## Roosevelt's Big Stick in Forcible Defence From Trust Attacks

### President Roundly Condemns the Habit of Law-Defying Corporations Prating of the Wrongs Done "Innocent Stockholders" by Administration's Attempts to Eradicate Evils.

WASHINGTON, D. C., Jan. 31.—In a special message sent to congress to-day, President Roosevelt replies to recent attacks on the policy of the present administration in regard to the control of great corporations, and suggesting legislation for the more adequate control by the government of interstate commerce. The message says, in part:

"Much is said in these attacks upon the policy of the present administration, about the rights of 'innocent stockholders.' That stockholder is not innocent who voluntarily purchases stock in a corporation whose methods and management he knows to be corrupt; and stockholders are bound to try to secure honest management, or else are stopped from complaining about the proceedings of the government finds necessary in order to compel the corporation to obey the law.

"There has been, in the past, grave wrong done innocent stockholders by overcapitalization, stock-watering, stock-jobbing, stock-manipulation. This we have sought to prevent, first, by exposing the thing done and punishing the offender, when any existing law has been violated; second, by recommending the passage of laws which would make unlawful similar practices for the future. The public men, lawyers and editors, who loudly proclaim their sympathy for the 'innocent stockholders,' when a great law-defying corporation is punished, are the first to protest, with frantic vehemence, against all efforts by law to put a stop to the practices which are the real and ultimate sources of the damage alike to the stockholders and the public.

"The apologists of successful dishonesty always declaim against any effort to punish or prevent it, on the ground that any such effort will 'unsettle business.' It is they, who, by their acts, have unsettled business; and the very men raising this cry spend hundreds of thousands of dollars in securing, by speech, editorial, book or pamphlet, the defence, by misstatements of what they have done; and yet, when public servants correct their misstatements by telling the truth, they declaim against them for breaking silence, lest 'values be depreciated.' They have hurt honest business men, honest working men, honest farmers, and now they clamor against the truth being told."

President Roosevelt advocates an immediate re-enactment of the employers' liability law, recently declared unconstitutional, in its scope so that it shall apply only to the class of cases which the supreme court says it can constitutionally apply. He also advises compensation by the government of all employees injured while in the government service.

He then calls the attention of congress to the need of some action in connection with the abuse of injunctions in labor cases. "It is entirely wrong," he says, "to use the injunction to prevent the entirely proper and legitimate struggle of labor organizations in their struggle for industrial betterment, or under the guise of protecting property rights to arbitrarily invade the fundamental rights of the individual.

**Subjects for Control.**  
"Not only should there be action on certain laws affecting wage-earners, there should also be such action on laws better to secure control over the great business concerns engaged in interstate commerce, and especially over the great common carriers. The interstate commerce commission should be empowered to pass upon rates or practices of its own initiative. Moreover, it should be provided that whenever the commission has reason to believe that a rate ought not to be made without investigation, it should have authority to issue an order prohibiting the advance pending examination by the commission."

President Roosevelt then declares that in some form of federal supervision over the financial operations of inter-state railroads. In no other way can justice be done between the private owners of those properties and the public which pay their charges. When once an industry of capitalization has gone upon the market and has become fixed in value, its existence must be recognized.

**The Innocent Stockholder.**  
As a practical matter it is then often absolutely necessary to take account of the thousands of innocent stockholders who have purchased their stock in good faith. The usual result of such information is, therefore, to impose upon the public an unnecessary but everlasting tax, while the innocent purchasers of the stock are also harmed, and only a few speculators are benefited. Such wrongs when once accomplished can with difficulty be undone, but they can be prevented with safety and with justice.

"I think," says the message "that the federal government must also assume a certain measure of control over the physical operation of railroads in the handling of inter-state traffic. I think it must also have authority to determine the conditions upon which cars shall be interchanged between different inter-state railroads and to determine the schedule upon which perishable commodities shall be moved."

The president then repeats the recommendations made in his last message in reference to the Sherman anti-trust laws.

