BRIDEUR'S BILL BROUGHT TO DE A SQUAD

Minister of Marine Finally Admits That Ontario Did Not Publish a "Confidential Document."

OTTAWA, May 18.—(Special.)—The dying days of the parliamentary session have been fruitful of debate more than their wont, and this may be accounted for by the eagerness with which the young importations into the opposition ranks enter into the lists with the veterans of the government.

Mr. Brodeur was compelled to admit that the Ontario Government had not published the document in question, and that it was merely a draft regulation published by Dr. Starr Jordan all over the United States.

MOTHERS SAYS GIRL KILLED HER FATHER

Accused, Young and Pretty, Protests Innocence—Police Declare It a Case of Insane Mania.

ST. PAUL, Minn., May 18.—(Special.)—A remarkable case, in some respects strangely suggesting the Kluge affair at Hamilton, Ont., is the present sensation of this state.

Louise Arbogast, twenty-three years old, fearless, but pitifully protesting her innocence, is in the hospital ward of the county jail, held for further hearing in the police court, charged with the slaying of her father, Louis Arbogast, a wealthy butcher, whose head was crushed with an ax as he lay in bed at his home, and whose body was saturated with gasoline and set on fire.

The girl's accuser is her mother, Mrs. Minnie Arbogast, who has herself been under arrest for three days at the city hospital.

Had the police not been able to connect circumstantial evidence with the mother's statement the charge of murder would have been preferred against the wife instead of the daughter of the slain man.

The story of the mother, the accusing story which brought Louise Arbogast to the bar, bears out the statements of the authorities as to the girl's mental condition. The very nature of the act, indeed, indicates maniacal frenzy, the cunningness of some of her alleged attempts to cover up the slaying is declared to establish the fact, and the asserted inconsistencies of her statements after the slaying are said to have been the lapses of cunning duped by judgment common to crimes committed by the insane.

Mrs. Arbogast defended her daughter by ostentatious silence up to the moment when the police charged her with the murder and forced her to accuse Louise in self-defence.

Mother Breaks Down. The mother had been broken down and forced to make admissions which had grown into accusations. Louise, as she was by her mother's bed with the police, a target of that battery of searching eyes, maintained an absolute denial when she was urged to confess her guilt. Finally the mother, in an outburst of desperate anger, cried:

"Louise, it is either you or me. Tell the truth, tell the truth. You were outside father's door when I came from the bathroom. You must tell the truth."

The girl was silent. The mother persisted. She almost shouted, "You say you didn't do it, but I know you did."

But Louise professed to remember nothing and stared straight at the mother until the terrific strain was broken by her sobs and the two embraced, weeping bitterly, the girl kneeling by her mother's bedside and persisted. She almost shouted, "You say you didn't do it, but I know you did."

The girl was arraigned in court and listened to the reading of the charge. She said she needed no attorney. A plea of not guilty was entered, and the prisoner taken to jail, the case being continued till Thursday.

Police Call Girl Insane. It is declared at St. Luke's Hospital that Miss Arbogast, who is one of the most beautiful young women of Minnesota, is irresponsible because of a father in a moment of demagogical frenzy caused by hallucinations which have for months been pursuing her.

INSURANCE BILL GOES OVER

Senate Will Not Decide on It Until Next Session.

OTTAWA, May 18.—(Special.)—The insurance bill is a dead issue so far as this session is concerned. The bill, introduced by Sir Mackenzie Bowell, thought the bill should be introduced into the senate early next session, as the commonsense fully considered the measure during this and previous sessions. Sir Richard thought he could promise this.

The following bills were given third reading: Resolving of the measure for the extension of the Canadian Northern Railway; to provide for further advances to the harbor commissioners of Montreal.

The bill to allow the crown to take small exchequer appeals to the appellate courts of the provinces was also defeated. Senator Belscourt, thought the bill would lead to confusion in exchequer appeals.

The Gurney-Oxford Gas Range Has All The Newest Improvements NO PILOT LIGHT TO OVEN BURNERS

The oven burners in the Gurney-Oxford Gas Range require no complicated pilot light. The oven door must be opened before lighting, and after turning on gas valve at side apply match to small round hole on right face side of oven. This is assuredly the simplest and safest lighter ever invented. Other features are the new style burners, the wood oven handles, that are always cool, and many other important features that make this range the best to buy from every viewpoint.

EXTENSIVE FRAUDS IN WRITING EXAMS

Exposure of Flourishing Traffic in Impersonation of Students by Clever "Understudies."

