HYMAN MAY NOT BE CALLED 'TILL DEPEND ON EVIDENCE

Score or More of Purchased Voters Are Yet to Relate Their Experiences.

It is possible that, after all, Hon. Mr. Hyman may escape the necessity for appearing in the witness box to give evidence in the London bribery case.

"I don't know yet whether Mr. Hyman will be asked to give evidence," said Mr. DuVernet last night. "It will depend upon how far the evidence goes."

Mr. White, president of the Liberal Club of Ottawa, is expected to give testimony to-day.

When Premier Scott of Saskatchewan was examined on Thursday enquiry was made by the crown as to whether Mr. Scott had had conversation with Mr. White before leaving to take part in the by-election campaign.

The Premier could not recall such conversation. Mr. Cory, also of Ottawa, concerning whom similar enquiries were made of the witness with like result, is expected to appear to-morrow.

Mr. DuVernet states that some 25 more London voters will relate personal experiences to-day of how moneyed inducement was held out to them.

Asked about the statements in London credited to F. A. Jones, who gave evidence on Friday, that he had been intimidated into going into old elections, Mr. DuVernet, with a threat of being tried for perjury if his depositions did not agree with those of other witnesses, refused to answer.

The London Advertiser says that Jerry Collins was a caller on Mayor Judd in his office at the city hall on Saturday morning, and had a long conference with him. When closely questioned, the mayor said: "I have a right to practice my profession. I have been retained by the Ontario government to act on this case, and I am doing my duty."

BELIEVED TO BE TERRORISTS

Five Stowaways Said to Have Planned to Kill Dowager Empress.

Copenhagen, Oct. 14.—A vessel which arrived here from Russia has on board five stowaways who were detained at the request of the Russian consulate.

It is supposed that they are terrorists, who were contemplating the assassination of the Dowager Empress of Russia, who is now here.

The police are enquiring into their identity.

RECORD WHEAT CARGO

Duluth, Minn., Oct. 14.—The big steamer James Laughlin has broken the wheat cargo record and also the time record for loading. At the elevator here she took 378,000 bushels at the rate of 1200 bushels per minute. The vessel is bound for Buffalo.

DOUKHOBORS DOING WELL

DOUBT OF THEM IN THEIR IDEAS

Big Buildings, Good Roads, Electric Light Plants and Telephones Among Their Works.

Winnipeg, Oct. 13.—Peter Verigen, the Doukhobor leader, who has directed the progress of the Doukhobors in their several colonies since their coming to Western Canada, is in the city en route to Montreal, to sail in about a week's time for London, whence he goes direct to the land of his birth.

If he succeeds in reaching Moscow, he will confer with Count Tolstoy, who has watched the progress of the Doukhobors in Western Canada with great interest, and then he intends returning in the spring with a large party of immigrants.

Mr. Verigen says: "The past season, from April 15 up to Oct. 10, 200 of our number were employed on construction work, and 75 teams. Every railway met available which we could spare from our holdings was employed on construction work. I do not think, however, we will do any construction work next summer, but will concentrate our energies on our holdings. The following summer, however, we expect to again do construction work."

"The past summer we have erected at Verigen a \$35,000 roller and four mill. We have two brick yards, and we manufacture our own cement blocks. These cement blocks have given satisfaction to settlers outside of ourselves. We have constructed a spur track ourselves to the brick yard at Verigen, and this has proved a great convenience. Work on a 50,000 bushel elevator will be commenced soon.

"We have at present telephone connection with Swan River, and the work of connecting all our villages with the system is now in progress. We also intend installing electric light plants in several of our villages. We had intended using kerosene, but we think electricity less expensive and far more convenient.

"Forty or fifty schools are to be erected where the young of our settlement will receive English education. Already 250 schools are operating, but we intend employing female teachers exclusively, as we think the scholars will become more attached to female than to male instructors. Our schools will hardly be ready for opening until I return in the spring. On Sunday these schools will be used as places where we will worship our own faith.

"The twenty-two villages of which Verigen is the centre are connected by graded roads, built by ourselves. Harvesting has been considerably delayed by the absence of the men on construction work, but now that they are released from farming operations will be rushed. The yield from what has already been threshed has proven very satisfactory."

Mr. Verigen will confer with the minister of the interior, who is expected here to-day. Verigen will be accompanied east by his interpreter, Simon Helbin, Paul Flandin and John Makhortoff, the latter 88 years old. The necessity of having a secretary and interpreter, the double capacity of which is possessed by Simon Helbin, will be readily understood when it is known that last year accounts to over \$200,000 were handled. The interview with Hon. Mr. Oliver will be relation to the lands claimed by the community near Borden, Sask., but which have been occupied by squatters.

Magistrate Was Careful. When Prisoner Tendered Fine in Ontario Bills, He Changed Them.

Ontario Bank bills are as valuable to-day as ever they were. Magistrate Kingsford didn't know it on Saturday morning. He fined Dan Sullivan \$20 each for carrying a loaded revolver. Sullivan proffered three \$10 Ontario Bank bills.

The police court clerk wasn't sure and he consulted with the magistrate. The magistrate wasn't sure and dispatched a policeman over to the Bank of Montreal to get the bills changed.

Are You Often Bilious? Read This And Learn How To Prevent Attacks.

Biliousness is merely a term applied to a condition that exists when the body is over-loaded with bile. The complexion turns yellow, eyes look dull, pimples, itching and eczema break out, headaches are ever present. Biliousness has two great causes, constipation and defective liver action.

When Dr. Hamilton's Pills are taken they not only correct the bowels, but act directly on the liver, regulating its bile secretion. Unlike ordinary medicines which purge and give temporary relief, Dr. Hamilton's Pills remove the condition which causes biliousness; thus permanent cures are effected.

Dr. Hamilton's Pills do cure biliousness and liver ills under all circumstances. We prove this by the statement of Mr. Fenwick, addington, of New Harbor, N.S., who writes: "Three months ago I had no expectation of ever getting free from periodical bilious attacks. They were preceded by dizziness and dreadful headaches. If I stooped over my head would swim and a nauseous feeling crept into my stomach."

Dr. Hamilton's Pills fixed up my liver, drove all the bile out of my blood and made me a well man in a few months. To-day I enjoy a good appetite, excellent digestion, and the best of health. Dr. Hamilton's Pills did it all. Get Dr. Hamilton's Pills to-day. Sold by all dealers; 25c per box or five boxes for \$1.00. By mail from N. C. Polson & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

HAMILTON HAPPENINGS

RADICAL MEN LEAVE UNION LEFT OUT OF INCREASE

New Rector of St. Peter's Church Inducted—Missions Need Men and Money.

Hamilton, Oct. 14.—(Special.)—The radical men and the employees of the shops have withdrawn from the street railwaymen's union because they did not get an increase of pay thru the recent arbitration.

Rev. W. H. Sedgwick, assistant pastor of the Central Presbyterian Church, preached his first sermon this morning and pleased the congregation. He is very earnest and direct. He said that he considered it a very high honor to be the associate of Rev. Dr. Lyle.

Rev. J. W. Teneyck was this morning inducted as rector of St. Peter's Church by Bishop DuMoulin. The new rector, who has been in the church for some time, was warmly welcomed. It was enlarged if the attendance warranted it. The ritualistic service will be dropped.

Missions Need Money. Ven. Archdeacon Lloyd of Saskatchewan preached in the following churches to-day: The Church of St. Thomas, St. Matthew, and St. George's. The Canadian branch of the Missionary Society of the Canadian branch was men and money, and declared that the rebellion of 1885 would have occurred if more money had been spent on missions there. He was happy to say that no Anglicans were identified with the rebellion.

The ladies of the W. C. A. held a high tea at Wesley Church Saturday evening in aid of the building fund. Another will be held in the school room of St. Paul's Church next Saturday evening.

The delegates to the National Council of Women were taken for a trip on the radial Saturday afternoon. They were entertained in the evening at Wessanford by Mrs. Sanford.

In order that he might get bail promptly, Charles A. Henderson, arrested Saturday on the charge of obtaining \$2000 from Thomas Nihan, St. Catharines, by fraud, was taken to St. Catharines Saturday afternoon.

It is rumored that there is a movement on foot to superannuate Robert H. Park of the custom house. Some of the hungry workers wanted to fire Adam Brown, postmaster, but discovered that it would not be wise to move him.

The board of health will hold a special meeting this week to consider the coal oil inlet nuisance, and unless the firms in the district have cleaned up to the satisfaction of the provincial board of health, legal proceedings will be taken against them.

J. M. Robinson was sworn in Saturday as the successor in the assessment department. Next week the fire and water committee will deal with the letters written by James McFarlane, a member of the beach pumping house, and try to get at the bottom of the cause of the friction between him and the city engineer.

Ald. Stewart has instructed the city solicitor to proceed at once with arbitration with reference to the street lighting rates.

Hospitals for Consumptives. The Hamilton Health Association will have a meeting soon to consider the question of providing a hospital for advanced cases of consumption. One scheme is to buy St. Peter's House.

Mrs. Pappa, leader of the choir at the St. Peter's Church, died early Saturday morning. The case against Archie Lancelotti, the alleged High Priest of the Epiphany, was adjourned.

Cecil B. Smith will lecture to the Canadian Red Cross on Oct. 15 on the subject of "The relation of power companies to municipalities."

The Toronto Daily and Sunday papers delivered to your address in Hamilton before 7 a.m.; daily, 25c a month; Sunday, 50c per copy. Hamilton office, Royal Hotel Building, Phone 381.

Martimas Cigars, 5 cents to-day, at Billy Carroll's Opera House Cigar Store.

TIME EXTENDED. Milk Cans Need Not Be Stamped Until December 15.

The Dominion government has extended the time for the stamping of milk cans from Oct. 15 to Dec. 15. Legislation passed at the last session of the Dominion parliament rendered compulsory the stamping of all cans used in the selling of milk, within the capacity of the same, the cost to be borne by the owners of the cans, who in the majority of cases are the wholesale and retail dealers of the city. The farmers are thereby relieved from the expense and the onus attached to a failure to conform to the law.

Rev. Mr. BARR RESIGNS. Curate of All Saints' to Collect Wycliffe College Funds.

