" thru the meeting at Columbus Hall by some of the ex-soldiers.

When approached on the matter by a deputization of veterans, Mr. Turley said that he based his remarks on rural Ontario. He will be asked to retract the statement entirely.

A BUSY DAY.

More than 400 members of the G.W.V.A. and returned soldiers generally visited the offices of Secretary Brockbank and Assistant Secretary Spriggs of the central branch with all manners of questions relating to the housing problem. At the time The World inquired for information there were 30 members in the office on the 30th. More than ten thousand returned men are interested vitally in this problem.

ONLY SLIGHTLY INJURED.

Comrade Spriggs, assistant secretary of Central G.W.V.A., who was run over by an automobile on Wednesday evening near the offices of the branch, has been deluged with inquiries as to the date of his general, many friends having heard that he had been killed. He emphatically denied this report, and stated that he had been very lucky, having received only very minor injuries. Comrade Spriggs, who is a veteran also of the South African war, has been badly wounded in the great war, and this accounts for the apprehension manifested by his friends in Toronto.

AN IMPORTANT CONVENTION.

The Dominion convention of the G.W.V.A., which will be held at Vancouver from June 9 to 14, will decide issues connected with lasting results to the welfare of the association. Among these will be the problem of extending the principle of membership, the question of the \$200,000 grant, apparently desired by many returned sol-

College Street Presbyterian Church sent welcome visitors to the new Dominion Orthopaedic Hospital last night, when the ladies of the "Summum Bonum" class cheered the patients with a delightful concert program. The evening was arranged for the men by the Military Y. M. C. A. visited. Those taking part were: Miss E. McKay, Miss A. Campbell, Miss J. Manser, Miss I. Bowden and Miss M. McKee.

Jim Donaldson and Andrew Noble are two old boys from the 2nd Battalion who have returned recently from the seat of war. Donaldson gained his military medal in one of the great battles of the past two years. Noble was a machine gunner and after three years at the front in Flanders returned to Canada for a three months' furlough some months ago. Returning to England he engaged in further service, and returned to Toronto a few weeks ago.

Casey Jones, a popular member of the 2nd Battalion, has returned to Toronto after more than three years with the battalion in France. Comrade Jones is the son of the late John Jones, for many years streets commissioner for Toronto. Casey has had the rather remarkable experience of going thru three rather strenuous years of real warfare without any wounds of note.

McCullough Back Behind the Bars

his possession is also thought to have been stolen.

Woman Engaged Room

On Saturday, April 13, a young woman came to the home of Mrs. Kate Kinsella of 78 Bathurst street, and engaged a room for herself and husband for \$3 per week. She gave the name of Mrs. Knight, but stated that Mrs. Kinsella might call her Vera. The young woman stated that her husband was a coal driver for the Conser-Lehigh Coal Company. McCullough and the young woman arrived on the evening of Saturday, the former covered with coal dirt.

The young woman remained with McCullough from Saturday night till Wednesday morning, when she suddenly left, explaining her absence by saying that she was going to Fort Credit to visit her sister. During the time she remained with McCullough she brought in eatables and cooked them.

After the woman left McCullough used to go out in the evenings about 9 o'clock, returning at 11 o'clock.

Because she could not see to read, Mrs. Kinsella, who is a little Irish woman about 75 years of age, frequently had McCullough read the papers for her. The condemned murderer often read aloud to her, accounts relating to himself, the recurring comment on them.

During his stay at 78 Bathurst street, McCullough never had any communication from the outside world by way of letters, telegrams and parcels, and looked after his room himself after the departure of his companion. Mrs. Kinsella stated that he was to leave on Saturday as she did not like him staying in the house all the time.

On the Streets Often

An astonishing part of Mrs. Kinsella's story is that McCullough frequently left the house, both in daytime and at night. He made frequent visits to a nearby grocery store and purchased food, and at night went for walks for the sake of exercise. That he was not recognized or, if recognized, not reported to the police, is one of the remarkable facts of the case. It will be remembered that the female woman was several times reported to have been seen in the vicinity of Bathurst and Queen streets before her capture, although she was finally taken in Queen street east.

Who Gets Reward?