ALBANY, N. Y., May 18.—What may prove to be a flourishing traffic in regents' certificates admitting the holders to medical, dental and law schools throughout the state, has been uncovered by the state department of education. That numbers of these certificates have been sold, and are now held by students whose papers in the regents' examinations were written by other persons, was brought out in a hearing before Dr. O. S. Draper, commissioner of education, in the case of a student who has completed his second year in one of the New York dental colleges. Investigations conducted during the last year reveal a clever system of impersonation, operated by persons who advertise "regents' examinations made easy." According to the officials, applicants were told that for a certain sum of money they could be assured of passing the examination. The advertiser, taking advantage of the large number of persons examined, would then appear in the name of their client, answer the questions and make out the papers, hoping to escape detection. In a statement issued to-day the department says:

As a result of the investigation of the impersonations it has been found that one Max Sosinsky, a graduate of the College of the City of New York, has written papers for 14 different men. Of these 14 two are graduates of law schools, one had entered on a law school course, one is a graduate of a dental college, two were about to receive their degrees this month from a dental college, and two have completed the second year of work in a dental college. The holder of one certificate has completed his first year in a New York medical school. The rest have either not yet applied for their certificates or have not yet entered any professional school.

In two years a certain professional impersonator earned between \$3000 and \$4000 by obtaining certificates, which are equivalent to a four years' course in a high school and must be obtained before a student can take up the study of a profession such as medicine, law or dentistry.

University Women's Club. The annual meeting of the University Women's Club held yesterday afternoon at St. Hilda's College, the president, Miss Curlette, occupying the chair. Reports were read by the retiring secretary and treasurer, and Miss Addison, for the committee appointed to deal with the proposed women's college, spoke encouragingly of the matter. The senate has no power to deal with the matter other than in the form of a resolution, and as the question has not come before the board of governors, it may be allowed to drop. The vigorous opposition which has been evidenced.

An interesting feature of the meeting was a talk on the life at Radcliffe College (Harvard) by Mrs. Emerson. The following executive, from whom the officers will be chosen, was elected: Mrs. M. Wallace, Misses Hester Yonge, Addison, Cartwright, Riddell, Curlette, Hardy, A. W. Paterson, Wood, Dr. C. Benson, Mrs. Parker and Mrs. Leisnering. After the meeting afternoon tea was served by Miss Cartwright.

PRAYING FOR GIPSY SMITH

Lepers in India Interested in Toronto Revival.

The closing monthly meeting for the season of the Toronto branch of the Mission to Lepers was held at the Bible Institute yesterday afternoon. Rev. W. B. Byers, who has spent 22 years in India, gave an address. Rev. Dr. Parsons presided. Rev. Mr. Byers said that the asylum which he established by the help of friends of the lepers in 1891 had 120 inmates. While a Miss Reid, a missionary, had been cured of symptoms of leprosy, all "cures" for lepers who indicated the disease had failed. Some of the hoped for cures had been very costly. The experiments with them had been at government expense. The lepers in the asylum with which he was connected, 400 miles from Calcutta, had a praying band of lepers, who had been praying for the success of the Gipsy Smith revival in Toronto ever since it was announced nearly a year ago. Rev. Mr. Byers will return to India in September. His wife is also a missionary.

CAN RECEIVE COMMUNION

High Court's Decision in Peculiar English Case.

LONDON, May 18.—Judgment has been given in the Norwegian communion case, in which Canon Thompson appealed against the decree issued by the court of arches that he cease to receive the sacrament to Mr. and Mrs. Banister. The king's bench court today found the refusal of Canon Thompson illegal. Mr. Banister married his deceased wife's sister in Montreal.

The case of the Banisters is peculiar in that the refusal of the communion to them in a Church of England was a breach of the recently passed law in England, which recognizes marriages with deceased wife's sister. Canon Thompson's counsel argued that the church refused the sacrament on grounds of such marriage being immoral.

FOUR MEN ARE DROWNED IN RUNNING THE RAPIDS.

OTTAWA, May 18.—Four men have been drowned at a rapids on the Petawawa. They are Thomas Day of St. Regis, Que., John Jackson, a man named Lazore and a fourth name unknown. The three latter are of Ogdensburg, N.Y. Eight men were in a boat that upset. Three swam ashore and only one emerged alive from the rapids.

Banish Dust--Disease Bearing, Dangerous Dust FROM YOUR HOME EVERY WEEK WITH THE CHATHAM VACUUM CLEANER

This handy little machine is the greatest boon for the housewife invented in modern times. It makes a thorough and sanitary house-cleaning possible every week of the year—and the work is easier and more thoroughly done than one room could be cleaned under the old, unhealthy broom and dust method. No matter where the dust is, in carpets, rugs, cracks, floors, curtains, walls, ceilings, it has to go—and it isn't just scattered from one place to another, but is deposited in a tightly closed receptacle to be disposed of afterwards. It's the only safe, sanitary way to clean house and a child can operate it.

PRICES: Hand Power Machine, \$25. With Electric Motor (for house current, one cent per hour to operate), \$65. EASY TERMS IF DESIRED.

CITY IMPROVEMENTS.

Toronto has long suffered in matters of city improvements from the handicap of limited powers of expropriation. The Toronto method is to decide upon an improvement, pay damages to the owner of the property chiefly affected and who is usually most benefited eventually, and then levy taxes to pay the cost. In other cities which have had the advantage of a business administration the method has been to expropriate the property required and also the adjacent property which would be most enhanced in value, and when the improvements are completed, market all that is on hand at prices which cover the whole cost. The academic view that by the present method the taxes pay the cost anyway, is one that overlooks the important fact that the imposition of taxes is the greatest possible bar to local improvements.