Rev. A. F. Barr, who has been for some years past curate of All Saints' Church, has resigned to accept an appointment in connection with the collection of subscriptions for the endowed fund of Wycliffe College. He enters upon his new duties immediately. Rev. Mr. Barr's successor will be Rev. Mr. Raymond of Trinity College, who is to be preceded by dizziness and dreadful headaches. If I stooped over my head would swim and a nauseous feeling crept into my stomach.

SHIP'S BOILER EXPLODES

THREE OF CREW ARE KILLED

Six Others Injured — Explosion Attributed to Turning on of Cold Water.

Ellensburg, Pa., Oct. 13.—A boiler of the government boat Slackwater exploded late to-day, wrecking the vessel, killing three men, injuring six others and creating havoc in the lock on the Ohio River, where the boat was lying. Two negro workmen are missing.

The dead: John Brady, 35 years old; Steve Sutel, 30 years old; Albert Bishop, 27 years old. Superintendent of the dam. Two unknown negro workmen about the boat are missing, and are thought to be lying in the Ohio River, dead.

The cause of the explosion is not known. One workman on the boat who escaped attributed the accident to the turning of cold water into the boiler. The men on the Slackwater had just quit work and were lounging about the boat when the boiler burst. The report was deafening, and the ground in the vicinity of the lock was shaken.

The Slackwater was blown to pieces and debris were buried thru the air, and bodies of the dead and injured were blown into the water. Bishop's body was not recovered. It was blown a long distance into the river.

MEMORIAL SERVICE.

Conducted at St. Alban's Cathedral by Bishop Sweetman.

The Right Rev. Bishop Sweetman arrived here from Montreal on Saturday, where he was at the funeral of the late Primate Archbishop Bond. Prior to going to Montreal, Bishop Sweetman was in attendance at a meeting of the board of management of the Anglican Missionary Society of the Canadian Church, which met in London, and which was presided over by the late Archbishop Bond.

On Sunday morning the bishop conducted service in St. Alban's Cathedral in aid of a memorial of the late Archbishop Bond, picturing the seal and splendid business integrity which had marked his life. The bishop, in his address, pointed out the success of his life, and the good of his church.

A feature of the service in St. Alban's yesterday, was one which served to adapt themselves to any occasion, was that in spite of the fact that the organist was unable to play, the music, the regular service was carried out in every other detail. One of the selections was "Now the Labourer's Task O'er," which was beautifully rendered by the choir, under the leadership of David Kemp.

EPWORTH LEAGUERS' RELIGION

Subject of Special Sermon at Elm St. Methodist Church.

At both the morning and afternoon services in Elm-street Methodist Church yesterday the edifice was well filled, but the evening gathering was such as to fill the church to overflowing, many being turned away. The platform was beautifully decorated with fruits and flowers. In the opening prayer, Rev. Wesley Dean of Simpson-avenue Methodist Church drew many timely lessons from the ingathering of the fruit and grain. The afternoon service, conducted by Rev. Mr. Farwell and Dr. McCullough, was devoted especially to children of the school.

Rev. Jeff. McComb conducted the evening meeting, which was in the interests of the Epworth League and based upon the theme, "An Epworth Leaguer's Religion." True religion, he said, was not a restraint but an inspiration. And again, true religion was not alone an insurance in the world to come, but a program for the present life, which was an activity if the highest type of a Christian was ever to be attained.

Rev. Mr. Bartley assisted in the afternoon and evening services. On Saturday night an Epworth League rally was held in the Metropolitan Church and was addressed by Rev. Alex. Ester.

DROPPED FROM WINDOW.

John O'Connor of St. Peter's Sunday School Broke His Arm.

Frightened by someone approaching, John O'Connor, 14 years old, of 931 Dovercourt-road, leaped from a window sill of St. Peter's Roman Catholic Church yesterday afternoon. He dropped in the basement and sustained a compound fracture of the right arm. The little fellow is a member of the Sunday school. Dr. Caesar reduced the fracture and had the boy removed to the Hospital for Sick Children.

ROW AT WEDDING FEAST.

Reluctance of Guest to Kissing Bride Starts Fight.

Philadelphia, Oct. 14.—The Polish custom of kissing the bride at weddings brought about complications yesterday at a wedding feast in Fort Richmond, which broke up the festivities and resulted in the arrest of the bridegroom and seven guests on a charge of disorderly conduct.

Among the guests was Stephen Thebowski, who came accompanied by his wife. As far as the history of the trouble which marred the festivities could be collected by the police, Thebowski's wife objected to his following the customary custom. One of the musicians took umbrage because Thebowski, in deference to his wife's objections, showed some reluctance to embrace the bride.

He declared that the guest's hesitation was a reflection on the bride, and to emphasize his disapprobation he smashed his fiddle over the latter's head.

A WOMAN'S WORLD.

Autumn. The most comest, Autumn, heralded by the rain, With banners by great gales incessant fanned, Brighter than the brightest silks of Samarcand, And stately oxen harnessed to thy wain! Thou standest, like imperial Charlemagne, Upon thy bridge of gold; thy royal hand Outstretched with benedictions o'er the land, Blessing the farms thru all thy vast domain. Thy shield is the red harvest moon, suspended beneath the heavens' o'er-hanging eaves, Thy steps are by the farmer's prayers attended; Like flames upon an altar shine the sheaves; And, following thee, in thy ovation splendid, Thin, almoner, the wind, scatters the golden leaves!

The Moral Influence of Children's Reading.

Miss Clara W. Hunt, superintendent of the children's department of the Brooklyn Public Library, read at the recent meeting of the American Library Association a paper on "The Children's Library, a Moral Force," saying, in part:

The state educates its youth for the sake of its own welfare, and even its existence. It shows, therefore, that it believes in the possibility of training children to be the kind of citizens it needs. The character of its citizens is the only hope of the state.

The dangerous tendencies of this day in America are due to the laxness of parental authority. Old-fashioned obedience to parents has quite gone by.

If we are to have men of strong, true, honest character in the next generation, we must begin now to train the boys of this day into the ideals of principles which will produce such men.

It is a curious thing that while we are so anxious to bring up children to be "self-reliant," as if mere food, clothing, shelter and good surroundings were sufficient, and that the "line upon the line upon the line" upon receipt, here a little and there a little, were no longer needed.

There is dishonesty in business and politics to-day. Why not, when we talk boys' robbing apple orchards, a little lying in the children's room, in business. Why shouldn't it be common when parents lie to their children, threatening punishment they never give, and making other similar, rash statements?

The librarian's part in helping to make good men and women out of the boys and girls of to-day is in personal influence and in constantly raising the standard of books he puts on the shelves in the children's room. They should never be satisfied with books that are "no particular harm." The books must be of some particular value.

More time and thought should be given to the study of what are the best books for children, and more time to reading books to determine which are best suited.

Sweaters the Latest for Babies.

Sweaters for babies are the newest thing that young mothers can buy for the fall wear of their little ones. These garments, made on the same lines as those worn by grown-ups, will be most serviceable for use before it is time to put on heavy winter wraps.

The sweaters are made with simple stitches in white, wool, with a narrow border of pink or blue around the cuffs and neck, or in light blue or delicate pink with white borders.

Some are made with little cut quite low at the neck, with the edges bound with silk, while others have the regulation turtle neck, such as athletes wear.

These go on over the head and as

WORLD PATTERN DEPARTMENT.

Designed by Mildred Cabsells.

LADIES' DRESSING SACQUE—No. 1060—A woman's wardrobe is incomplete without a dressing sacque, and the design here illustrated may be made up in soft silk or French flannel. This design has a fancy tucked yoke trimmed with edging, is shirred to the yoke and fitted at the shoulder seams. The neck can be finished with turnover collar, or cut in V shape and finished with edging. The pattern is cut in 7 sizes, 32, 34, 36, 38, 40 and 44 bust measure, the medium size requiring 3 yards of material 36 inches wide.

World Pattern Department.

Please send the above-named pattern, as per directions given below, to:

Name.....
 No..... Street.....
 Town..... Province.....
 Measurement—Waist..... Bust.....
 Age (if child's or miss' pattern).....

CAUTION—Be careful to enclose above illustration and send size of pattern wanted. When the pattern is sent measure you need only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, or whatever it may be. If a skirt, give waist and length measure. When miss' or child's pattern write only the figures representing the age. It is not necessary to write "Inches" or "yards." Patterns cannot reach you in less than three or four days from the date of order. The price of each pattern is 10 cents in cash or postal order. Do not send stamps.

Special Note—Always keep duplicate of all orders sent, and send this duplicate in making enquiries about patterns that are not received promptly.

Address: The World Pattern Department, 83 Yonge St., Toronto.

A Boston schoolboy was tall, weak and sickly.

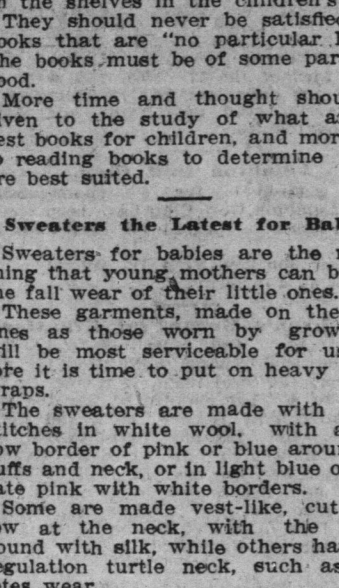

His arms were soft and flabby. He didn't have a strong muscle in his entire body.

The physician who had attended the family for thirty years prescribed Scott's Emulsion.

NOW:

To feel that boy's arm you would think he was apprenticed to a blacksmith.

ALL DRUGGISTS; 50c. AND \$1.00.

SCOTT'S EMULSION

THE PHYSICIAN WHO HAD ATTENDED THE FAMILY FOR THIRTY YEARS PRESCRIBED SCOTT'S EMULSION.

NOW:

TO FEEL THAT BOY'S ARM YOU WOULD THINK HE WAS APPRENTICED TO A BLACKSMITH.

ALL DRUGGISTS; 50c. AND \$1.00.

O'CONNOR AT MASSEY HALL

Continued From Page 1.

as we always have been, that such a measure would continue and prosperity to Ireland, and prove in the best interests of the empire.