Then taking up the attacks on the administration's policy in regard to the control of great corporations, President Roosevelt says:

"The attacks by these great corporations on the administration's actions have been given wide circulation through the country in the newspapers and otherwise, by those writers and speakers who, consciously or unconsciously

## MACKENZIE AFTER POWER-PLANT AT FALLS

### Electrical Development Said to Be in the Market—Two Directors to Retire.

The World has been informed by reliable authority that William Mackenzie of the Toronto Railway is negotiating for the Electrical Development Company, and that there is a decided probability of it passing under his control as an early day.

It is also said that the Ontario Government could get the concern, including the Development plant and the transmission line, on its own terms if it cared to take it over.

In any event, whether the company goes to Mr. Mackenzie or not, it is quite certain that the names of two of the directors, prominent in the recent discussions of the power issue, will disappear from the board.

## SENATOR POIRIER ASKS ABOUT STARVING BABES

### Had Supposed Toronto Was City of Morality and Charity—Comment Passed Unnoticed.

OTTAWA, Jan. 31.—(Special.)—In the upper chamber, S. A. Poirier called attention to a news item, stating that since the beginning of the year a hundred babies had died of starvation in Toronto. He said that as Toronto was supposed to be a Christian city, famed for morality and charity, he was surprised that the sixth commandment should be disregarded there.

There was no reply to Senator Poirier's observations.

Senator Landry this afternoon asked if it was the intention of the government to increase the representation of the cabinet in the senate by summoning to it ministers belonging to the French element of the Dominion.

Secretary of State Scott replied that it would be inconvenient to name a French minister at the present time to sit in the senate, as it would necessitate one of the French ministers resigning from the commons, and there was no vacancy of a Quebec seat in the senate at the present time.

Senator Landry called attention to the fact that at the last day of the second term of the present lieutenant-governor of Quebec, the lieutenant-governor had arranged for the filling of the place.

The secretary of state said that his attention had not been called to the matter before. The statute provided that a lieutenant-governor could continue in office until another commission was issued. The statute would prevent Quebec being without a lieutenant-governor.

## SHIPBUILDING LOCKOUT.

### Unless Strikers Who Left Return to Work.

NEWCASTLE-ON-TYNE, Jan. 31.—Lockout notices will be issued to-morrow announcing the closing of all the shipbuilding yards on the northeast coast, unless the strikers, who left their work here Jan. 22, after refusing to return to work in wages, return to work meantime.

The employers, when the strike occurred, declared that the reduction was necessary owing to the depression in the industry. It was stated then that the shipbuilding plants on the northeast coast were affected.

## IRISH CHILDREN GET CRAZE.

DUBLIN, Jan. 31.—The children of members of the United Irish League in the west of Ireland, who are carrying on an anti-grazing campaign, are rapidly becoming infected with a violent form of the boycotting fever and are threatening to close up the national schools if the children of the hated occupants of grazing lands are permitted to attend the schools.

## Thaw Jury Out 12 Hours Disagreement Looked For

### Locked up at Midnight by Judge's Order—Charge to Jury Was Slightly in Favor of Insanity Plea—The Prisoner Sat up Late and Disconsolate.

NEW YORK, Jan. 31.—After waiting for nearly 12 hours for the jury in the Thaw case to report, Justice Dowling shortly after 11 o'clock to-night locked the doors of the jury room for the night and adjourned court until 10.30 a.m. to-morrow, when he will hear any report they have to make.

The rumor persisted through the evening that the jurors were hopelessly divided—eight to four. Mr. Littleton of the defence expressed the belief that the majority favored a verdict of not guilty on the ground of insanity and when he left for his home was still hopeful that a decision eventually would be reached.

Thaw retired disconsolately to his cell in the Tombs. He expressed the fear that a third trial would be necessary. This was the general opinion held by the coterie attaches. The attorneys in the case all were deeply disappointed by the trend of affairs as everyone had hoped that some definite conclusion might this time be reached.

Mr. Jerome would not discuss the probability of a third trial, but said if there was one it might be in some other jurisdiction of the state than New York County.

LONDON, Jan. 31.—The Earl of Carrington, president of the board of agriculture, speaking to-night at Lincoln, referred to the agitation of the protectionists against supplying American and other imported beef to the army.