The city's powers of expropriation were recently extended. The former powers enabled the city, if it wished to widen a street or effect similar improvements where house property was required, to take half of a house, if so much was needed, and no more, and pay the owner damages for the injury done to his remaining portion. The legislature has now magnanimously permitted the city to buy the whole house, so that a better settlement may thus be made.

But what possible objection can there be to the extension still further of this principle? If it is right to take the whole of a man's house, why is it wrong to take his back yard and garden, and his neighbor's lot, too, if the whole city is to benefit? The widening of Yonge-street could be profitably carried out by the city and the whole cost covered by the sale of the property remaining after a comprehensive expropriation.

A much vaster improvement was carried thru in Belfast, Ireland, thirty years ago when that city was a much smaller place than Toronto is now. Any real estate man in Toronto would jump at the chance of buying up the east side of Yonge-street to Victoria-street, and after widening Yonge-street selling the improved property. What the individual could do the city could do just as well.

The same principle applied to the extension of Victoria-street, north to Bloor, or of Harbord-street, westwards, or the construction of the Bloor and Danforth viaduct, would have equally happy results.

of the age was colonial nationalism rather than dependency on Downing Street the time was opportune to make a beginning in trying to defend ourselves. If the fate of England was to tremble in the balance in the North Sea was that any reason why they should not begin the creation of a navy which would immediately lessen the burden on Britain and would eventually enable them to come to her assistance? Surely that was patriotism of the highest order, he declared, and his audience cordially agreed. A nearer and closer business relation between the colonies was an immediate essential. The all red cable connection was another, and an inter-colonial imperial service which would deliver the mails in three weeks from London to New Zealand was a third. "These are but three things," he concluded, "which, if our statesmen would put the Empire first, would be consummated in a week."

THE STERLING BANK OF CANADA.

From the report and financial statement presented to the third annual meeting of the shareholders and appearing in another part of this issue of the World, it will be seen that the Sterling Bank of Canada had a very successful year and continues to progress in public confidence. The profits for the year ending April 30 last after deducting management charges and making provision for bad and doubtful debts and other possible deductions, amounted to \$4,146.12. This with the balance of \$27,646.83 from last year's account, and \$9,255.12 premium on stock sold, makes a total of \$41,048.07 available for dividend. After payment of the quarterly dividend at the rate of 5 per cent. per annum, \$23,822 was transferred to the reserve fund and the balance of \$17,226.07 carried forward at the credit of profit and loss account for the current year.

George v. Strong—J. H. Spencer, for defendant, on motion for security costs. G. H. Kilmer, K.C., for plaintiff, contra. Judgment (H.) whatever may be the real facts there is not a sufficient affidavit within the decision in Hollingsworth v. Hollingsworth, 10 P.R. 55. But as there is no affidavit contradicting the statement of plaintiff having gone to England, and the motion stands for an order for defendant to pay the costs of the motion, unless he can prove otherwise it will be dismissed with costs to plaintiff in the cause.

Belmont Bank v. McPherson—W. J. Boland, for plaintiffs, on motion for judgment, under C.R. 88, v. B. Mill, for defendant. Judgment (H.) Action against defendant on a guarantee. The defendant has been cross-examined. He admits his signature and abandons all grounds of defence save in his affidavit, except that he does not know the amount due under the guarantee. On this there is no proof on the motion whatever the fact may be. It seems, therefore, that the defendant should have this motion dismissed, if he so desires. This case is very close to the line, but the motion will be dismissed with costs in the cause. But the defendant should consent to a speedy trial as possible or to a reference to ascertain the amount of the liability under the guarantee.

Men! Great Values in Split-Second Timers

We've priced a number of high grade watches with the special "split second" arrangement at a figure that most of them, perhaps, couldn't be made for.

THE SPLIT SECOND WATCH is for timing races, boats, automobiles—ANY moving object. A large hand the size of the usual "minute" hand gives the "seconds" which are enumerated around edge of dial. This hand can be started and stopped at will.

All highly finished nickel movements of 11, 15 and 17 jewels. Cases of silver, gunmetal and nickel. The quantity is limited. Take your choice **10.00** Thursday at great price saving; for, each.....

Also one SPLIT SECOND CHRONOGRAPH in silver case. This watch gives every evidence of highest skilled workmanship and finest of materials; 17-jeweled nickel movement. An *Al* time keeper. The split second attachment is of peculiar interest; two "second" hands instead of just one; when a race promises to end in a close finish, release these fingers and stop as each contestant crosses the line; you thus have the indisputably exact time of each runner.

We offer this Chronograph at tremendous price-saving Thursday; for **25.00**

And a Great Big Clear-Up of Men's Watches at \$1.95

A Seven-Jewel Watch, in Silver Case, for \$1.95

It's extraordinary, you'll admit. And fine full-jeweled escapement nickel finished movements, in nickel or gunmetal cases for same money. Also alarm watches in nickel and gunmetal cases.