"Permit us one expression of personal delight in your visit, and our gratulation upon the results of the magnificent convention you have just attended. It is a great pleasure to us that you have come to the city of our own Hon. Edward Blake (applause), whom may God preserve for the honor which his great name has conferred upon Canada, and the untold service which we know he has given and will continue to give Ireland to the end."

Contributions to the Cause.

Mr. Blake's name received clamorous recognition, especially when his donation of \$50 was announced. He communicated his regrets that he was ill and debarred from public meetings. Regrets were also received from Hon. J. J. Fox, with \$20; Walter Scott, Saskatoon; Mayor Coatsworth, J. R. Stratton, Hon. Dr. Reame, Hon. Dr. Burns and ex-Mayor Urquhart. James Connors, a prominent Irish politician, who may God preserve for the honor which his great name has conferred upon Canada, and the untold service which we know he has given and will continue to give Ireland to the end."

Mr. O'Connor, who spoke for an hour and ten minutes at 8 o'clock, in appearance he might be his own brother to Dr. Strachan Cox and in every way a gentlemanly, well-mannered man of the world. As an orator he seemed to keep a curb on his feelings and the moderation and restraint of his tone was very marked. The ex-premier was more of the demagog when he recommended the Irish party to be constitutional, or at least a constitutionalist, as they called it, and in a speech on the subject of the Irish party, he was very convincing. Mr. O'Connor's newspaper training in the order and system with which it was developed. He left himself in no doubt as to the position when it was required, and his denunciation of the misgovernment which led to the horrors of the Irish famine was full of pathos.

Tribute to Mr. Blake.

In opening he paid a fine tribute to Hon. Edward Blake, whose residence he had just visited, his chief residence here. Mr. Blake had offered to give him his services were required in considering the details of the coming measure for the self-government.

Mr. O'Connor dated the movement for home rule from a certain morning in 1880, when Henry Grattan closed his speech on the Act of Union, in which he prophesied the future. He was met by a number of prophecies of an entirely different kind, and those which he advanced. Mr. O'Connor was very confident in his belief at that time that Ireland would increase in wealth and population. But there was something in the result. The Act of Union had been an unmitigated curse to Ireland, and had done more to impoverish and enslave the Irish people than any other measure of the British empire. How could it be otherwise?

Some were so ignorant as to think that in asking for a parliament in Ireland, a new era of prosperity had been opened. The shackled and cribbed and confined Irish parliament had existed for centuries before the day of 1801. They were not asking for a new parliament, but for a restoration. It had been destroyed by force first and then by fraud.

Mr. O'Connor referred to the butchery that followed the abortive rebellion of 1798.

A glimpse into the inner thought of Charles Parnell was once given him when an Irish leader told him of the influence of a life story told by his people in Wicklow, where he had died. He had been sentenced to be flogged but to be flogged on the stomach instead of the back.

"Kill me, Colonel Keogh," he prayed, "and put me out of pain."

In the Irish parliament there was a single member, being made up of those Protestant members, landlords and aristocrats, were so filled with the spirit of liberty and freedom that not a single member of the House of Commons, those who voted for it were bought with place or title.

Mr. O'Connor was the test by which all schemes and systems of government were tried—"By their fruits ye shall know them." By the test of population, the Irish people, millions, Ireland had lost more than half.

The Test of Prosperity.

The second test was that of prosperity. What had been the history of the last 106 years? He did not think that Irishmen themselves really understood what occurred in the great famine of 1845-1847, and the famine of 1879-1880, and the distinguished complaint from Mr. Goldwin Smith that until Mr. Smith had read Mr. O'Connor's story, he had never understood the situation. Along the roads one would see the corpse of an old man, a young girl, and a young woman, seven or eight of a whole family that had dropped dead of hunger on the roadside.

The famine had been an act of God. He contested the proposition. Those same roads were being passed over by wagons carrying corn, cows and sheep, the wealth of Ireland going to England to pay the rack rents, while the men and women were dying of starvation for want of food.

No prophecy was more confidently uttered than that the Irish people of Ireland was merged in the English Parliament, Ireland would be prosperous and lightly taxed. The report of the financial relation commission, in which the majority were Englishmen, showed that Ireland was overtaxed annually by \$17,000,000.

Since the union the population of England had nearly quadrupled and her taxation halved. In Ireland since the Act of Union the population had halved and the taxation doubled.

The Health of Ireland.

He would not attribute all the ills of Ireland, but certainly a very large proportion of the disease and the ruinance of the Irish Parliament, in regard to the health of Ireland, he related an experience in connection with the Jubilee Nurses' Association, which had been touring in Connemara. A little girl, crippled with disease, was found there. Her parents said she had had a stroke. The child was taken to Dublin and treated for hip disease and recovered. Lady Dudley became attached to her, and about to make a protegee of her, when she fell into a galloping consumption and died.

"I am not saying down the extreme doctrine that the Irish people are due to the want of self-government," he repeated, but the condition of ill-health which led to such an incident as he related was the result of misgovernment.

The health of Ireland was largely under the Local Government Board, which was not responsible to an Irish executive, but to an English Parliament. They were delisted by the people, and they disliked the people, he

asserted. "I do lay it down as a position which nobody can contest that if we had a government of our own, we would have freed from office any officials who allowed horrors like those of Connemara to exist."

Mr. O'Connor had the speech and other advantages of local government denied to Ireland, he said, and instanced the occurrences of the year 1897 when several of national repute marked the Diamond Jubilee in England. All parts of the world sent representatives to pay their tribute. There was one country which expressed no sympathy and sent no greetings.

The Jubilee Gift.

"In the very same year of the jubilee the government passed a coercion act which differed from the previous one in that it was not temporary, but for ever and for ever—the jubilee gift to Ireland."

England and Scotland and every part of the British empire a man could not be tried for a political offence unless there was an impartial judge and a jury of his peers. Under the coercion act by a stroke of his pen the lord lieutenant could destroy the British constitution in any county he pleased. It should be a political make a speech he is not brought before a judge and jury, but before two residing magistrates, who are called in by the lord lieutenant because they are absolute dependents and servants of the government of the day.

Mr. O'Connor asked if the trial of a political prisoner by his political opponents was not despotism and equal to any Russian tyranny, and that the great injustice of the act was that the story of the Irish Sergeant Sheridan, who obtained the conviction of one Magowan for mutilating cattle, was not a man convicted for setting fire to a haystack, besides other cases. Mr. O'Connor had heard Chief Secretary Wyndham get up and confess that the men convicted were in every case innocent, and that Sergeant Sheridan himself had committed the crime.

This was only possible by the system by which in the county like Sligo 90 per cent. Catholics and 10 per cent. Protestant, a jury entirely Protestant would be selected to try a Catholic.

Trial by Jury.

"An Irish Catholic Nationalist farmer was tried by twelve Protestant Unionist landlord partisans—(A voice, 'Russians')—It is the vilest form of the vilest form," declared the speaker.

"I have used the words Catholic and Protestant in no injurious sense. 'God forbid that I shall say they gave their verdict because they were Protestants or Unionists. But in times of strife the most dangerous closed his eyes and shut out the opposite religious belief on a jury to try a prisoner.'"

Who defended the system? Australia and Canada were colored and loyal. Was there a statesman in Canada in favor of the present system in Ireland? Four times had the Canadian parliament voted to resist the home rule. The night before in Ottawa when he spoke there in favor of home rule, Sir Wilfrid Laurier, the great Canadian statesman, sat in the front benches. They were beginning to think in England that Canada was the greatest of the colonies. The great dome of imperial power was represented by her greatest statesman when he came up and stood by Mr. O'Connor's side and gave his money for the home rule cause.

The Cry of the Empire.

"In one grand chorus there comes from all England's colonies and daughters the united and ringing cry to unity, to purify and ennoble the empire by giving Ireland her rights and her freedom." (Loud applause.)

Mr. O'Connor was asked to deal with the objections to home rule. In the late electoral campaign a poster had been circulating demanding "one day's trial by jury for the rest of the empire. No one, he said, had any objection to one crown or to one empire. But he thought as a statement of fact the one day's trial by jury for the rest of the empire was a vulgar and sinister intruder who made politics corrupt and religion hypocritical. Therefore, to any system that gave political advancement to a man because of his religious convictions he was always opposed.

A voice: Where does the priest come in?

Another voice: Put him out Skidmore!

These are my convictions and my answer to the interpolation from the benches of the hall," continued the speaker.

Protestants Lead for Home Rule.

There had been scarcely a movement in Ireland for home rule which had not been led by Protestants. He mentioned Henry Grattan, Henry Flood, Lord Edward Fitzgerald, who died for Ireland; Robert Emmet (John Martin), John Mitchel, and Charles Stewart Parnell.

"And to-day you have in your city one of the most powerful and most respected of Irish leaders, Edward Blake, who is also a Protestant."

He mentioned also Jeremiah McBean, whose name, he said, was like a tap on the conscience of the British people as a Wesleyan for nearly 20 years, had been returned by the Catholic constituency of Donegal.

"If anyone dared to raise the objection in Ireland that he was a Protestant and not a Catholic in creed, he would be turned out by the nearest Protestant."

door, if not by the first window (cheers)."

He had to acknowledge that in the north-east corner of Ireland a small minority, whose religion he respected, but whose prejudices he deplored, were opposed to home rule. Why should Irishmen not hurry that difference, he wondered. Was there any reason why Protestant and Catholic should not work side by side in Ireland? He did not believe that there was a single member of the party to which he belonged who would not die, were there a parliament in Ireland, rather than see injustice done to the Protestant of Ireland. There was a break-up in the old lines, as what had occurred in Belfast illustrated. Joe Devlin was member for West Belfast because 200 Independent Orangemen came up and cast their votes for him as a protest against the old regime (applause).

The Need for Funds.

"No political movement can go on without funds. Even Canada you cannot get on without funds." (Laughter.) Mr. O'Connor said he had no intention of making any illusions to current events. The Irish people had received no salary, and they were all poor men, to their honor be it said, for after all the man who remained in politics for many years and remained poor, was better than the man who went into politics and became rich. Again, no local allusions, he observed, were intended, as the audience treated the remark as a joke.

