ORCHARD SHEDS TEARS AT PRISONER BREAKS DOWN IN WITNESS BOX

Wanted to Confess and Make Peace With His Maker—Not to Have Another Man Suffer for His Crimes Reason for Taking Stand.

HIDDEN HAND OF DETECTIVE SOUGHT FOR BY DEFENCE

BOISE, Idaho, June 13.—The lawyers who are fighting to save the life of William D. Hayward and the good name of the Western Federation of Miners made their strongest appeal upon the character and testimony of Harry Orchard today.

Orchard's endurance failed when they recited to him the story of David and Goliath.

Why He Confessed.

And here Orchard gave a remarkable explanation of the motives that impelled him to confess.

Where Inspiration Came From.

When the defence suggested that Orchard did not get the references to his duty to society, that and himself, directly from McParland or any other person.

When they tried to show him a pamphlet, peddled here-like prisoner feed from the table of the warden, addressed as "Harry" by Gov. Gooding.

PRESBYTERIAN'S SHIPMENT SEARCHED AT THOROLO

Ask Him to Become Agent for Moral Reform—Mr. Gandier's Appointment.

MONTRÉAL, June 13.—(Special).—Another theological college was given birth today by the action of the Presbyterian General Assembly.

Want Mr. Shearer.

Rev. J. G. Shearer was asked to accept position of agent of the temperance, moral and social reform committee.

Principal Patrick had some difficulty in carrying through his report on special ordinations for ministers, evangelists and others.

Rev. G. A. Wilson accepted the superintendent of the home missions in British Columbia.

Rev. Dr. Pidgeon was appointed convener of the committee on temperance, moral and social reform.

Rev. J. C. Robertson, secretary of the Sunday school board, had his salary raised to \$2000.

Principal Gordon presented the report on biblical instruction in the public schools, which was adopted.

This was concluded by the joint committee of the Church of England and the Methodist Church.

A Name for a New City

The World wants to present the twin Canadian cities of Port Arthur and Fort William with a single name for that splendid new emporium of greater Canada that now sits on the vigorous northern shore of the greatest lake on the globe.

CLEANER POLITICS DEMANDED BY THE SYNOD

Anglican Clergy Should Abandon Generalities and Deal with Abuses—Some Warm Discussions.

"Clergymen are really not in practical touch with the everyday needs and conditions of their people," asserted N. F. Davidson, at the morning sessions of the Anglican Synod yesterday.

Present ideal is low.

In supporting the resolution Hon. S. H. Blake, K.C., repeated the oft-quoted ideal of a successful life is so low.

W. H. Hoyle, M.L.A., asserted the existence of a very intimate relation between church and state.

Racing in Rain and Sunshine Hamilton and Montreal Tracks

Three Favorites, Two Second Choices and Showman at Larikin Beat Columbia Lad in \$1000 Kindergarten Stake at Blue Bonnets.

HAMILTON, June 13.—(Special).—Fishes kept up their average race to-day, three of them again finishing in front. Sally Suter, Calorahatchee and Solon Shingle, the other winners being the second choices Aquiline and St. Joseph, and Showman and Cluel Turney fell thru at long odds. A drizzling rain fell thru the afternoon, but not sufficiently heavy to change the condition of the track. Scratches reduced the fields in the fourth and fifth races to three each.

The start in the stake event was an unfortunate affair and spoiled the chances of the favorite entirely. The barrier rose as Aquiline raced up, the other two being left flat-footed. Marlin's mount had good five-lengths before Cluel Turney got going, and thus they finished, Princess Louise making a bid for the place. There was strong support on two, some especially with commissions going on the winner just before Aquiline dodged for the barrier. The steeplechase was quite an interesting affair. Calorahatchee, Bilberry and Frank Somers were all backed at short odds, while there was also considerable play on the other three. It was not Frank Somers' day, and he was first to make his ride. Golden Way lagged behind and refused just before Olnet. The other three raced together, and a fine finish seemed sure. Going the last turn, Bilberry's hind legs on his hind leg loosened and flapped around dangerously. The favorite had ten lengths entering the flag, but Carter retained the lead, while Judge Carter had to do his best to beat the King's plater and his flying tail.

Showman stood the drive best with Bye-Bye II, in the first race, and won by a nose, Taunt a bang-up third. The defeat of the favorite left a "barrel" in the race. A big field of eleven maidens faced the starter in the third, that went to Sally Suter, Loretta Mack second, both coming from behind. Lambery, favorite, took the show because he got off in front. This was a great betting race, and remarkable for the number of winners. Blacklock, Nettle Carra, Reveal and the favorite were all well supported to win.

Da Thorpe made the pace in the long event, and kept in front till well up the stretch, when Solon Shingle romped past. The mile on Blue Bonnets was also finished third. The public scraped again in the fifth race, but the drive was not so strong as in the fourth. High Bear, Hand or Plearon, the Daily runner was off in a nice position and stayed in front all round. Secret beat Blitze and got an opening on the inside, and would probably have done so on a dry track.

Three short sprints, a seven furlong dash, and two distance races make up the card for to-morrow.

A WORD TO DR. FALCONER. Dr. Falconer, Dr. Falconer wishes you success as president of Toronto University. Do you hold up your hands and steer your feet from pitfalls. You are about to tread upon boggy ground; beware the guides you choose.

Already you have made one mistake, not irremediable. Your introduction to the press of this city took place in the office of the Rev. J. A. Macdonald, editor of The Globe. It was kind of the Rev. J. A. Macdonald to take you under his wing, but it was not tactful. As president of Toronto University, your place was in university halls and there the press and the people should have made your acquaintance. As it is, you may be looked upon as the Rev. J. A. Macdonald's man; in which case, it were well for you to pray to be delivered from your friends.

From a distance, The World has seen you, Dr. Falconer, and we thought we detected much of the cleric about you. It may have been your associates or your garb or your manner, that impelled the thought. Clothes do not make the man, but they do proclaim the cleric. Not as a cleric must you approach your duties, but as a man holding high the torch of truth. We are touchy regarding our religious beliefs, and the torch held low may precipitate an explosion. Sometimes, even the cut of a coat is an offence. Shall we change our tailor, Dr. Falconer?

Many men will come to advise you, Dr. Falconer, then put on the whole armor of isolation. Beware of the man, whether professor or ordinary citizen, who tries to solve your problem for you. Beware of appearing to side too much with any one faction of university builders, and the factions are legion. You are human and you will be known by the company you keep. Yet you must lead your ear aside to the faithful and the faithful. How shall you divide the sheep from the goats? That is your problem. You will not go wrong by taking former President Loudon as your chief counselor and Professor Hutton as your tutor. These two know the university, and its progress is their constant, unselfish ambition.

Germ-bearing humans cluster about Toronto University, Dr. Falconer. Not all are harmful. None is innocent. But too long exposure to any one is fatal. Keep an eye open for the Wright germ as well as the Wrong germ. Germs that have the family name of Mac are pestiferous, but under the microscope you may find security. One of long activity is the Mavor germ, but the virulence of its attacks is lessening. In an inner chamber of University College you will come across the Fraser germ. Great stories are told of its ravages, but you needn't believe them all. Still, don't expose yourself needlessly. When you come face to face with the Macdonald germ, or the Flavelle germ, or the Mulock germ or the Hoskin germ, flee for your life. But if you are ever pursued by the Greek Letter germ, use a club.