There are dozens of each. Every watch perfect. A truly extraordinary clearance. **1.95**

MISSIONARIES' PLANNINGS

HAVE WONDERFUL EFFECT

Excursions From Woodstock and London Bring Crowds to Gipsy Smith Meetings.

If ever there was a shepherd walked by the still waters it is Gipsy Smith. He knows all the green pastures, and his gentle pleadings have a wonderful effect on the thousands in Massey Hall.

Excursions from Woodstock and London brought several hundreds to Massey Hall yesterday evening. Dr. Ross was the bearer of an invitation from the ministerial association of London to Gipsy Smith to hold a mission there during the winter.

Children's Day—Friday will be a great occasion. It has been arranged to close the regular meeting at a quarter to four, and the children will be admitted afterwards.

It is to be a young people's meeting, said the missionary, "for those who are not yet married. I don't want any old-fashioned women."

The tickets for Monday night's lecture are going fast. Only enough are left to fill the hall, and only ticket holders can be admitted.

At the afternoon meeting Rev. J. J. Jackson read the address from the Epistle of Jude. Many regretted that the committee had not reversed the order.

Misconceptions of Religion. In the afternoon Gipsy Smith dealt with several ordinary misconceptions about religion.

There is a popular theory existing among multitudes of so-called good people that the Lord will reward people of every kind and every loving, and anything will do for Him.

Mr. Foster asked if it was the fact that an invitation had been given to the provincial ministers to discuss the regulations.

Mr. Brodeur admitted this, but insisted that the document had been marked confidential.

Mr. Brodeur asked Mr. Taylor to say whether the Ontario Government was justified in publishing a confidential document and Mr. Taylor replied that he was not called upon to answer a hypothetical question.

Mr. Foster read the reply of Dr. Reumeau to the charge of breach of confidence made by Mr. Brodeur.

Mr. Brodeur read the telegram just received from Dr. Reumeau, and said that the document which had been published was not from him.

Mr. Borden's Poser. Mr. Brodeur then read the telegram just received from Dr. Reumeau, and said that the document which had been published was not from him.

PICTURE SHOWS NO HINDRANCE TO BUSINESS DISTRICTS

Aldermen in Favor of Restricting Further Development of the Theatatoriums.

The civic fire and light committee yesterday sent to council Ald. Macgillivray's motion providing that no permits for picture shows other than on street corners be granted, adding the recommendation that no licenses be issued in future unless approved by the committee and the council.

Chief Thompson asserted that there wasn't a picture show which hadn't a rear exit, and that every one had been inspected by himself and the city architect before a permit was issued. He believed, however, that under recent legislation, the whole power of regulation was transferred to the police department.

Chief Thompson gave the report requested by Ald. McMurrich, on the cost of additional fire protection in the new seventh ward year, as follows: Salaries of six men taken over at annexation, for eight months to Dec. 31, 1909, \$2913; keep of eight horses for eight months, \$485; clothing for six men, at \$40.75 each, \$244.50; gong and connecting Junction firehall with Brock-avenue firehall, \$225; four additional men, ordered by the city council, for eight months, at \$52 each per annum, \$1400; clothing for four men, at \$33 each, \$132; total, \$5490.80.

Additional apparatus required: One two-horse hose wagon, \$500; 1000 feet fire hose, \$1000; one team of horses and harness, \$400; and keep of horses for six months, \$140.

Total amount required \$7649.50. The overburden of the electrical variety, will continue to do business at the old stand.

The works committee so decided yesterday thereon, running counter to the ideas of the city engineer, who would bring about a wholesale slaughter of all wooden signs that project over the street.

A deputation from the Retail Merchants' Association, headed by E. M. Trotter, the secretary, opposed such an edict as an injustice to business men and tending to place a monopoly in the hands of the electric sign makers.

Owing to protests here and there against proposed new names for West Toronto streets, to avoid clashing with names of other cities, the committee did some revising.

The recommendations altered were: Albany-road from Ryding-street to Gunn's-road, Carlton-place from Con-roy-street to Miller-street, Franklin-avenue from Goodie-avenue to Ryding-street, Peal-street from Hal-street to Beresford-street, Wilson-place from Union-place to Rowntree-street, Wellington-avenue from Acton-avenue to Hal-street.

In addition it was decided to change the name of Union-street and Ontario-street, a continuation thereof, to Wood-ville-avenue, Campbell-avenue, north of St. Clair-avenue, to Brad-avenue; and to Kendal-avenue, extending from Walmer-road to Kendal-avenue, to Kendal-avenue.

At Controller Geary's suggestion, the police commissioners will be asked to order the taximeters used on taxicabs from the rear to the front wheels. He thought that as the rear wheels frequently skidded and involved when the front wheels didn't advance the records weren't accurate.

Controller Harrison suggested that the city annex the strip lying between the city and the Township of Scarborough, running south of the former Town of East Toronto to the lake, being 400 yards wide and a mile long, on terms similar to those which the Midway was annexed. Action was deferred pending a conference on Thursday with representatives of Scarborough and De-voort on the annexation question.