He strongly dissented from the claims of the protectionists and declared that the feeding of the army on home-bred meat would mean an annual increase of £250,000 in the army budget.

## THE WITHDRAWAL OF LICENSES

To the Editor of The World:

Sir,—We have reason to be grateful to any journal which deals boldly, as yours has done, with the apparently arbitrary act of the city council in depriving thirty-four hotelkeepers of their licenses and livelihood without, so far as appears, a specific charge of misconduct against any of them. It seems needless to dwell on the dangers of more than one kind which would attend the exercise of such a power.

Let prohibition make its way by fair argument and, if its arguments prevail with the public, by constitutional legislation enforced, if necessary, by penal law. But we cannot afford to put into the hands of any movement, however philanthropic, arbitrary infliction of penalties of any kind.

The case not being fully before us, I am not impeaching the council, but simply expressing an opinion, shared by others, that an explanation is required. Yours faithfully

Goldwin Smith

### Timber Lands That Are Worth Millions All But Given Away in West

OTTAWA, Jan. 31.—(Special.)—The debate on Mr. Lake's motion for an investigation into the alienation of public lands since 1883 was continued in the house to-day.

Mr. Perley (Conservative, Argenteuil) commented upon the silence of the ministers. He congratulated the government upon having accepted the advice of Conservatives for the improvement of timber limit regulations. The opposition had last year urged a longer notice before limits were put up for sale, as well as more knowledge of the value of the timber. During the last Christmas holidays, regulations had been improved in this respect, but they were capable of still further improvement. The upset price should not be advertised, but, as in Ontario, the reserve should be in an envelope and handed to the auctioneer at the time of the sale. No timber limits in the Northwest should be put up for sale until the timber was needed. There should be no permission to select from large areas, and all offerings should be advertised in The Canada Gazette.

Mr. Perley next dealt with a sacrifice of large timber limits near the Passo, on the Saskatchewan. The government put up the whole 122 square miles there at once, offering it in the dead of winter. Mr. Perley would like to see the government put up the whole 122 square miles there at once, offering it in the dead of winter. Mr. Perley would like to see the government put up the whole 122 square miles there at once, offering it in the dead of winter.

## SAFE WAS OPENED WITH KEY, SAYS REPORT

### Report on Dublin Castle Jewel Robbery Censures Sir Arthur Edward Vicars.

LONDON, Jan. 31.—The report of the commission which has been investigating the disappearance last summer from Dublin Castle of jewels valued at £250,000, belonging to the regalia of the Order of St. Patrick, was presented to parliament to-day. It finds that the safe from which the jewels were taken must have been opened by a key, and concludes with these words: "We cannot acquit Sir Arthur Edward Vicars of want of proper care in his custody of the keys of the safe."

Sir Arthur is Under-king-at-arms, and he was custodian of the jewels. It is reported in Dublin that the chief secretary for Ireland, Augustine Birrell, has given directions that Sir Arthur be suspended from office.

NOTE AND COMMENT

The allotment of 108 lbs. to Inferno in the Suburban and Brighton Handicaps and 107 to Tourenne in the Suburban and 106 in the Brighton seems to satisfy those who are interested in the running of the Canadian crack thoroughbreds in two of the big turf events of the year.

The athletic life of a weight thrower greatly outlasts that of a runner. Men like John Flanagan, Martin and Dick Sheridan, Dennis Hargin, Dick Sheldon, Alfred Play and J. S. Mitchell were good a decade ago, and all look to be able to go along the same clip for five more years.

Compare this line of work with that of the average runner and it is easy to see that the weight man stays in the game longer. The runner is no good until he gets "fits" and begins to look drawn.

A half-mile generally drops about two pounds in a runner, while a mile running five miles generally loses from four to six. Besides this, the runner loses weight in his training days.

Writing on nerve, pluck and courage in baseball, Elmer Bates pays the "tigers a compliment in the Cleveland Press. He remarks: "What do we need of new rules? There are far too many rules now."

"That the major league ball player has lost his courage is a fact, but argument and beyond all dispute, he may have lost some initiative; some of the rare old, fair old bravery that was the chief asset of the ball player of the '90s is now regarded with derision and with scorn by the average league star."