From these germs there is only one absolute security, Dr. Falconer; and that is the isolation hospital. Until you become acclimatized, shut your-

self up in the university tower and disinfect every friend, every news-bearer and every bit of information. Demote yourself of the trappings that on in the past. Acquit yourself as a man, unswayed by sentiment, physical, mental, moral or social. Your problem must be solved by you, alone. Only in splendid isolation will the solution come, and come it will if you are THE MAN.

Not by outward show, not by exposure to the germ-bearer, but by playing to the boys who attend the university, will the president come to his own.

SUNDAY MUSIC. With the desire to secure for every citizen of Ontario the benefit of that weekly day of rest which, no less than slightly sleep, knits up the ravaged sieve of care, there cannot be other than complete sympathy. The demand that only such Sunday labor be exacted from servants and employes as the complexity of modern civilization renders absolutely necessary for the common good is just and reasonable one. But at the same time the individual freedom of every citizen must be respected, and only restricted when its arbitrary exercise trenches on the equal rights and privileges of his fellows. Nor is it wise or prudent to endeavor to impose upon the community at large observances, however ideal or praiseworthy their nature, merely because they commend themselves to advanced religious sentiment. Errors of this nature inevitably bring their own retribution, immediately in habitual evasion of the law and ultimately in a revulsion of feeling that destroys self-respecting liberty and ends in a license hurtful both to character and to public morals.

Recently the board of control turned down a request, preferred by the National Sunday League, for permission to provide Sunday music in the city parks. The performers were willing to give their services voluntarily and gratuitously, and any objection on the ground of hired labor was thus obviated. It is not clear on what ground the request was refused, the published reports suggesting that difficulty was found in limiting the numbers to "sacred" music, while Mayor Coatsworth offers in explanation the statement that under an existing by-law the Sunday "assemblies" of citizens in the parks is prohibited. As matter of fact the citizens do assemble in the parks by thousands, and it appears a somewhat strained interpretation of the rule intended to prevent the holding of public meetings, to extend its operation to the provision of Sunday music. The other objection, based on the supposed distinction between "sacred" and "secular" music, is quite untenable in the case of instrumental renderings, and in any event could be easily overcome.

It has been said that the only music which cannot be associated with any but religious ideas is the church music of the early Christians, commonly called Gregorian or plain song, akin to oratorio recitative. On the other hand, music, written in dance rhythms, and possibly also in its origin connected with religious observances, may now be held to bear a secular character. Apart from these, music knows inherently nothing of sacred or secular. The Salvation Army has adapted the music of secular songs to its hymns, and no objection can be taken. Voluntary are played every Sunday in our churches which are not "sacred" in any other sense than their own uplifting tendency. How in these days any reasonable being can object to the public performance on Sunday of high-class music is beyond comprehension.

"Music," said Luther, "is a fair and glorious gift from God. I would not for all the world renounce my humble share in music." Halvey declared that "Music is an art that God has given us, in which the voices of all nations may unite their prayers in one harmonious rhythm." Carlyle wrote that "Music is a kind of inarticulate, unfathomable speech, which leads us to the edge of the infinite and lets us for moments gaze into it." And we might quote John Henry Newman's magnificent eulogy tribute to the power and influence of music. As a potent and altogether admirable counter-attraction to other out-of-door methods of spending the unoccupied hours of our summer Sundays, music, far from being slighted and condemned, should be encouraged and welcomed. On many grounds it is to be regretted that the offer of the Rational Sunday League, properly safeguarded if that be necessary, was refused.

NO SECRET OF LONGEVITY. LONDON, June 13.—Goldwin Smith told a friend who has returned from Canada that he had no secret of longevity to impart.

He never observed any particular rules of diet except moderation; I always avoided working late at nights, and have taken a good deal of open air exercise.

"I perhaps owe something to having been in early boyhood at a school where the work was light."

Fatal Street Car Accident. VANCOUVER, June 3.—As a result of a head-on collision at Horseshoe Curve, on the electric railway, J. McCull, Steveston, was killed.

The injured are George E. Stevenson, J. Lefont, William Byron, an unknown Chinaman and some Japanese. Both cars were badly smashed. Neglect in obeying orders is said to have been the cause of the wreck.

CASTORIA. The Kind You Have Always Bought Bears the Signature of

Attention is called to the notice that Edward A. Kimball, C.S.D., of Chicago, an authorized lecturer on Christian Science, will deliver a lecture on the apparently new phase of religious faith on Sunday, June 23, at 3 p.m., in Massey Hall. The lecturer is free. Mr. Kimball is an able platform speaker, a profound thinker who takes nothing for granted, and can readily clear away the misconceptions of Christian Science sometimes entertained by unprejudiced thinkers.

APPOINTMENTS MADE TO HIGH SCHOOL STAFF

Principal Embree's Recommendations Approved by School Management Committee.

Appointments to the high school staff as recommended by Senior Principal Embree were approved by the management committee of the board of education yesterday.

W. G. Anderson, B.A., of Woodstock; J. M. McKinley, B.A., of North Bay, and J. J. Bailey, of London, holding the first-class certificate qualification for the respective appointments. While no positive understanding exists, it is understood that the appointments will be to Jameson-avenue and Harbord Collegiate, and the technical school, respectively.

The committee also approved of the recommendation that G. W. Keith, B.A., of Richmond Hill, should be assigned to classes in September as may be required. The committee also approved of the recommendation that the teaching staff of Manning-avenue public school, Miss M. M. Johnson and Miss E. Matheson are recommended to be retained for the coming year, and awarded to Joseph Johnson.

OBITUARY. Captain Rufus Skinner. Capt. Rufus Skinner died early on Thursday morning at his late residence, 84 O'Hara-avenue. He had been a resident of the city for over sixty years.

For a number of years he conducted a grocery business on Yonge-street, and amassed a comfortable competency, retiring on his business several years ago. Until a couple of weeks ago he was in comparatively good health, but was stricken with organic trouble, which, owing to advanced age, terminated in his death. He was widely known, and highly respected, being a member of the Pioneer and Veterans societies, as well as a member of York Chapter, R.A.M., and an Orangeman. He served during the Fenian Raid and was gassed in the latter part of the war. The funeral will take place on Saturday at 2 o'clock, from his late home, and will be under the auspices of the Masonic Order. The deceased leaves a family of three sons and one daughter, as follows: Mr. Alfred Skinner, Mr. Clair Skinner, and Mrs. T. M. Humble of this city and Mr. Charles Skinner of Buffalo, Messrs. Abraham and Isaac Skinner of New York. Mrs. Skinner pre-deceased the late Capt. Skinner about five years.

Mrs. C. L. Kliner. Priscilla Jane, wife of Charles Lloyd Kliner, died Wednesday at 240 Coleridge-street, aged 74 years. Her husband was George Frederick Starr Gardner, for many years sergeant-at-arms of the New Brunswick legislature.

John Kane. John Kane, sixty years a resident of Toronto, died Wednesday on his home, 181 Jarvis-street, in his 96th year. He was born in Galway, Ireland, and came to Toronto when a young man.

James McIlwraith. James G. McIlwraith, 343 East Roxborough-street, died after a brief illness. He was born in Ballintrae, Scotland, 73 years ago, and lived in Hamilton, N.Y., for many years. He has three sons and two daughters survive.