MONTHS OF AGONY

A Severe Case of Rheumatism Cured by Dr. Williams' Pink Pills.

"For many weary months I suffered untold agony. I could not walk, I could scarcely raise my head and posture. I was under medical care, but in vain. Finally I tried Dr. Williams' Pink Pills and they have restored me to my former healthy condition."

This strong statement was made to a reporter recently by Mr. Charles S. Keddy, formerly of Kingston, N.S., but now living at Port Maitland, N.S. Keddy is a carpenter by trade, and is now able to work as usual. He said: "I cannot speak too highly of Dr. Williams' Pink Pills. As they cured me after other medicine failed, while I was living in Kingston, N.S., I was seized with rheumatism in its most violent form. It was compelled to take to my bed and for months was an invalid. I was so weak that it was difficult for me to raise myself to a sitting posture. It is impossible to tell how much I suffered day and night, week in and week out. The pains were like piercing swords. I had medical attendance, but it failed. Then I tried medicines advertised to cure rheumatism, but with the same result—money wasted. One day when hope had almost gone a friend advised me to try Dr. Williams' Pink Pills. I told him my experience with other medicines, but he assured me that these pills would cure rheumatism, so I sent for a supply. After using a few boxes I was able to leave my bed, and from that time on I have been able to work as usual. I am now as well as ever. I have not had the slightest touch of rheumatism since. The change they have wrought in my case is simply miraculous, and I can strongly recommend Dr. Williams' Pink Pills to any one suffering from any form of rheumatism."

Rheumatism is rooted in the blood. Rubbing the aching limbs with liniments and outward remedies does not cure it. You must get the rheumatic acid out of the blood and Dr. Williams' Pink Pills is the sure medicine to do this because it actually cures the blood. That is why these pills cure anemia, headache, aches and backaches, neuralgia, indigestion and the secret ailments that miserably live the lives of so many women and growing girls. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50. From The Dr. Williams' Medicine Co., Brockville, Ont.

Money and records were taken and two young men found in the place will be used as witnesses for the crown.

FELL FORTY FEET

Stonecutter is Badly Hurt by Collapse of Derrick.

TWEEED, May 18--(Special)--A stonecutter, John McDonald, while working in Murphy's quarry, north of the town, fell 40 feet and received very serious injuries. He was working at the top of the derrick when the structure collapsed. One leg is broken, his face is badly lacerated and his nose split open. He is semi-conscious and the doctors are unable to determine at present whether any injury to the brain has resulted.

How to Cure Fretting of Infants

Mrs. Emma E. Percival Gives Advice That is Very Valuable.

When young children and babies continually fret and cry you can be sure in nine cases out of ten there is pain, caused either by wind or acidity of the stomach.

Writing on this subject from her home in Bedford, Mrs. Percival says: "As a nurse of many years' experience I can say that nothing I know of will give such splendid results as Nerviline in four drop doses in hot sweetened water. I once had a case with a baby that cried continually, suffered as if in convulsions--Nerviline relieved at once. I have also used Nerviline with grand effect for cramps, stomach gas, indigestion and stomach disorders. For general household use, to cure the many internal ills that constantly arise, I can recommend no preparation so honest, reliable and economical as Nerviline."

Nurses, physicians, laymen--thousands that use Nerviline every day, all testify its pain-subduing, health-giving powers warrant it being kept in every home. Refuse any substitute for NERVILINE, which is sold in large 25c bottles by all dealers.

COBALT--- Important Strike on the Hargrave ---COBALT

Local Mining Market Strong Business on the Increase

Temiskaming Has Quick Up and Down Movement—Strike on Hargrave Causes Rise in the Stock—Beaver Very Active.

World Office, Tuesday Evening, May 18. Business was still good at the local mining markets to-day and the brokers report no falling off in the volume of outside orders. The market opened strong and after a slight reaction closed very firm with a strong upward tendency.

Temiskaming had a sensational rise in the early morning, selling up to 1.40, but a sharp downward turn took place later and it lost most of its gain. Short covering was given for the reason of this jump, the on enquiry it was found that some good buying orders were in the market. Someone closely connected with the interests of the company told a holder of these shares the other day that he expected to see this covering in the market by the end of June. The stock closed firm.

Beaver was again the most active issue, selling up to 43 at one time during the afternoon and closing strong round 40. Advices from the property still show that the recent find is a most important one.

Hargrave, amongst the unlisted stocks, was strong both locally and at New York. It sold as high as 53 1/2 on the Standard and closed in good demand at 57 1/2 bid. A good strike has been made on the company's eastern property.

MYSTERY OF MINING DEAL

Remarkable Recovery of Papers Concerning Mining Properties.

J. Miller Neil, chemical and mining engineer, yesterday received a batch of papers to which an interesting story is attached. In February Mr. Neil made a report on some mining properties near Port Arthur, in which were diagrams, photographs, etc. These were handed to Mr. Robinson, owner of the properties, in Toronto. He had a deal on with New York capitalists, and the papers were forwarded to New York. Nothing was heard of them until yesterday, when the papers were forwarded by a Buffalo lawyer to Mr. Neil, stating that they had been recovered from a body of floating near Bermuda, in the West Indies.