"The story of every pennant lost by a team that should have won it is a story of a lot of too royally treated players flying to the hospital at the first flick of skin from arm or leg, at the first black and blue mark on their carefully massaged bodies."

"The story of every pennant won is a story of heroic devotion to duty, of a noble, self-sacrificing effort to keep a team intact despite all personal discomforts."

"The tigers would not have finished even in the first division in 1907 had Jennings' men cried for a surgeon and a stretcher every time one of them suffered a trifling mishap."

THE PRESIDENT'S SPECIAL MESSAGE.

President Roosevelt is not a man to turn his cheek to the smiter. When his blood is up he dashes into the fray and lays about him in the true Berserker spirit, but unlike his old Scandinavian prototypes he has method in his madness, and a calm, cool, fighting fire.

Mistakes and misunderstandings are the lot of humanity, and are no more absent from the history of federated states than they are from personal experience. But when handsomely acknowledged and redressed they are just as likely to cement the union of states as they are to quicken friendships.

Notwithstanding the low rates the German Government has for several years had the benefit of an annual net profit amounting in round figures to \$2,500,000. In its search for additional sources of income the revenue board has included in its scheme a proposal to increase the rates, which naturally has met with strong opposition.

Notwithstanding the low rates the German Government has for several years had the benefit of an annual net profit amounting in round figures to \$2,500,000. In its search for additional sources of income the revenue board has included in its scheme a proposal to increase the rates, which naturally has met with strong opposition.

With equal strenuosity, Mr. Roosevelt protests against the charge that his administration is responsible for the business collapse of last year. On this point he says: "The apologists for successful dishonesty always declare against any effort to punish or prevent it, on the ground that any such effort will 'unsettle business.' It is they, the president retorts, who, by their acts, have unsettled business, and the very men raising this cry spend hundreds of thousands of dollars in securing by speech, editorials, books or pamphlets, the defence by misstatements of what they have done, and yet when public servants correct their misstatements by telling the truth, they declaim against them for breaking silence lest 'values be depreciated.' They have hurt honest business men, honest working men, honest farmers; and now they clamor against the truth being told." This is well and forcibly put, and it is weighty because it is true.

As I listened to your speech I know that, if not your exact words, this is a fair estimate of what you said. I presume that you are also aware that you realize that for an organizer of a political party to use or try to use the organization of the party in the interest of some one else or for any purpose not authorized by the party or its recognized leaders would be a most reprehensible act and something which no honest or reasonably decent man would do. I take it too that you are not incapable of understanding that to say that a party organizer

for the ultimate good, both of the empire and the community immediately concerned. Federation, whether formal or virtual, would be impossible if it were a pre-condition that there should be no conflicts of interest, and unworkable could these not be reconciled.

Imperial Unity. Fears are expressed in some quarters that conflicts between imperial and state interests, such as have emerged over Japanese and East Indian immigration, must tend towards disintegration of the empire. No doubt were the imperial and state authorities stubborn in maintaining irreconcilable positions, they would have that effect, but on the other hand, do they not afford valuable opportunities for learning important lessons in the art of adjusting differences

for the ultimate good, both of the empire and the community immediately concerned. Federation, whether formal or virtual, would be impossible if it were a pre-condition that there should be no conflicts of interest, and unworkable could these not be reconciled.

An empire so loosely limited together as our own depends for its continuance on the existence of a sincere determination on the part of each of its component states to maintain its unity. If that determination is absent, nothing can prevent its dissolution; if it is present, obstacles that appear insuperable will in one way or another be overcome.

And there is this also to be said, that co-operation for the common good coming thru individual, independent determination has greater promise of stability than can possibly come from the action of any external overruling authority.

Mistakes and misunderstandings are the lot of humanity, and are no more absent from the history of federated states than they are from personal experience. But when handsomely acknowledged and redressed they are just as likely to cement the union of states as they are to quicken friendships.

was "bired" to do this is to accuse him of a most contemptible and dishonorable thing. I am justified, then, in assuming that for the purpose of strengthening your statement you have liberally and purposely made this charge against me.