"Ireland will never know the sacrifices these obscure soldiers have made of the altar of Irish freedom," concluded his speech.

On resuming after the collection, he spoke of the reasons why home rule might be expected. They had now a large Liberal majority—the largest ever possessed in England. He was quite delighted with that, also some Irishmen thought it would be well for the Irish party to hold the balance of power. Now the Liberal ministry could say they were going to give home rule, not to remain in office, but to do justice to the Irish people in England. He had known Sir Henry Campbell-Bannerman for thirty years, and he was an honest, truthful, straightforward man, and he had never received from that self-government was necessary for Ireland.

Where Parnell and the speaker had been blessed and spat upon in Manchester and Salford, there were now more members pledged to home rule. He said greatly to the honor of the party, not a single one of whose fifty-one members was not as pledged to and as much in favor of home rule as he was himself. The masses of the English people had at last learned the truth and reality of the Irish question.

The One Obstacle.

There was one obstacle which left the house of lords. But with its many faults it had the great virtue of prudence, and had a very great regard for its skin. It would like to see twice before they rejected or mutilated any measure sent up by the commons with 100 or 200 of a majority. If the house of lords would be foolish as to resist the popular will, the people of Ireland it would be all the better. He would not regret to see the house of lords and Dublin Castle go down together.

For a fortnight his speeches had had one burden and refrain. He felt justified in giving them as his message: "The hour of Ireland's deliverance is at hand."

Hon. Mr. Ross Speaks.

Hon. G. W. Ross, who spoke of thanks. They had had a speech from Mr. O'Connor, eloquent, forcible and temperate, as the circumstances would allow. What struck him was the undertone of sympathy that ran all thru it. It was a narrow view that Irishmen had some grievances to redress. Home rule lay at the root of all constitutional government. He gave to England her Magna Charta, Bannockburn to Scotland, and an independence he never forfeited. It gave to the thirteen colonies the rights of Englishmen, and to Canada the B.N.A. Act, fullness, and the domination of half a continent. They were the rights of Irish people. They could not be anything else in this country. The hemisphere from Yukon to Patagonia was given to home rule. Canada obtained her home rule after a struggle. Irishmen must likewise be resolute. Let them agitate by constitutional means, that was his exhortation. He would not be anything else as they could. They could not draw lines in such cases. The message he would send to the British house of commons was that he would support the English-land trusted the French-Canadians and they had not done injustice to Canadian Protestants.

Joseph P. Downey could not find words adequate to express the gratification of the audience for the magnificent presentation of the Irish question which they had heard. They went out to Mr. O'Connor as Irishmen and descendants of Irishmen. A cause ever wild and dearer than the cause of Irish liberty was the cause of unity. They had heard how essential to that cause was some rise. Mr. Downey dealt with the objection that the Irish people were in glowing phrases seconded the motion.

An Incident.

In a word or two Mr. O'Connor acknowledged the vote, which was put and carried enthusiastically. A number of the audience had left before the close, the hour being considerably after 11. A committee of the audience asked the orchestra to play "God Save Ireland," but after searching their music were evidently unable to identify the American civil war "Tramp, Tramp, Tramp, the Boys Are Marching." The platform was cleared, only a few committeemen being left, and a couple of hundred people had not yet parted when the orchestra struck up "God Save the King." Several hisses were audible at once, and a protest was lodged with the committee, who called on the Italian orchestra to play a plain waltz which had no connection with the Irish people. King Edward's efforts for home rule and his support of Sir Antony O'Donnell are evidently not fully appreciated.

Sunday in Toronto.

Mr. O'Connor was the guest of M. J. Haney, Elm-avenue, Rosedale, on Saturday night. At 1 o'clock Sunday E. J. Hearn escorted him to the Grange for luncheon with Goldwin Smith, and there spent an hour and a half in a general conversation on literary topics. A visit was then paid to Hon. Edward Blake for half an hour. Mr. O'Connor was then escorted to the station by the United Irish League committee. Before going he expressed himself as most agreeably impressed with Toronto and his report on the meeting of Saturday night.

Lord Hawke, who was the guest of George Beardmore for several days last week, left on Saturday for Chicago and the Western States.

IS YOUR TROUBLE INDIGESTION?

Then probably you know the evils of distention, fermentation and irritation that accompany digestive troubles. Next important is to know how promptly Nervine cures. Quick as a wink it relieves bloating and feeling of fullness, puts the entire digestive apparatus in perfect order, makes you feel fit and fine all over. For internal pain, Paine's Nervine surpasses every food and remedy. Keep it in the house always. It's a source of comfort in the house of emergency. Large bottles for 25c at all dealers.

LEPER COLONIES IN ALPS. Specialist Ordered to Investigate Conditions of the Afflicted.

GRABS ENGINE'S FUNNEL. Farmer Saves Himself From Being Run Over By Making Flying Leap.

Geneva, Oct. 14.—The Swiss government is much exercised over the discovery that leprosy exists in a little village in the Alps which has been frequently visited by mountain climbers. The discovery was made thru a conscript presenting himself for military service the other day, who was found to be a leper. He declared that many other people in his village were similarly afflicted.

The village which harbors this scourge is called Guttet, and is about two hours distant from the railway station of Louche in the Haut-Valais.

So much concern was felt over the discovery that at once the famous Professor Jadassohn, the great skin specialist, of Berne, was sent to investigate. He reports that among the 200 inhabitants of Guttet, five have the malady in an advanced stage (one has since died), and that numerous others show suspicious symptoms.

It is reported that among the country people the disease was known to have existed in certain families in Guttet for several generations.

Mrs. James Sautler, formerly of 66 Winchester-street, will on Tuesday and Wednesday afternoons of this week receive for the first time at her new home, 181 Walmer-road, from 3.30 to 5 p.m. and afterwards on the first Friday of each month.

Thin Hair

Yes! We had noticed that your hair was looking pretty thin, and that it lacked lustre and life. But we didn't like to speak of it! Of course you know that Ayer's Hair Vigor is a regular hair-grower, makes the hair soft and smooth, gives it life and strength. This isn't the kind of hair that falls out. And, too, it keeps the scalp so clean and healthy.

J. C. Ayer & Co., Lowell, Mass.

NO MINTO CUP FOR TECUMSEHS CAPITALS WIN FIRS GAME, 4-1

Record Crowd Saw Game in Ideal Weather at Rosedale—It Was a Tie Till Near Close of the Third Quarter, When Clark Put Ball Thru His Own Goal.

Table with 3 columns: Price, Admissions, Gate. Total gate: \$3780.00

The largest crowd (probably 7000) that ever witnessed a lacrosse match in Toronto turned out to Rosedale Saturday to see Caps and Tecumsehs play the first game for the championship of the N.L.U. and the Minto Cup.

While the game was not as spectacular as it appeared, it showed more close work. Both defenses were strong, and it eventually turned into a defensive game on both sides.

On Saturday 5000 rushed the bleachers and these, with the complimentary work of the members, would bring the free list up to 1000.

The game was started a little after three, Caps getting the ball, but Tecumseh defence was so tight that to the end of the quarter it was nip and tuck, although Tecumsehs worked the ball in several times by fast combination, but missed by inches in scoring.

The game was started a little after three, Caps getting the ball, but Tecumseh defence was so tight that to the end of the quarter it was nip and tuck, although Tecumsehs worked the ball in several times by fast combination, but missed by inches in scoring.

How to Make Safe the Money in Banks

In an article in The New York American on "To Make Safe the Money in Banks," W. W. Newberry says: Do you ever worry about the safety of the money you have deposited in the bank? Do you realize that such a small sum as 45 cents per annum would insure against loss \$1000 deposited in a national bank?

We approach so closely to making absolutely safe money deposited in banks and there is so much to be gained as such a comparatively small cost annually reasonable to suppose that at no distant day the final steps will be taken and the safety of deposits made certain.

The moral effect of a bank failure, which reaches far beyond the financial sufferer, is to be dreaded more than the actual financial loss. The commercial disasters, which usually follow in its wake, are caused more by delay in the depositors receiving what is due them than by ultimate loss, which, as a matter of fact, is extremely small. In order to counteract the moral effect of a bank failure it sometimes becomes advisable for the clearing house association of a city to go to the aid of the largest financial bank or take over the assets and pay depositors of a failing one.

The annual report of the controller of the currency of December, 1905, shows the total loss to depositors in national banks since their establishment in 1833 to be less than \$3,500,000, or about 30-00 per cent. of the deposits at the time of failure. The total annual deposits for the same period were in excess of \$78,000,000,000, hence the average annual net loss was less than 1-54 of 1 per cent. of the deposits.

As previously suggested, the American Bankers' Association should act for its members and by assessment create a guaranty fund which to meet losses thru failures. Certain requirements and restrictions unquestionably would be necessary for members of the association to be admitted to its own corps of examiners, etc. Ways and means could be devised readily for the organization of a guaranty department which would be upon the mutual plan.

We have seen that the average loss in national banks is less than 1-54 of 1 per cent. of the deposits. It is impossible to obtain complete data upon which to figure loss in state banks, trust companies, etc. It would probably be safe to fix the loss in these institutions at 1-10 of 1 per cent. of the deposits. The rate should be on a sliding scale, upon a basis of risk assumed, and in proportion to assets and liabilities. It would not be a difficult matter to properly fix the rate, which should be arranged to encourage large capitalization.

In the event of a bank's closing the guaranty fund would be available instantly and the depositors paid in full at once. The receiver's return of the money to fund as assets are realized upon, a discrepancy being the case of the receiver. Reflect as to the moral effect of deposits being paid on demand regardless of a bank's condition. Would it not be better to have the guaranty fund and eliminate ruin entirely?

It is possible that some of the larger banks will urge that the guaranteeing of deposits will make the small banks as strong as they. It would make small banks as safe so far as the depositor's principal is concerned, but security of principal is not by means of a deposit considered by one in selecting a bank. A large percentage of depositors view most banks as being upon a plane as to security and select their bank for divers reasons, the personnel, acquaintance of credit, etc. Others look wholly to security, and to this class the safety of their interest will cause them to discriminate and probably arrive at about the same conclusion as at present. Unquestionably the ratio of deposits would remain approximately as they now are.