The absorbing question among thousands of people is who gets the \$1,000 reward for the information leading to the arrest of the condemned murderer, but unless inspector of Detectives George Guthrie is inclined to speak, this information is not likely to be forthcoming unless the claimant comes forward. Acting Inspector of Detectives Wallace Marks, fellow prisoner of the late Lavelle, had been the "Big One" thru which the police derived the news as to the whereabouts of the hunted man. The police express the belief that Mrs. Kinsella was not aware that she was harboring the condemned murderer. In connection with the McCullough case generally the detective force paid a high tribute to the sterling quality of the work of Detective Lavelle, who, no matter what her general reputation may be, had proved beyond doubt that she could stand nobly by a friend thru thick and thin and would also sacrifice everything to such an end.

McCullough's Record

The police are now in possession of McCullough's record in the United States. They state that in 1912 he was sentenced in Kansas City to a term of ten years, which was later commuted to five years, for a list of burglaries.

The story crediting McCullough with being the sender of the letter which is entirely discounted by the police.

Mr. T. C. Robinson, K.C., is determined to keep up the fight, and he intends to go down to Ottawa, probably with McCullough's pastor, for this purpose.

"He escaped from a hospital, and was as cards, petitioning for his release, were pouring in at the rate of 200 a day," he said.

Mr. Arthur Meighen, acting minister of justice, stated yesterday afternoon that, unless clemency be exercised, McCullough will be executed on June 2, the date fixed by the court at Toronto.

How Did Police Find McCullough?

(Continued From Page 1).

an can get quickly and with effect in an emergency has been amply demonstrated. That such a woman as this would willingly accept, as a bribe, a return for her lover to the hangman's hands, is almost beyond belief.

The Vera de Lavelle had a past beyond dispute, but as a French writer once said, "Even the most fallen woman will be true to the man she loved."

That Lavelle has fallen to the level of the woman of the French author's note, there is much in her past that we should not discuss in front of our family.

For all that, however, she has stood by her lover, and it is beyond all the realm of imagination to suppose she would be a free agent in returning him to custody.

Summing up for the present the story of the conversation the prison mate of McCullough, one Irene Marks, stated in substance and fact, it was but logical to suppose that Lavelle had so much knowledge of McCullough's movements, possessed some additional information, and disclosure of which might lead to the arrest of the escaped man. Such is but common reasoning and the public would not be likely to miss such a point.

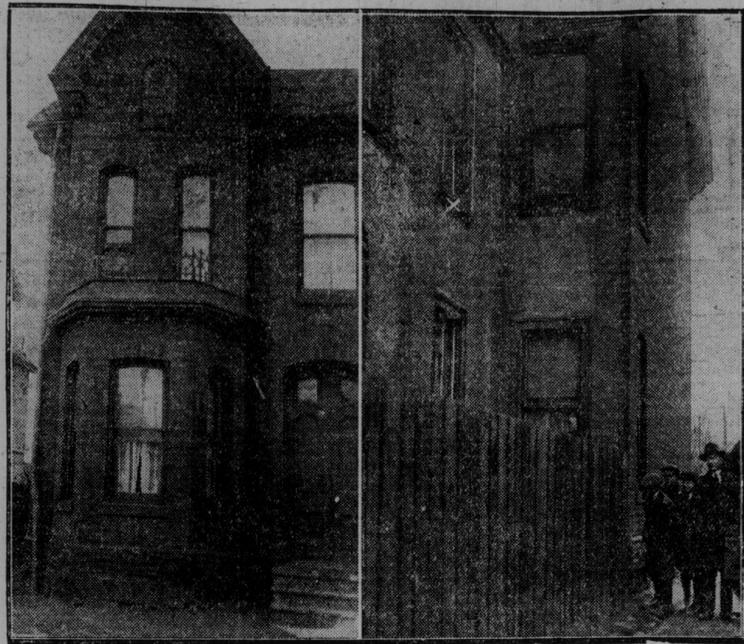

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief for Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probability due to acidity of the stomach. Evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion, is Gas distends the stomach and causes that full, oppressive, burning feeling which is known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies in the excess development or secretion of acid.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid and make it bland and harmless, a teaspoonful of bisulphated mag- acid stomach should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This soothes the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and expensive remedy to use.