Permit me to say, then, that, in so far as your charge to me is concerned, there is not one particle of truth in your statement. At the time to which you refer I was not, as a matter of fact, an organizer of the Conservative party, and had not been for more than a year and had never had anything to do with the organization of the party in the city.

What part I took in the campaign against the by-law was that of a private citizen, having just as little interest in the liquor trade as you and having absolutely no personal and no financial interest in the matter.

My only regret is that a verdict of acquittal, arrived at after full and free discussion in a campaign conducted with absolute candor and fairness, is being used to give the impression of their power to do so by a secret, underground campaign, in which everyone of them carefully avoided even so much as to make public their intention to do that which in such secret conclaves they had planned to do.

GROWING GIRLS NEED PINK PILLS

This Tonic is Necessary for Their Proper Development and to Insure Health and Strength.

There are throughout Canada thousands and thousands of young girls who are in a condition of physical decline. The complexion is pale or sallow. Appetite flake. A short walk or going up stairs, leaves them breathless and dizzy. Headaches and dizziness often adds to their misery. Doctors call this anemia—which in common English means poor blood. There is just one sure and certain cure for this trouble—Dr. Williams' Pink Pills. These pills make new, rich, red blood, strengthen every nerve and bring a glow of health to pale faces. Do not waste time and money experimenting with other medicines. Do not delay treatment until you are in a hopeless decline. Get Dr. Williams' Pink Pills at once and see how speedily they restore your health and strength. Here is the proof. Mrs. Joseph E. Leprie, St. Jerome, Que., says: "My daughter Emma began to lose her health at the age of thirteen years. She suffered from headaches and dizziness. Her appetite was poor. She was pale and apparently bloodless. She had no strength and could neither study nor do any work. Doctors medicine failed to cure her and I thought she was going into decline. She was in this condition for several months when a neighbor advised the use of Dr. Williams' Pink Pills, and I decided to give them a trial. A long while after an improvement was noticed, and the continued use of the pills for a month or so completely cured her, and she has since enjoyed the use of health. I feel sure that Dr. Williams' Pink Pills will cure any case of this kind."

Dr. Williams' Pink Pills will cure all troubles due to poor and watery blood, such as rheumatism, neuralgia, indigestion, partial paralysis, sciatica, and the ailments that make the lives of so many women miserable. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

WHEN WANTS ARE KNOWN RELIEF IS SOON FOUND

How the Poor and Distressed Are Faring—Welcome League Distributions.

The members of the grain section of the Toronto Board of Trade have collected \$250 in cash to relieve the needs of the unemployed. This money will be divided equally among the Nursing Home, Beverley-street, the Nursing-at-Home Mission, Hayter-street, and the Toronto Mission Union, Hayter-street. Besides the cash contributions, 50 90-pound sacks of rolled oats and a barrel of flour were added to the fund.

In all, 300 men and boys were clothed yesterday at the British Welcome League, and 200 the day before, while the food counter was used by over 600. Hot coffee and food is served to all comers.

A young man who asked for an overcoat was given a good one and just about to put it on when he saw an old man shivering beside him. Handing the coat to the old man, he said, "You need it more than I," and he picked out one more from the store and put it on and went on his way.

Robert Hall of the Toronto City Mission writes: "In this time of lack of work, severe cold and the consequent distress so prevalent at present, it may be of interest to the public to know that the City Mission has not been behind in taking its share in the work of relieving distress through the city, neither have the friends forgotten that our missionaries have great opportunities for recovering the quiet sufferers, who, unless compelled by dire necessity, would never let their needs be known. Thus far we have been able to secure for every needy family we have discovered or that has been reported to us, and for the last few days we are recovering the quiet sufferers in almost every part of the city."

A Great Fur Sale To-Day. "Good evening, Mr. Gough!" "Good evening, World!" "Glad to see you, World, but we're too busy to talk. Something doing, you see?" And as the affable Mr. Gough pointed to boxes and boxes that had just arrived from their big Winnipeg warehouse it looked like business in reality. This morning the firm of Sellers-Gough will inaugurate one of the most sensational and important fur sales that have ever taken place in Toronto. For several years the firm have carried on a large trade in wholesale furs in Winnipeg, and carried an enormous stock. They have decided to close out of the Winnipeg business, and thousands of dollars' worth of beautiful furs have been arriving here all week. These garments are all their own manufacture, and will be placed on sale this morning. Not a single garment or fur of any description will be put in stock, and prices have been reduced from wholesale sale prices from 25 to 50 per cent. It is a great opportunity to secure fine furs at less than wholesale prices. An entire staff of salespeople have been engaged, and no one will be kept waiting. The sale starts promptly at 3.30, and buyers are requested to come early.