Again, the failure of a small bank hurts the large ones. Would it not have been better for banks to have been made up a purse and paid off the depositors in the last two or three weeks of their existence? Unquestionably the ratio of deposits would remain approximately as they now are.

There are two classes of people with money, and they regard banks from different points of view. One class has money in banks, the other does not. It is the class not depositing in banks which now commands attention. In this connection some statistics from the controller's report for 1905 will be of interest. On page 51 of the report the coin and other money in the United States is given at \$2,382,100,000. Of this amount \$295,200,000 is in the treasury, as assets and \$97,500,000 in all reporting banks, including national, state and private banks, and trust and loan companies, about 4 per cent. of banking power not reporting. This leaves \$1,989,400,000 in the treasury.

Estimating \$7.50 per capita as necessary for transactions requiring cash and for circulation that does not return to banks or treasury, this would have approximately \$1,000,000,000 of money unaccounted for. Distasteful as it may be, the fact remains that a large portion of the money in the country is in hiding, either in safety deposit vaults, buried, or in the proverbial stockings.

The guaranty of deposits by the national government for national banks, and by states for state banks, trust companies, etc., is advocated by some, but a greater number believe that the government already too extensively is engaged in the banking business. This, together with postal savings banks and state-owned savings banks, again being urged by the people and the daily press, would seem to indicate that the time is propitious to take up and settle this important matter.

There is much which could be said on both sides of the question of postal savings banks and state-owned savings banks. As to affording absolute protection to the savings banks, it is possible that no doubt, but should not the commercial interests be protected as well as the savings? They so closely allied that it is impossible to harm one without injuring the other. That there should be protection for both is obvious.

OTHER BANKS ARE HOSTILE TO GET ONTARIO BUSINESS

Commerce and Royal Are First to Announce Establishment of Branches in "Stricken" Places.

The business of banking may have been a slow, steady-going, ponderous sort of affair once on a time, but now it is possessed of all the energy and a grasp of the advantages of opportunities that the most active enterprises can be credited with having.

An Envyable Array of New Belts

The present popularity of the Blouse makes this, naturally, a belt season. We are showing a multiplicity of new designs, old designs also, for while fashion constantly evolves new ideas, she also revives old ones. Most of our belts show royal lavishness of adornment. Cases and counters are agglitter with jeweled and cut steel buckles, marvelously wrought; other more plain metal buckles are here, too. The materials of girdles and belts are in silks, velvets, leathers and silk elastics in various colors and widths. Some are studded with cut steel points and are masterpieces of workmanship. Flexible, fitting with trim snugness, these stunning belts are decorative adjustments to any costume. There is a wide range of prices varying, of course, with the style and quality of the buckles.

Prices from \$1.00 to \$30.00

WOMEN'S FALL BOOTS \$2.95

We have just received a special shipment of Women's High-Grain Fall Boots, that should have been received weeks ago, but rather than carry them over, we are willing to clear them out at a special price. They are made in the plain lace and Blucher cut, in all the latest American styles; all sizes; regular \$3.75 to \$5. Tuesday, a 2.95 pair.

30-INCH TRUNK \$5.25

Everyone who intends going away from home for any length of time must have a fair-sized trunk, in order to take along a few extra trunks for your visit, and for this special purpose, we are showing at the present time a strong waterproof, canvas-covered trunk, floor-bound, canvas-lined, two straps and two outside straps, strong brass clamps, lock and bolts; size 30 inch, very strong; our special price \$5.25.

SASKATOON

The most prosperous looking City of the Great West; it has everything to make it that. In 1903 the population was 150; to-day it is over 6,000—and the increase is substantial, and is to-day increasing more rapidly than for the average past. Having purchased a large block of property suitable for choice residential lots, we offer for quick sale 30 of these lots at \$100 each. No more will be sold at this figure after these are closed out. **Act TO-DAY;** to-morrow may be too late.

LAND—The Beginning of All Wealth

Farm lands bought in our Canadian Northwest now will net you double your investment in two years. We have some choice quarter sections, mostly in the famous wheat-growing districts of **Goose Lake** and **Eagle Lake**, at \$12 per acre.

For quick sale we have a block of 6,400 acres of land near Arrow River and Miniota for \$7 per acre. This price is for the block. Terms—\$2.50 per acre cash; balance in 5 equal annual payments.

We can give you land in any part of the Northwest, and the description we give you of it will be exactly as it is. Buy **to-day**, while you have a chance of obtaining the best at ground floor prices.

If you want a good sure investment, don't overlook our Canadian Northwest. Our Banks and Loan Companies are to-day making 20 per cent. out of your money, for which they pay you 3 to 4 per cent. Why not make it yourself?

The Door of Opportunity is now open. Will you not enter? We have Town Lots for sale in Edmonton, Regina, Brandon, Indian Head, and all the leading towns of the West.

NEW RECTOR AT ST. LUKE'S PREACHES HIS FIRST SERMON

Rev. A. G. H. Dicker Enters Upon His Duties—Induction Services To-Night.

At St. Luke's Church on Sunday morning, Rev. A. G. Hamilton Dicker, formerly of St. John, N.B., the newly appointed rector, preached an impressive sermon, taking as his text Gen. xxviii, 17 and 1st King vii, 57. He is a forceful speaker with a pleasing manner, speaks with a clear enunciation, and was heard in all parts of the church.

The tendency of the times, he said, was all toward the material. The completion of Solomon's temple was a notable event in the history of the world, and of the Jewish nation, yet the material was exalted above the spiritual and the overthrow came in the order of events. Wherever the spirit of God was, there was peace. He urged them to renewed consecration and to reverence in the practice of the ordinances of the church, in the practice of the choir, the weekly meetings or in any of the duties, the greatest reverence ought to characterize all their actions.

"And I know," said the rector, "that you will be true to the duties of the church and to the venerable founder whose life was an inspiration to us all."

The service yesterday was largely responsive, and was joined in with a heartiness which betokened a cordial sympathy. Ven. Archdeacon Balfour of Quebec read the lesson and the induction will take place this evening, when the Bishop of Toronto, Canon Welch and other clergy will participate.

NOW PRISONER IN FACT.

More Strict Rules for Admission of Visitors to Pope's Palace.

Rome, Oct. 14.—Because the investigation made by the head of the Vatican police by direct order of the Pope revealed the fact that thefts had been committed in the Vatican gardens within the past few months, it has now been arranged that the battalion of Papal gendarmes be increased in number so as to make possible the patrolling of the immense gardens both day and night.

Other strict measures of precaution have been adopted regarding the admission of strangers within the Vatican inclosure. Formerly it was sufficient for anyone wishing to obtain access to the Vatican to present one's self to the bronze portals and mention to the Swiss sentry duty within the doors the name of some prelate dwelling in the Vatican whom he wished to see on social or church business. This has now all been changed.

Visitors Must State Business.

More Swiss guards and an extra officer have now been detailed for sentry duty, and every one wishing to enter the palace must not only clearly state his business, but also his name and address, which information is written down on a special register. If the explanation proves satisfactory to the Swiss officer on guard the visitor is then escorted by a Papal gendarme to the apartment he wishes to visit, and when he is ready to depart the same gendarme escorts him back to the bronze portals.

No one is allowed to delay in the Court of St. Damasus or anywhere on the great staircase leading to the Papal apartments, and even the members of the families of Vatican employees are no longer allowed to go from one part of the palace to the other without the escort of a gendarme.

Only the carriages of cardinals and diplomatic envoys are permitted to enter the inner court of the Vatican, and even before they are admitted to the great gate in the rear of the palace the carriage is stopped by the Swiss sentries and its occupants closely scrutinized or questioned, unless they happen to be personally known to the officer on duty.

It is very seldom that permits are now granted to visit the Vatican gardens or the private apartments of the palace, because Pius X. dislikes very much to meet with strangers during his daily promenades thru the gardens or the Vatican halls.

An additional entrance to the museums and galleries has been provided for visitors, near the carriage entrance of the palace, and no one is allowed to enter the palace proper from that direction. Formerly visitors to the museum and galleries were allowed to enter thru the bronze portals, and thus many of them found occasion to slip unobserved past the guards and wander all thru the palace.

PERSIA'S PARLIAMENT.

Shah Hopes Constitution Will Ever Be Preserved—Health Still Poor.

London, Oct. 14.—Despatches from Teheran received in St. Petersburg give some interesting particulars of the inauguration of Persia's first parliament. The shah has made two speeches. The first dealt with the election of new deputies, and in it the shah declared that he recognized that the principal foundations of imperial power and progress rested on an alliance of the government and the people, and he had made the strengthening of this alliance the chief object of his reign. He expressed the hope that the gift of the constitution would ever be preserved.

The health of the shah is still very unsatisfactory, and at the last consultation Russian, Persian, English and French physicians were present. His majesty, however, opened the new parliament formally in persons but the speech from the throne had to be read for him. The ceremony took place in the great court of Teheran in the presence of the diplomatic corps, many high officials, army officers and the entire priesthood. The shah entered the assembly to the strains of hymnal music while the mullahs chanted prayers for the long life of his majesty.

In his speech, which was read by the governor of Teheran, the shah said that for the last eight years a constitution for Persia had been his dream and he now believed that the people were ripe for self-government. He was satisfied that they would not abuse the freedom and that parliament would give active support to the government in its efforts for the happiness, progress and power of Persia.

The speech was acclaimed with the greatest enthusiasm. In the evening Teheran was illuminated from one end to the other and the population gave itself up to rejoicing.

JUDGE STEPHEN DYING.

St. Stephen, N. B., Oct. 14.—Hon. Judge Stephen, who has been ill for a few days, is sinking fast and his physicians say he cannot live.

Of course your grocer has WINDSOR TABLE SALT.

He will send it to you always, if you specify WINDSOR.

FEVER PATIENT SUICIDES.

Englishman Climbs Out of Hospital Window and Falls to Death.

Despondent and with his mind affected from typhoid fever, Charles Gould, an Englishman, who was admitted to the General Hospital on Friday evening, committed suicide at that institution at 12.30 Sunday morning.