Atlantic City interests are waiting anxiously for this man to return to Toronto. The Atlantic City interests will now be much surprised in again receiving these original papers from Toronto.

GATEWAY TO SILVERLAND

Anson A. Gard's New Book a Splendid Reference.

"The Gateway to Silverland," Mr. Anson A. Gard's new book, published by the Emerson Press, Toronto, at 11 is an excellent reference in the life and spirit of the country, and a mine of information concerning the mines of Cobalt, Silverland, the Montreal River and auxiliary districts. Mr. Gard writes with the authority of one who knows the north from long study, and his book is indispensable to mining men in any part of the American continent. The literary department of the Sunday World will make a more extended reference to this valuable book.

Machinery at Moose Horn.

ELK LAKE, May 15.—(From the Man Up There.)—The machinery at the Moose Horn is again running, after having been closed down for about ten days on account of the striking of the foundation of one of the boilers, and the consequent breaking of one of the hangers. The contractors are working three eight-hour shifts per day. At the bottom of the shaft, which is now down 125 feet, a new appetite vein was opened up. This vein is about six inches wide and looks very promising. Drifting has been commenced in the direction of the large appetite vein known to exist on the property.

CONSULTING ENGINEER EXPLAINS BEAVER FIND

Vein Found Only Confirms the Opinion Held and is As Told by Wire.

R. A. Bryce, consulting engineer of the Beaver and superintendent of the Silver Queen, was in Toronto yesterday. He was seen at the offices of the Beaver company by The World man and expressed himself as highly satisfied with the way in which this property is developing.

Asked about the recent rich strike, Mr. Bryce said: "It's hardly a surprise to me. I have always had faith in the ultimate success of the mine. The strike is all that it is said to be; why, even since Friday we have discovered that the vein widens from 10 to 12 inches in a very short distance, and values are as good if not better."

Mr. Bryce also gave the following information about the property: "The strike is 100 feet from the level of the main shaft, 50 feet on the east drift. This drift has been extended 130 feet in a northerly direction. The property shows some seven veins, all carrying calcite and quartz. Drifting on the Temiskaming property has been done on their rich vein, which carries 200 to 400 ounces to the ton, at the 250 foot level, to within 70 feet of the Beaver border line. Diamond drilling is being done at the Beaver at the point it is thought this vein strikes their property, and it is expected that it will be struck shortly. At the 75-foot level the company are drifting on two calcite veins, which are expected to give good silver values. The other shaft is sunk on a calcite vein some inches wide.

Vein Widens Out.

A special wire to Messrs. Wallace & Eastwood yesterday morning announced that the vein found on the Beaver property last Friday had widened out considerably under increased development, and that the ore is now running as high as 400 to 500 ounces to the ton. The wire also stated that the Beaver vein is now regarded as one of the finest discoveries in the whole camp.

Ready For First Blow.

ELK LAKE, May 15.—(From the Man Up There.)—The last mail to be packed out the trail will go out to Earlton in the morning, the contract for carrying the mail to and from Earlton ending to-morrow, the 15th of the month. On Monday the postal authorities expect to get their first mail boat via Latchford on their trip. In both directions from here as far as the eye can see, and boats are expected here at any minute. Boats have been running at 200 to 300 tons a week or more, and now that the snow has about all disappeared the town is taking on the appearance of spring. We are carrying a large load of supplies of every description, including groceries, meats, clothing, etc.; hundreds of canoes, and everyone in town has a friend coming on the "first boat."

ELK LAKE NEWS

First Boat Will Have to Be a Leveahna to Carry All the Stuff.

ELK LAKE, May 15.—(From the Man Up There.)—The first boat that leaves Latchford for Elk Lake will have to be about twice the size of a leveahna, if it is to carry everything promised for delivery by the "first boat." Tons of mail parcels are to be delivered by this first boat, in addition to supplies of every description, including groceries, meats, clothing, etc.; hundreds of canoes, and everyone in town has a friend coming on the "first boat."

JACOBS VEIN FOUND

On East Hargrave Property—Stock Has Sharp Rise.

The Standard Exchange was thrown into a furor this afternoon by the news that the Jacobs vein had been uncovered in East Hargrave. The following is a list of the stocks affected:

CAUSE OF POWER STOPS VIEW OF ELECTRICIANS

Transmission Line Claimed to Be Standard, But Lightning Can't Be Prevented.

Owing to the frequent disturbances and stoppages of power in the transmission equipment of the Toronto Niagara Power Co., a World reporter visited the Davenport terminal station yesterday to be enlightened as to the cause.

Supt. W. B. Boyd stated that there had been no interruption to the supply power between Oct. 30 last and March 10. Since then there had been several. On that date the flow of electricity was stopped for twenty minutes by a lightning stroke which broke a wire. The windstorm of April caused another break. On April 30 the service was out of commission for six minutes because of lightning. Then there were several disturbances on May 5, 7 and 15, which have already been reported.