William R. Elliott. Having served with Capt. Stairs' Halifax Company in the Canadian contingent to South Africa, thru all the notable engagements, Mr. Elliott, who was a member of the 1st Battalion, 2nd Brigade, was killed at the battle of Paardeburg, where he was shot through the head. The funeral takes place to-morrow at 2 p.m. to Humbervale Cemetery.

DISCUSS BAY STREET VERDICT. Crown Attorney Drayton Confers With Ontario Law Department.

Deputy Attorney-General Cartwright and Crown Attorney Drayton had a long discussion yesterday over the verdict of the coroner's jury on the accident at the Bay-street crossing, in which the voices of all nations may unite their prayers in one harmonious rhythm." Carlyle wrote that "Music is a kind of inarticulate, unfathomable speech, which leads us to the edge of the infinite and lets us for moments gaze into it." And we might quote John Henry Newman's magnificent eulogy tribute to the power and influence of music. As a potent and altogether admirable counter-attraction to other out-of-door methods of spending the unoccupied hours of our summer Sundays, music, far from being slighted and condemned, should be encouraged and welcomed. On many grounds it is to be regretted that the offer of the Rational Sunday League, properly safeguarded if that be necessary, was refused.

NO SECRET OF LONGEVITY. LONDON, June 13.—Goldwin Smith told a friend who has returned from Canada that he had no secret of longevity to impart.

He never observed any particular rules of diet except moderation; I always avoided working late at nights, and have taken a good deal of open air exercise.

"I perhaps owe something to having been in early boyhood at a school where the work was light."

Fatal Street Car Accident. VANCOUVER, June 3.—As a result of a head-on collision at Horseshoe Curve, on the electric railway, J. McCull, Steveston, was killed.

The injured are George E. Stevenson, J. Lefont, William Byron, an unknown Chinaman and some Japanese. Both cars were badly smashed. Neglect in obeying orders is said to have been the cause of the wreck.

Attention is called to the notice that Edward A. Kimball, C.S.D., of Chicago, an authorized lecturer on Christian Science, will deliver a lecture on the apparently new phase of religious faith on Sunday, June 23, at 3 p.m., in Massey Hall. The lecturer is free. Mr. Kimball is an able platform speaker, a profound thinker who takes nothing for granted, and can readily clear away the misconceptions of Christian Science sometimes entertained by unprejudiced thinkers.

DEPLORE CORRUPTION BUT WANT NOT INTERFERE

Anglican Synod Does Not Wish to Identify Itself in Campaign Against Political Impurity.

OTTAWA, June 13.—(Special.)—The Anglican Church, as represented by the synod of the Diocese of Ottawa, does not care to identify itself with a campaign against immorality and corruption in politics. At least, this seems to be the reason why a resolution proposed by Dr. A. A. Weagant of Ottawa, was shelved without a vote today.

The resolution read: "That the synod of the Diocese of Ottawa, now in session, deplores the immorality and corruption generally which recent revelations have shown to prevail in high places in our country, and considers it to be necessary to call the attention of the rising generation that the church in this diocese should make its voice heard in condemnation of such conditions. With this end in view, the synod respectfully suggests that the lord bishop be requested to confer with the clergy under his charge as to the expediency of expressing the church's disapproval in their several parishes by sermon or otherwise, and that the bishop, in his wisdom, be respectfully asked to issue a pastoral letter in this matter."

The motion was read yesterday and passed by a large majority. The lord bishop, Mr. Smith, read early for Cornwall, and placed it in other hands, but taking advantage of his absence to-day the synod wound up its business without calling the resolution for consideration.

CHANGING B.N.A. ACT. No Act of British Parliament is Final, and Words Are Struck Out.

(Canadian Associated Press Cable). LONDON, June 13.—To-day Mr. Churchill introduced the British North America Act of 1867, containing the essential portions of the resolutions of the premiers at the Ottawa conference last autumn.

The new scale of federal subsidies is contained in the words "final and unalterable" are omitted, because no bill of the British parliament is final.

There was no opposition, and the bill passed its first reading. Attorney-General Foy of Ontario, Campbell of Manitoba and Premier McGowan were in the gallery during the debate. Churchill read the letter from Hon. W. S. Fielding, urging the immediate passage of the bill. The house greeted his speech with cheer.

Premier McBride of British Columbia has had many interviews with the colonial office about the inadequacy of his grant. He made a great impression, and was complimented by Churchill and Lyttelton, but the authorities declined to submit the bill to the Ottawa conference and Dominion parliament resolutions, and declined to lay down the rule that the opinion of the federal government is necessarily final.

EMIGRATION HAS INCREASED. Canada Gets More Than United States, and Australia Loses Much.

LONDON, June 13.—Some remarkable facts bearing on emigration from the United Kingdom are contained in a memorandum on the history of the emigrants' information office.

It is shown that since 1865, for the first time in the history of this country, the number of British emigrants to Canada exceeded the number who emigrated to the United States.

Another remarkable feature is the comparative insignificance of the flow of emigrants from Australia and New Zealand. Up to twenty years ago a substantial number of emigrants left Australia for the United States, but the number has since dwindled in astonishing fashion, no doubt as a result of the elaborate restrictions imposed by the Australian government.

KILLED BY HIGHWAYMEN. Rich Shoe Dealer Beaten to Death by Thugs.

NEW YORK, June 13.—August Meyer, a well-to-do shoe dealer of Brooklyn, was so severely beaten by highwaymen early to-day that he died a few hours later in a hospital. One of the alleged assailants, Nicholas Panimora, 20 years of age, has been arrested. Two others have not been captured.

Piano Factory Destroyed. NEW YORK, June 13.—Fire destroyed a big piano factory at 137th-street and Southern-boulevard, the Bronx, occupied by Winter & Co., and Heller & Brooks. Loss \$150,000.

Hummel Stays Jailed. NEW YORK, June 13.—Abe Hummel has decided to serve out his year sentence on Blackwell's Island, without trying to get the court of appeals to upset his conviction, which was affirmed by the appellate division.

SWEET CAPORAL. JAIL GOVERNOR TAKES OATH.

Rev. A. B. Chambers, the new governor of the jail, was sworn in by Judge Winchester, the event being witnessed by Sheriff Mowat and a number of court officials. He had to be introduced to the sheriff, who had "nominated" him for the vacancy.

Estates of the Dead. Henry D. Kelly, grocer, left an estate of \$21,522, of which \$5000 is life insurance. The widow will get \$2000 in personal effects and insurance, and the balance is to be invested for the maintenance of the family.

James Stacey, retired farmer of Markham, left an estate of \$30,795.22 of which \$18,754 is cash. To his widow he bequeathed real and personal property worth \$25,785, while \$5000 is left to three great nephews.

PLAN IS TO TAX AUTOS FOR DAMAGE TO ROADS

Parks Committee Propose to Erect Tent in Allan Gardens—Play and Drill Grounds.

The taxing by the city of automobiles was the proposition laid before the parks and exhibition committee yesterday by Controller Harrison. The idea was received with favor.

Park Commissioner Chambers said that damage was done the roadways in High Park by the operations of motorists. The results were not so serious when the roads were kept watered, he added, and the committee decided to make effort to have an arrangement made with the street cleaning department, whereby the watering on the roads in question could be carried out regularly.

As to the controller's suggestion, it was agreed to have a joint report from the park commissioner, and the city engineer. The board of control will again be asked to consider the purchase by the city of the block of land adjoining the armories on the north, to be used as a combination play and drill ground, the proposal to acquire land on Carlaw-avenue, and the Doane property on Rosedale Ravine drive for park purposes also sent forward.