When the ward attendant left the room for a few moments, Gould climbed out of the fanlight over the window and dropped to the ground, a distance of about 30 feet, sustaining fatal injuries.

He had not been in Canada long and in Toronto only a few days. He was a seaman.

A widow and child are left in the old country.

SCHR. FLEETWING DAMAGED.

Ship Which Was in Distress Here, Meets With More Trouble.

Belleville, Oct. 14.—While passing thru the bay swing bridge the schooner Fleetwing collided with the piers and both bridge and vessel were badly damaged.

The Fleetwing will be remembered as the schooner which drifted into Toronto harbor last August, and which was deserted by the captain and left in charge of two sailors, who nearly starved until a passing canoeist was apprised of their plight and secured food for them. The owner then came to the city and took charge of his craft.

CAR SHORTAGE IN ONTARIO.

Business Men of Renfrew Complain That West is Favored.

Renfrew, Oct. 13.—Merchants and mill men in this town and neighboring villages are placed at disadvantage for lack of cars. Grain sold for prompt shipment has been waiting here for a fortnight because the C. P. R. cannot furnish cars. Country merchants near here, without elevators, have had to cart grain back to the barns of the farmers.

New cars emptied of freight at Renfrew have been refused for return freight, but are rushed on to the west. Cars that are secured here are old and in poor repair.

The board of trade here has been convened to deal with the question, and if necessary, the attention of the railway commission will be drawn to it.

FRUIT DAMAGE EXAGGERATED.

Nearly All Grapes Gathered and Tomatoes Are All In.

St. Catharines, Oct. 14.—The report of grape and tomato losses is unfounded. Nineteen-twentieth of the grape crop has been harvested. Only grapes near the lake are ungathered, and those are not injured, as only a slight frost occurred. The tomato crop is all gathered. Vines are not all killed in late patches.

The season on the whole has been the most prosperous the growers ever experienced.

THREE "BIGGEST" SHIPS BUILDING FOR THE NAVY.

Revelation Regarding the Swift Fighting Craft is Received With Chagrin Abroad.

New York, Oct. 14.—The Herald's London correspondent cables: Amusement unbounded has been created by the extraordinary revelations regarding the secret building of three huge, swift battleships for the British navy. It has been so unusual hitherto for the naval and military authorities of Great Britain to keep anything up their sleeve that their new policy of discreet reticence is regarded with surprise.

Sudden Death.

Bowmanville, Oct. 14.—The wife of Robert McDougall, for many years in business here, and, latterly, secretary of the high school board, died suddenly about midnight from paralysis.

Where Did You Get Your Cold? How Will You Cure It?

In the cities many can trace their first cold to the draughts in the open cars, and to not a few the first cold of the season is only the beginning of inconvenience and suffering which lasts all winter.

Besides the ordinary coughs and colds there is Bronchitis, which returns with marked regularity, and each attack leaves its victim weaker and less able to withstand pneumonia and consumption.

Bronchitis is the test for Dr. Chase's Syrup of Linseed and Turpentine, and because this medicine positively cures bronchitis and severe chest troubles you can be certain that it makes short work of ordinary coughs and colds.

It is all very well to talk of others neglecting a cold, but what about your cold? What are you taking to prevent serious developments? Are you using Dr. Chase's Syrup of Linseed and Turpentine? Do you have members of your family use it or are you satisfied to take whatever the druggist happens to offer you?

Medicine for coughs and colds should be selected with just as much care as medicines for other serious and dangerous diseases, for there is scarcely a limit to the ailments to which a neglected cold may lead.

Dr. Chase's Syrup of Linseed and Turpentine is no mere cough mixture such as is compounded in a drug store. It is not a hastily written prescription of uncertain value, but a thoroughly tested and tried medicine which has met with marvellous success as a cure for ailments of the throat, bronchial tubes and lungs.

Being pleasant to the taste, gentle and soothing in action and composed of simple ingredients of well-known value, it is especially valuable for children as a cure for croup, bronchitis, asthma, whooping cough, sore throat, coughs and colds.

The best time to use Dr. Chase's Syrup of Linseed and Turpentine is when you have a cold in the head and begin to feel a tickling in the throat. You can then head off the trouble before it reaches the bronchial tubes and lungs.

In order to be ready at this critical moment many find it advisable to always have a bottle of this medicine at hand in the family medicine chest. There is no treatment for throat and lung troubles that is so prompt and at the same time so thorough and far-reaching in action.

Dr. Chase's Syrup of Linseed and Turpentine

25 cents a bottle, family size 60 cents, at all dealers or Edmondson, Bates & Co., Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous Receipt Book author, are on every bottle.

COBALT---The Greatest Proposition in America To-day is Silver---COBALT

A COBALT OPPORTUNITY WATTS MINES, LIMITED

A SHIPPING MINE. A DIVIDEND PAYER.

The Watts Mine is a shipping mine that gives you better opportunities than any other Cobalt mine. Look at the record:

FOSTER.....	Put on the Market at \$.80	Now Selling at \$	2.75

MONTREAL.....	"	.40	"	.70

The Watts Mine is as good as any of the above and better than the majority. Only a small block of stock offered. Will be listed on the New York curb. Car of ore shipped. Car of ore ready to ship. Estimated production \$30,000 per month. Claim consists of 40 acres. Only 15 acres prospected. 25 acres yet to prospect. Seven known veins, all native silver producers. We recommend this as a first-class investment and believe it will sell at prices equally as high as the other standard properties. Wire in your subscription. The amount still to be sold is small and the price will advance.

TIMBER WOLVES PLENTIFUL.

Many Skeletons of Deer in Suburbary District Tell of Destruction.

Sudbury, Oct. 14.—Messrs. J. K. MacLennan, Frank Dennis and N. Bailey, Jr., spent a day or two last week in the country 10 miles north of Sudbury. While wandering thru the woods Mr. Bailey took a slightly different course from the others, and when about 40 yards distant, suddenly found himself in danger of being surrounded by a pack of about 25 ferocious looking timber wolves. A shot fired in that direction had the effect, however, of driving the pack to a distance, and Mr. Bailey succeeded in joining the party in safety.

Many skeletons of deer are to be found in that vicinity, where the animals have been overcome by their hungry enemies, and it will be a serious matter from the hunter's standpoint if further incursions are not offered for the destruction of the wolves. Mr. MacLennan, in his capacity of crown land agent, inspected a portion of the territory, and was surprised to find so much excellent land in such close proximity to Sudbury.

CANARY A SUICIDE.

Its Voice Failed, So It Hanged Itself. Thru Cage Wires.

Bloomfield, N. J., Oct. 14.—"Dick," a pet canary owned by Miss Florence Parkhill of Montgomery-street, suddenly committed suicide this afternoon by hanging. The bird was 10 years old and until a few months ago was possessed of as sweet a voice as one of its species ever had. It trilled from morning until darkness set in at night, and delighted all who heard it. Suddenly its tones began to waver and its attempts to whistle were painful to behold. Finally Dick was unable to make a sound. Despondent over the loss, the bird thrust its head through the wires of its cage and swung away from the perch and thus ended its life. The remains of Dick were placed in a little box and interred in a flower bed.

WENT WITH ANOTHER MAN.

And Fiance of Yours Waits for Her and Kills Her.

New York, Oct. 13.—Margaret Bradley, aged 32 years, was shot and fatally wounded by Frank Reis shortly after midnight last night at Thirty-fourth-street and Eighth-avenue. Reis, who is 45 years of age and lives in East Thirty-fourth-street, fired five times at the woman, while she was walking with another man. Reis was arrested after a struggle. For several years, according to the police, Reis had been engaged to the Bradley girl. Recently Hoffman, who boarded in the same house as Miss Bradley, frequently accompanied her to the theatre. To-night Reis visited the house and was told by the boarders that the two were at the theatre. Reis went to Eighth-avenue and waited on the corner. Shortly after midnight he saw Hoffman and Miss Bradley get out of an Eighth-avenue car, and as they started towards Ninth-avenue Reis ran behind them and shot the girl.

TORONTO OLD BOYS ABROAD.

Regina, Oct. 13.—A meeting of the Toronto Old Boys was held in the Palmer House parlor for the purpose of organization. A large number of the old boys were present and a very enthusiastic meeting was held. Officers were elected pro tem as follows: Dr. W. D. Cowan, president; C. A. Giddy, vice-president; George Sturdy, secretary. A committee consisting of MacIvor, W. C. Owen, Horace Lewis, E. J. Charlesworth and the officers were appointed to draw up a constitution and make arrangements for a banquet at an early date.

New York's Popular Train.

Leaves Toronto over the double track route at 6.10 p.m. daily, with through Pullman sleeper to New York; cafe parlor car to Buffalo, serving meals a la carte. Make reservations and secure tickets at Grand Trunk city office, northwest corner King and Yonge-streets.

Cook's Cotton Root Compound.

The great Uterine Tonic, and only safe effective Monthly Regulator on which women depend. Sold in three degrees of strength—No. 1, 2, 3. No. 2, 10 degrees stronger, 25¢. No. 3, for special cases, 50¢ per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet, address: J. J. Cook, Montreal, Que., or Toronto, Ont., formerly 174 Adelaide-st. E.

MUST REST FOR MONTHS.

Gambling on Chamberlain's Life Goes on at Lloyd's.

New York, Oct. 14.—The World continues to print sensational cablegrams from London on the condition of Jos. Chamberlain's health. To-day it says: Joseph Chamberlain's condition, which The World described recently, is being understood here now. Mr. Chamberlain's secretary writes that he "is improving steadily, but his medical adviser imperatively orders a complete rest for several months." The attempt to conceal the true character of Mr. Chamberlain's illness from the British public is incredible if he is ever seen in public again. Gambling on his chance for life is going on at Lloyd's, where ten guineas per cent. must be paid to insure him for six months, fifteen guineas for a year.

QUEEN'S BIGGEST YEAR.

Registration Will Total Over 1500—New "Gym" Nearly Ready.