A minute inspection of the equipment revealed a system of devices for the arrest of lightning shock, which, according to the engineer, represents the most recent discoveries in engineering science. Not all lightning bolts which strike the transmission line affect the supply of power. "But," said Supt. Boyd, "a lightning bolt which has been able to account for lightning or measure its force, so it is found the possibilities of scientists today to devise means that are infallible."

A lightning bolt which strikes the transmission line, in the first place, must be carried to the ground. If it is over a 4 to 1 1/2 inch gap before reaching the station, and if it is of sufficient strength to reach the station, it will be carried to the station by a specially constructed switching with copper coated paint, immersed in oil, and there is a cut-out which renders it "dead."

WIDE RANGE OF TENDERS FOR FILTRATION PLANT

Lowest is \$550,000 and Highest \$750,000, Exclusive of "Extras"

Tenders for the construction of the civic filtration plant were opened by the board of control yesterday afternoon, and were found to extend from \$550,000 to \$750,000. These tenders were for the concrete works and did not include valves, sluice gates and various other fittings, which will have to be contracted for separately.

The amount voted for the plant by the ratepayers was \$750,000. Controller Harrison, the father of the filtration scheme, says that he has been advised by the city engineer that the tenders for the whole work will be found to be within the estimate. There is no certainty on this point, however, Mr. Rust,

Day's Doings in YORK COUNTY West Toronto North Toronto East Toronto

RAILWAY BOARD PUT MIDWAY IN YESTERDAY

Order Goes Into Effect on Dec. 15—Liquor Seized in West Toronto—County Notes.

NORTH TORONTO, May 18.—(Special.)—Mayor Brown presided over a full meeting of the council to-night, the other members, Messrs. Parke, Howe, Burnaby, Irwin, Price, and Murphy, all being in their places.

While considerable business was put thru there were no outstanding features, if we except the discussion on Chairman Irwin's proposal to instruct Solicitor Gibson to prepare a bylaw making it compulsory in future to place all buildings 12 feet back from the street line.

Councillor Howe seconded the motion and both gentlemen made a strong case in favor of the innovation. Councillor Irwin cited the case of Toronto and Montreal, where it was proposed to expend large sums to overcome what the councillor proposed to obviate.

The motion nevertheless passed thru sweeping and the solicitor will look up the law in the matter.

Little news developed along the report of the "parallel roads" committee, and a meeting with the York Township Council will shortly be held.

Mr. Hoey of Bedford Park road asked for the putting down of a water main, which will be collected and a number of other matters were dealt with and council adjourned in record time, 9:40 p.m.

Council met at a court of revision on Friday, May 28, at 8 p.m.

The report of the finance and sewerage committee on Monday night put a damper on the proposal to print and distribute copies of T. and Murray's expert report on the whole project, but another movement is now on foot to get a second engineer to report on the farmers. Altogether North Toronto is looking forward to a lively time.

Mr. Ernest Poldon of Portage La Prairie, who has been visiting his parents, Mr. and Mrs. Robert Bestard, and her sister, Mrs. Chas. Murphy, for two months, left to-night for her home in the west.

Councillor Price is an enthusiastic baseball devotee, and incidentally was induced to take the position of manager of the New Toronto baseball team for the season. Last Saturday they met the Dovercourt on the latter's ground, while they did not win, the team have high hopes for the future. To-morrow (Wednesday) night, at 8:30 sharp, they play a practice game with a city team on the Athletic Grounds.

The death occurred here this morning of Duncan McCall, familiarly known as "Dad" McCall, a highly respected resident of the city. Mr. McCall was 61 years old, and is survived by a widow and son. The funeral takes place to-morrow at Pleasant Cemetery on Thursday afternoon.

West Toronto has been traveling in luck all these years in its immunity from big fires, and it is tonight to-night. "The local fire brigades are not surpassed by any in the city, and the city ought to be commended on steps to increase the staff as well as the pressure." Another thing, the new ward, wants, and wants badly, is a police station built on modern lines.

WEST TORONTO.

Provincial Officers Make Seizure in Two Local Places. WEST TORONTO, May 18.—(Special.)—Two provincial officers made a seizure of whiskey in West Toronto to-day. At Harry Van Zan's restaurant they got twenty bottles of beer and a bottle of whiskey. In the hotel kitchen several bottles of beer were seized in the oven, but the heat caused trouble and the liquor oozed over the floor, leaving a tell-tale sign.

MILLIONS OF CELLS.

The human body is composed of countless millions of cells. These cells are constantly dying and new ones are being created. Dead cells are removed from the blood by the bowels, kidneys and skin. These great eliminating organs filter the waste matter from the blood, and thus purify the blood.

If there is Constipation, or non-action of the bowels—if the kidneys are strained or weakened—if there is a defective skin action—then the dead cells are not removed from the body. The blood thus becomes loaded with impurities, and we suffer for it.

The only way to purify the blood is to cure the skin, bowels and kidneys. When these organs are healthy and doing their work as nature intended them to do it, waste matter is promptly removed and the blood is kept pure and rich.