Degree of insanity. The various degrees of homicide were defined. "The general question is raised, whether the accused is committed by a person responsible for his acts, and the burden of establishing sanity is upon the prosecution. If, therefore, one voluntarily or willfully does an act which has a direct tendency to destroy another's life, the act is homicide or in any sense mitigate the taking of human life. In the eye of the law, to murder the vilest and most abject of the human race is as great a crime as to murder its greatest benefactor."

BAFF SEIZES SCROLL

CLIMAX OF CONTENTION. The war of the Holy Scrolls goes on. Another battle was fought yesterday afternoon at the Sons of Abraham Synagogue, in West Richmond-street, when, after a hand-to-hand conflict, Frank Woods, bailiff of the tenth division court, carried off the sacred parchment from the walls of the temple under a writ of replevin issued by Judge Winchester in the absence of Judge Morgan.

The coveted and sacred symbols now rest in the strong vaults of the court. More than two months ago strife arose in the schismatic synagogue, when Messrs. Phillip Rosenber and Benjamin Bokkin led a secession of many members of the congregation. They removed to new quarters at University-avenue and Christopher-street, taking with them the Holy Scrolls. As soon as the loss was discovered, a horde of yelling Israelites surged down upon the new home of the seceders. The caretaker, Jacob Glatinsky, was hurt, and two of the assailants were fined in the police court for theft.

The defendants are Aaron Collis, president, and Asher Goldman, secretary, of the Richmond-street Synagogue. His finger was broken, and the onslaught, but even then he clung to the head of the bailiff's horse and had to be removed by Plainclothesman Chas. Young.

CZAR MUST WHACK UP.

Winnipeg Court Demands \$200 for Expenses. WINNIPEG, Man., Jan. 31.—To-day an order was filed in the sensational suit of the Czar of Russia against Stefan Ludofsky, calling on the czar to pay the cost of \$200 for costs, according to the statute which provides for the same in the event of the plaintiff residing outside the jurisdiction of the court. In the default of such security the action will be dismissed.

Now that the city is informed as to the fact, there is a practically unanimous expression of regret at the occurrence. Directly, by her gift to many public enterprises and philanthropies, and indirectly by the number of her followers who came to Concord as frequent visitors, the municipality profited greatly.

A Simple Remedy Well Worth Trying

Thousands are in the same boat... I was sick with grippe, and last winter came I was weak, bilious and rheumatic. I used enough medicine to cure twenty times, but I didn't get any help till I tried Dr. Hamilton's Pills. They purified my blood, took the yellow color out of my face, put new tone in my stomach, and increased my appetite. The bilious attacks and rheumatic pains gradually departed, and Dr. Hamilton's Pills made a new man of me. I proved to myself that they were a medicine for all men.

THE MAGI CALEDONIA WATER OF CANADA

A New Industry to be Started with a REMARKABLE BOTTLING PLANT at CALEDONIA SPRINGS.

Caledonia, Spring, the beautiful space situated midway between Montreal and Ottawa...

Business men at the head of the Caledonia Springs Company look to the possibilities of the springs...

matter of time before the water should pass from the use of the poor and stunted...

which precludes the touching of the bottles by hand, but also because of the elaborate precautions which are taken...

The success of this industry is assured from the start, for the saline water of the place is not only valuable for its curative properties...

It was as far back as 1915 that the springs first became known to civilization, a suffering white man being guided...

Since the plant has been approaching completion it has been an object of much interest to many visitors...

The method of bottling the water is distinctly different from that of the extremely ingenious machinery...

NATAL ACT PASSED

BY B.C. LEGISLATURE

McBride Says Lemieux Bargain is No Better Than the Fisher Assurances.