Kingston, Oct. 13.—(Special)—The splendid new gymnasium of Queen's College, which is being erected by the Alma Mater Society, is rapidly nearing completion. Like all the buildings of Queen's, the "gym" is a handsome and massive stone structure. The cost, which will be in the neighborhood of \$30,000, will be borne by the students, who subscribed most generously to the laudable cause. The freshman class which is now becoming accustomed to university life is the largest in the annals of Queen's, and it is thought that the registration for the present session will easily reach the 1600 mark, as many of the students have not yet returned from the scene of their summer employment. The board of governors of the Kingston General Hospital have renewed their generous students' offer concerning hospital privileges in cases of illness. All purchasing hospital tickets for \$1 are entitled to care and treatment at the institution. Mr. A. E. Bosk, who captured the medal in last year's honor Latin examination, has assumed the tutorage of Latin, and H. A. Connolly M.A., has been appointed fellow in English. With the opening of the present session, the faculty welcomes to its ranks several new members, Prof. Anderson, Prof. Warren and Prof. Mitchell in the faculty of arts, and Prof. Clark and Willhoit in the faculty of practical science.

"PACK TRAIN" EXPERIMENT.

Will Be Made by G.G.B. Troopers for Kitchener's Benefit.

The feature of the wild west show to be given by the Governor-General's Body Guard at the armories Saturday night, will be the demonstration of the utility of Colonel Merritt's pack saddle for cavalry mobility purposes. Four mounted men with a pack horse will leave Toronto Friday night for Hamilton and will return from there in time to be present at the show when the pack train will be given a demonstration, the whole being for the benefit of Capt. Wheeler of the staff of general Lord Kitchener of India, who is now in the city. A championship basket ball game between the east and west school girls will take place before the show opens. Sketches from western frontier life, such as the "Horse Thief," the "Pony Express" and other wild west features will provide one of the best of amateur shows.

Voting for Educational Council.

About 6000 votes are anticipated in the election for the advisory council of the education department. There are 8300 teachers in the province, 3000 of whom hold temporary certificates. The others have four votes each. There is one lady among the twenty public school candidates. Two members are to be elected by the high school teachers, and one by the separate school teachers. There are only two candidates for the latter position. Six candidates will contest the inspector's representation.

Silver Leaf Directors Meet.

A meeting of the Silver Leaf Mining Company's directors was held in the office of the company, Confederation Life Building, Friday, Sept. 13, and J. Hawley Spencer, secretary of the company, left for New York Friday evening with copies of resolutions. It is expected that arrangements for the removal of the transfer office to Toronto will be made at once.

Abundance of Moose in Temagami.

Those who know advise that this will be the best season for big game in the Highlands of Ontario, especially in Temagami, where moose and deer abound. Reached only via the Grand Trunk Railway. Call at city office for full particulars.

ELOPERS RECEIVED IN ARMS

Young Fairbanks and Bride to Have Formal Wedding.

Pittsburg, Pa., Oct. 14.—Frederick Cole Fairbanks, son of the vice-president of the United States, who eloped to Steubenville, Ohio, with Miss Nellie Scott, daughter of James Scott, of this city, returned here to-day with his bride. They had been to Indianapolis on a brief visit to the parents of young Fairbanks, and it is said they were cordially received. According to a friend of the Scott family, another ceremony will be performed after the return of the young couple from abroad. The Scott family wants a wedding ceremony with the young people have consented. The Vice-President and Mrs. Fairbanks will attend, and the president and Mrs. Roosevelt will be invited. It was partly to escape a big wedding that the young couple eloped.

STICK DRIVEN IN BOY'S BRAIN

Holding Belt in Place, When Wheel Caught It.

Fort William, Oct. 13.—William Williamson, 18 years of age, residing near Murrilo, is dead here; the victim of a peculiar accident. He was holding the belt on a wood saw in place with a short stick when the stick caught in a wheel and was thrown against the boy's head with such force that it pierced his brain. He died six hours later.

OFFENCE TO WORK OVERTIME

Recent Wreck Near Guelph to Spur on Legislators.

Guelph, Oct. 14.—(Special)—As a result of the recent railway wreck near here, the Guelph Trades and Labor Council will ask H. Guthrie, M.P., and J. E. Downey, M.L.A., to introduce legislation making an offence for employes of railroads to work more than twelve hours in any one day, or more than seventy hours a week. Victoria, B.C., Oct. 14.—(Special)—The wife of the bookkeeper at the Owen Sound Portland Cement Company's works at that place. Mrs. Henderson was boiling a mixture of turpentine and beeswax on the stove when it caught fire and in attempting to throw the dish out of a window the flames ignited her clothing. She was badly burned and died after several hours of intense suffering.

WOMAN FATALLY BURNED.

Was Boiling Turpentine and Beeswax When Clothing Ignited.

Owen Sound, Oct. 14.—A sad fatality occurred Friday at Shawloo Lake, the victim being Mrs. W. A. Henderson, wife of the bookkeeper at the Owen Sound Portland Cement Company's works at that place. Mrs. Henderson was boiling a mixture of turpentine and beeswax on the stove when it caught fire and in attempting to throw the dish out of a window the flames ignited her clothing. She was badly burned and died after several hours of intense suffering.

STRIKE STOPS SMELTER.

Trail Plant Will Close Down Owing to Crew's Next Labor Troubles.

Rosland, B.C., Oct. 13.—The effects of the strike of coal miners of Crow's Nest Pass Coal Company are beginning to be felt here in reductions of shipments, which this week are the lowest in years. The Trail smelter has notified the Rosland Company that it will receive no more ore from the Rosland after to-day, and the smelting plant at Trail will close down to-morrow or on Monday. The Rosland, however, will ship its ore to North Port for a considerable time yet, and store it in the bins and yards there till a supply of coke can be obtained. The Rosland is taking full advantage of the pull to repair shafts and to break down ore. Centre Star will for a considerable period keep its forces of men at work in developing and in installing new hot air compressor plant and other work, while Trail smelter intends to keep most of its men at work in making improvements to plant.

Shipments from Rosland for the week ending Oct. 13, 1906, were: Le Roi, 24,000; Rosland, 25,000; total for week, 49,000, and for year, 2,435,000. The receipts of ore at the Consolidated Company's smelter at Trail for the week, 4350 tons. In addition to ore sent from Rosland, the following mines sent shipments: St. Eugene, 750; Ymir, near Ymir, 1000; Kamloops, 150; Providence, Greenwood, 121; Snow shoe, 745 tons.

**FORTUNE IN
GOALS**

Call or write Owen J. B. Yearsley, 61-62 Confederation Life Building, Toronto, and he will tell you of a coal proposition in British Columbia which is now being floated with success.

Put your savings in BRITISH COLUMBIA AMALGAMATED COAL. The investment will give a return of a hundred fold in a short time, and provide for you a source of income that will last as long as you live, and increase in value from year to year.

I have only 100,000 shares to sell at the introductory price of 25c per share. This is the first allotment offered to the public, and it will soon be gone.

British Columbia Amalgamated Coal
Is the best and safest investment on the market to-day, and recommended by bankers and merchants.

A Second Crow's Nest

The Crow's Nest Pass Coal Company was organized in British Columbia in the year 1896, ten years ago. It was the only coal stock that had ever been offered to the public at large in the Dominion of Canada up to that time. The stock was put on the market in the spring of 1896 and offered to the people at ten cents a share. This first allotment was sold to school teachers, clerks, merchants, doctors, servant girls, carpenters and men and women in all walks of life. This brought about the most cheering and gratifying results, and poor men awoke to find themselves independently rich from a small investment. For \$100 one thousand shares were secured, and to-day this amount of stock has a cash valuation of \$285,000, and last year 1000 shares brought a dividend of \$10,000 (\$10.00 per share). Coal experts and engineers who have seen our properties and those of the Crow's Nest are fully agreed that ours are as good if not better, for the reason that we are 500 miles nearer tidewater (Pacific Coast), and our coal is superior for steam, domestic and smelting purposes and fully equal for foundry and smelters' coke. Our Company controls 17,500 acres of coal land, estimated by coal experts to contain one billion four hundred million tons of coal, such a vast quantity that the supply would last 400 years at an output of 10,000 tons a day. One engineer has estimated that our land on Coldwater River has a net valuation of one billion five hundred million dollars, with the coal in the ground as a basis of calculation. Our shares will be increasing in value from year to year the same as has been the case with the Crow's Nest Pass Coal Company's stock. In the year of 1900 those shares were worth \$36.00 from the dividend it then paid. In 1903 it had reached the \$100 mark, and in the fall of the same year it sold for \$125, and to-day its market price is \$285.

For \$250 you can now buy 1000 shares of BRITISH COLUMBIA AMALGAMATED COAL, which in a few years will pay you yearly in revenue more than you can earn in any capacity as a salaried man. For \$100 you can secure 400 shares, and so on.

Please call at my office or write for prospectus and reports, etc. If you want to secure a block of stock of the first allotment at 25c per share I advise you to act quickly, as I have already disposed of more than one-half of the first 100,000 shares. The next issue will be sold at an advance of price.

**STREETRY. WANTS TO KNOW
MORE ABOUT INDICTMENT**

**Judge Winchester Grants Request
That Further Particulars
Be Provided.**

The Toronto Street Railway Co. were on Saturday morning arraigned before Judge Winchester on the charge of maintaining a nuisance, by allowing the tracks on Queen and King-streets to be out of repair. The company was represented by Mr. E. H. Dewart, K.C., and Mr. D. L. McCarthy, who endeavored to plead to the accusation and asked Crown Attorney Drayton for more particulars in the charge. Particulars are asked in what respect the tracks on Queen and King-streets have been and are in such a condition to cause danger to human life and property; what portions of the tracks on these streets have been and are in such a condition as to cause danger to human life and property; what length of time the tracks have been in the dangerous condition alleged; in what respect the company have neglected and omitted to repair, replace and care for the tracks on the two streets, and what portions are in this condition. Particulars of any lives, want of safety, loss of health, loss of property and loss of comfort, which the public have suffered because of the alleged neglect are also asked.

Mr. Dewart said the indictment had been laid both under the code and under the common law and was so general that particulars were needed. At the instance apparently of a municipal councillor who desired notoriety the indictment had been brought in at the last of the sessions when the petit jury had been discharged. It was impossible for his clients to have a discovery of the facts on which the indictment was based. He submitted that the sessions was but a court of investigation in this case, as was the police court for the sessions in many cases, and a transfer to the high court for trial was asked.