The erection of a tent in Allan Gardens as a shelter from rain was recommended.

Mr. Chambers was given authority to allow the Ontario Keno Club to hold open air shows in the parks.

J. C. SPEER IS PRESIDENT OF TORONTO CONFERENCE

Two Toronto Churches Permitted to Retain Pastors for Indefinite Period.

Rev. J. C. Speer was elected president of the Toronto Methodist Conference at the first session of the general body yesterday.

A resolution was adopted that two Toronto Methodist churches be enabled to retain their present pastors for an indefinite period.

The reason for the resolution is that on account of the institutional work carried on by the pastors of these churches...

The afternoon session opened with a discussion of the best means for introducing more young men to enter the ministry.

CONSERVATIVES IN SOUTH WANT ONLY MACDONELL

M.P. Unanimously Renominated at Enthusiastic Victoria Hall Convention.

A. Claude Macdonnell, M.P., was the unanimous choice of South Toronto Conservatives last night for re-election.

It was Jos. Hunter who nominated Macdonnell, and Tom Chapman seconded him.

One thing Mr. Macdonnell truly pointed out was that the militia department was one of the mildest spending departments at Ottawa, and while the Toronto sale of the former property had been made not one cent had been expended in Toronto, and everything was left in the same old place, where the grass is still growing.

The name of Mulloy, the blind trooper, was cheered.

Mr. Macdonnell made a good point when he referred to a meeting in Ottawa where Mulloy was mentioned, and he instanced how Mulloy got practically nothing for defending his country's name, while \$400,000 or so went as a grat for Ross rifles.

He stated that he was depending on foreign bottoms for the transport of our product and he urged a telescopic view of the future in order that we might not be taken by surprise.

Then he showed that while the garrison and its allies are now contributing to the scenery of Niagara Falls, the present basis of distribution of the militia spending places at Ottawa.

Incidentally W. K. McNaught, M.L.A., was an early speaker and he eulogized Mr. Macdonnell for his efforts to stop the railways getting in the east end of Toronto and cutting up the waterfront.

Mayor Coatesworth was encouragingly cheered when he entered, but a good deal of the glory was bestowed upon Sir Mackenzie Bowden, who had been elected to a vacant seat in the House of Commons.

He had come to attend a meeting of the advisory board of the university. He talked nicely for a great while, and he was characterized as one of Ontario's most energetic members, while he remarked that Toronto was good at sending men to parliament.

Not One Honest Contract.

E. B. Osler, M.P., who proclaimed that the accusation of dishonesty at Ottawa could not be made public to his friends, said he, did not believe one honest contract had been made since the Liberals came into power.

HATS RAISED TO CHAMBERLAIN

English Statesman Greeted at His Birmingham Home.

BIRMINGHAM, Eng., June 13.—Mr. and Mrs. Joseph Chamberlain arrived here to-day from London.

The health of Mr. Chamberlain is improving, but his comparative helplessness could not be made public to his friends, who assembled at the railroad station to meet him.

All hats were raised in respectful silence as his carriage drove away.

EARL GREY PLAYS CRICKET.

His Excellency Scored Sixteen Before He Was Caught Out.

OTTAWA, June 13.—Earl Grey played in a cricket match on the Ottawa Club grounds to-day between Rideau Hall staff and a civil service eleven.

His excellency scored 16, one a boundary, before he was caught out.

The formation of junior Epworth leagues was encouraged as a preparatory for the young people's leagues, and thence into regular Christian work, and thus a continuous chain of workers would be established from the cradle to the grave.

There are now 80,000 members of the Epworth League in Canada, and in the past few years young people's societies have raised approximately \$240,000 for the forward movement for missions.

Much of this interest is due to the careful and judicious work of Dr. F. C. Stevenson of Toronto, who organized and is conducting this branch of the work.

BAD FIRE AT ALMONTE.

Several Buildings Destroyed, Including Telegraph Company.

ALMONTE, Ont., June 13.—At 7 p.m. a fire broke out in the stable in the rear of Percy Smith's blacksmith shop on Water-street.

It being surrounded by wooden buildings connected with the telegraph office, the fire spread rapidly and proved a serious loss before being got under control.

The following are the losses: J. H. Proctor, harness maker, on stock and building, \$4000; W. S. McDowell, sectioner and Great Northwestern telegraph office, on building, damage \$1000, and on stock by removal, \$2000; James Townsend, photographer, on stock and furniture, \$2500; W. J. McDowell, flour and feed, on buildings \$1000, loss on stock by removal, \$2000.

CLEANER POLITICS

Continued from Page 1.

June 13-24 next year. This will include a nominee of St. Andrew's Brotherhood and the Women's Auxiliary, and three representatives elected by the executive. Archbishop Sweetman will also attend.

Criticism of Parishes.

The reading of the report of the committee on the Episcopal Endowment Fund by Hon. S. H. Blake created a lively discussion by its unflattering criticism of parishes which had failed to raise their appropriations.

Emphatic objection was made to its general tone, Rev. H. M. Little characterizing it as "uncharitable, as have been all the other literary efforts of this committee."

Rev. Frank Vipond thought that the committee had been making mistakes for the past ten years, and the greatest was their action in sending sarcastic and scornful circulars to members of his congregation.

He requested that his people be not held up to derision and contempt.

Evangelist Atkinson entirely agreed with Mr. Vipond. He declared that "the evident intention of the writer of the report had been to wield a whip to sting members of the synod, and as such should be voted down as a whole."

The report was rejected and the chancellor empowered to nominate a new committee, Col. O'Brien hoped that such a number of the immigrants from the old land within a comparatively short time of their arrival "become inmates of a jail."

Hon. S. H. Blake objected to the general tone, and was not prepared to support its adoption unless statistics were added, and Col. O'Brien could not understand what good end such a report could possibly serve.

Barlow Chamberlain regarded the language employed as entirely too immoderate.

Canon Cayley contended that the terms of the report were necessary and defensible. They pointed to the source of an evil; it was for the synod to propose its remedy.

In the experience of Rev. R. H. Moore many unreliable men were being transported to this country. He had wondered how these obtained such high recommendations as they could present, until he discovered that these were given by clergymen and societies in the old land, who were anxious to pack undesirable off to Canada to get rid of them.

The discussion of the report continued until the archbishop adjourned the synod at 10 p.m.

Appointed Field Secretary.

The debate on the Sunday school committee report was somewhat lengthy, centering particularly round the recommendation for the appointment of a field secretary.

Addresses were delivered by Rev. T. Powell, Canon Ingles and I. L. Barker, and Dr. W. D. Thomas earnestly advising such a step.

Finally the synod voted the appointment of this officer at a salary of \$1200, with \$300 for traveling expenses. The whole amount to be levied from the Sunday schools of the diocese.

Rector's Fund Surplus.

The discussion on the distribution of the rector's fund surplus was closed by a vote referring the whole matter back to the executive for conference with a committee of the beneficiaries.

The present basis of distribution will be as that of last year.

Race Track Gambling.

Canon Welch gave notice of a motion on this synod is of opinion that race track gambling should be declared illegal and urges upon the government of the Dominion the advisability of taking such steps as may be necessary to secure this end.

One of the Plans.