An antacid, such as bisulphated magnesia, can be obtained from any druggist either in powder or tablet form enables the stomach to do its work properly without the aid of artificial digestants. Magnesia comes in several forms, so be certain to ask for and take only Bisulphated Magnesia, which is especially prepared for the above purpose.

WHERE McCULLOUGH HID IN. This is the house at 78 Bathurst street where Frank McCullough lived since his escape from Toronto Jail three weeks ago. The window with the cross on it is the one from which he jumped when cornered. Strange to say, the drop did not hurt him, altho he might easily have broken a leg.

HOME THIS MORNING, BUT NO RECEPTION

Public Welcome of Fifteenth Battalion is Postponed Until Saturday.

There will be no parade of the returning 15th Battalion thru the streets today, but the reception and ceremonial parade to be tendered the 15th have been postponed till Saturday, at 2 p.m. This was the statement issued by the 48th Highlanders last night, when it became known from military headquarters that the trains bearing the famous Highland battalion would not be in the city until some five hours apart.

According to the military authorities late last night, the first train will pull in at Exhibition Camp this morning at 10 o'clock; the second train, carrying the remainder of the battalion, will pull in at 1 p.m., and a third train, carrying the 48th Battery and the 1st Divisional train is expected in at 2 p.m. and the last train having aboard a number of drafts, is due at 2:45 p.m.

It is an account of the trains that the Highland brigade here felt that the men in the second train would not be able to greet their relatives properly; that the date of the big public parade and reception have been changed.

The parade will be held at the armories on Saturday afternoon at 1:30 p.m., along with the returned battalion.

The route of the parade will be as follows: from Jarvis street, up Yonge to Bay, to King, along to Yonge, up Yonge to Queen, to Jarvis street, and back to Jarvis.

The parade will be led by the 15th, followed by the 48th, and the 1st Divisional train.

JUDGE JOHN WINCHESTER IS CALLED BY DEATH

Well-Known Jurist and Public Man Dies After Short Illness.

The announcement of the death of Judge John Winchester, which took place last night at his residence, 77 High Park boulevard, will be received with genuine regret by a wide circle in this city. The senior judge of the county surrogate court had been ailing for about eight weeks, but it was only on Tuesday afternoon that his condition gave cause for serious apprehension.

Mayor Church last night stated that a great loss had been sustained thru the death of Judge Winchester, who he said, had been faithful and efficient in his public service. He had been a victim of eye-work, and towards the end of last year the mayor had asked him to take a holiday, but this he declined, preferring to remain at his post as one of the police commissioners while the police investigation was taking place. As a mark of respect to the deceased the flag at the city hall is flying at half-mast.

The late judge was born at Elgin, Scotland, and came to Canada with his parents, when three years of age. Since then he spent all his life in this country and to the great benefit of the Dominion. At an early age he showed that he was a youth of ability and obtained, whilst a pupil at Givens Street School, the first scholarship given to the old Toronto

Grammar School. Since that time by hard work and ability he had formed ahead, and at the time of his death was the senior county judge, which position he held since 1903.

The late judge was called to the bar in 1871. During 1874-7 he was a school trustee for St. Stephen's ward. The following two years he sat in the city council, and became chairman of the waterworks commission. He retired from the council in 1879, and in 1880-1-2 he was first reeve of Brockton. During all these years he sat on the county council of York. In 1882 he became master-in-chambers at Osgoode Hall. Four years later he was made a Q. C., and in April, 1903, he became senior county judge, and the Ontario government made him surrogate judge.

In 1904 he investigated for the city the charges of stuffing the ballot boxes in connection with the civic elections, and on his finding several agencies in importing Italians to Canada. In 1905 he was a special commissioner to inquire into the employment of American engineers on the transcontinental railway survey, and in the same year he investigated conditions in connection with the Perre Marquette. In 1906 he investigated matters connected with the building of the city hall, which cost \$2,000,000. Other investigations which he conducted were the employment of girls of the Bell Telephone Company; the conduct of the following family; Gordon H. Winchester, William G. Elgin, C. Lieut. A. S. of the Canadian Engineers, who is on the Atlantic on his way home; Mrs. E. F. Trimble, Minnie E., Mrs. J. M. Bullen, all of Toronto; and Mrs. H. J. White, Port Perry.