The only information the accused

possessed was that gleaned from the newspapers. The object of a prosecution alleging a nuisance was to secure the prompt abatement of the nuisance if it existed and the naming of whoever was responsible for its existence. The Toronto Railway was here being held up for two months at the instance of a controller who himself should be indicted as being partially responsible for the condition in which the city's streets were to-day.

There was a legal principle at stake in these negotiations. The company was willing to do its share, but until the city had attended to the pavement and the substructure on which the rails were laid nothing could be done. Particulars were ordered by his honor to be given the accused by next Wednesday, that they might plead on Wednesday.

"As for sending the case to the assizes, I don't intend to do anything of the kind," said the judge. "The crown has nothing to do with the agreement between the city and the company, as far as this indictment is concerned. When the evidence was laid before me that the lives of our citizens were being endangered by the running of the cars over these rails, I sent it to the grand jury. I didn't consider it proper to keep the petit jury over, and in the meantime if the nuisance is abated there is any nuisance, the crown might be more kindly disposed."

"It may be the nuisance is one for which we are not liable," said Mr. Dewart. "The condition of the rails is due to the crass negligence of the city. If you run your cars over them you are liable."

"We're bound to run our cars," said Mr. Dewart.

"Not to the danger of the lives of the people," returned the judge.

At Mr. Dewart's pressing request his honor changed the date for pleading till next Saturday instead of Wednesday.

FURNITURE SCORCHED.
An incendiary got busy in the early hours of Sunday. At 1 a. m. an alarm was sent in from box 142 for a fire in a two storey rough-cast stable in rear of 122 St. Patrick-street. The building was damaged to the extent of \$150 and furniture stored there to a similar amount.

RICH VEIN STRUCK.
A number of mining men yesterday returned from Cobalt who reached silver had been struck a rich vein of the Silver Queen Mining Company. They were unable to give any particulars.

**WHEAT OPTIONS HIGHER
ON ALL EXCHANGES**

**Strong Market on Saturday at
Chicago—Cables Are Also
Firm and Higher.**

World Office,
Saturday Evening, Oct. 13.
Liverpool wheat futures closed to-day 1/4 to 3/4 higher than Friday, and corn futures unchanged to 1/4 higher.
Chicago, September wheat closed 1/2 higher than Friday, September corn 1/2 higher, and September oats unchanged.
Chicago car lots range from \$1.42 to \$1.52. Corn, 312, 190, Oats, 247, 56.
824, 784, 784, 784, 784, 784, 784, 784.
Northwest estimates world's wheat crop for the week at 10,400,000, against 11,050,000 last week.
India wheat shipments this week, 238,000; last week, 215,000; last year, 204,000.
Australia, 250,000, 154,000, 125,000.

ST. LAWRENCE MARKET.
Receipts of farm produce were 1400 bushels of grain, 10 loads of hay, many loads of vegetables, apples, potatoes, with a fair supply of butter, eggs and poultry on the market.
Wheat—One hundred bushels of fall at \$1.42.
Barley—Five hundred bushels at \$1.20 to \$1.30.
Oats—Eight hundred bushels at \$1.00 to \$1.10.
Hay—Twenty loads sold at \$11 to \$13 per ton.
Potatoes—Prices easy at 60c to 70c per bag by the load from farmers' wagons.
Apples—Price range from \$1 to \$2 per barrel, and some greenings sold at \$200 per barrel.
Hogs—Prices steady at about \$9.25 to \$9.50, with an occasional lot at \$9.75 per cwt.
Butter—Prices firm at 25c to 30c per lb, the bulk selling at 28c to 29c, but prime lots sold readily to special customers at 30c.
Eggs—Prime lots of new-laid, 40c for non-purposes, brought 50c per dozen, but the bulk sold 42c to 43c per dozen.
Poultry—Prices ruled steady to firm at following quotations: Turkey, 18c to 20c for 10 lbs; geese, 10c to 11c per lb; ducks, 11c to 14c, with a few extra choice pairs at 15c per lb; chickens, 10c to 12c per lb, 1/2, 3/4, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50.

Liverpool Grain and Produce.
Liverpool, Oct. 13.—Wheat—Spot quiet; No. 2 red winter wheat, 50s; No. 1, 51s; No. 3, 52s; No. 4, 53s; No. 5, 54s; No. 6, 55s; No. 7, 56s; No. 8, 57s; No. 9, 58s; No. 10, 59s; No. 11, 60s; No. 12, 61s; CAR NEARLY GOES OVER BRIDGE PASSENGERS GET A BAD SCORE

Repairs Under Way to Gerrard-street Bridge Leave it in a Rather Dangerous Condition—Barricade Knocked Over.

The derailing of a street car last night on the Gerrard-street bridge, the planking of which is undergoing reconstruction, was not without a fair spice of danger to the motorman, conductor and half a dozen passengers on board.

Only a single line of tracks crossing the bridge is available for use at present. The devil-strip and the south line of tracks are being replanked, and towards the east end of the bridge these planks are lying loosely in position, not having been wedged closely together and nailed down.

ing down the incline from Broadview-avenue about 3.30 p.m., rattled on to the bridge at a fair rate of speed. Then somehow or other the wheels skidded and the car plunged heavily upon the makeshift planks, butting into the barricade of heavy scantlings and toppling them over with a resounding crash. It was an exciting moment for the passengers, who, in the dark, were unaware of just what had happened.

It was seen that the car had left the tracks several feet and was lurching over towards the gap in the bridge, and congratulations were offered all round on the narrowness of the escape.

Efforts were made to move the car, and the result was that the upper planks gave way with a sudden crash, the car sinking down to the level of the wheels. It was seen that the job on hand was a stiff one, and the King-street car barns were phoned to send up a crew of "wreckers." It was after 11 p.m. when the car was repinned on the tracks by means of jacking.

The news of the mishap spread rapidly, and some reports had it that three or more persons had been killed. Hundreds of people were attracted to the spot.

TORONTO ORGANIST INVITED TO COMPETE IN PITTSBURGH

Arthur Ingham May Win Position of Organist at Famous Carnegie Hall.

A Toronto organist has been recognized as among the world's foremost in his profession.

On Saturday Arthur Ingham, who last week accepted the position of organist at Central Methodist Church, received a letter from the committee on music of the trustees of the Carnegie library at Pittsburgh, inviting him to become a competitor for the position of organist of the music hall in connection with the Carnegie library there.

It is explained that the duties of the position would require bi-weekly Saturday evenings and Sunday afternoon recitals during eight months of the year, from November to June, and that, during the spring months, lectures would be required.

In addition to the salary of \$4000, there is eligibility for the position of organist in a prominent church at \$1000 a year, while the social engagements would also prove numerous and remunerative.

The position of organist there is one of the most coveted in the world, and was held originally by Frederick Archer, the noted English musician, more recently by Edwin Lemare, who has given recitals in Toronto.

Mr. Ingham was born at Bradford, England, March 18, 1867. He studied the piano, organ and composition, under Charles Hallé, W. T. Best, and Dr. W. Cresser, organist of St. James' Chapel Royal, London, England, respectively.

Mr. Ingham began his career as an organist at the age of fourteen years, having been elected after keen competition, organist of Eocleshill Wesleyan Church, Bradford. He subsequently held the important position of organist and choir director of the Church of St. Mary Magdalene, Bradford, for a period of twelve years, where he gave his famous series of organ concerts accompanied by full orchestra of seventy instrumentalists, performing the various organ concertos of Handel, Prout, Gullmaut, etc. In 1891 Mr. Ingham was elected member of the council of the Incorporated Society of Musicians of Great Britain.

In 1901 he was invited to fill the important positions of organist and choir director of the Scottish Rite Masonic Cathedral, and of the Second Presbyterian Church, St. Louis, Mo., where he concluded a fine series of fifty organ concertos, conceded to be the most artistic ever given in the middle west. Mr. Ingham came to Toronto in 1904, and inaugurated the new organ at the Church of the Redeemer, and of the College-street Baptist Church. He is unquestionably one of the foremost concert organists in America, and was one of the foremost organists at the St. Louis World's Fair.

He is asked to give his concert in Pittsburgh Oct. 27-28 if possible.

DADBOYS WARNED AGAINST ACTING LIKE PUBLIC MEN

Insurance and Bribery Revelations a Lesson for Industrial School inmates.

The new "Beverly Jones Cottage" which has recently been added to the buildings of the Victoria Industrial School, was formally opened by His Honor, the Mayor, on Saturday afternoon.

The complete cost \$21,000 and is the finest of its kind on the continent.

It is fitted with every convenience and every other branch of the largest and oldest boys in the institution, is fitted with every convenience and every other branch of the largest and oldest boys in the institution, is fitted with every convenience and every other branch of the largest and oldest boys in the institution.

In his opening remarks the chairman, Stapleton Caldecott, spoke very highly of the work the institution was doing in training the boys and entered a strong protest against the corruption recently exposed in the London brewery and insurance investigations, declaring emphatically that those who had practiced such principles should be behind prison bars.

He emphasized the necessity of inculcating the youth of the country with the higher ideals of Christian citizenship, so that when they come to the front they will be able to exercise their franchise "such base practices" would be next to impossible.

Lieutenant-governor Clark also referred to the excellent work done by the school in the past. He deemed it one of the greatest powers for good in the country today. The prominence given to Bible teaching was most refreshing. This would accomplish more toward rearing a good class of men than could be desired, but he would not venture a comparison as to which of the two congregations he preferred. He would always retain the fondest memories of Toronto.

SIMPSON COMPANY LIMITED

Victor, the Simpson Shoe for Men

Perhaps the best argument in favor of the Victor lies in the fact that year after year Victor wearers renew their allegiance. Ask a man who wears a pair of Victors how he likes them, and the chances are he will tell you he's worn no other brand of shoe for several years.

It's a good shoe—the Victor. You ought to try a pair yourself, this fall.

A New Shipment of Victor Boots

200 Pairs of Men's Victor Boots, vici kid, heavy soles, dull mat top, blucher style, Goodyear welt, new shape toe, all sizes and widths, \$5.00 value, for... 3.50