The cross-examination here digressed to the plan Orchard conceived, to ride a short distance on a train with Steunenberg, and set the bomb in a grip under the governor's seat.

The paraphernalia all ready Orchard got aboard the train one day, but Steunenberg missed it. The fact that others in the car would have been killed, Orchard said, did not appeal to him.

Returning to Orchard's actions after the assassination of Steunenberg, Richardson asked if the witness had not deliberately gone to his room and scattered powder and plaster of Paris about the place.

"No," replied Orchard.

He said he came back to the hotel to clean up some things in his grip—cayenne pepper, potash and acid.

"What were you doing with the pepper?" was asked.

Why Pure Water Gets Office Work Done Better

BECAUSE those in the offices do not get nearly enough bodily exercise, their brains grow weary along in the afternoon, and work drags.

drinking indeed—spring freshets, summer thunderstorms and easterly gales always make it specially dangerous.

Now, a really PURE water will cost you only ten cents a gallon, delivered at your office.

For that is the special office-service price of YORK SPRINGS WATER, ideally pure, limpid, refreshing, crystal-clear—a NATURAL water, perfect as a beverage.

Sedentary occupations mean lazy livers, sluggish kidneys, slack digestions. These mean bodily wastes clogging the brain machinery.

Water-drinking is the remedy. Office people seem to need even more water than ordinary folks. Ten glasses a day is none too much. Do you drink that much PURE water every day? Do your office assistants?

Neither you nor they can afford to drink city water—not if your healths are worth guarding. For Lake Ontario water is only fairly pure a part of the year. Often it is risky

Ten cents a gallon—and for a nominal extra cost we will even provide a sanitary, handsome water-cooler.

Business men who have adopted this dime-a-gallon service say it pays good dividends, because it so increases the efficiency of the office force. Your own bodily good, moreover—that is worth more than York Springs Water costs, isn't it?

THE DAIRY SHOW.
The promoters of the proposed dairy show for Toronto in January appeared before the Hon. Mr. Monteith this week and asked for the patronage of the department to the show, and for his consent to allow the Eastern and Western Dairymen's Associations to meet here at the time of the show. They also asked for the government's co-operation in providing educational features at the show.

No money grant was asked, as abundant assurance had been given by the board of trade, the city and the county that the show could be made a financial success. The deputation was a strong one representing the Milk Producers of York, the Dairymen East and West, the board of trade and the city. They laid their arguments most carefully before the minister.

The minister, acting with that astuteness that is borne of a wider responsibility than of individual localities, as courteously received the gentlemen. He could not see his way clear to grant the delegation their requests. The duplication of shows, the drawing away from the east and the west, and the fear of hurting dairy conditions in those parts, were the main reasons advanced against the proposals.

Many men are of the opinion that the proposed show can be held here, yet, even as a private enterprise, just as the Toronto fair has been made a big success. These are urging upon the men to go ahead, but it is a doubtful question yet as to whether such a course would be a wise one. All's well that ends well, but who can assure the ending? It must not be inferred that the minister is antagonistic to the dairymen or to Toronto. Such is not the case we believe, but there are reasons in the department for the move and time will likely prove the wisdom of the half on the minister's part. Of course everyone cannot accord this liberality of view.

FRUIT GROWERS DO WELL.
The way the fruit-growers of Ontario are uniting in their co-operative societies for shipping their fruit, is indeed a sign of better things for the farmers generally. The meetings of the central organization which seeks to be the mouthpiece for the scattered smaller bodies have shown that the spirit that showed itself last year in the formation of this union has grown with leaps and bounds in one short year.

And the co-operative idea worked out into successful practice is not old in Ontario. In 1885, the present president, A. E. Sherrington of Walkerton, explained the working of such a society at the little gathering of fruit-growers at Leamington. The idea caught. In his own society at Walkerton shipments were made successfully. Others began to try it until the fine development of to-day has succeeded. Still the energy is increasing and where societies are organized, like the one in Oshawa spoken of last Tuesday, improvement in selling facilities, in packing and in taking care of the by-products is going on. Just how big a thing this movement means to Ontario fruit has yet to be seen. It looms up large to the far-sighted, who see a traveling salesman in England and Western Canada; big storage warehouses, with private refrigerators; large auxiliary works handling the worthless apples, manufacturing these into by-products that rival the original crop in financial returns. The success of the movement attests to the hollowness of the oft-repeated slur that the farmers cannot hold together. They can and will.

A THREE-YEAR ROTATION.
A Fine Little Meeting of Local Farmers in Markham Township.
A special meeting of the Farmers' Institute was held at Box Grove, Markham Township, on the evening of June 10. Mr. Fred Cookwell was the chairman, and about 30 farmers were present.

T. H. Mason, B.S.A., was present, and in his talk on the production of good seed, advocated the selecting of big heads from the best fields for the next year's trial plot until a succession of such would soon result in a bigger yield for the farm.
In the eradication of weeds he urged the importance of a short rotation, using a bol-crop instead of a summer fallow. He planted his corn so as to work land both ways. He cultivated his cornland last year fifteen times.
In the raising of red clover he advocated the pulling of clover out by hand, as it was next to impossible to separate the seed by machinery.
Messrs. Thomas Rainey, N. Clough-ton, William Train, D. W. Raymer, E. Johnson, George Freeman, Fred J. Pike and others took part in the discussion. It is an encouraging sign to see young men getting an interest in the meetings and the district around Box Grove, being one of the best farming spots in Ontario, ought to produce more abundantly by this dissemination of ideas of practical worth.

June 15 Derby Day Buffalo Races.
An opportunity to see races and secure low prices. Leave Toronto 9:00 a.m., June 15 via Grand Trunk. Fare for round trip \$2.00, valid returning until June 17.
Secure your tickets at City Ticket Office, northwest corner King and Yonge-streets.
Lecturer of Forestry.
A. H. D. Ross of the Dominion forestry service has accepted the position of lecturer of the faculty of forestry at Toronto University. Prof. Fernon, dean of the faculty, and a class assistant, with Mr. Ross will compose the staff for the present.

APPLES \$2.50 PER BARREL
DURHAM ORCHARDS SOLD

A Prominent Dealer in Eastern Ontario Buys 1907 Crop of Co-Operative Society.

If the sales of the apples of the Newcastle Co-Operative Society to Messrs. Dudley Bros of Colborne, at \$2.50 per barrel, is taken as evidence, farmers will realize good prices for their apples this fall. D. J. Gibson of Newcastle, president of the Co-Operative Association in Toronto this week, announced this sale at a meeting of the central co-operative association in Toronto this week.

It has usually been the practice of the associations to ship their own apples, but the inducement offered by this Ontario firm of reliable apple dealers was so good a one that the young organization decided to take it. The society has to furnish the barrels and pack the fruit.

When the sale was reported there was some adverse discussion among the members as to the wisdom of making such sales. The chief reasons assigned for the objections were that the local association lose their name in the sales. They also tend to weaken the co-operation of all the societies. Yet, the apples, as one suggested, are sold well, and that is the object of the farmers. All will be well that ends well.

GOOD APPLE OUTLOOK.
A. E. Sherrington of Walkerton, the re-elected president of the Central Co-Operative Society, reports a good outlook for fruit all over Ontario. Apples are blossoming exceedingly well with the exception of Baldwin, which have an off year. The show for russets, spies and starks is magnificent.