VICTORIA, Jan. 31.—At the conclusion of a lengthy debate, the British Columbia Legislature again passed the Natal Act yesterday afternoon unanimously.

J. A. Macdonald, the opposition leader, delivered a lengthy criticism, concluding, however, with the words: "I feel it my duty to support this measure."

The chief point in the address of the opposition leader was that the Natal Act would not exclude either Japanese or Chinese. Under the British North America Act, the province has power to legislate with regard to immigration.

Equal care is taken to prevent the possibility of contamination from any foreign substances on the bottles. These first go thru the washing-room and are then passed to the filling-room, where they are sterilized by steam...

The C.P.R., your friends, are selling the land, returned Liberals, and now have five large camps of Japanese on a small extension of the line on Vancouver Island.

# THE BIG FUR SALE BEGINS TO-DAY

## The First Scene in the Big Fur Sale—Positively the Greatest We've Undertaken in Toronto

WE'RE off to a good start to-day in our February Stocktaking Sale. There is a tremendous assortment of beautiful fur garments in our own showrooms and the factory is bombarding us with more every day. Great effort must be put forward to keep the "pot a-boiling"—for we need the ready cash.

We're putting ginger into the sale with such prices as we give below. Every garment is but recently received from the factory—all this season's fur—and we're turning them over with the smallest possible margin of profit in order to keep our factory working with its old staff of employes. Many things we have marked below cost. This sale is absolutely for cash only, and under no consideration will other terms be considered.

**PUBLIC LIBRARY BOARD.**  
Demand for Books in Reference Department on Increase.

The Public Library Board of 1907 held its last meeting yesterday and prepared the way for the new board, which will assemble in a couple of weeks. The retiring chairman of the board, chief Justice Falconbridge, in his annual report said that the present library was in a congested state, but the new building was well under way and by the end of this year the accommodation would be more adequate. During the year 358,736 books had been given out, an increase over 1906 of

1600. The demand for books in the reference library had shown a considerable increase.

The treasurer's report showed that \$48,738.35 had been expended and a balance of \$43.65 left in the banks. Of the receipts, \$46,957 had come from the city taxes.

A resolution, moved by H. T. Kelly and signed by A. E. Huestis, extended to the retiring chairman the thanks of the board for his services.

**Milligan Gets \$1000.**  
The jury in the assizes yesterday gave George Milligan \$1000 damages in his suit to recover \$2000 damages from the Toronto Street Railway for injuries received, when he was driving his carriage across Church-street, by being struck by a car.

**NAMING FLOWERS CORRECTLY**  
Special Committee to Correct Mistakes is Now Busy.

The committee on the nomenclature of plants, which was appointed at the last annual meeting of the Ontario Horticultural Association, has begun its work. A meeting was held in Toronto yesterday, at which it was planned to have some valuable information presented at the next annual meeting of the association. The members of the committee present were: W. Hunt, Ontario Agricultural College, Guelph; J. Birmingham, fifteen miles south of Cavers, Oakville; W. T. Macoun of the Central Experimental Farm, Ottawa, and H. B. Cowan of Toronto.

The object of the appointment of this committee was to correct as many mistakes as possible in the names and descriptions of plants in common usage. The committee also hopes to present to the association at its next annual meeting lists of the best varieties of some of the most popular kinds of plants, correctly named and described.

**TORONTO WOMAN SHOT BY DAUGHTER**

BIRMINGHAM, Ala., Jan. 31.—Mrs. C. Shanahan, wife of a contractor on the extension of the Louisville & Nashville Railroad, fifteen miles south of Birmingham, last night shot and killed her mother, Mrs. Rachel McWilliam, her mother, who was here on a visit. The killing was accidental. The body will be sent to Toronto for burial.

### FOSTER PROBED TOO DEEP CHAIRMAN RULES AGAINST

Uproar in Committee When Member for North Toronto Would Refer to House.