"Fruit-a-tives" purify the blood because they keep the whole body strong, vigorous and healthy. Get a box of Fruit-a-tives, 25c. At dealers, or from Fruit-a-tives, Limited, Ottawa.

GRIMES FOUND GUILTY

Obtained Money From C.P.R. by False Pretences.

Thos. Grimes, formerly a general yardmaster, and for 20 years an employe of the C.P.R., was found guilty by the jury in the sessions yesterday of obtaining money under false pretences from the company. The jury recommended him to the mercy of the court.

It was charged that Grimes used the name of Wm. Watson, a man who had previously been with the C.P.R., to secure money from the company. Grimes said he had engaged a man, Frank Smith, to assist him to straighten out some irregularities in the West Toronto yards and used Watson's time sheet to secure Smith's money. He said he had authority to hire whoever he wished and that Smith had been an ex-employe of the company. It was because of a rule that no person should be re-employed that he used Watson's time sheet.

The prisoner was remanded to the cells of the sessions for sentence and was placed in custody last night.

FIND ON FOSTER.

Words were struck last evening from Cobalt of a strike on the Foster property. During their recent operations at drifting at the 210 foot level they uncovered a strong and well-defined vein, thereby rendering the property, which will run about 3500 ounces to the ton. This property has recently been leased by the company to interested parties by American capital, and the recent heavy buying of the past week, on the local exchanges, was probably for those on the inside.

THISLETOWN.

THISLETOWN, May 17.—(Special.)—Mr. and Mrs. David Zapp of "Willow Mount," Thisletown, announce the approaching marriage of their eldest son, Fred, to Miss Alexandra, of Thomas Kingdom of Etobicoke. The wedding will take place in June.

Scaffold Falls; Two Hurt.

A scaffold across which eight men were carrying a piece of stone, which weighed 700 pounds, in an apartment house at 50-52 East Gerrard-street, broke yesterday precipitating them into the basement, a fall of eight feet. Luckily the one upon which the five feet long, did not fall on any of the men, the Alexander Ligour of 44 Alice street, and his ankle broken by the corner of the stone striking it. William Massins of 115 Brandon-street, Dovercourt, had the calf of his leg broken. Both were taken to the General Hospital. The other men escaped with bruises.

Marguerite Sylva Returns to Stage.

PARIS, May 18.—Because she prefers the glory of an operatic career to the calmer joys of domestic life Marguerite Sylva, prima donna who was much applauded in America, has separated from her husband, William D. Working Indoors Causes Anaemia

Chlorosis or anaemia is simply thinness of blood. If confined too much indoors, anaemia develops, because the lungs are insufficiently supplied with oxygen, and the blood is consequently ill-nourished and half-starved.

But there is a cure! Dr. Hamilton has solved the problem in his famous pills of Mandrake and Butternut, a blood enricher their equal is not known.

All the functions upon which life depends are helped by Dr. Hamilton's Pills. Richness and purity are instilled with wonderful promptness into the vital fluids.

Healthy color supplants the pallid, ashen face. Better appetite, strong digestion and tranquil sleep are sure to follow, because of the increased blood supply furnished by Dr. Hamilton's Pills.

Think it over. Will it pay you to look and feel half-dead, to lack color and spirit, when all can be changed by Dr. Hamilton's Pills?

Thinker act at once! Your case is more curable now than later on. Dr. Hamilton personally guarantees his pills of Mandrake and Butternut. Their merit is unquestioned. Thousands of anaemics they have cured and kept well.

They will do just the same for you. Try Dr. Hamilton's Pills, 25c per box, or five boxes for \$1.00, and refuse any substitute.

Our \$15 Suits for Men Scotch Tweeds

STYLES may come and Cloths may go but Scotch Tweed wears for ever. There is a story told of a gentleman visiting the Highlands of Scotland and remarking upon the costume of the country.

"The Kilt affords little protection," said he. "I should think that in a rough, scraggy country like this trousers would be a sheer necessity." The Gillie slapped his bare knee with a laugh. "Scotch Tweed," cried he, "the toughest stuff mither ever made or mended."

Scotch Tweed as we show it in our \$15.00 Suits however is soft and fine, and looks as handsome as any fabric men wear. It is always in fashion, and has this recommendation—the most conservative gentlemen wear it.

Men's High-Grade Tweed Suits made from fine imported, smooth Saxony finished Scotch tweeds, fine in texture and correct spring and summer weight. The shades are olive and brown tones, medium and dark greys, slate and faint stripe effects; fashioned in single-breasted models, and designed for this season's wear; all interlinings thoroughly shrunken to prevent cost from sagging or losing shape; high-grade trimmings and excellent workmanship, nicely finished in every respect. Special value \$15.00.

PRESIDENT WARD'S BIRTHDAY. It was the 43rd birthday of President Ward yesterday, but with the modesty which belongs to greatness, he forebore to have the flags hoisted or bells rung in the civic buildings. The memorable event was not, however, allowed to pass unnoticed as he was dined by Joseph Thompson, commissioner of industries, and Fred Stairs at Mrs. Meyer's Sunnyside restaurant.