THE FARMSTEAD
Turnips next.
What about millet?
Plant some tomatoes and cabbage plants in the field.
Remember Lahmer's Berkshire sale.
Register those fillies before July first.
See that fine farm that is advertised on this page, for sale.

Farming in Ontario is going to grow in worth every year.
The Manitoba wheat is going to be all right, says Premier Roblin. That means other things will be O.K.
Several fields of early planted corn in Pickering have had to be replanted.
It is a wise man who keeps an eye on his orchard enemies. Spraying is everything now.

Baron Kitchener, owned by J. W. Boyle of Woodstock, is a fine locking Clyde and a winner. It is said that he will be at Toronto this fall.
The Massey Farm at East Toronto is at present milking a fine herd of pure bred Jersey. Mr. Ward is keeping the dairy in good shape.
Visitors to Guelph agricultural farm will see several new buildings this year. The plot work is also very interesting.

A young man will take \$10 a week and live in the city at some ordinary job, whereas he might be making just as much on the farm, and saving much more as well as being a better man every way.
It is noticeable at all the institute meetings that the very brainiest farmers are attending them. These meetings rub off the rough edges from farm life and sweeten the daily round.

Unquestionably the sale of swine at Vine next Wednesday will be a good one. There are some notable sowings in the collection. Stall Pitts Winner, Imp is a hog well-known in Markham and Pickering townships.
The fruit-growers at Ontario are seeking to have an inspector appointed to visit all packing houses and to instruct them in the best ways of packing and shipping. This would be a move similar to the one now used by the dairy men and ought to be a wise step. The minister of agriculture for Ontario has expressed his approval of the scheme and some move will be made at once.

A deputation waited upon Hon. Mr. Monteith at the legislative buildings on Wednesday asking for his countenance to the proposed dairy show in Toronto. This gathering of dairy men and others wanted a joint gathering of the eastern and western dairymen in January at the time of the show. The minister was not so sanguine of the removal of these two gatherings from Guelph and Ottawa and is waiting for further light upon the question.

RASPBERRIES WINTER-KILLED
Reports From Ontario Show That the Outlook For Berries is Poor.
Raspberry canes have been slow to leaf out all over the country. The late spring was blamed for this, until recently it has been seen that the bushes have suffered greatly during the past winter and spring. Around Walkerton A. E. Sherrington reports to The World that the berry bushes are nearly all dead.
"We will not have over one-third of a crop of berries this year. If one can judge by the look of the canes," he remarked. The district between London and Toronto and east report the same trouble with the red raspberries.

113 CARS AT CITY YARDS
CATTLE PRICES ARE FIRM

Trade Brisk in All Classes—Sheep, Lambs and Calves Firm.

Receipts of live stock at the City Market since Tuesday, as reported by the railways, were 113 carsloads, composed of 883 cattle, 1587 hogs, 491 sheep and lambs, 284 calves and 1 horse.
The quality of fat cattle was fair.
Trade was good all round, with prices strong at Tuesday's quotations.
There were many buyers, as well as orders in the hands of commission men for cattle for outside points, which caused everything to be bought up early in the day, the market closing with a strong feeling.

Exporters.
Not many export cattle offered, and those offered sold from \$5.50 to \$6.15, and had there been cattle of the same quality and weight, there is no doubt they would have equalled the highest price paid during the week if not a little more.

Butchers.
Best butchers sold from \$5.50 to \$5.90; good at \$5.40 to \$5.80; medium at \$5.20 to \$5.60; cwt.; bulls, \$4.00 to \$5.00; common cows, \$3.50 to \$4.00; canners at \$3.00 per cwt.

Stockers and Feeders.
Harry Murby reports having bought 100 cattle, 600 to 600 lbs. each, at \$3.00 to \$4.00 for those of good quality, and common stockers, 400 to 600 lbs. each, at \$2.00 to \$3.00 per cwt.

Milk Cows.
Trade in milkers and springers was not so good, and dealers quote prices from \$3.00 to \$3.00 each, with the medium to common classes suffering most. Prices ranged from \$3.00 to \$4.00 per cwt. One drover sold a pair of cows for \$98.00, for which he paid \$105.00 in the country.

Sheep and Lambs.
Trade in sheep and lambs was good, especially for all prime quality which were readily picked up. Sheep, \$5.00 to \$6.00; lambs, \$4.00 to \$5.00; cwt.; spring lambs sold at \$5.00 to \$6.00 per cwt.; bulls, \$4.00 to \$5.00; prime quality at \$7.00. Spring lambs are worth 10c per lb. live weight.

Deliveries have been light in comparison with last week's receipts. Mr. Harris reports prices unchanged at \$5.00 for stockers and \$3.50 for light cows; 10 Representative Sales.

Maybee, Wilson & Hall: 3 exporters, 1500 lbs. each, at \$5.85; 23 butchers, 1000 lbs. each, at \$5.50; 1 butcher, 1000 lbs. each, at \$5.25; 23 butchers, 900 lbs. each, at \$5.15; 2 butchers, 800 lbs. each, at \$5.00; 1 butcher, 800 lbs. each, at \$4.75; 1 butcher, 800 lbs. each, at \$4.50; 1 butcher, 800 lbs. each, at \$4.25; 1 butcher, 800 lbs. each, at \$4.00; 1 butcher, 800 lbs. each, at \$3.75; 1 butcher, 800 lbs. each, at \$3.50; 1 butcher, 800 lbs. each, at \$3.25; 1 butcher, 800 lbs. each, at \$3.00.

James Corbett sold: 14 butchers, 800 lbs. each, at \$5.00; 1 butcher, 1200 lbs. each, at \$6.00; 1 butcher, 1200 lbs. each, at \$5.50; 1 butcher, 1200 lbs. each, at \$5.00; 1 butcher, 1200 lbs. each, at \$4.50; 1 butcher, 1200 lbs. each, at \$4.00; 1 butcher, 1200 lbs. each, at \$3.50; 1 butcher, 1200 lbs. each, at \$3.00; 1 butcher, 1200 lbs. each, at \$2.50; 1 butcher, 1200 lbs. each, at \$2.00; 1 butcher, 1200 lbs. each, at \$1.50; 1 butcher, 1200 lbs. each, at \$1.00; 1 butcher, 1200 lbs. each, at \$0.50; 1 butcher, 1200 lbs. each, at \$0.25; 1 butcher, 1200 lbs. each, at \$0.10; 1 butcher, 1200 lbs. each, at \$0.05; 1 butcher, 1200 lbs. each, at \$0.02; 1 butcher, 1200 lbs. each, at \$0.01.

"HINGE-STAYS" MAKE DILLON TWICE AS STRONG
Short, stiff, hard, steel wire stays make a "Hinge-Like" joint at every lateral wire on the Dillon fence.
These "Hinge-Stays" give our fence a greater degree of elasticity—enable it to withstand greater strain. They act like, and really are, hinges—make our fence swing or spring back into shape after receiving a heavy blow, or the unusual pressure caused by a furious bull or other animal endeavoring to push his way through to freedom. Catalogue tells more about this "Hinge" as strong fence.

Strike is Rumored to Have Been Made on Silver Leaf---COBALT

LIQUIDATION RENEWED
IN STANDARD SHARES
Foster and Trethewey Stocks Are Sold at Lower Levels—Silver Leaf Firm.