NISSIPING MAKES SPECTACULAR RISE

Hollinger and Lake Shore Feature Gold Stocks in Bull Market.

Nipissing and Hollinger fairly earned headline positions in the mining market yesterday, but in order to do so they had to put on striking performances. Since there were sufficient features scattered throughout both the gold and silver groups to last a week or longer in an ordinary market. Among the movements worthy of special note were sharp gains by Trethewey, Timiskaming, McKinley-Darragh and Conias, of the Cobalt, and by Hollinger, Lake Shore and Dome Extension, among the gold stocks, while many other issues closed with advances coming from small fractions to several points.

The day's transactions, amounting to 275,885 shares, fits. The total of Wednesday, but the fluctuations were wider. Nipissing, for example, which had opened at 83 1/2 and closed at 81 1/2 on Wednesday, cast this achievement all together into the shade yesterday. There were frantic bids for the stock for some time before any could be brought out, and when a transaction was put through it was at \$12.50, an advance of 10 cents over the closing price of \$12.40, a sheer gain of 2.25. A reaction to \$12.00 followed, but the upward trend, which was equaling the opening, and also the high price of the day, was maintained. It appears as if the floating supply of Nipissing for the stock for some time before any could be brought out, and when a transaction was put through it was at \$12.50, an advance of 10 cents over the closing price of \$12.40, a sheer gain of 2.25. A reaction to \$12.00 followed, but the upward trend, which was equaling the opening, and also the high price of the day, was maintained.

Several stocks were traded in the market yesterday, but the fluctuations were wider. Nipissing, for example, which had opened at 83 1/2 and closed at 81 1/2 on Wednesday, cast this achievement all together into the shade yesterday. There were frantic bids for the stock for some time before any could be brought out, and when a transaction was put through it was at \$12.50, an advance of 10 cents over the closing price of \$12.40, a sheer gain of 2.25. A reaction to \$12.00 followed, but the upward trend, which was equaling the opening, and also the high price of the day, was maintained.

BREWERIES' PROFITS LARGE

Montreal, May 7.—The annual statement which was presented to shareholders of National Breweries today showed gross profits for the year as \$1,024,339.55, an increase of about \$200,000 or 50 per cent over a year ago. The amount available for common stock interest, deferred dividends and \$2.25 dividend, after allowance for bond for depreciation, was \$286,509, equal to 10.5 per cent, against 1-1/2 per cent the previous year, and 2-1/2 per cent the year before.

U. S. FACTORY INTERESTS IN CANADA ARE LARGE

According to an estimate given in the Monetary Times of May 3, there are 388 manufacturing plants in Canada which are controlled by United States concerns. The average capital is estimated at \$62,834, making a total investment of \$24,339,525. The actual paid-up capital in the case of 76 of the companies was found to be \$51,996,450, and as these companies were fairly representative of the whole list, the average for them was considered a fair basis for making the estimate.

STILL IN DEADLOCK OVER STEEL PRICES

New York, May 8.—Representatives of the railroad administration and the manufacturers' committee of the Iron and Steel Institute failed at a conference here today, to reach an agreement for a reduction of the schedule of steel prices approved by the industrial board of the department of commerce. According to a statement issued at the end of a long discussion, the railroad administration contended the prices were not low enough, while the manufacturers asserted a further reduction could not be made without a decrease in the cost of production which would necessitate a lowering of the wage rate.

BROAD, ACTIVE TRADING IN MONTREAL MARKET

Brazilian and the Milling Stocks Are Among the Leading Features.

Montreal, May 8.—There was a continuation of the broad and active market today, begun a couple of days ago. The number of issues dealt in being slightly more than on the previous day and the total transactions exceeded \$1,000,000 by some 4000 shares, making today the busiest day for the year to date. The list as a whole was stronger, with a few of the stronger features of the past few days showing a tendency to ease, while others continued to rise up to the high record of last year. Several issues making new high levels for the year.