OTTAWA, Jan. 31.—The examination of H. H. Wickwire, marine agent of the Sub-Target Gun Company, was continued to-day. Mr. Foster, questioning him relative to the purchase of 200 sub-target guns by the militia department, insinuated that Mr. Wickwire and others, who were supposed to have influence with the government, were given stock in order to exploit the government and load them up with the guns. E. M. Macdonald took objection to Mr. Foster going into private relations between members of the company. He should confine his attentions to showing that the country had not received good value for the money expended.

Foster produced alleged copies of letters alleged to have passed between Wickwire and Jewell, the founder of the company, but strenuous objection was taken by several members that the proceeding was illegal. An uproar followed when Mr. Houghton Lennox said that too many legal members of the committee devoted their ability to blocking the investigation on antiquated practices of law. Technical objections and legal quibbles should not be allowed to balk evidence being brought out. He threatened to bring the matter before the house and the country. For half an hour the committee resembled a bear garden.

Mr. Pugsley thought Mr. Lennox should be the last man to reflect on a lawyer as he had claimed to be one. "I am true to my clients at least," said Lennox.

"Is he not?" said Mr. Pugsley. "Mr. Lennox should explain."

"I'll explain nothing," said Lennox. "His client is the Conservative party," said a member.

Chairman Carvell ruled that Mr. Foster had no right to question as to private relation between different members of the company. His ruling was sustained by a vote of 23 to 8.

Mr. Foster made a motion that the matter be reported to the house, which was another uproar. Mr. Pugsley opposing him. Conservative members insisted that the practice was a usual one.

The debate on the question was laid over till the next meeting.

### ALL SETTLED BUT TIMBERING

Coal Strikers Claim This Means a Reduction.

VANCOUVER, B.C., Jan. 31.—J. D. Hurd, general manager of the Crow's Nest Pass Coal Company, said to-day that he expected the strike at Coal Creek would soon be settled. The men claim that the management have altered the conditions of timbering in such a way that it means a reduction in wages, and they demand an investigation. The company, however, declined to alter the old methods of timbering to continue, and refused permission for the men to go to work unless they timbered under the new management, which they refused to do. Other minor grievances were settled last night at a conference with the management, and the question of timbering will be discussed by a meeting of the joint board of operators and employers on Feb. 10. It is believed the strike will spread to other properties of the same company.

### RAILWAY MEN PROTEST.

C.P.R. Employees to Hold Mass Meeting to Discuss Reduction.

The C.P.R. employees will meet in James' Hall, Toronto, to-day to protest against the policy pursued by the railway company in cutting down the staffs in the various departments. The position taken by the men is that there is no need of the men being discharged, because there is plenty of work to be done. The protest will be forwarded to the head offices of the company.

### CAPS SERVED; GLOVES NEXT.

After the cold spell the firemen were yesterday served with their winter's fur caps. The caps have been in the department stores for the past seven weeks. The men are still waiting for the gloves, which are provided every two years, but have not yet put in an appearance.

### More Bread Cases.

For selling lightweight bread Abraham Pecchi, an Italian baker, of 12 Devon-avenue, was fined \$30 by Magistrate Kingsford in the afternoon police court yesterday. Twenty loaves were seized, which were 120 ounces light.

### Not Criminal Matter.

Robert E. Kemmerer, broker, 18 East Adelaide-street, was arraigned before Magistrate Denison yesterday charged with theft of \$11,119.88 from McCrae, Chandler & McNeil, contractors on the T. & N. O. Railroad. The case was adjourned to Thursday. The defence says that the deal is purely a matter of civil litigation.

### Italian Pleads Guilty.

Nazareno Milione, arrested by Detectives Moffat and Twigg at Woodbridge Thursday for wounding Minnie Lapello Friday last, pleaded guilty to that offence and was remanded a week to allow the authorities to read his record.

### Brookville School Reopening.

BROOKVILLE, Jan. 31.—(Special.)—The local smallpox situation is considered to be so well in hand that the schools, which have been closed for several weeks on account of the epidemic, will reopen on Monday. Before being admitted pupils must file proper certificates as to vaccination. The disease has been almost stamped out.

### A DIVORCE GRANTED.

After many years of patient suffering you can be divorced from corns by applying Putnam's Corn Extractor, which acts in 24 hours without pain. Refuse a substitute because Putnam's is the remedy that is safe and painless.