World Office, Thursday Evening, June 13.
The pressure of stock on the local market of steady prices, and quotations were lowered when the offerings became burdensome. The new selling was only attributable to matters, as ordinary investors are disinclined to sell at current levels. Yesterday's market was accepted as an indication that liquidation was pretty well exhausted, and with to-day's realising a proposition facing traders and one of which they were not slow to take advantage. Foster and Trethewey was heavily offered to-day, the latter particularly, and the whole situation and provided professional with the opinion that the market was likely to go generally lower. The only support in the market was in Silver Leaf. It was rumored that this company had made a rich strike, and also unconfirmed, the stock showed considerably more buoyancy than it has done for some time.

DEEP OPERATIONS NEEDED.
New York Broker Says They Will Have to Be Pursued at Cobalt.

"Deep mining operations for the Cobalt and Larder Lake mining camps on the principle laid down by the big mining operators on the Rand and in Australia are being pursued in several of the big Cobalt mines of late," said J. J. Bamberger, president of the Nipissing and Newhouse, the president of the Nipissing, started the modern system of mining on that claim, and his ideas were practically followed by the Cobalt. Contact the Colonial and on some of the other large properties.
"Interest in the producing mines of the gold camp grows apace and already several of the biggest operators in the continent have sent their expert engineers up to Larder Lake to investigate the country with a view to reporting on the real values of the claims already staked out up in that country," said J. J. Bamberger of New York.
Yesterday the World was accorded an interview with J. J. Bamberger of New York, who, with W. B. Kolman, one of the best known mining engineers of Goldfield, Nev., left for Larder Lake last night to go over the whole district with a view to bringing American capital up to establish the gold claims.
Mr. Bamberger expressed the opinion that the larger mines in Cobalt would be worth from 50 to 100 per cent. more money within the next three to nine months, than at present.
"The trouble with Cobalt has been," he ventured to say, "the fact that the mining had all been done on the surface. Goldpining around on the top of a vein sometimes had beneficial results, as has been demonstrated in this camp, but all mine managers had made greater success by going lower and lower. In fact, more modern method of digging deep and cross cutting underneath to get to the broad vein. That kind of mining is productive, as many of the big California properties will testify."
"As to the future of Cobalt and Larder Lake, both Messrs. Bamberger and Kolman would not predict, but they felt that it was a wonderful camp and that the mineral resources of the big district had not as yet been brought before the public eye."

STRIKE ON SILVER LEAF.
Rumor of Find is Not Confirmed by Company's Officials.

COBALT, June 13.—It is stated that the Silver Leaf Mining Company have struck a very valuable vein in their operations. The ore from the vein is said to be of a high percentage value. The body of ore reached is believed to be of a high percentage value, but the officials of the company are extremely reticent in giving any information as to the strike.

INTERESTS BRITISH CAPITAL.
Temiskaming and Hudson Bay Sell Another Claim.

James A. McIlwain of the Standard Stock Exchange, in his weekly market letter says:
"It is a hopeful sign to again see some activity in mining claims. This week a portion of the T. & H. Hudson Bay property is under sale at \$1,000,000 or better. This shows eight inches of a surface vein silver ore, and already a carload of ore has been shipped. The Hudson Bay capital will own and operate this claim, and if the deal goes thru, as is extremely likely, it will mean a great national dividend of 200 per cent. to the T. & H. Hudson Bay Company's shareholders. This may be contrasted with the Hudson Bay property, which is a high card, and assures well for the immediate future. An influx of English capital will mean a great deal for Cobalt and mining interests in general throughout the country. The mining market for shares is quiet, but with financial conditions reviewed, it holds pretty well, and higher prices may be expected when the market becomes active. We are recommending purchase now to our clients, and big profits are in store for buyers of the better class of mining stocks."

VEIN A FOOT WIDE.
A rich strike is reported on the Bonanza Larder Lake Gold Mining Company's property. A vein a foot wide was discovered which it is said will assay very richly.

CROWD WAS AT STATION TO SEE FUSHIMI DEPART.
Lieut.-Governor and Mayor Among the Dignitaries Who Bade Him Good-Bye.

Prince Fushimi, Canada's Japanese imperial guest, left Toronto at 11 o'clock yesterday morning for North Bay. Several hundred people gathered to see him off, he was heartily cheered, and the Japanese residents of Toronto bowed low and reverently.
The military escort was composed of men of the Royal Canadian Dragoons, and the 48th Highlanders lined the route to the depot. His Honor Lt.-Gov. Clark, accompanied the prince to the depot, and Mayor Coatsworth was waiting there to speed him off.
Before taking train for the west Prince Fushimi inspected the guard of honor, accompanied by Col. Davidson and Sir Henry Pellatt.
The itinerary of the prince is as follows: North Bay, arrive Thursday 6:30; Winnipeg, arrive Friday 10 a.m.; Leppel, arrive 10 a.m.; Calgary, arrive Tuesday 6 a.m.; leave 10 a.m.; Banff, arrive Tuesday 6 p.m.; leave Thursday 10 a.m.; Laggan, arrive Thursday 11:45 a.m.; leave 3:45 p.m.; Field, arrive Thursday 4:30 p.m.; leave Friday morning; Vancouver, arrive Saturday noon; leave Sunday 1:30 p.m.; Victoria, arrive Sunday 6 p.m.; Seattle Tuesday or Wednesday for Japan.

OLD COUNTRY CLUB HOUSE.
Meeting Will Be Held to Discuss a Big Project.

The great success which has so far attended the movement for the establishment of the Old Country Club in this city has far exceeded the most sanguine expectations of the promoters and gives them encouragement to go ahead for greater things. The executive committee desire that the club shall be throno representative, and propose holding a conference at an early date with delegates from the various old country county societies, to discuss the question of concerted action, so that a club worthy of the city can be secured, and form a permanent meeting place for all old countrymen. It is believed that this can be brought about without in any way interfering with the work of any of any society, who can retain their individuality whilst becoming members of the club.
All old country men are requested to come forward and help towards the common object.
All old country men, and especially the county associations, willing to help forward the movement, should communicate with the secretary, F. C. Beckett, care T. Watson Sims, 30 East Wellington-street.

The trustees of St. Paul's Presbyterian Church have appointed Edward Harris organist and choirmaster, to succeed Horace McDougall, who is giving up the work to take a complete rest.
Mr. Harris is at present organist and choirmaster of Oak-street Presbyterian Church. He will begin his new duties about July 1.

CONFERENCE ON "TAMMANY" CROKER.
LONDON, June 13.—The proposal to bestow the freedom of the City of Dublin on Richard Croker, was yesterday, but probably will be carried by the Nationalists, who have a large majority in the council, and who were the organizers of the proposal.
The only other Americans who have been given the freedom of the City of Dublin have been Gen. Grant, Capt. Porter of the famous relief ship Coriastellation, and Patrick A. Collins, the late mayor of Boston, Mass.

MAGISTRATE ADJOURNS G.T. CASE FOR 2 WEEKS

Council Will Visit the Industrial Home—Farmers' Institute at Agincourt.

EAST TORONTO, June 13.—At the request of L. V. McCarthy, who appeared for the G. T. R., the charge against the railway company as a corporation, Thomas J. Rooney, fireman, and Richard Crews, yardmaster, of violating the Lord's Day Act on Sunday, April 21, was this afternoon adjourned by Police Magistrate Ellis for two weeks.

Mr. McCarthy pleaded inability to secure the necessary books and papers in time to proceed to-day with the defence. Mr. McCarthy declared that in order to show the necessity that existed for Sunday work in the York yards it would be necessary to go back to the fountain head and show the conditions existing at Black Rock, Buffalo and other terminal points. In reality there was no provision in the act to serve the company as a company, and the company's defence would come under the exceptions to the act.

In view of the restrictions placed upon us by the Lord's Day Act," said Mr. McCarthy, "we refused to carry certain lines of lumber, coal and hay. The railway commission came in and ordered us to carry the freight asked. We are thus placed between the devil and the deep sea," said the solicitor.

Crown Attorney Drayton decided to go on with a portion of the prosecution and John Startz, foreman in the car shop, was examined at some length. The evidence adduced was largely technical and related to the arrival and departure of trains on the date mentioned. It showed 13 trains going west and seven east. Startz's duties were to supply engines whenever required to do so by Yardmaster Crews, and he did not know to what purposes they would be used. Sunday was usually a quieter day than any other, and in the shop was used for the lighter class of repairing on the engines and for the general overhauling of the engines used on the transfer trains running to Mimico.

Alex. Neilson, chairman, was called to task by Magistrate Ellis for failing to give his evidence frankly. Neilson said he took his instructions from Mr. Crews, but could not remember as to the volume of business handled on April 21.

Constable Burns produced a formidable document setting out the specific violations, which he offered to read. Counsel for defence objected, on the ground that time was precious. Report was placed on record and Magistrate Ellis decided to postpone the case for two weeks to the same time stating that other adjournments would probably follow.

All the cases were similarly dealt with. Thomas Rooney, who was present, pleaded not guilty. Court York No. 12, I.O.F., will hold their annual convention at Emmanuel Presbyterian Church on Sunday, June 16. All members are requested to meet at Snell's Hall at 10.30 a.m.

Chief Tisdley arrested Chas. MacDonald to-night on a charge of disorderly conduct. He will be brought before Magistrate Clay in the morning.

The funeral of the late Mr. Fawcett took place to-day at St. John's Cemetery, Norway, where Rev. W. L. Baynes-Reed officiated. There was a large attendance of friends.

Toronto Junction. TORONTO JUNCTION, June 13.—Instructions were received to-day that the free delivery of mail to-morrow morning. There will be two deliveries per day. The carriers will leave the postoffice at 7.30 a.m. and 2 p.m. Postmaster Kirkwood has issued a special request asking all persons to advise their correspondents to address all mail matter to the number and street, and thus avoid any delay.

Objects to Service. H. F. Strickland, inspector Canadian Fire Underwriters' Association, a resident of St. Catharines, has forwarded the following letter to the World: "Strickland has forwarded a copy of the same to the clerk of East Toronto: 'Dear Sir,—The manner in which the electric light system is operated in this village is decidedly unsatisfactory, and I would be greatly obliged if you would kindly read the following communication at the next meeting of either the fire and light committee or the town council: 'At the present time the electric light is not turned on in the evening until somewhere between 7 and 8 o'clock, making it necessary for some of the people's dining-rooms are not brilliantly illuminated to use the gas. My electric light bill for the past quarter was \$9.75, while it should be \$4.00. It is commensurate with a gas-bill of \$12.45, a large proportion of which would be quite unnecessary if we had a proper electric light service. It is always necessary, as you are aware, to burn gas at night, and in the early mornings when the days are not long, so that we have to burn gas for a considerable number of hours in the evening. I have come across a great many people who have recently wired up their houses, and it is very common talk that they will not use the electric light at present because it is so unsatisfactory. It seems to me strange, when we have to pay money for an expensive electric light system, and where the main wires cover pretty nearly the whole territory, that some means could not be employed for extending its use more generally. Just why the electric light is not turned on in the evenings at a reasonable hour I cannot understand. It seems that the power is often on during the afternoon and is shut down at 6 p.m., just at the time when it is most needed in people's dining-rooms and basements. Why could not the hour be arranged in a more suitable manner, so that the power could be shut down at 5 p.m. in the afternoon and started up again at 6 o'clock? Of course, in the winter-time it should be on at 4 to be of any real use, and it is very distressing that this electric light service is allowed to drift along in such an unsatisfactory manner, and if our representatives in the council during the next year cannot do any better than those who have been elected in the past I cannot see

that there is any use wasting the time to vote at all. I think the object of a light service should be taken up in a business-like way and put on a paying basis, and I am quite sure if the present system were operated by a private corporation that the town would have many nasty things to say about them and would no doubt be off to the municipal board to try and obtain some kind of a half-decent service. Yours very truly, 'H. F. Strickland.'

York County Council. Not much real progress was made at yesterday's session of the York County Council, and the members are disposed to lay the blame at the doors of the legislature. The principal matter under discussion was the "good roads" question, and after wrestling for a long time with the subject it was finally laid over until to-day. The trouble appears to be that the bylaw passed at the January session of the county council has been by the changes made in the legislature, rendered inoperative, and Solicitor Lennox was instructed to draw up another one, in keeping with the revised act.

"We don't know where we are at," said a leading member of the council last night, and the chances are that nothing will be done toward getting the county system of "good roads" under way this year. Dr. Irwin's plan for the education of the country pathmasters, introduced at yesterday's meeting, was altogether too radical for the members. In effect it aimed at a conference, or school of education, where the pathmasters would be trained in the art of roadmaking, which at the same time, would entitle the embryo road commissioners to a grant of \$3 a day.

It was proposed to secure the service of an expert government road engineer to deliver the course of lectures. The plan was conceded to possess some good features, but was later withdrawn by the mover. On Friday afternoon, at 3.30, the members of the council will pay a visit to the Industrial Home at Newmarket.

North Toronto. NORTH TORONTO, June 13.—A letter was received by the school board to-night from Miss Thomson, teacher of the Davistown School, who is absent, nursing her sick mother, deploring the fact that she was unable to resume her duties during the month of June, and stating should she be compelled to resign her position she would notify the board in time to secure another teacher. The resignation of Trustee LeGras was accepted. McGill & Co.'s tender for the supply of coal was accepted.

George Leach, caretaker of the Eglington School, advised some repairs to the boiler and chimney, so as to economize coal and to get better results. A social evening was spent at the Eglington Methodist Church to-night, under the auspices of the Ladies' Aid Society. The congregation filled the schoolroom, which was decorated with red and pink roses and palms, a donation by Councillor W. J. Lawrence. A short musical and literary program was given, and the address was delivered by Rev. J. W. Stewart, a former pastor. Refreshments were served. Rev. N. Wellwood presided.

The weather promises to be weather for to-morrow (Friday) and every pupil of the Eglington School is jubilant about the fact, for such a treat is held before the Eglington School. A picnic has been arranged for the scholars, to be held in the famous Stibbard's Grove. Races will be the predominating feature, and 150 prizes will be divided among the different winners. Refreshments for everybody will be served, and it is hoped that the parents will come out also to enjoy themselves.

It is reported that Mr. Dewey, the district freight superintendent, stated that work will be proceeded with at once to open up the Belt Line from the Don Plaza to Old Toronto-street. New ties and rails will be laid, and the track allowance reconstructed. York Lodge, A.F. & A.M., No. 156, were the guests of the members of the late Rufus Skinner, from his late residence, 84 O'Hara-avenue, on Saturday afternoon, at Mount Pleasant Cemetery. John Simpson, Morton-street, was fined \$7 without costs in to-day's police court for violating the town's water-works bylaw.
